INTERNATIONAL STUDIES

The International Studies (INST) Major at UNO is an interdisciplinary program that provides a substantial international focus and foundation for professional careers in the private, nonprofit, and public sectors. Among these careers are international management and business, diplomacy and foreign service, national security and intelligence, international law and policy, international non-profit organizations, international education management, and teaching. The program also prepares students for graduate study in a variety of professions, including international business and management, law, teaching, and public affairs.

The members of the International Studies Faculty (ISF) encourage students majoring in International Studies to place significant emphasis on foreign language and the study of other cultures. Many INST majors have a double major or a minor in a foreign language. At a minimum, in order to satisfy the INST foreign language requirement, majors must complete the equivalent of three years of one university-level foreign language study, or two years each of two foreign languages unless the student is the native speaker of another language.
