Field Examination
Following completion of all coursework, doctoral students take the field examination, covering work in the areas of specialization and related research methods. The purpose of the field exam is for the doctoral student to demonstrate his or her mastery of the area in which the dissertation will be conducted. The field exam testing periods are September 1-November 15 in the fall semester and February 1-April 15 in the spring semester. The field exam is given in closed-book format in an eight-hour period, which can be divided into two four-hour sessions. The exam is designed and graded by the student’s Supervisory Committee.

Degree Candidacy
Students who have successfully passed the required coursework in their program of study and the field examination apply for Admission to Candidacy for the Doctoral Degree. This application requires majority consent of the student’s Supervisory Committee, the Doctoral Program Committee, and the Dean for Graduate Studies.

After admission to degree candidacy, the student must maintain continuous enrollment until he/she receives the degree. The school monitors this enrollment. Students not in residence must register for a minimum of one semester credit hour of dissertation research. Failure to register during each academic semester will result in termination of the Candidacy.

The time limit on granting the Ph.D. in public administration degree is eight (8) years from the time of filing the plan of study in the Office of Graduate Studies.
