OF NEBRASKA AT
OMAHA CATALOG**

TABLE OF CONTENTS

Undergraduate	13	Fundamental Academic Skills	57
Undergraduate	13	Distribution Requirements	58
Undergraduate Programs A-Z	13	Diversity Requirements	58
Catalog Introduction	15	Community Engagement Opportunities	58
Catalog Purpose	15	Academic Learning Communities	60
Catalog Disclaimers	15	Military Science Minor	61
About UNO	15	Institutional Effectiveness & Student Success	62
Metropolitan University Mission	16	Student Life and Wellbeing	64
Accreditation	16	Additional Campus Services and Support	66
Community Engagement	16	Public Safety	69
University Structure	16	Academic Focus Areas	70
University Leadership	16	College of Arts and Sciences	71
Freedom of Expression	17	Arts and Sciences Minors	76
Family Education Rights and Privacy Act (FERPA)	17	Ancient Mediterranean Studies Minor	76
Student Right to Know/Consumer Information	17	Film Studies Minor	77
State Authorization/Governance Financial Reporting	17	Sustainability Minor	77
Admissions	18	Bioinformatics	78
Application Deadline Dates	18	Bioinformatics, Bachelor of Science (College of Arts and Sciences)	80
Application Process	18	Biology	82
Admission Requirements	18	Biology, Bachelor of Arts	89
Admission Fees	22	Biology, Bachelor of Science	92
International Applicants	22	Biology, Bachelor of Science with a Concentration in Education	95
Admission Decisions	23	Biology Minor	97
Frequently Asked Questions	24	Black Studies	97
Enrollment	24	Black Studies, Bachelor of Science	102
Enrollment	24	Black Studies Minor	104
Course Information	28	Chemistry	104
Academic Calendar	29	Chemistry, Bachelor of Arts	109
Transfer Credit	30	Chemistry, Bachelor of Science	110
Grades	31	Chemistry, Bachelor of Science with a Concentration in Chemistry Education	112
Academic Integrity Policy	33	Chemistry, Bachelor of Science with a Concentration in Medicinal Chemistry	115
Statement of Student Rights and Responsibilities	34	Chemistry Minor	117
Student Code of Conduct	36	Economics	118
Discrimination and Sexual Harassment Policies	48	Economics, Bachelor of Arts	122
Graduation	48	Economics, Bachelor of Science	123
Financing Your Education	50	Economics Minor	124
Office of Financial Support and Scholarships	50	English	124
Federal Financial Aid Policies	50	English, Bachelor of Arts	132
Tuition and Fees	53	Teaching English to Speakers of Other Languages (TESOL) Certificate	140
Tuition and Fees	54	English Minor	141
Residency for Tuition Purposes	55	Environmental Studies	141
General Education Curriculum	56		

Environmental Science, Bachelor of Science with a Concentration in Analytical Sciences	144	Medical Humanities, Bachelor of Arts	262
Environmental Science, Bachelor of Science with a Concentration in Earth Sciences	146	Medical Humanities, Bachelor of Science	265
Environmental Science, Bachelor of Science with a Concentration in Geography and Planning	149	Medical Humanities Minor	267
Environmental Science, Bachelor of Science with a Concentration in Life Science	151	Medieval/Renaissance Studies Minor	270
Environmental Science Minor	153	Molecular and Biomedical Biology	271
Foreign Languages and Literature	154	Molecular and Biomedical Biology, Bachelor of Science	272
Foreign Language and Literature, Bachelor of Arts	162	Molecular and Biomedical Biology, Minor	275
French Minor	168	Native American Studies Minor	276
German Minor	168	Neuroscience	276
Spanish Minor	169	Neuroscience, Bachelor of Science	279
Spanish for Health Sciences Minor	169	Neuroscience Minor	282
General Science	169	Pharmaceutical Sciences	283
General Science, Bachelor of Science	170	Pharmaceutical Sciences Bachelor of Science	283
Geography	174	Philosophy	285
Geography, Bachelor of Arts	178	Philosophy, Bachelor of Arts	290
Geography, Bachelor of Science	181	Philosophy, Bachelor of Arts Concentration in Philosophy of Brains, Minds and Machines	292
Geography Minor	184	Philosophy, Bachelor of Arts Concentration in Ethics, Law and Social-Political Philosophy	294
Geology	184	Philosophy Minor	295
Geology, Bachelor of Arts	187	Ethics Minor	295
Geology, Bachelor of Science	191	Physics	296
Geology Minor	194	Physics, Bachelor of Arts	300
History	194	Physics, Bachelor of Science	302
History, Bachelor of Arts	199	Physics, Bachelor of Science with a Concentration in Biomedical Physics	303
History, Bachelor of Science	200	Physics, Bachelor of Science with a Concentration in Physics Education	306
History Minor	202	Physics Minor	308
Holocaust and Genocide Studies Minor	202	Political Science	308
Human Rights Studies Minor	203	Political Science, Bachelor of Arts	314
Interdisciplinary Studies	204	Political Science, Bachelor of Science	317
Interdisciplinary Studies, Bachelor of Arts	205	Political Science Minor	320
Interdisciplinary Studies, Bachelor of Science	208	Leadership and Public Policy Minor	320
International Studies	211	Psychology	320
International Studies, Bachelor of Arts	212	Psychology, Bachelor of Arts	325
International Studies Minor	218	Psychology, Bachelor of Science	329
Islamic Studies Minor	218	Psychology Minor	334
Latino/Latin American Studies (LLS)	219	Religious Studies	334
Latino/Latin American Studies, Bachelor of Arts	222	Religion, Bachelor of Arts	339
Chicano/Latino Studies Minor	225	Religion Minor	340
Mathematics	226	Sociology & Anthropology	340
Mathematics, Bachelor of Arts	233	Sociology, Bachelor of Arts	347
Mathematics, Bachelor of Science	246	Sociology, Bachelor of Science	349
Mathematics Minor	259	Sociology Minor	352
Medical Humanities	261	Anthropology Minor	352

Women's and Gender Studies	352	Journalism and Media Communication, Bachelor of Arts	438
Women's and Gender Studies, Bachelor of Arts	355	Journalism and Media Communication, Bachelor of Science	441
Women's and Gender Studies Minor	358	Journalism and Media Communication Minor	443
LGBTQ/Sexuality Studies Minor	358	Visual Communication and Culture Minor	443
College of Business Administration (CBA)	359	School of Music	443
Bachelor of Science in Business Administration (BSBA) Degree	362	Music, Bachelor of Arts	455
BSBA as a Second Bachelor's Degree	381	Music Performance, Bachelor of Music	461
International Business Concentration	381	Music Education, Bachelor of Music, K-12 Certification	469
Minors for Non-Business Majors	383	School of the Arts	478
Business Analytics Minor for Non-Business Majors	383	Art and Art History	478
Business for Non-Business Majors Minor	383	Art History, Bachelor of Arts	485
Entrepreneurship for Non-Business Majors Minor	383	Art History Minor	488
Management & Leadership Minor for Non-Business Majors	384	Studio Art, Bachelor of Arts	489
Marketing for Non-Business Majors Minor	384	Studio Art, Bachelor of Fine Arts	498
Real Estate and Land Use Economics, Minor	384	Studio Art Minor	507
Sales Minor for Non-Business Majors	385	Studio Art with K-12 Certification, Bachelor of Arts	507
Logistics & Supply Chain Management for Non-Business Majors Minor	385	Studio Art K12 Certification/Bachelor of Arts in Fine Arts Two or Three Dimensional Dual Degree, BFA	509
Accounting	385	Theatre	510
Accounting Concentration	389	Theatre, Bachelor of Arts	513
Economics	391	Arts Entrepreneurship Minor	519
Economics Concentration	394	Theatre Minor	519
Finance, Banking and Real Estate	395	Musical Theatre Minor	520
Banking and Financial Markets Concentration	398	Writer's Workshop: Creative Writing	520
Business Analytics Concentration	400	Creative Writing, Bachelor of Fine Arts	523
Business Finance Concentration	401	Creative Writing Minor	525
Investment Science and Portfolio Management Concentration	403	Screenwriting Minor	525
Legal Studies Concentration	405	College of Education Health and Human Sciences	526
Real Estate and Land Use Economics Concentration	406	Biomechanics	530
UNO Real Estate Certificate	408	Biomechanics, Bachelor of Science	532
Management	409	Biomechanics Minor	534
Management & Leadership Concentration	411	Sports Biomechanics Minor	534
Human Resource Management Concentration	413	Health and Kinesiology	534
Logistics & Supply Chain Management Concentration	414	Public Health, Bachelor of Science	544
Marketing	416	Kinesiology, Bachelor of Science	546
Entrepreneurship Concentration	420	Human Performance Minor	548
Marketing Concentration	422	Sports Medicine Minor	548
Sales Concentration	423	Public Health Minor	548
College of Communication, Fine Arts and Media	425	Worksite Wellness Minor	548
School of Communication	428	Teacher Education	548
Communication Studies, Bachelor of Arts	436	Education - Early Childhood Inclusive, Bachelor of Science	556
Communication Studies, Bachelor of Science	437	Education - Elementary Education, Bachelor of Science	558
Communication Studies Minor	438	Education - Library Science, Bachelor of Science	566

Education - Secondary Education, Bachelor of Science	568	Pre-Engineering	652
Art (PK-12) Endorsement	573	Pre-Agricultural Engineering	652
Biology (7-12) Endorsement	573	Pre-Biological Systems Engineering	653
Business, Marketing, Information Technology (BMIT) (6-12) Endorsement	575	Pre-Mechanical Engineering	653
Chemistry (7-12) Endorsement	576	Robotics Engineering Minor	654
Language Arts/English (7-12) Endorsement	578	Construction	655
Secondary English (7-12) with ESL Supplemental Endorsement	579	Construction Engineering, Bachelor of Science	659
Secondary English (7-12) with Additional Subject Endorsement	581	Construction Management, Bachelor of Science	660
Secondary English (7-12) with Inclusive Practices Endorsement	582	Construction Management Minor	662
World Language - French (7-12) Endorsement	582	Achievement-Centered Education Electives	663
World Language - German (7-12) Endorsement	583	College of Information Science & Technology	665
Mathematics (6-12) Endorsement	585	Computer Science	668
Middle Level (5-9) Endorsement	586	Computer Science, Bachelor of Science	673
Music (P-12) Endorsement	589	Artificial Intelligence Concentration	677
Physics (7-12) Endorsement	589	Game Programming Concentration	678
Physical Education (P-6, 7-12) Endorsement	591	Software Engineering Concentration	678
Physical Education (7-12) and Health (7-12) Endorsement	593	Internet Technologies (iT) Concentration for Computer Science Majors	678
Science (7-12) Endorsement	595	Information Assurance Concentration	678
Social Science (7-12) Endorsement	596	Computer Science Minor	679
World Language - Spanish (7-12) Endorsement	598	Information Systems and Quantitative Analysis	679
Deaf/Hard of Hearing (7-12) Endorsement	599	Management Information Systems, Bachelor of Science	683
Special Education (7-12) Endorsement	601	Management Information Systems Minor	687
English as a Second Language (7-12) Endorsement	601	Data Management Certificate	687
Coaching (7-12) Endorsement	601	Systems Development Certificate	688
Information Technology (PK-12) Endorsement	602	Information Technology Administration Certificate	688
Worked-Based Learning (9-12) Endorsement	602	Interdisciplinary Informatics (Si2)	688
Special Education and Communication Disorders	602	Bioinformatics, Bachelor of Science (College of Information Science & Technology)	694
Education - Special Education, Bachelor of Science	608	Bioinformatics Minor	699
Education - Deaf/Hard of Hearing Program	612	Cybersecurity, Bachelor of Science	699
Communication Disorders	612	Cybersecurity Minor	704
American Sign Language (ASL) Minor	616	Information Technology (IT) Innovation, Bachelor of Science	704
College of Engineering	616	IT Innovation Minor	710
Architectural Engineering, Bachelor of Science	621	College of Public Affairs and Community Service	710
Civil Engineering, Bachelor of Science	625	Aviation	713
Electrical & Computer Engineering	631	Aviation, Bachelor of Science	718
Computer Engineering, Bachelor of Science	637	Criminology and Criminal Justice	722
Electrical Engineering, Bachelor of Science	639	Criminology & Criminal Justice, Bachelor of Science	728
Environmental Engineering, Bachelor of Science	643	Criminology & Criminal Justice Minor	730
Engineering Leadership Minor	646	Policing Minor	730
Environmental Engineering Minor	649	Victimology and Victim Services Minor	731
International Engineering Minor	650	Division of Continuing Studies	731
		Bachelor of Multidisciplinary Studies	732

Emergency Management and Disaster Science	745	Electrical and Computer Engineering (ECEN)	830
Emergency Management (BSEM), Bachelor of Science	750	Emergency Management (EMGT)	836
Emergency Management Minor	755	Engineering (ENGR)	837
Fire Service Management Minor	755	English (ENGL)	839
Tribal Management and Emergency Services Minor	756	Entrepreneurialship (ENTR)	846
Tribal Management and Emergency Services Certificate	756	Environmental Engineering (ENVE)	847
Gerontology	756	Environmental Studies (ENVN)	848
Gerontology, Bachelor of Science	760	Exploratory (EXPL)	849
Gerontology Certificate	762	Finance and Banking (FNBK)	849
Gerontology Minor	763	Fire Service Management (FSMT)	851
BSSW Program	763	Foreign Language & Literature (FLNG)	852
Social Work, Bachelor of Science	766	French (FREN)	852
Cross-Sector Collaborative Leadership Minor	768	Geography (GEOG)	854
Nonprofit Management Minor	769	Geology (GEOL)	857
Public Administration Minor	769	German (GERM)	859
Goodrich Scholarship Program	770	Gerontology (GERO)	860
Courses A-Z	770	Goodrich Program (GDRH)	862
Accounting (ACCT)	772	Health & Kinesiology (HEKI)	863
Aerospace Studies (AERO)	773	History (HIST)	863
Anthropology (ANTH)	774	Honors Program (HONR)	867
Architectural Engineering (AREN)	775	Horticulture (HORT)	867
Art (ART)	777	Humanities (HUMN)	867
Aviation (AVN)	784	IT Innovation (ITIN)	868
Bioinformatics (BIOI)	787	Information Systems & Quantitative Analysis (ISQA)	869
Biology (BIOL)	788	Interdisciplinary Studies (INDS)	872
Biomechanics (BMCH)	794	International Studies (INST)	872
Black Studies (BLST)	795	Japanese (JAPN)	872
Business Administration (BSAD)	799	Journalism and Media Communication (JMC)	873
Chemical Engineering (CHME)	800	Kinesiology (KINS)	876
Chemistry (CHEM)	801	Latin (LATN)	880
Chinese (CHIN)	804	Latino/Latin American Studies (LLS)	880
Civil Engineering (CIVE)	805	Law and Society (LAWS)	882
College of Information Science & Technology (CIST)	808	Management (MGMT)	883
Communication Disorders (CDIS)	809	Marketing (MKT)	885
Communication Studies (CMST)	810	Mathematics (MATH)	888
Computer Science (CSCI)	813	Mathematics for Teachers (MTCH)	892
Construction Engineering (CONE)	818	Mechanical Engineering (MECH)	893
Construction Management (CNST)	819	Medical Humanities (MEDH)	893
Cooperative Education (COOP)	821	Military Science (MILS)	894
Counseling (COUN)	821	Multidisciplinary Studies (MLTI)	895
Criminology and Criminal Justice (CRCJ)	822	Music (MUS)	896
Cybersecurity (CYBR)	825	Native American Studies (NAMS)	906
Economics (ECON)	827	Natural Sciences (NSCI)	906
Educational Professional Sequence (EDUC)	830	Neuroscience (NEUR)	908

Philosophy (PHIL)	910	Enrollment	977
Physical Education Activities (PEA)	915	Enrollment	977
Physics (PHYS)	916	Course Information	981
Political Science (PSCI)	919	Academic Calendar	982
Psychology (PSYC)	925	Academic Program Requirements	983
Public Administration (PA)	929	Master's, EdS, and Certificate Programs	983
Public Health & Behavior (PHHB)	931	Doctoral Programs	985
Real Estate & Land Use Economics (RELU)	932	Grades & Quality of Work Standards	987
Recreation-Leisure Study (RLS)	933	Grades	987
Religion (RELI)	934	Quality of Work Standards	988
Russian (RUSS)	938	Academic Appeals	989
Science, Tech, Engr, and Math (STEM)	938	Academic Integrity Policy	992
Social Sciences (SSCI)	938	Statement of Student Rights and Responsibilities	992
Social Work (SOWK)	938	Student Code of Conduct	995
Sociology (SOC)	941	Discrimination and Sexual Harassment Policies	1006
Spanish (SPAN)	945	Graduation	1007
Special Education & Communication Disorders (SPED)	948	Financing your Education	1008
Statistics (STAT)	952	Office of Financial Support and Scholarships	1008
Supply Chain Management (SCMT)	953	Federal Financial Aid Policies	1008
Sustainability (SUST)	955	Graduate Assistantships	1011
Teacher Education (TED)	955	Tuition and Fees	1013
Theatre (THEA)	959	Tuition and Fees	1013
University Seminar (US)	962	Residency for Tuition Purposes	1014
Urban Studies (UBNS)	963	Community Engagement Opportunities	1015
Women's and Gender Studies (WGST)	963	Institutional Effectiveness & Student Success	1016
Writer's Workshop (WRWS)	965	Student Life and Wellbeing	1019
Graduate	969	Additional Campus Services and Support	1021
Graduate	969	Public Safety	1024
Graduate Programs A-Z	969	Graduate Degree Programs, Certificates & Minors	1025
Catalog Introduction	970	Accounting, MACC	1026
Catalog Purpose	970	Athletic Training, MA	1030
Catalog Disclaimers	971	Biology, MS	1033
Graduate College	971	Biomedical Science Certificate	1039
About UNO	972	Business for Bioscientists Certificate	1040
Metropolitan University Mission	972	Biomechanics, MS	1041
Accreditation	972	Biomedical Informatics	1044
Community Engagement	972	Biomedical Informatics, MS	1045
University Structure	972	Biomedical Informatics, PhD	1048
University Leadership	972	Business Administration	1052
Freedom of Expression	973	Business Administration, MBA	1060
Family Education Rights and Privacy Act (FERPA)	973	Business Administration-Executive MBA	1069
Student Right to Know/Consumer Information	973	Business Administration, MBA and Management Information Systems, MS (MBA/MIS)	1078
State Authorization/Governance Financial Reporting	974	Business Administration, MBA and Economics, MS (MBA/ECON)	1082
Admissions	974		

Business Administration, MBA and Public Health, MPH (MBA/MPH)	1087	Economic Education Certificate	1196
Business Administration, MBA and UNMC PharmD (MBA/PharmD)	1091	Homeland Security Focused Business Analytics Certificate	1196
Business Administration, MBA and UNMC Doctor of Physical Therapy	1093	Educational Leadership	1197
Business Administration, MBA and UNMC Nursing (MBA/MSN)	1094	Educational Leadership, MS	1200
Business Administration, MBA and UNMC Master of Perfusion Science	1096	Educational Administration & Supervision, EdS	1202
Business Administration, MBA and UNMC Master of Physician Assistant Studies	1098	Educational Administration, EdD	1203
Business for Bioscientists Certificate	1040	Elementary Education, MS	1204
Business in Health Administration Certificate	1100	English	1217
Executive Business Certificate	1101	English, MA	1222
Executive Business Analytics Certificate	1102	Advanced Writing Certificate	1223
Executive Business Leadership Certificate	1102	Literature and Culture Certificate	1224
Human Resources and Training Certificate	1103	Teaching English to Speakers of Other Languages Certificate	1226
Supply Chain Management Certificate	1105	Technical Communication Certificate	1226
Communication	1106	Biomechanics and Kinesiology, PhD	1227
Communication, MA	1109	Geography	1233
Communication Certificate	1111	Geography, MA	1236
Human Resources and Training Certificate	1103	Geographic Information Science Certificate	1238
Computer Science	1113	Gerontology	1239
Computer Science, MS	1119	Gerontology, PhD	1241
Artificial Intelligence Certificate	1123	Gerontology, MA	1242
Communication Networks Certificate	1124	Gerontology Certificate	1243
Machine Learning Certificate	1125	Health and Kinesiology, MS	1243
Software Engineering Certificate	1125	History	1245
Systems and Architecture Certificate	1126	History, MA	1247
Computer Science Education, MS	1127	History Certificate	1250
Computer Science Education Certificate	1129	History and Government, MA	1250
Counseling, MS	1130	Information Technology	1258
Criminology and Criminal Justice	1137	Information Technology, Executive MS	1258
Criminology and Criminal Justice, MA	1140	Information Technology, PhD	1260
Criminology and Criminal Justice, MS	1141	IT Innovation, MS	1275
Criminology and Criminal Justice, PhD	1143	Language Teaching, MA	1278
Social Work, MSW and Criminology and Criminal Justice, MS (MSW/CRCJ)	1145	French Certificate	1283
Managing Juvenile and Adult Populations Certificate	1147	Spanish Certificate	1284
Critical and Creative Thinking, MA	1148	Teaching Spanish to Heritage/Bilingual Learners Certificate	1285
Cybersecurity, MS	1152	Literacy, MS	1286
Cybersecurity Certificate	1156	Management Information Systems	1294
Data Science, MS	1157	Management Information Systems, MS	1299
Economics	1187	Business Administration, MBA and Management Information Systems, MS (MBA/MIS)	1078
Economics, MA	1189	Public Administration, MPA and Management Information Systems, MS (MPA/MIS)	1309
Economics, MS	1192	Data Analytics Certificate	1310
		Data Management Certificate	1312

Information Assurance Certificate	1313	Sociology Certificate	1414
Project Management Certificate	1314	Special Education	1415
Systems Analysis and Design Certificate	1315	Special Education, MS	1418
Mathematics	1317	Dyslexia Specialist Certificate	1421
Mathematics, MA	1321	Speech-Language Pathology, MS	1421
Mathematics, MAT	1324	Urban Studies	1426
Mathematics, MS	1325	Urban Studies, MS	1427
Secondary Mathematics Specialist Certificate	1329	Urban Leadership Certificate	1428
Music, MM	1330	Writing, MFA	1429
Conducting Certificate	1334	Graduate Certificates	1431
Kodaly Certificate	1335	Graduate Minors	1431
Political Science	1336	Ancient Mediterranean Studies Minor	1431
Political Science, MS	1340	Anthropology Minor	1432
Global Information Operations Certificate	1345	Art History Minor	1432
Government Certificate	1346	Black Studies Minor	1432
Intelligence and National Security Certificate	1348	Business Administration Minor	1432
Psychology	1349	Criminology and Criminal Justice Minor	1432
Psychology, MA	1355	Economics Minor	1433
Psychology, PhD	1357	English Minor	1433
Industrial/Organizational Psychology, MS	1360	French Minor	1433
School Psychology, EdS	1361	Geography Minor	1433
School Psychology, MS	1361	German Minor	1433
Applied Behavior Analysis, MS	1362	Gerontology Minor	1433
Applied Behavior Analysis Certificate	1363	History Minor	1433
Human Resources and Training Certificate	1103	Management Information Systems Minor	1433
Public Administration	1366	Mathematics Minor	1433
Public Administration, MPA	1370	Medieval/Renaissance Studies Minor	1434
Public Administration, PhD	1374	Native American Studies Minor	1434
Public Administration, MPA and Social Work, MSW (MPA/ MSW)	1375	Political Science Minor	1434
Public Administration, MPA and Management Information Systems, MS (MPA/MIS)	1309	Religious Studies Minor	1434
Public Management Certificate	1380	Sociology Minor	1434
Nonprofit Management Certificate	1380	Spanish Minor	1435
Secondary Education, MS	1381	Graduate Courses A-Z	1435
Social Work	1396	Accounting (ACCT)	1436
Social Work, MSW	1400	Anthropology (ANTH)	1437
Social Work, MSW and Criminology and Criminal Justice, MS (MSW/CRCJ)	1145	Architectural Engineering (AREN)	1438

UNDERGRADUATE

2023-2024 Undergraduate Catalog

Undergraduate Programs A-Z

Undergraduate Programs A-Z

A

- Accounting Concentration (p. 389)
- American Sign Language (ASL) Minor (p. 616)
- Ancient Mediterranean Studies Minor (p. 76)
- Anthropology Minor (p. 352)
- Architectural Engineering, Bachelor of Science (p. 621)
- Art History Minor (p. 488)
- Art History, Bachelor of Arts (p. 485)
- Artificial Intelligence Concentration (p. 677)
- Arts Entrepreneurship Minor (p. 519)
- Aviation, Bachelor of Science (p. 718)

B

- Bachelor of Multidisciplinary Studies (p. 732)
- Bachelor of Science in Business Administration (BSBA) Degree (p. 362)
- Banking and Financial Markets Concentration (p. 398)
- Bioinformatics Minor (p. 699)
- Bioinformatics, Bachelor of Science (College of Arts and Sciences) (p. 80)
- Bioinformatics, Bachelor of Science (College of Information Science & Technology) (p. 694)
- Biology Minor (p. 97)
- Biology, Bachelor of Arts (p. 89)
- Biology, Bachelor of Science (p. 92)
- Biology, Bachelor of Science with a Concentration in Education (p. 95)
- Biomechanics Minor (p. 534)
- Biomechanics, Bachelor of Science (p. 532)
- Black Studies Minor (p. 104)
- Black Studies, Bachelor of Science (p. 102)
- BSBA as a Second Bachelor's Degree (p. 381)
- Business Analytics Concentration (p. 400)
- Business Analytics Minor for Non-Business Majors (p. 383)
- Business Finance Concentration (p. 401)
- Business for Non-Business Majors Minor (p. 383)

C

- Chemistry Minor (p. 117)
- Chemistry, Bachelor of Arts (p. 109)
- Chemistry, Bachelor of Science (p. 110)
- Chemistry, Bachelor of Science with a Concentration in Chemistry Education (p. 112)
- Chemistry, Bachelor of Science with a Concentration in Medicinal Chemistry (p. 115)
- Chicano/Latino Studies Minor (p. 225)
- Civil Engineering, Bachelor of Science (p. 625)
- Communication Studies Minor (p. 438)

- Communication Studies, Bachelor of Arts (p. 436)
- Communication Studies, Bachelor of Science (p. 437)
- Computer Engineering, Bachelor of Science (p. 637)
- Computer Science Minor (p. 679)
- Computer Science, Bachelor of Science (p. 673)
- Construction Engineering, Bachelor of Science (p. 659)
- Construction Management, Bachelor of Science (p. 660)
- Creative Writing Minor (p. 525)
- Creative Writing, Bachelor of Fine Arts (p. 523)
- Criminology & Criminal Justice Minor (p. 730)
- Criminology & Criminal Justice, Bachelor of Science (p. 728)
- Cross-Sector Collaborative Leadership Minor (p. 768)
- Cybersecurity Minor (p. 704)
- Cybersecurity, Bachelor of Science (p. 699)

D

- Data Management Certificate (p. 687)

E

- Economics Concentration (p. 394)
- Economics Minor (p. 124)
- Economics, Bachelor of Arts (p. 122)
- Economics, Bachelor of Science (p. 123)
- Education - Communication Disorders (p. 612)
- Education - Deaf/Hard of Hearing Program (p. 612)
- Education - Early Childhood Inclusive, Bachelor of Science (p. 556)
- Education - Elementary Education, Bachelor of Science (p. 558)
- Education - Library Science, Bachelor of Science (p. 566)
- Education - Secondary Education, Bachelor of Science (p. 568)
- Education - Special Education, Bachelor of Science (p. 608)
- Electrical Engineering, Bachelor of Science (p. 639)
- Emergency Management (BSEM), Bachelor of Science (p. 750)
- Emergency Management Minor (p. 755)
- Engineering Leadership Minor (p. 646)
- English Minor (p. 141)
- English, Bachelor of Arts (p. 132)
- Entrepreneurship Concentration (p. 420)
- Entrepreneurship for Non-Business Majors Minor (p. 383)
- Environmental Science Minor (p. 153)
- Environmental Science, Bachelor of Science with a Concentration in Analytical Sciences (p. 144)
- Environmental Science, Bachelor of Science with a Concentration in Earth Sciences (p. 146)
- Environmental Science, Bachelor of Science with a Concentration in Geography and Planning (p. 149)
- Environmental Science, Bachelor of Science with a Concentration in Life Science (p. 151)
- Ethics Minor (p. 295)

F

- Film Studies Minor (p. 77)
- Fire Service Management Minor (p. 755)
- Foreign Languages and Literature, Bachelor of Arts (p. 162)
- French Minor (p. 168)

G

- Game Programming Concentration (p. 678)
- General Science, Bachelor of Science (p. 170)
- Geography Minor (p. 184)
- Geography, Bachelor of Arts (p. 178)
- Geography, Bachelor of Science (p. 181)
- Geology Minor (p. 194)
- Geology, Bachelor of Arts (p. 187)
- Geology, Bachelor of Science (p. 191)
- German Minor (p. 168)
- Gerontology Certificate (p. 762)
- Gerontology Minor (p. 763)
- Gerontology, Bachelor of Science (p. 760)

H

- History Minor (p. 202)
- History, Bachelor of Arts (p. 199)
- History, Bachelor of Science (p. 200)
- Holocaust and Genocide Studies Minor (p. 202)
- Human Performance Minor (p. 548)
- Human Resource Management Concentration (p. 413)
- Human Rights Studies Minor (p. 203)

I

- Information Assurance Concentration (p. 678)
- Information Technology (IT) Innovation, Bachelor of Science (p. 704)
- Information Technology Administration Certificate (p. 688)
- Interdisciplinary Studies, Bachelor of Arts (p. 205)
- Interdisciplinary Studies, Bachelor of Science (p. 208)
- International Business Concentration (p. 381)
- International Studies Minor (p. 218)
- International Studies, Bachelor of Arts (p. 212)
- Internet Technologies (iT) Concentration for Computer Science Majors (p. 678)
- Investment Science and Portfolio Management Concentration (p. 403)
- Islamic Studies Minor (p. 218)
- IT Innovation Minor (p. 710)

J

- Journalism and Media Communication Minor (p. 443)
- Journalism and Media Communication, Bachelor of Arts (p. 438)
- Journalism and Media Communication, Bachelor of Science (p. 441)

K

- Kinesiology, Bachelor of Science in Kinesiology (p. 546)

L

- Latino/Latin American Studies, Bachelor of Arts (p. 222)
- Leadership and Public Policy Minor (p. 320)
- Legal Studies Concentration (p. 405)
- LGBTQ/Sexuality Studies Minor (p. 358)
- Logistics & Supply Chain Management Concentration (p. 414)
- Logistics & Supply Chain Management for Non-Business Majors Minor (p. 385)

M

- Management & Leadership Concentration (p. 411)
- Management and Leadership Minor for Non-Business Majors (p. 384)
- Management Information Systems Minor (p. 687)
- Management Information Systems, Bachelor of Science (p. 683)
- Marketing Concentration (p. 422)
- Marketing for Non-Business Majors Minor (p. 384)
- Mathematics Minor (p. 259)
- Mathematics, Bachelor of Arts (p. 233)
- Mathematics, Bachelor of Science (p. 246)
- Medical Humanities Minor (p. 267)
- Medical Humanities, Bachelor of Arts (p. 262)
- Medical Humanities, Bachelor of Science (p. 265)
- Medieval/Renaissance Studies Minor (p. 270)
- Military Science Minor (p. 61)
- Molecular and Biomedical Biology, Bachelor of Science (p. 272)
- Molecular and Biomedical Biology, Minor (p. 275)
- Music Education, Bachelor of Music, K-12 Certification (p. 469)
- Music Performance, Bachelor of Music (p. 461)
- Music, Bachelor of Arts (p. 455)
- Musical Theatre Minor (p. 520)

N

- Native American Studies Minor (p. 276)
- Neuroscience Minor (p. 282)
- Neuroscience, Bachelor of Science (p. 279)
- Nonprofit Management Minor (p. 769)

P

- Pharmaceutical Sciences (p. 283)
- Philosophy Minor (p. 295)
- Philosophy, Bachelor of Arts (p. 290)
- Philosophy, Bachelor of Arts Concentration in Ethics, Law and Social-Political Philosophy (p. 294)
- Philosophy, Bachelor of Arts Concentration in Philosophy of Brains, Minds and Machines (p. 292)
- Physics Minor (p. 308)
- Physics, Bachelor of Arts (p. 300)
- Physics, Bachelor of Science (p. 302)
- Physics, Bachelor of Science with a Concentration in Biomedical Physics (p. 303)
- Physics, Bachelor of Science with a Concentration in Physics Education (p. 306)
- Policing Minor (p. 730)
- Political Science Minor (p. 320)
- Political Science, Bachelor of Arts (p. 314)
- Political Science, Bachelor of Science (p. 317)
- Pre-Agricultural Engineering (p. 652)
- Pre-Biological Systems Engineering (p. 653)
- Pre-Mechanical Engineering (p. 653)
- Psychology Minor (p. 334)
- Psychology, Bachelor of Arts (p. 325)
- Psychology, Bachelor of Science (p. 329)
- Public Administration Minor (p. 769)
- Public Health Minor (p. 548)
- Public Health, Bachelor of Science (p. 544)

R

- Real Estate and Land Use Economics Concentration (p. 406)
- Real Estate and Land Use Economics, Minor (p. 384)
- Religion Minor (p. 340)
- Religion, Bachelor of Arts (p. 339)
- Robotics Engineering Minor (p. 654)

S

- Sales Concentration (p. 423)
- Sales Minor for Non-Business Majors (p. 385)
- Screenwriting Minor (p. 525)
- Social Work, Bachelor of Science (p. 766)
- Sociology Minor (p. 352)
- Sociology, Bachelor of Arts (p. 347)
- Sociology, Bachelor of Science (p. 349)
- Software Engineering Concentration (p. 678)
- Spanish for Health Sciences Minor (p. 169)
- Spanish Minor (p. 169)
- Sports Biomechanics Minor (p. 534)
- Sports Medicine Minor (p. 548)
- Studio Art K12 Certification/Bachelor of Arts in Fine Arts Two or Three Dimensional Dual Degree, BFA (p. 509)
- Studio Art Minor (p. 507)
- Studio Art with K-12 Certification, Bachelor of Arts (p. 507)
- Studio Art, Bachelor of Arts (p. 489)
- Studio Art, Bachelor of Fine Arts (p. 498)
- Sustainability Minor (p. 77)
- Systems Development Certificate (p. 688)

T

- Teaching English to Speakers of Other Languages (TESOL) Certificate (p. 140)
- Theatre Minor (p. 519)
- Theatre, Bachelor of Arts (p. 513)
- Tribal Management and Emergency Services Certificate (p. 756)
- Tribal Management and Emergency Services Minor (p. 756)

U

- UNO Real Estate Certificate (p. 408)

V

- Victimology and Victim Services Minor (p. 731)
- Visual Communication and Culture Minor (p. 443)

W

- Women's and Gender Studies (p. 352)
- Women's and Gender Studies Minor (p. 358)
- Women's and Gender Studies, Bachelor of Arts (p. 355)
- Worksite Wellness Minor (p. 548)

Catalog Introduction

- Catalog Purpose (p. 15)
- Catalog Disclaimers (p. 15)

Catalog Purpose

The catalog is a comprehensive resource that provides important information for students' academic careers at UNO. The catalog contains official descriptions of academic programs, prerequisites, courses, and degree requirements. In addition, the catalog provides an overview of academic policies and procedures, including admissions, enrollment, grading, and financial information.

Catalog Disclaimers

Discontinuance of Program Offerings

Acceptance of registration by the University of Nebraska and admission to any educational program of the University does not constitute a contract or warranty that the University will continue to offer the program in which a student is enrolled. The University expressly reserves the right to change, phase out, or discontinue any program.

The listing of courses contained in any University bulletin, catalog, or schedule is by way of announcement only and shall not be regarded as an offer of contract. The University expressly reserves the right to:

1. Add or delete courses from its offerings;
2. Change times or locations of courses or programs;
3. Change academic calendars without notice;
4. Cancel any course for insufficient registrations, or
5. Revise or change rules, charges, fees, schedules, courses, requirements for degrees, and any other policy or regulation affecting students, including, but not limited to, evaluation standards, whenever the same is considered to be in the best interests of the University.

University's Right to Change

The University and its various colleges, divisions, and departments reserve the right to change the rules controlling admission to, instruction in, and graduation from the University or its various divisions. Such regulations are operative whenever University authorities deem necessary and apply not only to prospective students, but also to currently enrolled students.

The University also reserves the right to withdraw courses, to reassign instructors and to change tuition and fees at any time. In some cases, prerequisites for courses offered at the University are effective even if they are not listed in this catalog. See the current class schedule or your advisor for more information.

NOTE: Modifications in the academic calendar and program could be necessitated by emergency conditions.

About UNO

Located in one of America's best cities to live, work and learn, the University of Nebraska at Omaha (UNO) is Nebraska's premier metropolitan university. With more than 15,000 students enrolled in 200-plus programs of study, UNO is recognized nationally for its online education, graduate education, military friendliness, and community engagement efforts. Founded in 1908, UNO has served learners of all backgrounds for more than 100 years and is dedicated to another century of excellence both in the classroom and in the community.

- Metropolitan University Mission (p. 16)
- Accreditation (p. 16)

- University Leadership (p. 16)
- Freedom of Expression (p. 17)
- Family Education Rights and Privacy Act (FERPA) (p. 17)
- Student Right to Know/Consumer Information (p. 17)
- State Authorization/Governance Financial Reporting (p. 17)

Metropolitan University Mission

Mission Statement

As a metropolitan university of distinction, Carnegie Doctoral Research Institution, and one of the first universities to earn the Carnegie Community Engagement Classification, the University of Nebraska at Omaha (UNO) transforms and improves the quality of life locally, nationally and globally.

The “metropolitan university,” defined in its simplest terms, is an institution that accepts all of higher education’s traditional values in teaching, research, and service, but takes upon itself the additional responsibility of providing engaged leadership within the metropolitan region by using its human and financial resources as partners to improve the region’s quality of life. Adapted from Paige E. Mulholland’s “Aligning Missions with Public Expectations: The Case of the Metropolitan Universities,” Metropolitan Universities, 1995.

Learn more about the UNO metropolitan mission (<https://www.unomaha.edu/about-uno/mission.php>).

Accreditation

The University of Nebraska at Omaha (UNO) is accredited by the Higher Learning Commission, which is an independent corporation founded in 1895. The commission can be contacted at 230 South LaSalle Street, Suite 7-500, Chicago, IL. 60604; telephone 800.621.7440/312.263.0456; fax 312.263.7462; email info@hlcommission.org. Higher Learning Commission accreditation applies to the entire institution, all its programs, and all its locations.

In addition, where applicable, a number of programs have been awarded discipline-specific accreditation (<https://www.unomaha.edu/accreditation/programs/>). Prospective and enrolled students are encouraged to check with department/school advisors for additional information about program accreditation in relation to specific programs.

Community Engagement

UNO is Nebraska's metropolitan university – a university with strong academic values and significant relationships with our community that transforms and improves life. Community engagement and service are fundamental components of UNO's identity. This commitment to engagement is reflected in UNO's academics, student body, partnerships, and institutional framework.

Learn more about the commitment to engagement (<https://www.unomaha.edu/campus-commitment-to-community-engagement/>).

University Structure

UNO is part of the Nebraska University system. The system has four university campuses: UNK, UNL, UNMC, and UNO. The campuses are led by the University President and the president reports to the Board of Regents which is an elected body. Each campus is led by a chancellor who manages an administrative team of vice chancellors who, in turn, oversee different aspects of campus, including academic affairs and student success.

Within UNO, there are six different colleges, each containing different departments or schools. The deans are the top administrators of the colleges. Department chairs or school directors oversee the faculty, staff, and academic processes of the department/school. If you are unsure of your college affiliation, your advisor can assist you in determining the college in which your degree resides.

- College of Arts and Sciences (<https://www.unomaha.edu/college-of-arts-and-sciences/>)
- College of Business Administration (<https://www.unomaha.edu/college-of-business-administration/>)
- College of Communication, Fine Arts, and Media (<https://www.unomaha.edu/college-of-communication-fine-arts-and-media/>)
- College of Education, Health, and Human Sciences (<https://www.unomaha.edu/college-of-education/>)
- College of Information Science & Technology (<https://www.unomaha.edu/college-of-information-science-and-technology/>)
- College of Public Affairs and Community Service (<https://www.unomaha.edu/college-of-public-affairs-and-community-service/>)

All UNO graduate programs are administered by the UNO Office of Graduate Studies (<https://www.unomaha.edu/graduate-studies/>), which is part of the University of Nebraska Graduate College.

University Leadership Board of Regents

The Board of Regents consists of eight voting members elected by district for six-year terms, and four non-voting student Regents, one from each campus, who serve as student body president.

President

Walter, "Ted" Carter, Jr. - President, University of Nebraska
Meet the President (<https://nebraska.edu/president/meet-the-president/>)

UNO Administration Chancellor

Joanne Li, Ph.D., CFA Chancellor

Executive Leadership Team

Deborah Smith-Howell, Ph.D., Senior Advisor to the Chancellor

Ni (Phil) He, Ph.D., Senior Vice Chancellor for Academic Affairs

Sarah Myers, Ph.D., Interim Associate Vice Chancellor for Research and Creative Activity

Bret Blackman, Vice President for Information Technology

Keristiena Dodge, Chief of Staff to the Chancellor

Adrian Dowell, Vice Chancellor, Athletics

Carol Kirchner, Vice Chancellor for Business and Finance

Rich Klein, Ph.D., Vice Chancellor of Institutional Effectiveness & Student Success

Victoria Kohout, Chief of Government and Community Relations

Jaci Lindburg, Ph.D., Associate Vice Chancellor for Innovative and Learning-Centric Institution

Sarah Thurin, Interim Chief Communication & Marketing Officer

A.T. Miller, Chief Diversity Officer

Drew Nielsen, Chief Compliance Officer

Cathy Pettid, Associate Vice Chancellor for Student Life and Wellbeing

Sarah Woods, MPA, Chief Engagement Officer

Lauren Miltenberger, Vice President for UNO Advancement

Deans

Melanie Bloom, Ph.D., Interim Dean of the College of Arts and Sciences

Michelle Trawick, Ph.D., Dean of the College of Business Administration

Michael Hilt, Ph.D., Dean of the College of Communication, Fine Arts and Media

Nancy Edick, Ed.D., Dean of the College of Education, Health, and Human Sciences

Martha Garcia-Murillo, Ph.D., Dean of the College of Information Science & Technology

John Bartle, Ph.D., Dean of the College of Public Affairs and Community Service

David Richards, MLIA, MA, Dean of Library Services

Juan Casas, Ph.D., Dean of the Office of Graduate Studies

Learn more about the UNO Administration (<https://www.unomaha.edu/about-uno/administration.php>).

Freedom of Expression

The University of Nebraska honors the First Amendment of the U.S. Constitution and has long dedicated itself to the free exchange of ideas. The purpose of this policy is to articulate, clarify and underscore that long-standing commitment in a manner that furthers both freedom of expression and the University's mission of teaching, research and public service. The first section of this policy sets forth the University's and the Board of Regents' commitment to the tenets of Free Expression; the second section provides a framework for campuses to provide what are referred to as "facilities use plans" or programs applicable to particular spaces and resources on their campuses, consistent with that commitment, the law, and the University's mission; and the final section is a mandate for education with respect to the rights surrounding the First Amendment.

Read the full Freedom of Expression Policy (<https://nebraska.edu/-/media/unca/docs/offices-and-policies/policies/board-governing-documents/board-of-regents-policies.pdf>).

Adopted by the Board of Regents of the University of Nebraska on December 4 2020 (RP 6.4.10).

Family Education Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) of 1974 affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student's education records.
2. The right to request the amendment of the student's education records to ensure they are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent FERPA authorizes disclosure without consent.
4. The right to file with the U.S. Department of Education a complaint concerning alleged failures by the University of Nebraska at Omaha to comply with the requirements of FERPA.
5. The right to obtain a copy of the University of Nebraska at Omaha's Student Records Policy. A copy of the policy is available at the Office of the University Registrar, 105 Eppley Administration Building.

Learn more about FERPA (<http://www.unomaha.edu/registrar/students/transcripts-and-records/student-privacy-information-ferpa.php>).

Student Right to Know/Consumer Information

The Higher Education Opportunity Act of 2008 (HEOA) requires that post-secondary institutions participating in federal student aid programs, including the University of Nebraska at Omaha (UNO), make certain disclosures to enrolled and prospective students, parents, employees, and the public. The following information is disclosed to you in compliance with federal law. To request paper copies of any of the information listed below, please contact the Office of Financial Support and Scholarships. The information on this page is reviewed and updated annually to ensure it is accurate, timely, and appropriate.

Learn more about the Consumer Information (https://www.unomaha.edu/admissions/financial-support-and-scholarships/tools-and-resources/consumer_info.php) policy.

