Students in the thesis option (see below) may take up to six hours of electives outside of sociology; students pursuing the applied project or non-thesis option (comprehensive exams) may take up to nine hours outside of sociology. All outside courses must be relevant to the student’s interest area within sociology and should be approved by the GPC and/or advisor. 9-21

### Exit Requirements:

#### Thesis Option

This option is especially recommended for students who wish to pursue the PhD degree after completing their MA and/or who wish to gain research and writing experience through the thesis process.

#### Coursework

Students must complete a minimum of 24 credit hours of approved graduate work in sociology and related disciplines, plus six hours of thesis credit, for a total of 30 credit hours.

#### Thesis Committee

Students will form a thesis committee of UNO faculty members who are knowledgeable about the thesis topic. The committee will consist of at least three members, all of whom must be graduate faculty, and at least one of whom must be a sociologist:

- a committee chair from within the department
- at least one additional member from within the department
- at least one outside member from another academic department

Prior to beginning the thesis, students must have their project formally approved by the thesis committee. Students must pass an oral defense structured around the thesis to complete the degree requirements.

#### Applied Project Option

The capstone experience in this program option is a research project conducted in an applied setting. Students will use the skills and knowledge they have acquired in the program to conduct a project and produce a report for a “client” in the community (or elsewhere). Students may seek out their own project site or choose from among the community organizations with which the department already has relationships. Examples of potential projects include evaluating program effectiveness, assessing community needs, or designing training programs for employees.

This option is especially recommended for students who plan to enter the job market immediately after completion of the MA degree; would like to gain a better idea of the type of employment for which they are qualified with an MA in sociology; and/or are already working in a setting amenable to a project of this nature.

#### Coursework

Students must complete a minimum of 30 credit hours of approved graduate work in sociology and related disciplines, plus six hours of applied project credit, for a total of 36 credit hours.

Prior to beginning the project, students must have their proposal formally approved by the project committee. Students must also have their final project report approved. While the project site representative must sign off on the proposal approval form, only the UNO faculty members will be responsible for approving the final project.

#### Non-Thesis Option

The non-thesis, comprehensive exam option is recommended for students who wish to maximize their exposure to coursework in sociology and related disciplines.

#### Coursework

Students must complete a minimum of 36 credit hours of approved graduate work in sociology and related disciplines.

#### Comprehensive Exam

The comprehensive examination focuses on the student’s coursework, particularly the topical focus area developed by the student. Students will answer one of two questions on sociological theory, one of two questions on research methods, and one of two questions from the focus area.
The exam is a one-week take-home exam to be scheduled in consultation with the Graduate Program Chair. Students will work with the Graduate Program Chair to select 2 readers for each section (theory, research methods, focus area). Each of the three sections of the exam will be evaluated separately on the following basis:

- high pass
- pass
- conditional pass
- or fail

In the case of a conditional pass in a section or sections, the students will have an opportunity to revise their answers for reevaluation by the faculty readers.

In the case of a failing evaluation in a section or sections, the student will have one more opportunity per section to re-take the exam. The student will answer the other of the two questions they were originally presented with for each failing section. Both readers will evaluate the new answer(s), with conditional pass available as a possible recommendation.
