Program-Specific Requirements

- Three Letters of Recommendation
  - Recommendation requests are generated from your online application. These recommendations should be from professional and academic sources who are directly familiar with your skills and experience. At least one reference should be from an immediate professional supervisor. If you have graduated from an academic program within the past three years, at least one reference should be from a faculty member who can speak directly to your academic preparation for graduate social work education. References from family members, family friends, personal friends, personal therapists, or other non-professional/academic sources will not be scored.
- Resume
  - Applicants are highly encouraged to have professional experience in the human service field. Please submit a professional resume that identifies:
    - Professional experiences, especially in human services
    - Educational experiences since high school
    - List start and end dates with month and year
    - Identify whether the position is part or full-time
- Identify whether the position is paid or volunteer
- Field placements, internships or practicums
- Honors or distinctions received
- Statement of Purpose
  - The statement of purpose is an opportunity to demonstrate your understanding of and fit for the social work profession, as well as your aptitude for graduate-level social work education. The Admissions Committee pays close attention to both content and writing skills. In your statement of purpose, please address each of the items listed below, and should be no more than five (5) pages, double-spaced, in a 12-point font. Your response to each of the items should be roughly the same length. If your statement of purpose does not clearly and directly address each of the items or does not follow the instructions, it may not be considered.
  - Why have you chosen social work? Your response should demonstrate a basic understanding of the social work profession, including what distinguishes it from other helping professions.
  - Social work is a values-based profession dedicated to mitigating inequality and enhancing human wellbeing, especially for vulnerable, marginalized, and oppressed populations. From the core values and ethical principles identified in the NASW Code of Ethics (https://www.socialworkers.org/About/Ethics/Code-of-Ethics/Code-of-Ethics-English/), identify and discuss one that resonates with you and one that may challenge you.
  - Social workers are self-reflective, strengths-based, and growth-oriented. Identify a strength that you possess and an area for growth. Discuss how you became aware of these, how they show up in your current professional practice, and how they may influence your future professional practice.
  - The social work profession is rooted in social justice. Social workers adopt a stance of cultural humility and strive towards cultural awareness. Discuss a time when you realized that one of your personal or cultural identities influenced your reaction to a social situation. Reflecting on that experience, how might it influence your future social work practice?
  - If you have a compelling autobiographical story relevant to your application, but that falls outside of the items addressed within the statement, you may add a letter to the Admissions Committee. Your letter will be considered, but will not be scored.
- Writing Sample
  - Applicants who have a BSW or BSSW degree from a CSWE accredited program are required to submit a researched, APA-style, original essay addressing a social issue relevant to social work practice. Your social issue essay should be no more than five (5) pages of content, double-spaced, in a 12-point font, with a reference page. Your essay should address each of the following components:
    - Identify a contemporary social problem and its relevance to social work practice
    - Discuss the origins and causes of the social problem
    - Discuss potential solutions to the social problem
    - Evaluate potential solutions to the social problems in the context of the core values and ethical principles of social work.
  - Applicants are required to have a command of oral and written English. Those who do not hold a baccalaureate or other advanced degree from the United States, OR a baccalaureate or other advanced degree from a predetermined country on the waiver list (https://www.unomaha.edu/graduate-studies/prospective-students/Proof%20of%20English%20Proficiency-%20International.pdf), must meet the minimum language proficiency score requirement in order to be considered for admission.