Learn more about the Student Right-to-Know Act (https://www.unomaha.edu/admissions/financial-support-and-scholarships/tools-and-resources/consumer_info.php#nces).

State Authorization/Governance Financial Reporting

Coordinating Commission for Postsecondary Education

An institution that participates in the federal student aid programs authorized under Title IV of the Higher Education Act of 1965, as amended, must be authorized to operate by the state where it is located. There are two basic requirements for an institution to be legally authorized by the state for Title IV funding eligibility purposes. The state must authorize an institution to operate educational programs beyond secondary education, and the state must have a process to review and appropriately act on complaints concerning the institution, including enforcement of applicable state laws. Nebraska's Coordinating Commission for Postsecondary

Education is responsible for responding to these formal complaints at <http://www.ccpe.state.ne.us/PublicDoc/Ccpe/Complaint.asp> (<https://ccpe.nebraska.gov/>).

State Licensure

The US Department of Education requires the University of Nebraska at Omaha to notify both prospective and enrolled students in degree programs that lead to state licensure or certification required for entry into a profession in the state in which students are located.

Certification and licensure requirements differ from state to state. University of Nebraska at Omaha is required to notify students if the program they are interested in or enrolled in will meet educational requirements to apply for certification or licensure in their home state.

Learn more about State Licensure <https://www.unomaha.edu/academic-affairs/curriculum-development/licensure.php>

Governance/Financial Information

The University of Nebraska is one university, governed by a Board of Regents whose members are elected by Nebraska voters. The board appoints a chief executive officer—the president of the University of Nebraska—who is the single administrative officer responsible to the board. The university conducts its programs primarily on its four campuses (UNO, UNMC, UNL, UNK). The president's office provides overall leadership to the university in academic affairs, budget development and control, business and finance, physical planning, policy development, external affairs, diversity and equity, and legal affairs. The chancellors of the four campuses, who are appointed by the president, also serve as vice presidents of the university and as chief operating officers on their own campus.

Annual financial reports for the University of Nebraska are available at: nebraska.edu/offices-policies/business-finance/accounting-finance (<https://nebraska.edu/offices-policies/business-finance/accounting-finance/>)

Annual operating budgets are available at nebraska.edu/administration/business-and-finance/budget-information.html (<http://www.nebraska.edu/administration/business-and-finance/budget-information.html>).

Admissions

- Application Deadline Dates (p. 18)
- Application Process (p. 18)
- Admission Requirements (p. 18)
- Admission Fees (p. 22)
- International Applicants (p. 22)
- Admission Decisions (p. 23)
- Frequently Asked Questions (p. 24)

Application Deadline Dates

First-Year applicants are encouraged to apply during the first semester of their senior year of high school to be considered for scholarships. Transfer students should apply during the semester preceding their intended enrollment.

Complete admission files (application and supplemental documents) should be received by the Undergraduate Admission Application deadline dates, which are a week prior to the first day of classes for each term*:

Fall 2023 - August 14, 2023 Spring 2024 - January 15, 2024

Summer 2024 - June 24, 2024

Fall 2024 - August 19, 2024

NOTE: View the Academic Calendar (<https://www.unomaha.edu/registrar/academic-calendar.php>) for the official first day of classes.

All applications must be submitted online at apply.unomaha.edu (<http://apply.unomaha.edu>) by the deadline to be considered.

Application Process

1. Apply for admission online at apply.unomaha.edu (<http://apply.unomaha.edu>).
2. Pay your \$45 non-refundable application fee.
3. Submit all required documentation.

Submitting an application or being granted admission to UNO does not guarantee enrollment in any specific course. All inquiries and correspondence relating to the admission of students should be addressed to:

UNO Office of Undergraduate Admissions
111 Eppley Administration Building
6001 Dodge Street
Omaha, NE 68182
unoadmissions@unomaha.edu
402.554.2393

All credentials received in connection with applications for admission become the property of UNO. They cannot be duplicated, returned to the applicants, or forwarded to any agency or other college or university. Hand-carried or student submitted transcripts are considered unofficial. All official transcripts must be submitted directly from previous institutions. The university reserves the right to change existing admissions policies and applicable deadline dates without prior notice.

Admission Requirements

First-Year Applicants

The Board of Regents (<https://nebraska.edu/-/media/unca/docs/offices-and-policies/policies/board-governing-documents/board-of-regents-policies.pdf>) of the University of Nebraska establishes minimum admission requirements for prospective students. Individual colleges may require additional credentials or have other requirements for specific programs. It also should be noted these requirements may not pertain to transfer students, international applicants, readmission, or non-degree students.

Documentation Needed

1. Final official high school transcript and/or official GED Equivalency Scores
 - a. Final official high school transcript must be sent to the UNO Office of Undergraduate Admissions directly from the high school. The high school transcript must be a cumulative record of all high school coursework completed. If the high school transcript does not verify graduation at the time the application is submitted, a final high school transcript must be sent following graduation. Hand-carried or student-submitted transcripts are considered unofficial.
 - b. GED (General Education Diploma): The University of Nebraska at Omaha (UNO) acknowledges the General Educational Diploma (GED) as equivalent to a high school diploma. Some credit can be

assigned to meet the admission requirements based on subject area scores on the GED exam but this alone may not be sufficient to meet the 16 core course requirements.

- c. Homeschooled students are required to submit a typed transcript (semester format) of all coursework the student has completed. Grades or averages earned in each course must be included on the transcript. The transcript should include an anticipated/final completion date as well as a signature of the administrator of grades. Additional supporting documents may be requested by the university to assist officials in making an admission decision.
2. Official transcripts from college credit earned during high school

Documents should be sent directly to the UNO Undergraduate Admissions Office. If you attended UNO in the Early Entry or Dual Enrollment Program, it is not necessary for you to request a transcript.

Assured Admission (First-Year Applicants)

Graduates of a regionally-accredited high school or who have completed the equivalent training (General Education Diploma - GED) and students who are home-schooled must meet the following criteria for assured admission:

Core Course Requirements

All students are expected to have met the following 16 core course requirements in high school or a combination of high school and college coursework. Resource or special education classes completed in high school cannot be used to satisfy the core requirements. A list of eligible high school classes in Nebraska is available online at: schoolcounselors.unl.edu/curriculum/curriculum-list/ (<https://schoolcounselors.unl.edu/curriculum/curriculum-list/>)

1. English - 4 units¹ All units must include intensive reading and writing experience. Innovative interdisciplinary courses and courses in speech and journalism may be substituted if they include substantial amounts of reading and writing. Dual language or ELL English classes completed in high school do not satisfy the English core course requirement.
2. Mathematics - 3 units¹ Must include Algebra I, II, and Geometry.
3. Social sciences - 3 units¹ At least one unit of American and/or world history and one additional unit of history, American government, and/or geography; and a third unit of any social science discipline or subject.
4. Natural sciences - 3 units¹ At least two of the three units selected from biology, chemistry, physics, and earth sciences. One of the units must include laboratory instruction.
5. World languages - 2 units¹ (same language) Students who are unable to take two years of one world language in high school may still qualify for admission. Such students will be required to take two semesters of a world language at the University of Nebraska or other accredited post-secondary institution.
6. Additional requirement - 1 unit¹ One unit chosen from any of the above academic disciplines.

¹ A unit is equivalent to one school year in a class, grades 9-12.

Performance Requirements

In addition to meeting the above core course requirements, students applying for admission should:

1. Be ranked in the 50th percentile or higher of their graduating class in an accredited high school; **or**
2. Have received an ACT composite score of 20 (enhanced) or greater, or its SAT equivalent; **or**
 - a. Official scores are to be sent to UNO directly from the testing service; the UNO ACT code is 2464. The UNO SAT code is 6420.
3. Have earned a minimum of 3.00 cumulative high school GPA at the conclusion of their sixth semester of high school or later.

Transfer Applicants

If you have attempted any collegiate coursework after high school, all attendance must be disclosed on the application for admission. Students may not choose to disregard prior postsecondary coursework previously attempted. This applies to studies completed at any accredited or unaccredited institution, and coursework that was withdrawn, failed, or incomplete. Failure to do so will result in a denied application and/or removal of enrollment from the university.

To be eligible for admission, transfer students must be in good standing at the college or university they last attended.

Many of UNO's undergraduate colleges have a minimum GPA requirement of 2.00 or above and additional admission requirements. Review the specific college and program requirements within this catalog.

Documentation Needed

1. Final official high school transcript and/or official GED Equivalency Scores
 - a. Transfer students must be graduates of a regionally accredited (North Central or equivalent) high school or have completed the equivalent training (GED). An Associate of Arts (AA) degree or Associate of Science (AS) degree from a community college in Nebraska will satisfy the proof of high school graduation requirement. Official transcripts showing proof of graduation or equivalent training will be required.
 - b. EXCEPTION: Students who transfer to UNO with 24 credit hours of transferable coursework will not be required to have met the high school core course requirements, either in high school or in their previous postsecondary studies.
2. Official college transcript(s) must be sent directly to the UNO Office of Undergraduate Admissions from the Registrar's Office of each previous college or university attended **regardless of whether credit was earned**. Hand-carried or student-submitted transcripts are not acceptable. If you are currently enrolled in college courses, please request (prior to finishing classes) an official transcript sent when final grades are posted, to the Office of Undergraduate Admissions. If the records are not in English, an official translation must be provided by the student.
 - a. All previous college coursework attempted or completed must be reported on the application regardless of whether credit was earned. Transfer students may choose not to disclose prior postsecondary coursework previously attempted. This applies to studies completed at any accredited or unaccredited institution, and coursework that was withdrawn, failed, or incomplete. Failure to provide this information will be considered fraudulent and may result in withdrawal of admission or dismissal from the university.

Transfer Additional Notes

1. Students placed on academic suspension or dismissed from any institution within the last calendar year will be denied admission. Any student providing a transcript indicating suspension or dismissal within the last year will be disenrolled from classes and any tuition paid to date for the semester would be refunded.
2. Transcripts sent to the UNO Office of Undergraduate Admissions for students who do not enroll will be retained for one year. If the student applies for admission beyond that, new transcripts will need to be provided for admission consideration.
3. Students who are granted provisional admission must submit all transcripts required for admission within the first eight weeks upon enrollment. One term of provisional admission/enrollment is allowed with unofficial transcripts on file. It is the student's responsibility to provide all official transcripts, failure to do so may result in an enrollment hold blocking enrollment and ultimately preventing graduation from UNO.

Awarding of Transfer Credits

1. Transcripts from previous institutions are part of the student's permanent record maintained in the University Registrar's Office. The dean of the UNO College will determine how transfer credits will apply toward degree requirements.
2. Credits and grades earned at other University of Nebraska campuses are accepted, computed into the student's grade point average, and will become a part of the permanent record from which official transcripts will be made.
3. Only courses with a grade of "C-" or better will be accepted for transfer from accredited two and/or four-year colleges and universities. The College of Business will only accept courses with a grade of "C" or better.
4. Sixty-four (64) semester credit hours is the maximum allowed for transfer to most undergraduate UNO colleges from regionally accredited two-year colleges. The College of Engineering will allow a maximum of sixty-six (66) semester hours of credit from a two-year college.
5. Each UNO college has a required number of credit hours to be completed at UNO prior to graduation.
6. Students wishing to transfer credits from recognized institutions outside the United States may need to provide a course syllabus with translation, if applicable, for evaluation of transfer credits.

Nebraska System Students Transferring/Change of Campus in the NU System

Nebraska System Students

Degree Seeking Students Transferring to UNO

1. If you are a student who is attending or has attended one of the four campuses of the University of Nebraska System and are completing an application for admission as a degree-seeking student to UNO, you must follow the change of campus form: University of Nebraska System Change of Campus instructions (<https://www.unomaha.edu/registrar/students/transcripts-and-records/change-of-campus.php>).
2. Application Fee is Waived.
3. The office of Undergraduate Admissions may change the program of study if a student does not meet the minimum required grade point average per college.
 - a. College of Arts and Sciences (p. 71) 2.0 GPA
 - b. College of Business Administration (p. 359) 2.5 GPA
 - c. College of Communication, Fine Arts and Media (p. 425) 2.25 GPA
 - d. College of Education, Health, and Human Sciences (p. 526) 2.5 GPA
 - e. College of Engineering (p. 616) 2.5 GPA
 - f. College of Information Science & Technology (p. 665) 2.5 GPA
 - g. College of Public Affairs and Community Service (p. 710) 2.5 GPA
4. Students placed on academic suspension or those dismissed from any institution within the last calendar year will be denied admission regardless of the student's eligibility to return to the prior institution. Acknowledge suspension or dismissal after admission within the last year will be disenrolled from classes, and any tuition paid to date for the semester would be refunded.

Visiting Students of UNO

1. All visiting students from any of the University of Nebraska campuses must complete the Intercampus Application form (https://csprdn.uno.edu/psc/csprdn/NBX/SA/s/WEBLIB_PTBR.ISCRIPT1.FieldFormula.IScript_StartPage/?ghcmd=saml).
2. A new Intercampus Application form must be submitted to the UNO Office of Undergraduate Admissions each semester.
3. Financial holds at the degree-granting campus must be cleared before submitting the Intercampus Application form.
4. Intercampus students who have been placed on academic suspension at any of the University of campuses during the last calendar year are not eligible to enroll at UNO.

Former UNO Students

Readmission Criteria

1. Former UNO students who have not been enrolled at UNO within the last two years must complete an Application for Undergraduate Admission (<https://www.unomaha.edu/admissions/apply/>). The application fee will be waived.
2. The Undergraduate Admissions Office denies readmission to any student under academic suspension who has been out of school for less than one calendar year.
3. Students who have been academically suspended from UNO shall schedule an advising/reinstatement meeting with the College from which the student was suspended. If academically suspended students have not taken classes within the last two years, they will need to reapply to UNO first and then schedule their advising/reinstatement meeting.
4. The office of Undergraduate Admissions may change the program of study if a student does not meet the minimum required grade point average per college.
 - a. College of Arts and Sciences (p. 71) 2.0 GPA
 - b. College of Business Administration (p. 359) 2.5 GPA
 - c. College of Communication, Fine Arts and Media (p. 425) 2.25 GPA
 - d. College of Education, Health, and Human Sciences (p. 526) 2.5 GPA
 - e. College of Engineering (p. 616) 2.5 GPA
 - f. College of Information Science & Technology (p. 665) 2.5 GPA
 - g. College of Public Affairs and Community Service (p. 710) 2.5 GPA
5. If the student has attended other colleges since last attending UNO, official college transcripts are required for any coursework at other institutions attempted.
6. UNO graduates must submit a new application to continue their undergraduate studies.

English Proficiency Policy

Applicants can fulfill the English proficiency admission requirement with one of the following:

1. Applicants expecting to graduate from an accredited U.S. high school must show acceptable performance in four units (years) of standard high school English courses.
2. Having an ACT English subscore or SAT equivalent of 20 or higher. **UNO will use the English Placement and Proficiency Exam (EPPE) to enroll in English courses for students who scored 19 or below ACT English Subscore or SAT equivalent.**

3. Completion of an Associate of Arts or Associate of Science degree from a regionally accredited U.S. post-secondary institution. A grade of C or better must be earned with a 2.5 or higher grade point average. Official U.S. college transcripts must be sent directly to UNO.
4. Completion of English Composition I or English Composition II from a regionally accredited U.S. post-secondary institution. A grade of C or better must be earned with a 2.5 or higher grade point average. Official U.S. college transcripts must be sent directly to UNO.

Undergraduate Applicants Whose Country is Not English Speaking

For admission purposes, applicants whose country is not English speaking must demonstrate English proficiency.

Students can fulfill the English proficiency admission requirement by submitting scores from the testing agencies listed below. Students are responsible for contacting the appropriate testing agency to submit official scores. UNO will only accept scores that come directly from the testing agency. The EPPE will be required for English placement at UNO.

English Proficiency Test	Score
TOEFL (Test of English as a World Language) Internet-Based	61
TOEFL (Test of English as a World Language Paper-Based)*	500 composite
IELTS (The International English Language Testing System)*	6.0 composite
ACT English sub score*	18
SAT Critical Reading sub score*	470
PTE (Pearson Language Test)	CEFR level of C2
Duolingo	95

* College of Engineering programs require TOEFL paper test score of 550 or IBT 80, IELTS 6.5, Duolingo 115, ACT English subscore of 22, SAT Critical Reading Subscore of 480, for admission.

* English Majors in the College of Arts and Sciences require of TOEFL paper test score of 600, IBT 100, IELTS 7.0, Duolingo 120.

SPECIAL NOTE: TOEFL results from other institutions may not be used for direct application to the university.

Non-Degree/Visiting Student Applicants

1. Individuals who do not intend to complete a degree at UNO may apply as non-degree/visiting students.
2. A visiting student from another institution or a summer session applicant interested in enrolling for personal or professional enrichment may be admitted as a non-degree student.
3. Non-Degree/Visiting Admission Criteria
 - a. Non-degree students from another college or university are expected to be in good academic standing. Any student who has been placed on academic dismissal or suspension from any college or university within the last year will be denied admission, regardless of the student's eligibility to return to the prior institution. The student would be eligible to reapply for admission to UNO after one full year following the end of the term in which the student was last suspended.
 - b. Any student denied admission at UNO as a degree-seeking student is not eligible to apply as a Non-Degree/Visiting student.
 - c. A Non-Degree student must be a high school graduate or hold a high school equivalency diploma (GED).
4. Students changing from a Non-Degree classification to a degree program will be expected to provide additional documentation and

meet admission requirements. An Application for Undergraduate Admission (<https://www.unomaha.edu/admissions/apply/>) to the degree program must be submitted.

5. The Non-Degree classification is not recommended for certification, recertification, or for enrolling in professional education courses.
6. **Non-Degree students are not eligible for scholarships or financial aid.**

Early Entry Admissions Program

The University of Nebraska at Omaha Early Entry Program allows currently enrolled high school students of high academic achievement and potential the opportunity to enroll in regular college courses on the university campus. This program encourages high school students whose maturity, achievement, aptitude, and goals warrant special consideration to enroll in the UNO Early Entry Program. Early Entry Students enroll in university courses at a level not available to them through their high schools. This program is meant to enhance the students' educational programs, not to replace any part of them.

Some opportunities a student may gain by enrolling in the UNO Early Entry Program are:

- Early Entry students may be enrolled in high school and at the university concurrently. Courses may be taken during the fall or spring semesters or during the summer sessions. Students enrolled in the Early Entry Program attend regular university classes and receive university credit.
- The college credits earned may be applied toward a UNO degree and are usually transferrable to other colleges, giving students a head start on their college programs. The program is not restricted to high school students planning to attend UNO after graduation.
- Enrolling as an Early Entry student allows advanced high school students the opportunity to broaden their college education by getting an early start and enhances the successful transition to college.

Requirements for Admission to the Early Entry Program

To be admitted to this program, the UNO Office of Admissions must receive the following:

- An application must be submitted online at applyearly.unomaha.edu (<https://applyearly.unomaha.edu/>).
- A \$45.00 non-refundable application fee (once a student has enrolled at UNO, an application fee for future terms of enrollment would not be required).
- An unofficial high school transcript of all coursework completed to date must accompany the Early Entry Application. All correspondence relating to the Early Entry Program should be addressed to:

Kelly Malone
Office of General Education and Dual Enrollment
University of Nebraska at Omaha
6001 Dodge Street
Omaha, NE 68182

- The student must have achieved a minimum 'B' average in all high school academic coursework (3.00 on a 4.00 scale). If a GPA from an accredited high school is not available, the ACT or SAT (or equivalent achievement test) may be required to determine the student's academic potential/eligibility.
- Online approval of courses from the high school counselor based on the student's academic performance. Recommendations for home-schooled students are handled on an individual basis.
- Online approval from the parent or guardian as indicated on the online application.

- Students whose language of nurture is not English are required to demonstrate English proficiency. Additionally, all education records presented to the university must be in English.

Additional Information Regarding the Early Entry Program

- A maximum of two UNO classes may be taken each term.
- A new Early Entry application must be completed each semester a student wishes to be considered for this program. A new application fee would not be required.
- Once a student has graduated from high school, in order to continue enrollment at the university, the student must submit an Application for Undergraduate Admission, complete official high school transcript and ACT or SAT results, and meet the minimum freshman admission requirements established by the University of Nebraska Board of Regents.

Inquiries regarding the Early Entry program should be directed to the UNO Early Entry Program coordinator at 402.554.3810. For more information, please visit the Early Entry (<https://www.unomaha.edu/early-entry/>) website.

Dual Enrollment Program

Dual Enrollment allows academically-talented students to earn college credit while still in high school. The courses are taught at the area high schools by high school staff who have been approved by their respective UNO academic departments to be adjunct faculty.

Since the courses are the result of an alignment between the area of high school and college courses requiring college-level work, not all high school courses are eligible. Check with your high school counselor to find out which courses are approved and if your school is participating in the UNO Dual Enrollment Program. For more information, please go to the Dual Enrollment (<https://www.unomaha.edu/dual-enrollment/>) website.

Admission Fees

Application Fee

A \$45.00 undergraduate application fee is expected for all students and must be paid when the application is submitted. Applications will not be processed unless the fee is included.

The following information applies:

- The application fee is non-refundable and does not guarantee admission or enrollment in any specific classes.
- Check, money order (payable to the University of Nebraska at Omaha), or credit card payments are accepted.
- Application fees submitted to any University of Nebraska system campus are valid for one year and are transferable to UNO.
- Applicants who pay the \$45.00 application fee but who do not enroll within one year must reapply for admission and resubmit the application fee.
- Previously enrolled undergraduate students on any University of Nebraska system campus (UNK, UNL, UNO, and UNMC) need not submit the application fee.

Students who participated in UNO's Dual Enrollment program are required to pay the \$45.00 application when applying for undergraduate admission.

Enrollment Deposit Fee

All newly admitted students to the University of Nebraska at Omaha will be expected to pay the \$100 Enrollment Deposit Fee to reserve a space in the upcoming class. Paying the fee allows the university to effectively plan for class offerings and student resources in preparation for each semester.

Priority Deadlines to pay your Enrollment Deposit Fee

- Fall and Summer applicants May 1
- Spring applicants December 1

NOTE: If you are admitted after the priority deadline, you can submit your enrollment deposit fee within two weeks of admission to save your spot in the upcoming class.

Enrollment Deposit Fee Deferral Policy

- Students may request the Enrollment Deposit Fee of \$100 to be applied to their first billing cycle by submitting a formal request. Please email unoadmissions@unomaha.edu for more details.

Enrollment Deposit Fee Refund Policy

- The Enrollment Deposit Fee is fully refundable if paid by the priority deadlines.
- If you choose not to enroll at UNO and do not request a refund on or before the priority deadline, you will forfeit the full amount of your Enrollment Deposit Fee.
- Refund Requests for the Enrollment Deposit Fee must be submitted in writing to unoadmissions@unomaha.edu before the priority deadline.

SPECIAL NOTE: Admitted Students who pay the enrollment deposit fee to the University of Nebraska at Omaha campus and do not enroll in classes, the fee will be honored and can transfer one full year from the original application term.

International Applicants Applying Online

Applications for admission are available on-line at apply.unomaha.edu (<http://www.unomaha.edu/admissions/apply/>).

Application Fees (<https://catalog.unomaha.edu/undergraduate/admissions/application-fee/>) are expected for all students and must be paid when the application is submitted. Applications will not be processed unless the fee is included.

Documentation Needed

International Applicants Admission Requirements

Official Transcripts. International students must submit, official academic records and graduation examination results for all secondary and post-secondary institutions attended with any certificates and/or diplomas awarded. Official academic records, certificates, and diplomas not issued in English also require certified English translations. Post-secondary institutions include colleges, universities, professional schools, vocational schools, trade schools, and technical institutes. If a student has attended a post-secondary institution, academic records are required even if a certificate and/or degree was not awarded and/or transfer credit is not desired by the student. These documents should be sent directly from the foreign institution or translation service when possible. If a foreign institution or agency is unable to send records, documents may be emailed by the student to unointernational@unomaha.edu or mailed to the address below. Students enrolled in other U.S. institutions must have official transcripts sent directly to UNO. Official transcripts can be sent electronically from the U.S. institution to unointernational@unomaha.edu or sent via courier to:

Undergraduate Admissions
Eppley Administration Building, Room 111
6001 Dodge Street
Omaha, NE 68182-0080

Passport. All international students need to email a copy of their passport information page to unointernational@unomaha.edu.

Proof of English Proficiency. Undergraduate applicants must demonstrate English proficiency through one of the options listed on the Catalog under (<https://catalog.unomaha.edu/undergraduate/admissions/admission-requirements/#text>) Admission Requirements (<https://catalog.unomaha.edu/undergraduate/admissions/admission-requirements/#text>). English proficiency test results can be emailed to unointernational@unomaha.edu or sent directly to UNO from the testing agency. If the testing agency is unable to send records, documents may be emailed by the student to unointernational@unomaha.edu or mailed to the address above.

Proof of Financial Support for F-1 or J-1 Visa Applicants or Holders. U.S. Federal law requires international students applying for an F-1 or J-1 visa to demonstrate adequate funding through personal, family, and/or a sponsor's financial resources. Students must provide evidence of sufficient funds in their possession to finance their first year of study when applying for admission. Student and/or sponsor bank statements with original signatures and bank seals or stamps must be provided. In addition to a bank statement, a UNO financial affidavit signed by the student and all sponsors is required. Bank statements and UNO Financial Affidavits should be no more than six months old at the time they are submitted. Failure to submit a completed financial affidavit and an original bank statement will prevent UNO from issuing an I-20 or DS-2019. Financial documents should be submitted electronically to unointernational@unomaha.edu.

Conditional Undergraduate Admission

International students applying for undergraduate admission that do not meet the English proficiency requirement may be eligible for Conditional Undergraduate Admission (<https://www.unomaha.edu/admissions/undergraduate/international-students/conditional-admission.php>). Full undergraduate admission will be granted upon successful completion of UNO's Intensive English Language Program (<https://www.unomaha.edu/international-studies-and-programs/iluno/>) (ILUNO) and with a qualifying English proficiency score.

Students will be eligible for admission to an undergraduate program:

1. Upon successful completion of UNO's Intensive English Program with a qualifying English proficiency score.
2. A minimum of one ILUNO session is expected.
3. Non-qualifying English proficiency score within range may be eligible for full admission with ILUNO consideration and permission from the ILUNO Director.

SPECIAL NOTE: A change of status of the Form I-20 will be made upon full undergraduate admission. The student is responsible for requesting a change of status to their Form I-20 upon full undergraduate admission.

F-1 or J-1 Visa Applicants Applying as a Non-Degree Seeking Students

International students who are F-1 or J-1 visa applicants or holders may apply as non-degree students if they:

- Have permission letter from their current institution to be enrolled part-time at UNO while remaining on the I-20 of their current school;
- Are referred as a participant in an international exchange program between UNO and their home institution; OR
- Have a recommendation letter from their home institution or employer. Students applying under this option should contact International

Admissions at unointernational@unomaha.edu for details about content requirements for the letter.

Health Insurance

Due to the high cost of healthcare in the U.S., UNO offers health insurance to its international students at a reasonable rate. Students who do not have a university-approved policy from overseas are required to participate in this Student Health Insurance plan.

Admission for International Students

Most admissions decisions are made within one week after all required documentation is received. Upon admission to UNO, the student will receive a separate email of their I-20. Please note, the I-20 and admission letter will not be released to friends or family members. For those who are J-1 visa applicants, the email pertaining to the I-20 will include the DS-2019.

For those who are visiting F-1 visa holders enrolling part-time at UNO, they will remain on an I-20 at their current school, a new I-20 will not be issued.

Admission Decisions

Admission by Review

Students who do not qualify for Assured Admission (<https://catalog.unomaha.edu/undergraduate/admissions/admission-requirements/>) by meeting all entrance criteria may be considered for Admission By Review (ABR). Each applicant will be reviewed and considered for admission on an individual basis. The student's cumulative high school grade point average, class rank, ACT/SAT scores, and the grades received in the core course requirements are all considered primary factors in the admission evaluation and decision. The student may be asked to provide further documentation.

Enrollment at the university accepts the terms of your admission. Students admitted under ABR may be monitored for academic success. Some students may be admitted with requirements to complete specific courses and/or use academic support to compensate for their deficiencies.

Provisional Admission

Students who are admitted pending the receipt of final admission documents are considered to be Provisionally Admitted to the University.

All offers of admission are provisional if you have high school or collegiate coursework in progress. Final admission is dependent on receipt and review of your final transcripts. Admission offers are subject to cancellation if your final coursework does not meet admission requirements.

Required documents needed to complete your admission can be viewed on MavLINK. All documents must be submitted within the first eight weeks of the first term of enrollment. Failure to do so may result in an enrollment hold blocking further registration.

Applicants with Academic Suspension or Dismissal Record

Students whose academic records reflect they were placed on academic suspension or dismissal during the last calendar year at any college or university are not eligible for admission to UNO. Once the university has received a transcript or other notification indicating suspension or dismissal within the last calendar year, admission to UNO will be canceled, and/or the student will be disenrolled from classes and any tuition paid to date for the semester would be refunded. The student would be eligible to reapply for admission to UNO after one full year from the end of the last term in which the student was suspended.

Deferred Admission

For those students who do not meet the admission requirements, admission will be deferred for future additional academic preparation at another postsecondary institution before being eligible for admission to UNO.

Fraudulent and Incomplete Applications

If any information is given falsely or withheld on the admission application, or if transcripts/documents submitted (in support of an admission application or to obtain residency) are altered or fraudulent, the university reserves the right to revoke admission, including dismissal from the university.

Frequently Asked Questions Nebraska Unique Identification Number (NUID)/Password

During the application process, for security reasons, an NUID and temporary password will be assigned to you. You will be asked to select a personal MavLINK password. The NUID is an eight-digit unique number within the University of Nebraska system and is transferable among the Nebraska University system campuses. For more information, visit <https://www.unomaha.edu/information-technology-services/support/accounts-and-passwords/NUID1/index.php> (<https://www.unomaha.edu/information-technology-services/support/accounts-and-passwords/NUID1/>)

Use of Social Security Number

A social security number is requested on the application for admission for the sole purpose of verifying credentials, document matching, and determining eligibility for and awarding financial aid or scholarships. Applicants who do not have a social security number may still apply for admission but are not eligible to apply for federal financial aid.

Health Requirement Information

All new, incoming students born on or after Jan. 1, 1957, must provide official documentation of two (2) MMR vaccinations (measles, mumps, rubella) **before** registering for classes. Failure to comply with this requirement may result in the withholding of future registrations. For further information, please contact Undergraduate Admissions 402.554.2393.

Residency for Tuition Purposes

Initial residency classification for tuition purposes is determined by the information you provide when you apply for admission. If you are living or attending school outside Nebraska or if you graduated from high school outside the State of Nebraska, you will be initially classified as a non-resident for tuition purposes. It is the student's responsibility to provide any additional information that may be required to make an accurate residency determination prior to the deadline. A student may view the Application on Residency for Tuition Purposes (https://csprdn.unomaha.edu/psc/csprdn/NBX/HRMS/s/WEBLIB_ENTREDIR.ISCRIPT1.FieldFormula.IScript_Redirect?nba-product=EF&cref=NBA_NVC_DS_EFORM_RESAPP) for deadlines of when Residency Classification is due.

In 2006, the Nebraska state legislature passed a law granting resident tuition to students who do not hold official U.S. status and meet certain criteria. Students must meet the following qualifications: (1) graduated from a Nebraska high school or received the equivalent of a high school diploma in Nebraska, (2) resided in Nebraska with a parent, guardian, or conservator for a least three years prior to the graduation date and (3) provide an affidavit stating he or she will file an application to become a U.S. Permanent Resident at the earliest opportunity at which he or she is eligible to do so.

UNO participates in some reduced tuition programs based on the state or county the student is from, such as the Midwest Student Exchange

Program (<https://www.unomaha.edu/admissions/undergraduate/residency-msep.php>) (MSEP) and the Omaha Urban Rate (<https://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/omaha-urban-rate-our-tuition.php>) (OUR). Students must meet UNO's general admission requirements and, for the MSEP program, meet minimum academic eligibility requirements. For more information on the requirements for these programs, email unoadmissions@unomaha.edu.

Applicants Who Apply for Admission and Decide Not to Enroll

Students who apply for admission and decide not to enroll for the indicated term should do the following:

- Applicants can notify the UNO Office of Undergraduate Admissions via e-mail (unoadmissions@unomaha.edu) indicating they will not be attending. Upon receipt of this notification, the student's application will be withdrawn.
- If the student wishes to enroll for a future term, a new application for admission must be submitted.
- A previously paid application fee is valid for one year from the term it was originally submitted.
- Transcripts that have been sent to the UNO Office of Undergraduate Admissions for students who do not enroll will be retained for one year. If the student applies for admission beyond that, new transcripts need to be provided for admission consideration.
- If the student has been awarded any financial aid from a non-UNO source, the student should notify the Office of Financial Support and Scholarships which may cancel or reduce UNO financial aid.

Enrollment

- Enrollment (p. 24)
- Course Information (p. 28)
- Academic Calendar (p. 29)

Enrollment

All persons who attend classes at the university must be admitted to the University; they are required to register and pay the established tuition and fees. The dates, times, locations, and procedures for registration are listed each semester on the Office of the University Registrar's website (<http://www.unomaha.edu/registrar/students/>).

MavLINK

MavLINK is the online self-service application providing students with an array of information and direct access to their academic, financial, and personal data. Access to MavLINK is gained by the use of your UNO NetID or NUID and password. Access MavLINK here (<https://mavlink.nebraska.edu/psp/mavlink/NBO/HRMS/?cmd=login&languageCd=ENG&>).

NetID

The UNO NetID is a combination of letters using your first and last name and is the username assigned to you by UNO. Learn more about NetIDs (<https://www.unomaha.edu/information-technology-services/accounts-and-passwords/NetID1/>).

NUID

The NUID (Nebraska Unique Identifier) is a unique eight-digit number assigned to all students, faculty, and staff members during either admission or hiring. This number remains the same across the University of Nebraska and Nebraska State College system. Learn more about NUIDs (<https://www.unomaha.edu/information-technology-services/support/accounts-and-passwords/NUID1/>).

Registration Requirements

Prior to the start of classes each session, students must register for courses according to instructions published on the University of Nebraska at Omaha (UNO) website. To be eligible to register, a new or re-admitted student (one who has not enrolled during the previous two years) must have completed all admission requirements. Prior to registering, a student should seek assistance from an academic advisor within his/her college. Some colleges and departments require advising prior to registering. Every student is encouraged to review the requirements for his/her intended degree with an assigned academic advisor. This review should be scheduled in preparation for and prior to each registration period.

Students who have outstanding debts or fees owed to the University of Nebraska System will not be permitted to register until these obligations have been met. Academically suspended students will serve a one-year suspension. Following this suspension period, these students will need to schedule an advising/reinstatement meeting with the College from which they were suspended in order to have their reinstatement hold released and be eligible to register for classes. If academically suspended students have not taken classes within the last two years, they will need to reapply to UNO first and then schedule their advising/reinstatement meeting.

Due to limited facilities and staff, the university cannot guarantee all students will be able to enroll for every course they wish in each semester.

How to Enroll and Make Changes to Enrollment

All adding, swapping, dropping, or withdrawing from courses is completed in MavLINK.

Adding a Class

A class can be added to a student's schedule via MavLINK until the 100% refund period ends. Start dates are found on the class schedule. Refund dates can be found on the Cashiering and Student Accounts (<http://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/tuition-refund-schedule.php>) site. Late adds begin after the 100% refund period ends and require permission from the instructor prior to enrollment in MavLINK. A **\$25.00 Late Registration Fee** will be assessed to those students whose initial enrollment takes place after the start of the session. Exceptions to this are thesis, internship, or independent study.

Dropping/Withdrawing From a Class

A class can be dropped or withdrawn from a student's schedule via MavLINK up until the last day to withdraw. The last day to withdraw can be found on the Academic Calendar (<http://www.unomaha.edu/registrar/academic-calendar.php>). Students can also contact the Office of the University Registrar to verify the last day to withdraw. Requests to drop a class submitted via email, fax or U.S. mail will be processed based on the dates appearing on the email, fax or U.S. mail postmark.

Drops can only be completed in the 100% refund period of your course. If students drop the course from their schedule during this period, it will not be listed on their academic transcript.

Withdraws can be completed up until the last day to withdraw for the semester. The last day to withdraw can be found on the Academic Calendar

(<http://www.unomaha.edu/registrar/academic-calendar.php>). If students withdraw from a course, a grade of "W" will be listed on their academic transcript. "W" grades have no impact on the academic GPA.

Students who drop or withdraw from one or more classes, or who completely withdraw from all courses will be obligated to UNO for the portion of tuition indicated on the refund schedule. Students who completely withdraw are also obligated to pay the non-refundable portion of tuition and fees for the class(es) from which they are withdrawing. Students who are currently enrolled can click on the "refund" link next to each class in their schedule inside MavLINK to check refund percentage dates.

Swapping a Class

Swapping a class allows students to save their space in the original class while trying to enroll for a new course. It is a safer way to make changes to their existing class schedule during periods in which many other students are also enrolling for their classes.

1. Swaps must be done on the same day.
2. Swaps are allowed during the first week of the standard semester. For classes that are outside the regular session, it will be necessary to contact the Office of the University Registrar to complete a swap.
3. Swaps are only allowed for classes in the same session.
4. Classes used for swaps cannot be used again for another swap.

Permission Numbers

A permission number must be entered for any courses that require instructor or department consent. A Permission Number is entered via MavLINK. A permission number may also override any prerequisite or GPA requirement, as well as a closed course. A permission number will NOT override a time conflict. The instructor or advisor must request a time conflict override through the Office of the University Registrar on the student's behalf.

Receiving a permission number does not register the student for the course. It only means that students are able to proceed with enrollment for the course. Once the permission number is issued, the student must register via MavLINK for the course by using the number provided.

Permission numbers are BOTH course section and term specific. The student must ensure the permission is issued for the exact course he/she wants. The student will NOT be able to register for a different section of the same course. For example, if a permission number is issued for ENGL 1160-003, they will not be able to register for ENGL 1160-006. A new number will need to be issued for the student by their advisor or department contact. Remember, permission numbers can only be used once.

Permission numbers not used before the end of the 100% refund period will expire. A new number will need to be issued to enroll after the 100% refund period.

Registration Waitlist

A registration waitlist is an electronic process that auto-enrolls students in closed classes as seats become available. Waitlists operate on a first-come, first-served basis, so this process ensures that students who register for the waitlist sooner have a better chance of getting into a closed course. Waitlists are only available once the class is full. For high-demand classes, this may be the first day of registration or, for other classes, as late as the week before the term starts.

Waitlisted classes do not count toward a student's enrolled hours. If a student's financial aid requires full-time enrollment, he/she needs be sure to enroll in enough credits without counting waitlisted classes. Each department is responsible for determining if their class offerings should have a waitlist or not.

For courses with no waitlist available, students will need to check regularly for possible openings. Students may add themselves to any number of waitlists but will not be enrolled beyond the maximum number of hours allowed for that term. Students may remove themselves from a waitlist by following the same process as dropping a class. Learn more about the Registration Waitlist (<http://www.unomaha.edu/registrar/students/during-enrollment/registration-waitlist.php>).

Audit Registration Policies and Procedures

All persons wishing to audit a course must be admitted and eligible to enroll in classes for the term in question. Students may only register to audit a course on or after the first day of the semester. Audit students may not participate in recitation, turn in papers, or take examinations. Academic credit is not awarded for audited courses nor do they apply in counting hours for full- or half-time status. Foreign language and physical education activity courses cannot be taken on an audit basis. Audit registration is subject to available class space, requires the written permission of the instructor, and can be done via email or in person at the Office of the University Registrar, 105 Eppley Administration Building. Audit tuition is one-half of the applicable resident undergraduate or graduate tuition rate. The half-price tuition rate for audit courses is available only during the first week of the semester. Audit enrollments are assessed the same student fees as credit enrollments. Likewise, audits are refunded at the same rate as credit enrollments.

Students who register to take a course for credit and change to audit after the first week of class will be required to pay the full applicable tuition rate.

Undergraduate Students Taking Graduate Classes

An undergraduate junior or senior who is pursuing a baccalaureate degree at the university may be granted permission to take one or more graduate courses if they meet the following conditions outlined below. Students pursuing Fast Track (previously known as integrated programs) will not complete this form.

1. No credit earned under this provision may be used to fulfill any of the requirements for the undergraduate degree.
2. A maximum of 12 credit hours at UNO may be earned under this provision.
3. Juniors must have a minimum average GPA of 3.5 in the undergraduate major, and seniors must have a minimum average GPA of 3.0 in the undergraduate major.
4. The student must secure the required Department/School Representative signature before presenting the form to the Graduate College.
5. In order to register for the course(s) noted on the form, the student must return to the department/school for a permit number after receiving the dean for graduate studies permission. Once a permit number has been provided by the department/school, the student will then be able to register via MavLINK.

Please find the form on the Graduate Studies Student Forms & Resources (<https://www.unomaha.edu/graduate-studies/current-students/graduate-forms-and-resources.php>) webpage.

The graduate program determines after admission if graduate credits taken as an undergraduate student will fulfill the requirements of a graduate program. There is no guarantee that graduate credits taken as an undergraduate student will count toward a graduate program.

Class Schedule

The UNO public class search is available online at www.unomaha.edu/class-search/index.php (<http://www.unomaha.edu/class-search/>). Course offerings are subject to change. Final authority for changes in course offerings rests with academic departments. For questions concerning course offerings, contact the academic department. For general information about enrollment or instructions on how to use MavLINK, visit the Office of the University Registrar's Enrollment page at: <https://www.unomaha.edu/registrar/students/after-enrollment/adding-swapping-dropping-or-withdrawing-from-a-course.php>

Student Attendance Policy

Classes are conducted on the premise that regular attendance is desirable. The individual instructor has responsibility for managing student attendance and for communicating at the beginning of each semester those class attendance policies which prevail in that course.

UNO Student Attendance Policy <https://www.unomaha.edu/campus-policies/student-attendance.php>

Student Holds

A hold can be placed on a student's record for reasons including but not limited to:

- Non-payment of debt (tuition payments, parking tickets, library fines, etc.)
- Academic suspension
- Failure to meet immunization requirements
- Required academic advising
- Missing admission information
- Non-compliance with other university regulations/obligations

A hold on the record can impact one or more of the following:

- Enrollment – ability to register for classes (Dropping and withdrawing from classes will need to be completed in person at the Office of the University Registrar.)
- Receiving a transcript or diploma
- Refund from Student Accounts

Class Standing

A student's academic classification is determined by the number of semester hours of academic credit earned.

Academic Classification	Range in Semester Hours
Freshman	0 through 26
Sophomore	27 through 57
Junior	58 through 90
Senior	91 or above

Student Academic Course Load

1. A normal student load is 12 to 18 credit hours.
2. **Full-Time** Undergraduate students must be enrolled for a minimum of 12 credit hours in a fall semester, spring semester, or summer term to be considered a full-time student.
Half-Time Undergraduate students must be enrolled for a minimum of 6 credit hours in a fall semester, spring semester, or summer term to be considered a half-time student.
3. Students shall not carry 18 or more semester hours of work during the fall semester, 19 or more semester hours during the spring semester and 12 semester hours during the summer sessions unless they have maintained an average of "B" (3.0) in a regular 15-hour load during

the preceding semester. Permission to register for additional semester should be obtained from the student's academic advisor.

4. Audit hours do not apply in counting hours for full-time status.

Declaring and Changing a Major

Undergraduate students are strongly encouraged to identify major areas of study in conjunction with their academic advisors early in their academic career. In order for an undergraduate student to make a change to the declared major or minor program of study, he/she will need to speak to the department that houses the program.

An appointment with an academic advisor may be required and is suggested in order to review requirements. Once a student has decided to make the change official, the academic advisor will submit a Change of Program eForm in MavLINK on their behalf. This eForm will route to any necessary approvers for review before being processed by the Office of the University Registrar. The student and submitting advisor will receive email notifications once the change has been processed.

Athletic Certification Office

The Athletic Certification Office is responsible for obtaining, evaluating, and documenting the academic credentials in accordance with the National Collegiate Athletic Association (NCAA) and conference eligibility rules for approximately 300 student-athletes.

The NCAA has specified satisfactory progress requirements to determine the eligibility of continuing student-athletes, and these requirements must be met each semester. The Athletic Certification Office, housed in the Office of the University Registrar, works directly with academic advisors and the Athletics Department Academics and Compliances offices to determine athletic eligibility for each semester.

The Athletic Certification Office is also responsible for financial aid certification. This includes maintaining the accuracy of the aid package, processing the approved Athletic Grant-In-Aid scholarships, and posting all financial aid data into MavLINK and both financial aid and academic eligibility data into the NCAA's CAI software program.

Civil Leave (Statutory Leave)

When a student receives a written notice to provide mandated community service as an election official, juror or witness, he or she must notify the course instructor of the time when the service will be required, within five business days after notice of mandated service is received by the student (or at the start of the semester if notice is received prior to the semester). A copy of the notice must be provided to the instructor.

