**Sociology Minor**

**Requirements**
A minor in sociology requires 15 hours. The sociology minor is available on campus, entirely online, or a combination of the two. Students are required to complete the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 1010</td>
<td>INTRODUCTORY SOCIOLOGY</td>
<td>3</td>
</tr>
</tbody>
</table>

Additionally, select 12 credit hours in sociology electives with a minimum of 9 credit hours at the 3000-4000 level.

**Total Hours 15**

No more than nine hours will be accepted as transfer credit. All course work satisfying the minor must be completed with a grade of "C" (2.0) or better.

**Anthropology Minor**

**Requirements**
A minor in anthropology requires 15 hours. The minor may be completed on campus, entirely online, or a combination of the two. Students are required to complete the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 1050</td>
<td>INTRODUCTION TO ANTHROPOLOGY</td>
<td>3</td>
</tr>
</tbody>
</table>

Additionally, select 12 credit hours in anthropology electives with a minimum of 9 credit hours at the 3000-4000 level.

**Total Credits 15**

No more than nine hours will be accepted as transfer credit. All course work satisfying the minor must be completed with a grade of "C" (2.0) or better. Up to six ANTH credits may be double counted toward the minor in anthropology and the major in sociology.

**Women's and Gender Studies**

**Mission**
The UNO Women's and Gender Studies Program offers individuals and communities paths to transformation and empowerment through the collaborative work of students and faculty, who together study and explore all women's lives and all constructions of gender across time, place, and culture, using a feminist lens. Our interdisciplinary faculty teach a curriculum that emphasizes the intersections of gender and sexuality across time, place, and culture, using a feminist and/or queer lens.

We envision a world in which differences offer paths to meaningful and fulfilling contributions. Thus, our interdisciplinary faculty teach a curriculum that emphasizes the intersections of gender and sexuality with race/ethnicity, nationality, socioeconomic class, ability levels, and additional dimensions of difference.

Our program employs the tools of different disciplines, including communication, arts and humanities, social sciences, natural sciences, and history. Graduating students are prepared for many opportunities beyond graduation.

**Description**
Women’s and Gender Studies is a liberal arts degree that prepares students for a wide variety of career and avocational paths. Majors or minors find employment in a variety of areas, choosing to work in advocacy or social services-related positions, community development, large and small business, and government.
Other Information
All coursework taken for the Women's and Gender Studies major or minor must be completed with a grade of "C-" or better.

All coursework taken for the LGBTQ-Sexuality Studies minor must be completed with a grade of "C-" or better.

Please be advised that students who elect to complete both the WGST minor and LGBTQ-Sexuality Studies minor may count no more than two upper-division courses toward the completion of both minors.

Special Requirements
Courses presented for credit toward the minor or major must have been taught by a member of the Women's and Gender Studies faculty. Students should select WGST electives in consultation with their major adviser.

Residency
Students may transfer in no more than 9 credits earned at other institutions to the WGS minor and no more than 15 credits earned at other institutions to the WGS major.

Student Groups
Iota Iota Iota (Triota) is a club and honorary society that recognizes excellence in Women's and Gender Studies. Membership is available to any student who has completed two introductory courses in Women's and Gender Studies and has a cumulative GPA of at least 3.0. In addition, students majoring or minoring in Women's and Gender Studies can be involved with campus organizations such as the Women's and Gender Equity Resource Center, and the Queer and Trans Services.

Contact
Women's and Gender Studies Program Director 402.554.4841
339 Arts and Sciences Hall (ASH)

Website (http://www.unomaha.edu/college-of-arts-and-sciences/womens-and-gender-studies/)

Degree Offered
• Women's and Gender Studies, Bachelor of Arts (p. 355)

Writing in the Discipline
All students are required to take a third writing course (Writing in the Discipline) as a part of their degree. The third writing course for the Women's and Gender Studies major may be met with ENGL 2400, ENGL 3050, or another approved third writing course.

Minor Offered
• Women's and Gender Studies Minor (p. 358)
• LGBTQ/Sexuality Studies Minor (p. 358)

Women, gender, and sexuality studies majors may find employment in a variety of areas depending on their skills and experience. Some of our majors pursue post-baccalaureate training in medicine, law, education, and other graduate programs. Others choose employment directly after graduation, following career paths in advocacy or social services-related positions, community development, business, and government. Some career-path examples include:

Business
• Human Resources Manager
• Financial Planner
• Business Manager
• Office Manager
• Convention/Event Planner

Education
• K-12 School Teacher (with additional certification)
• Childcare Center Lead Teacher

Health
• Community Health Outreach Worker
• Community Health Advocate
• Public Health Coordinator
• Health Services Project Administrator

Law
• Victim Assistance Case Manager
• Mediator

Media/Publications
• Magazine Freelance Writer/Researcher
• Independent Film Maker/Producer
• Editor
• Social Media Specialist
• Film Publicist
• Production Artist

Social and Public Service
• Counseling Services Director
• Training Coordinator
• Rape Crisis Center/Community Education Coordinator
• Women's Crisis Support Center Community Educator
• Girl Scouts of America Program Officer
• Food Bank Program Manager
• Community Service Agency Case Manager
• Community Service Resource Navigator
• Grant Writer

WGST 1950 BLACK WOMEN IN AMERICA (3 credits)
This course will examine how Black women in America have evolved politically, economically, and socially under oppressive conditions of slavery, the Reconstruction Era, Jim Crow, and through the Civil Rights, Black Lives Matter, and “Me Too” Movements. The underlying themes of this course are the impact of gender and race on Black women, with an emphasis of how gender and race are fueled by white supremacy, patriarchy, colonialism, capitalism, and imperialism. (Cross-listed with BLST 1950)

Distribution: U.S. Diversity General Education course

WGST 2000 SPECIAL TOPICS: GENDER AND SEXUALITY IN ENGLISH STUDIES (3 credits)
A variety of topics primarily for the non-major. (For example, this course might study the image of businesswomen in American literature.) One or two such topics may be offered each term, depending upon student interest and available faculty. Students should consult each term's class schedule in order to determine the specific topics for that term.

Prerequisite(s): None. ENGL 1160 recommended

WGST 2010 INTRODUCTION TO WOMEN'S AND GENDER STUDIES: SOCIAL AND BEHAVIORAL SCIENCE (3 credits)
A survey course which explores social science perspectives on women, men, and gender, including the biological contribution to human behavior and the impact of science as an institution. Examines challenges to traditional definitions of women’s place and movements for change. Includes historical and multicultural materials.

Prerequisite(s): ENGL 1150 is recommended.

Distribution: Social Science General Education course and U.S. Diversity General Education course
WGST 2020 INTRODUCTION TO WOMEN’S AND GENDER STUDIES: HUMANITIES (3 credits)
An introduction to women’s and gender studies in the humanities (literature, art, dance, music, theatre, philosophy). Explores both historical and contemporary images of women in these fields; discusses the context in which these images developed. Introduces the basic concepts and terminology of women’s and gender studies.
Prerequisite(s): ENGL 1150 is recommended.
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

WGST 3000 SPECIAL TOPICS: GENDER AND SEXUALITY IN ENGLISH STUDIES (3 credits)
A study of designated specific topics related to gender and sexuality studies within the disciplines of English (May be repeated for credit as long as the topic is not the same.)
Prerequisite(s): Variable according to topic.

WGST 3020 PERSPECTIVES ON LEADERSHIP (3 credits)
This course studies scholarship on and the practices of gender and leadership for undergraduate students. It is a service-learning course.
Prerequisite(s): WGST 2010 or WGST 2020

WGST 3080 HEALTH CONCEPTS OF SEXUAL DEVELOPMENT (3 credits)
An examination of factors influencing sexual development. Emphasis is given to topics pertinent to healthful living in today’s culturally diverse, global society. (Cross-listed with PHBH 3080).

WGST 3100 LGBT POLITICS (3 credits)
This course introduces students to the political struggle for Lesbian, Gay, Bisexual, and Transgender (LGBT) equal rights in the United States using a model of political empowerment, which may be applied for all minority or identity groups and social movements, generating operationalized measures of progress toward the lci of political power. (Cross-listed with PSCI 8105, PSCI 3100, WGST 8105)
Prerequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course

WGST 3120 WOMEN AND THE BIBLE (3 credits)
This course explores the characterization of women in Hebrew and Christian scriptures as well as what we can learn about the lives of women in the ancient world from these and other sources. Attention is also given to the reception and use of these texts in later historical periods including contemporary religious contexts. (Cross-listed with RELI 3130).

WGST 3130 WOMEN AND POLITICS (3 credits)
This course introduces students to women’s political participation, including holding elective office, socialization, the feminist movement and its opposition, and public policies with particular impact on women. The focus is on contemporary perspectives on women in American political ideas and behavior. (Cross-listed with PSCI 3130, PSCI 8135, WGST 8135)
Prerequisite(s): PSCI 1100 is recommended.
Distribution: U.S. Diversity General Education course

WGST 3160 QUEER AMERICAN WESTS (3 credits)
A survey of queer literatures about the American West. The course will explore a variety of genres, including poetry, short stories, plays, novels, creative nonfiction, and, depending on time, film/television. "Queer" will be construed as including any “non-normative” sexualities and sexual identities (e.g., genderqueer, winkte, two-spirit, 3rd/4th gender). Non-western writers (e.g., Walt Whitman) imagining the West queerly may also be included. (Cross-listed with ENGL 4280, ENGL 8286).
Prerequisite(s): ENGL 1160; completion of writing in the major course recommended.

WGST 3180 GENDER IDENTITY IN PERSONAL WRITING (3 credits)
Students will read a variety of memoirs and personal essays by both emerging and established LGBTQIA+ plus creative nonfiction writers and allies, with a focus on trans writers; analyze the craft choices each author makes; analyze textual and theoretical explorations of gender identity and gender performativity; and explore their gender identities, and gender experiences in the essays that they compose. (Cross-listed with ENGL 3180).
Prerequisite(s): ENGL 1150 and ENGL 1160 or equivalents required.

WGST 3230 GENDER AND GLOBAL POLITICS (3 credits)
This seminar introduces students to gender politics in comparative and international politics. (Cross-listed with PSCI 3230, PSCI 8235, WGST 8235)
Prerequisite(s): PSCI 2500 is recommended.
Distribution: Global Diversity General Education course

WGST 3390 WOMEN, CRIME AND JUSTICE (3 credits)
This course focuses on women's experiences in the criminal justice system. The course will examine women's experiences as victims of crime, as offenders, as prisoners, and as criminal justice professionals. (Cross-listed with CRCJ 3390)
Prerequisite(s): WGST major; CRCJ or WGST minor; CRCJ 1010, ENGL 1160 and 45 credit hours; or instructor permission.
Distribution: U.S. Diversity General Education course

WGST 3490 GENDER AND PHILOSOPHY (3 credits)
This course examines philosophical arguments concerning gender and sexual difference, gender issues and women in the history of philosophy, and major views in feminist theory. Using arguments derived from feminist theory, we will undertake a critical inquiry into the ways in such gender, geography, and power inform political institutions and, in particular, medical research and health disparities. Taking the perspective of women’s lives from across the globe through case studies, we will interrogate feminist theory in relation to non-US perspectives on gender and sexuality. (Cross-listed with PHIL 3490).
Prerequisite(s): Sophomore status OR 6 hours of PHIL OR 6 hours of WGST.
Distribution: Global Diversity General Education course

WGST 3750 GENDER AND COMMUNICATION (3 credits)
This course provides a survey of literature on communication about, by, and between women, men, and trans people in society, personal relationships, and organizations. Students develop an understanding of how cultural meanings of gender both shape and are shaped by communication. (Cross-listed with CMST 3750).
Prerequisite(s): Not open to non-degree graduate students.
Distribution: U.S. Diversity General Education course

WGST 4000 SPECIAL TOPICS: GENDER & SEXUALITY IN ENGLISH STUDIES (3 credits)
A study of designated specific topics related to gender and sexuality studies at the Senior level within the disciplines of English (May be repeated for credit as long as the topic is not the same.)
Prerequisite(s): Variable according to topic

WGST 4010 SENIOR SEMINAR (3 credits)
This course provides a capstone experience in women’s, gender and sexuality studies. It serves as the third writing course, and is required, for women’s and gender studies majors. It is open to seniors who have completed at least five courses in Women’s and Gender Studies, including WGST 2010 and WGST 2020, with a ‘C’ or better; others may enroll with permission.
Prerequisite(s): Senior standing, completion of at least five women's studies courses, including WGST 2010 and WGST 2020, with a grade of ‘C’ or better; or permission.
WGST 4020 INTERNSHIP IN WOMEN'S AND GENDER STUDIES (1-6 credits)
A faculty-supervised project involving part-time employment or service with a community agency, business, non-profit organization, university or other educational unit, or another appropriate organization or setting. Students will gain relevant practical experience and will integrate theory, concepts, and empirical knowledge from their classrooms with their work in the internship setting. Permission of instructor is required.
Prerequisite(s): WGST 2010 and WGST 2020, enrollment either as a WGST major or minor or as a BMS concentration in WGST, a 3.0 GPA, and permission of instructor.

WGST 4030 PERSONAL LEADERSHIP (3 credits)
In addition to a survey of leadership styles and theories, this course provides historical and contemporary perspectives of gender and leadership, barriers to women's leadership, bias, and discrimination. Individual leadership is examined within the context of being a change agent. This is a service learning course.
Prerequisite(s): WGST 2010 or WGST 2020

WGST 4050 SPECIAL TOPICS IN WOMEN'S AND GENDER STUDIES (3 credits)
This course will give instructor and students the opportunity to investigate a variety of advanced topics in Women's Studies. The content will vary from semester to semester, according to instructor. May be repeated for credit as long as topic differs.
Prerequisite(s): WGST 2010 and WGST 2020 or permission of instructor.

WGST 4060 HISTORY OF WOMEN IN AMERICA FROM 1875 - 1922 (3 credits)
This course examines the history of women in the United States from 1875 to 1992. Topics include law, work, sexuality and reproduction, immigration, civil rights, political participation and party politics, and changes to the American gender system, including family structure and employment. (Cross-listed with HIST 4060, WGST 8066, and HIST 8066).
Prerequisite(s): Junior or permission of instructor.

WGST 4070 GENDER AND LEADERSHIP CAPSTONE: COMMUNITY ACTION PROJECT (3 credits)
This course is designed for students in the final stage of the Gender and Leadership Certificate. Activities focus on practical experience in an organization that will allow students to exercise, observe, and later share lessons with classmates about leadership qualities and skills.
Prerequisite(s): WGST 2010 or WGST 2020 and either WGST 3020 or WGST 4030

WGST 4120 BLACK WOMEN LEADERS IN LIBERATION MOVEMENTS (3 credits)
This course studies scholarship on race, gender, and leadership with a specific focus on African and African descended women's roles in liberation movements in the U.S. and worldwide. Special focus will be on the use of their personal narratives to analyze the wide range of ideas in the conception and execution of leadership. (Cross-listed with BLST 4120)
Prerequisite(s): Junior standing or permission of instructor.

WGST 4130 GENDER & LEADING SOCIAL CHANGE (3 credits)
This course will cover theories, philosophies, movements, and concepts related to social change as a process and outcome. It is a service-learning course.
Prerequisite(s): WGST 2010 or 2020. Junior standing or permission.

WGST 4150 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)
An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with ENTR 4150, ENTR 8156, GEOG 4150, GEOG 8156 and WGST 8156).
Prerequisite(s): Junior, senior, or graduate standing, or permission of instructor.

WGST 4250 WOMEN'S STUDIES IN LITERATURE (3 credits)
A critical study of literature by and/or about women in which students learn about contributions of women to literature, ask what literature reveals about the identity and roles of women in various contexts, and evaluates standard interpretations from the perspectives of current research and individual experience. (Cross-listed with ENGL 4250, ENGL 8256).
Prerequisite(s): ENGL 1160 and one additional course in literature or permission.

WGST 4270 WOMEN WRITERS OF THE NORTH AMERICAN WEST (3 credits)
A survey of U.S. and Canadian women writers (18th century to the present) enabling students to examine issues of gender and sexuality across a wide thematic range, including settlement, land use, cultural displacement, and survival in western territories, states, and provinces of North America. (Cross-listed with ENGL 8276, ENGL 4270).
Prerequisite(s): ENGL 1150 and ENGL 1160 or equivalent; completion of ENGL 2410 or other writing in the major course recommended.

WGST 4550 HEALTH ASPECTS OF AGING (3 credits)
This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with PHHB 4550, PHHB 8556, GERO 4550, GERO 8556)

WGST 4910 TOPICS IN WOMEN'S HISTORY (3 credits)
A course on selected topics offered on a one-time or occasional basis. Course may be repeated as long as the topic is different each time. Cross listed with WGST 4910/WGST 8916 when topics are appropriate to Women's and Gender Studies.
Prerequisite(s): Junior

WGST 4930 SPECIAL TOPICS IN GENDER AND ART HISTORY (1-3 credits)
An illustrated lecture course dealing with a limited topic in the field of art history. The course may be coordinated with an external event such as an exhibition, publication or study trip.
Prerequisite(s): To be determined by the instructor based upon the preparation required for an adequate understanding of the material of the course. Lab fee required.

Women's and Gender Studies, Bachelor of Arts
Requirements
A minimum of 120 credit hours is required for a Bachelor of Arts degree in women’s and gender studies (BA). At least 30 credits of a student’s bachelor’s degree must be taken in residence at UNO. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.

To obtain a BA, a student must fulfill the university, college and interdisciplinary program requirements. Some courses may satisfy requirement in more than one area, but credit is awarded only once, thereby reducing the total number of credit hours for the degree to 120. This total does not include all prerequisites.

- 40-46 hours of university General Education courses (9 hours of which can be satisfied by courses in the required areas below)
- 12-19 hours of College of Arts and Sciences requirements
- 16 hours of Foreign Language or American Sign Language courses
- 33 hours of Women’s and Gender Studies courses
- 6-19 hours of elective/prerequisite courses

TOTAL HOURS: 120
The Bachelor of Arts in women’s and gender studies requires a minimum of 33 credits as outlined below.

For the B.A. degree, foreign language is required through the intermediate level.

At this time new undergraduate students are not being accepted into the Gender and Leadership concentration. This moratorium will be in effect for the 2023-2024 academic year (but may extend beyond that time). Please contact the Women’s and Gender Studies program director for additional details.

### Gender and Leadership Concentration

**Required courses:**
- WGST 3020 PERSPECTIVES ON LEADERSHIP 3
- WGST 4030 PERSONAL LEADERSHIP 3
- WGST 4070 GENDER AND LEADERSHIP CAPSTONE: COMMUNITY ACTION PROJECT 3

**Select 1 course from the following:** 3

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. To graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found
Women’s and Gender Studies Minor

Requirements

The WGS minor requires 18 credits:

LGBTQ/Sexuality Studies Minor

LGBTQ (lesbian, gay, bisexual, transgender, and queer)/Sexuality Studies is an interdisciplinary field that examines the identities, experiences, and social positions of people often referred to as sexual/gender minorities. The field also examines sexual behaviors, identities, and communities as sex plays a key role in many people’s lives. LGBTQ/Sexuality Studies has origins in many disciplines, including anthropology, art, English, history, media studies, psychology, public health, sociology, theatre, and women’s and gender studies, among others. The field includes topics such as: identity formation of non-heterosexual sexualities, non-binary gender identities, health and well being of sexual/gender minorities, cultural groups, the politics of identity, and representations of queer lives in popular culture. This minor acknowledges that sexuality is an important distinguishing factor of our lives on par with race, social class, and gender.

The LGBTQ/Sexuality Studies minor will offer students courses that complement and support their majors in many ways. The minor is intentionally flexible and interdisciplinary. Students who complete this minor will gain increased knowledge in the following:

- sexual identity, orientation, and behaviors, including heterosexualities, sexualities, and behaviors; including non-binary, gender non-conforming, gender creative, etc.
- gender identities including trans identities, including but not limited to: genderqueer, non-binary, trans man, trans woman, gender non-conforming, gender creative, etc.
- sexology, or the study of sex and sexual behaviors, and human sexuality broadly
- theories of identity development, queer theory, and other social theories related to sexuality
- intersectionality of sexuality with race, class, gender, religion, ability, nationality, and other social characteristics
- diversity of human behavior and experience as it relates to sex and sexuality
- history and diversity of representations of LGBTQ in culture.

Minors Offered

LGBTQ/Sexuality Studies Minor

Other Information

All coursework taken for the LGBTQ/Sexuality Studies minor must be completed with a grade of “C” or better.

Contact

The LGBTQ/Sexuality Studies minor is a minor option under Women’s and Gender Studies. The advisor for the program is Dr. Jay Irwin. For more information, please contact him at jirwin@unomaha.edu.

Requirements

Undergraduate students will be expected to complete at least 15 credit hours of LGBTQ/Sexuality courses with a grade of C or higher. Nine credit hours must be upper division (3000 or higher) courses. No more than nine credit hours will be accepted as transfer credit.
Courses not on the list can be petitioned to be accepted by approval of the Advisor of the minor.

Total Credits: 15

1 ART 4930 when offered as: Gender and Sexuality in Antiquity: Fashion in Modern Art & Culture
2 ENGL 2000 and ENGL 3000 when topic is sexuality
3 ENGL 4960 when offered as: Language, Gender, and Sexuality, Writing Women’s Lives; Writing Graphic Memoirs
4 HONR 3030 when offered as: LGBTQ Health
5 Select sections of PSYC 3540, per approval of the minor advisor.

Please be advised that students who elect to complete both the WGS minor and LGBTQ-Sexuality Studies minor may count no more than two upper-division courses toward the completion of both minors.
Choice of Catalog Policy

A student registering in the College of Business Administration of UNO for the first time may, except for the following limitations, complete work for the degree according to:

- The requirements of the catalog of the year in which you last entered the College and have since been in continuous enrollment (i.e., no enrollment gap of more than two consecutive semesters) OR
- The catalog current at the time the student applied for the BSBA degree. For students continuously enrolled, a seven-year rule applies in that the catalog for students who have been continuously enrolled can only extend back seven years.
- The earliest catalog available to an intra-University transfer will be the catalog in use when the student transferred to the College of Business Administration

Careers

Business is a broad, flexible, and valuable field of study. Students who graduate with a business degree can choose from a variety of professions in a number of industries and fields. Individuals with business degrees may find career opportunities working in government, large, mid-size, and small companies, nonprofit organizations, and institutions of higher education. A business degree prepares students for a fulfilling and flexible career, matching personal interests with professional ambitions, and allowing for the ability to pivot and flex careers as opportunities arise. Although a business degree applies to a vast array of careers, allowing an individual to work in any number of industries or roles, for ease of use, a list of possible business-related careers is broken down by department.

For more information about Business careers, please contact the CBA Career Center. Website (https://www.unomaha.edu/college-of-business-administration/career-center/):

Admission Requirements

Incoming freshman must meet general university admission requirements to be admitted into the College of Business Administration. Transfer students and current UNO students must have a minimum 2.50 cumulative GPA to be admitted into the College of Business Administration.

Academic Requirements for the College Degree

Number of Hours to Graduate

Students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration to earn a BSBA degree.

42 semester hours must be earned in upper-division courses (3000-4000 level classes).

BSBA students earn 24 upper-division (3000/4000 level) credit hours in the business core curriculum and 18-24 hours in their BSBA concentrations.

The College of Business does not require any physical education activity (PEA) courses. A total of four hours of PEA courses from different areas may be applied toward the degree.

A maximum of 24 hours may be taken for university credit on a Credit/No Credit basis.

Requirements for a Bachelor of Science in Business Administration (BSBA) Degree

Undergraduate students who complete a degree from UNO’s College of Business Administration earn a Bachelor of Science in Business Administration (BSBA) with at least one area of concentration in business (See the complete list of BSBA concentrations)

All BSBA concentrations require 18 credit hours, except Accounting, which requires 24 credit hours.

Some concentrations or secondary concentrations require students to earn a “C+” or better in a specific foundation courses. Specifically,
MKT 3310 is the foundation course for the Marketing concentration as well as for the Marketing secondary concentration. MKT 3310 & MKT 3100 are the foundation courses for Sales concentration as well as for the Sales secondary concentration. Finally, FNBK 3250 & FNBK 3300 are the foundation courses for the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management concentrations as well as the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management secondary concentrations.

To meet requirements for the BSBA degree, students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration, 42 of those credits must be upper division courses (3000-4000 level), with the following requirements:

- Business GPA of 2.50 or above
- Cumulative GPA of 2.50 or above
- GPA of 2.50 or above for all upper division accounting courses (excluding ACCT 3000, ACCT 4500, and ACCT 4510) for the accounting concentration & secondary concentration.
- Must earn a “C” or better in classes for it to count towards the BSBA degree
- The grade of “C-“ or better will be accepted in General Education courses (Natural Science, Humanities, & Social Science (except ECON 2200 & ECON 2220))

**Transfer Credit Policy**

CBA will accept upper-division core courses completed at AACSB institutions.

In order for an upper-division core course to be accepted from non-AACSB institutions, the student must complete an additional upper-division course from an AACSB accredited school within the same department to validate the transfer course. Please contact your CBA advisor to learn more about validation.

Courses completed for validation must be completed with a grade of C (2.00) or better.

Only transfer courses with a grade of “C” or higher will be applied toward the BSBA degree.

**Unacceptable Credits**

Remedial courses and orientation courses at other institutions will not apply to the 120 minimum credit hours.

No business course may be taken on a Credit/No Credit basis.

A maximum of six hours of professional development course credit may be taken from any educational body if evaluated by the American Council on Education (ACE) as equivalent to collegiate credit, and then may be applied toward the degree. Such credit may be used for non-business electives. The department chair must give written approval if a course is to be used for concentration elective hours or as a substitute for a required concentration course.

Business core requirements taken as professional development courses are not applicable to the BSBA degree.

**Residency Requirement**

The last 30 of 36 consecutive semester hours for a degree must be earned following admission to the University of Nebraska at Omaha. A minimum of nine (9) of the twenty-four (24) required business core hours and one-half of the required concentration hours must be completed at UNO.

**Retroactive Credit Policy**

https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 30)

**Advanced Placement Credits**

https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 30)

**Military Credit**

https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 30)

**IB Credit**

https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 30)

**Placement Exams and Credit by Examinations Policies/Practices**

https://nextcatalog.unomaha.edu/undergraduate/student-life-support-services/ (p. 62)

**Quality of Work**

Any students earning below a 2.50 cumulative GPA for any semester while enrolled in the BSBA degree program will be placed on a “warning status.” No grade below a C (2.00) will be counted as satisfactory completion of CBA courses.

**Good Academic Standing Policy**

https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

**Credit/No Credit (CR/NC) Grades**

https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

**Completion of Incomplete Grade**

https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

**Repeatable Grades/Courses**

Effective Fall 2002, a student may only attempt each required business core course three times.

This policy applies to the following courses:

<table>
<thead>

</tbody>
</table>

Any grade earned, excluding CR, W, NC, NR, I, IP, AU, S, U or R will count as an attempt for the three times limit.

The Undergraduate Program Council will only consider appeals of the three-attempt rule when the circumstances for the appeal are documented and the reason for the appeal is extraordinary.
Upper-division accounting courses may be taken only twice.

**Appeal Process**
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

**Grade Appeal Policy**
Students who wish to appeal a grade which they feel was capriciously or prejudicially awarded shall first discuss the matter with the instructor and/or the department chairperson. If a satisfactory agreement cannot be reached, the student may submit a written appeal to the CBA Associate Dean by the deadlines listed below.

- For a course completed during the fall semester: The last business day in January
- For a course completed during the spring semester: The last business day in June
- For a course completed during any of the summer sessions: the last business day in September

The CBA Undergraduate Grade Appeal Committee will hold a grade appeal hearing to make a final determination based on the facts presented.

**Academic Amnesty**
A student may remove one or two semester's grades from the student's cumulative GPA and degree consideration by petitioning for academic amnesty in the CBA advising office. Removal of grades via academic amnesty shall be by entire semester(s). Students are allowed a maximum of two (2) semesters of amnesty.

Petitioning students, after the term(s) for which they are seeking amnesty, must have completed 12 consecutive hours with a minimum GPA of 2.75.

Students who are granted academic amnesty will not be eligible for degree with academic honors.

Academic amnesty will remove a CBA core course attempt from the Three-Attempt Rule under Academic Performance. The petition for academic amnesty is submitted to the academic advisor and the advisor will apply this policy to approve or deny the petition on behalf of the Undergraduate Program Council.

**Academic Probation and Suspension**
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

**Reinstatement Policy Following Academic Suspension**
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

**Academic Advising**
The aim and purpose of academic advising is to assist students in meeting the requirements of the degree program and to interpret college policies regarding academic requirements. In the College of Business Administration, academic advising is carried out by CBA's undergraduate advisors. Students should see an academic advisor whenever questions arise concerning academic programs, but especially prior to registering for freshman year and registering for senior year.

**Declaring a Concentration**
Students may declare a BSBA concentration when applying to the university or at any point.

Students who did not declare a BSBA concentration when applying to the university must meet with a CBA advisor to complete the BSBA declaration process.

**Senior Check**
A senior check will be processed for each BSBA student upon completion of 90 credit hours. This audit provides an official list of the student's remaining degree requirements. Students will be required to meet with an advisor to review the senior check. Final responsibility for scheduling courses and satisfactorily completing curriculum requirements for any degree rests with the student.

**Bachelor of Science in Business Administration (BSBA) Degree**
Undergraduate students who complete a degree from UNO's College of Business Administration earn a Bachelor of Science in Business Administration (BSBA) with at least one area of concentration in business (See the complete list of BSBA concentrations)

All BSBA concentrations require 18 credit hours, except Accounting, which requires 24 credit hours.

Some concentrations or secondary concentrations require students to earn a "C+" or better in a specific foundation courses. Specifically, MKT 3310 is the foundation course for the Marketing concentration as well as for the Marketing secondary concentration. MKT 3310 & MKT 3100 are the foundation courses for Sales concentration as well as for the Sales secondary concentration. Finally, FNBK 3250 & FNBK 3300 are the foundation courses for the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management concentrations and the Business Finance, Banking and Financial Markets concentrations.

To meet requirements for the BSBA degree, students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration. Requirements of 42 of those credits must be upper division courses with a "C-" or better (3000-4000 level), with the following requirements:

- Business GPA of 2.50 or above
- Cumulative GPA of 2.50 or above
- GPA of 2.50 or above for all upper division accounting courses (excluding ACCT 3000, ACCT 4500, and ACCT 4510) for the accounting concentration and secondary concentration
- Must earn a "C" or better in classes, for it to count towards the BSBA degree for the Business Finance, Banking and Financial Markets concentrations and the Business Finance, Banking and Financial Markets concentrations
- The grade of "C-" or better will be accepted in General Education courses (Natural Science, Humanities, & Social Science (except ECON 2200 & ECON 2200))

An Advising hold will be placed if a student does not meet the 2.5 GPA. The hold will not be removed until the requirements are met or the student chooses a major outside the College of Business Administration.

**Writing in the Discipline**
All students are required to take a writing in the discipline course within their major. For the BSBA degree, this is MKT 3200.
### MBA Fast Track

The College of Business Administration MBA program has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a BSBA degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

**Program Specifics:**
- This program is available for undergraduate students pursuing a BSBA degree and desiring to pursue an MBA
- Students must have completed no less than 60 undergraduate hours
- Students must have a minimum undergraduate GPA of 3.0
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course
- Students will work with their undergraduate advisor to register for the graduate courses
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
  - Admission to Fast Track does NOT guarantee admission to the graduate program.
  - The admit term must be after the completion term of the undergraduate degree.

### Contact Information

**CBA Advising Office**
UNO College of Business Administration
134H Mammel Hall
University of Nebraska at Omaha
6708 Pine Street
Omaha, NE 68182-0048

**Advising Phone:** 402.554.3419

Students must complete at least six hours of course work beyond the general education diversity requirement with a global perspective (i.e., history, political science, literature or geography of foreign countries, foreign languages, international business, etc.). Global courses include all university general education global diversity courses listed on the General Education website, plus the international business courses shown on the student's DegreeWorks website.

Students must complete MGMT 4480 their last semester. Students who have not completed FNBK 3250, MKT 3310, MKT 3200 and MGMT 3490 with a C (2.00) or better or who have a GPA below 2.50 will be administratively withdrawn from MGMT 4480. Preference is given to students who will graduate that semester.

The college reserves the right to institute and make effective, after due notice, during the course of a student’s work toward a degree, any new ruling which may be necessary for the general good of the college, and to substitute courses currently offered for those no longer offered.

Each student admitted to the college is responsible for becoming familiar with the procedures and regulations in the undergraduate catalog.

Specific requirements for each CBA concentration are identified in the following section of this catalog.

Credits not required under general education requirements, the required business core curriculum, or a BSBA concentration can be taken as electives in business and/or in non-business areas to complete the required 120 hours for the BSBA degree.

**Concentrations Offered**

- Accounting Concentration (p. 386)
- Banking and Financial Markets Concentration (p. 398)
- Business Analytics Concentration (p. 400)
- Business Finance Concentration (p. 401)
- Economics Concentration (p. 394)
- Entrepreneurship Concentration (p. 420)
- Human Resource Management Concentration (p. 413)
- International Business Concentration (p. 381)
- Investment Science and Portfolio Management Concentration (p. 403)
- Legal Studies Concentration (p. 405)
- Logistics & Supply Chain Management Concentration (p. 414)
- Management & Leadership Concentration (p. 411)
- Marketing Concentration (p. 422)
- Real Estate and Land Use Economics Concentration (p. 406)
- Sales Concentration (p. 423)

**Program Certificate Offered**

- UNO Real Estate Certificate (p. 408)

**Accounting**

**ACCT 2000 ACCOUNTING BASICS FOR NON-BUSINESS MAJORS (3 credits)**

This course is designed to provide non-business students with an understanding of basic accounting terms and concepts, an understanding of the usefulness of accounting data for decision-making by internal and external business stakeholders, and the skills to actually use accounting data in decision-making.

**Prerequisite(s):** Student must be a non-business student. ENGL 1150 and MATH 1310 or MATH 1220 with 'C-' (2.0) or better. Not open to non-degree graduate students

**Distribution:** Social Science General Education course

**ACCT 2010 PRINCIPLES OF ACCOUNTING I (3 credits)**

Basic concepts and assumptions underlying financial accounting; basic structure of accounting; the accounting cycle; external financial statements of the enterprise with emphasis on the corporation; income determination; accounting for and reporting of assets, liabilities and owners’ equity; analysis and reporting of cash flows; financial statement analysis.

**Prerequisite(s):** ENGL 1150 with a 'C (2.0) or better, a GPA of 2.5 or higher, and MATH 1370 or MATH 1930 with a 'C (2.0) or better or concurrent enrollment in MATH 1370 or MATH 1930
ACCT 2020 PRINCIPLES OF ACCOUNTING II (3 credits)
A study of techniques and concepts affecting internal accounting in a business organization. These include budgeting in general, costing systems, variance analysis and generating reports for management decision-making. Special topics include segment reporting, control of decentralized operations, capital budgeting, and service department cost allocations.
Prerequisite(s): ACCT 2010, ENGL 1150, and MATH 1370 or MATH 1930, each with a C (2.0) or better, and a GPA of 2.5 or higher.

ACCT 3000 MANAGERIAL ACCOUNTING FOR SUPPLY CHAIN MANAGEMENT (3 credits)
This course highlights the important role of a managerial accountant in managing a global supply chain and covers the key accounting techniques for supply chain management. (Cross-listed with SCMT 3000)
Prerequisite(s): ACCT 2020 with a grade of C (2.0) or better or ACCT 2000 with a grade of C (2.0) or better and cumulative GPA of 2.5 or higher.
ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160. Not open to non-degree graduate students.

ACCT 3020 BASIC FEDERAL INCOME TAXATION (3 credits)
This course provides an introduction to the basic concepts and principles of federal income tax with an emphasis on concepts unique to individual taxpayers.
Prerequisite(s): ACCT 2020, ENGL 1150, ECON 2200 and ECON 2220 with a 'C' (2.0) or better in each course. Cumulative GPA of at least 2.5.

ACCT 3030 INTERMEDIATE FINANCIAL ACCOUNTING I (3 credits)
A more intensive study of basic accounting theory and principles learned in ACCT 2010. Topics include a conceptual framework of accounting, net income concepts, financial statements, present value applications, revenue recognition, current assets, plant assets, and intangible assets.
Prerequisite(s): ACCT 2020, ECON 2200, and ECON 2220, with a grade of 'C' (2.0) or better in each course and a 2.5 GPA. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3040 INTERMEDIATE FINANCIAL ACCOUNTING II (3 credits)
This is the second of two courses in intermediate financial accounting. This course focuses on financial reporting issues relating investments, debt financing, leases, contingencies, cash flows reporting and income taxes.
Prerequisite(s): ACCT 3030 and ENGL 1160, each with a 'C' (2.0) or better.

ACCT 3050 INTERMEDIATE MANAGERIAL ACCOUNTING (3 credits)
The objective of managerial accounting is to provide management with relevant and timely information to aid economic decision making. This course analyzes numerous economic decisions and identifies what information is relevant. Special attention is given to how different cost accumulation systems and different cost accounting and estimating techniques can aid the decision-making process.
Prerequisite(s): ACCT 2020, ECON 2200, ECON 2220, and BSAD 2130, BSAD 3140 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3080 ACCOUNTING INFORMATION SYSTEMS (3 credits)
Introduction to professional accounting information systems, including information systems concepts, accounting and database software and research tools to provide a foundation for subsequent accounting courses.
Prerequisite(s): ACCT 2020, ECON 2200 and ECON 2220, with "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 4010 ADVANCED FINANCIAL ACCOUNTING (3 credits)
Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 8016)
Prerequisite(s): ACCT 3030 and ACCT 3040 with "C" (*2.33) or better in each and ENGL 1160 with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4020 ANALYTICS FOR ACCOUNTING (3 credits)
Students develop an Analytics Mindset for the accounting profession, which includes the crossover competencies of accounting and business knowledge, data modeling and analytic abilities, and communication skills. Principal topics include fundamentals of data capture and cleansing, database development and implementation, visualization and presentation of information, and the use of accounting information for business decisions.
Prerequisite(s): ACCT 3030, ACCT 3080, and ENGL 1160 each with C (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4040 ADVANCED FEDERAL INCOME TAXATION (3 credits)
Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 8046.)
Prerequisite(s): ACCT 3020, ACCT 3030, and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4060 ADVANCED MANAGERIAL ACCOUNTING (3 credits)
Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 8066.)
Prerequisite(s): ACCT 3050, ACCT 3030, and ENGL 1160, each with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4070 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)
Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 8076.)
Prerequisite(s): ACCT 3030 and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4080 PRINCIPLES OF AUDITING (3 credits)
An introduction to auditing. Standards, responsibilities, professional ethics, the audit framework, evidence and reports are studied.
Prerequisite(s): ACCT 3030, ACCT 3080, ENGL 1160, and BSAD 2130 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4090 INFORMATION SYSTEMS AUDITING (3 credits)
This course will provide an introduction of auditing an advanced accounting information system. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association. Accounting information systems control and security practices, and their assessment, will be discussed in the areas of operations, physical and logical access, systems, networks, development and applications, and incorporating hands-on exposure to automated evaluation tools.
Prerequisite(s): ACCT 4080 with a grade of C (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4500 INDEPENDENT STUDY (1-3 credits)
Individual investigation of specific problems in the field of accounting.
Prerequisite(s): Must have permission of the School of Accounting director.

ACCT 4510 ACCOUNTING INTERNSHIP (1-3 credits)
A course for junior or senior accounting students to apply their academic accounting knowledge to accounting practice in an employment situation. A student report on the internship experience and an employer's evaluation of the student's performance are course requirements. Can be applied to free electives, but not accounting specialization electives. (Maximum of 3 hours)
Prerequisite(s): ACCT 3030 and ENGL 1160, each with a C (2.0) or better, and permission of internship coordinator.
ACCT 8016 ADVANCED FINANCIAL ACCOUNTING (3 credits)
Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 4010).
Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3030 and ACCT 3040 with a grade of “C+” (2.33) or better in each. Not open to non-degree graduate students.

ACCT 8046 ADVANCED FEDERAL INCOME TAXATION (3 credits)
Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 4040).
Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3020 with a grade of “C” (2.0) or better. Not open to non-degree graduate students.

ACCT 8050 FINANCIAL STATEMENT ANALYSIS (3 credits)
Using the financial statement and supplemental information as inputs, this course utilizes a systematic fundamental analysis approach across a variety of decision-making contexts to understand how a business generates value for shareholders.
Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3040 with a “C” (2.0) or better. Not open to non-degree graduate students.

ACCT 8066 ADVANCED MANAGERIAL ACCOUNTING (3 credits)
Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 4060).
Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3050 with a grade of “C” (2.0) or better. Not open to non-degree graduate students.

ACCT 8076 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)
Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 4070).
Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3030 with a grade of “C” (2.0) or better. Not open to non-degree graduate students.

ACCT 8080 CURRENT TECHNOLOGY USE IN ACCOUNTING (3 credits)
This course will cover tools and methods that facilitate business analytic techniques, with a focus on current and emerging technology. This may include tools for databases, spreadsheets, robotic process automation, data mining, artificial intelligence, and others.
Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. Successful completion of BSAD 8110, ACCT 2020, or equivalent. Not open to non-degree graduate students.

ACCT 8090 INFORMATION SYSTEMS AUDITING (3 credits)
This course presents a broad overview of the professional practice of information systems audit, emphasizing control and audit procedures related to security along with Information Technology General Controls. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association.
Prerequisite(s): ACCT 4080 with a grade of C (2.0) or better. Admission to MAcc or MBA program or permission of instructor. Not open to non-degree graduate students.

ACCT 8210 FINANCIAL ACCOUNTING THEORY (3 credits)
The development of accounting, current accounting theory and present controversies and suggested theory and practice.
Prerequisite(s): ACCT 3040. Not open to non-degree graduate students.

ACCT 8220 GRADUATE TOPICS IN INCOME TAXATION (3 credits)
This course will discuss commonly encountered tax issues such as gift and estate taxation, income taxation of estates and trusts, and exempt organizations, as well discuss current events while introducing the student to practitioner-oriented research publications.
Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a “C” (2.0) or better, or concurrent enrollment in ACCT 4040 or ACCT 8046. Not open to non-degree students.

ACCT 8230 MANAGEMENT ACCOUNTING ISSUES (3 credits)
An analysis of information to assist managers in determining successful strategies, developing those strategies into plans and controlling operating activities to achieve strategic goals.
Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3050 or BSAD 8210 with a “C” (2.0) or better. Not open to non-degree graduate students.

ACCT 8250 SEMINAR IN ACCOUNTING (3 credits)
A study of a specific area within the accounting discipline. Possible areas include: auditing, financial, managerial, systems and tax. May be repeated, but no area can be taken more than once.
Prerequisite(s): Admission to MAcc or MBA programs or permission of instructor. Not open to non-degree students.

ACCT 8260 FEDERAL TAX RESEARCH AND PLANNING (3 credits)
This course is intended to provide students with a working knowledge of the primary and secondary tax resources used in practice to solve tax problems, as well as basic tax planning concepts.
Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a “C” (2.0) or better. Not open to non-degree students.

ACCT 8280 SEMINAR IN ACCOUNTING INFORMATION SYSTEMS (3 credits)
This course examines current topics in Accounting Information Systems (AIS), how AIS contributes to business effectiveness and ineffectiveness, and the interaction between AIS and human decision-makers.
Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. Successful completion of BSAD 8110, ACCT 2020, or equivalent. Not open to non-degree graduate students.

ACCT 8290 ADVANCED FINANCIAL AUDITING (3 credits)
This course will provide students with an intense study of financial auditing in accordance with generally accepted auditing standards.
Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 4080 with a grade of “C” (2.0) or better.

ACCT 8900 INDEPENDENT RESEARCH (1-3 credits)
This is an independent research course in which the student completes a focused project, typically individual research, under faculty supervision to supplement graduate study in a specific area within the Accounting discipline.
Prerequisite(s): Completed contract and permission needed from director of MAcc program. Not open to non-degree graduate students.

ACCT 8910 SPECIAL TOPICS IN ACCOUNTING (3 credits)
A variable content course with accounting topics based on student and discipline.
Prerequisite(s): Admission to MAcc program and permission of instructor. Not open to non-degree graduate students.

Economics

ECON 1200 SURVEY OF ECONOMICS (3 credits)
An introduction to fundamental economic analysis, applying economic concepts to both domestic and international problems and policies.
Prerequisite(s): Not available to students who have completed either ECON 2200 or 2220.
Distribution: Social Science General Education course
**ECON 2200 PRINCIPLES OF ECONOMICS (MICRO) (3 credits)**

An introduction to economic principles, decision making and policies affecting product and resource markets. Particular emphasis is on price, output and input decisions by individuals and firms under various market conditions. An introduction to the fundamentals of international trade.

**Prerequisite(s):** ENGL 1150 and MATH 1310 or MATH 1220 with 'C-' (1.67) or better, or permission of CBA advisor

**Distribution:** Social Science General Education course

**ECON 2220 PRINCIPLES OF ECONOMICS (MACRO) (3 credits)**

An introduction to economic principles, decision-making and policies on national income and output, employment, growth, money, the price level and the international economy.

**Prerequisite(s):** MATH 1310 or MATH 1220 and ENGL 1150 with a C-minus (1.67) or better, or permission of CBA advisor

**Distribution:** Social Science General Education course

**ECON 2400 PRINCIPLES OF ECONOMICS FOR EDUCATORS (3 credits)**

This course teaches principles of microeconomics and macroeconomics to K-12 educators. After taking this course students will be able to use the economic way of thinking to study current economic issues. Students will be introduced to macroeconomic principles, decision-making and policies on national income and output, employment, growth, money, price level, and fundamentals of international issues. Students will study microeconomic issues including product and resource markets, and prices output and input decisions under various market conditions. Economic concepts will be aligned to K-12 state social studies standards. This course cannot be substituted for ECON 2200 and/or ECON 2220.

**Prerequisite(s):** MATH 1310 or MATH 1220, ENGL 1150. Not open to non-degree graduate students.

**ECON 2600 SURVEY OF BEHAVIORAL ECONOMICS (3 credits)**

This course examines the basic concepts behind behavioral economics and the application of behavioral economics across other fields of study. Students will be able to understand the basic variables influencing decision making, including framing and perception as well as the influence of social dynamics and psychological influences.

**ECON 3130 ECONOMIC GEOGRAPHY (3 credits)**

An introduction to the basic concepts and approaches in contemporary economic geography, stressing the importance of the spatial perspective for an understanding of how economic processes work at global, national, regional, and local scales. (Offered Fall) (Cross-listed with GEOG 3130).

**Prerequisite(s):** Majoring in Geography. Non-Geography majors: MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

**ECON 3190 SPORTS ECONOMICS (3 credits)**

Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Sports Economics, however, students will explore the very real ways in which economics influences sporting competitions and the businesses surrounding them. Students will explore topics such as unionization in sports, discrimination, amateurism, monopoly power, game theory, and more in the context of sports, giving the student a deeper understanding of how these topics apply to real-world problems. After this course, students will understand how readily economics can be applied to businesses and problems in any industry or domain.

**Prerequisite(s):** ECON 2200 OR ECON 1200 OR ECON 2400 OR Instructor Approval. Not open to non-degree graduate students.

**ECON 3200 ECONOMIC THEORY: MICRO (3 credits)**

Analysis of individual, firm and industry behavior in product and factor markets. Provides a theoretical foundation for managerial and public policy decision-making.

**Prerequisite(s):** MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

**ECON 3220 ECONOMIC THEORY: MACRO (3 credits)**

This course is designed to follow introductory economics, to examine the determination of output, employment, the price level, inflation, interest rates, and the exchange rate in the economy. Piece-by-piece, theoretical models will be constructed describing how each of these and other variables are determined in both, the long-run and in the short-run. We will analyze how changes in a particular event affect different markets in the economy, and in turn, how one market interacts with another within a general equilibrium framework. A large part of the course will be devoted to business cycle theory, macroeconomic policy issues, and open economy macroeconomics. The world economies are very much integrated, and thus, a full understanding of macroeconomics requires knowledge of international aspects of macroeconomics. The purpose of this course is to provide the student with an understanding of the connection between macroeconomic theory and related policy issues.

**Prerequisite(s):** Completion of ECON 2200 with a C or better AND ECON 2220 with a C or better

**ECON 3290 ECONOMICS OF PUBLIC ISSUES (3 credits)**

Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Economics of Public Issues, however, students will explore the real ways in which economics can be used to understand, explain, and answer tough questions that affect everyone. Students will explore and define capitalism and key economic institutions required for economies to develop and prosper. We will examine markets and market failures that exist today. Classes will focus on the outcomes - intended and unintended - of various policies (local, national, and global). While specific issues are going to be covered in the course the intent is that students will learn the tools and strategy of thinking like an economist to guide them through future issues that will come up in their personal, professional, and civic lives.

**Prerequisite(s):** ECON 2200 OR Instructor Approval.

**ECON 3300 INTRODUCTION TO ECONOMETRICS (3 credits)**

An introduction to empirical research methods in economics. Subjects covered include estimations of the basic linear regression model, hypothesis testing, correlation coefficients, analysis of variance, multicollinearity, dummy variables, specification error, auto-correlation, heteroscedasticity and unconditional forecasting. Empirical illustrations are provided by reference to contemporary economic questions.

**Prerequisite(s):** MATH 1310 or MATH 1220, ECON 2200, ECON 2220, BSAD 2130 or BSAD 3160, each with a "C" (2.0) or better, or permission of instructor.

**ECON 3310 SQL, DATABASES, AND DATA CLEANING FOR DATA SCIENTISTS (3 credits)**

Analytics requires data. Within an organization, this data is usually housed in databases. In this class, you will extract data from these systems using Structured Query Language (SQL), programmatically combine multiple datasets, and learn advanced programmatic data cleaning techniques, such as regular expression.

**Prerequisite(s):** ECON 2200 with a "C" or better

**ECON 3320 INTRODUCTION TO ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3 credits)**

This course explores the economic approach to environmental and natural resources. It introduces economic concepts and theory at a level accessible to non-economic majors but still challenging to economic majors. It then to non-economic majors but still challenging to economic majors. It then

**Prerequisite(s):** MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.
ECON 3550 PUBLIC FINANCE (3 credits)
This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with FNBK 3550).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better.

ECON 3600 INTRODUCTION TO INTERNATIONAL ECONOMICS (3 credits)
An introduction to analyses of international trade and the international monetary system. Subjects covered include the economic basis for international specialization and trade, the effect of trade on income distribution, commercial policy, economic integration, the balance of payments, adjustment mechanism, exchange rate determination, external effects of monetary and fiscal policy and foreign investment.
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better.

ECON 4000 SPECIAL TOPICS IN ECONOMICS (3 credits)
This course will explore a specified topic in the field of economics.
Prerequisite(s): Varies by offering

ECON 4210 INDUSTRIAL ORGANIZATION (3 credits)
In this class we will examine why firms and industries behave the way that they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like "Why does everyone hate the cable company?" and "Why are CEOs given so many stock options?" (Cross-listed with ECON 8216).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better, or permission of instructor.

ECON 4240 LABOR ECONOMICS (3 credits)
The course will cover essential topics in Labor Economics including factors leading to equilibrium conditions in the labor market, human capital accumulation, discrimination in the workplace, compensation for undesirable work, mobility, unionization, and more. (Cross-listed with ECON 8246).
Prerequisite(s): ECON 3200

ECON 4300 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)
The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with non negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 8306).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better, or permission of instructor.

ECON 4320 NATURAL RESOURCE ECONOMICS (3 credits)
This course introduces students to the economics and management of Earth’s natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What roles do markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 8326).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better, or permission of instructor.

ECON 4340 ECONOMICS OF TECHNOLOGY (3 credits)
Innovative dynamism is the economic system which brings us the new goods and processes that make life longer and better. We will examine how the system works, including: The role of the breakthrough inventor and the innovative entrepreneur; whether the system improves or hurts ethical behavior, culture, equality, and the environment; the costs to workers in terms of job loss, and the benefits to workers in terms of the creation of better jobs; how funding, regulatory, and patent policies affect innovative dynamism; and how innovative dynamism in medicine can result in more and faster cures for cancer and other diseases. (Cross-listed with ECON 8346).
Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a “C” (2.0) or better, or BSAD 8180, or permission of instructor.

ECON 4350 BUSINESS INTELLIGENCE AND REPORTING (3 credits)
The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are trained to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 8316).
Prerequisite(s): BSAD 2130 (or equivalent) OR Instructor Approval

ECON 4450 DOMESTIC MONETARY THEORY AND POLICY (3 credits)
The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 8456).
Prerequisite(s): ECON 3220, or permission of instructor.

ECON 4500 SPECIAL PROBLEMS IN ECONOMICS (2-3 credits)
Individual investigation of specific problems in the field of economics under the supervision of a faculty member.
Prerequisite(s): Senior and permission of department chair.

ECON 4510 ECONOMIC INTERNSHIP (1-3 credits)
Students engage in part time employment in their area of concentration to gain relevant business experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required (maximum 3 credit hours).
Prerequisite(s): Permission of internship coordinator; “C” (2.0) or better in ECON 2200 and ECON 2220; 2.5 Cumulative GPA; junior or senior standing.
ECON 4570 ECONOMIC CONDITIONS ANALYSIS (3 credits)
This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn how to find data, how to analyze that data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will ensure equal participation. (Cross-listed with ECON 8576).
Prerequisite(s): ECON 2200 and ECON 2220, or permission of the instructor.

ECON 4610 INTERNATIONAL TRADE (3 credits)
An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 8616).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4620 INTERNATIONAL MONETARY THEORY (3 credits)
This course is designed to introduce students to topic areas in International Macroeconomics and International Finance. Students will examine the mechanisms of the foreign exchange market, and how exchange rates are determined in the short-run as well as in the long-run. Students will investigate the different exchange rate regimes around the world, including fixed exchange rates, floating exchange rates, crawling pegs, and other arrangements. Students will examine the European Union and ask whether such a system is economically viable. This is especially important in the current economic environment facing Europe. Students will also examine exchange rate crises over history, and examine how they all have common elements. (Cross-listed with ECON 8626).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4660 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)
This course introduces theories and application of economic development and growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 8666).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4730 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter’s theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 8736, BSAD 8736).
Prerequisite(s): ECON 2200 or permission of the instructor for all students.

ECON 4850 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)
This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 8856).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4990 SENIOR ASSESSMENT (0 credits)
This assessment tool is part of the Department’s Student Outcomes effort. It is designed to monitor the Department’s performance and to identify changes needed. Graduating seniors must register for and complete this course in the term in which they plan to graduate.
Prerequisite(s): Students must register for ECON 4990 in the term in which they plan to graduate. Not open to non-degree graduate students.

ECON 8010 SEMINAR IN PUBLIC FINANCE (3 credits)
This course is designed to develop the tools of applied welfare economics and to use these tools to evaluate the expenditure and tax decisions of governments. The structure, effects and reform of the U.S. individual and corporate income taxes, social security and healthcare system will be emphasized. Government debt and deficits will also be discussed.
Prerequisite(s): ECON 3200 or ECON 8210 or BSAD 8100 or permission of instructor.

ECON 8020 ENVIRONMENTAL ECONOMICS AND MANAGEMENT (3 credits)
This course covers topics related to environmental economics and policy, with an emphasis on comparative policy analysis and business strategies towards the environment. (Cross-listed with BSAD 8020).
Prerequisite(s): ECON 2200 and ECON 2220 or BSAD 8180, or permission of the instructor. Not open to non-degree graduate students.

ECON 8050 ECONOMIC EDUCATION (3 credits)
A study and examination of economic principles and how they can be related to the teacher’s classroom presentation. This course is designed to furnish the k-12 teacher with sufficient background and understanding to aid in the recognition of economic issues and the teaching of economic concepts and principles.
Prerequisite(s): No previous course work in economics. Not open to Economics majors.

ECON 8080 MONEY AND FINANCIAL INSTITUTIONS (3 credits)
This course examines the financial system (institutions, instruments, markets, practices, and public authorities), and the implementation of monetary policy that aims to maintain financial stability and support economic growth. The course discusses current events reported in the financial press and uses the analytic frameworks developed in class to analyze these issues. This course trains students to think systematically about the current state of the economy and use quantitative tools to analyze the interactions between monetary policy and the financial system.
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 8200 SEMINAR IN MICRO ECONOMIC THEORY (3 credits)
The course covers major topics in microeconomic theory. The major topics covered are the theory of consumer behavior, theory of production and cost, theory of the firm, pure exchange economy, general equilibrium, and welfare theory.
Prerequisite(s): ECON 3200, ECON 3220 and ECON 8306 or permission.

ECON 8210 APPLIED MANAGERIAL ECONOMICS (3 credits)
This is a course in empirical economic modeling techniques deployed by economists and other business consultants use in business and public policy applications. There are four main themes: 1) techniques used in demand analysis and economic forecasting, 2) techniques used in production and cost analysis, 3) supply chain and trade analysis, and 4) analysis and measurement of competitive interactions.
Prerequisite(s): ECON 2200 or equivalent, or permission of the instructor.
ECON 8216 INDUSTRIAL ORGANIZATION (3 credits)
In this class we will examine why firms and industries behave the way they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like "Why does everyone hate the cable company?" and "Why are CEOs given so many stock options?" (Cross-listed with ECON 4210).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 8220 SEMINAR IN MACRO THEORY (3 credits)
This course traces the development of macroeconomic theory from the classical point of view to current schools of thought. Keynesian, neo-Keynesian and neo-classical models are developed.
Prerequisite(s): ECON 3200 or ECON 8210 or BSAD 8100, ECON 3220, and ECON 8306, or permission.

ECON 8230 BUSINESS CONDITIONS ANALYSIS (3 credits)
This course is concerned with the statistical measurement and evaluation of general business conditions, as well as the adoption of business policies to changing business conditions. Emphasis is placed upon the practical application of statistical analysis techniques to business situations within the framework of the aggregate economy.
Prerequisite(s): ECON 2200 and ECON 2220.

ECON 8246 LABOR ECONOMICS (3 credits)
The course will cover essential topics in Labor Economics including factors leading to equilibrium conditions in the labor market, human capital accumulation, discrimination in the workplace, compensation for undesirable work, mobility, unionization, and more. (Cross-listed with ECON 4240).
Prerequisite(s): ECON 2200 OR BSAD 8150

ECON 8290 RESEARCH METHODS IN ECONOMICS AND BUSINESS (3 credits)
Covers the methodology of economics: choosing a research topic, literature search tools, data source identification, data summary techniques, basic statistical data analysis using statistical packages, and clear economics writing. The student will become familiar with these techniques through text materials, journal studies, and completion of an empirical economics paper.
Prerequisite(s): ECON 3200, ECON 3220, or equivalents, or permission of the instructor. Not open to non-degree graduate students.

ECON 8300 ECONOMETRICS (3 credits)
The study of the underlying assumptions, techniques and applications of single and multiple equation regression analysis in economics.
Prerequisite(s): Basic Statistics, ECON 8306/ECON 4300, or permission. Not open to non-degree graduate students.

ECON 8306 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)
The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with non negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 4300).
Prerequisite(s): ECON 2200 and ECON 2220, or BSAD 8180.

ECON 8310 BUSINESS FORECASTING (3 credits)
The course will cover forecasting tools and applications applied to business settings. The first half of the course will cover traditional Econometric forecasting methods and the second half of the course will focus on predictive analytics models and machine learning. Time in the computer lab will be focused on teaching students how to implement the models discussed in lectures. (Cross-listed with BSAD 8080).
Prerequisite(s): ECON 8320 (or equivalent programming experience) or permission of instructor. Not open to non-degree graduate students.

ECON 8316 BUSINESS INTELLIGENCE AND REPORTING (3 credits)
The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are trained to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 4350).
Prerequisite(s): BSAD 2130 (or equivalent) OR Instructor Approval

ECON 8320 TOOLS FOR DATA ANALYSIS (3 credits)
The course will cover basic principles of programming languages, as well as libraries useful in collecting, cleaning and analyzing data to answer research questions. The course will utilize basic Economic principles and Econometric methods as inspiration for assignments and projects throughout the duration of the course, and will do so in a way that is accessible to non-Economists. This course is intended to introduce the student to the Python programming language as a tool for conducting data analysis. While the course uses Python, the student should be able to move to other languages frequently used in data analysis using the principles taught in this course.
Prerequisite(s): BSAD 2130 or equivalent; or instructor approval.

ECON 8326 NATURAL RESOURCE ECONOMICS (3 credits)
This course introduces students to the economics and management of Earth's natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What role do markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 4320).
Prerequisite(s): ECON 2200 and ECON 2220, BSAD 8150 or permission of instructor.

ECON 8330 DATA ANALYSIS FROM SCRATCH (3 credits)
Econometrics is routinely taught as an application class using a 'black box' like Stata or SAS to perform calculations. This class takes a different approach. Using the Python programming language, we build all estimators from scratch. Additionally, we introduce numerous non-parametric and simulation techniques. This approach to econometrics results in a stronger understanding of statistical assumptions and methods, a better understanding of when a method is appropriate, and stronger programming techniques. Furthermore, a deeper understanding of the underlying mechanics provides the student the ability to program custom procedures not already built into popular software packages. As part of the course, students will work with a community partner to answer a real question with data; MBA students should consult with their advisor about this course satisfying the project-focused capstone requirement.
Prerequisite(s): A multivariate or regression analysis course such as ECON 8300, ISQA 9130 or STAT 8436, and a programming class such as ECON 8320 or equivalent programming experience; or instructor approval. Not open to non-degree graduate students.
ECON 8346 ECONOMICS OF TECHNOLOGY (3 credits)
Innovative dynamism is the economic system which brings us the new goods and processes that make life longer and better. We will examine how the system works, including: The role of the breakthrough inventor and the innovative entrepreneur; whether the system improves or hurts ethical behavior, culture, equality, and the environment; the costs to workers in terms of job loss, and the benefits to workers in terms of the creation of better jobs; how funding, regulatory, and patent policies affect innovative dynamism; and how innovative dynamism in medicine can result in more and faster cures for cancer and other diseases. (Cross-listed with ECON 4340).
Prerequisite(s): ECON 2200 or BSAD 8180 or permission of the instructor.

ECON 8456 DOMESTIC MONETARY THEORY AND POLICY (3 credits)
The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 4450).

ECON 8576 ECONOMIC CONDITIONS ANALYSIS (3 credits)
This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn where to find data, how to analyze that data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will equal participation. (Cross-listed with ECON 4570).
Prerequisite(s): ECON 2200 and ECON 2220, or Permission from the instructor

ECON 8616 INTERNATIONAL TRADE (3 credits)
An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 4610).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8626 INTERNATIONAL MONETARY THEORY (3 credits)
This course is designed to introduce students to topics in International Macroeconomics and International Finance. Students will examine the mechanisms of the foreign exchange market, and how exchange rates are determined in the short-run as well as in the long-run. Students will investigate the different exchange rate regimes around the world, including fixed exchange rates, floating exchange rates, crawling pegs, and other arrangements. Students will examine the European Union and ask whether such a system is economically viable. This is especially important in the current economic environment facing Europe. Students will also examine exchange rate crises over history, and examine how they all have common elements. (Cross-listed with ECON 4620).
Prerequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8666 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)
This course introduces theories and application of economic development and growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 4660).
Prerequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8736 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 4730, BSAD 8736.)
Prerequisite(s): ECON 2200 or permission of the instructor for all students.

ECON 8856 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)
This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 4850).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 8910 SPECIAL STUDIES IN ECONOMICS (3 credits)
This course will focus on issues or developments in a specific area of economics or business.
Prerequisite(s): Graduate student in good standing and as indicated for specific workshop or seminar.

ECON 8920 INDEPENDENT STUDY (1-3 credits)
Guided independent study and research.
Prerequisite(s): Graduate student in economics and permission of instructor.

ECON 8940 ECONOMIC INTERNSHIP (1-3 credits)
Guided internship in a firm or organization that makes use of, or extends, the student's skill in economics.
Prerequisite(s): Completion of at least nine hours of graduate level economics and permission of instructor.

ECON 8990 THESIS (1-6 credits)
An independent research project, written under the supervision of a graduate adviser in the department of economics. Approval of the topic and the completed project by departmental committee is required.
Prerequisite(s): Approval of the topic and the completed project by departmental committee is required.

Finance and Banking

FNBK 2280 PERSONAL FINANCE (3 credits)
This course focuses strengthening the development of sound financial habits through knowledge and application of concepts and activities that enhance personal and family finance.

FNBK 2710 PRINCIPLES OF INSURANCE (3 credits)
This course is intended to introduce students to the basic concepts of risk and insurance. Special emphasis is placed on the insurance coverage needed by the consumer: life, health, homeowner and auto insurance. (Fall, Spring)
Prerequisite(s): Not open to non-degree graduate students.

FNBK 3000 FINANCIAL REPORTING AND ANALYSIS (3 credits)
Seeks to develop students' understanding of the origin and derivation of accounting data, and their skills in employing the data for the purpose of financial analysis, reporting and valuation.
Prerequisite(s): ACCT 2020 with 'C' (2.0) or better.
FNBK 3250 PRINCIPLES OF FINANCIAL MANAGEMENT (3 credits)
As an introduction to financial management, the course will cover a broad area of corporate finance and discuss topics including assessment of financial statement information, time value of money, bond and stock valuation, as well as capital budgeting. 
Prerequisite(s): ACCT 2010, ECON 2200, ECON 2220, MATH 1320 or MATH 1370 or MATH 1930, BSAD 2130 or 3160, ENGL 1160/ENGL 1164 or concurrent enrollment in ENGL 1160/1164 each with "C" or better and 2.5 GPA.

FNBK 3300 INTERMEDIATE FINANCIAL MANAGEMENT (3 credits)
This course is intended to develop an intermediate level of understanding of financial analysis and decision making, as well as an understanding of the context within which these skills are used, through an in-depth exploration of the essential mathematical operations that underpin advance finance courses. Critical thinking and computer literacy will be enhanced using MS Excel for spreadsheet calculations and model building. 
Prerequisite(s): FNBK 3250 with a C- or better and 2.5 overall GPA. Not open to non-degree graduate students.

FNBK 3330 ENTREPRENEURIAL FINANCE (3 credits)
This course focuses on venture capital formation and the financing of entrepreneurial ventures. The course is intended for students interested in entrepreneurship, venture capital markets, investment banking, and other careers related to new venture financing and/or deal structuring. The course applies basic financial theory to the unique environment of incubating and growing new ventures. (Cross-listed with ENTR 3330). 
Prerequisite(s): FNBK 3250 with "C" (2.0) or better.

FNBK 3400 INVESTMENT PRINCIPLES AND PRACTICES (3 credits)
A study of the market for investment securities, an introduction to the field of security analysis, and selection and management of a portfolio of securities. (Fall, Spring) 
Prerequisite(s): FNBK 3300, GPA of 2.5 or better or approval of instructor.

FNBK 3500 FINANCIAL MARKETS (3 credits)
An overview of money and banking, monetary policy, and analysis of the operations of financial markets in a global context, as well as the evolving regulatory framework within which these markets operate. 
Prerequisite(s): ECON 2200 and ECON 2220 and FNBK 3250 with "C" or better, or approval of instructor.

FNBK 3550 PUBLIC FINANCE (3 credits)
This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with ECON 3550). 
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

FNBK 3650 COMMERCIAL BANK MANAGEMENT (3 credits)
This course focuses on the theory and practice of managing commercial banks. Topics covered include but are not limited to: Bank regulations, bank performance analysis, asset liability management, credit analysis and consumer loans. This course emphasizes the link between theory and practice through readings, guest lecturers from industry experts, and a comprehensive bank research project on a local bank of your choice. At the end of the course, students should have a good understanding of basic banking theories as well as banking practices, and current issues and challenges facing the banking industry. 
Prerequisite(s): FNBK 3300, GPA of 2.5 or better or approval of instructor.

FNBK 3700 INTERNATIONAL FINANCIAL MANAGEMENT (3 credits)
This course focuses on the application of basic principles and techniques of international financial management to the decision-making process of the multinational firms. The course covers foreign exchange markets, management of foreign exchange risk, international working capital management, and foreign portfolio and direct investment. Factors bearing on international financing and investment decisions, such as political risk and international taxation issues will be also explored. (Fall, Spring, Summer). 
Prerequisite(s): FNBK 3250 with "C-" (2.3) or better, GPA of 2.5 or better or approval of instructor.

FNBK 4000 SPECIAL TOPICS IN FINANCE AND BANKING (1-5 credits)
The topics addressed in this finance and banking special topics course will vary but are typically an in-depth exploration of a specific topic in the field of finance and banking. Please contact the finance and banking department chairperson for the specific course offering.

FNBK 4150 ADVANCED FINANCIAL MANAGEMENT (3 credits)
This course aims to develop the student's ability to identify, analyze and solve integrative problems in management of business finance, including financial analysis, working capital management, capital budgeting decisions, long term financing, and leasing, through the use of prescribed readings, case studies and computer applications. (Fall, Spring). 
Prerequisite(s): FNBK 3300, GPA of 2.5 or better, and senior standing. It is highly recommended that a student have an additional 6 hours of finance instruction beyond the introductory course prior to taking this class.

FNBK 4210 SELLING FINANCIAL SERVICES (3 credits)
Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with BSAD 8216, MKT 4210). 
Prerequisite(s): MKT 3310 with a C- or better grade and 2.5 GPA. Not open to non-degree graduate students.

FNBK 4470 BEHAVIORAL FINANCE & INVESTING (3 credits)
This course focuses on how actual investor behaviors and market behaviors differ from traditional theories of finance. This course will examine psychological biases, identify how such biases influence financial markets and settings, and explore methods that can be utilized to recognize and overcome such behavioral pitfalls. (Cross-listed with BSAD 8476). 
Prerequisite(s): Junior or senior standing. Not open to non-degree graduate students.

FNBK 4500 SPECIAL PROBLEMS IN FINANCE AND BANKING (2-3 credits)
Individual investigation of specific problems in the fields of finance and banking. (Fall, Spring). 
Prerequisite(s): Senior. Note: permission of department chair required prior to registration.

FNBK 4510 FINANCE AND BANKING INTERNSHIP (1-3 credits)
Students will engage in an applied experience in their area of specialization to gain relevant experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required. 
Note: FNBK4510 may be taken for a maximum of 3 credits.
Prerequisite(s): Permission of internship coordinator; "C-" or better in FNBK 3250; 2.5 cumulative gpa; junior or senior standing.
FNBK 4570 INVESTMENT MANAGEMENT FOR FINANCIAL ANALYSTS (3 credits)
This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with BSAD 8576).
Prerequisite(s): Senior standing. Not open to non-degree graduate students.

FNBK 4590 RISK MANAGEMENT FOR BUSINESS MANAGERS (3 credits)
An analysis of risk management techniques for handling the risk exposures most businesses face, including insurance, self insurance, risk control and risk avoidance, among others. (Cross-listed with BSAD 8596).
Prerequisite(s): At least junior standing.

FNBK 4600 FINANCIAL RISK MANAGEMENT (3 credits)
The course provides students with an intermediate level analysis of financial derivatives, and the use of these instruments for managing risk in financial institutions. (Cross-listed with BSAD 8606).
Prerequisite(s): FNBK 3400 and FNBK 3500 both with a 'C' (2.0) or better, and senior or graduate standing.

FNBK 4610 PORTFOLIO MANAGEMENT (3 credits)
This course will focus on modern development in portfolio management including efficient markets, stock selection, and hedging procedures. The main objective of this course is to prepare students for the management of financial resources through the development of skills necessary to make prudent investment decisions.
Prerequisite(s): FNBK 3400 with a "C+" (2.33) or above, and a 2.5 GPA.

Law and Society

LAWS 2000 SPECIAL TOPICS IN LAW AND SOCIETY (3 credits)
This special topics course will address specific topics which will vary by semester and is intended primarily for upper division business students who are pursuing a Legal Studies concentration.

LAWS 3000 INTRODUCTION TO LAW AND THE LEGAL PROFESSION (1 credit)
This course provides experiences and assignments designed to enhance understanding of the legal system, legal education, law school admissions processes, legal career opportunities, legal analysis, the legal profession, and the law school experience.

LAWS 3170 ETHICS IN BUSINESS (3 credits)
Application of ethical concepts and principles to moral issues in business including corporate responsibility, discrimination, advertising, competition, whistle-blowing, trade secrets, multinational corporations, environment, workers' rights, government regulation, investment, bribes, product liability, and consumerism.
Prerequisite(s): ECON 2200 and ECON 2220.

LAWS 3460 REAL ESTATE LAW (3 credits)
Upper-level survey course in real estate law, which examines estates in land, conveyances, leases, mortgages, easements, zoning, environmental law, contracts, taxes, foreclosures, landlord-tenant relations, agency, Fair Housing, and Nebraska License Law. (Cross-listed with RELU 3460)
Prerequisite(s): RELU 2410 or RELU 3410.

LAWS 3930 BUSINESS LAW FUNDAMENTALS (3 credits)
LAWS 3930 introduces students to the legal system governing business transactions. This course emphasizes constitutional law, the Common Law, and relevant statutory law. The legal topics covered include litigation and ADR, torts, contracts, Sale of Goods, insurance, international law, and regulation of business.
Prerequisite(s): ENGL 1160, CMST 1110, ECON 2200, & MGMT 3200 or MKT 3200 all with 'C' (2.0) or better, 2.5 GPA.

LAWS 3940 LEGAL AND ETHICAL APPLICATIONS (3 credits)
LAWS 3940 exposes students to business organization law and ethics. Emphasis is on business organizations (e.g., agency, partnerships, corporations), financial transactions (e.g., checks, liens, securities), and property (e.g., environment, intellectual). Ethics is a discrete subject area studied and its analytical tools are applied to all of these areas of law.
Prerequisite(s): LAWS 3930 and ACCT 2020 both with C- (2.3) or better; 2.5 GPA

LAWS 4220 LEGAL ISSUES IN MANAGEMENT (3 credits)
This course provides an overview of the general nature of legal knowledge in human resources administration. The course is designed to alert students of the legal considerations when an employer-employee relationship is established. Discusses how human resource practices have been impacted by recent legal developments, anti-discrimination laws, affirmative action and labor relations.
Prerequisite(s): MGMT 3490 with a C- or better, MGMT 3510 or MGMT 4030 with a C (2.0) or better, and a 2.5 GPA, or permission of instructor.

LAWS 4410 DIVERSITY, EQUITY, ACCESS AND INCLUSION SOLUTIONS FOR MINIMIZING RISK (3 credits)
This course provides students an opportunity to explore the various aspects of power, access, and equity as it relates to the business environment. Students will explore tensions through the range of dimensions in which diversity is manifested among business leaders, staff, and stakeholders (include anyone impacted by business decisions, such as: employees, contractors, suppliers, customers, and the community) through policies, systems, histories, structures, and legislation. Students will have the opportunity to learn differences that individuals bring to a business environment and how stakeholders can capitalize on those differences by creating long-term inclusive environments. (Cross-listed with BSAD 8416).
Prerequisite(s): Junior standing or permission from the instructor. Not open to non-degree graduate students.

LAWS 4500 SPECIAL PROBLEMS IN LAW AND SOCIETY (1-6 credits)
Individual investigation of specific problems in the field of business law. (Fall, Spring)
Prerequisite(s): Senior and permission of program chair.

LAWS 4510 LAW AND SOCIETY INTERNSHIP (1-3 credits)
Students engage in an applied experience in their concentration area to gain relevant industry experience and to practice the skills and concepts learned in the classroom. Student reports on the internship experience and an employer’s evaluation of the student’s performance are course requirements. LAWS 4510 may be taken for a maximum of 3 credits. (Fall, Spring, Summer)
Prerequisite(s): Permission of Department Internship Coordinator.

LAWS 4910 SEMINAR ON BUSINESS LAW (3 credits)
This course provides students an opportunity to explore the various aspects of power, access, and equity as it relates to the business environment. Students will explore tensions through the range of dimensions in which diversity is manifested among business leaders, staff, and stakeholders (include anyone impacted by business decisions, such as: employees, contractors, suppliers, customers, and the community) through policies, systems, histories, structures, and legislation. Students will have the opportunity to learn differences that individuals bring to a business environment and how stakeholders can capitalize on those differences by creating long-term inclusive environments. (Cross-listed with BSAD 8416).
Prerequisite(s): Junior standing or permission from the instructor. Not open to non-degree graduate students.

LAWS 4950 SEMINAR ON BUSINESS LAW (3 credits)
This course provides students an opportunity to explore the various aspects of power, access, and equity as it relates to the business environment. Students will explore tensions through the range of dimensions in which diversity is manifested among business leaders, staff, and stakeholders (include anyone impacted by business decisions, such as: employees, contractors, suppliers, customers, and the community) through policies, systems, histories, structures, and legislation. Students will have the opportunity to learn differences that individuals bring to a business environment and how stakeholders can capitalize on those differences by creating long-term inclusive environments. (Cross-listed with BSAD 8416).
Prerequisite(s): Junior standing or permission from the instructor. Not open to non-degree graduate students.

Management

MGMT 1200 INTRODUCTION TO MANAGEMENT (3 credits)
This course will introduce foundational management concepts including management functions, leadership, planning, decision-making, quality improvement, ethics and careers in management.
MGMT 1500 INTRODUCTION TO BUSINESS (3 credits)
This course is for students who are interested in gaining foundational knowledge in many aspects of the business world including economics, finance, marketing, management, and accounting.
Distribution: Social Science General Education course

MGMT 3100 MANAGEMENT INFORMATION SYSTEMS (3 credits)
The course covers a broad spectrum of knowledge and techniques in MIS. It presents an overview of the issues and strategies in managing IT resources for organizational effectiveness. Covered topics include but are not limited to IT planning, network computing, functional information systems and their integration, electronic commerce, decision support systems, and data and knowledge management.
Prerequisite(s): ACCT 2020, MGMT 3200 or MKT 3200, and MGMT 3490, each with a 'C' (2.0) or better, and a 2.5 GPA. Not open to non-degree graduate students.

MGMT 3300 STRATEGY: IDENTIFYING AND LEVERAGING YOUR DISTINCTIVE PROFESSIONAL CAPABILITIES (3 credits)
StrategyU is a course designed to merge strategic thinking with personal and professional growth. The goal of the course is to enable individuals to identify where they are personally and professionally, where they want to be in both areas in the future, and develop strategies for how to get there.
Prerequisite(s): MGMT 3490 with a C+ or better and a 2.5 GPA; or permission of instructor. Not open to non-degree graduate students.

MGMT 3410 INTRODUCTION TO SUPPLY CHAIN MANAGEMENT (3 credits)
Supply chain management is the design and management of business processes within and across organizational boundaries to meet the needs of the end customer. The overall goal of this course is to provide students with an understanding of present day issues and policies related to establishing a sustainable competitive advantage through efficient use of resources and collaboration with external business partners. Students will develop critical thinking skills focused on business process analysis and the use of key performance indicators. (Cross-listed with SCMT 4060, MGMT 3410).
Prerequisite(s): Sophomore standing; GPA of 2.0 or better; or by permission of instructor. Not open to non-degree graduate students.

MGMT 3490 MANAGING PEOPLE AND ORGANIZATIONS (3 credits)
In this course, students will develop a clear understanding of management concepts, develop critical thinking skills in applying management concepts to real world problems and begin to develop the technical, interpersonal, communication, conceptual and decision-making skills that are important to success as a manager in modern organizations. Current management trends are emphasized.
Prerequisite(s): ENGL 1160 and MGMT 3200 or MKT 3200 each with a "C" (2.0) or above, and a 2.5 cumulative GPA.

MGMT 3600 BUSINESS ETHICS (3 credits)
Students will learn about the factors, opportunities and pressures that lead to ethical dilemmas, and will develop their understanding of foundations and processes that encourage and reward ethical decision making and behaviors. Lots of examples, sourced from case studies and current events will be provided. (Cross-listed with BSAD 3600, MGMT 3600).
Prerequisite(s): Junior classification (minimum of 58 earned credit hours) with a minimum 2.5 cumulative GPA. Completion of MGMT 3200 or MKT 3200 with a minimum grade of "C" (2.0). Not open to non-degree graduate students.

MGMT 3800 CROSS-SECTOR COLLABORATIVE LEADERSHIP (3 credits)
The goal of PA 3800/MGMT 3800 is to prepare students to serve as collaborative leaders of cross-sector initiatives. Specifically, this course will prepare students for success in working collaboratively across private, nonprofit and public sector organizations while also enhancing their overall development as a leader. Examples of successful and unsuccessful cross-sector collaborations will be explored along with discussions of theories related to cross-sector collaboration. (Cross-listed with PA 3800).
Prerequisite(s): Permission from instructor or MGMT 3490 with a grade of C or higher or enrollment in the cross-sector collaborative leadership minor.

MGMT 4000 SPECIAL TOPICS IN MANAGEMENT (3 credits)
This special topics course will address specific topics which will vary by semester and is intended primarily for upper division students who are pursuing a management, supply chain management, or human resources management concentration.
Prerequisite(s): Permission from the Department of Management chairperson.

MGMT 4010 TOTAL REWARDS (3 credits)
This course is a comprehensive review of the theory and practice of developing and implementing cost-effective employee compensation and benefit programs. The course is designed to enable future managers and human resource professionals to utilize effective strategies for managing the single largest controllable expense for organizations; employee pay and benefits. (Cross-listed with BSAD 8146).
Prerequisite(s): MGMT 3490 and MGMT 4030 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4030 HUMAN RESOURCE MANAGEMENT (3 credits)
This course is a comprehensive review of human resource management concepts and practices. The course is designed to educate future managers and leaders on the importance of utilizing effective human resource methods that comply with federal laws and provide the organization with high-quality talent that provides a competitive advantage. (Cross-listed with BSAD 8136).
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor. Not open to non-degree graduate students.

MGMT 4040 MANAGING BEHAVIOR IN ORGANIZATIONS (3 credits)
In this course students will learn the knowledge and skills necessary to effectively manage and lead others. The discussion and application of topics such as leadership, motivation and attitudes will provide a theoretical grounding in these areas and the opportunity to practice applying these concepts to real-world problems.
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor. Not open to non-degree graduate students.

MGMT 4050 MANAGERIAL DECISION MAKING (3 credits)
This course will provide students with the opportunity to learn, understand, and apply techniques for effective individual and organizational problem solving. The students will interactively participate in generating, prioritizing and organizing their ideas in order to become better managerial decision-makers/problem solvers.
Prerequisite(s): MGMT 3490 with a C, or a 2.5 GPA, or permission of instructor.

MGMT 4060 HEALTHCARE ANALYTICS FOR BUSINESS (3 credits)
This course will focus on the use of analytics to develop key performance indicators that integrate and evaluate clinical, administrative, and financial performance. Key concepts in this course will include information management, performance metrics, data visualization, and communication of results across the healthcare ecosystem. Specific topics will include health outcomes analysis, financial performance, developing an analytics strategy, data quality and governance, and the four stages of actionable intelligence. (Cross-listed with BSAD 8066, SCMT 4060).
Prerequisite(s): MGMT 3490 or SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

MGMT 4090 MANAGING COLLABORATIVE ENGAGEMENT (3 credits)
This course will provide students with the opportunity to develop knowledge and strategies for leading teams, enhancing collaboration, building consensus, problem solving in teams, facilitating group processes, and designing collaborative workspaces. (Cross-listed with BSAD 8096, ITIN 4090).
Prerequisite(s): Junior standing or permission of instructor.
MGMT 4100 MANAGING CHANGE AND INNOVATION (3 credits)
This course is designed to increase students' understanding and knowledge of how organizations are designed and structured in order to create value, obtain competitive advantage, and respond innovatively to changing environments.
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4110 STAFFING THE ORGANIZATION (3 credits)
This course is a comprehensive review of issues and techniques related to the acquisition of high-quality human resources for optimal organizational effectiveness. The course is designed to enable future managers and human resource professionals to utilize effective strategies for recruiting, selecting, placing, and integrating new employees into the organization's workforce. (Cross-listed with BSAD 8166).
Prerequisite(s): MGMT 3490 and MGMT 4030 with a C+ or better and a 2.5 GPA; or permission of instructor. Students are encouraged to take MGMT 4220 prior to taking this course.

MGMT 4120 TALENT DEVELOPMENT (3 credits)
This course is a comprehensive review of the theory and practice of developing and implementing cost-effective employee training and development programs to optimize human capital effectiveness in modern organizations. The course is designed to enable future managers and human resource professionals to utilize effective strategies for assessing employee training needs and developing appropriate solutions to maximize talent utilization. (Cross-listed with BSAD 8156).
Prerequisite(s): MGMT 3490 and MGMT 4030 with a C+ or better and a 2.5 GPA; or permission of instructor.

MGMT 4150 GLOBAL BUSINESS MANAGEMENT (3 credits)
The purpose of this course is to explore management theory and practice from an international or cross-cultural perspective to gain an appreciation for the complexities of managing in diverse cultural, political and economics environments. Specific emphasis is placed on studying the challenges of management and organization in multinational corporations.
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA, or permission of instructor.

MGMT 4220 EMPLOYMENT LAW (3 credits)
This course is a comprehensive review of the legal framework in human resource management practice. The course is designed to prepare future managers and human resource professionals for the myriad legal issues involved in the employer-employee relationship and what is required for effective compliance. (Spring)
Prerequisite(s): MGMT 3490 with a C+ or better, MGMT 3510 or MGMT 4030 with a C(2.0) or better, and a 2.5 GPA; or permission of instructor.

MGMT 4230 LEARNING TO LEAD (3 credits)
The course provides an introduction to applied leadership concepts and practices. Students are given a background into systematic decision-making processes, and then are introduced to cases of how actual leaders think and solve problems. Building on these foundational models, students learn how to perform problem solving requirements they will experience as managers. Finally, it concludes with a look at psychological biases and traps that may affect decision-makers.
Prerequisite(s): MGMT 3490 with a C or better, a minimum cumulative GPA of 2.5, or permission of instructor. Not open to non-degree graduate students.

MGMT 4330 PROJECT MANAGEMENT (3 credits)
This course will focus on the planning and execution of complex projects within an organization. Students will learn how to conduct stakeholder analysis, plan the scope of a project, develop a project budget, lead a project team, and define the steps necessary to bring a complex project to a successful conclusion. Students will recognize how the strategy, structure, and culture of an organization can be used to identify and prioritize complex projects. (Cross-listed with SCMT 4330, BSAD 8336)
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of the instructor. Not open to non-degree graduate students.

MGMT 4440 MANAGEMENT OF QUALITY AND PROCESS IMPROVEMENT (3 credits)
Major topics in this course include TQM, process reengineering, process improvement, and tools and techniques to formulate, change and implement these concepts in organizations. Students can develop their knowledge and skills to apply these concepts in organizations through the applied orientation of this course. (Cross-listed with SCMT 4440).
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4450 MANAGERIAL NEGOTIATION STRATEGIES (3 credits)
This course introduces students to the theory and practice of negotiation. The ability to negotiate successfully rests on a combination of analytical and interpersonal skills. In this course we will develop a set of conceptual frameworks that should help students better analyze negotiations in general and prepare more effectively for future negotiations in which they may be involved. This course is designed to help students better understand the theories, processes, and practices of negotiation, as well as conflict resolution and relationship management so that students can be more effective negotiators in a wide variety of situations. (Cross-listed with SCMT 4450, BSAD 8456)
Prerequisite(s): MGMT 3490 with a grade of C or above, at least a cumulative GPA of 2.5, or permission of instructor.

MGMT 4480 CORPORATE AND BUSINESS STRATEGY (3 credits)
A comprehensive study of the analytical techniques and managerial tasks associated with developing, executing and monitoring a strategic course of action for medium to large firms. The interrelationships between the functional business areas will be stressed using a combination of contemporary readings, business cases, team projects or computerized situations.
Prerequisite(s): Must be a graduating senior, have a declared major in BSBA program, 2.5 cumulative GPA, MGMT 3200 or MKT 3200, MGMT 3490, MKT 3310, FNBK 3250 with a "C" (2.0) or better.

MGMT 4500 SPECIAL PROBLEMS IN MANAGEMENT (1-3 credits)
This is an independent study course in which the student completes a focused project in the field of management, human resource management, international business, supply chain management, or entrepreneurship under faculty supervision.
Prerequisite(s): MGMT 3490 C+ or better, 2.5 GPA; permission of program chair; junior/senior standing; must obtain agreement from a faculty member to supervise; submit completed Special Problems contract to MGMT Dept chairperson. Forms in CBA advising office.

MGMT 4510 MANAGEMENT INTERNSHIP (1-3 credits)
Students engage in part time employment in the management discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general management or a specialization within the domain (i.e. strategy, production/operations, project management, planning, organizing, leading, or controlling).
Prerequisite(s): MGMT 3490 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MGMT 4520 HUMAN RESOURCES MANAGEMENT INTERNSHIP (1-3 credits)
Students engage in part time employment in the human resource management discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general human resource management or a specialization within the domain (i.e. staffing, training, employee relations).
Prerequisite(s): MGMT 4030 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MGMT 4610 APPLIED LEADERSHIP FOR MANAGERS (3 credits)
The course provides an introduction to applied leadership concepts and practices by providing students with the knowledge and skills necessary to solve problems and make decisions as leaders.
Prerequisite(s): Completion of at least 30 credit hours and a minimum 3.3 GPA. Not open to non-degree graduate students.
MGMT 4690 EMERGING TECHNOLOGY AND INNOVATION (3 credits)
This course equips entrepreneurially-minded students with a more complete range and vision of the viability of various startup opportunities (with a specific focus on innovative technologies and innovative business models). Students will become familiarized with the new and emerging technologies and innovations that define modern industries and product categories, as well as the various shifts in the way cutting-edge business gets done, regardless of industry. (Cross-listed with ENTR 4690, BSAD 8696).
Prerequisite(s): Junior standing or higher; 2.75 minimum GPA; or permission of instructor

MGMT 4720 INNOVATION VENTURES (3 credits)
This team-based course provides students with the opportunity to practice the basic tools of business discovery and validation, both as an instrument for new venture formation and as a core capability for addressing challenges in competitive landscapes. As such, the course lies at the intersection of innovation, entrepreneurship and strategy. Students will develop practical experience by experimenting with and refining business ideas. (Cross-listed with BSAD 8726, ITIN 4720, ITIN 8256, ENTR 4720, MKT 4720).
Prerequisite(s): ENTR 3710 and junior standing or above or by instructor permission

MGMT 4960 CROSS-SECTOR COLLABORATIVE LEADERSHIP CAPSTONE (3 credits)
This is a capstone course that prepares students to be effective leaders in the 21st century. This course is the final leadership course in the Cross-Sector Collaborative Leadership minor. This minor requires a capstone project that encompasses the student's knowledge and training. It is designed to provide an applied service-learning opportunity for students. (Cross-listed with PA 4960).
Prerequisite(s): Must be completing Cross-Sector Collaborative Leadership Minor. Not open to non-degree graduate students.

MGMT 8116 STAFFING THE ORGANIZATION (3 credits)
This course is a comprehensive review of issues and techniques related to the acquisition of high-quality human resources for optimal organizational effectiveness. The course is designed to enable future managers and human resource professionals to utilize effective strategies for recruiting, selecting, placing, and integrating new employees into the organization's workforce. (Cross-listed with MGMT 4110).
Prerequisite(s): BSAD 8136 or permission of instructor.

Marketing

MKT 2210 SURVEY OF MARKETING (3 credits)
This course is designed for any student who has an interest in marketing and focuses on basic product and services marketing as well as digital and social media marketing.

MKT 3100 PROFESSIONAL SELLING (3 credits)
This course focuses on professional selling and relationship marketing principles and practices. A variety of personal and direct sales techniques, psychology, and application of personal communication theory will be applied. Role-plays and presentations will be utilized to help students learn and execute the sales process model.
Prerequisite(s): ENGL 1160 with ‘C’ (2.0) or better and GPA of 2.3 or better; or permission of instructor.

MKT 3200 BUSINESS COMMUNICATIONS (3 credits)
This course develops business communication skills such as selecting and using appropriate technologies for reaching intended audiences. Students will practice effective explanatory, narrative, persuasive, and investigative writing in the context of business communication.
Prerequisite(s): ENGL 1160 and CMST 1110, each with a grade of "C" (2.0) or better; 2.5 GPA.

Distribution: Writing in the Discipline Single Course

MKT 3310 PRINCIPLES OF MARKETING (3 credits)
An examination of marketing functions and the institutions which perform them, choice of criteria for marketing strategy decisions, marketing structural relationships, and the role of marketing in society.
Prerequisite(s): ECON 2200, MATH 1310 or MATH 1220, ENGL 1160, and MKT 3200 or MKT 3200 all with ‘C’(2.0) or better, and 2.5 GPA.

MKT 3320 CONSUMER BEHAVIOR (3 credits)
Consumers purchase, use, experience, and dispose of products and services as part of their consumption process. How and why consumers choose various brand options, form judgments about these brands, and decide which options to buy and/or re-buy are essential knowledge for marketing professionals. The course covers the psychological and social issues that guide consumption decisions. (Cross-listed with BSAD 8345).
Prerequisite(s): MKT 3310 with ‘C-’ or better; 2.5 GPA or better; or permission of instructor.

MKT 3340 CHANNELS OF DISTRIBUTION (3 credits)
Channels management focuses on the associations of businesses and the performance of required functions making products and services available to end users when and where buyers demand them. Attention is paid to how intermediaries (e.g. wholesalers and retailers) interact and organize an efficient system to ensure that products and services are available in proper quantities and on time for consumers.
Prerequisite(s): MKT 3310 with ‘C-’ or better; and GPA of 2.5 or better; or permission of instructor.

MKT 3350 MARKETING SERVICE PRODUCTS (3 credits)
This elective explores how intangibility forces customers to evaluate service products differently, creating more challenges for marketers. The course is based on the premise that financial benefits reward services that provide value to customers, and develops strategies for creating value.
Prerequisite(s): MKT 3310 with a ‘C-’ or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 3360 DIGITAL MARKETING COMMUNICATIONS (3 credits)
This course is designed to familiarize students with digital marketing concepts and applications. It provides a detailed understanding of relevant digital channels and platforms that companies use as part of their marketing mix. The course is structured to guide students through paid, earned, and owned digital media as part of a comprehensive digital marketing communications strategy. The course employs a mixture of lecture, discussion, simulation games, and sponsored consulting projects with real-world companies.
Prerequisite(s): MKT 3310 with ‘C-’ or better and GPA of 2.5 or better; or permission of instructor.

MKT 3370 SOCIAL MEDIA MARKETING (3 credits)
This course is designed to familiarize students with social media marketing concepts and applications. It provides a detailed understanding of relevant social media channels and platforms that companies use as part of their marketing mix. Students will apply their knowledge from class by completing several in-class exercises as well as graded assignments. The course employs a mixture of lecture, discussion, simulation games, and sponsored consulting projects with real-world companies.
Prerequisite(s): Completion of MKT 3310 with a C+ or better.

MKT 3380 INTERNATIONAL MARKETING (3 credits)
A study of the processes, procedures, characteristics and environments for goods and services in foreign market places. Reference is drawn to the theories and concepts of domestic marketing to appraise their applicability to international markets. Considerable attention is given to the features of the foreign market environments which both facilitate the marketing processes, inhibit them, and require strategies and tactics of accommodation.
Prerequisite(s): MKT 3310 with ‘C-’ or better; GPA of 2.5 or better.
MKT 3390 GRAPHIC DESIGN FOR MARKETERS (3 credits)
The course provides a hands-on introduction to the concepts and tools used in graphic design to create marketing communications. Material and assignments will focus on how design supports marketing communication strategy. Students will learn the principles and vocabulary of design, how to critique graphic design, and how to create basic print materials. Students will learn and practice the skills necessary to communicate with graphic designers and advertising professionals in order to successfully implement marketing strategies.
Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better.

MKT 3400 MARKETING INNOVATION (3 credits)
Product, service, and process innovation are essential drivers of firm performance. However, firms face considerable and complex challenges when bringing innovative ideas to life. For example, what marketing research methods should we employ to uncover vital consumer insights? How do these insights influence the development and launch of new products and services? What differentiated value are we delivering to our consumers? How do we successfully bring this new product or service to market? How does a brand's purpose and personality influence consumers' perceptions, purchase decisions, adoption, and engagement? This course will cover key marketing principles involved in the development and launch of new and innovative products and services - from conception to commercialization. Furthermore, we will explore how new-age technologies impact each stage of the development and launch processes. (Cross-listed with BSAD 8435).
Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better; or permission of instructor.

MKT 3410 INTRODUCTION TO SUPPLY CHAIN MANAGEMENT (3 credits)
Supply chain management is the design and management of business processes within and across organizational boundaries to meet the needs of the end customer. The overall goal of this course is to provide students with an understanding of present day issues and policies related to establishing a sustainable competitive advantage through efficient use of resources and collaboration with external business partners. Students will develop critical thinking skills focused on business process analysis and the use of key performance indicators. (Cross-listed with SCMT 3410, MGMT 3410).
Prerequisite(s): Sophomore standing; GPA of 2.0 or better; or by permission of instructor. Not open to non-degree graduate students.

MKT 3600 BUSINESS ETHICS (3 credits)
Students will learn about the factors, opportunities and pressures that lead to ethical dilemmas, and will develop their understanding of foundations and processes that encourage and reward ethical decision making and behaviors. Lots of examples, sourced from case studies and current events will be provided. (Cross-listed with BSAD 3600, MGMT 3600).
Prerequisite(s): Junior classification (minimum of 58 earned credit hours) with a minimum 2.5 cumulative GPA. Completion of MGMT 3200 or MKT 3200 with a minimum grade of "C" (2.0). Not open to non-degree graduate students.

MKT 3610 BUSINESS TO BUSINESS MARKETING (3 credits)
This course examines the decisions involved in marketing goods and services to the industrial buyer as opposed to the consumer buyer. Buyer motivation, promotion decisions, channel decisions, product development and pricing policies involved in the marketing of industrial goods are considered.
Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better; or permission of instructor

MKT 4000 SPECIAL TOPICS IN MARKETING (3 credits)
This special topics course will address specific topics which will vary by semester and is intended primarily for upper division students who are pursuing a marketing or sales concentration.
Prerequisite(s): MKT 3310 plus 6 hours of Marketing, all with 'C+' or better; GPA of 2.5 or better; or permission of instructor.

MKT 4200 CONSULTATIVE SELLING PRINCIPLES (3 credits)
The primary focus of the Consultative Selling Principles course is to develop the behaviors, methodologies, principles, and processes required to successfully lead and manage complex selling initiatives to a win-win close. The course examines and applies, through role playing and other activities, the critical relationship building, critical thinking, problem solving, listening and negotiating capabilities which are the foundation skills underlying consultative selling. (Cross-listed with BSAD 8206)
Prerequisite(s): MKT 3310 with 'C+' or better; MKT 3100 with C+ or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4210 SELLING FINANCIAL SERVICES (3 credits)
Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with BSAD 8216, FNBK 4210).
Prerequisite(s): MKT 3310 with a C+ or better grade and 2.5 GPA. Not open to non-degree graduate students.

MKT 4220 GLOBAL STRATEGIC ACCOUNT MANAGEMENT (3 credits)
Throughout this course, the management of strategic account programs at national, multi-country, and global levels will be addressed. The primary focus of the curriculum is on the critical success factors for driving revenue, sustainable long term-growth and profitability with a base of core strategic buyers. (Cross-listed with BSAD 8226)
Prerequisite(s): Senior or graduate student standing and permission of the instructor. Not open to non-degree graduate students.

MKT 4300 MARKETING MANAGEMENT (3 credits)
This case study course examines product, price, promotion and channel of distribution policies. Major emphasis is placed on analysis of marketing problems and the facets of making marketing decisions.
Prerequisite(s): MKT 3310 with grade of "C+" or better plus 6 hours of marketing, all with 'C' (2.0) or better, senior standing; GPA of 2.5 or better; or permission of instructor.

MKT 4320 SALES MANAGEMENT (3 credits)
The student will be exposed to current research findings in sales management and to business cases and simulations where sales management theories and concepts will be applied. This course will prepare students to develop and implement specific compensation, motivation, and evaluation strategies for managing sales professionals across a wide variety of organizations. (Cross-listed with BSAD 8326).
Prerequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4340 MARKETING RESEARCH (3 credits)
Application of analytical tools to marketing problems including markets, products, distribution channels, sales efforts and advertising. Emphasis on planning, investigation, collection, interpretation of data and presentation of results.
Prerequisite(s): MKT 3310 with 'C+' or better; BSAD 2130 or BSAD 3140 or BSAD 3160 with 'C' (2.0) or better; GPA of 2.5 or better; or permission of instructor.

MKT 4360 E-MARKETING (3 credits)
This course focuses on utilizing the Internet as a marketing platform. Course content includes discussion of how the Internet is used by businesses for designing products, pricing, promotions, distribution, positioning, gathering information, and cultivating relationships with stakeholders. The discussion about the rise of social media, sharing economy, virtual reality devices, and other relevant trends will also be part of the course. (Cross-listed with BSAD 8366).
Prerequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.
MKT 4370 MARKETING ANALYTICS (3 credits)
This course focuses on the application of data analytics in marketing decision making (e.g., segmentation, sales forecasting, and resource allocation). Students will learn to apply statistics and econometrics to solve marketing problems. Key topics in this course include marketing data visualization, marketing metrics, descriptive and predictive analytics, and digital marketing analytics. This course takes a very hands-on approach with real-world databases and equips students with tools that can be used immediately on the job. (Cross-listed with BSAD 8396).
Prerequisite(s): MKT 3310 with 'C+' or better; BSAD 2130 or BSAD 3140 or BSAD 3160 with 'C' (2.0) or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4380 INDUSTRIAL PURCHASING AND LOGISTICS MANAGEMENT (3 credits)
This course will focus on the strategic procurement of products and services in order to gain a competitive advantage through integrated supply management. Students will learn about strategic supply management, contract negotiation, and supplier quality management. Students will develop an understanding of supplier performance management through the use of supply chain information systems. (Cross-listed with SCMT 4380, BSAD 8386.)
Prerequisite(s): SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

MKT 4420 BUSINESS DEMOGRAPHICS (3 credits)
The goal of this course is to develop a demographic perspective in order to assist in understanding the business environment and business policy. How population change impacts consumer markets and all of the functions (for example, accounting, finance and management) that must exist for these markets to perform. Includes a history of population change and policy as well as a view toward international population considerations. (Cross-listed with BSAD 8426).
Prerequisite(s): MKT 3310 with 'C+' or better; GPA 2.5 or better, Junior Standing; or permission of instructor. Not open to non-degree graduate students.

MKT 4500 SPECIAL PROBLEMS IN MARKETING (1-3 credits)
This course consists of an individual investigation of specific marketing topics under the supervision of a faculty member and could include readings, independent research, and a written research paper.
Prerequisite(s): Principles of Marketing (MKT 3310) with minimum C+ or permission of instructor.

MKT 4510 MARKETING INTERNSHIP (1-3 credits)
Students engage in part-time employment in the marketing discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general marketing or a specialization within the domain (i.e. selling, social media, advertising, market research).
Prerequisite(s): MKT 3310 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MKT 4540 SUPPLY CHAIN MANAGEMENT INTERNSHIP (1-3 credits)
Students engage in part-time employment in supply chain management to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to the field of supply chain management (i.e., purchasing, scheduling, supplier relations, materials management, or logistics). (Cross-listed with SCMT 4540)
Prerequisite(s): MKT-MGMT 3410 Sustainable Supply Chain Management and GPA of 2.5 or better; or by permission of the instructor. Not open to non-degree graduate students.

MKT 4720 INNOVATION VENTURES (3 credits)
This team-based course provides students with the opportunity to practice the basic tools of business discovery and validation, both as an instrument for new venture formation and as a core capability for addressing challenges in competitive landscapes. As such, the course lies at the intersection of innovation, entrepreneurship and strategy. Students will develop practical experience by experimenting with and refining business ideas. (Cross-listed with BSAD 8726, ITIN 4720, ITIN 8256, ENTR 4720, MGM 4720).
Prerequisite(s): ENTR 3710 and junior standing or above or by instructor permission.

MKT 4760 SELLING IN AN ENTREPRENEURIAL CONTEXT (3 credits)
Successful entrepreneurs are able to identify unmet needs in the marketplace and then design and sell products or services that fulfill those needs. Sales effectiveness is essential for entrepreneurs because they must be able to build sustainable sales pipelines that ensure profitable growth while simultaneously addressing other pressing issues including financing, staffing, and product development. This course will focus on consultative solution-based sales fundamentals that can be applied in an entrepreneurial selling environment. (Cross-listed with ENTR 4760, BSAD 8766)
Prerequisite(s): GPA 2.5 or better; MKT 3100 with a "C+" or better; MKT 3310 with a "C+" or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4800 HONORS STUDIES IN MARKETING (3 credits)
A comprehensive examination of marketing as it is practiced among firms representing different industrial sectors. Course objectives include individual inquiry, theoretical applications and limitations, and an increased academic understanding of the discipline of marketing. Only grades 'B' and above will be awarded. Students exhibiting performance below the 'B' level will receive an 'F' for the course. Admission to this course is by invitation only.
Prerequisite(s): Permission of instructor. Senior standing, 3.2 GPA or above, declared business college specialization in MKT or BFIN or MGM or communications (journalism, PR or broadcasting). Not open to non-degree graduate students.

Real Estate and Land Use Economics
RELU 2410 REAL ESTATE PRINCIPLES AND PRACTICES (3 credits)
An introductory survey of real estate principles and practices which introduces the terminology, concepts and basic practices in the fields of real estate law, real estate finance, real estate appraisal, real estate property taxation and miscellaneous topic areas. Note: Students cannot receive credit for both RELU 2410 and RELU 3410.
(No credit is awarded)
RELU 2700 REAL PROPERTY RIGHTS AND OWNERSHIP: OVERCOMING BARRIERS (3 credits)
This course introduces the terminology, concepts and basic practices in the fields of real estate law, real estate finance, real estate appraisal, real estate property taxation and miscellaneous topic areas. Note: Students cannot receive credit for both RELU 2700 and RELU 3410.
(No credit is awarded)

RELU 3410 REAL ESTATE PRINCIPLES AND PRACTICES (3 credits)
This is a survey course in real estate principles and practices, which is designed to familiarize students with industry terminology, current practices, and cover the following topics: Licensure, property rights, legal descriptions, real estate law and contracts, appraisal, financing, investments, Fair Housing, and related topic areas. This course provides foundational knowledge of the real estate field and will prepare students to successfully complete more advanced real estate coursework. NOTE: Students cannot receive credit for both RELU 2410 and RELU 3410. (Cross-listed with BSAD 8605).
RELU 3430 REAL ESTATE BROKERAGE AND SALES (3 credits)
Overview of real estate brokerage and sales principles, to include buying and selling, leasing, brokerage business operations, contracts, closings, legal requirements, Fair Housing, advertising, and career opportunities.
Prerequisite(s): RELU 2410 or RELU 3410.

RELU 3450 PROPERTY MANAGEMENT (3 credits)
This course focuses on commercial and residential property management concepts and their application to the operation, control, and oversight of real property. The course will study leasing, tenant selection and relations, maintenance, marketing, contract management, asset management principles, as well as Fair Housing Laws and the Americans With Disabilities Act as they pertain to property management. (Cross-listed with BSAD 8625).
Prerequisite(s): RELU 2410 or RELU 3410.

RELU 3460 REAL ESTATE LAW (3 credits)
Upper-level survey course in real estate law, which examines estates in land, conveyances, leases, mortgages, easements, zoning, environmental law, contracts, taxes, foreclosures, landlord-tenant relations, agency, Fair Housing, and Nebraska License Law. (Cross-listed with LAWS 3460)
Prerequisite(s): RELU 2410 or RELU 3410.

RELU 4390 REAL ESTATE INVESTMENTS (3 credits)
This course focuses on methods used to analyze existing and proposed commercial and residential real estate investments through dynamic programming models, and explores strategies to finance commercial real estate. The class ultimately prepares students to understand the risks and rewards associated with financing and investing in real estate. (Cross-listed with BSAD 8616).
Prerequisite(s): RELU 2410 or RELU 3410 or FNBK 3250

RELU 4400 RESIDENTIAL REAL ESTATE FINANCE (3 credits)
This course focuses on the methods of financing residential real estate through the examination of various mortgage instruments, mortgage lenders, and the risks associated with leveraging real property. Industry terminology, concepts, best practices, and financial calculations are also presented, as are the influences of governmental policies on the industry. (Fall)
Prerequisite(s): RELU 2410 or RELU 3410

RELU 4410 BASIC APPRAISAL PROCEDURES (3 credits)
Fundamentals of real estate valuation and appraising; factors affecting value; valuing land, valuing improvements and the valuation of special classes of residential property; appraisal practice, depreciation and obsolescence, appraising rules, the mathematics of appraising; an appraisal of a single family residence is required.
Prerequisite(s): RELU 2410 or RELU 3410 AND FNBK 3250 with a C or better

RELU 4420 INCOME PROPERTY APPRAISAL (3 credits)
Introduction to the theory and concepts of income capitalization approaches, methods and techniques to valuation of real estate income property. Characteristics of yield on investment real estate; future income projections; mortgage coefficients; purchase and leaseback reversions; Ellwood Tables; capitalization rates and investment yields; types of annuities; and condemnation appraisal. (Spring)
Prerequisite(s): RELU 2410 or RELU 3410; and FNBK 3250

RELU 4440 REAL ESTATE DEVELOPMENT (3 credits)
This course focuses on the procedures and complexities in developing and redeveloping various commercial property types and mixed-use real estate. Topics include an overview of the real estate development process, assembling a team, identifying project stakeholders, financial analysis, site selection, market analysis, and the regulatory environment. (Cross-listed with BSAD 8626).
Prerequisite(s): RELU 2410 or RELU 3410 with a grade of B or above, and a cumulative GPA of 3.0 or better, or permission of Real Estate Program Director.

RELU 4460 COMMERCIAL REAL ESTATE FINANCE (3 credits)
A foundation course in commercial real estate finance including legal, analytical, institutional and governmental aspects.
Prerequisite(s): RELU 2410 and FNBK 3250

RELU 4500 REAL ESTATE INDEPENDENT STUDY (1-3 credits)
Individual investigation of specific issues or problems in real estate.
Prerequisite(s): Permission of Real Estate Program Director.

RELU 4510 REAL ESTATE INTERNSHIP (1-3 credits)
Students will engage in an applied experience in their area of specialization to gain relevant industry experience and to practice the skills and concepts learned in the classroom. Student reports on the internship experience and an employer’s evaluation of the student’s performance are course requirements. RELU 4510 may be taken for a maximum of 3 credits. (Fall, Spring, Summer)
Prerequisite(s): Permission of Department Internship Coordinator.

Supply Chain Management
SCMT 3000 MANAGERIAL ACCOUNTING FOR SUPPLY CHAIN MANAGEMENT (3 credits)
This course highlights the important role of a managerial accountant in managing a global supply chain and covers the key accounting techniques for supply chain management. (Cross-listed with ACCT 3000)
Prerequisite(s): ACCT 2020 with a grade of C (2.0) or better or ACCT 2000 with a grade of C (2.0) or better and cumulative GPA of 2.5 or higher. ENGL 1160 with a grade of ‘C’ (2.0) or better or concurrent enrollment in ENGL 1160. Not open to non-degree graduate students.

SCMT 3410 INTRODUCTION TO SUPPLY CHAIN MANAGEMENT (3 credits)
Supply chain management is the design and management of business processes within and across organizational boundaries to meet the needs of the end customer. The overall goal of this course is to provide students with an understanding of present day issues and policies related to establishing a sustainable competitive advantage through efficient use of resources and collaboration with external business partners. Students will develop critical thinking skills focused on business process analysis and the use of key performance indicators. (Cross-listed with MGMT 3410, MKT 3410).
Prerequisite(s): Sophomore standing; GPA of 2.0 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 3500 MANAGING OPERATIONS IN THE SUPPLY CHAIN (3 credits)
The course is designed to introduce students to strategic decisions in manufacturing and service operations. Students will learn how operations integrate all other business processes for competitive advantage. The course covers current applications of quality concepts, business process reengineering, supply-chain management, lean systems, and ERP systems for business operations efficiency and effectiveness.
Prerequisite(s): BSAD 2130 or 3160, ENGL 1160/ENGL 1164 or concurrent enrollment in ENGL 1160/1164 each with “C” or better and 2.5 GPA

SCMT 4060 HEALTHCARE ANALYTICS FOR BUSINESS (3 credits)
This course will focus on the use of analytics to develop key performance indicators that integrate and evaluate clinical, administrative, and financial performance. Key concepts in this course will include information management, performance metrics, data visualization, and communication of results across the healthcare ecosystem. Specific topics will include health outcomes analysis, financial performance, developing an analytics strategy, data quality and governance, and the four stages of actionable intelligence. (Cross-listed with BSAD 8066, MGMT 4060).
Prerequisite(s): MGMT 3490 or SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.
SCMT 4070 INTERNATIONAL LOGISTICS MANAGEMENT (3 credits)
This course will focus on the logistics of international trade and how managers facilitate the flow of goods and services in import and export environments. Students will learn about infrastructure and business practices needed to manage international transportation, communications, services, and regulatory requirements. Students will develop an understanding of international terms of trade, transaction risk management, and location decisions for placement of warehouses and distribution centers. (Cross-listed with BSAD 8076).
**Prerequisite(s):** SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4160 INTRODUCTION TO ENTERPRISE RESOURCE PLANNING (3 credits)
Introduction to Enterprise Resource Planning (ERP) is designed to expose students to the primary enterprise application that forms the information systems (IS) infrastructure for most large organizations today. The primary purpose of this course is for students to gain an understanding of the enterprise-wide, cross-functional nature of ERP software. In the process of learning about ERP systems, the students develop "hands on" experience with the largest and most well-known ERP application, SAP. (Cross-listed with ISQA 4160, ISQA 8166)
**Prerequisite(s):** CIST 2100 or equivalent. Not open to non-degree graduate students.

SCMT 4170 EMERGING TRENDS IN SUPPLY CHAIN MANAGEMENT (3 credits)
This course will focus on megatrends influencing supply chain management and design in the 21st century. Key concepts in this course will include contemporary opportunities and challenges in creating customer value via the supply chain with a focus on globalization, sustainability, and risk management. Specific topics will include the influence of the empowered customer on supply chain design, global supply chain trends, and the need for integration of technology and talent to create a competitive advantage. (Cross-listed with BSAD 8176).
**Prerequisite(s):** SCMT 3410/MKT 3410/MGMT 3410 Sustainable Supply Chain Management; Cumulative GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4330 PROJECT MANAGEMENT (3 credits)
This course will focus on the planning and execution of complex projects within an organization. Students will learn how to conduct stakeholder analysis, plan the scope of a project, develop a project budget, lead a project team, and define the steps necessary to bring a complex project to a successful conclusion. Students will recognize how the strategy, structure, and culture of an organization can be used to identify and prioritize complex projects. (Cross-listed with MGMT 4330, BSAD 8336)
**Prerequisite(s):** MGMT3490 with a C or better and a 2.5 GPA; or permission of the instructor. Not open to non-degree graduate students.

