MATHEMATICS, MA

Department of Mathematics, College of Arts & Sciences

Vision Statement
The Master of Arts in mathematics is designed to achieve two objectives:

1. Provide a strong program of course work in mathematics beyond the undergraduate level and
2. Be flexible enough to accommodate a wide variety of student interests and backgrounds. There are no required courses in the program, but students are strongly encouraged to develop an emphasis in the courses which make up their individual plan of study; such an emphasis provides both focus and depth in the graduate experience.

Whatever their objectives in their graduate programs, students should form a close working relationship with a faculty member having similar mathematical interests as soon as possible. This will ensure good advice in planning a coherent plan of study. In addition, an advisor may be able to suggest special topics courses, independent study, or the thesis option which could all be used to pursue one’s interests in greater depth.

Finally, students who plan to pursue a doctoral degree in mathematics should include a sequence in analysis and a sequence in algebra in their plans of study.

Other Program Related Information

Graduate Assistantships
The Department of Mathematics annually awards graduate assistantships for work within the department. There are also several joint UNO/MCC positions where the teaching assignments are at Metropolitan Community College. All of these positions pay an annual stipend plus a waiver of tuition. For the details of the nature of the work, please visit the assistantships page of the Department of Mathematics website.

Admissions

Application Deadlines (Spring 2021, Summer 2021, and Fall 2021)

- Fall: July 31
- Spring: November 30
- Summer: April 15

Program-Specific Requirements
For unconditional admission, an applicant should:

1. Have completed a bachelor’s degree with a grade point average of at least 3.0 in mathematics courses taken.
2. Have completed 15 credit hours of mathematics courses beyond calculus, including MATH 3230/MATH 8235 or equivalent.
3. Students lacking the 15 credit hours beyond calculus may be eligible for admission in a provisional or unclassified status with a deficiency to be made up in addition to the degree requirements listed.
4. Students who satisfy the admission requirements in (1) above except for the GPA requirement may be granted provisional admission to the graduate program. They will be granted unconditional admission upon completion of 12 graduate hours with a grade of ‘B’ or better in each course.
5. Applicants are required to have a command of oral and written English. Those who do not hold a baccalaureate or other advanced degree from the United States, OR a baccalaureate or other advanced degree from a predetermined country on the waiver list, must meet the minimum language proficiency score requirement in order to be considered for admission. Applicants must meet the minimum score of if 550 written TOEFL, 80 internet-based TOEFL, 6.5 IELTS, or 53 PTE.

Degree Requirements

Required Courses
There are no required courses. Choose mathematics courses with a MATH or STAT prefix numbered 8000 or above and ending in the digit zero or six, excluding MATH 8880. At least fifteen of these hours must be in courses with a number ending in the zero digit. These fifteen hours may include the six hours of thesis, MATH 8990, and three hours of independent study, MATH 8970.

Electives
Since all courses are electives with the exception of the six thesis credit hours, all courses taken must satisfy the above requirements for the 30 credit hours. Up to 12 hours of graduate work electives may be taken in areas related to mathematics such as physics, computer science, and economics, if permission is obtained from the Graduate Program Committee.

Exit Requirements
Students are required to take 6 hours of MATH 8990. All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms, and final approval and submission of the thesis.

Concentrations
Students may choose (although there is no requirement to do so) to add a concentration to their Mathematics MA degree. There are currently three available concentrations:

- Mathematics, MA with Computational Mathematics Concentration
- Mathematics, MA with Operations Research Concentration
- Mathematics, MA with Statistics Concentration

Total Credit Hours: 30

Concentrations

Computational Mathematics Concentration

Total Credits: 30
Students who were undergraduates at UNO and took MATH 4330, or MATH 4400 may not take MATH 8336 or MATH 8406 at the graduate level. Students will replace these requirements with additional elective courses.

**Electives**

At least 9 credit hours of courses related to computational mathematics. Students must have at least 15 hours of courses ending on 0, including the core courses and the 6 hours of thesis, MATH 8990.

Some suggested courses are provided below. Other elective courses may be possible with the prior permission of the graduate program chair.

If any of the core course requirements were waived, then additional electives should be taken in their place.

### Code Table

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 8356</td>

</tbody>
</table>

\(^1\) Students who were undergraduates at UNO and took MATH 4350, MATH 4050, MATH 4230, MATH 4240 or MATH 4270 may not take MATH 8356, MATH 8056, MATH 8236, MATH 8246, or MATH 8276 at the graduate level.

**Exit Requirement**

Students are required to take 6 hours of MATH 8990. All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms, and final approval and submission of the thesis.

### Operations Research Concentration

**Core Courses**

Select at least 5 of the following: 15

- MATH/CSCI 8306 DETERMINISTIC OPERATIONS RESEARCH MODELS \(^1\)
- MATH/CSCI 8316 PROBABILISTIC OPERATIONS RESEARCH MODELS \(^1\)
- MATH 8326 COMPUTATIONAL OPERATIONS RESEARCH \(^1\)
- MATH 8430 LINEAR PROGRAMMING
- MATH 8440 NETWORK PROGRAMMING
- MATH 8460 INTEGER PROGRAMMING

**Electives**

Select at least 9 credit hours of courses related to operations research (see below).

- MATH 8990 THESIS 6

Total Credits 30

\(^1\) Students who were undergraduates at UNO and took MATH 4300, MATH 4310, or MATH 4320 may not take MATH 8306, MATH 8316, or MATH 8326 at the graduate level. Students will replace these requirements with additional elective courses.

### Statistics Concentration

**Core Courses**

- MATH 8746 INTRODUCTION TO PROBABILITY AND STATISTICS I \(^1\) 3
- MATH 8756 INTRODUCTION TO PROBABILITY AND STATISTICS II \(^1\) 3
- MATH 8650 INTRODUCTION TO PROBABILITY MODELS
- MATH/CSCI 8156 GRAPH THEORY & APPLICATIONS \(^1\) 3
- STAT 8416 INTRODUCTION TO DATA SCIENCE \(^1\) 3
- STAT 8426 EXPLORATORY DATA VISUALIZATION AND QUANTIFICATION \(^1\) 3
- STAT 8436 LINEAR MODELS \(^1\) 3
- STAT 8446 TIME SERIES ANALYSIS \(^1\) 3
- MATH 8970 INDEPENDENT GRADUATE STUDIES \(^1\) 1-3

\(^1\) Students who were undergraduates at UNO and took MATH 4740, MATH 4750, MATH 4150, STAT 4410, STAT 4420, STAT 4430, or STAT 4440 may not take MATH 8746, MATH 8756, MATH 8156, STAT 8416, STAT 8426, STAT 8436, or STAT 8446 at the graduate level.

**Exit Requirement**

Students are required to take 6 hours of MATH 8990. All candidates should carefully review the Graduate College requirements for forming the Supervisory Committee, Thesis/Thesis Equivalent Proposal Approval Forms, and final approval and submission of the thesis.

**Electives**

Select at least 12 credit hours of courses with a statistical nature (see below).

- MATH 8990 THESIS 6

Total Credits 30

\(^1\) Students who were undergraduates at UNO and took MATH 4740, MATH 4750, or STAT 4430 may not take MATH 8746, MATH 8756, or STAT 8436 at the graduate level. Students will replace these requirements with additional elective courses.

### Electives

At least 12 credit hours of courses with a statistical nature, with at least 6 credit hours of courses ending in 0.
Some suggested courses are provided below. Other elective courses may be possible with the prior permission of the graduate program chair.

If any of the core course requirements were waived, then additional electives should be taken in their place.