The instructor will allow the student summoned to mandatory community service an excused absence from the course on the day(s) required for Statutory Leave.

Upon request of the student taking leave, the instructor will ask for another class member to take notes during the period of Statutory Leave.

If Statutory Leave occurs during a critical period in the course (e.g. an exam; in-class graded assignment; group project; participation-required day), the instructor will work with the summoned student to determine if the missed day(s) will likely have a negative impact on the student's grade and whether the assignment or exam can be accommodated at a later time.

If Statutory Leave causes an extensive loss of class time for the student or will likely negatively impact the student's grade or learning experience, the instructor and student will determine whether it is best for the student to receive a grade of Incomplete or Withdrawal for the course.

If a grade of Incomplete is chosen, the instructor and student will formally document the procedure required to complete the course.

If a grade of Withdrawal is chosen, the student should receive a prorated refund of tuition and fees paid for the course.

Student Called into Military Service

Executive Memorandum No. 23

1. GENERAL

This Policy shall be implemented in order that the University of Nebraska might provide equitable, consistent treatment to its students who are called into military service and to facilitate their ability to continue their education once that military service is completed.

2. ELIGIBILITY

Students who are regularly enrolled in any class or program offered by the University of Nebraska are eligible for the benefits described in this Policy, if they: (a) belong to a military unit that is called into active duty, or (b) are drafted and not eligible for deferment; such that the date upon which they are required to report to active duty prohibits them, as a practical matter, from completing the term in which they are enrolled.

3. COURSE AND GRADE OPTIONS

An eligible student may elect to cancel registration in all classes in which he or she is enrolled at the time the call for duty is received. In such case, the student shall receive a full refund for all tuition and student fees paid on behalf of that student. In the alternative, the student may request his or her instructors to award a grade or an incomplete for all classes. If an incomplete is given, then the instructor shall file in the student's educational records and provide to the student specific instructions regarding the study and activities required to complete the course. If a grade and credit are awarded, then the instructor shall award a grade reflective of the student's performance, taking into consideration the quantity and nature of the curriculum through the time of the student's departure. Finally, the student shall have the option of withdrawing from selected courses, receiving a prorated refund of tuition and fees for those courses, while also opting to receive a grade or incomplete in other courses in which the student is enrolled.

4. STUDENTS RECEIVING FINANCIAL AID

Notwithstanding any provision to the contrary in this Policy, administration of financial aid with respect to any eligible student shall be consistent with federal and state law. Students otherwise eligible for these benefits and receiving financial aid should immediately contact the financial aid office on their respective campuses, where each case must be addressed individually based upon the particular rules applicable to the relevant student. The campus financial aid offices shall address these matters in such a way so as to minimize the financial hardships to the student, while complying with the applicable law and regulations.

5. PUBLICATION

This Policy shall appear in all student catalogs and placed on the websites of Central Administration and each Campus.

6. SYSTEM APPLICATION

This Policy applies to all administrative units of the University of Nebraska. Each campus may provide supplemental policy guidance, consistent with this Policy, designed to implement the provisions herein, including guidance relating to fees associated with meals and housing, textbooks, parking, lab and course fees, as well as other ancillary fees.

Dated this 17th day of October, 2001.

Course Information

Course Numbering System

The system of course numbers is arranged to indicate the level of instruction. The first figure in each number designates the group to which a course belongs:

Numbering	Description
1000-1990	Courses open primarily to freshmen
2000-2990	Courses open primarily to sophomores
3000-3990	Courses open primarily to juniors
4000-4990	Courses open primarily to seniors
8000-9990	Courses open only to graduate students

From time to time courses may be added or dropped from a curriculum. All courses listed in this catalog cannot be offered each semester. Some departments indicate which semester the course is normally offered. While the departments will attempt to follow the guidelines established for periods of course offerings, there is no guarantee the course will be offered during the semester indicated. Furthermore, students cannot be guaranteed placement in a course offered during a particular semester.

Explanation of Credit Course Numbers

Courses available for graduate credit are those which have been approved by the UNO graduate faculty or its designee. Students will not be allowed to upgrade or retake courses previously taken for undergraduate credit so that they can be used for any purpose where graduate credit is required. Undergraduate courses cannot be used toward a graduate degree.

Dual-listed Courses

Dual-listed courses are courses open to both undergraduate and graduate students. There are two types of dual-listed courses:

1. Courses numbered at the 3000 level which are dual listed with courses starting with the number eight (8) and ending with a five (5) – (3xxx/8xx5).
 - a. No more than two (3xxx/8xx5) courses are allowed on a master's degree plan of study.
2. Courses numbered at the 4000 level which are dual listed with courses starting with the number eight (8) and ending with a six (6) – (4xxx/8xx6).

It is expected that students enrolled for graduate credit will do work at a higher level than that which is expected of undergraduate students in the same course.

Graduate-only Courses

Courses numbered with an eight (8) or nine (9) and ending with a zero (0) – (8xx0 or 9xx0) – are normally restricted to graduate students only. At least one-half the hours of course work on a plan of study must be in courses normally restricted to graduate students only.

With special permission from the dean for graduate studies, exceptional juniors and seniors may enroll in graduate courses.

Courses numbered (8xxx or 9xx1) are normally for advanced master's and doctoral-level students. If taken at the master's level, the course cannot be taken again at the doctoral level.

Credit Hour Definition

Federal Definition

The University of Nebraska at Omaha (UNO) uses the federal definition¹ of a credit hour, which states:

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally-established equivalency that reasonably approximates not less than:

1. One hour² of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately 15 weeks;
2. Or at least an equivalent amount of work as required in paragraph (1) of this definition for other activities as established by an institution, including laboratory work, internships, practica, studio work and other academic work leading toward the awarding of credit hours.

Hour Definition

One credit hour is equivalent to one hour (50 minutes minimum) of lecture and two (2) hours of out-of-class work each week. For all standard 15-week semesters of instruction, and for non-standard (condensed) and online courses the following contact times (minimums) are assigned for every one (1) credit hour based upon the specific type of learning activity:

- Synchronous Classroom: one hour of contact time and two hours of out-of-class work for each week of instruction
- Laboratory: two to four hours of contact time for each week of instruction
- Research/Field Work/Internships/Practica: two to four hours of contact time for each week of instruction
- Clinical: two to four hours of contact time for each week of instruction
- Simulation: two to four hours of contact time for each week of instruction
- Other Activities: three hours of contact time for each week of instruction (Exam time can be considered part of contact time if an instructor chooses to count time spent on assessment as part of contact time)
- Asynchronous Education (e.g., Online or Distance Learning): three hours of student work for each week. Student work includes reading, research, online discussion, instruction, and assigned group activities, preparation of papers or presentations, and exams.
- Hybrid Classes (combination of synchronous and asynchronous education): Combination of face-to-face and assigned student work (see asynchronous) equivalent to three hours for each week.
- Non-standard semesters (e.g., eight week; five week, etc): Contact hours will be equivalent to the contact time established for the standard 15-week semester.

Process

Credit hours for all UNO for-credit courses are established as part of the course development and approval process. The process begins with the departments/schools and then approval by the appropriate college(s) educational policy committee and dean. The University Educational Policy Advisory Committee (EPAC) is the final approval of the number of credit hours for all courses, regardless of mode of delivery. Credit hours are determined by course content/required student work that does not vary by mode of delivery. The determination/assignment of credit hours reflects the educational outcome of the course and the time required for a typical student to achieve the course's desired outcomes. Any changes in credit hours for a course (reduction or increase) is considered a substantial change to the course that requires an updated master syllabus to reflect the change in content and approval by the University Educational Policy Advisory Committee.

¹ Electronic Code of Federal Regulations

² A class hour at the University of Nebraska at Omaha is typically 50 minutes

Course Components

- **Activity** - Instructor-facilitated course generally focused on "learning by doing" with significant student/instructor interaction. Musical or dance groups or fitness-related courses often are assigned this course component.
- **Discussion** - A regularly scheduled section of a larger course, designed for activities such as group discussion, demonstrations or case studies. Discussions do not carry credit and are not stand alone courses. They are linked to a credit bearing course. Discussion sections generally contain fewer students than the course to which they are linked.
- **Dissertation** - Course is taken as part of a student's individual research project, generally in preparation for a written presentation of research results and required for completion of a specific degree program or special distinction in that program. (May be eligible as variable credit).
- **Ensemble** - Course is facilitated by the instructor and generally focused on significant small group or individual student/instructor interaction. Musical groups often are assigned this course component. (May be eligible as variable credit).
- **Field Experience** - Field experiences are generally required as part of an academic program such as counseling, psychology, or education. (May be eligible as variable credit)
- **Independent Study** - Course is designed to meet the needs of an individual student and may include individualized instruction or directed readings. (May be eligible as variable credit)
- **Internship** - Course includes work experiences related to a student's major or career goal. The internship typically involves a student working in a professional setting under the supervision of practicing professionals. (May be eligible as variable credit)
- **Laboratory** - Course is a classroom session(s) associated with a credit bearing course, often a lecture, which requires separate enrollment. Students participate in hands-on experiments or activities that illustrate or augment the material presented in the corresponding lecture or in their program overall.
- **Lecture** - Course is instructor-led course and may include interactive pedagogy to engage students but is primarily guided by the instructor.
- **Lecture/Lab** - A class that contains an integrated lecture and some hands-on components but does not require a separate meeting time like a traditional lab. The lecture/lab (combo) is scheduled like a lecture.
- **Master's Thesis** - Course hours are taken as part of a student's individual research project, generally in preparation for a written presentation of research results and required for completion of a specific degree program or special distinction in that program. (May be eligible as variable credit)
- **Practicum** - Course hours are practical, supervised training designed to supplement formal study. Students learn practical applications of classroom material and gain skills and knowledge relevant to their course of study. (May be eligible as variable credit)
- **Research** - Course is research directed all, or in part, by student(s) with instructor supervision. (May be eligible as variable credit)
- **Studio** - Course is instructor led and generally focused on significant small group or individual student/instructor interaction. Music or Art courses often are assigned this course component. (May be eligible as variable credit).
- **Seminar** - Course is instructor led with a small number of students collectively exploring a topic or field of study, and may be directed all, or in part, by the enrolled students.

Course Prerequisites

Course prerequisites are automatically met based on previous coursework completed while at UNO or through transfer credit as determined by the student's advisor.

If the attempted enrollment results in an error indicating that prerequisites have not been met, students must contact their academic advisor or college advising office.

If a student is allowed to enroll without the necessary prerequisites, a permission number must be issued by the academic advisor or the department and entered into MavLINK during the enrollment process.

Course prerequisites can be found by viewing the online catalog, or by logging into MavLINK, selecting "Class Search" and clicking on the title of a course listed.

Course Syllabus

Students should receive, or have access to, the course syllabus with basic information about the course, including textbooks required, assignments, evaluation protocols, and the basic schedule.

Course syllabi are aligned with the master syllabus, but provide specific information for a particular semester and instructor. Master syllabi are on file with the university and are used for accreditation purposes. Contact your instructor or the department chair/school director for a copy of the master syllabus. Review Board of Regents Bylaw 5.3 about Academic Evaluation which can be found in the Statement of Student Rights and Responsibilities section in this catalog.

Academic Calendar

Visit the Academic Calendar website (<https://www.unomaha.edu/registrar/academic-calendar.php>).

The Academic Year

Typically, an academic year consists of the fall and spring semesters, each consisting of approximately 15 weeks. The unit of instruction is the semester hour. Learn more about the Credit Hour Definition (<https://www.unomaha.edu/registrar/faculty-and-staff/class-schedule/credit-hour-definition.php>).

Prep Week Policy

The last week of regularly scheduled classes during fall and spring semesters is designated as Prep Week. Except for makeup examinations, tests in self-paced courses, or laboratory exams, no major examination accounting for more than 20% of a student's grade may be given during this period. Papers, projects or presentations assigned at least two weeks in advance of Prep Week may be due during this period.

No final exams are to be given during this period as final exams must be offered during Final Exam week at the time assigned by the Registrar.

<https://www.unomaha.edu/campus-policies/prep-week.php>

Final Exams

The last week of fall and spring semesters is designated as Final Examination Week. Instructors of totally online classes should arrange their final exams during Final Exam Week. Instructors of partially online classes should contact the Office of the University Registrar to find an on-campus

exam location if necessary. Exams for summer or special session courses will be held on the last meeting day of the course.

Students should check the Final Exam schedule (<https://www.unomaha.edu/registrar/students/after-enrollment/final-exam.php>) at the beginning of each semester. Finals exam days and times may vary from the regular class days/times. If there are conflicts with the scheduled exams, students should contact their instructor early in the semester to resolve the conflict.

Transfer Credit

Transfer Credit Policies and Procedures

- Credits submitted only on official transcripts from other colleges or universities will be evaluated for admission to an undergraduate college by the Office of Admissions. Transcripts will become a part of the student's permanent record maintained in the Office of the University Registrar. Transfer hours (and hours not accepted for transfer) from another institution are included in the overall GPA when determining honors for graduation. Final determination of transfer credit acceptance is ultimately made by an academic advisor in the student's area of study.
- In general, credits and grades earned at other University of Nebraska campuses will be accepted, computed into the student's grade point average, and will become a part of the permanent record from which official transcripts will be made.
- Only college-level courses with a grade of "C-" or better, CR (Credit), S (Satisfactory), and P (Pass) will be accepted for transfer from regionally accredited two- and four-year colleges and universities. (*The College of Business Administration requires a grade of "C" or better for transfer.*)
- Sixty-four (64) semester credit hours is the maximum allowed for transfer to most undergraduate UNO colleges from regionally accredited two-year colleges. The College of Engineering will allow a maximum of sixty-six (66) semester hours of credit.
- All credit hours transferable are converted to semester credit hours (e.g., one-quarter hour equals 2/3 of a semester credit).
- Each UNO college has a required number of credit hours to be completed at UNO prior to graduation.
- Students wishing to transfer credits from recognized institutions outside the United States may need to provide a course syllabus and catalog for evaluation of transfer credits.

Transfer Articulation Guide

The Transfer Articulation Guide is a tool students can use to see how coursework from other colleges and universities typically transfers to the University of Nebraska at Omaha (UNO). The information is provided only as a guide and should be considered unofficial. Final determination of transfer credit acceptance is ultimately made by an academic advisor in the student's area of study. View the articulation guide (<https://www.unomaha.edu/registrar/students/before-you-enroll/transfer-credit/transfer-guide.php>).

Change of Campus

A Change of Campus application will need to be completed for any student who is attending or has attended one of the four campuses of the University of Nebraska System within the last five years and is applying for admission as a degree-seeking student at a new **NU** campus. A new application for admission will need to be completed to the new campus. Learn more about the Change of Campus application (<https://csprdn.unomaha.edu/psp/csprdn/NBX/HRMS/?cmd=login>).

Intercampus

An Intercampus application will need to be completed for students planning to attend a new Nebraska System Campus on a temporary/

visiting basis, with the intention of returning to their current/home campus. Students should complete the Intercampus application on this website (https://csprdn.unomaha.edu/psp/csprdn/NBX/SA/s/WELIB_PTBR.ISCRIPT1.FieldFormula.IScript_StartPage/?ghcmd=saml). Intercampus is for one term of enrollment only.

Advanced Placement Credit

The Advanced Placement Program is based on the belief that many students are capable of completing college-level courses while still in high school. With this belief in mind, the College Entrance Examination Board assists high schools in planning such courses and provides examinations for them.

The University of Nebraska at Omaha (UNO) participates in the Advanced Placement (AP) program of the College Entrance Examination Board (CEEB). Advanced Placement credit is based on criterion examination(s) administered by CEEB.

Students should contact their college advisor regarding the application of these credits to their academic program. Students must have official copies of their scores submitted to the Office of Undergraduate Admissions by College Board in order for credit to be awarded. To obtain copies of official grade reports, you can contact College Board directly at 888.CALL.4.AP.

The Office of University Registrar manages the Advanced Placement Program (<http://www.unomaha.edu/registrar/students/before-you-enroll/transfer-credit/advanced-placement-credit.php>) at UNO.

College Level Examination Program

The University of Nebraska at Omaha (UNO) grants college credit for specific College Level Examination Program (CLEP) Exams with an acceptable score.

CLEP exams are given by appointment in the UNO Testing Center. Learn more about UNO CLEP exams and how UNO grants credit (<http://www.unomaha.edu/registrar/students/before-you-enroll/transfer-credit/clep-credit.php>).

Military Credit

Students must submit official transcripts to UNO to have military credit considered for evaluation:

- Army, Coast Guard, Navy and Marine service members, reservists, guard and veterans can request the Joint Services Transcript.
- Air Force Active Duty, Guard and Reservists or retired or separated Air Force Members may request transcripts from the Community College of the Air Force (<http://www.airuniversity.af.mil/Barnes/CCAF/>).

Military Credit will be evaluated by the student's advisor in the college upon admission.

Retroactive Credit

Retroactive Credit in English, Spanish, French, German, and Calculus is available for eligible students, based on specific criteria and processes, outlined in each of the departmental links below. A common required criteria of all departments is the successful completion of specified higher level coursework at UNO in the relevant subject.

Please see the links below and contact the specific department(s) for more information.

- Department of English Retroactive Credit Information (<http://www.unomaha.edu/college-of-arts-and-sciences/english/first-year-writing/retroactive-credit.php>)

- Department of Foreign Languages Retroactive Credit Information (<http://www.unomaha.edu/college-of-arts-and-sciences/foreign-languages-and-literature/academics/retroactive-credit.php>)
- Department of Mathematics Retroactive Credit Information (https://www.unomaha.edu/college-of-arts-and-sciences/mathematics/_files/docs/retroactive-credit-math-form.pdf)

Information on how to request eligible retroactive credits, once listed criteria have been met, is outlined within each of the above links.

International Baccalaureate

The International Baccalaureate (IB) program is a comprehensive and rigorous curriculum leading to exams for students aged between 16 and 19. Students who participate in this program enroll in specially designed courses through their high school and take international exams in May.

Students with an IB Diploma earn an average of 25-28 university credits, including three (3) hours of credit in philosophy for completing the Theory of Knowledge course.

- The University of Nebraska at Omaha (UNO) cooperates with the International Baccalaureate Program (IB) in its curriculum and examinations program.
- The results of the IB scores are furnished to UNO at the request of the student.
- The number of earned credits a student will receive at UNO will be determined by the performance in the IB course and the score received on the exam.
- To earn transfer credit, a score of five (5) or higher, in most exams, is required.
- Credit will be granted for both the Standard Level (SL) and the Higher Level (HL) scores if an IB Diploma has been earned. HL scores for all other candidates will be awarded accordingly.

More detailed information can be found on the International Baccalaureate website.

Learn more about how UNO accepts International Baccalaureate (<http://www.unomaha.edu/registrar/students/before-you-enroll/transfer-credit/international-baccalaureate-program.php>) exams.

Cambridge International

The Cambridge International (CI) Program is a curriculum leading to exams that reward students for their engagement in this rigorous college preparatory exam. High school students can take AS & A Level courses and exams to potentially earn college credit or advanced placement. Students who participate in this program enroll in specially designed courses through their high school and take international exams in June or November. Cambridge International A Level is typically a two-year course, and Cambridge International AS Level is typically one year.

- The University of Nebraska at Omaha proposes cooperation with the Cambridge International Program in its curriculum and examinations.
- The results of the CI scores will be furnished to UNO at the request of the student.
- The number of earned credits a student will receive at UNO will be determined by the performance in the CI course and the score received on the exam.
- Credit will be granted for the Exam in coordination with the specific department reviewing the request.

More detailed information can be found on the Cambridge International (<https://www.cambridgeinternational.org/programmes-and-qualifications/cambridge-advanced/>) website.

Grades

Grading Scale

Grades are determined by the daily record of the student and the record made on quizzes, mid-semester and semester examinations. The weight attached to each of these factors is determined solely by the instructor of the course.

The grading system is as follows:

Symbol	Definition	Quality Points
A+	outstanding	4.0
A	outstanding	4.0
A-	outstanding	3.67
B+	proficient	3.33
B	proficient	3.00
B-	proficient	2.67
C+	satisfactory	2.33
C	satisfactory	2.00
C-	satisfactory	1.67
D+	below standard	1.33
D	below standard	1.00
D-	below standard	.67
F	failing	0
CR	credit	*
NC	no-credit, failing	*
NR	no grade reported	*
S	satisfactory: Grade of "C" or better for graduate "D" or better for undergraduate	*
U	unsatisfactory, failing	*
AU	audit	*
I	incomplete: Follow rules listed in catalog; cannot be changed to "IP;" can be extended by one semester by instructor request to Registrar.	*
IP	course in progress: Used for thesis, independent study, research project, or other arranged course; applies to both graduate and undergraduate; remains indefinitely.	*
W	withdrew (good standing)	*
R	repeated course	*

* — not used in calculating grade point averages

Incompletes

To receive an "incomplete," students must contact their professor prior to the end of the semester, request a grade of incomplete, and make arrangements to complete the work. The rules which govern the issuance of the incomplete are as follows:

1. The grade "I" is used by an instructor at the end of a semester or summer session to designate incomplete work in a course. It is given when a student, due to circumstances such as illness, military service,

hardship or death in the immediate family, is unable to complete the requirements of the course in the term in which the student is registered for credit. Incompletes will only be given if the student has already substantially completed the major requirements of the course.

- Each instructor will judge each situation. The instructor will also indicate by a departmental record, with a copy to the student, how the incomplete is to be removed, and if the instructor is at the University at the time of removal, supervise the makeup work and report the permanent grade.
- In the event the instructor is not available at the time of the student's application for removal of an incomplete, the department chairperson will supervise the removal of the incomplete and turn in the permanent grade for the student.
- A student shall have no longer than the end of the next regular semester following receipt of the "I" to remove the incomplete. After that time, the "I" will automatically become a "W," or such other grade specified by the instructor depending on the amount and quality of the course work previously completed. Exceptions to this rule will be permitted if initiated by the student and approved by the instructor, department chairperson, and dean. Exceptions to this rule will be made only in response to circumstances over which the student has no control, and these must be detailed.
- In registering for courses, students receiving one or more "I" grades from the previous semester should take into account the time needed to complete the required work and plan their schedules accordingly.
- Courses with Incompletes do not count towards credit hours in future semester's when determining enrollment status.

Credit/No-Credit (CR/NC)

For information on Credit/No Credit Grades and Rules Governing Credit/No Credit, visit the Credit/No Credit Policy website (<https://www.unomaha.edu/registrar/students/grading-grades/credit-no-credit-option.php>).

Grade Appeals Procedure

Each program/college has an official grade appeal process. Students should contact the department/school or dean's office to receive a copy of the policy. Students should appeal the grade to the department/school/college in which the course was offered.

Repeating Courses - UNO Policy on Grades

Undergraduate Courses

When an undergraduate course is repeated, only the most recent grade will be calculated into the GPA.

- Letter-graded courses must be repeated for a letter grade.
- ALL courses and grades will continue to be a part of the student's permanent record (transcript).
- When determining eligibility for graduation with honors, every grade awarded is computed into the GPA.
- Repeats must be completed before a degree is granted. Once a degree is granted, repeated courses will not change the GPA established at the time the degree was awarded.
- Students may replace grades earned at another University of Nebraska system campus if the articulated equivalent course is taken at UNO. Students should consult with an advisor prior to enrolling in courses at UNO to ensure that the direct equivalent course is taken. Upon completion of the course, either the student or the advisor must contact the Office of the University Registrar, 105 Eppley Administration Building, to have the previous grade removed from the GPA.

Undergraduate Courses - Special Exceptions

Some courses, such as thesis, internship, physical activity, special topics, or independent study may be repeated without removing the previous grade. Visit the repeatable courses website (<https://www.unomaha.edu/registrar/students/during-enrollment/repeatable-courses.php>) for a complete list of these courses. For these undergraduate courses, only grades of F will be removed automatically when these courses are repeated. All other repeats must be done by contacting the Office of the University Registrar, 105 Eppley Administration Building.

Graduate Courses - General Rule

Only grades of Cs, Ds, and F can be repeated, and only the most recent grade will be counted into the GPA.

- Letter-graded courses must be repeated for a letter grade.
- All courses and grades will continue to be a part of the student's permanent record (transcript).
- Repeats must be completed before a degree is granted. Once a degree is granted, repeated courses will not change the GPA established at the time the degree was awarded.

Graduate Courses - Special Exceptions

For courses such as thesis, internship or independent study, repeats are subject to the same rules as listed above under General Rule. Repeats in this category cannot be done automatically. Students must contact the Office of the University Registrar, 105 Eppley Administration Building.

Grade Point Averages (GPA)

UNO GPA

The GPA included on the student's transcript reflects courses taken only in the University of Nebraska System (UNO, UNL, UNMC and UNK).

Degrees with Honors GPA

Grades awarded in ALL courses taken at ALL colleges and universities attended are included in computing the GPA for determining eligibility for graduation honors. This cumulative GPA takes into account a student's complete academic history, including course repeats.

No Report "NR" Grades

If a No Report "NR" grade is reflected on a grade report, the student should immediately report it to the faculty member. A grade of "NR" is not a terminal grade and must be changed to the appropriate letter grade.

Academic Amnesty

Each college has established a policy and procedures for students who wish to declare academic amnesty for one or more semesters. Students should read the Academic Amnesty policy for their college in this catalog or contact their Dean's Office. Students who declare Academic Amnesty are not eligible to graduate with honors. Academic Amnesty can only be applied to the student's educational record one time.

Academic Performance

A student must maintain a cumulative Grade Point Average (GPA) of 2.00 or above to remain in "good academic standing" at the university. However, the colleges may require a higher grade point average.

For purposes of participation in recognized extracurricular activities, "good academic standing" is defined as a cumulative GPA of at least 1.75 for the first 45 hours attempted and at least 2.00 for 46 or more hours attempted, including all college-level courses taken for credit at the University of Nebraska.

Probation and Suspension

Academic Probation

A student whose cumulative grade point average is below 2.00 after having attempted six or more semester hours will be placed on probation. Probationary status will remain in effect as long as the student's cumulative Grade Point Average (GPA) remains below 2.00. No student will be allowed to enroll for any course on a pass/fail or Credit/No-Credit basis while on probation. Probation constitutes a period of formal warning that the student is doing unsatisfactory work.

The student is encouraged to use every opportunity during time on probation to seek counsel and guidance from various university agencies which have been established to offer assistance in study and academic planning. For information on such services, the student should consult with his or her academic advisor or counselor.

Academic Suspension

Students will only be suspended at the end of the spring term. This rule applies to all UNO colleges, including the Academic and Career Development Center and all University of Nebraska-Lincoln based programs in the Colleges of Architecture, Agriculture, and Engineering.

Students who are on probation will be suspended at the end of the spring semester when their semester Grade Point Average is lower than 2.0 and the cumulative Grade Point Average (GPA) falls below the following standards:

Hours Attempted	Cumulative GPA
0-12	No Suspension
13-45	1.75
46 or more	2.00

Suspensions under these conditions will be automatic. Academic suspension will be for a minimum period of one year.

Students will be notified by their primary academic college of their suspension and given instructions on how to appeal, should they choose to do so, and any appropriate deadlines associated with an appeal.

Appeals properly filed shall delay implementation of the suspension until the appropriate appeals committee has acted. However, if the appeal is denied the student shall be dis-enrolled and tuition shall be refunded.

Reinstatement Following Academic Suspension

Students wishing to be reinstated following their one-year suspension from the University of Nebraska at Omaha shall schedule an advising/reinstatement meeting with the College from which the student was suspended. It is recommended the student schedule an advising/reinstatement meeting at least one month prior to the official beginning of the semester or term for which the student is applying (refer to academic calendar for specific dates) in order to have their reinstatement hold released and be eligible to register for classes. If academically suspended students have not taken classes within the last two years, they will need to reapply to UNO first and then schedule their advising/reinstatement meeting.

Academic Honors

Full-Time Dean's List and Part-Time Dean's List

Students seeking their first bachelor's degree are eligible for this academic honor. Students must earn a minimum of 12 quality hours with a minimum Grade Point Average (GPA) of 3.50 in a given fall or spring semester for full-time students, and consecutive fall or spring semesters for part-time

students. These academic honors are not offered during the summer term. Part-time students whose honors are considered on a continuous enrollment will have summer hours included in their calculations for Dean's List. Dean's Lists are posted to the academic record only during the fall and spring semesters. Contact UNO's Office of the University Registrar, 105 Eppley Administration Building, with any questions.

Full-Time Chancellor's List and Part-Time Chancellor's List

Students seeking their first bachelor's degree are eligible for this academic honor. Students must earn a minimum of 12 quality hours with a minimum Grade Point Average (GPA) of 4.0 in a given fall or spring semester for full-time students, and consecutive fall or spring semesters for part-time students. These academic honors are not offered during the summer term. Students earning the Chancellor's List honor will also earn the corresponding full-time or part-time Dean's List honor. Contact UNO's Office of the University Registrar, 105 Eppley Administration Building, with any questions.

How to View Official Grades

Students can view grades via MavLINK immediately after they are posted by the instructor. Official Grades are available in MavLINK under the Academics tab or on the Unofficial Transcript. Final grade reports are not mailed out to students nor can grades be provided over the phone.

Official Academic Transcripts

Transcripts contain academic information such as coursework, grades, credit hours, Grade Point Average, and UNO degrees earned.

Before an official transcript can be released, all financial and administrative obligations to the University of Nebraska System must be resolved. Holds can be viewed through MavLINK.

UNO transcript requests can only be completed online. Requests made via phone, email, or fax are not accepted. Transcripts can be ordered by students via MavLINK.

Learn more about ordering your transcripts online (<https://www.unomaha.edu/registrar/students/transcripts-and-records/order-a-transcript.php>).

Academic Integrity Policy

Under the Bylaws of the Board of Regents of the University of Nebraska [Sections 2.9 and 4.1(i)], the respective colleges of the University have jurisdiction over procedural matters concerning academic dishonesty. Just as the task of inculcating values of academic honesty resides with the faculty, the faculty is entrusted with the discretionary authority to decide how incidents of academic dishonesty are to be resolved.

This policy applies to all colleges and academic units at the University of Nebraska at Omaha ("UNO" or "University"). Each college and academic unit, including its faculty members, have the responsibility to educate its students about this policy and any additional standards of conduct for academic integrity in a particular course. Students are responsible for understanding and adhering to the requirements of this policy and any additional academic integrity standards prescribed by a college and academic unit, including its faculty members.

Learn more about Academic Integrity <https://www.unomaha.edu/student-life/student-conduct-and-community-standards/policies/academic-integrity.php>

Statement of Student Rights and Responsibilities

I. University of Nebraska Bylaws

Students, like all members of the academic community, have the responsibility to create and support an educational environment. Each member of the community should be treated with respect and dignity. Each has the right to learn. This right imposes a duty not to infringe upon the rights of others. The academic community should assure its members those opportunities, protections and privileges that provide the best climate for learning. (Bylaws of the Board of Regents, Section 5.0.) UNO shall publicize and keep current all rules, regulations, and policies concerning students, and insure that they are readily available to all students and other interested persons. (Bylaws of the Board of Regents, Section 5.1.)

1. Admissions Criteria UNO shall publish the criteria for admission, academic progress, certificates, and degrees for all colleges and schools of the University. Admission to the University and the privileges of University students shall not be denied to any person because of age, sex, race, color, national origin, or religious or political beliefs. (Bylaws of the Board of Regents, Section 5.2.)

2. Academic Evaluation Students shall be informed of the requirements, standards, objectives and evaluation procedures at the beginning of each individual course. Each student shall be given a performance evaluation during the progress of the course if requested. Each college or school shall provide for a faculty-student appeals committee for students who believe that evaluation of their academic progress has been prejudiced or capricious. Such procedure shall provide for changing a student's evaluation upon the committee's finding that an academic evaluation by a member of the faculty has been improper. Procedures for appealing evaluation of academic progress are provided by each college or school unit. Generally, but not necessarily conclusively, the procedures are similar to the following: Students wanting to appeal a grade (evaluation that has been prejudiced or capricious), shall attempt to discuss the matter directly with the instructor. If the student and the instructor do not reach a satisfactory agreement, the student may submit an appeal in writing to the chairperson of the department in which the course is offered. If the student and chairperson do not reach a satisfactory agreement, the student may submit an appeal in writing to the Dean of the College in which the course was offered. The decision made at this level, which would include a hearing by a faculty-student appeals committee, will be final. Each college or school shall provide a mechanism by which students have an opportunity to report their perceptions of courses and the methods by which they are being taught, provided, however, that such mechanism shall protect members of the faculty from capricious and uninformed judgments. (Bylaws of the Board of Regents, Section 5.3)

3. Public Information Regarding Students Public information regarding students, rules with respect to confidentiality, and any release of information will be governed in accordance with Federal and State law. The Board is authorized to develop policies and procedures consistent with that law. (Bylaws of the Board of Regents, Section 5.6.)

4. Disciplinary Records Subject to any requirements of the Records Management Act, the University shall provide for the periodic destruction of noncurrent disciplinary records. (Bylaws of the Board of Regents, Section 5.7.)

5. Student Communications Media Student publications and broadcasting stations shall be supervised in a manner such that editorial freedom will be maintained and that the corollary responsibilities will be governed by the canons of ethical journalism. Student publications financed in whole or in part by fees collected from all students at UNO shall be supervised by a Publications Committee. This committee shall have full responsibility of a publisher and the power of decision on the proper application of the canons of ethics. Students shall comprise a majority

of the membership, but the committee shall also include members of the faculty and professional journalists from outside the University. (Bylaws of the Board of Regents, Section 5.9.)

6. Eligibility for and Participation in Co-Curricular Activities. Co-Curricular activities and registered student organizations are offered by the University to meet the needs of interests and promote the development of special skills of its student population. To participate as a member in any recognized student organization, at a minimum, a student must be enrolled in at least one credit course, excluding audit hours.

Additional membership criteria may be established by UNO based on the nature of the organization and/or set by the organization themselves.

Membership requirements set by organizations may be more, but not less, stringent than those laid out by the University but must be in compliance with any federal laws and/or restrictions. Interested students should contact the leadership of the student organization or co-curricular activity for specific membership guidelines/requirements. Officers of all organizations, in conjunction with the support of their faculty and staff advisors, are tasked with enforcing membership requirements.

The University of Nebraska does not discriminate based on race, color, ethnicity, national origin, sex, pregnancy, sexual orientation, gender identity, religion, disability, age, genetic information, veteran status, marital status, and/or political affiliation in its programs, activities, or employment.

7. Campus Speakers Students are allowed to invite and hear any person of their own choosing. Institutional procedures will insure the orderly and adequate preparation for the event. However, the control of campus facilities will not be used as a device of censorship. (Bylaws of the Board of Regents, Section 5.11.)

II. University of Nebraska Policies

1. Academic Degree Completion The requirements for graduation from a bachelor's degree program shall be those listed in the Catalog effective at the time of matriculation provided continuous enrollment (excluding summer sessions) was maintained. However, the University reserves the right to withdraw and substitute courses, to reassign instructors and to change the nature of instruction, as deemed necessary. In some cases, prerequisites for courses offered at the University are effective even if they are not listed in a given catalog. (See the current schedule of classes or your adviser for details.) A student may meet requirements listed in a subsequent Catalog if written approval is granted by the dean of the college in which the student is enrolled. Acceptance of registration by the University of Nebraska and admission to any educational program of the University does not constitute a contract or warranty that the University will continue indefinitely to offer the program in which a student is enrolled. The University expressly reserves the right to change, phase out, or discontinue any program. The listing of courses contained in any University bulletin, catalog or schedule is by way of announcement only and shall not be regarded as an offer of contract. The University expressly reserves the right to 1) add or delete courses from its offerings, 2) change times or locations of courses or programs, 3) change academic calendars without notice, 4) cancel any course for insufficient registrations, or 5) revise or change rules, charges, fees, schedules, courses, requirements for degrees and any other policy or regulation affecting students, including, but not limited to, evaluation standards, whenever the same is considered to be in the best interests of the University. (Policies of the Board of Regents, Section 5.1.3)

2. Right to Public Hearing It shall be the right of any individual member or group of members of the University (i.e., students, faculty, or administrators) to be granted, upon petition to the appropriate policy making body or office, a public hearing at which the policy indicated by the group of petitioners in their petition shall be discussed. The policy-making body or office petitioned shall schedule the hearing for some time convenient to the interested parties if possible, no later than two weeks after the petition is submitted during periods when the University is in session, and shall announce publicly in advance the time and place of the

hearing. At the hearing, that body responsible for the policy indicated in the petition shall clarify said policy, offer the reasons which justify the policy in view of the objections or questions raised about it in the petition, and respond to any additional questions or criticisms of the policy or related policies raised at the hearing by any member of the University. It is expected that before such a petition is submitted, all other normal channels for raising questions about the policy have been exhausted. If, in the view of the policy-making body or office to whom the petition is submitted, the petition is merely a form of harassment or adequate answers are available through other normal channels, the petition may be referred to the relevant committee to determine whether the hearing must be held. A decision by the Committee not to hold a public hearing shall be overruled by the submission to that committee of a petition requesting such hearing and signed by at least 100 members of the University community. (Policies of the Board of Regents, Section 2.1.3)

3. Directory Information In compliance with the federally-enacted Privacy Act and as defined by the Board of Regents, public directory information regarding students attending UNO shall be the (i) student's name, (ii) year at the University, (iii) dates of attendance, (iv) academic college and major field of study, (v) enrollment status (e.g. undergraduate or graduate; full-time or part-time), (vi) participation in officially recognized activities and sports, (vii) degrees, honors and awards received, (viii) most recent educational agency or institution attended, (ix) University email address, and (x) hometown. Non-public directory information regarding students attending UNO shall be the (i) local address, (ii) permanent address, and (iii) telephone listings. Public directory information will be available to the public upon request and may be included in student directories published electronically. Non-public directory information is not available to the public, but is available to University faculty, staff, and students for University purposes. Directory information will be released by the Registrar in accordance with this policy upon inquiry, unless the student has requested that specific items not be released. The student's request to have directory information withheld should be filed at the Office of the Registrar. (Policies of the Board of Regents, Section 5.10.) An explanation of this Act and its application at UNO is available to all students. Copies may be obtained online at <https://www.unomaha.edu/registrar/ferpa> (<https://www.unomaha.edu/registrar/ferpa/>)

3.1 Mandated Release of Information UNO shall disclose to a victim of any crime of violence the results of any disciplinary proceeding conducted against the alleged perpetrator of such crime with respect to such crime. (Policies of the Board of Regents, Section 5.10)

4. Sponsorship of Speakers with Student Fees The purpose of a speakers program is to advance the general educational purposes of the University by putting before the University community a broad range of ideas in a variety of contexts. The organizations administering speaker programs should make every attempt to provide balance on all subjects presented. All students are encouraged to join programming groups and/or give their input on speaker selection. (Policies of the Board of Regents, Section 5.6.1)

III. UNO Policies

1. Counseling/Medical Records Information exchanged with and/or maintained by a professional counselor/psychologist or medical personnel about a student client will remain confidential, except under legal compulsion.

2. Demonstrations The University acknowledges the rights of members to express their views by peaceful demonstration. UNO is an academic community founded upon a belief in rational dialogue and mutual respect among its members. The opportunities for communication within the University are many and varied, and the University welcomes suggestions for enlarging or improving them. The nature of the academic community demands that all members strive to maintain the rational dialogue which is the cornerstone of the University. There is no conceivable issue, be it a question of academic and administrative policy or of students rights

and freedoms, that cannot be approached within the framework of free discussion.

a. Demonstration Procedures

Members of the academic community, including the guests of the University, have the right of extensive latitude in making their opinions known. It is understood, however, that in exercising this right the rights of others must not be jeopardized. The public exploration and resolution of differing views can be successful only when groups and individuals discuss the issues in forums where the right to disagree and to speak freely and be heard is preserved. Within this context, the University community recognizes peaceful demonstration as a legitimate means of expressing one's opinion.

The preservation of freedom of speech, and the recognition of the right to peaceful demonstration as part of that freedom, is possible only in an orderly environment in which individuals are not endangered by force or violence and in which they are free from coercion and interference in the exercise of their rights or in carrying out their legitimate activities.

Campus demonstration forms are available in the Administrative Office of the Milo Bail Student Center and must be submitted and approved with all necessary signatures at least 48 hours (two business days) before the proposed demonstration. Board of Regents bylaws state that, in cases of the disruption of normal University activities, the Chancellor or his/her designee will, in accordance with University policies and procedures, take necessary steps to restore the University to its normal function. The Chancellor or his/her designee may, in the event of refusal to disperse upon request, impose temporary action, including suspension of those persons disrupting the normal function of the University. The determination as to whether disciplinary action will be initiated for violations of University rules and regulations by students will be made by the Vice Chancellor for Student Success.

The University community may impose behavioral restrictions which are necessary to preserve the orderly functioning of the University and the right of all to be heard. Such restrictions fall into two categories:

i. Prevention of violence or the use of force:

Demonstrations which coerce individuals or which constitute a hazard to the safety of any persons or which threaten destruction of property are not protected by freedom of speech provisions and will not be tolerated. Similarly, a hostile audience will not be allowed to interfere with a peaceful demonstration.

ii. Protection from interference with University operations:

The University community may restrict conduct which interferes with the holding of classes, the carrying forward of University business, properly organized and scheduled University events, or the discharge of responsibility by any University officer, employee or student. Although the mere presence of demonstrators in public areas within buildings does not necessarily constitute interference, demonstrators cannot be allowed physically to obstruct access to University facilities. Noise and boisterous activity is objectionable when it prevents others from exercising their rights and duties.

Persons engaging in disruptive action shall be subject to disciplinary measures, including separation from the University, and also to charges of violation of the law.

b. Response to Disruptive Behavior

The response of the University to any disruptive behavior must ultimately depend on the judgment of the officials who are in charge. However, the following guidelines should be observed:

i. Every effort will be made to end the disruption through reason and persuasion. These efforts shall include a clear indication of the willingness to discuss issues and to make clear the procedures for discussion and

arbitration of the issues involved. Discussion of the issues will not be conducted under conditions of duress.

ii. If the discussion method fails, the individuals involved will be notified that they are in violation of University regulations and they will be asked to cease the activity. In the event the alleged violators do not cease the activity within a reasonable length of time, temporary sanctions, which may include conduct probation and if necessary, suspension, may be imposed on the scene. However, unless both the student and the University officials agree to a postponement, the University must hold disciplinary hearings within five (5) school days or the temporary sanctions will be dissolved. Such disciplinary hearing shall be held, as far as possible, in accordance with the established disciplinary procedures of the University. No temporary sanction shall be made part of a student's permanent record. If a student is found innocent of the action for which temporary sanctions were imposed, no record of the temporary sanction or of the hearing shall become part of any of the student's files or records and the student shall be given the opportunity to make up work which was not completed because of the disciplinary action.

iii. If the use of institutional sanctions and discussion methods are not effective in ending the disruptions, or when alleged violators are not members of the University community, extra-institutional methods (including the invoking of police force) may be used. Non-members of the University community who are engaged in disruptive behavior may be referred to civil authorities for appropriate action.

iv. Evidence regarding the activity of nonstudent members of the University community who are alleged to have engaged in disruptive behavior may be referred to their supervisors for appropriate action.

The University community abhors the use of force as a method for settling disagreement and will always make exhaustive attempts to deal with issues by rational methods. When, however, such rational efforts prove ineffective or when imminent danger to life or property exists, more forceful methods shall be used to protect the rights and property of members of the community.

3. Distribution of Printed and Other Materials. Students are free to express their beliefs and concerns in a variety of ways. Printed and other materials offered free of charge may be distributed at any location on the campus as long as such distribution does not interfere with normal traffic or functions of the University. Such materials may be distributed by any UNO-affiliated person provided such is accomplished in an orderly manner within the framework of University policies and the law. If specific space for distribution of material is desired, a location may be reserved in a designated area of the Milo Bail Student Center, in accordance with existing policies and procedures governing space reservations. Special care is requested of any and all parties distributing literature to prevent littering of the campus and surrounding areas. Such activity shall be conducted so as not to interfere with the rights of others or the normal activities of the University. Any material offered for sale, solicitation of donations, or posting on University bulletin boards must comply with UNO policy concerning these matters. Contact the Director of the Milo Bail Student Center if more specific information is desired.

4. Information Services. The facilities of UNO Information Services are available to students, faculty and staff of this institution for the purpose of instruction, research, and other activities as defined by the Chancellor. The computer facilities are University property and their operation is part of University operations. Executive Memorandum No. 16 of the President of the University of Nebraska states the University policy on responsible use of University computers and information systems. Executive Memorandum No. 16 may be accessed on the Internet at: www.nebraska.edu/about/exec_memo16.pdf. The Student Code of Conduct addresses offenses related to the properties and operation of the University, and, therefore, also applies to computer use and facilities as it applies to all other University resources.