SCMT 4350 GLOBAL SOURCING AND INNOVATION (3 credits)
This course focuses on global suppliers as partners in the development and commercialization of new products. Students will learn about open innovation and the integration of internal and external business systems in new product innovation. Students will develop an understanding of regulatory policies related to information sharing and the intellectual property rights of buyers and suppliers. (Cross-listed with BSAD 8356).
**Prerequisite(s):** SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4370 SUPPLY CHAIN ANALYTICS (3 credits)
This course focuses on integrating supply chain management through the use of key performance indicators. Key concepts in this course include data visualization, supplier performance metrics, service-dominant logic, and the supply chain for data. Specific topics include the influence of the empowered customer on supply chain metrics, using metrics to develop a competitive advantage, data-driven decision making, and the four stages of actionable intelligence. (Cross-listed with BSAD 8376).
**Prerequisite(s):** SCMT 3410 with a grade of C or above, at least a cumulative GPA of 2.5, or permission of instructor. Not open to non-degree graduate students.

SCMT 4380 INDUSTRIAL PURCHASING AND LOGISTICS MANAGEMENT (3 credits)
This course will focus on the strategic procurement of products and services in order to gain a competitive advantage through integrated supply management. Students will learn about strategic supply management, contract negotiation, and supplier quality management. Students will develop an understanding of supplier performance management through the use of supply chain information systems. (Cross-listed with MKT 4380, BSAD 8386)
**Prerequisite(s):** SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4440 MANAGEMENT OF QUALITY AND PROCESS IMPROVEMENT (3 credits)
Major topics in this course include TQM, process reengineering, process improvement, and tools and techniques to formulate, change and implement these concepts in organizations. Students can develop their knowledge and skills to apply these concepts in organizations through the applied orientation of this course. (Cross-listed with MGMT 4440).
**Prerequisite(s):** MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

SCMT 4450 MANAGERIAL NEGOTIATION STRATEGIES (3 credits)
This course introduces students to the theory and practice of negotiation. The ability to negotiate successfully rests on a combination of analytical and interpersonal skills. In this course we will develop a set of conceptual frameworks that should help students better analyze negotiations in general and prepare more effectively for future negotiations in which they may be involved. This course is designed to help students better understand the theories, processes, and practices of negotiation, as well as conflict resolution and relationship management so that students can be more effective negotiators in a wide variety of situations. (Cross-listed with MGMT 4450, BSAD 8456)
**Prerequisite(s):** MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

SCMT 4460 SUPPLY CHAIN INTEGRATION (3 credits)
This course will focus on the integration of internal and external systems designed to maximize the efficiency and effectiveness of supply chain networks developed by industrial organizations, government agencies, and not-for-profit organizations. Key concepts will include supply chain design, trends in technology, and cross-functional collaboration, coordination, and communication along the value chain. Specific topics will include the influence of empowered customers on supply chain integration, global supply chain trends, closed-loop supply chains, and the challenges and benefits of integrating technology and talent in the workplace. (Cross-listed with BSAD 8466).
**Prerequisite(s):** SCMT 3410/MKT 3410/MGMT 3410 Sustainable Supply Chain Management; Cumulative GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.
SCMT 4540 SUPPLY CHAIN MANAGEMENT INTERNSHIP (1-3 credits)
Students engage in part-time employment in supply chain management to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to the field of supply chain management (i.e., purchasing, scheduling, supplier relations, materials management, or logistics). (Cross-listed with MKT 4540).
Prerequisite(s): SCMT 3410, GPA of 2.5 or better, AND permission of instructor. Not open to non-degree graduate students.

BSBA as a Second Bachelor's Degree
A student who has already earned a bachelor’s degree (other than a business degree) may earn the BSBA by completing the following requirements:

• Business GPA of 2.50 or above
• Cumulative GPA of 2.50 or above
• GPA of 2.50 or above for all upper division accounting courses (excluding ACCT 3000, ACCT 4500, and ACCT 4510) for the accounting concentration and secondary concentration
• Must earn a "C" or better in classes, for it to count towards the degree

Typically 61-66 hours are required for students who have no business courses completed.

Concentration Requirements

Courses taken as part of the first bachelor’s degree will be evaluated regarding satisfaction of these requirements.

• Students who have previously earned a business degree cannot earn a second business degree. These individuals may complete a second concentration in business by completing all of the requirements listed under their new concentration as well as all necessary prerequisites for those courses.

International Business Concentration
A concentration in International Business (18) provides students with the knowledge, skills and experience necessary for successful careers in the global business environment. BSBA students must combine the International Business Concentration with another BSBA Concentration. With this preparation, graduates will be prepared for employment in many manufacturing, service, or knowledge-based industries with international markets, international suppliers, international sources of finance, or an internationally diverse workforce.

For this concentration, students complete a total of eighteen (18) credit hours, including fifteen (15) credit hours in required courses, and three (3) credit hours in electives. The completion of specified courses in international business may be applied toward the course requirements in other concentration areas.

Total Credits 18

Special Topics in Marketing and Management with a global emphasis will also be offered on a regular basis.

Secondary Concentration in International Business
A secondary concentration in international business is an option that enables BSBA students to add an international business focus to their primary BSBA concentration area.

Students must complete BSAD 2700 and nine (9) of courses representing three different areas in the College of Business Administration. In other words, students must choose three (3) courses from three (3) different areas.

1. Requires placement from UNO’s English Placement and Proficiency Exam.
2. Requires placement from ACT/SAT scores, UNO’s Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.
3. For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160
4. For this requirement students must choose from an approved list of International Business Elective classes. (See DegreeWorks for approved options)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines [https://www.unomaha.edu/general-education/overview/index.php](https://www.unomaha.edu/general-education/overview/index.php).

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php).

**Business Analytics Minor for Non-Business Majors**

**Business Analytics Minor for Non-Business Majors**

The Business Analytics Minor for Non-Business majors is intended to provide knowledge in business analytics to students outside of the College of Business Administration. Because these skills are valuable across all business fields, and to anyone who intends to use quantitative analysis to improve their decision-making, the Business Analytics Minor for Non-Business majors provides the flexibility to combine these skills with any major on campus.

Logistics & Supply Chain Management for Non-Business Majors Minor

Requirements

A minor in logistics & supply chain management is offered for students outside the College of Business and may be obtained by completing fifteen (15) credit hours. A grade of C (2.0) or better is required in each course to be applied to the minor, and an overall GPA within the minor of 2.5 is required to earn the minor. A minor in logistics & supply chain management is not offered for business majors.

Accounting

Mission Statement

The UNO School of Accounting leverages its distinctive metropolitan position to:

• Prepare students for professional accounting and business careers by delivering AACSB Accounting Accredited and IMA Endorsed BSBA-Accounting and Master of Accounting programs,
• Create and disseminate knowledge that impacts students, the academy, and business professionals by engaging in relevant scholarly activities, and
• Enrich relationships among students, faculty, and business professionals in the Omaha region by providing and supporting engagement opportunities.

The UNO School of Accounting has earned supplemental accounting accreditation by the AACSB International (Association to Advance Collegiate
The UNO School of Accounting has received the IMA Endorsement of Higher Education from the Institute of Management Accountants for its management accounting curricula. UNO's accounting programs meet the educational standards enabling students to pursue the Certified Management Accountant (CMA) credential and careers in private and public accounting. Information about the IMA's endorsement program is available here (https://www.imanet.org/educators/higher-education-endorsement-program/tpssopc=1).

The UNO School of Accounting is recognized by the Institute of Internal Auditors (IIA) as an IIA Internal Audit Awareness Program School, acknowledging our inclusion of internal auditing concepts in auditing courses. See information about the this IIA program here (https://www.theiia.org/en/about-us/initiatives-and-awards/academic-relations/internal-audit-academic-awareness-program/).

Accounting students have the opportunity to acquire an excellent accounting education from faculty members who use appropriate and varied teaching methodologies and who incorporate the most recent developments in their discipline into the curriculum. Accounting instructors seek to create an environment which maximizes the development of critical skills such as problem solving, analysis, technology agility, communication and teamwork. Students are strongly encouraged to continue their professional development and to enhance their careers by seeking a Master of Accounting or other graduate degree and one or more professional certifications or designations. Well-recognized and valued accounting certifications include the Certified Public Accountant (CPA), the Certified Management Accountant (CMA), the Certified Internal Auditor (CIA), the Certified Fraud Examiner (CFE), and the Certified Information Systems Auditor (CISA).

Nebraska applicants for the CPA Exam are required to have completed at least 150 college semester credit hours. UNO students can meet the CPA Exam educational requirements with a minimum of 150 credit hours by completing the BSBA-Accounting degree (120 hours) and the Master of Accounting (MAcc) degree (30 hours) at UNO. Complete information on the MAcc degree program is available online (https://www.unomaha.edu/college-of-business-administration/accounting/graduate-program/) or in the UNO graduate catalog. A student can complete both degree programs in five years. Additional information about the undergraduate accounting program, including links to professional associations and certification resources, is available online (https://www.unomaha.edu/college-of-business-administration/accounting/).

The School of Accounting does not offer a certificate program. BSBA degree candidates may earn a concentration in accounting, and BSBA degree candidates earning a concentration in other business areas may earn a secondary concentration in accounting. A student who has previously earned a business degree cannot earn a secondary business degree but may complete an accounting concentration as a second concentration to complement that previous business degree by completing all of the accounting concentration course and GPA requirements (including all necessary course prerequisites). A student who has previously earned a non-business bachelor’s degree and who completes all of the accounting concentration course and GPA requirements does not earn a business degree, an accounting concentration, a secondary concentration, or a certificate in accounting; that student’s transcript lists the courses completed and grades earned.

Special Requirements

Course-related items:
1. Students interested in taking the CPA Exam in Nebraska must complete ACCT 4070.
2. Students pursuing an accounting concentration who complete ACCT 3080 with a grade of C or better are not required to take the business core course MGMT 3100.

Concentration-related items:
• A student may enroll only twice in any upper-division accounting course. You are enrolled in a course if your name appears on the final class list published immediately after drop/add week. Therefore, you may drop a course only one time (excluding drops during drop/add week). If you drop the same course twice (or receive any grade below a C twice), you will not be permitted to enroll in this course a third time.
• A minimum GPA of 2.50 overall is required for enrollment in any upper-division (3000-level or 4000-level) accounting course.
• Accounting courses at the 4000-level also require a minimum GPA of 2.50 in all upper-division UNO accounting courses successfully completed to date (excluding ACCT 3000, ACCT 4500, and ACCT 4510).
• Students who wish to contract to take upper-division accounting courses as “honors” courses should contact the course instructor.

Accounting study at UNO provides the skills for many diverse career choices in the accounting field as well as an excellent foundation to pursue CPA, CMA, and other types of certifications. Accounting career options include professional positions in the areas of auditing and information systems, financial accounting, management accounting, and taxation. The School of Accounting offers Power Lunches and the annual Accounting Careers Expo as part of its Accounting Careers Program for students to explore diverse accounting career paths and to engage with accounting professionals. The School of Accounting's Accounting Career Advisor and Internship Coordinator mentors and advises students and provides guidance for internships and other career opportunities.

Student Groups

Beta Alpha Psi

Beta Alpha Psi (BAP) is an honor organization for financial information students and practicing professionals. The primary objective of Beta Alpha Psi is to encourage and give recognition to scholastic and professional excellence. This includes promoting the study and practice of accounting, finance, and information systems; providing opportunities for self-development, service and the association of members with practicing professionals; and encouraging a sense of ethical, social and civic responsibility. Membership into Beta Alpha Psi is based on scholastic achievement.

• Accounting Concentration (p. 389)

Secondary Concentrations Offered

• Secondary Concentration in Accounting (p. 389)

Accounting

• Billing Clerk
• Bookkeeper
• Chief Financial Officer
• Collections Clerk
• Controller
• Cost Accountant
• General Accountant
• Internal Auditor
• Inventory Analyst
• IT Auditor
• Payroll Clerk
• Public Accountant
• Purchasing Manager
• Tax Accountant
• Treasurer

ACCT 2000 ACCOUNTING BASICS FOR NON-BUSINESS MAJORS (3 credits)

This course is designed to provide non-business students with an understanding of basic accounting terms and concepts, an understanding of the usefulness of accounting data for decision-making by internal and external business stakeholders, and the skills to actually use accounting data in decision-making.

Prerequisite(s): Student must be a non-business student. ENGL 1150 and MATH 1310 or MATH 1220 with 'C' (2.0) or better. Not open to non-degree graduate students

Distribution: Social Science General Education course

ACCT 2010 PRINCIPLES OF ACCOUNTING I (3 credits)

Basic concepts and assumptions underlying financial accounting; basic structure of accounting; the accounting cycle; external financial statements of the enterprise with emphasis on the corporation; income determination; accounting for and reporting of assets, liabilities and owners’ equity; analysis and reporting of cash flows; financial statement analysis.

Prerequisite(s): ENGL 1150 with a 'C' (2.0) or better, a GPA of 2.5 or higher, and MATH 1370 or MATH 1930, each with a 'C' (2.0) or better or concurrent enrollment in MATH 1370 or MATH 1930

ACCT 2020 PRINCIPLES OF ACCOUNTING II (3 credits)

A study of techniques and concepts affecting internal accounting in a business organization. These include budgeting in general, costing systems, variance analysis and generating reports for management decision-making. Special topics include segment reporting, control of decentralized operations, capital budgeting, and service department cost allocations.

Prerequisite(s): ACCT 2010, ENGL 1150, and MATH 1370 or MATH 1930, each with a 'C' (2.0) or better, and a GPA of 2.5 or higher.

ACCT 3000 MANAGERIAL ACCOUNTING FOR SUPPLY CHAIN MANAGEMENT (3 credits)

This course highlights the important role of a managerial accountant in managing a global supply chain and covers the key accounting techniques for supply chain management. (Cross-listed with SCMT 3000)

Prerequisite(s): ACCT 2020 with a grade of C (2.0) or better or ACCT 2000 with a grade of C (2.0) or better and cumulative GPA of 2.5 or higher.
ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160. Not open to non-degree graduate students.

ACCT 3020 BASIC FEDERAL INCOME TAXATION (3 credits)

This course provides an introduction to the basic concepts and principles of federal income tax with an emphasis on concepts unique to individual taxpayers.

Prerequisite(s): ACCT 2020, ENGL 1150, ECON 2200 and ECON 2220 with a 'C' (2.0) or better in each course. Cumulative GPA of at least 2.5.

ACCT 3030 INTERMEDIATE FINANCIAL ACCOUNTING I (3 credits)

A more intensive study of basic accounting theory and principles learned in ACCT 2010. Topics include a conceptual framework of accounting, net income concepts, financial statements, present value applications, revenue recognition, current assets, plant assets, and intangible assets.

Prerequisite(s): ACCT 2020, ECON 2200, and ECON 2220, with a grade of 'C' (2.0) or better in each course and a 2.5 GPA. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3040 INTERMEDIATE FINANCIAL ACCOUNTING II (3 credits)

This is the second of two courses in intermediate financial accounting. This course focuses on financial reporting issues relating investments, debt financing, leases, contingencies, cash flows reporting and income taxes.

Prerequisite(s): ACCT 3030 and ENGL 1160, each with a 'C' (2.0) or better.

ACCT 3050 INTERMEDIATE MANAGERIAL ACCOUNTING (3 credits)

The objective of managerial accounting is to provide management with relevant and timely information to aid economic decision making. This course analyzes numerous economic decisions and identifies what information is relevant. Special attention is given to how different cost accumulation systems and their effect on the accounting and estimating techniques can aid the decision-making process.

Prerequisite(s): ACCT 2020, ECON 2200, ECON 2220, and BSAD 2130, BSAD 3140 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3080 ACCOUNTING INFORMATION SYSTEMS (3 credits)

Introduction to professional accounting information systems, including information systems concepts, accounting and database software and research tools to provide a foundation for subsequent accounting courses.

Prerequisite(s): ACCT 2020, ECON 2200 and ECON 2220, with "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 4010 ADVANCED FINANCIAL ACCOUNTING (3 credits)

Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 8016)

Prerequisite(s): ACCT 3030 and ACCT 3040 with "C" (2.33) or better in each and ENGL 1160 with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4020 ANALYTICS FOR ACCOUNTING (3 credits)

Students develop an Analytics Mindset for the accounting profession, which includes the crossover competencies of accounting and business knowledge, data modeling and analytic abilities, and communication skills. Principal topics include fundamentals of data capture and cleansing, database development and implementation, visualization and presentation of information, and the use of accounting information for business decisions.

Prerequisite(s): ACCT 3030, ACCT 3080, and ENGL 1160 each with 'C' (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4040 ADVANCED FEDERAL INCOME TAXATION (3 credits)

Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C corporations, S corporations and partnerships. (Cross-listed with ACCT 8046)

Prerequisite(s): ACCT 3020, ACCT 3030, and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.
ACCT 4060 ADVANCED MANAGERIAL ACCOUNTING (3 credits)
Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 8066.)
Prerequisite(s): ACCT 3050, ACCT 3030, and ENGL 1160, each with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4070 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)
Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 8076.)
Prerequisite(s): ACCT 3030 and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4080 PRINCIPLES OF AUDITING (3 credits)
An introduction to auditing. Standards, responsibilities, professional ethics, the audit framework, evidence and reports are studied.
Prerequisite(s): ACCT 3030, ACCT 3080, ENGL 1160, and BSAD 2130 or BSAD 3160, with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4090 INFORMATION SYSTEMS AUDITING (3 credits)
This course will provide an introduction of auditing an advanced accounting information system. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association. Accounting information systems control and security practices, and their assessment, will be discussed in the areas of operations, physical and logical access, systems, networks, development and applications, and incorporating hands-on exposure to automated evaluation tools.
Prerequisite(s): ACCT 4080 with a grade of C (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4500 INDEPENDENT STUDY (1-3 credits)
Individual investigation of specific problems in the field of accounting.
Prerequisite(s): Must have permission of the School of Accounting director.

ACCT 4510 ACCOUNTING INTERNSHIP (1-3 credits)
A course for junior or senior accounting students to apply their academic accounting knowledge to accounting practice in an employment situation. A student report on the internship experience and an employer's evaluation of the student's performance are course requirements. Can be applied to free electives, but not accounting specialization electives. (Maximum of 3 hours)
Prerequisite(s): ACCT 3030 and ENGL 1160, each with a C (2.0) or better, and permission of internship coordinator.

ACCT 8016 ADVANCED FINANCIAL ACCOUNTING (3 credits)
Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 4010.)
Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3030 and ACCT 3040 with a grade of "C-" (2.3) or better in each. Not open to non-degree graduate students.

ACCT 8046 ADVANCED FEDERAL INCOME TAXATION (3 credits)
Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 4040.)
Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3020 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8050 FINANCIAL STATEMENT ANALYSIS (3 credits)
Using the financial statement and supplemental information as inputs, this course utilizes a systematic fundamental analysis approach across a variety of decision-making contexts to understand how a business generates value for shareholders.
Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3040 with a "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8066 ADVANCED MANAGERIAL ACCOUNTING (3 credits)
Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 4060.)
Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3050 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8076 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)
Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 4076.)
Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3050 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8080 CURRENT TECHNOLOGY USE IN ACCOUNTING (3 credits)
This course will cover tools and methods that facilitate business analytic techniques, with a focus on current and emerging technology. This may include tools for databases, spreadsheets, robotic process automation, data mining, artificial intelligence, and others.
Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. Successful completion of BSAD 8110, ACCT 2020, or equivalent. Not open to non-degree graduate students.

ACCT 8090 INFORMATION SYSTEMS AUDITING (3 credits)
This course presents a broad overview of the professional practice of information systems audit, emphasizing control and audit procedures related to security along with Information Technology General Controls. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association.
Prerequisite(s): ACCT 4080 with a grade of C (2.0) or better. Admission to MAcc or MBA program or permission of instructor. Not open to non-degree graduate students.

ACCT 8120 FINANCIAL ACCOUNTING THEORY (3 credits)
The development of accounting, current accounting theory and present controversies and suggested theory and practice.
Prerequisite(s): ACCT 3040. Not open to non-degree graduate students.

ACCT 8220 GRADUATE TOPICS IN INCOME TAXATION (3 credits)
This course will discuss commonly encountered tax issues such as gift and estate taxation, income taxation of estates and trusts, and exempt organizations, as well discuss current events while introducing the student to practitioner-oriented research publications.
Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better, or concurrent enrollment in ACCT 4040 or ACCT 8046. Not open to non-degree students.

ACCT 8230 MANAGEMENT ACCOUNTING ISSUES (3 credits)
An analysis of information to assist managers in determining successful strategies, developing those strategies into plans and controlling operating activities to achieve strategic goals.
Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3050 or BSAD 8210 with a "C" (2.0) of better. Not open to non-degree graduate students.
To earn an accounting concentration, a student must

- complete a total of 24 credit hours, including 21 credit hours in required accounting courses and 3 credit hours in concentration electives,
- earn a minimum GPA of 2.50 overall, and
- earn a minimum GPA of 2.50 in all upper-division accounting courses successfully completed at UNO (excluding ACCT 3000, ACCT 4500, and ACCT 4510).

Secondary Concentration in Accounting Required Courses

A secondary concentration in accounting, as a supplement to another BSBA concentration, may be obtained by completing ACCT 3020, ACCT 3030, ACCT 3040, and ACCT 3050 and earning a minimum GPA of 2.50 in all upper-division accounting courses successfully completed at UNO (excluding ACCT 3000, ACCT 4500, and ACCT 4510). Students must meet all prerequisites to enroll in any accounting course. Students wishing to substitute another upper-division accounting course for one of the four listed above must receive permission to do so from the school director.

Special Requirements

Course-related Items:

1. Students interested in taking the CPA Exam in Nebraska must complete ACCT 4070.
2. Students pursuing an accounting concentration who complete ACCT 3080 with a grade of C or better are not required to take the business core course MGMT 3100.

Concentration-related Items:

- A student may enroll only twice in any upper-division accounting course. You are enrolled in a course if your name appears on the final class list published immediately after drop/add week. Therefore, you may drop a course only one time (excluding drops during drop/add week). If you drop the same course twice (or receive any grade below a C twice), you will not be permitted to enroll in this course a third time.
- A minimum GPA of 2.50 overall is required for enrollment in any upper-division (3000-level or 4000-level) accounting course.
- Accounting courses at the 4000-level also require a minimum GPA of 2.50 in all upper-division accounting courses successfully completed at UNO to date (excluding ACCT 3000, ACCT 4500, and ACCT 4510).
- Students who wish to contract to take upper-division accounting courses as “honors” courses should contact the course instructor.

---

¹ Requires placement from UNO’s English Placement and Proficiency Exam.  
² Requires placement from ACT/SAT scores, UNO’s Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.  
³ For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160  
⁴ A minimum Upper Division Accounting GPA of 2.50 is required for enrollment in any upper-division (4000-level) accounting course.  
⁵ A minimum Upper Division Accounting GPA of 2.50 is required for enrollment in any upper-division (4000-level) accounting course. (See DegreeWorks for approved elective options)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines https://www.unomaha.edu/general-education/overview/index.php.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**GPA Requirements:** Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

**Graduation Requirements:** Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses. Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses. CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration...
or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

**Economics**

Economics is concerned with how resources are allocated in production, prices are determined, incomes are distributed and growth occurs. Economists examine such issues as how fiscal and monetary policies affect price and employment, the effect on international trade, of international trade agreements and the international price of the dollar, the size and future composition of the labor force, the effects of government regulations on the price, quantity and quality of goods and services, and costs and benefits of environmental policies.

Economists are employed by private businesses, utilities, railroads, government at all levels, educational institutions, labor unions, trade associations and non-profit organizations. In businesses, economists’ duties include analyzing and forecasting industry and market conditions, and making recommendations and decisions relative to capital investments, marketing new products, employee compensation, and the impact of government regulation.

In addition, economics is superb preparation for graduate work in areas such as business law, political science, international relations, gerontology, and public administration. Economics also is an excellent dual major or minor for other areas of study.

**Economics Club**

The main purpose of the UNO Economics Club is to increase awareness and knowledge of economic issues among Economics Club members and the overall UNO community. The organization also provides a venue for student-members to examine issues related to academic success, career success, and related matters. The organization shall work towards increasing the membership’s engagement with the Omaha community.

Membership eligibility includes all currently enrolled students in good standing who pay University Program and Facilities Fees (UPFF) at UNO. Any individual from the community is eligible for membership without voting privileges and the ability to run for office.

Any person who satisfies the eligibility requirements may become a member of the organization by completing an Economics Club Membership Form. The membership form is available at MH 332C or may be downloaded here (https://www.unomaha.edu/college-of-business-administration/). Contact phone number: 402.554.2803

**Economics Fast Track Program**

The Department of Economics has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

**Program Specifics:**

- The program is available for undergraduate students pursuing the BS in Business Administration (with a concentration in Economics), BS in Economics, or BA in Economics, desiring to pursue a MS in Economics.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.5.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
  - Admission to Fast Track does NOT guarantee admission to the graduate program.
  - The admit term must be after the completion term of the undergraduate degree.

Students in the Fast Track program must only enroll in dual-level ECON courses (ECON 8xx6) as their graduate coursework prior to admittance to the graduate program.

**Degrees Offered**

Bachelor of Science in Business Administration (https://catalog.unomaha.edu/undergraduate/college-business-administration/bs-business-administration/)

**Concentrations Offered**

- Business Analytics Concentration (p. 400)
- Economics Concentration (p. 394)

**Secondary Concentrations Offered**

- Secondary Concentration in Economics (p. 394)
- Secondary Concentration in Business Analytics (p. 400)

**Economics**

- Actuary
- Business Journalist
- Consultant
- Data and Analytics Specialist
- Economic Analyst
- Economic Researcher
- Economic Strategist
- Financial Advisor
- Financial Analyst
- Market Analyst
- Policy Analyst
- Statistician
- Supply Chain Analyst

**ECON 1200 SURVEY OF ECONOMICS (3 credits)**

An introduction to fundamental economic analysis, applying economic concepts to both domestic and international problems and policies.

**Prerequisite(s):** Not available to students who have completed either ECON 2200 or 2220.

**Distribution:** Social Science General Education course
ECON 2200 PRINCIPLES OF ECONOMICS (MICRO) (3 credits)
An introduction to economic principles, decision making and policies affecting product and resource markets. Particular emphasis is on price, output and input decisions by individuals and firms under various market conditions. An introduction to the fundamentals of international trade.
Prerequisite(s): ENGL 1150 and MATH 1310 or MATH 1220 with 'C' (1.67) or better, or permission of CBA advisor
Distribution: Social Science General Education course

ECON 2220 PRINCIPLES OF ECONOMICS (MACRO) (3 credits)
An introduction to economic principles, decision making and policies on national income and output, employment, growth, money, the price level and the international economy.
Prerequisite(s): MATH 1310 or MATH 1220 and ENGL 1150 with a C-minus (1.67) or better, or permission of CBA advisor
Distribution: Social Science General Education course

ECON 2400 PRINCIPLES OF ECONOMICS FOR EDUCATORS (3 credits)
This course teaches principles of microeconomics and macroeconomics to K-12 educators. After taking this course students will be able to use the economic way of thinking to study current economic issues. Students will be introduced to macroeconomic principles, decision-making and policies on national income and output, employment, growth, money, price level, and fundamentals of international issues. Students will study microeconomic issues including product and resource markets, and prices output and input decisions under various market conditions. Economic concepts will be aligned to K-12 state social studies standards. This course cannot be substituted for ECON 2200 and/or ECON 2220.
Prerequisite(s): MATH 1310 or MATH 1220, ENGL 1150. Not open to non-degree graduate students.

ECON 2600 SURVEY OF BEHAVIORAL ECONOMICS (3 credits)
This course examines the basic concepts behind behavioral economics and the application of behavioral economics across other fields of study. Students will be able to understand the basic variables influencing decision making, including framing and perception as well as the influence of social dynamics and psychological influences.

ECON 3130 ECONOMIC GEOGRAPHY (3 credits)
An introduction to the basic concepts and approaches in contemporary economic geography, stressing the importance of the spatial perspective for an understanding of how economic processes work at global, national, regional, and local scales. (Offered Fall) (Cross-listed with GEOG 3130).
Prerequisite(s): Majoring in Geography. Non-Geography majors: MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a 'C' (2.0) or better.

ECON 3190 SPORTS ECONOMICS (3 credits)
Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Sports Economics, however, students will explore the very real ways in which economics influences sporting competitions and the businesses surrounding them. Students will explore topics such as unionization in sports, discrimination, amateurism, monopoly power, game theory, and more in the context of sports, giving the student a deeper understanding of how these topics apply to real-world problems. After this course, students will understand how readily economics can be applied to businesses and problems in any industry or domain.
Prerequisite(s): ECON 2200 OR ECON 1200 OR ECON 2400 OR Instructor Approval. Not open to non-degree graduate students.

ECON 3200 ECONOMIC THEORY: MICRO (3 credits)
Analysis of individual, firm and industry behavior in product and factor markets. Provides a theoretical foundation for managerial and public policy decision-making.
Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 3220 ECONOMIC THEORY: MACRO (3 credits)
This course is designed to follow introductory economics, to examine the determination of output, employment, the price level, inflation, interest rates, and the exchange rate in the economy. Piece-by-piece, theoretical models will be constructed describing how each of these and other variables are determined in both, the long-run and in the short-run. We will analyze how changes in a particular event affect different markets in the economy, and in turn, how one market interacts with another within a general equilibrium framework. A large part of the course will be devoted to business cycle theory, macroeconomic policy issues, and open economy macroeconomics. The world economies are very much integrated, and thus, a full understanding of macroeconomics requires knowledge of international aspects of macroeconomics. The purpose of this course is to provide the student with an understanding of the connection between macroeconomic theory and related policy issues.
Prerequisite(s): Completion of ECON 2200 with a C or better AND ECON 2220 with a C or better

ECON 3290 ECONOMICS OF PUBLIC ISSUES (3 credits)
Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Economics of Public Issues, however, students will explore the real ways in which economics can be used to understand, explain, and answer tough questions that affect everyone. Students will explore and define capitalism and key economic institutions required for economies to develop and prosper. We will examine markets and market failures that exist today. Classes will focus on the outcomes - intended and unintended - of various policies (local, national, and global). While specific issues are going to be covered in the course the intent is that students will learn the tools and strategy of thinking like an economist to guide them through future issues that will come up in their personal, professional, and civic lives.
Prerequisite(s): ECON 2200 OR Instructor Approval.

ECON 3300 INTRODUCTION TO ECONOMETRICS (3 credits)
An introduction to empirical research methods in economics. Subjects covered include estimations of the basic linear regression model, hypothesis testing, correlation coefficients, analysis of variance, multicollinearity, dummy variables, specification error, auto-correlation, heteroscedasticity and unconditional forecasting. Empirical illustrations are provided by reference to contemporary economic questions.
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200, ECON 2220, BSAD 2130 or BSAD 3160, each with a "C" (2.0) or better, or permission of instructor.

ECON 3310 SQL, DATABASES, AND DATA CLEANING FOR DATA SCIENTISTS (3 credits)
Analytics requires data. Within an organization, this data is usually housed in databases. In this class, you will extract data from these systems using Structured Query Language (SQL), programmatically combine multiple datasets, and learn advanced programatic data cleaning techniques, such as regular expression.
Prerequisite(s): ECON 2200 with a "C" or better

ECON 3320 INTRODUCTION TO ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3 credits)
This course explores the economic approach to environmental and natural resources. It introduces economic concepts and theory at a level accessible to non-economic majors but still challenging to economic majors. It then applies these to such topics as: air and water pollution, solid and hazardous waste management, renewable and nonrenewable natural resource use, and recycling.
Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.
ECON 3550  PUBLIC FINANCE (3 credits)
This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with FNBK 3550).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3600  INTRODUCTION TO INTERNATIONAL ECONOMICS (3 credits)
An introduction to analyses of international trade and the international monetary system. Subjects covered include the economic basis for international specialization and trade, the effect of trade on income distribution, commercial policy, economic integration, the balance of payments, adjustment mechanism, exchange rate determination, external effects of monetary and fiscal policy and foreign investment.
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 4000  SPECIAL TOPICS IN ECONOMICS (3 credits)
This course will explore a specified topic in the field of economics.
Prerequisite(s): Varies by offering

ECON 4210  INDUSTRIAL ORGANIZATION (3 credits)
In this class we will examine why firms and industries behave the way that they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like "Why does everyone hate the cable company?" and "Why are CEOs given so many stock options?" (Cross-listed with ECON 8216).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4240  LABOR ECONOMICS (3 credits)
The course will cover essential topics in Labor Economics including factors leading to equilibrium conditions in the labor market, human capital accumulation, discrimination in the workplace, compensation for undesirable work, mobility, unionization, and more. (Cross-listed with ECON 8246).
Prerequisite(s): ECON 3200

ECON 4300  QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)
The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with no negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 8306).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4320  NATURAL RESOURCE ECONOMICS (3 credits)
This course introduces students to the economics and management of Earth's natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What role do markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 8326).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4340  ECONOMICS OF TECHNOLOGY (3 credits)
Innovative dynamism is the economic system which brings us the new goods and processes that make life longer and better. We will examine how the system works, including: The role of the breakthrough inventor and the innovative entrepreneur; whether the system improves or hurts ethical behavior, culture, equality, and the environment; the costs to workers in terms of job loss, and the benefits to workers in terms of the creation of better jobs; how funding, regulatory, and patent policies affect innovative dynamism; and how innovative dynamism in medicine can result in more and faster cures for cancer and other diseases. (Cross-listed with ECON 8346).
Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2220, each with a "C" (2.0) or better, or BSAD 8180, or permission of instructor.

ECON 4350  BUSINESS INTELLIGENCE AND REPORTING (3 credits)
The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are trained to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 8316).
Prerequisite(s): BSAD 2130 (or equivalent) OR Instructor Approval

ECON 4450  DOMESTIC MONETARY THEORY AND POLICY (3 credits)
The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 8456).
Prerequisite(s): ECON 3220, or permission of instructor.

ECON 4500  SPECIAL PROBLEMS IN ECONOMICS (2-3 credits)
Individual investigation of specific problems in the field of economics under the supervision of a faculty member.
Prerequisite(s): Senior and permission of department chair.

ECON 4510  ECONOMIC INTERNSHIP (1-3 credits)
Students engage in part time employment in their area of concentration to gain relevant business experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required (maximum 3 credit hours).
Prerequisite(s): Permission of internship coordinator; "C" (2.0) or better in ECON 2200 and ECON 2220; 2.5 Cumulative GPA; junior or senior standing.
ECON 4570 ECONOMIC CONDITIONS ANALYSIS (3 credits)
This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn where to find data, how to analyze the data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will ensure equal participation. (Cross-listed with ECON 8576).
Prerequisite(s): ECON 2200 and ECON 2220, or permission of the instructor.

ECON 4610 INTERNATIONAL TRADE (3 credits)
An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 8616).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4620 INTERNATIONAL MONETARY THEORY (3 credits)
This course is designed to introduce students to topics in International Macroeconomics and International Finance. Students will examine the mechanisms of the foreign exchange market, and how exchange rates are determined in the short-run as well as in the-long-run. Students will investigate the different exchange rate regimes around the world, including fixed exchange rates, floating exchange rates, crawling pegs, and other arrangements. Students will examine the European Union and ask whether such a system is economically viable. This is especially important in the current economic environment facing Europe. Students will also examine exchange rate crises over history, and examine how they all have common elements. (Cross-listed with ECON 8626).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4660 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)
This course introduces theories and application of economic development, growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 8666).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4730 ECONOMICS OF ENTREPRENEURSHIP (3 credits)
This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 8736, BSAD 8736).
Prerequisite(s): ECON 2200 or permission of the instructor for all students.

ECON 4850 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)
This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 8856).
Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4990 SENIOR ASSESSMENT (0 credits)
This assessment tool is part of the Department’s Student Outcomes effort. It is designed to monitor the Department’s performance and to identify changes needed. Graduating seniors must register for and complete this course in the term in which they plan to graduate.
Prerequisite(s): Students must register for ECON 4990 in the term in which they plan to graduate. Not open to non-degree graduate students.

Economics Concentration
For the Economics concentration, students must complete a total of eighteen (18) credit hours of economics courses beyond ECON 2200 and ECON 2220.

Economics Concentration Required Courses
<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 3200</td>
<td>ECONOMIC THEORY: MICRO</td>
<td>3</td>
</tr>
<tr>
<td>ECON 3220</td>
<td>ECONOMIC THEORY: MACRO</td>
<td>3</td>
</tr>
</tbody>
</table>

Economics Concentration Electives
Students must select a minimum of twelve (12) credit hours beyond the two (2) required courses from economics department courses at the 3000 or 4000 level, of which at least six (6) credit hours must be at the 4000 level.
Total Credits: 18

Secondary Concentration in Economics
A secondary concentration in economics, as a supplement to another BSBA concentration, may be obtained by completing the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 2200</td>
<td>PRINCIPLES OF ECONOMICS (MICRO)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 2220</td>
<td>PRINCIPLES OF ECONOMICS (MACRO)</td>
<td>3</td>
</tr>
</tbody>
</table>

Plus nine (9) hours of upper-division (3000/4000 level) courses in economics
Total Credits: 15

Any course that may be used for an economics concentration may also be used for the secondary concentration in economics, provided that at least one of the courses is ECON 3200 or ECON 3220. A grade of C (2.00) or better is required in each course applied toward the secondary concentration.

---

1. Requires placement from UNO’s English Placement and Proficiency Exam.
2. Requires placement from ACT/SAT scores, UNO’s Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.
3. For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160.
4. An Economics Concentration Elective must be a 3000 or 4000 level course within the Economics department. (See DegreeWorks for approved options). It is highly encouraged for ECON concentration students to take ECON 3300 as an ECON 3000 level elective (ECON 3300 – offered only Spring semester).
5. An Economics Concentration Elective must be a 3000 or 4000 level course within the Economics department. (See DegreeWorks for approved options).
6. An Economics Concentration Elective must be a 3000 or 4000 level course within the Economics department. (See DegreeWorks for approved options).

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

#### University Degree Requirements:
The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines https://www.unomaha.edu/general-education/overview/index.php.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

#### GPA Requirements:
Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

#### Graduation Requirements:
Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses. Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

### Finance, Banking and Real Estate

#### Contact
Chair, Department of Finance, Banking and Real Estate  
402.554.2418
Website (http://www.unomaha.edu/college-of-business-administration/finance-banking-real-estate/)

Degrees Offered
- Business Administration, Bachelor of Science (https://catalog.unomaha.edu/undergraduate/college-business-administration/bs-business-administration/)

Concentrations Offered
- Banking and Financial Markets Concentration (p. 398)
- Business Finance Concentration (p. 401)
- Investment Science and Portfolio Management Concentration (p. 403)
- Legal Studies Concentration (p. 405)
- Real Estate and Land Use Economics Concentration (p. 406)

Secondary Concentrations Offered
- Secondary Concentration in Banking and Financial Markets (p. 398)
- Secondary Concentration in Business Finance (p. 401)
- Secondary Concentration in Investment Science and Portfolio Management (p. 403)
- Secondary Concentration in Legal Studies (p. 405)
- Secondary Concentration in Real Estate and Land Use Economics (p. 406)

Note: A careful structuring of course work will allow students to obtain a triple concentration in Investment Science and Portfolio Management, Business Finance, and Banking and Financial Markets, without extra courses. In addition, students may earn a concentration in Real Estate and Land Use Economics and a corresponding Finance concentration. Students must complete FNBK 3250 with a C+ or above in order to specialize in any Finance and Banking concentration or secondary concentration.

Certificates Offered
UNO Real Estate Certificate (p. 408)

Finance, Banking, and Real Estate
- Appraiser
- Bank Operations Manager
- Commercial Banking Officer
- Commercial or Residential Broker
- Corporate Financial Officer
- Corporate Lawyer
- Financial Advisor
- Insurance Management
- Investment Analyst
- Mortgage Officer
- Portfolio Manager
- Real Estate Agent
- Retail Banking Officer
- Risk Management Specialist
- Stockbroker
- Underwriting Specialist

FNBK 2280 PERSONAL FINANCE (3 credits)
This course focuses strengthening the development of sound financial habits through knowledge and application of concepts and activities that enhance personal and family finance.

FNBK 2710 PRINCIPLES OF INSURANCE (3 credits)
This course is intended to introduce students to the basic concepts of risk and insurance. Special emphasis is placed on the insurance coverage needed by the consumer: life, health, homeowner and auto insurance. (Fall, Spring)

Prerequisite(s): Not open to non-degree graduate students.

FNBK 3000 FINANCIAL REPORTING AND ANALYSIS (3 credits)
Seeks to develop students' understanding of the origin and derivation of accounting data, and their skills in employing the data for the purpose of financial analysis, reporting and valuation.

Prerequisite(s): ACCT 2020 with 'C' (2.0) or better.

FNBK 3250 PRINCIPLES OF FINANCIAL MANAGEMENT (3 credits)
As an introduction to financial management, the course will cover a broad area of corporate finance and discuss topics including assessment of financial statement information, time value of money, bond and stock valuation, as well as capital budgeting.

Prerequisite(s): ACCT 2010, ECON 2200, ECON 2220, MATH 1320 or MATH 1370 or MATH 1930, BSAD 2130 or 3160, ENGL 1160/ENGL 1164 or concurrent enrollment in ENGL 1160/1164 each with "C" or better and 2.5 GPA.

FNBK 3300 INTERMEDIATE FINANCIAL MANAGEMENT (3 credits)
This course is intended to develop an intermediate level of understanding of financial analysis and decision making, as well as an understanding of the context within which these skills are used, through an in-depth exploration of the essential mathematical operations that underpin advanced finance courses. Critical thinking and computer literacy will be enhanced using MS Excel for spreadsheet calculations and model building.

Prerequisite(s): FNBK 3250 with a C+ or better and 2.5 overall GPA. Not open to non-degree graduate students.

FNBK 3330 ENTREPRENEURIAL FINANCE (3 credits)
This course focuses on venture capital formation and the financing of entrepreneurial ventures. The course is intended for students interested in entrepreneurship, venture capital markets, investment banking, and other careers related to new venture financing and/or deal structuring. The course applies basic financial theory to the unique environment of incubating and growing new ventures. (Cross-listed with ENTR 3330).

Prerequisite(s): FNBK 3250 with ‘C’ (2.0) or better.

FNBK 3400 INVESTMENT PRINCIPLES AND PRACTICES (3 credits)
A study of the market for investment securities, an introduction to the field of security analysis, and selection and management of a portfolio of securities. (Fall, Spring)

Prerequisite(s): FNBK 3300, GPA of 2.5 or better or approval of instructor.

FNBK 3500 FINANCIAL MARKETS (3 credits)
An overview of money and banking, monetary policy, and analysis of the operations of financial markets in a global context, as well as the evolving regulatory framework within which these markets operate.

Prerequisite(s): ECON 2200 and ECON 2220 and FNBK 3250 with 'C' or better, or approval of instructor.

FNBK 3550 PUBLIC FINANCE (3 credits)
This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with ECON 3550).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a “C” (2.0) or better.
FNBK 3650 COMMERCIAL BANK MANAGEMENT (3 credits)
This course focuses on the theory and practice of managing commercial banks. Topics covered include but are not limited to: Bank regulations, bank performance analysis, asset liability management, credit analysis and consumer loans. This course emphasizes the link between theory and practice through readings, guest lecturers from industry experts, and a comprehensive bank research project on a local bank of your choice. At the end of the course, students should have a good understanding of basic banking theories as well as banking practices, and current issues and challenges facing the banking industry.
Prerequisite(s): FNBK 3300, GPA of 2.5 or better or approval of instructor.

FNBK 3700 INTERNATIONAL FINANCIAL MANAGEMENT (3 credits)
This course focuses on the application of basic principles and techniques of international financial management to the decision-making process of the multinational firms. The course covers foreign exchange markets, management of foreign exchange risk, international working capital management, and foreign portfolio and direct investment. Factors bearing on international financing and investment decisions, such as political risk and international taxation issues will be also explored. (Fall, Spring, Summer).
Prerequisite(s): FNBK 3250 with 'C-' (2.3) or better, GPA of 2.5 or better or approval of instructor.

FNBK 4000 SPECIAL TOPICS IN FINANCE AND BANKING (1-5 credits)
The topics addressed in this finance and banking special topics course will vary but are typically an in-depth exploration of a specific topic in the field of finance and banking. Please contact the finance and banking department chairperson for the specific course offering.

FNBK 4150 ADVANCED FINANCIAL MANAGEMENT (3 credits)
This course aims to develop the student's ability to identify, analyze and solve integrative problems in management of business finance, including financial analysis, working capital management, capital budgeting decisions, long term financing, and leasing, through the use of prescribed readings, case studies and computer applications. (Fall, Spring).
Prerequisite(s): FNBK 3300, GPA of 2.5 or better, and senior standing. It is highly recommended that a student have an additional 6 hours of finance instruction beyond the introductory course prior to taking this class.

FNBK 4210 SELLING FINANCIAL SERVICES (3 credits)
Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with BSAD 8216, MKT 4210).
Prerequisite(s): MKT 3310 with a C+ or better grade and 2.5 GPA. Not open to non-degree graduate students.

FNBK 4470 BEHAVIORAL FINANCE & INVESTING (3 credits)
This course focuses on how actual investor behaviors and market behaviors differ from traditional theories of finance. This course will examine psychological biases, identify how such biases influence financial markets and settings, and explore methods that can be utilized to recognize and overcome such behavioral pitfalls. (Cross-listed with BSAD 8476).
Prerequisite(s): Junior or senior standing. Not open to non-degree graduate students.

FNBK 4500 SPECIAL PROBLEMS IN FINANCE AND BANKING (2-3 credits)
Individual investigation of specific problems in the fields of finance and banking. (Fall, Spring).
Prerequisite(s): Senior. Note: permission of department chair required prior to registration.

FNBK 4510 FINANCE AND BANKING INTERNSHIP (1-3 credits)
Students will engage in an applied experience in their area of specialization to gain relevant experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required. Note: FNBK4510 may be taken for a maximum of 3 credits.
Prerequisite(s): Permission of internship coordinator; 'C-' or better in FNBK 3250; 2.5 cumulative GPA; junior or senior standing

FNBK 4570 INVESTMENT MANAGEMENT FOR FINANCIAL ANALYSTS (3 credits)
This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with BSAD 8576).
Prerequisite(s): Senior standing. Not open to non-degree graduate students.

FNBK 4590 RISK MANAGEMENT FOR BUSINESS MANAGERS (3 credits)
An analysis of risk management techniques for handling the risk exposures most businesses face, including insurance, self insurance, risk control and risk avoidance, among others. (Cross-listed with BSAD 8596).
Prerequisite(s): At least junior standing.

FNBK 4600 FINANCIAL RISK MANAGEMENT (3 credits)
The course provides students with an intermediate level analysis of financial derivatives, and the use of these instruments for managing risk in financial institutions. (Cross-listed with BSAD 8606).
Prerequisite(s): FNBK 3400 and FNBK 3500 both with a 'C' (2.0) or better, and senior or graduate standing.

FNBK 4610 PORTFOLIO MANAGEMENT (3 credits)
This course will focus on modern development in portfolio management including efficient markets, stock selection, and hedging procedures. The main objective of this course is to prepare students for the management of financial resources through the development of skills necessary to make prudent investment decisions.
Prerequisite(s): FNBK 3400 with a "C" (2.33) or above, and a 2.5 GPA.

RELU 2410 REAL ESTATE PRINCIPLES AND PRACTICES (3 credits)
An introductory survey of real estate principles and practices which introduces the terminology, concepts and basic practices in the fields of real estate law, real estate finance, real estate appraisal, real estate property taxation and miscellaneous topic areas. Note: Students cannot receive credit for both RELU 2410 and RELU 3410. (Fall, Spring)

RELU 2700 REAL PROPERTY RIGHTS AND OWNERSHIP: OVERCOMING BARRIERS (3 credits)
Real estate is ubiquitous and the ownership of property - and accompanying property rights - have shaped US history and enabled millions to build wealth. At the same time, property ownership has eluded many, especially those from underrepresented groups. This class will expose students to historical and current barriers to property ownership, assess efforts to address these disparities, explore remedies, and give students the practical tools they’ll need to plan for, and eventually acquire, their first home or other real estate.

RELU 3410 REAL ESTATE PRINCIPLES AND PRACTICES (3 credits)
This is a survey course in real estate principles and practices, which is designed to familiarize students with industry terminology, current practices, and cover the following topics: Licensure, property rights, legal descriptions, real estate law and contracts, appraisal, financing, investments, Fair Housing, and related topic areas. This course provides foundational knowledge of the real estate field and will prepare students to successfully complete more advanced real estate coursework. NOTE: Students cannot receive credit for both RELU 2410 and RELU 3410. (Cross-listed with BSAD 8605).
RELU 3430  REAL ESTATE BROKERAGE AND SALES (3 credits)
Overview of real estate brokerage and sales principles, to include buying and
selling, leasing, brokerage business operations, contracts, closings, legal
requirements, Fair Housing, advertising, and career opportunities. 
Prerequisite(s): RELU 2410 or RELU 3410.

RELU 3450  PROPERTY MANAGEMENT (3 credits)
This course focuses on commercial and residential property management
concepts and their application to the operation, control, and oversight of
real property. The course will study leasing, tenant selection and relations,
maintenance, marketing, contract management, asset management
principles, as well as Fair Housing Laws and the Americans With Disabilities
Act as they pertain to property management. (Cross-listed with BSAD 8625). 
Prerequisite(s): RELU 2410 or RELU 3410.

RELU 3460  REAL ESTATE LAW (3 credits)
Upper-level survey course in real estate law, which examines estates in
land, conveyances, leases, mortgages, easements, zoning, environmental
law, contracts, taxes, foreclosures, landlord-tenant relations, agency, Fair
Housing, and Nebraska License Law. (Cross-listed with LAWS 3460)
Prerequisite(s): RELU 2410 or RELU 3410.

RELU 4390  REAL ESTATE INVESTMENTS (3 credits)
This course focuses on methods used to analyze existing and proposed
commercial and residential real estate investments through dynamic
programming models, and explores strategies to finance commercial real
estate. The class ultimately prepares students to understand the risks and
rewards associated with financing and investing in real estate. (Cross-listed
with BSAD 8616).
Prerequisite(s): RELU 2410 or RELU 3410.

RELU 4400  RESIDENTIAL REAL ESTATE FINANCE (3 credits)
This course focuses on the methods of financing residential real estate
through the examination of various mortgage instruments, mortgage
lenders, and the risks associated with leveraging real property. Industry
terminology, concepts, best practices, and financial calculations are also
presented, as are the influences of governmental policies on the industry. 
(Fall)
Prerequisite(s): RELU 2410 or RELU 3410

RELU 4410  BASIC APPRAISAL PROCEDURES (3 credits)
Fundamentals of real estate valuation and appraising: factors affecting
value; valuing land, valuing improvements and the valuation of special
classes of residential property; appraisal practice, depreciation and
obsolescence, appraising rules, the mathematics of appraising; an
appraisal of a single family residence is required.
Prerequisite(s): RELU 2410 or RELU 3410 AND FNBK 3250 with a C or
better

RELU 4420  INCOME PROPERTY APPRAISAL (3 credits)
Introduction to the theory and concepts of income capitalization
approaches, methods and techniques to valuation of real estate income
property. Characteristics of yield on investment real estate; future income
projections; mortgage coefficients; purchase and leaseback reversions;
Ellwood Tables; capitalization rates and investment yields; types of
annuities; and condemnation appraisal. (Spring)
Prerequisite(s): RELU 2410 or RELU 3410; and FNBK 3250

RELU 4440  REAL ESTATE DEVELOPMENT (3 credits)
This course focuses on the procedures and complexities in developing
and redeveloping various commercial property types and mixed-use real
estate. Topics include an overview of the real estate development process,
assembling a team, identifying project stakeholders, financial analysis, site
selection, market analysis, and the regulatory environment. (Cross-listed
with BSAD 8626).
Prerequisite(s): RELU 2410 or RELU 3410 with a grade of B or above, and
a cumulative GPA of 3.0 or better; or permission of Real Estate Program
Director.

RELU 4460  COMMERCIAL REAL ESTATE FINANCE (3 credits)
A foundation course in commercial real estate finance including legal,
analytical, institutional and governmental aspects.
Prerequisite(s): RELU 2410 and FNBK 3250

RELU 4500  REAL ESTATE INDEPENDENT STUDY (1-3 credits)
Individual investigation of specific issues or problems in real estate.
Prerequisite(s): Permission of Real Estate Program Director.

RELU 4510  REAL ESTATE INTERNSHIP (1-3 credits)
Students will engage in an applied experience in their area of specialization
to gain relevant industry experience and to practice the skills and concepts
learned in the classroom. Student reports on the internship experience
and an employer's evaluation of the student's performance are course
requirements. RELU 4510 may be taken for a maximum of 3 credits. (Fall,
Spring, Summer)
Prerequisite(s): Permission of Department Internship Coordinator.

Banking and Financial Markets Concentration

The objective of the Banking and Financial Markets concentration is
to provide additional study in the areas of financial management of
commercial banks including the organization, operation, financing and
functions of banks and certain related financial institutions. This program
is specifically designed for those students interested in pursuing careers in
banking, bank regulatory agencies, or in related financial institutions, such
as credit unions, sales and consumer finance companies, and government
agencies.

For this concentration, students complete a total of eighteen (18) credit
hours, including fifteen (15) credit hours in required courses, and three
(3) credit hours in concentration electives. The completion of specified
courses in business finance, banking, and investment science and portfolio
management may be applied toward concentration requirements in all
three areas.

1 Requires placement from UNO's English Placement and Proficiency Exam.
2 Requires placement from ACT/SAT scores, UNO's Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.
3 Students who are concentrating in Banking and Financial Markets must receive a grade of "C+" or better in FNBK 3250.
4 For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160
5 Students who are concentrating in Banking and Financial Markets must receive a grade of "C+" or better in FNBK 3300.
6 For this requirement students must choose from an approved list of Banking and Financial Markets Elective classes. (See DegreeWorks for approved options)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines https://www.unomaha.edu/general-education/overview/index.php. (https://www.unomaha.edu/general-education/overview/index.php.html)

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements: Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses. Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses. CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration, CBA students must earn a minimum NU GPA of 2.50 and a minimum upper division accounting GPA of 2.50 is additionally required.

Business Analytics Concentration

Because domain knowledge is critical to business analytics, the BSBA Business Analytics concentration is required to be completed together with another BSBA concentration within the College of Business Administration.

Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

Business Finance Concentration

The objective of the business finance concentration is to prepare students for careers in such areas as financial management, capital budgeting, and international financial management. The focus is on the functions of finance in the firm, cash management, sources of financing, the financial system and strategic capital budgeting.

For this concentration, students must complete a total of eighteen (18) credit hours, including fifteen (15) credit hours in required courses, and three (3) credit hours in concentration electives. The completion of specified courses in business finance, banking, and investment science and portfolio management may be applied toward concentration requirements in all three areas.

Requirements:
1. Requires placement from UNO’s English Placement and Proficiency Exam.
2. Requires placement from ACT/SAT scores, UNO’s Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.
3. Students who are concentrating in Business Finance must receive a grade of "C+" or better in FNBK 3250
4. For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160
5. Students who are concentrating in Business Finance must receive a grade of "C+" or better in FNBK 3300
6. For this requirement students must choose from an approved list of Business Finance Elective classes. (See DegreeWorks for approved options)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines https://www.unomaha.edu/general-education/overview/index.php.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:
Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements:
Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses. Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.
CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

---

### Investment Science and Portfolio Management Concentration

The investment science and portfolio management concentration provides theoretical and practical application of security analysis, asset pricing, and dynamic portfolio management for students interested in the investment management field. Students will have the opportunity to apply theoretical models discussed in class by managing funds in the student managed investment club. Students are encouraged to actively participate in the club early in their academic career.

For this concentration, students complete a total of eighteen (18) credit hours including fifteen (15) credit hours in required concentration courses and three (3) credit hours in concentration electives. The completion of specified courses in business finance, banking, and investment science and portfolio management may be applied toward concentration requirements in all three areas.

- 42 of those credit hours must be in upper division courses.
- Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.
- CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

## Legal Studies Concentration

The legal studies concentration emphasizes resolution of commercial disputes, for example disputes arising in a real estate context or in a human resources context, and students with a variety of career goals choose the legal studies concentration. Commercial risk management students choose the concentration to be well positioned to quantify and evaluate alternative resolutions of commercial disputes. This concentration prepares students who are interested in law as a form of critical thinking and analysis of social issues, as well as students pursuing a pre-law curriculum or preparing for a paralegal career. Some graduate track students seek this concentration as preparation for earning a graduate degree in business or for a career in forensic economics. In addition to a broad understanding of the law, quantitative skills are central to the legal studies concentration. Quantitative skills, are needed for estimation of the magnitude of remedies in a commercial context. Risk management requires the ability to be persuasive. Accordingly, written and oral communication skills are important for the legal studies concentration.

Real Estate and Land Use Economics Concentration

The objective of the real estate and land use economics concentration is to prepare students for careers in areas such as commercial real estate finance, asset management, investment analysis, property management, appraisal, corporate real estate management, brokerage, development, as well as other real estate-related careers in the public and private sectors.

For the real estate and land use economics concentration, students must complete a total of eighteen (18) credit hours, including fifteen (15) credit hours in required courses, and three (3) credit hours from the list of real estate electives.

5 For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160
6 For this requirement students must choose from an approved list of Legal Studies Elective classes. (See DegreeWorks for approved options)
Select one of the following:  
- RELU 4390  REAL ESTATE INVESTMENTS  
- RELU 4400  RESIDENTIAL REAL ESTATE FINANCE  

**Real Estate and Land Use Economics Industry Options**

Select one of the following:  
- RELU 3450  PROPERTY MANAGEMENT  
- RELU 3430  REAL ESTATE BROKERAGE AND SALES  

**Real Estate and Land Use Economics Cross-Discipline Options**

Select one of the following:  
- RELU/LAWS 3460  REAL ESTATE LAW  
- RELU 4440  REAL ESTATE DEVELOPMENT  
- FNBK 3000  FINANCIAL REPORTING AND ANALYSIS  

**Real Estate and Land Use Economics Concentration Elective Courses**

Select one of the following:  
- RELU 2700  REAL PROPERTY RIGHTS AND OWNERSHIP: OVERCOMING BARRIERS  
- RELU 3430  REAL ESTATE BROKERAGE AND SALES  
- RELU 3450  PROPERTY MANAGEMENT  
- RELU/LAWS 3460  REAL ESTATE LAW  
- RELU 4390  REAL ESTATE INVESTMENTS  
- RELU 4400  RESIDENTIAL REAL ESTATE FINANCE  
- RELU 4440  REAL ESTATE DEVELOPMENT  
- RELU 4500  REAL ESTATE INDEPENDENT STUDY  
- RELU 4510  REAL ESTATE INTERNSHIP  
- ECON 3300  INTRODUCTION TO ECONOMETRICS  
- ECON 4350  BUSINESS INTELLIGENCE AND REPORTING  
- ENTR 3710  ENTREPRENEURIAL FOUNDATIONS  
- FNBK 3400  INVESTMENT PRINCIPLES AND PRACTICES  
- FNBK 3500  FINANCIAL MARKETS  
- FNBK 3650  COMMERCIAL BANK MANAGEMENT  
- FNBK 4610  PORTFOLIO MANAGEMENT  
- MKT 4200  CONSULTATIVE SELLING PRINCIPLES  

**Secondary Concentration in Real Estate and Land Use Economics**

A secondary concentration in real estate and land use economics, as a supplement to another BSBA concentration, may be obtained by completing a total of 12 (twelve) credit hours, composed of the following courses:

<table>

A grade of “C” (2.0) or better is required in each course.
### University Degree Requirements

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines [“https://www.unomaha.edu/general-education/overview/index.php”](https://www.unomaha.edu/general-education/overview/index.php). More information on these exams can be found at [“https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php”](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php). **Transfer credit or placement exam scores may change suggested plan of study**

### GPA Requirements

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

**Graduation Requirements:**

Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBF students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

### UNO Real Estate Certificate

#### Requirements:

A Certificate in Real Estate is offered for non-degree, non-traditional, and/or non-business students seeking to build a solid foundation in key real estate concepts, earn a credential, and improve their marketability in the industry.

The proposed certificate may be obtained by completing fifteen (15) credit hours of coursework. A grade of “C” (2.0) or better is required in each course to be applied to the certificate, and an overall GPA of 2.5 within the certificate is required to earn the credential. The Certificate in Real Estate is not available for undergraduate business majors.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

1. Requires placement from UNO’s English Placement and Proficiency Exam.
2. Requires placement from ACT/SAT scores, UNO’s Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.
3. For this requirement students must choose from an approved list of Real Estate and Land Use Economics Elective classes. Students taking “RELU 2700” will need a 3000/4000 level elective to fulfill UD credit required for BSBA degree. (See DegreeWorks for approved options)
4. For this requirement students must choose from the following list: MKT 3100, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160
Management

Degrees Offered
- Bachelor of Science in Business Administration (https://catalog.unomaha.edu/undergraduate/college-business-administration/bs-business-administration/)

Management Concentrations
Management concentrations include Management & Leadership, Human Resource Management, and Supply Chain Management. Managers combine human and material resources to accomplish organizational objectives. Such results are achieved through the managerial processes of planning, leading, organizing, and controlling. Today’s competitive, global business environment presents many challenges to managers including managing change and innovation, managing diversity, developing a global perspective, becoming an effective leader, and improving organizational performance by focusing on quality and continuous improvement. The management concentrations are designed to prepare students to effectively face these challenges in an environment of risk, uncertainty, and ambiguity. All Management concentrations require a minimum of eighteen (18) credit hours. A student may choose more than one concentration with a resulting increase in the number of required courses.¹

¹ Note: Students completing more than one Management concentration cannot apply more than six common credits to each Management concentration.

Concentrations Offered:
- Management & Leadership Concentration (p. 411)
- Human Resource Management Concentration (p. 413)
- Logistics & Supply Chain Management Concentration (p. 414)

Secondary Concentrations Offered:
- Secondary Concentration in Management & Leadership (p. 411)
- Secondary Concentration in Logistics & Supply Chain Management (p. 414)

Management
- Account Executive
- Business Analyst
- Business Development Manager
- Business Systems Analyst
- Compliance Analyst
- Customer Relationship Manager
- Human Resources and Management Consultant
- Human Resources Executive
- Human Resources Manager
- Logistics Analyst
- Office Manager

MGMT 1200 INTRODUCTION TO MANAGEMENT (3 credits)
This course will introduce foundational management concepts including management functions, leadership, planning, decision-making, quality improvement, ethics and careers in management.

MGMT 1500 INTRODUCTION TO BUSINESS (3 credits)
This course is for students who are interested in gaining foundational knowledge in many aspects of the business world including economics, finance, marketing, management, and accounting.

Distribution:
Social Science General Education course

MGMT 3100 MANAGEMENT INFORMATION SYSTEMS (3 credits)
The course covers a broad spectrum of knowledge and techniques in MIS. It presents an overview of the issues and strategies in managing IT resources for organizational effectiveness. Covered topics include but are not limited to IT planning, network computing, functional information systems and their integration, electronic commerce, decision support systems, and data and knowledge management.

Prerequisite(s): ACCT 2020, MGMT 3200 or MKT 3200, and MGMT 3490, each with a ‘C’ (2.0) or better, and a 2.5 GPA. Not open to non-degree graduate students.

MGMT 3300 STRATEGYU: IDENTIFYING AND LEVERAGING YOUR DISTINCTIVE PROFESSIONAL CAPABILITIES (3 credits)
StrategyU is a course designed to merge strategic thinking with personal and professional growth. The goal of the course is to enable individuals to identify where they are personally and professionally, where they want to be in both areas in the future, and develop strategies for how to get there.

Prerequisite(s): MGMT 3490 with a C- or better and a 2.5 GPA; or permission of instructor. Not open to non-degree graduate students.

MGMT 3410 INTRODUCTION TO SUPPLY CHAIN MANAGEMENT (3 credits)
Supply chain management is the design and management of business processes within and across organizational boundaries to meet the needs of the end customer. The overall goal of this course is to provide students with an understanding of present day issues and policies related to establishing a sustainable competitive advantage through efficient use of resources and collaboration with external business partners. Students will develop critical thinking skills focused on business process analysis and the use of key performance indicators. (Cross-listed with SCMT 3410, MKT 3410).

Prerequisite(s): Sophomore standing; GPA of 2.0 or better; or by permission of instructor. Not open to non-degree graduate students.

MGMT 3490 MANAGING PEOPLE AND ORGANIZATIONS (3 credits)
In this course, students will develop a clear understanding of management concepts, develop critical thinking skills in applying management concepts to real world problems and begin to develop the technical, interpersonal, communication, conceptual and decision-making skills that are important to success as a manager in modern organizations. Current management trends are emphasized.

Prerequisite(s): ENGL 1160 and MGMT 3200 or MKT 3200 each with a ‘C’ (2.0) or above, and a 2.5 cumulative GPA.

MGMT 3600 BUSINESS ETHICS (3 credits)
Students will learn about the factors, opportunities and pressures that lead to ethical dilemmas, and will develop their understanding of foundations and processes that encourage and reward ethical decision making and behaviors. Lots of examples, sourced from case studies and current events will be provided. (Cross-listed with BSAD 3600, MKT 3600).

Prerequisite(s): Junior classification (minimum of 58 earned credit hours) with a minimum 2.5 cumulative GPA. Completion of MGMT 3200 or MKT 3200 with a minimum grade of ‘C’ (2.0). Not open to non-degree graduate students.
MGMT 3800 CROSS-SECTOR COLLABORATIVE LEADERSHIP (3 credits)
The goal of PA 3800/MGMT 3800 is to prepare students to serve as collaborative leaders of cross-sector initiatives. Specifically, this course will prepare students for success in working collaboratively across private, nonprofit and public sector organizations while also enhancing their overall development as a leader. Examples of successful and unsuccessful cross-sector collaborations will be explored along with discussions of theories related to cross-sector collaboration. (Cross-listed with PA 3800).
Prerequisite(s): Permission from instructor or MGMT 3490 with a grade of C or higher or enrollment in the cross-sector collaborative leadership minor.

MGMT 4000 SPECIAL TOPICS IN MANAGEMENT (3 credits)
This special topics course will address specific topics which will vary by semester and is intended primarily for upper division students who are pursuing a management, supply chain management, or human resources management concentration.
Prerequisite(s): Permission from the Department of Management chairperson.

MGMT 4010 TOTAL REWARDS (3 credits)
This course is a comprehensive review of the theory and practice of developing and implementing cost-effective employee compensation and benefit programs. The course is designed to enable future managers and human resource professionals to utilize effective strategies for managing the single largest controllable expense for organizations; employee pay and benefits. (Cross-listed with BSAD 8146).
Prerequisite(s): MGMT 3490 and MGMT 4030 with a C+ or better and a 2.5 GPA; or permission of instructor

MGMT 4030 HUMAN RESOURCE MANAGEMENT (3 credits)
This course is a comprehensive review of human resource management concepts and practices. The course is designed to educate future managers and leaders on the importance of utilizing effective human resource methods that comply with federal laws and provide the organization with high-quality talent that provides a competitive advantage. (Cross-listed with BSAD 8136).
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4040 MANAGING BEHAVIOR IN ORGANIZATIONS (3 credits)
In this course students will learn the knowledge and skills necessary to effectively manage and lead others. The discussion and application of topics such as leadership, motivation and attitudes will provide a theoretical grounding in these areas and the opportunity to practice applying these concepts to real-world problems.
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor. Not open to non-degree graduate students.

MGMT 4050 MANAGERIAL DECISION MAKING (3 credits)
This course will provide students with the opportunity to learn, understand, and apply techniques for effective individual and organizational problem solving. The students will interactively participate in generating, prioritizing and organizing their ideas in order to become better managerial decision-makers/problem solvers.
Prerequisite(s): MGMT 3490 with a C, or a 2.5 GPA, or permission of instructor

MGMT 4060 HEALTHCARE ANALYTICS FOR BUSINESS (3 credits)
This course will focus on the use of analytics to develop key performance indicators that integrate and evaluate clinical, administrative, and financial performance. Key concepts in this course will include information management, performance metrics, data visualization, and communication of results across the healthcare ecosystem. Specific topics will include health outcomes analysis, financial performance, developing an analytics strategy, data quality and governance, and the four stages of actionable intelligence. (Cross-listed with BSAD 8066, SCMT 4060).
Prerequisite(s): MGMT 3490 or SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

MGMT 4090 MANAGING COLLABORATIVE ENGAGEMENT (3 credits)
This course will provide students with the opportunity to develop knowledge and strategies for leading teams, enhancing collaboration, building consensus, problem solving in teams, facilitating group processes, and designing collaborative workspaces. (Cross-listed with BSAD 8096, ITIN 4090)
Prerequisite(s): Junior standing or permission of instructor.

MGMT 4100 MANAGING CHANGE AND INNOVATION (3 credits)
This course is designed to increase students' understanding and knowledge of how organizations are designed and structured in order to create value, obtain competitive advantage, and respond innovatively to changing environments.
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4110 STAFFING THE ORGANIZATION (3 credits)
This course is a comprehensive review of issues and techniques related to the acquisition of high-quality human resources for optimal organizational effectiveness. The course is designed to enable future managers and human resource professionals to utilize effective strategies for recruiting, selecting, placing, and integrating new employees into the organization's workforce. (Cross-listed with BSAD 8166).
Prerequisite(s): MGMT 3490 and MGMT 4030 with a C+ or better and a 2.5 GPA; or permission of instructor. Students are encouraged to take MGMT 4220 prior to taking this course.

MGMT 4120 TALENT DEVELOPMENT (3 credits)
This course is a comprehensive review of the theory and practice of developing and implementing cost-effective employee training and development programs to optimize human capital effectiveness in modern organizations. The course is designed to enable future managers and human resource professionals to utilize effective strategies for assessing employee training needs and developing appropriate solutions to maximize talent utilization. (Cross-listed with BSAD 8156).
Prerequisite(s): MGMT 3490 and MGMT 4030 with a C+ or better and a 2.5 GPA; or permission of instructor.

MGMT 4150 GLOBAL BUSINESS MANAGEMENT (3 credits)
The purpose of this course is to explore management theory and practice from an international or cross-cultural perspective to gain an appreciation for the complexities of managing in diverse cultural, political and economic environments. Specific emphasis is placed on studying the challenges of management and organization in multinational corporations.
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA, or permission of instructor.

MGMT 4220 EMPLOYMENT LAW (3 credits)
This course is a comprehensive review of the legal framework in human resource management practice. The course is designed to prepare future managers and human resource professionals for the myriad legal issues involved in the employer-employee relationship and what is required for effective compliance. (Spring)
Prerequisite(s): MGMT 3490 with a C+ or better, MGMT 3510 or MGMT 4030 with a C(2.0) or better, and a 2.5 GPA; or permission of instructor.

MGMT 4230 LEARNING TO LEAD (3 credits)
The course provides an introduction to applied leadership concepts and practices. Students are given a background into systematic decision-making processes, and then are introduced to cases of how actual leaders think and solve problems. Building on these foundational models, students learn how to perform problem solving requirements they will experience as managers. Finally, it concludes with a look at psychological biases and traps that may affect decision-makers.
Prerequisite(s): MGMT 3490 with a C or better, a minimum cumulative GPA of 2.5, or permission of instructor. Not open to non-degree graduate students.
MGMT 4330 PROJECT MANAGEMENT (3 credits)
This course will focus on the planning and execution of complex projects within an organization. Students will learn how to conduct stakeholder analysis, plan the scope of a project, develop a project budget, lead a project team, and define the steps necessary to bring a complex project to a successful conclusion. Students will recognize how the strategy, structure, and culture of an organization can be used to identify and prioritize complex projects. (Cross-listed with SCMT 4330, BSAD 8336)
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of the instructor. Not open to non-degree graduate students.

MGMT 4440 MANAGEMENT OF QUALITY AND PROCESS IMPROVEMENT (3 credits)
Major topics in this course include TQM, process reengineering, process improvement, and tools and techniques to formulate, change and implement these concepts in organizations. Students can develop their knowledge and skills to apply these concepts in organizations through the applied orientation of this course. (Cross-listed with SCMT 4440).
Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4450 MANAGERIAL NEGOTIATION STRATEGIES (3 credits)
This course introduces students to the theory and practice of negotiation. The ability to negotiate successfully rests on a combination of analytical and interpersonal skills. In this course we will develop a set of conceptual frameworks that should help students better analyze negotiations in general and prepare more effectively for future negotiations in which they may be involved. This course is designed to help students better understand the theories, processes, and practices of negotiation, as well as conflict resolution and relationship management so that students can be more effective negotiators in a wide variety of situations. (Cross-listed with SCMT 4450, BSAD 8456)
Prerequisite(s): MGMT 3490 with a grade of C or above, at least a cumulative GPA of 2.5, or permission of instructor.

MGMT 4480 CORPORATE AND BUSINESS STRATEGY (3 credits)
A comprehensive study of the analytical techniques and managerial tasks associated with developing, executing and monitoring a strategic course of action for medium to large firms. The interrelationships between the functional business areas will be stressed using a combination of contemporary readings, business cases, team projects or computerized situations.
Prerequisite(s): Must be a graduating senior, have a declared major in BSBA program, 2.5 cumulative GPA, MGMT 3200 or MKT 3200, MGMT 3490, MKT 3310, FNBK 3250 with a "C" (2.0) or better. 

MGMT 4500 SPECIAL PROBLEMS IN MANAGEMENT (1-3 credits)
This is an independent study course in which the student completes a focused project in the field of management, human resource management, international business, supply chain management, or entrepreneurship under faculty supervision.
Prerequisite(s): MGMT 3490 C+ or better, 2.5 GPA; permission of program chair; junior/senior standing; must obtain agreement from a faculty member to supervise; submit completed Special Problems contract to MGMT Dept chairperson. Forms in CBA advising office.

MGMT 4510 MANAGEMENT INTERNSHIP (1-3 credits)
Students engage in part time employment in the management discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general management or a specialization within the domain (i.e. strategy, production/operations, project management, planning, organizing, leading, or controlling).
Prerequisite(s): MGMT 3490 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MGMT 4520 HUMAN RESOURCES MANAGEMENT INTERNSHIP (1-3 credits)
Students engage in part time employment in the human resource management discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general human resource management or a specialization within the domain (i.e. staffing, training, employee relations).
Prerequisite(s): MGMT 4030 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MGMT 4610 APPLIED LEADERSHIP FOR MANAGERS (3 credits)
The course provides an introduction to applied leadership concepts and practices by providing students with the knowledge and skills necessary to solve problems and make decisions as leaders.
Prerequisite(s): Completion of at least 30 credit hours and a minimum 3.3 GPA. Not open to non-degree graduate students.

MGMT 4690 EMERGING TECHNOLOGY AND INNOVATION (3 credits)
This course equips entrepreneurially-minded students with a more complete range and vision of the viability of various startup opportunities (with a specific focus on innovative technologies and innovative business models). Students will become familiarized with the new and emerging technologies and innovations that define modern industries and product categories, as well as the various shifts in the way cutting-edge business gets done, regardless of industry. (Cross-listed with ENTR 4690, BSAD 8696).
Prerequisite(s): Junior standing or higher; 2.75 minimum GPA; or permission of instructor

MGMT 4720 INNOVATION VENTURES (3 credits)
This team-based course provides students with the opportunity to practice the basic tools of business discovery and validation, both as an instrument for new venture formation and as a core capability for addressing challenges in competitive landscapes. As such, the course lies at the intersection of innovation, entrepreneurship and strategy. Students will develop practical experience by experimenting with and refining business ideas. (Cross-listed with BSAD 8726, ITIN 4720, ITIN 8256, ENTR 4720, MKT 4720).
Prerequisite(s): ENTR 3710 and junior standing or above or by instructor permission

MGMT 4960 CROSS-SECTOR COLLABORATIVE LEADERSHIP CAPSTONE (3 credits)
This is a capstone course that prepares students to be effective leaders in the 21st century. This course is the final leadership course in the Cross-Sector Collaborative Leadership minor. This minor requires a capstone project that encompasses the student’s knowledge and training. It is designed to provide an applied service-learning opportunity for students. (Cross-listed with PA 4960)
Prerequisite(s): Must be completing Cross-Sector Collaborative Leadership Minor. Not open to non-degree graduate students.

Management & Leadership Concentration

The management & leadership concentration provides students with opportunities to develop the technical, interpersonal, conceptual, diagnostic, communication, and decision-making skills to effectively carry out management functions. The management & leadership concentration is designed with the flexibility to permit students to select management courses that will meet their specific interests and career objectives.

For this concentration, students must complete a total of eighteen (18) credit hours including nine (9) credit hours in required concentration core courses and nine (9) credit hours in concentration electives.

### Human Resource Management Concentration

The Human Resource Management Concentration is for students who wish to focus on the human resource management functions of an organization. These functions include workforce staffing (recruitment and selection), talent development (training and development), performance management, total rewards (compensation and benefits), employee and labor relations, and strategic human resource planning.

For this concentration, students complete a total of eighteen (18) credit hours including six (6) credit hours in required concentration courses and twelve (12) credit hours in concentration electives. Students must complete MGMT 4030 with a C+ or above in order to complete the Human Resource Management concentration.

---

1. Requires placement from UNO’s English Placement and Proficiency Exam.
2. Requires placement from ACT/SAT scores, UNO’s Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.
3. Students who are concentrating in Management & Leadership must receive a grade of "C" or better in MGMT 3490.
4. For this requirement students must choose from an approved list of Management & Leadership Core classes. (See DegreeWorks for approved options)
5. For these requirements students must choose from an approved list of Management & Leadership Core/Elective classes. (See DegreeWorks for approved options)
6. For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160.
7. For this requirement students must choose from an approved list of Management & Leadership Elective classes. (See DegreeWorks for approved options)

This roadmap is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines: https://www.unomaha.edu/general-education/overview/index.php (https://www.unomaha.edu/general-education/overview/index.php.html)

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

**GPA Requirements:**

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

**Graduation Requirements:**

Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.
### Logistics & Supply Chain Management Concentration

The logistics & supply chain management concentration is for students who wish to focus on the supply chain functions within an organization. These functional areas include logistics (transportation management and scheduling), procurement (purchasing and materials management), effective resource management (lean manufacturing and lean supply chain management), and the three pillars of sustainable chains (people, profit, and planet).

For this concentration, students complete a total of eighteen (18) credit hours including nine (9) credit hours in required concentration core courses and nine (9) credit hours in concentration electives.

### Secondary Concentration in Logistics & Supply Chain Management

A secondary concentration in logistics & supply chain management, as a supplement to another BSBA concentration, may be obtained by completing SCMT 3410 plus nine (9) credit hours of specified SCMT courses. Students must meet all prerequisites to enroll in SCMT 3410. At least one of the courses must be SCMT 4380 or SCMT 4350. To fulfill the additional six (6) credit hours of upper-division courses (3000 or 4000 level) required for the secondary concentration in logistics & supply chain management, any course approved for the logistics & supply chain management concentration may also be used for the secondary concentration in logistics & supply chain management. A grade of C (2.00) or better is required in each course to apply to the secondary concentration in logistics & supply chain management.

**ENTR 2550 AFRICAN AMERICAN ECONOMICS AND CONSUMERISM (3 credits)**

This course traces the evolution of African American business and economic development systems in the U.S. and will examine historical economic and political influences which impact African American business communities. Students will be exposed to various aspects of African American business and economics, including Black entrepreneurship and Black owned businesses before, during, and after slavery; an analysis of the role of Black churches in African-American communities; and the impact of modern economic and political systems on African American business communities. (Cross-listed with BLST 2550).

**Distribution:** U.S. Diversity General Education course

**ENTR 2980 SEMINAR IN ENTREPRENEURSHIP (1 credit)**

This seminar exposes students to entrepreneurs and innovators from multiple industries and varied backgrounds. This course will explicitly link entrepreneurship theories with the best practice experiences of successful entrepreneurs in the region. Through purposeful interaction with the region's start-up community, this course will strengthen the networks of entrepreneurship students and equip students with the knowledge and tools to make their business ideas a reality.

**ENTR 3330 ENTREPRENEURIAL FINANCE (3 credits)**

This course focuses on venture capital formation and the financing of entrepreneurial ventures. The course is intended for students interested in entrepreneurship, venture capital markets, investment banking, and other careers related to new venture financing and/or deal structuring. The course applies basic financial theory to the unique environment of entrepreneurial ventures. Students will be exposed to various aspects of entrepreneurial finance and how capital is secured for start-up and growth-oriented ventures. (Cross-listed with FNBK 3330).

**Prerequisite(s):** ENTR 3170 with a C or better

**ENTR 3710 ENTREPRENEURIAL FOUNDATIONS (3 credits)**

A study of the analytical techniques and management skills associated with developing and executing business plans for small firms and startups. These skills, including strategic planning and competitor analysis, marketing, teaming, project and operations management, and cash flow projection will be taught through a combination of contemporary readings, speakers, and hands-on practice problems.

**Prerequisite(s):** Sophomore standing and 2.0 GPA.
ENTR 4000 SPECIAL TOPICS IN ENTREPRENEURSHIP (3 credits)
This special topics course will address specific topics which will vary by semester and is intended primarily for upper division students who are pursuing an entrepreneurship concentration.
Prerequisite(s): ENTR 3710 plus 6 hours of Entrepreneurship, all with C+ or better; GPA of 2.5 or better; or permission of instructor.

ENTR 4150 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)
An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with ENTR 8156, GEOG 4150, GEOG 8156, WGST 4150, WGST 8156)
Prerequisite(s): Junior, senior, or graduate standing, or permission of instructor.

ENTR 4390 MEDIA ENTREPRENEURSHIP (3 credits)
4390 Media Entrepreneurship explores new and emerging media business models from local, national and global perspectives. Students learn about and work within the start-up economy and entrepreneurial approaches. The course offers professional and critical perspectives. (Cross-listed with JMC 4390, JMC 8396).
Prerequisite(s): JMC 3340 and JMC 3350 or permission of instructor

ENTR 4530 ENTREPRENEURSHIP INTERNSHIP (1-3 credits)
Students engage in part time employment in a new or small business to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to establishing or growing a small business such as market research, customer development, systems design and implementation, funding activities, etc.
Prerequisite(s): ENTR 3710 with a C+ or better, a 2.5 GPA, and junior level standing, and permission of instructor. Not open to non-degree graduate students.

ENTR 4690 EMERGING TECHNOLOGY AND INNOVATION (3 credits)
This course equips entrepreneurially-minded students with a more complete range and vision of the viability of various startup opportunities (with a specific focus on innovative technologies and innovative business models). Students will become familiarized with the new and emerging technologies and innovations that define modern industries and product categories, as well as the various shifts in the way cutting-edge business gets done, regardless of industry. (Cross-listed with MGMT 4690, BSAD 8696).
Prerequisite(s): Junior standing or higher; 2.75 minimum GPA; or permission of instructor

ENTR 4710 COMPARATIVE INTERNATIONAL DEVELOPMENT AND INNOVATION (3 credits)
Comparative International Development and Innovation will analyze the rise and fall of civilizations from a historical and theoretical perspective in a comparative manner. The course will address issues concerning political, social, economic, and environmental change in national, and international contexts. Among its major emphases are state institutions, economic growth, entrepreneurship, and the transformation of social structure and culture. (Cross-listed with ENTR 8716, PSCI 4710, PSCI 8716).
Prerequisite(s): Junior or senior standing

ENTR 4720 INNOVATION VENTURES (3 credits)
This team-based course provides students with the opportunity to practice the basic tools of business discovery and validation, both as an instrument for new venture formation and as a core capability for addressing challenges in competitive landscapes. As such, the course lies at the intersection of innovation, entrepreneurship and strategy. Students will develop practical experience by experimenting with and refining business ideas. (Cross-listed with BSAD 8726, ITIN 4720, ITIN 8256, MGMT 4720, MKT 4720).
Prerequisite(s): ENTR 3710 and junior standing or above or by instructor permission

ENTR 4730 NEW VENTURE FORMATION (3 credits)
This course is a comprehensive study of the interrelationships between functional business areas in a start-up or small firm. These interrelationships will be taught through the development of a complete business plan for a start-up or small business.
Prerequisite(s): ENTR 3710 with a C (2.00) or better; GPA 2.5

ENTR 4740 TECHNOLOGY AND INNOVATION MANAGEMENT (3 credits)
This course covers the challenges that surround technology and innovation management. Approaching innovation management as a strategic process, this course will focus in on how the innovation process works and what kinds of organizational environments support this process, as well as how innovation affects the competitive dynamics of markets so that firms can better manage their innovation(s).
Prerequisite(s): ENTR 3710. Not open to non-degree graduate students.

ENTR 4750 SOCIAL ENTREPRENEURSHIP (3 credits)
Motivated by the desire for social change and community betterment, social entrepreneurs use innovation to solve society’s problems in a variety of settings - nonprofits, for-profit businesses, or government agencies. Guest speakers, case discussion, lecture, and student presentations will be used in this course and students will be expected to develop a detailed business plan for a social enterprise.
Prerequisite(s): Minimum GPA 2.5

ENTR 4760 SELLING IN AN ENTREPRENEURIAL CONTEXT (3 credits)
Successful entrepreneurs are able to identify unmet needs in the marketplace and then design and sell products or services that fulfill those needs. Sales effectiveness is essential for entrepreneurs because they must be able to build sustainable sales pipelines that ensure profitable growth while simultaneously addressing other pressing issues including financing, staffing, and product development. This course will focus on consultative solution-based sales fundamentals that can be applied in an entrepreneurial selling environment. (Cross-listed with MKT 4760, BSAD 8766)
Prerequisite(s): GPA 2.5 or better; MKT 3100 with a “C+” or better; MKT 3310 with a “C+” or better; or permission of instructor. Not open to non-degree graduate students.

ENTR 4770 INTRODUCTORY MAVERICK VENTURE FUND (1 credit)
This course teaches the basics of venture capital, including, the topics of term sheets, due diligence and learning the perspectives of the entrepreneur and investor. Students in this course have the opportunity to observe more advanced students making investments, ranging from 5,000 dollars to 10,000 dollars plus. This course is the first of three, one-credit courses where students gain more advanced venture funding knowledge and application at each level. (Cross-listed with BSAD 8776).
Prerequisite(s): This course requires instructor approval.

ENTR 4780 INTERMEDIATE MAVERICK VENTURE FUND (1 credit)
In this course, students source deals, listen to pitches, and select start-ups to be funded. Investments typically range from 5,000 dollars to 10,000 dollars plus. This course is the second in a set of three courses that increase in difficulty with each course. (Cross-listed with BSAD 8786).
Prerequisite(s): Students must have taken Maverick Venture Fund - 1: Venture Capital Concepts (ENTR 4770/8770).

ENTR 4790 ADVANCED MAVERICK VENTURE FUND (1 credit)
This course applies advanced concepts of venture capital. Students will learn how to monitor and assist start-ups in the scaling process. Students learn how to leverage community partners to amplify investment opportunities. This course is the third in a set of three courses that increase in difficulty with each course. (Cross-listed with BSAD 8796).
Prerequisite(s): Students must have taken MAVERICK VENTURE FUND - 2: APPLICATION, SOURCING DEALS & DUE DILIGENCE

MKT 2210 SURVEY OF MARKETING (3 credits)
This course is designed for any student who has an interest in marketing and focuses on basic product and services marketing as well as digital and social media marketing.
MKT 3100 PROFESSIONAL SELLING (3 credits)
This course focuses on professional selling and relationship marketing principles and practices. A variety of personal and direct sales techniques, psychology, and application of personal communication theory will be applied. Role-plays and presentations will be utilized to help students learn and execute the sales process model.
Prerequisite(s): ENGL 1160 with 'C' (2.0) or better and GPA of 2.3 or better; or permission of instructor.

MKT 3200 BUSINESS COMMUNICATIONS (3 credits)
This course develops business communication skills such as selecting and using appropriate technologies for reaching intended audiences. Students will practice effective explanatory, narrative, persuasive, and investigative writing in the context of business communication.
Prerequisite(s): ENGL 1160 and CMST 1110, each with a grade of "C" (2.0) or better; 2.5 GPA.
Distribution: Writing in the Discipline Single Course

MKT 3310 PRINCIPLES OF MARKETING (3 credits)
An examination of marketing functions and the institutions which perform them, choice of criteria for marketing strategy decisions, marketing structural relationships, and the role of marketing in society.
Prerequisite(s): ECON 2200, MATH 1310 or MATH 1220, ENGL 1160, and MGMT 3200 or MKT 3200 all with 'C'(2.0) or better, and 2.5 GPA.

MKT 3320 CONSUMER BEHAVIOR (3 credits)
Consumers purchase, use, experience, and dispose of products and services as part of their consumption process. How and why consumers choose various brand options, form judgments about these brands, and decide which options to buy and/or re-buy are essential knowledge for marketing professionals. The course covers the psychological and social issues that guide consumption decisions. (Cross-listed with BSAD 8345).
Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better; or permission of instructor.

MKT 3340 CHANNELS OF DISTRIBUTION (3 credits)
Channels management focuses on the associations of businesses and the performance of required functions making products and services available to end users when and where buyers demand them. Attention is paid to how intermediaries (e.g. wholesalers and retailers) interact and organize an efficient system to ensure that products and services are available in proper quantities and on time for consumers.
Prerequisite(s): MKT 3310 with 'C-' or better; and GPA of 2.5 or better; or permission of instructor.

MKT 3350 MARKETING SERVICE PRODUCTS (3 credits)
This elective explores how intangibility forces customers to evaluate service products differently, creating more challenges for marketers. The course is based on the premise that financial benefits reward services that provide value to customers, and develops strategies for creating value.
Prerequisite(s): MKT 3310 with a 'C+' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 3360 DIGITAL MARKETING COMMUNICATIONS (3 credits)
This course is designed to familiarize students with digital marketing concepts and applications. It provides a detailed understanding of relevant digital channels and platforms that companies use as part of their marketing mix. The course is structured to guide students through paid, earned, and owned digital media as part of a comprehensive digital marketing communications strategy. The course employs a mixture of lecture, discussion, simulation games, and sponsored consulting projects with real-world companies.
Prerequisite(s): MKT 3310 with 'C+' or better and GPA of 2.5 or better; or permission of instructor.

MKT 3370 SOCIAL MEDIA MARKETING (3 credits)
This course is designed to familiarize students with social media marketing concepts and applications. It provides a detailed understanding of relevant social media channels and platforms that companies use as part of their marketing mix. Students will apply their knowledge from class by completing several in-class exercises as well as graded assignments. The course employs a mixture of lecture, discussion, simulation games, and sponsored consulting projects with real-world companies.
Prerequisite(s): Completion of MKT 3310 with a C+ or better.

MKT 3380 INTERNATIONAL MARKETING (3 credits)
A study of the processes, procedures, characteristics and environments for goods and services in foreign market places. Reference is drawn to the theories and concepts of domestic marketing to appraise their applicability to international markets. Considerable attention is given to the features of the foreign market environments which both facilitate the marketing processes, inhibit them, and require strategies and tactics of accommodation.
Prerequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better.

MKT 3390 GRAPHIC DESIGN FOR MARKETERS (3 credits)
The course provides a hands-on introduction to the concepts and tools used in graphic design to create marketing communications. Material and assignments will focus on how design supports marketing communication strategy. Students will learn the principles and vocabulary of design, how to critique graphic design, and how to create basic print materials. Students will learn and practice the skills necessary to communicate with graphic designers and advertising professionals in order to successfully implement marketing strategies.
Prerequisite(s): MKT 3310 with 'C-' or better; 2.5 GPA or better.

MKT 3400 MARKETING INNOVATION (3 credits)
Product, service, and process innovation are essential drivers of firm performance. However, firms face considerable and complex challenges when bringing innovative ideas to life. For example, what marketing research methods should we employ to uncover vital consumer insights? How do these insights influence the development and launch of new products and services? What differentiated value are we delivering to our consumers? How do we successfully bring this new product or service to market? How does a brand's purpose and personality influence consumers' perceptions, purchase decisions, adoption, and engagement? This course will cover key marketing principles involved in the development and launch of new and innovative products and services - from conception to commercialization. Furthermore, we will explore how new-age technologies impact each stage of the development and launch processes. (Cross-listed with BSAD 8435).
Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better; or permission of instructor.

MKT 3410 INTRODUCTION TO SUPPLY CHAIN MANAGEMENT (3 credits)
Supply chain management is the design and management of business processes within and across organizational boundaries to meet the needs of the end customer. The overall goal of this course is to provide students with an understanding of present day issues and policies related to establishing a sustainable competitive advantage through efficient use of resources and collaboration with external business partners. Students will develop critical thinking skills focused on business process analysis and the use of key performance indicators. (Cross-listed with SCM 3410, MGMT 3410).
Prerequisite(s): Sophomore standing; GPA of 2.0 or better; or by permission of instructor. Not open to non-degree graduate students.
MKT 3600 BUSINESS ETHICS (3 credits)
Students will learn about the factors, opportunities and pressures that lead to ethical dilemmas, and will develop their understanding of foundations and processes that encourage and reward ethical decision making and behaviors. Lots of examples, sourced from case studies and current events will be provided. (Cross-listed with BSAD 3600, MGMT 3600).
Prerequisite(s): Senior classification (minimum of 58 earned credit hours) with a minimum 2.5 cumulative GPA. Completion of MGMT 3200 or MKT 3200 with a minimum grade of "C" (2.0). Not open to non-degree graduate students.

MKT 3610 BUSINESS TO BUSINESS MARKETING (3 credits)
This course examines the decisions involved in marketing goods and services to the industrial buyer as opposed to the consumer buyer. Buyer motivation, promotion decisions, channel development, pricing policies and pricing policies involved in the marketing of industrial goods are considered.
Prerequisite(s): MKT 3310 with 'C-' or better; 2.5 GPA or better; or permission of instructor

MKT 4000 SPECIAL TOPICS IN MARKETING (3 credits)
This special topics course will address specific topics which will vary by semester and is intended primarily for upper division students who are pursuing a marketing or sales concentration.
Prerequisite(s): MKT 3310 plus 6 hours of Marketing, all with 'C+' or better; GPA of 2.5 or better; or permission of instructor.

MKT 4200 CONSULTATIVE SELLING PRINCIPLES (3 credits)
The primary focus of the Consultative Selling Principles course is to develop the behaviors, methodologies, principles, and processes required to successfully lead and manage complex selling initiatives to a win-win close. The course examines and applies, through role playing and other activities, the critical relationship building, critical thinking, problem solving, listening and negotiating capabilities which are the foundation skills underlying consultative selling. (Cross-listed with BSAD 8206)
Prerequisite(s): MKT 3310 with 'C-' or better; MKT 3100 with C- or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4210 SELLING FINANCIAL SERVICES (3 credits)
Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course’s focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with BSAD 8216, FNBK 4210)
Prerequisite(s): MKT 3310 with a C- or better grade and 2.5 GPA. Not open to non-degree graduate students.

MKT 4220 GLOBAL STRATEGIC ACCOUNT MANAGEMENT (3 credits)
Throughout this course, the management of strategic account programs at national, multi-country, and global levels will be addressed. The primary focus of the curriculum is on the critical success factors for driving revenue, sustainable long-term-growth and profitability with a base of core strategic buyers. (Cross-listed with BSAD 8226)
Prerequisite(s): Senior or graduate student standing and permission of the instructor. Not open to non-degree graduate students.

MKT 4300 MARKETING MANAGEMENT (3 credits)
This case study course examines product, price, promotion and channel of distribution policies. Major emphasis is placed on analysis of marketing problems and the facets of making marketing decisions.
Prerequisite(s): MKT 3310 with grade of 'C-' or better plus 6 hours of marketing, all with 'C' (2.0) or better, senior standing; GPA of 2.5 or better; or permission of instructor.

MKT 4320 SALES MANAGEMENT (3 credits)
The student will be exposed to current research findings in sales management and to business cases and simulations where sales management theories and concepts will be applied. This course will prepare students to develop and implement specific compensation, motivation, and evaluation strategies for managing sales professionals across a wide variety of organizations. (Cross-listed with BSAD 8326).
Prerequisite(s): MKT 3310 with 'C-' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4340 MARKETING RESEARCH (3 credits)
Application of analytical tools to marketing problems including markets, products, distribution channels, sales efforts and advertising. Emphasis on planning, investigation, collection, interpretation of data and presentation of results.
Prerequisite(s): MKT 3310 with 'C-' or better; BSAD 2130 or BSAD 3140 or BSAD 3160 with 'C' (2.0) or better; GPA of 2.5 or better; or permission of instructor.

MKT 4360 E-MARKETING (3 credits)
This course focuses on utilizing the Internet as a marketing platform. Course content includes discussion of how the Internet is used by businesses for designing products, pricing, promotions, distribution, positioning, gathering information, and cultivating relationships with stakeholders. The discussion about the rise of social media, sharing economy, virtual reality devices, and other relevant trends will also be part of the course. (Cross-listed with BSAD 8366).
Prerequisite(s): MKT 3310 with 'C-' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4370 MARKETING ANALYTICS (3 credits)
This course focuses on the application of data analytics in marketing decision making (e.g., segmentation, sales forecasting, and resource allocation). Students will learn to apply statistics and econometrics to solve marketing problems. Key topics in this course include marketing data visualization, marketing metrics, descriptive and predictive analytics, and digital marketing analytics. This course takes a very hands-on approach with real-world databases and equips students with tools that can be used immediately on the job. (Cross-listed with BSAD 8396).
Prerequisite(s): MKT 3310 with 'C-' or better; BSAD 2130 or BSAD 3140 or BSAD 3160 with 'C' (2.0) or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4380 INDUSTRIAL PURCHASING AND LOGISTICS MANAGEMENT (3 credits)
This course will focus on the strategic procurement of products and services in order to gain a competitive advantage through integrated supply management. Students will learn about strategic supply management, contract negotiation, and supplier quality management. Students will develop an understanding of supplier performance management through the use of supply chain information systems. (Cross-listed with SCMT 4380, BSAD 8386.)
Prerequisite(s): SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

MKT 4420 BUSINESS DEMOGRAPHICS (3 credits)
The goal of this course is to develop a demographic perspective in order to assist in understanding the business environment and business policy. How population change impacts consumer markets and all of the functions (for example, accounting, finance and management) that must exist for these markets to perform. Includes a history of population change and policy as well as a view toward international population considerations. (Cross-listed with BSAD 8426).
Prerequisite(s): MKT 3310 with 'C-' or better; GPA 2.5 or better, Junior Standing; or permission of instructor. Not open to non-degree graduate students.
MKT 4500 SPECIAL PROBLEMS IN MARKETING (1-3 credits)
This course consists of an individual investigation of specific marketing topics under the supervision of a faculty member and could include readings, independent research, and a written research paper.
Prerequisite(s): Principles of Marketing (MKT 3310) with minimum C+ or permission of instructor.

MKT 4510 MARKETING INTERNSHIP (1-3 credits)
Students engage in part time employment in the marketing discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general marketing or a specialization within the domain (i.e. selling, social media, advertising, market research).
Prerequisite(s): MKT 3310 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MKT 4540 SUPPLY CHAIN MANAGEMENT INTERNSHIP (1-3 credits)
Students engage in part time employment in supply chain management to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to the field of supply chain management (i.e., purchasing, scheduling, supplier relations, materials management, or logistics). (Cross-listed with SCMT 4540)
Prerequisite(s): MKT-MGMT 3410 Sustainable Supply Chain Management and GPA of 2.5 or better; or by permission of the instructor. Not open to non-degree graduate students.

MKT 4720 INNOVATION VENTURES (3 credits)
This team-based course provides students with the opportunity to practice the basic tools of business discovery and validation, both as an instrument for new venture formation and as a core capability for addressing challenges in competitive landscapes. As such, the course lies at the intersection of innovation, entrepreneurship and strategy. Students will develop practical experience by experimenting with and refining business ideas. (Cross-listed with BSAD 8726, ITIN 4720, ITIN 8256, ENTR 4720, MGMT 4720).
Prerequisite(s): ENTR 3710 and junior standing or above or by instructor permission

MKT 4760 SELLING IN AN ENTREPRENEURIAL CONTEXT (3 credits)
Successful entrepreneurs are able to identify unmet needs in the marketplace and then design and sell products or services that fulfill those needs. Sales effectiveness is essential for entrepreneurs because they must be able to build sustainable sales pipelines that ensure profitable growth while simultaneously addressing other pressing issues including financing, staffing, and product development. This course will focus on consultative solution-based sales fundamentals that can be applied in an entrepreneurial selling environment. (Cross-listed with ENTR 4760, BSAD 8766)
Prerequisite(s): GPA 2.5 or better; MKT 3100 with a "C+" or better; MKT 3310 with a "C+" or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4800 HONORS STUDIES IN MARKETING (3 credits)
A comprehensive examination of marketing as it is practiced among firms representing different industrial sectors. Course objectives include individual inquiry, theoretical applications and limitations, and an increased academic understanding of the discipline of marketing. Only grades 'B' and above will be awarded. Students exhibiting performance below the 'B' level will receive an 'F' for the course. Admission to this course is by invitation only.
Prerequisite(s): Permission of instructor. Senior standing, 3.2 GPA or above, declared business college specialization in MKT or BFIn or MGMT or communications (journalism, PR or broadcasting). Not open to non-degree graduate students.

Entrepreneurship Concentration

The Entrepreneurship Concentration is for students interested in starting, owning, and/or operating a business venture as well as students interested in serving entrepreneurial ventures as consultants, bankers, accountants, and marketing professionals. The entrepreneurship concentration has a practical emphasis designed to assist students in developing and operating their new and/or small ventures. Courses in this concentration lead students through the different processes of getting into business, addresses important operating issues relevant to the running of day-to-day activities of a venture, and discuss the important topic of planning for business growth and development.

For this concentration, students complete a total of eighteen (18) credit hours including twelve (12) credit hours in required concentration courses, and six (6) credit hours in concentration electives.

---

1. Requires placement from UNO's English Placement and Proficiency Exam.
2. Requires placement from ACT/SAT scores, UNO's Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.
3. For this requirement students must choose from an approved list of Entrepreneurship Elective classes. (See DegreeWorks for approved options)
4. For this requirement students must choose from an approved list of Entrepreneurship Elective classes. (See DegreeWorks for approved options)

---

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

#### University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.
General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines https://www.unomaha.edu/general-education/overview/index.php. (https://www.unomaha.edu/general-education/overview/index.php.html)

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

GPA Requirements:
Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements:
Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

## Marketing Concentration

Students earning a concentration in marketing learn research skills necessary for discovering the needs or desires of their firm’s target market. These skills enable marketers to develop a thorough understanding of their target market(s), the marketplace—whether local, national, global or virtual, the firm’s competitors, and the competitive environment. Working together with other units in the firm, marketers design products and services that provide benefits and/or solve customer problems better or more efficiently than competitors’ products. In other words, marketers contribute to the firm’s competitive advantages to avoid being easily copied by competitors. Marketers design and implement strategic marketing plans in order to

1. Communicate effectively with the target market so customers understand the benefits offered by the firm relative to competitors;
2. Distribute products and services in ways that maximize customer satisfaction while simultaneously minimizing the firm’s costs; and
3. Provide value to the target market so that customers are satisfied with the benefits received for the price paid, especially when compared to value available from competitors.

Students must complete MKT 3310 with a C+ or above in order to take additional marketing courses, to complete the marketing concentration, or to complete the secondary concentration in marketing.

**Total Credits 18**

**1 MKT 3310 with a grade of C+ or above.**

**2 MKT 4000 can be taken multiple times and may include any department chair approved topic.**

Students must meet all prerequisites to enroll in MKT 3310. For students who wish to complete a secondary concentration in marketing, at least one of the courses must be MKT 4300 or MKT 4340. For the remaining six (6) hours of upper-division (3000 or 4000 level) marketing courses, any course approved for the marketing concentration may also be used for the secondary concentration in marketing, with the exception of MKT 4500. A grade of C (2.00) or better is required for a course to apply to the secondary concentration.

---

1. Requires placement from UNO’s English Placement and Proficiency Exam.
2. Requires placement from ACT/SAT scores, UNO’s Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.
3. Students who are concentrating in Marketing must receive a grade of “C+” or better in MKT 3310.
4. For this requirement students must choose from an approved list of Marketing Elective classes. (See DegreeWorks for approved options)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

#### University Degree Requirements:
- The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.
- General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines [https://www.unomaha.edu/general-education/overview/index.php](https://www.unomaha.edu/general-education/overview/index.php).
- Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php).

**Transfer credit or placement exam scores may change suggested plan of study**

#### GPA Requirements:
- Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.
- Graduation Requirements:
  - Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses.
  - Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.
  - CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

### Sales Concentration

The Sales concentration provides students with the opportunity to develop communication, interpersonal, decision-making, and critical-thinking skills that will enable them to effectively carry out sales functions across a variety of contexts, career paths, and industries. The Sales concentration is specifically designed to develop knowledge and skills in relational and consultative selling.

¹ Requires placement from UNO’s English Placement and Proficiency Exam.
² Requires placement from ACT/SAT scores, UNO’s Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.
³ Students who are concentrating in Sales must receive a grade of “C+” or better in MKT 3310.
The college makes important contributions to the cultural growth and well-being of the people of the region and prepares students to participate in a global community.

Central to the college’s educational mission is the instruction of students in the essential, practical and theoretical knowledge that they will need to succeed in their chosen disciplines. Through its diverse outreach activities, the college is equally committed to the engagement of a broad constituency.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

Students who are concentrating in Sales must receive a grade of “C+” or better in MKT 3100.

For this requirement students must choose from an approved list of Sales Elective classes. (See DegreeWorks for approved options.)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Transfer credit or placement exam scores may change suggested plan of study.**

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**GPA Requirements:**

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

**Graduation Requirements:**

Students must earn a minimum of 120 credit hours for a BSBA.

42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills.

Students who entered the University in a degree program; however, students are eligible for more recent catalog years if it is to their benefit and approved by their advisor. By changing catalogs, a student is responsible for fulfilling all of the graduation requirements in their newly chosen catalog year. Requests to Change of Catalog Year must be approved by your Academic Advisor(s) and the CFAM Dean’s Office. Students who suspend their matriculation for more than two semesters forfeit the requirements under their initial catalog year curriculum that they are required to follow and determines the contract of degree requirements a student must fulfill in order to graduate.

Central to the college’s educational mission is the instruction of students in the essential, practical and theoretical knowledge that they will need to succeed in their chosen disciplines. Through its diverse outreach activities, the college is equally committed to the engagement of a broad constituency. The college makes important contributions to the cultural growth and well-being of the people of the region and prepares students to participate in a global community.

**General Information**

**Overview of Degree Programs**

The College of Communication, Fine Arts and Media (CFAM) offers the following degree programs:

- Bachelor of Arts
- Bachelor of Fine Arts
- Bachelor of Music
- Bachelor of Science
- Graduate Degrees (offered through Graduate Studies)

**Accreditation Information**

**Major** | **Degree** | **Accreditation Body**
--- | --- | ---
Art History | BA | National Association of Schools of Art and Design (NASAD)
Music | BA | National Association of Music (NASC)
Music Conducting | MM | National Association of Schools of Music (NASM)
Music Education | BM | National Association of Schools of Music (NASM)
Music Performance | BM MM | National Association of Schools of Art and Design (NASAD)
Studio Art | BASA BFA | National Association of Schools of Art and Design (NASAD)
Studio Art with K-12 Certification | BASA BFA | National Association of Schools of Art and Design (NASAD) - Association for Advancing Quality in Educator Preparation (AAQEP) - Nebraska Department of Education

**Choice of Catalog Policy**

The catalog year (requirement term) is what ties the student to the catalog year curriculum that they are required to follow and determines the contract of degree requirements a student must fulfill in order to graduate.
and must complete the program under the catalog for the academic year in which they return.

**Program Contact Information**
College of Communication, Fine Arts and Media Dean’s Office:
402.554.3857

Program Website ([https://www.unomaha.edu/college-of-communication-fine-arts-and-media/](https://www.unomaha.edu/college-of-communication-fine-arts-and-media/))

**Admission Requirements**
Admission to programs in the College of Communication, Fine Arts and Media follow regular admission procedures of the University outlined in the current undergraduate catalog. The application deadline for admission to a degree seeking program is August 1 for fall semester, December 1 for spring semester.

Students who wish to transfer into CFAM from another college within the University must obtain written permission from and meet with a CFAM Dean’s Office advisor. A minimum cumulative grade point average (GPA) of 2.25 is required to transfer into the college.

**Academic Requirements for the College Degrees**
**Number of Hours to Graduate**
Students must complete a minimum of 120 semester hours of college credit toward the degree of Bachelor of Science in Communication, Bachelor of Arts in Communication, Bachelor of Arts in Art History, Bachelor of Arts in Studio Art, Bachelor of Fine Arts (Studio Art and Creative Writing), Bachelor of Arts in Theatre, Bachelor of Arts in Music or Bachelor of Music. The minimum credit hour requirement for students in art or music seeking K-12 certification may vary according to current guidelines for teacher certification. Students must maintain close contact with an advisor each semester to insure progress toward fulfillment of their course of study. No student may count more than 87 semester hours of credit in any one discipline toward graduation. Actual limits are determined by faculty in the various disciplines.

**General Education Requirements**
Students are required to complete the UNO General Education requirements. See below for specific information about quantitative literacy and writing in the discipline.

**Quantitative Literacy**
Students seeking degrees within the College of Communication, Fine Arts and Media can complete any of the courses approved for quantitative literacy.

**Writing in the Discipline**
The following courses have been approved to fulfill the requirement for Writing in the Discipline for students seeking degrees within the College of Communication, Fine Arts and Media:

**Students in Art/Art History, Music (not K-12), and Writer's Workshop**
WRWS 3500 Creative Writing in the Arts

**Students in Communication studies or Journalism/Media Communication**
CMST 3340 Rhetorical Criticism (For students in Communication Studies)

JMC 2100 Media Writing (For students in Journalism/Media Communication)

**Students in Art, K-12 and Music, K-12 Only**
TED 2100 Educational Foundations

**Students in Theatre Only**
THEA 3710 Theatre History and Literature: Modern 1850-2000
THEA 4780 Theatre History and Literature: Classical to 1500
THEA 4790 Theatre History and Literature: Renaissance to 1850

Academic advisors can provide information about the specific course required for each degree program.

**Foreign Language Requirement for BA degrees in Music, Theater, and Studio Art degrees**
While Bachelor of Arts degrees typically require foreign language as part of the degree requirements, students in music, theatre, and studio arts are exempt from this requirement.

**Minimum GPA/Additional Requirements**
All students who have not yet earned any college credit and who are eligible to enter the university are accepted for admission to the college. Students who are seeking a degree within the School of Music are also required to complete an entrance audition for admission into the music program. Admission of transfer students or students who have previously been enrolled at UNO is evaluated on an individual basis. A 2.25 grade point average in previous course work is required.

Application deadline for admission: August 1 for fall semester, December 1 for spring semester

**Transfer Credit Policy**
Students may apply no more than 96 quarter hours (64 semester hours), transferred from a two year institution, towards a UNO bachelor's degree. Academic advisors retain the right to accept or reject courses based on their transferability and validity to fulfill major requirements.

**Unacceptable Credits**
Credits in any courses classified as “remedial” or courses in other colleges of the university not approved by the College of Communication, Fine Arts and Media faculty may not be applied toward degrees offered by CFAM.

**Retroactive Credit Policy**
[https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/](https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/) (p. 30)

[https://nextcatalog.unomaha.edu/undergraduate/student-life-support-services/](https://nextcatalog.unomaha.edu/undergraduate/student-life-support-services/) (p. 62)
Residency Requirement
Thirty (30) of the last 36 hours required for the degree must be registered for and completed at the University of Nebraska at Omaha.

Quality of Work
A grade of "C" or higher will be required for any major course accepted for any College of Communication, Fine Arts and Media degree requirement. All students must maintain a minimum 2.0 grade point average (GPA) in all course work, including work transferred from other institutions, to remain in good standing in the college.

The School of Communication requires students to earn a minimum of "C" in all major course work. Furthermore, students who take sophomore level or above journalism and media communication courses, or junior level or above communication studies courses must maintain at least a 2.25 cumulative GPA.

The School of Music requires a 2.5 GPA in all music courses. Students enrolled in the Bachelor of Music, performance concentration must maintain a 3.0 GPA in their concentration studio areas. Students seeking K-12 certification must adhere to the GPA/grading standards set for the UNO Educator Preparation Program.

The School of Music requires a 2.5 GPA in all music courses. Students enrolled in the Bachelor of Music, performance concentration must maintain a 3.0 average in their major applied field. Students seeking K-12 certification must adhere to the GPA/grading standards set for the UNO Educator Preparation Program.

All grades reported by the faculty to the registrar become a part of the student’s permanent record and are included in computation of the cumulative grade point average, regardless of the total number required for the degree.

Good Academic Standing Policy
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

Credit/No Credit (CR/NC) Grades
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

Completion of Incomplete Grade
Students have one semester after an incomplete is awarded to complete the course work. After this, the grade changes to a withdrawal. Students who complete the required course work outside of the allotted time frame may still receive credit by re-enrolling and paying tuition for the course. Exceptions are made when a student has been working in good faith continuously to complete the course work, with no breaks in work submitted, or within contracted terms determined by the faculty member.

Repeatable Grades/Courses
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

Appeal Process
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

Grade Appeal Policy
Undergraduate students wanting to appeal a grade received in a College of Communication, Fine Arts and Media unit course should first discuss the matter directly with the instructor. If a satisfactory agreement is not reached, the student may submit an appeal in writing to the chair/director of the academic unit in which the course is offered.

If the student and chair/director of the academic unit do not reach a satisfactory agreement, the student may submit an appeal in writing to the Dean of the College of Communication, Fine Arts and Media, at which point the appeal may be referred to the Education Policy Committee of the College for review. The student’s written appeal to the Dean must be made by the end of the following semester after the academic unit’s decision. For example, if the academic unit’s decision is made in the fall semester, the student has until the end of the spring semester to submit a written appeal. If the Education Policy Committee of the College reviews the appeal it may request additional information from the student, the instructor, the academic unit or its chair/director as needed. Education Policy Committee members who have voted on the case at the academic unit level must recuse themselves from the Committee’s vote. Upon making a decision, the Education Policy Committee will send its recommendation to the Dean’s office in writing, and the Dean’s office will notify the student of the College’s decision.

Academic Amnesty
A student enrolled in the College of Communication, Fine Arts and Media may request to have one or two semesters (taken at UNO, UNL, and/or UNK) removed from their cumulative grade point average and degree consideration by petitioning for academic amnesty. The form for applying for Academic Amnesty can be found here [https://www.unomaha.edu/college-of-communication-fine-arts-and-media/_files/docs/AcademicAmnestyPetition.pdf](https://www.unomaha.edu/college-of-communication-fine-arts-and-media/_files/docs/AcademicAmnestyPetition.pdf) The following conditions for academic amnesty apply:

- Have been out of the Nebraska system for at least one calendar year (12-month period).
- Have substandard coursework ("F" or "D" grades) earned within the University of Nebraska system (UNO, UNL, UNK, UNMC) prior to the year out (substandard grades earned after the year out will not be included in the Academic Amnesty contract).
- Be admitted as a degree-seeking student at the University of Nebraska.

Requirements:

- Academic Amnesty will begin with the first course(s) taken upon return to UNO.
- Students may apply for Academic Amnesty at any time after taking the one-year break.
- After returning from the one-year break, demonstrate academic success in new UNO coursework.
- Academic success may be demonstrated by one of the following:
  - Completing at least 12 semester hours (simultaneous or sequential) with a minimum of 3.0 cumulative GPA,
  - Completing at least 24 semester hours (simultaneous or sequential) with a minimum of 2.5 cumulative GPA.
- Students must maintain continuous enrollment (at least six (6) semester hours completed within any 12-month period).
- Students will work with their academic advisor to select the coursework to be amnestied.
- Students must inform an academic advisor when the Academic Amnesty requirements are met.

