TECHNICAL COMMUNICATION CERTIFICATE

Vision Statement

The graduate certificate in technical communication is designed for graduate students and industry professionals seeking a foundation in the theory and practice of technical communication. This foundation provides students with the kinds of competencies expected from technical communication professionals, including writing, editing, design, and software applications.

The technical communication certificate is designed for the following students:

- Part- and full-time UNO students pursuing graduate degrees, who are seeking a cognate area outside, but relevant to, their primary program of study;
- Industry professionals seeking to develop the knowledge and skills for a career in technical communication; and
- Business or technical professionals seeking to enhance their employment opportunities through a professional development program.

Exit Requirements

Students will assemble a final portfolio representing their achievement in the five courses (15 hours). The portfolio will contain at least one writing sample/project from each course and will be reviewed by the technical communication program director and one other member of the graduate faculty from the Department of English. Faculty teaching these courses will be aware of this portfolio requirement and will assign work that can be used as part of the portfolio (e.g., a report, user’s manual, website, etc.).