5. Title IX. How Title IX Affects Your Educational Experience.

1. It is the policy of the University of Nebraska to administer all of its educational programs and related supporting services in a manner which does not discriminate based upon age, race, ethnicity, color, national origin, gender, gender identity, sex, pregnancy, disability, sexual orientation, genetic information, veteran's status, marital status, religion or political affiliation.

Any unwanted conduct of a sexual nature, whether verbal, physical, written, or pictorial, which has the purpose or effect of creating a hostile environment for the person subjected to the conduct, or any solicitation of sexual conduct of any nature when submission to or rejection of such contact is used as the basis for either implicitly or explicitly imposing favorable or adverse terms and conditions of academic standing constitutes sexual harassment and will not be condoned or tolerated. Moreover, sexual misconduct including stalking, dating or domestic violence, sexual exploitation, and sexual assault is prohibited.

b. Appropriate corrective action will be taken toward any student or employee who is found to have violated UNO's non-discrimination, sexual harassment, and/or sexual misconduct policies. Further, UNO commits itself toward the assurance of non-retaliation toward any person who reports harassment, sexual misconduct, or discrimination or who participates in an investigation of such conduct.

c. If you suspect or experience discrimination, sexual harassment, or retaliation toward yourself or others, please keep records or other evidence of specifics and report the conduct.

If you do not feel comfortable telling a person to stop inappropriate behavior, or if the behavior does not cease once you have made the request to do so, you may seek assistance from an administrator, professor, or counselor. Persons designated by the University as Officials with Authority are required to report sexual discrimination, harassment, or misconduct reported to them. Other employees are expected to provide assistance and report.

Student Code of Conduct

University of Nebraska Student Code of Conduct ("Code")

Students at the University of Nebraska are members of an academic community in which academic integrity and responsible conduct are essential for the community to function. To ensure that students know what is expected of them, the University has adopted the Standards of Academic Integrity and Responsible Conduct ("Standards").

- Section I - Persons & Organizations Subject to the Standards
- Section II - Standards of Academic Integrity and Responsible Conduct
- Section III - University Responses to a Violation of the Standards
- Section IV - Enforcement of Standards

- Section V - Temporary Suspension
- Section VI - Miscellaneous Procedural Matters

All allegations of sexual misconduct, including sexual harassment under Title IX of the Education Amendments of 1972 (Title IX), sexual assault, sexual harassment, sexual violence, dating violence, domestic violence, or stalking are investigated and addressed following the procedures set forth in Executive Memorandum No. 38.

SECTION I

Persons & Organizations Subject to the Standards

A. Students

1. The term "student" includes all persons enrolled at the University, including online and non-degree seeking individuals.
2. All students are subject to the Standards of Academic Integrity and Responsible Conduct as set forth in this Code while they are enrolled as an undergraduate student or a graduate student
3. For purposes of the Standards, a student is considered to be enrolled starting one (1) week before the first day of classes of the first semester or session for which the student has registered for classes, or when the student engages in University sponsored activities whichever occurs first. A student's enrollment ends when the student graduates, withdraws from the University, or fails to register for classes for three (3) consecutive semesters, with summer term considered to be a semester, or no longer has a continuing student relationship with the University.
4. As a general rule, the Standards do not apply to graduate students when the graduate students are fulfilling their employment responsibilities, – but the Standards of Academic Integrity apply to conduct that is related to the courses in which graduate students are enrolled. Further, as a general rule, the Standards apply to graduate students with assistantships, but they do not apply to conduct that is related to teaching responsibilities. Therefore, the Standards do not affect graduate student academic freedom.
 - a. The Standards of Responsible Conduct apply to students enrolled at the College of Law, but students at the College of Law are subject to the Law College Honor Code and not the Standards of Academic Integrity set forth in this Code.
 - b. The Standards of Responsible Conduct do not apply to post-doctoral fellows and medical/health profession residents not enrolled in credit courses.
5. Students who are accused of committing a violation of the Standards while they are enrolled at the University may still be held responsible for the violation even if they later withdraw from the University prior to a resolution of the alleged violation.

B. Organizations - The Standards apply to recognized student organizations, which are organizations that have been authorized by the University to use University facilities. Any student organization that is registered with the University, including student clubs, student organizations operating online, and fraternities and sororities, or similar programs, is a recognized student organization for purposes of the Code.

C. Effect on Academic Sanctions - The University may address academic misconduct through proceedings under the Code as well as through proceedings implemented by an instructor or academic department. Specifically, imposition of academic sanctions on a student by an instructor or academic program does not prevent the University from instituting proceedings against the student under the Code. In addition, the Code does not prevent an academic program from imposing academic sanctions on students who engage in unprofessional conduct as defined by program specific policies or professional licensure requirements.

D. Locations in which the Standards Apply

1. The term "on-campus" includes all University premises, including all University of Nebraska locations; physical campuses, including all adjacent streets and sidewalks, and any University affiliated

programs; events or activities, including those located in other states or countries; and the use of any University electronic systems. The term "off-campus" means any location that is not on-campus.

2. The Standards of Academic Integrity apply regardless of where the conduct occurs.
3. The Student Code of Conduct applies to conduct that occurs on-campus and, in the situations set out below, to conduct that occurs off-campus.
 - a. Pursuant to Regents By-Law 5.5, the Student Code of Conduct should not be applied as a matter of course to off-campus conduct simply because the conduct also violates federal, state, or local law.
 - b. The Student Code of Conduct applies to conduct that occurs off-campus in the following situations:
 1. The Code states that it applies to conduct that occurs off-campus.
 2. The conduct occurs in or on the grounds of a university-approved housing unit.
 3. The conduct occurs at events or during travel authorized, funded, or sponsored by the University.
 4. The conduct occurs at events or during travel funded or sponsored by a student organization.
 5. The conduct poses a risk to the health and safety of individuals and application of the Code is reasonably necessary to educate the student about the risks of the conduct or to help the student avoid engaging in the conduct in the future.
 6. The conduct poses a serious risk to the health or safety of individuals and is of the type that the student could easily engage in on-campus.
 7. The conduct was intentional and caused, or attempted to cause, physical injury to a university employee or another student.
 8. The conduct could, or was intended to, cause harm on-campus.
 9. A conduct officer:
 1. determines that the conduct in a particular matter distinctly and clearly implicates the University's interests;
 2. prepares a written explanation of the interests and how the conduct implicates them; and
 3. provides the written explanation to the student or student organization.

SECTION II

Standards of Academic Integrity and Responsible Conduct

The Standards are all structured in the same way. They contain a general category of conduct that violates the Code, followed by a list of specific types of conduct. The list is not exhaustive and does not reflect all conduct that may be in violation of the Code. The word "include(s)" before a list should be read as saying that the types of conduct in the list are *examples* of conduct that is covered by the general category rather than an exclusive list. For example, the first violation that appears below is "Cheating." The words "which includes" come next, followed by ten (10) examples. If a student engages in conduct that is similar to those examples and that people would normally think of as cheating, then that student has engaged in cheating in violation of the Code.

The words "means" before a list should be read as saying that the general category covers only the types of conduct in the list. In other words, the list is *exclusive*. For example, one of the general categories is "Hazing Students." The words "which means" come next, followed by a definition and three situations in which hazing may occur. A student may be found

responsible for Hazing under the Code only if the conduct occurs in one of those three situations.

Nothing in the Standards of Responsible Conduct may be construed to apply to conduct or words that are protected by the First Amendment to the United States Constitution or by Article I of the Nebraska Constitution.

Likewise, nothing in the Standards of Responsible Conduct may be construed in a manner that is inconsistent with the Board of Regents Policy, *Commitment to Free Expression; Guide for Facilities Use; and Education*. [link; update name and link as necessary]

A. Standards of Academic Integrity

Students are expected to approach and complete their academic work with integrity. They are expected to do their own work, to be honest in the statements they make, to refrain from harming others, to refrain from improperly helping others, and to follow the rules. Students must read instructions and syllabi carefully so that they know what their instructors expect in terms of academic integrity.

Students who are unsure whether or not particular conduct is appropriate should ask their instructors or university administrators. Failing to act with integrity is a violation of the Code. A student fails to act with integrity when they engage in or attempt to engage in any of the following conduct.

1. *Cheating*, which includes, but is not limited to:
 - a. Copying from another student's exam, assignment, or project.
 - b. Using materials during an exam or for an assignment that are not authorized by the instructor.
 - c. Using devices during an exam that are not authorized by the instructor.
 - d. Taking any materials out of the exam room (for example, the exam itself or scratch paper) that the exam instructions prohibit students from taking.
 - e. Making an electronic copy of part or all of an exam, unless the instructions authorize making a copy.
 - f. Possessing a copy of an exam or assignment that the student knows or should have known that they are not authorized to have.
 - g. Working on an exam or assignment with someone else, unless group work has been authorized by the instructor.
 - h. Taking an exam for another student, or allowing their exam to be taken by someone else.
 - i. Taking all or part of work that someone else prepared and submitting it as one's own.
 - j. Taking all or a substantial part of an assignment submitted for one course and submitting it in another course, without the authorization of the instructor for that course.
2. *Dishonesty, Falsification, and Fabrication*, which includes, but is not limited to:
 - a. Making false statements to avoid taking an exam or submitting an assignment at the scheduled time.
 - b. Making false statements to avoid a penalty for failing to take an exam or submit an assignment at the scheduled time.
 - c. Making up or purposefully misstating information or sources in any assignment or research project.
 - d. Engaging in plagiarism by presenting the words or ideas of another person as one's own.
 - e. Making changes to a graded exam or assignment and then representing that the changes were part of the original exam or assignment.
3. *Harmful Academic Action Towards Others*, which includes, but is not limited to:
 - a. Interfering with another person's research or academic work.
 - b. Knowingly making false charges that another student violated these Standards.
4. *Improperly Helping Others*, which includes, but is not limited to:

- a. Helping another student on an exam or an assignment when the student is not authorized to receive help.
 - b. Knowingly helping another student violate these Standards, including, but not limited to, sharing an instructor's teaching materials without permission.
 - c. Unauthorized distribution, electronically or otherwise, of an instructor's course materials.
5. *Failing to Follow the Rules*, which includes, but is not limited to:
 - a. Failing to follow the instructions of an exam proctor.
 - b. Failing to follow testing center rules.

B. Standards of Responsible Conduct

Students are expected to conduct themselves responsibly. Students must remember that they are members not only of the University community but also of the community in which the University is located. This means that students are expected to make responsible decisions about the use of drugs and alcohol, to behave appropriately as a member of the academic community, and to refrain from conduct that threatens the safety of the community.

Failing to act responsibly is a violation of this Code. Engaging in any of the following conduct is considered a failure to act responsibly:

1. *Using, Possessing, Manufacturing, Selling, or Distributing Illegal Drugs, Narcotics or Controlled Substances*, except as expressly permitted by law.
2. *Using, Possessing, Selling, or Distributing Prescription Drugs when not legally permitted or authorized*.
3. *Using, Possessing, or Distributing Drug Paraphernalia*.
4. *Being in the physical presence of unauthorized alcohol or in the physical presence of illegal drugs*, which includes, but is not limited to:
 - a. Being in a residential room of a University residence hall or university-approved housing in which illegal drugs or unauthorized alcohol are present.
 - b. Being on campus in a vehicle in which illegal drugs or alcohol are being used.
 - c. Being off campus on University approved activities, or otherwise representing the University, in which illegal drugs or unauthorized alcohol are present.
 - d. Being in the presence of illegal drugs or unauthorized alcohol in these locations may not be a violation if the student establishes they were unaware of the presence of illegal drugs or unauthorized alcohol.
5. *Misuse of Alcoholic Beverages*, which includes, but is not limited to:
 - a. Using, possessing, or providing alcoholic beverages on campus without University authorization.
 - b. Being intoxicated to the point of becoming incapacitated or posing a danger to oneself or others.
 - c. Driving while under the influence of alcoholic beverages or drugs in violation of law.
 - d. Possessing or consuming alcoholic beverages while under the age of twenty-one (21), except when expressly permitted by law.
6. *Providing Alcoholic Beverages to Underage Students at Off-Campus Parties and Events*, which includes, but is not limited to:
 - a. Providing alcoholic beverages to underage individuals.
 - b. Making alcoholic beverages available on premises that the students control when they know that underage individuals are likely to be present, the beverages are left in a place easily accessible to underage individuals, and some or all of the beverages are consumed by underage individuals.
 - i. A student will be considered to have control of premises if they were on the premises at the time alcoholic beverages were furnished to underage individuals and

1. they are the lessee or owner of the premises;
 2. they obtained authorization from the lessee or owner to use the premises; or
 3. they have legal access to the premises.
- II. A student will be considered the lessee if they lease the premises for any purpose, regardless of the length of the lease.
- c. Purchasing or delivering alcoholic beverages for an event where some or all of the beverages are consumed by underage individuals when the student knew that underage individuals would likely be present and that the alcoholic beverages would likely be easily accessible to them.
 - d. Putting out alcoholic beverages at an event where some or all of the beverages are consumed by underage individuals when the student knew that underage individuals would likely be present and that the alcoholic beverages would likely be easily accessible to them.
7. *Engaging in, or attempting to engage in, behavior that may cause harm to an individual or property*, which includes, but is not limited to:
- a. Physical abuse or unwelcome contact, such as hitting, pushing, kicking, choking, biting, or spitting.
 - b. Threatening to commit an act of violence for the purpose of terrorizing another person or persons.
 - c. Threatening another person with imminent physical harm.
 - d. Restraining another person, without legal authority to do so unless it can be shown that there was a reasonable basis to believe that restraining the person was necessary to protect the restrained person, self or others from physical harm.
 - e. Harassing another person, by intentionally engaging in a course of conduct that serves no legitimate purpose and that would seriously terrify, threaten, or intimidate a reasonable person.
 - f. Harassing another person due to their status as a member of a protected class in a manner that is so severe, persistent, or pervasive as to limit or deny a reasonable person's ability to participate or benefit from the University's programs, activities, or employment.
 - g. Taking pictures or making recordings of another person without the person's consent in any place where a person would have a reasonable expectation of privacy, including, but not limited to: the person's bedroom; in the person's living quarters in a residence hall; in a locker room; or in a restroom.
 - h. Taking without permission, destroying, damaging, or vandalizing property that belongs to the University, to University employees, to a student organization, or to others.
 - i. Taking money without permission that belongs to others.
 - j. Accessing, transferring, altering, or destroying without authorization electronic files or devices that belong to the University, or other persons.
 - k. Taking, duplicating, or using the identification card, keys, or credentials of another without authorization.
 - l. Failing to comply with the campus tobacco policy.
8. *Engaging in Conduct that Disrupts Classes, University Operations, Activities, or Order*, which includes, but is not limited to:
- a. Interfering with an instructor's ability to conduct class by failing to follow the instructor's rules or instructions regarding behavior.
 - b. Being present in a location on campus without proper authorization.
 - c. Obstructing, impeding, or blocking entrances to or hallways in University buildings, roads, sidewalks or windows on campus, or entrances to campus.
 - d. Yelling, screaming, or making loud noises with bullhorns or other such devices.
 - e. Engaging in protests, sit-ins, or demonstrations at times or in locations where those kinds of activities are not permitted.
9. *Failing to Comply with University Housing Policies*, which means:
- a. Violating any student housing unit policy or regulation whether as a resident or visitor. Visit [housing.unomaha.edu] for applicable policies and regulations.
10. *Hazing Students*, which means:
- a. Any action taken or situation created that intentionally or recklessly endangers the physical or mental health or safety of a student when that activity is performed:
 - i. in the course of a student organization member considering the student for membership, continued membership, or affiliation with the organization;
 - ii. in the course of a student organization considering the student for membership, continued membership, or affiliation with the organization; or
 - iii. in response, either in whole or in part, to an expression of interest by the student in becoming a member of the organization.
 - b. Hazing is a violation regardless of whether it occurs on or off campus.
 - c. Permission or approval of the student being hazed is not a defense to hazing.
 - d. Examples of hazing activity include, but are not limited to, paddling, beating, or branding a student, depriving a student of sleep for a prolonged period, sexually penetrating a student or touching the student in a lewd manner, subjecting the student to prolonged exposure to the elements, depriving the student of food or water, leaving the student in a remote location without a means of return, subjecting the student to conduct designed to shock the student, or having the student engage in criminal conduct, engage in humiliating conduct, perform prolonged calisthenics, consume items that are not normally consumed by people, consume items in quantities that are not normally consumed by people, or consume alcohol.
11. *Doing Private Acts in Public*, which includes, but is not limited to:
- a. Engaging in sexual acts such as intercourse or masturbation in public, exposing one's private body parts in public, or urinating or defecating in public.
12. *Misusing University Computer and Network Systems*, which includes, but is not limited to:
- a. Engaging in conduct prohibited by Sections 5 and 6 of the Policy for Responsible Use of University Computers and Information Systems. (Executive Memorandum 16).
13. *Falsification*, which includes, but is not limited to:
- a. Knowingly providing false information to the University for the purpose of obtaining something of value, such as admission to the University or a University program, an award, a scholarship, an identification card, membership on an athletic team, or the use of University facilities.
 - i. This Standard applies from the time of application for admission to the University, regardless of when the student actually enrolls.
14. *Engaging in Conduct that Creates a Threat to Community Safety*, which includes, but is not limited to:
- a. Possessing weapons in violation of Campus Weapons Policies. [link; update name and link as necessary]
 - b. Using weapons to cause physical harm to others.
 - c. Possessing or using fireworks.
 - d. Making, possessing, or using false forms of identification such as driver licenses and University identification cards.
 - e. Tampering with fire or safety equipment.
 - f. Intentionally making false reports of fires, bombs, or other emergencies.
 - g. Failing to comply with requests for identification or other lawful commands from emergency personnel, police officers, or University employees that are reasonably related to the employee's job responsibilities

15. *Failing to Comply with any University or Campus Policy, Rule or Regulation*, which means the violation of any University policy, rule, or regulation published in hard copy or available electronically on any University website. Electronic copy published on any University website shall supersede hard copy.
16. *Violation of Law*, which means:
 - a. Engaging in conduct that is sufficient to constitute a violation of federal, state, or local law that causes, or could cause, harm to the campus community to the extent the University's interests are distinctly and clearly involved.
17. *Abuse of University Disciplinary Proceedings*, which includes but is not limited to:
 - a. Failing to comply with the notice from a Conduct Board or University official to appear for a meeting or hearing as part of the Disciplinary Proceedings.
 - b. Knowingly falsifying, distorting, or misrepresenting information before a Conduct Board.
 - c. Disrupting or interfering with the orderly conduct of a Conduct Board proceeding.
 - d. Filing a frivolous or knowingly false report(s).
 - e. Attempting to intimidate or coerce an individual from reporting potential violations of the Code, participating in an investigation or disciplinary proceeding, or otherwise making use of the Disciplinary Procedures.
 - f. Attempting to influence the impartiality of a member of a Conduct Board prior to, and/or during the course of, the Conduct Board proceeding.
 - g. Attempting to harass (verbal or physical) and/or intimidate a member of a Conduct Board prior to, during, and/or after a disciplinary proceeding for purposes of disruption of the conduct process.
 - h. Failing to comply with the University response(s) imposed under the Student Code.
18. *Sexual misconduct or any other unwelcome sexual, sex based, or gender-based conduct* which includes, but is not limited to:
 - a. Sexual assault;
 - b. Sexual harassment;
 - c. Dating violence;
 - d. Domestic violence;
 - e. Stalking or;
 - f. Sexual exploitation
 - g. Sexual harassment under Title IX.

The definitions of terms in 18(a-g) appear in Board of Regent Policy 2.1.8. and Executive Memorandum No. 38. All allegations of sexual misconduct, including sexual assault, sexual harassment, sexual violence, dating violence, domestic violence, stalking and sexual exploitation are investigated and addressed following the procedures set forth in the University of Nebraska Response to Allegations of Student Sexual Misconduct, adopted pursuant to Executive Memorandum No. 38.

C. Exception for Seeking Emergency Help

Students should seek emergency help for themselves or other individuals if they have been drinking alcohol or using illegal drugs and suffer a physical injury or have problems functioning.

Those problems include difficulty walking, talking, breathing, or staying conscious. They also include being mentally confused, having a seizure, or being cold or pale. Students have died from alcohol poisoning and drug overdoses. Students should seek emergency assistance by contacting 911.

The University will not take disciplinary action against students for using or possessing alcohol, if the use or possession was part of the incident for which they received emergency help or sought emergency help for another person, or if they were involved in the care of that person. The University

will not take disciplinary action against students for using or possessing illegal drugs or unauthorized prescription drugs if the use or possession was part of the incident for which they received emergency help or sought emergency help for another person, or they were in the immediate vicinity of that person.

The Conduct Officer will determine if the student is eligible for this exception after meeting with the student. Students may still be charged by law enforcement officials for violations of federal, state, or local laws.

Additionally, the policy is not a means to excuse students from other violations of the Student Code.

As a condition of not taking action against them, however, the University may require students to meet with a Conduct Officer and to participate in an alcohol or drug educational program that is designed to help increase their awareness of their alcohol or drug-related behavior.

D. Responsibility of Student Organizations

1. A student organization is responsible for conduct that the organization engaged in, facilitated, or authorized, whether expressly or impliedly. Whether an organization engaged in, facilitated, or authorized conduct is a factual question that requires an evaluation of the totality of the circumstances to determine whether it is fair and reasonable to hold the organization itself responsible. The relevant circumstances include, but are not limited to, the following:
 - a. Whether the conduct was planned, approved, or engaged in by one or more officers or authorized representatives of the organization who were acting in their capacities as officers or authorized representatives.
 - b. Whether the conduct was the result of a policy or practice of the organization.
 - c. Whether a significant number of members were involved or engaged in the conduct.
 - d. Whether the conduct occurred at or in connection with an activity or event funded, sponsored, publicized, or advertised by the organization.
 - e. Whether the conduct occurred at a location over which the organization had control at the time of the conduct.
 - f. Whether the conduct occurred at an event that reasonable people would associate with the organization.
 - g. Whether the officers or authorized representatives of the organization could have reasonably foreseen that the conduct could occur and, if so, whether they failed to take reasonable steps to prevent the conduct.
 - h. Whether the conduct is attributable to the organization under the organization's own policies, including local or national risk management guidelines.

SECTION III

University Responses to Violations of the Standards

If a student or student organization is found to be responsible for a violation of the Standards, the University's response may involve requirements designed to educate the student about the risks of the conduct, to assist the student in refraining from the conduct in the future, or to protect others. The University's response may also involve sanctions to the student or the student organization for engaging in the conduct and to deter the student or student organization from engaging in the conduct in the future.

A. University's Response

1. The University's response may include one (1) or more of the following:
 - a. Written Warning
 - i. This is a warning by a Hearing Officer or the University Conduct Board that the student receiving the warning committed a violation of the Standards and that future violations may result in a harsher response.

- ii. The warning may also include advice on steps that the student may take to avoid future violations.
- b. Probation for a specified period of time
 - i. Probation may include conditions that must be satisfied.
 - ii. The conditions must be reasonably related to the violation or the reasons for the violation.
 - 1. Examples of conditions for students include the completion of educational programs and behavioral evaluations.
 - 2. Examples of conditions for student organizations include completing educational programs and adopting policies and procedures to minimize the risk of the wrongful conduct occurring in the future. Other examples include not engaging in specified recruitment practices holding specified events, or participating in specified events.
 - iii. The failure to satisfy a condition of probation may be treated as an independent violation of the Standards of Responsible Conduct
 - iv. A violation of the Standards while a student or student organization is on probation may result in a more severe response to the new violation than if the new violation was considered in isolation.
- c. Expulsion from University Housing
 - i. The student is permanently barred from living in or being present on the premises of any University residence hall or housing unit.
- d. Suspension from University Housing
 - i. The student may not live in or be present on the premises of any University residence hall or housing unit for a specified period of time.
 - ii. Conditions may be imposed on the student returning at the end of the specified period, but any such conditions must be reasonably related to the reasons for the suspension.
- e. Mandatory Relocation
 - i. The student is required to move to a different room, University residence hall, or housing unit.
- f. Loss of Privileges for a Specified Period of Time
 - i. Loss of a privilege to engage in any activity or experience not required to satisfy graduation requirements, including but not limited to:
 - 1. Prohibition or limitation on the use of University electronic resources such as, internet access, email access, computers, or tablets.
 - 2. Prohibition or limitation on the use of University media resources, such as communal televisions, projectors, etc.
 - 3. Prohibition or limitation on the use of University wellness/recreation center equipment.
 - 4. Prohibition or limitation on on-campus dining.
 - 5. Prohibition or limitation on use of on-campus transportation.
 - 6. Prohibition or limitation on use of University purchasing cards or accounts.
 - 7. Prohibition or limitation on use of University keys and/or card access.
 - 8. Prohibition or limitation on the use of personal media devices.
 - 9. Restriction on access to campus.
- g. Restitution
 - i. Requiring the student to return to the owner money or property that the student wrongfully took.
 - ii. Requiring the student to pay the owner for property destroyed or damaged.
- h. Performance of Service to the University Community
 - i. The service must be reasonable in type and duration.
 - ii. When possible, the service should be designed to make amends for the violation, to educate the student about the harmful consequences of the violation, or to allow the student to develop their academic or professional skills.
- i. Completion of Educational Programs, Assignments, or Behavioral Evaluations that are reasonably related to the violation
 - i. These may include, but are not limited to, academic integrity programs, anger management programs, completing presentations or written assignments, substance abuse evaluations, and other such programs and evaluations that are designed to help the student identify and address factors that may have contributed to the violation. Students may be responsible for the costs or fees associated with any such programs or evaluations.
- j. Employment Restrictions
 - i. Prohibition or limitation on University student employment.
- k. Revocation of Admission and/or Degree
 - i. Admission to or a degree awarded from the University may be revoked for fraud, misrepresentation, or other violation of the Standards in obtaining the degree, or for other serious violations committed by a student prior to graduation that may have resulted in suspension or expulsion.
- l. Withholding Degree
 - i. The University may permanently withhold awarding of a degree or withhold the award of a degree pending the completion of Disciplinary Procedures, including the completion of all University responses imposed.
- m. No Contact
 - i. A No Contact order may prohibit, but is not limited to, the following:
 - 1. Approaching one (1) or more specified individuals at any time.
 - 2. Calling one (1) or more specified individuals at any time.
 - 3. Sending via email or by any other means, any communication to one (1) or more specified individuals at any time.
 - 4. Contacting or communicating with one (1) or more specified individuals through a third-party.
 - ii. If the student subject to the No Contact order believes contact with one (1) or more of the specified individuals is necessary, any such contact must be made through the Student Conduct Office or with the expressed permission of a Conduct Officer.
- n. Loss of Status as a Recognized Student Organization
 - i. The loss may be permanent or for a specified period of time.
 - ii. Conditions may be imposed on the organization for regaining its status at the end of the specified period, including the condition that the members comply with the Code of Conduct during the specified period.
- o. Suspension for a Period of Time
 - i. Suspension is a temporary separation from the University of Nebraska.
 - ii. During the suspension period the student is prohibited from entering University property, functions, events, and activities without prior written approval of the Vice Chancellor responsible for student conduct or their designee. The University response may be enforced with a trespass action as necessary.
 - iii. A notation will be made on the student's transcript but will be removed after the suspension period ends.
 - iv. Conditions, including the reapplication for admission, may be imposed on the student returning at the end of the specified period, but any such conditions must be reasonably related to the reasons for the suspension.
- p. Expulsion

- i. Expulsion is a permanent separation from the University of Nebraska.
 - ii. An expelled student is precluded from registration, class attendance or participation, and residence on campus.
 - iii. An expelled student is prohibited from entering University property, functions, events, and activities without prior written approval of the Vice Chancellor responsible for student conduct or their designee. This University response may be enforced with a trespass action as necessary.
 - iv. A notation will be made on the student's transcript.
2. If there is a dispute about whether a student or a student organization complied with any of the conditions imposed as part of the response to a violation, the dispute must be resolved at a hearing before a Hearing Officer.
 3. The factors relevant to the determination of the appropriate response(s) include, among others, the nature and seriousness of the conduct, the harm that the conduct caused or might have caused, the student's academic progress or experience, the student or student organization's acceptance of responsibility for the conduct, the student or student organization's efforts to conceal or avoid responsibility for the conduct, the student or student organization's explanations for the conduct, the student or student organization's prior record of violations, the interests of the University, and the imposition of any sanctions pursuant to procedures other than those authorized by this Code (for example, sanctions imposed by a faculty member or by civil authorities).

SECTION IV

Enforcement of the Standards

A. Definitions

1. *University Day*. This section contains various deadlines that are stated in days. The term "University Day" means a weekday on which the campus offices are open. Check the academic calendar on the campus website to determine the days on which the campus offices are closed. [link to calendar]
2. *E-Mail Address of Record*. This section also contains references to the "e-mail address of record." That term means the student's University assigned e-mail address. Because important notices may be sent to students by e-mail, it is extremely important that students make sure they check that email regularly.

B. The Persons Involved in Enforcement of the Standards

1. *Conduct Officer*. A Conduct Officer is responsible for investigating alleged violations of the Standards, for presenting the University's information and position in hearings, and for exercising the discretion that the Code specifically grants to Conduct Officers. The Conduct Officer may propose administrative resolutions.
2. *Hearing Officer*. A Hearing Officer has the authority to hear and resolve allegations that a student or student organization violated the Standards and if the Officer determines that a violation occurred, for determining the University's response. Unless otherwise agreed upon through an administrative resolution, a Hearing Officer may not designate suspension or expulsion as a response to a violation by a student or loss of status as a response to a violation by a student organization. Only the University Conduct Board may do so.
3. *University Conduct Board*. The University Conduct Board has the authority to hear and resolve charges that a student or a student organization violated the Standards and if the Board determines that a violation occurred, for determining the University's response. The procedures for selecting the members of the Board and the requirements for a quorum are set out in Section VI.
4. *Appeals Officer or Board*. An Appeals Officer or Appeals Board may hear appeals authorized by this Code. The procedures for selecting members of the Appeals Board and the requirements for a quorum are set out in Section VI. An appeal heard by the Appeals Board must be heard before an appeals panel of no fewer than three (3)

members of the Appeals Board. The appeals panel shall select its own Chair. All members of the appeals panel possess voting privileges.

5. *Appointments*. Conduct Officers, Hearing Officers, and Appeals Officers are appointed by the Vice Chancellor responsible for student conduct or by their designee. A person may be appointed as a Hearing Officer, Conduct Officer, or Appeals Officer regardless of whether the person is an employee of the University. The person may be appointed for all types of cases or may be appointed for a particular case or type of case. Although a person may be appointed as a Hearing Officer, a Conduct Officer, and an Appeals Officer, the person may only serve as one of those in the same case.

C. Investigating Potential Violations

1. When the University receives information about a potential violation of the Standards, a Conduct Officer may conduct an investigation to determine if there is a reasonable basis to believe that a student or a student organization has engaged in conduct that violates the Standards.
2. In the course of the investigation, the Conduct Officer may contact the student or the officers of the student organization that is the subject of the investigation. Before discussing the alleged violation(s) with the student or officers, the Conduct Officer must state in writing:
 - a. that the Conduct Officer is investigating an alleged violation of the Standards;
 - b. what the alleged violation is;
 - c. that the student or officer is not required to discuss the alleged violation with the Conduct Officer;
 - d. that the student or officer has the right to be accompanied by an advisor when the student meets with the Conduct Officer; and
 - e. that the student or the organization may choose as the advisor anyone, including an attorney, but that the student or the organization is responsible for any fees that the advisor may charge. The student's advisor may provide guidance to the student, but may not otherwise directly participate in the conduct process.
3. The Conduct Officer must complete the investigation within thirty (30) University days after written notice about a possible violation was first received by the Conduct Officer. The Vice Chancellor responsible for student conduct or their designee may grant the Conduct Officer extensions of no more than an additional sixty (60) University days if the Conduct Officer applies in writing for an extension within the initial thirty (30) day period and shows that exceptional circumstances exist that warrant an extension of time. More than one (1) extension may be granted.
4. If the Conduct Officer determines that there is not a reasonable basis to believe that the student or student organization violated the Standards, the Conduct Officer should not take any further action in the matter.
5. If the Conduct Officer determines that there is a reasonable basis to believe that student or the student organization engaged in conduct that violates the Standards, the Conduct Officer has the discretion:
 - a. to take no further action in the matter;
 - b. to seek an administrative resolution of the matter; or
 - c. to set the matter for hearing.
 - In exercising discretion, the Conduct Officer should consider all the relevant circumstances, including the nature and seriousness of the alleged violation, any sanctions that may have been imposed pursuant to procedures other than those authorized by this Code (for example, sanctions imposed by a faculty member or by the civil authorities), the past conduct of the student or student organization, the ease or difficulty of proving the alleged violation, the interests of fairness, the

interests of those harmed by the alleged violation, and the interests of the University.

6. If the Conduct Officer determines that suspension or expulsion may be an appropriate University response, and unless an administrative resolution is agreed upon, the Conduct Officer must set the matter for hearing before the University Conduct Board. If suspension or expulsion is not a potential University response, the matter will be set before a Hearing Officer unless either the Conduct Officer or the student requests the matter be set before a University Conduct Board.
 - a. During the week preceding final examinations and the week(s) of final examinations, University breaks, and summer sessions a University Conduct Board may not be available. Accordingly, a Respondent may waive their right to a hearing before a University Conduct Board.
7. A matter that is set for hearing before a University Conduct Board must consist of no fewer than three (3) members of the Conduct Board, at least one (1) of whom must be a faculty member and at least one (1) of whom must be a student. The Chair of the Conduct Board is responsible for conducting the hearing and resolving any procedural and evidentiary issues that may arise. The Conduct Board shall select its own Chair. All members of Conduct Board possess voting privileges.

D. Instituting Proceedings

1. A Conduct Officer institutes a proceeding under this Code by sending a request for an informal meeting, an administrative resolution, or a notice of hearing to a student or student organization. The student or student organization against whom a Code violation has been alleged is referred to as the "Respondent."
2. The request or notice of hearing must be in writing and sent by e-mail to the Respondent's e-mail address of record. If the Respondent is a student organization, the request or notice of hearing must be sent by e-mail to:
 - a. one of the officers of the organization at the officer's e-mail address of record, and
 - b. the organization's faculty advisor of record, if any, or if the organization is a fraternity or sorority, the person listed as the chapter's advisor, if any, in the records maintained by the Office of Fraternity & Sorority Life.
3. The contents of the request are set out below in subsection E. The contents of the notice are set out below in subsection F.

E. Informal Meeting

1. An informal meeting is an opportunity for the Respondent to discuss the alleged misconduct with a Conduct Officer. During an informal meeting, the Conduct Officer may proceed with administrative resolution of a complaint pursuant to Section F(1) if the Conduct Officer determines administrative resolution is appropriate and is accepted by the Respondent.
2. A written request for an informal meeting must inform the Respondent:
 - a. that the Conduct Officer intends to address an alleged violation(s) of the Standards;
 - b. what the alleged violation(s) is;
 - c. that the student or officer is not required to discuss the alleged violation(s) with the Conduct Officer;
 - d. that the student or officer has the right to be accompanied by an advisor when the student meets with the Conduct Officer; and
 - e. that the student or the organization may choose as the advisor anyone, including an attorney, but that the student or the organization is responsible for any fees that the advisor may charge. The student's advisor may provide guidance to the student, but may not otherwise directly participate in the conduct process. The process shall not be unduly delayed based on the availability of the Respondent's advisor.

F. Administrative Resolutions

1. An administrative resolution is an agreement between the University, through the Conduct Officer, and the Respondent in which:
 - a. the Respondent admits the violation and agrees to the response(s) stated in the agreement, or
 - b. the Respondent does not admit the violation but agrees to the responses stated in the agreement. If the parties reach an agreement, the agreement must be in writing and signed by the parties. An electronic signature is sufficient.
2. A written request for an administrative resolution must contain:
 - a. an explanation of what an administrative resolution is;
 - b. a statement of the charge(s) against the Respondent, including the time and place of the alleged violation(s); and
 - c. a statement of the response(s) proposed by the Conduct Officer. The request must also explain what the Respondent must do to accept or reject the proposal and inform the Respondent that the matter may be set for hearing if the Respondent rejects the proposal. If the parties fail to reach an administrative resolution, the Conduct Officer has the discretion to take no further action in the matter or to set the matter for hearing.
3. If the Respondent does not respond to the written request for an administrative resolution within five (5) University days, and unless the University's proposed response is suspension or expulsion, the proposed administrative resolution will be deemed accepted by the Respondent. The Conduct Officer may grant the Respondent an extension of time to respond to the Administrative Resolution, upon the request of the Respondent and at the sole discretion of the Conduct Officer.
4. The Conduct Officer may propose an administrative resolution at any time prior to the beginning of a hearing before a Hearing Officer or the University Conduct Board. A proposal for an administrative resolution that is made after a notice of hearing is sent may be made orally or in writing.
- G. Hearings - A hearing is an opportunity for the parties to be heard before a Hearing Officer or the University Conduct Board. A University Conduct Board will hear matters that may result in suspension or expulsion. All other matters will be heard by a single Hearing Officer, unless a University Conduct Board is requested by the Conduct Officer or the Respondent. If a matter is set for a hearing, a written notice of hearing must be sent regardless of whether a written request for an administrative resolution was previously sent.

Notice of Hearing

1. The notice of hearing for a student must contain the following information:
 - a. Source of the misconduct complaint(s).
 - b. Statement of alleged facts constituting misconduct under the Code or other policy.
 - c. Citation of the specific provision(s) of the Code or other policy alleged to have been violated.
 - d. Description of the pertinent information (e.g. records, statements, images or other information) to be presented.
 - e. Date, time and place of the hearing before the Hearing Officer or Conduct Board. Each hearing shall be scheduled at least five (5) University days after the date the notice has been sent.
 - f. A statement that the student or student organization accused of misconduct may be accompanied by legal counsel or other advisor at the hearing before the Conduct Board, to be provided at the expense of the student or student organization, and that such legal counsel or advisor may advise the student or student organization, but may not directly participate in the hearing.
 - g. That the student or student organization accused of misconduct is under no obligation to make any statement at the hearing relevant

to the alleged misconduct, and that refusal to make a statement will not be considered as an indication of responsibility.

- h. That the student or student organization accused of misconduct has the right to inspect any pertinent information the Conduct Officer intends to present at the hearing, no fewer than five (5) University days prior to the hearing, in the Office of Student Conduct and Community Standards and that the student or student organization will be advised in writing prior to the hearing of any pertinent information subsequently discovered, which the Conduct Officer intends to present at the hearing and given an opportunity to inspect such information.
 - i. A statement that if the student or student organization intends to present evidence, including witnesses, that information must be provided to the Conduct Officer no fewer than two (2) University days in advance of the hearing.
2. The notice of hearing must be sent at least five (5) University days before the hearing date. The hearing must be held no later than thirty (30) University days after the notice of hearing was sent. The time limits in this paragraph may be lengthened or shortened if the parties agree to do so. The time limits may also be lengthened if one of the parties makes a written request to the Vice Chancellor responsible for student conduct and the Vice Chancellor or their designee determines that there is a good reason for doing so. Under no circumstances may the hearing be held more than sixty (60) University days after the notice of hearing is sent.

Disqualification

1. The notice of hearing must be provided to the Hearing Officer or to the members of the hearing panel at least three (3) University days before the hearing so that the officer or members can decide whether they need to disqualify themselves.
2. Hearing Officers or panel members must disqualify themselves if they believe that they cannot decide the matter fairly and impartially or if there is a reasonable basis why others may perceive the officers or members as being unable to decide the matter fairly and impartially.
3. The name of the Hearing Officer or a list of the names of the members of the hearing panel must be provided to the Respondent at least three (3) University days before the hearing so that the Respondent can decide whether to challenge the Hearing Officer or any member of the hearing panel on grounds of lack of fairness or impartiality. The list of names of the members of the hearing panel must identify the Conduct Board Chair ("the Chair") and must also state the member's status (faculty, staff, or student). The e-mail address of the Hearing Officer or the Chair must also be provided to the Respondent.
4. The Respondent may make a challenge by sending an e-mail to the Conduct Officer and to the Hearing Officer or the Chair in which the Respondent states the factual basis for challenging the impartiality or fairness of the officer or member. The e-mail must be sent no later than two (2) University days before the hearing. The failure to make a timely challenge to the officer or member waives the challenge unless the Respondent shows, as determined by the Vice Chancellor responsible for student conduct or their designee, that there are extraordinary circumstances that excuse the Respondent's failure.
5. If the Respondent challenges the Hearing Officer, the officer must withdraw from the proceeding if the officer believes that the officer cannot decide the matter fairly and impartially or if there is a reasonable basis why others may perceive the officer as being unable to decide the matter fairly and impartially.
6. If the Respondent challenges a member of the hearing panel, the Chair must promptly forward the Respondent's e-mail to the members of the panel. The member who is the subject of the challenge must withdraw from the proceeding if the member believes that the member cannot decide the matter fairly and impartially or if there is a reasonable basis why others may perceive the member as being unable to decide the matter fairly and impartially. If the member does not withdraw from the proceeding, the other members of the hearing panel may disqualify

the member if they conclude by a majority vote that the standard for disqualification has been met.

7. If the Hearing Officer withdraws from the proceeding, the hearing must be conducted by a different Hearing Officer and the name of that officer must be promptly provided to the Respondent. If a Conduct Board member withdraws or is disqualified from the proceeding, the member must be replaced by a new Conduct Board member and the name of the new Conduct Board member must be promptly provided to the Respondent.

Pre-hearing Conference

1. Prior to a hearing a pre-hearing conference may be held to answer procedural questions and settle those matters which may be agreeably concluded.

Recording & Conducting the Hearing

1. The electronic or printed items that the Conduct Officer plans to use at the hearing may be made available to the Hearing Officer or Conduct Board for review before the hearing. The Respondent, however, must be given the opportunity to review the items before they are made available to the Hearing Officer or Conduct Board no fewer than five (5) University days in advance of the hearing. Any items that are made available to the Hearing Officer or Conduct Board must be presented as evidence at the hearing. If the Respondent intends to present evidence, including witnesses, that information must be provided to the Conduct Officer no fewer than two (2) University days in advance of the hearing. Any evidence not disclosed within the deadlines set forth in this paragraph will only be considered at the sole discretion of the Hearing Officer or Chair of the Conduct Board. Regents By-Law 5.4(f) provides that the "decision of the [conduct] board must be based solely upon evidence introduced at the hearing."
2. The Conduct Board shall make a confidential verbatim record of each hearing. Such verbatim record shall be made by such method of recording or recording device as the University deems suitable. The recording shall be the property of the University. The Vice Chancellor responsible for student conduct or their designee has the authority to decide which recording means will be used.
3. At the beginning of the hearing, the Hearing Officer or Chair should state for the record:
 - a. the date, time, and place; and
 - b. their name and role as the Chair or Hearing Officer.
4. If the hearing is before a hearing panel, the Chair should:
 - a. have the other members of the Conduct Board identify themselves, and
 - b. state whether there is a quorum. If there is not a quorum, then the hearing must be rescheduled unless all parties waive on the recording any objection to the lack of a quorum.
5. The Hearing Officer or Chair should then identify the other persons present, ask the Conduct Officer to read the alleged violation(s), and ask the Respondent if the Respondent admits to the alleged violation(s).
6. The Hearing Officer or Chair must conduct the hearing in a manner that facilitates the presentation of relevant evidence by both the Conduct Officer and the Respondent. Both the Conduct Officer and the Respondent have the right to call witnesses and present their respective cases. The Hearing Officer or Chair has the discretion to allow the use of a question-and-answer format or allow a witness to make an oral statement about what the witness knows about the matter. The Hearing Officer or the members of the hearing panel may then ask questions to clarify what the witness said or to elicit more detailed information.
7. The Hearing Officer or Chair has the discretion to allow the parties to question the witnesses directly or to require the parties to submit suggested questions for the Hearing Officer or Chair to ask. In exercising this discretion, the Hearing Officer or Chair should consider all the relevant circumstances, including whether there is animosity between the Respondent and the witness, whether the charges involve

violence, threats, or harassment of the witness by the Respondent, and whether direct questioning would be more efficient or would better enable the Respondent to present their information.