Notes:

- All amnestied coursework will remain on the student’s academic record (transcript); however, the courses will not be included in calculation of the student’s grade point average. Courses will be annotated “Academic Amnesty Excluded from GPA” on the transcript.
- Once Academic Amnesty is granted, students will not be eligible for honors at graduation. Students are still eligible for Dean’s List and Chancellor’s List honors.
- While demonstrating academic success, no changes are made to the student’s academic record. If a student’s cumulative GPA is still below standard, the students will continue to be reported as “continued on probation.” Should the student revert to substandard academic
performance while working on Academic Amnesty, the student can still be suspended. Academic Amnesty is intended to provide relief from the past without providing immunity from future substandard academic performance.

- Students must still meet all university and college requirements to graduate.

### Academic Probation and Suspension
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

### Reinstatement Policy Following Academic Suspension
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

### Academic Advising
Each student enrolled in a College of Communication, Fine Arts and Media degree program is encouraged to review requirements for their intended degree with an assigned academic advisor. (https://www.unomaha.edu/college-of-communication-fine-arts-and-media/academics/advising.php)

Information on assigned advisors is available in the student's relevant school offices. Additionally, students can contact academic advisors via the MavTRACK (https://www.unomaha.edu/my/advising-system-mavtrack.php).

Review of specific degree requirements should be conducted with an advisor at scheduled times each semester in preparation for and prior to each enrollment/registration period.

#### Advising Holds
https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/ (p. 24)

#### Student Holds
https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/ (p. 24)

#### Senior Check
Students who have completed 91+ credit hours toward their chosen degree program are required to have a senior check completed by an academic advisor. This process will assure the student’s graduation date, assuming satisfactory completion of all approved courses. All substitutions and/or changes to a student’s degree requirements must be noted in writing during the advising process. Should this procedure not be followed, responsibility for meeting graduation requirements falls on the student. Errors made could prevent timely graduation.

### School of Communication

#### Mission
The School of Communication provides a student-centered, dynamic environment designed to educate, empower, and engage students to become skilled, ethical citizens and professionals who can excel in diverse local and global communities.

#### Vision
Our vision is to be a recognized leader in innovative teaching, leading-edge research/creative activity, and community-engagement initiatives. We will achieve this by supporting and attracting exceptional faculty and outstanding undergraduate and graduate students from within and outside the metropolitan area.

#### Other information
For School of Communication majors, courses that have been applied toward general education requirements may also be applied to the major, minor, or second-field of concentration requirements, with the exception of the courses used to fulfill the general education oral communication requirement.

All students who take most sophomore-level or above (2000-, 3000- or 4000-level) journalism and media communication courses (JMC), or junior-level or above (3000- or 4000-level) communication studies (CMST) courses, are required to have a cumulative grade-point average of at least 2.25. Any exceptions will be by written permission of the school. Students will receive a worksheet listing requirements to track their progress toward a degree.

Communication Studies students may not complete more than a total of three hours of credit for forensics activities (CMST 3150 and CMST 3160) or more than a total of six hours of credit for Internships and Independent Study. Exceptions to these limits can be made by the School of Communication director.

Journalism and Media Communication students may not complete more than a total of six hours of credit for Internships and Independent Study. Exceptions to these limits may be made by the School of Communication director.

Students may double major within the School of Communication by completing the requirements for both CMST and JMC programs. Some classes, such as JMC 4970 and CMST 4970 Internship Experience, may count toward both majors with advisor approval.

The Bachelor of Arts in Communication (BAC) degree includes a foreign language requirement (16 credit hours or high school equivalent), while the Bachelor of Science in Communication (BSC) degree includes a minimum of 15 hours in a second field of study (or a minor as specified by a department or school). A second field of study is defined as courses within a single department of the university or as courses that all relate to a single subject area or topic. The second field of study must include at least six hours of upper-level courses (3000- or 4000-level) except as specifically exempted in writing by a school advisor or the school director.

Students must earn at least a “C” in all courses required for the major, as well as in all foreign language courses required for the Bachelor of Arts in Communication and in all classes in the second field of study (or minor) required for the Bachelor of Science in Communication.

### Contact
The School of Communication office areas are located in Arts and Sciences Hall Room 140, Room 107, Room 108, and Room 105. Phone: 402.554.2600 or 402.554.2520.

Website (http://communication.unomaha.edu/)

### Degrees Offered
The School of Communication offers Bachelor of Arts and Bachelor of Science degree programs in the Communication Studies (course prefix is CMST) and Journalism and Media Communication (course prefix is JMC) programs.

- Communication Studies, Bachelor of Arts (p. 436)
- Communication Studies, Bachelor of Science (p. 437)
- Journalism and Media Communication, Bachelor of Arts (p. 438)
- Journalism and Media Communication, Bachelor of Science (p. 441)

### Writing in the Discipline
The advanced writing classes for the Communication Studies program is Rhetorical Criticism CMST 3340 and for the Journalism and Media Communication program is Media Writing JMC 2100

### Communication Studies
The requirements for the the Communication Studies program include a minimum of 57 credits, plus 15 credits in a second field of study for a Bachelor of Science in Communication and 16 hours in a foreign language for a Bachelor of Arts in Communication. A total of 120 credits are required, including general education requirements and general electives.
Journalism and Media Communication

The requirements for the Journalism and Media Communication program include a minimum of 57 credits, plus 15 credits in a second field of study for a Bachelor of Science in Communication degree and 16 hours in a foreign language for a Bachelor of Arts in Communication degree. A total of 120 credits are required, including general education requirements and general electives.

Journalism and Media Communication students must select one of two concentrations: Emerging Media or Public Relations/Advertising.

Minors Offered

- Communication Studies Minor (p. 438)
- Journalism and Media Communication Minor (p. 443)
- Visual Communication and Culture Minor (p. 443)

Communication Studies

Effective communication, whether written, spoken or non-verbal is essential for success in any career field and Communication Studies students develop and hone these critical skills. Besides strong verbal, nonverbal, and written communication skills, Communication Studies students also develop critical thinking skills including synthesizing information, building a cohesive argument, and analytical proficiency. Students may also apply their classroom knowledge externally by completing internships with nationally and internationally recognized organizations, both profit and non-profit.

Possible careers include:

- Career Planning Consultant
- Customer Relations Representative
- Trainer/Recruiter
- Personnel Interviewer
- Team Facilitator
- Employee Relations Representative
- Project Manager
- Community Relations
- Cultural Adjustment Facilitator
- Diversity Trainer/Consultant
- Peace Corp/Social and Human Services
- Political Coordinator
- Claims Representative
- Community Relations
- Customer Service
- Social and Human Services
- Community Organizer
- Conflict Resolution Trainer
- Group/Team Facilitator
- Negotiator/Mediator
- Community Affairs Liaison
- Elected Official/Leader
- Legislative Assistant
- Lobbyist
- Press Secretary

Journalism and Media Communication

Journalism and Media Communication provides a comprehensive education in emerging media, public relations/advertising. Coursework in media communication, media writing, media production principles, media theory, and communication research provide a strong foundation for any form of media communication.

Beyond the classroom, students get hands-on experiences working in the field through internships; service learning projects; production of The Omaha News and Consider This - programs produced in the UNO Television studio; working both on-air and behind the scenes at MavRadio (https://www.mavradio.fm/) - UNO’s student-run radio station; broadcasts of UNO athletic events held at Baxter Arena; and working directly with professional clients in MavPR and the PR/Ad Capstone course. Regardless of the path a student chooses, JMC can lead to multiple career opportunities.

Possible careers include:

- Social media manager
- Brand manager
- Podcaster/host
- Video blogger
- Radio broadcaster
- Journalist
- Technical writer
- Business editor
- Staff writer
- News producer
- Digital strategist
- Public Relations specialist
- Copywriter
- Marketing director
- Campaign manager
- Media buyer

Communication Studies

CMST 1110 PUBLIC SPEAKING FUNDS (3 credits)

Public Speaking Fundamentals helps students become effective public speakers, as well as critical listeners and evaluators of public communication. Students will learn the principles of audience adaptation, topic selection, organization, development of ideas and presentation of speeches. Each student will design and present a minimum of four public speeches. (Special 'Speaking Confidently' sections are available for the students with excessive levels of fear about public communication. Contact the School of Communication for applications.)

Distribution: Fundamental Academic Skills-Public Speaking

CMST 1310 PERSPECTIVES IN COMMUNICATION STUDIES (3 credits)

This course surveys concepts in the dynamic field of speech communication. Students will examine how communication practices shape our worldviews and our relationships in both private and public contexts. This course emphasizes concepts including, but not limited to: a) interpersonal relationships, b) organizational communication & employee relations, c) public & political communication, d) communication technology & human relationships, e) culture & communication, f) health communication, g) communication training & instructional development and h) conflict resolution. Students will also have the opportunity to be informed about possible careers in speech communication.

Distribution: Social Science General Education course

CMST 1400 EXPLORING COMMUNICATION STUDIES (3 credits)

This course is an introduction to the field of Communication Studies. Students will learn the history of the discipline, the fundamental concepts, forms, and terms of the discipline, as well as the research methodologies often used by communication scholars. Various topics and areas of inquiry within the field (with specific focus on the areas offered and available to the students in the School of Communication) are discussed to set up students for success by developing a plan of study around their interests. Related careers will be included.
CMST 2010  INTERPERSONAL COMMUNICATION (3 credits)
This course is an introduction to the study of interpersonal communication. Within this course, students will be introduced to the theories, research, and concepts relevant to interpersonal communication and will be given opportunities to develop and enhance their own communication skills.
Distribution: Social Science General Education course

CMST 2100  INTRODUCTION TO COMMUNICATION THEORY (3 credits)
Communication Theory is an undergraduate course designed to introduce students to the major foundational theories that inform the field of communication. Special emphasis is placed on communication theories that examine the self, the message, relationship development, groups and organizations, the public and the media, as well as culture and diversity. Skills learned in this course are necessary foundations for the upper-level communication courses as well as the Communication Studies capstone course.
Prerequisite(s): CMST 1400

CMST 2120  ARGUMENTATION AND DEBATE (3 credits)
The course emphasizes informative and persuasive communication as well as the Communication Studies capstone course.
Theory and practice of effective argumentation and debate. Students will participate in a variety of speaking activities involving the application of argumentation principles to current political and social issues.
Distribution: Fundamental Academic Skills-Public Speaking

CMST 2300  INTERGROUP DIALOGUE (3 credits)
The increasing diversity in the US presents a growing need for communication skills one can apply whenever we work with, learn with, and relate to those with different social identities than our own. This course is designed to provide students with experiences and skills necessary to engage in open and constructive dialogue across social identity groups. The course incorporates content learning, structured interaction, peer facilitation, and self-reflection to support students as they explore issues of intergroup relations, conflict, and community.
Distribution: U.S. Diversity General Education course

CMST 2410  SMALL GROUP COMMUNICATION AND LEADERSHIP (3 credits)
This course is an introduction to the theory and practice of communication and leadership within small group settings. This course will provide students with broad knowledge about small group communication processes.

CMST 2510  SPEECH COMMUNICATION IN BUSINESS AND THE PROFESSIONS (3 credits)
This course is designed to introduce students to the important and varied role communication plays in the workplace and other professional settings. The course emphasizes informative and persuasive communication principles and practices in one-to-one presentational situations as well as group communication and interviewing.
Prerequisite(s): CMST 1110 or CMST 2120. Not open to non-degree graduate students.

CMST 3100  CONTEMPORARY PRESENTATIONS (3 credits)
This course helps students craft messages for an audience through assignments representing contemporary public address. Responsible public address emphasizes creating messages that encourage democratic deliberation through artful presentation of truth. Students will investigate practical aspects of public communication theory, engage in audience analysis, and explore language choices to develop their ability to responsibly practice public communication.
Prerequisite(s): CMST 1110 or CMST 2120

CMST 3150  INTERCOLLEGIATE FORENSICS I (1-3 credits)
This course familiarizes students to Intercollegiate Forensics. Students enrolled in this course will compete in a variety of speaking and performance events to develop their skills in prepared public speaking, oral interpretation of literature, and extemporaneous/improvised speaking. Students are required to compete in 1-3 speaking events during the semester.
Prerequisite(s): Permission of the Director of Forensics only

CMST 3160  INTERCOLLEGIATE FORENSICS II (1-3 credits)
This course is catered to communication, pre-law, and other interested students who desire to further their participation in intercollegiate forensics including informative, persuasive, impromptu, extemporaneous, and after-dinner speaking. This course advances students’ skills in oral interpretation, solo and or duet acting, rhetorical criticism, and discussion.
Prerequisite(s): Permission of the Director of Forensics only

CMST 3300  LEADERSHIP FOR INTERGROUP DIALOGUE (3 credits)
This class instructs, coaches, supports, and empowers student-leaders to effectively facilitate important intergroup dialogues with their peers. Students are given leadership opportunities developing skills regarding facilitating difficult conversations, perspective sharing, and navigating conflict.
Prerequisite(s): CMST 2300 or permission of instructor. Not open to non-degree graduate students.

CMST 3340  RHETORICAL CRITICISM (3 credits)
Developing critical and analytical skills is vital to succeed in contemporary culture. In this course students will learn a variety of theoretical and critical approaches to rhetorical criticism enabling them to critically analyze the messages that surround us. This course offers students the tools to analyze the ways rhetoric undergirds or undermines existing power structures, and how it might reshape them.
Prerequisite(s): CMST 2100 or permission of instructor. Not open to non-degree graduate students.

CMST 3350  COMMUNICATION RESEARCH (3 credits)
Research is important to understand communication, messages, audiences, behaviors, and motivations. This course develops students’ abilities to conduct communication research focusing on two overarching methodological approaches used by communication scholars and industry professionals - Quantitative and Qualitative. The topics include research design, data management, statistical analysis, and report writing.
Prerequisite(s): CMST 2100 or instructor permission. Not open to non-degree graduate students.

CMST 3370  INTERVIEWING (3 credits)
This course is an introduction to the study of interpersonal communication. Within this course, students will be introduced to the theories, research, and concepts relevant to interpersonal communication and will be given opportunities to develop and enhance their own communication skills.

CMST 3510  CULTURAL COMMUNICATION IN AFRICAN-AMERICAN CINEMA (3 credits)
This course examines ways in which cultural identity is communicated through African-American cinema, defined as movies with predominantly African American filmmakers, producers, and/or actors. Cultural communication is integrated with historical, political, and social motivation for African-American cinema.(Cross-listed with BLST 3510)
Prerequisite(s): Sophomore standing and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 3520  INTERVIEWING (3 credits)
This course is a practical course that focuses on various types of interview performances. The course will explore interview types such as probing/journalistic, survey, recruiting/employment, performance, counseling, and persuasive

CMST 3600  SPECIAL TOPICS IN COMMUNICATION STUDIES (3 credits)
A variable topic course in communication studies at the Junior level. Topics to be covered may include but are not limited to: marital and family communication, instructional communication, organizational communication, intercultural communication, conflict, relational communication, communication competence, health communication, communication research or theory, communication and gender, social movements, political communication, listening, communication and the aged, etc. (May be repeated for credit as long as the topic is not the same.)
Prerequisite(s): CMST 2100 and CMST 3350
CMST 3750 GENDER AND COMMUNICATION (3 credits)
This course provides a survey of literature on communication about, by, and between women, men, and trans people in society, personal relationships, and organizations. Students develop an understanding of how cultural meanings of gender both shape and are shaped by communication. (Cross-listed with WGST 3750).
Prerequisite(s): Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

CMST 4110 RHETORICAL THEORY AND CRITICISM (3 credits)
Rhetoric is the art of persuasion. Rhetoric impacts our daily lives by influencing how we think about and respond to things. It pervades our political world, work environments, civic and social settings, and pop culture. Students will learn a variety of approaches to rhetorical criticism (theoretical and methodological) that enable them to critically analyze the messages that surround us. We will also unpack the ways rhetoric undergirds or undermines existing power structures, and how it might reshape them.
Prerequisite(s): Junior standing and (Journalism/Media Communication major or Communication Studies major)

CMST 4120 COMMUNICATION AND SOCIAL PROTEST (3 credits)
This class will examine the role played by communication in movements for social change in contemporary society. We will examine social movements which rely on speeches (i.e., women's rights movements), social movements which rely on the grassroots political efforts of their members (i.e., the environmental rights movement) and the overall strategies of persuasion utilized in movements which seek social change, including emerging communication technologies. (Cross-listed with CMST 8126)
Prerequisite(s): Junior Standing; 2.25 GPA

CMST 4130 FAMILY COMMUNICATION (3 credits)
This course emphasizes the role of communication in family relationships. Theories, models, and research methods will be used to examine the family in various cultures and contexts (e.g., nuclear families, single-parent families, and blended families). Topics that will be covered in this course include: family conflict, family roles, family stories, family stress, family well-being, genograms, marriage, and divorce. (Cross-listed with CMST 8136)
Prerequisite(s): The prerequisite for the course is junior standing, and CMST 2010 or CMST 2410; a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4140 COMMUNICATION AND HUMAN RELATIONSHIPS (3 credits)
This course applies theories of interpersonal processes and communication principles to the study of close, significant and personal human relationships. Discussion focuses on the communication in different types of relationships and relational stages, e.g., strangers, acquaintances, friendships and intimates. (Cross-listed with CMST 8146)
Prerequisite(s): Junior standing and (CMST 2010 or CMST 2410 or SPCH 2010 or SPCH 2410); and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4150 CORPORATE TRAINING AND DEVELOPMENT (3 credits)
This course introduces students to the process of designing communication training programs and workshops for a variety of professional settings. It provides students, especially those who are prospective trainers and/or consultants, with experiential and cognitive knowledge about needs assessment, adult learning, communication training research, objectives writing, module design, interactive delivery methods and program evaluation. (Cross-listed with CMST 8156)
Prerequisite(s): Junior standing; and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4160 COMMUNICATION FOR INSTRUCTIONAL SETTINGS (3 credits)
This course is designed to help prospective instructors and/or trainers understand and apply the principles of communication in instructional settings (i.e., classrooms, workshops, training programs). It introduces students to the research area in the speech communication discipline called 'Instructional Communication' by covering these five units: 1) Communication Strategies, Objectives, & Content; 2) Student Communication Needs & Expectations; 3) Feedback, Reinforcement, & Discussion; 4) Context, Climate, & Influence; and 5) Teacher Communicator Style, Characteristics, & Behaviors. (Cross-listed with CMST 8166)
Prerequisite(s): Junior standing, and CMST 2010 or CMST 2410 (or SPCH 2010 or SPCH 2410); and a minimum cumulative GPA of 2.25.

CMST 4170 ORGANIZATIONAL COMMUNICATION (3 credits)
This course will help students understand organizational communication theories, models, and processes; apply these principles in organizational communication speaking exercises; and learn management and leadership skills. (Cross-listed with CMST 8176)
Prerequisite(s): Junior standing; and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4180 COMMUNICATION LEADERSHIP AND POWER AND ORGANIZATIONS (3 credits)
This course provides theoretical and experiential knowledge about such topics as communication leadership styles and tactics, superior and subordinate interactions, power, ethical responsibilities, and diversity gender issues related to communication leadership. (Cross-listed with CMST 8186)
Prerequisite(s): Junior standing; and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4190 COMPUTER-MEDIATED COMMUNICATION (3 credits)
Computer-Mediated Communication addressing emerging issues of virtual communities, identity, civic life and participation, online relationships, collaborative work environments, digital networks, gender race class issues, legal and ethical considerations of technology, and commodification of mediated communication. (Cross-listed with CMST 8196).

CMST 4220 HEALTH COMMUNICATION (3 credits)
This course introduces students to the interdisciplinary field of health communication. In this course, students will learn various theories of health communication as well as current research and trends in health communication and its related fields. To speak to the complexity and dynamism of health communication, this course will expose students to the multiple voices and perspectives involved in the delivery of health and healthcare. (Cross-listed with CMST 8226)

CMST 4300 RISK AND CRISIS COMMUNICATION (3 credits)
Risk/Crisis Communication, both as a discipline and a practice, has been discussed and enacted as long as there has been information to communicate because of an extraordinary event. Governments, businesses, universities, even individuals - all of engaged in one form of risk or crisis communication or another. Whether successful in its intentions or not, the act is there. This class is a theoretically-driven course to inform our practices as both creators of messages and critics of those same messages. (Cross-listed with JMC 4300).
Prerequisite(s): CMST 1110; JMC 3350 (or other research methods courses as confirmed by instructor of record); junior or senior standing
CMST 4510 PERSUASION AND SOCIAL INFLUENCE (3 credits)
The primary goal of this course is to provide students with a solid grounding in theories, principles, and strategies of persuasion social influence as they apply to everyday contexts in which influence attempts take place. Students should gain familiarity with findings from empirical investigations on persuasion, social influence, and compliance gaining, and will learn about strategies and techniques of persuasion relating. (Cross-listed with CMST 8516)
Prerequisite(s): Junior standing and (CMST 2010 or CMST 2410 or SPCH 2010 or SPCH 2410); and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4530 INTERCULTURAL COMMUNICATION-US (3 credits)
This course will provide a foundation that leads to Intercultural Communication competence. Specifically, this course is to introduce the concepts of cross-cultural communication. Theory and research are integrated with application and necessary skills are identified and developed. (Cross-listed with CMST 8536)
Prerequisite(s): Junior standing; and a minimum cumulative GPA of 2.25.
Distribution: U.S. Diversity General Education course

CMST 4550 NONVERBAL COMMUNICATION (3 credits)
This course is designed to familiarize the student with current knowledge and research about nonverbal communication and to provide a wide variety of practical experiences through which the student can analyze and evaluate his or her own nonverbal behavior and that of others. The course, also, reviews the functions, areas and applied contexts of nonverbal communication. (Cross-listed with CMST 8556)
Prerequisite(s): Junior standing and (CMST 2010 or CMST 2410 or SPCH 2010 or SPCH 2410); and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4560 COMMUNICATION, TEAMWORK, & FACILITATION (3 credits)
This course focuses on the communication practices, process tools, and theory associated with team problem solving, group discussion, facilitation skills, facilitative leadership, meeting management, and training in effective group interaction. (Cross-listed with CMST 8566)
Prerequisite(s): A minimum cumulative GPA of 2.25. Not open to nondegree students.

CMST 4570 INTERCULTURAL COMMUNICATION IN THE GLOBAL WORKPLACE (3 credits)
This course examines the intercultural perspective of organizational communication in a modern global world by focusing on the management of cultural differences in the global workplace. The trend towards a global economy is bringing people of different ethnic and cultural background together. Thus, the development of greater intercultural understanding has become an essential element of global workplace. After taking this course you will be more aware of cultural diversity in an organizational setting and further develop intercultural sensitivity and intercultural competence that will help you adapt to your future organizational life. (Cross-listed with CMST 8576).
Prerequisite(s): Junior standing; and a minimum cumulative GPA of 2.25.
Distribution: Global Diversity General Education course

CMST 4580 COMMUNICATING RACE, ETHNICITY & IDENTITY (3 credits)
This is an undergraduate/graduate course that provides students with definitional and experiential knowledge about the origin of racial concepts, theories, and practices, definitions of ethnicity and identity, and the communicative relationship between race, ethnicity, and identity. (Cross-listed with CMST 8586, BLST 4580, BLST 8586)
Prerequisite(s): CMST 4530 or Junior standing or instructor permission; minimum cumulative GPA of 2.25.
Distribution: U.S. Diversity General Education course

CMST 4600 COMMUNICATION THEORY AND APPLICATION (3 credits)
This course begins by introducing students to two broad categories of theory development - objective and interpretive. Then concepts and assumptions associated with each of these two perspectives are employed to critically evaluate several specific theories that fall within different of the sub-disciplines of the field of communication: interpersonal, group, organizational, mass, public/rhetorical, cultural, and intercultural/gender. Along with critically evaluating and comparing/contrasting different communication theories, emphasis is placed on how the theories can be effectively applied in concrete settings and circumstances. (Cross-listed with CMST 8606)
Prerequisite(s): Junior standing; and a minimum cumulative GPA of 2.25.

CMST 4700 INTERPERSONAL CONFLICT (3 credits)
This course provides an overview of interpersonal conflict processes. It examines perspectives on conflict, patterns of constructive and destructive conflict, conflict styles and tactics, interpersonal power, negotiation strategies, conflict assessment, and conflict skill development. (Cross-listed with CMST 8706)
Prerequisite(s): Junior standing and (CMST 2010 or SPCH 2010); and a minimum cumulative GPA of 2.25.

CMST 4800 CONFLICT MEDIATION (3 credits)
This course develops knowledge of mediation theory, research, and practice and communication skills essential to the effective mediation of disputes in various contexts.
Prerequisite(s): Junior standing and (CMST 2010 or CMST 3520 or CMST 4700 or SPCH 3520 or SPCH 4700); and a minimum cumulative GPA of 2.25.

CMST 4940 COMMUNICATION STUDIES CAPSTONE SEMINAR (3 credits)
Communication Studies Capstone Seminar is an undergraduate course designed to provide students with the opportunity to integrate the knowledge and skills they have acquired as communication majors and to prepare them to enter the job market or graduate school. (Cross-listed with CMST 8706)
Prerequisite(s): Completion of CMST 2300, CMST 3340, CMST 3350 and 39 hours within the major (excluding hours completed for the minor/second field or foreign language) or permission of instructor

CMST 4970 INTERNSHIP EXPERIENCE (1 credit)
This course will provide students professional communication-related experience in an internship approved and supervised by the School of Communication.
Prerequisite(s): JMC 4960, CMST 4960, BRCT 4960, JOUR 4960, or SPCH 4960; junior standing; School of Communication major or minor; instructor permission; and minimum cumulative GPA of 2.25.

CMST 4980 INDEPENDENT STUDY COMMUNICATION (3 credits)
Specialized studies in communication supplementing regular courses: readings, research, tutorial.
Prerequisite(s): CMST 2300, CMST 3340 and CMST 3350 and permission of department

Journalism and Media Communication

JMC 1050 FILM HISTORY AND APPRECIATION (3 credits)
A journey through one of many different possible worlds of film. Students will learn about various dimensions of filmmaking–historical development, cinematography, editing, screenwriting, and so much more. Exposure to critical perspectives on the genre(s) under consideration. Includes regular viewing of excerpts and full-length films. (Cross-listed with THEA 1050).
Distribution: Humanities and Fine Arts General Education course
JMC 1500 INTRODUCTION TO JOURNALISM AND MEDIA COMMUNICATION (3 credits)
A survey of the history, organization and social significance of the mass media, including newspapers, radio, television, books, magazines, advertising, public relations and films.
Prerequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

JMC 2000 NEWS LITERACY (3 credits)
The digital age has made news and information sources more prevalent than ever before. This course will explore and determine the credibility of news and information and to recognize the standards of fact-based journalism to know what to trust, act on and share.
Prerequisite(s): Not open to non-degree graduate students.

JMC 2100 MEDIA WRITING (3 credits)
This class will teach students to gather information and write for all areas of mass communication, including print, broadcast, online media, public relations and advertising.
Prerequisite(s): ENGL 1150
Distribution: Writing in the Discipline Single Course

JMC 2150 NEWS WRITING AND REPORTING (3 credits)
The class addresses the theory and practice of writing and reporting for media audiences, with an emphasis on print and online media. Some of the assignments in the class will focus on covering public affairs and analyzing media coverage of public affairs.
Prerequisite(s): JMC 2100

JMC 2200 MEDIA PRODUCTION PRINCIPLES (3 credits)
Students will learn technical competence basics, theories, and the operation of common hardware and software used in audio and video production.
Prerequisite(s): JMC 2100. Not open to non-degree graduate students.

JMC 2320 VIDEO FIELD PRODUCTION (3 credits)
The class provides in-depth, hands-on theory and practice of field production and editing principles and techniques. It expands from single-camera to multi-camera projects. The goal is for students to leave this course with a strong understanding of live-production principles, studio-production equipment, and a solid working knowledge of studio-production practices.
Prerequisite(s): JMC 2100 and JMC 2200, or permission of instructor.

JMC 2370 ALL ABOUT AUDIO (3 credits)
This course emphasizes the fundamentals of audio production and writing for radio and its online communication venues. On-air delivery, use of video and audio streaming and broadcast industry issues are also covered.
Prerequisite(s): JMC 2100 and JMC 2200 or permission of instructor

JMC 2500 SOCIAL MEDIA COMMUNICATION (3 credits)
Social Media Communication (SMC) introduces and explains social media and social network sites, as these apply to journalism, advertising, public relations and digital marketing communication. Computer-mediated communication within social media cultivates critical thinking about opportunities and challenges, including engagement, privacy, trust and misinformation. Social influence happens within mediated interpersonal, entertainment and sports posts that present identity and cultivate online communities. Contemporary problems and issues are explored, such as justice, politics, romance and health.
Prerequisite(s): ENGL 1160 and CMST 1110 or equivalent or permission.

JMC 3030 ELECTRONIC NEWS WRITING AND REPORTING (3 credits)
This class offers an overview of writing news stories for radio, television and online venues. Writing style and technique, as well as news judgment, are emphasized. Some of the assignments in the class will focus on covering public affairs and analyzing media coverage of public affairs.
Prerequisite(s): JMC 2100 or JMC 2104; and minimum cumulative GPA of 2.25.

JMC 3110 PHOTOGRAPHY (3 credits)
The theory, techniques and application of basic photographic operations of exposure, development and printing.

JMC 3230 PRINCIPLES OF PUBLIC RELATIONS (3 credits)
This course will focus primarily on techniques to garner and sustain public understanding, acceptance and support for an organization. This course will explain the merits of these techniques through theory and application, and will offer constant reminders of the relationship between theory and practice. Understanding theory can result in more efficient and effective use of techniques.
Prerequisite(s): JMC 2100, JMC 2104 and minimum GPA of 2.25

JMC 3270 PUBLIC AFFAIRS REPORTING (3 credits)
The class is designed to help students build and refine their researching, interviewing, reporting and writing skills through the coverage of a public affairs news beat for print, broadcast and online formats.
Prerequisite(s): JMC 2100 and JMC 2150

JMC 3320 VIDEO STUDIO PRODUCTION (3 credits)
The class introduces the student to the studio-production environment, equipment, and best practices. It applies multi-camera production concepts to a live switched environment. It provides reinforcement of editing principles by integrating pre-produced elements into a live production. The goal is for students to leave this course with a strong understanding of live-production principles, studio-production equipment, and a solid working knowledge of studio-production practices.
Prerequisite(s): JMC 2320. Not open to non-degree graduate students.

JMC 3340 MEDIA THEORY (3 credits)
How do media work? How do we think they work? How can we study what effect media messages have on our lives? From movies to entertainment to news, and even video games, media contain overt and hidden impacts and convey a variety of messages. Understanding the theories of media communication will make you a better storyteller, and will help you shape your message for its best impact. Explore the theories that are dominant today, those we have discarded (and why), and how this all keeps evolving as new media continue to emerge.
Prerequisite(s): JMC 2100 and JMC 1500

JMC 3350 COMMUNICATION RESEARCH (3 credits)
Research is important to understand communication, messages, audiences, behaviors, and motivations. This course develops students’ abilities to conduct communication research focusing on two overarching methodological approaches used by communication scholars and industry professionals - Quantitative and Qualitative. The topics include research design, data management, statistical analysis, and report writing.
Prerequisite(s): JMC 1500 and JMC 2100 or permission of instructor. Not open to non-degree graduate students.

JMC 3370 PODCAST THIS (3 credits)
A survey of trends in audio storytelling including the use of Adobe software and studio engineering equipment. Students will learn various aspects of podcasting from inception to digital distribution. They will also critically engage in analyzing storytellers as well as researching, writing, voicing, and producing their own podcasts.
Prerequisite(s): JMC 2370 or permission of instructor

JMC 3400 MAGAZINE ARTICLE WRITING (3 credits)
This course is an introduction to news and feature writing for magazines.
Prerequisite(s): JMC 2100, JMC 2104, and minimum cumulative GPA of 2.25.

JMC 3500 PR AND ADVERTISING DESIGN (3 credits)
This is a course concerned with the principles of print and electronic public relations and advertising design using applied digital methods and skills. Students will learn the principles of design in a variety of print and interactive formats relating to public relations and advertising. Concepts will be taught in a lecture setting, and skills will be demonstrated in a lab setting. An advertising and public relations design campaign will be completed.
Prerequisite(s): JMC 2100, JMC 2104 and minimum cumulative GPA of 2.25.
JMC 3620 PRINCIPLES OF CREATIVE ADVERTISING (3 credits)
This is a broad examination of advertising principles in all media, including the psychology of advertising; the creative, production and marketing aspects; and practical exercises in print, broadcast and social media. The course is organized in a way to take students through the process of creating relevant solutions to solve client advertising problems/ opportunities.
Prerequisite(s): JMC 2100 and JMC 2200

JMC 3700 VISUAL COMMUNICATION AND CULTURE (3 credits)
This course will introduce students to 'the visual,' both in production and critique. This course provides students the opportunity to further their own understanding of what "visual culture" is and how they both can critically create and consume the various products of that culture. In addition, this course will help students create, develop, and cultivate the knowledge base they will need to successfully complete the Visual Communication and Culture minor.
Prerequisite(s): JMC 3340 and JMC 3350 or permission by instructor
Distribution: Humanities and Fine Arts General Education course

JMC 4010 HISTORY OF MASS COMMUNICATION (3 credits)
This class covers development of the U.S. media from 1690 to present day, including newspapers, magazines, radio, television, the new media of the Internet, advertising and public relations. A special emphasis is placed on freedom of the press.
Prerequisite(s): Junior standing; ENGL 1160; JMC 3350; and minimum overall GPA of 2.25

JMC 4040 SOCIAL MEDIA MEASUREMENT AND MANAGEMENT (3 credits)
Social Media Measurement and Management explores the dynamic development of social media platforms within a journalism and media communication context. Students of journalism, broadcasting, public relations, advertising and marketing will examine theories and best practices of social media interaction and engagement. (Cross-listed with JMC 8046)
Prerequisite(s): JMC 2200; JMC 3350 taken previously or concurrently; and minimum cumulative GPA of 2.25.

JMC 4220 PUBLIC RELATIONS CASE STUDIES (3 credits)
The course is designed to enable the student: 1) to integrate issue-management and decision-making theoretical models with the communication theory and research techniques presented in JMC 3230/ JMC 8236 and 2) to apply professional judgment to the public relations problem-solving process through the development of structured analysis of historical cases. (Cross-listed with JMC 8246).
Prerequisite(s): JMC 3230; JMC 3350; and minimum overall GPA of 2.25

JMC 4250 STRATEGIC WRITING FOR PUBLIC RELATIONS AND ADVERTISING (3 credits)
This is an advanced skills course that combines theory and practical application in writing for public relations and advertising. Students will plan and execute strategy and tactics to craft and deliver a persuasive message to a variety of audiences.
Prerequisite(s): JMC 3230. Not open to non-degree graduate students.

JMC 4260 MEDIA RELATIONS (3 credits)
This course focuses on the communication tools used in media relations, the nuances of working with reporters from press and various media, news writing, news judgment, strategic planning, and the application of communication theories in understanding the relationship between news organizations and media relations representatives for organizations and corporations. (Cross-listed with JMC 8266).
Prerequisite(s): JMC 3230; JMC 3350; junior standing; and minimum cumulative GPA of 2.25.

JMC 4300 RISK AND CRISIS COMMUNICATION (3 credits)
Risk/Crisis Communication, both as a discipline and a practice, has been discussed and enacted as long as there has been information to communicate because of an extraordinary event. Governments, businesses, universities, even individuals - all of engaged in one form of risk or crisis communication or another. Whether successful in its intentions or not, the act is there. This class is a theoretically-driven course to inform our practices as both creators of messages and critics of those same messages. (Cross-listed with CMST 4300).

JMC 4310 MEDIA & POLITICS (3 credits)
An in-depth study of the impact of the media on political communication. This course will explore the symbiotic relationship of media and political communication, including the influence of traditional mass media, digital media, and social media on the political communication process. Students will delve into media theories and critically examine the influence of the media on the political communication process. (Cross-listed with JMC 8316).
Prerequisite(s): Junior standing, ENGL 1160 and JMC 3350, and cumulative GPA 2.25

JMC 4320 TELEVISION COMMERCIAL PRODUCTION (3 credits)
Acquire the knowledge and skill to work with a client in creating commercial television messages designed to motivate viewers. The course will teach students how to plan, storyboard, write, record and edit the elements into a deliverable product to the client’s satisfaction.
Prerequisite(s): JMC 3320

JMC 4340 SPORTS BROADCASTING AND PRODUCTION (3 credits)
Students will learn to distinguish between the differences between sports production and sports performance. Students will also learn to broadcast a variety of sports using multiple platforms. Accuracy and immediacy are vital skills that students will be expected to develop. Students will learn and understand the importance and process of preparing for play-by-play and color commentary.
Prerequisite(s): JMC 3030 or permission of instructor. Not open to non-degree graduate students.

JMC 4370 COMMUNICATION WORKSHOP (3 credits)
A workshop to explore communication theory and processes and to develop skills in their application. (Cross-listed with JMC 8376).
Prerequisite(s): Junior standing, ENGL1160, permission of instructor, and minimum overall GPA of 2.25

JMC 4380 FILM THEORY AND CRITICISM (3 credits)
Study of major trends in film criticism and theory in (primarily) Europe and America, with concentrated analysis of selected films.
Prerequisite(s): JMC 1050/THEA 1050; ENGL 1160; JMC 3350; junior standing; and minimum overall GPA of 2.25

JMC 4390 MEDIA ENTREPRENEURSHIP (3 credits)
4390 Media Entrepreneurship explores new and emerging media business models from local, national and global perspectives. Students learn about and work within the start-up economy and entrepreneurial approaches. The course offers professional and critical perspectives. (Cross-listed with JMC 8396, ENTR 4390).
Prerequisite(s): JMC 3340 and JMC 3350 or permission of instructor

JMC 4400 MEDIA ETHICS (3 credits)
The course examines ethical standards and practices of the media - print, electronic and online media, as well as advertising, public relations and entertainment media. It includes development of ethical decision-making skills.
Prerequisite(s): Junior standing; ENGL 1160; JMC 3350; and minimum overall GPA of 2.25
JMC 4410 COMMUNICATION LAW AND POLICY (3 credits)
Communication practitioners need to understand legal protections and constraints. This course explores legal concepts, frameworks and principles to understand constitutional, statutory, regulatory and case law and policies. The student must have a basic understanding of government, social studies and human rights principles. The First Amendment and international law provide a framework for exploring current cases and issues.
Prerequisite(s): JMC 3340 and JMC 3350 or permission of instructor

JMC 4420 SPORTS WRITING (3 credits)
Students will learn all aspects of the specialized aspect of sports media communication. Areas covered will include writing, interviewing, storytelling, using multiple media platforms and the ethics of sports reporting. Various writing experiences across the media spectrum, from traditional media to the new forms of online journalism, will be addressed.
Prerequisite(s): JMC 3030 or permission of instructor. Not open to non-degree graduate students.

JMC 4430 GLOBAL MEDIA COMMUNICATION (3 credits)
In-depth study of global media communication systems. This course will examine cultural influence of dominant global media, the changing global media climates, information flow, regulation and censorship of media worldwide. Students will look at the various aspects of mass communication including advertising, public relations, broadcasting, movies and social media. There will be an emphasis on global communication theories and on critical examinations of media systems.
Prerequisite(s): JMC 3340 and JMC 3350 or permission of instructor

JMC 4440 MEDIA CONTENT AND CREATION (3 credits)
This course is a culmination of skills students acquired in the Emerging Media concentration and prepares them for the Capstone experience and careers in the media industry. In this class, students will produce substantive and original reporting projects on a timely issue showcasing their talents as a prospective journalist and/or media professional. A field component to this course requires time outside of class. Students' work will be publicly available on television, cable, and the internet. This class contributes to a digital portfolio allowing students to showcase their work.
Prerequisite(s): JMC 2320, JMC 2370, JMC 3030,

JMC 4450 PR AND ADVERTISING CAPSTONE (3 credits)
This advanced course provides students with professional development opportunities to hone their Public Relations and Advertising skills. Students will apply their knowledge to serve a university or community client by assessing their needs and developing an integrated marketing communication campaign. The final project will contribute to students' portfolios used for the job market.
Prerequisite(s): JMC 2500, JMC 3340, JMC 3350 and JMC 4250, and Senior standing or permission of instructor. Not open to non-degree graduate students.

JMC 4460 EMERGING MEDIA CAPSTONE (3 credits)
This advanced course provides students with professional development opportunities to polish their skills. Students will continue to create content for the School of Communication’s media outlets and will assume mentoring and leadership roles under the supervision of instructors of the capstone classes.
Prerequisite(s): JMC 4440; JMC 4440 may not be taken as a co-requisite. Not open to non-degree graduate students.

JMC 4810 DIGITAL LITERACIES FOR TECHNICAL COMMUNICATORS (3 credits)
This course addresses emerging issues in digital literacies such as the rhetoric of technology, technological competency, technology and information ecologies, critical awareness of technology and human interactions, judicious application of technological knowledge, user-centered design, networking and online communities, ethics and technology, and culture and technology. (Cross-listed with ENGL 4810, ENGL 8816, JMC 8816).
Prerequisite(s): ENGL 1160 and CMST 1110 or permission of instructor.

JMC 4820 POLITICS AND FILM (3 credits)
This course introduces students to the analysis of politics and film, focusing on how politics is portrayed in film and the politics of film making. (Cross-listed with PSCI 4820, JMC 8826, PSCI 8826).

JMC 4830 TECHNICAL COMMUNICATION (3 credits)
Technical Communication introduces students to the field of technical communication. Students will study the development of print and electronic genres common to industry settings, the design and production of technical documents, the writing processes and work practices of professional technical communicators, and the roles of technical communicators in organizational contexts. (Cross-listed with ENGL 4830, ENGL 8836, JMC 8836).
Prerequisite(s): ENGL1160 and CMST 1110 and minimum overall GPA of 2.25

JMC 4850 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)
This course introduces students to strategies for integrating visual and textual elements of technical documents. Instruction will focus on design theory and application through individual and collaborative projects. Students will develop the professional judgment necessary for making and implementing stylistic choices appropriate for communicating technical information to a lay audience. (Cross-listed with ENGL 4850, ENGL 8856, JMC 8856).
Prerequisite(s): JMC 4810 or JMC 4830 or permission of instructor

JMC 4870 TECHNICAL EDITING (3 credits)
This course introduces students to the roles and responsibilities of technical editors: the editorial decision-making processes for genre, design, style, and production of technical information; the communication with technical experts, writers, and publishers; the collaborative processes of technical editing; and the techniques technical editors use during comprehensive, developmental, copyediting, and proofreading stages. (Cross-listed with ENGL 4870, ENGL 8876, JMC 8876).
Prerequisite(s): ENGL 1160 or permission of the instructor

JMC 4890 CAPSTONE COURSE IN TECHNICAL COMMUNICATION (3 credits)
In this capstone course, students will extend foundational skills learned in previous technical communication courses. Students will demonstrate their competency in the technical documentation process in organizational environments, the issues important to the technical communication profession, and the practices of writing and creating complex technical documents for specific purpose and audience. (Cross-listed with ENGL 4890, ENGL 8896, JMC 8896).
Prerequisite(s): JMC 4810, JMC 4830, JMC 4870, JMC 4850 or permission of instructor

JMC 4900 SEMINAR MASS COMMUNICATION (3 credits)
A senior seminar applying historical and theoretical perspective to current issues and developments in mass communications. (Cross-listed with JMC 8906).
Prerequisite(s): Junior standing and (Communication Studies or Journalism and Media Communication major) and ENGL 1160 and minimum overall GPA of 2.25

JMC 4920 MEDIA LITERACY (3 credits)
An advanced seminar on the study of media and information literacy through deconstruction of mass communication content, meaning construction, framing analyses and critical/cultural approaches. (Cross-listed with JMC 8926).
Prerequisite(s): Junior standing; JMC 3350; and minimum GPA of 2.25

JMC 4970 INTERNSHIP EXPERIENCE (1 credit)
This course will provide students professional communication-related experience in an internship approved and supervised by the School of Communication.
Prerequisite(s): JMC 4960, CMST 4960; junior standing; School of Communication major or minor; instructor permission; and minimum cumulative GPA of 2.25.

CMST Area 2 Course 3

**Credits** 14

**Total Credits** 120

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

**University Degree Requirements:**
The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:**
For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

### Communication Studies Minor

#### Requirements
Students may earn a minor in communication studies. To fulfill the minor, students must complete 18 hours in communication studies courses, including 12 hours of upper-level (3000- and 4000-level) courses. All CMST classes except the course used to fulfill the general education oral communication competency (CMST 1110 or CMST 2120) may count toward the minor in communication studies. Cross-listed courses with CMST courses may also count. All courses in the minor must be completed with a grade of “C” or higher.

### Journalism and Media Communication, Bachelor of Arts

#### Requirements

Minor (see below)  15-18

Total Credits  72-75

¹ This class may also be used for social science credits.

Minor for BSC Degree for Journalism and Media Communication Majors

A minor is required for the Bachelor of Science in communication degree in one department or academic program, or related courses from various departments or academic programs other than journalism and media communication. Journalism and media communication students pursuing the BSC may minor in communication studies by completing 18 hours of CMST courses with 12 hours at the 3000/4000 level. For other minors, students should refer to that specific program. The course used to fulfill the general education oral communication competency (CMST 1110 or CMST 2120) cannot count toward the minor in communication studies.

**Transfer credit or placement exam scores may change suggested plan of study.

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

For students who are not music majors, the School of Music offers many courses that will satisfy the general education requirements.
for Humanities/Fine Arts as well as Cultural Diversity. Click here (https://www.unomaha.edu/general-education/overview/distribution-requirements.php) for a list of music courses that are approved for general education. Additionally, the School of Music has numerous ensembles that are open to both majors and non-majors. Some ensembles require acceptance by audition. Auditions for select ensembles occur during the week before the semester begins. Information on all ensembles can be found online (https://www.unomaha.edu/college-of-communication-fine-arts-and-media/music/student-involvement/)

Information for All Students
The specific requirements for the degrees in music are listed below. In addition to the specific music requirements, all students are required to complete the general education requirements found here (https://www.unomaha.edu/general-education/)

Contact
402.554.3411
Website (https://www.unomaha.edu/college-of-communication-fine-arts-and-media/music/)

Degrees Offered
• Music, Bachelor of Arts (p. 455)
• Music Performance, Bachelor of Music (p. 461)
• Music, Bachelor of Music, K-12 Certification (p. 469)

Writing in the Discipline
As part of the fundamental academic requirements for the university, all students are required to take a writing in the discipline course within their major. The course for students in the Bachelor of Music or Bachelor of Arts in Music track is WRWS 3500. Students in the music education track (Bachelor of Music, K-12) take TED 2100.

Bachelor of Music
The professional program in music provides a comprehensive music education that prepares students with the technical skills, historical context, and theoretical knowledge to create meaningful musical contributions. Students in the music performance track are prepared for advanced graduate study in music while students in the music education track pursue teacher certification to apply their musical skills in the K-12 classroom.

Performance
• Studio musician
• Concert musician
• Tutor/instructor
• Director
• National guard member
• Accompanist

Music, K-12 Education
• Elementary music educator
• Secondary music educator
• Tutor/instructor

Bachelor of Arts in Music
The Bachelor of Arts degrees allow students to develop advanced musical skills within a comprehensive liberal arts degree. Concentrations in instrumental, keyboard, or voice studies train students in classical music repertoire to prepare them for careers in a music field outside the concert hall or classroom. Jazz studies is similar, but focuses specifically on jazz and commercial applications of music. The concentration in music technology prepares students for audio recording, sound editing, and other computer-based applications of music. Finally, the concentration in Entrepreneurial Studies brings skills of innovation and application of business principles in a musical setting.

Jazz Studies
• Recording musician
• Concert musician
• Instructor
• Music librarian
• Composer/arranger

Music Technology
• Audio engineer
• Music producer
• Sound mixing artist
• Broadcast technician
• Multimedia specialist
• Foley artist
• Engraving technician

Entrepreneurial Studies
• Arts administrator
• Music/licensing publisher
• Event planner
• Development specialist
• Publicist

Music Studies
• Music librarian
• Music director
• Entertainment/music attorney
• Critic
• Music therapist

MUS 115A APPLIED BASSOON (1-2 credits)
This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 115B APPLIED CELLO (1-2 credits)
This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.

MUS 115C APPLIED CLARINET (1-2 credits)
This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.
MUS 115D APPLIED DOUBLE BASS (1-2 credits)
This course provides individual weekly instruction on bass. Students work with the instructor to schedule lessons for one credit hour (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. The primary goal of the bass student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.
Prerequisite(s): This course requires an audition performed for & approved by the string or jazz faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.

MUS 115E APPLIED EUPHONIUM (1-2 credits)
This course provides individual weekly instruction on euphonium. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 115F APPLIED FLUTE (1-2 credits)
This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): An audition performed for and approved by the woodwind faculty is required. Students enrolled in this course must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 and MUS 1000-007.

MUS 115G APPLIED FRENCH HORN (1-2 credits)
This course provides individual weekly instruction on french horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 115H APPLIED GUITAR (1-2 credits)
This course provides individual weekly instruction on guitar. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.

MUS 115I APPLIED HARP (1-2 credits)
This course provides individual weekly instruction on harp. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.

MUS 115J APPLIED OBOE (1-2 credits)
This course provides individual weekly instruction on oboe. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 115K APPLIED PERCUSSION (1-2 credits)
This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons for one credit hour (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the percussion faculty. Music majors must attend the weekly masterclass.

MUS 115L APPLIED PIANO (1-2 credits)
This course provides individual weekly instruction on piano. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credits (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires an audition performed for & approved by the piano faculty. Music majors must attend the weekly masterclass.

MUS 115M APPLIED PIPE ORGAN (1-2 credits)
This course provides individual weekly instruction on organ. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for & approved by the keyboard faculty. Music majors must attend the weekly masterclass.

MUS 115N APPLIED SAXOPHONE (1-2 credits)
This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 115O APPLIED TROMBONE (1-2 credits)
This course provides individual weekly instruction on trombone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 115P APPLIED TRUMPET (1-2 credits)
This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 115Q APPLIED TUBA (1-2 credits)
This course provides individual weekly instruction on tuba. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 115R APPLIED VIOLA (1-2 credits)
This course provides individual weekly instruction on viola. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.
MUS 115S APPLIED VIOLIN (1-2 credits)
This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (violin majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly masterclasses.

MUS 115T APPLIED VOICE (1-2 credits)
This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for one credit hour (non music majors) or two credit hours (voice music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** This course requires an audition performed for & approved by the voice faculty. Students must also enroll in a choral ensemble MUS 2700/MUS 4100 and attend the weekly masterclass. MUS 115T students are also required to attend Freshman Voice Seminar.

MUS 115U APPLIED CARILLON (1-2 credits)
This course provides individual weekly instruction on carillon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** This course requires an audition performed for & approved by the keyboard faculty.

MUS 167B APPLIED CLASS - PIANO (1 credit)
Basic reading of treble and bass clef are a prerequisite for this course. Beginning with learning correct posture, hand position and technique, a deeper understanding of key musical elements such as key signatures, dynamic markings, time signatures, rhythmic values, and musical terminology will begin the coursework. Reading, coordination, rhythm, scales, improvisation, technology, duet and solo repertoire will be used to strengthen both keyboard and overall musical skills. This is a sequential course whereby all students must pass the fall semester before enrolling in spring semester.

MUS 167C APPLIED CLASS - VOICE I (1 credit)
This course provides class instruction in the development of elementary basic skills in applied voice.

MUS 169D APPLIED CLASS JAZZ PIANO (1 credit)
This course will consist of class instruction designed to teach students basic jazz piano skills. **Prerequisite(s):** MUS 1420 or MUS 2430

MUS 215A APPLIED BASSOON (1-2 credits)
This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 215B APPLIED CELLO (1-2 credits)
This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** This course requires successful completion of MUS 115B. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of cello and attend the weekly masterclass.

MUS 215C APPLIED CLARINET (1-2 credits)
This course provides individual weekly instruction on clarinet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 215D APPLIED DOUBLE BASS (1-2 credits)
This course provides individual weekly instruction on double bass. Students work with the instructor to schedule lessons for one credit hour or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 215E APPLIED EUPHONIUM (1-2 credits)
This course provides individual weekly instruction on euphonium. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** Enrollment in this course requires an audition performed for and approved by the woodwind faculty. OR Successful completion of 4 hours of MUS 115F. Students must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 & 1000-007.

MUS 215F APPLIED FLUTE (1-2 credits)
This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** Enrollment in this course requires an audition performed for and approved by the woodwind faculty. OR Successful completion of 4 hours of MUS 115F. Students must also enroll in an instrumental ensemble. Music majors must attend the weekly masterclass.

MUS 215G APPLIED FRENCH HORN (1-2 credits)
This course provides individual weekly instruction on french horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 215H APPLIED GUITAR (1-2 credits)
This course provides individual weekly instruction on guitar. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 215I APPLIED HARP (1-2 credits)
This course provides individual weekly instruction on harp. Students work with the instructor to schedule lessons for one credit hour or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** This course requires successful completion of MUS 115I. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of harp and attend the weekly masterclass.

MUS 215J APPLIED OBOE (1-2 credits)
This course provides individual weekly instruction on oboe. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. **Prerequisite(s):** Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.
MUS 215K APPLIED PERCUSSION (1-2 credits)
This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons for one credit hour (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the percussion faculty. Music majors must attend the weekly masterclass.

MUS 215L APPLIED PIANO (1-2 credits)
This course provides individual weekly instruction on piano. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the piano faculty. Music majors must attend the weekly masterclass.

MUS 215N APPLIED SAXOPHONE (1-2 credits)
This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires an audition performed for and approved by the keyboard faculty. Music majors must attend the weekly masterclass.

MUS 215O APPLIED TROMBONE (1-2 credits)
This course provides individual weekly instruction on trombone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 215P APPLIED TRUMPET (1-2 credits)
This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 215Q APPLIED TUBA (1-2 credits)
This course provides individual weekly instruction on tuba. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 215R APPLIED VIOLA (1-2 credits)
This course provides individual weekly instruction on viola. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires successful completion of MUS 115R. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of viola and attend the weekly masterclass.

MUS 215S APPLIED VIOLIN (1-2 credits)
This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires successful completion of MUS 115S. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of violin and attend the weekly masterclass.

MUS 215T APPLIED VOICE (1-2 credits)
This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for one credit hour (non music majors) or two credit hours (voice music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires an audition performed for and approved by the voice faculty. All enrolled students must also enroll in a choral ensemble (MUS 2700, MUS 4100). All students must attend the weekly masterclass.

MUS 315A APPLIED BASSOON (1-2 credits)
This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 315B APPLIED CELLO (1-2 credits)
This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit hour or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires professional completion of MUS 215B. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of cello and attend the weekly masterclass.

MUS 315C APPLIED CLARINET (1-2 credits)
This course provides individual weekly instruction on clarinet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 315D APPLIED DOUBLE BASS (1-2 credits)
This course provides individual weekly instruction on double bass. Students work with the instructor to schedule lessons for one credit hour or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires professional completion of MUS 215D. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of double bass and attend the weekly masterclass.

MUS 315E APPLIED EUHOPHONIUM (1-2 credits)
This course provides individual weekly instruction on euphonium. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.
MUS 315F APPLIED FLUTE (1-2 credits)
This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Audition for & approval by woodwind faculty OR successful completion of 4 hrs of MUS 215F and a "PASS" in the Sophomore Continuation Jury. Concurrent enrollment in an instrumental ensemble. Music majors; Concurrent enrollment in MUS 1000-001 & 1000-007.

MUS 315G APPLIED FRENCH HORN (1-2 credits)
This course provides individual weekly instruction on french horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 315H APPLIED GUITAR (1-2 credits)
This course provides individual weekly instruction on guitar. Students work with the instructor to schedule lessons for one credit (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 215H. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of guitar and attend the weekly masterclass.

MUS 315I APPLIED HARP (1-2 credits)
This course provides individual weekly instruction on harp. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 215I. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of harp and attend the weekly masterclass.

MUS 315J APPLIED OBOE (1-3 credits)
This course provides individual weekly instruction on oboe. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 315K APPLIED PERCUSSION (1-2 credits)
This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons for one credit hour (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the percussion faculty. Music majors must attend the weekly masterclass.

MUS 315L APPLIED PIANO (1-2 credits)
This course provides individual weekly instruction on piano. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for & approved by the piano faculty. Music majors must attend the weekly masterclass.

MUS 315M APPLIED PIPE ORGAN (1-3 credits)
This course provides individual weekly instruction on organ. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the keyboard faculty. Music majors must attend the weekly masterclass.

MUS 315N APPLIED SAXOPHONE (1-2 credits)
This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 315O APPLIED TROMBONE (1-2 credits)
This course provides individual weekly instruction on trombone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 315P APPLIED TRUMPET (1-2 credits)
This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credits (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 315Q APPLIED VIOLIN (1-2 credits)
This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 215Q. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of violin and attend the weekly masterclass.

MUS 315R APPLIED VIOLIN (1-2 credits)
This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 215R. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of violin and attend the weekly masterclass.

MUS 315T APPLIED VOICE (1-2 credits)
This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for one credit hour or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for and approved by the voice faculty. All enrolled students must also enroll in a choral ensemble (MUS 2700, MUS 4100). All students must attend the weekly masterclass.

MUS 415A APPLIED BASSOON (1-2 credits)
This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.
MUS 415B APPLIED CELLO (1-2 credits)
This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires successful completion of MUS 315B. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of cello and attend the weekly masterclass.

MUS 415C APPLIED CLARINET (1-2 credits)
This course provides individual weekly instruction on clarinet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 415D APPLIED DOUBLE BASS (1-2 credits)
This course provides individual weekly instruction on double bass. Students work with the instructor to schedule lessons for one credit hour (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires successful completion of MUS 315D. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of double bass and attend the weekly masterclass.

MUS 415E APPLIED EUPHONIUM (1-2 credits)
This course provides individual weekly instruction on euphonium. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. This level of applied study provides instruction on fundamental brass playing concepts. Weekly assignments can include technical studies, scale exercises, tone and articulation studies, breathing exercises, solo and orchestral repertoire, chamber music, etc.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 415F APPLIED FLUTE (1-2 credits)
This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires an audition for & approval by the woodwind faculty. OR successful completion of 4 credit hours of MUS 315F. Students must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 & 1000-007.

MUS 415G APPLIED FRENCH HORN (1-2 credits)
This course provides individual weekly instruction on french horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 415H APPLIED GUITAR (1-2 credits)
This course provides individual weekly instruction on the guitar. Students work with the instructor to schedule lessons for one credit (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires successful completion of MUS 315H. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of guitar and attend the weekly masterclass.

MUS 415I APPLIED HARP (1-2 credits)
This course provides individual weekly instruction on harp. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires successful completion of MUS 315I. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of harp and attend the weekly masterclass.

MUS 415J APPLIED OBOE (1-2 credits)
This course provides individual weekly instruction on oboe. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 415K APPLIED PERCUSSION (1-2 credits)
This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons for one credit hour (BA) or two credit hours (BM). Lessons. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the percussion faculty. Music majors must attend the weekly masterclass.

MUS 415L APPLIED PIANO (1-2 credits)
This course provides individual weekly instruction on piano. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for & approved by the piano faculty. Music majors must attend the weekly masterclass.

MUS 415M APPLIED PIPE ORGAN (1-3 credits)
This course provides individual weekly instruction on organ. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires an audition performed for & approved by the keyboard faculty. Music majors must attend the weekly masterclass.

MUS 415N APPLIED SAXOPHONE (1-2 credits)
This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 415O APPLIED TROMBONE (1-2 credits)
This course provides individual weekly instruction on trombone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 415P APPLIED TRUMPET (1-2 credits)
This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (BM) or two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.
MUS 415Q APPLIED TUBA (1-2 credits)
This course provides individual weekly instruction on tuba. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 415R APPLIED VIOLA (1-2 credits)
This course provides individual weekly instruction on viola. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires successful completion of MUS 315R. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of viola and attend the weekly masterclass.

MUS 415S APPLIED VIOLIN (1-2 credits)
This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires successful completion of MUS 215S. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of violin and attend the weekly masterclass.

MUS 415T APPLIED VOICE (1-2 credits)
This course is a continuation of the applied music sequence of study for music majors. This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for one credit hour or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.
Prerequisite(s): This course requires successful completion of MUS 315T. This course requires an audition performed for and approved by the voice faculty. All enrolled students must also enroll in a choral ensemble (MUS 2700, MUS 4100) and attend the weekly masterclass.

MUS 1000 CONVOCATION (0 credits)
This course is a weekly meeting of all music majors which provides students with performance opportunities for themselves as well as recitals and lectures by guest artists.
Prerequisite(s): Music majors only.

MUS 1010 MUSIC TECHNOLOGY NOW (0 credits)
This course is a weekly meeting of all music technology majors. The course includes presentations of ongoing student projects, lectures by resident and visiting music technologists, audio engineering training and practicum opportunities, and critical listening experiences.
Prerequisite(s): Not open to non-degree graduate students.

MUS 1050 MUSIC OF THE PEOPLE: THE BEATLES (3 credits)
The Beatles are arguably the most influential and important rock band in history. Their music influenced not only the shape of popular music but youth culture. Course objectives are to learn the history of the music of the Beatles from their early influences and formation to their break-up and legacy; to understand the relationship of this music to larger cultural, political, and economic formations; to become familiar with aspects of the diverse musical structures used in their music; and to become familiar with the advances in sound and recording technology their music spawned and influenced innovation to music today.

Distribution: Humanities and Fine Arts General Education course

MUS 1070 MUSIC OF THE PEOPLE: ROCK AND POP (3 credits)
The objectives of this course are 1) to learn the history of rock music from its beginnings in earlier forms of popular music to the beginning of the 21st century 2) to understand the relationship of this music to larger cultural, political, and economic formations; and 3) to become familiar with aspects of musical structure which have been used in rock music.
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

MUS 1080 MUSIC OF THE PEOPLE: THE WORLD (3 credits)
A study of music of various cultures throughout the world practiced primarily by individuals who produce music as a part of their everyday life. Using music as a window into various cultures the course gives students an insight into cultures that may vary from their own.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

MUS 1090 MUSIC APPRECIATION (3 credits)
A listening course for the non-music major designed to promote a better understanding of noteworthy compositions from various periods and styles. Lab fee required.
Distribution: Humanities and Fine Arts General Education course

MUS 1100 MUSIC OF THE PEOPLE: JAZZ (3 credits)
In this course, the history of jazz will be traced from its origins up to the present. Designed primarily for non-music majors, the course will chronicle the development of various stylistic trends which characterize jazz and discuss the prominent musical artists that influenced each style period within the history of jazz. Lab fee required.
Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

MUS 1170 FOUNDATIONS OF MUSIC TECHNOLOGY (3 credits)
This course addresses the foundational people, concepts, and terms of music technology. The course covers a broad spectrum of themes including acoustics, psychoacoustics, microphones, Musical Instrument Digital Instrument (MIDI), synthesis, computer music, notation, and sampling. Intended for students pursuing a Bachelor of Arts with a concentration in Music Technology.

MUS 1390 BASIC MUSICIANSHIP (3 credits)
This course is designed to develop basic music reading skills through experiential learning that promotes music literacy skills of note reading, rhythmic reading, key signatures, and simple meter. It is designed for students interested in music degree tracks who have limited understanding of music theory.
Prerequisite(s): Music major or permission of the instructor. Not open to non-degree graduate students.

MUS 1400 MUSIC FUNDAMENTALS (3 credits)
Introduction to Music Studies will cover the basics of music including music reading in multiple clefs, scales, key signatures, rhythm, triads, seventh chords, and elementary aural and singing skills. The primary purpose of the course is to prepare students for further study in music at the college level.
Prerequisite(s): Music major or permission of instructor. Not open to non-degree graduate students.

MUS 1410 MUSIC CORE CURRICULUM I (4 credits)
The study of basic elements of music and their application to musical performance, education, and analysis.
Prerequisite(s): Music Major or permission from the instructor. Successful completion of 1400 (C or better). Not open to non-degree graduate students.

MUS 1420 MUSIC CORE CURRICULUM II (4 credits)
The study of basic elements of music and their application to musical performance, education, and analysis.
Prerequisite(s): Completion of MUS 1410 with the grade C or better or permission of the instructor. Not open to non-degree graduate students.

MUS 1430 COMMERCIAL MUSIC THEORY I (3 credits)
This course will integrate Roman Numeral, Lead Sheet, and Nashville notations through realization and analysis. It will also combine Common Practice Period music theory with Jazz theory in an effort to promote practical usage of theoretical systems in performance and practice.
Prerequisite(s): Prerequisites include MUS 1390 and MUS 1400.

MUS 1600 INTRODUCTION TO MUSIC EDUCATION (1 credit)
This course is designed to provide an overview of the music education profession. It will focus on the history, philosophy, and fundamentals of music education in the United States.
MUS 1640 DICTION FOR SINGERS I (1 credit)
A study of the International Phonetic Alphabet (IPA) and the rules of pronunciation as applied to vocal literature of the English and Italian languages.
Prerequisite(s): Music major

MUS 1660 DICTION FOR SINGERS II (1 credit)
A study of the rules and guidelines of pronunciation as applied to vocal literature of German and French languages.
Prerequisite(s): Successful completion of MUS 1640

MUS 1690 KEYBOARD SKILLS I (1 credit)
Instruction in this course will prepare students for keyboard skills for continued success as a professional musician, teacher or music educator. An emphasis will be placed on the following skills: scales/chords, sight reading, SATB reading, open score reading, improvisation, basic accompaniment, continued development of technical skills through individual piano selections and exciting project using contemporary music. Arrangements of popular music, chord charts and stylistic awareness in regards to the piano will be developed throughout the course. Beginning skills of ensemble playing will be encouraged throughout the semesters. This is a sequential course whereby all students must enroll in fall semester and pass before enrolling in spring semester.
Prerequisite(s): MUS 167B (Piano) or equivalent. Permission.

MUS 2200 AUDIO RECORDING TECHNIQUES I (3 credits)
This course provides students with basic instruction in analog and digital audio recording. Topics include hardware, software, microphones, and basic production. Upon completion of the course students will have the skills and the knowledge to do basic audio recording such as recording live concerts and simple multi-track recording.
Prerequisite(s): MUS 1170 OR permission of the instructor. Not open to non-degree graduate students.

MUS 2300 SOUND DESIGN FOR VIDEO GAMES, FILM, AND SOUND ART (3 credits)
This course provides an overview of sound design theory & techniques. Using various multimedia platforms, students will effectively create compelling audio assets for video games, film, and artistic sound installations.
Prerequisite(s): Music Tech majors or permission of instructor. Not open to non-degree graduate students.

MUS 2410 MUSIC CORE CURRICULM III (4 credits)
The study of intermediate elements of music and their application to musical performance, education, and analysis.
Prerequisite(s): MUS 1420 or permission. Not open to non-degree graduate students.

MUS 2420 MUSIC CORE CURRICULM IV (4 credits)
The study of advanced elements of music and their application to musical performance, education, and analysis.
Prerequisite(s): MUS 2410 or permission. Not open to non-degree graduate students.

MUS 2430 COMMERCIAL MUSIC THEORY 2 (3 credits)
As a continuation of MUS 1430, this course will integrate Roman Numeral, Lead Sheet, and Nashville notations through realization and analysis. It will also combine Common Practice Period music theory with Jazz theory in an effort to promote practical usage of theoretical systems in performance and practice.
Prerequisite(s): MUS 1390, MUS 1400, and MUS 1430

MUS 2480 CLASS APPLIED JAZZ IMPROVISATION (2 credits)
This course is intended for the serious music student who wishes to gain basic knowledge and skills in the area of jazz improvisation. The course will emphasize beginning improvisation skills, basic jazz literature, chord scale relationships, melodic concepts, ear training, and analysis of improvised solos.
Prerequisite(s): MUS 1410 or MUS 1430

MUS 2510 MUSIC AND THE BLACK EXPERIENCE (3 credits)
Music and the Black Experience will provide students with historical and cultural knowledge of African Americans in the American music entertainment industry; the cultural influences of West African music traditions in African American music; and the American socio-political experiences that influenced music genres unique to Black people. Students will explore how West African music traditions survived and evolved through American slavery, reconstruction, the Civil Rights era, and into the 21st century; and how Black musical artists challenged racial discrimination in the music industry to create distinct music genres culturally unique to Black people. Overall, students taking this course will gain an understanding of the cultural role of music throughout the Black experience in America, and an appreciation for African American musical artists and composers who influenced all popular American music genres, from Spirituals to Broadway. (Cross-listed with BLST 2510).
Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

MUS 2550 MUSIC HISTORY I (3 credits)
This course is intended for music majors who wish to undertake a study of music literature and history of the Ancient, Medieval, Renaissance, and Baroque eras. The objective of the course is to illustrate the musical concepts, styles and performance practices through composers, individual works and scores that typify these eras and the cultural context surrounding them. Outside listening, reading, musical analysis and discussion will supplement lectures.

MUS 2560 MUSIC HISTORY II (3 credits)
This course is intended for music majors who wish to undertake a study of music literature and history of the Pre-Classical, Classical, Romantic, and Modern eras. The objective of the course is to illustrate the musical concepts, styles and performance practices through composers, individual works and scores that typify these eras and the cultural context surrounding them. Outside listening, reading, musical analysis and discussion will supplement lectures.

MUS 2600 FUNDAMENTALS OF CONDUCTING (2 credits)
The purpose of this course is to provide a basic foundation of conducting skills.
Prerequisite(s): This course is limited to music majors. Students must have successfully completed MUS 1410, MUS 1420. Not open to non-degree graduate students.

MUS 2610 ADVANCED PIANO TECHNIQUES I (1 credit)
Instruction in this course will prepare piano majors with advanced keyboard techniques for continued success as a professional musician or private instructor. An emphasis will be placed on the following skills: sight reading, SATB reading, open score reading, improvisation, intermediate/advanced accompaniment, and continued crafting of personal skill sets. Students will arrange contemporary music. Intermediate to advanced skills of ensemble playing will be cultivated throughout the semesters. This is a sequential course whereby all students must enroll in fall semester and pass before enrolling in spring semester.
Prerequisite(s): Piano Major

MUS 2620 ADVANCED PIANO TECHNIQUES II (1 credit)
Instruction in this course will prepare piano majors with advanced keyboard techniques for continued success as a professional musician or private instructor. An emphasis will be placed on the following skills: sight reading, SATB reading, open score reading, improvisation, intermediate/advanced accompaniment, and continued crafting of personal skill sets. Students will arrange contemporary music. Advanced skills of ensemble playing will be cultivated throughout the semester. This is a sequential course whereby all students must enroll in fall semester and pass before enrolling in spring semester.
Prerequisite(s): Piano Major; Successful completion of MUS 2610. Not open to non-degree graduate students.
MUS 2690 KEYBOARD SKILLS II (1 credit)
Continuation of keyboard skills curriculum for continued success and independent thinking allowing students skill level for the following: scales/chords, sight reading, SATB reading, open score reading, improvisation, basic accompaniment, continued development of technical skills through individual piano selections and exciting project using contemporary music. Advanced arrangements of popular music, chord charts and stylistic awareness continue to develop throughout the course. Advanced skills of ensemble playing and experience will be a part of the curriculum. Class instruction in advanced development of keyboard skills including sight reading, harmonization, open score reading, accompaniments and facility.
Prerequisite(s): MUS 1690 or equivalent. Permission.

MUS 2700 UNIVERSITY CHORUS (0-1 credits)
University Chorus is an ensemble open to all University students, faculty and staff. No audition necessary. All styles of music, including popular. Students wanting humanities/fine arts general education credit must register for 1 credit hour.
Prerequisite(s): University Chorus participants need to be aware of the importance of rehearsals and concerts, and commit to those times in their schedule. Student must seek approval from the Director of Choral Activities in order to take this course for 0 credits.
Distribution: Humanities and Fine Arts General Education course

MUS 2730 CHAMBER ORCHESTRA (0-1 credits)
A string orchestra with selected winds performing symphonic repertoire. Public performance. Open to all students and members of the greater metropolitan community.
Prerequisite(s): Audition is required.

MUS 2740 CHAMBER MUSIC (0-1 credits)
Specialized chamber music groups from the string, wind, percussion, jazz, or technology area. Literature will be chosen from the extensive materials available for these combinations of instruments.
Prerequisite(s): Audition and permission.

MUS 2750 MARCHING BAND (0 credits)
Open to all full and part-time UNO students during the fall semester only. No audition is required. K-12 instrumental music education majors are required to enroll in Marching Band for two semesters.

MUS 2760 UNIVERSITY CONCERT BAND (0-1 credits)
University Band is a performing ensemble that is open to all UNO students, staff, and faculty. The band has varied programming of contemporary and classical works. There is no audition necessary.
Prerequisite(s): There are no prerequisites for University Band, but participants need to be aware of the importance of rehearsals and concerts and commit to those times in their schedules.
Distribution: Humanities and Fine Arts General Education course

MUS 2770 JAZZ ENSEMBLE (0-1 credits)
A select ensemble performing jazz literature from all periods. Open to all full- and part-time UNO students. An audition is required with the director.
Prerequisite(s): Acceptance into jazz ensemble is by audition only. Students must demonstrate technical command of their instrument, sightreading skills in multiple jazz styles and ability to demonstrate credible jazz improvisation skills.

MUS 2790 COLLABORATIVE PIANO (1 credit)
This course is designed to develop skills useful for pianists to learn t skills to collaborate with vocalists, instrumentalists and ensembles. Individual class times will also accompany rehearsals with designated collaborative partners. The vast repertoire and stylistic knowledge for areas such as musical theater, voice, choral, strings, brass, orchestra and wind ensemble set the beginning of exciting partnerships throughout a musical career.
Prerequisite(s): Completion of MUS 167B, MUS 1690, MUS 2690.
Permission. Not open to non-degree graduate students.

MUS 2800 SOUND REINFORCEMENT (3 credits)
This course provides students with basic instruction in the fundamental knowledge and techniques of live sound production. Topics include equipment, processes, and systems used in a variety of scenarios with emphasis on practical, hands-on production. Upon completion of the course students will have the skills and the knowledge to provide basic sound reinforcement.
Prerequisite(s): Activities include on-location sound reinforcement, written live sound observations, in-class practicum, and electronics labs. Not open to non-degree graduate students.

MUS 2810 MUSIC IN LATIN AMERICAN CULTURE (3 credits)
This course surveys musical traditions from countries in Latin America and the Caribbean. Characteristic regional genres, ensembles, instruments, and music rituals will be examined. We will also trace the historical, cultural, and socio-political aspects of Latin American music on a global scale and delve into the developments of some international musical genres. (Cross-listed with LLS 2810).
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

MUS 3100 MUSIC INFORMATICS (3 credits)
Surveys the use of digital music data in the study, composition, performance, analysis, storage, and dissemination of music. Various computational approaches and technologies in music informatics including music information retrieval will be explored and implemented by students. (Cross-listed with ITIN 3100)
Prerequisite(s): Successful completion of one of the following three courses satisfies the prerequisite requirement: CIST 1300 or MUS 3170 or MUS 3180. Not open to non-degree graduate students.

MUS 3170 EXPLORING MUSIC TECHNOLOGY (3 credits)
An overview of computers and music. The course will focus on broad themes of people, procedures, data structures, software, hardware, and computer music environments. Intended for students with limited music or computer backgrounds.

MUS 3180 ELECTRONIC MUSIC PRODUCTION (3 credits)
An exploration of the potentials of electronic music. Concepts of electronic music are presented through the use of a computer, software, and appropriate hardware. Students create assignments that demonstrate the application of basic techniques. (Cross-listed with ITIN 3180)

MUS 3190 JUNIOR/NON DEGREE RECITAL (1 credit)
This course is designed for all undergraduate performance music majors performing a junior or any student who wants to perform a non-degree recital.
Prerequisite(s): Applied Music (MUS 1150-3150) and/or permission of applied instructor. Payment of Recital Fee (Conductors’ fees are automatically waived). Not open to non-degree graduate students.

MUS 3200 JAZZ PEDAGOGY (1 credit)
Course includes middle school and high school instrumental jazz literature, basic improvisation, rhythm section techniques and laboratory ensemble experiences.
Prerequisite(s): MUS 2410 or MUS 2430

MUS 3210 AUDIO RECORDING TECHNIQUES II (3 credits)
This course provides students with advanced instruction in sound recording and digital audio production. Topics include microphone technique, analog audio hardware, digital audio software, and advanced production techniques.
Prerequisite(s): MUS 2200
MUS 3260 MUSICAL THEATRE AND OPERA WORKSHOP (1 credit)
THEA 3260/MUS 3260 Musical Theatre and Opera Workshop is an ensemble offered during fall semester that integrates singing, movement and acting through rehearsal, private musical coaching and group exercise. It is designed for students in opera and musical theatre and develops the skill sets that are needed for performance. (Cross-listed with THEA 3260).
Prerequisite(s): THEA 1200 or MUS 115 T; PEA 111Q or PEA 111R or PEA 112W; THEA 1300 or THEA 2300. These prerequisites can be waived by the professors.

MUS 3400 FORM AND ANALYSIS (2 credits)
The study of musical forms and their application to musical arranging for choir, band, and orchestra.
Prerequisite(s): MUS 2420

MUS 3440 COMPOSITION I (1 credit)
Individualized applied study of the basic craft of musical composition in small media and various styles
Prerequisite(s): MUS 2420 and written permission. Not open to non-degree graduate students.

MUS 3480 CLASS APPLIED JAZZ IMPROVISATION II (2 credits)
This course is intended for the serious music student who wishes to gain advanced knowledge and skills in the area of jazz improvisation. This course will emphasize advanced improvisation skills, standard jazz literature, advanced jazz harmony, chord/distance relationships, melodic concepts, ear training, and analysis of improvised solos.
Prerequisite(s): MUS 2480

MUS 3600 MUSIC EDUCATION CORE I - ELEMENTARY (5 credits)
Methods and materials for teaching elementary (K-6) general, instrumental and choral music.
Prerequisite(s): Students must be accepted to the College of Education, Health and Human Sciences (CEHHS) Teacher Preparation Program and have completed MUS 1600 and MUS 1410 with a C or better; Music Education Majors only. Not open to non-degree graduate students.

MUS 3610 MUSIC EDUCATION CORE II - MIDDLE SCHOOL/JUNIOR HIGH SCHOOL (5 credits)
Course includes brass and percussion pedagogy, middle school instrumental and choral literature and techniques, general music, conducting, and laboratory ensemble experiences.
Prerequisite(s): MUS 3600 or permission.

MUS 3630 MUSIC EDUCATION CORE III - HIGH SCHOOL METHODS (5 credits)
This course explores all aspects of administering high school vocal and instrumental music programs as well as prepares the student for clinical teaching and the job search process.
Prerequisite(s): MUS 3600 and MUS 3610 or permission, 2.75 NU GPA, Passing Praxis Core scores

MUS 3640 MUSIC EDUCATION FINAL PRACTICUM (2 credits)
This course is designed to link theoretical concepts learned in the classroom to the practical application of "real world" situations and to familiarize students with the profession of music education. Hours completed in this course count as the final practicum as specified by the College of Education Teacher Preparation Program and required by the Nebraska Department of Education for teacher certification.
Prerequisite(s): MUS 3630, 2.75 NU GPA, Passing Praxis Core scores. Not open to non-degree graduate students.

MUS 3650 INTERNSHIPS IN MUSIC (0-3 credits)
A course designed to link theoretical concepts learned in the classroom to the practical application of "real world" situations and to familiarize students with attitudes, operations and programs of various musical organizations.
Prerequisite(s): Junior standing or permission of Music Department Chair. Not open to non-degree graduate students.

MUS 3660 ADVANCED CONDUCTING (2 credits)
An advanced course in conducting for music majors. This course will provide a theoretical and practical study of various materials and methods as they relate to conducting score study, gestures, rehearsal strategy and related performance practices.
Prerequisite(s): Successful completion of MUS 2420.

MUS 4000 SPECIAL STUDIES IN MUSIC (1-3 credits)
Seminars or workshops in Theory, History, Performance, and Music Education designed to meet specific interests and needs of students. Topics and number of credits for each specific offering will be announced during the prior semester. (Cross-listed with MUS 8006).

MUS 4100 CONCERT CHOIR (0-1 credits)
A select choral ensemble specializing in outstanding examples of music of all styles and from all periods. Public performance. Open to all University students.
Prerequisite(s): The prerequisite for Concert Choir is an audition. Student must seek approval from the Director of Choral Activities in order to take this course for 0 credit.

MUS 4120 CHAMBER CHOIR (0-1 credits)
A select choral ensemble of 20-32 singers, specializing in outstanding examples of a cappella choral music. Preparation and performance of all styles of music. Appearances in concerts throughout the year, on campus; in the metropolitan area; and occasionally, in various other regions of Nebraska and the world.
Prerequisite(s): Auditions at start of each semester - solo, sight-sing, range check, & group audition to match voice qualities. Must seek approval from Director of Choral Activities to take course for 0 credits. Not open to non-degree graduate students.

MUS 4130 UNIVERSITY ORCHESTRA (0-1 credits)
Heartland Philharmonic Orchestra is a full symphony orchestra performing symphonic repertoire. Public performance. Open to all students and members of the greater metropolitan community. Repertoire is drawn from the four periods of music associated with symphonic literature: Baroque, Classical, Romantic, and Modern.
Prerequisite(s): Audition and permission.

MUS 4160 SYMPHONIC WIND ENSEMBLE (0-1 credits)
The Symphonic Wind Ensemble performs the finest concert band literature at four campus concerts, professional conferences, and tours. Open to all full- and part-time students.
Prerequisite(s): Audition is required for membership in the Symphonic Wind Ensemble.

MUS 4190 RECITAL (1 credit)
This course is designed for all undergraduate students performing a senior recital. All recitals are to be one half hour to one hour depending on the student's degree requirements.
Prerequisite(s): Recital fee payment (conductor's fees waived) & applied instructor's permission. BM-Education & BA Students: 4 semesters of appropriate Applied Music (MUS 1150-3150). BM-Performance: MUS 3190; 7 semesters of appropriate Applied Music (MUS 1150-3150).

MUS 4220 AUDIO RECORDING TECHNIQUES III (3 credits)
This course provides students with advanced instruction in sound mixing, digital audio editing, audio post-production and mastering. Topics include advanced digital audio editing, audio signal processing techniques, analog signal processing hardware, automation, and final product authoring and mastering.
Prerequisite(s): MUS 3170, MUS 4200 & MUS 4210. Not open to non-degree graduate students.
MUS 4240 ADVANCED AUDIO RECORDING TECHNIQUES (3 credits)
This course provides students with advanced instruction in sound mixing, digital audio editing, audio post-production and mastering. Topics include advanced digital audio editing, audio signal processing techniques, analog signal processing hardware, automation, and final product authoring and mastering. (Cross-listed with MUS 8246).
Prerequisite(s): MUS 3170, MUS 4200 & MUS 4210. Not open to non-degree graduate students.

MUS 4280 ADVANCED TOPICS IN MUSIC TECHNOLOGY (3 credits)
A seminar in Music Technology on an advanced or emerging topic in the field. The topic for each offering will be announced the prior semester.
Prerequisite(s): Permission of department.

MUS 4290 MUSIC CAPSTONE PROJECT (1 credit)
This course is to serve as a capstone project for students in the Bachelor of Arts in Music degree. Projects must be approved by the faculty and a member of the faculty will be assigned to advise on the project.
Prerequisite(s): Senior standing and successful completion of MUS 1420 or MUS 1430. Not open to non-degree graduate students.

MUS 4300 BUSINESS OF MUSIC (3 credits)
An overview of the global music industry as practiced in the United States, this course will provide insights into a number of key areas of business related to music. Students will also explore a diversity of music industry career paths in areas such as arts management, music products & merchandizing, public relations, music production & recording, publishing, and online music distribution.
Prerequisite(s): Students must be enrolled as music majors, or by permission of instructor.

MUS 4400 ADVANCED COMPOSITION (1 credit)
Individualized applied study of the craft of musical composition in larger media and various styles.
Prerequisite(s): MUS 3440 and written permission. Not open to non-degree graduate students.

MUS 4430 ARRANGING FOR JAZZ ENSEMBLE (3 credits)
Techniques of writing for jazz ensembles of various combinations of instruments. (Cross-listed with MUS 8436).
Prerequisite(s): MUS 2480 or MUS 2420

MUS 4440 MUSIC SINCE 1945 (3 credits)
This course covers important developments in music in the United States and Europe since 1945. (Cross-listed with MUS 8446).
Prerequisite(s): Completion of MUS 3420 or permission of instructor.

MUS 4450 ORCHESTRATION (2 credits)
Basics of instrumentation and scoring for band and orchestra.
Prerequisite(s): Completion of MUS 2420 with a C or better. Not open to non-degree graduate students.

MUS 4530 HISTORY OF WESTERN OPERA (3 credits)
This course will consist of significant music theater works in the Western world from 1600 to the present. (Cross-listed with MUS 8536).
Prerequisite(s): MUS 2550 and MUS 2560. Junior standing.

MUS 4540 RENAISSANCE MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature c. 1350-1600. (Cross-listed with MUS 8546).
Prerequisite(s): MUS 2550, MUS 2560, and MUS 2570. Not open to non-degree graduate students.

MUS 4550 BAROQUE MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from c. 1600-1750. (Cross-listed with MUS 8556).
Prerequisite(s): MUS 2550 and MUS 2560.

MUS 4560 CLASSICAL MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from c. 1750-1815. (Cross-listed with MUS 8566).
Prerequisite(s): MUS 2550, MUS 2560, and MUS 2570.

MUS 4570 ROMANTIC MUSIC LITERATURE (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of Music literature from c. 1815-1912. (Cross-listed with MUS 8576).
Prerequisite(s): MUS 2550 and MUS 2560.

MUS 4580 MUSIC FROM 1900 - 1945 (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of music literature from the post-romantic period to 1945. The objective will be to provide the student with a broad overview with special attention given to composers and individual works which typify a style or form. (Cross-listed with MUS 8586).
Prerequisite(s): MUS 2560.

MUS 4590 AFRICAN-AMERICAN POPULAR MUSIC FROM BEBOP TO HIP-HOP (3 credits)
This course is intended for music majors who wish to undertake a comprehensive survey of African-American popular music literature from c. 1900-present. The objective will be to provide the student with a broad overview with special attention given to musicians and individual works which typify a style or form. Listening assignments will be an integral part of the course, and attendance at live performances will supplement the lectures, discussions and readings. (Cross-listed with MUS 8596).

MUS 4600 PIANO PEDAGOGY (3 credits)
This course is a survey of the art of teaching the piano. Course content will include a survey of beginning and intermediate piano methods, literature for the beginning/intermediate piano student, studio business practice, professional organizations, and group piano instruction pedagogy. (Cross-listed with MUS 8606).
Prerequisite(s): Permission of instructor.

MUS 4610 VOICE PEDAGOGY (3 credits)
This course is a study of the physiological and acoustical properties of the vocal mechanism and of the various techniques used in developing the singing voice. Also, it will apply knowledge acquired about the voice through studio teaching and observations of other voice teachers. (Cross-listed with MUS 8616).
Prerequisite(s): Voice Music Major or permission of instructor.

MUS 4620 INSTRUMENTAL PEDAGOGY (3 credits)
This course is a study of the physiological and acoustical properties of various instruments and of techniques used in developing instrumental technique. Also, it will apply knowledge acquired about the instrument through studio teaching and observations of other instrumental teachers.

MUS 4660 HEALTH AND WELLNESS FOR MUSICIANS (3 credits)
Health and Wellness for Musicians gives an overview of the dimensions of wellness and common health/wellness challenges for musicians. The course provides students with a toolbox of ideas and strategies for the development, design, and implementation of a music wellness campaign for non-musicians and individualized wellness plans for specific instruments and voice types. (Cross-listed with MUS 8696).

MUS 4720 CHORAL LITERATURE (3 credits)
A survey course in the study of significant choral genre of the various periods of music from plain song to contemporary music. (Cross-listed with MUS 8726).
Prerequisite(s): MUS 2570 and MUS 3640. Junior music major standing or permission of the instructor.
**MUS 4730 KEYBOARD LITERATURE (3 credits)**
This course will examine literature written for keyboard (piano) from the 16th century to the present. Emphasis will be placed on solo literature of the Baroque, Classic, Romantic, and Contemporary periods. Included are keyboard concertos with orchestra and works for four hands and two pianos. (Cross-listed with MUS 8736)
Prerequisite(s): Permission of instructor.

**MUS 4740 VOICE LITERATURE (3 credits)**
This course is a study of the development of art song in Europe and America. Emphasis will be given to German and French song literature and their influence on English and American song. (Cross-listed with MUS 8746)
Prerequisite(s): Junior voice or permission of instructor.

**MUS 4750 INSTRUMENTAL LITERATURE (3 credits)**
This course is a study of the development of instrumental (brass, winds, strings, percussion) literature in Europe and America.
Prerequisite(s): Not open to non-degree graduate students.

### University Degree Requirements:
The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

### Placement Exams:
For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php).

**Transfer credit or placement exam scores may change suggested plan of study**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**
**Music Studies-Jazz**

### Freshman

#### Fall
- **MUS 1000** CONVOCATION 0.0
- **Applied Lessons (MUS 115?)** 1.0
- **Ensemble** 1.0
- **MUS 1070** MUSIC OF THE PEOPLE: ROCK AND POP 3.0
- **MUS 3170** EXPLORING MUSIC TECHNOLOGY 3.0
- **ENGL 1150** ENGLISH COMPOSITION I 3.0
- **Natural/Physical Science with Laboratory** 4.0

**Credits:** 15.0

#### Spring
- **MUS 1000** CONVOCATION 0.0
- **Applied Lessons (MUS 115?)** 1.0
- **Ensemble** 1.0
- **MUS 1390** BASIC MUSICIANSHIP 3.0
- **College Algebra or equivalent** 3.0
- **ENGL 1160** ENGLISH COMPOSITION II 3.0
- **Humanities and Fine Arts** 3.0
- **Elective Credits** 1.0

**Credits:** 15.0

### Sophomore

#### Fall
- **MUS 1000** CONVOCATION 0.0
- **Applied Lessons (MUS 215?)** 1.0
- **Ensemble** 1.0
- **MUS 1400** MUSIC FUNDAMENTALS 3.0
- **CMST 1110** PUBLIC SPEAKING FUNDS 3.0
- **Humanities and Fine Arts** 3.0
- **Elective Credits** 5.0

**Credits:** 15.0

#### Spring
- **MUS 1000** CONVOCATION 0.0
- **Applied Lessons (MUS 215?)** 1.0
- **Ensemble** 1.0
- **MUS 1430** COMMERCIAL MUSIC THEORY I 3.0
- **MUS 4300** BUSINESS OF MUSIC 3.0
- **Social Science** 3.0
- **Elective** 3.0
- **MUS 2480** CLASS APPLIED JAZZ IMPROVISATION 2.0

**Credits:** 16.0

### Junior

#### Fall
- **MUS 1000** CONVOCATION 0.0
- **Applied Lessons (MUS 315?)** 1.0
- **Ensemble** 1.0
- **MUS 2430** COMMERCIAL MUSIC THEORY II 3.0
- **MUS 169D** APPLIED CLASS JAZZ PIANO 1.0
- **MUS 4590** AFRICAN-AMERICAN POPULAR MUSIC FROM BEBOP TO HIP-HOP 3.0
- **MUS 4430** ARRANGING FOR JAZZ ENSEMBLE 3.0
- **MUS 3480** CLASS APPLIED JAZZ IMPROVISATION II 2.0

**Credits:** 16.0

#### Spring
- **MUS 1000** CONVOCATION 0.0
- **Applied Lessons (315?)** 1.0
- **Social Science** 3.0
- **Humanities and Fine Arts** 3.0
- **Elective Credits** 4.0
- **MUS 3200** JAZZ PEDAGOGY 1.0

**Credits:** 16.0

### Senior

#### Fall
- **MUS 1000** CONVOCATION 0.0
- **Applied Lessons (415?)** 1.0
- **Ensemble** 1.0
- **WRWS 3500** CREATIVE WRITING FOR THE ARTS 3.0
- **Natural/Physical Science** 3.0
- **Elective Credits** 8.0

**Credits:** 16.0

#### Spring
- **MUS 1000** CONVOCATION 0.0
- **Applied Lessons (415?)** 1.0
- **Ensemble** 1.0
- **MUS 4190** RECITAL 1.0
- **Elective** 3.0
- **Elective** 3.0
- **Elective** 3.0

**Credits:** 12.0

**Total Credits:** 120.0

Natural/Physical Science  3

Credits  15

Total Credits  119

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

### Fundamental Academic Skills

- **ENGL 1150** ENGLISH COMPOSITION I
- **ENGL 1160** ENGLISH COMPOSITION II
- **TED 2100** EDUCATIONAL FOUNDATIONS
- **CMST 1110** PUBLIC SPEAKING FUNDS
- **MATH 1220** COLLEGE ALGEBRA

### Distribution Requirements

- **Natural/Physical Science Electives**
- **Social Science Electives**
- **Humaities Electives**
- **Cultural Diversity**

1 Note: Cultural Diversity Courses also satisfy courses that double-count toward social sciences, humanities, or natural/physical sciences. For Music Education majors, MUS 1080 counts toward Global Diversity and TED 2200 counts toward US Diversity, TED 2100 can count for academic writing skills in lieu of Fundamental Writing Skills requirement.

### Music Education K-12 Brass

#### Concentration Requirements

- **Ensembles**
  - The required 4 semesters of an ensemble must be on their major instrument.
  - Select from the following:
    - MUS 2730 CHAMBER ORCHESTRA
    - MUS 2740 CHAMBER MUSIC
    - MUS 2750 MARCHING BAND
    - MUS 2760 UNIVERSITY CONCERT BAND
    - MUS 2770 JAZZ ENSEMBLE
    - MUS 4130 UNIVERSITY ORCHESTRA
    - MUS 4160 SYMPHONIC WIND ENSEMBLE

### Music Education K-12 Keyboard

#### Keyboard-Instrumental

#### Concentration Requirements

- **Ensembles**
  - The required 4 semesters of an ensemble must be on their major instrument.
  - Select from the following:
    - MUS 2700 UNIVERSITY CHORUS
    - MUS 2730 CHAMBER ORCHESTRA
    - MUS 2740 CHAMBER MUSIC
    - MUS 2750 MARCHING BAND (2 semesters required)
    - MUS 2760 UNIVERSITY CONCERT BAND

### Music Education K-12 Percussion

#### Concentration Requirements

- **Ensembles**
  - The required 4 semesters of an ensemble must be on their major instrument.
  - Select from the following:
    - MUS 2730 CHAMBER ORCHESTRA
    - MUS 2740 CHAMBER MUSIC
    - MUS 2750 MARCHING BAND
    - MUS 2760 UNIVERSITY CONCERT BAND
    - MUS 2770 JAZZ ENSEMBLE
    - MUS 4130 UNIVERSITY ORCHESTRA
    - MUS 4160 SYMPHONIC WIND ENSEMBLE

### Music Education K-12 String

#### Concentration Requirements

- **Ensembles**
  - The required 4 required ensembles must be on their major instrument.
  - Select from the following:
    - MUS 2730 CHAMBER ORCHESTRA
    - MUS 2740 CHAMBER MUSIC
    - MUS 2750 MARCHING BAND
    - MUS 2760 UNIVERSITY CONCERT BAND
    - MUS 2770 JAZZ ENSEMBLE
    - MUS 4130 UNIVERSITY ORCHESTRA
    - MUS 4160 SYMPHONIC WIND ENSEMBLE

### Music Education K-12 Voice

#### Concentration Requirements

- **Ensembles**
  - The required 4 semesters of an ensemble must be on their major instrument.
  - Select from the following:
    - MUS 2700 UNIVERSITY CHORUS
    - MUS 2740 CHAMBER MUSIC
    - MUS 4100 CONCERT CHOIR
    - MUS 4160 SYMPHONIC WIND ENSEMBLE

### Music Education K-12 Woodwind

#### Concentration Requirements

- **Ensembles**
  - The required 4 semesters of an ensemble must be on their major instrument.
  - Select from the following:
    - MUS 2700 UNIVERSITY CHORUS
    - MUS 2740 CHAMBER MUSIC
    - MUS 4100 CONCERT CHOIR
    - MUS 4160 SYMPHONIC WIND ENSEMBLE
Select from the following:

- MUS 2730: CHAMBER ORCHESTRA
- MUS 2740: CHAMBER MUSIC
- MUS 2750: MARCHING BAND
- MUS 2760: UNIVERSITY CONCERT BAND
- MUS 2770: JAZZ ENSEMBLE
- MUS 4130: UNIVERSITY ORCHESTRA
- MUS 4140: SYMPHONIC WIND ENSEMBLE

School of the Arts

Founded in 2015, the School of the Arts is one of three within the College of Communication, Fine Arts and Media. Comprised of Art & Art History, Theatre (p. 510), and the Writer’s Workshop (p. 520), the school fosters probing inquiry of the world and develops in the scholar-artist powers of observation, creativity, reflection, and critical analysis.

Located in the award-winning Weber Fine Arts Building, completed in 1992 and designed to be an “inhabited sculpture on campus,” the school’s facilities include the UNO Art Gallery, dedicated studio spaces for art-making, acting, directing, theatrical design and construction, a Black Box Theatre, computer labs, traditional lecture and seminar rooms, and informal gathering spaces.

Enriched by the cultural diversity of our metropolitan home, the School of the Arts’ 44 faculty members are dedicated to helping students understand the relationship between the arts and our communities’ well-being, seeing expression as a means to connect diverse ideas and people.

Art and Art History

Art & Art History educates artists, scholars and teachers by fostering creative expression, visual literacy, and critical thinking through practice and research. By developing mastery of various disciplines in art, students are prepared to become leaders in their chosen careers and make positive contributions to the world. Art & Art History is fully accredited by the National Association of Schools of Art and Design (NASAD).

Contact Information

For more information, contact Art & Art History at 402.554.2420.

Website (http://www.unomaha.edu/college-of-communication-fine-arts-and-media/art-and-art-history/)

Admissions

Any student enrolled in the College of Communication, Fine Arts and Media may declare a major in Art & Art History. Students working on their BASA must pass a portfolio review (ART 2000), which is normally conducted after a student has completed the Studio Core I courses, or the equivalents.

Degrees Offered

• Art History, Bachelor of Arts (p. 485)
• Studio Art, Bachelor of Arts (p. 489)
• Studio Art, Bachelor of Fine Arts (p. 498)

Writing in the Discipline

Writing in the discipline course: All students are required to take a writing in the discipline course within their major. For Art & Art History this is WRWS 3500 or another approved course.

Minors Offered

• Art History Minor (p. 488)
• Studio Art Minor (p. 507)

Art History

Art History is an interdisciplinary field that studies the most significant artists and artworks in human history and emphasizes the role of visual culture from the past to the present. Students majoring in Art History at UNO can prepare for advanced graduate study in art history as well as careers in museum studies or art administration.

• Art law/anti-forgery specialist
• Interior designer
• Art conservationist/restorer
• Museum curator
• Gallerist
• Art/estate appraiser
• Exhibit installation technician

Studio Art

The programs in studio art provide a comprehensive art education that prepares students with the technical skills, historical context, and
2D
- Artist
- Fashion illustrator
- Comic illustrator
- Storyboarder
- Medical illustrator
- Art therapist
- Concept artist
- Art educator

3D
- Sculptor
- Art educator
- Special effects artist
- 3D animator

Graphic Design
- Corporate graphic designer
- Web designer

ART 1040 GLOBAL INDIGENOUS ART (3 credits)
This introductory course explores Indigenous architecture, paintings, sculpture, and decorative arts of six geographic regions: Africa, Mesoamerica, North America, South America, Asia, and Oceania. Students will examine the religious beliefs, ritual practices, and politics embedded within the production of Indigenous artworks. The class will also examine contemporary artworks to understand the continuity and innovation of cultural traditions and the importance of repatriation. Lab fee required. Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

ART 1100 FOUNDATION: DRAWING (3 credits)
This course is an introduction to the essential tools of art making through an active exploration of drawing mediums and design concepts. The focus is on the development of conceptual and technical skills used in contemporary studio practice. The course will have a strong emphasis on learning to see in the context of an observational studio practice. Prerequisite(s): Lab fee required.

ART 1110 FOUNDATION: 3D DESIGN (3 credits)
This course is an introduction to the technical and conceptual aspects of three-dimensional design, focusing on drawing and sculpture problems. Students will develop an understanding of 3-D design components and principles, learn handmade and shop oriented technologies, and explore analytical and conceptual drawing. They will also address critical skills and the cultural analysis of art practice. Prerequisite(s): Lab fee required.

ART 1220 FOUNDATION: DIGITAL MEDIA (3 credits)
An introduction to digital art and design skills, nomenclature, and practice while learning aesthetics and art and design history. Students learn to balance practical knowledge with visual, theoretical, and historical frameworks, and they complete digital skills exercises that incorporate art and design history. These digital skills are then practiced and reinforced with more in-depth art and design projects. Prerequisite(s): Lab fee required.

ART 1810 WATERCOLOR I (3 credits)
This course cover beginning watercolor techniques with basic water media skills taught in the class. No experience is necessary for students enrolled in 1810.

ART 1820 WATERCOLOR II (3 credits)
This course will review fundamental methods and techniques associated with watercolor painting and will introduce more advanced techniques. Advanced watercolor students submit a written contract for their semester plan which includes the concept or content and approximate number of paintings. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 credit hours.) Prerequisite(s): ART 1810

ART 2000 CORE ONE PORTFOLIO REVIEW (0 credits)
ART 2000 Core One Portfolio Review is a zero credit hour course offered every Fall and Spring semester. All BASA majors on the 2013-14 catalog year and after must complete the ART 2000 Core I Portfolio review to graduate with the BASA or BFA major. ART 2000 will usually be completed during the sophomore year; i.e. between 27 and 57 credit hours, but may be completed later. Prerequisite(s): Students must complete ART 1100; ART 1110; ART 1210; ART 1220. Not open to non-degree graduate students.
ART 2050 SURVEY OF WESTERN ART HISTORY I (3 credits)
A survey of the major developments in painting, sculpture and architecture from Paleolithic cave paintings through the Middle Ages.
Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

ART 2060 SURVEY OF WESTERN ART HISTORY II (3 credits)
This course is a survey of the major developments in painting, sculpture and architecture from the Renaissance to the 20th century. Lab fee required.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

ART 2070 ART OF INDIA AND SOUTHEAST ASIA (3 credits)
A study of the arts of India and cultures under its influence, with attention to religious and philosophical backgrounds. Lab fee required.
Prerequisite(s): Sophomore standing. Not open to non-degree graduate students.

ART 2080 ART OF CHINA AND JAPAN (3 credits)
This course is a study of the arts of China and Japan, with attention to religious and philosophical backgrounds. Lab fee required.
Prerequisite(s): Sophomore standing. Not open to non-degree graduate students.

ART 2100 LIFE DRAWING I (3 credits)
Life Drawing I is an introduction to drawing the human form. The goal of the course is to introduce drawing media and relate them to the problems of drawing the figure. Both perceptual and conceptual skill building are emphasized. Lab fee required.
Prerequisite(s): ART 1100 and ART 1210.

ART 2110 LIFE DRAWING II (3 credits)
Life Drawing II is an expansion of the instruction and skill set obtained during Life Drawing I. This course continues to assist the student become aware of unfamiliar forms in the figure. Perceptual and conceptual skill building is again emphasized. Lab Fee required.
Prerequisite(s): ART 2100

ART 2200 TYPEFACE DESIGN AND TYPOGRAPHY (3 credits)
Typeface Design and Typography is foundational to the practice of graphic design and the Graphic Design Concentration sequence. This intensive studio course focuses on the skills, theory, history and practice of typeface design as well as the theory and practice of typography and layout.
Prerequisite(s): ART 1220 ART 3130

ART 2300 WEB DESIGN (3 credits)
This course is an introduction to basic web design skills and topics, with an emphasis on design and visual communication.
Prerequisite(s): ART 1220. Not open to non-degree graduate students.

ART 2600 SURVEY OF COMICS: MORE THAN CAPES AND TIGHTS (3 credits)
This course is a survey of the history of the Western comic from its earliest days to the modern era.
Prerequisite(s): Not open to non-degree graduate students.

ART 2610 EXPLORATION OF GLOBAL COMICS (3 credits)
This course is a survey of the history, influences and evolution of comics from countries around the world such as France, Italy, the Middle East, Japan, South America and Africa. Students will come to understand how comics grew and evolved under different social, political and cultural climates around the world.
Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

ART 2910 OBSERVATIONAL DRAWING FOR SKETCHBOOK (3 credits)
This studio course focuses on drawing from observation in the studio and in public space. Students will work to develop a sketchbook drawing practice utilizing both dry and wet media. We will draw on-location around campus and around Omaha. Students will practice drawing the human figure without the use of a traditional model and develop their technical and expressive skills in drawing architecture, nature, and found objects.
Prerequisite(s): ART 1100 or by permission of instructor

ART 2920 ILLUSTRATION 1: INTRODUCTION TO ILLUSTRATION (3 credits)
This studio course focuses on the fundamentals of visual storytelling. Using a combination of digital and traditional techniques students will complete projects in editorial, sequential, instructional, advertisement, surface pattern design and visual development illustration. The primary emphasis for this course will be to learn the illustration process from initial research, ideation and comp sketching to drafts and finishes. Students will learn industry standards as they model the client-illustrator relationship through multiple rounds of review. Time will be spent looking at historic and contemporary examples. Students will collect and analyze illustrations that appeal to them in order to establish their visual taste and direct their personal styles. For Illustration concentration students the class will culminate in a mid-program review where students submit their work in order to qualify to continue in the concentration.
Prerequisite(s): ART 1100, ART 1220, or by permission of instructor

ART 3000 MEDIA ARTS 1 (3 credits)
This course is an introduction and overview to the concentration of Media Arts. The curriculum is designed to provide a basic knowledge of electronic imaging and production techniques for students wishing to continue in digital media or those working with media production artists. Areas introduced will be Digital Image Production, Digital Video Production, and Animation.
Prerequisite(s): ART 1220 or permission of instructor

ART 3100 ADVANCED DRAWING I (3 credits)
Instruction in drawing at an advanced level to develop practical skills and techniques through directed classroom projects.
Prerequisite(s): ART 1100

ART 3110 ADVANCED DRAWING II (3 credits)
Instruction in drawing at an advanced level to develop practical skills and techniques through directed classroom projects. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.)
Prerequisite(s): ART 1100 and ART 3100

ART 3120 MEDIA ARTS 2 (3 credits)
Advanced overview of Intermedia and digital production as well as critical theory for artists. The course includes both fine art and applied uses of Intermedia and digital art through the development of individual and group projects using digital and electronic media means.
Prerequisite(s): Art 3000 or permission of instructor.

ART 3130 GRAPHIC DESIGN 1 (3 credits)
The first course in the Graphic Design sequence, Graphic Design I is an upper division course focusing on the essential elements of Graphic Design as a discipline and practice. Working individually, students learn the tools, terminology, theory, and history of Graphic Design as a professional and artistic practice. Focused attention and time is spent learning conceptualization skills, digital skills, design practice and the relationship between the designer and their social and historical context.
Prerequisite(s): ART 1220, or permission of instructor

ART 3140 COMPUTER GENERATED IMAGERY (3 credits)
The goal of this course is to introduce students to basic principles and aesthetic considerations of computer generated imagery and interactive virtual spaces (such as game mods and second life). The course will focus on the use of computers as a tool to generate three dimensional forms and create spaces and navigable worlds. The course exposes students to a variety of theoretical and aesthetic positions and encourages them to think of CGI and virtual space building as an art making process. Students will produce art works through the acquisition of technical skills and the exploration of creative uses within the medium.
Prerequisite(s): ART 1220 or permission of the instructor
ART 3150  VIDEO ART (3 credits)
An introduction to video art production and critical theory for artists. The course exposes students to a variety of theoretical and aesthetic positions and encourages them to think of video as an art making process rather than mass media product. Students are required to produce a number of video art works. Production rather than consumption is stressed as a pedagogical mode.
Prerequisite(s): ART 3000 or permission of instructor

ART 3160  GAME DESIGN AS ART (3 credits)
This course will encompass theory and practice of game development, game creation as an art process, and an exploration of the work of artists who have created game based work. Areas of study during the course will include game design and mechanics, explorations of theory, narrative and storytelling with game paradigms, social and ethical concerns of gaming and gaming as cultural resistance.
Prerequisite(s): Not open to non-degree graduate students

ART 3170  DIGITAL GAME DESIGN (3 credits)
This course provides an introduction to digital game development. It will explore all aspects of creating 2d games. Students will work on individual and team projects. Students will learn to do concept art, pre-production planning, prototyping and testing, all working towards creating completed games.
Prerequisite(s): Non-degree graduate students not allowed.

ART 3200  THE HAND PRODUCED BOOK I: TYPOGRAPHY AND BOOK DESIGN (3 credits)
This course is an introduction to the typographic principles and fundamental letterpress techniques as applied to printed books. Each student learns hand typesetting and letterpress procedures, then designs and prints a small edition of their selected text. Lab fee required.

ART 3210  COLOR THEORY (3 credits)
Instruction in the study of color through directed classroom assignments.
Prerequisite(s): ART 1110 and ART 1210

ART 3220  HAND PRODUCED BOOK II: LETTERPRESS PRINTING (3 credits)
Continuing work in typography and book design with an emphasis on book illustration, multi-color printing, and the standardization and control of edition work. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.) Lab fee required.
Prerequisite(s): ART 3200

ART 3230  BOOK STRUCTURES: INTRODUCTION TO BOOKBINDING (3 credits)
This course investigates basic approaches to bookbinding, introducing students to the history, tools and techniques of the discipline. In addition to the concertina structure and simple presentation wrappers, students execute a variety of non-adhesive bindings, both Western and Japanese, and learn basic case-binding methods. Lab fee required.

ART 3250  PATTERNED PAPER (3 credits)
This course examines various techniques employed in the creation of decorative patterned papers traditionally used in bookbinding for both cover material and/or end sheets. The emphasis of the course will be on effective pattern design, the mastery of pattern paper production methods, and fine craft standards. Lab fee required.

ART 3300  ELEMENTARY ART METHODS (3 credits)
Study of the theory, methods, curriculum and recent research affecting art education with emphasis on the elementary art program. Student must complete a 50-year practicum which occurs outside of scheduled class time. Lab fee required.
Prerequisite(s): Students must be formally admitted to the College of Education Educator Preparation Program; PK-12 Art Education Majors only. Passing Praxis Core Academic Skills Test Scores; 2.75 NU GPA. Lab Fee Required.

ART 3310  ELEMENTARY SCULPTURE (3 credits)
This course begins the exploration of the 3-dimensional artistic form which can be constructed using a variety of materials including clay, plaster, wood, steel and new media. Lab fee required.
Prerequisite(s): ART 1110

ART 3320  INTERMEDIATE SCULPTURE (3 credits)
Intermediate Sculpture continues and expands upon the elementary level of sculpture and builds upon methods, technologies, problem solving and professional practice. Lab fee required.
Prerequisite(s): ART 3310

ART 3330  ART IN PUBLIC PLACES (3 credits)
The goal of this course is to introduce students to the concepts and practice related to displaying artwork in public places. Following a thorough examination of the history of public art, the course will focus on the various visual languages and iconography appropriate for public venues. The course emphasizes building original artwork using both traditional and digital technologies, displaying work in public spaces, artist responsibilities and related professional practice.
Prerequisite(s): ART 1110

ART 3340  DIGITAL SCULPTURE - DESIGN AND BUILD TECHNOLOGIES (3 credits)
The goal of this course is to introduce students to the methods of designing objects in a digital environment and realizing them as objects in the physical world. Students will learn to create forms using a variety of 3D modeling software and scanning technologies. The course will introduce students to the Autodesk suite of programs, including 3D Studio Max, Maya Inventor, 123D Catch, as well as Zbrush. Once students have achieved a high level of competency on the computer, the class will begin exploring systems for building their creations. Using Make 123D, Pepakura and Makerware students will fabricate objects in plastic, cardboard and wood. Additionally, the class will address both the artistic and functional applications of these methods.
Prerequisite(s): ART 1110

ART 3360  APPLIED ART & DESIGN (3 credits)
This course is designed to present an opportunity for education and other undergraduate students to develop basic skills, knowledge and appreciation of the arts and crafts of our culture and other world cultures. The course content will be individualized for the purposes of adapting methods, values, content, and media for students working with special populations or in special settings. Lab fee required.
Prerequisite(s): Sophomore.

ART 3370  TECHNOLOGY IN ARTS EDUCATION (3 credits)
This course is specifically designed for pre-service art teachers to learn how to integrate media arts, visual and instructional technology, and digital visual culture into arts curriculum appropriate for application to K-12 contexts. Students will critically examine digital arts, digital art media and technology, and digital visual culture environments and address pedagogical and implementation issues as they simultaneously create their own digital art and digital visual culture. Lab fee required.
Prerequisite(s): Prereq: TED 2400 and Praxis Core; K-12 ART/ED majors only. Coreq: ART 3300. Or with permission of the instructor. Junior standing. Lab fee required. Not open to non-degree graduate students.

ART 3410  ELEMENTARY PAINTING (3 credits)
Instruction in oil painting permits each student the time and environment to work and develop individually. Emphasis on developing cohesive body of work in context of experimentation. Knowledge of contemporary painting integral to painting practice. Lab fee required.
Prerequisite(s): ART 1100 and ART 1210

ART 3420  INTERMEDIATE PAINTING (3 credits)
Instruction in oil painting permits each student the time and environment to work and develop individually. Emphasis on developing cohesive body of work in context of experimentation. Knowledge of contemporary painting integral to painting practice. Lab fee required.
Prerequisite(s): ART 3410
ART 3510 ELEMENTARY PRINTMAKING (3 credits)
This is an introductory course to the history and studio practices of printmaking. Lab fee required.
Prerequisite(s): ART 1100 and ART 1210

ART 3520 PHOTOGRAPHIC DIGITAL PRINTMAKING (3 credits)
Introduction to photographic and digital printmaking technologies including pre-press and printing techniques. Lab fee required.
Prerequisite(s): ART 1100 and ART 1210

ART 3530 PAPERMAKING (3 credits)
This course examines the history and techniques of classic papermaking, sheet formation and producing edition sheets. Lab fee required.
Prerequisite(s): ART 1110 and ART 1210

ART 3610 ELEMENTARY CERAMICS (3 credits)
This course is an introduction to the medium of ceramics. The focus of this course will be the use of clay as a sculptural medium with the emphasis on various, basic techniques for creating objects in clay. Lab fee required.
Prerequisite(s): ART 1110

ART 3620 INTERMEDIATE CERAMICS (3 credits)
This course is a continuation of processes covered in the Elementary Ceramics course with basic pottery techniques utilizing the wheel, hand building, object prototyping and advanced mold making. Additional emphasis will be on scale and completion of mid-to large size projects.
Prerequisite(s): ART 3610. Lab fee required.

ART 3700 INTRODUCTION TO ANCIENT ART (3 credits)
This course provides an introduction into the art and cultures of the ancient Mediterranean areas. Lab fee required.
Prerequisite(s): ART 2050 or permission of instructor. Not open to non-degree graduate students.