8. The Hearing Officer or Chair has the discretion to:
 - a. allow the parties to make opening statements, closing statements, or both, with reasonable time limits;
 - b. allow witnesses to testify by videoconferencing technology;
 - c. require that the witnesses who have not yet testified wait somewhere other than the hearing room until they are called to testify; and
 - d. schedule separate hearings if charges have been brought against multiple respondents or multiple charges have been brought against a single respondent.
9. The Respondent has the right to be present for the hearing. If the Respondent is a student organization, then one of its officers has the right to be present for the hearing. The hearing is closed to the public.
10. The Conduct Officer has the burden of demonstrating the alleged violation(s) by the greater weight of the evidence. The greater weight of the evidence means evidence sufficient to make the alleged violation(s) more likely true than not true. If the evidence is evenly balanced, or if it weighs in favor of the Respondent, then the Respondent is not responsible for the alleged violation(s).
11. The Conduct Officer will present evidence first, followed by the Respondent. Courtroom rules of evidence do not apply. Evidence may be presented if:
 - a. it is relevant to the charges, the University response, or the credibility of the witnesses; and
 - b. it is sufficiently reliable that a reasonable person would take it into account in making an important decision. Evidence may be excluded if it merely repeats evidence that has already been presented. The Hearing Officer or Chair will be solely responsible for the determination of the admissibility of evidence.
12. The Respondent's advisor may not speak on behalf of the Respondent during the hearing and may not directly participate in any aspect of the hearing. The Respondent, however, may consult with the Respondent's advisor during the hearing. The Hearing Officer or Chair may limit the length and frequency of consultations so that they do not unreasonably delay the hearing or unreasonably interfere with the presentation of evidence.

Hearing Stages

1. If the Respondent is present and contests the charge(s), a hearing must be conducted in two (2) stages. At the end of each stage a Conduct Board must go into closed session to deliberate and make its decisions by majority vote. If the Respondent is contesting only the appropriate response, the hearing will move immediately to the second stage.
 - a. The first stage is to decide whether the Respondent is responsible for the violation. If the Respondent is a student organization, the Hearing Officer or Conduct Board must also conclude that it is more likely than not that the student organization engaged in, facilitated, or authorized the wrongful conduct, either expressly or impliedly.
 - i. If the Hearing Officer or Conduct Board decides that the Respondent is not responsible, the hearing is over.
 - b. The second stage is to decide the appropriate response(s). The hearing will move to the second stage only if the Hearing Officer or Conduct Board determines that the Respondent is responsible or if the Respondent admits the charges. The second stage shall be conducted immediately after the Conduct Board decides the Respondent is responsible. Only evidence that is relevant to the issue of the appropriate response(s) may be presented during the second stage.
2. At the conclusion of the hearing, the Conduct Board must go into closed session to deliberate and make its decision. The decision must be made by a majority vote.

3. If the Respondent fails to appear at the hearing, the Hearing Officer or Conduct Board shall proceed with the hearing if the Hearing Officer or a quorum of the hearing panel members are present.

Notice of Decision

1. No later than seven (7) University days after the hearing, the Respondent must be notified by letter of the decision(s) and response(s), if any. The letter must inform the Respondent of the right to appeal and include a copy of subsection G. The letter must also inform the Respondent of the name and e-mail address of the person to whom the documents required to appeal must be sent. The person must be the Vice Chancellor responsible for student conduct or their designee.
2. The letter must be sent to the Respondent's e-mail address of record. If the Respondent is a student organization, then the letter must be sent to one of the officers at the officer's e-mail address of record and to the organization's faculty advisor of record, if any, or if the organization is a fraternity or sorority, the person listed as the chapter's advisor, if any, in the records maintained by the Office of Fraternity & Sorority Life.
3. In the case of a crime of violence, the University shall provide to the victim the final results of any institutional disciplinary proceeding against the alleged perpetrator. Crimes of violence include:
 - a. arson;
 - b. assault offenses;
 - c. burglary;
 - d. criminal homicide – manslaughter by negligence;
 - e. criminal homicide-murder and nonnegligent manslaughter;
 - f. destruction, damage or vandalism of property;
 - g. kidnapping; and
 - h. robbery.

Effective Date of Response & Request to Suspend Response

1. The response to a violation takes effect on the day when the letter of decision is sent. The Respondent may request that the response be suspended while the appeal is pending by e-mailing or hand delivering a letter to the Vice Chancellor responsible for student conduct or their designee no later than five University days after the letter of decision was sent. In the letter, the Respondent should state that they are appealing the decision, explain how the Respondent will be harmed if the response is not suspended, and also explain why suspending the response will not adversely affect the University or other persons. The Respondent should also attach a copy of the letter of decision.
2. The Vice Chancellor or their designee should promptly review the letter and decide whether to grant or deny the request. In making the decision, the Vice Chancellor or their designee should consider whether the harm that the Respondent may suffer if the response is not suspended outweighs the harm that the University and other persons may suffer if the response is suspended. Before making the decision, the Vice Chancellor or their designee may request that the Conduct Officer explain why they believe that the request should be granted or denied.
3. If the request is granted but the Respondent waives their right of appeal, the response will be immediately reinstated. Waiver of the right of appeal is discussed below in subsection H.

H. Appeals

1. The Respondent may appeal the decision of the Hearing Officer or University Conduct Board to the Appeals Officer unless the Respondent requests the appeal be heard by an Appeals Board. An appeal by the Respondent is limited to the following grounds:
 - a. the evidence presented at the hearing was insufficient to allow a reasonable person to conclude that the charges were more likely true than not;
 - b. the response was clearly excessive in light of all the circumstances; or

- c. the Hearing Officer or University Conduct Board failed to follow the procedures and as a result of the failure, there is a substantial likelihood that the decision is wrong.
2. Evidence that was not presented at the hearing may not be considered on appeal. Newly discovered evidence may be grounds for a rehearing. Newly discovered evidence is discussed below in subsection J.
3. In order to appeal, a Respondent must send an e-mail to the person identified in the letter of decision and attach a letter that explains in detail the reasons why the decision should be overturned within ten (10) University days of the date of the letter of decision. A Respondent who does not comply with this section waives the right of appeal.
4. Upon receipt of an appeal the Appeals Officer or Chair of the Appeals Board will correspond with the parties regarding the Respondent's appeal. The Conduct Officer may send an e-mail to both the Respondent and to the Appeals Officer or Chair and attach a letter that explains in detail the reasons why the decision should or should not be affirmed. The e-mail must be sent by the date specified by the Appeals Officer or Chair in their correspondence.
5. The Appeals Officer or Chair has the discretion to request the Respondent and the Conduct Officer to make an oral presentation. The presentation may be made to the Appeals Officer or the Appeals Board in person, by telephone, or by videoconferencing technology. The Appeals Officer or the Chair should inform the parties beforehand of any time limitations on their presentations and also inform them that the Appeals Officer or any member of the Appeals Board may ask the parties questions during or after their presentations, and that the Respondent's advisor, if any, may not make a presentation. If there is a presentation, the University will record the presentation and any subsequent questions.
6. The Appeals Officer or Appeals Board must decide the appeal within twenty (20) University days after the receipt of the notice of appeal. Upon notice to the parties, the Appeals Officer or Chair may extend the deadline for the date of the decision letter by up to twenty (20) University days. The decision may affirm the decision being appealed, overturn the decision being appealed and specify that the charges be dismissed or that a new hearing be held, or modify any University response that was clearly excessive. The decision of the Appeals Officer or Appeals Board is final.
7. The Respondent and the Conduct Officer must be notified of the decision by an e-mail sent to the Conduct Officer and the Respondent at their e-mail addresses of record. If the Respondent is a student organization, then the email must be sent to one of the officers at the officer's e-mail address of record and to the organization's advisor of record, if any, or if the organization is a fraternity or sorority, the person listed as the chapter's advisor, if any, in the records maintained by the Office of Fraternity & Sorority Life. The letter must inform the Conduct Officer and Respondent that the decision is final.

I. Effect on Graduation or Transcript Request

The University may withhold a degree or transcript until conduct proceedings (including appeals) have ended. The University should confer the degree or release the transcript after all investigations and proceedings have ended unless the response to the violation affects the student's eligibility for the degree (for example, the student is expelled or must complete an educational program prior to receiving the degree).

J. New Evidence

1. The Respondent or Conduct Officer may seek a rehearing if the Respondent or Conduct Officer discovers new evidence after the hearing. To obtain a rehearing, the Respondent or Conduct Officer must meet three requirements:
 - a. the evidence is in fact new
 - b. the evidence could not have been discovered with reasonable diligence before the hearing; and
 - c. there is a reasonable basis to believe that the new evidence would have changed the decision(s) and/or response(s).
2. The Respondent or Conduct Officer must explain in a letter to the Vice Chancellor responsible for student conduct or their designee why the three (3) requirements are met. The letter must be emailed to the Vice Chancellor or their designee no later than sixty (60) University days after the letter of decision was sent to the Respondent.
3. If the Vice Chancellor or their designee determines that the requirements have not been met, then the request must be denied.
4. If the Vice Chancellor or their designee determines that the requirements have been met, then a new hearing must be held before a Hearing Officer or Conduct Board. If suspension or expulsion was sought in the original hearing, however, the new hearing must be held before a Conduct Board.
5. The new hearing may be held before the same Hearing Officer or Conduct Board that originally heard the matter or before a different Hearing Officer or Conduct Board. The decision in the new hearing must be based on the recording of the original hearing and the new evidence presented at the new hearing.
6. After the expiration of the sixty-day (60) period, a student who was expelled may seek a rehearing by sending a letter by certified mail to the Vice Chancellor or their designee. In that letter, the student must explain why the three (3) requirements listed above are satisfied and also explain why it would be manifestly unjust not to grant the student a new hearing. The letter must be sent no later than one year after the letter of decision was sent to the student.
7. If the Chancellor or their designee determines that the requirements have not been met, then the request must be denied. The decision of the Chancellor or their designee is final. If the Chancellor determines that the requirements have been satisfied, then a new hearing must be held before a Conduct Board.

SECTION V - Temporary Suspensions

A. Grounds

1. The Vice Chancellor responsible for student conduct or their designee may temporarily suspend a student if there is credible information that the student's conduct or presence on campus presents a clear threat to the physical safety of individuals, or is so disruptive that temporary suspension is necessary to preserve the rights of other students to pursue an education. A student may be temporarily suspended for the reasons stated in this paragraph even though the student's conduct may not violate the Student Code of Conduct or Appendix A to the Code (Response to Allegations of Student Sexual Misconduct).
2. In determining whether to suspend a student temporarily, the Vice Chancellor or their designee should consider whether measures other than suspension would be adequate to address the threat to physical safety or the right of individuals to pursue an education. Those measures include, among others:
 - a. requiring the student to leave University Housing or to move to a different room or residence hall;
 - b. preventing the student from attending class;
 - c. limiting the areas on campus in which the student may be present; and
 - d. prohibiting the student from having contact with one or more specified individuals.
3. If one or more of those measures would be adequate, then the Vice Chancellor or their designee should require that they be implemented instead of suspending the student temporarily. A student may request at any time to meet with the Vice Chancellor or their designee to contest the implementation or continued implementation of the measures.
4. If a student is temporarily suspended, the Vice Chancellor or their designee must provide the student with a Notice of Temporary

Suspension. The notice must be sent to the student's e-mail address of record and must:

- a. state the factual basis for the student's temporary suspension and explain why the student's conduct or presence on campus presents a clear threat, significant risk, or is so disruptive that temporary suspension is necessary; merely reciting the language of the Code is insufficient;
 - b. state that the student has a right to a meeting with the Vice Chancellor or their designee within three (3) University days after the temporary suspension becomes effective to present information to show that the requirements for a temporary suspension have not been satisfied and that the temporary suspension should therefore be lifted;
 - c. state the time, date, and place of the meeting with the Vice Chancellor or their designee and state that the student may be accompanied by an adult advisor of their choosing, including an attorney, but that the student is responsible for any fees that the advisor may charge;
 - d. state that after the expiration of the three (3) -day period, a student may seek to have the temporary suspension lifted by making a Request for Reinstatement; and
 - e. include a copy of Section V of the Code.
5. After the expiration of the three (3) -day period, a student who has been temporarily suspended may seek reinstatement by making a Request for Reinstatement ("the Request") on the ground that:
 - a. the requirements for a temporary suspension were not met when the student was temporarily suspended and are not currently met, or
 - b. circumstances have changed such that the requirements for a temporary suspension are no longer met.
 6. The Request must be in writing, state the reasons for request, and include the evidence that supports the Request. The Request must be sent to the Vice Chancellor responsible for student conduct or their designee by e-mail or certified mail or may be hand-delivered to the Vice Chancellor's office.
 7. The Vice Chancellor or their designee must make a decision on the Request as soon as reasonably practicable. Before making a decision, the Vice Chancellor or their designee has the discretion to seek additional information, to ask a Conduct Officer to review and comment on the Request, or to schedule a meeting with the student and their advisor.
 8. If the temporary suspension was based on alleged conduct that constitutes a violation of the Code and formal proceedings have not been instituted against a student who has been temporarily suspended, proceedings must be instituted within five (5) University days of the effective date of the temporary suspension. The conduct process must be resolved within twenty (20) University days of the effective date of the temporary suspension. The Vice Chancellor or their designee may extend the time limit for the hearing for up to an additional fifteen (15) University days if the parties agree to an extension or if either party establishes that extraordinary circumstances exist that warrant an extension. The Vice Chancellor or their designee may extend the time limit for the hearing for a longer period if the student consents.
 9. The fact that a student was temporarily suspended should not be taken into account by the Hearing Officer or Conduct Board in determining whether the student violated the Code.

- a. the University campuses agree which campus will conduct an investigation in whole or in part, institute formal proceedings, and conduct those proceedings; and
- b. if the proceedings result in the issuance of a University response, which campus will enforce the University response.

B. University Conduct Board Membership and Quorum

1. The Vice Chancellor responsible for student conduct of each University institution will specify the number, qualifications, term, and selection process for members of the University Conduct Board.
2. The Vice Chancellor responsible for student conduct at each University institution must determine whether the institution will have an Appeals Officer, an Appeals Board, or both. If the Vice Chancellor determines that the institution will have an Appeals Board, then the Vice Chancellor for each institution will specify the number, qualifications, term, and selection process for the members of the Board.
3. The Vice Chancellor responsible for student conduct must specify the number of members that a Conduct Board or Appeals Board must have and, if the number is more than three (3), the number that will constitute a quorum.

C. Interpretations of the Code

1. Words in this Code should be given their ordinary meaning unless the context indicates that a different meaning was intended.
2. Any question of interpretation or application of the Code shall be referred to the Vice Chancellor responsible for student conduct or their designee.

D. Amendments

1. The Board of Regents may amend this Code at any time, in whole or in part. There may be times when unexpected issues arise that require prompt action or that involve errors or omissions in the Code. Examples include a change in federal, state, or local law, the adoption of a new Campus or University policy, the repeal of an existing Campus or University policy, the discovery of a drafting error, or the failure to anticipate a particular situation or type of conduct.
2. If an unexpected issue arises, the Code may be amended pursuant to the following procedure:
 - a. First, the Provost of the University of Nebraska must approve the amendment.
 - b. Second, the General Counsel of the University of Nebraska must approve the amendment.
 - c. Third, the amendment must be reported to the Board of Regents at the next regularly scheduled meeting of the Board.
3. The Provost and the General Counsel may approve an amendment only if each of them separately determines that:
 - a. the content of the amendment is appropriate and reasonably necessary, and
 - b. the subject matter of the amendment either requires prompt action or involves minor changes that correct errors or omissions in a manner consistent with the purpose and scope of the Code. An amendment takes effect when both the Provost and the General Counsel have approved the amendment. The Board has the authority to rescind any such amendment when the amendment is reported to the Board.

- E. Effective Date - The provisions of this Code apply to cases in which formal charges are brought after the date on which this Code was approved by the Board of Regents. Amendments to this Code apply to cases in which formal charges are brought after the date that the amendment takes effect.
- F. Periodic Review - The University of Nebraska Student Code Conduct will be reviewed at least every four (4) years.

A.

SECTION VI - Miscellaneous Procedural Matters

A. Inter-Institutional Authority

1. If University students or student organizations engage in conduct that violates the Standards on any University campus or in a course offered by another University campus, the University campuses may enter into an agreement whereby:

Discrimination and Sexual Misconduct Policies

The University of Nebraska does not discriminate based on race, color, ethnicity, national origin, sex, pregnancy, sexual orientation, gender identity, religion, disability, age, genetic information, veteran status, marital status, and/or political affiliation in its education programs or activities, including admissions and employment. The University prohibits any form of retaliation taken against anyone for reporting discrimination, harassment, or retaliation for otherwise engaging in protected activity. The University is committed to ensuring equal opportunity and access for all persons, and providing academic and employment environments free from discrimination, harassment, and retaliation. The University adheres to all applicable federal and state laws regarding nondiscrimination. Full Nondiscrimination Statement (https://www.unomaha.edu/campus-policies/_docs/notice-of-nondiscrimination-032922.pdf)

Americans with Disabilities Act (ADA) & Section 504 Grievance Procedure (https://www.unomaha.edu/office-of-equity-access-and-diversity/_docs/grievance-procedure.pdf)

Sexual Misconduct Policies

Beginning with the University of Nebraska charter in 1869, Nebraska law has provided that no person shall be deprived of the privileges of this institution because of sex. Discrimination on the basis of sex is also prohibited by federal law. All members of the University community are expected to conduct themselves in a manner that maintains an environment free from sexual misconduct. Sexual misconduct, which includes domestic violence, dating violence, sexual harassment, sexual assault, sexual exploitation, and stalking, is unacceptable behavior under University of Nebraska policy and against the law. The University of Nebraska has programs to promote awareness of and to help prevent sexual misconduct, and to assist members of the university community who are affected by such behavior.

University of Nebraska Sexual Misconduct Policy (<https://www.unomaha.edu/university-compliance/civil-rights/title-ix-information/>)

Resources for support (<https://www.unomaha.edu/university-compliance/civil-rights/title-ix-information/resources.php>)

All persons are expected to promptly report conduct that may violate the University's Sexual Misconduct or Nondiscrimination Policy to the University.

Sex based misconduct or discrimination should be reported to:
UNO Title IX Coordinator
Phone: 402-554-2120
Email: equity@unomaha.edu

Other protected class discrimination should be reported to:
Compliance Administrator
Email: compliance@unomaha.edu

Accommodations Statement

The University is committed to providing individuals with disabilities an equal opportunity to participate in and benefit from university programs, activities, and services. Individuals may request reasonable accommodations from the University that they believe will enable them to have such equal opportunity to participate in our programs, activities, and services. Requesting accommodations is an interactive process initiated by the individual making the reasonable accommodations request.

ADA Accommodations Process for Students (<https://www.unomaha.edu/student-life/accessibility/student-services.php>)

Graduation 120-Hour Requirement for Undergraduate Degree

The number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. See Degree Completion Guarantee below.

Bachelor's

An undergraduate degree awarded by a college or university upon successful completion of a program of study. Common degree types include bachelor of arts (B.A. or A.B.), and bachelor of science (B.S.). A bachelor's is required before starting graduate studies.

Major

A program of courses that meets the requirements for a degree in a particular field of study.

- Majors consist of a minimum of 30 hours of undergraduate or graduate coursework;
- Majors are discipline and content specific with a coherent plan of study; (Ensure that the program of study follows the appropriate undergraduate or graduate academic guidelines)
- Majors have limited overlap with other majors;
- Majors provide both depth and breadth within a specific-content area; and
- Majors are not printed on diplomas, but recognized on transcripts.

Concentrations

Are a subset of a major with a limited number of hours required in a focused area.

- Concentrations generally consist of 12-18 undergraduate credit hours or at least 9 graduate credit hours. The BMS concentrations have 30 hours of coursework;
- Concentrations share a core set of requirements for the major;
- Concentrations may overlap with other concentrations within a major;
- Concentrations have some distinct or unique requirements that differentiate from other concentrations or within the major; and
- Concentrations are recognized on transcripts.

Minors

A program of study requiring fewer courses than a major. Some majors require a minor and other majors do not require a minor.

- Minors generally consist of 15-18 hours of undergraduate coursework, must include 9 hours as 3000 level or higher, or 9 hours of graduate coursework;
- Minors provide an opportunity for a secondary set of skills and knowledge in addition to a major;
- Minors cover an area outside of the major; and
- Minors are recognized on transcripts.

Certificates

- Certificates generally consist of 12-18 hours of coursework; (Ensure that the program of study follows the appropriate undergraduate or graduate academic guidelines)
- Certificates provide an opportunity for a recognized specific set of skills and knowledge;
- With departmental approval, the certificate coursework may be applied to a graduate or undergraduate degree program; and
- Certificates provide an independent or professional credential that is awarded in addition to, or independently from, a graduate or undergraduate degree.

Degree Completion Guarantee Board of Regents Resolution

The four-year guarantee for undergraduate graduation is the University of Nebraska's promise, to those students who so desire, to do our part to support your academic journey and completion of an undergraduate degree within four years. While every student's path is different, degree plans support students who are planning to complete their degree in four years, as well as support students who prefer their own flexible schedule.

For those students looking to complete a degree within four years, it is, of course, critical to have appropriate high school preparation, pursue a course of study that is intended for four-year completion and follow these prudent practices:

- Select a major early (by your third semester) in college and stay with that major.
- Fulfill the bachelor's degree requirements* and general studies requirements as outlined in the academic catalog.
- Follow the four-year course of study plan published by your major and pass all required courses on the first attempt (no deficient grades as defined by your major).
- Meet with your advisor every semester and respond promptly to all communications from academic advisors, the registrar, and Advising and Career Services staff.
- Sign up for classes during each semester's priority period.
- Register for and complete at least 15 credit hours per semester for eight semesters with acceptable grades.
- When a required course is not available, notify the department chair in a timely fashion (one week).
- Not be subject to any disciplinary action per the Student Code of Conduct during your time as a student that restricts your academic progress.
- Apply for graduation by the deadline.

In turn, the university guarantees the student will be able to enroll in courses that permit graduation in four years. If that is not possible, the university will provide alternatives or substitutions. If a student fulfills the requirements detailed above and isn't able to graduate in four years, the University of Nebraska will cover 100% of tuition for any additional course(s) needed to graduate. Of course, not all students are in a position or desire to graduate in four years. Some may need or prefer to engage in experiential or service-learning opportunities, represent their school on a collegiate team, or work more hours and attend school part-time, or they may be enrolled in a program that requires more than four years. Others may choose a different pace or the opportunity to take a wider range of courses that are not directly related to their field of study. Additionally, those students seeking dual degrees or multiple majors may need more time to complete their work. This program is designed for those who want to complete their degree program as quickly as possible.

The Four-Year (<https://nebraska.edu/offices-policies/provosts-office/academic-affairs/graduation-guarantees/>) Graduation Guarantee (<https://nebraska.edu/offices-policies/provosts-office/academic-affairs/graduation-guarantees/>)

nebraska.edu/offices-policies/provosts-office/academic-affairs/graduation-guarantees/) was approved by the University of Nebraska Board of Regents in 2002. The program recognizes the importance of Nebraska undergraduate students being able to earn their bachelor's or first-professional degrees in timely fashion.

* Unless specified by an accreditor and approved by the Provost, the Board of Regents requires that University of Nebraska undergraduate programs be completed in 120 credit hours.

Double Major

To pursue a double major, a student only needs to fulfill the college requirements of his/her primary college. The degree awarded will be associated with the major pursued at the primary college. The student will also have to fulfill the university general education curriculum, as well as the major requirements for both subject areas. The student would be awarded one degree (e.g. a BSed) with the double majors (e.g. in Secondary Education and English).

*Note: No additional hours are required if the student can complete the additional major within the minimum hours required for the degree.

Process of Declaring Additional Majors

A student wanting to declare an additional major must first check with the department of the desired major to determine if it is allowed, then the student's advisor must complete a Change of Program eForm within MavLINK, which will route to the necessary approvers before it is processed by the Office of the University Registrar. The student and submitting advisor will receive an email notification once the change is processed.

Double Degree ¹

For UNO to award a double degree, a student needs to meet all the college requirements for both degrees. The student also must fulfill the university general education curriculum. In addition, the student must complete at least 30 semester hours in each field and a minimum total of 150 semester hours.

The University awards double degrees to students who are earning different degrees. For example, it is possible for a student to be awarded both a Bachelor of Science (BS) degree with a major in Biology and a Bachelor of Science in Education (BSed) degree with a major in Elementary Education since these are two separate degrees.

The University does not award the same degree twice. For example, it is not possible for a student to be awarded two Bachelor of Science (BS) degrees with majors in Biology and Political Science or two Bachelor of Science in Education (BSed) degrees with majors in Secondary Education and Library Science. Instead, the student would be awarded one BS degree with two respective majors or one BSed degree with two respective majors.

¹ A double degree is not the same as a dual degree. A dual-degree program refers to a specifically approved combination of degree programs.

Candidacy for a Second Baccalaureate Degree

A student who has met the requirements for a baccalaureate degree at the University of Nebraska at Omaha may earn additional, different baccalaureate degrees by completing a minimum of 30 additional semester hours at the University for each additional degree, and by also satisfying all degree requirements for each degree. At the undergraduate level, each degree earned must be unique.

A plan of study for the additional hours, approved by the department head primarily concerned, must be filed in the Office of the Dean of the College offering the degree by the completion of the fifteenth (15th) additional hour.

Students must consult an academic advisor prior to starting this program. Two baccalaureate degrees may be awarded simultaneously when the student becomes eligible to receive them.

Application for Degrees

Every student working toward a degree or certificate program at UNO, must apply for their degree in order to receive degree conferral and their diploma. All applications for degree must be filed via MavLINK. Deadlines can be found on the Academic Calendar (<https://www.unomaha.edu/registrar/academic-calendar.php>). Directions and guidelines on completing this process can be found on the Registrar website at <http://registrar.unomaha.edu/graduate.php>.

All requirements for graduation must be completed and certification by the appropriate College must be on file in the Office of the University Registrar no later than the close of business on the fifteenth (15th) working day, following the last day of finals for a particular semester. This includes the satisfaction of all grades of Incomplete.

Outstanding Debts and Fees Owed to the University

Diplomas and official transcripts will not be released for students who have outstanding debts or fees owed to the University of Nebraska System. The student is responsible for contacting the Office of Cashiering and Student Accounts at the respective campus to make arrangements to clear his/her account.

Degrees with Honors

The baccalaureate degrees with honors are awarded as follows:

- Cum laude: Have a scholastic average for their entire undergraduate career of 3.51 or above, but below 3.63
- Magna cum laude: Have a scholastic average for their entire undergraduate career of 3.63 or above, but below 3.87
- Summa cum laude: Have a scholastic average for their entire undergraduate career of 3.87 or above

To qualify for honors, a student must have earned at least 60 semester hours within the University of Nebraska system, 30 hours of which must be completed at the University of Nebraska at Omaha and in which letter grades of "A," "B," "C," or "D" are received.

Students who declare Academic Amnesty are not eligible to graduate with honors.

Grades awarded in all courses taken at all colleges and universities attended are included in computing the Grade Point Average (GPA) for determining eligibility for honors. It should be noted that the GPA included on the UNO transcript reflects only courses taken at UNO, UNL, UNMC, and UNK.

Degrees with Honors Extra Muros

These degrees are awarded to transfer students who have not completed the required 60 semester hours of credit within the University of Nebraska system required for cum laude, magna cum laude, or summa cum laude honors.

To be eligible for Honors Extra Muros the transfer students must meet both the following standards and requirements:

- Have a minimum of 24 graded credit hours from UNO
- Have a minimum of 77 graded credit hours

If those requirements have been met, baccalaureate degrees with Honors Extra Muros are awarded as follows:

- Cum laude: Have a scholastic average for their entire undergraduate career of 3.51 or above, but below 3.63
- Magna cum laude: Have a scholastic average for their entire undergraduate career of 3.63 or above, but below 3.87
- Summa cum laude: Have a scholastic average for their entire undergraduate career of 3.87 or above

Attendance at Commencement

Two commencement ceremonies are held at the University of Nebraska at Omaha during the academic year. The two ceremonies are held in May (Spring) and December (Fall). Academic regalia is required for degree candidates to participate in the ceremony. Students not wearing academic regalia will not be permitted to participate in the ceremony.

Financing Your Education

- Office of Financial Support and Scholarships (p. 50)
- Federal Financial Aid Policies (p. 50)

Office of Financial Support and Scholarships

The Office of Financial Support and Scholarships is committed to making higher education accessible by minimizing financial barriers for students so they may realize their educational goals. We strive to provide services of the highest quality to support the academic mission and goals of the university and its students.

For information about the various forms of scholarships, grants, work-study and loans, and how to apply:

financialaid.unomaha.edu (<http://financialaid.unomaha.edu>)

Federal Financial Aid Policies

Treatment of Title IV Aid When a Student Withdraws

Return of Funds Policy for Title IV Aid Recipients Who Withdraw

The Higher Education Amendments of 1998, as well as the program integrity regulations in 2010, established provisions which may require a certain percentage of federal financial aid (Title IV funds) to be returned to the Department of Education when a student completely withdraws from all classes. When a student is considered to have withdrawn, the University is required to determine the amount of earned and unearned Title IV aid.

Federal financial aid funds are awarded to a student under the assumption that the student will attend school for the entire period for which the assistance is awarded. When a student withdraws from all courses for any reason – including medical withdrawals – the student may no longer be eligible for the full amount of Title IV funds that they were originally scheduled to receive. If a student has received Title IV financial aid, a refund must be calculated under the Federal Return of Title IV Funds policy. The refunds are based on the number of days attended for the semester, divided by the total number of days in the semester (minus any scheduled breaks of

at least five days in length). Funds are deposited back to the financial aid accounts in accordance with federal regulations.

There are three types of withdrawals that fall under the return to Title IV (R2T4) federal calculation regulations:

1. **Official Withdrawals** – student withdraws from all courses through MavLINK or contacts the Office of the University Registrar to initiate an official withdrawal.
2. **Unofficial Withdrawal** – If a student began attendance and has not officially withdrawn fails to earn a grade in at least one course offered over an entire period, the institution must assume, for Title IV purposes, that the student has unofficially withdrawn. UNO grading policy requires faculty to differentiate between two different types of failing grades – either an F (earned failing grade awarded to students who complete the course but fail to achieve the course objectives; and an FW grade (awarded to students who did not officially withdraw from the course, but who failed to participate in course activities through the end of the term). For FW grades, faculty report the last date a student last participated in any academically related activity. This date then becomes the basis for the withdrawal calculation. Therefore, a student cannot avoid the federally required return of Title IV Financial Aid by stopping out of classes but remaining enrolled and taking failing marks.
3. **Modular Withdrawals** – A student does not complete all modules the student was scheduled to attend (modules are classes that do not span an entire semester).
 - If a student is enrolled in a standard, term-based program offered in modules and ceases attendance at any point prior to completing the payment period or period of enrollment, unless the school obtains written confirmation from the student at the time of the withdrawal that he or she will attend a module that begins later in the same payment period or period of enrollment, the student is considered a withdrawal for Title IV purposes.
 - If written confirmation of future attendance is received from the student but the student does not return as scheduled, the student is considered to have withdrawn from the payment period or period of enrollment and the student's withdrawal date and the total number of calendar days in the payment period or period of enrollment would be the withdrawal date and total number of calendar days that would have applied if the student had not provided written confirmation of future attendance.

How a Withdraw from Class or School Affects Financial Aid

Though your aid is posted to your account at the start of each period, you earn the funds as you complete the period. If you withdraw during your payment period or period of enrollment, the amount of Title IV program assistance that you have earned up to that point is determined by a specific formula. If you received (or your school or parent received on your behalf) less assistance than the amount that you earned, you may be able to receive those additional funds. If you received more assistance than you earned, the excess funds must be returned by the school and/or you.

How "Earned" Financial Aid is Calculated

The amount of assistance that you have earned is determined on a pro rata basis. This calculation must be completed within 30 days of the date the school determines that the student has withdrawn. The school is required to return any unearned funds within 45 days. The calculation is completed by the Office of Financial Support and Scholarships. For example, if you completed 25% of your payment period or period of enrollment, you earn 25% of the assistance you were originally scheduled to receive. That means that 75% of the disbursed aid is considered to be "unearned" and must be returned to the federal government. The total number of days used in the calculation will exclude any scheduled breaks of 5 or more days.

Once you have completed more than 60% of the payment period or period of enrollment, you earn all the assistance that you were scheduled to receive for that period.

IMPORTANT: You may receive a partial cancellation of your tuition and fees because of your withdraw. UNO's refund policy is separate from the federal regulations on repayment of unearned aid. It is possible that financial aid will not cover a student's balance following the return of funds calculation – even after the tuition and fees cancellation policy has been applied.

What Happens When a Student Fails to Begin Attendance?

Federal regulations require that a procedure be in place to know whether a student has begun attendance in all classes for purposes of the Federal Pell Grant Program. Instructors will be contacted to verify attendance for all Pell Grant recipients if they withdraw from class. The Pell Grant will be recalculated based on the student's enrollment status to reflect only those classes for which the student actually began attendance. Instructors will also be contacted to verify attendance for Federal Direct Loan recipients if they withdraw from all classes. If a student does not begin attendance in any class in the loan period they will lose eligibility and the Federal Direct Loan will be canceled.

Student Notification of Results of Calculation

Upon completion of the Return of Title IV Funds calculation, students will receive notification indicating the amount of aid that will be returned. UNO will return the required funds on the student's behalf to the appropriate federal program(s) by charging the student's account. Students will be able to view the return and any resulting account balance on MavLINK after the return of funds has been processed. The student is responsible for all charges resulting from a Return of Title IV calculation.

Which Funds are Subject to the Return of Funds Calculation?

The Title IV funds that are covered by this law, in order of their required return are:

1. Unsubsidized Direct Loans
2. Subsidized Direct Loans
3. Direct PLUS Loan
4. Federal Pell Grant
5. Federal Supplemental Educational Opportunity Grant (FSEOG)
6. Federal TEACH Grant
7. Federal Iraq Afghanistan Service Grant

Post-Withdrawal Disbursements

If a student has accepted Title IV, HEA financial aid by the date of the withdrawal, but the financial aid has not disbursed, the student may be eligible for a post-withdrawal disbursement. If the amount disbursed to the student is less than the amount the student earned, and for which the student is otherwise eligible, he or she is eligible to receive a post-withdrawal disbursement for the earned aid that was not received.

Under these circumstances, a R2T4 calculation must be performed to determine whether the student is actually eligible for a post-withdrawal disbursement. If your post-withdrawal disbursement includes loan funds, the University must get your permission before it can disburse them. You may choose to decline some or all of the loan funds so that you don't incur additional debt. The University may automatically use all or a portion of your post-withdrawal disbursement of grant funds for tuition, fees, and room and board charges (as contracted with the school). The University needs your permission to use the post-withdrawal grant disbursement for all other school charges.

Students will be notified of post-withdrawal disbursement eligibility within 30 days of the date of withdrawal determination. The school must return the

Title IV funds within 45 days of the date the school determines the student withdrew.

Return of Title IV Funds Procedure

When a student officially, or unofficially withdraws (i.e. quits attending class), during the first 60 percent of the semester, and has received or was eligible to receive federal Title IV funds, the Office of Financial Support and Scholarships is required to perform a Return of Title IV funds calculation. Each semester the Office of Financial Support and Scholarships will review those students who have received, or could have received Title IV assistance, and who have officially withdrawn from all classes.

Additional students who must also be considered are those who have not formally withdrawn, but have stopped attending classes (unofficial withdrawals). UNO grading policy requires faculty to report the last date a student who failed a class participated in any academic activity. Each semester an "All F" report will be run to determine students who have not officially withdrawn, but instead have unofficially withdrawn from all of their classes.

The calculation steps are as follows:

Step One: Establish the withdrawal date and determine how much Title IV aid was earned by the student. The percentage of enrollment period completed by the student is calculated by dividing the number of days a student attended by the total number of days in the semester (percent of aid earned), and then multiplying that percentage by the total amount of Title IV aid disbursed, or could have been disbursed.

Step Two: Determine the Title IV aid to be disbursed to student. If the student received less Title IV aid than earned from step one, a post-withdrawal disbursement may be made. This situation may occur in a case where federal aid was approved, or a loan certified, but not yet disbursed before the student withdrew.

Step Three: Determine the amount of unearned Title IV aid that must be returned by UNO. UNO must return the lesser of the amount of Title IV aid which the student does not earn, or the amount of institutional charges the student incurred for the semester multiplied by the percentage of Title IV aid not earned. Title IV funds that have to be returned by the school will result in a university obligation to the student. The student will receive a bill from the Cashiering and Student Accounts Office.

Step Four: Determine the amount of unearned Title IV aid to be returned by student. Any federal grant and federal loan funds that are calculated to be returned by the student will be returned by the school so a federal overpayment situation does not result and will be included in the amount billed in step three. The balance of any loan not paid by the school will go into repayment in accordance with the terms of the promissory note.

An aid recipient should contact the Office of Financial Support and Scholarships prior to withdrawal from the University. Upon request, the Office of Financial Support and Scholarships will provide written examples of various return of funds calculations.

Below is an example of the Return of Title IV Funds calculation.

Title IV Return of Funds	Amount
Institutional Charges	\$5,000
Title IV Loans	\$2,000
Title IV Grants	\$1,000
Total Title IV aid	\$3,000

Student withdrew on 29th day of a 116-day enrollment period.

Percent Earned $29/116 = 25\%$

Percent Unearned $100\% - 25\% = 75\%$

Amount of Title IV aid unearned $\$3,000 \times 75\% = \$2,250$

UNO is responsible for returning the lesser of unearned Title IV aid (\$2,250 from above) or unearned institutional charges ($\$5,000 \times 75\% = \$3,750$).

UNO will return aid as follows:

- Title IV Loans \$2,000
- Title IV Grants \$250

Aid the student must personally return - student's aid is returned on his/her behalf by the school and therefore becomes part of the bill that must be repaid to the school. The balance of student's loan not paid by the school will go into repayment in accordance with the terms of the promissory note.

Standards of Satisfactory Academic Progress

Federal regulations require a student to maintain satisfactory academic progress in the course of study he/she is pursuing in order to receive federal financial assistance. The Satisfactory Academic Progress Policy standards are applied consistently within all institutionally-defined categories of students (undergraduate, master's and doctoral level students) and enrollment levels (full-time and part-time), regardless of whether the student previously received financial aid.

In order to comply with these regulations, the University of Nebraska at Omaha has established the following Satisfactory Academic Progress (SAP) policy.

Satisfactory Academic Progress Requirements

Satisfactory Academic Progress standards are reviewed annually after the final posting of Spring semester grades and apply to a student's entire academic record. Students returning to UNO following a withdrawal or dismissal will be evaluated upon receipt of the electronic Student Aid Report. To maintain eligibility, you must meet the following criteria:

1. **Grade Point Average (GPA) Standard** You must be in "good academic standing" at UNO. For undergraduates, this is defined as having an earned UNO cumulative GPA of at least 2.00. For graduate students, this is defined as having an earned UNO cumulative GPA of at least 3.00.
2. **Pace of Progression** You must have successfully completed ("D" grade or higher) at least 67% of the total credit hours which you have attempted at UNO, plus any transfer hours accepted from other schools, upon completion of the Spring semester.
 - Grades of Failing (**F**); No-Credit (**NC**); No Report (**NR**); Unsatisfactory (**U**); Incomplete (**I**); In Progress (**IP**); Audit (**AU**); and **Withdraw (W)**; are considered **unsuccessful** completion of credit hours attempted. A grade of Failing (F) is used in calculating grade point averages.
3. **Maximum Time to Degree Completion** Undergraduate student must complete degree requirements within 180 attempted credit hours, master's degree students must complete degree requirements within 70 credit hours at the graduate level and doctoral students must complete degree requirements within 125 credit hours. For this requirement, students will be suspended from financial aid eligibility the semester following the semester their attempted hours exceed their limit.

Attempted hours include both hours attempted at UNO **and** any transfer hours accepted from other schools you have attended. All credit hours for repeated courses will be included in the attempted hours calculation. Also, if the number of credit hours you still need to graduate, in addition

to the number of hours you have already attempted exceeds the maximum attempted hour total above, your aid eligibility will be cancelled.

A course retaken beyond the first retake of a previously **passed** course **cannot** be included in the credit hour total when determining the total number of hours for disbursement of aid. "W" grades are not considered in this retake calculation, even though they are considered in the completion rate calculation in #2 above.

Please be aware of how each of the following affect your GPA and Pace of Progression

Impact of earning an incomplete grade: An incomplete course counts as credit hours attempted but will not count as credit hours completed/earned until a passing grade has been assigned. An incomplete grade such as a withdrawn course can negatively affect a student's Pace and financial aid eligibility.

Impact of withdrawing from a course: Withdrawing from a course counts as credit hours attempted but will not count as credit hours completed/earned. A withdrawn course can negatively affect a student's Pace and financial aid eligibility.

Impact of repeating courses on GPA and Pace of Progression: Repeating a course counts as attempted credit hours for each time the course is taken. If credit is earned (repeats as well), it will also count as completed/earned credit hours in Pace and Maximum Time to Degree Completion calculations. However, a course retaken beyond the first retake of a previously **passed** course **cannot** be included in the credit hour total when determining the total number of hours for disbursement of aid.

Impact of transfer credits on GPA and Pace of Progression: only transfer credits accepted by UNO will be counted as both attempted and completed hours.

Reinstatement of Eligibility

Students who do not meet one or more of the SAP standards are no longer eligible to receive federal student aid and will be notified by email. Financial aid programs include, but are not limited to, all federal grants, loans and work-study, state grants, and most University of Nebraska at Omaha need-based grants and scholarships.

If you have incurred circumstances such as a death of a close family member, serious illness or injury to yourself, or other serious extenuating circumstances that you feel have significantly contributed to your academic situation, you may appeal the Grade Point Average Standard or Pace of Progression. **Appeals will not be allowed for maximum credit hour issues or multiple retake issues.**

Appeal Procedures:

1. All appeals are completed via your To-Do List in MavLINK.
2. The appeal must provide a **full explanation** of why the standards were not originally met, and what changes students have made to ensure all SAP standards will be met in future semesters. Supporting documentation is required and can be uploaded via MavLINK after you submit the appeal.
3. No more than **three** appeals will be allowed per student for his/her entire academic career at UNO.
4. Appeals and supporting documentation must be submitted by the following deadlines: Fall semester by October 1st, Spring semester by March 1st, and Summer semester by July 1st.

Possible Appeal Outcomes:

1. **Appeal Denied:** If your appeal is denied, you will receive an email notification as to what steps you can take, if any, to regain aid eligibility.
2. **SAP Probation:** Financial aid eligibility is reinstated for **one semester only**, with the expectation that all SAP standards will be met after

that semester. Upon review, if all SAP standards are not met in this timeframe, students will then become ineligible for aid.

3. **SAP Academic Plan:** In cases where an appeal is approved, but it is not possible to meet all SAP standards in one semester, you will be prescribed an individualized academic plan. You will remain aid eligible as long as you continue to meet the plan requirements. If you cease to meet the plan criteria before you meet the minimum SAP standards, you will become ineligible for aid.

ALL APPEAL DETERMINATIONS BY THE OFFICE OF FINANCIAL SUPPORT & SCHOLARSHIPS ARE FINAL.

Veteran Standards of Progress Policy

A veteran and/or eligible person must make satisfactory progress toward an approved educational objective. Standard of Progress will be determined utilizing the Satisfactory Academic Progress policy as listed in the college catalog consisting of overall grade point average, pace, program length, maximum time for completion, attendance and/or conduct.

Veterans Benefits and Transition Act of 2018 Policy for Veteran Students Utilizing VA GI Bill® Education Benefits

Consistent with the Veterans Benefits and Transition Act of 2018, Section 3679 of title 38, United States Code, Section 103, University of Nebraska at Omaha will not impose any penalties due to the delayed disbursement of a payment by the U.S. Department of Veteran Affairs on recipients of Chapter 31 and Chapter 33 VA Benefits. University of Nebraska at Omaha will permit any covered individual to attend or participate in the course of education during the period beginning on the date on which the individual provides University of Nebraska at Omaha a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33, and ending on the earlier of the following dates: 1) The date on which payment from the VA is made to the institution or 2) 90 days after the date the institution certified tuition and fees following the receipt of the COE (Certificate of Eligibility).

Additionally, University of Nebraska at Omaha will not require that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to University of Nebraska at Omaha due to the delayed disbursement of funding from the Department of Veterans Affairs under chapter 31 or 33. A Covered Individual is any individual who is entitled to educational assistance under chapter 31, Vocational Rehabilitation, or chapter 33, Post 9/11 GI Bill® benefits, and has been verified by the school certifying official as benefit eligible. This requirement is limited to the portion of funds paid by VA.

"GI Bill®" is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill.

Tuition and Fees

- Tuition and Fees (p. 54)
- Residency for Tuition Purposes (p. 55)

Tuition and Fees

Tuition, Fees, Refunds, and Deposits Deadlines

Tuition and fees for the fall and spring semesters are payable in full on Sept. 23 (fall semester) and Feb. 23 (spring semester). Please see the schedule below for approximate billing dates and due dates. Each time a student fails to meet a payment due date, a Late Payment Fee (<https://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/late-payment-fees.php>) will be assessed to the tuition account. Note: Failure to receive the billing notice will not excuse the student from payment responsibility, nor the late payment penalties. Students may review their tuition and fees account using MavLINK or on Cashiering and Student Accounts website (<http://cashiering.unomaha.edu/>).

UNO accepts major credit cards for payment of tuition and fees online only. Credit card payments may be made via MavLINK and are subject to a 2.75% convenience fee on domestic credit cards and 4.25% on international credit cards. Payments by check, cashier's check, or money order may be mailed to the Cashiering and Student Accounts Office, 109 Eppley Administration Building, 6001 Dodge Street, Omaha, NE 68182. When mailing, please use the remittance form on the tuition and fees statement.

Payments of cash, check, money order, or cashier's check may also be brought to the Cashiering and Student Accounts Office during regular business hours or deposited in the after-hours drop box located outside of the office.

Fall Semester

- For students who register March through the first week of the semester:

Bill Date: end of August

Tuition Due: Sept. 23

Spring Semester

- For students who register November through the first week of the semester:

Bill Date: end of January

Tuition Due: Feb. 23

Summer Sessions

Students will be billed at the end of each month through July for their summer registrations. Tuition and fees will be due and payable in full by the 23rd of each month.

Students who fail to pay tuition and fees by the due date will be assessed a Late Payment Fee.

Failure to make payment on an account will prohibit registration for future semesters. If an account remains unpaid, it may be forwarded to a collection agency.

Students waiting until after the initial due date for payment of tuition and fees to register or add courses will be required to pay the late registration fee and the late payment fees retroactively.

Failure to pay tuition or fees when due, or to meet payments on loans when due, may result in cancellation of registration, legal action, collection efforts and withholding of transcripts. Outstanding financial obligations from previous semesters must be paid prior to registration. Failure to do so will prohibit registration for future semesters.

The university reserves the right to change the amount of tuition or fees at any time and to assess charges for laboratory/special instructional fees,

breakage, lost property, fines, penalties, parking, books, supplies, food or special services not listed in this schedule

Application Fee

The application fee is payable at the time the application for admission form is filed. This fee is non-refundable and does not apply toward tuition or any other fee. Residency for the purpose of assessing tuition is determined by the status of the applicant at the time the application for admission is filed. The undergraduate application fee is not applicable toward the graduate application fee and vice versa.

Undergraduate Application Fee

Application Fee	\$45.00
-----------------	---------

Graduate Application Fee (Graduate College)

Application Fee	\$50.00
-----------------	---------

Tuition

Tuition rates are established by the Board of Regents. Tuition is subject to change. Tuition charges are assessed per credit hour.

2023-2024 On- or Off-Campus Tuition Rates
(<https://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/tuition-rates.php#on-off-campus>)

2023-2024 Online Tuition Rates (<https://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/tuition-rates.php#online>)

Audit Fees

The audit fee is set at one-half of the resident undergraduate or graduate tuition rate. The audit tuition rate is effective only during the first week of the semester. In addition, students registering for audit must pay all student fees. Registration for audit requires the permission of the instructor and is subject to available class space after credit registration ends. Students who register to take a course for credit and who later change to audit registration will be required to pay the full resident or non-resident tuition rate. Audit fees are refundable in accordance with the Tuition Refund Schedule.

University and Student Fees

Fees rates listed are for the 2023-2024 academic year and are subject to change.

On- or Off-Campus Fees (<https://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/student-fees.php#fees>)

Online Fees (<https://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/student-fees.php#online>)

Laboratory/Special Instruction Fees (Non-refundable) (<https://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/fee-inventory-by-department-2022-23.pdf>)

Refund Schedule

Students who drop one or more courses or who completely withdraw will be obligated to the university for that portion of tuition cost based on the refund schedule. Students who completely withdraw are obligated to pay the non-refundable portion of tuition and fees for the course(s) from which they are withdrawing. Refunds are computed from the date application is received by the Registrar, not from the date of withdrawal of classes.

See Withdrawal from Classes policy. Only tuition, technology and library per credit fees are refunded. The UPF flat fee is non-refundable. No other fees are refundable after the first week of classes. Trip fees may not be refundable after a certain point. Please check with the department sponsoring the trip for refundability timelines, otherwise for all other fees, please refer to the fee schedule.

Students are not relieved from the payment of tuition and fees if they withdraw before a tuition due date, or if payment of tuition and fees has been extended by the Office of Financial Support and Scholarships. Students who have received financial aid are subject to special refund rules as established by the U.S. Department of Education. A financial aid recipient should first contact the Office of Financial Support and Scholarships prior to any official withdrawal from the university to ensure he or she fully understands the financial implications of withdrawal.

Failure to make payment will prohibit registration for future semesters and the release of academic transcripts. If an account remains unpaid, it may be forwarded to a collection agency.

Regular Semester

Before the first official day of the semester, 100 percent refunded.

First week of classes, 100 percent refunded.

Second week of classes, 75 percent refunded.

Third week of classes, 50 percent refunded.

Fourth week of classes, 25 percent refunded.

Fifth week of classes, 0 percent refunded.

Summer Sessions (5 and 6 weeks)

Before first official day of semester, 100 percent refunded.

First three days of classes, 100 percent refunded.

Remainder of first week, 50 percent refunded.

Second week of classes, 25 percent refunded.

Third week of classes, 0 percent refunded.

Summer Evening and Special Contracts (7 and 8 weeks)

Before first official day of semester, 100 percent refunded.

First three days of classes, 100 percent refunded.

Remainder of first week, 75 percent refunded.

Second week of classes, 50 percent refunded.

Third week of classes, 25 percent refunded.

Fourth week of classes, 0 percent refunded.

Courses that run less than ten weeks have unique refund schedules. Students considering withdrawal from such a course should check with the Office of the University Registrar for the applicable refund schedule.

Special Service Fees

Graduation Fee	\$35.00
Late Application for Degree	\$70.00

Residency for Tuition Purposes

Regulations for Determination of Residency for Tuition Purposes

Residency requirements are subject to change by the Board of Regents and/or the Nebraska State Legislature.

Preamble

Pursuant to Article VII, Section 10 of the Constitution of the State of Nebraska, and Neb. Rev. Stat., 85-501 and 85-502, the University has been authorized to develop regulations and make determinations regarding Nebraska residency for tuition purposes. These regulations provide the bases upon which university staff shall determine, on a uniform intercampus basis, whether an individual qualifies as a Nebraska resident for tuition purposes.

It should be emphasized that the statutes provide a set of minimum standards which will govern a determination of resident status for tuition purposes only. In some instances, it will be possible that an individual may qualify as a "resident" of Nebraska for one purpose (such as securing a Nebraska driver's license) and still not meet the standards established by the Board of Regents for resident tuition status. Individuals seeking a Nebraska residency determination for tuition purposes should, therefore, carefully study all aspects of the law and these regulations before seeking resident tuition status.

Applying for Residence Classification for Tuition Purposes

The statutes of Nebraska provide that all state educational institutions shall charge nonresident tuition for each nonresident of Nebraska who matriculates at any state institution. Nonresident status is determined in accordance with these statutes and current institutional policies, and is based upon evidence provided in the application for admission and related documents. Additional written documents, affidavits, verification, or other evidence may be required as deemed necessary to establish the status of any applicant. The burden of establishing exemption from nonresident tuition is the responsibility of the student. Erroneous classification as a

resident or willful evasion of nonresident tuition may result in disciplinary action as well as payment of required tuition for each semester attended.

Individuals seeking to establish resident status for tuition purposes will be required to have established a home in Nebraska for at least 12 months unless it is not required by the specific category listed on the residency application form. However, any individual who has moved to Nebraska primarily to enroll in a post-secondary institution in Nebraska will be considered a nonresident for tuition purposes for the duration of their attendance. Enrolling more than halftime for any term at a university, college, or community college in Nebraska during the 12 months immediately preceding the term or semester for which residence status is sought, will be considered as strong evidence that an individual moved to Nebraska primarily to enroll in a post-secondary institution in Nebraska. Students who have been classified as a nonresident and feel they qualify for resident status should review the "Application for Residence Classification for Tuition Purposes (https://csprdn.nebraska.edu/psc/csprdn/NBX/HRMS/s/WEBLIB_ENTREDIR.ISCRIPT1.FieldFormula.IScript_Redirect/?nba-product=EF&cref=NBA_NVC_DS_EFORM_RESAPP):" A student should submit both the application and supporting documentation by the deadline noted within the application.

Nebraska State Income Tax Credit

Individuals who do not qualify for resident tuition status and/or reside outside of Nebraska but pay Nebraska income tax, and the spouses or dependents of such individuals, are entitled to tuition credit upon documented evidence of such payment to the State. The tuition credit granted shall equal up to the amount of Nebraska income tax paid for the immediately preceding calendar year except that the remaining obligation cannot be less than the amount of the resident tuition.

Applications for the Non-Resident Nebraska Income Tax Tuition Credit are available at UNO's Cashiering and Student Accounts Office, 109 Eppley Administration Building, 402.554.2324. Additionally, the form can be downloaded from the Cashiering and Student Accounts website (<https://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tax-information/>). Specific qualifications and guidelines regarding the tax credit are provided on the applications.

Midwest Student Exchange Program

The University of Nebraska at Omaha (UNO) participates in the Midwest Student Exchange Program (MSEP), an interstate initiative established by the Midwestern Higher Education Compact (<https://www.mhec.org/>) to increase educational opportunities for students in its member states. This program serves residents from Indiana and Ohio.

Graduate students: The MSEP program enables residents from these states to enroll at reduced tuition rates. Students may review eligibility requirements/guidelines and complete the MSEP Agreement Form. (<https://www.unomaha.edu/graduate-studies/financing-your-degree/midwest-student-exchange-program.php>)

Undergraduate students: Those who are academically qualified are awarded scholarships to help offset the costs of out-of-state tuition.

For more information visit the UNO Advantage Scholarship (<https://www.unomaha.edu/admissions/financial-support-and-scholarships/types-of-aid/scholarships/uno.php#advantage>).

Omaha Urban Rate (OUR) Tuition

Effective Fall 2023, the University of Nebraska at Omaha (UNO) is offering high school graduates (undergraduate applicants) or current residents (graduate and undergraduate applicants) of 11 states the opportunity to attend UNO at significantly reduced tuition rates through an initiative called Omaha Urban Rate (OUR) Tuition. OUR Tuition states include:

Colorado, Illinois, Iowa, Kansas, Minnesota, Missouri, Montana, North Dakota, South Dakota, Wisconsin, and Wyoming.

Please visit the website (<https://www.unomaha.edu/accounting-services/cashiering-and-student-accounts/tuition-fees-and-refunds/omaha-urban-rate-our-tuition.php>) for more information.

General Education Curriculum

University General Education Requirements

To ensure that each graduate of UNO possesses certain academic skills, experiences the breadth of a liberal education and develops an appreciation for the diversity that exists in the nation and world, the faculty have adopted University general education requirements. The requirements apply to all incoming first year and transfer students. Students enrolled in UNL-administered programs should contact their advisors to determine the applicable requirements.

Learn more (<https://www.unomaha.edu/registrar/students/before-you-enroll/transfer-credit/transfer-guide.php>) about Institution-Wide General Education Agreements, Community College General Education Guides, and Program-Specific Transfer Agreements by Institution.

Choice of Catalog Policy

Students will be required to complete the General Education requirements outlined in the catalog year in which the student enters the University. The General Education requirements for those students who do not enroll for one consecutive academic year will be updated to the catalog year in which the student re-enrolls at the University.

The University General Education Curriculum consists of:

- Fundamental Academic Skills (p. 57)
- Distribution Requirements (p. 58)
- Diversity Requirements (p. 58)

Some diversity courses may simultaneously count towards Humanities/Fine Arts and Social Science general education requirements.

UNO has 5 **Academic Focus Areas** These help organize UNO's many different academic majors and general education courses into broadly related, interdisciplinary fields of study. These can help you identify academic majors and general education courses most relevant to you given your specific strengths and interests.

****Students must earn a grade of C- or better for the course to count toward general education completion.**

Learn more (<http://www.unomaha.edu/general-education/approved-courses/>) about the approved general education courses.

Fundamental Academic Skills

Fundamental Academic Skills (15 Hours Total)

Proficiency in reading, quantitative skills, and written/oral expression are essential for professional success and effective citizenship. The courses in fundamental academic skills are designed to provide the foundation for advanced academic study.

English and Writing: 9 Hours

Nine hours, to include ENGL 1150/ENGL 1154 and ENGL 1160/ENGL 1164 and one additional three-hour Single Writing Instruction course or a minimum of three (3) writing intensive courses that contains multiple writing assignments and written instruction. Writing in the Discipline course(s) are determined by the student's major. Students may "test out" of ENGL 1150/ENGL 1154 and/or ENGL 1160/ENGL 1164. Contact the Department of English for more information.

The work of the university is to construct and share knowledge. Because this work is done largely by means of the written word, it is important for students to gain control over written language. Proficiency in reading, research, and written expression is essential for professional success and effective citizenship. The foundational writing courses (Composition I and Composition II) provide instruction in general academic literacy while writing in the discipline course(s), preferably taken in the student's major, introduce research and language practices specific to the disciplines.

After completing Composition I, successful students shall be able to do the following:

- Closely read, critically interpret, evaluate, and respond to other writers' texts;
- Write papers with a clear thesis, logical structure, and cohesive, well-developed paragraphs;
- Write papers with clear, varied, well-constructed sentences, with usage and mechanics conforming to standard edited English; and
- Demonstrate an understanding of writing as a complex, recursive process whereby ideas are explored, developed, and communicated to a particular audience for a particular purpose.

After completing Composition II, successful students shall be able to do the following:

- Demonstrate further development of the writing skills learned in Composition I;
- Locate and evaluate information in print and electronic sources and integrate the information into their own texts, citing the sources appropriately;
- Analyze arguments in other writers' texts; and
- Craft well-informed, carefully reasoned arguments of their own, using the genre appropriate for the rhetorical context (e.g. position paper, proposal, evaluation).

After completing the writing in the discipline course(s), students shall be able to do the following:

- Demonstrate further development of the writing skills learned in foundational composition courses;

- Engage in the major discipline's research practices, using the databases, bibliographies, and documentation conventions appropriate to the discipline;
- Use the writing strategies and genres expected in the relevant academic and professional communities; and
- Demonstrate command of the major discipline's discourse practices, vocabulary, and style.

Note: Consult with an advisor in your major to determine the appropriate writing in the discipline course(s).

Quantitative Literacy: 3 Hours

Students must complete one of the following 3-credit hour courses – MATH 1120, MATH 1130, MATH 1140, MATH 1220, MATH 1300, STAT 1100 or STAT 1530

Quantitative Literacy involves using mathematical, computational, or statistical methods, with significant applications across a wide variety of disciplines. It emphasizes the process of formulating, solving, interpreting, and applying equations of different types to solve many different real-world problems.

Successful students shall be able to do the following:

- Solve real-world problems;
- Draw inferences based on a set of data or quantitative information; and
- Justify conclusions derived from quantitative information

All students will still be required to meet any additional math requirement and/or math prerequisites in their program of study, and are highly encouraged to consult with their academic advisor before enrolling in a particular course

Students are considered proficient in meeting their general education Quantitative Literacy requirement if they have an ACT MATH score of 23 or higher or an SAT MATH score of 540 or higher or SAT2016 of 570 or higher. Click here (<https://www.unomaha.edu/college-of-arts-and-sciences/mathematics/academics/advising/ug-advising/#placement>) for additional information about how Math courses can fulfill Quantitative Literacy requirements, and for information about Math placement exams. Placement exams are designed to help ensure that you are in the correct course based on your academic skill level.

Public Speaking: 3 Hours

Students must complete one of the following 3-credit hour courses – CMST 1110 or CMST 2120. Students may "test out" of CMST 1110. Contact the School of Communication for more information.

The goal of the public speaking requirement is to help students acquire the knowledge and skills needed for effective oral communication in academic, career or community life.

Successful students shall be able to do the following:

- Create and develop messages demonstrating effective audience analysis and adaptation;
- Create and develop messages demonstrating effective information gathering, analysis, and evaluation;
- Create and deliver messages demonstrating effective organizational development and use of supporting materials from credible sources; and

- Present appropriate messages, including effective use of language, nonverbal delivery, and visual information/technology.

Distribution Requirements

Distribution Requirements (25 Hours Total)

Beyond the fundamental academic skills, courses within the distribution requirements provide students with the opportunity to: 1) understand, analyze, and explore the human condition; 2) understand the complex dynamics that make up the world particularly the challenges, problems and factors that lead to social stability and change as essential for contributing to and living in contemporary society; and 3) understand the nature of scientific inquiry and the operation of the natural, physical and technological world for making personal and public policy decisions.

Natural and Physical Sciences: 7 Hours from at least Two Different Disciplines with One Lab

Understanding the nature of scientific inquiry and the operation of the natural, physical, and technological world is essential for making personal and public policy decisions.

Successful students shall be able to do the following:

- Identifying appropriate methods to solve problems related to various natural/physical phenomena
- Synthesizing evidence using discipline specific criteria;
- Drawing conclusions, limitations, and/or implications related to the phenomena being investigated

Humanities/Fine Arts: 9 Hours from at Least Two Disciplines

The humanities and fine arts seek to help students understand, analyze, and explore the human condition. Studying the humanities and fine arts thus contributes to personal growth and well-being as well as to living in and contributing to various communities.

Successful students shall be able to do the following:

- Demonstrating knowledge of the human condition using discipline appropriate criteria;
- Respond to the human condition using discipline specific criteria;
- Explaining how context (historical, cultural, etc.) influences the creation or interpretation of the topic of study.

Social Sciences: 9 Hours from at Least Two Different Disciplines

Understanding the complex dynamics that make up the world, particularly the challenges, problems, and factors that lead to social stability and change is essential for contributing to and living in contemporary society.

Successful students shall be able to do the following:

- Describing signature ideas, concepts, theories, or perspectives using the language of the discipline;
- Analyzing Implications, conclusions, or consequences of a particular issue relevant to the discipline
- Evaluating evidence of truth-claims;

Many of the courses within the distribution requirements can also be used to satisfy the diversity requirement.

Diversity Requirements

Diversity Requirements (6 hours total with 3 credit hours in each of the following areas)

A general education requires exposure to cultures and institutions around the world, as well as within one's own society, in order to promote intellectual flexibility, cultural understanding, and informed citizenship. The university seeks to foster cultural understanding to assist its students to become responsible citizens in a diverse world.

U.S. Diversity: 3 Hours

Courses in this category focus on significant cultural, economic, historical, political, and/or sociological aspects of one or more underrepresented groups in the United States.

Successful students shall be able to do the following:

- Demonstrate knowledge of the role and contributions of one or more underrepresented groups in the development of the United States;
- Demonstrate specific knowledge of cultural, historical, social, economic, and/or political factors that shape aspects of one or more diverse groups;
- Recognize and articulate differences, expectations, and/or challenges experienced by one or more underrepresented groups; and
- Explain ways in which identity is developed and how it is transmitted within and by members of the group or groups.

Global Diversity: 3 Hours

Courses in this category focus on significant cultural, economic, geographical, historical, political, and/or sociological aspects of one or more countries or nations (including indigenous nations) other than or in comparison to the United States.

Successful students shall be able to do the following:

- Recognize the cultural, historical, social, economic, and/or political circumstances that produce different social and cultural systems;
- Demonstrate specific knowledge of the cultural, historical, social, economic, and/or political aspects of one or more countries or nations other than the United States;
- Explain the interrelations among global economic, political, environmental and/or social systems; and
- Explain ways in which identity is developed and how it is transmitted within and by members of the group or groups.

NOTE: Many of the courses within the diversity requirements can be used to satisfy the distribution requirement.

Community Engagement Opportunities

As a UNO student, community engagement activities provide you with diverse ways to achieve your education while building your resume and networking in the community. Here's some examples:

- Taking a class that brings you out into the community to complete your coursework (service learning or community-based learning)
- Volunteering and Civic Engagement
- Capstone projects/research involving a community organization

Service Learning Academy

Service learning is an experiential, collaborative method of teaching that incorporates community projects that promote academic learning. These projects are directly linked to academic curriculum and meet community-identified needs while engaging students in their community and provide real-world context to coursework. As such, service learning course "classrooms" often exist in the community and engage community partners (such as nonprofit organizations, business, governmental agencies, and P-12 schools) as co-teachers. Throughout the course students reflect on their experiences, consider the relationship to their reading and research, relevance to community growth, and impact on their personal values, development, and professional skills.

Every semester, there are a variety of courses in all UNO colleges that use service learning as a method of instruction. By choosing a service learning course, students can:

- Apply textbook knowledge to the real world and engage with homework
- Use and develop strengths
- Discover new skills & talents
- Explore their leadership style
- Learn to communicate with others and work in teams
- Sharpen skills that employers want such as problem solving, critical thinking, innovation, and creativity
- Explore the assets in the community
- Build their résumé

To search for service learning courses, choose service learning under the Program tab in the class search function.

To explore service learning course options and project examples, please visit sla.unomaha.edu.

Volunteer and Civic Engagement Programs

Volunteer Opportunities for Students

Each year, UNO organizes and sponsors annual Signature Service Days and volunteer events that students can participate in. As student volunteers, you engage in service projects that focus on some of the most important issue areas facing the community. These opportunities help you gain valuable skills and connections that you can utilize in different ways (i.e., interviewing, references, and more).

Here's a list of annual Signature Service Days and events:

- MLK Jr. Day of Service
- Seven Days of Service
- Earth Day of Service
- International AIDS Day of Service
- 60 Minutes of Service

You can learn more about volunteer opportunities and events at serve.unomaha.edu.

Civic Engagement Opportunities

Civic Engagement allows students to address the social and cultural issues within our society. There are many ways for students to be civically engaged and UNO has a long history of being a top university in the nation in getting students registered to vote and participating in the process. Beyond this, students have opportunities to have meaningful dialogue with their peers and public officials on what it means to advocate, how government operates, and opportunities to engage in civic learning such as the annual "I Love NU Day" at the Nebraska state capitol. Civic Engagement opportunities for students bring life to why we serve and help students to gain valuable experience and skills in communication, collaboration, and how to be change agents while at UNO and beyond. Some examples of forms; ways to be civically engaged are:

- Taking advantage of Americorps VISTA opportunities
- Participating in domestic/international service and humanitarian efforts by serving in the Peace Corps

Community Engaged Scholarship Transcript Designation (CESTD)

The CESTD is a transcript designation that documents and recognizes undergraduate students for their community engagement experiences. This designation offers incentive and competitive edge for students who choose to tailor their involvement and academic work in a way that capitalizes on UNO's comparative advantage.

- Completion of 1 community based-learning experience (3 credit hours)
- Completion of 6 hours of service-learning coursework
- Completion of 135 volunteer/community service hours (outside of the classroom)
- Completion of written reflection piece (one for each category along with a final reflection).
- Minimum 3.0 Cumulative GPA at graduation

Enroll Online

Barbara Weitz Community Engagement Center (CEC)

As a metropolitan university, UNO encourages its students to be active and civically engaged members and leaders in a diverse and evolving society. The CEC is a unique place where UNO students can access volunteer opportunities, service events, service learning inquiries, service learning projects and events, student jobs and internships, and community engagement-based events. The CEC is home to over 35 university and community building partner organizations that work side by side in flexible office spaces to improve the quality of life for those they serve.

Learn more at cec.unomaha.edu/contact

Academic Learning Communities

An Academic Learning Community (ALC) is a group of students who learn together. Students take coursework together, participate in projects with one another, and work to build learning in a particular area.

Goodrich Scholarship Program

The Goodrich Scholarship Program began in 1972 through Senator Glenn Goodrich's enabling budget amendment. The program offers a merit-and-need-based scholarship to students who will attend only the University of Nebraska Omaha.

The Goodrich Scholarship Program now boasts over 1,900 alumni who, for over 40 years, have continued to connect and contribute to their communities as lawyers, educators, doctors, social workers, engineers, artists, business professionals, elected officials, directors of non-profit organizations, technologists, writers, and law enforcement officers, among many others.

Learn more about the Goodrich Scholarship Program (<http://www.unomaha.edu/goodrich/>)

Thompson Learning Community

Students receiving a college scholarship from the Susan T. Buffett Foundation and attending UNO, are William H. Thompson Scholars. William H. Thompson was the father of Susan T. Buffett and served as Professor of Psychology and Dean of the College of Arts and Sciences at Omaha University, which became UNO.

The Susan T. Buffett Foundation and the University of Nebraska are collaborating to provide Thompson Scholars a unique educational experience aimed at enhancing their academic success. TLC aims to make your transition to college and your entry into a major field of study as smooth and educationally rewarding as it can be. TLC will promote your academic success through common courses, academic workshops, and connections with faculty. Additionally, your transition will be supported through your relationship with other scholars, an upper-class UNO Mentor, social programming and other opportunities for you to connect with UNO.

Learn more about the Thompson Learning Community (<https://www.unomaha.edu/academic-affairs/thompson-learning-community/>)

Entrepreneurial Living Learning Community

The Entrepreneurial Living Learning Community (ELLC) is open to incoming freshmen of any major who are interested in innovation and entrepreneurship.

ELLC Cohort students are guaranteed housing in UNO's Scott Village and receive a \$2,500 scholarship over two years. ELLC cohort members have many opportunities to be involved in Nebraska's entrepreneurship community including being a member of UNO's national award winning, Collegiate Entrepreneurs' Organization, connecting with successful entrepreneurs, and taking trips to entrepreneurial hotspots such as Silicon Valley.

Learn more about the Entrepreneurial Living Learning Community (<https://www.unomaha.edu/college-of-business-administration/center-for-innovation-entrepreneurship-franchising/ellc/>)

University Honors Program

The mission of the University of Nebraska Omaha Honors Program is to provide an enhanced and supportive learning environment responsive to the educational needs of highly able and/or exceptionally motivated undergraduate students.

This goal will be accomplished through participation of faculty noted for excellence in teaching by providing small honor sections of regular courses, interdisciplinary Honors colloquia, special seminars, and increased opportunity for undergraduate research/creative activity. Whether you are a high school student, a transfer student, or currently a student at UNO, you are invited to consider participating in the Honors Program.

Learn more about the UNO Honors Program (<http://honors.unomaha.edu/>)

UNO Air Force ROTC

Air Force ROTC (AFROTC) is a college program offered at colleges and universities across the U.S. that prepares you to become an Air Force officer and helps you understand the career options available in the United States Air Force. ROTC stands for Reserve Officer Training Corps and helps develop leaders for the future.

AFROTC programs across the nation provide excellent opportunities to get involved in the United States Air Force and build a career out of it. Detachment 470 not only provides the skills to become an excellent leader, but it goes beyond and helps build loyal wingman. The Wolfpack allows cadets to truly understand the benefits and hardships of being an officer in the Air Force, while not overwhelming them and allowing them to still have an average "college" life. The Wolfpack is actively involved in the Omaha community, regularly meets together to create a sense of unity among cadets, and has a friendly rivalry between the Army ROTC Detachment at Creighton.

Learn more about UNO Air Force ROTC (<http://www.unomaha.edu/afrotc/>)

UNO Army ROTC

Army Reserve Officers' Training Corps (AROTC) is one of the best leadership courses in the country and is part of your college curriculum. ROTC helps develop leaders for the future and builds a team unlike any other organization. The Army ROTC prepares you to become an Army officer and helps you understand the career options available in the United States Army, while providing the opportunity to various educational benefits to include four-year scholarships.

The 'Black Wolves' Battalion annually recruits, develops, and commissions confident and competent leaders of character that are ready to train and lead Soldiers in the 21st Century US Army. The program offers unique opportunities to train with other countries as well as attend various military schools. Each year Cadets from the Battalion attend various Cadet Advanced Individual Training opportunities. Training ranges from Cadet Summer Training, internships, to even attending the prestigious Army Airborne School, Air Assault School, or the Combat Diver School. Additionally, Cadets in the program participate in Color Guard, Nurses Training, and even conduct leadership training with active-duty units across the globe. The 'Black Wolves' Battalion is actively engaged with the Omaha Community and is based out of Creighton University. Additionally, we regularly train with and compete against Detachment 470 Air Force ROTC based at UNO.

Learn more about UNO Army ROTC (<https://www.unomaha.edu/army-rotc/>)

Military Science Minor Requirements (p. 61)

For more information, go to the Creighton Army ROTC website (<https://www.creighton.edu/groups/armyrotc/>) or call us at 402.280.1176

Scott Scholar Living Learning Community

The Scott Scholar Living Learning Community (SSLLC) is comprised of students receiving the Walter Scott, Jr. Scholarship. This scholarship is the most prestigious scholarship extended by the University of Nebraska's, Peter Kiewit Institute. Scholars are chosen from the best and brightest students who are committed to life-long learning and prepared to contribute to society and the future of technology. Students learn in new ways, not only from dedicated faculty in the two colleges, UNL's College of Engineering and UNO's College of Information Science & Technology, but from business leaders dealing with practical challenges.

To support student growth, the SSLLC features a four-year leadership development program to develop students into leaders of character with the leadership, communication and teamwork skills needed for successful careers in business and government.

The mission of the program is to develop leaders of character equipped with the leadership, communication and teamwork skills needed for successful careers in business, industry and government.

Learn more about the Scott Scholar Living Learning Community (<https://www.unomaha.edu/scott-scholars/academics/learning-community.php>)

Engineering the Leader in You Living Learning Community (ENGR LLC)

All new first-year students pursuing a degree in the UNL College of Engineering are encouraged to apply for the ENGR LLC. Focused on leadership and career development, new first-year engineering students selected for this community will live together in Scott Village, share similar engineering interests, take common courses each semester, and participate in programs designed to enhance their professional skills. Common fall courses typically include Calculus I (MATH 1950), Chemistry (CHEM 1180), and ENGR 100 (freshman seminar). Common spring courses typically include Calculus II (MATH 1960), Physics (PHYS 2110), and ENGR 200 (career development seminar).

All interested new first-year engineering students are encouraged to select this community via the UNO Housing Application. The College of Engineering will notify all students selected for the community no later than May 1. The maximum capacity for the community is 24 students.

Learn more about the Engineering the Leader in You Living Learning Community (<https://engineering.unl.edu/living-learning-community/>)

CBA Scholars

Within a close-knit community of ambitious and high-achieving students, Scholars challenge themselves while pursuing a Bachelor of Science in Business Administration. Throughout the four years in the program, Scholars are mentored by professionals in the Omaha community, enroll in special business courses taught by award-winning faculty, and gain real-world experience through community engagement and international travel.

Learn more about CBA Scholars (<https://www.unomaha.edu/college-of-business-administration/scholars-academy/>)

Teacher Scholars Academy

Teacher Scholars Academy is a select group of high-achieving teacher candidates who embody leadership qualities and commitment to their communities. As a Teacher Scholar, students will work closely with other high-performing Scholars by engaging in seminars, courses, and special projects specially designed for each cohort. Scholars will graduate with a strong network of professional peers.

Learn more about Teacher Scholars Academy (<https://www.unomaha.edu/college-of-education-health-and-human-sciences/teacher-scholars-academy/about/>)

Peter Kiewit Foundation Engineering Academy Scholar Learning Community

The Peter Kiewit Foundation has partnered with the College of Engineering to provide 40 incoming freshmen with the opportunity to be part of the PKF Engineering Academy, which seeks to recruit and retain students committed to supporting and advancing women in engineering in the state of Nebraska, providing students who have financial need with the resources and support to pursue careers in engineering and construction. We have students studying on campuses in both Lincoln and Omaha. All Omaha students will live together in Scott Crossing for the first two years of school, with the option of continuing to live in Scott Housing as part of their scholarship throughout their time in the program.

Through a cohort-based program of 40 incoming freshman each year, these students will be empowered to make a positive impact in their field through community building, exclusive seminar courses, dedicated success coaching, and social events. The scholarship covers tuition, university fees, required course books and materials, housing and food, a personal computer, a professional wardrobe stipend, and individual professional development funds.

Learn more about The Peter Kiewit Foundation Engineering Academy (<https://engineering.unl.edu/pkf-engineering-academy/>)

Institutional Effectiveness & Student Success

The services provided by the Division of Institutional Effectiveness and Student Success are designed to promote the growth and development of the whole student – intellectually, physically, emotionally, socially, financially, environmentally, occupationally and spiritually – to allow students to develop skills that lead to success both during school and throughout life. An integrated, holistic approach to inclusion, civic and social responsibility, wellness, achievement, and involvement programs links students to both curricular and co-curricular learning by providing support, activities, and engagement that enriches the student experience on campus and better prepares them to be an active and engaged citizens in our global community.

New Student and Family Programs (NSFP)

New Student and Family Programs helps you and your family transition to UNO. Learn more on the New Student and Family Programs website (<https://www.unomaha.edu/student-life/achievement/new-student-and-family-programs/>). NSFP is primarily responsible for Campus Visits, Recruitment Events, New Student Orientation (<https://www.unomaha.edu/student-life/achievement/new-student-and-family-programs/orientation/>) and Family Orientation.

Ambassadors

Our Ambassadors serve as guides for your transition experience. They are university students committed to helping first-year and transfer students by sharing all of the need-to-know information about policies and procedures, student services, academic support programs, and opportunities for involvement. The goal of our Ambassadors is to ensure that you know all about the university and to inspire you to make the most of your college experience.

Maverick Advising Center (the MAC)

The Maverick Advising Center (MAC) supports students in Exploratory Studies for up to 45 credit hours. The MAC prepares students to choose an academic major with confidence and guides them to stay on track for graduation. Students work with their advisors to strive for academic success by:

- Determining personal, career, and academic goals
- Exploring majors and courses of interest through Academic Focus Areas (<https://www.unomaha.edu/academics/academic-focus-areas/>)
- Working to find a balance between education, work, and family

Career Services

Career Services empowers students to explore, develop, and succeed at UNO and beyond. We prepare students for meaningful work by building bridges with campus, community, and employers. We offer career exploration advising, career readiness resources, job and internship preparation, career fair and hiring events, experiential education opportunities, and more. Students can explore internship and job opportunities using Handshake (<https://www.unomaha.edu/student-life/achievement/academic-and-career-development-center/career-development/handshake.php>), UNO's official career platform.

The Student Service and Leadership Collaborative

The Student Service and Leadership Collaborative is dedicated to developing students into servant leaders who are self and culturally aware through nonprofit internships, experiential learning and local and national professional student leadership and development symposiums. UNO believes service and engagement are vital components for the educational development of all students in becoming global influencers of change. Learn more on the Student Service and Leadership Collaborative. (<https://www.unomaha.edu/student-service-and-leadership-collaborative/>)

Maverick Student Employment

Maverick Student Employment (<https://www.unomaha.edu/maverick-student-employment/>) at the University of Nebraska at Omaha (UNO) represents all on-campus positions and is a great option for students interested in flexible scheduling, building campus connections, learning new professional skills, and more that will help with career readiness. Student employees make up a large percentage of our workforce in the UNO community. Our students are engaged in the critical work that helps keep our colleges, divisions, and departments operating. It is in acknowledgement of this, that Maverick Student Employment provides an enriching experience for students to keep our university strong and focused on student success. Using Handshake (<https://www.unomaha.edu/student-life/achievement/academic-and-career-development-center/career-development/handshake.php>), UNO's official career platform, students can review and apply for on-campus jobs.

Testing Center

The University of Nebraska at Omaha (UNO) Testing Center provides a variety of services to UNO students, faculty and staff. These services extend into the metropolitan Omaha region and beyond to persons needing testing related assistance. The types of services include university placement exams, university make-up exams, certification/licensure exams, online distance education exams, admission exams, proficiency exams, national exams, credit by examination, proctored correspondence exams and testing accommodations for students with disabilities. The Testing Center will also consider special requests associated with individual needs. For more information regarding testing services, please contact:

The University of Nebraska at Omaha
Testing Center
522 Kayser Hall
Omaha, NE 68182-0318
402.554.4800
[testingcenter.unomaha.edu \(http://testingcenter.unomaha.edu/\)](http://testingcenter.unomaha.edu/)

Placement Exams

Placement exams may need to be taken prior to registering for an English, mathematics, chemistry, or foreign language course. Placement exams help ensure that a student enrolls in the correct courses based on their academic skill level. Additional information for placement exams can be found here (<https://www.unomaha.edu/enrollment-management/testing-center/information.php>).

Accommodated Testing

UNO supports students with disabilities and encourages their full participation in all academic programs. The Testing Center is available to UNO students with a disabilities who require testing accommodations that are approved as part of their UNO Accessibility Services Center Accommodation Plan. The Testing Center works with the Accessibility Services Center to provide a secure, quiet, and controlled environment for accommodated testing exams.

Advanced scheduling is necessary for testing accommodations which are determined by referral from the Accessibility Services Center director. Available accommodations include, but are not limited to:

- A separate room
- Reduced distraction space
- Reader
- Scribe
- Word processor
- Large print
- Extended time
- Job Access With Speech (JAWS)

In accordance with Section II of the Americans Disabilities Act and Section 504 of the Rehabilitation Act, UNO's Accessibility Services Center is the designated office to work with students with disabilities to identify and set up a plan to provide reasonable accommodation so they may enjoy the same benefits, experiences, and opportunities as persons without disabilities. The Testing Center is the designated office on campus to provide any identified student accommodations that involve testing. For more information about accommodation plans, contact the Accessibility Services Center at 402.554.2872.

Credit by Examination at UNO

Credit by Examination allows students the opportunity to gain academic credit for prior learning they have acquired by self-study or experience. Tests may be taken in many subject areas and credit may be earned by achieving acceptable scores on these tests. Benefits include saving tuition dollars and shortening the time it takes to earn a degree.

Two types of examinations may be taken for credit at UNO: The College-Level Examination Program (CLEP) and UNO's Special Examination Program – Challenge Exams.

Many postsecondary institutions now offer credit based on CLEP examinations annually. The CLEP exams include General Examinations and Subject Examinations. Both are designed to measure factual knowledge and understanding, problem-solving ability, and mastery of college-level, introductory course content in a wide range of disciplines.

UNO's Special Examination procedure involves "challenging" one of the courses taught at this university by attempting a Departmental Examination. These examinations are constructed by the department for the purpose of measuring knowledge in a particular course being offered at UNO. Credit is granted for the course upon successful completion of the examination.

- An examination may not be attempted more than once.
- A student who has failed to earn credit in an attempted college course may not receive Credit by Examination in the same course. Neither will credit be granted to raise a grade earned in any course.
- A maximum of 30 hours Credit by Examination (the College of Business has a limit of 24 hours) may be applied toward graduation, e.g., CLEP, by Challenge, etc.
- Credits earned by examination may not be used as part of the terminal residency requirements, so you should check the requirements of your college.
- Students taking Departmental Examinations must be registered at UNO at the time they attempt the exam. (Registration is not required to take CLEP exams.) You must be a UNO student to have the credit applied to UNO.
- Students attempting Credit by Examination in courses in which they are currently enrolled must do so before they have completed one month of the course.

- Credit by examination will not be given for courses that are prerequisites for courses that the student has already earned credit. For exceptions, check with the department.
- Credit earned on a General Examination will be reduced by the amount of comparable credit already earned in the division.

The fee for each CLEP exam is \$90.00. **This is paid online directly to CLEP. A ticket containing the exam name and ticket number is printed after completing the online transaction and brought to the Testing Center (required) on exam day.** (You must pay separately for each exam you take). There is also a \$25.00 fee for administering the exam paid to the UNO Testing Center on exam day prior to taking the exam. Visit clep.collegeboard.org (<https://clep.collegeboard.org/>) to see the CLEP informational bulletin for more details and Military Benefits. There is a \$40.00 fee for each Departmental Exam (Challenge Exam) paid to the UNO Testing Center. (Fees are subject to change.)

Credit earned by examination will be recorded as "CR" on the transcript, and this credit will not be used in calculating grade point average.

If you need additional information or have any questions, feel free to stop by (522 KH) or call the Testing Center at 402.554.4800. Questions regarding Departmental Challenge Examinations other than those noted should be directed to the appropriate department.

DE (Online Distance Education) Exams

Online Distance Education (DE) Exams are proctored for faculty who have made arrangements for this service with the Testing Center. A student enrolled in a DE course that has an exam to be taken at the Testing Center will need to register (<https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/how-to-register.php>) for their testing appointments via MavLINK (<http://mavlink.unomaha.edu/>).

Note: A student should check-in on the day, prior to the exam time they scheduled, when they registered in MavLINK. You will not be able to take the Exam if you check-in outside the date/time window established by your professor

The UNO Testing Center administers Online Distance Education (DE) Exams Monday-Friday in the Testing Center, on the day and time scheduled by the student within the date/time window established by the professor.

Correspondence (Proctored Exams)

The UNO Testing Center offers proctoring services to individuals that need to take proctored exams from institutions other than UNO.

These include, but are not limited to:

- College course exams
- College entrance exams
- Certification exams

The examinee is responsible for following the institution's procedures for completing the exam(s). This may include but not be limited to completing the institution's proctor agreement form.

Examinees must contact the UNO Testing Center in advance with testing dates and any other institution requirements needed to schedule an appointment.

For additional information and/or to schedule an appointment for a Correspondence Proctored Exam, contact the UNO Testing Center Office at **402.554.4800**.

National Exams

The Testing Center administers many types of national exams including those for Admission, Proficiency, Certification, or Licensure purposes. Among exams offered are the Graduate Record Exam (GRE), PRAXIS series

exams, Law School Admission Test (LSAT), ACT Assessment, Miller Analogies Test (MAT), Test of English as a Foreign Language (TOEFL), Test of English for International Communications (TOEIC), DSST exams formerly known as DANTES Subject Standardized Tests, Counselor Education Comprehensive Exam (CECE), Crane Institute Certification (CIC) Exams, International Fluid Power Society (IFPS) Exams, and Major Field Test (MFT). The Testing Center contracts with the following testing companies to administer many other certification/licensure exams: PSI, PAN, Measure Learning, Kryterion, Iso-Quality, and Educational Testing Service (ETS). Each testing company may have a suite of 400-4,000 different exams.

Make-Up Exams

Make-Up Exams are proctored for all UNO faculty who have an arrangement with the Testing Center for this service.

Faculty approved students who have a Make-Up Exam to be taken at the Testing Center will need to schedule their testing appointment in MavLINK.

Students wanting to use their UNO Accessibility Services approved testing accommodations should contact the Testing Center at 402.554.4800 or email at unotestingcenter@unomaha.edu ahead of their scheduled test date and time to discuss their accommodations.

Student Life and Wellbeing

Student Life & Wellbeing

The services provided by the Division of Student Life and Wellbeing (SLW) are designed to promote the growth and development of the whole student – intellectually, physically, emotionally, socially, financially, environmentally, occupationally and spiritually – to allow students to develop skills that lead to success both during school and throughout life. The SLW Division provides an integrated, holistic approach to both curricular and co-curricular learning by providing support, activities, and engagement that enriches the student experience on campus and better prepares them to be an active and engaged citizens in our global community.

Mission

The Division of Student Life and Wellbeing cultivates an inclusive, caring, student centered community through meaningful connection and involvement.

Vision

Student Life and Wellbeing strives to be a division that fosters comprehensive opportunities that inspire and empower students towards self-compassion, self-advocacy, and holistic wellness.

Wellness

Counseling and Psychological Services (CAPS)

Caring Staff

Our office is staffed by licensed mental health practitioners and two graduate interns who are eager to create a vibrant and safe campus community in which psychological health and academic life flourish for our diverse student body. CAPS' staff is committed to providing support and encouraging your personal growth.

Personal Counseling

Concerns, struggles, and changes are all normal parts of life. Sometimes we can work through them on our own; other times, talking to a professional can help. CAPS offers a safe, confidential atmosphere in which personal concerns can be openly explored and discussed within a culturally inclusive environment. Topics often include anxiety, depression, alcohol and drug issues, goal setting, grief and loss, relationships, sexual identity, self-esteem, and stress. CAPS can also assist with referrals to campus resources

and community providers for students needing longer-term support. Appointments may be made by stopping by the CAPS office at the Wellness Center, 101 H&K, or by calling 402.554.2409. Learn more on the Counseling and Psychological Services website (<https://www.unomaha.edu/student-life/wellness/counseling-center/>).

Health Services

Nebraska Medicine UNO Health Center

The UNO Health Center is an on-campus medical clinic that helps UNO students stay healthy while they're in school. It is staffed by Board Certified medical professionals who specialize in college health. Services include care for common illnesses and injuries, wellness exams, chronic illness management, sexually transmitted infections testing and treatment, gynecological care and birth control, a variety of immunizations, lab testing, radiology and more. In addition to medical services, the UNO Health Center offers health and wellness education through presentations, on-campus outreach booths and the Health Matters blog. The health center is in the Wellness Center, 102 H&K, and is open Monday through Friday from 8 a.m. to 4 p.m. year-round. In-person and telehealth visit options are available depending on the concern. Appointments are required for care and can be made by calling 402.554.2374.

Costs

The University Program and Facilities Fee covers the cost of certain services, but it does not cover all possible charges. Services not covered by student fees can be submitted to the student's health insurance plan. Nebraska Medicine accepts most insurance plans. If you do not have insurance, financial assistance may be available through Nebraska Medicine. Learn more at <https://healthcenter.unomaha.edu/>

Maverick Food Pantry

The Maverick Food Pantry contributes to UNO's culture of caring by providing healthy, sustainable, and culturally sensitive food items to those facing food insecurity as well as connecting them with resources in the greater Omaha area for other basic needs support. UNO students, faculty, and staff can request up to two food packages per week either online or in person and pick up in the Barbara Weitz Community Engagement Center. The Maverick Food Pantry's model uses a full-time staff member, student workers, and volunteers to sort donations, assemble food packages, and assist those picking up packages as well as working to destigmatize and demystify basic need insecurity on UNO's campus.