ART 3710 EGYPTIAN ART (3 credits)
This course will examine ancient Egyptian culture through its art and architecture. Lab fee required.
Prerequisite(s): For Fine Arts majors, completion of Art 2050 & Art 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 3720 GREEK ART (3 credits)
This course will immerse students in the art and culture of ancient Greece. Lab fee required.
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 3730 ETRUSCAN & ROMAN ART (3 credits)
This course provides an in-depth investigation of Etruscan and Roman civilizations. Lab fee required.
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 3750 AMERICAN ART (3 credits)
This course provides a study of art, architecture, and material culture produced in the United States approached through varied contexts (artistic, religious, political, economic, etc.) and methodologies. Lab fee required.
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 3760 RESEARCH, WRITING, AND COMMUNICATION FOR CAREERS IN ART (3 credits)
This class prepares students for advanced level art history courses as well as a career in art history and/or related fields. Basic skills such as critical thinking, analytical reading, traditional and innovative research methods, writing, and public speaking will be emphasized.
Prerequisite(s): ART 2050 and ART 2060

ART 3770 HISTORY OF ARCHITECTURE TO 1850 (3 credits)
A survey of the history, aesthetics and technical developments in architecture from ancient times to the middle of the 19th century. Lab fee required.
Prerequisite(s): None. Recommended: ART 2050 or ART 2060 (prereq or coreq).

ART 3780 HISTORY OF ARCHITECTURE SINCE 1850 (3 credits)
This course is a survey of the history of architecture since the coming of the industrial age, including the major schools and movements in architecture of the 20th century.
Prerequisite(s): None. Recommended: ART 2050 or ART 2060. Lab fee required.

ART 3800 HISTORY OF DESIGN (3 credits)
The history of modern global design movements, primarily 1851 to present. The movements cover a range of media, from graphic arts and industrial design to furnishing and interior design.
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 3830 HISTORY OF PHOTOGRAPHY (3 credits)
This course provides an introduction to the history of photography from its earliest forms to that of contemporary society and culture. Lab fee required.
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 3850 WOMEN IN ANCIENT AND MEDIEVAL ART (3 credits)
The purpose of this course is to provide an introduction of women through the art and culture of the ancient Mediterranean and western Middle Ages.
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 3870 GENDER & SEXUALITY IN MODERN ART (3 credits)
This course provides an introduction to topics of gender and sexuality in modern art, from 1860 to the present.
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 3910 INTERMEDIATE PRINTMAKING (3 credits)
Intermediate Printmaking expands upon basic printmaking concepts and techniques and includes monotype variations, intaglio techniques, Moku Hanga woodcuts and other woodcut processes. Students will be involved with drawing, creating, problem solving and understanding the printmaking studio and its processes.
Prerequisite(s): ART 3510. Not open to non-degree graduate students.

ART 3920 ILLUSTRATION 2: THE STATIC IMAGE (3 credits)
This studio course will explore the static image, including but not limited to magazine illustration, book cover illustration, advertisement illustration, single-panel cartoons and background painting for animation. Students will develop their technical ability in digital painting and drawing and enhance their skill sets in ink and watercolor. Projects will be medium specific so that students can hone their craft as they respond to thematic prompts. Students will develop sketchbook practices for research and ideation. Emphasis will be placed on generating original visual ideas, utilizing visual metaphor and interpreting texts. Students will learn to compose and frame their illustrations and apply gestalt design principles to create readable images.
Prerequisite(s): ART 2920 or permission of instructor
ART 4000 SPECIAL SEMINARS IN ART EDUCATION (1-3 credits)
A series of intensive courses in the history and theory of art education designed specifically for elementary and secondary school art teachers. These courses are scheduled as special seminars or workshops according to purposes. (Cross-listed with ART 8006.)
Prerequisite(s): Junior and Department Permission.

ART 4010 SPECIAL TOPICS IN STUDIO ART (3 credits)
This course concerns itself with a variety of limited topics in the field of Studio Art. At times this course is coordinated with an external event such as a visiting artist, exhibition or study trip. It may also be considered a testing ground for acceptance and interest in a relatively new topic in Studio Arts. Exact content will be determined by the offering instructor.
Prerequisite(s): Prerequisites of each 4010 course will be determined by the instructor and therefore will require special permission.

ART 4020 PROFESSIONAL STUDIO PRACTICES (3 credits)
This is a capstone course for the Studio Arts area that includes book arts, ceramics, drawing, painting, printmaking, sculpture and media (2D, 3D, and Media). During the semester, students will learn the administrative component that is essential for cultivating and maintaining a sustainable studio practice in art. Activities include writing artist statements, an artist curriculum vitae alongside participating in the simulated arts activities of applying for an exhibition and artist grant and understanding the benefits and liabilities of social media.
Prerequisite(s): Students must be of Junior standing. Not open to non-degree graduate students.

ART 4040 BASA SENIOR ART EXHIBITION (0 credits)
The BASA Senior Art Exhibition is the culminating experience of the studio art major. The exhibition is a group exhibition required of all senior majors. Although the exhibition is not a credit bearing course, a passing grade is required to graduate. Student work should demonstrate maturity in thought, execution and presentation. The artwork must come from advanced coursework within their chosen concentration and represent a high level of quality, depth of inquiry, and best critical judgement.
Prerequisite(s): BASA majors, Seniors in their last academic semester, or permission from instructor. Not open to non-degree graduate students.

ART 4120 MEDIA ART III (3 credits)
This is a digital studio course for students interested in exploring interactive digital projects using current or emerging technologies. The course includes both fine art and applied uses of digital art through the development of individual and group projects using digital and electronic media means. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.)
Prerequisite(s): ART 3120 or permission of instructor.

ART 4140 COMPUTER GENERATED IMAGERY II (3 credits)
This course is a continuation of principles and practices introduced in ART 3140. The goal of this course is intended for experienced students to create projects that explore advanced principles and aesthetic considerations of computer generated imagery and interactive 3d virtual spaces.
Prerequisite(s): ART 3140 or permission of the instructor.

ART 4150 GRAPHIC DESIGN 2 (3 credits)
A continuation of the Graphic Design sequence, Graphic Design 2 is an advanced course utilizing the knowledge and skills acquired in Graphic Design 1. In Graphic Design 2 students apply acquired knowledge and skills to solve design problems for more complex systems. Intermediate digital skills are paired with intermediate production and materials problems as students complete product and package design systems. These design systems are then paired with companion web and video components. Additionally, students continue their study of professional practices and presentation skills.
Prerequisite(s): ART 3130, or permission of instructor.

ART 4160 GRAPHIC DESIGN 3 (3 credits)
A continuation of the Graphic Design sequence, Graphic Design 3 is an advanced, professional simulation course utilizing the knowledge and skills acquired in Graphic Design 1 and 2. Working individually and in teams, students create large-scale design systems over multiple communications channels for consumer product or services. The course culminates in a thesis presentation with accompanying brand book.
Prerequisite(s): ART 4150, or permission of instructor.

ART 4170 GRAPHIC DESIGN STUDIO (3 credits)
A continuation of the Graphic Design sequence, Design Studio is an advanced, capstone course utilizing the knowledge and skills acquired in Graphic Design 1, 2, and 3. Working individually and in teams, students design thesis research projects, create professional portfolios, present their work to the public, and work on client projects for on and off-campus organizations.
Prerequisite(s): ART 4160, or permission of instructor.

ART 4180 ADVANCED DIGITAL GAME DESIGN (3 credits)
This course provides an advanced experience to digital game development. It explores all aspects of creating 3d games. Students will work on individual and team projects and will learn concept art, pre-production planning, prototyping and testing while working towards creating completed games using a three dimensional platform.
Prerequisite(s): ART 3170 or permission of the instructor. Not open to non-degree graduate students.

ART 4190 GAME DESIGN STUDIO (3 credits)
This course provides a capstone study in game development. It explores game design, game prototyping, finalization, distribution and promotion. Students will work in teams to conceptualize, pitch, prototype, and present an audience ready game. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.)
Prerequisite(s): ART 3160, ART 3170, or ART 4180 or permission of instructor. Not open to non-degree graduate students.

ART 4210 PRINTED BOOKS (3 credits)
This course covers the invention of movable type through the refinement in printing styles and technology to the present age.
Prerequisite(s): ART 3220 and ART 3230 or permission of instructor.

ART 4220 ILLUSTRATION 3: SEQUENTIAL IMAGES (3 credits)
This studio course focuses on sequential images. From picture books and comics to greeting cards and how-to instructions, students will learn to frame and pace their images to clearly communicate ideas and emotion. Emphasis will be placed on developing original narratives and understanding the rules of framing and pacing to create readable stories. The semester will culminate with a short self-published comic or picture book.
Prerequisite(s): ART 3920 or permission from instructor

ART 4290 ILLUSTRATION STUDIO (3 credits)
This is an advanced capstone course for Illustration students who have already taken Illustration 1, 2, and 3. In this course students will choose one illustration field to focus on. From there they will develop their professional portfolio, complete a book project, create an animation demo reel or develop a pitch package. This course will cover industry best practices, contracts, mainstream and alternative career pathways for illustrators.
Prerequisite(s): ART 2920, ART 3920, and ART 4220 or permission from instructor.

ART 4300 SECONDARY ART METHODS (3 credits)
This course is the study of theory, methods, art curriculum content, and recent research in art education relative to art education in middle and high school settings. Students are required to complete a 50-hour practicum that occurs outside of scheduled class time. Lab fee required
Prerequisite(s): Students must be formally admitted to the College of Education Educator Preparation Program; ART 3300 or Permission; PK-12 Art Education Majors only. Passing Praxis Core Academic Skills Test Scores; 2.75 NU GPA. Lab Fee Required.
ART 4310 ADVANCED SCULPTURE (3 credits)
Advanced work in area of student's choice with facilities for oxyacetylene welding, arc welding and wood working. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.) Lab fee required. (Cross-listed with ART 8316.)
Prerequisite(s): ART 3310

ART 4320 BACHELOR OF FINE ARTS INDEPENDENT STUDY I (3 credits)
This course is an advanced individualized study in studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design. Lab fee required. (Cross-listed with ART 8320.)
Prerequisite(s): Advanced level courses in area of concentration, and permission of instructor.

ART 4330 BACHELOR OF FINE ARTS INDEPENDENT STUDY II (3 credits)
BFA II is the second semester of an advanced individualized study in a studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design. Lab fee required. (Cross-listed with ART 8330.)
Prerequisite(s): Completion of ART 4320 (BFA I) in the area of emphasis.

ART 4340 BACHELOR OF FINE ARTS INDEPENDENT STUDY III (3 credits)
This course is the continuation of BFA II for the advanced individualized study in studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design. This course is only used if, for some reason the student is unable to proceed to BFA Thesis after completing BFA II. Lab fee required. (Cross-listed with ART 8340.)
Prerequisite(s): Completion of ART 4330 and permission of instructor as this course is only used when the student is unable to proceed to the BFA Thesis.

ART 4350 TRENDING TOPICS IN ART EDUCATION (3 credits)
This is a series of intensive courses dealing with the theory and practice of current trends in art education designed specifically for pre-service art teachers. These courses are scheduled as special seminars or workshops according to purpose. Lab fee may be required. (Cross-listed with ART 8350.)
Prerequisite(s): Prerq: TED 2400 and Praxis Core; K-12 ART/ED majors only. Junior standing or to be determined by the instructor based upon the preparation required for an adequate understanding of the material of the course.

ART 4410 ADVANCED PAINTING (3 credits)
Advanced instruction in oil painting permits students the time and environment to work and develop individually. Emphasis on developing cohesive body of work as continuation from work done in Intermediate painting. Knowledge of contemporary painting integral to painting practice. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.) Lab fee required. (Cross-listed with ART 8410.)
Prerequisite(s): ART 3420

ART 4420 BACHELOR OF FINE ARTS THESIS (3 credits)
This course is the culmination of the BFA process with an individually designed study in studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design. A faculty committee and thesis exhibition are required for completion of this course. Lab fee required. (Cross-listed with ART 8420.)
Prerequisite(s): Completion of ART 4320 and ART 4330 and permission of instructor.

ART 4440 INDEPENDENT STUDY IN STUDIO ART (1-3 credits)
This course is an independent study with variable credit for studio art students who have already taken the most advanced level course in their chosen degree program. Lab fee required. (Cross-listed with ART 8440.)
Prerequisite(s): This course requires permission from instructor.

ART 4450 ADVANCED TECHNIQUES IN PRINTMAKING (3 credits)
This course allows students to develop their skills in both lithography and intaglio and the color processes for each printmaking technique. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.) Lab fee required. (Cross-listed with ART 8516.)
Prerequisite(s): ART 3510

ART 4530 ART INTERNSHIP (1-3 credits)
A tutored internship at a local arts institution that will introduce students to following areas of concentration: Curatorial Collections Research, Education Outreach, and Preparation/Installation. Working as an Artist’s Studio Assistant or in the areas of Web page design or graphic design are also appropriate internship projects. Ideally, the internship should provide the student with an opportunity to gain pre-professional experiences and skills. It should also increase his or her awareness of current issues and practices within the field of art.
Prerequisite(s): Reserved for studio art (BASA & BFA), Art Education, or Art History majors; junior standing & min GPA of 3.0. Permission of Faculty Advisor & Intern Sponsor required. Advanced art history, art education, or studio courses may be required.

ART 4610 ADVANCED CERAMICS (3 credits)
This course will consist of advanced work on the potter’s wheel, casting and preparations in glaze composition, as well as loading and firing of a high-fire kiln. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.) Lab fee required. (Cross-listed with ART 8610.)
Prerequisite(s): ART 3510

ART 4730 CLASSICAL ART HISTORY (3 credits)
This course is a study of painting, sculpture, architecture and minor arts of the classical world beginning with Cycladic art and including Minoan, Mycenaean, Greek, Etruscan and Roman art through 300 A.D. Lab fee required. (Cross-listed with ART 8730.)
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 4740 INTRODUCTION TO COLLECTIONS MANAGEMENT (3 credits)
This course focuses on collections management and will offer insights into collections care practices and standards. It requires a team to provide the appropriate range of care necessary to maintaining diverse collections of objects. Lectures and talks will include those presented by top experts in the field. Students will gain invaluable insights and practical knowledge of effective collections management. Course content will include theoretical and practical components to introduce policies and procedures, database systems, fine art insurance and shipping, object handling, conservation and installation standards.
Prerequisite(s): Sophomore standing or permission of the instructor.

ART 4750 LATE ROMAN AND BYZANTINE ART HISTORY (3 credits)
A study of painting, sculpture and architecture of the Eastern Roman Empire from the founding of Constantinople, and of Western Europe from the time of Constantine to the dissolution of the Western Roman Empire. Lab fee required. (Cross-listed with ART 8756.)
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.
ART 4760 TECHNICAL ART HISTORY (3 credits)
Technical art history, which investigates the materials and techniques of artworks and the scientific methods used to study them, is one of the fastest growing areas of art history. Knowledge of the physical properties of an art object, often revealed only through scientific tools, can provide crucial insights into its origins, creative genesis and development, dating, alterations and best approaches to restoring or conserving it. This course will focus primarily on the information yielded by technical studies of Renaissance panel paintings. After reviewing the context and style of Renaissance paintings, the course explores the techniques and materials used in their creation and the scientific methods of examination and their applications. The intersections between the technical examination of art and paintings conversation will also be briefly introduced.
Prerequisite(s): ART 2050 and ART 2060

ART 4770 EARLY MEDIEVAL ART (3 credits)
This course provides a study of painting, sculpture and architecture of Western Medieval Art. Lab fee required.
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 4780 LATE MEDIEVAL ART HISTORY (3 credits)
This course is a study of painting, sculpture and architecture of the European Middle Age periods of Romanesque and Gothic Art. Lab fee required.
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 4810 NORTHERN EUROPEAN RENAISSANCE ART HISTORY (3 credits)
This course is a study of the paintings, sculpture and architecture during the 14th, 15th and 16th centuries in France, the Low Countries, Germany, Spain and England. Lab fee required.
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 4830 ITALIAN RENAISSANCE ART HISTORY (3 credits)
Study of painting, sculpture and architecture in Italy during the 14th, 15th and 16th centuries. Lab fee required. (Cross-listed with ART 8836.)
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 4850 BAROQUE AND ROCOCO ART HISTORY (3 credits)
This course is a study of painting, sculpture and architecture in Europe during the 17th and 18th centuries. Lab fee required. (Cross-listed with ART 8856.)
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 4880 MODERN ART I (ART OF EUROPE AND THE AMERICAS, 1850-1920) (3 credits)
A study of the most significant developments in European art and architecture dating from the early Modern period and examined in varied contexts (artistic, religious, political, economic, etc.). (Cross-listed with ART 8886.)
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 plus junior standing. For non-majors, junior standing and permission of the instructor are required. Lab fee required.

ART 4890 MODERN ART II (ART OF EUROPE AND THE AMERICAS, 1918-1968) (3 credits)
This course explores the major artistic movements and artists active in Europe and the Americas between the end of WWI and the Vietnam Era circa 1968. (Cross-listed with ART 8890.)
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 plus junior standing. For non-majors, junior standing and permission of the instructor are required. Lab fee required.

ART 4900 CONTEMPORARY ART HISTORY SINCE 1968 (3 credits)
This course introduces contemporary visual arts in a global context from 1968 to the present with topics of discussion including art, aesthetics, politics, gender and sexuality, race and economics. (Cross-listed with ART 8906.)
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 plus junior standing. For non-majors, junior standing and permission of the instructor are required. Lab fee required.

ART 4910 INDEPENDENT STUDY IN ART HISTORY (1-3 credits)
This course is an independent research project undertaken directly under the supervision of the sponsoring faculty member, generally involving the writing of a paper.
Lab fee required.
Prerequisite(s): Art History major in upper division and permission of instructor.

ART 4920 ART IN THEORY AND IN PRACTICE SINCE 1900 (3 credits)
This course introduces BFA students to the essential theories and critical positions that have shaped the practice of contemporary art in the West since 1900. It also addresses the purpose and nature of the artist's statement, the studio critique, the exhibition, and professionally written art criticism.
Prerequisite(s): Acceptance in BFA program, ART 2050 & ART 2060, & ART 4890 or ART 4900. Other students will need instructor's permission. Students not meeting the min qualifications or instructor's permission will be dropped. Not open to non-degree graduate students.

ART 4930 SPECIAL TOPICS IN ART HISTORY (3 credits)
These illustrated lecture courses deal with a limited topic in the field of art history. The course may be coordinated with an external event such as an exhibition, publication or study trip. Lab fee required. (Cross-listed with ART 8936)
Prerequisite(s): ART 2050 or ART 2060 or instructor permission.

ART 4940 ART HISTORY METHODS (3 credits)
This is a seminar course surveying major developments in aesthetics and selected problems in the discipline of Art History. Required for art history majors. Lab fee required.
Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), and preferably, one other art history course.

ART 4950 ART CRITICISM (3 credits)
A study of art criticism from antiquity to the present. Students will both engage art critical writing as a creative and analytical tool.
Prerequisite(s): Senior standing in Art History and completion of or concurrent enrollment in ART 3760 or ART 4940) plus the approval of the Art History faculty.

ART 4990 ART HISTORY CAPSTONE (1 credit)
Art History majors will have the choice of either: 1) writing a thesis (20-25 pages) and giving a 20 min. public presentation, 2) taking a comprehensive exam with questions based on their coursework, or 3) completing an internship project and giving a 20 min. public presentation.
Prerequisite(s): Senior standing in Art History and completion of or concurrent enrollment in ART 3760 (Art History Seminar) or ART 4940 (Art History Methods) plus the approval of the Art History faculty.

**Art History, Bachelor of Arts**

Art History studies the artistic traditions of different cultures and time periods, artists and their creative processes, and approaches to analyzing and interpreting art. The curriculum consists of survey and period courses and topical courses such as Technical Art History, Gods, Gladiators, & Gore:
Antiquity on the Big Screen, and LatinX Art. There are two focus areas in the Art History major: The **Academic Art History focus** prepares students for graduate school and has enhanced language and history requirements. For gallery, museum, and arts non-profit career preparation, the **Arts Management focus** includes leadership, fundraising, public relations, and collections management courses.

**Requirements**

In addition to the University General Education requirements, art history majors are required to complete courses listed below. Courses used to fulfill University General Education requirements, if they are applicable, may be used to satisfy art history specific requirements.

**Art History Core**

Six classes must be selected from six different categories listed below for a total of 18 credit hours.

- **Ancient/Classical:**
  - ART 3700 INTRODUCTION TO ANCIENT ART
  - ART 3710 EGYPTIAN ART
  - ART 3720 GREEK ART
  - ART 3730 ETRUSCAN & ROMAN ART
  - ART 3860 WOMEN IN ANCIENT AND MEDIEVAL ART
  - ART 4730 CLASSICAL ART HISTORY

- **Medieval:**
  - ART 3860 WOMEN IN ANCIENT AND MEDIEVAL ART
  - ART 4750 LATE ROMAN AND BYZANTINE ART HISTORY
  - ART 4770 EARLY MEDIEVAL ART
  - ART 4780 LATE MEDIEVAL ART HISTORY

- **Renaissance/Baroque:**
  - ART 4810 NORTHERN EUROPEAN RENAISSANCE ART HISTORY
  - ART 4830 ITALIAN RENAISSANCE ART HISTORY
  - ART 4850 BAROQUE AND ROCOCO ART HISTORY

- **19th Century/American:**
  - ART 3750 AMERICAN ART
  - ART 3830 HISTORY OF PHOTOGRAPHY
  - ART 4880 MODERN ART I (ART OF EUROPE AND THE AMERICAS, 1850-1920)

- **Modern/Contemporary:**
  - ART 3800 HISTORY OF DESIGN
  - ART 3830 HISTORY OF PHOTOGRAPHY

- **Architecture:**
  - ART 3770 HISTORY OF ARCHITECTURE TO 1850
  - ART 3780 HISTORY OF ARCHITECTURE SINCE 1850

- **Non-Western Art:**
  - ART 1040 GLOBAL INDIGENOUS ART
  - ART 2070 ART OF INDIA AND SOUTHEAST ASIA
  - ART 2080 ART OF CHINA AND JAPAN

- **Theory/Criticism:**
  - ART 4920 ART IN THEORY AND IN PRACTICE SINCE 1900
  - ART 4950 ART CRITICISM

**Art History Focus**

Art History majors select one of the two focus areas. Course requirements are specified for each category.

**Option A - Academic Art History**

- **History**
  - Option A students take two history courses for a total of 6 credit hours. Students should consider topics that relate to their art historical interests. Option B students do not have this requirement.

**Foreign Languages**

Language courses determined by Focus Option. Option A takes 4 consecutive courses (16 hours). Option B takes 2 consecutive courses (10 hours). Language options: French, German, and Spanish. Students who have completed four years of one language can waive the requirement.

**Art Electives**

Option A students take nine hours of Art Electives. Option B students take 6 hours. Electives can be taken in any of the following areas: art history, studio art, arts management or Theatre (THEA 3760, THEA 4780, THEA 4790).

**Arts Management Requirements**

Required for Option B students only.

- ART 4740 INTRODUCTION TO COLLECTIONS MANAGEMENT
- PA 3500 NONPROFIT ORGANIZATIONS AND MANAGEMENT
- PA 4500 NONPROFIT FUNDRAISING

**Arts Management Electives**

Required for Option B students only. Students must take two courses from the following.

- ART 4760 TECHNICAL ART HISTORY
- ENTR 3710 ENTREPRENEURIAL FOUNDATIONS
- JMC 3110 PHOTOGRAPHY
- MGMT 1500 INTRODUCTION TO BUSINESS
- MGMT 3490 MANAGING PEOPLE AND ORGANIZATIONS
- MKT 3200 BUSINESS COMMUNICATIONS
- MKT 3310 PRINCIPLES OF MARKETING
- MKT 3370 SOCIAL MEDIA MARKETING
- PA 2000 LEADERSHIP & ADMINISTRATION
PA 4100  MARKETING IN PUBLIC, NON-PROFIT AND AVIATION ORGANIZATIONS
PA 4530  STRATEGIC PLANNING

Total Credits  72-89

Art History Option A--Academic Art History

Freshman  Credits
Fall
- ART 2050  SURVEY OF WESTERN ART HISTORY I  3
- ART 1100  FOUNDATION: DRAWING  3
  or ART 1110  or FOUNDATION: 3D DESIGN
  or ART 1210  or FOUNDATION: 2-D DESIGN
- ENGL 1150  ENGLISH COMPOSITION I  3
- One (1) approved Math & Quantitative Literacy course  3
- MATH 1120  INTRODUCTION TO MATHEMATICAL AND COMPUTATIONAL THINKING
- MATH 1220  COLLEGE ALGEBRA
- CMST 1110  PUBLIC SPEAKING FUNDS  3

Make an initial academic advising appointment on MavTrack in August/September
Suggestion: take one course online if possible

Credits  15

Spring
- ART 2060  SURVEY OF WESTERN ART HISTORY II  3
- ART 1220  FOUNDATION: DIGITAL MEDIA
- ENGL 1160  ENGLISH COMPOSITION II  3
- One (1) approved Social Science Class  3
  Select a class that also counts for the US Diversity Requirement
- Two (2) approved Natural/Physical Science classes—choose one lecture and one lab; some may require separate class enrollment.

Credits  16

Sophomore  Credits
Fall
- ART 1040  GLOBAL INDIGENOUS ART  3
- One (1) approved Foreign Language course  5
  Language options: French, German, or Spanish
- One (1) approved Humanities/Fine Arts class  3
- One (1) approved Social Science class  3
- Meet with advisor to discuss foreign language requirements and options
- Meet with advisor before mid-November to select spring classes

Credits  14

Spring
- ART 3760  RESEARCH, WRITING, AND COMMUNICATION FOR CAREERS IN ART
- One (1) approved course from the Art History Core  3
- One (1) approved Foreign Language course  5
- One (1) approved Social Science class  3
- One (1) History class of choice (HIST 1000-HIST 4999)  3
- Meet with advisor before spring break to select fall classes
- Get acquainted with designated Art History faculty advisor

### Additional Information About this Plan:

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study**

**Art History Options**

Select no more than one course from four of the following categories:

1. **Ancient/Classical:**
ART 3700  INTRODUCTION TO ANCIENT ART
ART 3710  EGYPTIAN ART
ART 3720  GREEK ART
ART 3730  ETRUSCAN & ROMAN ART
ART 3860  WOMEN IN ANCIENT AND MEDIEVAL ART

Medieval:
ART 3860  WOMEN IN ANCIENT AND MEDIEVAL ART
ART 4770  EARLY MEDIEVAL ART
ART 4780  LATE MEDIEVAL ART HISTORY

Renaissance/Baroque:
ART 4810  NORTHERN EUROPEAN RENAISSANCE ART HISTORY
ART 4830  ITALIAN RENAISSANCE ART HISTORY
ART 4850  BAROQUE AND ROCOCO ART HISTORY

19th Century/American:
ART 3750  AMERICAN ART
ART 3830  HISTORY OF PHOTOGRAPHY
ART 4880  MODERN ART I (ART OF EUROPE AND THE AMERICAS, 1850-1920)

Modern/Contemporary:
ART 3800  HISTORY OF DESIGN
ART 3830  HISTORY OF PHOTOGRAPHY
ART 3870  GENDER & SEXUALITY IN MODERN ART
ART 4880  MODERN ART I (ART OF EUROPE AND THE AMERICAS, 1850-1920)
ART 4890  MODERN ART II (ART OF EUROPE AND THE AMERICAS, 1918-1968)
ART 4900  CONTEMPORARY ART HISTORY SINCE 1968

Architecture:
ART 3770  HISTORY OF ARCHITECTURE TO 1850
ART 3780  HISTORY OF ARCHITECTURE SINCE 1850

Non-Western Art:
ART 1040  GLOBAL INDIGENOUS ART
ART 2070  ART OF INDIA AND SOUTHEAST ASIA
ART 2080  ART OF CHINA AND JAPAN

Theory/Criticism:
ART 4920  ART IN THEORY AND IN PRACTICE SINCE 1900
ART 4950  ART CRITICISM

Total Credits 18

Note: ART 4930 for 3 credits may be applied to applicable category.

**Studio Art, Bachelor of Arts**

The Bachelor of Arts in studio art (BASA) requires a minimum of 120 credit hours of course work.

The BASA provides a general liberal arts degree program with specialization in studio art. For the BASA, 63 of the required 120 credit hours are in ART courses.

**Requirements**

In addition to the university General Education requirements, Studio art majors are required to complete courses listed below. Courses used to fulfill university General Education requirements, if they are applicable, may be used to satisfy studio art specific requirements.

**General Electives**

As needed to meet 120 credit hour minimum requirement.

**Concentration in Studio Arts**

There are five studio concentrations available in the studio art BASA degree program: 1) Two Dimensional Arts, 2) Three Dimensional Arts, 3) Graphic Design, 4) Media Arts, and 5) Illustration.

**Code**  **Title**  **Credits**
All BASA degrees will require Core I required studio courses and Art History Core required courses.

**Studio Core I**

Studio Electives
A student with a faculty advisor will select two upper level class. This list is an example of accepted courses but is not to be considered a comprehensive list:

- ART 1820: WATERCOLOR II
- ART 2110: LIFE DRAWING II
- ART 3000: MEDIA ARTS 1
- ART 3100: ADVANCED DRAWING I
- ART 3110: ADVANCED DRAWING II
- ART 3120: MEDIA ARTS 2
- ART 3130: GRAPHIC DESIGN I
- ART 3140: COMPUTER GENERATED IMAGERY
- ART 3170: DIGITAL GAME DESIGN
- ART 3200: THE HAND PRODUCED BOOK I: TYPOGRAPHY AND BOOK DESIGN
- ART 3210: COLOR THEORY
- ART 3220: HAND PRODUCED BOOK II: LETTERPRESS PRINTING
- ART 3230: BOOK STRUCTURES: INTRODUCTION TO BOOKBINDING
- ART 3320: INTERMEDIATE SCULPTURE
- ART 3360: APPLIED ART & DESIGN
- ART 3420: INTERMEDIATE PAINTING
- ART 3520: PHOTOGRAPHIC DIGITAL PRINTMAKING
- ART 3530: PAPERMAKING
- ART 3620: INTERMEDIATE CERAMICS
- ART 4140: COMPUTER GENERATED IMAGERY II
- ART 4150: GRAPHIC DESIGN II
- ART 4180: ADVANCED DIGITAL GAME DESIGN
- ART 4310: ADVANCED SCULPTURE
- ART 4410: ADVANCED PAINTING
- ART 4510: ADVANCED TECHNIQUES IN PRINTMAKING
- ART 4610: ADVANCED CERAMICS

BASA Capstone Course
- ART 4020: PROFESSIONAL STUDIO PRACTICES

College of Education, Health, and Human Sciences Art Education Requirements
- TED 2100: EDUCATIONAL FOUNDATIONS
- TED 2200: HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS
- TED 2300: HUMAN GROWTH AND LEARNING
- SPED 3800: DIFFERENTIATION AND INCLUSIVE PRACTICES
- TED 2400: PLANNING FOR EFFECTIVE TEACHING
- TED 4640: K-12 CLINICAL PRACTICE AND SEMINAR ELEMENTARY/SECONDARY

Total Credits: 93

Students who complete a degree or certificate program from Metropolitan Community College in *Design, Interactivity & Media Arts (DIMA)*, or *Photography, Video/Audio Communications Arts* upon successfully completing the ART 2000 CORE I Portfolio Review, can transfer up to 18 semester hours of their specific MCC concentration coursework to be applied in the Media Arts Concentration area. If transfer hours are accepted for the Media Arts Concentration, additional hours to complete the requirement will be advanced UNO coursework selected in consultation with a UNO CFAM advisor.

Concentration in Two Dimensional Arts

**Freshman**

**Fall**
- ART 1100: FOUNDATION: DRAWING
- ART 1210: FOUNDATION: 2-D DESIGN
- ART 2050: SURVEY OF WESTERN ART HISTORY I
- ENGL 1150: ENGLISH COMPOSITION I
- PSCI 1100: INTRODUCTION TO AMERICAN NATIONAL GOVERNMENT

**Credits**: 15

**Spring**
- ART 1110: FOUNDATION: 3D DESIGN
- ART 1220: FOUNDATION: DIGITAL MEDIA
- ART 2060: SURVEY OF WESTERN ART HISTORY II
- ENGL 1160: ENGLISH COMPOSITION II
- MATH 1120: INTRODUCTION TO MATHEMATICAL AND COMPUTATIONAL THINKING

**Credits**: 15

**Sophomore**

**Fall**
- ART 2000: CORE ONE PORTFOLIO REVIEW
- ART 2100: LIFE DRAWING I
- ART 3510: ELEMENTARY PRINTMAKING
- WRWS 3500: CREATIVE WRITING FOR THE ARTS
- BLST 1000: INTRODUCTION TO BLACK STUDIES
- THEA 1010: THEATRE APPRECIATION

**Credits**: 15

**Spring**
- ART 3410: ELEMENTARY PAINTING
- ART 3610: ELEMENTARY CERAMICS
- ART 3700: INTRODUCTION TO ANCIENT ART
- CMST 1110: PUBLIC SPEAKING FUNDS

WRWS 1500  INTRODUCTION TO CREATIVE WRITING  3

Credits  15

Total Credits  121

Notes:
1  *This course is repeatable

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

1 *This course is repeatable*

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study**

* For a comprehensive list of elective courses please consult your advisor. This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [Placement Exams](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php).

**GPA Requirements:** BASA w/ PK-12 students must have at least a 2.5 GPA at the time of applying for the Pre-Professional Education Core classes (TED 2100 and TED 2200). By the time students formally apply to the College of Education, Health, and Human Sciences (TED 2300 and TED 2400) student GPA must be 2.75.

**Graduation Requirements:** Students must successfully complete the Clinical Practice requirement, either complete the Clinical Practice or not move forward with the PK-12 Art Certification, students may still graduate with a BASA degree.

**Studio Art, Bachelor of Fine Arts**

The Bachelor of Fine Arts (BFA) each requires a minimum of 120 credit hours of course work.

The BFA provides a more extensive, well-rounded, performance-oriented art background which prepares students for a professional life in fine arts and post graduate study. For the BFA, 72 of the required 120 credit hours are ART classes.

To be admitted to the BFA program, a student must have declared intended major program for further guidance. Please consult an advisor in your major program for further guidance.

**University Degree Requirements:**

1. **For Math, English, Foreign Language, a placement exam may be required.** More information on these exams can be found at [Placement Exams](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php).

2. **GPA Requirements:** BASA w/ PK-12 students must have at least a 2.5 GPA at the time of applying for the Pre-Professional Education Core classes (TED 2100 and TED 2200). By the time students formally apply to the College of Education, Health, and Human Sciences (TED 2300 and TED 2400) student GPA must be 2.75.

3. **Graduation Requirements:** Students must successfully complete the Clinical Practice requirement, either complete the Clinical Practice or not move forward with the PK-12 Art Certification, students may still graduate with a BASA degree.

**Requirements**

In addition to the university General Education requirements, Studio art majors are required to complete courses listed below. Courses used to fulfill university General Education requirements, if they are applicable, may be used to satisfy Art & Art History specific requirements.

**General Electives**

As needed to meet 120 credit hour minimum requirement.
To obtain the BFA, students complete requirements for the Bachelor of Arts in studio art (BASA), with a concentration in either Two Dimensional Arts, Three Dimensional Arts, Graphic Design, Illustration or Media Arts.

All BFA degrees will require Core I required studio courses and Art History Core required courses.

### Studio Core I

</tbody>
</table>

**Total Credits**

| Total ART Credit Hours: 75 |

Once a student enters the BFA program, they are carefully monitored to remain focused on their skillset and artwork. If a student fails a BFA semester, they must retake that semester and may not advance to the next BFA level until they have mastered the previous course.

Occasionally a professor may request a student to take an additional semester of BFA (BFA III or ART 4340) before entering their Thesis semester. This additional semester gives the student an opportunity to enhance their growth and development prior to their Thesis semester. This additional semester would add 3 additional hours to the BFA sequence.

Students who completing complete a degree or certificate program from Metropolitan Community College in “Design, Interactivity & Media Arts (DIMIA), or “Photography, Video/Audio Communications Arts upon successfully completing the ART 2000 CORE I Portfolio Review, can transfer up to 18 semester hours of their specific MCC concentration coursework to be applied in the Media Arts Concentration area. If transfer hours are accepted for the Media Arts Concentration, additional hours to complete the requirement will be advanced UNO coursework selected in consultation with a Department faculty advisor.

---

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.  

* For a comprehensive list of elective courses please consult your advisor.  

This plan is not a contract and curriculum is subject to change

### Additional Information About this Plan:  

#### University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the
requirements for your specific program to determine all requirements for
the program. In order to graduate on-time (four years for an undergraduate
degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement
exam may be required. More information on these exams can be found
at https://www.unomaha.edu/enrollment-management/testing-center/
placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of
study**

Students in the BASA w/ PK-12 Certification program must complete the
Praxis Core Academic Skills test by the completion of TED 2400. Prior to
the completion of Clinical Practice students must successfully complete the
Praxis II Art Content Knowledge exam. More information on both exams
can be found at https://www.unomaha.edu/college-of-education/student-
services/academics/required-exams.php

**GPA Requirements:** BASA w/ PK-12 students must have at least a 2.5 GPA
at the time of applying for the Pre-Professional Education Core classes (TED
2100 and TED 2200). By the time students formally apply to the College of
Education, Health, and Human Sciences (TED 2300 and TED 2400) student
GPA must be 2.75.

**Graduation Requirements:** Should students unsuccessfully complete
their Clinical Practice or choose to not move forward with the PK-12 Art
Certification, students may still graduate with a BASA degree.

**Studio Art Minor**

**Requirements**

<table>

</tbody>
</table>

**Upper Level Studio Classes**

Select three (3) of the following list of concentrations at the 3000 and above level:

- Book Arts
- Ceramics
- Drawing
- Graphic Design
- Media Arts
- Illustration
- Painting
- Printmaking
- Sculpture

**Total Credits** 18

**Studio Art with K-12 Certification, Bachelor of Arts**

This option gives students the opportunity to teach K-12 art or the capacity
to pursue graduate level work in an M.A. or M.Ed. program in art education.
The BASA with K-12 certification requires a minimum of 134 credit hours of
which 63 are in ART and 30 are from the College of Education, Health and
Human Sciences.

**Requirements**

- Studio Core I (12 hrs.)
- Studio Core II (18 hrs.)
- Art History Core (9 hrs.)
- Art History Elective (3 hrs.)

The following courses are required:

<table>
<thead>
<tr>
<th>Code</th>

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

* For a comprehensive list of elective courses please consult your advisor.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

Students in the BASA w/ PK-12 Certification program must complete the Praxis Core Academic Skills test by the completion of TED 2400. Prior to the completion of Clinical Practice students must successfully complete the Praxis II Art Content Knowledge exam. More information on both exams can be found at https://www.unomaha.edu/college-of-education/student-services/academics/required-exams.php

**GPA Requirements:** BASA w/ PK-12 students must have at least a 2.5 GPA at the time of applying for the Pre-Professional Education Core classes (TED 2100 and TED 2200). By the time students formally apply to the College of Education, Health, and Human Sciences (TED 2300 and TED 2400) student GPA must be 2.75.

**Graduation Requirements:** Should students unsuccessfully complete their Clinical Practice or choose to not move forward with the PK-12 Art Certification, students may still graduate with a BASA degree.

**Studio Art K12 Certification/Bachelor of Arts in Fine Arts Two or Three Dimensional Dual Degree, BFA**

**Requirements**

Students earning the BASA with K-12 certification can earn the dual degree of BFA with Two Dimensional Arts or Three Dimensional Arts concentration. The dual degree requires a minimum of 150 credit hours of course work. In addition to fulfilling the requirements for the BASA with K-12 certification, the dual degree of BFA with Two Dimensional Arts or Three Dimensional...
Arts concentration requires the student to apply to the BFA program (see the Art and Art History Unit website (http://www.unomaha.edu/college-of-communication-fine-arts-and-media/art-and-art-history/undergraduate-programs/bfa-studio-art.php) or faculty advisor for details). Once accepted into the BFA Program, students must successfully complete the following BFA sequence of courses:

<table>

Total ART Credit Hours: 75

Once a student enters the BFA program, they are carefully monitored to remain focused on their skillset and artwork. If a student fails a BFA semester, they must retake that semester and may not advance to the next BFA level until they have mastered the previous course.

Occasionally a professor may request a student to take an additional semester of BFA (BFA III or ART 4340) before entering their Thesis semester. This additional semester gives the student an opportunity to enhance their growth and development prior to their Thesis semester. This additional semester would add 3 additional hours to the BFA sequence.

**Theatre**

Theatre coursework is designed to provide students well-rounded experiences encompassing the varied components that work together to create the theatre experience. These areas include performance (acting/directing), production design (scenic, costume, lighting, sound), box office, publicity, house management, dramaturgy, stage management, and much more. Above all, we’re committed to each student’s individual development toward artistic and cultural maturity and growth that cultivates global diversity and service to our community. Through in-class and production work, students gain valuable life skills including discipline, collaboration, communication, research, planning, achieving deadlines and problem-solving.

The unit’s mission is to ignite in the student, teacher and community: critical thinking, compassionate feeling, collaborative vision and the capacity to delight.

**Other Information**

The general areas of study in theatre are acting, directing, design, dramatic literature, theatre history and criticism and design/production including stagelcraft, stage lighting, scene design, costume and makeup. Beyond the general theatre core, students are able to pursue a concentration in a specialized area such as acting, musical theatre, design, production, technology, stage management, or theatre scholarship.

Theatre majors are required to participate actively and consistently in productions sponsored by the department. The department stages a minimum of four major productions per academic year. These productions encompass the breadth and vitality of live theatre, from musicals to classics to new plays. A variety of production opportunities are also offered in the Studio theatre space.

**Writing in the Discipline**

Students deepen their knowledge and understanding of Theatre, as well as developing their academic writing abilities by completing one of the approved upper division Theatre History courses, that include THEA 3710 or THEA 4790 or THEA 4790.

**Contact Information**

For more information contact Theatre at 402.554.2406

Website (http://www.unomaha.edu/college-of-communication-fine-arts-and-media/theatre/)

**Degrees Offered**

- Theatre, Bachelor of Arts (p. 513)

**Minors Offered**

- Arts Entrepreneurship Minor (p. 519)
- Theatre Minor (p. 519)
- M (p. 520) Musical Theatre Minor (p. 520)

**THEA 1000 THEATRE PRACTICUM (1 credit)**

Lecture, discussion, and experience in theatre production concepts and techniques. One hour formal meeting each week and an average of two-four hours per week in an assigned technical production area based on your interests and skills. Required of Theatre majors and may be taken by all other students. May be repeated eight times.

**THEA 1010 THEATRE APPRECIATION (3 credits)**

A survey course designed to introduce students to all areas of theatre practice and study. Several major periods of theatre art and practice will be explored and, depending on the instructor, emphasis may include acting, playwriting, design and theatre technology, and/or theatre literature.

**Prerequisite(s):** None. Not recommended for Theatre Majors

**Distribution:** Humanities and Fine Arts General Education course

**THEA 1020 SUMMER MUSICAL THEATRE ACADEMY (0-1 credits)**

Intensive supervised workshops and experiential learning opportunities involving significant contribution(s) to the summer musical theatre academy or other departmentally approved arts organizations and programs.

**Prerequisite(s):** Permission of Instructor

**THEA 1050 FILM HISTORY AND APPRECIATION (3 credits)**

A journey through one of many different possible worlds of film. Students will learn about various dimensions of filmmaking–historical development, cinematography, editing, screenwriting, and so much more. Exposure to critical perspectives on the genre(s) under consideration. Includes regular viewing of excerpts and full-length films. (Cross-listed with JMC 1050).

**Distribution:** Humanities and Fine Arts General Education course

**THEA 1060 HISTORY OF THE BROADWAY MUSICAL (3 credits)**

This course develops knowledge of America’s Broadway musical tradition as an artistic and cultural phenomenon. It explores the evolving art form from its earliest ethnic expressions to the golden age of song, the classic book musical, innovations in form, and ending with the most recent embrace of inclusiveness and the diversity of our American identity.

**Distribution:** Humanities and Fine Arts General Education course

**THEA 1070 SUPER HERO CINEMA (3 credits)**

A senses-shattering survey of the cinema of superheroes! Students will study the history and evolution of the superhero genre on the big (and small) screens, reviewing selected excerpts and full-length films, recorded lectures, and curated readings. Featuring a pulse-pounding parade of profound and provocative motion pictures!
THEA 1200 SINGING TECHNIQUE FOR ACTORS (1 credit)
THEA 1200 Singing Technique for Actors provides instruction in singing technique. It is designed for non-music majors to practice the concepts of vocal health, resonance, breath support, elements of good musicianship and song interpretation. It is focused on Contemporary Commercial Music (CCM)/non-classical styles of singing and uses different criteria than the School of Music to meet more diverse musical backgrounds.

THEA 1300 ACTING I (3 credits)
The basic acting class, for majors and non-majors. Emphasis on freeing oneself as a preparation for basic character and scene work using exercises for relaxation, energy generation, concentration and group interaction. Three relationships basic to the actor are explored: to oneself, to another actor, to the ensemble.

Distribution: Humanities and Fine Arts General Education course

THEA 1500 FOUNDATIONS OF PRODUCTION DESIGN (3 credits)
An introductory course introducing students to the omnipresence and role of design in contemporary society; and to fundamental elements and principles of analysis, conceptualization, and visual interpretation, as they apply to the production design process.

THEA 1600 FOUNDATIONS OF SCENIC PRODUCTION (3 credits)
An introduction to scenic production class designed to develop the skills, knowledge, theories and materials of professional designers and craftsmen, as well as developing a working knowledge of the practices in the business of technical theatre.

THEA 1604 FOUNDATIONS OF SCENIC PRODUCTION LAB (0 credits)
Foundations of Scenic Production Lab covers topics in theatre safety, rigging, lighting and construction, to be taken concurrently with THEA 1600. Instruction and practice in industry standards is also an emphasis of the course.

Prerequisite(s): Enrolled concurrently with THEA 1600, Foundations of Scenic Production

THEA 1650 STAGE COSTUME (3 credits)
An introductory course covering foundational vocabulary, skills, materials, tools, and processes used for costume construction specifically for the theatre.

Prerequisite(s): THEA 1654 to be taken concurrently.

THEA 1654 STAGE COSTUME LAB (0 credits)
Topics in Stage Costume Lab include foundational vocabulary, skills, materials, tools, and processes used for costume construction specifically for the theatre.

Prerequisite(s): THEA 1650 to be taken concurrently.

THEA 1660 STAGE MAKEUP (3 credits)
This course will introduce students to the complexities of stage makeup. Utilizing a hands on approach, the course is specially designed to facilitate active learning while exploring basic makeup procedures and complex prosthetic makeup application.

THEA 1700 SCRIPT ANALYSIS (3 credits)
This course introduces a variety of approaches for analyzing plays and other dramatic works, especially as they are employed by actors, directors, designers, dramaturgs, and other theatre artists. There will be multiple opportunities to apply these methods of analysis through class discussion and written work. Script analysis will be explored with an eye toward theatrical production, recognizing each play script as the blueprint for a potential production. Particular attention will be paid to genre, structure, style, character, theme, language, imagery, and dramatic action. The focus will be on traditional dramatic structure, though some attention/discussion will be given to less traditional/non-linear works.

THEA 2000 THEATRE PRACTICUM II (2 credits)
Lecture, discussion, and experience in theatre production concepts and techniques. One hour formal meeting each week with Instructor, and an average of two-four Lab hours per week (or more) in an assigned technical production area based on your interests and skills. Lab hours will be established with the lab supervisor. Required of Theatre majors and may be taken by all other students. May be repeated for credit.

Prerequisite(s): Four semesters of THEA 1000.

THEA 2020 THEATRE FOR YOUNG AUDIENCES (3 credits)
A course that introduces the theories and practices of using theatre and drama as an educational and social tool, as well as creating theatre for and with youth. Includes opportunities to create and utilize techniques in both performance and the learning environment.

Prerequisite(s): THEA 1010 Theatre Appreciation or THEA 1300 Acting I or THEA 1600 Foundation: Scenic Production

THEA 2300 MOVEMENT FOR THE ACTOR (3 credits)
Discovery and training of the human body as a technical instrument and as one of the key expressive elements of any performance-oriented medium.

Prerequisite(s): THEA 1300 Acting I

THEA 2400 STAGE MANAGEMENT (3 credits)
This fundamental course investigates theater-making from the point of view of a stage manager. Through the exploration of a theatre production process, students learn the artistic and organizational techniques needed to professionally stage-manage traditional and non-traditional productions. Integrated management theory allows each student to identify how their practice can be informed by theory and to begin cultivating their individual stage management style.

Prerequisite(s): Permission of instructor

THEA 2500 DRAWING FOR THE THEATRE (3 credits)
Drawing for the Theatre is a course that introduces students to the visual language of drawing through observation, exercises and most importantly, evaluations and critiques. In addition to traditional drawing techniques, this course will cover color theory and figure drawing. The course develops insights into the mechanisms of visual perception, how the individual components of the drawing relate to the whole and compositional organization. Each student develops observational skills rooted in traditional drawing media while striving to develop critical thinking and research skills.

Prerequisite(s): THEA 1500 or THEA 1510 Foundations of Production Design, THEA 1700 Script Analysis

THEA 2600 COSTUME PATTERNING AND DRAPING (3 credits)
Exploration of the creation of patterns for theatrical costumes. Techniques include flat patterning, draping and development of historical patterns. Specific attention is given to period silhouette and detail and theatrical costume production conventions.

Prerequisite(s): THEA 1650 or THEA 1550 or permission of instructor.

THEA 3000 SPECIAL TOPICS IN THEATRE (3 credits)
This course utilizes a topical approach that explores various aspects of theatre that are outside the set Theatre curriculum. Topics and disciplines will vary from term to term. Course description will be announced in advance. It is repeatable for credit if content differs.
THEA 3010 ADVANCED PROJECTS IN THEATRE: INDEPENDENT STUDY (1-3 credits)
Special projects in theatre supplementing regular courses; individual research projects; combined study and practice.
Prerequisite(s): THEA 1000 Theatre Practicum, THEA 1700 Script Analysis

THEA 3200 MUSICAL THEATRE ENSEMBLE (1 credit)
THEA 3200 Musical Theatre Ensemble is offered during spring semester and uses the study of selected musical theatre repertoire, rehearsal, individual coaching, and group exercise to provide instruction in ensemble singing, solo singing, musicianship, movement and acting. It is designed for students pursuing musical theatre study and develops the skill sets that are needed for musical theatre performance.

THEA 3210 ADVANCED SINGING TECHNIQUE FOR ACTORS (1 credit)
THEA 3210 Advanced Singing Technique for Actors provides instruction in advanced singing technique. It is designed for students to develop and practice the concepts of vocal health, resonance, breath support, elements of good musicianship and song interpretation. It is focused on CCM/non-classical styles of singing and uses different criteria than the School of Music to meet more diverse musical backgrounds. This course advances to higher levels of instruction in singing technique from the perspective of the actor and musical theatre repertoire.
Prerequisite(s): THEA 1200

THEA 3230 AMERICAN MUSICAL THEATRE REPERTOIRE HISTORY (3 credits)
THEA 3230 American Musical Theatre Repertoire History is a lecture-based course that surveys important songwriters and significant shows from present day Broadway back in time to the 1927 Showboat. It is designed to give students from the avid musical theatre enthusiast to those pursuing career paths in musical theatre a foundation in the innovations, history, musical styles, major breakthroughs, and growth of the art form from Showboat and Oklahoma to Hamilton and Hadestown.

THEA 3260 MUSICAL THEATRE AND OPERA WORKSHOP (1 credit)
THEA 3260/MUS 3260 Musical Theatre and Opera Workshop is an ensemble offered during fall semester that integrates singing, movement and acting through rehearsal, private musical coaching and group exercise. It is designed for students in opera and musical theatre and develops the skill sets that are needed for performance. (Cross-listed with MUS 3260).

THEA 3300 ACTING II (3 credits)
Incorporating skills and awareness developed in Acting I, this class moves toward examining various tools for character development by oneself, in large group improvisations and with written scripts. Specific scene work leads to a final scene presented both for the class and for all interested persons.
Prerequisite(s): THEA 1300 Acting I

THEA 3310 VOICE FOR THE ACTOR (3 credits)
This course is a comprehensive exploration of the actor's voice and speech. The student gains a detailed understanding of breath, tension and relaxation, resonance, articulation, textual interpretation, and learns to combine movement and voice, enhancing creativity in vocal expression. The focus is freeing the unique vocal potential of each student, and on training the voice for performance.
Prerequisite(s): THEA 1300 Acting I. Not open to non-degree graduate students.
Distribution: Humanities and Fine Arts General Education course

THEA 3400 DIRECTING I (3 credits)
Directing I examines the development of the role of director in Western Theatre; provides practice in the directing process including script analysis, dramaturgical research, staging visual composition, collaboration with designers and performers; considers alternative approaches to directing and encourages students to begin to develop a personal directing style.
Prerequisite(s): THEA 1300, THEA 1500, THEA 1600, THEA 1700, THEA 3300

THEA 3410 HUMAN DYNAMICS IN THE ARTS (3 credits)
Human Dynamics in Arts is a practical course for students who aspire to become effective leaders, managers and directors of arts-based organizations in, non-profit, education, and business sectors. Students will gain a deeper understanding of how to strengthen organizations by recognizing the complex interplay of individual motivation, personal growth, effective communication, and organizational goals. Students will learn to apply specific communication techniques that will enable them to recognize patterns of behavior that reflect underlying emotional needs critical to motivation and workplace productivity. They will use these techniques to build trust, foster positive working relationships, maximize talents, and develop more effective, productive, and dynamic organizations. Students will also gain an understanding of the importance of developing an entrepreneurial mindset critical to success in a rapidly changing workplace. They will learn to recognize opportunities, identify solutions, and develop clear, effective strategies for moving their arts organizations forward.
Prerequisite(s): CMST 1110 and Junior Standing

THEA 3420 GLOBAL CITIZENSHIP IN THE ARTS (3 credits)
This course is about artistic excellence married to ethical practices and responsible world citizenship. Students will analyze and evaluate how to use art to address community issues and discover a road map that allows for authentic, consistent, and sustainable commitment to the community and its needs.
Prerequisite(s): ENGL 1160 and Junior Standing

THEA 3500 COLLABORATIVE DESIGN STUDIES (3 credits)
Collaborative Design Studies explores the integration and process of theatrical production including scenery, lighting, costume, projection and sound. It chronicles their individual and collective impact on storytelling. While developing the skills of the Scenographer, students will work collaboratively as they foster their individual artistic design talents, and recognize the impact of design on society through storytelling.
Prerequisite(s): THEA 1500/THEA 1510, THEA 1600/THEA 1630, THEA 1700

THEA 3660 STAGE AND TV LIGHTING (3 credits)
Characteristics and control of light and color and their application to the theatre and television; elementary electricity; lens systems; reflectors; lamps; control systems; automation. (Cross-listed with THEA 8665).
Prerequisite(s): THEA 1630 or permission of instructor.

THEA 3700 THEATRE HISTORY AND LITERATURE: 1960-PRESENT (3 credits)
This course offers a brief survey of European and world theatre from the emergence of post-modernism to the present time. It also focuses especially on the theatre for social change, community development, and the community-based theatre movement. It will include a service-learning component with one or more regional social-service or similar agencies.
Prerequisite(s): ENGL 1160, THEA 1700

THEA 3710 THEATRE HISTORY AND LITERATURE: MODERN / 1800-1960 (3 credits)
This course is a survey of both western European and world theatre from the emergence of modernism to 1960, about the time of the emergence of post-modernism.
Prerequisite(s): ENGL 1160, THEA 1700

THEA 3720 THEATRE AND SOCIAL JUSTICE (3 credits)
This service-learning course will combine both research and practice in theatre that involves social change. Students will study the history of such theatre, with special focus on developments in the 20th century. All research will be accompanied by several community-based projects whereby students will create theatre with specific populations (schools, community centers, health centers, senior homes, etc.).
Prerequisite(s): ENGL 1160, THEA 1700

THEA 4000 SUMMER THEATRE WORKSHOP (3 credits)
Intensive supervised workshop experience involving significant overall contribution(s) to the summer theatre program.
THEA 4020 ADVANCED PROJECTS IN THEATRE (1-3 credits)
Completion of a undergraduate project relevant to the student's major area of study under the supervision of an advisor. The project must demonstrate competency in writing and research/creative activity as it pertains to appropriate aspects of theatre.
Prerequisite(s): 9 hours of theatre in the general area to be studied and permission of the instructor.

THEA 4030 INTERNSHIP II (1-6 credits)
This course provides an opportunity for the student to participate in a professional summer theatre company and receive course credit. The course will involve practical application. Areas of study might include artistic direction, direction, dramaturgy, arts management, production management, design and technology, or performance. Assignments are made according to the individual interests and skills of the student as they match available opportunities and needs in the industry.
Prerequisite(s): THEA 1000 Practicum, THEA 2000 Practicum II or Permission of Instructor

THEA 4050 SHAKESPEARE ON FILM: THE ART OF INTERPRETATION (3 credits)
Study how Shakespeare's plays are interpreted for performance. Explore how production shapes our understanding of the text. Understand how the change of medium from page to stage to screen reveals meaning in unique ways. Experience a dynamic way of making the most extraordinary plays your own. Classes will feature readings, lecture, class discussion, and film screenings of different cinematic interpretations of several Shakespeare's plays. Previous study of Shakespeare is helpful but not required.
Prerequisite(s): Junior standing or permission of instructor.
Distribution: Humanities and Fine Arts General Education course

THEA 4310 ADVANCED ACTING: POST REALISM (3 credits)
Advanced work in the technical skills of voice, speech, movement and textual analysis needed for post-realist material.
Prerequisite(s): THEA 1700, THEA 2300, THEA 1300, THEA 3300 or graduate with an undergraduate major or minor in theatre or permission of instructor.

THEA 4320 ADVANCED ACTING: GREEKS TO RESTORATION (3 credits)
The fundamental theories and practices of major styles of acting from ancient Greece to the Restoration, including interpretation of outstanding dramatic literature.
Prerequisite(s): THEA 1700, THEA 2300, THEA 1300, THEA 3300 or graduate with an undergraduate major or minor in theatre or permission of instructor.

THEA 4330 ADVANCED ACTING: ENSEMBLE PLAY PRODUCTION (3 credits)
In-depth exploration of a play or playwright's work to connect acting class with performance. Special emphasis on creating a working process that allows the ensemble to emerge. The class will culminate in public performance.
Prerequisite(s): THEA 1700, THEA 2300, THEA 1300, THEA 3300 or graduate with an undergraduate major or minor in theatre or permission of instructor.

THEA 4340 ADVANCED ACTING: AUDITIONING (3 credits)
An acting class designed to develop auditioning skills and material as well as cultivate a working knowledge of the business of acting.
Prerequisite(s): THEA 2310 or THEA 1300 and THEA 2320 or THEA 3300 and Junior standing. Graduate with an undergraduate major or minor in theatre or permission of the instructor.

THEA 4400 DIRECTING II (3 credits)
A practicum in play selection, analysis, casting, rehearsing and performing.
Prerequisite(s): THEA 1300/THEA 2310, THEA 1500/THEA 1510, THEA 1600/THEA 1630, THEA 1700, THEA 3300/THEA 2320, THEA 3400/THEA 4430

THEA 4430 ADVANCED ACTING: SHAKESPEARE (3 credits)
In-depth exploration of a play or playwright's work to connect acting material as well as cultivate a working knowledge of the business of acting.
Prerequisite(s): THEA 1700, THEA 2300, THEA 1300, THEA 3300 or graduate with an undergraduate major or minor in theatre or permission of instructor.

THEA 4450 CHALLENGES IN PRODUCTION DESIGN (3 credits)
Evaluation and exploration of the world of theatrical storytelling using line, texture, contrast, theme, metaphor and symbolism. Students will work collaboratively as they foster their individual artistic talents, and recognize the impact of design on society through storytelling. (Cross-listed with THEA 8506).
Prerequisite(s): THEA 1500/THEA 1510 and THEA 1700 or permission of instructor.

THEA 4550 PERIOD STYLES IN DRESS AND DECOR (3 credits)
An historical survey course introducing students to the major periods and iconic styles and trends in western architecture, dress and interior decor of the past 2000 years; and to the social, cultural and technological influences on those trends, particularly as they relate to theatrical and production design.
Prerequisite(s): THEA 1700 and THEA 3700/THEA 3770, THEA 3710/THEA 3760, THEA 4710 or THEA 4720 or by permission of instructor.

THEA 4610 SCENE DESIGN (3 credits)
Scene Design is an advanced level course intended for aspiring scene designers or those that want to learn about the specific requirements of the scene design process. The focus of this course will be the study of techniques of communicating a scenic design. Topics of class will include, script analysis, sketching, research, floor plans, wall elevations, sketch models, paint elevations, and presentations models.
Prerequisite(s): THEA 1600 and THEA 1700 and Junior standing.

THEA 4780 THEATRE HISTORY AND LITERATURE: CLASSICAL TO 1500 (3 credits)
This course is a survey of both western European and early Asian theatre and the related theatre literature in ancient Greece and Rome, India, and medieval Europe from the fifth century BCE to the beginning of the European renaissance.
Prerequisite(s): ENGL1160 and Junior standing

THEA 4790 THEATRE HISTORY AND DRAMATIC LITERATURE: 1500 TO 1800 (3 credits)
This course is a survey of primarily western European theatre and the related theatre literature from the Renaissance until the English sentimental comedy.
Prerequisite(s): ENGL 1160 and Junior standing or Permission of the Instructor.

THEA 4900 ADVANCED PROJECTS - CAPSTONE (3 credits)
Demonstration of mastery in a specific area of theatre through an advanced project in acting, musical theatre, directing, design/technical theatre, playwriting, or dramaturgy. This will serve as an end of career course designed to evaluate the student's competency and knowledge of theatre practice.
Prerequisite(s): THEA 1000 Practicum, THEA 2000 Practicum, and permission of the instructor.

Theatre, Bachelor of Arts
The Bachelor of Arts in Theatre degree provides students with a total understanding of theatre-making, learning foundational skills and applying them to production-based positions in the box office and publicity, performance, design, directing, producing, building, and much more. The range of classes that you will take balances traditional academics with rigorous professional training. Tying it all together is our commitment to nurturing each individual student's artistic and cultural maturity. The BA in Theatre offers students a broad-based liberal arts foundation with disciplined professional training.

Students may elect to pursue either a General Major or a concentration in Acting/Directing, Musical Theatre, Stage Management, Design, or Technology. Students pursuing a concentration are required to participate in formal juries each semester to receive faculty feedback and evaluation of their progress in the program.
Learn more about the BA in Theatre, here (p. 514).

**Acting/Directing Concentration**

The Acting/Directing concentration combines two areas and celebrates the intersection of training and skills of successful actors and directors. This enables not only an understanding of the director’s process but also a wide range of acting styles and techniques. The Acting/Directing concentration combines practice with critical theory and performance methodologies to offer students a rich and broad curriculum.

The Acting/Directing concentration requires juries each semester. Students are graded and given feedback to hone their performance and audition skills.

To remain in good standing in the Acting/Directing Concentration, a student must complete all required focused courses with a grade of “C” (2.0) or above and participate in production auditions each semester.

In addition to the Theatre Core classes, the following courses are to be completed:

<table>

</table>

**Total Credits 24**

**Design Concentration**

The Design concentration provides students study and production experience in costume design, scenic design, lighting design, or sound design. Students gain theoretical knowledge and develop their skills in design-based courses, such as Foundations of Production Design, Stage and TV Lighting, Stage Costumes, Drawing for the Theatre, Collaborative Design Studies, Challenges in Design and Capstone. Students also participate in productions as crew as they continue to develop their skills.

The Design concentration requires portfolio juries each semester. Students are evaluated and given feedback to hone their presentations and interview skills.

To remain in good standing in the Design Concentration, a student must complete all required focused courses with a grade of “C” (2.0) or above and participate in the portfolio reviews each semester.

In addition to the Theatre Core classes, the following courses are to be completed:

<table>
<thead>
<tr>
<th>Code</th>

**Total Credits 24**

**Technical Theatre Concentration**

The Technical Theatre concentration provides students study and practical experiences in aspects of technical theatre. Students participate in their areas of interest as artisans and crew members on productions, such as props, lighting, stitching, makeup, technical direction, scenic painting, sound, and shop management. Students will work in leadership positions as they continue to hone their skills.

The Technical Theatre concentration requires portfolio juries each semester. Students are evaluated and given feedback to hone their presentations and interview skills.

To remain in good standing in the Technical Theatre Concentration, a student must complete all required focused courses with a grade of “C” (2.0) or above and participate in portfolio reviews each semester.

In addition to the Theatre Core classes, the following courses are to be completed:

### Stage Management Concentration

The Stage Management concentration is an experiential and practice-oriented program which prepares students for careers in stage management or production management. Students develop the critical skills needed to successfully manage an event, including interpersonal communication, first aid, organization, collaboration, company management and leadership.

The Stage Management concentration requires portfolio juries each semester. Students are evaluated and given feedback to hone their presentations and interview skills.

To remain in good standing in the Stage Management Concentration, a student must complete all required focused courses with a grade of “C” (2.0) or above and participate in portfolio reviews each semester.

In addition to the Theatre Core classes, the following courses are to be completed:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and the curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, and Foreign Languages, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change the suggested plan of study**

**Total Credits:** 120

### Arts Entrepreneurship Minor

The Arts Entrepreneurship minor is an interdisciplinary course of study that helps students in the arts develop the business acumen that supports their future as artists who are adaptable to a range of different employment opportunities. Classes and experiences prepare students for the constantly shifting employment landscape by equipping them with nimble entrepreneurial approaches, mindssets, and skills.

**Writer's Workshop: Creative Writing**

The Writer’s Workshop mission is to offer creative writing students an apprenticeship with professional writers. We prepare students to read closely, think critically, write professionally and find their voices in poetry, fiction, creative nonfiction, and screenwriting. Students will also sharpen their capacity for empathy, opening themselves to diverse cultural points of view.

**Other Information**

**Thesis Option**

Students whose work is above average and who are considering doing graduate work in creative writing may apply after one Advanced Studio to pursue the BFA with Senior Thesis. The result is a book-length manuscript of original work in the student’s area of concentration (e.g. a collection of poems, a collection of short stories, a novel, a collection of essays, or a screenplay), prepared during the last year of study while working one-on-one with a WRWS faculty member. To earn this special designation on their official transcripts, candidates for the degree must take two semesters of WRWS 4990.

**Writing in the Discipline**

WRWS 2050 or WRWS 2060 Fundamentals of Fiction or Fundamentals of Poetry
**Student Groups**

The Crop Literary Club
13th Floor Literary Magazine

**For More Information on Creative Writing**

Contact the Department of Writer’s Workshop at 402.554.2406

Website (https://www.unomaha.edu/college-of-communication-fine-arts-and-media/writers-workshop/)

**Degrees Offered**

- Creative Writing, Bachelor of Fine Arts (p. 523)

**Minors Offered:**

- Creative Writing Minor (p. 525)
- Screenwriting Minor (p. 525)

**WRWS 1010 CONTEMPORARY WRITERS: IN PERSON IN PRINT (3 credits)**

An introduction to reading contemporary literature by studying the ways in which a writer shapes a poem or tale to communicate with an audience. Emphasizes the most contemporary prose and poetry and includes a series of readings and classroom visits by guest writers whose works are the texts for the class.

Prerequisite(s): ENGL1160 or equivalent. Not open to non-degree graduate students.

**WRWS 1500 INTRODUCTION TO CREATIVE WRITING (3 credits)**

An introduction for non-majors in creative writing to the art and craft of writing fiction, poetry, and creative nonfiction. Follows a workshop format based on individual and group critique of students’ writing, discussion of principles and techniques of the craft, and reading and analysis of instructive literary examples.

Prerequisite(s): ENGL1160
Distribution: Humanities and Fine Arts General Education course

**WRWS 2000 SPECIAL STUDIES IN WRITING (3 credits)**

Offers varying subjects in writing and reading for the basic study of special forms, structures and techniques of imaginative literature. Consult the current class schedule for the semester’s subject. May be repeated for credit with change of subject.

Prerequisite(s): ENGL 1160. Not open to non-degree graduate students.

**WRWS 2050 FUNDAMENTALS OF FICTION WRITING (3 credits)**

A study of the ways in which writers confront the technical choices of their craft, this course introduces students to the major elements of fiction in order to increase their critical awareness both as readers and writers and to prepare them for work in succeeding fiction studios.

Prerequisite(s): Prerequisite(s)/Corequisite(s): ENGL1160 or equivalent.

**WRWS 2060 FUNDAMENTALS OF POETRY WRITING (3 credits)**

This beginning writing course in poetry emphasizes the manner in which poets meet and deal with the technical choices confronting them in the making of a poem. Written work introduces students to a number of established forms in order to increase an understanding of the elements of a successful poem.

Prerequisite(s): ENGL1160 or equivalent. Not open to non-degree graduate students.

**WRWS 2100 BASIC FICTION STUDIO (4 credits)**

A basic workshop course in fiction writing, studying the shapes and techniques of composing complete fictions. This is the first of four fiction studies.

Prerequisite(s): WRWS2050

**WRWS 2200 BASIC POETRY STUDIO (4 credits)**

This beginning level studio explores different poetic forms and encourages the development of the writer’s voice.

Prerequisite(s): WRWS 2060

**WRWS 2200 BASIC CREATIVE NONFICTION STUDIO (4 credits)**

A beginning studio in various forms and craft techniques of creative nonfiction. Students study and practice writing such forms as the personal essay, the memoir, the adventure narrative, the essay of issues, etc.

Prerequisite(s): WRWS 2050 or 2060. Not open to non-degree graduate students.

**WRWS 2400 FOUNDATIONS OF SCREENWRITING (3 credits)**

This course introduces the student to the foundational elements of screenwriting. The student will learn and practice the techniques of conveying a story in images and sound, creating characters with human motives and conflicts, editing for economy and thematic significance. Proper script formatting will be taught and expected.

Prerequisite(s): WRWS 2050, or WRWS 2060. Not open to non-degree graduate students.

**WRWS 3000 SELECTED TOPICS IN WRITING (1-3 credits)**

This course presents selected theoretical and practical approaches to crafting one or more the following genres: poetry, fiction, creative nonfiction, screenwriting, young adult literature, the video game narrative, or the graphic novel. Specific topics for the course will vary from semester to semester. Consult current class scheduled for the semester’s topic(s). This course may be repeated for credit as a different course under a new topic.

Prerequisite(s): Vary according to specific topics being offered

**WRWS 3010 LITERARY MAGAZINE (APPLIED) (3 credits)**

This course provides hands-on editorial experience by reading submitted manuscripts, maintaining correspondence with prospective contributors, and shaping the contents of UNO’s literary journal, 13th Floor. May be repeated up to six hours.

Prerequisite(s): Sophomore and/or permission of magazine faculty advisor.

**WRWS 3030 ADVANCED CONTEMPORARY WRITERS (3 credits)**

This advanced course explores contemporary literature by studying the ways in which writers in multiple genres shape their work to communicate with an audience. It emphasizes the most contemporary prose and poetry and includes a series of readings and classroom visits by guest writers whose books are the texts for the class.

Prerequisite(s): ENGL 1160 or equivalent.

**WRWS 3100 INTERMEDIATE FICTION STUDIO (4 credits)**

An intermediate course in fiction writing. Emphasis on developing complete short stories or constructing a novel.

Prerequisite(s): WRWS 2100 or permission of instructor. Not open to non-degree graduate students.

**WRWS 3200 INTERMEDIATE POETRY STUDIO (4 credits)**

An intermediate course in the making of poetry, this class will focus on the study of traditional and contemporary models, as well as crafting original poems.

Prerequisite(s): WRWS 2200. Not open to non-degree graduate students.

**WRWS 3300 INTERMEDIATE CREATIVE NONFICTION STUDIO (4 credits)**

An intermediate-level studio course in forms and craft techniques of creative nonfiction. Students study and practice writing within such forms as the literary essay, the essay of issues, historical nonfiction, the nonfiction novel, etc.

Prerequisite(s): WRWS 2300 or permission of instructor. Not open to non-degree graduate students.
WRWS 3500 CREATIVE WRITING FOR THE ARTS (3 credits)
An introduction to the art and craft of writing fiction, poetry, creative nonfiction, and analyses of works in art, music, and journalism/political rhetoric. Intended for non-majors in creative writing, and tailored to the needs of other arts disciplines, notably those in CFAM, the course will follow a workshop format based on individual and group critique of students’ writing, discussion of principles and techniques of craft and selected literary readings. Students will also experience and analyze other arts forms, which may include exhibits of visual and performance art, journalistic essays and/or political speeches. 
Prerequisite(s): ENGL 1160 or equivalent. 
Distribution: Writing in the Discipline Single Course and Humanities and Fine Arts General Education course.

WRWS 3600 INTERMEDIATE SCREENWRITING STUDIO (4 credits)
This course will build on the foundation established in the Beginning Screenwriting Studio (2600). The student will complete and revise the first draft of a feature-length screenplay. The student will also pitch, note-card, and begin writing a speculation script for television. The class will attend Film Streams once a month to view the current independent offering. There will be lectures and assigned reading. The course will culminate in the student beginning work on a second feature-length screenplay. 
Prerequisite(s): WRWS 2600. Not open to non-degree graduate students.

WRWS 3800 THE WRITER’S VOICE: AUTHORS ON THE PAGE AND AT THE PODIUM (3 credits)
This course will serve as an introduction to the art and craft of fiction, poetry, and creative nonfiction, as well as to analyses of written and publicly performed works of creative writing. This course is open to students who are not creative writing majors, and it is tailored to the needs of other arts disciplines, notably those in CFAM. WRWS 3800 will involve students crafting reflective, analytical, and creative writing based on the texts and video recorded public readings of visiting authors. 
Prerequisite(s): ENGL 1160 or equivalent. 
Distribution: Writing in the Discipline Single Course.

WRWS 3900 INDEPENDENT STUDIES (3-6 credits)
For the writing major who has need of work not currently available in program offerings and who has demonstrated a capacity for working independently. Emphasis on in-depth study in some specific aspect of writing. 
Prerequisite(s): Permission of instructor. Not open to non-degree graduate students.

WRWS 4000 FORM AND THEORY (3 credits)
Advanced study of varying forms, structures, and techniques in creative writing. Specific topics of study may change each semester, and students may repeat the course under a new topic. Consult current class schedule. 
Prerequisite(s): Completion of WRWS 2100 or 2200 or 2300, varies according to specific topics offered.

WRWS 4100 ADVANCED FICTION STUDIO II (4 credits)
An advanced course in fiction in which students write and edit the most fully-developed short stories and/or novel sections of their college career, as well as read, analyze, and discuss assigned texts. Students examine the techniques of fiction writing, use the vocabulary and perspective they have gained so far to discuss their and others’ work. They draw upon aspects of the self, the senses, imagination and memory to produce texts unique to their own voice and experience. (Cross-listed with WRWS 4110, WRWS 8116) 
Prerequisite(s): WRWS 3100 or permission of instructor. Not open to non-degree graduate students.

WRWS 4110 ADVANCED FICTION STUDIO II (4 credits)
An advanced course in fiction in which students write and edit the most fully-developed short stories and/or novel sections of their college career, as well as read, analyze, and discuss assigned texts. Students examine the techniques of fiction writing, use the vocabulary and perspective they have gained so far to discuss their and others’ work. They draw upon aspects of the self, the senses, imagination and memory to produce texts unique to their own voice and experience. (Cross-listed with WRWS 4100, WRWS 8116)
Prerequisite(s): WRWS 3100 or permission of instructor. Not open to non-degree graduate students.

WRWS 4200 ADVANCED POETRY STUDIO I (4 credits)
An advanced course in poetry writing. Emphasis on refining poetic technique. (Cross-listed with WRWS 8206) 
Prerequisite(s): WRWS 3200 or WRWS 4210 or permission of instructor. Not open to non-degree graduate students.

WRWS 4210 ADVANCED POETRY STUDIO II (4 credits)
An advanced course in poetry writing with an emphasis on refining poetic technique and expression. 
Prerequisite(s): WRWS 3200 or WRWS 4200 or permission of instructor. Not open to non-degree graduate students.

WRWS 4300 ADVANCED CREATIVE NONFICTION STUDIO (4 credits)
An advanced studio course in writing creative nonfiction. The course provides a context in which the student continues to practice techniques of literary nonfiction through the process of writing and rewriting. 
Prerequisite(s): WRWS 3300 or permission of instructor. Not open to non-degree graduate students.

WRWS 4310 ADVANCED CREATIVE NONFICTION STUDIO II (4 credits)
An advanced studio course in writing creative nonfiction. The course provides a context in which the student continues to practice techniques of literary nonfiction through the process of writing and rewriting. 
Prerequisite(s): WRWS 3300 or permission of instructor. Not open to non-degree graduate students.

WRWS 4600 ADVANCED SCREENWRITING STUDIO I (4 credits)
This class will focus on the craft of screenwriting: plot, format, substance, style, scene development, film structure (both independent and main stream), three dimensional characters, and precise, professional dialogue. The student will complete a feature-length screenplay over course of the semester. There will be lectures and assigned reading. Once a month the student will view the current independent offering at Film Streams. This class will guide the student in completing a work portfolio, querying agents, applying to internships, and preparing for a career in film and television. (Cross-listed with WRWS 8606) 
Prerequisite(s): WRWS 2600 and WRWS 3600.

WRWS 4610 ADVANCED SCREENWRITING STUDIO II (4 credits)
This class will build on the knowledge gained in Beginning Screenwriting Studio (WRWS 2600) and Intermediate Screenwriting Studio (WRWS 3600). The student will complete a second feature-length screenplay and an original pilot for television. There will be lectures and assigned reading. Once a month the student will view the current independent offering at Film Streams. This class will guide the student in completing a work portfolio, querying agents, applying to internships, and preparing for a career in film and television after graduation. 
Prerequisite(s): WRWS 2600 and WRWS 3600. Not open to non-degree graduate students.

WRWS 4990 SENIOR THESIS (3-6 credits)
An option for the writing majors in their last year of study to enable them to prepare a body of original work in their areas of concentration for judging by a committee of faculty. 
Prerequisite(s): Permission of department chair and thesis advisor. Not open to non-degree graduate students.
Creative Writing, Bachelor of Fine Arts

Requirements
Bachelor of Fine Arts

The Writer’s Workshop offers a major leading to the Bachelor of Fine Arts (BFA) degree, with concentrations in Poetry, Fiction, Creative Nonfiction, and Screenwriting.

¹ Two semesters of WRWS 4000 required for core. Students may enroll a third time in WRWS 4000 for literature credit. Must be different topics each time. Prerequisites for WRWS 4000 Form and Theory: one Studio in appropriate genre.

² Minimum of one academic year of the same college-level foreign language or ASL. High school equivalent of foreign-language fluency is not acceptable for this requirement.

³ Two WRWS Special Topics courses (2000) may be included, for no more than a total of 2 Special Topics courses in all categories.

⁴ Two WRWS Special Topics course (3000) may be included, for no more than a total of 2 Special Topics courses in all categories.

⁵ Literary Magazine (Applied) (3010) may be taken as either upper-division literature course, or as a Form and Theory (4000). WRWS 3010 cannot apply for both a literature course and a Form and Theory.

A Creative Writing Minor

May be obtained by successful completion of 18 credits of course work.

Creative Nonfiction

### Requirements:

**Writing Core**
Select one of the following three course groups:

**Group A:**
- WRWS 2050  FUNDAMENTALS OF FICTION WRITING
- WRWS 2100  BASIC FICTION STUDIO
- WRWS 2600  BASIC SCREENWRITING AND TELEVISION WRITING STUDIO

**Group B:**
- WRWS 2060  FUNDAMENTALS OF POETRY WRITING
- WRWS 2200  BASIC POETRY STUDIO
- WRWS 2600  BASIC SCREENWRITING AND TELEVISION WRITING STUDIO

**Group C:**
- WRWS 2050  FUNDAMENTALS OF FICTION WRITING
- or WRWS 2060  FUNDAMENTALS OF POETRY WRITING
- WRWS 2300  BASIC CREATIVE NONFICTION STUDIO
- WRWS 2600  BASIC SCREENWRITING AND TELEVISION WRITING STUDIO

**Concentration Area**
- WRWS 3600  INTERMEDIATE SCREENWRITING STUDIO
- WRWS 4600  ADVANCED SCREENWRITING STUDIO I
- WRWS 4610  ADVANCED SCREENWRITING STUDIO II

Select three of the following or discuss options with advisor. **NOTE:** some courses have pre-reqs.

- WRWS 3000  SELECTED TOPICS IN WRITING (relevant topics only per advisor)
- ART 3140  COMPUTER GENERATED IMAGERY
- THEA 1300  ACTING I
- THEA 3000  SPECIAL TOPICS IN THEATRE
- THEA 4020  ADVANCED PROJECTS IN THEATRE (relevant topics only per advisor)
- THEA 4050  SHAKESPEARE ON FILM: THE ART OF INTERPRETATION
- JMC 3320  VIDEO STUDIO PRODUCTION
- JMC 4380  FILM THEORY AND CRITICISM
- JMC 4810  DIGITAL LITERACIES FOR TECHNICAL COMMUNICATORS
- JMC 4820  POLITICS AND FILM

Appropriate 3000- or 4000-level course may be selected from other departments, with approval of WRWS advisor.

### Freshman

**Fall**
- COMP I (COMP II if student has AP credit)  3
- Quantitative Literacy  3
- Public Speaking  3
- Humanities and Fine Arts or Social Science (Can also count as a Diversity)  3
- Elective  3

**Credits**: 15

### Sophomore

**Fall**
- Fundamentals of Fiction or Poetry  3
- Humanities and Fine Arts or Social Science  3
- Natural/Physical Science with Laboratory  4
- Lower-Level Literature  3

**Credits**: 13

---

### Junior

**Fall**
- Intermediate Studio  4
- First Extra Basic for Fiction or Poetry majors  3-4
- OR - First or Second CNF or Screenwriting Elective
- Upper-Level Literature  3
- Upper-Level Literature  3

**Credits**: 13-14

---

### Senior

**Fall**
- Advanced Studio II  4
- Third CNF or Screenwriting Elective  3

**Credits**: 13-14
Contemporary Writers 3
Form & Theory 3
Foreign Language or ASL 5

| Credits | 18 |

Spring
Form & Theory 3
Humanities and Fine Arts or Social Science 3
Foreign Language or ASL 5
Upper-Level Literature 3
Elective 1-3

| Credits | 15-17 |

Total Credits 118-122

1 If student enters UNO with AP Comp credit, they can take Comp II in Freshman Fall semester, and Fundamentals of Fiction/Poetry in Freshman Spring semester.
2 "Fundamentals of Fiction or Poetry is, on rare occasion, accepted from another institution.
3 "Fundamentals fulfills the Writing in the Discipline requirement

Most pre-reqs for CNF and Screenwriting Electives overlap with WRWS required courses; however, the pre-reqs for a few CNF/Sreenwriting Electives adds 3-6 hours to the Road Map.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: Students must successfully complete all major courses with a grade of "C" (2.0) or better.

Graduation Requirements: The BFA in Creative Writing requires a minimum of 75 semester hours of major coursework designated by the candidate’s area of emphasis (Fiction, Poetry, Creative Nonfiction or Screenwriting) in consultation with the student’s program advisor. The degree requires 120 total credit hours of coursework.

College of Education, Health, and Human Sciences

Mission/Vision
The College of Education, Health, and Human Science’s philosophy and purpose are grounded in the central principles identified by the faculty for preparing graduates who are dedicated practitioners, reflective scholars, and responsible citizens. The outcomes/goals related to the principles focus on the knowledge, skills, and disposition espoused by the faculty and are built on the fundamental belief that all children can learn. The full text of the conceptual framework may be found here (https://www.unomaha.edu/college-of-education-health-and-human-sciences/)

Please note the information contained in this portion of the catalog is general information for the College of Education, Health, and Human Sciences. For more specific details please consult information specific to your intended department.

General Information
Overview of degree programs
The College of Education, Health, and Human Sciences is comprised of six academic units: the Departments of Counseling; Educational Leadership; Special Education and Communication Disorders; Teacher Education; Biomechanics, and Health and Kinesiology. Through its departments and school, the college seeks to prepare individuals for careers in a variety of fields including teaching, educational administration, counseling, public health, athletic training, exercise science, library science, special education, sign language interpreting, biomechanics, early childhood inclusive education and communication disorders. The college offers programs at the undergraduate and graduate levels. This catalog describes only those programs at the undergraduate level.

The college offers the following undergraduate degrees: Bachelor of Science in Education, Bachelor of Science in Biomechanics, Bachelor of Science in Public Health. Some programs must be completed in conjunction with one (or more) other programs. Educator preparation programs lead to state certification. Additionally, the college offers a number of special course sequences which do not result in a degree but which result in added teaching endorsements.

All students in a degree program in the college must meet the university general education requirements. Additional information on these requirements can be found at the University General Education website (https://www.unomaha.edu/general-education/). Please contact an academic advisor for recommended choices for the major.

Certain majors/programs in the College of Education, Health, and Human Sciences require specifically related content coursework. For further information, and to view the requirements for specific majors/programs, visit the college website (https://www.unomaha.edu/college-of-education/) or contact an academic advisor.

</table>

All preparation programs within the college adhere to the national standards promulgated by their respective professional organizations.

Choice of Catalog Policy
Students maintaining continuous enrollment follow the requirements outlined by the Catalog in effect when they first enroll in the University of Nebraska at Omaha. The Catalog of the term of admission prescribes, at minimum, the General Education curriculum and the set of academic policies that govern progress toward completion of a degree. The Catalog of the term of admission also describes the program requirements of
the student’s major(s), minors, endorsements, and concentrations. Alternatively, a student may choose to follow all of the program and policy requirements outlined by any single Catalog in effect during subsequent terms of continuous enrollment. If a student elects to move to another catalog, the change of catalog must be noted in MovTrack and DegreeWorks by the advisor. Each student is responsible for knowing and abiding by the policies described in the Catalog chosen.

For interruptions in enrollment of more than one semester, individuals will be held to the requirements of the catalog of the year when they re-enter the College.

Admission Requirements
Prospective students may apply for admission to the college by indicating their preference on the University Application for Admission.

Deadlines for UNO undergraduate admission to the College of Education, Health, and Human Sciences are:

- August 1 for fall semester
- December 1 for spring semester
- June 1 for summer sessions

Admission to the College of Education, Health, and Human Sciences does not guarantee admission to a specific program. Certain programs, such as educator preparation, require a separate application and admission process. Specific admission requirements for programs within the College of Education, Health, and Human Sciences are noted in the departments’/school’s section of this catalog or on the college website.

Academic Requirements for the College Degrees

Number of Hours to Graduate
The bachelor’s degrees (BS in Education, BS in Biomechanics, BS in Kinesiology, and BS in Public Health) require a minimum of 120 credit hours; 30 of the last 36 hours must be taken in residence. University General Education requirements apply to all programs. The College of Education, Health, and Human Sciences will accept toward a degree program those courses for which credit by examination is given (up to 30 hours) and recommended by the respective departments within the college of the university. Up to eight credit hours of elective credit may be allowed for military service.

Program specifications and expectations are noted in the departments’/school’s sections of this catalog or on the college website (https://www.unomaha.edu/college-of-education/). Candidates in educator preparation programs must also complete all requirements in the professional education sequence, and the requirements for their teaching certification and endorsements/emphasis area(s). Students in non-educator preparation programs must complete all the requirements of the particular program.

Minimum GPA/Additional Requirements
Students in the College of Education, Health, and Human Sciences must maintain a 2.5 cumulative grade point average. This GPA is calculated based on all courses taken in the University of Nebraska system (UNL, UNO, UNK). The cumulative GPA determines eligibility for professional coursework.

Individual major programs within the College of Education, Health, and Human Sciences can require students to maintain higher GPA standards to remain in good standing. In addition, course prerequisites may require higher GPA to enter upper-level coursework.

College Requirements, BA/BS Requirements
For specific program requirements, see the department/school section of this catalog or the college website.

Transfer Credit Policy
Students may transfer into the college from other institutions by completing the application process and meeting the minimum cumulative grade point average GPA of 2.5 (on a 4.0 scale).

Transfer credit from outside the NU system can be applied to course requirements, but outside credit does not affect the NU system GPA or a student’s good standing in the college. Transfer GPA is only considered before a student has earned 12 or more hours in the NU system. In this time period, students may be permitted into courses or accepted to professional programs based on their transfer cumulative GPA. Once students complete 12 credits or more in the NU system, the NU system GPA will be used to measure quality of work.

Official transcripts must be sent to the UNO Office of Admissions from each previous college or university attended whether credit was earned or not. Hand-carried or student-submitted transcripts are not acceptable. Only 64 credit hours can be transferred from an approved 2-year institution.

Only credits earned at accredited institutions will be accepted by the college. In accordance with University policies, the college will accept, for transfer, grades of “C-” or better for University General Education courses.

Credits earned at an institution which is part of the Nebraska Network of Community Colleges will be accepted by the college provided the grades are the equivalent of a “C-” or better for University General Education courses. Credits from institutions seeking regional accreditation (but not yet accredited) may be accepted after 30 hours of work are satisfactorily completed at UNO. Acceptance of any transfer credits by the college does not ensure application to a particular program or endorsement.

Determination of applicability is the responsibility of the specific department/school. Departments within the college and programs will determine applicability of transfer credits and of grades to meet specific requirements. The University accepts “C-” grades, but programs may have a higher standard of applicability of transfer credits. For specific program requirements, see the department/school section of this catalog or the college website.

Individuals with degrees in education, transferring to the College of Education, Health, and Human Sciences for teacher certification only, must successfully complete all program requirements prior to clinical practice. (The program coursework for any endorsement must total a minimum of 12 hours, six of which are in the major area.)

Special Note: Transfer Admission from Colleges within UNO

Students transferring from another college on the UNO campus to the College of Education, Health, and Human Sciences must meet the minimum cumulative GPA requirement of 2.5.

Unacceptable Credits
Professional education courses will be accepted only from institutions which are accredited for teacher education by the national, state and/
or regional accrediting agency and those classes are good for a 10-year period. Education courses will not be accepted from two-year institutions or other institutions unless the college has a specific articulation agreement with that institution or the course has received departmental approval.

Retroactive Credit Policy >> (p. 30)
Advanced Placement Credits >> (p. 30)
Military Credit >> (p. 30)
IB Credit >> (p. 30)
Placement Exams and Credit by Examinations Policies/Practices >> (http://catalog.unomaha.edu/undergraduate/student-life-support-services/testing-center/)

Residency Requirement
The bachelor’s degrees (BS in Education, BS in Biomechanics, BS in Kinesiology, and BS in Public Health) require a minimum of 120 credit hours; 30 of the last 36 hours must be taken in residence.

Quality of Work
The following quality of work standards apply to all individuals in the college.

• Maintain a cumulative GPA of 2.5 or higher for admission to the College of Education, Health, and Human Sciences. For specific program requirements, see the department/school section of this catalog or the college website.
• Maintain a 2.5 cumulative grade point average to remain in good standing with the College of Education, Health, and Human Sciences. This GPA is calculated based on all courses taken in the University of Nebraska system (UNL, UNO, UNK). The cumulative GPA determines eligibility for professional coursework.
• Individual major programs within the College of Education, Health, and Human Sciences can require students to maintain higher GPA standards to remain in good standing. In addition, course prerequisites may require a higher GPA to enter upper-level coursework. For specific program requirements, see the department/school section of this catalog or the college website.
• Individuals are expected to progress steadily toward the degree. Majors will complete work for the degree according to the requirements of the catalog of the year in which they entered the college. For interruptions in enrollment of more than one semester, individuals will be held to the requirements of the catalog of the year when they re-enter the college.

NOTE: Please see departments'/school’s sections for information on programs, lists of courses, and additional academic performance requirements

General Education courses
Per General Education policy, College of Education, Health, and Human Sciences general education courses meeting Humanities/ Fine Arts, Social Science or Natural Science requirements are exempt from the repeat policy and students do not need to meet the minimum CEHHS 2.5 NU GPA requirement to take courses filling these distribution requirements.

Courses that meet only U.S. or Global Diversity requirements may enforce prerequisites of the program or department.

For undergraduate CEHHS courses that have no listed pre-requisite, any UNO student is eligible to enroll.

A minimum grade of “C-” must be earned in all coursework in the university general education requirements to be applied to a College of Education, Health, and Human Sciences degree.

Good Academic Standing Policy >> (p. 31)
Credit/No Credit (CR/NC) Grades >> (p. 31)
Completion of Incomplete Grade
Under certain circumstances, a student may be eligible for an “I” grade in a course. Please see information in the grades information section of the catalog (p. 31).

Questions about the procedures to follow in the college should be directed to the respective department chair or school director.

Students who do receive a grade of “I” in a course with a department prefix of BMCH, CDIS, COUN, HEKI, KINS, PHHB, SPED, or TED may not enroll in any course for which the “I” course is a prerequisite until the “I” grade has been removed and replaced with a passing grade.

Repeatable Grades/Courses
For a general education course offered by the College of Education, Health, and Human Sciences, any student may repeat this course.

A College of Education, Health, and Human Sciences student in an educator preparation program, non-certification concentration, Library Science, Communication Disorders or Sign Language Interpreting concentration who receives a grade below “C” or a “W” (Withdraw) in any undergraduate course with a department prefix of BMCH, CDIS, COUN, HEKI, KINS, PHHB, SPED, or TED may re-enroll in that course for one additional time for a total of two attempts. For exceptions to this rule, please review program-specific requirements.

A College of Education, Health, and Human Sciences student in Biomechanics, Kinesiology, or Public Health who receives a grade below “C-” or a “W” (Withdraw) in any undergraduate course with a department prefix of BMCH, CDIS, COUN, HEKI, KINS, PHHB, SPED, or TED may re-enroll in that course for one additional time for a total of two attempts. For exceptions to this rule, please review program-specific requirements.

A candidate who is removed from, withdraws from, or receives a grade of “I” in field, internship, clinical, practicum, or clinical practice experience, regardless of reason, must appeal to the Academic Review Committee (ARC) to be allowed to repeat the experience. If the appeal is granted, the candidate must reapply for a placement. A candidate may repeat such experiences only once.

See also “Completion of Incomplete Grade” for additional information.

Overload Appeal Guidelines
Student appeals to take overload hours in any semester must be directed to the Associate Dean of the college. An overload is defined as anything above 18 credit hours in the fall or spring semester. The appeal request may be submitted in writing or via UNO e-mail address. The appeal request must contain the following information.

• Student name.
• Semester for which the overload is requested.
• List of all courses (arranged by course number, title, and number of credit hours) to be taken in that semester.
• Current, cumulative GPA.
• Reasons for requesting the overload.

Please note:
To be eligible for Academic Amnesty, students must:

Eligibility

• Have been out of the Nebraska system for at least one calendar year (12-month period).
• Have substandard coursework ("F" or "D" grades) earned within the University of Nebraska system (UNO, UNL, UNK, UNMC) prior to the year out (substandard grades earned after the year out will not be included in the Academic Amnesty contract).
• Be admitted as a degree-seeking student at the University of Nebraska.

Amnesty Requirements:

• Academic Amnesty will begin with the first course(s) taken upon return to UNO.
• Students may apply for Academic Amnesty at any time after taking the one-year break.
• After returning from the one-year break, demonstrate academic success in new UNO coursework.

Academic success may be demonstrated by one of the following:

• Completing at least 12 semester hours (simultaneous or sequential) with a minimum of 3.0 cumulative GPA,
• Completing at least 24 semester hours (simultaneous or sequential) with a minimum of 2.5 cumulative GPA.
• Students must maintain continuous enrollment (at least six (6) semester hours completed within any 12-month period).
• Students will work with their academic advisor to select the coursework to be amnestied.
• Students must inform an academic advisor when the Academic Amnesty requirements are met.

Notes:

• All amnestied coursework will remain on the student’s academic record (transcript); however, the courses will not be included in calculation of the student’s grade point average. Courses will be annotated “Academic Amnesty Excluded from GPA” on the transcript.
• Once Academic Amnesty is granted, students will not be eligible for honors at graduation. Students are still eligible for Dean’s List and Chancellor’s List honors.
• While demonstrating academic success, no changes are made to the student’s academic record. If a student’s cumulative GPA is still below standard, the students will continue to be reported as “continued on probation.” Should the student revert to substandard academic performance while working on Academic Amnesty, the student can still be suspended. Academic Amnesty is intended to provide relief from the past without providing immunity from future substandard academic performance.
• Students must still meet all university and college requirements to graduate.

Academic Probation and Suspension

Students whose GPA falls below 2.5 on a 4.0 scale will be placed on academic probation with the College of Education, Health, and Human Sciences for one semester. During the probationary semester, students may enroll in a voluntary support program and make efforts to raise the cumulative GPA.

During a probation semester, CEHHS students are allowed to repeat College of Education, Health, and Human Sciences courses in which they did not earn a passing grade (see program requirements for minimum passing grade). Students who want to repeat a course with field or practicum requirements must appeal and/or seek permission in accordance with departmental guidelines to be allowed to repeat the experience.

Students are encouraged to repeat courses in which they earned below the minimum passing grade to return to good standing in the College of Education, Health, and Human Sciences. Per Office of the University Registrar policy, when an undergraduate course is repeated, only the most recent grade will be calculated into the GPA.

Students whose cumulative GPA remains below the 2.5 minimum for the second consecutive semester are ineligible to remain in the College of Education, Health, and Human Sciences and must change their major and college. Such students may re-enter the College of Education, Health, and Human Sciences should they repair their cumulative GPA to the standard required for their program.

Students whose GPAs fall below 2.0 on a 4.0 scale may be subject to suspension based on the Office of the University Registrar’s posted guidelines. (https://www.unomaha.edu/registrar/faculty-and-staff/additional-information/probation-suspension-deans-list.php)
Reinstatement Policy Following Academic Suspension >> (p. 31)

Academic Advising

Working in partnership with academic advisors is key to student success. Programs in the College of Education, Health, and Human Sciences are carefully sequenced. To move through these programs in a timely manner, students must plan carefully and regularly consult their advisors. In addition to program requirements, academic advisors assist students in exploring and defining an academic career, life goals, and pathways for success. Advisors will assist in developing problem-solving and decision-making skills through a collaborative and process-oriented advising approach. Advisors provide information about university requirements; discuss career goals, graduate or professional programs, or licensure requirements; and refer to campus resources that improve students’ academic experiences. Students are expected to meet with their advising partners every semester.

- The Roskens Hall 204 academic advising office serves Elementary, Secondary, Early Childhood Inclusive, Special Education, Library Science, and Communication Disorders majors.
- The Health and Kinesiology advising office is located in 207 in the H&K building and serves pre-Athletic Training, Biomechanics, Kinesiology, and Public Health majors as well as students in exploratory Health & Kinesiology.

Mission of College of Education, Health, and Human Sciences Academic Advising

Our mission is to empower students to explore and achieve their educational goals through intentional partnerships.

Vision of College of Education, Health, and Human Sciences Academic Advising

College of Education, Health, and Human Sciences advisors help students make the most of their education. We support the personal and professional growth of the whole student with the goal of promoting persistence and success.

Values of College of Education, Health, and Human Sciences Academic Advising

As advisors, we value engaged student learning. We believe high expectations and consistent support are key to helping emerging professionals navigate the university curriculum. We work in our college and on our campus to advocate for student success.

Advising Holds >> (p. 24)
Student Holds >> (p. 24)

Senior Check

Senior checks are completed in conjunction with academic advisors. For specific program requirements, see the department/school section of this catalog or the college website.

Application for Degree

All students graduating from UNO must file an “Application for Degree” with the Records and Registration Office and pay the required fee at the beginning of the semester in which they will graduate and not later than the date listed in the university calendar. Failure to file for the degree by this deadline may postpone a student’s graduation date. Applications are available online via MaxLink. After applying for the degree, students should visit the UNO Bookstore as soon as possible to order the cap and gown and graduation announcements. For more information click here (https://www.unomaha.edu/registrar/students/graduation-and-diplomas/graduation-general-information.php).

Biomechanics

The mission of the Division of Biomechanics and Research Development is to serve not only the University of Nebraska at Omaha but the entire University of Nebraska system and the state of Nebraska by (a) educating and developing a dynamic workforce to meet our scientific needs at a national and international level and by (b) enhancing economic growth through development of biotechnology and biomechanical intellectual property produced by students and faculty performing innovative research in the multiple laboratories of the Biomechanics Research Building. The research performed in the Division will provide a new understanding of the dynamic aspects of human and animal biomechanics via multidisciplinary approaches. In particular, we aim to achieve the following specific objectives:

1. Quantitatively characterize and improve our understanding of the complex biomechanical systems in healthy and abnormal states via innovative analyses.
2. Educate and train students, basic scientists, and clinicians, so that they may apply concepts of biomechanics in their careers as educators and researchers.
3. Develop new diagnostic and prognostic tests and related biomechanical technology for a variety of movement and cardiovascular disorders and aging.
4. Provide biomechanically related services to interested parties and University and community partners.
5. Participate in community outreach activities that involve biomechanically related educational opportunities.

Biomechanics is the study of forces that act on the body and the effects they produce. It is an intersection of biology, physiology, anatomy, physics, mathematics, and chemistry. Biomechanics is a rapidly growing discipline that has many applications in robotics, forensics, ergonomics, clinical assessment and rehabilitation of movement disorders, design of prosthetics, sports performance, sports equipment design, safety, etc.

The B.S. in Biomechanics is an excellent choice for students planning to a) pursue graduate education and careers in research, b) work in biomechanically related industry and hospital laboratories, and c) pursue graduate education in professional schools for physical therapy, occupational therapy, medicine and other science-based programs.

The Minor in Biomechanics is ideal for those students who have a major outside of Biomechanics and would benefit from learning the basic principles of Biomechanics.

Other Information

Once students are admitted to the Bachelor of Science in Biomechanics they will be in the College of Education, Health, and Human Sciences and will be required to maintain a cumulative college GPA of 2.5/4.0 scale and grades of “C-” or better in the core courses to remain in good standing in the College of Education, Health, and Human Sciences.

The department highly encourages students to engage in undergraduate research with a faculty mentor. A list of Biomechanics faculty can be found on our website (http://www.unomaha.edu/college-of-education/biomechanics-core-faculty/about-us/directory/). There are also many undergraduate volunteer and student worker opportunities available in the Department.

Fast Track Program

The Department of Biomechanics has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward
the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a BS in Biomechanics desiring to pursue a MS in Biomechanics.
- Students must have completed no less than 60 undergraduate hours
- Students must have a minimum undergraduate GPA of 3.0
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course
- Students will work with their undergraduate advisor to register for the graduate courses
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
  - Admission to Fast Track does NOT guarantee admission to the graduate program.
  - Applicants for this program are highly encouraged to pursue research opportunities in the Department of Biomechanics or comparable programs.
  - The admit term must be after the completion term of the undergraduate degree.

All 8000 level BMCH courses are eligible for students part of the Fast Track program.

Department of Biomechanics

Biomechanics Research Building

402.554.3228

unobiomechanics@unomaha.edu

Website (https://www.unomaha.edu/college-of-education/biomechanics-core-facility/)

Degrees Offered

- Biomechanics, Bachelor of Science (p. 532)

Writing in the Discipline

BMCH 4990 Capstone Design in Biomechanics II

- Biomechanics Minor (p. 534)
- Sports Biomechanics Minor (p. 534)

Biomechanics is the study of the mechanical laws that create human and animal motion. Biomechanics applies principles from engineering, mechanics, physics, and biology to study human and animal movement. Biomechanics majors have the ability to pursue a wide variety of careers. These careers range from being technologically centered to human health centered.

Potential career opportunities/settings:

- Physical and Occupational Therapy
  - Physical Therapist
  - Occupational Therapist
- Prosthetics and Orthotics
  - Prosthetist
- Medical Device Design
  - Research Scientist
- Clinical Research
  - Gait Analysis Biomechanist
- Robotics
  - Field Application Engineer
  - Robotics Technician
- Ergonomics
  - Ergonomist
- Medicine (Orthopedics, Cardiology, Neurology)
  - Orthopedic Surgery
  - Sports Medicine
- Athletic Training
  - Athletic Trainer
- Sports Performance
  - Footwear Material Developer
  - Footwear Research and Development

*Requires graduate study

BMCH 1000 INTRODUCTION TO BIOMECHANICS (3 credits)
This is an introductory course in biomechanics that provides a brief history, an orientation to the profession, and explores the current trends and problems and their implications for the discipline.

Distribution: Social Science General Education course

BMCH 1100 ETHICS OF SCIENTIFIC RESEARCH (3 credits)
This course is a survey of the main ethical issues in scientific research.

Distribution: Humanities and Fine Arts General Education course

BMCH 2200 ANALYTICAL METHODS IN BIOMECHANICS (3 credits)
Through this course, students will learn the fundamentals of programming and problem solving for biomechanics with Matlab and Excel. Students will also learn the attributes and uses of other programming languages.

BMCH 2400 HUMAN PHYSIOLOGY & ANATOMY I (4 credits)
The study of the structure and function of the systems of the body with an emphasis on the skeletal, muscular, cardiovascular and respiratory systems.

Distribution: Natural/Physical Sci General Education lecture&lab

BMCH 2500 HUMAN PHYSIOLOGY AND ANATOMY II (4 credits)
The study of the structure and function of the systems of the body with an emphasis on the nervous system, special senses, digestive system, endocrine system, metabolism and body temperature regulation, lymphatic system, and urinary system.

Prerequisite(s): PE 2400 or BMCH 2400 with a grade of C- or better.

BMCH 3000 BIOMECHANICAL STATICS & DYNAMICS (3 credits)
This course is the study and exploration of the effect of forces on biological systems, mainly the human body, during static and dynamic situations.

Prerequisite(s): PHYS 2110, PHYS 1154

BMCH 4000 BIOMATERIALS (3 credits)
Students will learn the classification, properties, characterization methods, body interactions, applications, and design principles of biomaterials. (Cross-listed with BMCH 8006).

BMCH 4100 BIOINSPIRED ROBOTICS (3 credits)
The goal of the course is to involve students in an interdisciplinary vision of biomechanics, biology, engineering and architecture by learning how humans and other animals function in their environment. These design principles from nature can be translated into novel devices, structures, and robots. (Cross-listed with BMCH 8106).
BMCH 4200 METHODS IN BIOMECHANICS I (3 credits)
In this course students learn about the methods and equipment used in biomechanics as well as the analysis of data collected from those methods. Course experiences include both lecture and lab based learning. (Cross-listed with BMCH 8206).
Prerequisite(s): BMCH 3000, BMCH 2200 with a grade of C- or better or department permission.

BMCH 4210 METHODS IN BIOMECHANICS II (3 credits)
In this course students learn about advanced methods and equipment used in biomechanics, as well as the analysis of data collected from those methods. Course experiences include both lecture and lab based learning. This course builds on the experience gained in BMCH 4200/8206, Methods in Biomechanics I. (Cross-listed with BMCH 8216).
Prerequisite(s): BMCH 4200 with a grade of C- or better or department permission.

BMCH 4630 BIOMECHANICS (3 credits)
A study of the forces that act on a human body and the effects that they produce.
Prerequisite(s): BMCH 2400 [previously PE 2400] or PE 2880 or BIOL 2740 or equivalent, AND PHYS 1110 and PHYS 1154 OR MATH 1950 to be taken concurrently or completed previously with a grade of C- or better.

BMCH 4640 ORTHOPEDIC BIOMECHANICS (3 credits)
Orthopedic Biomechanics focuses on the use of biomechanical principles and scientific methods to address clinical questions that are of particular interest to professionals such as orthopedic surgeons, physical therapists, rehabilitation specialists, and others. (Cross-listed with BMCH 8646).
Prerequisite(s): BMCH 4630 or department permission.

BMCH 4650 NEUROMECHANICS OF HUMAN MOVEMENT (3 credits)
A study of basic principles of neural process as they relate to human voluntary movement. Applications of neural and mechanical principles through observations and assessment of movement, from learning to performance, as well as development. (Cross-listed with NEUR 4650).
Prerequisite(s): BMCH 4000 or PE 2430.

BMCH 4660 CLINICAL IMMERSION FOR RESEARCH AND DESIGN (3 credits)
This course will involve exposure to current clinical practices, identification of unmet clinical needs, and information regarding future career options. In this course, students will be matched with local clinical sites to provide a unique opportunity for innovative and interdisciplinary approaches to problem solving subject to practical constraints. Concepts in clinical rehabilitation, integrated assessments, regulation of medical devices in health care will be covered. This course will review the latest research efforts for rehabilitation in the context of device design and implementation. (Cross-listed with BMCH 8666).
Prerequisite(s): BMCH 4630 or equivalent and Instructor Permission. Not open to non-degree graduate students.

BMCH 4670 INTRODUCTION TO MECHANICS OF BIOMATERIALS (3 credits)
In this course students will learn how to analyze the stresses and strains in different structures under complex loading conditions with extensive examples from biomaterials and materials generally used in the medical device field. (Cross-listed with BMCH 8676).
Prerequisite(s): BMCH 3000 or Department Permission

BMCH 4680 SPORTS BIOMECHANICS (3 credits)
This course is intended to provide students with a foundational knowledge on how to analyze sport movements through biomechanical analytical methods. Students will utilize foundational biomechanical principles and apply them to a variety of sports and associated movements. (Cross-listed with BMCH 8686).
Prerequisite(s): BMCH 4630.

BMCH 4690 CARDIOVASCULAR BIOMECHANICS (3 credits)
This course will introduce students to cardiovascular biomechanics, emphasizing the integration of analytical and experimental methods to better understand the mechanobiology of tissues. (Cross-listed with BMCH 8696).
Prerequisite(s): BMCH 3000, BMCH 4670, or Department Permission

BMCH 4980 CAPSTONE DESIGN IN BIOMECHANICS I (4 credits)
Teams of senior-level students work with sponsors and faculty advisers to develop solutions to real problems in the biomechanics and health-care related fields.
Prerequisite(s): Department Permission.

BMCH 4990 CAPSTONE DESIGN IN BIOMECHANICS II (4 credits)
Teams of senior-level students work with sponsors and faculty advisers to develop solutions to real problems in the biomechanics and health-care related fields. The Capstone Design II course is intended to further develop and validate the concept direction chosen during Capstone Design I by designing the specific details necessary to build and test a proof-of-concept prototype.
Prerequisite(s): BMCH 4980, or department permission.

Biomechanics, Bachelor of Science

Writing in the Discipline in the Major (0 credit hours) This requirement is satisfied by writing required in:

BMCH 4990 CAPSTONE DESIGN IN BIOMECHANICS II

Distribution Requirements

Natural & Physical Sciences (minimum 7 credit hours from at least two different disciplines and with at least one laboratory course)

Humanities and Fine Arts (9 credit hours taken from at least two disciplines/curriculum designations)

Social and Behavioral Sciences (9 credit hours taken from at least two different disciplines/curriculum designations)

Cultural Diversity

Cultural Diversity coursework may satisfy distribution requirements in Humanities/Fine Arts or in Social/Behavioral Sciences:

Global (minimum 3 credit hours)

US (minimum 3 credit hours)

NOTE: 14 hours from the professional core fulfilling the University General Education requirements include: eight hours in natural/physical sciences, three hours in mathematics (MATH 1320 will supersede MATH 1220), and three hours in the social/behaviors sciences (PSYC 1010). The 120 hour degree also assumes that students select coursework in humanities/fine arts area and the social/behavior sciences area that satisfy requirements for U.S. diversity and global diversity.

### Health and Kinesiology

**Our Mission**

The School of Health and Kinesiology (H&K) is committed to excellence and the faculty is dedicated to teaching, scholarly activity, and service. The primary mission of the School of H&K is to prepare students for successful careers or advanced academic studies in kinesiology, public health, and physical education. The faculty shares a common sense of purpose to provide the knowledge, resources, and opportunities that will enable students to possess the skills and dispositions necessary to become dedicated practitioners, reflective scholars, and responsible citizens.

**Accreditation**

The teacher educator programs in Health and Physical Education are accredited by the National Council for Accreditation of Teacher Education (NCATE) and the Nebraska Department of Education.
The Bachelor of Science in Public Health program is accredited by the Council on Education for Public Health (CEPH).

**Contact**
School of Health and Kinesiology  
6323 Maverick Plaza  
Omaha, NE 68182  
402.554.2670  
Website [https://www.unomaha.edu/college-of-education/health-kinesiology/](https://www.unomaha.edu/college-of-education/health-kinesiology/)

**Admissions**
**Public Health Admission Information**  
Students must have a cumulative and major GPA of at least 2.5.

**Kinesiology Admission Information**  
Students must have a cumulative and major GPA of at least 2.5.

**Physical Education and Health Education Educator Preparation**
**Program Admission Information**
The college offers educator preparation programs at the following levels: elementary education, middle level, and secondary education. For a complete listing of the endorsement areas at each level can be found here [https://www.unomaha.edu/college-of-education/student-services/certification/endorsements.php](https://www.unomaha.edu/college-of-education/student-services/certification/endorsements.php).

**Degrees Offered**
- Bachelor of Science in Public Health (p. 544)  
- Bachelor of Science in Kinesiology (p. 546)

**Writing in the Discipline**
Public Health majors fulfill the Writing in the Discipline requirement through the completion of PHHB 4960

Kinesiology majors fulfill the Writing in the Discipline requirement through the completion of KINS 4010, KINS 4940, and BMCH 4630

**Minors Offered**
- Human Performance Minor (p. 548)  
- Public Health Minor (p. 548)  
- Sports Medicine Minor (p. 548)  
- Worksite Wellness Minor (p. 548)

**Endorsements Offered**
- Physical Education (PK-12) and Health Education (p. 591)  
- Physical Education (7-12) and Health Education (7-12) (p. 593)  
- Coaching (7-12) (p. 601)

**Public Health, Bachelor of Science**
A degree in Public Health prepares students to become professionals who promote the health of the general public through education and skills for individuals and communities. Public Health professionals are leaders who engage in advocacy for policies that enhance and ensure healthy populations.

**Potential Career Opportunities/settings and examples:**
- Government agencies  
  - Centers for Disease Control and Prevention (CDC)  
  - Department of Health and Human Services  
  - State, Regional, County, and City Health Departments  
  - Legislative bodies  
- Housing Authority  
- Peace Corps  
- School Systems  
  - Primary – 12 education  
  - Colleges/Universities  
  - Administration  
- Non-profit organizations  
  - American Red Cross  
  - American Cancer Society  
  - Women’s Center for Advancement  
  - Diabetes Educational Center of the Midlands  
  - Planned Parenthood  
  - Multiple Sclerosis Society  
  - Wellness Council of the Midlands  
- Non-Governmental Organizations (Global Health)  
  - World Food Program  
  - CARE International  
  - International Red Cross  
  - Oxfam  
  - Catholic Relief Services  
  - World Vision  
- Foundations  
  - Buffett Foundation  
  - Gates Foundation  
- Hospitals  
- Corporations

**Kinesiology, Bachelor of Science in Education**
The Kinesiology program is designed to prepare students to assume positions as fitness or health promotion directors and exercise consultants.

**Potential Career Opportunities/settings:**
- Biomechanist  
- Community Fitness Specialist  
- Exercise Physiologist  
- Fitness Club Management  
- Hospital Based Fitness & Wellness Specialist  
- Laboratory Technician  
- Personal Trainer  
- Physical Activity Specialist  
- Physical Therapy Aid or Technician  
- Sports Industry/Equipment Exercise Science Specialist  
- Strength & Conditioning Specialist  
- Worksite Fitness/Wellness Specialist

**Physical Education Teaching Preparation**
The Physical Education Teaching program prepares students to become certified physical educators in the state of Nebraska. Students may select an endorsement that includes Physical Education PK-6 and 7-12 dual endorsement or Physical Education 7-12 and Health Education 7-12 dual endorsement. The program includes hands on field experience in both urban and suburban schools beginning with observations and culminating with student teaching the final semester.

**Potential Career Opportunities/settings:**
- Elementary School  
- Middle School  
- High School
KINS 1800 FITNESS FOR LIVING (3 credits)
This course is aimed at exploring the values of physical activity, assessing fitness needs and prescribing appropriate activities. The course will be taught as a lecture lab.

KINS 2100 STATISTICS IN HEALTH AND KINESIOLOGY (3 credits)
This class is designed to present an introduction to statistical evaluation of testing and measurement techniques commonly used in health and kinesiology. Appropriate test selection, administration, and the interpretation of results with fundamental statistical methods will be emphasized.
Prerequisite(s): MATH 1220, or ACT Math sub score of at least 23, or Accuplacer score of at least 4, or Math SAT score of at least 540

KINS 2400 HEALTH ED. & PHYSICAL ED. FOR THE ELEMENTARY SCHOOL TEACHER (3 credits)
This course is designed to aid the classroom teacher in developing and implementing health education and physical education programs in the elementary school curriculum.
Prerequisite(s): TED 2300

HEKI 3090 APPLIED NUTRITION (3 credits)
This foundational nutrition course uses nutritional concepts and scientific inquiry to explore the impact of nutrition on individuals and society as a whole. Students will explore the role of nutrients in food as they relate to human performance and disease. Additionally, they will gain knowledge and skills to evaluate food choices, dietary guidelines, and current diet trends and the implications for both long and short-term health.
Distribution: Natural/Physical Science General Education course

KINS 1010 INTRODUCTION TO SPORTS MEDICINE (1 credit)
The primary purpose of this course is to allow students to explore a variety of professions related to the field of sports medicine and how they work together to ensure safe participation in physical activity. Topics such as basic injury pathology, safe participation in sports, communication, and legal and ethical issues will be reviewed.

KINS 1500 FUNDAMENTALS OF GROUP EXERCISE (1 credit)
This course is designed to provide students with the knowledge and skills to perform fundamental exercises associated with a variety of group exercise formats (e.g. bootcamp, kickboxing, yoga, indoor cycling, step, etc.). Students will also learn proper technique, transitions, progressions/ regressions, modification, and sequencing to create a safe and inclusive class environment.
Prerequisite(s): Kinesiology majors, Pre-AT, Exploratory H&K, or PE Teaching majors

KINS 1600 FUNDAMENTALS OF RESISTANCE TRAINING (1 credit)
This course is designed to provide each student with the knowledge needed to understand how to properly perform basic weight training movements for each muscle group. Students will understand and learn the importance of keeping good body positioning, technique, spotting, breathing and safety procedures with free weights and machine weights as well learning to developing basic weight-training programs and understanding basic training principles.
Prerequisite(s): Kinesiology majors, Pre-AT, Exploratory H&K, or PE Teaching majors. Not open to non-degree graduate students.

KINS 1800 FITNESS FOR LIVING (3 credits)
This course is aimed at exploring the values of physical activity, assessing fitness needs and prescribing appropriate activities. The course will be taught as a lecture lab.

KINS 2130 LIFEGUARDING (3 credits)
This course is designed to prepare candidates in assuming the duties and responsibilities of a lifeguard. The main focus will be accident prevention and around the water. Also stressed will be the recognition of a person in distress and a drowning victim. The development of an emergency plan and the articulation with the emergency rescue service will also be key elements in this course.

KINS 2140 WATER SAFETY INSTRUCTORS COURSE (3 credits)
This is a course in water safety instruction. The purpose of this course is to teach those enrolled how to teach the various swimming skills. This would include teaching beginning swimming through emergency water safety. Candidates who satisfactorily complete the course will be issued a Water Safety Instructor Certificate.
Prerequisite(s): Seventeen years of age and possession of current Advanced Lifesaving or Emergency Water Safety Certificate

KINS 2210 GROUP EXERCISE LEADERSHIP (2 credits)
This course is designed to provide students with competencies in the theory, concepts, and skills related to group exercise instruction and leadership. Students will explore both the dynamics of group participation and instructions across various modalities including; step, hi-low aerobics, cardio kickboxing, water aerobics, dance fitness, sports conditioning, indoor cycling, yoga, Pilates, and barre.
Prerequisite(s): PE 1800 or KINS 1800 with a grade of C- or better, School of H&K majors, Secondary Education majors with endorsements in Health/PE 7-12, and PE PK-6th and 7-12

KINS 2220 THEORY AND PRACTICE OF TEACHING RESISTANCE TRAINING (2 credits)
This course is designed for the college student majoring in Exercise Science, Physical Education and related degrees to develop leadership skills necessary to teach safe and effective resistance training programs.
Prerequisite(s): PE 1800 or KINS 1800 with a grade of C- or better, School of H&K majors, Secondary Education majors with endorsements in Health/PE 7-12, and PE PK-6th and 7-12

KINS 2310 TEACHING GAMES 1 (3 credits)
The purpose of this course is to help preservice physical education teachers facilitate enhanced performance, analysis, and tactical understanding of invasion games and field run/score games (e.g. basketball, soccer, team handball, football, speedball, ultimate Frisbee, hockey, softball, cricket, and modified kickball).
Prerequisite(s): Not open to non-degree graduate students.

KINS 2320 TEACHING GAMES 2 (3 credits)
The purpose of this course is to help preservice physical education teachers facilitate enhanced performance, analysis, and tactical understanding of net/wall games and lifetime activities (e.g. volleyball, badminton, tennis, racquetball, golf, archery, pickleball, table tennis).
Prerequisite(s): Not open to non-degree graduate students.

KINS 2330 OUTDOOR/ADVENTURE ACTIVITIES (3 credits)
The course will address the basic requirements for living comfortably and traveling in wilderness areas. Basic orienteering skills, team building activities, identifying and minimizing risks associated with outdoor pursuits, and environmental safety issues will be included.
Prerequisite(s): SED or ELED major, HED 3030 or PHHB 3030. Not open to non-degree graduate students.

KINS 2430 FOUNDATIONS IN KINESIOLOGY (3 credits)
This is an introductory course in kinesiology that includes an orientation to the profession and a consideration of current trends, problems and issues and their implications for the field of kinesiology. The course also examines the relationship of kinesiology to other cultures, general education, and global perspective.
Distribution: Social Science General Education course
KINS 2700 FUNDAMENTALS OF ATHLETIC TRAINING (3 credits)
An introduction to the field of athletic training as well as injury prevention and basic athletic training skills in wound care, taping/bracing, evaluation, and treatment.
Prerequisite(s): PE 1010 or KINS 1010, BMCH 2400, BMCH 2500 and admission into the Athletic Training Program. Not open to non-degree graduate students.

KINS 2800 MOTOR LEARNING (3 credits)
This course is the study of motor development, and the conditions and factors that influence the normal development and the learning of motor skills. Emphasis is placed upon normal developmental patterns and behaviors and learning principles throughout the life-span as it relates to a diverse American culture.
Prerequisite(s): PE 2430/KINS 2430 with a grade of C- or better, or ATTH majors, or permission of instructor

KINS 3000 SPECIAL PROJECTS (1-3 credits)
Conducted as short course, seminar, workshop or special project.
Prerequisite(s): The prerequisite for the special project will be determined by the instructor.

KINS 3010 SCIENTIFIC PRINCIPLES OF COACHING (3 credits)
Designed for coaches and potential coaches who are not physical education majors. Covers basic information to include kinesiology, physiology of exercise and behavioral aspects of coaching.
Prerequisite(s): For non physical education majors.

KINS 3040 PREVENTION AND CARE OF ATHLETIC INJURIES (3 credits)
This course covers selected topics related to the prevention and care of athletic related injuries. Emphasis will be placed on injury prevention through proper training, conditioning, nutrition and hydration strategies. Basic evaluation and treatment of athletic related injuries and legal aspects will also be covered.
Prerequisite(s): PE3010/KINS 3010, or BMCH 2400 or BIOL 2740, and HED3030/PHHB 3030 or current CPR certification and First Aid certification or departmental permission.

KINS 3060 METHODS OF PRESCHOOL AND PRIMARY SCHOOL PHYSICAL EDUCATION (3 credits)
The study of current methodology in developmentally appropriate preschool and primary school physical education. Candidates will use the assessment, planning, implementation and evaluation model in developing physical education programs for this age group.
Prerequisite(s): KINS 2800, EDUC 2510 or EDUC 2520 or TED 2400, 2.75 NU GPA and must have passed Praxis Core (Math, Reading, and Writing)

KINS 3110 INTRODUCTION TO DANCE (3 credits)
This course provides an introduction to dance as a performing art focusing on the choreographer, the dancer, the audience, the different dance genres and dance as a means of communication and expression.

KINS 3120 DANCE SOMATICS: AN INTEGRATED APPROACH TO UNDERSTANDING THE BODY IN MOTION (3 credits)
This course explores the body in motion through the lenses of various dance and movement theories, as well as self-reflection. Students will learn to move in an embodied way and understand the physiological, developmental, and psychological foundation of movement for dance.
Prerequisite(s): Not open to non-degree graduate students.

KINS 3130 CHOREOGRAPHY 1: INTRODUCTION TO CHOREOGRAPHIC TOOLS, ARTISTIC AESTHETICS, & PERFORMANCE ELEMENTS (3 credits)
This course explores the act of choreography as a medium for artist expression through improvisation, choreographic constructs, and content themes. Students will learn how to build ideas into choreographic dances through experimentation, structured frameworks, and feedback. Students will also present their work in a small performance at the conclusion of the semester.
Prerequisite(s): Not open to non-degree graduate students.

KINS 3140 SPORTS OFFICIATING (3 credits)
The general principles, basic guidelines, philosophy, mechanics and rules of officiating several team and individual sports will be covered.

KINS 3300 TEACHING DANCE IN THE SCHOOLS (3 credits)
The course is designed for physical education pedagogy majors, elementary teachers, and recreation leaders who are interested in obtaining the fundamentals of a variety of rhythmic and creative dance activities and their teaching methods for preschool through twelfth grade.
Prerequisite(s): EDUC 2010 or TED 2300 or TED 2380 or permission of instructor

KINS 3350 TEACHING & CURRICULUM DEVELOPMENT IN ELEMENTARY PHYSICAL EDUCATION (3 credits)
The study of teaching methodology and curriculum development in the elementary schools. Particular attention will be given to meeting the motor needs and interests of children aged 9-12. Assessing children’s motor performance, prescribing activities, and evaluating the program effectiveness will be addressed.
Prerequisite(s): KINS 3060, KINS 3300, KINS 2310, TED 2400, 2.75 NU GPA

KINS 3480 ORGANIZATION AND ADMINISTRATION OF ATHLETICS (3 credits)
A study of the organization and administration of athletics in the secondary schools.
Prerequisite(s): Sophomore

KINS 3710 SWIMMING COACHING THEORY AND PRACTICE (3 credits)
This course is designed to develop the competencies essential to the successful coaching of swimming at all levels. The focus is on theory, swimming techniques, rules, safety, and coaching methods of competitive swimming.

KINS 3720 SOCCER COACHING THEORY & PRACTICE (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of soccer. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection, and modern coaching theories specific to the sport of soccer.

KINS 3730 SOFTBALL COACHING THEORY AND PRACTICE (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of fast pitch softball. The course will encompass the philosophy of coaching, coaching techniques, conditions/training activities and the analysis and correction of skills.

KINS 3740 VOLLEYBALL COACHING THEORY AND PRACTICE (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of volleyball. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories.

KINS 3750 WRESTLING COACHING THEORY AND PRACTICE (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of wrestling. The focus is on conditioning/training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories specific to the sport of wrestling.

KINS 3760 BASEBALL COACHING THEORY AND PRACTICE (3 credits)
A course of study designed to develop knowledge in all phases of the game. Special focus is on fundamentals, drills, managing and psychology of coaching.

KINS 3770 FOOTBALL COACHING THEORY AND PRACTICE (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of football on all levels. The focus is on theory, history and origin, conditioning, safety techniques, coaching techniques, strategy, equipment selection and modern coaching theories.
KINS 3780 TRACK AND FIELD COACHING THEORY AND PRACTICE (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of track and field. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories specific to the sport of track and field.

KINS 3790 BASKETBALL COACHING THEORY AND PRACTICE (3 credits)
A course of study designed to develop the competencies essential to the successful coaching of basketball. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories specific to the sport of basketball.

KINS 3800 HOCKEY COACHING THEORY (3 credits)
An introductory course in the developing the desirable attributes of hockey players, rules of the game, fundamental skills and systems of ice hockey as well as the study of key principles in successful players. Basic offensive and defensive strategies will be discussed. Also discussed will be the evolution of the sport and its equipment.

KINS 3900 MOTIVATION FOR PHYSICAL ACTIVITY (3 credits)
The central purpose of this course is to examine the psychological basis of exercise and physical activity. The majority of the course will focus on traditional theories principles of psychology as they relate to exercise. Emphasis is placed on understanding the motives underlying involvement in exercise and physical activity and the psychological benefits derived from acute and chronic involvement in an exercise program. Throughout the course, consideration will be given to theoretical models, research findings, and practical application of the concepts to a variety of performance settings.

Prerequisite(s): PSYC 1010 with a grade of C- or better.

KINS 4000 TEACHING & CURRICULUM DEVELOPMENT IN SECONDARY PHYSICAL EDUCATION (3 credits)
This course is designed to develop candidates' competencies in physical education instructional methodology and curriculum development. Analysis of teacher behavior and selection of content and materials will be examined. Candidates will be introduced to and will implement various methods of teaching physical education at the secondary level so as to develop the skills to become an effective teacher.

Prerequisite(s): KINS 2310, KINS 2320, KINS 2330, KINS 3300, TED 2400, 2.75 NU GPA, and must have passed Praxis Core (Math, Reading, and Writing)

KINS 4010 LABORATORY METHODS IN EXERCISE SCIENCE (6 credits)
This course will provide students an opportunity to achieve competency in operating various pieces of equipment typically used in biomechanics and exercise physiology laboratories. The students will gain experience in interpreting the results of the tests administered, and writing exercise prescriptions based upon those results. Students must have current CPR certification.

Prerequisite(s): BMCH 2500 or BIOL 2840, BMCH 4630, PE 4940 or KINS 4940, CPR certification, department consent; must be School of H&K major or ATHT major. Students cannot complete KINS 4010 and KINS 4800 in the same term.

KINS 4050 EXERCISE AND SPORT NUTRITION (3 credits)
This course presents an overview of the principles of nutrition and the relationship between nutrition and health, fitness, and sports performance. It is designed to provide students with the knowledge and skills necessary to assess nutritional status, improve overall health, and enhance sports performance. (Cross-listed with KINS 8056).

Prerequisite(s): HEKI 3090

KINS 4070 OPTIMIZING SPORTS PERFORMANCE (3 credits)
The course is designed for coaches, athletes and physically active people, and allied health professionals. Course content emphasizes integration of several disciplines in sports medicine aimed at preparing one for optimal sports performance. Topics include peaking, detraining, overuse injury, efficiency, special foods and nutritional requirements, genetics and trainability, and designing of multi-year training schedules. (Cross-listed with KINS 8076).

Prerequisite(s): PE 4940/KINS 4940 with a grade of C- or better.

KINS 4080 CLINICAL EXERCISE PHYSIOLOGY (3 credits)
This course will offer students the knowledge, skills, and abilities to take the American College of Sports Medicine's health fitness instructor certification exam. This course will emphasize health risk assessment, exercise testing, and exercise prescription for healthy and clinical populations. (Cross-listed with KINS 8086).

Prerequisite(s): PE 4940/KINS 4940 with a grade of C- or better.

KINS 4100 APPLIED KINESIOLOGY (3 credits)
This course will introduce students to the use of basic theories and principles of movement analysis from a kinesiological perspective. Students will apply anatomical knowledge to break down movement from a broad spectrum of activities.

Prerequisite(s): BMCH 2400 or PE 2880 or BIOL 2740 or equivalent and sophomore standing

Distribution: Writing in the Discipline

KINS 4150 ADAPTED PHYSICAL ACTIVITY THEORY AND PRACTICE (3 credits)
A study of problems as they relate to philosophy, procedures and practices, and organization and administration of physical education & physical activity programs for exceptional students. This course surveys societal issues surrounding adaptive sports and recreation along with movement problems associated with specific disabilities. This course also provides the student with an opportunity to work with an individual who has a disability.

Prerequisite(s): PE 2800 or KINS 2800 with a grade of C- or better and Jr Standing and PYED major or TED 2300 and TED 2380 and Special Education or Secondary Education major with endorsement codes: 0802S or 0802C or 19135

Distribution: U.S. Diversity General Education course

KINS 4200 PLANNING WORKSITE WELLNESS PROGRAMS (3 credits)
This course will focus on the planning of quality worksite wellness programs utilizing standards established by the Association for Worksite Health Promotion. Steps in the planning process such as needs assessment, strategic planning, implementation, and evaluation will be taught with special application to the worksite. Critical issues involving worksite programs also will be addressed such as upper management support, program standards, corporate culture, competencies for worksite health promotion professionals, economic benefits, behavioral theories, legal issues, and the integration of worksite wellness programs and health care. (Cross-listed with KINS 8206).

Prerequisite(s): Junior standing.

KINS 4310 LOWER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the low back, hip, and lower extremities. (Cross-listed with KINS 8316).

Prerequisite(s): PE 2700 or KINS 2700 and PE 4710 or KINS 4710. Not open to non-degree graduate students.
KINS 4320 UPPER EXTREMITY EVALUATION (3 credits)
This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the head, neck, thorax, and upper extremities. (Cross-listed with KINS 8326).
Prerequisite(s): PE 4310/KINS 4310, PE 4330/KINS 4330, and PE 4720/KINS 4720. Not open to non-degree graduate students.

KINS 4330 ATHLETIC THERAPEUTIC MODALITIES (3 credits)
This course will cover the theory, physiology and application of physical agents used in the treatment of injuries and illnesses. Students will gain practical experience utilizing selected agents to treat injuries and illnesses. (Cross-listed with KINS 8336).
Prerequisite(s): PE 2700 or KINS 2700 and PE 4710 or KINS 4710. Not open to non-degree graduate students.

KINS 4350 ORGANIZATION AND ADMINISTRATION OF ATHLETIC TRAINING (3 credits)
Administration of athletic training programs including the use of records and forms, budgets, facility design and legal concerns. (Cross-listed with KINS 8356).
Prerequisite(s): PE 4340/KINS 4340, PE 4320/KINS 4320

KINS 4360 ORTHOPEDIC AND MEDICAL ASPECTS OF ATHLETIC TRAINING (3 credits)
This course will enhance the candidate's knowledge of orthopedic and medical aspects of athletic training. Involves directed observation, experiential learning, literature review and hands-on experience under the supervision of local medical professionals in various settings. The student will be exposed to advanced evaluation and treatment skills, including imaging techniques and surgical procedures, rehabilitation and athletic training management.
Prerequisite(s): PE 4320/KINS 4320 and PE 4340/KINS 4340

KINS 4500 BEHAVIORAL ASPECTS OF COACHING (3 credits)
This course is designed to provide the physical education teacher and athletic coach with an overview of the behavioral aspects of coaching athletes. The course will provide information which will enable the coach to enhance as well as orchestrate performance of elementary, junior high, senior high, college, and post-college athletes. (Cross-listed with KINS 8506).

KINS 4700 FITNESS MANAGEMENT (3 credits)
This course is an introduction to management concepts for fitness professionals such as human resource management, financial management, marketing, and facility risk management. Assessment, development, prescription, implementation, and evaluation strategies will be presented for each management concept. Students will develop the knowledge and skills necessary to orchestrate and manage high quality programs in various fitness settings.

KINS 4710 CLINICAL PRACTICUM IN ATHLETIC TRAINING I (1 credit)
Clinical Practicum in Athletic Training I is the first course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Students will demonstrate skills and proficiencies in emergency procedures and the basic therapeutic modalities.
Prerequisite(s): Formal admission to the Athletic Training Program, instructor permission, & continued compliance w/published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 2700/KINS 2700. Not open to non-degree graduate students.

KINS 4720 CLINICAL PRACTICUM IN ATHLETIC TRAINING II (1 credit)
Clinical Practicum in Athletic Training II is the second course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Students will demonstrate advanced proficiencies in emergency procedures and initial proficiencies in lower extremity evaluation and application of therapeutic modalities.
Prerequisite(s): Formal admission to Athletic Training Program, PE 4710/KINS 4710, instructor permission, compliance w/published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 4310/KINS 4310 & PE 4330/KINS 4330

KINS 4730 CLINICAL PRACTICUM IN ATHLETIC TRAINING III (1 credit)
Clinical Practicum in Athletic Training III is the third course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Emphasis on mastery of skills and proficiencies in lower extremity care and initial proficiency in upper extremity evaluation and care.
Prerequisite(s): Formal admission to Athletic Training Program, PE 4720/KINS 4720, instructor permission, compliance w/published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 4320/KINS 4320 & PE 4340/KINS 4340. Not open to non-degree graduate students.

KINS 4740 CLINICAL PRACTICUM IN ATHLETIC TRAINING IV (1 credit)
Clinical Practicum in Athletic Training IV is the fourth course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Emphasis on mastery of skills and proficiencies in medical exam techniques, pharmacology and interviewing.
Prerequisite(s): Formal admission to Athletic Training Program, PE 4730/KINS 4730, instructor permission, & compliance with published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 4360/KINS 4360. Not open to non-degree graduate students.

KINS 4750 CLINICAL PRACTICUM IN ATHLETIC TRAINING V (1 credit)
Clinical Practicum in Athletic Training V is the fifth course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Emphasis on mastery of skills in medical examination techniques and administrative tasks.
Prerequisite(s): Formal admission to the Athletic Training Program, PE 4740/KINS 4740, instructor permission, & compliance w/published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 4350/KINS 4350. Not open to non-degree graduate students.

KINS 4800 KINESIOLOGY PRACTICUM (3 credits)
This practicum places the candidate in the role of an exercise leader in a Fitness for Living class. During this experience the candidate will participate in a seminar which will meet three days a week. Responsibilities in the role of an exercise leader will include: direct contact with students enrolled in this class during all lectures and activities and exercise leadership and supervision, fitness testing, and class presentations. During the seminar the candidates will participate in discussions, group activities, and share experiences relative to their exercise leadership roles. Candidates must have current CPR certification.
Prerequisite(s): PE 2210/KINS 2210, PE 2220/KINS 2220, BMCH 2500 or BIOL 2840, BMCH 4630 or KINS 4100, PE 4940/KINS 4940, CPR certification and department consent. Students cannot complete KINS 4010 and KINS 4800 in the same term.
KINS 4850 CARDIOVASCULAR DISEASE PREVENTION AND REHABILITATION (3 credits)
The purpose of this course is to provide candidates with an introduction to the theories and practices involved in all phases of cardiac rehabilitation. (Cross-listed with KINS 8856).
Prerequisite(s): PE 2500/KINS 2500 with a grade of C- or better or BIOL 2840 with a grade of C- or better, PE 4940/KINS 4940 with a grade of C- or better

KINS 4910 INTERNERSHIP IN KINESIOLOGY (6 credits)
This course is a supervised, educational work experience of at least 300 clock hours over at least a ten week period at an approved worksite offering programs and experiences in all areas of kinesiology and health promotion.
Prerequisite(s): PE 4800 or KINS 4800; 2.5 GPA, CPR Certification, and department consent

KINS 4930 MEASUREMENT AND EVALUATION IN KINESIOLOGY (3 credits)
This course is designed to present the theory and application of measurement and evaluation techniques commonly used in physical education, exercise science, physical activity, and health promotion. Appropriate test selection, administration, and the interpretation of results with fundamental statistical methods will be emphasized. Students will participate in selected practical testing and measurement procedures.
Prerequisite(s): PE 4940 or KINS 4940 with a grade of C- or better

KINS 4940 PHYSIOLOGY OF EXERCISE (3 credits)
A study of the major physiological systems of the human body and its acute and chronic responses to exercise. Includes application of physiological concepts to physical training and conditioning.
Prerequisite(s): BMCH 2400 or BIOL 2740 with a grade of C- or better and sophomore standing. School of H&K majors or Human Performance minors only, or with department approval.
Distribution: Writing in the Discipline Sequenced Course

KINS 4960 TOPICS IN SPORTS MEDICINE (3 credits)
This course covers selected topics regarding the science and medicine of sports participation. Some areas to be covered include the medical supervision of the athlete, special populations, conditioning, environmental concerns and sports nutrition.
Prerequisite(s): PE 4340/KINS 4340, PE 4350/KINS 4350, and PE 4730/KINS 4370; or instructor permission

KINS 4970 PROBLEMS OF PHYSICAL EDUCATION (1-3 credits)
This course is designed to provide an opportunity for individuals or groups to study problems in physical education.
Prerequisite(s): Permission of instructor

KINS 4980 COACHING PRACTICUM (1 credit)
This course is designed to give the candidate practical experiences in the coaching of specific sports.
Prerequisite(s): Junior standing and related coaching methods course. Permission of instructor

KINS 4990 INTERNSHIP IN ATHLETIC TRAINING (6 credits)
This course is a supervised, educational work experience of at least 300 clock hours over a minimum of a 10-week period at an approved athletic training worksite.
Prerequisite(s): 90 hours completed, 2.5 GPA and department consent

PEA 111A RACQUETBALL (1 credit)
This course is designed to develop the fundamental skills and knowledge of the sport of racquetball.

PEA 111B TENNIS (1 credit)
This course is designed to develop the fundamental skills and knowledge of the game of tennis. Included will be the fundamental skills and strategies of playing the game.

PEA 111C GOLF (1 credit)
This course is designed to develop the fundamental skills and knowledge of the game of golf.

PEA 111D JUDO (1 credit)
A basic judo course designed primarily for men and women students with limited experience in judo. The course includes techniques of falling, self-balance, body management, disturbing opponent's balance, throwing techniques, techniques of pins, recognition of choking and armlocks, and judo principles for self-defense and individual sport techniques.

PEA 111E SELF-DEFENSE (1 credit)
This is a self-defense course designed primarily for men and women students with little experience in self defense.

PEA 111F TAEKWONDO (1 credit)
Originally designed as a means of self-defense. Taekwondo is also excellent for physical conditioning, increasing agility, and building self-confidence. The purpose of the course is to introduce the student to the basic techniques and philosophies of Taekwondo.

PEA 111G BASIC HAPKIDO (1 credit)
In addition to the kicks and strikes normally associated with Oriental martial arts, Hapkido adds throws, take-downs, and restraint and submission holds. Hapkido is also excellent for physical conditioning, increasing agility, and building self-confidence. The purpose of the course is to introduce the student to the basic techniques and philosophies of Hapkido.

PEA 111H WEIGHT TRAINING/BODY CONDITIONING (1 credit)
The course is designed to develop the skills and knowledge necessary to begin and participate in a program of weight lifting as a lifelong activity.

PEA 111I ADVANCED WEIGHT TRAINING (1 credit)
The course is designed to enhance weightlifting and conditioning skills to an advanced level from skills already possessed by the student.

PEA 111J KICKBOXING (1 credit)
The course is a combination of boxing and kicking techniques and total body conditioning. It will focus on low, moderate, and/or high impact movements. The course will concentrate on safe and effective exercises that will develop the aerobic endurance and strength of the student. Students will utilize hand-wraps, gloves, focus mitts, and kicking shields during the course.

PEA 111K MULTICULTURAL DANCE (1 credit)
This course is designed to provide students with an introduction to dances from Europe, Asia, Africa, and North and South America.

PEA 111L MODERN DANCE (1 credit)
This course for men and women students is designed to develop technique in modern dance and acquire a brief knowledge, understanding, appreciation of modern dance, its history, and composition.

PEA 111M BALLET (1 credit)
The course introduces the student to basic ballet technique and fosters an appreciation for ballet as an art form.

PEA 111N JAZZ I (1 credit)
The course is designed to introduce the student to various fundamental techniques in jazz dance and to incorporate these techniques into dance sequences.

PEA 111O RELAXATION TECHNIQUES (1 credit)
This course involves discussion about stress and its health related aspects. The focus is on demonstration and practice of selected stress management skills.

PEA 111P YOGA I (1 credit)
This course actively covers the scope of hatha yoga through both demonstration and participation as well as historical review of yoga.
PEA 111V BEGINNING/INTERMEDIATE SWIMMING (1 credit)
This course in Beginning and Intermediate Swimming is designed to expose the student to the basic skills involved in safe and efficient aquatics practices. Skills and information dealing with general water safety will be covered in order to create an awareness of the cause and prevention of water accidents, to develop a desire to be safe and to encourage healthy and safe water recreation.

PEA 111W SCUBA (1 credit)
SCUBA is an exciting, lifetime recreational activity that you can enjoy anywhere in the world and opens the doors to future tracks such as Marine Biology, Engineering, Physical Sciences and more. This course teaches the basics of open water diving including equipment preparation, pre-dive safety checks, assembly and maintenance, underwater dive safety including ascents, buoyancy, emergency preparation and much more. Included in the course fee are the digital materials, logbook, purchase of snorkel gear and use of the pool and other necessary gear. During the nine sessions at Diventures you will complete the classroom, pool work and open water training to provide you a lifetime Open Water Diver certification from Scuba Schools International (SSI). Classroom and Pool are to be held at Diventures. The training dives are to be held the following weekend, weather dependent.
Prerequisite(s): A Medical Statement & Questionnaire (before the course) and Water Fitness Evaluation (Swim Assessment and Survival Float - during the course) must be completed.

PEA 111X BASKETBALL (1 credit)
This course is designed to develop the fundamental skills and knowledge of the game of basketball.

PEA 111Z BACKPACKING & CAMPING (1 credit)
This course is designed to introduce the student to backpacking and orienteering in order to provide the students with an appreciation for the outdoor environment.

PEA 112A SWIM CONDITIONING (1 credit)
This course in Swim Conditioning is designed to expose the participants to the benefits and variety of swimming as a lifetime fitness exercise.
Prerequisite(s): Participants should have the ability to continuously swim 25 yards.

PEA 112C POWER YOGA (1 credit)
This course provides an exercise program based on traditional yoga poses (asanas) in a continuous series of exercises. The course will concentrate on safe, effective, exercise that will develop the cardiovascular fitness, muscular strength, endurance and flexibility of the student.

PEA 112D PILATES MATWORK (1 credit)
This course is based on a method of exercise develop by Joseph H. Pilates. The course will concentrate on safe, effective exercise that will develop the cardiorespiratory fitness, muscular strength, endurance and flexibility of the student.

PEA 112E JAZZ II (1 credit)
The course is designed to build upon the techniques learned in Jazz Dance I. 
Prerequisite(s): PEA 111R or permission of instructor

PEA 112F ROCK CLIMBING (1 credit)
This course focuses on the basic knowledge and skills necessary for the sport of rock climbing. Topics covered will include protecting the climber from falling, movement on the rock, rappelling, and an introduction to anchor setting and ethics. Each topic will emphasize risk management and current accepted technique in the field.

PEA 112G BALLET II (1 credit)
The course builds on the work introduced in Ballet I. While still basic, there is increased complexity as the student begins to demonstrate greater ability.
Prerequisite(s): PEA 111Q or permission of instructor

PEA 112H BALLROOM DANCE I (1 credit)
This course is designed to introduce the student to various fundamental techniques in Ballroom social dance and to incorporate these into basic Ballroom, Latin, and Swing dances.

PEA 112I TAI CHI FOR MOVEMENT IMPROVEMENT (1 credit)
This course is designed to teach students various forms of Tai Chi. There will be emphasis on balance, coordination, flexibility, relaxation, and strength. It is designed for all levels of ability.

PEA 112J MODERN DANCE 2 (1 credit)
The course is designed to further the student's study of modern dance techniques.
Prerequisite(s): PEA 111P or permission of instructor. Not open to non-degree graduate students.

PEA 112K SOCCER (1 credit)
This course is designed to develop the fundamental skills and knowledge of the game of soccer.

PEA 112L WALKING/JOGGING (1 credit)
This course is designed to help the students improve personal fitness through walking and jogging.

PEA 112M VOLLEYBALL (1 credit)
This course is designed to develop the fundamental skills and knowledge of the game of volleyball.

PEA 112N ZUMBA (1 credit)
Zumba is a fitness program inspired by Latin dance. Zumba combines Latin rhythms (salsa, bachata, merengue, and chachacha.) with cardiovascular exercise to create an aerobic routine that is fun and easy to follow.

PEA 112O BALLROOM DANCE II (1 credit)
The course is designed to further the student’s study of Ballroom Dance techniques.
Prerequisite(s): PEA 112H or permission of instructor

PEA 112P INDOOR CYCLING (1 credit)
This activity course is an indoor stationary cycling program. It is a high intensity, cardiovascular fitness program designed to promote lifetime fitness.

PEA 112Q, HIP HOP (1 credit)
This course is designed to give students a beginning understanding and appreciation of hip hop dance.

PEA 112R NET GAMES (1 credit)
This course is designed to teach students the fundamental skills and rules of Badminton, Tennis, Pickleball, and Table Tennis.

PEA 112S CROSS-TRAINING (1 credit)
This course is designed to develop the technique, fitness level and knowledge base to effectively participate in cross-training activities. Individuals will be exposed to a variety of methods such as, but not limited to, plyometrics, agility training, kettlebells, and core training.

PEA 112T ADVANCED MARTIAL ARTS (1 credit)
The purpose of this course is to expand upon the basic techniques and philosophies presented in the UNO Martial Arts Introductory classes. The class will review the basic concepts and techniques taught in the intro classes which may be new to the student depending on the introductory class experience of the student.
Prerequisite(s): PEA 111G, PEA 111F, or PEA 111D; or instructor consent.

PEA 112U QI GONG (1 credit)
This course actively covers the scope of Qi Gong through demonstration and participation as well as through a systematic elucidation of the history and theoretical underpinnings of Qi Gong.

PEA 112V MINDFULNESS MEDITATION (1 credit)
This course actively covers the scope of Meditation practices, including Mindfulness, through demonstration, lecture, discussion, and participation. Various methods will be taught, as well as the history, philosophy and practices of meditation. Contemporary research will also be discussed.
PEA 112W  TAP I (1 credit)
The course is designed to introduce the student to various fundamental techniques in tap dance and to incorporate these techniques into dance sequences.

PEA 112X  BARRE FITNESS (1 credit)
This is a fitness course that utilizes safe barre exercises to develop muscular endurance, flexibility, and neuromotor training. The course will concentrate on integrating the use of the ballet barre, light weights, and various props.

PEA 113A  BEGINNING ICE SKATING (1 credit)
This course is designed for beginning ice skaters. Instructional emphasis will be placed on safely learning the life-long activity of ice skating. Students will develop an understanding of the basic principles and terminology of the sport of ice skating, improve on any current ice skating skills, and develop new skills such as forward and backward skating, crossovers, turns, and stops.

PEA 1130  ADAPTED PHYSICAL EDUCATION (1 credit)
This course is designed to provide an opportunity for independent physical education activity for a disabled person. Prerequisite(s): A disability which does not allow participation in regularly scheduled physical education activity courses.

PHHB 1500  FOUNDATIONS IN PUBLIC HEALTH (3 credits)
An introductory course for public health majors and other interested students, that examines the foundations of public health. The course includes an orientation to the process and the professions of public health and a consideration of current trends, problems and issues and their implications for public health professionals. The course will help candidates develop the knowledge, skills, competencies, and attitudes necessary to orchestrate an environment for positive public health. Distribution: Social Science General Education course

PHHB 2070  DRUG AWARENESS (3 credits)
An introduction to the effects and rationales of drug use, misuse, and abuse. Included are the physiological, psychological, sociological, pharmacological, and legal aspects of drugs in a culturally diverse United States and abroad.

PHHB 2310  HEALTHFUL LIVING (3 credits)
A study of selected health problems and issues in our society as related to knowledge, attitudes, and behaviors necessary for healthful living in a culturally diverse society.

PHHB 2850  STRESS MANAGEMENT (3 credits)
The health-related aspects of stress will be the focus of this course. Selected techniques for the self-regulation of stress will be demonstrated, practiced, and analyzed. Pressures from the culturally diverse United States and implications of a global society will be analyzed. Students will develop skills and competencies necessary to create a learning environment conducive to reducing stress.

PHHB 3000  SPECIAL PROJECTS (1-3 credits)
This course is designed to provide an opportunity to study a topic in public health through short course, seminar, workshop, or special project. Prerequisite(s): The prerequisites for the special project will be determined by the instructor.

PHHB 3030  FIRST AID (3 credits)
Designed to give students knowledge and skill in implementing immediate, temporary treatment in case of injury or sudden illness before the services of a physician. Upon successful completion of the course, a student will receive a standard first aid and cardiopulmonary resuscitation certificate.

PHHB 3060  PROMOTING POSITIVE HEALTH (3 credits)
The focus of this team taught, experiential course will be assisting individual students: a) determine what wellness and mindfulness changes they wish to make in their lives; b) assisting them in acquiring the skills and learning about theories of how to effectuate change, and c) assisting them in making the change. Prerequisite(s): HPER 3090/HEKI 3090, HPER 2850/HEKI 2850, and Holistic Health - Eastern Perspectives. At least two of the following: PEA 111T, PEA 112I, PEA 112U, or PEA 112V One additional PEA course (may not be from the previous category or basketball or volleyball)

PHHB 3070  DEATH AND DYING (3 credits)
An interdisciplinary survey of literature in the field of thanatology, with an emphasis on working with the older patient and his or her family. (Cross-listed with GERO 3070).

PHHB 3080  HEALTH CONCEPTS OF SEXUAL DEVELOPMENT (3 credits)
An examination of factors influencing sexual development. Emphasis is given to topics pertinent to healthful living in today’s culturally diverse, global society. (Cross-listed with WGST 3080).

PHHB 3310  INJURY PREVENTION IN PUBLIC HEALTH (3 credits)
This course is designed to explore public health strategies for the development and maintenance of safe physical environments with a focus on prevention of intentional and unintentional injuries. It explores a multitude of safety programs for school, business, recreation, transportation, and the home.

PHHB 4000  METHODS AND MATERIALS IN HEALTH EDUCATION (3 credits)
This course will provide an opportunity to study, develop and use different materials and equipment in public health. Various methods of teaching health will be practiced and evaluated. Candidates will be able to gain classroom and field experience (service-learning) in planning lessons and presentations. Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4040  EPIDEMIOLOGY & PREVENTION OF DISEASE (3 credits)
The course is designed for public health students and others who are interested in public health. The cause, prevention, treatment and control of prevalent communicable and non-communicable disease in a culturally diverse and global society will be emphasized. Special emphasis will be given to diseases and health problems that can be prevented or controlled through public health initiatives. Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4050  INTRODUCTION TO RESEARCH IN PUBLIC HEALTH (3 credits)
This course will assist students to develop the basic skills to read and evaluate applied research to address contemporary problems in public health. The course will provide an introduction to proposal writing, data collection, research design, statistical analysis, and computer application. Unique problems associated with data collection in public health settings such as public health departments, neighborhood health centers, and community based organizations will be addressed.

PHHB 4060  SCHOOL HEALTH PROGRAMS (3 credits)
The purpose of this course is to provide information and strategies for planning, implementing, and evaluating Coordinated School Health Programs (CSPH) for diverse cultural groups. Content includes an overview of school health programs, the essential functions of each of the eight components, the role of national and state organizations in working with local agencies and school districts in promoting the development of comprehensive school health programs. Prerequisite(s): HED 1500 or PHHB 1500
PHHB 4130 COMMUNITY HEALTH (3 credits)
A survey course of community health issues. The basics of epidemiology/statistical sciences, environmental health, managerial/administrative sciences, and behavioral/social sciences for community health are examined. Public health candidates will gain skills needed to develop and manage community health programs.

PHHB 4200 A PUBLIC HEALTH APPROACH TO MENTAL HEALTH (3 credits)
This public health course will help students think critically about the prevention, identification, and treatment of mental illness in the United States. Students will be introduced to concepts from the disciplines of public health, psychology and sociology to understand mental health disorders and their impact on population health. Students will explore health disparities through the lens of cultural, social, behavioral, psychological, and economic factors. Students will recognize that mental health exists on a continuum and develop skills to address environmental influences on behavior. (Cross-listed with PHHB 8206).

PHHB 4280 SOCIAL MARKETING FOR PUBLIC HEALTH (3 credits)
This course will introduce students to current theory, practices and resources in the field of social marketing as it relates to public health. Students will analyze and implement social marketing techniques.
Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4400 HEALTH LITERACY (3 credits)
This course is designed to provide students with the competencies to reduce problems associated with low health literacy. The two primary foci will be strategies to help patients and other health consumers improve their health literacy, and strategies to help health providers and health educators communicate in a manner that can be understood by all persons regardless of their health literacy

PHHB 4420 PUBLIC HEALTH INFORMATICS (3 credits)
Students will learn the implementation, operation, and application of health information systems. Students will explore the legal and ethical issues surrounding health informatics and patient records, management and communication in health informatics, and social and organizational issues pertaining to health informatics.
Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4550 HEALTH ASPECTS OF AGING (3 credits)
This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with GERO 4550 and GERO 8556 and PHHB 8556 and WGST 4550).

PHHB 4650 GLOBAL HEALTH (3 credits)
This course will explore contemporary health problems around the world with particular emphasis being placed on problems experienced by developing countries. The political, economic, social, geographical, biological aspects of the problems and possible solutions will be addressed.
Distribution: Global Diversity General Education course

PHHB 4700 WOMEN’S HEALTH AND ISSUES OF DIVERSITY (3 credits)
This course provides a critical understanding of the inter-relationship between socio-cultural, economic, and political factors and women’s physical and mental health. The aim is to provide an overview of the experience with the health care system. Emphasis will be on critically examining recent scholarship from a sociological, behavioral, health policy perspective. (Cross-listed with PHHB 8706, SOC 4700, SOC 8706).
Distribution: U.S. Diversity General Education course

PHHB 4880 PUBLIC HEALTH POLICY (3 credits)
This course provides an overview of the U.S. health system, and an introduction to the skills necessary to address health policy issues. Students will develop a working knowledge of health services terminology, recognize basic health care concepts, distinguish between various components of the health care delivery system and be able to apply concepts learned in the analysis of a public health problem.
Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4950 PUBLIC HEALTH LEADERSHIP AND ADVOCACY (3 credits)
This course reviews public health leadership concepts and practices that prepare candidates to fulfill professional roles as advocates and leaders in the health field. Politics and power structure in communities and organizations are addressed. The processes through which changes in the political, economic, organizational, and physical environment related to health status and health behavior are brought about will be addressed. Media advocacy, the legislative process, community organization, and coalition development will be explored as means of environmental change.
Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4960 PUBLIC HEALTH - PLANNING AND ORGANIZATION (3 credits)
The course is designed to provide public health students an understanding of planning and organization in public health. The use of planning tools including social assessment methods, epidemiological methods, behavioral methods, organizational methods, administrative methods and evaluation procedures for public health initiatives will be included. Grant writing components will be emphasized.
Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4970 PROBLEMS OF HEALTH EDUCATION (1-3 credits)
This course is designed to provide an opportunity for individuals or groups to study problems in health education.
Prerequisite(s): Permission of instructor.

PHHB 4990 INTERNSHIP IN PUBLIC HEALTH (6 credits)
This internship provides on-the-job training for public health students in a cooperative program with state and local health departments or other appropriate community and public health agencies. Direct field experience is completed by the student under the supervision of an experienced practitioner in an approved public health agency.
Prerequisite(s): Completion of or current enrollment in core courses, GPA of 2.5 or above in required courses, and no grade below a C in required courses, and permission of instructor.

RLS 2440 FOUNDATIONS OF RECREATION AND LEISURE (3 credits)
A survey approach to the recreation, leisure services, parks professional field to include the historical philosophical bases of the overall profession. Provides the necessary foundational knowledge for majors as well as candidates within other areas of study.

RLS 2500 OUTDOOR RECREATION (3 credits)
A survey of the dynamics of outdoor recreation in American life. Designed to guide candidates through a learning experience that results in an introduction to and a broad-based understanding and appreciation of outdoor recreation.

RLS 3100 SOCIAL ASPECTS OF SPORT AND LEISURE (3 credits)
A critical examination of the function and significance of sports within the overall leisure behavior patterns of Western society. Recreational sport, sport spectatorship, and competitive athletics are considered from the dominant theoretical perspectives within sociology.
Prerequisite(s): Six hours of social science or permission.

RLS 3500 FOUNDATIONS OF RECREATION THERAPY (3 credits)
An introduction to therapeutic recreation services as a specialized field within recreation. Course content touches on the majority of the special populations recognized within American society. An in-depth survey approach is utilized.
RLS 4070 CAMPUS RECREATION MANAGEMENT (3 credits)
A review of the knowledge, skills, and abilities required for the management of typical campus recreation programs and facilities. This course will prepare students for entry level positions managing campus recreation employees, programs, facilities and services. (Cross-listed with RLS 8076)

RLS 4100 FACILITY DESIGN AND MANAGEMENT (3 credits)
This course is designed to acquaint the recreation major or practitioner with the knowledge and certifications necessary to maintain and operate a recreation building including all major activity areas using the latest standards and technology. Attention will be devoted to the design and management process, including terminology, court specifications, handicapped accessibility, and swimming pool operation.

RLS 4240 RECREATION ADMINISTRATION (3 credits)
Designed to provide a background of information on public, private, and commercial recreation with special attention to organization, promotion, and development from the administrative aspect. (Cross-listed with RLS 8246)
Prerequisite(s): RLS Major and Senior status

RLS 4300 RECREATION PROGRAMMING AND LEADERSHIP (3 credits)
An advanced study of recreational programming and leadership through practical applications. Emphasis is placed upon understanding proven programming and leadership knowledge and skills; understanding participant leisure behavior; understanding participant leisure needs; and skill development in ways through which organization, agencies and businesses create services to respond to the leisure needs of the consumer. (Cross-listed with RLS 8306)
Prerequisite(s): Junior, Senior or Graduate Standing

RLS 4400 TRAVEL AND TOURISM (3 credits)
This course is designed to provide the recreation major or practitioner, and other interested candidates, with an awareness of the major components of the travel and tourism industry, including its costs and benefits to a resident community. (Cross-listed with RLS 8406)
Prerequisite(s): Junior Standing

RLS 4420 RECREATION FOR THE AGING (3 credits)
Role of leisure services as related to understanding and working with elders. Emphasis on recreation programming as a mode of intervention. Analysis and study of the phases of aging, with reference to psychomotor, affective, and cognitive changes; introduction to the theories of aging and how they relate to the lifestyle of this population; recreational therapy intervention, activity adaptation and program design; leisure education and issues and trends. (Cross-listed with RLS 8426, GERO 4420, GERO 8426)

RLS 4550 PRACTICUM I (6 credits)
Practical learning experience in leisure service delivery under close University and agency supervision.
Prerequisite(s): Senior, 2.5 GPA and department consent.

RLS 4560 PRACTICUM II (6 credits)
Practical learning experience in leisure service delivery under close University and agency supervision.
Prerequisite(s): Senior, 2.5 GPA and department consent.

RLS 4970 PROBLEMS OF RECREATION (1-3 credits)
The purpose of this course is to provide an opportunity for candidates to participate in special conferences on problems in the field of recreation and to further professional improvement and growth beyond the normal four-year undergraduate program.
Prerequisite(s): Permission of instructor.

**Public Health, Bachelor of Science**

**Degree Description**
The public health program prepares students to become professionals who promote the health of local, national, and global populations through education and skills for individuals and communities. A degree in public health prepares students to think critically about societal issues through a justice-based framework, and public health professionals engage in advocacy for policies that ensure and support healthy populations. Students who graduate with a degree in public health pursue careers in a variety of fields, including health administration; health promotion, and behavior; epidemiology; and environmental health. Students are also prepared to pursue graduate degrees in public health or related fields.

**Admissions**
Students must have a cumulative and major GPA of at least 2.5.

**Fast Track Program**
The School of Health and Kinesiology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

**Program Specifics:**
- This program is available for undergraduate students pursuing a BS in Public Health major desiring to pursue a MS in Health & Kinesiology with a Health Behavior concentration, or those pursuing a BS in Kinesiology major desiring to pursue a MS in Health & Kinesiology with an Exercise Science concentration.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
- Admission to Fast Track does NOT guarantee admission to the graduate program.
- The admit term must be after the completion term of the undergraduate degree.

**Requirements**

**Courses Required for Major (core curriculum)**
Students must meet the general education requirements. Additionally, students must complete the public health program requirements.

**Credits** 15

Students must have a cumulative and major GPA of at least 2.5.

Admissions

The School of Health and Kinesiology offers an alternative entry into the MA in Athletic Training from the BS in Kinesiology. The alternative entry program is designed for dedicated students who are motivated and willing to take on early the challenges relating to graduate education. Interested students are encouraged to meet with their academic advisor for more information about this program.

Fast Track Program

The School of Health and Kinesiology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a BS in Public Health major desiring to pursue a MS in Health & Kinesiology with a Health Behavior concentration, or those pursuing a BS in Kinesiology major desiring to pursue a MS in Health & Kinesiology with an Exercise Science concentration.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
  - Admission to Fast Track does NOT guarantee admission to the graduate program.
  - The admit term must be after the completion term of the undergraduate degree.

Kinesiology, Bachelor of Science in Kinesiology

Degree Description

The kinesiology major is designed to prepare students to assume positions as fitness or health promotion directors and exercise consultants in private or public agencies, health centers, cardiac rehabilitation programs, as well as corporate fitness programs. This major is also well-suited as a pre-professional program for students interested in further pursuing a career in athletic training, physical therapy, occupational therapy, nursing, physician assistant, and other medical fields. Additionally, the kinesiology major will prepare students for research intensive graduate programs in exercise physiology, biomechanics, physical activity, and others.

Admissions

Students must have a cumulative and major GPA of at least 2.5.

### Fast Track Program

The School of Health and Kinesiology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a BS in Public Health major desiring to pursue a MS in Health & Kinesiology with a Health Behavior concentration, or those pursuing a BS in Kinesiology major desiring to pursue a MS in Health & Kinesiology with an Exercise Science concentration.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
  - Admission to Fast Track does NOT guarantee admission to the graduate program.
  - The admit term must be after the completion term of the undergraduate degree.

### Alternative Entry into the MA in Athletic Training from the BS in Kinesiology

The School of Health and Kinesiology offers an alternative entry into the MA in Athletic Training, which allows outstanding students to complete the BS undergraduate Kinesiology degree and the MA in Athletic Training graduate degree. The alternative entry program is designed for dedicated students who are motivated and willing to take on early the challenges relating to graduate education. Interested students are encouraged to meet with their academic advisor for more information about this program.

Credits  12

Total Credits  120

1 BIOL2740 and BIOL2840 can be taken in place of BMCH 2400 and 2500.
2 Professional electives are chosen from the Elective Core Categories on the degree worksheet. Other courses may qualify following advisor approval.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study.

GPA Requirements: 2.5 cumulative and major GPA

Graduation Requirements: Students must have a cumulative and major GPA of at least 2.5, no grade lower than "C" in required courses, and no incomplete in required courses to be recommended for graduation.

### Teacher Education

Teacher Education at UNO is dedicated to your success and the success of our region's children and teens. As an undergraduate student you will receive one-on-one guidance from an instructional coach who will give you meaningful feedback on your skills as you practice teaching in one of our many partner schools. This process will prepare you for the clinical practice experience and the real world of teaching upon graduation. As a graduate student in one of our award-winning programs, you'll experience blended learning with distance friendly classes taught by professors with PK-12 classroom experience.
Whether you want to teach kindergarten or high school math, whether you are a first-year student or an experienced educator seeking more skills, you will benefit from the unique network of support offered by our department, UNO and the schools of our city. You will receive the opportunities you need and the support you can rely on to become a dedicated practitioner, a reflective scholar and a responsible citizen.

Accreditation
For program accreditation information, please refer to this table (p. 526).

Other Information
Praxis II Content Test:
All educator preparation candidates seeking certification are required to take a Praxis II content test in each endorsement area of their preparation prior to being awarded initial teacher certification through the Nebraska Department of Education (NDE). It is recommended that candidates take the Praxis II content test the semester prior to their clinical practice semester.

This link (http://www.ets.org/praxis/ne/requirements/) will take you to the ETS website page for the Nebraska Department of Education requirements. The page lists the Nebraska requirements for each endorsement area.

Professional Education Sequence
All candidates in programs leading to teacher certification must complete the courses that constitute the professional education sequence. The professional education sequence is composed of 15 credit hours organized into three courses of three credits each and one course of six credits: TED 2100, TED 2200, TED 2300 or TED 2380 and TED 2400.

TED 2100 and TED 2200 (Pre-professional Education Core) are open to all students on the UNO campus with a cumulative 2.5 GPA. TED 2200 meets the Nebraska Department of Education requirement for human relations. To enroll in the other professional education sequence courses (TED 2300 or TED 2380 and TED 2400), candidates must have successfully applied to the Educator Preparation Program and must satisfy any other prerequisites listed for the course. Candidates who receive a grade below “C”, “I” (incomplete), or a “W” (Withdraw) in a professional education sequence course may not continue in the professional course sequence until that grade is removed.

TED 2300 must be completed satisfactorily with a “C” or better prior to enrollment in TED 2400.

Note: Candidates, who receive a grade below “C” or an “I”; or who voluntarily withdraw from any practicum or field experience after being identified as a student in jeopardy; or who are withdrawn from any practicum or field experience must petition to continue in the program.

Professional Dispositions Statement
Teaching is a profession that requires its potential candidates to be individuals of integrity. Prospective teachers must be able to demonstrate they are individuals of strong moral character who can make mature decisions for themselves and for the students whom they will teach. Teachers are responsible for the education, safety, and well-being of anyone in their charge. The University of Nebraska at Omaha College of Education, Health, and Human Sciences prepares future teachers who show a high degree of moral character and the ability to act responsibly inside and outside the classroom. These individuals must be able to serve as representatives of the College and the University and must demonstrate the personal and professional dispositions of the teaching profession.

Inappropriate behaviors on the part of the candidates, which in the College’s reasonable judgment, violate the University’s Student Code of Conduct, establish a lack of integrity or moral/ethical character, or demonstrate conduct or patterns of behavior inconsistent with the personal and professional dispositions expected in the teaching profession, shall be sufficient grounds for 1) denial of admission to or enrollment in educator preparation programs, 2) dismissal or removal from programs, courses, observations, field experiences, practica, clinical practice, and similar field-based experiences, and 3) withholding institutional recommendation for certification. Such behaviors could be evidenced within the University or PK-12 school environment, outside the University or PK-12 school environment, and/or in an electronic or digital context. Displays or patterns of behaviors may be established by any credible means including, but not limited to, the facts surrounding a record of arrests or convictions or information obtained by the University directly from a school or district official. Teacher candidates should note that the College of Education, Health, and Human Sciences must provide a recommendation for certification in order for a student to obtain his/her teaching certificate. Accordingly, inappropriate behaviors by candidates could jeopardize not only their educational goals at UNO but also their professional goals including the ability to become a certified teacher.

Candidates who exhibit inappropriate behaviors may be referred for a Conference of Concern to formally identify the unsuitable behaviors, recommend corrective action(s), and determine the candidate’s suitability for continuing in educator preparation. Candidates who have convictions outlined in the Nebraska Department of Education’s Rule 20, Section 005.07A, will be allowed to continue in the educator preparation program or referred for certification only through an appeal to the Commissioner or State Board of Education.

Note: In accordance with the Nebraska Department of Education, Rule 20, the following information must be provided to all persons who apply for admission to programs leading to teacher certification: Persons who have felony convictions or misdemeanor convictions involving abuse, neglect or sexual misconduct are automatically rejected by the Nebraska Department of Education for certification.

Field/Clinical/Practicum/Clinical Practice Experiences
As part of their educator preparation program, candidates are required to complete various field, clinical, practicum, and clinical practice experiences. In accordance with policies and procedures of the Nebraska Department of Education, and in compliance with the requests of cooperating school districts, no candidate will be permitted to participate in PK-12 classroom-based experiences (including clinical practice) until a signed statement of personal and professional fitness to teach has been completed. The statement of personal and professional fitness is required as part of the admission application to an educator preparation program.

Clinical Practice Policies
All candidates for Elementary, Middle level, Special education, or Secondary teacher certification will be required to complete one semester of full-day clinical practice for a total of 12 credit hours. Candidates seeking an additional endorsement to the basic certificate will be required to complete additional clinical practice experiences in their endorsement area(s). Clinical practice experiences will be completed in identified, local, metropolitan, area schools where placement and supervision are arranged through the College of Education, Health, and Human Sciences.

Admission to clinical practice is by application only. Application for clinical practice must be made in the fall or spring term preceding the clinical practice semester. Applicants cannot be considered for placement unless all application materials are submitted by the announced deadline:

- September 15 for spring clinical practice and February 1 for fall clinical practice.

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of “C” must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below “C” in these specific requirements must be removed prior to
clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Special Note: Candidates who are withdrawn from any clinical practice experience, or who voluntarily withdraw after being identified as a candidate in jeopardy, must petition if they wish to continue in their professional preparation program.

Certification

Upon successful completion of all coursework and clinical practice, candidates are eligible to apply and may be recommended for a State of Nebraska teaching certificate. Candidates should apply for the certificate in the semester they graduate. If a candidate applies for certification 5 years or more after completing all coursework and clinical practice, a review is required to determine if more coursework is needed.

Information on application procedures can be obtained in the Office of Academic Advising and Field Experiences, Roskens Hall 204. You may also email unocertification@unomaha.edu

Contact:

Website (http://www.unomaha.edu/college-of-education/teacher-education/)

Students interested in becoming teachers must formally apply for admission to the Educator Preparation Program (EPP).

Admission policies can be found on the college website (https://www.unomaha.edu/college-of-education/student-services/academics/admissions-teacherprep.php). Deadlines for applying are October 1 for spring semester; and March 1 and June 1 for fall semester.

All students accepted into the Educator Preparation Program (EPP) must complete a background check. The background check must be conducted in the time frame and by the vendor determined by the College of Education, Health, and Human Sciences. The student is responsible for the cost of the background check.

Upon initial admission to educator preparation, all students are required to purchase LiveText, a web-based interface that documents progress in regard to program standards.

Application for Admission to Educator Preparation Program (EPP)

Step 1:
The following requirements must be met prior to submitting an Initial Application to the Educator Preparation Program (EPP).

- Admission to UNO
- Completion of UNO’s English Composition I or its transfer equivalents: ENGL 1150 (https://catalog.unomaha.edu/search/?P=ENGL%201150) or ENGL 1154 (https://catalog.unomaha.edu/search/?P=ENGL%201154) (C or higher)
- Completion or current enrollment in UNO’s courses or their transfer equivalents:
  - ENGL Composition II (ENGL 1160 (https://catalog.unomaha.edu/search/?P=ENGL%201160) or ENGL 1164 (https://catalog.unomaha.edu/search/?P=ENGL%201164)) (C or higher)
- Communication Studies (CMST 1110 (https://catalog.unomaha.edu/search/?P=CMST%201110) or CMST 2120 (https://catalog.unomaha.edu/search/?P=CMST%202120)) (C- or higher)
- Quantitative Literacy (MATH 1120 (https://catalog.unomaha.edu/search/?P=MATH%201120), MATH 1130, MATH 1300, STAT 1530, or STAT 1100) (C- or higher) or proficiency through Math ACT score, and
- Foundations of Education: TED 2100 (https://catalog.unomaha.edu/search/?P=TED%202100) (C or higher), and
- Human Relations: TED 2200 (https://catalog.unomaha.edu/search/?P=TED%202200) (C or higher).
- Established cumulative University of Nebraska System GPA of 2.50 or higher (12+ credit hours in the NU system)

Enrollment in classes must be posted before the application packet is submitted:

- Fall semester grades and spring enrollment for March 1 deadline
- Spring semester grades and summer enrollment for June 1 deadline
- Summer semester grades and fall enrollment for October 1 deadline

For any in-progress classes, final grades will be checked. Students who do not meet minimum grade requirements cannot begin the Educator Preparation Program until the minimum grade is achieved.

Step 2:
The following requirements must be met for Formal Admission to the Educator Preparation Program (EPP).

- Established cumulative University of Nebraska System GPA of 2.75 or higher
- Completion of TED 2100 (https://catalog.unomaha.edu/search/?P=TED%202100), TED 2200 (https://catalog.unomaha.edu/search/?P=TED%202200), TED 2300 (https://catalog.unomaha.edu/search/?P=TED%202300) or TED 2380 and TED 2400 (https://catalog.unomaha.edu/search/?P=TED%202400) with a grade of “C” or better

The Office of Academic Advising will verify GPA requirements and passing grades for coursework. Students who are admitted to the Educator Preparation Program, but do not pass TED 2300 or TED 2380 and TED 2400 (https://catalog.unomaha.edu/search/?P=TED%202400) with a grade of “C” or better, will not be permitted to continue in the Educator Preparation Program course sequence until such grade(s) are received.

Those seeking the non-certification pathway must apply to the Non-Certification Program in order to take upper level education coursework. The non-certification program does not lead to Nebraska Educator Certification and is designed for community-based work and careers supporting children, youth, adults, and families.

Application to Program

- Admission to UNO
- Completion of UNO’s English Composition I or their transfer equivalents: ENGL 1150 (https://catalog.unomaha.edu/search/?P=ENGL%201150) or ENGL 1154 (https://catalog.unomaha.edu/search/?P=ENGL%201154) (C or higher)
- Completion or in progress at the time of application of UNO’s courses or their transfer equivalents:
• ENGL Composition II (ENGL 1160) or ENGL 1164 (https://catalog.unomaha.edu/search/?P=ENGL%201160) (C- or higher)

• Communication Studies (CMST 1110) or CMST 2120 (https://catalog.unomaha.edu/search/?P=CMST%201110) (C- or higher)

• Quantitative Literacy (MATH 1120) or MATH 1130, MATH 1220 (https://catalog.unomaha.edu/search/?P=MATH%201120), STAT 1530, or STAT 1100 (C- or higher) or proficiency through Math ACT score, and

• Foundations of Education: TED 2100 (https://catalog.unomaha.edu/search/?P=TED%202100) (C or higher), and

• Human Relations: TED 2200 (https://catalog.unomaha.edu/search/?P=TED%202200) (C or higher).

• GPA Requirements (UNO Students)
  • Currently enrolled UNO students must have a minimum cumulative GPA of 2.5.

• GPA Requirements (Transfer Students)
  • Transfer students with 12 or more credit hours in the Nebraska System (UNL, UNK, UNO) must have a minimum cumulative GPA of 2.5 for all attempted coursework taken in the NU System.
  • Transfer students with credit hours from institutions other than the NU System must have a minimum combined cumulative GPA of 2.5 for all attempted coursework.

  • Grades must be posted before packet is submitted: fall semester grades for March 1 deadline, spring semester grades for June 1 deadline, and summer semester grades for October 1 deadline.

GPA Requirements (UNO Students)
• Currently enrolled UNO students with 12 or more credit hours in the Nebraska System (UNL, UNK, UNO) must have a minimum cumulative GPA of 2.50 for Initial Application and a minimum cumulative GPA of 2.75 for Formal Admission.

• GPA Requirements (Transfer Students): Transfer students with 12 or more credit hours in the Nebraska System (UNL, UNK, UNO) must have a minimum cumulative GPA of 2.50 for all attempted coursework for initial application and a minimum cumulative NU system GPA of 2.75 for formal admission.

Degrees Offered
• Education, Bachelor of Science

Programs
• Elementary Education (p. 558)
• Library Science (p. 566)
• Secondary Education (p. 568)
• Early Childhood Inclusive (p. 556)

Writing in the Discipline
Writing Student Learning Objectives for all ECI, ELED and SED majors are all addressed in TED 2100 Educational Foundations. Writing Student Learning Objectives for all library science majors are all addressed in TED 4800 Leadership and Management in Library and Information Agencies.

Secondary Education Concentration
For more information and a complete listing of program requirements visit the College of Education, Health, and Human Sciences website here (http://www.unomaha.edu/college-of-education/teacher-education/).

Endorsements Offered
Candidates seeking 6-12, 7-12 or PK-12 certification must complete one of the endorsements below.

• Art (PK-12) Endorsement (p. 573)
• Biology (7-12) Endorsement (p. 573)
• Business, Marketing, Information Technology (BMIT) (6-12) Endorsement (p. 575)
• Chemistry (7-12) Endorsement (p. 576)
• English Language Arts (7-12) Endorsement (p. 578)
• Secondary English (7-12) with ESL Supplemental Endorsement (p. 579)
• Secondary English (7-12) with Additional Subject Endorsement (p. 581)
• World Language - French (7-12) Endorsement (p. 582)
• World Language - German (7-12) Endorsement (p. 583)
• Mathematics (6-12) Endorsement (p. 585)
• Middle Level (5-9) Endorsement (p. 586)
• Music (PK-12) Endorsement (p. 589)
• Physics (7-12) Endorsement (p. 589)
• Physical Education (PK-12) Endorsement (p. 591)
• Physical Education (7-12) and Health (7-12) Endorsement (p. 593)
• Science (7-12) Endorsement (p. 595)
• Social Science (7-12) Endorsement (p. 596)
• World Language - Spanish (7-12) Endorsement (p. 598)

Dual Endorsement Programs Offered
Candidates may elect to complete a second endorsement as part of their secondary education program. These dual endorsements require two semesters of clinical practice (student teaching) and result in two teaching endorsements on the Nebraska teaching certificate. The following dual endorsements are available.

• Deaf/Hard of Hearing (7-12) Endorsement (p. 599)
• Special Education (7-12) Endorsement (p. 601)

Supplemental Endorsements Offered
Supplemental endorsements are content areas which can be added to a Nebraska teaching certificate in the presence of other earned endorsements. A supplemental endorsement cannot stand alone on an initial teaching certificate. The following supplemental endorsements are available.

• English as a Second Language (7-12) Endorsement (p. 601)
• Coaching (7-12) Endorsement (p. 601)
• Information Technology (PK-12) (p. 602) Endorsement (p. 602)
• Work-Based Learning (9-12) Endorsement (p. 602)

For more information and a complete listing of program requirements visit the College of Education, Health, and Human Sciences website (https://www.unomaha.edu/college-of-education/student-services/certification/endorsements.php).

Education - Early Childhood Inclusive, Bachelor of Science
The early childhood inclusive education major is designed for students seeking Nebraska certification to teach in Birth - age 3 or age 3 through third grade in elementary schools. This major allows students to learn more
about early childhood education policy, social-cultural understanding and the well-being of infants and toddlers.

**Potential Career Opportunities/settings:**
- Preschool Teacher or Preschool Special Educator
- Infant/Toddler teacher
- Kindergarten – Grade 3 Teacher
- Special Education Teacher (Kindergarten – Grade 3)
- Early intervention home visitor
- Head Start family educator

**Education - Elementary Education, Bachelor of Science**
The elementary education major is designed for students seeking Nebraska certification to teach in K-6 elementary schools. This major allows students to explore developmental issues of children, learning theory, elementary school content, and teaching methods. One of the strengths of the preparation program is the field experiences with local school districts.

**Potential Career Opportunities/settings:**
- Public School systems
- Private School systems

**Education - Secondary Education, Bachelor of Science**
The secondary education major is designed for students seeking Nebraska certification to teach in grades 7-12, or in PK-12 settings in the areas of Art, Music, or Physical Education. This major allows students to explore developmental issues of children, learning theory, secondary content area(s), and teaching methods. One of the strengths of the preparation program is the field experiences with local school districts.

**Potential Career Opportunities/settings:**
- Public School systems
- Private School systems

**Education – School Library concentration, Bachelor of Science**
UNO’s College of Education, Health, and Human Sciences offers two undergraduate degree programs in Elementary Education and Secondary Education with School Library concentrations. This program allows candidates to acquire an elementary or secondary teaching certificate with a school library concentration.

**Potential Career Opportunities/settings:**
- Special libraries
- Public libraries

**Education - Library Science, Bachelor of Science**
UNO’s College of Education, Health, and Human Sciences offers an undergraduate degree in Library Science that provides credentials and continuing education for those seeking employment in 21st Century library and information agencies.

**Potential Career Opportunities/settings:**
- Special libraries
- Public libraries
- Academic libraries
- Information Management

**TED 1010 INTRODUCTION TO EDUCATION (3 credits)**
The course will provide an introduction to the education profession through career exploration and initial exposure to the dynamics of PK-12 classroom teaching. The course will provide a overview of ethics and professionalism, pre-service preparation, societal influences, classroom practices, and the governance structures which impact teachers and schools. The course has a required field experience.

**Prerequisite(s):** Not open to non-degree graduate students.

**TED 2060 INTRODUCTION TO TEACHING ENGLISH AS A SECOND LANGUAGE (3 credits)**
This course offers teacher candidates an introduction to the linguistic, social, political, and cultural factors that impact the teaching of English Language Learners (ELs) entering the United States school system. As dedicated practitioners, reflective scholars, and responsible citizens, undergraduate students will study best practices for ELs in the mainstream classroom that promotes language and cultural understanding among students and teachers.

**Prerequisite(s):** Not open to non-degree graduate students.

**TED 2060 EQUITY, LANGUAGE, AND CULTURAL LITERACY (3 credits)**
This course explores the relationship among equity, language, and cultural literacy and its implications for programming and advocacy within school and community contexts. As dedicated practitioners, reflective scholars, and responsible citizens, undergraduate students study the impact these relationships have for historically underrepresented groups in the United States.

**Prerequisite(s):** Not open to non-degree graduate students.

**TED 2100 EDUCATIONAL FOUNDATIONS (3 credits)**
The course will provide prospective teacher candidates with the philosophical, ethical, historical, and social foundations that will enable them to understand their role as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. Also, the prospective teacher candidates will study and understand the national and state standards relevant to P-12 education and to teacher preparation in the USA. Each prospective candidate will acquire competency in using educational technologies such as Internet based course delivery systems, database software, and digital portfolios.

**Prerequisite(s):** 2.50 GPA

**Distribution:** Writing in the Discipline Single Course

**TED 2160 INTRODUCTION TO LIBRARY SERVICES (3 credits)**
This course introduces students to the discipline and profession of library and information science and to the wide array of information organizations whose purpose is to gather, organize, and transfer information to patrons in a diverse society.

**TED 2200 HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS (3 credits)**
This course is designed to increase multicultural knowledge and positively impact the diversity disposition of prospective teacher candidates. It is also designed to help them become more aware of ways to motivate and positively impact the youths they will encounter in their future classrooms. Prospective teacher candidates will examine existing attitudes toward various groups by race, ethnicity, age, gender, disability, and social class with the goal of becoming dedicated practitioners, reflective scholars, and responsible citizens who can meet their professional responsibilities.

**Prerequisite(s):** 2.50 GPA

**Distribution:** U.S. Diversity General Education course

**TED 2250 INTRODUCTION TO EARLY CHILDHOOD EDUCATION (3 credits)**
This course provides an overview of early childhood education from theoretical, historical, and contemporary perspectives. Particular emphasis in the course is placed on key approaches to early childhood education, research on how children learn, and developmentally appropriate practice for children in the birth-to-age-five range. Observations are required as part of the course and will be conducted outside of class time.
TED 2300 HUMAN GROWTH AND LEARNING (3 credits)
This course will examine human growth and learning from conception through adolescence. It will focus on how current educational practices and theories of development and learning impact and influence each other. The course includes field-based and laboratory experiences for the students.
Prerequisite(s): Admission to Teacher Preparation. Permit number required to register. Not open to non-degree graduate students.
TED 2310 FAMILY-CENTERED PARTNERSHIPS (3 credits)
This course will examine the purposes and methods for developing family-centered partnerships for young children. Candidates will develop the skills necessary for the planning, designing, implementing, and evaluating effective family engagement in early childhood settings. Candidates will also explore characteristics of diverse families by engaging in service learning and exploring diverse settings in the community.
Prerequisite(s): TED 2250
TED 2350 PLAY IN EARLY CHILDHOOD INCLUSIVE EDUCATION (3 credits)
The purpose of this course is to provide theoretical and empirical bases for observing and understanding children in play; an understanding of cognitive, social, and communicative stages related to developmental theory through play; and opportunity to consider biological, cultural, and environmental influences on children’s play and development, as well as, plan play experiences for young children. This course is designed primarily to prepare early childhood inclusive education teachers to develop the knowledge, skills, and dispositions to understand and use play as part of early childhood education and care programming for all young children.
Prerequisite(s): Not open to non-degree graduate students.
TED 2360 CHILDREN’S LITERATURE (3 credits)
This course focuses on children’s literature as a significant component of a 21st Century learning environment through the use of multiple literacies, e.g., cultural, information, visual, and digital literacy strategies. An emphasis will be based on research-based literacy strategies and literature that supports culturally relevant teaching and librarianship.
Prerequisite(s): Admission to Teacher Preparation Program or Library Science.
TED 2370 THE CREATIVE ARTS IN EARLY CHILDHOOD EDUCATION (3 credits)
This course prepares the early childhood teacher candidate to implement and use the creative and expressive arts in the classroom and to develop and assess conceptual understanding and building the vocabulary of children.
Prerequisite(s): TED 2250. Not open to non-degree graduate students.
TED 2380 DEVELOPMENT AND LEARNING IN ADOLESCENCE (3 credits)
This course will examine human growth and learning from early through late adolescence, to help students gain an understanding of the biological, social, and cultural influences on the developing child in the second decade of life. The class will focus on how current educational practices and theories of development and learning impact and influence each other. The course will include field-based experiences.
Prerequisite(s): Prerequisites of TED 2100 and TED 2200. Not open to non-degree graduate students.
TED 2390 SOCIOCULTURAL UNDERSTANDINGS OF INFANTS AND TODDLERS (3 credits)
This course will examine socio-cultural conceptions of infant and toddler-aged children. The influences of culture and social context on parental and center-based goals, beliefs and practices will also be covered.
Prerequisite(s): TED 2250. Not open to non-degree graduate students.
TED 2400 PLANNING FOR EFFECTIVE TEACHING (6 credits)
The course provides an initial overview of lesson planning through an introduction to the concepts of standards, objectives, anticipatory sets, instructional strategies, assessments, and closure. The course also introduces culturally responsive teaching practices which are intentionally supportive of English Language Learners, students with disabilities, and students who live in poverty or other difficult circumstances. A practicum completed outside of scheduled class time is required. The practicum includes coaching support for the candidates.
Prerequisite(s): ELED, ELED SPED and ECI majors have a prerequisite of TED 2300. SED majors will be permitted only with TED 2380 as a corequisite. Not open to non-degree graduate students.
TED 2500 DIGITAL CITIZENSHIP (3 credits)
The course is an introduction to the basic tenets of digital citizenship including legalities, ethics, privacy and security. The course fosters an awareness of digital citizenship as a topic that impacts pedagogy and programming and reflects best practice in all types of learning communities.
TED 2800 SCIENCE EXPERIMENTATION AND ENGINEERING DESIGN (4 credits)
Scientific Experimentation & Engineering Design (SEED) is a general education science course that introduces integrative STEM (Science, Technology, Engineering, and Mathematics) concepts and their applications. The course fosters 21st Century Learning through study and work in active, team-based experiential learning environments through all phases of near-space experiments using high-altitude balloon platforms. Near-space experiments require research question development, experiment hardware fabrication, experiment software integration, payload launch and recovery, data analysis, and formal experiments’ results reporting. Science and Engineering Practices are central to students' experiences and work in this course, as the course models the interdisciplinary connectedness of academic fields, industry, and the community to encourage collaboration and discovery to effectively implement STEM concepts, practices, and innovation. (Cross-listed with STEM 2800).
Distribution: Natural/Physical Sci General Education lecture&lab.
TED 3000 SPECIAL PROJECTS (1-3 credits)
This course allows offerings with a broad (PK-12) multigrade application. Study is often field-based and is conducted as a short course, seminar, or special project.
TED 3050 FOUNDATIONS OF TEACHING ENGLISH AS A SECOND LANGUAGE (ESL) (3 credits)
This course is designed to enhance candidates’ understanding of the historical, political, and theoretical perspectives of K-12 English as a Second Language (ESL) education for English Learners (ELs) in the U.S. context. As dedicated practitioners, reflective scholars, and responsible citizens, students will have knowledge of factors that contribute to an effective multicultural and multilingual learning environment. TED 3050 includes an in school, guided practicum. Candidates must demonstrate competencies related to teaching English Learners (ELs) in K-12 classrooms. This is the first of two practicum experiences to complete the field experience requirements for Nebraska Department of Education.
Prerequisite(s): TED 2050, TED 2300 or TED 2380, and TED 2400.
TED 3350 TEACHING AND ASSESSING READING IN ELEMENTARY SCHOOLS (6 credits)
This course provides an introduction to reading theories, foundational principles such as phonemic awareness, phonics, vocabulary, comprehension, fluency, effective instructional practices, and reading assessment and evaluation as they relate to improving K-6 student learning. It includes consideration of emergent and content area literacy, and students’ learning needs and cultures.
Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; co-requisites of TED 4330 and TED 4340, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing).
TED 3550 SECONDARY CLASSROOM MANAGEMENT (3 credits)
This is a general methods course required of all candidates preparing to teach at the secondary level. Candidates will apply educational sequence competencies in understanding the characteristics of effective teachers by learning how to apply the three components of effective pedagogy: 1) use of instructional strategies, 2) use of classroom management strategies, and 3) effective classroom curriculum design. Candidates will also examine the changing role of the secondary school and selected professional issues in secondary education and be able to apply key ideas of classroom management. Candidates must demonstrate competencies related to performance in 7-12 classrooms. This is the third in a series of four required practicum experiences prior to the clinical practice semester.
Prerequisite(s): TED 3350, TED 4330 and TED 4340; co-requisite TED 4250.

TED 3690 LITERACY AND LEARNING (3 credits)
This course examines ways in which reading and writing can facilitate student learning in content areas studies (e.g., science, social studies, physical education, art, music, and math). The main focus is on teaching practices that engage students and lead to their learning, integrating their background knowledge and cultural experiences with content area literacy. (Cross-listed with TED 8695).
Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; co-requisite TED 3550. 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing).

TED 3750 TEACHING GRAMMAR IN CONTEXT (3 credits)
This course is an analysis of the integration of grammar throughout the writing process and the most effective contexts for and means for teaching grammar. The emphasis is on the application in the secondary school English classroom, on the development of teaching materials for the classroom, and on applications methodology for grammar instruction.
Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400.

TED 3760 ADULT SERVICES, PROGRAMMING, AND OUTREACH IN LIBRARIES (3 credits)
This course examines best practices related to serving adult populations in 21st Century libraries and information agencies. Candidates will examine the characteristics of diverse adult populations and design resources, programming, and services to meet their personal and professional needs.
Prerequisite(s): Not open to non-degree graduate students.

TED 4000 SPECIAL METHODS IN THE CONTENT AREA (3 credits)
This course is designed to develop knowledge, skills, and dispositions requisite of teachers. Course content is determined by the discipline area. For some content areas a field experience will be required. This is an in-school guided practicum completed in conjunction with TED 4000 math, science, language arts, world languages, Business, Information Technology, ESL and social studies sections. Candidates must demonstrate competencies related to performance in 7-12 classrooms. This is the final practicum experience prior to the clinical practice semester. (Cross-listed with TED 8006).
Prerequisite(s): TED 3690 and TED 3550. 2.75 NU GPA and passing Praxis Core scores (Math, Reading, and Writing).

TED 4120 READING & WRITING IN ELEMENTARY CONTENT AREAS (3 credits)
This course is designed to enhance candidates’ knowledge of best practices in teaching reading and writing in the content areas (science, social studies, math, art, music). Candidates will learn about teaching practices that engage elementary students and contribute to their learning, integrating their background knowledge and cultural experiences with content area literacy. This course will inform candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.
Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400.

TED 4220 FINAL PRACTICUM IN EARLY CHILDHOOD EDUCATION (3 credits)
TED 4220 is an in-school guided practicum taken at the end of ECE program coursework. Candidates must demonstrate competencies related to performance in pre-kindergarten education. This is the last practicum course prior to the clinical practice semester.
Prerequisite(s): Completion of ELEM/ECE undergraduate courses: TED 2250, TED 2310, TED 4250, TED 4260, TED 4280, TED 4290. 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing). Not open to non-degree graduate students.

TED 4250 GUIDANCE OF YOUNG CHILDREN (3 credits)
This course will provide an overview of social and emotional development of the young child and an investigation of effective and appropriate guidance techniques as they relate to ages three to eight. Candidates will explore relationship-based approaches to guiding children and building caring and trusting classroom communities.
Prerequisite(s): TED 2250 and TED 2300 (EDUC 2010), 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing).

TED 4260 LANGUAGE AND LITERACY IN EARLY CHILDHOOD EDUCATION (3 credits)
This course is designed for teacher candidates who are preparing to teach children from three to eight years of age, with particular emphasis on the language and literacy development of the young child and appropriate curriculum. Particular attention will be given to the role of the teacher as a dedicated practitioner in the early learning environment.
Prerequisite(s): TED 2250 and TED 2300 or EDUC 2010. 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing). Not open to non-degree graduate students.

TED 4290 INQUIRY IN EARLY CHILDHOOD SCIENCE AND MATHEMATICS EDUCATION (3 credits)
This course is designed to educate teacher candidates about developing early mathematics and science foundations in young children (ages 3-8) with emphasis on inquiry-based teaching, learning, and assessing strategies.
Prerequisite(s): TED 2400, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing). Not open to non-degree graduate students.

TED 4310 ASSESSMENT AND CLASSROOM MANAGEMENT FOR THE ELEMENTARY TEACHER (3 credits)
TED 4310 studies assessment and classroom management principles, effective practices, and assessment and classroom management processes through the elementary curriculum. A practicum completed outside of scheduled class time is required.
Prerequisite(s): TED 3350, TED 4330 and TED 4340; Co-requisites: TED 4320 and TED 4350. 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing). Not open to non-degree graduate students.

TED 4320 TEACHING OF SOCIAL STUDIES: ELEMENTARY (3 credits)
This course is designed to prepare elementary teacher candidates with an introduction to the issues and methods related to teaching social studies to elementary students. An in-school guided practicum is associated with this course. Candidates must demonstrate instructional and professional competencies related to performance in PK-6 classrooms. This is the final practicum experience prior to the clinical practice semester.
Prerequisite(s): TED 3350, TED 4330 and TED 4340; co-requisite TED 4350, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing).
TED 4330  TEACHING OF MATHEMATICS: ELEMENTARY (3 credits)
This course is designed to prepare elementary teacher candidates as mathematics education professionals at the elementary level. The course utilizes "hands-on" discussion and laboratory oriented activities where participants actively practice instructional topics and techniques related to the learning of mathematics at the elementary level. The course will further prepare pre-service elementary teachers to be dedicated practitioners, reflective scholars, and responsible citizens, who can meet the instructional challenges of their profession, as it relates to the student learning of mathematics in a modern and changing world.
Prerequisite(s): MTCH 2000 and MTCH 2010; Co-requisite TED 4340 and TED 3350. 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing).

TED 4340  TEACHING OF SCIENCE: ELEMENTARY (3 credits)
This course is designed to give the undergraduate elementary education candidate a survey of the content of science in the elementary and middle school and a study of the methods and techniques of teaching science.
Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; Co-requisite TED 4330 and 3350. 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing)

TED 4350  TEACHING OF READING AND LANGUAGE ARTS (6 credits)
This course is designed to prepare elementary teacher candidates as educators of reading and the other language arts. Teacher candidates will implement appropriate strategies and assessments in a practicum experience that demonstrate knowledge and dispositions appropriate for teaching reading and language arts to all students. This course will prepare pre-service elementary teacher candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.
Prerequisite(s): TED 3350, 4330 and 4340; co-requisite of TED 4320, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing)

TED 4370  TEACHING AT THE MIDDLE LEVEL (3 credits)
This course will provide candidates with a variety of middle level teaching techniques and strategies in their classrooms that have been identified in current research literature as appropriate for the middle level. This course is designed to introduce candidates to the unique characteristics of the middle student, school, curriculum, history, and philosophy. (Cross-listed with TED 8376).
Prerequisite(s): TED 2300 or EDUC 2010 or TED 2380.

TED 4570  LIBRARY SCIENCE CAPSTONE (3 credits)
Candidates will gain direct experience and an understanding of the theories, concepts and activities integral to public services, technical services, and the administration in a 21st Century library and information agency at an assigned field site or through an in-depth research project. Candidates will demonstrate the ability to plan, develop, and implement programming and services for patrons and diverse learners in their public, academic and special libraries.
Prerequisite(s): There are no specific course prerequisites for the Capstone Practicum but students must be in the final two semesters of their Library Science Education Program.

TED 4590  TEACHING AND LEARNING IN DIGITAL ENVIRONMENTS (3 credits)
This course provides foundational knowledge about tools and technologies for use with all types of educational scenarios. Course content will include information about many different types of learners and literacies and will explore instructional tools and strategies that enhance dissemination of digital information and digital instruction.

TED 4600  CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL (12 credits)
A supervised teaching experience under the direction of university faculty/supervisor and a classroom teacher in the candidate's teaching area.
Prerequisite(s): Candidates must complete all course work, have a minimum cumulative GPA of 2.75, passing Praxis Core scores (Math, Reading, and Writing), and be accepted into Clinical Practice.

TED 4610  TEACHING OF WRITING THROUGHOUT THE CURRICULUM (3 credits)
This course is designed to enhance candidates' knowledge of best practices in teaching writing. Candidates will learn about research supported appropriate writing instruction strategies and assessments. Candidates will be writing extensively throughout the course as they examine the varied ways writing extends throughout the curriculum. This course will inform candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.
Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400.

TED 4630  INSERVICE STUDENT TEACHING: ELEMENTARY AND SECONDARY (3 credits)
Designed as an additional student teaching experience for in service teachers and students seeking certain additional certificates. Candidates must successfully complete an intermediate level field experience prior to student teaching.
Prerequisite(s): Permission. Application is made in the Office of Student Services.

TED 4640  K-12 CLINICAL PRACTICE AND SEMINAR ELEMENTARY/SECONDARY (12 credits)
A supervised teaching experience designed for students seeking certification in art, music, physical education, and library media in the K-12 preparatory program.
Prerequisite(s): Candidates must complete all course work and obtain a minimum overall (cumulative) consistent GPA of 2.75, passing Praxis Core scores (Math, Reading, and Writing) and be accepted into student teaching.

TED 4644  CLINICAL PRACTICE ORIENTATION (0 credits)
This experience provides an introduction to clinical practice.
Prerequisite(s): Candidates must have complete all course work, obtained a minimum overall (cumulative) consistent GPA of 2.75, and been accepted into Clinical Practice.

TED 4650  CLINICAL PRACTICE AND SEMINAR: ELEMENTAL OR SECONDARY LEVEL (6 credits)
A supervised teaching experience under the direction of university faculty/supervisor and a cooperating teacher in the candidate's teaching area.
Prerequisite(s): Candidates must complete all course work, have a minimum cumulative GPA of 2.75, passing Praxis Core scores (Math, Reading, and Writing) and be accepted into Clinical Practice. Co-requisite of the course SPED 4700.

TED 4660  YOUNG ADULT LITERATURE (3 credits)
This course extends candidates' knowledge of literature for young adults. The course addresses current trends in the genre and engages candidates in activities that support pedagogies in basic, visual, information and cultural literacies.

TED 4700  EDUCATION CAPSTONE (3-6 credits)
This course is designed to provide individual and experiential learning in a supervised setting of a selected educational environment outside of the traditional P-12 classroom setting. The candidate will be introduced to the educational practices and roles in an environment that allows for integration of educational theory and practice.
Prerequisite(s): Completion of, or current enrollment in, Professional Education Core courses, GPA of 2.5, no grade below a C in required courses, and permission of Teacher Education Department Chair.

TED 4710  RESEARCH AND INQUIRY (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to reference resources and services in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of effective search strategies and efficient use of both print and digital resources, design and promote information literacy instruction that is developmentally appropriate, and understand the legal and ethical responsibilities integral to positive and proactive reference services for patrons and diverse learners.
TED 4720 SPECIAL LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the major types of 21st Century special libraries and information agencies. Candidates will demonstrate an understanding of social and political environments, clientele, services, collections, physical settings, financing and staffing, and future trends in the special libraries and information agencies. (Cross-listed with TED 8726).

TED 4740 MANAGEMENT OF INFORMATION RESOURCES IN LIBRARIES (3 credits)
This course addresses basic theory and best practice in collection management, descriptive and subject cataloging, and classification of information resources using national standards and resources. Course will address the theories, concepts and activities integral to proactive collection development in 21st Century libraries. Candidates will demonstrate understanding of the legal and ethical aspects of the collection and organization of information resources by appropriately applying the standards of their discipline to ensure access to information and ideas for all patrons.
Prerequisite(s): Not open to non-degree graduate students.

TED 4760 MANAGING COLLECTIONS IN LIBRARIES AND INFORMATION AGENCIES (3 credits)
Candidates will demonstrate an understanding of the theories, concepts and activities integral to proactive collection management in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of community analysis, collection analysis, and the ability to conduct critical evaluations of a diverse array of information resources.

TED 4800 LEADERSHIP AND MANAGEMENT IN LIBRARIES (3 credits)
The course introduces concepts for effective leadership and management for 21st Century libraries of all kinds (special, public, academic, and school). Candidates will be introduced to vocabulary, philosophies, and processes involved in administration of libraries in support of ensuring quality service to all library patrons. Candidates will be introduced to professional ethics and principles and will be made aware of best practices in management of library services and facilities.
Distribution: Writing in the Discipline Single Course

TED 4810 PRINCIPLES AND PHILOSOPHY OF INTEGRATING CAREER AND ACADEMIC EDUCATION (3 credits)
This course presents the philosophies and principles/practices underlying how schools can better prepare students for the workplaces of the future with emphasis on the integration of career education within broader academic preparation. The roles and responsibilities of teachers, counselors, and administrators in implementing integrated approaches will be examined. (Cross-listed with TED 8816).

TED 4850 COORDINATION TECHNIQUES IN WORK-BASED LEARNING (3 credits)
This course reviews responsibilities and techniques of coordination for the work-based learning teacher-coordinator and/or work-based learning coordinator, with special emphasis on administration of the part-time cooperative program and analysis of the laws and regulations governing this program. (Cross-listed with TED 8856).

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/endorsement that require a grade of C or higher, CR/NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

**GPA Requirements:**
2.5 minimum GPA to remain in College of Education, Health, and Human Sciences, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

**Professional education course:** a grade of C or higher is required to pass the class

**Graduation Requirements:** 2.75 minimum NU GPA

---

**Education - Elementary Education, Bachelor of Science**

Candidates completing the elementary education program are eligible for initial teacher certification and endorsement to teach in K-6 classrooms. The program of study is divided into five areas: General Education, Professional Education Sequence, Related Content Courses, Elementary Professional requirements, and a concentration area. The concentrations enhance the knowledge, skills, and marketability of the prospective teacher.

**Contact**

212 Roskens Hall

<td>12</td>
</tr>
</tbody>
</table>

**Concentration Area**

Select a concentration area 12-17

**Optional Endorsement**

A candidate in elementary education may elect to complete an additional endorsement program, instead of or in addition to a concentration.

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/endorsement that require a grade of C or higher, CR/NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

- TED 2400 PLANNING FOR EFFECTIVE TEACHING 6
- MTCH 2010 MATHEMATICS FOR ELEMENTARY TEACHERS II 3
- HEKI 2400 HEALTH ED. & PHYSICAL ED. FOR THE ELEMENTARY SCHOOL TEACHER 3

- Elective for Degree 3

**Advising appointment for spring: Sept. - Oct.**

**MUST attempt PRAXIS Core by January 10th and have 2.75 minimum NU GPA to progress in Educator Preparation Program.**

### Credits
15

##### Spring

- TED 3350 TEACHING AND ASSESSING READING IN ELEMENTARY SCHOOLS 6
- TED 4330 TEACHING OF MATHEMATICS: ELEMENTARY 3
- TED 4340 TEACHING OF SCIENCE: ELEMENTARY 3
- TED 4120 READING & WRITING IN ELEMENTARY CONTENT AREAS 3

*Summer optional* - TED 4120 Reading & Writing in Elementary Content Area

**Advising appointment for fall: February - March**

### Credits
15

#### Senior

##### Fall

- TED 4310 ASSESSMENT AND CLASSROOM MANAGEMENT FOR THE ELEMENTARY TEACHER 3
- TED 4320 TEACHING OF SOCIAL STUDIES: ELEMENTARY 3
- TED 4350 TEACHING OF READING AND LANGUAGE ARTS 6
- SPED 3800 DIFFERENTIATION AND INCLUSIVE PRACTICES 3

**Take Praxis II - EECIA #5017**

**Advising appointment for spring: Sept. - Oct.**

- Apply for clinical practice at beginning of fall term.

### Credits
15

##### Spring

- TED 4600 CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL 12

**Apply for graduation**

### Credits
12

**Total Credits**
120-121

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

### Additional Information About this Plan:

#### University Degree Requirements:

- The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.

- **Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

- **Transfer credit or placement exam scores may change suggested plan of study**

- **GPA Requirements:**
  - 2.5 minimum GPA to remain in College of Education, Health, and Human Sciences, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

- **# Professional education course: a grade of C or higher is required to pass the class**

#### Graduation Requirements:

- 2.75 minimum NU GPA

### Family and Community (non-certification education option)

#### Freshman

##### Fall

- ENGL 1150 ENGLISH COMPOSITION I 3
- CMST 1110 or CMST 2120 PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE 3
MATH 1300  COLLEGE ALGEBRA WITH SUPPORT  3-4
or MATH 1530  or INTRODUCTION TO APPLIED
or MATH 1120  PROBABILITY AND STATISTICS
or MATH 1130  or INTRODUCTION TO
or MATH 1130  MATHEMATICAL AND
or MATH 1530  COMPUTATIONAL THINKING
or QUANTITATIVE LITERACY

Social Science  3
Humanities and Fine Arts  3

Attend welcome events; other campus events

Credits  15-16

Spring
ENGL 1160  ENGLISH COMPOSITION II  3
TED 2250  INTRODUCTION TO EARLY CHILDHOOD  3
EDUCATION
Social Science  3
Natural/Physical Science with Lab  4
Global Diversity  3

Advising appointment for fall: February – March
Join student group
Given number of elective hours needed, explore adding minor
to degree; this is a chance for a student to customize their
program of study to their career goals.

Credits  16

Sophomore
Fall
SPED 1500  INTRODUCTION TO SPECIAL  3
EDUCATION
TED 2100  EDUCATIONAL FOUNDATIONS  3
TED 2200  HUMAN RELATIONS FOR BIAS-FREE  3
CLASSROOMS
Natural/Physical Science without Lab  4
Social Science  3

Gain employment or volunteer work with populations that
serve children, families, youth, individuals with disabilities,
etc. in the community/nonprofit sector.

Apply to Family & Community, non-teacher certification
program by fall deadline; Oct. 1.

Credits  16

Spring
TED 2300  HUMAN GROWTH AND LEARNING  3
TED 2310  FAMILY-CENTERED PARTNERSHIPS  3
TED 2050  INTRODUCTION TO TEACHING ENGLISH  3
TED 2360  AS A SECOND LANGUAGE
CHILDREN'S LITERATURE  3

Humans and Fine Arts  3

Credits  15

Summer
Humans and Fine Arts  3
Elective #1 to reach 120 credit hours  3

Advising appointment for fall: February – March.

Credits  6

Junior
Fall
SPED 4010  MENTAL HEALTH IN SCHOOLS: RISK  3
FACTORS AND INTERVENTIONS

TED 2060  EQUITY, LANGUAGE, AND CULTURAL  3
LITERACY
TED 2350  PLAY IN EARLY CHILDHOOD INCLUSIVE  3
EDUCATION

Family & Community Core course. Pick from approved list. #1 of
5
Elective #2 to reach 120 credit hours  3
Visit Academic & Career Development Center for resume/
cover letter building and editing
Begin to identify where you would like your community
internship to be.

Credits  15

Spring
TED 2500  DIGITAL CITIZENSHIP  3
Family & Community Core course. Pick from approved list. #2 of
5
Family & Community Core course. Pick from approved list. #3 of
5
Elective #3 to reach 120 credit hours  3
Elective #4 to reach 120 credit hours  2
Advising appointment for fall: February – March

IF applying to graduate school, prepare to apply to graduate
schools in summer prior to senior year: Take GRE exam junior
summer, write personal statement, update resume, get
application process organized, and think about who would
write letters of recommendation.

Credits  14

Senior
Fall
SPED 4800  SOCIAL AND EMOTIONAL  3
or COUN 2020  DEVELOPMENT OF CHILDREN AND
YOUTH  3
or INTRODUCTION TO COUNSELING
THEORY AND PSYCHOTHERAPY

Family & Community Core course. Pick from approved list. #4 of
5
Elective #5 to reach 120 credit hours  3
Elective #6 to reach 120 credit hours  3
Submit internship application by September 15. Must
have internship finalized and internship forms signed and
submitted to advising office (Roskens Hall 204) by November
1st.
Attend internship orientation in late November/early
December.
IF applying to a graduate program, prepare to submit
graduate school applications by December or prior to
university deadline. Ask for letters of recommendation in
October.

Credits  12

Spring
TED 4700  EDUCATION CAPSTONE  6
Family & Community Core course. Pick from approved list. #5 of
5
Elective #7 to reach 120 credit hours  3
Apply for graduation by deadline.

Credits  12

Total Credits  121-122
This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:
The BS in Elementary Education – Family & Community Concentration does not lead to teacher certification. Students in the Teacher Education Department have the flexibility to earn an education degree without pursuing teacher certification. Students will complete 120 credit hours of coursework including a capstone course with 270-hour internship (TED 4700 Education Capstone). Flexibility exists for minors and elective credits. For list of approved Family & Community concentration courses, view the current degree worksheet and program website here: https://www.unomaha.edu/college-of-education/student-services/certification/non-cert-education.php

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

GPA Requirements: 2.5 cumulative and major GPA

Graduation Requirements: Students must have a cumulative and major GPA of at least 2.5, no grade lower than "C" in required courses, and no incomplete in required courses to be recommended for graduation.

1 STEM Selection Area:  
Biology Selection - BIOL 1020 - ENGL1150 placement by the English Placement and Proficiency Exam (EPPE), grade of C- or better in English 1050 or 1100, ACT English subscore of 20 or higher, or permission of the department  
Chemistry Selection - CHEM 1140 & CHEM 1144 - MATH 1220 or equivalent within last two years (C- or better); or ACT Math subscore of at least 23 within last two years; or Accuplacer score of at least 4 within last two years. CHEM 1144 concurrent or prior with C- or better  
Physics Selection - TED 2800 or PHYS 1030 & PHYS 1034 (High School algebra or equivalent) or PHYS 1350 & PHYS 1354 (High School algebra or equivalent)  
Geology Selection - GEOL 1010 or GEOL 1100 or TED 1110  

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.  
This plan is not a contract and curriculum is subject to change  

---  

**Additional Information About this Plan:**  
**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.  
**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)  
**Transfer credit or placement exam scores may change suggested plan of study**  
**GPA Requirements:**  
2.5 minimum GPA to remain in College of Education, Health, and Human Sciences, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program  
# Professional education course: a grade of C or higher is required to pass the class  
**Graduation Requirements:** 2.75 minimum NU GPA  

---  

**Education - Library Science, Bachelor of Science**  
The library science program is designed to prepare candidates for employment in 21st century public, academic and special libraries, and information agencies. The library science courses engage candidates in classroom, field site, and service experiences that support the development of the personal, professional and technical skills and dispositions required to work effectively with patrons in today's diverse communities.

---  

**Electives**
Select 27 credits of electives distributed over the following areas:
- Technology – three credit hours
- Literacy – 12 credit hours
- Human Relations – 12 credit hours

Individuals must also complete an approved minor plus elective courses sufficient to reach the minimum of 120 credit hours needed for graduation.

Total Credits 57

A minimum grade of "C" must be earned in all professional TED courses, Technology electives, Literacy electives, and Human Relations electives. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to graduation. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/endorsement that require a grade of C or higher, CR/NC is not permissible.

A minimum GPA of 2.75 or higher is required in order to graduate from the Library Science program.

This roadmap is a suggest, plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.
Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

GPA Requirements:
2.5 minimum GPA to remain in College of Education, Health, and Human Sciences
# Professional education course: a grade of C or higher is required to pass the class

Graduation Requirements: 2.75 minimum NU GPA

Education - Secondary Education, Bachelor of Science

The program in secondary education is designed to prepare candidates to meet Nebraska requirements for a related (5-9, 6-12 or 7-12) level teaching certificate or a PK-12 teaching certificate. The coursework for a Secondary Education Endorsement is divided into four areas: General Education, Endorsement Content, Professional Education Sequence, and Secondary Professional requirements. Secondary candidates must select one of the approved endorsement areas.

Requirements
A candidate for a degree and/or teaching endorsement in grades 6-12 or 7-12 must complete the following course requirements:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>TED 3550</td>

</tr>
</tbody>
</table>

Methods within their content area

Total Credits 21

1 Must take with SPED 4700.

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Total Credits 12

Middle Level 4-9

Candidates are required to complete two teaching content areas as part of the middle grades endorsement program. Candidates must select their two content subjects from the areas of: mathematics, science, social studies, and language arts. One of the choices must be either mathematics or science. All content areas will be a minimum of 24 credit hours each. (See an academic adviser for a listing of the required courses for each teaching content area.) Each content area will also include a course in methods for that particular discipline. Clinical Practice is required and will be completed in a middle grades setting.

**Endorsements Offered**

Candidates seeking 5-9, 6-12, 7-12 or PK-12 certification must complete one of the endorsements below.

- Art (PK-12) Endorsement (p. 573)
- Biology (7-12) Endorsement (p. 573)
- Business, Marketing, Information Technology (BMIT) (6-12) Endorsement (p. 575)
- Chemistry (7-12) Endorsement (p. 576)
- Secondary English (7-12) with ESL Supplemental Endorsement (p. 579)
- Secondary English (7-12) with Additional Subject Endorsement (p. 581)
- World Language - French (7-12) Endorsement (p. 582)
- World Language - German (7-12) Endorsement (p. 583)
- Language Arts/English (7-12) Endorsement (p. 578)
- Mathematics (6-12) Endorsement (p. 585)
- Middle Level (5-9) Endorsement (p. 586)
- Music (PK-12) Endorsement (p. 589)
- Physics (7-12) Endorsement (p. 589)
- Physical Education (PK-12) Endorsement (p. 591)
- Physical Education (7-12) and Health (7-12) Endorsement (p. 593)
- Science (7-12) Endorsement (p. 595)
- Social Science (7-12) Endorsement (p. 596)
- World Language - Spanish (7-12) Endorsement (p. 598)

**Dual Endorsement Programs Offered**

Candidates may elect to complete a second endorsement as part of their secondary education program. These dual endorsements require two semesters of clinical practice (student teaching) and result in two teaching endorsements on the Nebraska teaching certificate. The following dual endorsements are available.

- Deaf/Hard of Hearing (7-12) Endorsement (p. 599)

**Supplemental Endorsements Offered**

Supplemental endorsements are content areas which can be added to a Nebraska teaching certificate in the presence of other earned endorsements. A supplemental endorsement cannot stand alone on an initial teaching certificate. The following supplemental endorsements are available.

- Coaching (7-12) Endorsement (p. 601)
- English as a Second Language (7-12) Endorsement (p. 601)
- Information Technology (PK-12) Endorsement (p. 602)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

#### University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.
**Placement Exams:**
For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**GPA Requirements:** 2.5 minimum GPA to remain in College of Education, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

*Professional education course: a grade of C or higher is required to pass the class*

**Graduation Requirements:** 2.75 minimum NU GPA

---

**Youth and Training Concentration**

**Total Credits:** 121-122

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan: The BS in Secondary Education – Youth & Training Concentration does not lead to teacher certification. Students in the Teacher Education Department have the flexibility to earn an education degree without pursuing teacher certification. Students will complete 120 credit hours of coursework including a capstone course with 270-hour internship. Flexibility exists for minor programs and elective credits. For list of approved Youth & Training concentration courses, view the current degree worksheet and program website here: https://www.unomaha.edu/college-of-education/student-services/certification/non-cert-education.php

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

GPA Requirements: 2.5 cumulative and major GPA

† Professional education course: a grade of C or higher is required to pass the class

Graduation Requirements: Students must have a cumulative and major GPA of at least 2.5, no grade lower than "C" in required courses, and no incomplete in required courses to be recommended for graduation.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study**

**GPA Requirements:**
- 2.5 minimum GPA to remain in College of Education
- 2.5 minimum GPA to apply to Educator Preparation Program
- 2.75 minimum GPA to progress in Educator Preparation Program

**Professional education course:** a grade of C or higher is required to pass the class

**Graduation Requirements:** 2.75 minimum NU GPA

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**GPA Requirements:**
- 2.5 minimum GPA to remain in College of Education
- 2.5 minimum GPA to apply to Educator Preparation Program
- 2.75 minimum GPA to progress in Educator Preparation Program

Professional education course: a grade of C or higher is required to pass the class

### Graduation Requirements:
- 2.75 minimum NU GPA

### Required German Electives
Select 6 hours of GERM 3000/4000-level courses.

| Total Credits | 30 |

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/endorsement that require a grade of C or higher, CR/NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

**GPA Requirements:**
2.5 minimum GPA to remain in College of Education, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

## Professional education course: a grade of C or higher is required to pass the class

**Graduation Requirements:** 2.75 minimum NU GPA

### Middle Level (5-9) Endorsement

Candidates are required to complete two teaching content areas as part of the middle grades endorsement program. Candidates must select their two content subjects from the areas of: mathematics, science, social studies, and language arts. **One of the choices must be either mathematics or science.** All content areas will be a minimum of 24 credit hours each. (See an academic adviser for a listing of the required courses for each teaching content area.) Each content area will also include a course in methods for that particular discipline. Clinical Practice is required and will be completed in a middle grades setting.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

**Additional Information About this Plan:**

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**Transfer credit or placement exam scores may change suggested plan of study**

**GPA Requirements:**
- 2.5 minimum GPA to remain in College of Education
- 2.5 minimum GPA to apply to Educator Preparation Program
- 2.75 minimum GPA to progress in Educator Preparation Program

**# Professional education course: a grade of C or higher is required to pass the class**

**Graduation Requirements:** 2.75 minimum NU GPA

MATH 1950  CALCULUS I  5
MATH 1960  CALCULUS II  4
MATH 1970  CALCULUS III  4

Total Credits  55

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/endorsement that require a grade of C or higher, CR/NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Freshman

Fall Credits
ENGL 1150  ENGLISH COMPOSITION I  3
PHYS 1350 & PHYS 1354  PRINCIPLES OF ASTRONOMY and INTRODUCTORY ASTRONOMY LAB  4
MATH 1950  CALCULUS I  5
Social Science  3
Student must test into MATH 1950 Calculus one based off of AP Math scores or Accuplacer exam, or bring transfer credit for MATH 1320 & 1330 or MATH 1340. These additional math courses may be required before MATH 1950 if the student does not test into it.

Attend welcome week events.

Spring Credits
ENGL 1160  ENGLISH COMPOSITION II  3
MATH 1960  CALCULUS II  5
CMST 1110  PUBLIC SPEAKING FUNDS  3

TED 4600  | CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL          | 12      |

**Total Credits** 78

* Except PEA 111H, PEA 112L, and PEA 112S.

Health Education 7-12 Endorsement

The health education program is designed to prepare candidates for health education positions in secondary schools. The following hours are required for this endorsement:

**Health Education 7-12 Endorsement**

PHHB 1500 | FOUNDATIONS IN PUBLIC HEALTH                                           | 3       |
PHHB 2070 | SUBSTANCE ABUSE AND MISUSE PREVENTION AND MANAGEMENT                   | 3       |
PHHB 2310 | HEALTHFUL LIVING                                                       | 3       |
PHHB 2850 | STRESS MANAGEMENT                                                      | 3       |
PHHB 3030 | FIRST AID                                                              | 3       |
PHHB/WGST 3080 | HEALTH CONCEPTS OF SEXUAL DEVELOPMENT                               | 3       |
PHHB 4000 | METHODS AND MATERIALS IN HEALTH EDUCATION                             | 3       |
PHHB 4060 | SCHOOL HEALTH PROGRAMS                                                | 3       |
PHHB 4960 | PUBLIC HEALTH - PLANNING AND ORGANIZATION                             | 3       |
BMCH 2400 | HUMAN PHYSIOLOGY & ANATOMY I                                          | 4       |
TED 3550  | SECONDARY CLASSROOM MANAGEMENT                                        | 3       |
TED 3690  | LITERACY AND LEARNING                                                 | 3       |

**Total Credits** 37

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/endorsement that require a grade of C or higher, CR/NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

### Credits 12

### Total Credits 142

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

### Additional Information About this Plan:

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

**GPA Requirements:** 2.5 minimum GPA to remain in College of Education, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

**# Professional education course: a grade of C or higher is required to pass the class**

**Graduation Requirements:** 2.75 MINIMUM NU GPA

**Transfer credit or placement exam scores may change suggested plan of study**

This roadmap is suggested for study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Take Praxis II- World Language – Spanish #5195

Apply for practical experience (student teaching) at beginning of fall term.

Credits 18

Spring
TED 4600 CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL 12

Apply for graduation

Credits 12

Total Credits 120

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:
2.5 minimum GPA to remain in College of Education, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

Graduation Requirements: 2.75 minimum NU GPA

Deaf/Hard of Hearing (7-12) Endorsement

Total Credits 56

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.
For courses in this major/endorsement that require a grade of C or higher, CR/NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

### Special Education and Communication Disorders

The mission of the Special Education and Communication Disorders department is to prepare dedicated practitioners, reflective scholars, and responsible citizens who are unique in their ability to facilitate, design, implement, and evaluate programs for individuals with disabilities. This is accomplished by creating opportunities for the acquisition and maintenance of knowledge, skills, and dispositions as prescribed by the Council for Exceptional Children, the Council on Academic Accreditation in Audiology and Speech-Language Pathology (for graduate program only), and state and federal regulations.

Undergraduate candidates follow a course of study with accompanying practical experiences that are grounded in theory, research, evidence-based practice, and experience. Our candidates develop essential interpersonal skills that make them valued members of collaborative, interdisciplinary teams in a variety of settings. Thus, each program of study is designed to promote problem solving skills that enable candidates to continue to broaden their skills and enhance their expertise throughout their professional career. These skills facilitate the recognition and integration of professional ethics with the individual needs and values of the communities they serve.

### Accreditation

For program accreditation information, please refer to this table (p. 526).

The undergraduate degree in communication disorders provides the fundamental prerequisite knowledge necessary for pursuing a graduate degree. The graduate degree is the minimal requirement for employment as a speech-language pathologist in Nebraska. The speech-language pathology graduate program provides candidates with the opportunity to acquire and maintain the knowledge, skills, and dispositions as prescribed by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CFCC), by the Nebraska Department of Education, and by Nebraska Health and Human Services.
**Contact**
512 Roskens Hall  
6005 Dodge Street  
Omaha, NE 68182-0054

Website (http://www.unomaha.edu/college-of-education/special-education-communication-disorders/)

**Students interested in becoming special education teachers must formally apply for admission to the Educator Preparation Program (EPP).**

In order to be formally admitted to a program in special education and remain in good standing, a candidate must maintain an overall GPA of 2.75 or better. No grade below a "C" will be accepted in any professional education course, or any course in the specialization area.

- Application instructions (p. 550) for the Educator Preparation Program.

**Communication Disorders**

For students pursuing the Communication Disorders major, no application is required. To continue with Communication Disorders (CDIS) courses, students must maintain a 3.0 NU GPA or higher. The Praxis Core is required for the Speech-Language Pathology Graduate Application.

**Early Admission to the Speech-Language Pathology Graduate Program via FAST track**

For information regarding early admission to the Speech-Language Pathology Graduate Program via FAST Track, please refer to application information online here (p. 612).

**Degrees Offered**

- Education, Bachelor of Science (p. 608)

**Programs**

- Deaf/Hard Hearing (p. 612)
- Early Childhood Inclusive (p. 556)
- Special Education Dual Endorsement with Elementary Education or Secondary Education (p. 603)
- Special Education (p. 608)
- Communication Disorders (Pre-Professional Program)

**Writing in the Discipline**

For Writing in the Discipline, Special Education majors complete TED 2100, Communication Disorders majors complete CDIS 3200, students in the Sign Language Interpreting concentration complete ENGL 2400, and students in the Deaf/Hard of Hearing endorsement complete TED 2100.

**Minor Offered**

American Sign Language (ASL) Minor (p. 616)

**Education - Special Education Dual Endorsement with Elementary Education or Secondary Education, Bachelor of Science**

This program is designed for candidates preparing for careers serving children and youth with disabilities. This program is part of the educator preparation program at either the elementary or secondary level. In the educator preparation program candidates must complete a dual endorsement in special education and elementary or secondary education. The preparation meets or exceeds the Council for Exceptional Children (CEC) initial level special educator preparation standards for special education teachers.

SPED 4810 BEHAVIOR INTERVENTIONS AND SUPPORTS 3

Total Credits 51

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/endorsement that require a grade of C or higher, CR/NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Education - Special Education, Bachelor of Science

The BSED degree certificate in Special Education allows UNO to recommend graduates for Nebraska licensure in special education.

Potential Career Opportunities/settings:

- Public School systems
- Private School systems

SPED 1110 AMERICAN SIGN LANGUAGE I (3 credits)
This is the introductory course in a five-course series teaching American Sign Language. The focus will be on conversational skills and a basic understanding of the Deaf community within a cultural context. Expressive and receptive vocabulary and grammar skills will be fostered through interactive class activities.
Prerequisite(s): Pre-requisite SPED 1114 ASL Lab

SPED 1114 AMERICAN SIGN LANGUAGE I LAB (1 credit)
This is the co-requisite lab course for SPED 1110, American Sign Language I. Students will meet weekly in the ASL Lab interacting in a small group setting with a Deaf mentor.
Prerequisite(s): Co-requisite SPED 1110

SPED 1120 AMERICAN SIGN LANGUAGE II (3 credits)
This is the second course in a five-course series teaching American Sign Language. Candidates will continue to develop the use of body language/mime, basic sentence types, manual alphabet, manual numbers/number systems, and intermediate vocabulary.
Prerequisite(s): SPED 1110 and SPED 1114 with a grade of C or higher.
Co-requisite: SPED 1124

SPED 1124 AMERICAN SIGN LANGUAGE II LAB (1 credit)
This is the co-requisite lab course for SPED 1120, American Sign Language II. Students will meet weekly in the ASL Lab interacting in a small group setting with a Deaf mentor.
Prerequisite(s): SPED 1110 and SPED 1114 with a grade of B- or higher; Co-requisite: SPED 1120.

SPED 1500 INTRODUCTION TO SPECIAL EDUCATION (3 credits)
This course is designed to help students explore issues and perspectives related to children, adolescents, and young adults with a variety of ability and disability experiences. It provides an introduction to the historical factors, legislation, terminology, etiology, characteristics that are commonly encountered when addressing the needs of diverse students with disabilities ranging from mild, moderate to severe.
Prerequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course and U.S. Diversity General Education course

SPED 2100 PROFESSIONALISM & ETHICS OF INTERPRETING (3 credits)
This survey course provides an introduction to the profession and ethics of sign language interpreting. The student learns what is expected of an interpreter (roles, functions, responsibilities) and applies this knowledge to a variety of settings. Information about the history of the profession, professional organizations, and settings where interpreters work is presented. Students will be introduced to Demand/Control Schema as a foundation for assessment ethical scenarios.
Prerequisite(s): Minimum 2.75 GPA and/or special permission from the instructor.