Campus Recreation

Campus Recreation (Campus Rec) supports students on their journey to living a healthy and balanced lifestyle while at UNO. If you are enrolled in at least one credit hour on-campus, a Campus Rec membership is included as part of your University Program and Facilities (UPF) Fees. There is no need to purchase a membership separately while taking an on-campus class. A valid membership is determined on a semester basis. If you are enrolled in an online, remote, research, or thesis class, a Campus Rec membership would need to be purchased. Campus Rec is located in the H&K Building. Learn more on the Campus Recreation website (<https://www.unomaha.edu/student-life/wellness/campus-recreation/>).

UNO Care Team

The Care Team (<https://www.unomaha.edu/student-life/student-safety/how-to-report/uno-care-team.php>) serves as the coordinating hub of a network of existing resources and focuses on prevention and early intervention in campus situations involving students experiencing distress or engaging in harmful or disruptive behaviors. If you wish to share or report a concern about yourself or someone else, please complete this form (https://cm.maxient.com/reportingform.php?UnivofNebraskaOmaha&layout_id=10) and a member of the Care Team will be in touch.

Accessibility Services

The Accessibility Services Center (ASC) collaborates with students, administrators, faculty, and staff to ensure access to reasonable and appropriate student disability accommodations. ASC strives to create a fully accessible, inclusive experience for student learning, campus engagement, and residential life.

Student Accommodations

Through an interactive process and collaboration, ASC provides individualized services to students with disabilities to establish appropriate accommodations to create equal access. ASC encourages students to become responsible decision makers, problem-solvers, and self-advocates who request and access their accommodations.

Requesting Accommodations

Once you are admitted to UNO, requesting accommodations steps is initiated through the ASC Online Portal. Students fill out an application and upload supporting disability documentation to begin the process. Following this, an interactive discussion with an ASC Specialist is scheduled to complete the accommodation process.

Learn more about requesting accommodations and accessing the online portal on the Accessibility Services Center website (<https://www.unomaha.edu/student-life/inclusion/disability-services/>). If you are not sure if you qualify for support services, do not hesitate to contact ASC at 402.554.2872 or stop by the ASC in 104 Health and Kinesiology Building.

Request for Reasonable Accommodation in Field Placements

The University of Nebraska at Omaha (UNO) supports students with disabilities and encourages their full participation in all academic programs, including field placements of all kinds. "Field placements" for the purpose of this document include any practicum, field experience, clinical practice, internship, training, clinic, or work experiences (or similar) conducted for academic credit. In accordance with Section II of the Americans Disabilities Act and Section 504 of the Rehabilitation Act, UNO's Accessibility Services Center is the designated office to work with students with disabilities to provide reasonable accommodation so they may enjoy the same benefits, experiences, and opportunities as persons without disabilities.

Student Legal Services

The office of Student Legal Services offers free legal assistance to all currently enrolled UNO students. All communication is completely confidential and cannot be shared with anyone. The office can provide court representation, document preparation, legal advice and counsel, and legal information. All legal matters are welcome, however, the office is unable to assist with legal issues with other students as well as issues with the University or its affiliates. Visit the Student Legal Services website (<https://www.unomaha.edu/student-life/student-safety/student-legal-services/>).

Office of Hardship and Resiliency Support

The office of Hardship & Resiliency Support provides direct support to students with lived experience in the foster care or justice systems, students with incarcerated parents, and students who are pregnant or parenting. Visit the Office of Hardship and Resiliency Support website (<https://www.unomaha.edu/student-life-and-wellbeing/hardship-and-resiliency-support.php>).

Student Conduct and Community Standards

The university has an obligation to maintain conditions under which the work of UNO can go forward freely, in accordance with the highest standards of quality, institutional integrity, and freedom of expression, with full recognition by all concerned of the right and privileges, as well as the responsibilities, of those who comprise the UNO community. UNO expects students to maintain standards of personal integrity that are in accordance with the goals of the institution. This means that students are expected to assume responsibility for their actions; observe national, state, and local laws and university policies; and respect the rights and property of other people. As members of the academic community, students are subject to the responsibilities laid out by the university and are urged to become familiar with all documents that pertain to your rights and responsibilities. View the full Student Code of Conduct (<https://www.unomaha.edu/student-life/student-conduct-and-community-standards/policies/code-of-conduct.php>). For more information, contact the Office of Student Conduct and Community Standards visit the Student Conduct and Community Standards website (<https://www.unomaha.edu/student-life/student-conduct-and-community-standards/>) or email unoconduct@unomaha.edu.

Inclusion

The Military-Connected Resource Center

The Military-Connected Resource Center (formerly the Office of Military and Veteran Services) exists to encourage a military community on campus, online, and overseas. This office supports UNO's military community by providing military and veteran students and their family with resources and services developed to help them succeed. Learn more on the Military-Connected Resource Center website (<https://www.unomaha.edu/military-and-veteran-services/>).

Gender & Sexuality Resource Center

The Gender and Sexuality Resource Center welcomes and encourages people of all genders and sexualities to participate in the center's offerings. The GSRC fosters and promotes equity, access, and inclusion for all genders and sexualities through education, resources, advocacy, and activism. This office provides specific programs and services for women, lesbian, gay, bisexual, queer spectrum, trans spectrum, intersex, asexual, non-straight, Two Spirit, and gender non-conforming (LGBTQIA2S peoples, and survivors of interpersonal violence in the UNO community. Learn more on the Gender and Sexuality Resource Center website (<https://www.unomaha.edu/student-life/inclusion/gender-and-sexuality-resource-center/>).

Multicultural Affairs

The Office of Multicultural Affairs (MCA) is responsible for developing and maintaining programs and services to ensure the successful recruitment, retention, and graduation of underrepresented students on UNO's campus. Through scholarship aid, academic services, and personal support, students are empowered to attain their educational and professional goals. Cultural programming includes celebrating cultural months (including Black History Month, Latino Heritage Month, Native Heritage Month, and Diversity Month) as well as three annual Native American events. MCA is inclusive of all UNO students. Learn more on the Multicultural Affairs website (<https://www.unomaha.edu/student-life/inclusion/multicultural-affairs/>).

Summer Scholars Pre-College Program

The Summer Scholars Program provides college bound high school juniors the opportunity to enroll in a course at UNO to earn college credits, prepare for college life and connect with University of Nebraska at Omaha faculty, staff, and students. The goal of the Summer Scholars Program is to expose high school students to the dynamics of a college campus environment through a five-week pre-college summer session. Participants learn about college academic coursework, time management, college admissions, ACT/SAT preparation, college scholarships, and the financial aid process.

They interact with university faculty and staff, explore career options and participate in community service activities. In addition to the academic benefits of the program, the scholars receive an increased awareness of social and cultural issues. Outside of the classroom, the Summer Scholars spend a week living at the Scott Residence Hall on UNO's Scott Campus. Learn more about Summer Scholars (<https://www.unomaha.edu/student-life/inclusion/multicultural-affairs/bridge-program-and-scholarships.php>).

UNO Success Academy

The UNO Success Academy is a learning community aimed at supporting first-year and incoming transfer students. The Success Academy provides students with a foundation for future success through a wide range of meaningful activities, including participation in the US 1010 (Critical Thinking for the Modern Day College Student) first-year seminar class. The program exists to help prepare students to take advantage of their time on campus and support their transition to university life.

Success Academy helps students make connections with other students, staff, faculty, and the UNO campus, with program benefits including access to one-on-one academic and career coaching, support from a peer mentor, access to the program office in the Milo Bail Student Center, and the opportunity to earn scholarship dollars through an incentive program.

Learn more about the Success Academy (<https://www.unomaha.edu/student-life/achievement/academic-and-career-development-center/success-academy/>).

TRIO Project Achieve

Project Achieve is open to University of Nebraska Omaha undergraduates who qualify as first-generation, limited income, and/or disabled college students. The program offers academic and life skills development; guidance related to financial aid; career and graduate study preparation; leadership development through community engagement; and personal counseling. Activities and services emphasize growth in becoming more efficient, engaged, and independent learners.

Project Achieve uses a flexible and personalized approach. Each student is encouraged to participate in activities which meet his, her, or their own learning needs. Students and staff work together in assessing students' skills in relation to education and career goals. Personal interviews, review of academic records, checklists and diagnostic tests may be used in this process.

Learn more about Project Achieve (<https://www.unomaha.edu/project-achieve/>).

Jim and Shirley Young Scholars Program

The Jim and Shirley Young Scholars Program is a scholarship program that supports a select group of first-generation college students attending UNO. Students in Young Scholars participate in a variety of activities such as weekly study sessions, various social and academic events, and service projects throughout the school year, and have a support system at UNO that includes a mentor with whom they meet regularly. In addition to this support, the program provides a financial scholarship to the students selected for the program.

Learn more about the Jim and Shirley Young Scholars Program (<http://www.unomaha.edu/youngscholars/>).

Student Involvement

Getting involved is an important part of the college experience. With new organizations being created almost every week, there is something for everyone. Learn more on the Student Involvement website (<https://www.unomaha.edu/student-life/involvement/>).

Student Organizations

There are tons of ways to get involved at UNO. Joining organizations that complement your studies or appeal to your personal interests can enrich your college experience. Organizations (<https://unomaha.presence.io/organizations/>) on campus are created to suit the diverse interests of students that range from academics to volunteerism to art and music and beyond. They are a great way to get involved, make new connections, and share a common interest with your peers.

Fraternity & Sorority Life

OMAHA GREEKS shapes amazing individuals with fascinating life stories into students who are independent thinkers and hard workers. OMAHA GREEKS operate upon the five pillars of leadership opportunities, lifelong friendship, commitment to philanthropy, reach beyond Omaha, and academic achievement.

Student Government

The UNO Student Government Association represents all UNO students to administration, faculty, and staff, as well as the University of Nebraska Board of Regents and the community. They strive to lead, support, and advocate on behalf of the student body to make lasting and positive contributions to the student experience.

Maverick Productions

Maverick Productions (MavPro) is a student led programming board that plans and executes events for students by students. These events include major concerts, fun giveaways, and other interactive events! MavPro strives to plan events that bring in students from all parts of campus to support the Maverick Community.

Housing & Residence Life

Housing and Residence life creates a positive residential experience and supports the evolving needs of students at UNO. Six different on-campus housing options are available to UNO students: Maverick Village (MV) and University Village (UV) on Dodge Campus; Scott Court (SC), Scott Crossing (SX), Scott Hall (SH), and Scott Village (SV) on Scott Campus. Housing and Residence life is proud to offer apartment, traditional, and graduate-style housing to UNO students. Learn more on the Housing and Residence Life website (<https://www.unomaha.edu/student-life/housing-and-residential-life/>).

Gender-Inclusive Housing

Students and allies of all sexual orientations, gender identities, and gender expressions are eligible to live in designated Gender-Inclusive Housing. Apartment features are the same as other housing facilities.

Additional Campus Services and Support

Maverick Advising Center (the MAC)

The Maverick Advising Center (MAC) supports students in Exploratory Studies for up to 45 credit hours. The MAC prepares students to choose an academic major with confidence and guides them to stay on track for graduation. Students work with their advisors to strive for academic success by:

- Determining personal, career, and academic goals
- Exploring majors and courses of interest through Academic Focus Areas (<https://www.unomaha.edu/academics/academic-focus-areas/>)
- Working to find a balance between education, work, and family

Career Services

Career Services empowers students to explore, develop, and succeed at UNO and beyond. We prepare students for meaningful work by building bridges with campus, community, and employers. We offer career exploration advising, career readiness resources, job and internship preparation, career fair and hiring events, experiential education opportunities, and more. Students can explore internship and job opportunities using Handshake (<https://www.unomaha.edu/student-life/achievement/academic-and-career-development-center/career-development/handshake.php>), UNO's official career platform.

Ombuds Services

Ombuds Services provides informal, confidential help when you have a conflict or problem with individuals, offices, or policies at the university. The Ombuds (Ombudspersons) help you analyze your situation, obtain information, identify your options, and develop a plan to address your concerns. The Ombuds do not take sides in a dispute; they are advocates for fairness and the equitable resolution of conflicts and problems. Communicating with an Ombuds is off-the-record. If you wish to make a record, or to make UNO aware of a problem, the Ombuds can provide information and help you do so. Exceptions to Ombuds confidentiality occur only when there is an imminent risk of serious harm and no other reasonable option to prevent it.

For more information or to make an appointment, please go to the Ombuds Services (<https://www.unomaha.edu/ombuds-services/>) web page. Services are free to all UNO students and employees.

Office of Civil Rights Compliance

The University of Nebraska does not discriminate based on race, color, ethnicity, national origin, sex, pregnancy, sexual orientation, gender identity, religion, disability, age, genetic information, veteran status, marital status, and/or political affiliation in its education programs or activities, including admissions and employment. The University prohibits any form of retaliation taken against anyone for reporting discrimination, harassment, or retaliation for otherwise engaging in protected activity.

Read the Full Statement (https://www.unomaha.edu/campus-policies/_docs/notice-of-nondiscrimination-032922.pdf)

Learn more about the Office of Diversity, Equity, Access and Inclusion (<https://www.unomaha.edu/office-of-equity-access-and-diversity/>)

UNO's Office of Civil Rights Compliance is responsible for ensuring compliance with applicable laws, regulations, and policies governing discrimination and harassment.

- Title IX & Sexual Misconduct (<https://www.unomaha.edu/university-compliance/civil-rights/title-ix-information/>)
- Nondiscrimination Policy (<https://www.unomaha.edu/campus-policies/interim-policy-non-discrimination-policy-and-procedures.php>)
- How to Request ADA/504 Accommodations (<https://www.unomaha.edu/student-life/accessibility/student-services.php>)

Resources for support (<https://www.unomaha.edu/university-compliance/civil-rights/title-ix-information/resources.php>)

Sex based misconduct or discrimination should be reported to:
UNO Title IX Coordinator
Phone: 402-554-2120
Email: equity@unomaha.edu

Other protected class discrimination should be reported to:
Compliance Administrator
Drew Nielsen
Email: compliance@unomaha.edu

International Programs (INPR)

Current programs under INPR include:

International Student Advising (<https://www.unomaha.edu/international-studies-and-programs/student-support/advising.php>) for all international students and scholars.

The Education Abroad (<https://www.unomaha.edu/international-studies-and-programs/study-abroad/>) office assists students in exploring their many options for overseas academic programs.

International Student and Scholar Support (<https://www.unomaha.edu/international-studies-and-programs/student-support/>) helps current and new students get oriented to campus, supports academic and immigration-related issues, and offers involvement opportunities on campus and in the community.

ILUNO Intensive English (<https://www.unomaha.edu/international-studies-and-programs/iluno/>) is one of the oldest and most highly regarded English as a Second Language programs in the region.

The International Professional Development (IPD) Program (<https://www.unomaha.edu/international-studies-and-programs/ipd/>) offers an alternative way to learn English that is uniquely tailored to professionals.

The Center for Afghanistan Studies (<https://www.unomaha.edu/international-studies-and-programs/center-for-afghanistan-studies/>) continues to serve as America's primary cultural and scholarly link between the two countries.

Young Southeast Asian Leaders Initiative (<https://www.unomaha.edu/international-studies-and-programs/engagement/yseali-institute/>) is an educational and cultural exchange to build the leadership capabilities of young professionals in the region, strengthen ties between the United States and Southeast Asia, and promote collaboration in the ASEAN community.

Global Partnerships and Recruiting (<https://www.unomaha.edu/international-studies-and-programs/>) supports the development, maintenance, and activities related international partnerships, and student mobility to UNO.

For further information, contact the International Programs office at 402.554.2293 or world@unomaha.edu

Multicultural Affairs

The Office of Multicultural Affairs (MCA) is responsible for developing and maintaining programs and services to ensure the successful recruitment, retention, and graduation of underrepresented students on UNO's campus. Through scholarship aid, academic services, and personal support, students are empowered to attain their educational and professional goals. Cultural programming includes celebrating cultural months (including Black History Month, Latino Heritage Month, Native Heritage Month, and Diversity Month) as well as three annual Native American events. MCA is inclusive of all UNO students. Learn more on the Multicultural Affairs website (<https://www.unomaha.edu/student-life/inclusion/multicultural-affairs/>).

UNO Graduate Studies

UNO offers over 90 graduate programs at the doctoral, master's, specialist, and graduate certificate levels. UNO is recognized as a Carnegie Doctoral Research University. Our graduate faculty represents the very best in their fields, earning national teaching awards, and they are dedicated to individual student instruction and mentoring. For additional information, including available scholarships, fellowships and other supports, please visit the Graduate Studies website (<https://www.unomaha.edu/graduate-studies/>).

Scholarships

UNO has established a wide range of scholarship programs to recognize excellent high school achievement by first-year students and exceptional scholastic performance by upper-class students already in attendance at the university. For more information:

Office of Financial Support and Scholarships

103 Eppley Administration Building

Omaha, NE, 68182

402.554.2327

financialaid.unomaha.edu (<http://financialaid.unomaha.edu/>)

Digital Learning

The Office of Digital Learning provides strategic direction to the campus for online and hybrid programs and courses, in addition to providing tier-two technology support for faculty. Digital Learning considers the areas of student support and preparedness for online learners, quality and instructional support for online instructors, and growth and process improvement for online initiatives at the institution. Working in close collaboration with UNO's Center for Faculty Excellence, the instructional designers in the Office of Digital Learning support UNO faculty in developing and re-envisioning the delivery of courses in online and blended formats.

Rick Murch-Shafer - Director of Academic Technology • 402.554.3539 • rmurch-shafer@nebraska.edu

Daniel Hawkins - Director of Online Development • 402.554.4935 • dhawkins@unomaha.edu

Math-Science Learning Center

The Math-Science Learning Center (<https://www.unomaha.edu/college-of-arts-and-sciences/math-science-learning-center/>) (MSLC) provides UNO students the assistance they need to be successful in their Math and Science courses. Undergraduate students serve as tutors, mentors and study group facilitators trained to assist their peers in achieving academic success. The MSLC has abundant study/tutoring space, computers, and reserve study materials suitable for individual and small-group study. Students seeking to increase their overall learning effectiveness and efficiency are encouraged to meet with the MSLC director to discuss strategies and make a success plan. For regular help with homework, lab, exam-prep, etc., please visit www.unomaha.edu/MSLC (<http://www.unomaha.edu/MSLC/>) for course-specific schedule information. Then just stop by or log onto Zoom, we offer tutoring in-person and online. There's no cost and (for most courses) no appointment needed.

The Math-Science Learning Center is located in 107 Durham Science Center.

Speech Center

The UNO Speech Center assists all UNO students, faculty, and staff in preparing oral presentations and/or incorporating them into their courses.

The Speech Consulting Room provides consulting and coaching services for all UNO students, graduate students, faculty, and staff from all disciplines, assistance to faculty in support of Speaking Across the Curriculum effort at UNO and assessment documentation for the UNO oral communication general education requirement.

The Speech Center (<https://www.unomaha.edu/college-of-communication-fine-arts-and-media/speech-center/>) is located in 183 and 185 Arts & Science Hall, or can be reached at 402.554.3201.

Writing Center

The Writing Center invites UNO students, faculty, and staff in all university divisions to work with writing consultants on writing projects. You may

use this free service to work on writing assignments, application essays, business letters or other projects. Our goal is to help you become an effective, independent writer; we will not edit papers for you: we will help you develop the ability to edit your own work. The writing consultants are undergraduate students, graduate teaching assistants from the English Department, and graduate consultants funded by Graduate Studies and UNMC.

The Writing Center offers in-person and online services whenever classes are in session. To schedule a 30 or 60 minute appointment, visit the Writing Center website (<http://www.unomaha.edu/college-of-arts-and-sciences/writing-center/>) or call 402.554.2946.

Computer Science Learning Center

The Computer Science Learning Center (CSLC) provides UNO students with the assistance they need to be successful in their Computer Science and related technology courses. University students serve as tutors that help their fellow students gain understanding of computer science topics. This knowledge helps in the academic success of students who use the space as well as helps prepare students for potential career opportunities. For regular help with homework, labs, exam preparation, and more, please visit (<https://www.unomaha.edu/college-of-information-science-and-technology/computer-science-learning-center/>) to look through our hours of operation and how to contact us. Students are welcome to stop by in person or over Zoom. The CSLC is located in PKI 391 and our Zoom information is shared on the previously listed website. There is no cost for tutoring assistance and no appointment is needed.

MatheMavericks Zone

The MatheMavericks Zone is a communal mathematics study space with free tutoring available for Math 1950 and below. Visit MatheMavericks Zone (<https://www.unomaha.edu/college-of-arts-and-sciences/mathematics/math-lab/>) website for additional information.

UNO Libraries

The University of Nebraska Omaha (UNO) libraries include the Dr. C.C. and Mabel L. Criss Library (Criss Library) and the KANEKO-UNO Library. The Libraries fulfill the UNO mission through our dynamic services, highly qualified and adaptive personnel, unique and extensive collections, and accessible learning spaces and environments.

The KANEKO-UNO library, located within the KANEKO gallery at 11th and Jones Streets in Omaha's Old Market, is a distinctive space for study, research, collaboration, and investigation. With a focus on stimulating and celebrating creativity, the space and collection inspire visitors to expand their awareness and knowledge within an atmosphere of flexible learning.

Criss Library is centrally located on UNO's Dodge campus, and is an inclusive and engaged space for teaching, learning, research, and service. Collaborative spaces include: flexible seating on our lower and main levels; group study rooms equipped with monitors, screen sharing technology, and whiteboards; and four instruction labs, including two with laptops and configurable seating. For focused learning, the library has individual study rooms, and maintains quiet study space throughout the third floor.

The Creative Production Lab offers one-on-one help for students, faculty, and staff to explore their creative interests and learn how to use cutting-edge hardware and software, including virtual reality, laser cutting, 3D printing and scanning, and multi-media production.

The Archives & Special Collections acquires and preserves unique, rare, and specialized materials, and provides expertise on incorporating these materials into creative projects. The department's diverse collections include the University Archives, U.S. Senator Chuck Hagel Archives, as well

as other special collections including regional history, rare books, and the Arthur Paul Afghanistan Collection.

Additional spaces of note include: an outdoor garden patio, café, theater room, and the H. Don and Connie Osborne Family Art Gallery.

The library's collection supports the teaching, learning, research, and creative needs of students, faculty, and staff through a variety of formats including, print and e-books, physical and streaming media, digital image collections, journals, newspapers, electronic databases, and government documents. Material not available in the Criss Library collection can be borrowed from other libraries via Interlibrary Loan.

Librarians are available both in person and online to answer questions, help students and faculty use library resources, and assist with research when and where it is needed. Librarians also offer instruction sessions tailored toward a particular course or assignment.

For additional information, visit library.unomaha.edu (<http://library.unomaha.edu/>).

Research

At UNO, research is thriving because our students have access to resources they might not find at another university. Undergraduate and graduate students work with our faculty to understand and uncover new and innovative methods for solving problems. Learn more about the research at UNO (<https://www.unomaha.edu/research/>).

MavIGATION Station

The MavIGATION Station, located on the first floor of the Eppley Administration Building, provides general information and referrals to appropriate offices. The general information number is 402.554.2800 or 1.800.858.8648.

Information Technology Services

Information Technology Services (ITS) offers a broad range of services designed to meet the computing, communications, and networking needs of the University of Nebraska faculty, staff and students. See <https://its.unomaha.edu>.

Milo Bail Student Center

The Milo Bail Student Center (MBSC) is the student involvement hub located in the heart of Dodge Campus. MBSC is where you can take care of business at MavCARD Services (<https://www.unomaha.edu/milo-bail-student-center/mavcard/>) or the Bookstore (<https://www.unobookstore.com/>), connect with student services like Multicultural Affairs (<https://www.unomaha.edu/student-life/inclusion/multicultural-affairs/>), the Gender and Sexuality Resource Center (<https://www.unomaha.edu/student-life/inclusion/gender-and-sexuality-resource-center/>), the Military-Connected Resource Center (<https://www.unomaha.edu/military-and-veteran-services/>), and join programs geared specifically toward students like the Fraternity and Sorority Life (<https://www.unomaha.edu/student-life/involvement/omaha-greeks/>), Maverick Productions (<https://www.unomaha.edu/student-life/involvement/maverick-productions/>), Dance Marathon (<https://www.unomaha.edu/news/events/dance-marathon.php>), and Student Government (<https://www.unomaha.edu/student-life/involvement/student-government/>). The MBSC also offers delicious food options in the MBSC Food Court (<https://www.unomaha.edu/milo-bail-student-center/food-services-and-catering/mbsc-food-court.php>), Durango's Grill (<https://www.unomaha.edu/milo-bail-student-center/food-services-and-catering/durangos-grill.php>), and the Maverick Den (<https://www.unomaha.edu/milo-bail-student-center/food-services-and-catering/convenience-store.php>). Or just stop by to hang out in the lounge and study space while also stopping by the MavIGATION Station (<https://www.unomaha.edu/about-uno/contact-us.php>) to check out games, and more.

Bookstore

The UNO Bookstore, owned and operated by the University of Nebraska at Omaha, is located on the first level of MBSC. The Bookstore offers new and used textbooks, rental books, digital e-books, Omaha's largest selection of UNO apparel, gifts, and home décor. The UNO Bookstore website, unobookstore.com (<http://unobookstore.com/>), offers free in-store pickup and free residence hall delivery for textbooks, apparel and more.

Campus Recreation

Campus Recreation (Campus Rec) supports students on their journey to living a healthy and balanced lifestyle while at UNO. If you are enrolled in at least one credit hour on-campus, a Campus Rec membership is included as part of your University Program and Facilities (UPF) Fees. There is no need to purchase a membership separately while taking an on-campus class. A valid membership is determined on a semester basis. If you are enrolled in an online, remote, research, or thesis class, a Campus Rec membership would need to be purchased. A purchase is necessary since these classes do not pay the University Program and Facilities (UPF) Fees. All students, whether you are taking in person or online classes, you are eligible to participate in Wellness Coaching (<https://www.unomaha.edu/student-life/wellness/health-coaching-and-wellness-resources.php>). Campus Rec is located in the H&K Building. Learn more on the Campus Recreation website (<https://www.unomaha.edu/student-life/wellness/campus-recreation/>).

Housing & Residence Life

Housing and Residence life creates a positive residential experience and supports the evolving needs of students at UNO. Six different on-campus housing options are available to UNO students: Maverick Village (MV) and University Village (UV) on Dodge Campus; Scott Court (SC), Scott Crossing (SX), Scott Hall (SH), and Scott Village (SV) on Scott Campus. Housing and Residence life is proud to offer apartment, traditional, and graduate-style housing to UNO students. Learn more on the Housing and Residence Life website (<https://www.unomaha.edu/student-life/housing-and-residential-life/>).

Gender-Inclusive Housing

Students and allies of all sexual orientations, gender identities, and gender expressions are eligible to live in designated Gender-Inclusive Housing. Apartment features are the same as other housing facilities.

Parking Services

For information on parking services, visit the parking services website (<https://www.unomaha.edu/business-and-finance/support-services/parking-services/>).

Facilities

Visit the UNO Buildings and Maps (<https://www.unomaha.edu/about-uno/buildings-and-maps/>) website for detailed information on buildings and locations.

Alumni Engagement/NU Foundation

The UNO Alumni Association (<https://unoalumni.org/>) and the University of Nebraska Foundation have partnered to advance the overall mission and priorities of UNO, and to connect the dreams and passions of alumni and friends with the mission of the university. Click here (<https://nufoundation.org/>) for more information.

Public Safety

Department of Public Safety
6001 Dodge St.

Eppley Administration Building Room 100
402.554.2648

For ON-CAMPUS EMERGENCIES dial 402.554-2911.

UNO Department of Public Safety is available to the University community 24-hours a day, protecting life and property, providing building and grounds patrol; enforcing traffic and parking rules and regulations, and encouraging everyone to follow University regulations; UNODPS also maintains the University key system, manages the safety of youth on campus, and provides crime prevention programs for all persons on campus.

Title IX

Title IX is a comprehensive federal law that prohibits discrimination on the basis of sex (including gender identity) in any federally funded education program or activity.

To contact the Title IX Coordinator:
Phone: 402.554.2120
Email: equity@unomaha.edu

Learn more about Title IX (<https://www.unomaha.edu/office-of-equity-access-and-diversity/resources/title-ix/>).

Security

Buildings are patrolled 24 hours daily. Anyone found in a UNO building after established closing hours, without a UNO identification card, will be asked to leave. Report items stolen or damaged to the Department of Public Safety.

University Building Access

Department of Public Safety is responsible for the control of the university electronic access and key system. Eligible University employees should make requests for access (electronic or keyed) through their department chairperson.

Services

The Department of Public Safety provides assistance to motorists 24 hours daily. Officers respond to help get your vehicle started, open a locked vehicle, and will assist in a tire inflation where possible.

Parking Traffic

All accidents should be reported to Department of Public Safety immediately.

Personal Escorts

Officers are available to escort individuals to/from campus buildings 24 hours a day for anyone who has a safety concern.

Personal Safety Checks

Individuals who may be working alone, outside normal working hours are encouraged to contact Department of Public Safety. Security officers will periodically check on your safety while you are here.

Operation I.D.

Your personal belongings may be engraved to aid in finding lost or stolen property. Stop by the Department of Public Safety Office and check out an engraver and instructions to engrave your property

Lost and Found

Department of Public Safety maintains the lost and found system. Lost and found items are held for 30 days.

Fingerprints

The Department of Public Safety provides a fingerprinting service for individuals who require finger prints for job applications and military needs. This service also applies for children of students, staff, faculty, and alumni. It is strictly for the benefit of the parents should a child ever be missing; no record will be maintained by Department of Public Safety. Contact Department of Public Safety for times of service or an appointment at 402.554.2648.

Environmental Health and Safety

It is the goal of the university to provide a safe, healthy environment to work and study. In order to achieve this, Environmental Health and Safety (EHS) provides a number of training programs and consultation services for students, faculty and staff. Programs directed by EHS include: employee safety and passenger van training, hazardous waste management, emergency preparedness, fire protection, and accident investigations.

Safety Data Sheets and other information related to the safe handling and disposal of chemicals can be obtained from the EHS website. Students can help maintain a safe environment at UNO by reporting unsafe conditions on campus. Visit the EHS website (<https://www.unomaha.edu/business-and-finance/support-services/environmental-health-and-safety/>); call 402.554.3596, or visit EHS in 211 Eppley Administration Building.

Academic Focus Areas

An "Academic Focus Area" is a broad, interdisciplinary grouping of academic majors and courses that share similar themes. This framework allows UNO to provide coherence to our academic offerings and advising so that students can pursue their academic and professional goals while staying on-track for graduation. The courses recommended in these areas will count towards a degree in that respective area and fulfill general education requirements

UNO has 5 Academic Focus Areas that expose students to introductory coursework, concepts, ideas, and professional skills within broadly related, interdisciplinary fields of study. Through advising, faculty guidance, and programmatic support, students are encouraged to cultivate their strengths, interests, and professional goals in pursuit of selecting a major program of study.

- Public Service, Healthcare, and Helping Professions (<https://www.unomaha.edu/academics/academic-focus-areas/public-service-healthcare-helping-professions.php#pshhp>)
- Science, Technology, Engineering and Math (STEM) (<https://www.unomaha.edu/academics/academic-focus-areas/stem.php#stem>)
- Business and Innovation (<https://www.unomaha.edu/academics/academic-focus-areas/business-and-innovation.php#tbi>)
- Culture, Ethnicity, and Social Justice (<https://www.unomaha.edu/academics/academic-focus-areas/culture-ethnicity-social-justice.php#cesj>)

- Creative Production and Performative Arts (<https://www.unomaha.edu/academics/academic-focus-areas/creative-production-performing-arts.php#cppa>)

College of Arts and Sciences

Vision Statement

To be recognized and respected throughout the United States as one of the premier Colleges of Arts and Sciences at a metropolitan university, maximizing our resources to build exceptional programs related to teaching, scholarship, creative activity, outreach, and service.

Mission Statement

The College of Arts and Sciences is a liberal arts college within a metropolitan university. The college serves as UNO's standard-bearer for the tradition of liberal education, which emphasizes the importance of breadth of knowing and ways of knowing as central to a student's education, and prepares students for the 21st century workforce.

Courses of instruction are offered in the humanities, social sciences, and natural sciences/mathematics to support a liberal education for the students of the college and to provide a significant portion of the general education requirements of the university. We offer disciplinary and interdisciplinary majors and minors at the bachelor's, master's, and doctoral levels. The college is committed to outstanding teaching and to significant scholarship and research activities of its faculty and students and encourages involvement with our metropolitan community and the world at large.

General Information

The College of Arts and Sciences offers Bachelor of Arts and Bachelor of Science degrees, with a diversity of majors from the humanities, social sciences and natural sciences. The College also offers advising for many pre-professional programs preparing students for graduate or professional schools in medicine, allied health and law.

Academic majors are available in the following fields: bioinformatics, biology, molecular and biomedical biology, black studies, chemistry, economics, English, environmental science, foreign languages and literature, general science, geography, geology, history, interdisciplinary studies, international studies, Latino/Latin American studies, mathematics, medical humanities, neuroscience, pharmaceutical sciences, philosophy, physics, political science, psychology, religion, sociology, and women's and gender studies.

The pre-professional programs of study are determined largely by the requirements of the graduate or professional schools which students intend to enter. If planned carefully, the requirements for a pre-professional program can also meet many of the requirements for a B.A. or B.S. degree. These pre-professional programs are not academic majors and a student seeking a degree from UNO must complete the requirements of a major as well. Pre-professional information can be found on the Arts and Sciences website (<https://www.unomaha.edu/college-of-arts-and-sciences/>).

Accreditation Information

Major	Degree	Accreditation Body
Chemistry	BA/BS	American Chemical Society (ACS)

School of Psychology	MS Ed.S.	- Recognized by the National Association of School Psychologists (NASP) and the National Council for Accreditation of Teacher Education (NCATE) - Nebraska Department of Education
----------------------	----------	--

Choice of Catalog Policy

A student registering in the College of Arts & Sciences for the first time may, except for the limitations described below, complete work for the degree according to the requirements of the catalog in effect during that year or during any subsequent year prior to and including the year the student applies for the degree.

Returning students who have not been enrolled for two or more years will complete work for the degree according to the requirements of the catalog in effect during the year they re-enroll or any subsequent year prior to and including the year the student applies for the degree.

The College of Arts & Sciences reserves the right to institute and make effective, after due notice, during the course of a student's work toward a degree, any new ruling which may be necessary for the general good of the college and to substitute courses currently offered for those no longer offered.

Contact Information:

Arts and Sciences Advising Center
220 Arts and Sciences Hall
402.554.2458

College Website (<http://www.unomaha.edu/college-of-arts-and-sciences/>)

Admission Requirements

All students who have not yet earned any college credit and who are eligible to enter the university are accepted for admission to the college. However, admission of transfer students or students who have previously been enrolled at UNO is evaluated on an individual basis. A 2.0 grade point average in previous course work is required for non-exploratory students.

Application deadline for admission is the same as that for the university.

Academic Requirements for the College Degrees

Number of Hours to Graduate

College Rules

Upper-Division Rule

Students must have at least 18 hours of upper-division course work in their major and a total of at least 27 credit hours of upper-division work (3000 or 4000-level courses).

Forty-Five Hour Rule

No candidate may count more than 45 credits in any one discipline toward completion of a major.

Four Hour Rule

No candidate may count more than four out of 120 credits in physical education activity classes.

Overlapping Restrictions

Courses that are taken toward the completion of two or more programs are subject to restrictions, as determined by the individual programs. If

differences in policies exist, the policy that allows the fewest number of course overlap will be enforced. When possible, known course overlap restrictions are explicitly stated in the individual program catalog pages and are enforced in the degree audit system. Still, not all combinations can be accounted for and may not be accurately reflected in a degree audit, or stated in the program catalog pages. It is imperative for students to work closely with their advisor for guidance when thinking about declaring another program of study that shares some course requirements between them. Taking distinct courses for each program is generally advised to avoid overlap issues.

Separate from course overlap restrictions between two or more academic programs such as majors and minors, the College of Arts and Sciences limits the amount of overlap that can exist between the different components of our BA and BS degrees. Specifically, the College of Arts and Sciences' Breadth Requirement asks students to select any one of the following to fulfill the requirement: Option I-Minor; Option II-Additional General Education; Option III-Double Major or Comprehensive major. Cognate coursework may not also be applied toward the minor or double major satisfying the College of Arts and Sciences Breadth Requirement unless explicitly approved by the Educational Policy Committee of the College. Additionally, the BS cognate coursework should complement the student's major, with courses selected from cognate fields outside the student's major department. Students can overlap up to 6 credits of BS cognate or up to 5 credits of BA foreign language coursework with the university general education requirements or Option II additional general education coursework. Questions may be directed to the Arts and Sciences Advising Center.

Minimum GPA/Additional Requirements

Students seeking a degree must maintain an average grade of at least "C" (2.0) in all college work, including work transferred from other institutions.

Specific College of Arts & Sciences' Breadth Requirements

Students must complete one of the three following options:

Option I: Minor

Students may complete any UNO minor. Courses counting toward the minor may not also be used toward the student's cognate requirements without approval by the Educational Policy Committee of the College. See the respective departmental requirements for details. Minors offered in the College of Arts and Sciences include: ancient Mediterranean studies, anthropology, biology, molecular and biomedical biology, black studies, chemistry, Chicano-Latino/a studies, economics, English, environmental science, ethics, film studies, foreign language and literature (French, German, Spanish), geography, geology, history, holocaust & genocide studies, human rights studies, international studies, Islamic studies, leadership & public policy, LGBTQ-Sexuality studies, mathematics, medical humanities, Medieval/Renaissance studies, Native American studies, neuroscience, philosophy, physics, political science, psychology, religion, sociology, sustainability, and women's and gender studies. See the respective programs for details.

OR

Option II: Additional General Education

The University has established minimum General Education requirements. This option is designed to further the purposes of liberal education by encouraging students to explore coursework in other areas.

Humanities/Fine Arts (nine additional credit hours)

- Three additional credit hours from a third discipline
- HIST 1000 – World History to 1500 is required
- HIST 1010 – World History since 1500 is required

Transfer students who have taken two semesters of Western Civilization may count three hours toward the World History since 1500 requirement (HIST 1010) and then take three hours of HIST 1000 to complete their World History requirement, or they may take HIST 2190.

Social Sciences (three additional credit hours)

- Three additional credit hours from a third discipline.

Natural and Physical Sciences (four additional credit hours with a lab)

- Four additional credit hours with a corresponding lab.

Quantitative Literacy (three additional credit hours)

- One additional three-credit hour course in mathematics, computer science, statistics, logic, or other quantitative topic as specified by the student's major and approved by the college.

OR

Option III: Comprehensive/Double Major

Students may earn more than one major or complete a comprehensive major approved by the College curriculum committee for this option.

These comprehensive majors will require more than 50 credit hours total. Approved comprehensive majors are bioinformatics, biology B.S. with education concentration, chemistry B.S. with a concentration in chemistry education, environmental science, interdisciplinary studies with individualized or integrative concentrations, mathematics B.A. or B.S. with mathematics education concentration, neuroscience, and physics B.S. with a concentration in physics education.

Requirements for the Bachelor of Arts Degree

Students pursuing a Bachelor of Arts degree must complete a major, including at least 18 credit hours of upper-division work (3000 or 4000-level courses) designated as appropriate by the faculty in one of the following fields: biology, chemistry, economics, English, foreign language and literature, geography, geology, history, interdisciplinary studies, international studies, Latino/Latin American studies, mathematics, medical humanities, philosophy, physics, political science, psychology, religion, sociology, and women and gender studies. A student meeting the requirements in each of two fields may present a double major in these fields, provided that the disciplines do not overlap significantly in requirements and a total of at least 27 credit hours of upper-division work (3000 or 4000-level courses) is completed.

For Bachelor of Arts students, foreign language through the intermediate level is required, as described in the next paragraph.

Foreign Language

For Bachelor of Arts degree-seeking students only, students must complete 16 credit hours of college work in one foreign language, American Sign Language, or equivalent. This is generally accomplished by completing levels I, II, III, and IV of any one foreign language. Up to five credit hours may be used toward the BA and Humanities/Fine Arts Requirement abiding by the university's list of approved courses.

Special circumstances:

- Students with prior experience in a foreign language may satisfy the BA foreign language requirement in fewer than 16 credits with successful completion of level IV in a college foreign language.

- High school language coursework may satisfy the BA foreign language requirement if successfully completed through the equivalent of a level IV college foreign language.
- Speakers of native languages should consult their advisor to discuss options.
- For unusual circumstances, please contact the Arts and Sciences Advising Center.

To enroll in any French, German, Japanese, or Spanish course beyond 1110, a student who has not successfully completed the prerequisite courses at UNO must take the appropriate placement exam and qualify for the desired course. All students are subject to this requirement, including transfer students (including those from UNK/UNL). The Department of Foreign Languages and Literature reserves the right to cancel the registration of any student who has not met the prerequisites for a course. Transfer courses at the 3000/4000 level are subject to the approval of a departmental adviser and the department chair. All foreign language courses must be completed with a grade of "C-" or better to continue to the next course.

The Department of Foreign Languages will grant retroactive credit for French, German, Japanese, or Spanish 1110, 1120, 2110, or 2120 subject to the following conditions:

- a student who completes any French, German, Japanese, or Spanish course in the 1120-2120 sequence with a grade of "C-" (1.67) or better at UNO without having completed the previous courses may be granted retroactive credit for those previous courses;
- a student who completes a 3000-level course in French, German, or Spanish with a grade of "C-" (1.67) or better at UNO without having completed the 1110-2120 sequence may be granted retroactive credit for any of the courses 1110, 1120, 2110, and 2120 for which credit has not already been earned.
- Please refer to the Department of Foreign Languages and Literature for questions and for assistance with retroactive credits.

Requirements for the Bachelor of Science Degree

The Bachelor of Science degree provides greater opportunity for concentrated and specialized study in a particular field, generally in the natural or social sciences. The requirements for the Bachelor of Science degree are the same as those for the Bachelor of Arts degree except as follows: Each degree candidate must complete a major including at least 18 credit hours of upper-division work (3000 or 4000-level) designated as appropriate by the faculty in one of the following fields: bioinformatics, biology, black studies, chemistry, economics, environmental science, general science, geography, geology, history, interdisciplinary studies, mathematics, medical humanities, molecular and biomedical biology, neuroscience, pharmaceutical sciences, physics, political science, psychology, and sociology. A student meeting the requirements in each of two fields may present a double major in these fields, provided that the disciplines do not overlap significantly in requirements and a total of at least 27 credit hours of upper-division work (3000 or 4000-level courses) is completed.

Foreign language is not required for students completing a B.S. degree. Instead, students must complete cognate courses as described in the next paragraph.

Cognate Courses

Each Bachelor of Science degree requires a minimum of 15 credit hours from cognate fields outside the student's major department. Up to six credit hours may be used toward the general education requirements. These cognate courses should complement the student's work within the major. Cognate coursework may not also be applied toward the minor or double major satisfying the College of Arts and Sciences Breadth Requirement unless explicitly approved by the Educational Policy Committee of the College. Beyond these criteria, the major department will determine the

approval of cognate coursework for each student. See the respective departmental requirements for details.

Transfer Credit Policy

The University allows the transfer of a maximum of 64 credit hours from community colleges. STEM majors may transfer 67 credit hours from community colleges. The Arts and Sciences Advising Center should be contacted for information on the transferability of courses applying to College of Arts and Sciences requirements. Students may be referred to departmental advisors for transferability of courses toward major or minor requirements.

Courses taken at a community college that are upper-division level courses in the College of Arts and Sciences may not be counted as equivalent to upper-division Arts and Sciences courses. At the discretion of the advisor and the department, these courses may be used toward required or elective coursework but may not be used to meet upper-division requirements.

Unacceptable Credits

Remedial, developmental, or technical coursework may not be used toward the fulfillment of the 120 credit hour requirement.

Placement Exams and Credit by Examinations Policies/Practices

<https://nextcatalog.unomaha.edu/undergraduate/student-life-support-services/> (p. 62)

Residency Requirement

At least 30 of the last 36 credits of a student's bachelor's degree must be taken at UNO. A maximum number of transfer credits may be applied to Arts and Sciences majors and minors. Please consult the Arts and Sciences Advising Center for further information.