SPED 2110 AMERICAN SIGN LANGUAGE III (3 credits)
This course is a continuation and elaboration on ASL I and ASL II. Proper ASL vocabulary, syntax, semantics, and pragmatics will be expanded both receptively and expressively. This course provides exposure to idiomatic language through conversation, narration, and storytelling.
Prerequisite(s): Minimum 2.75 GPA; SPED 1120 and SPED 1124 with a grade of B- or higher; co-requisite: SPED 2114.

SPED 2114 AMERICAN SIGN LANGUAGE III LAB (1 credit)
This is the co-requisite lab course for SPED 2110, American Sign Language III. Students will meet weekly in the ASL Lab interacting in a small group setting with a Deaf mentor.
Prerequisite(s): Minimum 2.75 GPA; SPED 1120 and SPED 1124 with a grade of B- or higher; co-requisite: SPED 2114.

SPED 2120 AMERICAN SIGN LANGUAGE IV (3 credits)
This is the fourth course in the five-course series of American Sign Language. Proper ASL vocabulary, syntax, semantics, and pragmatics will be expanded both receptively and expressively. This course will increase students’ competence using ASL through conversation, narration, and storytelling with additional awareness of cultural behaviors, rules of discourse and dialectal variations in ASL.
Prerequisite(s): Minimum 2.75 GPA; SPED 2110 and SPED 2114 with a grade of B- or higher; co-requisite: SPED 2124.

SPED 2124 AMERICAN SIGN LANGUAGE IV LAB (1 credit)
This is the co-requisite lab course for SPED 2120, American Sign Language IV. Students will meet weekly in the ASL Lab interacting in a small group setting with a Deaf mentor.
Prerequisite(s): Prerequisites: minimum 2.75 GPA; SPED 2120 and SPED 2124 with a grade of B- or higher. Corequisite: SPED 2120

SPED 2200 DEAF STUDIES (3 credits)
This is an introductory course which surveys historical, psychological, and sociological aspects of deafness. This course introduces students to aspects of Deaf Culture and the Deaf Community. It will also examine current issues and trends and future directions in the education of children who are deaf or hard of hearing. Basic concepts, theories, research, and philosophical debates are explored through assigned readings, independent work, and classroom activities.
Prerequisite(s): Minimum 2.75 GPA.
Distribution: U.S. Diversity General Education course
SPED 2300 SPECIAL EDUCATION LAW & INDIVIDUAL EDUCATION PROGRAMS (3 credits)
This course provides an overview of special education policy and law with an emphasis on components of individual education programs (IEPs), the special education referral process, and preparing for IEP meetings. Content knowledge will include IEP components and their function. Students will apply this knowledge to IEP component writing and development practice.
Prerequisite(s): SPED 1500

SPED 2550 HEALTH AND WELL-BEING OF INFANTS AND TODDLERS (3 credits)
This course is designed to help students gain knowledge and skills that will enable them to design curricula, create supportive environments, and provide effective learning opportunities to promote the healthy development of infants and young children. There will be an emphasis on effective and culturally responsive collaboration with families and caregivers. This course includes a field experience in programs that serve infants/toddlers and their families.
Prerequisite(s): TED 2250. Not open to non-degree graduate students.

SPED 3000 SPECIAL STUDIES (1-3 credits)
This course is designed to allow candidates to pursue independent study of a topic under the direction and guidance of a faculty member. Topics studied and the nature of the learning activities is mutually agreed upon by the candidate and instructor.
Prerequisite(s): Permission by instructor

SPED 3020 DATA COLLECTION TECHNIQUE: ROLE IN TEACHING LEARNING PROCESS (3 credits)
This is a course on formal and informal assessment for Special Education. Candidates will learn how to collect assessment data to be used for data based decision making.
Prerequisite(s): SPED 1500 and TED 2400, Co-requisite SPED 4640 & SPED 4000 and 2.75 NU GPA and passing Praxis Core scores (Math, Reading and Writing)

SPED 3100 ENGLISH/ASL COMPARATIVE LINGUISTICS (3 credits)
This course offers a study of the fundamental concepts of linguistics and its application to the study of American Sign Language. Candidates will compare and contrasting English and American Sign Language structure. Focus will be on the fundamental areas of linguistic inquiry, which include phonology, morphology, syntax, semantics, and the use of language. Using current research, candidates will begin to think critically about the structure of ASL and its recognition as a language. Candidates will be expected to translate between English and signed languages to deepen understanding of the study of linguistics. A video will supplement the textbook by providing examples of signs/concepts discussed in the course.
Prerequisite(s): Minimum 2.75 GPA; SPED 3110 ASL V; SPED 3114 ASL V Lab; or demonstrated proficiency.

SPED 3110 AMERICAN SIGN LANGUAGE V (3 credits)
As the fifth course in ASL, students will be able to communicate fluently with native ASL users. Additional linguistic principles will be presented at an advanced level and complex grammatical structures will be utilized in presentations. This course will continue to explore issues of linguistic code-switching, and regional variations in ASL.
Prerequisite(s): Minimum 2.75 GPA; SPED 2120 and SPED 2124 with a grade of B- or higher; co-requisite: SPED 3114.

SPED 3114 AMERICAN SIGN LANGUAGE V LAB (1 credit)
This is the co-requisite lab course for SPED 3110, American Sign Language IV. Students will meet weekly in the ASL Lab interacting in a small group setting with a Deaf mentor.
Prerequisite(s): Minimum 2.75 GPA; SPED 2120 and SPED 2124 with a grade of B- or higher; co-requisite: SPED 3110. Not open to non-degree graduate students.

SPED 3120 ACADEMIC INTERPRETING (3 credits)
In this course candidates will focus on skills required for interpreting in a variety of academic settings. Candidates will learn to produce appropriate and equivalent interpreted messages between signed and spoken communication. Candidates will observe and analyze spoken and signed language used in the classroom and in extracurricular activities. Candidates will understand the interpreter’s role as part of the educational team and how that impacts their work with students. Also included will be review and deeper exploration of communication styles, modes and language used by children.
Prerequisite(s): GPA 2.75 or better. SPED 3110 and SPED 3114 with B- or higher or special permission from the instructor. Score of intermediate or higher on the ASL Proficiency Interview or Sign Language Proficiency Interview. Not open to non-degree graduate students.

SPED 3130 COMMUNITY INTERPRETING (3 credits)
In this course students will learn skills in producing equivalent ASL and/or English messages in both consecutive and simultaneous interpreting. Students will interpret for adults and children moving from monologues to dialogues developing fluency, speed and accuracy. Students will continue to develop their English vocabulary, ASL vocabulary, interpreting analysis skills and strategies for team interpreting within the genres of medical and mental health, employment and vocational settings, social services, business and insurance.
Prerequisite(s): GPA 2.75 or better. SPED 3110 and SPED 3114 or special permission from the instructor. Score of intermediate or higher on the ASL Proficiency Interview or Sign Language Proficiency Interview.

SPED 3140 DISCOURSE ANALYSIS AND SOCIOLINGUISTICS FOR INTERPRETERS (3 credits)
During the course students will analyze language use in spoken English and American Sign Language (ASL) so that features of language use rise to the level of explicit awareness. Students collect, transcribe, and analyze various speech activities while reading and discussing theoretical notions underlying language use.
Prerequisite(s): Minimum 2.75 GPA; SPED 2110 and SPED 2114 with a grade of B- or higher; or special permission from the instructor. Not open to non-degree graduate students.

SPED 3150 COGNITIVE PROCESSING IN ASL AND ENGLISH (3 credits)
This course presents practice of cognitive skills used in the process of interpreting from English and the process of interpreting from ASL. Skills include visualization, prediction, listening, memory, abstracting, closure, dual tasking, and processing time. Integration and application of these skills will lead to a self-monitoring process that will allow for self-assessment and commentaries on work performed.
Prerequisite(s): Minimum cumulative 2.75 GPA, and SPED 2120 and SPED 2124 with a grade of B- or higher; or instructor permission. Not open to non-degree graduate students.

SPED 3800 DIFFERENTIATION AND INCLUSIVE PRACTICES (3 credits)
This course is designed to examine characteristics of students with various learning needs and how to apply principles of Universal Design for Learning (UDL) to meet their needs in an inclusive environment. This course will expand the special education content knowledge of general education teachers so they can meet the needs of all students by planning lessons using the UDL framework. The purpose of this course is for general education teacher candidates to gain content knowledge about special education policies and procedures to utilize various educational, emotional, and social accommodations necessary to provide unique and effective educational or alternative responses for students with various learning needs.
Prerequisite(s): TED 2400 or EDUC 2520; Minimum 2.75 GPA. Not open to non-degree graduate students.
SPED 4000 PRACTICUM IN SPECIAL EDUCATION (3 credits)
This practicum will examine special education methods, techniques and strategies used with children and youth with disabilities in a variety of K-12 school settings. Classroom practice and application of instructional planning and implementation, assessment techniques and behavior management will be emphasized. Collaboration and consultation models will also be included in this experience.
Prerequisite(s): EDUC 2510 & EDUC 2520 or SPED 1500 & TED 2400; GPA 2.75 or higher. Co-requisites: SPED 3020 & SPED 4640. Not open to non-degree graduate students.

SPED 4010 MENTAL HEALTH IN SCHOOLS: RISK FACTORS AND INTERVENTIONS (3 credits)
This course explores the role that educators and school mental health professionals play in identifying the risk factors and warning signs of children and youth with mental health concerns. Students will understand the risk and protective factors at the individual, family, school, and community level as related to children and youth’s mental health.
The course will provide an overview of externalizing and internalizing disorders as well as school-based and community-based treatments and interventions. (Cross-listed with COUN 4010, COUN 8016, SPED 8016).
Prerequisite(s): SPED 1500 or EDUC 2510, TED 2300, Minimum 2.75 GPA. Not open to non-degree graduate students.

SPED 4040 WORKSHOP IN SPECIAL EDUCATION OR SPEECH-LANGUAGE PATHOLOGY (1-6 credits)
The purpose of this course is to provide workshops or special seminars in the area of special education and communication disorders. This course will prepare graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED 8046).

SPED 4110 SIGNED ENGLISH AND OTHER SYSTEMS (3 credits)
This course examines the communication methods and modes used in some educational settings with people who are deaf or hard of hearing. Candidates will gain understanding and specific skills in Simultaneous Communication, Total Communication, Signing Exact English, and Conceptually Accurate Signed English. Information will be shared about the latest technology and resources available to aid communication in the classroom.
Prerequisite(s): Minimum 2.75 GPA; SPED 3110 and SPED 3114 with a grade of B- or higher; or special permission from the instructor.

SPED 4150 READING AND WRITING INSTRUCTION FOR STUDENTS WITH DISABILITIES (3 credits)
This course is designed to provide preservice teacher candidates skills and strategies for instructing students with high incidence disabilities that struggle to acquire literacy skills. Emphasis is placed on diagnosis and assessment of specific reading and writing difficulties to determine effective instructional strategies. Instructional strategies will address modifications directed at teaching oral language, reading, writing, and spelling skills.
Prerequisite(s): SPED 1500 and TED 2400 and 2.75 NU GPA and passing Praxis Core scores (Math, Reading and Writing). Not open to non-degree graduate students.

SPED 4180 INTERPRETING IN SPECIALIZED SETTINGS (3 credits)
This course focuses on interpreting/transliterating for special populations in a variety of specialized settings. Video relay, Deaf-Blind, Mental Health, Legal, Religious, Multi-cultural and Theatrical settings are among the specialized settings in which interpreting students will participate in additional training.
Prerequisite(s): GPA 2.75 or better. SPED 3110 and SPED 3114 with B- or higher or special permission from the instructor. Score of intermediate or higher on the ASL Proficiency Interview or Sign Language Proficiency Interview. Not open to non-degree graduate students.

SPED 4230 LANGUAGE DEVELOPMENT AND DISORDERS FOR TEACHERS (3 credits)
This course is designed to introduce the candidate to the nature and structure of language, current theories of language, normal first and second language development, language disorders, multicultural issues in language assessment, and contemporary classroom management of language deficits. The topics will be examined from an educational perspective to enhance the teachers knowledge of language and to facilitate classroom management of language deficits exhibited by exceptional children in grades pre-K through 12. (Cross-listed with SPED 8236).
Prerequisite(s): Minimum 2.75 GPA; SPED 1500 or ECI major; TED 2300 or TED 2380 or permission of the instructor.

SPED 4240 TEACHING/INTERPRETING LANGUAGE TO DEAF/HARD OF HEARING (5 credits)
This course will examine specific programs, methods, and techniques employed in teaching and developing language with deaf and hard of hearing children from primary through secondary levels. Current theories and practices in reading and language arts instruction will be examined. This course will also present methods for assessing reading and language problems in deaf/hard of hearing children, making adaptations and modifications in curriculum, integrating technology, and including parents in the instructional process. The sign language interpreter plays a vital role to a student who is deaf or hard of hearing because interaction is so important. When an interpreter is fluent in the use of language(s), the interpreter facilitates the student’s ability to learn the language. An experienced interpreter uses knowledge of language development to make modifications to his/her interpreting approach.
Prerequisite(s): GPA 2.75 or better and SPED 3110 and SPED 3114 with a grade of B- or higher, or special permission from the instructor. Background check using UNO vendor.

SPED 4280 TEACHING AMERICAN SIGN LANGUAGE AS A WORLD LANGUAGE (3 credits)
This course provides a hands-on experience in the design and implementation of ASL instruction and curriculum. The course will address methods, materials, program evaluation, and teaching approaches for preparing professional instructors of ASL.
Prerequisite(s): Min 2.75 GPA & proficiency in ASL. Prof shown by one of the following: complete ASL I-V courses, personal interview w/instructor, or a min level of 3 on ASL Proficiency Interview or Sign Comm Proficiency Interview. Not open to non-degree grad students.

SPED 4310 VOICE-TO-SIGN (3 credits)
This course begins consecutively interpreting monologues from the source language (English) to the target language (ASL). Students will listen to entire English monologues, process them, analyze them, and then choose appropriate ASL to match the message. The course provides instruction on refining and enhancing voice-to-sign skills, specifically simultaneously producing equivalent ASL messages from spoken English source messages. Students will learn to sign simultaneously and consecutively when viewing video or listening to audio of native English speakers from a variety of settings.
Prerequisite(s): GPA 2.75 or better and SPED 3110 and SPED 3114 with a grade of B- or higher, or special permission from the instructor. Score of intermediate or higher on either the ASL Proficiency Interview or the Sign Language Proficiency Interview.

SPED 4320 SIGN-TO-VOICE (3 credits)
This course provides instruction on refining and enhancing sign-to-voice skills specifically simultaneously producing ASL source messages from signed English target messages. Students will learn to voice simultaneously and consecutively when viewing video of native signers who use a variety of signing modalities to communicate. Students will develop the ability to produce an equivalent ASL message from ASL source messages.
Prerequisite(s): GPA 2.75 or better and SPED 3110 and SPED 3114 with a grade of B- or higher, or special permission from the instructor. Score of intermediate or higher on either the ASL Proficiency Interview or the Sign Language Proficiency Interview.
SPED 4350 TEACHING CONTENT SUBJECTS TO DEAF/HARD OF HEARING (4 credits)
This course will describe, investigate, and put into practice instructional strategies employed in developing knowledge and concepts in social studies, science, and mathematics. The scope of the course will be preschool through high school. Curricula and materials used with K-12 students who are deaf or hard of hearing will be reviewed and evaluated.
Prerequisite(s): Minimum 2.75 GPA; EDUC 2510 or SPED 1500; TED 2400 or permission of the instructor.

SPED 4640 METHODS AND MATERIALS IN SPECIAL EDUCATION (3 credits)
This course is designed to describe the various instructional methods that have been used successfully in supporting students with disabilities in a variety of settings. This course is also intended to provide pre-service and in-service candidates with knowledge and evidence-based teaching strategies essential for modifying the learning environment and individualizing instruction for students with disabilities. In addition, teaching methods will focus on academic curriculum lesson planning, development of IEPs, selection of instructional methods and materials, and universal design for learning (UDL).
Prerequisite(s): SPED 1500, TED 2400 and 2.75 NU GPA and passing Praxis Core scores (Math, Reading and Writing); Co-requisite courses SPED 3020 & SPED 4000. Not open to non-degree graduate students.

SPED 4650 TRANSITION PLANNING (3 credits)
Curriculum oriented for teachers and related professionals to work with the career development and transition of individuals with disabilities within a multicultural and global society. Includes information for elementary through adulthood with emphasis on transition from high school to community living. (Cross-listed with SPED 8656)
Prerequisite(s): SPED 1500. Not open to non-degree graduate students.

SPED 4700 CLINICAL PRACTICE IN SPECIAL EDUCATION (6 credits)
This course provides candidates with experience teaching students with exceptionalities. Observation, participation, and actual teaching in an individually selected placement will be a part of the candidate’s involvement in this course. This course is intended for candidates who are completing a dual endorsement program (special education and another endorsement).
Prerequisite(s): SPED 1500 or EDUC 2510, TED 2300, Minimum 2.75 GPA

SPED 4710 INTERACTIONS AND COLLABORATION (3 credits)
This course is offered to investigate the building blocks of collaboration. Effective interpersonal communication and collaboration skills will be presented as the foundation necessary to build relationships among school personnel, families and community members. (Cross-listed with SPED 8716)
Prerequisite(s): SPED 1500 and TED 2400 and 2.75 NU GPA and passing Praxis Core scores (Math, Reading and Writing)

SPED 4720 CLINICAL PRACTICE IN SPECIAL EDUCATION (12 credits)
This course provides candidates with a practical experience teaching students with disabilities. Observation, participation, and actual teaching in an individually selected placement will be a part of the candidate’s involvement in this course.
Prerequisite(s): GPA minimum of 2.75 and completion of all required coursework in special education. Co-Requisite: TED 4650. Not open to non-degree graduate students.

SPED 4724 SPECIAL EDUCATION CLINICAL TEACHING ORIENTATION (0 credits)
This course is the special education clinical teaching orientation that is paired with the Clinical Teaching in Special Education course.
Prerequisite(s): GPA = 2.75 or better, Completion of all required course work in special education. Co-requisite SPED 4720 or SPED 4730

SPED 4730 ADVANCED CLINICAL PRACTICE IN SPECIAL EDUCATION (3 credits)
A second semester of special education clinical practice experience in a placement working with exceptional children. Observation, participation and actual teaching will be part of the candidate’s experience.
Prerequisite(s): GPA minimum of 2.75; SPED 4720 and permission

SPED 4740 EDUCATIONAL INTERPRETING PRACTICUM AND SEMINAR (6 credits)
The practicum candidate will work with a mentor to begin developing professional relationships while developing the ability to interpret simultaneously signed and spoken messages. Candidates will also share experiences in seminars with an instructor where discussion will focus on linguistic issues in interpretation, ethical dilemmas, and situational concerns.
Prerequisite(s): GPA minimum of 2.75, Completion of SPED 3120, SPED 3130, SPED 4180, SPED 4240, SPED 4310, and SPED 4320 with grades of B- or higher.

SPED 4760 COMMUNITY INTERPRETING PRACTICUM AND SEMINAR (6 credits)
The practicum candidate will work with a mentor in various community settings to begin developing professional relationships while developing the ability to interpret simultaneously signed and spoken messages. Candidates will also share experiences in seminars with an instructor where discussion will focus on linguistic issues in interpretation, ethical dilemmas, and situational concerns.
Prerequisite(s): GPA minimum of 2.75, Completion of SPED 3120, SPED 3130, SPED 4180, SPED 4240, SPED 4310, and SPED 4320 with grades of B- or higher. Not open to non-degree graduate students.

SPED 4800 SOCIAL AND EMOTIONAL DEVELOPMENT OF CHILDREN AND YOUTH (3 credits)
This course is designed to prepare teacher candidates and graduate candidates with the understanding of the psychological, biological and environmental factors that affect the social-emotional development of children and adolescents. Emphasis is placed on the interaction of these factors for children with exceptional learning needs and the implications for the learning environment. (Cross-listed with SPED 8806)

SPED 4810 BEHAVIOR INTERVENTIONS AND SUPPORTS (3 credits)
This course introduces a variety of practical interventions that teachers may use to support the positive classroom behavior of all students within a tiered model. Universal, targeted, and individualized strategies are presented. (Cross-listed with SPED 8816)

SPED 4820 EARLY CHILDHOOD INCLUSIVE EDUCATION SYSTEMS, POLICY, AND ADVOCACY (1 credit)
The purpose of this course is to provide an overview of the history and perspectives of key developmental theories, laws, and policies related to inclusive early childhood education. Particular attention will be paid to culturally responsive approaches to ECIE, local, state, federal, and global policy, professional roles, ethics, and advocacy. Emphasis is on current research, theory, and evidence-based practice.
Prerequisite(s): TED 2250. Not open to non-degree graduate students.

SPED 4830 ASSESSMENT IN EARLY CHILDHOOD INCLUSIVE EDUCATION (3 credits)
This course is designed to help students develop skills for effective and culturally responsive assessment and evaluation of infants, toddlers, and young children. Such assessment is vital for understanding developmental needs of young children, planning appropriate curriculum and interventions, identifying children’s special needs, evaluating early childhood programs, and providing accountability information to funders and stakeholders.
Prerequisite(s): Admission to Educator Preparation program, TED 2250. Not open to non-degree graduate students.
SPED 4860 RESPONSIVE AND REFLECTIVE TEACHING IN EARLY CHILDHOOD (3 credits)
This course will prepare early childhood inclusive education majors to plan and deliver supports to a diverse array of young children (birth to age 8) and their families. Candidates will be trained in evidence-based practices used for promoting language, problem-solving, motor skills, adaptive behavior, play, and social/emotional growth in young children. There is an emphasis on anti-bias approaches to education, as well as educators’ reflections upon their practices.
Prerequisite(s): Admission to the Educator Preparation program, TED 2250. Not open to non-degree graduate students.

SPED 4870 PRACTICUM WITH INFANTS AND TODDLERS (3 credits)
This advanced practicum is a guided experience for candidates pursuing an emphasis in the area of Early Childhood Inclusive Education (ECIE) birth through age 3. Candidates will be required to demonstrate competencies related to promoting the development of infants and toddlers, and the skills and confidence of their families/caregivers. This is the last practicum course prior to the clinical practice semester.
Prerequisite(s): Completion of ECIE undergraduate courses: TED 2250, TED 2350, SPED 4230, TED 4250, SPED 4830, SPED 4860; GPA 2.75 or higher. Co-requisites: TED 4210 and SPED 4850. Not open to non-degree graduate students.

Education - Special Education, Bachelor of Science
This program is designed for candidates preparing for careers serving children and youth with disabilities. This program prepares candidates to be special education teachers at the elementary or secondary level. The preparation meets or exceeds the Council for Exceptional Children (CEC) initial level special educator preparation standards for special education teachers.

Other Information
Praxis II Content Test
All educator preparation candidates are required to receive a passing score on the Praxis II content test in each endorsement area of their preparation prior to being awarded initial teacher certification through the Nebraska Department of Education (NDE).

This link (http://www.ets.org/praxis/ne/requirements/) will take you to the ETS website page for the Nebraska Department of Education requirements. The page lists the Nebraska requirements for each endorsement area.

Student Organizations
Allies for Sign Language (https://www.unomaha.edu/college-of-education/special-education-communication-disorders/student-involvement/)
The main objective of this organization shall be to unite members and community for the purpose of fellowship, friendship and promote academic achievement; act as a resource to attract and retain deaf and hard of hearing students; provide a basis for cultural exchange among the Deaf students and the hearing students; advocate for accessibility; further the understanding of Deaf culture throughout the world; promote discussion of current trends and issues relating to deaf education; as well as provide social activities that include members of the deaf community.

For more information contact Julie Delkamiller by email at jdelkamiller@unomaha.edu or Jonathan Scherling via email at jscherling@unomaha.edu.

Student Council for Exceptional Children
Student Council for Exceptional Children (SCEC) is an organization that is dedicated to advocating on behalf of individuals with disabilities. The student chapter is associated with the International Council for Exceptional Children. For more information contact Dr. Lisa Epp at lepp@unomaha.edu or Dr. Apryl Poch at apoch@unomaha.edu.

</tr>
</tbody>
</table>

Social Science: 3

- Attend Welcome Week events; other campus events
- Note: ENGL 1150, ENGL 1160, CMST 1110 or 2120, and approved math (Quantitative Literacy) course should be taken and passed in the first academic year

### Credits: 12

### Spring

| ENGL 1160 | ENGLISH COMPOSITION II | 3 |
| Natural/Physical Science with Lab | 4-5 |
| SPED 1500 | INTRODUCTION TO SPECIAL EDUCATION | 3 |

Humanities and Fine Arts: 3

- Advising appointment for fall: February - March
- Join a student organization. Consider joining Student Council for Exceptional Children.

Make a plan to take the Praxis Core

- MUST establish 2.5+ NU GPA (by end of summer courses) in order to enroll in TED 2100 & TED 2200 for fall semester

### Credits: 12

### Sophomore

| Fall | Credits |
| TED 2100 | EDUCATIONAL FOUNDATIONS | 3 |
| TED 2200 | HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS | 3 |

Social Science: 3

- Make a plan to take the Praxis Core

### Credits: 16-17

### Spring

| TED 2300 | HUMAN GROWTH AND LEARNING | 3 |
| MTCH 2000 | MATHEMATICS FOR ELEMENTARY TEACHERS I | 3 |
| NA|natural/physical science | 3 |
| Elective for Degree | 3 |

- Identify professional organization to get involved with. Begin resume development.

Apply to Educator Preparation Program Oct. 1 deadline

### Credits: 15

### Junior

| Fall | Credits |
| TED 2400 | PLANNING FOR EFFECTIVE TEACHING | 6 |
| MTCH 2010 | MATHEMATICS FOR ELEMENTARY TEACHERS II | 3 |

SPED 2300 | SPECIAL EDUCATION LAW & INDIVIDUAL EDUCATION PROGRAMS | 3 |
KINS 4150 | ADAPTED PHYSICAL ACTIVITY THEORY AND PRACTICE | 3 |
SPED 4230 | LANGUAGE DEVELOPMENT AND DISORDERS FOR TEACHERS | 3 |

- MUST attempt PRAXIS Core by January 10th and have 2.75 minimum NU GPA to progress in Educator Preparation Program.

### Credits: 18

### Spring

| SPED 3020 | DATA COLLECTION TECHNIQUE: ROLE IN TEACHING LEARNING PROCESS | 3 |
| SPED 4640 | METHODS AND MATERIALS IN SPECIAL EDUCATION | 3 |
| SPED 4000 | PRACTICUM IN SPECIAL EDUCATION | 3 |
| SPED 4710 | INTERACTIONS AND COLLABORATION | 3 |

Advising appointment for fall: February - March

### Credits: 15

### Senior

| Fall | Credits |
| TED 3350 | TEACHING AND ASSESSING READING IN ELEMENTARY SCHOOLS | 6 |
| TED 4330 | TEACHING OF MATHEMATICS: ELEMENTARY | 3 |
| TED 4340 | TEACHING OF SCIENCE: ELEMENTARY | 3 |
| SPED 4150 | READING AND WRITING INSTRUCTION FOR STUDENTS WITH DISABILITIES | 3 |
| SPED 4010 | MENTAL HEALTH IN SCHOOLS: RISK FACTORS AND INTERVENTIONS | 3 |

- Take Praxis II- SPED #5354

- Apply for clinical practice at beginning of fall term.

### Credits: 18

### Spring

| SPED 4720 | CLINICAL PRACTICE IN SPECIAL EDUCATION | 12 |

Apply for graduation

### Credits: 12

### Total Credits: 120-121

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance. This plan is not a contract and curriculum is subject to change.

### Additional Information About this Plan:

**University Degree Requirements:** The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.

**Placement Exams:** For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found...
Transfer credit or placement exam scores may change suggested plan of study

**GPA Requirements:**
- 2.5 minimum GPA to remain in College of Education
- 2.5 minimum GPA to apply to Educator Preparation Program
- 2.75 minimum GPA to progress in Educator Preparation Program

# Professional education course: a grade of C or higher is required to pass the class

**Graduation Requirements:** 2.75 minimum NU GPA

**Sign Language Interpreter**
Road Map designed to start in odd year (2023, 2025, etc.). Road Map will be different if starting in even year (2024, 2026, etc.)

Education - Deaf/Hard of Hearing Program

This program is designed for candidates preparing for careers serving individuals who are deaf/hard of hearing. This program is part of the educator preparation program. Candidates must complete a dual endorsement program with the deaf/hard of hearing and a major in elementary or secondary education. The preparation meets the standards of the Council for Exceptional Children (CEC) for teachers of the deaf/hard of hearing.

Additional Information

Praxis II Content Test

All educator preparation candidates are required to receive a passing score on the Praxis II content test in each endorsement area of their preparation prior to being awarded initial teacher certification through the Nebraska Department of Education (NDE). This link (http://www.ets.org/praxis/ne/requirements/) will take you to the ETS website page for the Nebraska Department of Education requirements. The page lists the Nebraska requirements for each endorsement area.

Student Organizations

Allies for Sign Language is an organization that unites members and the Deaf / Hard of Hearing community for fellowship, friendship, and academic achievement. Allies for Sign Language promotes further the understanding of Deaf culture throughout the world. Several academic, volunteer, and social activities related to the current trends and issues in D/HH education and sign language interpreting are organized each semester for UNO students and members of the signing community. For more information, contact Dr. Julie Delkamiller jdelkamiller@unomaha.edu or Mr. Jonathan Scherling, jscherling@unomaha.edu.

Total Credits 65

1 SPED 4650 For 7-12 only.
2 SPED 4720 is required for clinical practice.

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of “C” must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below “C” in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Education - Communication Disorders

The undergraduate degree in communication disorders provides the fundamental, prerequisite knowledge necessary for pursuing a graduate
degree. Entry for practice in the field of communication disorders is an Au.D. for Audiology and a M.S. for speech-language pathology.

**Other Information**
Majors in communication disorders must maintain an overall cumulative GPA of 3.0 or better. No courses taken on a Credit/No Credit basis will be accepted for the purpose of fulfilling any of the required content, professional, or major speech-language pathology coursework. A minimum grade of "C" must be earned in all professional courses is required for the Bachelors in Communication Disorders program. All grades of incomplete and any new grades below "C" in these specific requirements must be removed. Candidates are responsible for contacting their academic advisor.

The undergraduate degree in communication disorders is a pre-professional degree which does not lead to a certificate or license. A doctorate degree is required for entry into the field of audiology. A master’s degree is required for entry into the field of speech-language pathology. Completion of the UNO undergraduate communication disorders program does not guarantee admission to the UNO speech-language pathology graduate program.

**Communication Disorders**
For students pursuing the Communication Disorders major, no application is required. To continue with Communication Disorders (CDIS) courses, students must maintain a 3.0 NU GPA or higher. The Praxis Core is required for the Speech-Language Pathology Graduate Application.

**Early Admission to the Speech-Language Pathology Graduate Program via FAST track**
CDIS undergraduates are able to apply for early admission to the UNO SLP graduate program. Interested candidates must meet the application requirements below:

1. Apply March of Junior Year
   a. Application (minimum of 3.5 undergraduate GPA to apply)
      i. Resume
      ii. Statement of Purpose: Please include the following in your response: Your aptitude and motivation for graduate study in speech-language pathology; your preparation for this field of study; your viewpoint on the value of diversity, equity, and inclusion in the field of speech-language pathology; your academic plans or research interests; and why would UNO be a good intellectual fit for you?
      iii. Transcripts (unofficial)
      iv. Praxis Core (passing scores)

If selected, then applicants are eligible to enroll in a FAST track program. Applicants must meet or exceed minimum requirements throughout their senior year to be fully accepted into the graduate program at UNO.

**Fast Track Program**
The Communication Disorders Program has developed a Fast Track program for highly qualified and motivated students, thus providing an opportunity to complete a bachelor’s degree while accruing graduate hours. Selected students may count six (6) graduate credit hours towards the completion of their undergraduate program as well as the graduate degree program. Students will work with both undergraduate and graduate advisors to set up a fast-track plan once accepted through early admission into the speech-language pathology (SLP) graduate program.

**Program Specifics:**

- This program is available for undergraduate students pursuing a bachelor’s degree in communication sciences and disorders desiring to pursue a master’s degree in speech-language pathology (SLP).
- Students must submit an application and be accepted into the early admission SLP graduate cohort.
- Students must be completing their junior year and have accrued at least 60 undergraduate credit hours. Students must have successfully completed the following courses: CSD 2550 (4550), CDIS 2420 (4420), CDIS 2380 (4480), CDIS 3390 (4490), CDIS 3450 (4450), CDIS 3460 (4460), CDIS 3370 (4370), chemistry or physics, biology, and statistics.
- Students must have a minimum undergraduate GPA of 3.5.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course
- Students will work with their undergraduate advisor to register for the graduate courses (for a total of six [6] graduate credit hours).
- A minimum cumulative GPA of 3.0 is required for the graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all the rights and privileges granted undergraduate status including financial aid.
- Formal application to the graduate program in required by January 15 of the student’s senior year. The application fee will be waived. The applicant must contact the Office of Graduate Studies for a fee waiver code.
- Fast Track/Early Admission Candidates must successfully complete their undergraduate BS degree with a cumulative GPA of 3.5 and all graduate courses with a 3.0 or better, be in good standing, and complete formal graduate admission application to be fully admitted into the speech-language pathology graduate program.
- The official admit term must be after the completion term of the undergraduate degree.

**Fast Track Courses:**

- **Fall of senior year:**
  - CDIS 8200 (2.0) Advanced Study of Pediatric Speech-Sound Disorders
  - CDIS 8560 (2.0) Augmentative and Alternative Communication

- **Spring of senior year:**
  - CDIS 8500 (2.0) Basic Clinical Practicum in Speech-Language Pathology

**Contact**
- **Office of Academic Advising and Field Experiences, Certification**
  - 204 Roskens Hall
  - 402.554.2717
  - unocoeadvising@unomaha.edu
- **Dr. Shari DeVeney, Graduate Program Chair (GPC)**
  - 512 Roskens Hall
  - 402.554.2993

GERO 3070 DEATH AND DYING
GERO 4350 ISSUES IN AGING
GERO 4550 HEALTH ASPECTS OF AGING
PSYC 3510 EDUCATIONAL PSYCHOLOGY
PSYC 3520 CHILD PSYCHOLOGY
PSYC 3540 ADOLESCENT PSYCHOLOGY
PSYC 4020 LEARNING
PSYC 4310 PSYCHOLOGICAL AND EDUCATIONAL TESTING
TED 2060 EQUITY, LANGUAGE, AND CULTURAL LITERACY
TED 2500 DIGITAL CITIZENSHIP
TED 4590 TEACHING AND LEARNING IN DIGITAL ENVIRONMENTS
SPED 1110 & SPED 1114 AMERICAN SIGN LANGUAGE I and AMERICAN SIGN LANGUAGE I LAB
SPED 1120 & SPED 1124 AMERICAN SIGN LANGUAGE II and AMERICAN SIGN LANGUAGE II LAB
SPED 2200 DEAF STUDIES
SPED 2110 & SPED 2114 AMERICAN SIGN LANGUAGE III and AMERICAN SIGN LANGUAGE III LAB
SPED 3110 & SPED 3114 AMERICAN SIGN LANGUAGE V and AMERICAN SIGN LANGUAGE V LAB
SPED 4150 READING AND WRITING INSTRUCTION FOR STUDENTS WITH DISABILITIES
SPED 4810 BEHAVIOR INTERVENTIONS AND SUPPORTS

Total Credits 79-85

1 NOTE: One of these electives may include CDIS 4510. Pre-professional preparation program candidates may apply to take CDIS 4510 in their senior year. Admission is selective and requires application to and permission of instructor.

Freshman

Fall Credits
ENGL 1150 ENGLISH COMPOSITION I 3
CMST 1110 PUBLIC SPEAKING FUNDS 3
MATH 1300 COLLEGE ALGEBRA WITH SUPPORT 4
Humanities & Fine Arts 3
Social Science 3
Attend welcome events; other campus events
Join student group for major: NSSLHA
Note: ENGL 1150, ENGL 1160, CMST 1110 or 2120, and approved math (Quantitative Literacy) course should be taken and passed in the first academic year

Spring Credits
ENGL 1160 ENGLISH COMPOSITION II 3
PSYC 1010 INTRODUCTION TO PSYCHOLOGY I 3
SPED 1500 INTRODUCTION TO SPECIAL EDUCATION 3
Biol 1020 or BIOL 1330 or BIOL 1450 PRINCIPLES OF BIOLOGY 4
Global Diversity 3
Advising appointment for fall: February – March
By end of freshman year establish NU GPA of 3.0 or higher.
Graduate programs look for a GPA of a 3.7+

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements:
The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2023-2024 University of Nebraska at Omaha undergraduate catalog.

Placement Exams:
For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php
Role and Mission
The College of Engineering improves the lives of every Nebraskan. We pursue this vision through our shared values of Community, Impact, and Inclusion. These values are embedded in and strengthened by the academic ideals of the university, the ethos of Nebraskans, and the principles of the entire Nebraska Engineering Community.

Our mission is to drive economic development in the state and region while solving problems of global importance. The College of Engineering will fulfill this mission through our deep commitment to engineering, computing, and construction education, research, and engagement. As the only engineering college in Nebraska, we have a particularly strong mandate to the state to ensure our resources and opportunities are accessible to all Nebraskans.

An essential and distinctive pillar of our mission is the notion of the Complete Engineer®. At its most fundamental, the Complete Engineer® is a commitment by the college to the development of every student, staff member, and faculty member in technical, professional, and personal dimensions. It enables everyone to become the best version of themselves in support of the fulfillment of the college’s mission and reinforces the values of Community, Impact, and Inclusion.

Total Credits 18

College Admission
College Entrance Requirements
Students must have high school credit for (one unit is equal to one high school year):

1. Mathematics – 4 units: 2 of algebra, 1 of geometry, and 1 of precalculus and trigonometry
2. English – 4 units
3. Natural sciences – 3 units that must include 1 unit of physics and 1 unit of chemistry (chemistry requirement waived for students in construction management or computer science)
4. Foreign language – 2 units of a single foreign language
5. Social studies – 3 units
6. Students having a composite ACT score of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack any one of the following: trigonometry, chemistry, or physics. Students without test scores who are missing a full unit of trigonometry/pre-calculus/calculus or chemistry or physics will be evaluated through College Review.

A total of 16 units is required for admission.

Engineering requires that student performance meet one of the following standards: composite ACT of 24, SAT of 1180, ACT Math subscore of 24, SAT Math subscore of 580, or a 3.5 cumulative GPA.

Any domestic first-year student who does not gain admission to Engineering but does gain admission to the University of Nebraska-Lincoln (UNL) will be reviewed through College Review. College Review is conducted through the College Review Committee which considers factors beyond standardized testing. Any first-year student who is not admitted through college review is placed in Pre-Engineering (PENG) within the college and are advised by the Engineering Student Services.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska–Lincoln Office of On-line and Distance Education, in summer courses, or as a part of their first or second semester course loads while in the Academic and Career Development Center at the University of Nebraska Omaha.

Students should consult their advisor, their department chair, or Engineering Student Services (ESS) if they have questions on current policies.

Other Admission Requirements
Students who transfer to the University of Nebraska Omaha from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE first-year student entrance requirements, have a minimum cumulative GPA of 2.5, and be calculus-ready. Students not meeting either of these requirements must enroll in another University college until they meet COE admission requirements. Students transferring from UNO, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska–Lincoln accepts D grades from the University of Nebraska Kearney and the University of Nebraska Omaha, not all majors in the COE accept such low grades. Students must conform to the requirements of their intended major and, in any case, are strongly encouraged to repeat courses with a grade of C- or less.

Students who were previously admitted to COE and are returning to the College of Engineering must demonstrate a cumulative GPA of 2.5 to be readmitted to COE.
Academic Advising

Advisors assigned to students are either part of the Engineering Student Services located at 107 Peter Kiewit Institute (PKI) or are in the student’s major department.

Student Responsibility

Students are responsible for fulfilling all the requirements of the curriculum in which they are enrolled. Students are also responsible for initiating advising contacts and preparing for advising sessions. The mentoring relationship between academic advisors and students is confidential and is strengthened by advisors’ ability to listen with empathy.

Students are expected to take responsibility for successful university experiences and effective advising sessions by:

1. Participating in New Student Orientation and priority registration programs.
2. Scheduling appointments with advisors well in advance of priority registration and at other times as needed.
3. Identifying class choices from the requirements of the selected program.
4. Identifying questions to address in advising sessions.
5. Informing advisors of any special needs, deficiencies, or barriers that might affect academic success.
6. Following academic policies and procedures and meeting academic calendar deadlines (e.g., registration, fee payment, degree audit, filing for degree, etc.).
7. Knowing and completing degree or program requirements.
8. Monitoring their progress toward meeting degree requirements by maintaining a copy of their academic records and seeking assistance to resolve any errors or questions.
9. Acting on recommendations to seek assistance from the various student support services provided by the University and College.

Academic Load

College of Engineering (COE) students may register for up to 18 credit hours per semester. Permission must be obtained from the student’s advisor to exceed the credit hour maximum and must be filed with an Override Authorization form at the time of registration. Students must be enrolled for 12 credit hours at the University of Nebraska Omaha to be considered full-time students. For recognition on the Dean’s List, these 12 University of Nebraska Omaha credit hours must be for a letter grade.

Probation

College Probation. A student who receives a cumulative grade point average (GPA) of less than 2.4 will be placed on college probation. The student will remain on probation until a semester is completed with a cumulative GPA of at or above 2.4. Any student with three sequential semesters on college probation will be dismissed from the College of Engineering.

The first semester of probation is defined as the semester in which failure to meet a cumulative or semester GPA threshold or a code of conduct violation occurs.

Completion of the following semester (12 credits) with a cumulative GPA above 2.4 is required for a student to be removed from college probation. Students may be placed on college probation (or dismissed) for violation of the University of Nebraska–Lincoln Student Code of Conduct at any time. A student cannot graduate from the College of Engineering while on college probation.

College Dismissal. A student will be dismissed from the College of Engineering at the end of any semester in which:

• The student has been placed on college probation for three sequential semesters.
• The student is dismissed by the University of Nebraska–Lincoln.

College dismissal will cause an administrative change in the student’s matriculation to the Explore Center or to a college indicated by the student. Students who have been dismissed from the College of Engineering may be readmitted (one time only) provided they have removed all academic deficiencies that led to dismissal.

Application for Graduation

Students are expected to develop a clear understanding of degree requirements and to plan their course of study with the academic advisor. Students requiring clarification of outstanding degree requirements should visit their academic advisor promptly.

Students should access their Degree Audit via MavLink at least once each term to review degree requirements and progress toward graduation. It is the student’s responsibility to make sure their Degree Audit accurately reflects their current College and program of study.

Students who believe their Degree Audit has errors or omissions should visit their academic advisor promptly. It is important that these matters be resolved as soon as practicable to avoid a delay in graduation.

Each student who expects to receive a diploma must file an application of candidacy for the diploma online on MavLINK. Announcements about deadline dates are posted on the University of Nebraska Omaha’s (UNO) Academic Calendar webpage, Maverick Weekly email to students, and by an email sent by the UNO Registrar’s office.

It is the responsibility of the students to inform the Registrar’s Office of their graduation plans including their mailing address and the manner in which they are completing their requirements.

Failure to meet these stipulations may necessitate the postponement of graduation until the next semester. Scott Campus COE students wishing to attend Commencement on the UNL campus may do so by completing the online form found at https://engineering.unl.edu/undergraduate-programs/alternate-campus-commencement-ceremony-application/.

Academic Programs & Policies

Engineering

To meet the need for innovative engineers, the College’s programs offer a broad education in the physical sciences, social sciences, mathematics, information sciences, and humanities. This education is complemented by a study of engineering methods of modeling, analysis, synthesis, and design in students’ areas of specialization. In addition to preparing students for careers in engineering, the College’s bachelor’s degree programs provide excellent preparation for graduate study in those fields.

Construction

This profession is allied with architecture, engineering, and business. Construction managers coordinate people, machines, and materials to produce (within the constraints of budget and time) buildings, highways, bridges, dams, and other structures essential to modern society. The College’s construction management program provides a solid technical
Computing

Computer scientists are collaborators, working within teams from other areas of expertise to determine and resolve needs and issues. Students will learn to use and build the tools to make the technology currently being used - and will in the future - work better. Computer science majors learn programming languages and theory that will prepare them for any computing career path.

Undergraduate Degree Programs

Engineering. The College offers Bachelor of Science degree programs in each of the following engineering fields: agricultural engineering (Lincoln only), architectural engineering (Omaha only), biological systems engineering (Lincoln only), chemical engineering (Lincoln only), civil engineering, computer engineering, construction engineering, electrical engineering, environmental engineering, mechanical engineering (Lincoln only), and software engineering (Lincoln only). Students with interests in specialty fields such as aerospace, or biomedical engineering should seek advice in the Engineering Student Services Center or with their faculty advisor.

Computer Science. Lincoln only. The College offers the Bachelor of Science degree program and a minor in computer science.

Construction Management. The College offers the Bachelor of Science degree program and a minor in construction management.

Data Science. Lincoln only. The College offers the Bachelor of Science degree with a major in Data Science.

Dual Degrees. Students can major in two departments in the college by consulting their advisors (one from each department) and completing all the requirements for the departmental majors.

Accreditation

Agricultural engineering (Lincoln only), biological systems engineering (Lincoln only), chemical engineering (Lincoln only), civil engineering, computer engineering, construction engineering, electrical engineering, mechanical engineering (Lincoln only), and software engineering (Lincoln only) bachelor's degree programs are accredited by the Engineering Accreditation Commission (EAC) of ABET. The construction management program is accredited by the Applied and Natural Science Accreditation Commission (ANSAC). Computer Science (Lincoln only) is accredited by the Computing Accreditation Commission (CAC). The Master of Architectural Engineering (Omaha only) is also accredited by the EAC of ABET. http://www.abet.org.

Minors & Areas of Specializations Offered

College faculty encourage students to minor in a discipline outside the College of Engineering to further develop critical thinking skills, curiosity, understanding of the connections between engineering and the social or natural sciences and fine arts, and sensitivity to ethical issues.

1. A minor will not reduce or alter the existing course or degree requirements for students electing to pursue a minor.

2. A student’s minor program(s) must be reviewed by an advisor prior to the submission of the senior check to the department chair or head. It is the responsibility of the student to determine that all requirements for the minor are met.

3. The minor(s) must be approved by the cognizant program offering the minor(s).

4. The College of Engineering will follow the “A/B” format of the UNL College of Fine Arts and Sciences in which a student pursuing a single minor must complete the “A” requirements. A student pursuing a double (or greater) minor must fulfill either the “A” or “B” requirements for both minors depending on which plan is offered by the cognizant department.

5. Departments may restrict students in their major(s) from obtaining certain minor(s) at their discretion; see the bulletin entry for individual majors for details.

General College Policies

These policies are applicable to all students in the College of Engineering:

1. Student priority for entrance into classes for which demand exceeds available class space will be based on cumulative GPA. This priority will be applied at the end of early registration (when applicable).

2. At least 30 of the last 36 credit hours needed for a degree must be registered for and completed at UNL for UNO while identified with the College of Engineering. This means that practically speaking, the last year of a student’s work must be spent in residence. Credit earned during education abroad may be used toward degree requirements if students participate in prior approved programs and register through the University of Nebraska–Lincoln (see http://educationabroad.unl.edu) or the University of Nebraska Omaha (see https://www.unomaha.edu/international-studies-and-programs/study-abroad/index.php (https://www.unomaha.edu/international-studies-and-programs/study-abroad/)).

3. Credit/No Credit courses: Students in the College of Engineering must take ENGR 10 Freshman Engineering Seminar and CSCE 10 Introduction to CSE, or RAIK 10 Raikes School Freshman Seminar, or ENGR 30 Transfer Student Engineering Seminar, or ENGR 193 Kiewit Scholars Freshman Seminar, or AREN 1010 Introduction to Architectural Engineering, and ENGR 20 Sophomore Engineering Seminar with the grading option Credit/No Credit. Some majors in the College of Engineering also require taking ENGR 400 Professional Ethics and Social Responsibilities with the grading option Credit/No Credit. Outside of these courses, students may take up to 12 credit hours of courses certified as ACE 5, 6, 7, 8, or 9 with the grading option Credit/No Credit, if the major does not require a predetermined engineering course to fulfill the ACE requirement (example, some majors require BSE/ENCE 200 Engineering Economics to fulfill the ACE 8 requirement).

4. Students in the College of Engineering may not take any other ACE category, required or engineering/technical elective courses, with the grade option of Credit/No Credit.

5. Credits for “international students who are non-native speakers of English” at UNL and “English as a Second Language” at UNO are not applicable to degree programs in the College of Engineering.

6. Students who enroll at UNL, UNO, or UNK under the academic year (Fall, Spring, Summer) of this catalog must fulfill the requirements stated in this University of Nebraska–Lincoln catalog or in any other University catalog which is published while they are enrolled in the College, provided that the catalog is no more than 10 years old at the time of graduation. A student must, however, meet the graduation requirements from one catalog only. A student may not choose a portion from one catalog and the remainder from another catalog.

Undergraduate Seminars. All College of Engineering students are required to attend ENGR 10 CSCE 10, RAIK 10, ENGR 30, AREN 1010, or ENGR 193. These seminars provide information on engineering, computing, and construction disciplines, resources and tools available to students at the University, and opportunities to meet engineering,
computing, and construction faculty members. Sophomore engineering students are required to attend ENGRI/20. The Sophomore Engineering Seminar provides information on career planning, interviewing, resume preparation, and coop/internship opportunities.

**Curriculum Requirement.** All engineering majors require a minimum of 45 credit hours (or equivalent) of engineering topics appropriate to the program, consisting of engineering and computer sciences and engineering design, and utilizing modern engineering tools. Engineering design is a process of devising a system, component, or process to meet desired needs and specifications within constraints. It is an iterative, creative, decision-making process in which the basic sciences, mathematics, and engineering sciences are applied to convert resources into solutions. Engineering design involves identifying opportunities, developing requirements, performing analysis and synthesis, generating multiple solutions, evaluating solutions against requirements, considering risks, and making trade-offs, for the purpose of obtaining a high-quality solution under the given circumstances.

**Experiential Learning Requirement.** All undergraduates in the University of Nebraska-Lincoln, starting with the 2022-2023 catalog requirements, must complete an Experiential Learning (EL) course. The capstone course for each program is designated as an experiential learning course.

**Grade Appeals**
In the event of a dispute involving any college policies or grades, the student should appeal to their instructor, and appropriate department chair or school director (in that order). If a satisfactory solution is not achieved, the student may appeal their case through the College Academic Appeals Subcommittee.

**Appeals for Academic Amnesty/Bankruptcy**
Academic bankruptcy removes the grade point factors of a semester taken at the University of Nebraska-Lincoln or the University of Nebraska Omaha from a student’s cumulative grade point average, but the course(s) and grade(s) remain on the student’s academic record. To review the criteria for eligibility, see https://registrar.unl.edu/academic-standards/policies/academicbankruptcy/. Students seeking academic amnesty/bankruptcy should consult with their academic advisor first.

**Appeals of Academic Suspension**
Appeals of academic suspension must be filed in writing with the Office of the Dean within 21 days after official electronic notification/posting of the grades by the Registrar for the semester at the end of which the suspension was invoked. Suspended students who have filed a notice of appeal may apply to the Office of the Dean for a temporary release from suspension pending the final disposition of their appeal by the Academic Appeals Subcommittee of the College of Engineering.

**Student Recognition & Organizations**

**Dean’s List**
The College recognizes students for academic achievement during the fall and spring semesters by placement on the College Dean’s List. To qualify for the College of Engineering Dean’s List, students must complete 12 credit hours of graded coursework (courses must be started and completed in one semester) by the census date of the grade reports and attain a minimum semester grade point average of 3.500. The following do not qualify as part of the 12 credit hours: Credit/No Credit hours, transfer hours, removals of incompletes, and grade changes submitted after the census grade reports.

**Graduation with Distinction**
GPA requirements for engineering students to graduate with levels of distinction are:

- **Distinction:** 3.750 – 3.849
- **High Distinction:** 3.850 – 3.949
- **Highest Distinction:** 3.950 – 4.000

For engineering students to graduate with Distinction, High Distinction, or Highest Distinction, they must meet the GPA levels listed above, and be approved by a majority vote of the faculty in the department offering their respective academic program. The GPA level is based on the cumulative GPA earned in the semester prior to the semester in which the student graduates.

**Honor Societies**
These recognize students who excel in scholarship and give promise of being leaders in professional areas. They are branches of national societies and are generally open upon invitation to juniors and seniors: Alpha Epsilon (agricultural engineering), Chi Epsilon (civil engineering), both campuses; Eta Kappa Nu (electrical engineering, both campuses), Pi Tau Sigma (mechanical engineering), Sigma Lambda Chi (construction management, both campuses), Upsilon Pi Epsilon (computing and information disciplineshttps://upe.acm.org/), Sigma Xi (scientific, all colleges), Tau Alpha Pi (engineering technology, Scott campus in Omaha), and Tau Beta Pi (all engineering).

**Honors Program**
The College of Engineering encourages qualified students to participate in the University Honors Program which is a University of Nebraska Omaha program. The College’s honors students pursue degree programs offered by the College while completing the required honors courses.

All University Honors Program students are expected to complete a mentored thesis project with a faculty member of their choosing.

Students may also seek support from the University of Nebraska-Lincoln’s Undergraduate Creative Activities and Research Experience (UCARE) program.

For more information about the University Honors Program, contact:

Dr. Lucy Morrison
University of Nebraska Omaha
208 Kayser Hall
Omaha, NE 68182

**Professional Licensure**
The College encourages professional licensure. Most of the College’s engineering seniors take the Fundamentals of Engineering (FE) examination prior to graduation. This examination is administered by NCEES (https://ncees.org/) and is the first step in the process of becoming a licensed professional engineer. To become a licensed professional engineer, one must pass the FE exam, have at least four years of experience, and pass the Principles and Practice of Engineering (PE) Examination, including the Structural Engineering (SE) Exam (https://pe.nebraska.gov/engineer-initial-licensure). Students may take the FE exam in the last semester of their baccalaureate program.

**Technical Societies**
The technical student societies help develop greater personal and professional interest and understanding in engineering, computer science, and construction management. Student branches of the major national
technical and scientific societies are sponsored by the academic programs and departments.

Scott Campus (Omaha). Acoustical Society of America; American Society of Heating, Refrigeration and Air-conditioning Engineers; Architectural Engineering Institute; Architectural Engineering Student Leadership and Advisory Committee; Associated General Contractors of America; Earthquake Engineering Research Institute; Emerging Green Builders; Illuminating Engineering Society of North America; Mechanical Electrical Specialty Contractors; National Association of Home Builders Student Chapter; American Society of Civil Engineers; American Water Works Association/Water Environment Federation; Engineers Without Borders; Institute for Transportation Engineers; Structural Engineering Association of Nebraska; and Institute of Electrical & Electronics Engineers.

Experiential Learning
Experiential Learning provides students with hands-on experiences that inform the educational experience and allows students to practice what they are learning in the classroom. UNL requires all students seeking a bachelor's degree to complete one Experiential Learning class. The College of Engineering programs automatically include experiential learning courses in their curriculum as well as providing for additional experiential learning opportunities.

Internships and Coops
For a student who anticipates pursuing a career as a practicing engineer, it is strongly recommended that the student engages in an internship or equivalent practical training experience.

Undergraduate Research
The College and UNO offer a variety of opportunities for undergraduate students to obtain hands-on experience through research. Learn more about opportunities at https://engineering.unl.edu/undergraduate-programs/undergraduate-research/.

International Study/Education Abroad
The College offers a variety of opportunities for students to enhance their international awareness. All students are required to demonstrate that they have at least a minimal international awareness, either through coursework or experience. A minor in International Engineering is available for students who seek a broad understanding of the nature and role of engineering in the integrated world economy and the implications of world events for engineering. International study tours of one to three weeks in duration are also sponsored by UNL’s Office of Global Experience. The Office of Global Experiences has opportunities of various lengths in numerous countries on all continents.

Other Items of Note
Scholarships and Financial Aid
Each year the College awards scholarships to first-year students and upper-level students worth more than $750,000. Scholarships are made possible through generous gifts of alumni and friends, as well as local and national organizations. Contact the Office of the Dean or the Office of Scholarships and Financial Aid for information regarding these awards and for other financial assistance.

Application for University of Nebraska–Lincoln first-year student scholarships automatically makes you eligible for College of Engineering scholarships, as well as other university awards such as the Regents and David scholarships. You must submit the University of Nebraska–Lincoln Application form (due January 15, prior to the beginning of the next academic year) to be eligible.

A significant number of entering students have academic records that qualify them for university-wide scholarship awards. Each year, about 25 percent of the first-year Regent Scholarship recipients are engineering students.

Many students can find part-time employment in fields related to their interests.

Graduate Course Opportunities
Courses supporting several engineering graduate programs are offered both on and off campus. For details, see the University of Nebraska–Lincoln Graduate Studies Catalog (https://catalog.unl.edu/graduate-professional/) and contact the appropriate department or Engineering Student Services.

Seniors in this University who have obtained prior approval from the Dean of Graduate Studies may receive up to 12 hours credit for graduate courses taken in addition to their required undergraduate work. However, these credits must be earned within the calendar year prior to receipt of the bachelor’s degree. For procedures, inquire at the University’s Graduate Studies Office. Graduate credits earned prior to receipt of the bachelor’s degree may not always be accepted for transfer to other institutions as graduate work.

Lifelong Learning
The education of professionals in construction management, computing, and engineering is a continuing process. The groundwork in both technical and non-technical studies is laid while in college, but education continues after graduation. For a professional, education will continue not only in the technical areas but in areas that relate to human and social concerns. A professional may expect to take a leadership role in the community and must have a broad awareness of human and social accomplishments, needs, values, and a willingness to take the responsibility for meeting these needs. For these reasons, an integrated program of coursework in the humanities and social sciences is a part of the educational requirements.

College Admission
College Entrance Requirements
Students must have high school credit for (one unit is equal to one high school year):

1. Mathematics – 4 units: 2 of algebra, 1 of geometry, and 1 of precalculus and trigonometry
2. English – 4 units
3. Natural sciences – 3 units that must include 1 unit of physics and 1 unit of chemistry (chemistry requirement waived for students in construction management or computer science)
4. Foreign language – 2 units of a single foreign language
5. Social studies – 3 units
6. Students having a composite ACT score of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack any one of the following: trigonometry, chemistry, or physics. Students without test scores who are missing a full unit of trigonometry/pre-calculus/calculus or chemistry or physics will be evaluated through College Review.

A total of 16 units is required for admission.

Engineering requires that student performance meet one of the following standards: composite ACT of 24, SAT of 1180, ACT Math subscore of 24, SAT Math subscore of 580, or a 3.5 cumulative GPA.

Any domestic first-year student who does not gain admission to Engineering but does gain admission to the University of Nebraska-Lincoln (UNL) will be reviewed through College Review. College Review is conducted through the
College Review Committee which considers factors beyond standardized testing. Any first-year student who is not admitted through college review is placed in Pre-Engineering (PENG) within the college and are advised by the Engineering Student Services.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska–Lincoln Office of On-line and Distance Education, in summer courses, or as a part of their first or second semester course loads while in the Academic and Career Development Center at the University of Nebraska Omaha.

Students should consult their advisor, their department chair, or Engineering Student Services (ESS) if they have questions on current policies.

Other Admission Requirements
Students who transfer to the University of Nebraska Omaha from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE first-year student entrance requirements, have a minimum cumulative GPA of 2.5, and be calculus-ready. Students not meeting either of these requirements must enroll in another University college until they meet COE admission requirements. Students transferring from UNO, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska–Lincoln accepts D grades from the University of Nebraska Kearney and the University of Nebraska Omaha, not all majors in the COE accept such low grades. Students must conform to the requirements of their intended major and, in any case, are strongly encouraged to repeat courses with a grade of C- or less.

Students who were previously admitted to COE and are returning to the College of Engineering must demonstrate a cumulative GPA of 2.5 to be readmitted to COE.

College of Engineering Programs

Engineering
  Architectural Engineering  
  • B.S. Degree Program (p. 621)

Civil Engineering
  • B.S. Degree Program (p. 625)

Computer Engineering
  • B.S. Degree Program (p. 637)

Construction Engineering
  • B.S. Degree Program (p. 659)

Construction Management
  • B.S. Degree Program (https://catalog.unomaha.edu/undergraduate/college-engineering/construction/construction-management-bs/)

Electrical Engineering
  • B.S. Degree Program (p. 639)

Environmental Engineering
  • B.S. Degree Program (p. 643)

First two years of:

• Agricultural Engineering (p. 652)
• Biological Systems Engineering (p. 653)
• Mechanical Engineering (p. 653)

Graduate Programs
A variety of graduate programs in engineering and construction management are available. For details on programs leading to masters and doctorate degrees, including the application process, individuals should contact the appropriate department or office of the dean in the College of Engineering. Application forms are available at http://www.unl.edu/gradstudies/.

Minors & Areas of Specializations Offered
College faculty encourage students to minor in a discipline outside the College of Engineering to further develop critical thinking skills, curiosity, understanding of the connections between engineering and the social or natural sciences and fine arts, and sensitivity to ethical issues.

Policies
1. A minor will not reduce or alter the existing course or degree requirements for students electing to pursue a minor.

2. A student’s minor program(s) must be reviewed by an advisor prior to the submission of the senior check to the department chair or head. It is the responsibility of the student to determine that all requirements for the minor are met.

3. The minor(s) must be approved by the cognizant program offering the minor(s).

4. Departments may restrict students in their major(s) from obtaining certain minor(s) at their discretion; see the catalog entry for individual majors for details.

Architectural Engineering, Bachelor of Science

The architectural engineering (BSAE) undergraduate program is a four-year program requiring 128 credit hours. A one-year master of architectural engineering (MAE) program of 30 credits is also offered. The MAE degree is accredited by ABET, and almost all of our BSAE graduates continue to complete the MAE degree.

Educational Objectives
The following are the BSAE/MAE program educational objectives (PEOs):

1. Professional Accomplishment: The AE program will prepare graduates to become licensed professional engineers a few years after graduation.

2. Career Accomplishment: The AE program will prepare graduates to contribute to society by working in an occupation related to the built environment a few years after graduation.

Architectural engineering (AE) is the engineering design of buildings. Students have the option to specialize in the design of one of the following:

1. Building structural systems
2. Building mechanical systems and acoustics
3. Building lighting and electrical systems

The first three years are common to all three fields of specialization and include the math and science courses common to all engineering programs. Students take an introductory course in AE in their first semester where they learn about the materials and systems that comprise a building, visit a construction site, and interact with their industry mentors. It provides a preview of the work they can expect to perform after graduation. This
introductory course helps students decide if AE is the career path they wish to pursue.

In the second semester, the AE student begins the first of a four-course sequence of courses in AE Design and Simulation Studio. These courses familiarize the engineering student with building information technology (BIM), building systems, and how they support the design process of architects. The AE degree is keenly focused on integrating engineering concepts with architectural features to deliver aesthetic and high performing buildings. Exposure to construction is an important part of the AE student’s education. It develops creativity and constructability where AE graduates enjoy a special ability to work effectively with all professionals on the design and construction team.

The AE program develops breadth and depth by requiring a good understanding of all the systems that comprise a building while also providing specialized education in one of the areas listed above. Breadth is provided in the fifth and sixth semesters, where all students take courses in each of the three areas of specialization. Depth is provided in the seventh and eighth semesters where courses are taken primarily in one of the three specialization tracks.

A one-year master of architectural engineering (MAE) degree follows the four-year undergraduate program. This fifth year continues the specialized education in each of the three option areas and provides the professional practice topics that architectural engineers need later in their careers.

The MAE year features a major interdisciplinary design project. The project requires students to practice the design skills and understanding of building systems previously developed. Student teams complete a significant building design in a manner that closely simulates professional practice. Industry and faculty members serve as consultants to the students. Typically, students enter this design into the national Architectural Engineering Institute competition. Traditionally, our students do very well at this competition. Additionally, students complete an individual mastery project in a topic of their choice.

**Career Opportunities**
Architectural engineering graduates normally enter the building design industry and become registered professional engineers. There are only about 20 accredited architectural engineering programs in the country, so there is a large unfulfilled demand for engineers educated in building design. In Nebraska, the home of several large architectural and engineering design firms, this is especially true.

Architectural engineering is accredited by the EAC-ABET, Inc. The accreditation is attached to the one-year master of architectural engineering degree.

**Major Department Admission**
Students must complete at least 43 credit hours in the AE program before applying for professional admission to the degree program in AE. Transfer students must have all transfer hours accepted before applying for professional admission. Professional admission in the BSAE program requires a minimum of 3.0 GPA and allows students to continue to take 300-level AREN courses. The number of admitted students will depend on the availability of space, faculty, and other academic resources. Students are not permitted to register for more than 61 credit hours of courses listed in the AE curriculum until they have been professionally admitted into the degree program.

**Learning Outcomes**
Graduates of architectural engineering will develop:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

The above student outcomes have been approved by the ABET Engineering Area Delegation for use beginning with the 2019-20 academic year, and have been adopted by the faculty of the Department of Architectural Engineering.

**Additional Major Requirements**

**AREN 1000 DSAEC Seminar Requirement**
Undergraduate Architectural Engineering majors are required to complete this zero-credit-hour course every semester they are in the major.

**Grade Rules**

**C- and D grades**
Architectural engineering students must earn a grade of C or better in math, science, computer programming, and engineering courses to obtain credit for that course toward graduation. Additionally, all courses that are prerequisites for engineering courses must be passed with a grade of C or better.

**Catalog to Use**
Because of rapid technical developments, the AE curriculum is continually reviewed and upgraded. Students currently enrolled are expected to modify their programs to take advantage of such revisions. Students who do not maintain continuous progress toward the degree through enrollment in applicable coursework will be considered as new students upon re-entering the program and will be subject to the requirements of the undergraduate catalog current at the time of their re-entry.

**ACE Requirements**
The AE program follows the University of Nebraska–Lincoln Achievement Centered Education (ACE) requirements. Because of the specific needs of the program, most of these courses are specified in the curriculum.

Please contact DurhamSchool@unl.edu (durhamschool@unl.edu), if you are interested in more information about this program.

  - CIVE 440 | REINFORCED CONCRETE DESIGN I | 3  |
  - CIVE 443 | ADVANCED STRUCTURAL ANALYSIS | 3  |

- **Structural Option**
  - ACE ELECTIVE (SLO 6) | 3  |

**Eighth Semester**

Select one of the following three options: 7

- **Lighting and Electrical Option**
  - AREN 4250 | LIGHTING DESIGN | 3  |
  - PSYC 4210 | SENSATION AND PERCEPTION | 3  |

- **Mechanical and Acoustics Option**
  - AREN 4150 | HVAC DESIGN | 3  |
  - AREN 4300 | ADVANCED NOISE CONTROL | 3  |

- **Structural Option**
  - CIVE 334 | 3  |
  - CIVE 444 | STRUCTURAL DESIGN AND PLANNING | 3  |

**Credits** | **18** |

**Total Credits** | **128**
AREN 1000 DURHAM SCHOOL OF ARCHITECTURAL ENGINEERING AND CONSTRUCTION SEMINAR (0 credits)
Presentation of professional problems and practices by students, faculty, and professionals associated with careers in the Durham School of Architectural Engineering and Construction.

AREN 1010 INTRODUCTION TO ARCHITECTURAL ENGINEERING (1 credit)

AREN 1030 DESIGN AND SIMULATION STUDIO I (3 credits)
Focus on virtual modeling in the context of conceptual design. Study of fundamentals of Building Information Modeling (BIM), iterative design processes, early design analysis techniques, and technical problem-solving processes. Development of modeling skills in various software programs including Autodesk Revit, Formit, Dynamo, and Trimble Sketchup.

AREN 2010 ARCHITECTURAL ENGINEERING SEMINAR (1 credit)
This course will inform students about careers in Architectural Engineering and about non-technical issues of engineering practice. It will include visits to offices and job sites, and talks by practicing professionals. Professional, ethical, social, and environmental issues will be addressed. Students will gain experience in teamwork, and in presentation of information.
Prerequisite(s): AREN 1010 or AE 1010; 30 credit hours completed

AREN 2030 DESIGN AND SIMULATION STUDIO II (3 credits)
Focus on building systems as integral elements in architecture, building and construction assemblies, materials and methods, fabrication, and tectonic exploration using building information modeling (BIM) processes. Exposure to building construction systems, stereotomic and tectonic construction assemblies, and fundamentals of the architectural design process.
Prerequisite(s): AREN 1030 or AE 1030 Design and Simulation Studio I

AREN 2110 THERMODYNAMICS FOR ARCHITECTURAL ENGINEERING (3 credits)
First and Second Laws of Thermodynamics, properties of gases and vapors. Sources of energy and its conversion to work. Applications on Architectural Engineering and Construction.
Prerequisite(s): MATH 1960, PHYS 2110. Not open to non-degree graduate students.

AREN 2250 CONSTRUCTION GRAPHICS AND DESIGN PROCESS (3 credits)
Introduction to typical computer-graphics and calculation applications used in a contemporary architectural engineering design office. Extensive use of CAD and electronic spreadsheet software to solve typical analysis and design problems. Fundamentals of descriptive geometry and two and three-dimensional drawing systems. Use of drawing conventions common to construction design. Basics of personal computer applications. Conceptual review of engineering design and technical problem solving processes.

AREN 2400 BUILDING SYSTEMS (3 credits)
Building systems as integral elements in architecture; building assemblies and materials; building system relationships; communication of ideas between design professionals, clients, contractors and manufacturers; construction drawings and specifications.
Prerequisite(s): AREN 2250 or AE 2250

AREN 3030 AE DESIGN AND SIMULATION STUDIO III (3 credits)
A comprehensive focus on building design and construction through integrating program, structure, site, and enclosure aligned with architectural engineering. Topics include structure and construction assemblies; envelope performance; and whole building organization and space-making using BIM processes.
Prerequisite(s): AREN 2030 or permission of instructor

AREN 3070 MECHANICS OF MATERIALS LAB (1 credit)
Introduction to the behavior and testing of various building materials. The concepts of axial stress and strain, flexural stress and strain, beam deflections and column buckling.
Prerequisite(s): Coreq: MECH 3250.

AREN 3100 HVAC FUNDAMENTALS (3 credits)
Topics will include an introduction to the types of air conditioning systems; the properties of moist air, psychometric processes in HVAC equipment; indoor air quality; thermal comfort; heat transmission in buildings; solar radiation; and the calculation of building infiltration rates, space heating loads and space cooling loads.
Prerequisite(s): MECH 2000 or MENG 2000; corequisite AREN 4040

AREN 3120 MECHANICAL SYSTEMS FOR BUILDINGS (3 credits)
Fluid flow, pumps, and piping design; space air diffusion; fans, ducts, and building air distribution; refrigeration equipment.
Prerequisite(s): AREN 3010 or AE 3100 and CIVE 310 and CIVE 319

AREN 3130 HVAC LAB (1 credit)
Conduct experiments and prepare written reports involving fluid flow, pumps, fans, ducts, piping; basic heat transfer and thermodynamic principles.
Prerequisite(s): AREN 3100 or AE 3100 and CIVE 310 and CIVE 319

AREN 3200 LIGHTING I: FUND FOR DESIGN (3 credits)
Introduction to illumination engineering for building interiors. Topics include the fundamentals of light and vision, lighting equipment, requirements for building lighting, and basic illuminating engineering design methods.
Prerequisite(s): ECEN 2110

AREN 3220 ELECTRICAL SYSTEMS FOR BUILDINGS I (3 credits)
Study of basic design of building electrical systems including circuit design, power distribution and service equipment, communications systems, and special electrical systems.
Prerequisite(s): ECEN 2110

AREN 3230 LIGHTING AND ELECTRICAL SYSTEMS LAB (1 credit)
General introduction to lighting and electrical systems in building interiors, through hands-on exercises using a range of currently available lighting and electrical technologies. Topics include: principles of object modeling, lamp and luminaire workshops, field measurements of lighting and electrical systems, motor workshop, power consumption and power factor workshops.
Prerequisite(s): AREN 3220 or AE 3220; coreq AREN 3220

AREN 3300 BUILDING ACOUSTICS FUNDAMENTALS (3 credits)
An introduction to the acoustics of buildings. Topics include the fundamentals of sound generation, propagation, and measurement; human hearing; acoustic properties of materials and constructions; basic room acoustics; and noise control.
Prerequisite(s): PHYS 2120

AREN 3370 GLOBAL EXPERIENCES IN ARCHITECTURAL ENGINEERING (1-3 credits)
Individual or group educational experience in Architectural Engineering that combine classrooms, lectures, discussions, and/or seminars with field and/or classroom studies in a foreign country. Choice of subject matter and coordination of on- and off-campus activities are at the discretion of the instructor.

AREN 3920 INDIVIDUAL INSTRUCTION IN ARCHITECTURAL ENGINEERING III (1-3 credits)
Individual instruction in Architectural Engineering at the junior level in a selected area, under the supervision and guidance of an Architectural Engineering faculty member.

AREN 3940 SPECIAL TOPICS IN ARCHITECTURAL ENGINEERING III (3 credits)
Special topics in Architectural Engineering at the junior level that are not yet covered in other courses in the Architectural Engineering curriculum.
Prerequisite(s): Permission of instructor.

AREN 4020 ARCHITECTURAL ENGINEERING SENIOR DESIGN PROJECT IN LIGHTING (4 credits)
Senior design project that integrates lighting design and illuminating engineering through a semester long design problem. A self-directed execution of the lighting design process culminating with a professional design solution.
Prerequisite(s): AREN 3220 or AE 3220; AREN 4200 or AE 4200
AREN 4030  AE DESIGN AND SIMULATION STUDIO IV (3 credits)
Advanced topics in Building Information Modeling (BIM) are presented including modeling tools and processes for building engineers, designers, contractors, and operators. BIM management throughout the building lifecycle, technical engineering use cases, and specific topics in virtual reality, simulation, augmented reality, and graphical programming environments are covered. Advanced topics relevant to all AE fields include collaborative design and interoperability.
Prerequisite(s): AREN 3030

AREN 4040  BUILDING ENVELOPES (3 credits)
Design and analysis of building envelopes is an important and interdisciplinary topic within the Architectural Engineering field that relates to all AE subdisciplines (lighting, electrical systems, structures, mechanical systems, and acoustics). This introductory Building Envelopes course is created to supplement the sub-discipline specific introductory courses as well as combine some of these topics under the umbrella of building envelopes. It aims to fill an important gap in the BSAE curriculum and cover a comprehensive introduction to the processes of Building Energy Modeling.
Prerequisite(s): MECH 2000 or MENG 2000; junior standing; corequisite: AREN 3100

AREN 4120  BUILDING ENERGY II: PRIMARY AND SECONDARY SYSTEMS (3 credits)
Analysis and design of building air distribution systems, fans, pumps, piping, space air diffusion and heat exchangers.
Prerequisite(s): AREN 3100 or AE 3100; CIVE 310

AREN 4150  HVAC DESIGN (4 credits)
Develop and design the mechanical system for an actual building, from the programming phase to the final construction documents.
Prerequisite(s): AREN 4120 or AE 4120. Not open to non-degree graduate students.

AREN 4200  LIGHTING II: THEORY, DESIGN & APPLICATION (3 credits)
Design and analysis of lighting systems; the emphasis is on the integration between the lighting design process and the technical foundations for building lighting; topics include design criteria; lighting design procedures, lighting modes and subjective effects; calculation tools. Lab sessions include photometric measurements and computer applications. (Cross-listed with AREN 8206).
Prerequisite(s): AREN 3200 or AE 3200

AREN 4250  LIGHTING DESIGN (4 credits)
Advanced design and analysis of lighting systems. Application of the lighting design process for advanced interior applications such as multimedia facilities, and outdoor applications such as sports lighting. (Requires the initiation of the design process, proceeding in a self-directed manner through intermediate steps, and producing professional lighting design solutions.)
Prerequisite(s): AREN 4200 or AE 4200. Not open to non-degree graduate students.

AREN 4300  ADVANCED NOISE CONTROL (3 credits)
Characterization of acoustic sources; use and measurement of sound power and intensity; sound-structure interaction; acoustic enclosures and barriers; muffling devices; vibration control; and active noise control. (Cross-listed with AREN 8306).
Prerequisite(s): AREN 3300 or AE 3300

AREN 4420  HEALTHCARE DESIGN AND CONSTRUCTION (3 credits)
Introduction to the design and construction of healthcare facilities. Healthcare regulations and standards, infection control, interim life safety measures, code requirements, medical equipment selection and coordination, healthcare design and construction techniques, and best practices will be addressed. Provides guidance in preparation for the Certified Healthcare Constructor credential offered by the American Healthcare Association. (Cross-listed with AREN 8426, CNST 842, CNST 442).
Prerequisite(s): Senior or graduate standing

AREN 4600  SMART BUILDING SENSORS AND PROGRAMMING (3 credits)
Principles of modeling, interfacing, and signal conditioning of sample building sensors, and acquisition and analysis of data utilizing engineering programming language such as LabVIEW. Overview of current sensing technology and control in buildings.
Prerequisite(s): CIST 1400

AREN 4620  MEMS SENSORS DYNAMICS (3 credits)
Study of the dynamics of Microelectromechanical system (MEMS) beam-structures. Modeling principles and data analysis from different types of MEMS will be explained along with deep theoretical and experimental investigation of nonlinear MEMS dynamics. Learn to conduct experiments using state-of-the-art MEMS characterization tools. (Cross-listed with AREN 8626).
Prerequisite(s): Instructor Permission

AREN 4920  INDIVIDUAL INSTRUCTION IN ARCHITECTURAL ENGINEERING IV (1-3 credits)
Individual instruction in Architectural Engineering at the senior level in a selected area, under the supervision and guidance of an Architectural Engineering faculty member.
Prerequisite(s): Instructor Permission

AREN 4940  SPECIAL TOPICS IN ARCHITECTURAL ENGINEERING IV (3 credits)
Special topics in Architectural Engineering at the senior level that are not yet covered in other courses in the Architectural Engineering curriculum.
Prerequisite(s): Permission of instructor.

Civil Engineering, Bachelor of Science

Description
Website: https://cee.unl.edu/

The Department of Civil and Environmental Engineering offers a complete undergraduate program to students on the Lincoln and Omaha campuses of the University of Nebraska. Curriculum requirements are nearly identical on both campuses. The goal is to prepare students for entry into the civil engineering profession immediately after graduation or to pursue graduate-level studies.

The general educational objectives of the University of Nebraska–Lincoln civil engineering undergraduate program are to prepare our graduates so that, with a University of Nebraska–Lincoln BSCE degree, a few years beyond graduation, alumni will:

- Be employed in civil and environmental engineering or a closely related field; or, graduates will be pursuing an advanced degree in civil and environmental engineering or a closely related field.
- Contribute to society and address societal and environmental needs through engagement in professional, community, or service organizations.
- Agree that the civil engineering program prepared them for success in their careers in terms of knowledge and skillsets as embodied in the program and the Complete Engineer™ Initiative.

As a professional discipline, civil engineering is closely related to the total human environment. In all professional endeavors, the civil engineer must consider ecological effects as well as the social, economic, and political needs of people. The civil engineer designs systems to control and manage our water resources to provide electric power, agricultural irrigation, flood control, recreation, water supplies, and wastewater treatment systems for our urban and industrial needs.

The civil engineer plans, designs, and constructs our transportation systems— including highways, railroads, waterways, and airports—to connect rural, urban, and industrial areas. The civil engineer also designs
and constructs housing and facilities for recreational, industrial, and commercial complexes, which comprise the urban environment. It is the responsibility of civil engineering to minimize air, water, and land pollution and protect the environment.

Instructional emphasis is placed on fundamental engineering principles derived from mathematics, chemistry, physics, and engineering science. These subjects provide a sound background for the subsequent introductory courses in environmental, geotechnical, structural, transportation, and water resources engineering. Students are introduced to design concepts in the freshman year. Design is incorporated throughout the curriculum that culminates in two senior-level courses, CIVE 401 (https://nextcatalog.unl.edu/search/?P=CIVE%20401) Civil Engineering Design I and CIVE 402 (https://nextcatalog.unl.edu/search/?P=CIVE%20402) Civil Engineering Design II.

Instructional laboratories in environmental engineering, hydraulics, geotechnical engineering, structures, and surveying provide each student with an opportunity to learn, through individual participation, the operation of the testing equipment used to establish engineering design criteria and to monitor and model engineering facilities such as water and wastewater treatment plants, river control systems, and structural systems.

The Department of Civil and Environmental Engineering also offers a major and a minor in Environmental Engineering.

Learning Outcomes

Graduates of the civil engineering program will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

The above student outcomes have been approved by the ABET Engineering Area Delegation for use beginning with the 2019-20 academic year, and have been adopted by the faculty of the Department of Civil and Environmental Engineering.

Professional Admission to Civil Engineering Criteria for Professional Admission to the Civil Engineering Degree Program

Pre-professionally admitted College of Engineering students majoring in civil engineering must have their academic records reviewed for professional admission to the civil engineering degree program during the fall, spring or summer immediately following the term in which:

- At least 12 credits (one semester) have been completed after admission to the College of Engineering;
- At least 43 credits applicable to the degree have been earned; and
- PHYS 2110 General Physics I, MECH 223 Engineering Statics, MECH 325 Mechanics of Elastic Bodies and MECH 373 Engineering Dynamics have been completed.

Additionally, the student can have no more than two declined professional admission requests to other engineering majors. It is likely a student may need to complete four full semesters of credits applying to the program before these requirements are able to be completed.

Professional admission approval to the civil engineering degree program also requires that all of the following departmental-specific criteria must be met:

- Earn a C letter grade or better in PHYS 2110, MECH 223, MECH 325, AND MECH 373
- Earn a cumulative grade point average of 2.4 or greater; and
- Earn a C letter grade or better in ALL math, science and engineering courses required for the bachelor of science in civil engineering degree if the cumulative grade point average is less than 2.700.

Students approved for professional admission to the program are then allowed to take 400-level civil engineering courses to complete their degree.

Requirements

(City Campus in Lincoln and Scott Campus in Omaha)

This document represents a SAMPLE 4-year plan for degree completion with this major. Actual course selection and sequence may vary and should be discussed individually with your college or department academic advisor. Advisors also can help you plan other experiences to enrich your undergraduate education such as internships, education abroad, undergraduate research, learning communities, and service learning and community-based learning.

Students must have completed the equivalent of the fourth semester before admission to the civil engineering program. Transfer students must have all transfer hours accepted before being considered for the degree program.

1 A list of approved ACE courses offered on the Omaha campus can be found [here](https://tes.collegesource.com/publicview/TES_publicview03_group_report.aspx?sid=12214&rid=1d4a5187-e01b-4f1f-a0a6-b0040e957767&aid=e4ff42df-9ddc-4416-a5dd-18e971d1c0e4&cgrid=5508).

**CIVE 101 INTRODUCTION TO CIVIL ENGINEERING (3 credits)**
Introduction to engineering design process through hands-on projects supported by instruction of underlying engineering science and fundamentals, model development, and the required tools. Exploration of civil engineering disciplines and introduction to civil engineering profession with focus on ethics and professional skills.

**CIVE 102 GEOMATICS FOR CIVIL ENGINEERING (3 credits)**
Introduction to the theory and application of measurements and geospatial data for civil engineering. This includes error theory, measurements of elevation, distance, direction, and location using optical, mechanical, electronic, and global navigation satellite systems, and applications in geographic information systems (GIS). Project based.

**Prerequisite(s):** CIVE 101 or CIVE 112

**CIVE 112 INTRODUCTION TO CIVIL ENGINEERING (1 credit)**
Introduction to civil engineering as a career by use of case studies; alternate approaches to engineering designs illustrated by use of engineering principles.
CIVE 310 FLUID MECHANICS (3 credits)
Fluid statics, equations of continuity, momentum, and energy; dimensional analysis and dynamic similarity. Applications to: flow meters; fluid pumps and turbines; viscous flow and lubrication; flow in closed conduits and open channels. Two-dimensional potential flow.
Prerequisite(s): MATH 2350 (grade of C or better) and MECH 223 (grade of C or better)

CIVE 310L HYDRAULICS LAB (1 credit)
Hydraulic experiments and demonstrations. Velocity, pressure and flow measurements; pipe flow, open channel flow; hydraulic structures and machinery, hydrologic and sediment measurement and student projects.
Prerequisite(s): CIVE 310 pre-requisite/co-requisite

CIVE 321 PRINCIPLES OF ENVIRONMENTAL ENGINEERING (3 credits)
Introduction to the principles of environmental engineering, including water quality, atmospheric quality, pollution prevention, and solid and hazardous wastes engineering. Design of water, air, and waste management systems.
Prerequisite(s): MATH 1960 (grade of C or better), and CHEM 1180 (grade of C or better) and CHEM 1184, or CHEM 1190 (grade of C or better) and CHEM 1194

CIVE 321L ENVIRONMENTAL ENGINEERING LABORATORY (1 credit)
Environmental engineering experiments, demonstrations, field trips, and projects. Experiments include the measurement and determination of environmental quality parameters such as solids, dissolved oxygen, biochemical and chemical oxygen demand, and alkalinity.
Prerequisite(s): Pre or Coreq: CIVE 321.

CIVE 331 INTRODUCTION TO GEOTECHNICAL ENGINEERING (4 credits)
Soil composition, structure and phase relationships; soil classification. Principles of effective stress; loading induced subsurface stresses; load history; deformation and failure of soils. Elastic and limit analysis with applications to design for bearing capacity, settlement, retaining walls and slope stability. Steady state seepage.
Prerequisite(s): MECH 325 (grade of C or better); Coreq: CIVE 310.

CIVE 341 STRUCTURAL ANALYSIS FUNDAMENTALS (3 credits)
Introduction to the analysis of structural systems. Analyses of determinate and indeterminate trusses, beams, and frames.
Prerequisite(s): MECH 325 (C or better)

CIVE 342 STRUCTURAL DESIGN FUNDAMENTALS (1 credit)
Introduction to structural engineering design philosophy, steel and concrete design criteria, and procedures for trusses, simple beams, continuous beams, and frames. Introduction to structural experiments and software used in structural analysis and design.
Prerequisite(s): MECH 325 (C or better)

CIVE 351 INTRODUCTION TO WATER RESOURCES ENGINEERING (3 credits)
Introduction to water resources engineering design and planning, surface hydrology, groundwater hydrology, reservoirs and other control structures. Introduction to field measurement and computational methods in water resources.
Prerequisite(s): CIVE 310 or MECH 310

CIVE 351D INTRODUCTION TO WATER RESOURCES ENGINEERING (3 credits)
Introduction to water resources engineering design and planning, surface hydrology, groundwater hydrology, reservoirs and other control structures. Introduction to field measurement and computational methods in water resources.
Prerequisite(s): CIVE 310 or MECH 310

CIVE 351L HYDRAULICS LAB (1 credit)
Hydraulic experiments and demonstrations. Velocity, pressure and flow measurements; pipe flow, open channel flow; hydraulic structures and machinery, hydrologic and sediment measurement and student projects.
Prerequisite(s): CIVE 310 pre-requisite/co-requisite

CIVE 355 PROFESSIONAL PRACTICE AND MANAGEMENT IN CIVIL ENGINEERING (3 credits)
Basic elements of civil engineering practice. Roles of all participants in the process-owners, designers, architects, contractors, and suppliers. Basic concepts in business management, public policy, leadership, and professional licensure. Professional relations, civic responsibilities, and ethical obligations for engineering practice. Project management, contracts, allocation of resources, project estimating, planning, and controls.
Prerequisite(s): Junior standing and CIVE major. Not open to non-degree graduate students.

CIVE 361 HIGHWAY ENGINEERING (3 credits)
Introduction to the principles of highway engineering and traffic operations and control.
Prerequisite(s): CIVE 102 (C or better), MECH 223 (C or better)

CIVE 361D INTRODUCTION TO HIGHWAY ENGINEERING (3 credits)
Introduction to highway engineering and traffic operations and control.
Prerequisite(s): CIVE 102 (C or better), MECH 223 (C or better)

CIVE 361L HIGHWAY ENGINEERING LAB (1 credit)
Highway experiments and demonstrations. Velocity, pressure and flow measurements; pipe flow, open channel flow; hydraulic structures and machinery, hydrologic and sediment measurement and student projects.
Prerequisite(s): CIVE 310 pre-requisite/co-requisite

CIVE 362 CIVIL ENGINEERING DESIGN II (3 credits)
The second of two courses in the capstone sequence. Practical application of the engineering design process in a team project focused on an authentic and comprehensive civil engineering design project.
Prerequisite(s): CIVE 321, CIVE 331, CIVE 341, CIVE 351, and CIVE 361

CIVE 363 INTRODUCTION TO ENVIRONMENTAL ENGINEERING (3 credits)
The first of two courses in the capstone sequence. Practical application of the engineering design process in a team project focused on an authentic and comprehensive civil engineering design project.
Prerequisite(s): CIVE 321, CIVE 331, CIVE 341, CIVE 351, and CIVE 361

CIVE 366 PROFESSIONAL PRACTICE AND MANAGEMENT IN CIVIL ENGINEERING (3 credits)
Basic elements of civil engineering practice. Roles of all participants in the process-owners, designers, architects, contractors, and suppliers. Basic concepts in business management, public policy, leadership, and professional licensure. Professional relations, civic responsibilities, and ethical obligations for engineering practice. Project management, contracts, allocation of resources, project estimating, planning, and controls.
Prerequisite(s): Junior standing and CIVE major. Not open to non-degree graduate students.

CIVE 401 CIVIL ENGINEERING DESIGN I (3 credits)
The first of two courses in the capstone sequence. Practical application of the engineering design process in a team project focused on an authentic and comprehensive civil engineering design project.
Prerequisite(s): CIVE 321, CIVE 331, CIVE 341, CIVE 351, and CIVE 361

CIVE 402 CIVIL ENGINEERING DESIGN II (3 credits)
The second of two courses in the capstone sequence. Practical application of the engineering design process in a team project focused on an authentic and comprehensive civil engineering design project.
Prerequisite(s): CIVE 401

CIVE 419 FLOW SYSTEMS DESIGN (3 credits)
Application of hydraulic principles to the design of water distribution systems, wastewater and stormwater collection systems, channelized flow systems and treatment facilities. (Cross-listed with CIVE 819)
Prerequisite(s): CIVE 326 or CIVE 327; CIVE 352 coreq.
CIVE 420 ENVIRONMENTAL ENGINEERING PROCESS DESIGN (3 credits)
Design of unit operations and processes associated with drinking water and wastewater treatment facilities, and other environmental treatment systems.
Prerequisite(s): CIVE 321 and CIVE 310

CIVE 422 POLLUTION PREVENTION: PRINCIPLES AND PRACTICES (3 credits)
Introduction to pollution prevention (P2) and waste minimization methods. Practical applications to small businesses and industries. Legislative and historical development of P2 systems analysis, waste estimation, P2 methods, P2 economics, and sources of P2 information. (Cross-listed with CIVE 822).
Prerequisite(s): Permission

CIVE 424 SOLID WASTE MANAGEMENT ENGINEERING (3 credits)
Planning design and operation of solid and waste collection processing, treatment, and disposal systems including materials, resources and energy recovery systems. (Cross-listed with CIVE 824).
Prerequisite(s): CIVE 326 and CIVE 334

CIVE 426 DESIGN OF WATER TREATMENT FACILITIES (3 credits)
Analyses of water supplies and design of water treatment and distribution systems. (Cross-listed with CIVE 826).
Prerequisite(s): CIVE 420

CIVE 427 DESIGN OF WASTEWATER TREATMENT AND DISPOSAL FACILITIES (3 credits)
Analysis of systems for wastewater treatment and disposal. (Cross-listed with CIVE 827).
Prerequisite(s): CIVE 420

CIVE 430 FUNDAMENTALS OF WATER QUALITY MODELING (3 credits)
Comprehensive study of water quality and the effects of various water pollutants on the aquatic environment; modeling of water quality variables. (Cross-listed with CIVE 830).
Prerequisite(s): CIVE 326

CIVE 434 SOIL MECHANICS II (3 credits)
Application of the effective stress principle to shear strength of cohesive soils; analysis of stability of slopes. Development of continuum relationships for soils; solutions for stresses and displacements for an elastic continuum. Solution of the consolidation equation for various initial and boundary conditions.
Prerequisite(s): CIVE 334

CIVE 436 FOUNDATION ENGINEERING (3 credits)
Subsoil exploration and interpretation; selection of foundation systems; determination of allowable bearing capacity and settlement; design of deep foundations; pile driving analysis; control of groundwater.
Prerequisite(s): CIVE 334

CIVE 439 INTRODUCTION TO BRIDGE ENGINEERING (3 credits)
Structural types, bridge loads, design of bridge slabs, steel girder bridges, and prestressed concrete girder bridges. Evaluation of existing bridges. Problems related to fatigue and corrosion. Field testing of bridges. (Cross-listed with CIVE839)
Prerequisite(s): CIVE440 or CIVE441 or CIVE840

CIVE 440 REINFORCED CONCRETE DESIGN I (3 credits)
Introduction to the design concepts of reinforced concrete building components. The design of flexural and compression members, simple walls, foundations, and floor systems using the latest American Concrete Institute (ACI) design requirements.
Prerequisite(s): CIVE 341

CIVE 441 STEEL DESIGN I (3 credits)
Introduction to the design concepts for structural steel building components. Design of tension members, bolted and welded connections, column members, and beam members. Limit states design concepts used throughout, and emphasis on behavior of members and code design procedures.
Prerequisite(s): CIVE 341

CIVE 443 ADVANCED STRUCTURAL ANALYSIS (3 credits)
Matrix analysis methods and computer solutions for indeterminate structures. Additional topics: static condensation, shear deformations, and non-prismatic members in matrix-based analyses, moment distribution method, load cases and load combinations for buildings and bridges, and influence lines and analysis for moving loads. (Cross-listed with CIVE 843)
Prerequisite(s): CIVE 341. Not open to non-degree graduate students.

CIVE 444 STRUCTURAL DESIGN AND PLANNING (3 credits)
Principles of design of steel and reinforced concrete structural building systems, planning of building vertical and horizontal load resisting systems, and bridge systems. Several design projects involve indeterminate analysis and design concepts for both steel and reinforced concrete. (Cross-listed with CIVE 844).
Prerequisite(s): CIVE 440 and CIVE 441

CIVE 446 STEEL DESIGN II (3 credits)
A continuation of the topics covered in CIVE 441. The principles and procedures used in design of steel buildings, design of plate girders, design and analysis of building systems, design and analysis of composite steel-concrete building systems, innovative building systems, and introduction to seismic design of steel buildings. Plate buckling, beam, column, and beam-column design, and frame stability. Introduction to connection design.
Prerequisite(s): CIVE 441

CIVE 447 REINFORCED CONCRETE II (3 credits)
Shear friction theory, strut-and-tie modeling, anchorage, deflection, slenderness and bi-axially loaded members, torsion, two-way action and punching shear, and footing design. Excel spreadsheets are developed and used for various design tasks. (Continuation of topics covered in CIVE 440/CIVE 840.) (Cross-listed with CIVE 847).
Prerequisite(s): CIVE 440 or CIVE 840

CIVE 451 INTRODUCTION TO FINITE ELEMENT ANALYSIS (3 credits)
Matrix methods of analysis. The finite element stiffness method. Computer programs. Applications to structures and soils. Introduction to finite element analysis of fluid flow. (Cross-listed with CIVE 851)

CIVE 452 WATER RESOURCES DEVELOPMENT (3 credits)
Theory and application of systems engineering with emphasis on optimization and simulation techniques for evaluating alternatives in water resources developments related to water supply, flood control, hydroelectric power, drainage, water quality, water distribution, irrigation and water measurement. (Cross-listed with CIVE 852).
Prerequisite(s): CIVE 352

CIVE 454 HYDRAULIC ENGINEERING (3 credits)
Fundamentals of hydraulics with applications of mechanics of solids, mechanics of fluids, and engineering economics to the design of hydraulic structures. Continuity, momentum, and energy principles are applied to special problems from various branches of hydraulic engineering. (Cross-listed with CIVE 854).
Prerequisite(s): CIVE 352

CIVE 455 NONPOINT SOURCE POLLUTION CONTROL ENGINEERING (3 credits)
Identification, characterization, and assessment of nonpoint source pollutants; transport mechanisms and remediation technologies; design methodologies and case studies. (Cross-listed with CIVE 855).
Prerequisite(s): CIVE 326 and CIVE 352
CIVE 456 SURFACE WATER HYDROLOGY (3 credits)
Stochastic analysis of hydrological data and processes including rainfall, runoff, infiltration, temperature, solar radiation, wind, and non-point pollution. Space-time hydrologic modeling with emphasis on the application of techniques in the design of engineering projects. (Cross-listed with CIVE 856).
Prerequisite(s): CIVE 352 or permission

CIVE 458 GROUNDWATER ENGINEERING (3 credits)
Application of engineering principles to the movement of groundwater. Analysis and design of wells, well fields, and artificial recharge. Analysis of pollutant movement. (Cross-listed with CIVE 858).
Prerequisite(s): CIVE 352.

CIVE 459 RELIABILITY OF STRUCTURES (3 credits)
Fundamental concepts related to structural reliability, safety measures, load models, resistance models, system reliability, optimum safety levels, and optimization of design codes.
Prerequisite(s): CIVE 341.

CIVE 461 URBAN TRANSPORTATION PLANNING (3 credits)
Development of urban transportation planning objectives and goals. Data collection procedures, land use and travel forecasting techniques, trip generation, trip distribution, modal choice analysis, and traffic assignment. Site development and traffic impact analysis. (Cross-listed with CIVE 861).
Prerequisite(s): CIVE 361.

CIVE 462 HIGHWAY DESIGN (3 credits)
Design of roadways, intersections, interchanges, parking facilities, and land development site access and circulation. Emphasis on design projects. (Cross-listed with CIVE 862).
Prerequisite(s): CIVE 361.

CIVE 463 TRAFFIC ENGINEERING (3 credits)
Design of signalized intersections, arterial street and network signal systems, and freeway control systems. Emphasis on design projects. (Cross-listed with CIVE 863).
Prerequisite(s): CIVE 361.

CIVE 468 AIRPORT PLANNING AND DESIGN (3 credits)
Planning and design of general aviation and air-carrier airports. Land-side components include vehicle ground access systems, vehicle circulation parking and terminal buildings. Air-side components include aircraft apron gate area, taxi-way system, runway system and air traffic control facilities and airspace. Emphasis on design projects. (Cross-listed with CIVE 868).
Prerequisite(s): CIVE 361.

CIVE 471 BITUMINOUS MATERIALS AND MIXTURES (3 credits)
Understanding of the physical, chemical, geometrical, and mechanical characteristics and practical applications of bituminous materials and mixtures. Fundamental mechanics for elastic and inelastic materials and basic theories associated with mechanical data analyses and designs. Recent advances and significant research outcomes for further discussions. Applications of theories to laboratory and field testing. (Cross-listed with CIVE 871).
Prerequisite(s): CIVE 378. Not open to non-degree graduate students.

CIVE 472 PAVEMENT DESIGN AND EVALUATION (3 credits)
Thickness design of flexible and rigid pavement systems for highways and airports; design of paving materials; evaluation and strengthening of existing pavements. (Cross-listed with CIVE 872).
Prerequisite(s): CIVE 334

CIVE 475 WATER QUALITY STRATEGY (3 credits)
Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems for selecting strategies; and for evaluating present strategies.
Prerequisite(s): Senior standing

CIVE 476 CONSTRUCTION COST CONTROLS (3 credits)
Development of cost accounting principles and financial controls appropriate for construction contractors. Includes purchasing policies and procedure, labor and equipment cost reporting techniques, accounting procedures for control of materials and supplies, billing methods, principles of financial reporting and analysis.
Prerequisite(s): ACCT 2010 and ACCT 2020.

CIVE 481 COMPUTATIONAL PROBLEM SOLVING IN CIVIL ENGINEERING (3 credits)
Introduction of numerical methods to solve problems in civil engineering, including finding roots of equations, solving linear algebra equations, optimization, curve fitting, numerical differentiation and integration, and finite difference method. Computational methods in numerical integration, matrix operations and ordinary differential equations as they apply to civil engineering problems. (Cross-listed with CIVE 881)
Prerequisite(s): Not open to non-degree graduate students.

CIVE 489 SENIOR DESIGN PROJECT (3 credits)
Requires the formulation and completion of a civil engineering design project. Course provides senior civil engineering students with the opportunity to apply engineering concepts and principles to a comprehensive design project of multiple sub-disciplinary nature. The principal objectives are for students to develop an understanding of the entire life-cycle of civil engineering projects with emphasis on the development of a unified and sustainable design that addresses the client’s needs; project team work; strong engineer-client relationships; and effective project communications.
Prerequisite(s): Senior standing and CIVE 385

CIVE 491 SPECIAL TOPICS IN CIVIL ENGINEERING (1-6 credits)
Special topics in emerging areas of civil engineering which may not be covered in other courses in the civil engineering curriculum.

CIVE 494 INDEPENDENT STUDY IN CIVIL ENGINEERING (1-3 credits)
Individual study at the undergraduate level in a selected area of civil engineering under the supervision and guidance of a Civil & Environmental Engineering faculty member.

CIVE 498 INDEPENDENT RESEARCH IN CIVIL ENGINEERING (1-6 credits)
Independent research work and written findings in a selected area of civil engineering under the supervision and guidance of a Civil & Environmental Engineering faculty member.
Prerequisite(s): Permission

Electrical & Computer Engineering

The mission of the department of Electrical & Computer Engineering (ECE) at the University of Nebraska is to provide undergraduate and graduate level education in electrical and computer engineering, perform research and other scholarly activities, and furnish service to the state, nation, industry, and the profession. To fulfill this mission, the ECE department offers the degrees of Bachelor of Science in Electrical Engineering and in Computer Engineering, as well as several graduate programs. The faculty takes pride in its high level of interaction with both undergraduate and graduate students.

General Requirements

The following sections apply to the electrical engineering and computer engineering programs. For more details visit the ECE department’s website (https://engineering.unl.edu/ece/)

Advisement

Upon entry into the curriculum, each student will be assigned an academic advisor. It is required that each student meet with the advisor prior to each
class registration period and that all courses to be applied toward the degree be selected with the advice and approval of the advisor.

The student is expected to have his/her academic records reviewed and approval obtained from the ECE department prior to application to the University registrar for awarding of a degree in order to ensure that all curricular requirements have been satisfied by the time of the student’s intended graduation.

Curriculum
Because of the rapid developments in the fields of electrical and computer engineering, the curricular requirements are continually reviewed and updated to reflect technological advances. Curricular sequence and course descriptions contained herein are intended to serve as general guidelines. Contact the ECE department for information on any changes to the requirements that are currently in effect but not listed in this catalog.

Students who do not maintain continuous progress toward a degree through enrollment in applicable course work will be considered as new students upon reentering the electrical or computer engineering curricular sequence and will be subject to the requirements of the curriculum current at the time of their reentry. Certain courses may not be valid as prerequisites or as credit toward the degree after two academic years; the student’s academic advisor should be consulted regarding applicability. The applicable University catalogs and college academic policies must be followed to ensure the student satisfies all of the Achievement Centered Education (ACE) requirements.

Special Interest Areas
Opportunities are provided for the development of areas of special interest through enrollment in the individual study courses which are offered at the freshman through senior level for the student who may wish to develop a topic under the guidance of a department faculty member. Enrollment is by permission after a written proposal has been approved. Special topics courses are also offered by the department as the need arises. Academic advisers should be consulted regarding the particular topics to be covered and the necessary prerequisites for each offering of this course. Students who expect to continue their education at the graduate level after the award of the baccalaureate degree should consult their advisors regarding course selections that would enhance that objective.

Students are encouraged to develop their professional and leadership potential through participation in student chapters of related professional organizations and in University extracurricular activities. Participation in the University Honors Program is encouraged for those who qualify.

Transfer Course Work
The applicability of transfer course work with engineering content toward credit in the curriculum is determined on a case-by-case basis by the department.

Financial Aid
Numerous opportunities exist for students to obtain financial aid during the course of their academic work at the university. The office of the dean of the college and the campus financial aid office should be consulted to determine the availability of such assistance.

Degrees Offered
- Electrical Engineering (p. 639)
- Computer Engineering (p. 637)

ECEN 103 ELECTRICAL AND COMPUTER ENGINEERING FUNDAMENTALS (4 credits)
Introduction to DC circuit analysis and digital logic. Topics include Ohm’s and Kirchoff’s laws, mesh and nodal analysis, Boolean algebra, logic gates, minimization, counters and flip-flops. Uses of computer based resources for data analysis and report generation. Use of internet to locate and retrieve engineering resources.
Prerequisite(s): MATH 1950 (pre or coreq)

ECEN 106 MICROPROCESSOR APPLICATIONS (3 credits)
Introduction to assembly language programming of microprocessors/ microcontrollers, assemblers, and debugging tool utilization. Microprocessor system hardware components, control signals, and ‘C’ language micro-controller programming.
Prerequisite(s): ECEN 103, CIST 1400

ECEN 123 INTRODUCTION TO ELECTRICAL AND COMPUTER ENGINEERING (1 credit)
Laboratory design projects introducing some basic concepts and skills needed in electrical and computer engineering.
Prerequisite(s): Coreq: CIST 1400. Open to first year students only or by permission.

ECEN 192 INDIVIDUAL STUDY IN COMPUTER AND ELECTRONICS ENGINEERING I (1-3 credits)
Individual study at the freshman level in a selected electrical, computer, or electronics engineering area under the supervision and guidance of an electrical and computer engineering faculty member.
Prerequisite(s): Departmentally approved proposal

ECEN 194 SPECIAL TOPICS IN ELECTRICAL AND COMPUTER ENGINEERING I (1-4 credits)
Special topics in the emerging areas of electrical, computer and electronics engineering which may not be covered in the other courses in the electrical and computer engineering curriculum.
Prerequisite(s): Freshman standing or permission.

ECEN 198 SPECIAL TOPICS IN ELECTRICAL ENGINEERING I (1-6 credits)
Offered as the need arises to treat electrical engineering topics for first-year students not covered in other courses.
Prerequisite(s): Permission. Not open to non-degree graduate students.

ECEN 211 ELEMENTS OF ELECTRICAL ENGINEERING (3 credits)
Basic circuit analysis including direct and alternating currents and operational amplifiers. Digital signals and circuits. Not for electrical engineering majors.
Prerequisite(s): MATH 1960 and PHYS 2110

ECEN 213 ELECTRICAL CIRCUITS I (3 credits)
Electrical circuit theory, Kirchoff’s and Ohm’s laws, circuit analysis theorems, Norton and Thevenin equivalence. The analysis of resistor circuits, with capacitors and inductors, in DC and AC steady state. Transients and variable frequency response are studied, including computer solutions to circuit problems.
Prerequisite(s): ECEN 103 and ECEN 225. MATH 2350 prior to or concurrent.

ECEN 214 ELECTRICAL CIRCUITS II (3 credits)
Introduction to the analysis of electrical circuits in sinusoidal steady states. The concepts of impedance, phasors, power, frequency response, resonance, magnetic circuits and two-port networks. Transform techniques for circuit analysis.
Prerequisite(s): ECEN 213 and ECEN 218. Pre or Corequisite: MATH 2050.

ECEN 215 ELECTRONICS AND CIRCUITS I (3 credits)
Introduction to electrical engineering circuit theory. Kirchoff’s law and circuit analysis theorem applied to steady state DC resistive circuits. Analysis of transient RLC and sinusoidal steady-state circuits. Modern computer methods are employed.
Prerequisite(s): Co-Req: MATH 1970
ECEN 216 ELECTRONICS AND CIRCUITS II (3 credits)
Prerequisite(s): ECEN 215 with grade of C or higher. Coreq: MATH 2350.

ECEN 217 ELECTRICAL CIRCUITS III (1 credit)
Analysis of first and second order RLC circuits using differential equations and Laplace transforms. Variable frequency network performance analysis. This course is for computer engineering majors only.
Prerequisite(s): ECEN 213. Not open to non-degree graduate students.

ECEN 218 ELECTRICAL CIRCUITS LABORATORY I (1 credit)
The use of laboratory tools for measurement and verification of electrical concepts. Experiments using both passive and semiconductor devices at audio frequencies. Analysis verification with computer simulation.
Prerequisite(s): Coreq: ECEN 213.

ECEN 220 INTRODUCTION TO EMBEDDED SYSTEMS (3 credits)
Basic hardware and software concepts of embedded microprocessor systems and interfacing with other hardware components. Simple circuits are designed and drivers to run these circuits are written. Design and build hardware and write drivers in assembly language.
Prerequisite(s): CSCI 1200 or working knowledge of C programming. Not open to non-degree graduate students.

ECEN 222 ELECTRONIC CIRCUITS I (4 credits)
Analysis and design of modern electronic circuits. Diode circuits, bipolar and field effect transistor switching and amplifier circuits, and operational amplifier circuits.
Prerequisite(s): ECEN 213 with grade of C or better, and ECEN 218.

ECEN 224 INTRODUCTION TO SIGNAL PROCESSING (4 credits)
This course demonstrates the use of mathematical and digital computation tools key to engineering applications. Auditory and visual senses are used in the presentation and study of sinusoidal signals, sampling, frequency response and filtering theory.
Prerequisite(s): ECEN 106, CIST 1400, MATH 1960.

ECEN 225 ELECTRICAL AND COMPUTER ENGINEERING SEMINAR (1 credit)
An overview of electrical, computer, electronics and telecommunication fields. There will be information on professional careers available upon graduation. Professionalism and ethics are addressed as well as the need for lifelong learning experiences.
Prerequisite(s): ECEN 103 or parallel

ECEN 231 ELECTRICAL ENGINEERING LABORATORY (1 credit)
Laboratory accompanying ECEN 211.
Prerequisite(s): Coreq: ECEN 211. Not open to non-degree graduate students.

ECEN 235 INTRODUCTORY ELECTRICAL LABORATORY I (1 credit)
Laboratory accompanying ECEN 215.
Prerequisite(s): Coreq: ECEN 215.

ECEN 236 INTRODUCTORY ELECTRICAL LABORATORY II (1 credit)
Laboratory accompanying ECEN 216.
Prerequisite(s): ECEN 235, Coreq: ECEN 216.

ECEN 292 INDIVIDUAL STUDY IN ELECTRICAL AND COMPUTER ENGINEERING II (1-3 credits)
Individual study in a selected electrical, computer or electronics engineering area under the supervision and guidance of a electrical and computer engineering faculty member.
Prerequisite(s): Sophomore Standing, ECE departmentally approved proposal.

ECEN 294 SPECIAL TOPICS IN ELECTRICAL AND COMPUTER ENGINEERING II (1-4 credits)
Special topics in the emerging areas of electrical, computer and electronics engineering at the sophomore level which may not be covered in the other courses in the electrical and engineering curriculum.
Prerequisite(s): Sophomore standing or permission.

ECEN 304 SIGNALS AND SYSTEMS I (3 credits)
Prerequisite(s): ECEN 214 or ECEN 216 with a grade of C or better and MATH 2350.

ECEN 305 PROBABILITY THEORY AND STATISTICS FOR ELECTRICAL AND COMPUTER ENGINEERS (3 credits)
Random experiment model, random variables, functions of random variables, and introduction to random processes; statistics and practical data analysis.
Prerequisite(s): MATH 1970/(UNL)MATH 208

ECEN 306 ELECTROMAGNETIC FIELD THEORY (3 credits)
Prerequisite(s): ECEN 215 or ECEN 213 with grade of C or better, PHYS 2120, MATH 1970, MATH 2350., not open to non-degree graduate students.

ECEN 307 ELECTRICAL ENGINEERING LABORATORY I (2 credits)
Laboratory work on circuits and systems, digital and analog electronic circuits.
Prerequisite(s): ECEN 106; ECEN 222 or ECEN 236; Coreq: ECEN 313 or ECEN 370; Admission to College of Engineering: not open to non-degree graduate students.

ECEN 310 DIGITAL DESIGN AND INTERFACING (4 credits)
Digital design from both the circuit and system perspectives. Topics include the structure and analysis of digital integrated circuits, interface signal integrity, Field Programmable Gate Array (FPGA) design and synthesis, software simulation. Lab exercises provide hands-on experience with design tools and the design process.
Prerequisite(s): ECEN 222. Prereq or coreq: ECEN 313.

ECEN 313 SWITCHING CIRCUITS THEORY (4 credits)
Combinalional circuit analysis and design. State machine analysis and design. Includes synchronous/clock mode circuits and asynchronous sequential circuits. Minimization, race and hazard elimination are covered. Circuits are implemented in discrete logic and in CPLD and FPGA devices. VHDL hardware description language is used to describe circuits. Circuits are implemented in discrete logic and in CPLD/FPGA devices.
Prerequisite(s): ECEN 106.

ECEN 316 ELECTRONICS AND CIRCUITS III (3 credits)
Kirchhoff's laws and circuit analysis theorems applied to steady state transistor circuits. Frequency response of filters and amplifiers. Basic power amplifier types. Advanced operational amplifier circuits. Introduction to the fundamentals of semiconductor theory and their application to p-n junction and field devices.
Prerequisite(s): ECEN 216 with grade of C or better.

ECEN 317 ELECTRICAL ENGINEERING LABORATORY II (2 credits)
Lab work on electromagnetic fields and waves, solid state devices, discrete systems, control systems, and communications.
Prerequisite(s): ECEN 304, ECEN 307 Coreq: ECEN 306, ECEN 316, not open to non-degree graduate students.
ECEN 325 COMMUNICATIONS SYSTEMS (4 credits)
Relevant communication systems; principles of transmission and reception; amplitude; frequency and phase modulation. Sampling theorem, pulse-code modulation and delta modulation.
Prerequisite(s): ECEN 222; Coreq: ECEN 305.

ECEN 327 DISCRETE SYSTEMS LABORATORY (1 credit)
Laboratory work on discrete systems.
Prerequisite(s): ECEN 106 or ECEN 220 and ECEN 307

ECEN 328 APPLIED FIELDS AND LINES I (3 credits)
Prerequisite(s): MATH 1970 and MATH 2350

ECEN 329 APPLIED FIELDS AND LINES II (3 credits)
Metallic waveguides with rectangular, circular and coaxial cross section, antennas, free space, propagation in free space, applications.
Prerequisite(s): ECEN 328.

ECEN 332 ASSEMBLY LANGUAGE PROGRAMMING (1 credit)
Architecture and assembly language programming of 8-bit and 32-bit microcontrollers.
Prerequisite(s): ECEN 106

ECEN 338 INTRODUCTION TO POWER AND ENERGY SYSTEMS (3 credits)
Energy sources, environmental impacts, power systems principles, three phase circuits, transmission lines, transformers, per unit analysis, generators, loads, and power system modeling.
Prerequisite(s): ECEN 216 or ECEN 214 with grade of C or better. Not open to non-degree graduate students.

ECEN 345 MOBILE ROBOTICS I (4 credits)
Introduction to the primary issues spanning the field of mobile robotics, including robotics history, robot components (sensors, actuators), robot system design considerations, low-level control (feedback control) and robotics control architectures. The lab focuses on the practical implementation of autonomous robot control on a real mobile robot using behavior-based methods in the C language.
Prerequisite(s): ECEN 106, ECEN 213.

ECEN 347 ELECTRICAL ENGINEERING LABORATORY II (1 credit)
Lab work on electromagnetics, fields and waves, solid state devices and control systems.

ECEN 350 ELECTRICAL AND COMPUTER ENGINEERING COOPERATIVE EDUCATIONAL EXPERIENCE (1-3 credits)
For cooperatives primarily technical in nature lasting 4.5 months or greater. Weekly communication and/or final report required. Must be taken during or after the semester in which the Co-op occurs.
Prerequisite(s): Permission. Not open to non-degree graduate students.

ECEN 352 ELECTRONIC CIRCUITS II (4 credits)
Operational amplifier circuit design and analysis with emphasis on feedback and stability. Design and analysis of large signal power amplifiers. Other integrated devices such as regulators, comparators, Schmitt triggers, oscillators and active filters.
Prerequisite(s): ECEN 222

ECEN 355 SIGNALS AND LINEAR SYSTEMS (3 credits)
Continuous and discrete time representations of signals. System modeling and analysis using differential and difference equations. Fourier, Laplace and z transforms. State description of continuous and discrete time transfer functions. The primary mathematical tools used in the analysis of continuous and discrete time systems.
Prerequisite(s): ECEN 214

ECEN 361 ADVANCED ELECTRONICS AND CIRCUITS (3 credits)
Analog and digital electronics for discrete and integrated circuits. Multistage amplifiers, frequency response, feedback amplifiers, simple filters and amplifiers MOS and biopolar logic gates and families A/D and D/A converters.
Prerequisite(s): ECEN 316; not open to non-degree graduate students.

ECEN 362 DATA AND TELECOMMUNICATIONS TRANSCIEVERS (4 credits)
Noise and signal distortions in communication systems, impedance matching techniques, high frequency measurement techniques, design of high frequency amplifiers and oscillators, PLL and frequency synthesizers, data synchronization and multiplexing techniques, Antennas and their arrays.
Prerequisite(s): ECEN 352; Pre or Coreq.: ECEN 325, ECEN 328

ECEN 370 DIGITAL LOGIC DESIGN (3 credits)
Combinational and sequential logic circuits, MSI chips, programmable logic devices (PAL, ROM, PLA) used to design combinational and sequential circuits. CAD tools. LSI and PLD components and their use. Hardware design experience.
Prerequisite(s): ECEN 121, not open to non-degree graduate students.

ECEN 392 INDIVIDUAL STUDY IN ELECTRICAL AND COMPUTER ENGINEERING III (1-3 credits)
Individual study in a selected electrical, computer or electronics engineering area under the supervision and guidance of a electric and computer engineering faculty member.
Prerequisite(s): Junior standing and ECE departmentally approved proposal.

ECEN 394 SPECIAL TOPICS IN ELECTRICAL AND COMPUTER ENGINEERING III (1-4 credits)
Special topics in the emerging areas in electrical, computer and electronics engineering which may not be covered in the other courses in the Electrical and Computer engineering curriculum.
Prerequisite(s): Junior standing or permission.

ECEN 398 SPECIAL TOPICS ELECTRICAL ENGINEERING III (1-6 credits)
Offered as the need arises to treat electrical engineering topics for third-year students not covered in other courses.
Prerequisite(s): Permission. Not open to nondegree students.

ECEN 399 UNDERGRADUATE RESEARCH (1-3 credits)
Research accompanied by a written report.
Prerequisite(s): Electrical engineering seniors or permission., not open to non-degree graduate students.

ECEN 400 ELECTRONIC INSTRUMENTATION (3 credits)
Applications of analog and digital devices to electronic instrumentation. Includes transducers, instrumentation amplifiers, mechanical and solid state switches, data acquisition systems, phase-lock loops, and modulation techniques. Demonstrations with working circuits and systems. (Cross-listed with ECEN 800)
Prerequisite(s): Senior Standing in Engineering or Permission. Not open to non-degree graduate students.

ECEN 406 POWER SYSTEMS ANALYSIS (3 credits)
Symmetrical components and fault calculations, power system stability, generator modeling (circuit view point), voltage control system, high voltage DC transmission, and system protection. (Cross-listed with ECEN 806)
Prerequisite(s): ECEN 338, not open to non-degree graduate students.

ECEN 407 POWER SYSTEMS PLANNING (3 credits)
Economic evaluation, load forecasting, generation planning, transmission planning, production simulation, power plant reliability characteristics, and generation system reliability. (Cross-listed with ECEN 807)
Prerequisite(s): ECEN 305, not open to non-degree graduate students.
ECEN 408 ENGINEERING ELECTROMAGNETICS (3 credits)
Applied electromagnets: Transmission lines in digital electronics and communication. The quasistatic electric and magnetic fields; electric and magnetic circuits and electromechanical energy conversion. Guided waves; rectangular and cylindrical metallic waveguides and optical filters. Radiation and antennas: line and aperture antennas and arrays. (Cross-listed with ECEN 808)
Prerequisite(s): ECEN 306. Not open to non-degree graduate students.

ECEN 410 MULTIVARIATE RANDOM PROCESSES (3 credits)
Probability space, random vectors, multivariate distributions, moment generating functions, conditional expectations, discrete and continuous-time random processes, random process characterization and representation, linear systems with random inputs. (Cross-listed with ECEN 810)
Prerequisite(s): ECEN 305. Not open to non-degree graduate students.

ECEN 416 MATERIALS AND DEVICES FOR COMPUTER MEMORY, LOGIC, AND DISPLAY (3 credits)
Survey of fundamentals and application of devices used for memory, logic, and display. Magnetic, superconductive, semi-conductive, and dielectric materials. (Cross-listed with ECEN 816)
Prerequisite(s): PHYS 2120, not open to non-degree graduate students.

ECEN 417 SEMICONDUCTOR FUNDAMENTALS II (3 credits)
Analysis of BJTs and MOSFET's from a first principle materials viewpoint. Statics and dynamic analysis and characterization. (Cross-listed with ECEN 817)
Prerequisite(s): ECEN 421 or ECEN 821. Not open to non-degree graduate students.

ECEN 420 PLASMA PROCESSING OF SEMICONDUCTORS (3 credits)
Physics of plasmas and gas discharges developed. Includes basic collisional theory, the Boltzmann equation and the concept of electron energy distribution. Results are related to specific gas discharge systems used in semiconductor processing, such as sputtering, etching, and deposition systems. (Cross-listed with ECEN 820)
Prerequisite(s): Senior or graduate standing. Not open to non-degree graduate students.

ECEN 421 PRINCIPLES OF SEMICONDUCTOR MATERIALS AND DEVICES I (3 credits)
Introduction to semiconductor fundamentals, charge carrier concentration and carrier transport, energy bands, and recombination. PN junction, static and dynamic, and special PN junction diode devices. (Cross-listed with ECEN 821)
Prerequisite(s): PHYS 2130. Not open to non-degree graduate students.

ECEN 424 DIGITAL SIGNAL PROCESSING (3 credits)
The temporal and spectral analysis of digital signals and systems, the design of digital filters and systems, and advanced systems including multirate digital signal processing techniques. (Cross-listed with ECEN 824)
Prerequisite(s): ECEN 355

ECEN 428 POWER ELECTRONICS (3 credits)
Basic analysis and design of solid-state power electronic devices and converter circuitry. (Cross-listed with ECEN 828)
Prerequisite(s): ECEN 304, ECEN 316.

ECEN 430 WIND ENERGY (3 credits)
This broad multidisciplinary course will combine engineering principles of both the mechanical/aerodynamical and electrical components and systems, along with economic and environmental considerations for siting and public policy, to appropriately cover the relevant topics associated with all scales of wind energy implementations. (Cross-listed with ECEN 830)
Prerequisite(s): Senior standing or permission.

ECEN 433 MICROPROCESSOR SYSTEM DESIGN (4 credits)
Microprocessor based systems. Architecture; design and interfacing. Memory design, input/output ports, serial communications, and interrupts. Generating assembly ROM code, assembly/C firmware generation, and designing device drivers. (Cross-listed with ECEN 833)
Prerequisite(s): ECEN 310 with grade of C or better and ECEN 332 with grade of C or better.

ECEN 435 EMBEDDED MICROCONTROLLER DESIGN (4 credits)
Microcontroller architecture: design, programming, and interfacing for embedded systems. Timing issues, memory interfaces, serial and parallel interfacing, and functions for common microcontrollers. (Cross-listed with ECEN 835)
Prerequisite(s): ECEN 433/ECEN 833 with grade of C or better, STAT 3800.

ECEN 436 ELECTRIC MACHINES (3 credits)
Provides a solid background in electric machine analysis, covering fundamental concepts, techniques, and methods for analysis and design. Discussion of transformers and presentation of some new systems and applications. (Cross-listed with ECEN 836).
Prerequisite(s): PHYS 2120 and ECEN 216

ECEN 437 PARALLEL AND DISTRIBUTED PROCESS (3 credits)
Parallel and Distributed Processing concepts, principles, techniques and machines. (Cross-listed with ECEN 837)
Prerequisite(s): ECEN 435 or ECEN 835

ECEN 442 BASIC ANALYTICAL TECHNIQUES IN ELECTRICAL ENGINEERING (3 credits)
Applications of partial differential equations, matrices, vector analysis, complex variables, and infinite series to problems in electrical engineering. (Cross-listed with ECEN 842)
Prerequisite(s): MATH 2350. Not open to non-degree graduate students.

ECEN 444 LINEAR CONTROL SYSTEMS (3 credits)
Classical (transfer function) and modern (state variable) control techniques. Both time domain and frequency domain techniques are studied. Traditional, lead, lag, and PID compensators are examined, as well as state variable feedback. (Cross-listed with ECEN 844)
Prerequisite(s): ECEN 304. Not open to non-degree graduate students.

ECEN 448 DECISION ANALYSIS (3 credits)
Principles of engineering economy including time value of money, net present value, and internal rate of return. Use of influence diagrams and decision tree to structure and analyze decision situations under uncertainty including use of stochastic dominance, value of information, and utility theory. Fundamentals of two-person matrix games including Nash equilibrium. (Cross-listed with ECEN 848)
Prerequisite(s): ECEN 305 or STAT 3800.

ECEN 450 BIOINFORMATICS (3 credits)
This course examines how information is organized in biological sequences such as DNA and proteins and will look at computational techniques which make use of this structure. During this class various biochemical processes that involve these sequences are studied to understand how these processes effect the structure of these sequences. In the process bioinformatics algorithms, tools, and techniques which are used to explore genomic and amino acid sequences are also introduced. (Cross-listed with ECEN 850)
Prerequisite(s): Computer programming language and ECEN 305 or STAT 3800 or equivalent.

ECEN 451 INTRODUCTION TO VLSI SYSTEM DESIGN (3 credits)
The concepts, principles, and methodology at all levels of digital VLSI system design and focused on gate-level VLSI implementation. (Cross-listed with ECEN 851).
Prerequisite(s): ECEN 310

ECEN 452 INTRODUCTION TO COMPUTER-AIDED DIGITAL DESIGN (3 credits)
The concepts, simulation techniques and methodology in computer-aided digital design at system and logic levels. (Cross-listed with ECEN 852)
Prerequisite(s): ECEN 310
ECEN 453 COMPUTER SCIENCES BIOLOGY (3 credits)
Provides the required biology primer and covers functional genomics, transcriptomics, differential expression, clustering, classification, prediction, biomarker discovery, pathway analysis and network-based approaches to high throughput biological data analysis. Includes the development of databases, algorithms, web-based and other tools regarding management and analysis of life science data. Areas of study include DNA, RNA, and protein sequence analysis, functional genomics and proteomics, 3D macromolecule structure prediction, and systems/network approach. (Cross-listed with ECEN 853)
Prerequisite(s): By permission.

ECEN 454 POWER SYSTEMS OPERATION AND CONTROL (3 credits)
Characteristics and generating units. Control of generation, economic dispatch, transmission losses, unit commitment, generation with limited supply, hydrothermal coordination, and interchange evaluation and power pool. (Cross-listed with ECEN 854)
Prerequisite(s): ECEN 338 or ECEN 838. Not open to non-degree graduate students.

ECEN 460 LABVIEW PROGRAMMING (3 credits)
Labview as a programming language and for applications to acquire data, to access the network, control lab instruments, and for video and sound applications. (Cross-listed with ECEN 860)
Prerequisite(s): Prior programming experience.

ECEN 461 DIGITAL COMMUNICATIONS MEDIA (4 credits)
Topics related to the transport of bit streams from one geographical location to another over various physical media such as wire pairs, coaxial cable, optical fiber, and radio waves. Transmission characteristics, media interfacing, delay, distortion, noise, and error detection and correction techniques. (Cross-listed with ECEN 861)
Prerequisite(s): ECEN 325 or ECEN 462

ECEN 462 COMMUNICATION SYSTEMS (3 credits)
Mathematical descriptions of signals in communication systems. Principles of analog modulation and demodulation. Performance analysis of analog communication systems in the presence of noise. (Cross-listed with ECEN 862)
Prerequisite(s): ECEN 304 and ECEN 305. Not open to non-degree graduate students.

ECEN 463 DIGITAL SIGNAL PROCESSING (3 credits)
Discrete system analysis using Z-transforms. Analysis and design of digital filters. Discrete Fourier transforms. (Cross-listed with ECEN 863)
Prerequisite(s): ECEN 304. Not open to non-degree graduate students.

ECEN 464 DIGITAL COMMUNICATION SYSTEMS (3 credits)
Principles of digital transmission of information in the presence of noise. Design and analysis of baseband PAM transmission systems and various carrier systems including ASK, FSK, PSK. (Cross-listed with ECEN 864)
Prerequisite(s): ECEN 462. Not open to non-degree graduate students.

ECEN 465 INTRODUCTION TO DATA COMPRESSION (3 credits)
Introduction to the concepts of Information Theory and Redundancy removal. Simulation of various data compression schemes such as Delta Modulation, Differential Pulse Code Modulation, Transform Coding and Runlength Coding. (Cross-listed with ECEN 865)
Prerequisite(s): ECEN 305. Not open to non-degree graduate students.

ECEN 466 TELECOMMUNICATION ENGINEERING I (4 credits)
Standard telecommunications protocols, architecture of long distance integrated data networks, local area networks, wide area networks, radio and satellite networks. Network management, internetworking, system modeling and performance analysis. (Cross-listed with ECEN 866)
Prerequisite(s): ECEN 362; ECEN 461/ECEN 861 prior to or concurrent

ECEN 467 ELECTROMAGNETIC THEORY AND APPLICATIONS (3 credits)
Engineering application of Maxwell’s equations. Fundamental Parameters of Antennas, Radiation analysis, and synthesis of antenna arrays. Aperture Antennas. (Cross-listed with ECEN 867)
Prerequisite(s): ECEN 306. Not open to non-degree graduate students.

ECEN 468 MICROWAVE ENGINEERING (3 credits)
Applications of active and passive devices to microwave systems. Includes impedance matching, resonators, and microwave antennas. (Cross-listed with ECEN 868)
Prerequisite(s): ECEN 306. Not open to non-degree graduate students.

ECEN 469 ANALOG INTEGRATED CIRCUITS (3 credits)
Analysis and design of analog integrated circuits both bipolar and MOS. Basic circuit elements such as differential pairs, current sources, active loads, output drivers used in the design of more complex analog integrated circuits. (Cross-listed with ECEN 869)
Prerequisite(s): ECEN 361. Not open to non-degree graduate students.

ECEN 470 DIGITAL AND ANALOG VLSI DESIGN (3 credits)
Introduction to VLSI design techniques for analog and digital circuits. Fabrication technology and device modeling. Design rules for integrated circuit layout. LSI design options with emphasis on the standard cell approach of digital and analog circuits. Lab experiments, computer simulation and layout exercises. (Cross-listed with ECEN 870)
Prerequisite(s): ECEN 361. Not open to non-degree graduate students.

ECEN 471 COMPUTER COMMUNICATION NETWORKS (4 credits)
This course investigates the standard protocols and hardware solutions defined by the International Standard Organization (ISO) and Institute of Electrical and Electronics Engineers (IEEE) for the computer communications networks. Included are ISO OSI model, IEEE 802.X (Ethernet, token bus, token ring) and Asynchronous Transfer Modal (ATM) networks. (Cross-listed with ECEN 871)
Prerequisite(s): ECEN 325

ECEN 473 MOBILE AND PERSONAL COMMUNICATIONS (4 credits)
This course provides basic concepts on mobile and personal communications. Concepts on mobile and personal communications. Modulation techniques for mobile radio, equalization, diversity, channel coding, and speech coding. (Cross-listed with ECEN 873)
Prerequisite(s): ECEN 325

ECEN 474 DIGITAL SYSTEMS (3 credits)
Synthesis using state machines; design of digital systems; micro programming in small controller design; hardware description language for design and timing analysis. (Cross-listed with ECEN 874)
Prerequisite(s): ECEN 370. Not open to non-degree graduate students.

ECEN 475 SATELLITE COMMUNICATIONS (4 credits)
The fundamental concepts of satellite communications. Orbits, launching satellites, modulation and multiplexing, multiple access, earth stations, coding, interference and special problems in satellite communications. (Cross-listed with ECEN 875)
Prerequisite(s): ECEN 325

ECEN 476 WIRELESS COMMUNICATIONS (3 credits)
The fundamental concepts of wireless communications. Basic communications concepts such as multiple access, and spectrum. Propagation, radio, standards, and internetworking. Current issues in wireless communications. (Cross-listed with ECEN 876)
Prerequisite(s): ECEN 325 or ECEN 462 prior to or concurrent

ECEN 477 DIGITAL SYSTEMS ORGANIZATION AND DESIGN (3 credits)
This course provides basic concepts on mobile and personal communications. Concepts on mobile and personal communications. Modulation techniques for mobile radio, equalization, diversity, channel coding, and speech coding. (Cross-listed with ECEN 873)
Prerequisite(s): ECEN 325

ECEN 478 INFORMATION SYSTEMS ORGANIZATION AND DESIGN (3 credits)
Not open to non-degree graduate students.

ECEN 487 OPTICAL FIBER COMMUNICATIONS (4 credits)
Fundamentals of lightwave communication in optical fiber waveguides, physical description of fiber optic systems. Properties of the optical fiber and fiber components. Electro-optic devices: light sources and modulators, detectors and amplifiers; optical transmitter and receiver systems. Fiber optic link design and specification; fiber optic networks. (Cross-listed with ECEN 879)
Prerequisite(s): ECEN 463.
ECEN 480 INTRODUCTION TO LASERS AND LASER APPLICATIONS (3 credits)
Physics of electronic transition production stimulated emission of radiation. Threshold conditions for laser oscillation. Types of lasers and their applications in engineering. (Cross-listed with ECEN 880)
Prerequisite(s): PHYS 2130

ECEN 482 ANTENNAS AND RADIO PROPAGATION FOR WIRELESS COMMUNICATIONS (4 credits)
Fundamental theory of antennas and radio propagation for wireless communications. Basic antenna characteristics and various antennas and antenna arrays. Basic propagation mechanisms and various channel models, such as Friis free space model, Hata model, lognormal distribution, and multipath model. Includes practical antenna design for high radio frequency (RF) with modeling software tools such as Numerical Electromagnetic Code (NEC) and ADvanced Design System (ADS). Design projects will be assigned as the main part of course. (Cross-listed with ECEN 882)
Prerequisite(s): ECEN 328

ECEN 484 NETWORK SECURITY (4 credits)
Network security and cryptographic protocols. Classical encryption techniques, block ciphers and stream ciphers, public-key cryptography, authentications digital signatures, key management and distributions, network vulnerabilities, transport-level security, IP security. (Cross-listed with ECEN 884)
Prerequisite(s): ECEN 306 or permission. Not open to non-degree graduate students.

ECEN 486 APPLIED PHOTONICS (3 credits)
Introduction to the use of electromagnetic radiation for performing optical measurements in engineering applications. Basic electromagnetic theory and light interaction with matter are covered with corresponding laboratory experiments conducted. (Cross-listed with ECEN 886)
Prerequisite(s): ECEN 306 or permission. Not open to non-degree graduate students.

ECEN 488 WIRELESS SECURITY (4 credits)
A comprehensive overview on the recent advances in wireless network and system security. Covers security issues and solutions in emerging wireless access networks and systems as well as multihop wireless networks. (Cross-listed with ECEN 888)
Prerequisite(s): ECEN 325

ECEN 489 SPECIAL TOPICS IN ELECTRIC AND COMPUTER ENGINEERING IV (1-4 credits)
Special topics in the emerging areas of electrical, computer and electronics engineering which may not be covered in the other courses in the electrical, and computer engineering curriculum. (Cross-listed with ECEN 891)
Prerequisite(s): Senior standing

ECEN 492 INDIVIDUAL STUDY IN ELECTRICAL AND COMPUTER ENGINEERING IV (1-3 credits)
Individual study in a selected electrical, computer or electronics engineering area under the supervision and guidance of a Electrical and Computer Engineering faculty member. (Cross-listed with ECEN 892)
Prerequisite(s): Senior or graduate standing and departmentally approved proposal.

ECEN 494 ELECTRICAL ENGINEERING CAPSTONE I (2 credits)
A substantial design project that allows application of electrical engineering skills to a multidisciplinary project. Requires project definition, planning and scheduling, effective written and oral communication of technical ideas, incorporation of realistic constraints and engineering standards, functioning effectively on a multidisciplinary team, and applying new ideas as needed to meet project goals.
Prerequisite(s): ECEN 222, ECEN 304, ECEN 306, ECEN 313, and (UNO) ENGL 1160. The ECE department changed its English composition requirements to ENGL 1160 (UNO); ENGL 1160 is required, not technical writing.

ECEN 495 ELECTRICAL ENGINEERING CAPSTONE II (3 credits)
A substantial design project that allows application of electrical engineering skills to a multidisciplinary project. Requires project definition, planning and scheduling, effective written and oral communication of technical ideas, incorporation of realistic constraints and engineering standards, functioning effectively on a multidisciplinary team and applying new ideas as needed to meet project goals.
Prerequisite(s): ECEN 494

ECEN 496 COMPUTER ENGINEERING CAPSTONE I (2 credits)
A substantial design project that allows application of computer engineering skills to a multidisciplinary project. Requires project definition, planning and scheduling, effective written and oral communication of technical ideas, incorporation of realistic constraints and engineering standards, functioning effectively on a multidisciplinary team, and applying new ideas as needed to meet project goals. The first in a two semester computer engineering capstone senior design course sequence.
Prerequisite(s): ECEN 433; (UNO) ENGL 1160. The ECE department changed its English composition requirements to ENGL 1160 (UNO); ENGL 1160 is required, not technical writing.

ECEN 498 SPECIAL TOPICS IN ELECTRICAL ENGINEERING IV (1-6 credits)
Offered as the need arises to meet electrical engineering topics for fourth-year and graduate students not covered in other courses. (Cross-listed with ECEN 898)
Prerequisite(s): Permission.

ECEN 499 COMPUTER ENGINEERING CAPSTONE II (3 credits)
Requires the completion of a design project that demonstrates the ability to combine knowledge from individual courses in the program to complete a design task. The capstone design course for the B.S. in computer engineering, electrical engineering and electronics engineering.
Prerequisite(s): ECEN 496. Not open to non-degree graduate students.

ECEN 4220 INTRODUCTION TO PHYSICS AND CHEMISTRY OF SOLIDS (3 credits)
Introduction to structural, thermal, electrical, and magnetic properties of solids, based on concepts of atomic structure, chemical bonding in molecules, and electron states in solid state devices. (Cross-listed with ECEN 8226)
Prerequisite(s): PHYS 2130 or CHEM 3350, MATH 2350 or permission. Not open to non-degree graduate students.

Computer Engineering, Bachelor of Science

The 123 credit hour program in computer engineering leads to the Bachelor of Science degree in Computer Engineering. Thirty-one (31) hours of mathematics and physics and 9 hours of computer science complement the required 44 hours of work in the computer engineering area. Six (6) hours in written and oral communications, 15 hours in the humanities and social sciences, and 18 hours of engineering electives provide the opportunity for the student to acquire a general educational background and gain the cultural attributes associated with a university education.

The individual holding this degree will have advanced knowledge in his or her field of engineering interest and in addition will have a university educational background involving mathematics, the physical sciences, and the humanities and social sciences. Completion of this curriculum will enable the graduate to enter employment in positions involving computer hardware design and applications, computer software design and development, microcomputer based applications, and computer networking. The program also leads to the preparation for graduate work in computer engineering, computer science or electrical engineering.
Accreditation
The Electrical and Computer Engineering (ECE) department’s Computer Engineering program (CENG) is accredited by the Engineering Accreditation Commission of ABET (http://www.abet.org/).

Program Educational Objectives
The department’s Program Educational Objectives are a statement of what graduates are doing, or are capable of doing, three to five years after graduation. The students in the Computer Engineering program receive a strong foundation in engineering science and design that not only enables them to pursue productive careers in the computer engineering field but that can be used as the foundation for careers in other areas, such as business, management, and medicine. Typical industries in which Computer Engineering graduates are employed include microprocessor/embedded system design, digital design, hardware/software integration, and computer architecture and parallel processing.

The Computer Engineering program prepares graduates for their professional careers with the objective that within five years after graduation they will be:

- Employed in business, academia, or government.
- Successful engineers who have established productive careers in their field and have contributed to improve and provide innovative and effective solutions in computer engineering or related fields.
- Demonstrating technical and decision-making processes and the human interactions necessary to produce viable, responsible, and sustainable technological solutions.
- Engaging in lifelong learning, which may include postgraduate education, to successfully adapt to technological, industry specific, and cultural changes and to foster adept functioning in society.
- Performing engineering practice in a context that reflects awareness of the ethics of their profession and of the impacts of their work on the profession and society at large.

These Program Educational Objectives were developed with input from the program’s educational objectives constituency, consisting of employers (including the Industry Advisory Board), graduates of the program, and faculty of the department.

Student Outcomes
Learning Outcomes are the abilities that a graduate of the Computer Engineering program will have attained so that he/she can meet the educational objectives established for the program.

At the time of graduation, students in the ECE Computer Engineering program will have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions

7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Professional Admission Requirements
Pre-professionally admitted College of Engineering students majoring in computer engineering will be granted professional admission into the computer engineering program if the students have:

- maintained a cumulative GPA of at least 2.4 and is in good standing in the College of Engineering, and
- completed ECEN 213 Electrical Circuits I or ECEN 215 Electronics and Circuits I and ECEN 313 Switching Circuit Theory or ECEN 370 Digital Logic Design with a grade of C or better.

A transfer student will be admitted if he/she has:

- completed courses equivalent to ECEN 213 or ECEN 215 and ECEN 313 or ECEN 370 at other institutions with acceptable transfer grades of C or better, and
- earned a GPA of 2.4 or better during their first 12 credit hours in computer engineering course work at UNL/UNO.

Transfer students will be able to appeal to the College’s Academic Appeals Committee for admission for an additional semester if they fail to meet the GPA requirement.

See the College of Engineering section of the catalog for details on admission to the college.

The Department of Electrical and Computer Engineering offers a complete electrical engineering undergraduate program to students on the City (Lincoln) and Scott (Omaha) campuses of the University of Nebraska. Curriculum requirements for the electrical engineering major are nearly identical on both campuses and students can complete all degree requirements on either campus.

Electrical engineering is concerned with the production, transmission, and utilization of electrical energy and the creation, transmission and processing of information. This includes power generation and transmission systems, motors, batteries and control systems, as well as radio frequency (RF) systems, telecommunications, remote sensing, audio, video and opto-electronics. Employment opportunities for electrical engineers cover a wide spectrum of activities including design, development, research, sales, and management. These activities are carried on in industrial organizations, public and private utilities, the communications and computer industry, governmental and educational institutions, and consulting engineering firms. The objective of this major is to offer students an education to become productive electrical engineers and be active, contributing citizens of the nation and the world.

This department has over 40 faculty involved in research related to electronic materials, nanotechnology, optical systems, communications, biomedical applications, signal processing, microelectronics design, energy systems, and electromagnetics. Students are encouraged to participate in research activities, and have opportunities to travel and present their work at research conferences.

The department has extensive research facilities for all areas including state of the art computing facilities, integrated circuits and systems research facilities, communications and signal processing laboratories, applied electromagnetics research, solid state laboratories, nanostructures research, electro-optics research and energy systems laboratories.
The curriculum is designed to provide a broad education in fundamental principles and laboratory applications, and an awareness of the socioeconomic impact of technology. Technical electives are normally selected from advanced courses in electrical engineering to provide for specialization in selected areas as well as breadth and depth of knowledge. However, technical electives can also be selected from courses offered by other departments of the College of Engineering or from appropriate courses in physics, chemistry, mathematics, and biological sciences.

Accreditation
The Electrical and Computer Engineering (ECE) department’s Electrical Engineering Program (EE) is accredited by the Engineering Accreditation Commission of ABET (http://www.abet.org/)

Program Educational Objectives
The Program Educational Objectives (PEOs) for the electrical engineering program are a statement of what its graduates are doing or are capable of doing three to five years after graduation. Electrical engineering is concerned with the production, transmission, and utilization of electrical energy and the transmission and processing of information. Employment opportunities for electrical engineers cover a wide spectrum of activities including design, development, research, sales, and management. These activities are carried on in industrial organizations, public and private utilities, the communications and computer industry, governmental and educational institutions, and consulting engineering firms. Careers may encompass electronic materials, nanotechnology, optical systems, communications, biomedical applications, signal processing, microelectronics design, energy systems, and electromagnetics. The objective of this program is to offer students an education to become productive electrical engineers and be active, contributing citizens of the nation and the world.

The Program Educational Objectives for the electrical engineering program are that graduates will be:

• Employed in business, academia, or government.
• Successful engineers who have established productive careers in their field and have contributed to improve and provide innovative and effective solutions in electrical engineering or related fields.
• Demonstrating technical and decision-making processes and the human interactions necessary to produce viable, responsible, and sustainable technological solutions.
• Engaging in lifelong learning, which may include postgraduate education, to successfully adapt to technological, industry specific, and cultural changes and to foster adept functioning in society.
• Performing engineering practice in a context that reflects awareness of the ethics of their profession and of the impacts of their work on the profession and society at large.

These Program Educational Objectives were developed with input from the program’s educational objectives constituency, consisting of employers (including the Industry Advisory Board), graduates of the program, and faculty of the department.

Student Outcomes
Student Outcomes are those abilities that a graduate of the Electrical Engineering program will have attained so that he/she can meet the educational objectives established for the program.

At the time of graduation, students in the ECE Electrical Engineering program will have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Professional Admission Requirements
Pre-professionally admitted College of Engineering students majoring in electrical engineering will be granted profession admission into the electrical engineering program if the students have:

• maintained a cumulative GPA of at least 2.4 and is in good standing in the College of Engineering, and
• completed ECEN 213 Electrical Circuits I or ECEN 215 Electronics and Circuits I and ECEN 214 Electrical Circuits II or ECEN 216 Electronics and Circuits II with a grade of C or better.

A transfer student will be admitted if he/she has:

• completed courses equivalent to ECEN 213 or ECEN 215 and ECEN 214 or ECEN 216 at other institutions with acceptable transfer grades of C or better, and
• earned a GPA of 2.4 or better during their first 12 credit hours in electrical engineering course work at UNL/UNO.

Transfer students will be able to appeal to the College’s Academic Appeals Committee for admission for an additional semester if they fail to meet the GPA requirement.

See the College of Engineering section of the catalog for details on admission to the college.

Students graduating with a Bachelor of Science in Electrical Engineering degree must successfully complete 124 credit hours as follows:

**Total Credits** 124

1. Choose one course from not yet satisfied ACE outcomes 5,6,7,8 or 9.
2. ENGR 100 may be substituted for CMST 1110.
3. The department maintains an approved list of technical electives (within and outside of ECE) on the department website.
4. ECEN 213 may be substituted for ECEN 215.
5. ECEN 214 may be substituted for ECEN 216.

Total Credit Hours Required for Graduation 124 Hours

**Technical Electives**

Each EE undergraduate student must choose one of the emphasis areas listed below for the EE technical electives.

**Electrical Engineering Emphasis Areas**

- Communications and Signal Processing
- Electromagnetic Fields and Optics
- Electronics
- Energy and Power Systems
- Materials and Devices
- Bioengineering
- Modeling and Simulation
- Telecommunications

**Electives**

There are 27 credit hours of technical electives required. Of these 27 credit hours, at least 12 credit hours must be taken in one of the electrical engineering (ECEN) emphasis areas. Below is a list of courses in each emphasis area.

- **Communications & Signal Processing**
  - ECEN 410: Multivariate Random Processes
  - ECEN 325/ECEN 462 core
  - ECEN 424/ECEN 463 core

- **Digital Signal Processing**
  - ECEN 410: Multivariate Random Processes
  - ECEN 325/ECEN 462 core
  - ECEN 424/ECEN 463 core
Of the 12 credit hours required in an emphasis area which are referred to as "EE Option Technical Electives", 6 credit hours must be taken from one of the eight EE emphasis areas listed. This must include at least one Core Course in that area.

In addition, at least one 3 credit hour course from a different EE emphasis area must be taken. The remaining 3 credits may be satisfied by any non-required 3000- or 4000-level ECEN course except ECEN 399 Undergraduate Research.

The remaining 15 credit hours of technical electives which are referred to as "EE or other Technical Electives" may be taken from any 3000- or 4000-level course offering (with the exception of those listed below) in the Department of Electrical and Computer Engineering or in any other engineering department within the College of Engineering at UNL, or in the UNO Departments of Biology, Chemistry, Computer Science, Mathematics, or Physics or in the UNL Departments of Biological Sciences, Chemistry, Computer Science and Engineering, Mathematics, Statistics, or Physics and Astronomy.

Not Allowed 300- and 400-Level Technical Electives

ENGR 469 Technology, Science and Civilization
BIOL 3500 Biological Principles of Aging
CSCI 3710 Introduction to Digital Design and Computer Organization
STAT 3000 Statistical Methods I
UNL BIOS 310 School of Biological Sciences Seminar
UNL IMSE 305 Introduction to Engineering Management
MATH 4980 Seminar or UNL MATH 495 (http://bulletin.unl.edu/undergraduate/courses/MATH/495/) Seminar
UNL MATH 496 (http://bulletin.unl.edu/undergraduate/courses/MATH/496/) Seminar in Mathematics

Allowed 100 and 200 Level Technical Electives

UNL AGEN 225 (http://bulletin.unl.edu/undergraduate/courses/AGEN/225/) Engineering Properties of Biological Materials (BSEN 225 (http://bulletin.unl.edu/undergraduate/courses/BSEN/225/))
PHYS 4350 Astrophysics or ASTR 204 Introduction to Astronomy & Astrophysics

UNL ASTR 224 (http://bulletin.unl.edu/undergraduate/courses/ASTR/224/) Astronomy & Astrophysics Lab

BIOL 2140 Genetics or UNL BIOS 206 (http://bulletin.unl.edu/undergraduate/courses/BIOS/206/) General Genetics

BIOL 2740 Human Physiology and Anatomy I or UNL BIOS 213 (http://bulletin.unl.edu/undergraduate/courses/BIOS/213/) Human Physiology

CHEM 1190 General Chemistry II and CHEM 1194 General Chemistry II Laboratory or UNL CHEM 110 (http://bulletin.unl.edu/undergraduate/courses/CHEM/110/) General Chemistry II

CHEM 1190 General Chemistry II or UNL CHEM 114 (http://bulletin.unl.edu/undergraduate/courses/CHEM/114/) Fundamental Chemistry II

Any 2000 level chemistry course or UNL CHEM 2xx

CSCI 1620 Introduction to Computer Science II or UNL CSCE 156 (http://bulletin.unl.edu/undergraduate/courses/CSCE/156/) Computer Science II

MATH 2030 Discrete Mathematics or UNL CSCE 235 (http://bulletin.unl.edu/undergraduate/courses/CSCE/235/) Introduction to Discrete Structures

UNL CSCE 251 (http://bulletin.unl.edu/undergraduate/courses/CSCE/251/) Unix Programming Environment

UNL MATL 260 (http://bulletin.unl.edu/undergraduate/courses/MATL/260/) Elements of Materials Science

UNL MATL 262 (http://bulletin.unl.edu/undergraduate/courses/MATL/262/) Materials Lab I

MECH 223 Engineering Statics

MECH 200 Engineering Thermodynamics

No more than a total of 3 credit hours may be taken in ECEN 399 or similar offerings from other departments.

However, students can choose a “Research Option.” The purpose of research option is to provide research experiences and offer opportunities for students to work with a faculty advisor on a specific research topic. A certificate of completion of thesis will be awarded to the students, and outstanding thesis awards will be presented at the end of semester functions. Requirements for the research option are listed below.

**Research Option**

1. Selection of a faculty advisor (ECE department faculty), research topic, and thesis committee (at least one other faculty).

2. Registration for 6 credit hours of undergraduate research (ECEN 399) over at least two consecutive semesters on the same research topic.

3. GPA of above 3.0.

4. Write an undergraduate thesis or report and make an oral presentation to be graded by thesis committee members.

**Science Electives**

BIOL 1450 BIOLOGY I (5 cr) or UNL LIFE 120 and LIFE 120L FUNDAMENTALS OF BIOLOGY I

CHEM 1180 (3 cr) and CHEM 1184 (1 cr) or UNL CHEM 109 or CHEM 111 or CHEM 113

**Environmental Engineering, Bachelor of Science**

The Department of Civil and Environmental Engineering offers a complete environmental engineering undergraduate program to students on the Lincoln and Omaha campuses of the University of Nebraska. Curriculum requirements are nearly identical on both campuses. The goal is to prepare students for entry into the environmental engineering profession immediately after graduation or to pursue graduate-level studies.

The general educational objectives of the University of Nebraska–Lincoln environmental engineering undergraduate program are to prepare our graduates so that, with a UNL BS ENVE degree, a few years beyond graduation, alumni will:

- Be employed in environmental engineering or a closely related field and successfully pursue professional licensure; or, graduates will be pursuing an advanced degree in environmental engineering, a closely related field or professional education in engineering, medicine, business, or law.
- Contribute to society and address societal and environmental needs through engagement in professional, community, or service organizations.
- Agree that the environmental engineering program prepared them for success in their careers in terms of knowledge and skillsets as embodied in the program and the Complete Engineer™ Initiative.

The professional discipline of environmental engineering is defined as the application of engineering principles to improve and maintain the environment for the protection of human health, for the protection of nature’s beneficial ecosystems, and for environmental-related enhancement of the quality of human life. In all professional endeavors, the environmental engineer must consider ecological effects as well as the social, economic, and political needs of people.

The environmental engineer devises solutions for topics ranging from water and air pollution control and treatment, drinking water supply, wastewater management, solid waste management, public health, water resources management, sustainable design, and industrial ecology. Environmental engineers focus on minimizing the impacts of air, water, and land pollution, minimizing waste production, maximizing the use of renewable energy in environmental systems, and protecting the environment.

Instructional emphasis is placed on fundamental engineering principles derived from mathematics, chemistry, physics, biology, earth science, and engineering science. These subjects provide a sound background for the subsequent introductory courses in environmental engineering, water resources engineering, fates and transport, process design, and sustainable design. Students are introduced to design concepts in the freshman year. Design is incorporated throughout the curriculum that culminates in two senior-level courses, CIVE 385 Professional Practice and Management in Civil Engineering and CIVE 489 Senior Design Project.

Instructional laboratories in that provide experiences with more than one media (water, soil, and air) in environmental engineering provide each student with an opportunity to learn, through individual participation.

**Professional Admission to Environmental Engineering**

**Criteria for Professional Admission to the Environmental Engineering Degree Program**

Pre-professionally admitted College of Engineering students majoring in environmental engineering must have their academic records reviewed for
professional admission to the environmental engineering degree program during the fall, spring or summer immediately following the term in which:

- At least 12 credits (one semester) have been completed after admission to the College of Engineering;
- At least 43 credits applicable to the degree have been earned; and
- PHYS 2110 General Physics I, MECH 223 Engineering Statics, and MECH 325 Mechanics of Elastic Bodies or MECH 373 Engineering Dynamics have been completed.

Additionally, the student can have no more than two declined professional admission requests to other engineering majors. It is likely a student may need to complete four full semesters of credits applying to the program before these requirements are able to be completed.

Professional admission approval to the environmental engineering degree program also requires that all of the following departmental-specific criteria must be met:

- Earn a C letter grade or better in PHYS 2110, MECH 223, and MECH 373 or MECH 325
- Earn a cumulative grade point average of 2.4 or greater; and
- Earn a C letter grade or better in ALL math, science and engineering courses required for the bachelor of science in environmental engineering degree if the cumulative grade point average is less than 2.700.

Students approved for professional admission to the program are then allowed to take 400-level civil & environmental engineering courses to complete their degree.

### Requirements

(City Campus in Lincoln and Scott Campus in Omaha)

This document represents a SAMPLE 4-year plan for degree completion with this major. Actual course selection and sequence may vary and should be discussed individually with your college or department academic advisor. Advisors also can help you plan other experiences to enrich your undergraduate education such as internships, education abroad, undergraduate research, learning communities, and service learning and community-based learning.

Students must have completed the equivalent of the fourth semester before admission to the environmental engineering program. Transfer students must have all transfer hours accepted before being considered for the degree program.

ENVE 210 FUNDAMENTALS OF ENVIRONMENTAL ENGINEERING (3 credits)
Introduction to material and energy balances on environmental systems involving physical, chemical, and biological processes. Primary focus on single phase systems.
Prerequisite(s): CHEM 1180 with a C or better, and MATH 1950 with a C or better

ENVE 322 BIOLOGICAL PRINCIPLES OF ENVIRONMENTAL ENGINEERING (2 credits)
Introduction to the basics of microbes in the environment, including basic microbiological concepts, microbial environment, detection/ enumeration/identification of microbes, microbial interactions with environment, microbial remediation of pollutants, waterborne pathogens, and wastewater treatment and disinfection.
Prerequisite(s): CIVE 321

ENVE 401 ENVIRONMENTAL ENGINEERING DESIGN I (3 credits)
Practical application of the engineering design process in a team project focused on an authentic and comprehensive environmental engineering design project.
Prerequisite(s): CIVE 321, ENVE 322, CIVE 352

ENVE 402 ENVIRONMENTAL ENGINEERING DESIGN II (3 credits)
Practical application of the engineering design process in a team project focused on an authentic and comprehensive environmental engineering design project.
Prerequisite(s): ENVE 401

ENVE 410 ENVIRONMENTAL FATE AND TRANSPORT (3 credits)
Covers fate and transport principles, such as interphase chemical equilibrium, the formulation and application of the advection-diffusion equation, and their specific environmental engineering applications.
Prerequisite(s): CIVE 310 or CHME 332; ENVE 210 or CHME 202; and CIVE 321

ENVE 430 SUSTAINABLE DESIGN IN ENVIRONMENTAL ENGINEERING (3 credits)
Introduction to sustainability concepts and sustainable engineering design processes for environmental engineers such as life cycle assessment, multi-criteria decision analysis, and analysis of renewable energy systems.
Prerequisite(s): CIVE 321; Co-requisite STAT 3800

ENVE 898 SPECIAL TOPICS IN ENVIRONMENTAL ENGINEERING (1-6 credits)
Special research-oriented problems in current topics in environmental engineering.
Prerequisite(s): Permission.

ENVE 899 MASTER'S THESIS (1-10 credits)
Master's thesis work

ENVE 990 SEMINAR IN ENVIRONMENTAL ENGINEERING (1 credit)
Presentation and discussion of current research topics and projects in environmental engineering and closely allied areas.
Prerequisite(s): Permission. Not open to non-degree graduate students.

ENVE 998 SPECIAL TOPICS IN ENVIRONMENTAL ENGINEERING (1-6 credits)
Independent library and/or experimental research, analysis, evaluation and presentation of current and advanced topics in environmental engineering and closely related areas.
Prerequisite(s): Permission.
skills for effective leadership in the engineering profession, and the working world, and for building relationships.

The minor includes leadership courses developed for engineering students focused on the areas of leadership, management, teamwork, and interpersonal skills, as well as courses lead by the faculty in the Department of Agricultural Leadership, Education and Communication.

This minor serves students in the College of Engineering. The minor contributes to the National Academy of Engineers call to expose engineering students to formal studies of leadership development (NAE, 2004) and the College of Engineering’s mission to graduate “Complete Engineers.”

**Admission**

Open to students in the College of Engineering only.

**College Requirements**

**College Admission**

**College Entrance Requirements**

Students must have high school credit for (one unit is equal to one high school year):

1. Mathematics – 4 units: 2 of algebra, 1 of geometry, and 1 of precalculus and trigonometry
2. English – 4 units
3. Natural sciences – 3 units that must include 1 unit of physics and 1 unit of chemistry (chemistry requirement waived for students in construction management or computer science)
4. Foreign language – 2 units of a single foreign language
5. Social studies – 3 units
6. Students having a composite ACT score of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack any one of the following: trigonometry, chemistry, or physics. Students without test scores who are missing a full unit of trigonometry/pre-calculus/calculus or chemistry or physics will be evaluated through College Review.

A total of 16 units is required for admission.

Engineering requires that student performance meet one of the following standards: composite ACT of 24, SAT of 1180, ACT Math subscore of 24, SAT Math subscore of 580, or a 3.5 cumulative GPA.

Any domestic first-year student who does not gain admission to Engineering but does gain admission to the University of Nebraska-Lincoln (UNL) will be reviewed through College Review. College Review is conducted through the College Review Committee which considers factors beyond standardized testing. Any first-year student who is not admitted through college review is placed in Pre-Engineering (PENG) with the Exploratory and Pre-Professional Advising Center (Explore Center). Students in the Explore Center can transfer to the College of Engineering once college admission requirements are met.

Students for whom English is not their language of nurture must meet the minimum English proficiency requirements of the University.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska–Lincoln Office of Online and Distance Education, in summer courses, or as a part of their first or second semester course loads while in the Explore Center or other colleges at UNL.

Students should consult their advisor, their department chair, or Engineering Student Services (ESS) if they have questions on current policies.

**Other Admission Requirements**

Students who transfer to the University of Nebraska–Lincoln from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE first-year student entrance requirements, have a minimum cumulative GPA of 2.5, and be calculus-ready. Students not meeting either of these requirements must enroll in the Explore Center or another University college until they meet COE admission requirements. Students transferring from UNO, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska–Lincoln accepts D grades from the University of Nebraska Kearney and the University of Nebraska Omaha, not all majors in the COE accept such low grades. Students must conform to the requirements of their intended major and, in any case, are strongly encouraged to repeat courses with a grade of C- or less.

Students who were previously admitted to COE and are returning to the College of Engineering must demonstrate a cumulative GPA of 2.5 to be readmitted to COE.

**College Degree Requirements**

**Grade Rules**

**Grade Appeals**

In the event of a dispute involving any college policies or grades, the student should appeal to their instructor, and appropriate department chair or school director (in that order). If a satisfactory solution is not achieved, the student may appeal their case through the College Academic Appeals Subcommittee.

**Catalog Rule**

Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted at the University of Nebraska–Lincoln. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled as a degree-seeking student at Nebraska in the College of Engineering. Students must complete all degree requirements from a single catalog year. The catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Students who have transferred from a community college may be eligible to fulfill the requirements as stated in the catalog for an academic year in which they were enrolled at the community college prior to attending the University of Nebraska-Lincoln. This decision should be made in consultation with the student’s College of Engineering academic advising team (e.g., ESS professional advisor and the chief faculty advisor for the student’s declared degree program). The chief faculty advisor has the final authority for this decision. Eligibility is based on a) enrollment in a community college during the catalog year the student wishes to utilize, b) maintaining continuous enrollment of at least 12 credit hours per semester at the previous institution for at least 2 semesters, and c) continuous enrollment at the University of Nebraska-Lincoln within 1 calendar year from the student’s last term at the previous institution.

Students must complete all degree requirements from a single catalog year and within the timeframe allowable for that catalog year.

**Requirements**

The engineering leadership minor is an interdisciplinary program; providing course offerings through the College of Engineering (COE) and the Department of Agricultural Leadership, Education and Communication (ALEC) at the University of Nebraska - Lincoln (UNL). To successfully complete the minor, students are required to complete 18 credit hours in leadership and professional development; 9 of which come from engineering leadership and management courses. Many of the ALEC
courses are available as online courses. All ALEC courses are taught at the UNL.

**Total Credits**: 18

1 Note that junior standing is required for these courses.

2 Credit received for being an undergraduate teaching assistant at the selection of the instructor.

**Additional Minor Requirements**

All courses must be completed with a Pass, or grade of C or higher.

Up to 6 credit hours may be taken as Pass/No Pass.

**ENGR 10 FRESHMAN ENGINEERING SEMINAR (0 credits)**

Overview of the engineering field as well as major specific information. Information will be provided to help with transitional needs to UNL and the college of engineering (time management, study skills, and resources), involvement opportunities (student organizations, research, and study abroad, tours of engineering facilities for experiential learning, and interactive learning to increase business knowledge and skills).

**Prerequisite(s):** First year College of Engineering students. Not open to non-degree graduate students.

**ENGR 15 SPATIAL VISUALIZATION TRAINING (0 credits)**

Develop and improve spatial visualization skills.

**ENGR 20 SOPHOMORE ENGINEERING SEMINAR (0 credits)**

Overview of career opportunities in engineering and construction management. Emphasizes internships, cooperative education and career placement.

**Prerequisite(s):** Not open to non-degree graduate students.

**ENGR 30 TRANSFER STUDENT ENGINEERING SEMINAR (0 credits)**

ENGR 30 is open only to students transferring to the College of Engineering from another institution. Overview of transfer credit analysis, degree audits, career opportunities in engineering and construction management. Emphasis on internships, cooperative education, and career placement.

**Prerequisite(s):** Not open to non-degree graduate students.

**ENGR 100 INTERPERSONAL SKILLS FOR ENGINEERING LEADERS (3 credits)**

Establishes a foundation in communication and leadership skills that is needed for engineering students to be successful in their academic endeavors and future career opportunities. Introduction to the principles and practices of positive interpersonal relationships for leadership development. Self-awareness, awareness of others, effective interpersonal communication, and the building of trust relationships as a basis for understanding and developing leadership.

**Prerequisite(s):** Not open to non-degree graduate students.

**ENGR 101 INTRODUCTION TO ENGINEERING (3 credits)**

Students will examine relevant and practical industrial and commercial engineering applications to gain necessary engineering skills that will help them succeed as a student as well as a professional engineer. A variety of engineering disciplines will be highlighted and discussed, as well as topics in the underlying physical, chemical, and biological scientific principles and processes related to each topic. The class will use a specified focus area that involves real world applications to aid in the conceptualization and learning of the course material. Students will develop engineering problem solving skills; gain expertise and experience using modern engineering and computational tools; and emulate an engineering team atmosphere - each of which can be applied to a profession engineering environment.

**ENGR 191 FRESHMAN ENGINEERING SPECIAL TOPICS (1 - 3 credits)**

Topics vary.

**ENGR 200 PROFESSIONALISM & GLOBAL PERSPECTIVE (3 credits)**

Enhance essential professional skills for personal and team success through investigating issues in a global context. Explore in-demand professional aptitudes (self-awareness, emotional intelligence, teamwork, communication, and workplace interaction expectations). Through industry/community interaction, explore cultural and business norms and the application of broader perspectives to identify issues/solutions responsive and adaptive to their global context.

**ENGR 250 ENGINEERING COOPERATIVE EDUCATION (1 - 12 credits)**

Cooperative education work in a regularly established cooperative education work-study program in any engineering curriculum. Special approval is required to take course for credit hours. C/N only.

**Prerequisite(s):** Sophomore standing; permission of College of Engineering Dean's Office and department chair of student's engineering major. All engineering students participating in cooperative education must register each term prior to commencing work.

**ENGR 291 SOPHOMORE ENGINEERING SPECIAL TOPICS (1 - 3 credits)**

Topics vary.

**ENGR 300 CREATIVITY AND WRITING FOR ENGINEERS (3 credits)**

Writing technical engineering reports; creative thinking and brainstorming applied to a real engineering problem with individual solutions submitted in report form.

**Prerequisite(s):** ENGL 1160 and Sophomore

**ENGR 301 INTRODUCTION TO NUCLEAR AND RADIATION ENGINEERING CONCEPTS (1 credit)**

History of nuclear development, basic concepts of radiation and radioactivity, radioactive waste management, global warming, and the impact of nuclear power plants. Industrial applications, health, and nuclear medicine. Job opportunities at power plants, graduate school, and national laboratories. Tour of the University of Texas nuclear research reactor and demonstration experiments. (Requires off-campus travel.)

**Prerequisite(s):** Not open to nondegree students
ENGR 310 UTILIZATION OF NUCLEAR TECHNOLOGIES IN SOCIETY (3 credits)
The applications of nuclear science to society and the fundamental radiation principles utilized in these applications.
Prerequisite(s): Not open to non-degree graduate students.

ENGR 320 LEADERSHIP, MANAGEMENT, AND ETHICS (3 credits)
Explore professional leadership, ethics, project management tools and skills, and how to successfully implement and respond to change. In a team based environment, enhance essential professional skills for personal and team success by developing and presenting a responsive proposal considering: client needs, basic project controls and scheduling. Learn about personal styles, motivation and effectively implementing change. Examine ethical dilemmas regarding principles, stewardship, and civics from ethical, legal, and expediency perspectives.
Prerequisite(s): Not open to non-degree graduate students.

ENGR 350 ENGINEERING COOPERATIVE EDUCATION (0-12 credits)
Cooperative education work in a regularly established cooperative education work-study program in any engineering curriculum. Special approval is required to take course for credit hours. C/N only.
Prerequisite(s): Junior standing; permission of College of Engineering Dean's Office and department chair of student's engineering major. All engineering students participating in cooperative education must register each term prior to commencing work.

ENGR 391 JUNIOR ENGINEERING SPECIAL TOPICS (1-3 credits)
Topics vary

ENGR 395 ENGINEERING INTERNSHIP (0-1 credits)
Provides an opportunity to reflect on experience gained through an internship related to the major field of study and an integral or important part of their program of study. Develop non-technical professional skills through reflective writing assignments. May be repeated.
Prerequisite(s): Undergraduate major in the College of Engineering; sophomore standing; permission from instructor.

ENGR 400 PROFESSIONAL ETHICS AND SOCIAL RESPONSIBILITY (1 credit)
Discussions on professionalism and ethics of engineering practice; problems encountered by new graduates.
Prerequisite(s): Senior

ENGR 402 ENERGY SYSTEMS AND RESOURCES (3 credits)
Energy as a critical component of civilization. The critical role of energy from the economic and political point of view world wide. Energy resources available, the technology to use the resources, the economics of energy production, the environmental consequences of energy use, and energy policy.
Prerequisite(s): ENGR 301, not open to nondegree students

ENGR 410 RADIATION PROTECTION AND SHIELDING (3 credits)
Basic principles and concepts of radiation protection and shield design. Dosi-metric units and response functions, hazards of radiation doses, radiation sources, basic methods for dose evaluation, and shielding design techniques for photons and neutrons.
Prerequisite(s): MECH 4010 or ENGR 421

ENGR 411 NUCLEAR REACTOR THEORY (3 credits)
Introduction to neutron diffusion theory, neutron moderation, neutron thermalization, and criticality condition of nuclear reactor.
Prerequisite(s): ENGR 310. Not open to non-degree graduate students.

ENGR 412 NUCLEAR REACTOR ANALYSIS (3 credits)
Group diffusion method, multiregional reactors, heterogeneous reactors, reactor kinetics, and change in reactivity.
Prerequisite(s): ENGR 411. Not open to non-degree graduate students.

ENGR 420 NUCLEAR REACTOR ENGINEERING (3 credits)
The physics governing nuclear reactors and the design principles for commercial nuclear power plants. Reactor designs currently operating in the power industry.

ENGR 450 ENGINEERING COOPERATIVE EDUCATION (0-12 credits)
Cooperative education work in a regularly established cooperative education work-study program in any engineering curriculum. Special approval is required to take course for credit hours. C/N only.
Prerequisite(s): Senior standing; permission of College of Engineering Dean's Office and department chair of student's engineering major. All engineering students participating in cooperative education must register each term prior to commencing work.

ENGR 460 PACKAGING ENGINEERING (3 credits)
Investigation of packaging processes, materials, equipment and design. Container design, material handling, storage, packing and environmental regulations, and material selection.
Prerequisite(s): CONE 206; MECH 3210; MECH 3730

ENGR 461 RFID SYSTEMS IN THE SUPPLY CHAIN (3 credits)
Foundations of Radio Frequency Identification Systems (RFID). The fundamentals of how RFID components of tag, transponder, and antennae are utilized to create RFID systems. Best practices for implementation of RFID systems in common supply operations.

ENGR 469 TECHNOLOGY, SCIENCE AND CIVILIZATION (3 credits)
(Lect 2 Dis. 2) This course studies the development of technology as a trigger of change upon humankind, from the earliest tools of Homo Habilis to the advent of the radio telescope in exploring the creation of the universe. The course traces the paths from early science to development of the sciences and technologies that will dominate the new millennium. (869 is for non SET students.) (Cross-listed with ENGR 869).
Prerequisite(s): Senior or permission.

ENGR 481 SUPPLY CHAIN OPTIMIZATION (3 credits)
Foundations of supply chain network modeling. The concepts that support the economic and service trade-offs in supply chain and logistics management. Using decision support system (DSS) to design optimal logistics network models given data requirements and operational parameters. Using leading software packages to model problems arising in strategic management of logistics networks.

ENGR 483 LOGISTICS IN THE SUPPLY CHAIN (3 credits)
The process of planning, implementing and controlling the efficient, effective flow and storage of goods, services and related information from the point of origin to the point of consumption. Domestic transportation systems, distribution centers and warehousing, international logistics, logistic system controls, and reengineering logistics systems.

ENGR 490 GLOBAL EXPERIENCES IN ENGINEERING (1-3 credits)
Individual or group educational experience combining classroom lectures, discussions, and/or seminars with field and/or classroom studies in a foreign country. Choice of subject matter and coordination of on- and off-campus activities are at the discretion of the instructor.

ENGR 491 SENIOR ENGINEERING SPECIAL TOPICS (1-3 credits)
Topics vary.

ENGR 470 PROJECT MANAGEMENT (3 credits)
Project development, role of the project manager, project selection, project planning, budgeting and cost estimation, project scheduling, and project termination.

Environmental Engineering Minor

Grade Rules
C- and D Grades
All courses must be completed with a grade of D- or higher.

Pass/No Pass Limits
No course taken Pass/No Pass will be counted toward the minor.
International Engineering Minor

Description
This minor is for engineering majors ONLY.

This minor is designed to encourage and recognize undergraduate students who enhance their engineering education with courses and experiences consistent with the global nature of engineering and the economy.

The College of Engineering enables its students to participate in this approved minor subject to the following conditions:

1. A minor will not reduce or alter the existing course or degree requirements for students electing to pursue a minor.
2. A student’s minor program must be organized and approved by an advisor prior to the submission of the senior check to the department chair or head.
3. The minor must be approved by the advisor, the department chair or head, the Dean, and the cognizant program offering the minor.
4. The College of Engineering will follow the “Plan A/B” format of the UNL College of Arts and Sciences in which a student pursuing a single minor must complete the “Plan A” requirements. A student pursuing a double (or greater) minor must fulfill either the “Plan A” or “Plan B” requirements for both minors depending on which plan is offered by the cognizant department.

College Requirements
College Admission
College Entrance Requirements
Students must have high school credit for (one unit is equal to one high school year):

1. Mathematics – 4 units: 2 of algebra, 1 of geometry, and 1 of precalculus and trigonometry
2. English – 4 units
3. Natural sciences – 3 units that must include 1 unit of physics and 1 unit of chemistry (chemistry requirement waived for students in construction management or computer science)
4. Foreign language – 2 units of a single foreign language
5. Social studies – 3 units
6. Students having a composite ACT score of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack any one of the following: trigonometry, chemistry, or physics. Students without test scores who are missing a full unit of trigonometry/pre-calculus/calculus or chemistry or physics will be evaluated through College Review.

A total of 16 units is required for admission.

Engineering requires that student performance meet one of the following standards: composite ACT of 24, SAT of 1180, ACT Math subscore of 24, SAT Math subscore of 580, or a 3.5 cumulative GPA.

Any domestic first-year student who does not gain admission to Engineering but does gain admission to the University of Nebraska-Lincoln (UNL) will be reviewed through College Review. College Review is conducted through the College Review Committee which considers factors beyond standardized testing. Any first-year student who is not admitted through college review is placed in Pre-Engineering (PENG) with the Exploratory and Pre-Professional Advising Center (Explore Center). Students in the Explore Center can transfer to the College of Engineering once college admission requirements are met.

Students for whom English is not their language of nurture must meet the minimum English proficiency requirements of the University.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska-Lincoln Office of Online and Distance Education, in summer courses, or as a part of their first or second semester course loads while in the Explore Center or other colleges at UNL.

Students should consult their advisor, their department chair, or Engineering Student Services (ESS) if they have questions on current policies.
### Other Admission Requirements

Students who transfer to the University of Nebraska–Lincoln from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE first-year student entrance requirements, have a minimum cumulative GPA of 2.5, and be calculus-ready. Students not meeting either of these requirements must enroll in the Explore Center or another University college until they meet COE admission requirements. Students transferring from UNO, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska–Lincoln accepts D grades from the University of Nebraska Kearney and the University of Nebraska Omaha, not all majors in the COE accept such low grades. Students must conform to the requirements of their intended major and, in any case, are strongly encouraged to repeat courses with a grade of C- or less.

Students who were previously admitted to COE and are returning to the College of Engineering must demonstrate a cumulative GPA of 2.5 to be readmitted to COE.

### College Degree Requirements

#### Grade Rules

**Grade Appeals**

In the event of a dispute involving any college policies or grades, the student should appeal to their instructor, and appropriate department chair or school director (in that order). If a satisfactory solution is not achieved, the student may appeal their case through the College Academic Appeals Subcommittee.

#### Catalog Rule

Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted at the University of Nebraska–Lincoln. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled as a degree-seeking student at Nebraska in the College of Engineering. Students must complete all degree requirements from a single catalog year. The catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Students who have transferred from a community college may be eligible to fulfill the requirements as stated in the catalog for an academic year in which they were enrolled at the community college prior to attending the University of Nebraska–Lincoln.

This decision should be made in consultation with the student’s College of Engineering academic advising team (e.g., ESS professional advisor and the chief faculty advisor for the student’s declared degree program). The chief faculty advisor has the final authority for this decision. Eligibility is based on a) enrollment in a community college during the catalog year the student wishes to utilize, b) maintaining continuous enrollment of at least 12 credit hours per semester at the previous institution for at least 2 semesters, and c) continuous enrollment at the University of Nebraska–Lincoln within 1 calendar year from the student’s last term at the previous institution.

Students must complete all degree requirements from a single catalog year and within the timeframe allowable for that catalog year.

### Requirements for Minor Offered by Department

#### Plan A (18 credits)

1. Twelve (12) credit hours of courses in international engineering and internationally related courses.
   a. A minimum of 3 credit hours must be ENGR 490 (https://nextcatalog.unl.edu/search/?P=ENGR%20490) Global Experiences or a 3-credit education abroad course from another University of Nebraska college (such as AGRI 310 (https://nextcatalog.unl.edu/search/?P=AGRI%20310) Study Tours in International Agriculture or BSAD 491 (https://nextcatalog.unl.edu/search/?P=BSAD%20491) International Studies in Business and Economics) or from another university. Substitution for ENGR 490 (https://nextcatalog.unl.edu/search/?P=ENGR%20490) with related COE courses, participation in a study abroad experience, or courses from another college or university must be pre-approved by the Engineering Student Services office. International students should meet this requirement in countries other than their own or the U.S.

#### Plan B (12 credits)

1. Nine (9) credit hours of courses in international engineering and internationally related courses.
   a. A minimum of 3 credit hours must be ENGR 490 (https://nextcatalog.unl.edu/search/?P=ENGR%20490) Global Experiences or a 3-credit education abroad course from another University of Nebraska college (such as AGRI 310 (https://nextcatalog.unl.edu/search/?P=AGRI%20310) Study Tours in International Agriculture or BSAD 491 (https://nextcatalog.unl.edu/search/?P=BSAD%20491) International Studies in Business and Economics) or from another university. Substitution for ENGR 490 (https://nextcatalog.unl.edu/search/?P=ENGR%20490) with related COE courses, participation in a study abroad experience, or courses from another college or university must be pre-approved by the Engineering Student Services office. International students should meet this requirement in countries other than their own or the U.S.
b. At least one of the following internationally related economics, development, leadership, marketing, or trade courses:
   i. 

1. **Code** | **Title** | **Credits**
--- | --- | ---
AECN 346 | World Food Economics | 3
AECN 367 | Agricultural Development in Developing Countries | 3
AECN 420 | International Food and Agricultural Trade | 3
AECN 425 | Agricultural Marketing in a Multinational Environment | 3
ECON 3600 | INTRODUCTION TO INTERNATIONAL ECONOMICS | 3
MGNT 414 | International Management | 3

1. This course is offered at UNL. Complete an Intercampus Application to enroll in this course through UNL.

1. a. i.

b. A maximum of 3 credits from special problems (projects) or honors thesis type courses (e.g., departmental 3900, 3960, 3980, 3990, 4910, 4980, 4990 courses) may be used toward the 9 credit requirement.

c. Elective courses to complete the 9-credit requirement must be chosen from the list of courses maintained by the College of Engineering Student Services office.

d. A minimum of 3 credit hours, not including (a) through (c) above, must be in 200-level courses or above.

e. A maximum of 6 credit hours may be taken Credit/No Credit.

2. Three (3) credit hours of modern language coursework. Entry-level modern language courses (such as the 5-credit 1010 and 1020 courses at the University of Nebraska) that are used to remove a University of Nebraska–Lincoln entrance deficiency in modern languages may not be used to satisfy this requirement. International students may not use modern language courses of origin in their native (first) language. Where modern language courses exceed 3 credits, a maximum of 3 total credits each will apply to the Plan B minor. This course may not be taken Credit/No Credit.

### Pre-Engineering

Two years of course work applicable to Bachelor of Science degrees in Agricultural Engineering, Biological Systems Engineering, and Mechanical Engineering are offered on the Scott Campus in Omaha.

The courses listed under each pre-engineering program are similar in content to equivalent courses at the University of Nebraska-Lincoln, allowing for maximum transferability of credit.

Students should select courses at UNO that meet degree requirements as stated in the Catalog of the institution to which they plan to transfer.

**For more information**, please call 402.554.3562

### Programs Offered

- Pre-Agricultural Engineering (p. 652)
- Pre-Biological Systems Engineering (p. 653)
- Pre-Mechanical Engineering (p. 653)

### Pre-Agricultural Engineering

Agricultural engineering (AGEN) is one of two engineering degree programs offered in the Department of Biological Systems Engineering at UNL. AGEN students emphasize coursework in one of three engineering areas: machine design, test, or soil and water resources. Thus, some agricultural engineers are involved in the analysis and design of field machinery systems and machine components through study of the principles of mechanical design,joining techniques, hydraulics, controls, ergonomics, and safety. Others are evaluating machine or mechanical system functional performance based on study of test procedure standards, measurements, data acquisition, electronic communication and statistics, and practical experience gained at the Nebraska Tractor Test Laboratory. Still others are analyzing and designing soil and water management-related infrastructure as aided through study of irrigation, drainage, erosion and runoff control techniques, crop tillage and cultivation practices, and natural resources management. Job opportunities for graduates are available in industry, public agencies, consulting, and private practice.

Students choosing the pre-agricultural engineering program on the Scott Campus in Omaha should be aware that there are five courses in the first two years (AGEN 100, AGEN 112, AGEN 225, AGEN 260, and MSYM 232); 12 total credit hours) for which there are no equivalents on the Scott Campus. However, substitutions for AGEN 100 may be available on a case-by-case basis.

ACE Elective 1 3

1 Ace elective: Selected from ACE elective (SLO 5, 6, 7, or 9) list.

2 ENGL 3980: EPPE sophomore level placement or successful completion of ENGL 1160/ENGL 1164 required.

Pre-Biological Systems Engineering

Biological Systems Engineering (BSEN) brings engineering to life by working with living systems and applying engineering, biology, and mathematics to improve lives and our world. Biological systems engineers are trained to solve problems in biomedical engineering, environmental and water resources engineering, and food and bioprocess engineering. Students who choose pre-biological systems engineering on the Scott Campus in Omaha, should be aware that there are three courses in the first two years (BSEN 100, BSEN 112, BSEN 225; nine total credit hours) for which there are no equivalents on the Scott Campus. However, substitutions for BSEN 100 may be available on a case by case basis.

1 ACE electives: Selected from ACE elective (SLO 5 through 9) list.

2 ENGL 1450: Four of the five hours can be used in BSEN.

3 CHEM 2210: Three of the four hours can be used in BSEN.

Pre-Mechanical Engineering

Mechanical engineers are considered the “general practitioners” of engineering because their education is extremely broad and their services span many interdisciplinary technical, social environmental and economic problems. These engineers deal with a wide realm of motion, all forms of energy conversion and transmission; the flow of fluids and heat; the development, design and operation of machinery and equipment; material structure and properties; and transportation processes. Here, you’ll choose among three major areas: thermal-fluid science engineering, systems and design engineering, and materials science engineering. Your career could include research and development, design of equipment and systems, testing, plant and sales engineering, and management.

Note that the College Entrance Requirements shown below apply only to students in the College of Engineering.

### College Requirements

#### College Admission

**College Entrance Requirements**

**Students must have high school credit for (one unit is equal to one high school year):**

1. Mathematics – 4 units: 2 of algebra, 1 of geometry, and 1 of precalculus and trigonometry
2. English – 4 units
3. Natural sciences – 3 units that must include 1 unit of physics and 1 unit of chemistry (chemistry requirement waived for students in construction management or computer science)
4. Foreign language – 2 units of a single foreign language
5. Social studies – 3 units
6. Students having a composite ACT score of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack any one of the following: trigonometry, chemistry, or physics. Students without test scores who are missing a full unit of trigonometry/pre-calculus/calculus or chemistry or physics will be evaluated through College Review.

A total of 16 units is required for admission.

Engineering requires that student performance meet one of the following standards: composite ACT of 24, SAT subscore of 1180, ACT Math subscore of 24, SAT Math subscore of 580, or a 3.5 cumulative GPA.

Any domestic first-year student who does not gain admission to Engineering but does gain admission to the University of Nebraska-Lincoln (UNL) will be reviewed through College Review. College Review is conducted through the College Review Committee which considers factors beyond standardized testing. Any first-year student who is not admitted through college review is placed in Pre-Engineering (PENG) with the Exploratory and Professional Advising Center (Explore Center). Students in the Explore Center can transfer to the College of Engineering once college admission requirements are met.

Students for whom English is not their language of nurture must meet the minimum English proficiency requirements of the University.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska-Lincoln Office of Online and Distance Education, in summer courses, or as a part of their first or second semester course loads while in the Explore Center or other colleges at UNL.

Students should consult their advisor, their department chair, or Engineering Student Services (ESS) if they have questions on current policies.

### Other Admission Requirements

Students who transfer to the University of Nebraska–Lincoln from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE first-year student entrance requirements, have a minimum cumulative GPA of 2.5, and be calculus-ready. Students not meeting either of these requirements must enroll in the Explore Center or another University college until they meet COE admission requirements. Students transferring from UNO, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska–Lincoln accepts D grades from the University of Nebraska Kearney and the University of Nebraska Omaha, not all majors in the COE accept such low grades. Students must

### Robotics Engineering Minor

**Description**

This interdisciplinary minor prepares students to understand, design, develop, and implement robotic systems. Robotic systems are composed of embedded systems, motor, sensors, actuators, and interfaces requiring an understanding of dynamics, control, sensing, artificial intelligence, human-robot interaction, and embedded computing and programming. Students will prepare for careers in robotic systems and related automated vehicle design, and for related graduate studies. This minor is available to all majors. Consult with your advisor before declaring this minor.

The robotics engineering minor is jointly administered by the:

- Electrical and Computer Engineering Department (ECE)
- School of Computing
- Mechanical and Materials Engineering Department (MME)

Any first-year student who is not admitted through college review is placed in Pre-Engineering (PENG) with the Exploratory and Professional Advising Center (Explore Center). Students in the Explore Center can transfer to the College of Engineering once college admission requirements are met.

Students for whom English is not their language of nurture must meet the minimum English proficiency requirements of the University.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska-Lincoln Office of Online and Distance Education, in summer courses, or as a part of their first or second semester course loads while in the Explore Center or other colleges at UNL.

Students should consult their advisor, their department chair, or Engineering Student Services (ESS) if they have questions on current policies.

### Other Admission Requirements

Students who transfer to the University of Nebraska–Lincoln from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE first-year student entrance requirements, have a minimum cumulative GPA of 2.5, and be calculus-ready. Students not meeting either of these requirements must enroll in the Explore Center or another University college until they meet COE admission requirements. Students transferring from UNO, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska–Lincoln accepts D grades from the University of Nebraska Kearney and the University of Nebraska Omaha, not all majors in the COE accept such low grades. Students must
conform to the requirements of their intended major and, in any case, are strongly encouraged to repeat courses with a grade of C- or less.

Students who were previously admitted to COE and are returning to the College of Engineering must demonstrate a cumulative GPA of 2.5 to be readmitted to COE.

**College Degree Requirements**

**Grade Rules**

**Grade Appeals**

In the event of a dispute involving any college policies or grades, the student should appeal to their instructor, and appropriate department chair or school director (in that order). If a satisfactory solution is not achieved, the student may appeal their case through the College Academic Appeals Subcommittee.

**Catalog Rule**

Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted at the University of Nebraska–Lincoln. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled as a degree-seeking student at Nebraska in the College of Engineering. Students must complete all degree requirements from a single catalog year. The catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Students who have transferred from a community college may be eligible to fulfill the requirements as stated in the catalog for an academic year in which they were enrolled at the community college prior to attending the University of Nebraska-Lincoln. This decision should be made in consultation with the student’s College of Engineering academic advising team (e.g., ESS professional advisor and the chief faculty advisor for the student’s declared degree program). The chief faculty advisor has the final authority for this decision. Eligibility is based on a) enrollment in a community college during the catalog year the student wishes to utilize, b) maintaining continuous enrollment of at least 12 credit hours per semester at the previous institution for at least 2 semesters, and c) continuous enrollment at the University of Nebraska-Lincoln within 1 calendar year from the student’s last term at the previous institution. Students must complete all degree requirements from a single catalog year and within the timeframe allowable for that catalog year.

**Grade Rules**

**Pass/No Pass**

No course taken Pass/No Pass will be counted toward the minor.

**Requirements**

The robotics engineering minor consists of three core courses and three elective courses. When selecting electives, the student must take two courses outside of their major area of study. For example, a student in mechanical engineering might take an elective from the School of Computing and one from the Department of Electrical Engineering.

**Construction Degrees**

The Charles W. Durham School of Architectural Engineering and Construction offers students an education that opens up a full range of professional opportunities in the construction industry. The two bachelor’s degree options, Construction Engineering and Construction Management, are found under the Majors tab.

There is also Construction Management Minor, found under the Minors tab, which is available to engineering, architecture and business majors.
Degrees Offered

- Construction Engineering, Bachelor of Science (p. 659)
- Construction Management, Bachelor of Science (p. 660)
- Construction Management Minor (p. 662)

CNST 112 CONSTRUCTION COMMUNICATIONS (3 credits)
Development of communication skills including understanding of contract documents, working drawings, technical terminology, graphic symbols, and abbreviations. Fundamentals of drafting principles, sketching, and dimensioning techniques.

CNST 131 INTRODUCTION TO THE CONSTRUCTION INDUSTRY (1 credit)
Introduction to basic management principles and practices for labor, materials, machinery, and budgets.

CNST 225 INTRODUCTION TO BUILDING INFORMATION MODELING (3 credits)
Introduction to Building Information Modeling (BIM) concepts and techniques. Explore the use of the Revit Architecture platform to create detailed 3D models of construction projects and other BIM-related topics such as clash detection and point-cloud models.
Prerequisite(s): CNST 112

CNST 241 HORIZONTAL CONSTRUCTION (3 credits)
Introduction to earthmoving equipment and methods, labor, productivity, and economic aspects of excavation, material transportation, and fill work. Introduction to the financial principles of equipment ownership and operation.
Prerequisite(s): MATH 1950

CNST 242 VERTICAL CONSTRUCTION (3 credits)
Focus on vertical structures, from grade to topping out, with an emphasis on materials and material handling equipment. Includes the assembly process for a variety of applications including cast-in-place concrete, steel erection, wood framing, precast concrete, masonry structural elements, and material finishing.
Prerequisite(s): MATH 1950

CNST 251 CONSTRUCTION MATERIALS AND SPECIFICATIONS (3 credits)
Introduction to construction materials and proper methods of specifying to achieve design and construction goals, safety and inspection, and to meet zoning code and environmental requirements. Physical, mechanical and aesthetic properties of soils, concrete, masonry, metals, plastics and other materials will be studied as they relate to in-service conditions, acceptability, and performance.
Prerequisite(s): MATH 1950

CNST 252 CONSTRUCTION MATERIALS AND TESTING (3 credits)
Introduction to basic materials used in construction. Laboratory testing and evaluation of material properties of soil, aggregate, and concrete.
Prerequisite(s): MATH 1950; parallel registration in CNST 241 is recommended. Laboratory testing procedures emphasizing testing of aggregates, soil, and concrete.

CNST 305 BUILDING ENVIRONMENTAL TECHNICAL SYSTEMS I (3 credits)
Characteristics and performance of buildings with respect to thermal and psychometric environment in buildings related to human comfort, heat gain/heat loss, ventilation, natural energy systems and sustainable design principles, and plumbing and life safety systems in the built environment.
Prerequisite(s): PHYS 1050

CNST 306 ELECTRICAL SYSTEMS (3 credits)
Fundamentals of electric power generation and distribution, service, and circuits in buildings with an emphasis on electrical equipment and systems, lighting principles and applications, and fire protection systems. Review of National Electric Code.
Prerequisite(s): MATH 1950, PHYS 1050.

CNST 331 STRUCTURAL MECHANICS (3 credits)
Introduction to various external force systems, and their resulting internal forces and deformations, which act on structural elements.
Prerequisite(s): Not open to non-degree graduate students.

CNST 332 STRUCTURAL OPTIMIZATION (3 credits)
Optimization of key properties of elements and systems of building structures: force, geometric, and material.
Prerequisite(s): CNST 331. Not open to non-degree graduate students.

CNST 378 CONSTRUCTION ESTIMATING I (3 credits)
Preparation of detailed cost estimates based on contract documents. Identify and analyze cost components of building and site scopes of work to perform detailed quantity take-offs. Apply labor, material, and equipment pricing from RS Means. Use production rates and quantity takeoffs to prepare a preliminary construction schedule. Complete quantity takeoffs from 2D plans and from 3D BIM software models. (Cross-listed with CONE 378).
Prerequisite(s): CNST 112.

CNST 379 CONSTRUCTION ESTIMATING II (3 credits)
Continuation of CNST 3780 with emphasis on the determination of total project cost and preparation of complete bid proposals for self-performed and subcontracted commercial projects. Evaluation and analysis of subcontractor bids to determine overall project costs by completing a hard bid simulation scenario. Exploration of contract delivery methods and their effect on overall project cost.
Prerequisite(s): CNST 378

CNST 405 MECHANICAL ESTIMATING (3 credits)
Application of estimating principles, quantity take-off, bidding strategies, and computerization to the specialty field of mechanical construction.
Prerequisite(s): CNST 305 and CNST 306 and CNST 379

CNST 406 ELECTRICAL ESTIMATING (3 credits)
Application of estimating principles, quantity take-off, bidding strategies, and computerization to the specialty field of electrical construction.
Prerequisite(s): CNST 305, CNST 306 and CNST 379.

CNST 411 PROJECT ADMINISTRATION (3 credits)
Ownership and administration of companies focusing on documentation and specifications, contracts, take-offs, estimating, bidding, bonds, insurance, project management and administration, scheduling, time and cost management, labor law and labor relations, and project safety. (Cross-listed with CNST 811).
Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 415 MECHANICAL/ELECTRICAL PROJECT MANAGEMENT (3 credits)
Fundamentals of project management within the mechanical and electrical contracting industry. Codes, contract documents, productivity, coordination, project control and administration, scheduling, safety, and project closeout, from a specialty contracting perspective. (Cross-listed with CNST 815).
Prerequisite(s): CNST 305, CNST 306 and CNST 379. CNST 405 and CNST 406 are recommended.

CNST 420 PROFESSIONAL PRACTICE AND ETHICS (3 credits)
Examination of professional practice considering the perspectives of designers and the contractors and their respective relationships to society, specific client types, and other collaborators in the design and construction fields. Focus on ethics, professional communication and responsibility, professional organization, office management, environmental stewardship, professional registration, and owner-designer-contractor relationships. (Cross-listed with CNST 820).
Prerequisite(s): CNST 379, LAWS 3930. Not open to non-degree graduate students.
CNST 425 ALTERNATIVE PROJECT DELIVERY METHODS (3 credits)
Historical and current project delivery methods (PDM) are explored. Procurement strategies, contractual arrangements, and compensation methods are also discussed in conjunction with risks, costs, and legal and ethical issues that need to be considered when determining which system is best for a particular project. (Cross-listed with CNST 825)
Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 434 THE DESIGN-BUILD PROJECT DELIVERY SYSTEM (3 credits)
The organizational, managerial, ethical and legal principles involved in design-build as a project delivery system. Advantages and disadvantages, growth, merits, and criticism of the design-build system. (Cross-listed with CNST 834)
Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 436 INTENT AND APPLICATION OF INTERNATIONAL BUILDING CODE (3 credits)
Fundamentals of how to research, interpret, and apply building code requirements to the design and construction of both new and renovated structures. (Cross-listed with CNST 836)
Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 440 BUILDING INFORMATION MODELING (BIM) II (3 credits)
Advance topics in building information modeling, including structural and MEP modeling, 4/5 dimensional construction animations and visualization. Good knowledge of Revit Architectural Modeling and knowledge of construction estimating and scheduling is required before registering in this class. (Cross-listed with CNST 840)
Prerequisite(s): CNST 225 and CNST 378.

CNST 442 HEALTHCARE DESIGN AND CONSTRUCTION (3 credits)
Introduction to the design and construction of healthcare facilities. Healthcare regulations and standards, infection control, interlife safety issues, code requirements, medical equipment selection and coordination, healthcare design and construction techniques, and best practices will be addressed. Provides guidance in preparation for the Certified Healthcare Constructor credential offered by the American Healthcare Association. (Cross-listed with AREN 8426, AREN 4420, CNST 842).
Prerequisite(s): Senior or graduate standing.

CNST 444 CONSTRUCTION SITE SAFETY MANAGEMENT (3 credits)
Introduction to safety management for project engineers, project managers, safety teams, and company safety officers. Addresses basic accident and injury models, human accident costs, safety behavior, ethical issues in safety, workers’ compensation and EMR, job safety analysis (JSA), project site safety audits, safety promotion and training, emergency planning and response, safety management programs and training, and OSHA recordkeeping and reporting. (Cross-listed with CNST 844).
Prerequisite(s): CNST 241 or CONE 319. Not open to non-degree graduate students.

CNST 476 PROJECT BUDGETS AND CONTROLS (3 credits)
The basic systems related to revenues and expenses associated with record keeping of construction contracts. Managerial accounting related to planning and control of construction projects. (Cross-listed with CONE 476).
Prerequisite(s): CNST 378 and CONE 206.

CNST 480 PRODUCTIVITY AND HUMAN FACTORS IN CONSTRUCTION (3 credits)
Motivation and productivity improvement methods for management in typical job environments. Methods to improve working environments in the field and office. Procedures and mechanisms to implement human behavior and ergonomics concepts for enhanced productivity and safety. (Cross-listed with CNST 880).
Prerequisite(s): CNST 379 and senior standing. Not open to non-degree graduate students.

CNST 482 HEAVY AND/OR CIVIL CONSTRUCTION (3 credits)
History, theory, methods, and management principles of planning and executing heavy and/or civil projects. Emerging and new equipment capabilities. Economical use of equipment and management of costs associated with production. (Cross-listed with CNST 882, CONE 482, CONE 882).
Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 485 CONSTRUCTION PLANNING, SCHEDULING, AND CONTROLS (3 credits)
Planning and scheduling a project using the critical path methods (CPM) with computer applications. Project pre-planning, logic networks, precedence diagrams, time estimates, critical path, float time, crash programs, scheduling, short interval schedules, pull planning, and monitoring project activities. (Cross-listed with CNST 885, CONE 485, CONE 885)
Prerequisite(s): CNST 378. Not open to non-degree graduate students.

CNST 486 CONSTRUCTION MANAGEMENT SYSTEMS (3 credits)
Application of selected topics in systems analysis (operations research). Simulation, mathematical optimization, queuing theory, Markov decision processes, econometric modeling, neural networks, data envelopment analysis, decision analysis, and analytic hierarchy processes as used in the industry. (Cross-listed with CNST 886).
Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 488 RESIDENTIAL CONSTRUCTION AND REAL ESTATE DEVELOPMENT (3 credits)
Application of various strategies to real estate development including community and residential design, planning, site selection, land development, marketing and customer service. Methods used by construction companies to analyze, bid, and market their developments to customers through the preconstruction and bidding process. (Cross-listed with CNST 888).
Prerequisite(s): CNST 379.

CNST 489 SENIOR CONSTRUCTION PROJECT (3 credits)
Execution of a project from conceptual design and location through estimating, bidding, site layout, planning and scheduling, cost control, records management, and project completion and documentation. Capstone course.
Prerequisite(s): CNST 379; CNST 420; CNST 476; CNST 4850. Pre/Coreq: CNST 480.

CNST 495 INTERNSHIP (3 credits)
Participation in a full-time summer internship associated with a construction-related entity. Includes weekly assignments and a final presentation designed to foster interactions between the intern and the business side of the entity. General topics include personnel and time management, structuring business plans, scheduling work, finances and budgets, marketing plans, contracts, risk analysis, and communication and leadership. (Cross-listed with CONE 495).
Prerequisite(s): Permission of instructor, Letter of application, Letter of agreement from industry mentor. Not open to non-degree graduate students.

CNST 498 SPECIAL TOPICS IN CONSTRUCTION MANAGEMENT (1-6 credits)
Individual or small group study of special topics in construction management. Topic varies. A signed student-instructor learning contract is required. (Cross-listed with CNST 898, CONE 498).

CONE 103 INTRODUCTION TO CONSTRUCTION ENGINEERING (1 credit)
Introduction to the organization and terminology of construction engineering. Overview of technical and management skills required to succeed in the construction engineering profession.
CONE 206 ENGINEERING ECONOMICS (3 credits)
Introduction to methods of economics comparisons of engineering alternatives: time value of money, depreciation, taxes, concepts of accounting, activity-based costing, ethical principles, civics and stewardship, and the importance to society.
Prerequisite(s): Sophomore Standing.

CONE 211 CONSTRUCTION BUSINESS METHODS (3 credits)
Business concepts and practices used by construction contractors. The construction industry, management principles, forms of business ownership, company organization, construction contracts, estimating and bidding, business ethics, bonds and insurance, financial statements, cost accounting, equipment management, planning and scheduling, labor relations and personnel management.
Prerequisite(s): CONE 103 or CNST 131 or AREN 1010

CONE 221 GEOMETRIC CONTROL SYSTEMS (3 credits)
Introduction to the theory and application of mensuration and geometric information processing in civil engineering. Measurement of distance, direction, elevation and location using mechanical, electronic and satellite systems. Collection of field data and error propagation. Elementary geometric data bases for design, construction, operation and control of civil works.
Prerequisite(s): MATH 1950

CONE 319 CONSTRUCTION METHODS AND EQUIPMENT (3 credits)
Characteristics, capabilities and selection of equipment and methods used in the building construction industry. Estimating job production, equipment production rates, machine operating costs, earth-moving equipment, hoisting equipment, operations analysis, and use of various other construction methods and equipment.
Prerequisite(s): CONE 206

CONE 378 CONSTRUCTION ESTIMATING I (3 credits)
Preparation of detailed cost estimates based on contract documents. Identify and analyze cost components of building and site scopes of work to perform detailed quantity take-offs. Apply labor, material, and equipment pricing from RS Means. Use production rates and quantity takeoffs to prepare a preliminary construction schedule. Complete quantity takeoffs from 2D plans and from 3D BIM software models. (Cross-listed with CNST 378).
Prerequisite(s): CNST 112

CONE 414 ACCIDENT PREVENTION IN CONSTRUCTION (3 credits)
Safety practices in the construction industry and the national safety and health standards of the Occupational Safety and Health Administration (OSHA). The theory of accidents; personal attitudes; statistics and environment; accident occurrence; prevention and inspection in connection with the construction of buildings, highways, and associated heavy facilities. Nationally accepted safety codes and their relationship to accepted practices in the industry.
Prerequisite(s): Senior standing and CONE 211 and CONE 319

CONE 416 WOOD/CONTEMPORARY MATERIALS DESIGN (3 credits)
Design of structural timber, beams, columns, and connections. Introduction to applicable design philosophies and codes. Overview of materials design, masonry, aluminum, and contemporary materials such as plastics and fiber reinforced systems and composite material groups. Design considerations, cost and constructability analysis. (Cross-listed with CONE 816)
Prerequisite(s): CIVE 341

CONE 417 FORMWORK SYSTEMS (3 credits)
Design of structural timber, beams, columns, and connections. Introduction to applicable design philosophies and codes. Overview of materials design, masonry, aluminum, and contemporary materials such as plastics and fiber reinforced systems and composite material groups. Design considerations, cost and constructability analysis. (Cross-listed with CONE 817)
Prerequisite(s): CONE 416; Pre/Co-req.: CIVE 441

CONE 450 SUSTAINABLE CONSTRUCTION (3 credits)
Sustainable construction and its application to the green building industry. Topics include: the LEED certification process, sustainable building site management, efficient wastewater applications, optimizing energy performance, indoor environmental issues, performance measurement/verification, recycled content and certified renewable materials. (Cross-listed with CONE 850)
Prerequisite(s): Senior standing

CONE 459 INTRODUCTION TO BUILDING INFORMATION MODELING (3 credits)
This course instructs CAD users on the effective use of Building Information Model (BIM) for integration of design, document and construction estimate. Topics include: model-based 3D design, file formats, interoperability, and MEP modeling. (Cross-listed with CONE 859)
Prerequisite(s): CNST 112, or Graduate standing in AREN, CIVE, CNST or CONE.

CONE 466 HEAVY AND/OR CIVIL ESTIMATING (3 credits)
Estimating techniques and strategies for heavy and/or civil construction. Unit pricing, heavy and civil construction takeoffs and estimating, equipment analysis, overhead cost and allocations, estimating software and government contracts. (Cross-listed with CONE 866).
Prerequisite(s): CONE 319 and CONE 378 and CONE 485

CONE 476 PROJECT BUDGETS AND CONTROLS (3 credits)
The basic systems related to revenues and expenses associated with record keeping of construction contracts. Managerial accounting related to planning and control of construction projects. (Cross-listed with CNST 476).
Prerequisite(s): CNST 378 and CONE 206

CONE 481 HIGHWAY & BRIDGE CONSTRUCTION (3 credits)
The methods and equipment required in the construction of roads and bridges. Methods and equipment necessary for roads and bridges. Substructure and superstructures, precast and cast-in-place segments, and standard and specialized equipment. (Cross-listed with CONE 881)
Prerequisite(s): CONE 319 or CNST 241

CONE 482 HEAVY AND/OR CIVIL CONSTRUCTION (3 credits)
History, theory, methods, and management principles of planning and executing heavy and/or civil projects. Emerging and new equipment capabilities. Economical use of equipment and management of costs associated with production. (Cross-listed with CONE 482, CNST 882, CNST 884).
Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CONE 483 SUPPORT OF EXCAVATION (3 credits)
The design and placement of excavation supports according to OSHA requirements and industry standards. A variety of routine to moderately complex support systems. Open excavations, heet piling and cofferdams. Soil mechanics, lateral loads, hydrology, and pumping methods. (Cross-listed with CONE 883)
Prerequisite(s): CET 2180 and CET 3290

CONE 485 CONSTRUCTION PLANNING, SCHEDULING, AND CONTROLS (3 credits)
Planning and scheduling a project using the critical path method (CPM) with computer applications. Project pre-planning, logic networks, precedence diagrams, time estimates, critical path, float time, crash programs, scheduling, short interval schedules, pull planning, and monitoring project activities. (Cross-listed with CNST 485, CNST 885, CONE 885)
Prerequisite(s): CNST 378. Not open to non-degree graduate students.

CONE 489 CONSTRUCTION ENGINEERING CAPSTONE (3 credits)
CONE 4890 embodies the cumulative CONE experience in a project format and uses teams to simulate actual construction enterprises operating in cooperative and competitive situations which replicate the construction industry. An integrated, comprehensive project; to be taken in the term prior to graduation.
Prerequisite(s): Senior standing
**Construction Engineering, Bachelor of Science**

**Description**
Construction engineering (CONE) is a program of the Charles W. Durham School of Architectural Engineering and Construction. The construction engineering major integrates engineering, construction and management courses. This program is designed for persons fulfilling the construction industry’s need for licensed professional engineers. It resembles the construction management program but provides a greater emphasis on engineering, scientific, and technical courses to meet requirements for licensure as a professional engineer. The courses focus on the application of engineering principles to solve real-world construction problems. They include instruction in civil engineering, structural principles, material testing and evaluation, project management, computer-assisted design, 3D animation, sustainability, and graphic communication.

The Durham School Construction Engineering program is accredited by the Engineering Accreditation Commission (EAC) of ABET, Inc.

**Program Educational Objectives (PEOs)**
1. Professional Achievement: The Construction Engineering program prepares graduates to become Licensed Professional Engineers and Certified Professional Constructors.
2. Career Achievement: The Construction Engineering program prepares graduates to contribute to society by working in an occupation related to the architecture-engineering-construction industry.

Under the stimulus of increasing demand for global services, many Nebraska companies have expanded their reach well beyond U.S. borders. This demand gives the construction engineering graduate an unprecedented number of opportunities for employment—locally, nationally and internationally—and for pursuing an advanced degree at the University of Nebraska—Lincoln or elsewhere.

Construction engineers participate in the preparation of engineering and architectural documents, including specifications, which they translate into finished projects such as buildings for housing, commerce and industry, highways, railroads, waterways, airports, power plants, energy distribution systems, military bases and space center complexes. These projects involve thousands of details shared by a team of owners, architects, engineers, general constructors, specialty constructors, manufacturers, material suppliers, equipment distributors, regulatory bodies and agencies, labor resources and others. The constructor assumes responsibility for delivery of the completed project at a specified time and cost and also accepts associated legal, financial and management obligations. Because of the broad scope of the construction engineer’s project responsibility, they must assure the project’s constructability as well as its capability to be operated and maintained.

Construction engineering students are required to enroll in a set of courses specifically designed for a general construction education. Each student selects, with the guidance of an advisor, a set of approved electives. The program outlined below leads to the bachelor of science degree in construction engineering.

**Professional Admission Requirements**
In order to be professionally admitted into the construction engineering program, students must complete at least 43 credit hours of courses listed in the first two years of the required curriculum with a minimum GPA of 2.5 for those major courses (not necessarily the cumulative GPA).

**Learning Outcomes**
Graduates of the construction engineering program will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

The above student outcomes have been approved by the ABET Engineering Area Delegation for use beginning with the 2019-20 academic year, and have been adopted by the faculty of the Charles W. Durham School of Architectural Engineering and Construction.

**Requirements**
Students are required to enroll in a predetermined set of courses specifically designed for general construction education. Each student selects, with the approval of their advisor, a set of approved electives.

ACE Requirements

The CONE program follows the University of Nebraska-Lincoln ACE general education requirements. Because of the specific needs of the program, several of these courses are specified in the curriculum. Please contact DurhamSchool@unl.edu (durhamschool@unl.edu), if you are interested in more information about this program.

Construction Management, Bachelor of Science

Construction Management

Durham School of Architectural Engineering and Construction

Construction management (CNST) is a complete undergraduate degree program available to students within the Charles W. Durham School of Architectural Engineering and Construction located at Nebraska Hall on the Lincoln City Campus and at the Peter Kiewit Institute (PKI) on the Scott Campus in Omaha. Construction is one of the largest and most diversified
industries in the country, accounting for approximately four percent of the U.S. gross domestic product (GDP). The key professional in this vast enterprise is the “constructor,” a term given to leaders and managers in the construction industry who are responsible for planning, scheduling, and building the projects designed by architects and engineers. These highly-specialized efforts are indispensable in meeting the country’s growing need for new structures, infrastructure and environmental controls that are of high quality and are cost effective, efficient and sustainable. 

Construction firms vary in size from large corporations to small proprietorships and partnerships. These are often classified according to the kind of construction work they do—general contractors, heavy and highway contractors, specialty contractors—including mechanical and electrical—and residential builders and developers. Many firms engage in more than one category of work. Some larger companies incorporate the architectural and engineering design functions as part of their role as a design/build firm. Collectively, constructors manufacture our entire built environment—buildings for housing, commerce and industry, highways, railroads, waterways, airports, power plants, energy distribution systems, military bases and space center complexes. Thus, the construction management field is broad, requiring a unique educational background for its professional practitioners. 

Although the range of construction activities appears wide and diverse, the general education requirements for construction management are universal regardless of a particular firm’s area of specialization. Since construction is primarily a business enterprise, the graduate must have a sound background in business management and administration as well as an understanding of the fundamentals of architecture and engineering as they relate to project design and the actual construction process in the field. Professional expertise lies in the fields of construction science, methods and management. A working knowledge of structural design, mechanical and electrical systems, methods and materials, soil mechanics and construction equipment is also essential. 

The construction management curriculum embraces a course of study in:

1. Construction project management from pre-design through commissioning.
2. Project life-cycle and sustainability.
3. Health and safety, accident prevention and regulatory compliance.
4. Law, contract documents administration and dispute prevention and resolution.
7. Planning and scheduling.
8. Cost management including plan reading, quantity take offs and estimating.
10. Leadership and managing people.
11. Business and communication skills.

Program Educational Objectives

The following is a list of the Construction Management Program Educational Objectives (PEO) that graduates are expected to attain within a few years of graduation:

1. Develop construction project objectives and plans including delineation of scope, budget and schedule.
2. Select project participants and set performance requirements.
3. Maximize resource efficiency through judicious procurement and management of labor, materials and equipment.
4. Implement and complete construction activities through coordination and control of scheduling, contracting, estimating and cost control.
5. Develop effective communication protocols and mechanisms for resolving conflicts associated with the construction process.
6. Ensure quality and safety through design, measurement, analysis and control.

Educational standards and criteria were established by the construction faculty of The Charles W. Durham School of Architectural Engineering and Construction and approved by the Construction Industry Advisory Committee (CIAC) and ABET, the accrediting agency for the construction management program at the University of Nebraska–Lincoln.

Professional Admission Requirements

Before applying for admission to the construction management degree program, students must complete 28 semester hours, including the following courses with a C or better: MATH 1950, PHYS 1050 (or PHYS 1120 or PHYS 2120), ENGR 100 and at least one of ENGL 1160, ENGL 3980, STAT 1530, CNST 112. Additionally, a minimum cumulative GPA of 2.5 is required.

Learning Outcomes

Graduates of the construction management program will have:

1. An ability to identify, formulate and solve broadly defined technical or scientific problems by applying knowledge of mathematics and science and/or technical topics to areas relevant to the discipline.
2. An ability to formulate or design a system, process, procedure or program to meet desired needs.
3. An ability to develop and conduct experiments or test hypotheses, analyze and interpret data and use scientific judgment to draw conclusions.
4. An ability to communicate effectively with a range of audiences.
5. An ability to understand ethical and professional responsibilities and the impact of technical and/or scientific solutions in global, economic, environmental and societal contexts.
6. An ability to function effectively on teams that establish goals, plan tasks, meet deadlines and analyze risk and uncertainty.

The above student outcomes have been approved by the ABET Applied and Natural Science Accreditation Commission for use beginning with the 2019-20 academic year, and have been adopted by the faculty of The Charles W. Durham School of Architectural Engineering and Construction.

Grade Rules

C- and D Grades

All required and elective courses must be passed with a grade of C or better to be included in the 120 credit hours needed for degree completion.

ACE Requirements

The CNST program follows the UNL ACE general education requirements. Because of the specific needs of the program, most of these courses are specified in the curriculum. Please contact DurhamSchool@unl.edu (durhamschool@unl.edu), if you are interested in more information about this program.

Construction Management Minor

This minor is for engineering, architecture and business majors ONLY.

The College of Engineering enables its students to participate in this approved minor subject to the following conditions:

1. A minor will not reduce or alter the existing course or degree requirements for students electing to pursue a minor.
2. The minor program must be organized and approved by an advisor prior to the submission of the senior check to the department chair or head.
3. The minor must be approved by the advisor, the department chair or head, the dean, and the cognizant program offering the minor.
4. Minors on the Lincoln or Omaha campuses may be added by approval of the College of Engineering Curriculum Committee and faculty.
5. The minor requires taking one 3-credit course from each of the six required topics listed below for a total of 18 credit hours.

Total Credit Hours: 18
Grade Rules

C- and D Grades
A grade of C or better is required for all courses in the minor.

Pass/No Pass
All courses must be taken for a letter grade.

Achievement-Centered Education Electives

College of Engineering majors who will complete their undergraduate degree program on the UNL (City or East Campus in Lincoln) or Scott Campus in Omaha must satisfy the general education requirements of the Achievement Centered Education (ACE) program at UNL. The ACE program contains 4 Institutional Objectives with 10 Student Learning Outcomes (SLO). ACE electives are associated with SLO 5 through 9, and consists of course work primarily from the humanities, fine arts, social sciences, civics, ethics, human and cultural diversity areas. A minimum of one 3-credit hour course is to be selected from each of the following listed SLO areas to satisfy student learning outcomes 5 through 9. Although some courses are listed in more than one area, no individual course can be utilized to satisfy more than one SLO area.

Program Specific Notes
Please read the description under your specific major to find out more about flexible ACE requirements

Architectural Engineering
-Flexible ACE electives include 5, 6, 7 and 9
-Students must complete one from each category: for a total of four courses
-PSYC 1010 ust be the ACE 6 if completing the Lighting and Electrical option
-Students must complete ART 3770 (ACE 5 or 7) or 3780 (ACE 7) as either an ACE 5 or 7, then must complete one more course to fulfill the missing elective

Civil, Electrical, and Environmental Engineering
-Flexible ACE electives include 5, 6, 7, 8, and 9
-Students must complete one from each category: for a total of five courses

Computer Engineering
-Flexible ACE electives include 5, 6, 7 and 9
-Students must complete one from each category: for a total of four courses
-Students must complete ENGR 469 as their ACE 8

Construction Engineering and Management
-Flexible ACE electives include 5, 7, and 9
-Students must complete one from each category: for a total of three courses
-Students must complete ECON 2200 to fulfill the ACE 6 elective
-Students must complete CONE 206 to fulfill the ACE 8 elective

Pre-Programs (Mechanical, Agricultural, and Biological Systems)
-Flexible ACE electives include 5, 6, 7 and 9
-Students must complete one from each category: for a total of four courses
-Students must complete CONE 206 to fulfill the ACE 8 elective

Our Mission
We deliver student-focused education and perform cutting-edge research, preparing professionals and developing solutions that benefit the world. (We do cool stuff.)

In order to accomplish the College of IS&T’s vision and mission, the faculty and staff strive to achieve the following three strategic goals:

1. Keep students at the center of all College of IS&T efforts;
2. Strive to achieve the highest academic excellence; and
3. Actively lead and collaborate with academic, business, and community entities on various projects related to information science and technology.

The College of IS&T is focused on reaching the next level of information technology innovation through collaboration. This collaboration is fostered by the presence of the College in the Peter Kiewit Institute and is visible in the form of research, teaching, and service/outreach initiatives in partnership with our public and private stakeholders in the community, other academic units across the University of Nebraska at Omaha, and the rest of the University of Nebraska system.

General Information
Overview of Programs
The College is organized into three major units that manage the degree programs: the Department of Computer Science (CS), the Department of Information Systems and Quantitative Analysis (ISQA), and the School of Interdisciplinary Informatics (Si2).

The College of IS&T offers five undergraduate degree programs:
1. BS in Bioinformatics
2. BS in Computer Science
3. BS in Cybersecurity
4. BS in Information Technology Innovation
5. BS in Management Information Systems

The College of IS&T also offers a minor in each of these five undergraduate degree programs.

Choice of Catalog Policy
A student registering in the College of IS&T for the first time will work with an advisor to develop a matriculation form based on the current online catalog. The matriculation form is used to establish a plan of study for students in the College and will be the primary source for a student’s most current academic plan, provided the student has continuous enrollment.

It is the responsibility of each student admitted to the College of Information Science & Technology to become familiar with the procedures and regulations in the undergraduate catalog for their degree program. The College of Information Science & Technology reserves the right, after due notice during the course of a student’s work toward a degree, to institute and make effective any new ruling which may be necessary for the general good of the College and to substitute courses for those no longer offered.

College Contact Information
Dean’s Office: 402.554.2380
Advising: 402.554.3819
Program Website (http://www.ist.unomaha.edu)

Admission Requirements for the College of IS&T
Application deadlines for the College of Information Science & Technology are as follows:

- Fall Semester - First day of fall semester classes
- Spring Semester - First day of spring semester classes
- Summer Sessions - July 1

Incoming first year students must meet general university admission requirements to be admitted into the College of Information Science & Technology.

Transfer admission from other colleges or universities: Students may transfer into the College of Information Science & Technology from other institutions by completing the application process described above and meeting the minimum cumulative grade point average (GPA) of 2.5 (on a 4.00 scale) with a minimum of 12 credit hours.

Academic Requirements for Degrees in the College of IS&T

Number of Hours to Graduate
A minimum of 120 credit hours is required for a Bachelor of Science degree in the College of IS&T.

Minimum GPA
A GPA of 2.5 or higher is required to graduate with a Bachelor of Science degree from the College of IS&T.

College of IS&T Bachelor of Science Requirements
Please see individual College of IS&T degree subsections for specific Bachelor of Science requirements.

Transfer Credit Policy
A maximum of 64 credit hours are accepted from an accredited community college. A minimum grade of C- is required to transfer credits toward College of IS&T degree programs with the exception of business courses and the equivalent of UNO's CIST 1400 and CSCI 1620, which require a grade of C or better.

Unacceptable Credits
Courses such as ENGL 1090, ENGL 1100, MATH 1210, and orientation courses in other colleges or divisions may not be counted as part of the minimum 120 credit hours for College of IS&T degree programs. The course, US 1010 Critical Thinking and Problem Solving Skills for the Modern Day Student, can, however, be counted as elective credit if taken within the first 30 hours of the degree program. A maximum of four credit hours of different Physical Education Activities (PEA) courses may be applied toward the general elective area.

Retroactive Credit Policy
https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 30)

Advanced Placement Credits
https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 30)

Military Credit
https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 30)

International Baccalaureate (IB) Credit
https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/ (p. 30)

Placement Exams and Credit by Examinations Policies/Practices
https://nextcatalog.unomaha.edu/undergraduate/student-life-support-services/ (p. 62)

Residency Requirement
Thirty of the last 36 credit hours must be University of Nebraska at Omaha courses.

Quality of Work
Students in a College of IS&T undergraduate program must obtain a grade of C- or better in each class for the purpose of meeting General Education, College of Information Science & Technology (IS&T), and Departmental requirements for College of IS&T degrees with the exception of CIST 1400 and CSCI 1620, which require a minimum grade of C. Programs may have additional quality of work requirements.

Good Academic Standing Policy
A minimum cumulative grade point average (GPA) of 2.5 is required by the College of Information Science & Technology.

Student Academic Course Load
Students shall not carry 18 or more semester hours of work during the fall semester, 19 or more semester hours during the spring semester and 12 semester hours during the summer sessions unless they have maintained an average of “B” (3.0) in a regular 15-hour load during the preceding semester. Permission to register for additional semester hours should be obtained from the student’s academic advisor. For more details, see the University Enrollment Policies (https://catalog.unomaha.edu/undergraduate/enrollment/enrollment/).

Credit/No Credit (CR/NC) Grades
Courses required for College of IS&T undergraduate programs may be taken on a Credit/No Credit basis as described by the University Policy (p. 31) with the following limitations:

- A minimum grade of C- is required in to be awarded Credit in undergraduate courses applied to IS&T undergraduate major, minor, or certificate program requirements.
- Credit/No Credit may not be used for completion of CIST1400 or CSCI1620 in any IS&T undergraduate major, minor, or certificate.
- A maximum of nine credit hours taken on a Credit/No Credit basis can be applied to College of IS&T undergraduate major requirements, excluding free electives and general education courses not specifically required by the major. Use of Credit/No Credit for free elective and unrestricted general education courses in an IS&T undergraduate degree program of study are subject to general University limits.
- A maximum of three hours taken as Credit/No Credit can be applied to meet graduation requirements for any IS&T minor or undergraduate certificate.

Individual majors, minors, or certificate programs within IS&T may place further limitations on the use of Credit/No Credit to meet program requirements. Any such restrictions must be published in the corresponding catalog entry for each program, and the College policy applies in the absence thereof. Students should consult with their academic advisors if they have questions about Credit/No Credit within specific programs.

Students taking IS&T-based courses that are majoring in degree programs outside of IS&T are encouraged to consult with advising staff from their
major to determine whether an IS&T course taken as Credit/No Credit can be used towards their graduation requirements.

For deadlines related to electing CR/NC and other restrictions relative to its use based on a student’s class standing, see the campus policy.

**Completion of an Incomplete Grade**

To receive an incomplete, students must contact their instructor prior to the end of the semester, request a grade of incomplete, and make arrangements to complete the work. The rules which govern the issuance of an incomplete are as follows:

1. The grade “I” is used by an instructor at the end of a semester or summer session to designate incomplete work in a course. It is given when a student, due to circumstances such as illness, military service, hardship, or death in the immediate family, is unable to complete the requirements of the course in the term in which the student is registered for credit. Incompletes will only be given if the student has already substantially completed the major requirements of the course.

2. Each instructor will judge each situation. The instructor will document the incomplete work and the conditions for removal of the incomplete grade, provide a copy to the student, and file this with the Assistant Dean for Student Success. If the instructor is at the University at the time of removal, they will supervise the makeup work and report the permanent grade.

3. In the event the instructor is not available at the time of the student’s application for removal of an incomplete, the department chairperson will supervise the removal of the incomplete and turn in the permanent grade for the student.

4. A student shall have no longer than the end of the next regular semester following receipt of the “I” to remove the incomplete. After that time, the “I” will automatically become a “W,” or such other grade specified by the instructor depending on the amount and quality of the coursework previously completed. Exceptions to this rule will be permitted if initiated by the student and approved by the instructor, department chairperson, and dean. Exceptions to this rule will be made only in response to circumstances over which the student has no control, and these must be detailed.

5. In registering for courses, students receiving one or more “I” grades from the previous semester should take into account the time needed to complete the required work and plan their schedules accordingly.

**Repeatable Grades/Courses**

https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

**Grade Appeal Policy and Process**

Students who wish to appeal a grade which they feel was capriciously or prejudicially given shall first attempt to resolve the issue through discussion with the instructor responsible for the course within 30 days of the final course grade being posted. If a satisfactory resolution is not possible after discussion with the instructor, the student may then submit a written grade appeal to the department/school chair/director, providing a detailed justification for the appeal, including any supporting materials, and indicating why the student believes the grade determination was prejudicial or capricious. The department chair or school director will try to resolve the grade issue with the student and the instructor. If the chair/director determines that the appeal cannot be resolved at their level, a faculty-student appeals committee will be appointed by them. This committee will consist of a student representative chosen from nominations made by IS&T undergraduate advisors; and, three members of the department faculty - one selected by the student submitting the appeal, one selected by the instructor for the class, and one selected by the chair/director to chair the committee. This committee will meet to evaluate the grade appeal. During that meeting the instructor, the student, and any other appropriate parties invited to speak by the committee may present their justifications. If the committee finds that the grade was not assigned in a prejudicial or capricious manner, the appeal is considered concluded, and the student and the instructor are so notified. If the grade appeal is supported, the chair/director will report the finding to the student and the instructor, and will direct the registrar to change the grade to that determined by the appeal committee.

**Academic Amnesty**

**POLICY STATEMENT:** Academic Amnesty provides relief from a poor academic record acquired within the University of Nebraska system by excluding substandard coursework with a final grade of “D” or “F” from a student’s cumulative grade point average (GPA) calculation. Academic Amnesty will not remove course(s) or grade(s) from the transcript but once granted, will not count as part of the overall GPA.

**Eligibility:**

To be eligible for Academic Amnesty, students must:

- Have been out of the Nebraska system for at least one calendar year (12-month period).
- Have substandard coursework (“F” or “D” grades) earned within the University of Nebraska system (UNO, UNL, UNK, UNMC) prior to the year out (substandard grades earned after the year out will not be included in the Academic Amnesty contract).
- Be admitted as a degree-seeking student at the University of Nebraska.

**Amnesty Requirements:**

- Academic Amnesty will begin with the first course(s) taken upon return to UNO.
- Students may apply for Academic Amnesty at any time after taking the one-year break.
- After returning from the one-year break, demonstrate academic success in new UNO coursework.

Academic success may be demonstrated by one of the following:

- Completing at least 12 semester hours (simultaneous or sequential) with a minimum of 3.0 cumulative GPA,
- Completing at least 24 semester hours (simultaneous or sequential) with a minimum of 2.5 cumulative GPA.

- Students must maintain continuous enrollment (at least six (6) semester hours completed within any 12-month period).
- Students will work with their academic advisor to select the coursework to be amnestied.
- Students must inform an academic advisor when the Academic Amnesty requirements are met.

**Notes:**

- All amnestied coursework will remain on the student’s academic record (transcript); however, the courses will not be included in calculation of the student’s grade point average. Courses will be annotated “Academic Amnesty Excluded from GPA” on the transcript.
- Once Academic Amnesty is granted, students will not be eligible for honors at graduation. Students are still eligible for Dean’s List and Chancellor’s List honors.
- While demonstrating academic success, no changes are made to the student’s academic record. If a student’s cumulative GPA is still below standard, the students will continue to be reported as “continued on probation.” Should the student revert to substandard academic performance while working on Academic Amnesty, the student can still be suspended. Academic Amnesty is intended to provide relief from the past without providing immunity from future substandard academic performance.
- Students must still meet all university and college requirements to graduate.
Academic Probation and Suspension

Probation
Probation constitutes a period of formal warning that a student is doing unsatisfactory work. A student whose cumulative grade point average is below 2.0 after having attempted six or more semester hours of study will be placed on probation. Probationary status will remain in effect as long as the student’s cumulative grade point average (GPA) remains below 2.0. No student will be allowed to enroll for any course on a Pass/Fail or Credit/No Credit basis while on probation.

The student is encouraged to use every opportunity while on probation to seek counsel and guidance from various university agencies which have been established to offer assistance and academic support. For information on such services, the student should consult with their academic advisor or counselor.

Suspension
Students who are on probation will be suspended at the end of the spring semester if their semester grade point average is lower than 2.0 and their cumulative grade point average (GPA) falls below the following standards:

<table>
<thead>
<tr>
<th>Hours Attempted</th>
<th>Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-12</td>
<td>No Suspension</td>
</tr>
<tr>
<td>13-45</td>
<td>1.75</td>
</tr>
<tr>
<td>46 or more</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Academic suspension under these conditions will be automatic and will be for a minimum period of one year.

Students placed on suspension will be notified by the College of Information Science & Technology and given instructions on how to appeal, should they choose to do so, as well as any applicable deadlines associated with an appeal.

Appeals properly filed shall delay implementation of the suspension until the appropriate appeal committee has ruled on the appeal. However, if the appeal is denied, the student shall be disenrolled and tuition shall be refunded.

Students will only be suspended at the end of the spring term. This rule applies to all UNO colleges, including the Division of Continuing Studies and all University of Nebraska-Lincoln Omaha-based programs in the Colleges of Architecture, Agriculture, Education and Human Resources, and Engineering.

Reinstatement Policy Following Academic Suspension
https://nextcatalog.unomaha.edu/undergraduate/grades/ (p. 31)

Academic Advising
The College of IS&T’s undergraduate academic advisors recognize that students have individual academic, career, and personal needs that may require special assistance. Below are some guidelines on how academic advisors help ensure success. Students are strongly encouraged to meet with their advisor regularly.

What do IS&T academic advisors do?
IS&T academic advisors explain the rules and requirements of College of IS&T programs and help students understand how they apply to individual situations. The advisors prepare each student record so that students meet all the requirements for the degree in the final audit process. In addition, advisors provide advice about which degree-program specific courses and scheduling will be most helpful. They can also help with difficult situations such as concerns about grades, course instruction, time management, scheduling conflicts, or other academic issues.

When should I see an academic advisor?
First and second-year students in the College of IS&T are required to meet with an advisor every semester. Third and fourth-year students in good academic standing are strongly encouraged, though not required, to continue to meet with an advisor at least once per semester to plan their courses, to make sure all records are up-to-date, and to catch any problems early. All fourth-year students are required to schedule a meeting for a graduation check when they reach 91 earned hours. Students majoring in IT Innovation are required to meet with an academic advisor every semester.

Any student whose GPA falls below 2.5 will be required to meet with an academic advisor regardless of class standing.

Advising Holds
Advising holds are automatically placed each semester for first-year students, second-year students, all IT Innovation students, and for any student whose GPA is below a 2.5.

Student Holds
https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/ (p. 24)

Graduation Check
When students reach 91 hours of completed coursework, they must request a graduation check to be done by an academic advisor. Assuming satisfactory completion of all approved courses and degree requirements, this process will assure the student’s graduation date. Should this procedure not be followed, responsibility for meeting graduation requirements falls to the student and may prevent graduation on the anticipated date.

Application for Degree
Each student who expects to receive a diploma must file an Application for Degree whether or not that student plans to attend the commencement ceremony. The Application for Degree is available online by logging in to MavLINK. Announcements about deadlines are also posted in MavLINK.

It is the responsibility of the student to inform the Registrar’s Office of their graduation plans and to provide a diploma mailing address. Failure to meet these stipulations may necessitate postponement of graduation until the following semester.

Computer Science
The Computer Science program provides a firm foundation in the theory and application of computing while allowing for additional concentration in areas of choice, such as information systems, mainframe computing, computer networking, telecommunications, data and knowledge engineering, and software development. This discipline is based on building software tools that make computers useful.

Mission and Vision
The mission of the Computer Science Department is:

- Pursue research promoting technological advances in computer science aligned with the needs of 21st century society.
- Leverage best practices to engage undergraduate and graduate students in unique research and learning experiences both in and out of the classroom, and
- Take a leading role in promoting computer science and computational thinking across communities we serve

The vision of the Department is to create dynamic research and teaching environments that promote a computationally empowered society ready to tackle complex problems in rapidly changing technological landscapes.
Bachelor of Science in Computer Science
The Bachelor of Science in Computer Science provides students with a solid background in the fundamentals of computing and prepares each individual for employment in a wide variety of positions and for graduate study in computer science. The content of the Department’s courses is continually monitored to ensure they are consistent with the fast-changing developments in the discipline. Appropriate university and departmental computing resources are available to students taking computer sciences courses.

Accreditation
The Computer Science program is accredited by the Computing Accreditation Commission of ABET, Inc., which is the recognized accreditor of college and university programs in applied science, computing, engineering, and engineering technology. ABET accreditation demonstrates a program’s commitment to providing its students with a quality education. General information about the College of IS&T’s accreditation as well as specific educational objectives for its ABET accredited program in Computer Science can be found here (https://www.unomaha.edu/college-of-information-science-and-technology/academics/abet-accreditation.php).

Repeatable Grades/Courses
A repeated course may count only once for graduation. Exceptions are internships, independent studies, physical education activities courses, and special topic courses.

For students repeating any Computer Science courses (CSCI 1xxx-4xxx):
1. A formal warning shall be conveyed to the student upon receiving a grade below C in CSCI courses for a second time.
2. The student shall not be allowed to enroll in the course after receiving a grade below C for the third time.

Attendance Policy for Computer Science Courses
1. A formal warning shall be conveyed to the student upon the second instance (first instance for summer session) of unexcused absence from a class.
2. The student shall be withdrawn from the class after the third instance (second instance for summer session) of unexcused absence from the class.

Contact
For more information, contact the College of IS&T Academic Advising Office at 402.554.3819.

Website (http://www.unomaha.edu/college-of-information-science-and-technology/academics/computer-science.php)

Degrees Offered
- Computer Science, Bachelor of Science (p. 673)

Minors Offered
- Computer Science Minor (p. 679)

Careers Options:
Computer Science majors have gone on to become the following and more. We will prepare you for jobs that do not even exist yet:
- Software Engineers and Programmers
- Web and Mobile Application Developers
- Enterprise Architect
- Project Managers
- Network and Cloud Architects
- Database Developers
- Game Developers
- User Experience Designers
- Data Scientists
- Artificial Intelligence Engineers

CSCI 1200 COMPUTER SCIENCE PRINCIPLES (3 credits)
This course introduces students to the foundational principles of computer science. It aims to help students learn the essential thought processes used by computer scientists to solve problems, expressing those solutions as computer programs. The exercises and projects make use of mobile devices and other emerging platforms.
Prerequisite(s): High school algebra or equivalent.
Distribution: Natural/Physical Sci General Education lecture

CSCI 1204 COMPUTER SCIENCE PRINCIPLES LABORATORY (1 credit)
This is a laboratory course for students enrolled in CSCI 1200. It consists of programming exercises designed to help students practice computational thinking and apply computational solutions to practical problems. The exercises make use of mobile devices and other emerging platforms.
Prerequisite(s): CSCI 1200, prior or concurrent.
Distribution: Natural/Physical Sci General Education lab course

CSCI 1280 INTRODUCTION TO COMPUTATIONAL SCIENCE (3 credits)
Introduction to Computational Science explores the role of computer science in scientific inquiry. Through the construction and analysis of block-based visual artifacts (e.g., pixel art and geometric patterns), this course aims to help students learn the essential thought processes used by computer scientists to solve problems, expressing those solutions as computer programs. When executed, these computer programs produce visual artifacts that can be displayed and interacted with using a variety of tools/software including LEGO Digital Designer, Minecraft, LDraw, 3D Builder, and Virtual Reality systems such as the HTC Vive.
Prerequisite(s): MATH 1120 or MATH 1130 or MATH 1220 or equivalent with C- or better, or permission of the instructor
Distribution: Natural/Physical Science General Education course and Natural/Physical Sci General Education lecture

CSCI 1620 INTRODUCTION TO COMPUTER SCIENCE II (3 credits)
This course introduces students to advanced programming techniques and algorithm analysis. The topics covered will enable students to develop large scale software with efficient algorithms that are maintainable. This course has a required laboratory component; students must register for the laboratory section attached to their lecture section.
Prerequisite(s): CIST 1400 (with a grade of C or better)

CSCI 2030 MATHEMATICAL FOUNDATIONS OF COMPUTER SCIENCE (3 credits)
This course introduces discrete mathematics concepts that are foundational for the study of computer science such as functions, relations, and sets, basic logic, methods of proof, mathematical induction, computational complexity, recursion, counting, recurrences, and relations.
Prerequisite(s): (CIST 1400 with grade of C or better) AND (MATH 1930 or MATH 1950 with grade of C- or better)

CSCI 2040 INTRODUCTION TO MATHEMATICAL PROOFS (1 credit)
This course will provide an introduction to mathematical proofs and the art of reading, writing, and debugging proof attempts including mathematical notations, proof and counterexample generation methods and strategies. It will develop the rigor and precision needed to establish and refute mathematical conjectures and reason about the correctness of programs.
Prerequisite(s): CSCI 2030 as corequisite.

CSCI 2240 INTRODUCTION TO C PROGRAMMING (3 credits)
Programming in 'C' in a UNIX operating system environment; algorithm and program development and file manipulation using 'C'; UNIX-like utility development.
Prerequisite(s): CSCI 1620 with grade of C or better
CSCI 2410 INTRODUCTION TO DATA ANALYTICS USING PYTHON (3 credits)
This course is an introduction to the basic concepts and principles of data analytics using the Python programming language. The first part of the course covers major Python language topics including procedures and functions, iteration, recursion, arrays and matrices, strings, operational model of procedure and function calls, algorithms, exceptions, object-oriented programming, and file input/output. The coverage of Python language features are aimed mainly at the data analytics studies of this course. The second part of the course emphasizes applying Python and its rich functional libraries and special software packages to data munging, analysis, mining, and visualization, and machine learning techniques including statistical analysis, parameter estimation, regression, classification, predictive modeling construction, etc.
Prerequisite(s): (CSCI 1620 with grade of C or better) AND (CIST 2500 or equivalent statistics course with grade of C- or better). Not open to non-degree graduate students.

CSCI 2510 INTRODUCTION TO GAME PROGRAMMING (3 credits)
The course will cover programming and development techniques used in a game programming environment. The course is designed for students who have an interest in game programming to be eased into the concepts in a familiar environment.
Prerequisite(s): CSCI 2240 with C- or better. Not open to non-degree graduate students.

CSCI 2620 2D GRAPHICS: IMAGE PROCESSING (3 credits)
This class introduces the 2D graphics area of image processing, which takes an image, creates an internal model of the image, modifies it using a computer program, and produces a new image. Specific techniques covered in this course include color spaces, image transformations, edge detection, file formats, object tracking, and background removal.
Prerequisite(s): CSCI 1620 with grade of C or better

CSCI 2830 OBJECT-ORIENTED SOFTWARE ENGINEERING FUNDAMENTALS (3 credits)
This course introduces students to the central principles and practices of object-oriented design and programming. Common strategies and practices for the systematic development of larger object-oriented systems are also covered.
Prerequisite(s): CSCI 1620 (in Python)

CSCI 2840 C++ & OBJECT-ORIENTED PROGRAMMING (3 credits)
C++ and Object Oriented Programming (OOP) is taught in the UNIX environment. Topics include C++ as a ‘Better C,’ OOP with C++, classes and data abstraction, operator overloading, inheritance, virtual functions and polymorphism, C++ stream I/O.
Prerequisite(s): CSCI 2240; High-level programming language like Pascal, Java, or C++; solid understanding of pointers & scope; ability to design & implement solutions to modest problems (with C- or better).

CSCI 2850 PROGRAMMING ON THE INTERNET (3 credits)
This course is intended as a continuation of the exploration of topics covered in CIST 1300. The course will provide students with a broad overview and understanding of the following topics: understanding how a web server works, configuring web servers, using databases for data storage and retrieval, understanding model-view-controller design, and using JavaScript for client-side programming.
Prerequisite(s): (CIST 1300 with grade of C- or better) AND (CIST 1400 with grade of C or better)

CSCI 2960 SHORT TOPICS FOR PROGRAMMERS (1 credit)
This course provides a hands-on introduction to contemporary programming languages and tools for software development not covered in other courses. Each offering focuses on one such technology. The course emphasizes informal and practical learning, and points students to relevant coursework for more systematic coverage of underlying principles.
Prerequisite(s): CSCI 1620 or instructor permission

CSCI 2980 TOPICS IN COMPUTER SCIENCE (3 credits)
A variable topic course in computer science at the sophomore level. Topics not covered in the computer science degree program, but suitable for sophomore-level students.
Prerequisite(s): CSCI 1620. Permission of instructor. Additional prerequisites may be required for particular topic offerings with C- or better.

CSCI 3100 APPLIED COMBINATORICS (3 credits)
Basic counting methods, generating functions, recurrence relations, principle of inclusion-exclusion. Polya’s formula. Elements of graph theory, trees and searching network algorithms. (Cross-listed with CSCI 8105, MATH 3100, MATH 8105).
Prerequisite(s): MATH 2030, MATH 2040, MATH 2230, or CSCI 2030 all with a C- or better. Mathematical logic; Set theory; Relations; Functions; Congruences; Inductive and recursive definitions; Discrete probability; sets, graphs, trees, & matrices

CSCI 3320 DATA STRUCTURES (3 credits)
This is a core that will cover a number of data structures such as tree, hashing, priority queues and graphs as well as different algorithm design methods by examining common problem-solving techniques. (Cross-listed with CSCI 8325)
Prerequisite(s): CSCI 1620 and CSCI 2030 or MATH 2030. Programming Languages: Java or C++ Topics: Arrays, Pointers, Introductory Lists, Storage Allocation (with C- or better).

CSCI 3450 NATURAL LANGUAGE PROCESSING (3 credits)
The course will provide overview of the topics in natural language processing such as word and sentence tokenization, syntactic parsing, semantic role labeling, text classification. We will discuss fundamental algorithms and mathematical models for processing natural language, and how these can be used to solve practical problems. We will touch on such applications of natural language processing technology as information extraction and sentiment analysis. (Cross-listed with CYBR 3450).
Prerequisite(s): Prereq: CSCI 2030 with C- or better; Co-req: CSCI 3320 with C- or better; Students should be comfortable w/ scripting (Python is the language extensively used in natural language processing tools including NLTK). Not open to non-degree graduate students.

CSCI 3470 FUNDAMENTALS AND ALGORITHMS OF MACHINE LEARNING (3 credits)
This course discusses the fundamentals and algorithms of machine learning and contains both theory and application. Machine learning, as a subset of artificial intelligence, is the scientific study of models that computer systems use to perform a specific task without explicit instructions. Topics in this course will include supervised learning such as Decision Tree, Perceptron, Support Vector Machine, Naive Bayes, and Regression, unsupervised learning such as clustering, dimensionality reduction, kernel methods, learning theory such as bias/variance trade-offs, Generalization and Overfitting and large margins. Other crucial topics will include discussions such as Stacking, Semi-Supervised Learning and Interactive Learning. This course will also discuss a few applications in problem domains such as in computer vision.
Prerequisite(s): CSCI 2410 or instructor permission. Not open to non-degree graduate students.

CSCI 3510 ADVANCED GAME PROGRAMMING (3 credits)
This course is intended for those with an interest in video game programming. This course introduces the advanced concepts of game programming including 3D programming, game networking, and development of a multiplayer, networked game by learning and using the XNA environment.
Prerequisite(s): CSCI 2510 and CSCI 3320 with C- or better, or Instructor permission. Not open to non-degree graduate students.
CSCI 3550 COMMUNICATION NETWORKS (3 credits)
This course is designed to bring students up to the state of the art in networking technologies with a focus on Internet. It will cover the principles of networking with an emphasis on protocols, implementations and design issues. (Cross-listed with CSCI 8555).

Prerequisite(s): (CSCI 3320 or CSCI 8325 with grade of C- or better) AND (CSCI 2240 or CYBE 2250 with grade of C- or better)

CSCI 3660 THEORY OF COMPUTATION (3 credits)
The course is intended to introduce the students to the theory of computation in a fashion that emphasizes breadth and away from detailed analysis found in a normal undergraduate automata course. The topics covered in the course include methods of proofs, finite automata, non-determinism, regular expressions, context-free grammars, pushdown automata, no-context free languages, Church-Turing Thesis, decidability, reducibility, and space and time complexity.

Prerequisite(s): CSCI 3320

CSCI 3710 INTRODUCTION TO DIGITAL DESIGN AND COMPUTER ORGANIZATION (3 credits)
The course is intended to introduce the students to the topics found in introductory digital design and computer organization classes.

Prerequisite(s): CSCI 3320 (could be taken concurrently)

CSCI 3830 ADVANCED JAVA PROGRAMMING (3 credits)
This course teaches students web application development using advanced concepts in the Java programming language. It introduces students to distributed computing models such as the client-server model and how it is implemented in web applications using modern Java technology stacks.

Prerequisite(s): (CSCI 2830 with C- or better) OR Java programming proficiency) AND (CSCI 3320 with C- or better (can be taken as a co-requisite)) AND (basic knowledge of HTML and SQL)

CSCI 3850 FOUNDATIONS OF WEB SEARCH TECHNOLOGIES (3 credits)
This course provides students a basic understanding of how search and information flow works on the web. Main topics include: document representation, inverted indexing, ranking of web search results, vector-space model, web graph, PageRank, search-based advertising, information cascades, and web crawling.

Prerequisite(s): CSCI 2030 and CSCI 2850 with C- or better, or instructor Approval. Not open to non-degree graduate students.

CSCI 4000 ASSESSMENT (0 credits)
This course provides various resources to students about to graduate, and provides a mechanism that guarantees these students complete the final assessments required to maintain the currency and quality of the program. It is intended for undergraduate computer science majors in their last semester prior to graduation. It is required for all students entering after the spring 2004 semester. All degree requirements should be completed by the end of the semester during which this course is taken. Students taking this course will be expected to file an application for graduation during the semester.

Prerequisite(s): All degree requirements should be completed by the end of the semester during which this course is taken. Students taking this course will be expected to file an application for graduation during the semester. Not open to non-degree graduate students.

CSCI 4010 INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS (3 credits)
This is a proof-oriented course presenting the foundations of Recursion Theory. We present the definition and properties of the class of primitive recursive functions, study the formal models of computation, and investigate partially computable functions, universal programs. We prove Rice's Theorem, the Recursion Theorem, develop the arithmetic hierarchy, demonstrate Post's theorem. Introduction to the formal theories of computability and complexity is also given. (Cross-listed with MATH 4010, MATH 8016, CSCI 8016).

Prerequisite(s): MATH 2230 or MATH 2030 with a C- or better or CSCI 3660 with a C- or better or instructor's permission.

CSCI 4100 INTRODUCTION TO ALGORITHMS (3 credits)
The course provides students a basic understanding of algorithm analyses. Main topics include: growth of functions, asymptotic notation, recurrences, divide and conquer, sorting and its lower bounds, dynamic programming, greedy algorithms, and graph traversal.

Prerequisite(s): CSCI 3320 with C- or better.

CSCI 4150 GRAPH THEORY & APPLICATIONS (3 credits)
Introduction to graph theory. Representations of graphs and graph isomorphism. Trees as a special case of graphs. Connectivity, covering, matching and coloring in graphs. Directed graphs and planar graphs. Applications of graph theory in several fields such as networks, social sciences, VLSI, chemistry and parallel processing. (Cross-listed with CSCI 8156, MATH 4150, MATH 8156).

Prerequisite(s): CSCI 2030 with a C- or better, or MATH 2030 with a C- or better, or MATH 2230 with a C- or better, or permission of instructor.

CSCI 4200 NUMERICAL METHODS (3 credits)
This course involves solving nonlinear algebraic equations and systems of equations, interpolation and polynomial approximation, numerical differentiation and integration, numerical solutions to ordinary differential equations, analysis of algorithms and errors, and computational efficiency.

Prerequisite(s): CSCI 2030 with a C- or better, or MATH 2050 and MATH 2350 with a C- or better or permission of instructor.

CSCI 4220 PRINCIPLES OF PROGRAMMING LANGUAGES (3 credits)
This course covers the foundational concepts and principles underlying the design and implementation of programming languages. Language constructs including assignment, equality, references, aggregations, scope, encapsulation, and parameter passing are discussed. A central theme is how a particular language construct relates to the concept of equational reasoning (referential transparency). Formal notations for describing syntax and semantics are presented.

Prerequisite(s): CSCI 3320 and CSCI 3660 with C- or better.

CSCI 4250 HUMAN COMPUTER INTERACTION (3 credits)
Human computer interaction is concerned with the joint performance of tasks by humans and machines; human capabilities to use machines (including learnability of interfaces); algorithms and programming of the interface; engineering concerns that arise in designing and building interfaces; the process of specification, design, and implementation of interfaces; and design trade-offs. (Cross-listed with CSCI 8256).

Prerequisite(s): Either CSCI 3320 or ITIN 3330 with a grade of C- or better.

CSCI 4260 USER EXPERIENCE DESIGN (3 credits)
User experience (UX) design is concerned with the application of user-centered design principles to the creation of computer interfaces ranging from traditional desktop and web-based applications, mobile and embedded interfaces, and ubiquitous computing. This course provides in-depth, hands-on experience with real world application of the iterative user-centered process including contextual inquiry, task analysis, design ideation, rapid prototyping, interface evaluation, and reporting usability findings. (Cross-listed with CSCI 8266, ITIN 4260, ITIN 8266).

Prerequisite(s): Required: C- or better in CIST 2500 and junior standing, or by permission of instructor. Recommended: C- or better in CSCI 4250 or ITIN 3330.

CSCI 4300 DETERMINISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of deterministic operations research models and algorithms. Topics include linear programming, network programming, and integer programming. (Cross-listed with CSCI 8306, MATH 4300, MATH 8306).

Prerequisite(s): MATH 2050 with a C- or better or permission of instructor.
CSCI 4310 PROBABILISTIC OPERATIONS RESEARCH MODELS (3 credits)
This is a survey course of probabilistic operations, research models and algorithms. Topics include Markov chains, queuing theory, inventory models, forecasting, and simulation. (Cross-listed with CSCI 8316, MATH 4310, MATH 8316).
Prerequisite(s): MATH 2050 and either MATH 4740 or MATH 8746 or STAT 3800 or STAT 8805 all with a C- or better or permission of instructor.

CSCI 4320 COMPUTATIONAL OPERATIONS RESEARCH (3 credits)
Survey of computational methods used in the solution of operations research problems. Some topics may include scripting to guide optimization software, constraint programming, heuristics and metaheuristics for optimization, basic machine learning algorithms, and simulation. (Cross-listed with MATH 4320, MATH 8326, CSCI 8326).
Prerequisite(s): MATH 3200 or CSCI 1620, and MATH 4300 each with a grade of C- or better or permission of instructor.

CSCI 4350 COMPUTER ARCHITECTURE (3 credits)
The course deals with: Computer evolution, top view of processor design, cache memory and organization, hierarchical memory design and management, performance metrics, RISC versus CISC architecture, and pipeline computer design and architecture. The course also covers analytic design alternatives as needed.
Prerequisite(s): CSCI 3710, CSCI 3320 or CSCI 8325 with C- or better.

CSCI 4380 DIGITAL FORENSICS (3 credits)
Digital forensics involves the preservation, identification, extraction, analysis and documentation of digital evidence stored on a variety of electronic devices. The aim of this course is to introduce students to acceptable approaches for collecting, analyzing and reporting data from a forensics investigation. Topics include: an introduction to digital forensics, data acquisition, first response, memory forensics, operating system forensics, and network forensics. Students will be required to perform several forensics analyses in a controlled lab environment, including acquiring forensically sound hard drive images, memory images and analyzing these using industry standard tools, such as Forensic Toolkit (FTK). The Digital Forensics class is designed for Cybersecurity, Computer Science and other qualified students to learn what actions are both appropriate and required for preserving, collecting and analyzing digital evidence in cases of intrusion, data theft or other cybercrimes. (Cross-listed with CYSR 4380).
Prerequisite(s): CYBS 3600 or CIST 3600; CSCI 3550 or ISQA 3400; CYBS 2600 or CYBS 3350 or CYBS 3370.

CSCI 4430 QUANTUM COMPUTING AND CRYPTOGRAPHY (3 credits)
The course builds an understanding of exciting concepts behind quantum computing and quantum cryptography. In doing so it will introduce the principles of qubits, superposition, entanglement, teleportation, measurement, quantum error correction, quantum algorithms such as quantum Fourier transformation, Shor’s algorithm and Grover’s algorithm, quantum key exchange, quantum encryption, and secure quantum channels that are built using these principles. It will also discuss advantages of quantum computing and cryptography over classical computing and cryptography and limitations thereof. The students will come out with a working understanding of the field of quantum computing and quantum cryptography. During the course, students will also implement several of the quantum algorithms. (Cross-listed with CYBS 4430, CYBS 4440).
Prerequisite(s): Co-requisites: CYBS 3350 or CSCI 4650; or Instructor permission.

CSCI 4440 INTRODUCTION TO PARALLEL COMPUTING (3 credits)
This course is an introduction to parallel computing, that is using multiple processors to execute algorithms. Topics discussed include: classification of parallel computers; shared-memory versus message passing; forms of parallelism; measures of performance; designing parallel algorithms; parallel programming and parallel languages; synchronization constructs; and operating systems for parallel computers. (Cross-listed with CSCI 8446)
Prerequisite(s): CSCI 4500, which may be taken concurrently, with C- or better.

CSCI 4450 INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3 credits)
An introduction to artificial intelligence. The course will cover topics such as machine problem solving, uninform and informed searching, propositional logic, first order logic, approximate reasoning using Bayesian networks, temporal reasoning, planning under uncertainty and machine learning. (Cross-listed with CSCI 8456).
Prerequisite(s): CSCI 3320 with C- or better.

CSCI 4470 PATTERN RECOGNITION (3 credits)
Prerequisite(s): CSCI 1620 with C- or better, and MATH 2050. Recommended: MATH 4740/8746 or STAT 3800/8805.

CSCI 4480 ALGORITHMS FOR ROBOTICS (3 credits)
This course provides an introduction to software techniques and algorithms for autonomously controlling robots using software programs called controllers. Students will be taught how to program and use software controllers on simulated as well as physical robots. (Cross-listed with CSCI 8486).
Prerequisite(s): CSCI 3320 with C- or better. CSCI 4450/8456 is a recommended but not essential pre-requisite.

CSCI 4500 OPERATING SYSTEMS (3 credits)
Operating system principles. The operating system as a resource manager; I/O programming, interrupt programming and machine architecture as it relates to resource management; memory management techniques for uni-multiprogrammed systems; process description and implementation; processor management (scheduling); I/O device, controller, and channel management; file systems. Operating system implementation for large and small machines. (Cross-listed with CSCI 8506).
Prerequisite(s): CSCI 3320 with C- or better. CSCI 4500/8456 is a recommended but not essential pre-requisite.

CSCI 4560 NUMBER THEORY & CRYPTOGRAPHY (3 credits)
An overview of one of the many beautiful areas of mathematics and its modern application to secure communication. The course is ideal for any student who wants a taste of mathematics outside of, or in addition to, the calculus sequence. Topics to be covered include: prime numbers, congruences, perfect numbers, primitive roots, quadratic reciprocity, sums of squares, and Diophantine equations. Applications include error-correcting codes, symmetric and public key cryptography, secret sharing, and zero knowledge proofs. (Cross-listed with CSCI 8560, MATH 4560, MATH 5560).
Prerequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better or CSCI 2030 with a C- or better permission of instructor.

CSCI 4620 COMPUTER GRAPHICS (3 credits)
An introduction to computer science techniques and algorithms to the acquisition, manipulation and display of graphical information using digital techniques. Topics include discussion of the various hardware devices used for input and output, the classical algorithms and data structures used in manipulation of graphical objects, the user interface to the graphics system, and applicable standards. (Cross-listed with CSCI 8626).
Prerequisite(s): ISQA 3300 or CSCI 3320
CSCI 4650 INTRODUCTION TO CLOUD COMPUTING (3 credits)
This course is an introduction to cloud computing. The students will learn about core concepts of cloud computing such as cloud models (IaaS, PaaS, SaaS, etc.), deployment models (public, private, hybrid), cloud infrastructures (compute, networking, storage), cloud services (VMs, serverless, object storage, cache, CDN, etc.), and big-data driven systems. This course will revisit essential topics in CS-related courses such as data structure, operating systems, and distributed systems and show how they are utilized and applied in diverse cloud computing technologies and systems including Hadoop, Spark, and distributed databases. After taking this course, students will have basic knowledge of cloud computing and hands-on experiences with diverse projects (including cloud system demos) that utilize diverse and heterogeneous cloud resources. (Cross-listed with CSCI 8656).
Prerequisite(s): CSCI 3550 and CSCI 4500

CSCI 4660 AUTOMATA, COMPUTABILITY, AND FORMAL LANGUAGES (3 credits)
This course presents a sampling of several important areas of theoretical computer science. Definition of formal models of computation, and important properties of such models, including finite automata and Turing machines. Definition and important properties of formal grammars and their languages. Introduction to the formal theories of computability and complexity. (Cross-listed with CSCI 8666, MATH 4660, MATH 8666).
Prerequisite(s): MATH 2030. Recommended: CSCI 3320/CSCI 8325.

CSCI 4700 COMPILER CONSTRUCTION (3 credits)
Assemblers, interpreters and compilers. Compilation of simple expressions and statements. Analysis of regular expressions. Organization of a compiler, including compile-time and run-time symbol tables, lexical scan, syntax scan, object code generation and error diagnostics. (Cross-listed with CSCI 8706).
Prerequisite(s): CSCI 3320 and CSCI 4220 with C- or better. Recommended: CSCI 4500.

CSCI 4760 TOPICS IN MODELING (3 credits)
Selection of such topics as formulation and analysis of various models involving Markov chains, Markov processes (including birth and death processes), queues, cellular automata, difference and differential equations, chaotic systems and fractal geometries. (Cross-listed with CSCI 8766).
Prerequisite(s): MATH 2350 and MATH 4740 or MATH 8746.

CSCI 4830 INTRODUCTION SOFTWARE ENGINEERING (3 credits)
Basic concepts and major issues of software engineering, current tools and techniques providing a basis for analyzing, designing, developing, maintaining and evaluating the system. Technical, administrative and operating issues. Privacy, security and legal issues. (Cross-listed with CSCI 8836).
Prerequisite(s): CSCI 3320 with C- or better.

CSCI 4850 DATABASE MANAGEMENT SYSTEMS (3 credits)
Basic concepts of data base management systems (DBMSs). The relational, hierarchical and network models and DBMSs which use them. Introduction to data base design. (Cross-listed with CSCI 8856).
Prerequisite(s): CSCI 3320 or equivalent with C- or better.

CSCI 4890 DATA WAREHOUSING AND DATA MINING (3 credits)
This course provides students with a theoretical foundation and practical methods for designing and constructing data warehouse and implementing data mining. After covering the essential concepts, issues, techniques to build an effective data warehouse, this course emphasizes the various techniques of data mining, such as association, classification, clustering and prediction for on-line analyses within the framework of data warehouse architectures. This course gives students an opportunity to undertake a real-life data analysis project. (Cross-listed with ISQA 4890).
Prerequisite(s): ISQA 3310 or CSCI 4850

CSCI 4900 INTERNET SYSTEMS DEVELOPMENT (3 credits)
This course focuses on contemporary techniques and technologies in the design, development, and integration of web-enabled information systems. This is a rapidly moving, hands-on course that mirrors real-world development of internet-based applications.
Prerequisite(s): CSCI 1620, CSCI 2850, (recommended) CSCI 3830, CSCI 4830 with C- or better.

CSCI 4950 INTERNSHIP IN COMPUTER SCIENCE (1-3 credits)
The purpose of this course is to provide students with opportunities to apply their academic studies in non-academic environments such as those found in business, industry and other non-academic organizations. The student interns will sharpen their academic focus and develop better understanding of non-academic application areas. The course is intended primarily for juniors and seniors in computer science.
Prerequisite(s): Permission of the computer science program chair.

CSCI 4970 CAPSTONE PROJECT (3 credits)
The Capstone Project completes a Computer Science student’s undergraduate experience. Students will work on a team-based real-world project, practicing software engineering skills and applying fundamental computer science principles acquired throughout their undergraduate study.
Prerequisite(s): CSCI 4830 with C- or better; Senior standing in Computer Science. Not open to non-degree graduate students.

CSCI 4980 TOPICS IN COMPUTER SCIENCE (3 credits)
This is a variable topic course in computer science at the senior/graduate level. Topics not normally covered in the computer science degree program, but suitable for senior/graduate-level students can be offered. (Cross-listed with CSCI 8986).
Prerequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

CSCI 4990 INDEPENDENT STUDIES (1-3 credits)
A variable credit course for the junior or senior who will benefit from independent reading assignments and research type problems. Independent study makes available courses of study not available in scheduled course offerings. The student wishing to take an independent study course should find a faculty member willing to supervise the course and then submit, for approval, a written proposal (including amount of credit) to the Computer Science Undergraduate Program Committee at least three weeks prior to registration.
Prerequisite(s): Written permission required. Independent study proposals must be approved by the Undergraduate Program Committee.

Computer Science, Bachelor of Science

The Bachelor of Science in Computer Science provides students with a solid background in the fundamentals of computing and prepares them for employment in a wide variety of positions and for graduate study in computer science. The content of the department’s courses is continually monitored to ensure they are consistent with fast-changing developments in the discipline. Courses are offered in the day, evening, and some online sections for the convenience of our students. Appropriate university and departmental computing resources are available to students taking computer science courses.

Student Group
The Association of Computer Machinery (ACM) (https://www.acm.org/) is a major force in advancing the skills of information technology professionals and students worldwide, providing the industry’s leading portal to computing literature and more. The College of Information Science & Technology has two student chapters: UNO ACM and UNO ACM-W.

Fast Track
The department of Computer Science has developed a Fast Track program for highly qualified and motivated students providing the opportunity to
complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate credit hours towards the completion of their undergraduate program as well as the graduate degree program. Students will work with both undergraduate and graduate advisors to ensure graduate classes selected will count toward both programs, should a student wish to earn a graduate degree in a separate College of Information Science & Technology (CIST) area than their undergraduate degree.

Program Specifics:

• This program is available for undergraduate students pursuing any CIST undergraduate degree desiring to pursue an MS in either the same or a related CIST field.
• Students must have completed no less than 60 undergraduate hours.
• Students must have a minimum undergraduate GPA of 3.0.
• Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
• Students will work with their undergraduate advisor to register for the graduate courses.
• A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
• Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
• Near the end of the undergraduate program, formal application to the graduate program is required. All applicants will need to meet any other admission requirements established for the MS in selected CIST program. The application fee will be waived if the applicant contacts the Office of Graduate Studies for a fee waiver code prior to submitting the MS application.
• Admission to Fast Track does NOT guarantee admission to the graduate program.
• The admit term must be after the completion term of the undergraduate degree.

Requirements

A minimum of 120 credit hours is required for a Bachelor of Science degree in Computer Science. Thirty of the last 36 hours must be University of Nebraska at Omaha courses. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal. Students must have a C or better grade in CIST 1400 and CSCI 1620 to serve as the prerequisite for all subsequent Computer Science (CSCI) courses. For all other courses applied towards the major, a grade of C- or better will meet the prerequisite and degree requirements.

To obtain a computer science degree, a student must fulfill the University General Education, College, and Departmental requirements. Some courses may satisfy requirements in more than one area, but credit is awarded only once, thereby reducing the total number of credit hours for the degree to 120. (This total does not include prerequisites.)

</tbody>
</table>
Computer Science Core Extension Courses (21 hours)
A core extension of at least 21 semester hours must be completed to obtain a Bachelor of Science degree in Computer Science. At least 12 of the 21 hours selected must be approved upper-division computer science courses (courses with numbers of 3000 or higher). The remaining hours must be in an area of emphasis consistent with the computer science degree. They may include additional upper division computer science courses or courses selected from a different academic area. The computer science core extension area may be used to complete an approved concentration.

- 12 credit hours must be upper-division (3000+) Computer Science courses
- 9 credit hours must be related courses and can be selected from 2000 to 4000 level courses in CSCI, BIOI, CYBR, ISQA, ITIN, ECEN, or MATH (including MATH 1970).

Writing in the Discipline
All UNO students are required to take a writing-in-the-discipline course within their major. Computer Science degree students must take CIST 3000.

Second Bachelor's Degree
General Requirements
Students who have satisfied the requirements for a first bachelor's degree other than computer science at the University of Nebraska at Omaha must complete a minimum of 30 additional semester hours at the University for a second bachelor's degree.

Computer Science Requirements (88 hours)
To obtain computer science as a second bachelor's degree, students must complete academic requirements for the degree which include 15 credit hours of IS&T core courses, 30 credit hours of computer science core courses, 21 credit hours of a computer science core extension, 15 credit hours of Mathematics courses, and 7 credit hours of Natural and Physical Science, provided that the first bachelor's degree is not in computer science. Students who are admitted to a second-degree program in Computer Science must meet with an academic advisor in the College of IS&T before beginning the degree to make a plan of study. Some transfer coursework may apply; however, 30 of the last 36 hours must be University of Nebraska at Omaha courses.

Computer Science Elective Concentrations
- Artificial Intelligence Concentration (p. 677)
- Game Programming Concentration (p. 678)
- Internet Technologies (IT) Concentration for Computer Science Majors (p. 678)
• Information Assurance Concentration (p. 678)
• Software Engineering Concentration (p. 678)

**Total Credits**: 120

1. MATH 1950 - Satisfies General Education Quantitative Literacy requirement

---

**Placement Exams**: For Math, English, and Foreign Languages, a placement exam may be required. More information on these exams can be found at [https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php](https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php)

Please note that transfer credit or placement exam scores may change a suggested plan of study.

### Artificial Intelligence Concentration

The Artificial Intelligence concentration is intended to enable students to learn about the principal technologies and methods for programming autonomous behavior on software agents and robots as well as learn about the computational approaches towards solving problems that deemed to require human intelligence. Students will gain knowledge about the reasoning, planning and learning techniques and algorithms used by software agents for natural language understanding, and by robots and game-avatars for problem solving, mobility, and strategic decision making.

Taking courses in this track will provide students the essential skills for writing programs for real-world problems that require software programs and robots to mimic human behavior and assist humans in performing complex, risky and tedious tasks. Students will also have an opportunity to participate in national and international AI and game programming competitions and do capstone course projects to explore selective topics in more in-depth manner.

---

**Additional Information About this Plan**:  
**University Degree Requirements**: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific degree program to determine all requirements for the program. In order to graduate on time (four years for an undergraduate degree), you need to take 30 credit hours each year.

---

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.
Game Programming Concentration

The game programming concentration provides students with the basic concepts involved in the video game development process. The required courses give the student an introductory knowledge of both 2D and 3D game programming, as well as resource management, concepts of designing games, and general graphics theory. The elective courses allow the student to focus on a particular aspect of game development: game design, game/player interaction, game programming, or graphics. This concentration is only open to undergraduate Computer Science majors in the College of IS&T.

- CSCI 4850  DATABASE MANAGEMENT SYSTEMS  3
- ART 3140  COMPUTER GENERATED IMAGERY  3
- ART 3160  GAME DESIGN AS ART  3

**Total Credits**

18

1 NOTE: This list of electives is not exhaustive. Students can take other courses as electives under approval of the UPC.

Internet Technologies (iT) Concentration for Computer Science Majors

The internet technologies (iT) concentration supplements the Computer Science (CS) curriculum by focusing on the concepts and technologies needed to implement modern web applications. The concentration is designed to supplement the CS core curriculum by introducing the programming aspects as well as the theoretical concepts needed to build the infrastructure for web systems such as search engines, social networking sites, etc. The iT concentration provides extensive hands-on, project-based experience for students.

### Requirements

Select 9 hours from the following:

- CSCI/CYBR 3450  NATURAL LANGUAGE PROCESSING  9
- CSCI/MATH 4150  GRAPH THEORY & APPLICATIONS  9
- CSCI 4250  HUMAN COMPUTER INTERACTION  3
- CYBR 4460  NETWORK-BASED VULNERABILITY DISCOVERY  3
- CSCI 4900  INTERNET SYSTEMS DEVELOPMENT  3
- CSCI 4470  PATTERN RECOGNITION  3
- CSCI 4850  DATABASE MANAGEMENT SYSTEMS  3
- CSCI 4890  DATA WAREHOUSING AND DATA MINING  3

**Total Credits**

18

1 The list of electives is not exhaustive. Students can take other relevant courses as electives under the approval of the computer science undergraduate program committee.

Software Engineering Concentration

The software engineering concentration is intended for students who wish to specialize in the software engineering aspects of the computer science field. The concentration focuses on software engineering principles, skills, and techniques in software development, including design, implementation, testing, and maintenance of software systems. The courses in this concentration provide hands-on experience and project management skills.

- CSCI 4260  USER EXPERIENCE DESIGN  3
- CSCI 4850  DATABASE MANAGEMENT SYSTEMS  3
- CSCI 4900  INTERNET SYSTEMS DEVELOPMENT  3
- CJS/ST 4910  SYSTEMS DEVELOPMENT IN OPEN SOURCE COMMUNITIES  3

Students can take other courses as electives under approval of the CS Undergraduate Program Committee

**Total Credits**

18

Information Assurance Concentration

The information assurance concentration is intended for students who wish to specialize in the security aspects of the computer science field. The concentration focuses on fundamental principles, worked examples, theory, and skills necessary to analyze, design, and construct secure information systems. The courses in this concentration address fundamental technologies, security policy, assurance, and ethics involved in the protection of the information systems. Hands-on experience is gained through numerous programming exercises associated with each course.

In all cases, students are responsible for completing any courses identified as prerequisites or co-requisite for the courses in the minor.

In addition, students must have a grade of C- or better in any prerequisite for a CSCI course.

Information Systems and Quantitative Analysis

The study of Information Systems and Quantitative Analysis involves application of computers, mathematics, statistics, and other quantitative techniques in the solutions of a wide variety of business problems. While computer science often concentrates on building the computer tools which make computers useful, it is information systems and quantitative analysis that specifically focus on effectively applying these tools in the solutions of everyday business problems.

Bachelor of Science in Management Information Systems

The Bachelor of Science in Management Information Systems degree will provide students with the educational background for pursuing an exciting career in applying information technology in business and government to process data and solve a wide variety of business problems.
Accreditation Information
The Bachelor of Science in Management Information Systems has been accredited by the Computing Accreditation Commission of ABET, Inc., the recognized accreditor of college and university programs in applied science, computing, engineering, and technology. ABET accreditation demonstrates a program’s commitment to providing its students with a quality education.

General information about the College of IS&T’s accreditation as well as specific educational objectives for its ABET accredited program in Management Information Systems can be found at https://www.unomaha.edu/college-of-information-science-and-technology/academics/abet-accreditation.php.

Contact
For more information about the MIS undergraduate program, contact the academic advising office at 402.554.3819.

Degrees Offered: Bachelor of Science in Management Information Systems
- Management Information Systems, Bachelor of Science (p. 683)

Minor Offered
- Minor in Management Information Systems (p. 687)

Certificates Offered
- Data Management Certificate (p. 687)
- Systems Development Certificate (p. 688)
- Information Technology Administration Certificate (p. 688)

Undergraduate certificates allow the College of IS&T to offer a path for individuals who do not hold a bachelor’s degree to advance their education along a focused, profession-oriented course of study and to have those studies acknowledged, documented, and later, should the student so desire, applied to a related bachelor’s degree program.

The goal of the certificate is to provide non-traditional and traditional students an opportunity to take a focused set of undergraduate courses and earn a certificate of completion. For prospective certificate students already in the workforce who have earned an associate’s degree, such certifications may fit with organizational professional development requirements and could be used, at the discretion of the organization, as professional development units (PDUs).

The Bachelor of Science in Management Information Systems degree will provide students with the educational background to solve problems using technology for businesses, government, and nonprofit organizations.

Career Options:
- Business Process Analyst
- Chief Information Officer
- Data Scientist
- Database Administrator
- Information Systems Manager
- IT Consultant
- IT Security Manager
- IT Technical Support Officer
- Network Architect
- Quality Assurance Specialist

- Software Engineer
- Systems Analyst

ISQA 2010 SPECIAL TOPICS IN INFORMATION SYSTEMS AND QUANTITATIVE ANALYSIS (1 credit)
This course is designed to acquaint students with issues which are current to the field or harbingers or emerging trends in the information systems area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once.
Prerequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ISQA 2020 SPECIAL TOPICS IN INFORMATION SYSTEMS AND QUANTITATIVE ANALYSIS (2 credits)
This course is designed to acquaint students with issues which are current to the field or harbingers or emerging trends in the information systems area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once.
Prerequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ISQA 2030 SPECIAL TOPICS IN INFORMATION SYSTEMS AND QUANTITATIVE ANALYSIS (3 credits)
This course is designed to acquaint students with issues which are current to the field or harbingers or emerging trends in the information systems area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once.
Prerequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ISQA 2610 R FOR DATA ANALYTICS (1 credit)
R is a core language and toolkit in data science due to its vast capabilities to facilitate various stages of data analytics activities, from loading and transforming data to building and evaluating different analytics models. The course will enable students to use R to work with and manipulate data, build and evaluate data analytics models, and create visualizations.

ISQA 2620 EVALUATING AND CLEANING DATA (1 credit)
Evaluating and cleaning data sets for analysis is a core skill for professionals in data analytics and other technical fields. The course will enable students to assess the state of existing data sets, identify appropriate remediation strategies to prepare data for analysis, and perform common data cleaning procedures.
Prerequisite(s): ISQA 2610

ISQA 3150 PRINCIPLES OF QUANTITATIVE ANALYSIS (3 credits)
An introduction to structuring real-life situations into mathematical models. The class covers four groups of decision making models: decision trees, inventory, linear programming, network planning, and winning strategy. A number of the existing commercial computer software packages will be used in the course.
Prerequisite(s): ISQA 2100

ISQA 3310 MANAGING THE DATABASE ENVIRONMENT (3 credits)
Introduction to business database design and management functions. The focus is on the use of current database management systems (DBMS) to support the data management function of an organization. Topics include data modeling, database design, SQL, data management and database administration. Hands-on experience in database design, creation, and use is provided.
Prerequisite(s): CIST 2100.

ISQA 3330 FUNDAMENTALS OF DATABASE MANAGEMENT (1 credit)
Databases are at the core of modern application development. Their use extends to many other environments including scholarly, scientific information systems. The overall goal of this course is to provide an introduction to the use of database management systems for efficient storing, updating, retrieval and analysis of data.
ISQA 3340 SQL FOR DATA ANALYTICS (1 credit)
Using the Structured Query Language (SQL) to access and manipulate data is a core competency in data management, data analytics, data science, and other data-intensive fields. Starting with an overview of the relational model of database systems, the course will enable students to use SQL to create database tables, and store, retrieve, and manipulate data at both basic and advanced levels.

ISQA 3400 INFORMATION TECHNOLOGY INFRASTRUCTURE (3 credits)
This course provides an introduction to IT infrastructure issues. It covers topics related to both computer and systems architecture and communication networks, with an overall focus on the services and capabilities that IT infrastructure solutions enable in an organizational context.
Prerequisite(s): CIST 2100

ISQA 3420 MANAGING IN A DIGITAL WORLD (3 credits)
This course introduces the fundamentals of information systems/technology (IS/T) management. Students are introduced to the various roles, responsibilities, skills, and concepts essential to successful management of IS/T in the context of a dynamic environment of technology workforce diversity, a global economy, and concern for ethics and social responsibility in the development of systems.
Prerequisite(s): CIST 2100
Distribution: Global Diversity General Education course

ISQA 3520 GRAPHICAL USER INTERFACE DESIGN (3 credits)
This course is an introduction to interaction design with a primary emphasis on designing usable and useful computer interfaces. Students will learn the principles of interface design grounded in a fundamental understanding of human cognitive processes. They will learn how end-users develop and use mental models of interaction and will apply this knowledge to the design of interfaces for real-world applications. A design project will challenge students to plan their own designs, to develop interfaces and to integrate them into a working application prototype, to test their application with real users, and to effectively communicate the overall results. (Cross-listed with ISQA 8525)
Prerequisite(s): CIST 1300

ISQA 3900 WEB APPLICATION DEVELOPMENT (3 credits)
This course focuses on contemporary techniques and technologies in the design, development, and integration of web-enabled information systems. Topics include: Multi-tiered systems architecture; agile application development; object-oriented analysis and design; prototyping; testing; verification, and validation; lifecycle models; and component-based development. This is a rapidly moving, hands-on course that mirrors real-world development.
Prerequisite(s): CIST 1300 or CSCI 2850, CIST 1400, ISQA 3310 or CSCI 4850 (or concurrent enrollment)

ISQA 3910 INTRODUCTION TO PROJECT MANAGEMENT (3 credits)
This course will cover the basics of project planning, scheduling and control. Earned value management techniques and project quality will be covered. Risk management will also be covered. The student will be introduced to the IEEE Standards for Project Management. The purpose of the course is to provide students with an introduction to the tools and techniques used to manage projects to achieve successful completion. The project management methods taught are suitable for a wide variety of project types such as software development or engineering projects (e.g. construction).
Prerequisite(s): CIST 2100; or equivalent.

ISQA 4000 SPECIAL TOPICS: INFORMATION SYSTEMS & QUANTITATIVE ANALYSIS (1-5 credits)
This course is designed to acquaint students with issues which are current to the field or harbingers or emerging trends in the information systems area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once. (Cross-listed with ISQA 8086)
Prerequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ISQA 4010 BUSINESS INTELLIGENCE (3 credits)
The course focuses on the various topics on knowledge management by utilizing both behavioral approaches and information technology tools. It includes data collection and analysis, intelligent agents, business concerns on data warehousing and data mining, customer relationship management. The course will also cover information overload, human expert systems vs. artificial intelligent systems and intelligent decision making.
Prerequisite(s): CIST 1400; CIST 2500

ISQA 4100 INFORMATION SYSTEMS ARCHITECTURE AND ORGANIZATION (3 credits)
This course examines the frameworks and tools used to develop an organization’s information system architecture. It provides the analytical skills and conceptual frameworks with which to make recommendations and decisions regarding the integration of information technology components into an information system architecture. (Cross-listed with ISQA 8106)
Prerequisite(s): CIST 2100 and ISQA 3310

ISQA 4110 INFORMATION SYSTEMS ANALYSIS (3 credits)
This course examines and applies the principles of information systems analysis, following a structured systems development methodology. It surveys project management, feasibility and analysis and systems requirement definition using modern systems analysis techniques and automated tools. Course utilizes a case approach where students initiate the analysis and logical design of a limited-scope information system.
Prerequisite(s): CIST 2100, ISQA 3910, and ISQA 3310; only ISQA 3310 can be taken concurrently.

ISQA 4120 SYSTEM DESIGN AND IMPLEMENTATION (3 credits)
This is the second course in a sequence in computer information systems analysis, design, and implementation. This course extends the basic foundations of systems development started in ISQA 4110 and examines the activities comprising the design, construction and implementation of information systems.
Prerequisite(s): ISQA 3310 and ISQA 4110

ISQA 4130 INFORMATION TECHNOLOGY FOR DEVELOPMENT (3 credits)
Information Technology for Development (ITD) is the implementation and evaluation of information technology infrastructures to stimulate economic, social and human development. In this service-learning course, students will learn and apply ITD concepts for developing and adding value through IT by working with small business entrepreneurs in Omaha or rural Nebraska. Students will evaluate micro-business technology needs, prepare business technology plans, provide training, and implement appropriate solutions, to the extent possible within a semester class. (Cross-listed with ISQA 8136) Prerequisite(s): Though not required, the following courses or their equivalent would provide the necessary background : CIST 1100, CIST 1300, ISQA 3210, ISQA 3310, ISQA 3400. Not open to non-degree graduate students.

ISQA 4150 ADVANCED STATISTICAL METHODS FOR IS&T (3 credits)
This course emphasizes the application and interpretation of statistical methods including design of experiments, analysis of variance, multiple regression, and nonparametric procedures and the use of statistical computer packages. The intent is to develop quantitative abilities needed for quantitatively intensive jobs and for advanced study in management information systems, computer science and information technology. (Cross-listed with ISQA 8156)
Prerequisite(s): CIST 2500 or equivalent (at least one course in statistics)
ISQA 4160 INTRODUCTION TO ENTERPRISE RESOURCE PLANNING (3 credits)
Introduction to Enterprise Resource Planning (ERP) is designed to expose students to the primary enterprise application that forms the information systems (IS) infrastructure for most large organizations today. The primary purpose of this course is for students to gain an understanding of the enterprise wide, cross functional nature of ERP software. In the process of learning about ERPs, the students develop “hands on” experience with the largest and most well-known ERP application, SAP. (Cross-listed with ISQA 8166, SCMT 4160)
Prerequisite(s): CIST 2100 or equivalent. Not open to non-degree graduate students.

ISQA 4170 DIGITAL SUPPLY CHAIN & LOGISTICS (3 credits)
Global Supply Chains are being disrupted by digital transformation driven by emerging technologies such as IoT (internet of things) and AI/ML (Artificial Intelligence/Machine Learning). This course will take a closer look at global supply chains and logistics with an emphasis on the impact of digitalization. We will explore the typical global supply chain processes and how state-of-the-art and emerging technologies impact them. Thus, the class views global digital supply chains by integrating business and technological perspectives. The course will start with an overview of technologies relevant to digital supply chains. We will then discuss digitalization strategy and digital supply chains, fundamental GSCM (Global Supply Chain Management) processes and their potential for digitalization, and discussion of IT/software systems, IoT, AI/ML, Data Analytics/Visualization, and related facets that impact digital supply chains. The course will culminate with an integrated case study and/or research paper (graduate). (Cross-listed with ISQA 8176).
Prerequisite(s): Permission of instructor. It is preferred that students have taken the introductory supply chain class from the College of Business, or have some experience in the transportation, logistics and supply chain management sector and are at least a Junior.

ISQA 4180 ELECTRONIC COMMERCE (3 credits)
Critical examination of the issues, technologies, standards and business and social implications of electronic commerce in Cyberspace.
Prerequisite(s): ISQA 3400 or equivalent.

ISQA 4190 PROCESS REENGINEERING WITH INFORMATION TECHNOLOGY (3 credits)
Business process reengineering issues are examined. Reengineering concepts and methods are introduced. Additional special project(s) are required. SAP will be introduced. (Cross-listed with ISQA 8196.)
Prerequisite(s): CIST 2500; prerequisite/co-requisite ISQA 4110.

ISQA 4200 INFORMATION AND DATA QUALITY MANAGEMENT (3 credits)
The course primarily focuses on developing an in-depth understanding of Data and Information Quality (DQ and IQ) concepts and issues. On completing this course students will be able to understand and use DQ and IQ Concepts in Information Systems projects, be able to recognize various patterns of Data and Design Deficiencies in Systems and be able to suggest appropriate DQ and IQ improvement plans in light of known deficiencies in systems. (Cross-listed with ISQA 8206)
Prerequisite(s): CIST 2500 and CIST 2100.

ISQA 4300 DATABASE ADMINISTRATION (3 credits)
This course is designed to give students an applied, practical introduction to database administration. Students will gain an understanding of the functioning of a database management system and its relationship to the computing environment in which it runs. They will learn the concepts, principles, and techniques necessary to carry out such functions as database object creation, storage management, capacity planning, performance tuning, backup and recovery, and security management. Each semester the course will focus on one commercial database management system (DBMS), such as Oracle. (Cross-listed with ISQA 8306)
Prerequisite(s): ISQA 3310 or CSCI 4850. Not open to non-degree graduate students.

ISQA 4380 DISTRIBUTED TECHNOLOGIES AND SYSTEMS (3 credits)
The course introduces students to concepts, issues and tools needed to develop distributed computing systems. Topics include distributed systems architecture, middleware, Internet-based systems development, security and performance. Hands-on systems development using current technologies is provided.
Prerequisite(s): ISQA 3310 or equivalent and knowledge of database design and SQL.

ISQA 4500 SPECIAL PROBLEMS IN INFORMATION SYSTEMS AND QUANTITATIVE ANALYSIS (2-3 credits)
Individual investigation of specific problems in information systems and quantitative analysis and related areas.
Prerequisite(s): Senior standing and permission of program chair.

ISQA 4510 INFORMATION SYSTEMS INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application of their academic studies in the business world to help prepare them for their professional career and to provide a view of the challenges they will face.
Prerequisite(s): Junior/senior standing and permission of department.

ISQA 4730 DECISION SUPPORT SYSTEMS (3 credits)
This course examines a set of information systems which specifically support managerial decision makers: Decision Support Systems, Group Decision Support Systems, Expert Systems, and Neural Networks. This course explores the development, implementation, and application of these systems, how these systems can be applied to current business problems, as well as how organizational issues impact the implementation and usage of these systems. (Cross-listed with ISQA 8736)
Prerequisite(s): CIST 2100 or equivalent.

ISQA 4880 SYSTEMS SIMULATION AND MODELING (3 credits)
The course provides an introduction to the modeling and simulation with special emphasis on decision-theoretic models and rational decision-making. The ability to make good decisions is key to individuals and organizations and studying, understanding and improving decisions is vital to success. Students are given a background into systematic decision-making processes, and then are introduced to formal methods for decision modeling and analysis. Building on these foundational models, students learn how to perform process modeling and optimization. Finally, the course concludes with a look at psychological biases and traps that may affect decision-makers. (Cross-listed with ITIN 4880)
Prerequisite(s): CIST 1400 and CIST 2500 or equivalent.

ISQA 4890 DATA WAREHOUSING AND DATA MINING (3 credits)
This course provides students with a theoretical foundation and practical methods for designing and constructing data warehouse and implementing data mining. After covering the essential concepts, issues, techniques to build an effective data warehouse, this course emphasizes the various techniques of data mining, such as association, classification, clustering and prediction for on-line analyses within the framework of data warehouse architectures. This course gives students an opportunity to undertake a real-life data analysis project. (Cross-listed with CSCI 4890)
Prerequisite(s): ISQA 3310 or CSCI 4850.

ISQA 4900 FULL STACK DEVELOPMENT (3 credits)
Full stack development is the development of both client side and server side portions of web applications. Most organizations go beyond simply using HTML web pages with a small amount of JavaScript in applications and have moved to developing modern web applications with backend APIs and frontend JavaScript frameworks such as Vue.js. Students will learn how to build a backend application and REST APIs. Students will take that backend framework knowledge and learn to securely integrate these backend APIs with frontend JavaScript frameworks to build single page apps and hybrid mobile applications.
Prerequisite(s): CIST 1300 - Web Development or CSCI 2850 Programming on the Internet ISQA 3310 Managing the Database Environment or CSCI 4850 Database Management ISQA 3900 Web Application Development or equivalent.
Management Information Systems, Bachelor of Science

The Bachelor of Science in Management Information Systems degree provides students with the educational background for pursuing an exciting career in applying computers in business and government to process data and solve a wide variety of business problems.

The computer is an important tool, which processes information for management decision making. Managers can be more effective and efficient when assisted by computer-based information systems. Students pursuing a degree in Management Information Systems will learn how the computer can be applied to produce information both for controlling the day-to-day operations of a business and for planning for the future of that business. With a Management Information Systems degree, the study of information systems and quantitative analysis prepares students for pursuing career opportunities in business data management, management information systems, systems analysis, systems design, decision support, information security, electronic commerce, and other related areas.

Student Group
MIS Student Organization: MISSO
The Management Information Systems Student Organization (MISMO) was founded in 1999 and has been an active part of UNO ever since. MISSO membership and attendance at MISSO meetings is open to all UNO and UNL students in all majors who are interested in the field of information systems. Learn more about MISSO here [https://www.unomaha.edu/college-of-information-science-and-technology/information-systems-and-quantitative-analysis/student-involvement/].

Fast Track
The Department of Information Systems and Quantitative Analysis (ISQA) has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate credit hours towards the completion of their undergraduate program as well as the graduate degree program. Students will work with both undergraduate and graduate advisors to ensure graduate classes selected will count toward both programs, should a student wish to earn a graduate degree in a separate College of Information Science & Technology (CIST) area than their undergraduate degree.

Program Specifics:
- This program is available for undergraduate students pursuing any CIST undergraduate degree desiring to pursue an MS in either the same or a related CIST field.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. All applicants will need to meet any other admission requirements established for the MS in selected CIST program. The application fee will be waived if the applicant contacts the Office of Graduate Studies for a fee waiver code prior to submitting the MS application.
- Admission to Fast Track does NOT guarantee admission to the graduate program.
- The admit term must be after the completion term of the undergraduate degree.

Contact
For more information, contact the College of IS&T Academic Advising Office at 402.554.3819.

Requirements
A minimum of 120 credit hours is required for a Bachelor of Science degree in Management Information Systems. Thirty of the last 36 hours must be University of Nebraska at Omaha (UNO) courses. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.

To obtain a Bachelor of Science in Management Information Systems, a student must fulfill the University, College and Departmental requirements. Some courses may satisfy requirements in more than one area, but credit is awarded only once, thereby reducing the total number of credit hours for the degree to 120. (This total does not include prerequisites; students are accountable for all prerequisite courses.)

¹ This course will also satisfy UNO’s General Education Quantitative Literacy requirement.

Co-Requisite Courses from the College of Business Administration (15 hours)

The Management Information Systems degree is cross-disciplinary in nature; students therefore need to have an understanding of economics, accounting, and business functions. These areas are covered by required co-requisite courses offered through the College of Business Administration (CBA). All CBA courses require a grade of C or better.

* ISQA 4000, ISQA 4060, and ISQA 4070 cover different topics each semester. These courses may be repeated, but no topic may be taken more than once. Check the class schedule for specific topics offered during a particular semester.

Writing in the Discipline

All UNO students are required to take a writing-in-the-discipline course within their major. Management Information Systems degree students must take CIST 3000

Second Bachelor's Degree

General Requirements

Students who have satisfied the requirements for a first bachelor's degree, other than one in Management Information Systems (MIS) at the University of Nebraska at Omaha or another academic institution, must complete a minimum of 30 additional semester hours at the University for a second bachelor's degree.
MIS Requirements (72 hours)

To obtain an MIS degree as a second bachelor’s degree, students must complete academic requirements for the degree which include 15 credit hours of IS&T core courses, 24 credit hours of MIS core courses, 12 credit hours of specialization courses, 6 credit hours of mathematics and applied statistics courses, and 15 hours of business co-requisite courses. International students may be required to complete nine hours of English composition courses and any relevant prerequisites as determined by the English Placement and Proficiency Exam (EPPE). Students who are admitted to a second degree program in MIS must meet with an academic advisor in the College of IS&T before beginning the degree to make a plan of study. Some transfer coursework may apply; however, 30 of the last 36 hours must be University of Nebraska at Omaha courses.

Optional Concentrations

The Management Information Systems (MIS) degree includes 23 credit hours that can be used for prerequisite classes, free-choice elective classes, optional minors, optional MIS concentrations and certificates, or a combination of any of the aforementioned areas.

Upper-division Information Systems and Quantitative Analysis (ISQA) courses that are not part of the MIS core requirements and satisfy MIS concentration requirements also satisfy upper-level Specialization Courses required for the MIS degree.

Internet Technologies Concentration for MIS Majors (18 Hours)

The Internet Technologies (IT) concentration is only available to Management Information Systems (MIS) majors and supplements the MIS curriculum by focusing on the expertise needed to implement solutions that involve contemporary internet technologies and software applications. The concentration is designed to accommodate the differing backgrounds of MIS students, while providing the necessary knowledge to pursue the IT concentration. The IT concentration provides extensive hands-on, project-based experience for students.

Students are responsible for completing the prerequisites for all courses taken for the Internet Technologies concentration.

Capstone Course

CIST 4910 SYSTEMS DEVELOPMENT IN OPEN SOURCE COMMUNITIES 3

Total Credits 18

1 NOTE: The ISQA 4000 topic MUST be related to Internet Technologies. Approval from the Undergraduate Program Committee is required prior to taking this course.

i-Business Application Development and Management (18 Hours)

The i-Business Application Development and Management concentration is only available to Management Information Systems (MIS) majors and provides students with the technical, organizational, and managerial background to plan, develop, and manage internet-based applications. The concentration includes courses that give students an understanding of the issues, concepts, and technologies involved in establishing and implementing a corporate strategy for electronic businesses. These courses address issues of organizational strategy, process re-engineering, and information systems architecture support. Students will also learn and apply technical skills needed to develop internet-based distributed applications.

Students are responsible for completing the prerequisites for all courses taken for the i-Business Application Development and Management concentration.

Information Assurance Concentration for MIS Majors (18 Hours)

The Information Assurance concentration is only available to Management Information Systems (MIS) majors and supplements the MIS curriculum by focusing on the foundational principles, worked examples, theory, and skills necessary to analyze, design, and construct secure information systems. The courses in the concentration address the fundamental technologies, policies, assurance, and ethics involved in the protection of information systems. Hands-on experience is gained through laboratory exercises associated with courses.
Students are responsible for completing the prerequisites for all courses taken for the Information Assurance concentration.

**IT Audit and Control (18 Hours)**

The IT Audit and Control concentration is only available to Management Information Systems (MIS) majors. It provides students with the technical, organizational, accounting/auditing, and managerial background to plan and conduct IT audit and control activities. The concentration covers the following conceptual areas: business risks and the management of business risk, IT risk as a component of business risk, the need to manage IT risks, basic types of controls required in a business system to control IT risks, controls associated with top management, system development, quality assurance, boundary controls, and communications. Issues associated with new system control risks created by the use of the internet for business applications and electronic business will also be covered in one or more courses. Students learn to apply and integrate the technical, managerial, and conceptual skills needed to plan and conduct IT audits and to establish appropriate controls.

Students are responsible for completing the prerequisites for all courses taken for the IT Audit and Control concentration.

1 MATH 1930 or MATH 1370 - Satisfy General Education Quantitative Literacy requirement

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific degree program to determine all requirements for the program. In order to graduate on time (four years for an undergraduate degree), you need to take 30 credit hours each year.

Placement Exams: For Math, English, and Foreign Languages, a placement exam may be required. More information on these exams can be found at https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php

Please note that transfer credit or placement exam scores may change a suggested plan of study.

Management Information Systems Minor

Requirements
A grade of “C-” or better is required in each course applied toward the minor in Management Information Systems (MIS). Students are responsible for completing the prerequisites for all courses taken for the minor in MIS.

A minor in Management Information Systems may be obtained by completing the following courses:

Requirements
<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ISQA 3310</td>
<td>MANAGING THE DATABASE ENVIRONMENT</td>
<td>3</td>
</tr>
<tr>
<td>ISQA 3910</td>
<td>INTRODUCTION TO PROJECT MANAGEMENT</td>
<td>3</td>
</tr>
</tbody>
</table>

Select one of the following:

- ISQA 3420 MANAGING IN A DIGITAL WORLD
- ISQA 3900 WEB APPLICATION DEVELOPMENT
- ISQA 4110 INFORMATION SYSTEMS ANALYSIS

Electives
Select 6 hours from the following:

- ISQA 3400 INFORMATION TECHNOLOGY INFRASTRUCTURE
- ISQA 3520 GRAPHICAL USER INTERFACE DESIGN
- ISQA 4000 SPECIAL TOPICS: INFORMATION SYSTEMS & QUANTITATIVE ANALYSIS
- ISQA 4010 BUSINESS INTELLIGENCE
- ISQA 4100 INFORMATION SYSTEMS ARCHITECTURE AND ORGANIZATION
- ISQA 4120 SYSTEM DESIGN AND IMPLEMENTATION
- ISQA 4130 INFORMATION TECHNOLOGY FOR DEVELOPMENT
- ISQA 4150 ADVANCED STATISTICAL METHODS FOR IS&T
- ISQA 4160 ENTERPRISE RESOURCE PLANNING SOFTWARE CONSULTING
- ISQA 4170 DIGITAL SUPPLY CHAIN & LOGISTICS
- ISQA 4180 ELECTRONIC COMMERCE
- ISQA 4200 INFORMATION AND DATA QUALITY MANAGEMENT
- ISQA 4300 DATABASE ADMINISTRATION
- ISQA 4380 DISTRIBUTED TECHNOLOGIES AND SYSTEMS
- ISQA 4730 DECISION SUPPORT SYSTEMS
- ISQA 4880 SYSTEMS SIMULATION AND MODELING
- ISQA/CSCI 4890 DATA WAREHOUSING AND DATA MINING
- CIST 4910 SYSTEMS DEVELOPMENT IN OPEN SOURCE COMMUNITIES

Total Credits 15

1 Additional courses can be used to satisfy the 6 credit hours of electives.

Data Management Certificate

Data Management (DM) is the practice of managing data-related issues for an organization. Data management practitioners seek to optimize the design, storage, and use of organizational data.

The certificate in Data Management is open to anyone with an associate’s or bachelor’s degree in IT. UNO students enrolled in the Division of Continuing Studies’ Bachelor of Multidisciplinary Studies degree program with an IT-related concentration and students in any of the College of IS&T undergraduate degree programs are also eligible to enroll in this certificate program.

Students are responsible for completing the prerequisites for all courses taken for the Data Management Certificate.

or MGMT 3100
technical infrastructure of today’s organizations. The certificate is offered in partnership with the University of Agder in Norway (UiA), a sister university to UNO. The certificate consists of 12 credit hours of courses covering such areas as systems administration, network administration, database administration, security administration, and distributed systems. All courses are offered online. Students will take courses taught by both UNO and UiA instructors and will have the opportunity to work with students residing in a country other than their own.

The certificate in Information Technology (IT) Administration is open to anyone with an associate’s or bachelor’s degree in IT. UNO students enrolled in the Division of Continuing Studies’ Bachelor of Multidisciplinary Studies degree program with an IT-related concentration and students in any of the College of IS&T undergraduate degree programs are also eligible to enroll in this certificate program.

Students are responsible for completing the prerequisites for all courses taken for the IT Administration Certificate.

### Systems Development Certificate

Systems development practitioners seek to optimize the design, implementation, and use of information systems for organizational purposes.

The certificate in Systems Development is open to anyone with an associate’s or bachelor’s degree in IT. UNO students enrolled in the Division of Continuing Studies’ Bachelor of Multidisciplinary Studies degree program with an IT-related concentration and students in any of the College of IS&T undergraduate degree programs are also eligible to enroll in this certificate program.

Students are responsible for completing the prerequisites for all courses taken for the Systems Development Certificate.

### Information Technology Administration Certificate

The undergraduate certificate in Information Technology (IT) Administration is designed for students who are interested in managing the complex technical infrastructure of today’s organizations. The certificate is offered in collaboration with the University of Agder in Norway (UiA), allowing students to gain valuable experience in a diverse range of IT administration roles.

Students are responsible for completing the prerequisites for all courses taken for the Information Technology Administration Certificate.
School encourages the enhancement and fostering of new educational, research and creative activities by bringing together practitioners, researchers and students in interdisciplinary fields of importance to the state and the University. The School is unique in the country and leads to increased national visibility of the University of Nebraska in the area of interdisciplinary information technology applications.

The School of Interdisciplinary Informatics addresses the following needs and demands of our academic, business, and community stakeholders:

1. Growth of interdisciplinary areas;
2. Facilitation of innovative partnerships with external constituents, including leveraging the expertise of the local community;
3. Diversity of personnel;
4. Reduction of barriers to collaboration;
5. Flexible and agile structure for quick response to opportunities;
6. Solidification of regional and national recognition as an important resource for the study and advancement of IT in the domain of healthcare, biosciences, and information security;
7. Visibility of the college and its interdisciplinary focus;
8. A magnet for collaborative external funding;
9. Development of the next generation workforce to address local, regional and national needs in exciting, new interdisciplinary domains.

Accreditation
As a requirement of standards set by the Higher Learning Commission (HLC), the accrediting body of the University of Nebraska at Omaha, each of our undergraduate degree programs performs a regular assessment of student learning outcomes. The process of program assessment and program reviews helps to ensure students are being provided with an academically rigorous curriculum that also reflects the demands of a rapidly changing job market.

Contact
For more information, contact the College of IS&T Academic Advising Office at 402.554.3819.

Website (http://www.unomaha.edu/college-of-information-science-and-technology/school-of-interdisciplinary-informatics/)

Degrees Offered
The three degrees offered by the School are:

- Bioinformatics, Bachelor of Science (p. 694)
- Cybersecurity, Bachelor of Science (p. 699)
- Information Technology (IT) Innovation, Bachelor of Science (p. 704)

The degrees offered in the School share an interdisciplinary spirit within their curriculum, which reflects the School’s mission to provide our students a transformative, individualized education. Our graduates are trained by faculty with expertise in multiple domains so that they may rise to real-world challenges that require interdisciplinary solutions.

Minors Offered
- IT Innovation Minor (p. 710)
- Cybersecurity Minor (p. 704)
- Bioinformatics Minor (p. 699)

Bachelor of Science in Bioinformatics
Graduates from UNO’s Bioinformatics (BIOL) program in the College of IS&T will be able to use their preparation to apply and investigate technology to solve bioinformatics problems in a comprehensive, competitive and effective way. Students with an undergraduate degree in bioinformatics can expect to have a foundational knowledge in computer science, biology, statistics, and database administration.

The job outlook for Bioinformatics majors is excellent. Versatile and greatly in demand, our graduates have gone on to become programmers, data analysts, and senior-level scientists. Employment is available with private and public industries, research institutions, government institutions, non-profits, and universities around the globe. The Bioinformatics degree can also serve as a springboard to graduate work, opening the door to academic careers and other careers that require informatics skills coupled with biological background.

Careers Options:
- Bioinformatics Scientist/Analyst
- Scientific Curator
- Computational Biologist
- Database Programmer
- Database Administrator
- Software Developer
- Consultant
- Network Analyst
- Structural Analyst
- Biostatistician
- Software Engineer
- Research Scientist
- Data Scientist
- Biotech Entrepreneur

Bachelor of Science in Cybersecurity
Cybersecurity is a rapidly expanding field focused on keeping critical infrastructure, systems, and users safe. From phishing attacks on individuals to large-scale attacks on facilities like power plants, government systems, and industrial control systems, threaten the 21st century global economy. Adapting to these changing threat environments is a continual activity in which companies and governments must engage. These organizations rely on cybersecurity practitioners to identify threats, determine risk, and implement mitigating protections in their software, hardware, and online systems - such as those on mobile, web and Internet of Things (IoT) platforms. It is also important to build protections into new software and hardware during the design and development process, track and monitor developed systems for on-going risk, and assess them forensically when something goes wrong. The Bachelor of Science in Cybersecurity (CYBR) degree program at UNO focuses on technical curricula that prepare students for pathways into a range of careers that address these topics.

Careers Options:
- Entry Level
  - Cybersecurity Specialist/Technician
  - Cyber Crime Analyst/Investigator
  - Incident Analyst / Responder
  - IT Auditor
  - Secure Applications Developer
- Mid-Level
  - Cybersecurity Analyst
  - Cybersecurity Consultant
  - Penetration and Vulnerability Tester
  - Secure Systems Integrator
  - Cybersecurity Lead Programmer
- Advanced level
  - Cybersecurity Manager/Administrator
  - Cybersecurity Engineer
Bachelor of Science in Information Technology (IT) Innovation

The IT Innovation (ITIN) major is the interdisciplinary practice of conceptualizing, designing, prototyping and fielding an IT-based product or service. IT focuses both on the technological and entrepreneurial aspects of IT products. IT Innovation brings together aspects of Computer Science and Management Information Systems with other disciplines that inform IT design and application, such as health care, business, psychology, art, or music.

Careers Options:

In addition to more general IT professions, students in the IT Innovation program have found employment in the IT Innovation field as:

- Applications Designer
- Digital Artist
- Founder
- Graphics/Web Designer
- Innovation Consultant
- Innovation Evangelist
- IT Applications Consultant
- New Product Designer/Developer
- New Ventures Specialist
- Product Innovation Specialist
- User Experience Designer
- Video Game Designer

Bioinformatics

**BIOI 1000 INTRODUCTION TO BIOINFORMATICS (3 credits)**

Bioinformatics is a scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize and interpret information from genetic sequence data. The field is growing rapidly with the advancement in molecular technology to sequence the genomes of many different organisms. This course will provide an introduction to the field and will examine some of the problems of interest to bioinformaticians and how these relate to biology, computer science, mathematics and engineering. Topics will include an overview of the biology, mathematics and computer science needed to understand these and tools.

**Distribution:** Natural/Physical Science General Education course

**BIOI 2000 FOUNDATIONS OF BIOINFORMATICS (3 credits)**

Bioinformatics is a new scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize and interpret information from genetic sequence data. The field is growing quickly due to rapid advances in sequencing and other biological techniques that allow the genomes of different organisms to be easily sequenced. This course provides an overview of the field and covers the chemical, biological, mathematical and computational foundations of bioinformatics upon which later courses will depend. In addition, it introduces problems of interest to bioinformaticians and the methods and tools used to address them.

**Prerequisite(s):** BIOI 1000 or BIOL 1450

**BIOI 3000 APPLIED BIOINFORMATICS (3 credits)**

This course will provide students with the practical skills needed for the analysis of -omics data. Topics covered will include biological databases, molecular biology tools (e.g., primer design, contig assembly), gene prediction and mining, database searches, genome comparison, sequence alignments, phylogenetic inference, gene expression data analyses, functional annotation of protein sequences, protein structure and modeling. Specialized software (e.g., Vector NTI) and widely used web-based computation tools (e.g., Entrez, BLAST, ClustalX, Phylip, PyMOL, and SwissPDBviewer) will be illustrated. Multiple approaches for solving particular problems will be presented.

**Prerequisite(s):** BIOI 2000 and CIST 1400; or permission of instructor.

**BIOI 3500 ADVANCED BIOINFORMATICS PROGRAMMING (3 credits)**

Because of the volume and complexity of biological data, advanced programming skills are required for researchers in order to get the most out of their data analyses. This course will provide the expanded programming skills necessary to develop software that can exploit the complex information landscape of bioinformatics. Specific topics covered will include molecular biology basics, Unix/Linux shell programming, Perl and BioPerl, databases and using the Perl DBI, and data visualization.

**Prerequisite(s):** BIOI 3000 and CSCI 1620; or permission of instructor. CSCI 3320 is strongly recommended but not required.

**BIOI 4500 INDEPENDENT STUDY (1-3 credits)**

This course allows students to research a topic of their interest that is not available in a formal course. The topic to be studied must be agreed upon by the student and the instructor.

**Prerequisite(s):** Junior or Senior within the Bioinformatics undergraduate program. Not open to non-degree graduate students.

**BIOI 4510 BIOINFORMATICS INTERNSHIP (1-3 credits)**

The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the Bioinformatics undergraduate program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.

**Prerequisite(s):** Junior/Senior standing and permission of Director of the School of Interdisciplinary Informatics. Not open to non-degree graduate students.

**BIOI 4860 BIOINFORMATICS ALGORITHMS (3 credits)**

The main objective of this course is to provide an organized forum for students to understand the foundations of algorithmic design and analysis in the context of health and biological data. The course will present fundamental concepts in algorithms (exhaustive, greedy, graph, heuristic, and more) and explore how those concepts extend to bioinformatics and related fields, such as biomedical informatics, and health informatics. Students will learn about historical context of these algorithms and how they were pivotal in forming more complex modern approaches, and will explore advanced algorithms in their area of interest. Students will also exercise their programming skills with the opportunity to implement and apply bioinformatics algorithms to real data, so to better grasp the technical components of algorithmic design and analysis. (Cross-listed with BMI 8866).

**Prerequisite(s):** CSCI 3320 or permission of instructor. Prior completion of CSCI 4850 is strongly recommended but not required.
**BIOI 4870 DATABASE SEARCH AND PATTERN DISCOVERY IN BIOINFORMATICS (3 credits)**

This required course for undergraduate bioinformatics majors provides foundational knowledge on database aspects used in the field and an overview of their applications in bioinformatics, biomedical informatics, and health/clinical informatics. The course begins with a brief review of key concepts in computational molecular biology related to database search/development, database management systems, the difference between primary and secondary databases, and bioinformatics-related aspects of modeling and theory in computer science. The major focus is on the multiple challenges and aspects of bio-database development, search, and pattern discovery. The course uses problem-based learning to help students develop database management skills as they apply to high throughput "omics." data, the basics of data management, data provenance and governance, standards, and analysis through KDD-based workflows. This course will also consider the fundamentals of artificial intelligence and machine learning as they pertain to bioinformatics, from the perspective of database storage, I/O, and analysis. (Cross-listed with CSCI 8876).

**Prerequisite(s):** CSCI 4850 or permission of instructor. Not open to non-degree graduate students.

**BIOI 4890 COMPUTERIZED GENETIC SEQUENCE ANALYSIS (3 credits)**

The goal of this course is to introduce students to major topics in computerized analysis of genetic sequences. In particular the course will allow students to become familiar with the computational tools and software that aid in the modern molecular biology experiments and analysis of experimental results. Following the completion of this course, it is expected that the students will have a basic understanding of the theoretical foundations of the sequence analysis tools and develop competence in evaluating the output from these tools in a biological context. This course will emphasize hands-on experience with the programs for nucleotide and amino acid sequence analysis and molecular phylogeny. (Cross-listed with BMl 8896).

**Prerequisite(s):** Junior or senior-level standing in the Bioinformatics program or permission from the instructor.

**BIOI 4950 SPECIAL TOPICS IN BIOINFORMATICS (3 credits)**

This course is intended to provide a mechanism for offering instruction in subject areas that are not covered in other regularly scheduled courses. In general, courses offered under the BIOI 4950 designation will focus on evolving subject areas in bioinformatics.

**Prerequisite(s):** Prerequisites of a specific offering of BIOI 4950 will be determined by the supervising faculty member and identified in the course proposal. It is anticipated that permission of the faculty member teaching the course will be required for registration.

**BIOI 4970 SENIOR PROJECT IN BIOINFORMATICS I (1 credit)**

This course is the first part of a two-part series that allows students to work on a guided research project on a specific topic in bioinformatics. The goal of this course is for the student to decide on a research topic and to write a detailed proposal based on this topic that outlines the goals and objectives of the proposed research. The topic and proposal will be approved by the supervising faculty member.

**Prerequisite(s):** BIOI 4860 and BIOI 4870; BIOI 4870 can be taken concurrently. Senior level status in the Bioinformatics program. Not open to nondegree students.

**BIOI 4980 SENIOR PROJECT IN BIOINFORMATICS II (2 credits)**

This course is the second part of a two-part series that allows the student to work on a guided research project on a specific topic in bioinformatics. The goal of this course is for the student to perform the research proposed in Part I of the course and to present the results of his or her work. Presentations will be made in the form of a report, written as a scientific research paper, and an oral defense.

**Prerequisite(s):** Junior or senior-level standing in the Bioinformatics program or permission from the instructor.

---

**Cybersecurity**

**CYBR 1100 INTRODUCTION TO INFORMATION SECURITY (3 credits)**

This course emphasizes our current dependence on information technology and how its security in cyberspace (or lack thereof) is shaping the global landscape. Several historical and contemporary global events that have been influenced by the exploitation of information technology motivates topics on cyber crime, malware, intrusion detection, cryptography, among others, and how to secure one’s own data and computer system. Several aspects of this course are geared towards developing an understanding of the “cyberspace” as a new medium that breaks all geographical boundaries, while highlighting noticeable influences on it from social, political, economic and cultural factors of a geographical region.

**Distribution:** Global Diversity General Education course

**CYBR 2250 LOW-LEVEL PROGRAMMING (3 credits)**

This course will teach the cybersecurity (CYBR) students low-level programming in the “C” and assembly languages, and the interrelationship between these two programming paradigms. The student will learn the various control structures in “C” and how they are implemented in machine code, memory allocation and management, and the basics of allocation classes such as static versus automatic variables. The students will also learn assembly language in the “C” environment and will be able to write useful, functional, stand-alone assembly language programs with no help from external libraries.

**Prerequisite(s):** CSCI 1620. Not open to non-degree graduate students.

**CYBR 2600 SYSTEM ADMINISTRATION (3 credits)**

This course covers topics a system administrator would encounter in their profession. The student will learn how a system administrator fulfills various computer management requirements using both Windows and Linux operating systems on both physical and virtual machines. Topics include installation, creating and maintaining file systems, user and group administration, backup and restore processes, network configuration, system services, virtualization, and security administration.

**Prerequisite(s):** CIST 1400 or CIST 1600 or Instructor Permission

**CYBR 2980 SPECIAL TOPICS IN CYBERSECURITY (3 credits)**

The course provides a format for exploring subject areas in Cybersecurity and related fields for sophomore undergraduate students. Specific topics vary, in keeping with research interests of faculty and students. Examples include network configuration, network security, forensics, regulatory compliance, web services and applications, vulnerability assessments, cloud computing security, and other issues in Cybersecurity.

**Prerequisite(s):** Instructor permission required. Not open to non-degree graduate students.

**CYBR 3450 NATURAL LANGUAGE PROCESSING (3 credits)**

The course will provide overview of the topics in natural language processing such as word and sentence tokenization, syntactic parsing, semantic role labeling, text classification. We will discuss fundamental algorithms and mathematical models for processing natural language, and how these can be used to solve practical problems. We will touch on such applications of natural language processing technology as information extraction and sentiment analysis. (Cross-listed with CSCI 3450).

**Prerequisite(s):** Prereq: CSCI 2030 with C- or better; Co-req: CSCI 3320 with C- or better; Students should be comfortable w/ scripting (Python is the language extensively used in natural language processing tools including NLTK). Not open to non-degree graduate students.

**CYBR 3570 CRYPTOGRAPHY (3 credits)**

The course will provide a broad overview of the concepts, fundamental ideas, vocabulary, and literature base central to the study and development of cryptography and cryptanalysis. This course will explore historical development of cryptography, as well as methods used to defeat it. In addition, the course will cover the mathematical foundations of cryptography today, as well as some current uses of such cryptography, such as public key infrastructures, the Internet Key Exchange protocol, and more.

**Prerequisite(s):** CSCI 3320 or ISQA 3300. Not open to non-degree graduate students.
**CYBR 3600 INFORMATION SECURITY POLICY AND AWARENESS (3 credits)**
This course will cover the planning and development for information governance, security policies and procedures, and security awareness. 
**Prerequisite(s):** CIST 2100; CIST 3110, which may be taken concurrently.

**CYBR 4000 CENTER OF ACADEMIC EXCELLENCE-CYBER OPERATIONS COMPLETION CERTIFICATE (0 credits)**
This course is utilized to provide a specific designation for students that have completed the Center of Academic Excellence - Cyber Operations coursework. It is a zero credit hour class used to designate the completion of this focus area in the cybersecurity curriculum.
**Prerequisite(s):** Instructor Permission. The program committee will work w/ the UG advisors to verify that the student has fulfilled the requirements for this designation. If the student has fulfilled (or will soon) all the requirements, they may register for this class.

**CYBR 4360 FOUNDATIONS OF CYBERSECURITY (3 credits)**
Contemporary issues in computer security, including sources for computer security threats and appropriate reactions; basic encryption and decryption; secure encryption systems; program security, trusted operating systems; database security, network and distributed systems security, administering security; legal and ethical issues. (Cross-listed with CYBR 8366, CSCI 8366).
**Prerequisite(s):** CSCI 3320 or CSCI 8325 OR ISQA 3400 OR By instructor permission.

**CYBR 4380 DIGITAL FORENSICS (3 credits)**
Digital forensics involves the preservation, identification, extraction, analysis and documentation of digital evidence stored on a variety of electronic devices. The aim of this course is to introduce students to acceptable approaches for collecting, analyzing and reporting data from a forensics investigation. Topics include: an introduction to digital forensics, data acquisition, first response, memory forensics, operating system forensics, and network forensics. Students will be required to perform several forensics analyses in a controlled lab environment, including acquiring forensically sound hard drive images, memory images and analyzing these using industry standard tools, such as Forensic Toolkit (FTK). The Digital Forensics class is designed for Cybersecurity, Computer Science and other qualified students to learn what actions are both appropriate and required for preserving, collecting and analyzing digital evidence in cases of intrusion, data theft or other cybercrimes. (Cross-listed with CSCI 4380).
**Prerequisite(s):** CYBR 3600 or CIST 3600; CSCI 3550 or ISQA 3400; CYBR 2600 or CYBR 3350 or CYBR 3370.

**CYBR 4390 MOBILE DEVICE FORENSICS (3 credits)**
Mobile device forensics is the science of recovering digital evidence from a mobile device under forensically sound conditions using accepted methods. The aim of this course is to introduce students to acceptable approaches for collecting, analyzing and reporting data from a mobile device forensics investigation. Topics include: an introduction to digital and mobile device forensics, mobile forensics standards, acquisition methods (manual, logical, physical and provider-side), Android and iOS filesystem analysis, decoding approaches, application data analysis, and report writing. Students will be required to perform several investigations in a controlled lab environment, including acquiring forensically sound evidence and analyzing these using industry standard tools. (Cross-listed with CYBR 8396).
**Prerequisite(s):** CYBR 4380/8386 - Computer and Network Forensics or Instructors Permission.

**CYBR 4430 QUANTUM COMPUTING AND CRYPTOGRAPHY (3 credits)**
The course builds an understanding of exciting concepts behind quantum computing and quantum cryptography. In doing so it will introduce the principles of qubits, superposition, entanglement, teleportation, measurement, quantum error correction, quantum algorithms such as quantum Fourier transformation, Shor’s algorithm and Grover’s algorithm, quantum key exchange, quantum encryption, and secure quantum channels that are built using these principles. It will also discuss advantages of quantum computing and cryptography over classical computing and cryptography and limitations thereof. The students will come out with a working understanding of the field of quantum computing and quantum cryptography. During the course, students will also implement several of the quantum algorithms. (Cross-listed with CYBR 8436, CSCI 4430).
**Prerequisite(s):** Co-requisites: CYBR 3570 or CSCI 4560; or Instructor permission.

**CYBR 4440 INDUSTRIAL CONTROL SYSTEM SECURITY (3 credits)**
The objective of this course is to research vulnerabilities into, and provide guidance for securing, industrial control systems (ICS). ICS is a general term that encompasses several types of control systems, including supervisory control and data acquisition (SCADA) systems, distributed control systems (DCS), and other control system items such as Programmable Logic Controllers (PLC). The student will learn to identify network and device vulnerabilities and potential countermeasures to these weaknesses. (Cross-listed with CYBR 8446).
**Prerequisite(s):** CSCI 3550.

**CYBR 4450 HOST-BASED VULNERABILITY DISCOVERY (3 credits)**
The class will cover security issues at an implementation and hardware level. The students will learn assembly language and the use of a reverse assembler and debugger. This will allow the student to analyze various “packing” algorithms for computer viruses, the viruses themselves, operating system “hooking”, “fuzzing”, and other machine code, host-based exploits. The class will be using both Windows and Linux as operating systems. (Cross-listed with CYBR 8456.)
**Prerequisite(s):** CSCI 3710 and CYBR 2250.

**CYBR 4460 NETWORK-BASED VULNERABILITY DISCOVERY (3 credits)**
The course is an advanced class in which the students learn various techniques for testing for and identifying security flaws in network software and web applications. Internet technologies such as HTTP, DNS, DHCP, and others are examined in the context of cyber security. Students are expected to participate in numerous hands-on experiments related to Information Assurance with respect to web technologies. (Cross-listed with CYBR 8466).
**Prerequisite(s):** CSCI 3550.

**CYBR 4540 COMPUTER SECURITY MANAGEMENT (3 credits)**
The purpose of this course is to integrate concepts and techniques from security assessment, risk mitigation, disaster planning, and auditing to identify, understand, and propose solutions to problems of computer security and security administration. (Cross-listed with CIST 4540, CYBR 8546, ISQA 8546)
**Prerequisite(s):** CSCI 4560.

**CYBR 4540 COMPUTER SECURITY CAPSTONE (3 credits)**
In this course, students will extend and apply the knowledge they’ve accumulated in their undergraduate studies in the cybersecurity program. The capstone course facilitates project management and teamwork for students to define, implement, assess, and secure information systems. Implementation and assessment activities happen over a non-trivial, semester-long project, typically through a partnership with external stakeholders in the industry, academia, community organizations, or government. The projects are evaluated based on their effectiveness in meeting market or customer needs for assessment, certification, or development of secure systems.
**Prerequisite(s):** CYBR 2600; and CYBR 3600; and CYBR 4360; and CYBR 4460; and CYBR 4380 or CYBR 4450. Not open to non-degree graduate students.
IT INNOVATION

ITIN 1110 ACTIVATING INNOVATION IN SOCIETY (3 credits)
This course surveys and applies the use of qualitative methods, especially interview-based research, in order to maximize the insight that informs and activates the innovation process, with emphasis on technological innovation.
Prerequisite(s): Not open to non-degree graduate students.
Distribution: Social Science General Education course

ITIN 1110 INTRODUCTION TO IT INNOVATION (3 credits)
In almost every modern human endeavor, creativity and Information Technology are essential. In the Internet age, information has become a commodity that is available to everyone. Similarly, current technology has largely become commoditized. Therefore, creating new value is becoming the basis for successful professionals. This course introduces students to tools, techniques, and methods for generating innovative information technology ideas and solutions. It teaches them to think about future possibilities and equips them with the ability to critically evaluate proposed innovations and ideas. The goal of the course is to increase students' ability to creatively solve challenging problems in new ways using information technology. This class is inherently interdisciplinary as IT now touches every aspect of modern academic pursuits.
Prerequisite(s): Not open to non-degree graduate students.

ITIN 2150 AUDIO FOR MULTIMEDIA (3 credits)
This course provides an overview of audio production techniques as they pertain to multimedia.
Prerequisite(s): Not open to non-degree graduate students.

ITIN 2220 APPLIED IT INNOVATION (3 credits)
The course extends the concepts learned in the Introduction to IT Innovation course and focuses on market dynamics and monetizing innovations. It moves past idea generation and focuses on identifying and gathering resources, innovation implementation, sustainable innovation models and how ideas can be monetized. The goal is for students to take their original ideas from concept to initial implementation with thoughts towards commercialization. Upon completing the course, students will have created at least a rudimentary implementation of an original idea and have a defensible plan for how the idea can be monetized.
Prerequisite(s): ITIN 1110 & CIST 1400. Not open to non-degree graduate students.

ITIN 2990 IT INNOVATION SYMPOSIUM (1 credit)
The seminar exposes students to information technology innovators from multiple industries and varied backgrounds. It teaches the practical aspects of IT innovation from those that have done it and are doing it in both research and practice. The purpose is to cause students to reflect on applying innovation to the real-world, connect them to the innovation community and to equip them with best practices and tools to make their innovations a reality.
Prerequisite(s): Enrollment in the IT Innovation Major or IT Innovation Minor. Not open to non-degree graduate students.

ITIN 3100 MUSIC INFORMATICS (3 credits)
Surveys the use of digital music data in the study, composition, performance, analysis, storage, and dissemination of music. Various computational approaches and technologies in music informatics including music information retrieval will be explored and implemented by students.
(Cross-listed with MUS 3100).
Prerequisite(s): Successful completion of one of the following three courses satisfies the prerequisite requirement: CIST 1300 or MUS 3170 or MUS 3180. Not open to non-degree graduate students.

ITIN 3180 ELECTRONIC MUSIC PRODUCTION (3 credits)
An exploration of the potentials of electronic music. Concepts of electronic music are presented through the use of a computer, software, and appropriate hardware. Students create assignments that demonstrate the application of basic techniques.
(Cross-listed with MUS 3180).

ITIN 3330 PRODUCT DESIGN AND DEVELOPMENT (3 credits)
This course will cover elements and principles of excellent product design and development. The history of design will be reviewed and overarching tenets of design will be introduced. The course will particularly focus on innovation and students will be expected to develop an original concept and create quality designs and low-fidelity prototype implementations of their unique idea. The proposed solutions must be novel and meet a real-world market need. This course will be hands-on and will examine developmental models for innovation.
Prerequisite(s): ITIN 2220. Not open to non-degree graduate students.

ITIN 4000 SPECIAL TOPICS IN IT INNOVATION (3 credits)
This course is designed to acquaint students with issues which are current to the field or emerging trends in the IT Innovation area. Topics will vary across terms. This course may be repeated, but no topic may be taken more than once.
(Cross-listed with ITIN 8006).
Prerequisite(s): Permission of instructor. Additional prerequisites may be required for particular topic offerings.

ITIN 4090 MANAGING COLLABORATIVE ENGAGEMENT (3 credits)
This course will provide students with the opportunity to develop knowledge and strategies for leading teams, enhancing collaboration, building consensus, problem solving in teams, facilitating group processes, and designing collaborative workspaces.
(Cross-listed with BSAD 8096, MGMT 4090).
Prerequisite(s): Junior standing or permission of instructor.

ITIN 4260 USER EXPERIENCE DESIGN (3 credits)
User experience (UX) design is concerned with the application of user-centered design principles to the creation of computer interfaces ranging from traditional desktop and web-based applications, mobile and embedded interfaces, and ubiquitous computing. This course provides in-depth, hands-on experience with real-world application of the iterative user-centered process including contextual inquiry, task analysis, design ideation, rapid prototyping, interface evaluation, and reporting usability findings.
(Cross-listed with CSCI 4260, CSCI 8266, ITIN 8266).
Prerequisite(s): Required: C- or better in CIST 2500 and junior standing, or by permission of instructor. Recommended: C- or better in CSCI 4250 or ITIN 3330.
ITIN 4440 AGILE DEVELOPMENT METHODS (3 credits)
The course presents an introduction to agile development methods for IT application development. Students will also learn Unified Modeling Techniques as they go through the agile iterations. This course is a foundation course for the IT Innovation capstone course.
Prerequisite(s): CSCI 4850 or ISQA 3310. Not open to non-degree graduate students.

ITIN 4500 INDEPENDENT STUDIES (1-3 credits)
A variable credit course for the junior or senior who will benefit from independent reading assignments and research type problems. Independent study makes available courses of study not available in scheduled course offerings. The student wishing to take an independent study course should find a faculty member willing to supervise the course and then submit, for approval, a written proposal (including amount of credit) to the IT Innovation Undergraduate Program Committee at least three weeks prior to registration.
Prerequisite(s): Written permission required.

ITIN 4510 INFORMATION TECHNOLOGY INNOVATION INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the ITIN undergraduate program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by professionals in the workplace.
Prerequisite(s): Junior/Senior standing and permission of School of interdisciplinary Informatics Director. Not open to non-degree graduate students.

ITIN 4720 INNOVATION VENTURES (3 credits)
This team-based course provides students with the opportunity to practice the basic tools of business discovery and validation, both as an instrument for new venture formation and as a core capability for addressing challenges in competitive landscapes. As such, the course lies at the intersection of innovation, entrepreneurship and strategy. Students will develop practical experience by experimenting with and refining business ideas. (Cross-listed with BSAD 8726, ENTR 4720, ITIN 8256, MGMT 4720, MKT 4720).
Prerequisite(s): ITIN 1110 and junior standing or above or by instructor permission.

ITIN 4880 SYSTEMS SIMULATION AND MODELING (3 credits)
The course provides an introduction to the modeling and simulation with special emphasis on decision-theoretic models and rational decision-making. The ability to make good decisions is key to individuals and organizations. Understanding and improving decisions is vital to success. Students are given a background into systematic decision-making processes, and then are introduced to formal methods for decision modeling and analysis. Building on these foundational models, students learn how to perform process modeling and optimization. Finally, the course concludes with a look at psychological biases and traps that may affect decision-makers. (Cross-listed with ISQA 4880).
Prerequisite(s): CIST 1400, CIST 2500, or equivalent.

ITIN 4980 INFORMATION TECHNOLOGY INNOVATION CAPSTONE PROJECT I (3 credits)
This course serves as Part 1 of the capstone project for the Information Technology Innovation program. As such the student will design a prototype of an IT product or service as well as a business case pertaining to what is required to launch their project commercially. This effort will be under the guidance of an advisory committee.
Prerequisite(s): ITIN 4440. ITIN 4980 is for seniors who are enrolled in the BS in IT innovation degree. Before enrolling in ITIN 4980, a student must gain approval, from the ITIN Program Committee, of their Area of Emphasis. Not open to non-degree graduate students.

ITIN 4990 INFORMATION TECHNOLOGY INNOVATION CAPSTONE PROJECT PART II (3 credits)
This course serves as Part 2 of the capstone project for the Information Technology Innovation program. Following the designs and business plan developed in Part I ITIN 4980, the student will create a prototype of an IT product or service as well as refine and implement the required business aspects involved in launching their project commercially. This effort will be under the guidance of an advisory committee.
Prerequisite(s): ITIN 4980. This course is for seniors who are enrolled in the BS in IT Innovation degree. Not open to non-degree graduate students.

Bioinformatics, Bachelor of Science (College of Information Science & Technology)

The Bioinformatics program in the College of Information Science and Technology (IS&T) specifically equips students with a strong foundation in computer science, scripting/programming, algorithms, database development, data management, and reproducible workflow implementation. In addition, fundamental courses in biology, genetics, molecular biology, chemistry, statistics, and discrete mathematics provide students with the ability to analyze and interpret many different types of data. The program curriculum is designed to meet the current demand for professionals equipped with bioinformatics computing skills. The national demand for bioinformatics professionals exceeds current supply, and individuals with the interdisciplinary training that a bioinformatics degree provides are in high demand.

Graduates of our IS&T Bioinformatics degree program go on to careers in software development and engineering, database development and implementation, and positions in the agricultural sector, among other career pathways; our graduates also pursue graduate research and other professional degrees, including medical school (with the addition of only a few courses). The interdisciplinary nature of our program also allows our graduates to transition easily into informatics-adjacent careers in health informatics, public health, and health information technology. Students also have the opportunity to take up to nine graduate credits toward a College of IS&T Master’s degree in Biomedical Informatics through our Fast Track program.

Program Educational Objectives
The goals of the Bioinformatics program in the College of IS&T are stated as Program Educational Objectives (PEOs) and are based on the needs of the program’s constituencies. PEOs describe the career and professional accomplishments that our program is preparing graduates to achieve. PEOs are used to align the program with the requirements of accrediting bodies such as the Higher Learning Commission (HLC) and Accreditation Board for Engineering and Technology (ABET), which accredits programs in applied science, computing, engineering, and technology.

Graduates of the UNO IS&T Bachelor of Science in Bioinformatics program will:
1. Prepare a portfolio demonstrating strong analytic, problem solving, and critical thinking skills.
2. Apply the scientific method to draw evidence-based conclusions in digital health and biosystems-related areas.
3. Demonstrate proficiency in communication of digital health and biosystems-related topics in both written and oral formats.
4. Exhibit commitment to strong ethical and moral standards in the field.
5. Demonstrate professional competency on current real-world digital health and biosystems-related perspectives.
6. Demonstrate ability to design, implement, deliver, and manage technical solutions to digital health and biosystems-related problems.
7. Apply skills such as reading primary literature, developing testable hypotheses, designing experiments, and analyzing algorithms.
8. Demonstrate proficiency in statistical and quantitative methods in the field.

**Student Group**
The Mav Club for Bioinformatics (MCBI) provides students with a space to participate in their local UNO community, build fellowship, and support one another in a more informal way. The Club has a student president and a faculty advisor who work together to offer monthly academic seminars as well as recreational events and opportunities for students to socialize informally.

**Fast Track**
The School of Interdisciplinary Informatics (SI2) has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate credit hours towards the completion of their undergraduate program as well as the graduate degree program. Students will work with both undergraduate and graduate advisors to ensure graduate classes selected will count toward both programs, should a student wish to earn a graduate degree in a separate College of Information Science & Technology (CIST) area than their undergraduate degree.

Program Specifics:
- This program is available for undergraduate students pursuing any CIST undergraduate degree desiring to pursue an MS in either the same or a related CIST field.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must complete the Fast Track Approval form and submit all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. All applicants will need to meet any other admission requirements established for the MS in selected CIST program. The application fee will be waived if the applicant contacts the Office of Graduate Studies for a fee waiver code prior to submitting the MS application.
  - Admission to Fast Track does NOT guarantee admission to the graduate program.
  - The admit term must be after the completion term of the undergraduate degree.

**Contact**
For more information, contact the College of IS&T Academic Advising Office at 402.554.3819.

**Degree Requirements**
A minimum of 120 credit hours is required for a Bachelor of Science degree in Bioinformatics. Thirty of the last 36 hours must be University of Nebraska at Omaha courses. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.

To obtain a Bachelor of Science in Bioinformatics, a student must fulfill the University, College and Departmental requirements. Some courses may satisfy requirements in more than one area, but credit is awarded only once, thereby reducing the total number of credit hours for the degree to 120. (This total does not include prerequisites.)

**Bioinformatics, Bachelor of Science (College of Information Science & Technology)**

**Second Bachelor's Degree for Bioinformatics**

**General Requirements**

Students who have satisfied the requirements for a first bachelor's degree other than Bioinformatics at the University of Nebraska at Omaha must complete a minimum of 30 additional semester hours at the University for a second bachelor's degree.

**Bioinformatics Requirements (89 hours)**

To obtain Bioinformatics as a second bachelor’s degree, students must complete academic requirements for the degree which include 24 credit hours of IS&T core courses, 11 credit hours of Math courses, 16 credit hours of Biology courses, 14 credit hours of Chemistry courses, and 24 credit hours of Bioinformatics courses. Students must consult an academic advisor in the College of IS&T prior to starting this program. Some transfer coursework may apply; however, 30 of the last 36 hours for the degree must be University of Nebraska at Omaha courses.

**Minor Offered:**

- Bioinformatics Minor (p. 699)

the need for people with degrees in Bioinformatics is even more apparent, with institutions such as the National Institutes of Health (NIH) integrating the large need for a trained and competent biomedical data science workforce as a central theme in their current strategic plan. The College of IS&T’s Bioinformatics degree program is one of the only programs in the Midwest that provides this type of preparation at the undergraduate level.

Examples of careers for graduates of our undergraduate Bioinformatics degree program include:

- Bioinformatics Specialist*
- Statistician/Biostatistician*
- Software Application Developer*
- Bioinformatics Scientist/Analyst
- Scientific Curator
- Computational Biologist
- Database Programmer
- Database Administrator*
- Consultant
- Data Scientist/Wrangler
- Software Engineer
- Research Scientist*
- Biotechnology Application Developer*
- Biotech Entrepreneur

*Classified by the Nebraska Department of Labor as an H3 Career

### Bioinformatics Curriculum Advisory Committee

The College of IS&T’s Bioinformatics (BIOI) and Biomedical Informatics (BMI) faculty hosts an annual BIOI/BMI Curriculum Advisory Committee (CAC) meeting. The CAC is designed to involve alumni and community stakeholders from industry, academia, government, and non-profit organizations to aid the BIOI Undergraduate Program Committee (UPC), BMI Graduate Program Committee (GPC), and BMI Doctoral Program Committee (DPC) in decisions regarding curriculum for each committee’s respective program. The CAC’s objectives are:

- To review the program curriculum and provide recommendations on how to develop or change programs to address the needs of students in making them “workforce ready.”
- To discuss opportunities and potential pathways for students to transition into the workforce through formal (internships, apprenticeships) and informal means.
- To provide input to curriculum committees on how to manage or improve student recruitment to our programs.
- To provide input to curriculum committees on how to manage or improve student retention in our programs.
- To support and encourage involvement of the Omaha metropolitan community in our BIOI/BMI programs.

### BIOI 1000 INTRODUCTION TO BIOINFORMATICS (3 credits)

Bioinformatics is a scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize, and interpret information from genetic sequence data. The field is growing rapidly with the advancement in molecular technology to sequence the genomes of many different organisms. This course will provide an introduction to the field and will examine some of the problems of interest to bioinformaticians and how these relate to biology, computer science, mathematics and engineering. Topics will include an overview of the biology, mathematics and computer science needed to understand these and tools.

**Distribution:** Natural/Physical Science General Education course

- BIOI 4980 SENIOR PROJECT IN BIOINFORMATICS II 2
- BIOI 4870 DATABASE SEARCH AND PATTERN DISCOVERY IN BIOINFORMATICS 3
- BIOI 1000 INTRODUCTION TO BIOINFORMATICS (3 credits)
- MATH 1950 - Satisfies General Education Quantitative Literacy requirement 3

**Total Credits** 120
BIOI 2000 FOUNDATIONS OF BIOINFORMATICS (3 credits)
Bioinformatics is a new scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize and interpret information from genetic sequence data. The field is growing quickly due to rapid advances in sequencing and other biological techniques that allow the genomes of different organisms to be easily sequenced. This course provides an overview of the field and covers the chemical, biological, mathematical and computational foundations of bioinformatics upon which later courses will depend. In addition, it introduces problems of interest to bioinformaticians and the methods and tools used to address them.
Prerequisite(s): BIOI 1000 or BIOL 1450

BIOI 3000 APPLIED BIOINFORMATICS (3 credits)
This course will provide students with the practical skills needed for the analysis of omics data. Topics covered will include biological databases, molecular biology tools (e.g., primer design, contig assembly), gene prediction and mining, database searches, genome comparison, sequence alignments, phylogenetic inference, gene expression data analyses, functional annotation of protein sequences, protein structure and modeling. Specialized software (e.g., Vector NTI) and widely used web-based computation tools (e.g., Entrez, BLAST, ClustalX, Phylip, PyMOL, and SwissPDBviewer) will be illustrated. Multiple approaches for solving particular problems will be presented.
Prerequisite(s): BIOI 2000 and CIST 1400; or permission of instructor.

BIOI 3500 ADVANCED BIOINFORMATICS PROGRAMMING (3 credits)
Because of the volume and complexity of biological data, advanced programming skills are required for researchers in order to get the most out of their data analyses. This course will provide the expanded programming skills necessary to develop software that can exploit the complex information landscape of bioinformatics. Specific topics covered will include molecular biology basics, Unix/Linux shell programming, Perl and BioPerl, databases and using the Perl DBI, and data visualization.
Prerequisite(s): BIOI 3000 and CSCI 1620; or permission of instructor. CSCI 3320 is strongly recommended but not required.

BIOI 4500 INDEPENDENT STUDY (1-3 credits)
This course allows students to research a topic of their interest that is not available in a formal course. The topic to be studied must be agreed upon by the student and the instructor.
Prerequisite(s): Junior or Senior within the Bioinformatics undergraduate program. Not open to non-degree graduate students.

BIOI 4510 BIOINFORMATICS INTERNSHIP (1-3 credits)
The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the Bioinformatics undergraduate program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.
Prerequisite(s): Junior/Senior standing and permission of Director of the School of Interdisciplinary Informatics. Not open to non-degree graduate students.

BIOI 4860 BIOINFORMATICS ALGORITHMS (3 credits)
The main objective of this course is to provide an organized forum for students to understand the foundations of algorithmic design and analysis in the context of health and biological data. The course will present fundamental concepts in algorithms (exhaustive, greedy, graph, heuristic, and more) and explore how those concepts extend to bioinformatics and related fields, such as biomedical informatics, and health informatics. Students will learn about historical context of these algorithms and how they were pivotal in forming more complex modern approaches, and will explore advanced algorithms in their area of interest. Students will also exercise their programming skills with the opportunity to implement and apply bioinformatics algorithms to real data, so to better grasp the technical components of algorithmic design and analysis. (Cross-listed with BMI 8866).
Prerequisite(s): CSCI 3320 or permission of instructor. Prior completion of CSCI 4850 is strongly recommended but not required.

BIOI 4870 DATABASE SEARCH AND PATTERN DISCOVERY IN BIOINFORMATICS (3 credits)
This required course for undergraduate bioinformatics majors provides foundational knowledge on database aspects used in the field and an overview of their applications in bioinformatics, biomedical informatics, and health/clinical informatics. The course begins with a brief review of key concepts in computational molecular biology related to database search/development, database management systems, the difference between primary and secondary databases, and bioinformatics-related aspects of modeling and theory in computer science. The major focus is on the multiple challenges and aspects of bio-database development, search, and pattern discovery. The course uses problem-based learning to help students develop database management skills as they apply to high throughput “omics.” data, the basics of data management, data provenance and governance, standards, and analysis through KDD-based workflows. This course will also consider the fundamentals of artificial intelligence and machine learning as they pertain to bioinformatics, from the perspective of database storage, I/O, and analysis. (Cross-listed with CSCI 8876).
Prerequisite(s): CSCI 4850 or permission of instructor. Not open to non-degree graduate students.

BIOI 4890 COMPUTERIZED GENETIC SEQUENCE ANALYSIS (3 credits)
The goal of this course is to introduce students to major topics in computerized analysis of genetic sequences. In particular the course will allow students to become familiar with the computational tools and software that aid in the modern molecular biology experiments and analysis of experimental results. Following the completion of this course, it is expected that the students will have a basic understanding of the theoretical foundations of the sequence analysis tools and develop competence in evaluating the output from these tools in a biological context. This course will emphasize hands-on experience with the programs for nucleotide and amino acid sequence analysis and molecular phylogeny. (Cross-listed with BMI 8896).
Prerequisite(s): Junior or senior-level standing in the Bioinformatics program or permission from the instructor.

BIOI 4950 SPECIAL TOPICS IN BIOINFORMATICS (3 credits)
This course is intended to provide a mechanism for offering instruction in subject areas that are not covered in other regularly scheduled courses. In general, courses offered under the BIOI 4950 designation will focus on evolving subject areas in bioinformatics.
Prerequisite(s): Prerequisites of a specific offering of BIOI 4950 will be determined by the supervising faculty member and identified in the course proposal. It is anticipated that permission of the faculty member teaching the course will be required for registration.
Bioinformatics Minor

Bioinformatics is a rapidly expanding interdisciplinary field focused on collecting, processing, and analyzing vast amounts of biological and biomedical data, and it has become an indispensable component of biomedical research. The minor in Bioinformatics offers an opportunity for students majoring in other disciplines to acquire the foundations of the field of biomedical research. The minor consists of courses designed to introduce students to the principles of bioinformatics and to provide them with the skills necessary to analyze and interpret biological data.

**Total Credits**: 18

1 A minimum grade of C is required for CIST 1400 and CSCI 1620 as a prerequisite for all subsequent CSCI classes.

2 The number of combined credits from BIOI 4500 and BIOL 4050 cannot exceed 3.

Cybersecurity, Bachelor of Science

**Bachelor of Science in Cybersecurity**

Cybersecurity (CYBR) is an emerging, rapidly expanding science that addresses problems in the fundamental understanding of the design, development, implementation and lifecycle support of secure information systems. The need for secure information systems has become a paramount concern as the computer-enabled, internet-connected, digital-based global society of the 21st century continues to emerge. The lack of adequately secure information systems has been cited as one of the likely impediments to the emergence of the digital society.

**Student Groups**

**NULLify**, UNO’s student-led computer security group. Contact the group at unonullify@gmail.com.

Visit NULLify on Facebook at nullifyuno.

**Fast Track**

The School of Interdisciplinary Informatics (S12) has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate credit hours towards the completion of their undergraduate program as well as the graduate degree program. Students will work with both undergraduate and graduate advisors to ensure graduate classes selected will count toward both programs, should a student wish to earn a graduate degree in a separate College of Information Science & Technology (CIST) area than their undergraduate degree.

**Program Specifics:**

- This program is available for undergraduate students pursuing any CIST undergraduate degree desiring to pursue an MS in either the same or a related CIST field.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.

- Near the end of the undergraduate program, formal application to the graduate program is required. All applicants will need to meet any other admission requirements established for the MS in selected CIST program. The application fee will be waived if the applicant contacts the Office of Graduate Studies for a fee waiver code prior to submitting the MS application.
  - Admission to Fast Track does NOT guarantee admission to the graduate program.
  - The admit term must be after the completion term of the undergraduate degree.

**Contact**

For more information, contact the College of IS&T Academic Advising Office at 402.554.3819.

**Degree Requirements**

**Bachelor of Science in Cybersecurity**

A minimum of 120 credit hours is required for a Bachelor of Science degree in Cybersecurity. Thirty of the last 36 hours must be University of Nebraska at Omaha courses. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.

To obtain a Bachelor of Science in Cybersecurity, a student must fulfill the requirements set out by the NSA's CAE-CO program. Students already enrolled in the Bachelor of Science in Cybersecurity degree program have very few additional requirements to meet in order to complete the Cyber Operations designation:

- PSCI 4260 International Law*
- CYBR 8420 Software Assurance **