Quality of Work

Students seeking a degree must maintain an average grade of at least "C" (2.0) in all college work, including work transferred from other institutions. Students must earn a grade of at least "C-" (1.67) in all coursework intended to satisfy general education, major or minor requirements, however some majors may require a minimum of a "C" (2.0). (Courses passed with less than a C- can still count as elective credit used towards the 120 credits needed to graduate, but will not satisfy specific requirements.) To qualify for a grade of "CR" in any course in the College of Arts and Sciences, a student must earn a grade of at least "C-" (1.67) in that course. All grades reported by the faculty to the registrar become part of the students' permanent records and are included in the computation of their grade point averages, even though some of these grades may be for work done in excess of the 120 hours required for graduation. In order to graduate, students must attain a minimum cumulative GPA of 2.0 ("C"). The only exception to this rule is provided in the section of these requirements entitled "Amnesty Clause."

Appeal Process

Summary

The College of Arts and Sciences establishes the following procedures for review of grade appeal cases for all Arts & Sciences courses. In keeping with *The University of Nebraska Board of Regents Bylaws and Policies*, the College provides an appeals procedure for students who believe that evaluation of their academic progress has been prejudiced or capricious.

If all attempts at informal resolution fail, a student may file a formal written grade appeal with the appropriate department chair or program administrator within the first four weeks of the next regular semester.^[1] (https://www.unomaha.edu/college-of-arts-and-sciences/information/grade-appeal.php#_ftn1) If either a student or an instructor wishes to appeal a department or program grade appeal decision, the student or instructor may file a formal appeal with the College. The College appeal (<https://www.unomaha.edu/college-of-arts-and-sciences/information/grade-appeal.php#college>) is the final level of grade appeal.

I. Department or Program-level Procedure

1. A student wishing to contest a grade should first consult the instructor for the course to make certain that the disputed grade is not the result of simple error or misunderstanding. It is recommended that the student contact the instructor immediately after the final course grade is posted. If the instructor is unavailable, the student should contact the department chair or program administrator.
2. If the student and instructor are unable to resolve the conflict informally, the student should contact the department chair or program administrator who may attempt informal mediation. It is recommended that all informal consultations be concluded within the first two to three weeks of the next regular semester. Timeline (<https://www.unomaha.edu/college-of-arts-and-sciences/information/grade-appeal.php#timeline>)
3. If attempts at informal resolution fail, a student may file a formal written appeal with the department chair or program administrator within the first four weeks of the next regular semester. The written appeal must include explanation and evidence of prejudice or caprice in grading and an explicit statement regarding the outcome the student seeks. Evidence should include pertinent course materials, such as the course outline or syllabus, written instructions for assignments, and graded student work. The chair or administrator will form a grade appeal committee and provide a copy of the written appeal to the instructor.
4. Following receipt of the written appeal, the instructor has up to one week to provide a written response to the appeal to the department or program committee.
5. The department or program appeal committee must conclude appeal deliberations and communicate a decision to the student and instructor within two weeks of receipt of the instructor's response. The appeal committee must be composed of at least three faculty and at least one student. If the committee finds that prejudice or caprice affected the

final grade, the department chair or program administrator will change the student's grade.

6. The department or program committee must submit a report to the associate dean of undergraduate education for the College of Arts & Sciences. Submissions may be sent to the Dean's Office at unocasdean@unomaha.edu or Arts & Sciences Hall, Room #280 within one week of its final decision. The report must include the following:

- the student appeal
- the instructor response
- a list of all grade appeal committee members
- copies of any documents consulted in developing the final grade appeal decision
- a statement from the chair, administrator, or grade appeal committee chair including an explanation of how the department's procedures were followed, a timeline of the appeals process, a rationale for the final decision, and an explanation of how the final course grade was calculated.

[1] Regular semesters are fall and spring semesters. To appeal a grade from a fall course, the student must file a written appeal within the first four weeks of the next spring semester. To appeal a grade from a spring course, the student must file a written appeal within the first four weeks of the next fall semester. To appeal a grade from a summer course, the student must file a written appeal within the first four weeks of the next fall semester.

II. College-level Procedure

A. UNO Graduate Studies (graduate courses) Students and faculty wishing to file an appeal of a department or program grade appeal decision for a graduate course should contact the Graduate Studies Office at UNO (<https://www.unomaha.edu/graduate-studies/>) for information on Graduate College procedure. The following College of Arts & Sciences procedure does not apply.

B. College of Arts & Sciences (undergraduate courses)

1. Any student or instructor wishing to file an appeal of a department or program appeal committee decision must submit a written appeal to the associate dean of undergraduate education for the College of Arts & Sciences within one week after that decision. Such appeals may be sent to the Dean's Office at unocasdean@unomaha.edu or Arts & Sciences Hall, Room #280 and must include the following:
 - an account of the facts surrounding the awarding of the disputed grade;
 - a complete account of steps taken at the department or program level to resolve the dispute;
 - copies of documents relevant to the grade appeal, including a copy of the course syllabus;
 - an explanation of how the relevant grades were calculated/miscalculated.
2. Upon receiving the written appeal, the associate dean of undergraduate education will notify the chair of the College of Arts & Sciences Educational Policy Committee (EPC) of the need to convene an appeal committee and will forward the department's report as well as the written appeal to the EPC chair. The associate dean of undergraduate education will also notify the dean of the need to appoint two student committee members.
3. The College appeal committee will include all members of the EPC who are not members of the department in question and at least two student members who are appointed by the dean. A final decision on the appeal by this committee will be due two weeks after the EPC chair receives the written appeal and the department or program report.

4. In ruling on grade appeals, the College committee will not attempt to resolve disputes about a student's knowledge of a particular subject matter. The committee's responsibilities do extend, however, to matters of both substance and process. Regarding substance, the committee will determine whether evaluation of a student has been prejudiced or capricious. Regarding process, the committee will determine whether or not grade appeal procedures have been followed.
5. In response to an appeal of department or program process, the committee will determine whether grade appeal procedures have been completed in a reasonable manner. If procedures are not complete, the committee may require the department or program appeal committee to reconvene.
6. In response to an appeal based on charges of caprice or prejudice in grading, the committee may determine that it concurs with the judgment of the department or program appeal committee and will adopt the original recommendation on the matter as its own.
OR
The committee may determine that an academic evaluation by an instructor has been improper, or that the instructor's evaluation was wrongly held to be improper as the result of the original grade appeal, and it will advise the dean that the student's grade should be changed accordingly.

Grade Appeal Policy

1. The College of Arts & Sciences will set grade appeal policies and procedures that operate within the University of Nebraska Board of Regents Bylaws and Policies
Bylaws of the University of Nebraska Board of Regents Chapter V–(January 25, 2018) 5.3 *Academic Evaluation*.
"Each College or school shall provide for a faculty-student appeals committee for students who believe that evaluation of their academic progress has been prejudiced or capricious. Such procedure shall provide for changing a student's evaluation upon the committee's finding that an academic evaluation by a member of a faculty has been improper."

University of Nebraska Board of Regents Policies Chapter 5.–(October 3, 2018) Instructional and Grading Procedures 2b.
"...The faculty of each department, school, or equivalent unit shall provide a committee to consider the appeal of those cases in which a student feels the performance evaluation was unfair. Colleges shall provide standing committees to consider cases in which the student or faculty member chooses to appeal the initial decision. Any of these committees shall have the authority to direct changes in the grade based upon its findings."
2. The College of Arts & Sciences will maintain department and program grade appeal policies and procedures that operate within the University of Nebraska at Omaha Graduate Office grade appeal policies and procedures so that, at the department/program level, there is one procedure for both undergraduate and graduate appeals.
3. The College of Arts & Sciences will operate within the parameters set by the Board of Regents and the Graduate Office but will set additional requirements and deadlines.
4. The College of Arts & Sciences will set deadlines and procedures for grade appeals that will allow resolution of both the department/program appeal and the undergraduate college appeal within the first ten weeks of regular semesters, allowing students filing appeals to make informed decisions for early registration and to move forward with their academic careers.
5. Departments and programs within the College of Arts & Sciences will maintain grade appeal policies and procedures that operate within the

College of Arts & Sciences Grade Appeal Policies and Procedures for Departments and Programs.

Academic Amnesty

Academic Amnesty provides relief from a poor academic record acquired within the University of Nebraska system by excluding substandard coursework with a final grade of "D" or "F" from a student's cumulative grade point average (GPA) calculation. Academic Amnesty will not remove course(s) or grade(s) from the transcript but once granted, will not count as part of the overall GPA.

To be eligible for Academic Amnesty, students must:

- Have been out of the Nebraska system for at least one calendar year (12-month period).
- Have substandard coursework ("F" or "D" grades) earned within the University of Nebraska system (UNO, UNL, UNK, UNMC) prior to the year out (substandard grades earned after the year out will not be included in the Academic Amnesty contract).
- Be admitted as a degree-seeking student at the University of Nebraska.

Amnesty Requirements:

- Academic Amnesty will begin with the first course(s) taken upon return to UNO.
- Students may apply for Academic Amnesty at any time after taking the one-year break.
- After returning from the one-year break, demonstrate academic success in new UNO coursework.
- Academic success may be demonstrated by one of the following:
 - Completing at least 12 semester hours (simultaneous or sequential) with a minimum of 3.0 cumulative GPA,
 - Completing at least 24 semester hours (simultaneous or sequential) with a minimum of 2.5 cumulative GPA.
- Students must maintain continuous enrollment (at least six (6) semester hours completed within any 12-month period).
- Students will work with their academic advisor to select the coursework to be amnestied.
- Students must inform an academic advisor when the Academic Amnesty requirements are met.

Notes:

- All amnestied coursework will remain on the student's academic record (transcript); however, the courses will not be included in calculation of the student's grade point average. Courses will be annotated "Academic Amnesty Excluded from GPA" on the transcript.
- Once Academic Amnesty is granted, students will not be eligible for honors at graduation. Students are still eligible for Dean's List and Chancellor's List honors.
- While demonstrating academic success, no changes are made to the student's academic record. If a student's cumulative GPA is still below standard, the students will continue to be reported as "continued on probation." Should the student revert to substandard academic performance while working on Academic Amnesty, the student can still be suspended. Academic Amnesty is intended to provide relief from the past without providing immunity from future substandard academic performance.
- Students must still meet all university and college requirements to graduate.

This policy will be in effect in the College of Arts and Sciences beginning with the 2022-2023 academic year.

Academic Probation and Suspension

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 31)

Reinstatement Policy Following Academic Suspension

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 31)

Academic Advising

Advising in the College of Arts and Sciences is shared between the Arts and Sciences Advising Center, Health Careers Resource Center, departmental major advisors, and the Academic and Career Development Center,

- Bioinformatics, Biology, and Mathematics majors will have all their advising done with their major advisor.
- Pre-dental hygiene, pre-medical imaging, pre-medical laboratory science, pre-nursing, pre-pharmacy, and pre-respiratory therapy students have all their advising done with the Health Careers Resource Center.
- Exploratory Studies students will have all their advising done with the Academic Career Development Center up until 45 earned credits or the declaration of either the Integrative Studies or Individualized Studies concentration within the Interdisciplinary Studies major, or declaration of a different major entirely.
- All other pre-health students and majors will begin with the Arts & Sciences Advising Center and transition to a major advisor once they have a declared major and at least 27 earned credits, which is sophomore standing. Pre-health students earning a bachelor's degree should visit with the Health Careers Resource Center for pre-health specific guidance as needed throughout their time at UNO, beginning with the end of their 1st semester or beginning of second. The Health Careers Resource Center is located in Allwine Hall, Room 307.

Advising Holds

<https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/> (p. 24)

Student Holds

<https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/> (p. 24)

Senior Check

After completing 91 hours of coursework, students must request a Senior Check/Graduation Check from the Arts & Sciences Advising Center. Provided that the student follows the guidance on the form and assuming satisfactory completion of all approved courses, this process will ensure the student's graduation date. Should this procedure not be followed, responsibility for meeting graduation requirements falls on the student; if errors are made they can prevent graduation at the anticipated date. Multiple options exist for Senior Checks to be conducted, and are outlined on the Arts and Sciences Advising Center website (<https://www.unomaha.edu/college-of-arts-and-sciences/academic-advising-center/>).

- Women's and Gender Studies Minor (p. 358)

Ancient Mediterranean Studies Minor

Description

The interdisciplinary Ancient Mediterranean Studies (AMS) minor was designed to give students an in-depth understanding of the history of the Mediterranean and Ancient Near East from the beginning of the Bronze Age through the Roman Empire in the West, and the Byzantine Empire in the East.

Other Information

All coursework taken for the Ancient Mediterranean Studies minor must be completed with a grade of C- or better.

Contact

Jeanne Reames, PhD, Ancient Mediterranean Studies Director
mreames@unomaha.edu

Website (<http://www.unomaha.edu/ams/>)

Requirements

Undergraduate students will be expected to complete 15 credit hours of AMS courses with a grade of C- or higher from at least three departments, including art history, black studies, English, history, philosophy, political science, or religious studies. Twelve hours of these must be courses at the 3000-4000 level. A course in another department other than those listed may be permissible with review and approval by AMS faculty. See below for a list of approved courses.

While a language is not required for the minor, taking Latin is strongly recommended, especially for graduate students and any undergraduates

who have plans to continue their studies in graduate school. Other relevant languages (Greek, Hebrew, Aramaic, etc.), acquired through other venues, are equally acceptable.

Total Credits		15

Note: Courses in FREN, GERM, and SPAN may be taught in the original languages (French, German, and Spanish). Students will need to meet the prerequisites for these or any of the other upper-division courses.

Sustainability Minor

Sustainability is an interdisciplinary field that explores, from multiple perspectives, the interconnectedness of every system on the planet and how to maintain and improve earth's resources for current and future generations. The natural sciences provide the basis for understanding Earth's systems and how humans impact them. The humanities value our physical and ethical connection to these systems. Finally, the social sciences

allow us to understand political, economic, and cultural sustainability, as well as formulate workable policies for a sustainable future.

Sustainability integrates a broad range of topics, including:

- green business practices
- ecology
- natural resources management
- city planning (including land development, housing, transportation, and urban infrastructure)
- international law, policy, and politics
- ethics, values, and environmental justice
- energy and international development
- food security
- human health and quality of life.

A minor in sustainability can be combined with any major in any college at UNO, offering students a flexible and interdisciplinary curriculum. Students who complete this minor will be able to:

- Understand sustainability, its various sub-disciplines, major themes, and analytical techniques as it relates to virtually any career field
- Recognize the political, economic, and cultural forces acting upon the global ecosystem
- Appreciate the significant value of the global ecosystem services provided by a healthy environment
- Identify ways to advance equity, improve quality of life, and lower our personal and collective environmental footprint, on campus and in the community.

Other Information

All coursework taken for the sustainability minor must be completed with a grade of "C-" or better.

Contact

Dr. Elizabeth Chalecki, Director

echalecki@unomaha.edu

Website (<https://www.unomaha.edu/college-of-arts-and-sciences/sustainability/>)

Requirements

Undergraduate students will be expected to complete at least 15 credit hours of Sustainability courses, including an introductory course in Sustainability, one course in environmental science, and advanced sustainability coursework. Nine credit hours must be upper division (3000 or higher) courses. No more than six credit hours will be accepted as transfer credit.

Code	Title	Credits
Required Courses		
SUST 1000	INTRODUCTION TO SUSTAINABILITY	3
Select one of the following approved courses in environmental science:		3-4
BIOL 1330	ENVIRONMENTAL BIOLOGY	
CHEM 1010	CHEMISTRY IN THE ENVIRONMENT AND SOCIETY	
GEOG 1030	OUR DYNAMIC PLANET: INTRODUCTION TO PHYSICAL GEOGRAPHY	
GEOG 1050	HUMAN-ENVIRONMENT GEOGRAPHY	
GEOL 1010	ENVIRONMENTAL GEOLOGY	
GEOL 1100	EARTH SYSTEM SCIENCE	

Plus a minimum of 9 credit hours selected from the following. Courses can only be applied to one area.

Select one of the following in the economic and public policy aspects of sustainability: 3

ECON 3320	INTRODUCTION TO ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS
ECON 4320	NATURAL RESOURCE ECONOMICS
GEOG 4160	URBAN SUSTAINABILITY
PSCI/ENVN 4270	GLOBAL ENVIRONMENTAL POLITICS
PSCI 4290	INTERNATIONAL DEVELOPMENT & SUSTAINABILITY

Select one of the following in social and ethics dimensions of sustainability: 3

GEOG 4160	URBAN SUSTAINABILITY
GEOG 4350	GLOBAL CLIMATE CHANGE
HIST 4910	TOPICS IN HISTORY (When topic is American Environmental History)
PHIL 3180	ENVIRONMENTAL ETHICS
PSCI/ENVN 4270	GLOBAL ENVIRONMENTAL POLITICS
PSCI 4290	INTERNATIONAL DEVELOPMENT & SUSTAINABILITY
SOC 4760	ENVIRONMENTAL SOCIOLOGY

Select one of the following in sustainability and natural resource management: 3-4

BIOL 4120	CONSERVATION BIOLOGY
ENVN 4310	OUR ENERGY FUTURE: SOCIETY, THE ENVIRONMENT AND SUSTAINABILITY
ENVN 4320	ECOLOGICAL SUSTAINABILITY AND HUMAN HEALTH
ENVN 4330	INTRODUCTION TO GREEN INFRASTRUCTURE
GEOG 4010	CONSERVATION OF NATURAL RESOURCES

Code	Title	Credits
Students may also pursue the following options, as approved by the director of the minor:		
SUST 4090	SPECIAL TOPICS IN SUSTAINABILITY	3
SUST 4800	INTERNSHIP IN SUSTAINABILITY	1-6
SUST 4900	INDEPENDENT STUDY	1-3

Other courses can be substituted with the approval of the minor director.

Please be advised that students who elect to complete both the ENVN major and Sustainability minor may only count 1000-level classes for both the major and minor. For other majors, students may count one lower-level course and one upper-level course for both the major and minor.

Bioinformatics

Bioinformatics is an interdisciplinary scientific field that addresses problems related to the collection, processing, and analysis of the vast amounts of data describing the structure and function of biological systems, combining aspects of computer science, molecular biology, chemistry and mathematics.

Bioinformatics merges computer and information science with the study of genetic information and biological structures. Bioinformatics allows researchers to open new windows of insight into our genetic makeup, providing pathways to understanding disease processes, and creating novel diagnostic and treatment strategies. To capitalize on the growing body of

knowledge regarding the genome, there is an immense and growing need for experts in this field.

A graduate of the UNO bioinformatics program will possess a solid background in a wide variety of positions throughout the biomedical and biotechnology industries, providing a solid foundation for graduate studies in bioinformatics or related areas and, with the addition of a few courses, medical school. One of the benefits of completing the Arts and Sciences major in bioinformatics will be the opportunity to conduct a research project with a faculty member in Arts and Sciences, applying bioinformatics skills to address a central question in the life sciences.

Other Information

All coursework taken for the Bioinformatics major must be completed with a grade of C- or better.

Degrees Offered

- Bioinformatics, Bachelor of Science (p. 80)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the bioinformatics major, the writing in the discipline requirement can be fulfilled by completing a sequence of approved biology courses at UNO that incorporate discipline-specific writing as part of their requirements. To satisfy the requirement for writing in the discipline, students must complete BIOL 1450 and BIOL 1750, both BIOL 2140 and BIOL 3020 and two additional 3000/4000 level courses that are approved as meeting the writing requirement by the Department of Biology. For the bioinformatics major, the two additional approved 3000/4000 level courses will be BIOL 4130/BIOL 4140 and BIOL 4560. Only courses taken at UNO and after January 1, 2010 can be applied to this requirement. Students not meeting the writing requirement through this sequence of courses will fulfill the writing requirement by completing ENGL 2400 or ENGL 3980.

Bioinformatics is an interdisciplinary scientific field that addresses problems related to the collection, processing, and analysis of the vast amounts of data describing the structure and function of biological systems, combining aspects of computer science, molecular biology, chemistry and mathematics.

Bioinformatics merges computer and information science with the study of genetic information and biological structures. Bioinformatics allows researchers to open new windows of insight into our genetic makeup, providing pathways to understanding disease processes, and creating novel diagnostic and treatment strategies. To capitalize on the growing body of knowledge regarding the genome, there is an immense and growing need for experts in this field.

- Bioinformatics Analyst
- Bioinformatics Developer
- Bioinformatics Scientist
- Bioinformatics Consultant
- Genomics Data Analyst
- Biostatistician

*Other possible job titles:

- Cheminformatician
- Neuroinformatician
- Medical Informatics Analyst

- EMR Information Systems Analyst
- Nursing Informatics Specialist
- Chief Medical Information Officer
- Scientific Data Curator
- Research Assistant or Scientist
- Molecular Structural Analyst
- Bio-Statistician

*Some positions may require graduate study

BIOI 1000 INTRODUCTION TO BIOINFORMATICS (3 credits)

Bioinformatics is a scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize and interpret information from genetic sequence data. The field is growing rapidly with the advancement in molecular technology to sequence the genomes of many different organisms. This course will provide an introduction to the field and will examine some of the problems of interest to bioinformaticians and how these relate to biology, computer science, mathematics and engineering. Topics will include an overview of the biology, mathematics and computer science needed to understand these and tools.

Distribution: Natural/Physical Science General Education course

BIOI 2000 FOUNDATIONS OF BIOINFORMATICS (3 credits)

Bioinformatics is a new scientific discipline that integrates mathematical and computational techniques with biological knowledge to develop and use computational tools to extract, organize and interpret information from genetic sequence data. The field is growing quickly due to rapid advances in sequencing and other biological techniques that allow the genomes of different organisms to be easily sequenced. This course provides an overview of the field and covers the chemical, biological, mathematical and computational foundations of bioinformatics upon which later courses will depend. In addition, it introduces problems of interest to bioinformaticians and the methods and tools used to address them.

Prerequisite(s): BIOL 1000 or BIOL 1450

BIOI 3000 APPLIED BIOINFORMATICS (3 credits)

This course will provide students with the practical skills needed for the analysis of -omics data. Topics covered will include biological databases, molecular biology tools (e.g., primer design, contig assembly), gene prediction and mining, database searches, genome comparison, sequence alignments, phylogenetic inference, gene expression data analyses, functional annotation of protein sequences, protein structure and modeling. Specialized software (e.g., Vector NTI) and widely used web-based computation tools (e.g., Entrez, BLAST, ClustalX, Phylip, PyMOL, and SwissPDBviewer) will be illustrated. Multiple approaches for solving particular problems will be presented.

Prerequisite(s): BIOL 2000 and CIST 1400; or permission of instructor.

BIOI 3500 ADVANCED BIOINFORMATICS PROGRAMMING (3 credits)

Because of the volume and complexity of biological data, advanced programming skills are required for researchers in order to get the most out of their data analyses. This course will provide the expanded programming skills necessary to develop software that can exploit the complex information landscape of bioinformatics. Specific topics covered will include molecular biology basics, Unix/Linux shell programming, Perl and BioPerl, databases and using the Perl DBI, and data visualization.

Prerequisite(s): BIOL 3000 and CSCI 1620; or permission of instructor. CSCI 3320 is strongly recommended but not required.

BIOI 4500 INDEPENDENT STUDY (1-3 credits)

This course allows students to research a topic of their interest that is not available in a formal course. The topic to be studied must be agreed upon by the student and the instructor.

Prerequisite(s): Junior or Senior within the Bioinformatics undergraduate program. Not open to non-degree graduate students.

BIOI 4510 BIOINFORMATICS INTERNSHIP (1-3 credits)

The purpose of this course is to provide the students with an opportunity for practical application and further development of knowledge and skills acquired in the Bioinformatics undergraduate program. The internship gives students professional work experience and exposure to the challenges and opportunities faced by IT professionals in the workplace.

Prerequisite(s): Junior/Senior standing and permission of Director of the School of Interdisciplinary Informatics. Not open to non-degree graduate students.

BIOI 4860 BIOINFORMATICS ALGORITHMS (3 credits)

The main objective of this course is to provide an organized forum for students to understand the foundations of algorithmic design and analysis in the context of health and biological data. The course will present fundamental concepts in algorithms (exhaustive, greedy, graph, heuristic, and more) and explore how those concepts extend to bioinformatics and related fields, such as biomedical informatics, and health informatics. Students will learn about historical context of these algorithms and how they were pivotal in forming more complex modern approaches, and will explore advanced algorithms in their area of interest. Students will also exercise their programming skills with the opportunity to implement and apply bioinformatics algorithms to real data, so to better grasp the technical components of algorithmic design and analysis. (Cross-listed with BMI 8866).

Prerequisite(s): CSCI 3320 or permission of instructor. Prior completion of CSCI 4850 is strongly recommended but not required.

BIOI 4870 DATABASE SEARCH AND PATTERN DISCOVERY IN BIOINFORMATICS (3 credits)

This required course for undergraduate bioinformatics majors provides foundational knowledge on database aspects used in the field and an overview of their applications in bioinformatics, biomedical informatics, and health/clinical informatics. The course begins with a brief review of key concepts in computational molecular biology related to database search/development, database management systems, the difference between primary and secondary databases, and bioinformatics-related aspects of modeling and theory in computer science. The major focus is on the multiple challenges and aspects of bio-database development, search, and pattern discovery. The course uses problem-based learning to help students develop database management skills as they apply to high throughput "omics" data, the basics of data management, data provenance and governance, standards, and analysis through KDD-based workflows. This course will also consider the fundamentals of artificial intelligence and machine learning as they pertain to bioinformatics, from the perspective of database storage, I/O, and analysis. (Cross-listed with CSCI 8876).

Prerequisite(s): CSCI 4850 or permission of instructor. Not open to non-degree graduate students.

BIOI 4890 COMPUTERIZED GENETIC SEQUENCE ANALYSIS (3 credits)

The goal of this course is to introduce students to major topics in computerized analysis of genetic sequences. In particular the course will allow students to become familiar with the computational tools and software that aid in the modern molecular biology experiments and analysis of experimental results. Following the completion of this course, it is expected that the students will have a basic understanding of the theoretical foundations of the sequence analysis tools and develop competence in evaluating the output from these tools in a biological context. This course will emphasize hands-on experience with the programs for nucleotide and amino acid sequence analysis and molecular phylogeny. (Cross-listed with BMI 8896).

Prerequisite(s): Junior or senior-level standing in the Bioinformatics program or permission from the instructor.

BIOI 4950 SPECIAL TOPICS IN BIOINFORMATICS (3 credits)

This course is intended to provide a mechanism for offering instruction in subject areas that are not covered in other regularly scheduled courses. In general, courses offered under the BIOI 4950 designation will focus on evolving subject areas in bioinformatics.

Prerequisite(s): Prerequisites of a specific offering of BIOI 4950 will be determined by the supervising faculty member and identified in the course proposal. It is anticipated that permission of the faculty member teaching the course will be required for registration.

BIOI 4970 SENIOR PROJECT IN BIOINFORMATICS I (1 credit)

This course is the first part of a two-part series that allows students to work on a guided research project on a specific topic in bioinformatics. The goal of this course is for the student to decide on a research topic and to write a detailed proposal based on this topic that outlines the goals and objectives of the proposed research. The topic and proposal will be approved by the supervising faculty member.

Prerequisite(s): BIOI 4860 and BIOI 4870; BIOI 4870 can be taken concurrently. Senior level status in the Bioinformatics program. Not open to nondegree students.

BIOI 4980 SENIOR PROJECT IN BIOINFORMATICS II (2 credits)

This course is the second part of a two-part series that allows the student to work on a guided research project on a specific topic in bioinformatics. The goal of this course is for the student to perform the research proposed in Part I of the course and to present the results of his or her work. Presentations will be made in the form of a report, written as a scientific research paper, and an oral defense.

Prerequisite(s): Junior or senior-level standing in the Bioinformatics program or permission from the instructor.

Bioinformatics, Bachelor of Science (College of Arts and Sciences)

To obtain a BS in Bioinformatics, a student must fulfill university, college, and departmental requirements. Bioinformatics is an interdisciplinary major and, as such, satisfies the college requirement for breadth. Other hour requirements follow:

- 46 hours of University General Education courses –Most commonly, Bioinformatics majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead, they often do the following:
 - Test out of at least three hours of fundamental academic skills,
 - Take courses that meet both the six hours of diversity requirements and six hours of distribution requirements,
 - Meet the seven-hour natural sciences distribution requirement through completing major courses.
- In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.
- 77-79 hours of major courses
- 0-13 hours of electives

TOTAL HOURS: 120

Double Majors

For a double major in Bioinformatics and Biology or Bioinformatics and Molecular and Biomedical Biology, beyond BIOL 1450, BIOL 1750, BIOL 2140, and BIOL 3020, no other biology courses may count for both majors.

Major and Minors

For a Bioinformatics major and a Biology or Molecular and Biomedical Biology minor, beyond BIOL 1450, BIOL 1750, BIOL 2140, and BIOL 3020, no other biology courses may count for both major and minor.

Requirements

The Bachelor of Science in bioinformatics degree requires a minimum of 120 credit hours for its completion. Required courses are below.

The required courses are:

Code	Title	Credits
Bioinformatics		
BIOI 1000	INTRODUCTION TO BIOINFORMATICS	3
BIOI 2000	FOUNDATIONS OF BIOINFORMATICS	3
BIOI 3000	APPLIED BIOINFORMATICS	3
BIOI 3500	ADVANCED BIOINFORMATICS PROGRAMMING	3
BIOI 4860	BIOINFORMATICS ALGORITHMS	3
BIOI 4870	DATABASE SEARCH AND PATTERN DISCOVERY IN BIOINFORMATICS	3
Biology		
BIOL 1450	BIOLOGY I	5
BIOL 1750	BIOLOGY II	5
BIOL 2140	GENETICS	4
BIOL 3020	MOLECULAR BIOLOGY OF THE CELL	3
BIOL 4130 or BIOL 4140	MOLECULAR GENETICS CELLULAR BIOLOGY	4
BIOL 4560	BIOINFORMATICS INTERNSHIP	1-3
Chemistry ¹		
CHEM 1140 & CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY	5
CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY	5
CHEM 3650 & CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY	4
Computer Science		
CIST 1400	INTRODUCTION TO COMPUTER SCIENCE I	3
CSCI 1620	INTRODUCTION TO COMPUTER SCIENCE II	3
CIST 2500	INTRODUCTION TO APPLIED STATISTICS FOR IS&T	3
CIST 3110	INFORMATION TECHNOLOGY ETHICS	3
CSCI 3320	DATA STRUCTURES	3
Mathematics		
MATH 1950	CALCULUS I	5
MATH 2030 or CSCI 2030	DISCRETE MATHEMATICS MATHEMATICAL FOUNDATIONS OF COMPUTER SCIENCE	3
Total Credits		77-79

¹ Students may substitute the pre-medicine sequence of Chemistry for the fundamentals track of Chemistry outlined in this major.

Freshman

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I (*)	3
BIOI 1000	INTRODUCTION TO BIOINFORMATICS	3
CIST 1300 or CSCI 1200	INTRODUCTION TO WEB DEVELOPMENT (**) or COMPUTER SCIENCE PRINCIPLES	3

*BIOL 4560: Requires BIOL 2140, BIOI 3500, and permission of instructor.

**CIST 3110: Counts as a Humanities/Fine Arts and required major course.

**SS: Must be in a 2nd discipline.

#Students must have a minimum of 120 credits to graduate with no less than 27 credits of 3000/4000 level coursework throughout the entire degree. Electives may be needed to reach these minimums.

Credits **15-17**

Total Credits **120-122**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to complete an undergraduate degree in four years, you need to take an average 30 credit hours each year.

Placement Exams: For Math, English, and Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

****Please note:** Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Biology

The biology degree allows students to explore biological topics that span the breadth of biology. Diverse course offerings enable students to obtain broad expertise or to specialize within the discipline. The biology major prepares students for a wide range of career choices.

Other Information

All coursework taken for the Biology major or minor must be completed with a grade of "C-" or better.

Double Majors

For a double major in **Biology and Molecular and Biomedical Biology**, beyond BIOL 1450, BIOL 1750, BIOL 2140 and BIOL 3020, no other biology courses may count for both majors.

For a double major in **Biology and Bioinformatics**, beyond BIOL 1450, BIOL 1750, BIOL 2140, and BIOL 3020, no other biology courses may count for both majors.

For a double major in **Biology and Environmental Sciences with a Concentration in Life Science**, beyond BIOL 1450, BIOL 1750, BIOL 2140, and BIOL 3340, no other biology courses may count for both majors.

For a double major in **Biology and Psychology or Biology and Neuroscience**, beyond the required fundamentals courses, students cannot use a 3000/4000 level course to count toward both majors.

For a double major in **Biology and Chemistry**, 3000/4000 level courses may count toward both majors. In cases where students are earning **two**

distinct degrees (a BA and BS) with one degree in Biology and the other in Chemistry, 3000/4000 level courses will not count toward both programs.

Majors and Minors

For a major in **Biology and a minor in Psychology**, with the exception of PSYC 3130, students cannot use a 3000/4000 level course to count toward both programs.

For a major in **Neuroscience and a minor in Biology**, students cannot use a 3000/4000 level elective course to count toward both programs.

For a major in **Bioinformatics and a minor in Biology**, students cannot use a 3000/4000 level elective course to count towards both programs.

For a major in **Biology and a minor in Bioinformatics**, students cannot use a 3000/4000 level elective course to count towards both programs.

For a major in **Environmental Science with a Concentration in Life Science and a minor in Biology**, students cannot use a 3000/4000 level elective course to count toward both programs.

For a major in **Biology and a minor in Environmental Science**, students cannot use a 3000/4000 level elective course to count toward both programs.

For a major in **Biology and a minor in Chemistry**, 3000/4000 level courses may count toward both programs.

Students may not earn a **Molecular and Biomedical Biology major and a Biology minor, or a Biology major and a Molecular and Biomedical Biology minor**.

Residency Requirement for Biology Majors

To fulfill degree requirements, 3000/4000 level laboratory courses must be taken at UNO.

Contact

114 Allwine Hall
402.554.2641

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/biology/>)

Degrees Offered

Students may choose to pursue a Bachelor of Arts in Biology or a Bachelor of Science in Biology. Each degree option requires at least 36 credits of biology courses of which 18 credits must be 3000-4000 level courses.

- Biology, Bachelor of Arts (p. 89)
- Biology, Bachelor of Science (p. 92)
- Biology, Bachelor of Science with a Concentration in Education (p. 95)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the biology major, the writing in the discipline requirement can be fulfilled by completing a sequence of approved biology courses at UNO that incorporate discipline-specific writing as part of their requirements. To satisfy the requirement for the writing in the discipline course students must complete BIOL 1450 and BIOL 1750, two courses from BIOL 2140, BIOL 3020 and BIOL 3340 and two additional 3000-4000 level courses that are approved as meeting the writing requirement by the Department of Biology. Only courses taken at UNO and after January 1, 2010 can be applied to this requirement. Students not meeting the writing requirement through this sequence of courses will fulfill the writing requirement by completing BIOL 3150, ENGL 2400, ENGL 3980, or another college-approved advanced writing course.

Minors Offered

- Biology Minor (p. 97)

Biology is the science of life, both present and past, encompassing many areas of specialization. The curriculum provides a foundation across the discipline with opportunities for in-depth training in such specializations as molecular and cell biology, animal and plant biology, genetics, and ecology. The curriculum emphasizes hands-on laboratory and research experiences.

- Laboratory research technician
- Genetic counselor
- Health communications
- Wildlife biologist
- Research scientist
- Technical writer
- Environmental consultant
- Health professions
- Educator

BIOL 1020 PRINCIPLES OF BIOLOGY (4 credits)

Principles of Biology introduces fundamental concepts at all levels of organization in biology. The laboratory emphasizes inquiry-based and problem-oriented approaches to these concepts. Must enroll in one laboratory. Usually offered Fall, Spring, Summer.

Prerequisite(s): ENGL1150 placement by the English Placement and Proficiency Exam (EPPE), grade of C- or better in English 1050 or 1100, ACT English subscore of 20 or higher, or permission of the department.

Distribution: Natural/Physical Sci General Education lecture&lab

BIOL 1060 INTRODUCTION TO MEDICAL CAREERS & ETHICS (2 credits)

A general overview of modern healthcare professions, plus foundational career concepts which include vocational discernment, undergraduate preparation, healthcare ethics, HIPAA certification, challenges and opportunities in healthcare, and evidence-based medicine. An exploration of various careers in healthcare is included. Intended as a preparatory healthcare professional course. Usually offered during the Fall, Spring, and Summer semesters.

BIOL 1160 TERMINOLOGY OF HUMAN HEALTH & DISEASE (2 credits)

This completely online course is designed to help students learn clinical terminology in relation to human health and disease. The course will cover root words, terms, and phrases relating to human anatomy, disease conditions, and clinical procedures. The course will also serve as a survey of human diseases across all major organ systems, and common procedural diagnostics and treatments.

BIOL 1330 ENVIRONMENTAL BIOLOGY (3 credits)

This course is a study of human ecology with emphasis on the effects of human populations on the earth's resources and on the environment. Usually offered Fall, Spring, Summer.

Distribution: Natural/Physical Science General Education course

BIOL 1450 BIOLOGY I (5 credits)

First semester of a two semester series on the general principles of biology. Concepts including the chemical and physical basis of living systems, cell structure and function, energy and metabolism, genetics and molecular genetics, and evolution of biological diversity will be presented. Laboratory will provide inquiries into these same topics. Intended as the first course for Biology majors. Must enroll in one lab section. Usually offered Fall, Spring and Summer.

Prerequisite(s): High school biology and chemistry. College level chemistry recommended.

Distribution: Natural/Physical Sci General Education lecture&lab

BIOL 1750 BIOLOGY II (5 credits)

Second semester of a two semester series on the general principles of biology. Introduction to the study of life, concentrating on whole organisms and their interactions with the environment. This course will focus on evolution and natural selection, biodiversity, physiologic responses to the environment, organ systems, population dynamics, community ecology, and energy and material flow through ecosystems. Laboratory will provide inquiries into these same topics. Intended as the second course for Biology majors. Must enroll in one lab section. Usually offered Fall, Spring and Summer.

Prerequisite(s): Prerequisite is BIOL 1450. College level chemistry is recommended.

BIOL 2030 INTRODUCTORY TOPICS IN BIOLOGY (3 credits)

This is course is a lecture and/or laboratory course for Biology and non-Biology majors pertaining to a specific biological topic not available in the regular curriculum. Topics will be developed by individual faculty members reflecting their special interests and expertise. The course may be repeated for credit if the topic differs.

Prerequisite(s): Instructor permission.

BIOL 2060 ART AND SCIENCE OF MEDICAL DECISION-MAKING (3 credits)

The course explores multiple facets of medical decision-making, including the perspective of the patient, the family, and the healthcare provider. Topics include basic anatomy and medical terminology, which will be used to understand decision-making in the context of the provider. Students use literature and other records to generate and critically evaluate clinical decisions. The course does not satisfy requirements for degree programs in the Department of Biology minor, BA, BS in Biology; BS in Biotechnology. (Cross-listed with MEDH 2060).

Prerequisite(s): BIOL 1060 or concurrent.

BIOL 2140 GENETICS (4 credits)

This course provides students with a foundational understanding of genetics. First, students will learn to analyze patterns of Mendelian inheritance. Then, they will develop molecular explanations for these patterns and understandings of how gene genes are defined and identified. They will also learn how variations in inheritance patterns arise, using analytical and statistical tools to distinguish between variations on inheritance patterns and to analyze quantitative traits. Then, students will focus in on the nucleus to examine the structure, organization, packaging, and inheritance of chromosomes. They will consider the consequences of genetic recombination on inheritance patterns and for genetic mapping.

Prerequisite(s): Prerequisites are BIOL 1450 and 1750, CHEM 1140 or 1180 or the equivalent or permission of the instructor. Must enroll in discussion.

BIOL 2440 THE BIOLOGY OF MICROORGANISMS (4 credits)

An introduction to the structure and properties of different types of microorganisms, the importance of microorganisms to our society and our environment, the methods used to control microorganisms, the diseases caused by microorganisms and the defenses of the human body against microorganisms including immune cells. Must enroll in one lab section. Usually offered in Fall, Spring, Summer.

Prerequisite(s): High school biology and chemistry.

BIOL 2740 HUMAN ANATOMY AND PHYSIOLOGY I (4 credits)

This course is designed for students interested in human healthcare professions and anyone interested in learning about the structures and functioning of the human body. Material covered will include introductory terminology as well as the anatomy and physiology of the integumentary, skeletal, muscular, and nervous systems and the special senses. Usually offered Fall, Summer.

Prerequisite(s): High school or college biology or zoology and high school or college chemistry. Must enroll in one lab section.

BIOL 2840 HUMAN ANATOMY AND PHYSIOLOGY II (4 credits)

This course is designed for students interested in human healthcare professions and anyone interested in learning about the structures and functioning of the human body. Material covered will include the anatomy and physiology of the endocrine, circulatory, lymphatic, respiratory, digestive, urinary, and reproductive systems. Usually offered Spring, Summer.

Prerequisite(s): BIOL 2740 or permission of instructor. Must enroll in one lab section.

BIOL 3020 MOLECULAR BIOLOGY OF THE CELL (3 credits)

A study of molecular and cellular biology. Topics to be covered include gene expression and regulation, structure and function of biological macromolecules, metabolism, membrane function and transport, and cell differentiation. Usually offered Fall, Spring, Summer.

Prerequisite(s): BIOL 2140 and at least one semester of general chemistry.

BIOL 3100 INVERTEBRATE PALEONTOLOGY (3 credits)

An introduction to the development of life through the study of the morphology, evolution and geological distribution of fossils. Must be taken concurrently with GEOL 3104/BIOL 3104. (Cross-listed with GEOL 3100.)

Prerequisite(s): GEOL 1180. Must be taken concurrently with GEOL 3104/BIOL 3104.

BIOL 3150 WRITING AND COMMUNICATION IN THE BIOLOGICAL SCIENCES (3 credits)

This is a course in writing for students majoring in the biological sciences. It is designed primarily to prepare students to report results of original research in a scientific, scholarly format. Topics will include scientific literature, the organization and presentation of data in biological reports, as well as the preparation of posters and oral presentations for scientific meetings. Usually offered Fall, Spring.

Prerequisite(s): Biology major, junior or senior standing, ENGL 1150 and ENGL 1160 or equivalent.

Distribution: Writing in the Discipline Single Course

BIOL 3240 INTRODUCTION TO IMMUNOLOGY (3 credits)

An introduction to the fundamentals of immunology including the immune system, the immune response, humoral and cellular immunity, and antibodies. In addition, immunoassay, immunopathology, cancer immunology, and histocompatibility will be considered. Usually offered Fall and Spring.

Prerequisite(s): Prerequisites are BIOL 1450, 1750 and 2140 and junior-senior standing. Recommended: BIOL 3020. Not open to non-degree graduate students.

BIOL 3340 ECOLOGY (4 credits)

Study of interrelationships between organisms and their biotic and abiotic environment; includes the physical environment, population biology, community dynamics, biotic interactions and evolution. Usually offered Fall, Spring, Summer. (Cross-listed with BIOL 8345).

Prerequisite(s): Prerequisites are BIOL 1450 and BIOL 1750, junior-senior. Must enroll in one lab section. Not open to non-degree graduate students.

BIOL 3500 BIOLOGICAL PRINCIPLES OF AGING (3 credits)

The Biological Bases of Aging Course provides a survey of the primary topics in the biology of aging field for undergraduate students. This a required course for the Gerontology major. By the end of the course, students will understand major theories, biological methods, and seminal research studies in the biology of aging field. Furthermore, students will learn how to critically analyze and interpret primary research about biological aging. This course provides preparation for students considering graduate school in gerontology or biology, geriatric nursing and social work, geriatric medicine, neuroscience, psychology, and exercise science. (Cross-listed with GERO 3500, NEUR 3500)

Prerequisite(s): Sophomore/Junior/Senior Standing. Not open to non-degree graduate students.

BIOL 3530 FLORA OF THE GREAT PLAINS (4 credits)

A study of common vascular plants found in the Great Plains region, including identification, description, and classification techniques and an introduction to the plant communities of Nebraska. Usually offered every Fall and Summer. (Cross-listed with BIOL 8535.)

Prerequisite(s): BIOL 1450, 1750 and junior-senior. Must enroll in lab.

Distribution: OBIOWRT3 - Tier III Biology Writing Course

BIOL 3680 BIOLOGY OF AFRICA (3 credits)

Biology of Africa (3) Introduction to the plants, animals, and habitats of Africa. Although other groups are included, this course will focus on the large mammals of east Africa and will pay particular attention to elephant reproduction and biology. Other topics include Serengeti migrations, hippos, lions and other large cats, reptiles, and human evolution. Usually offered alternate Spring semesters. (Cross-listed with BIOL 8685).

Prerequisite(s): BIOL 1750 or permission of the instructor

BIOL 3690 BIOLOGY OF AFRICA LAB (1 credit)

BIOL 3690/8695 Biology of Africa (1) A Hands-on introduction to the major plants and animals of east Africa using a field trip to South Africa. Students will observe, first hand, examples of the flora and fauna of the African savannah, partake in research on elephant reproductive biology, and observe historic African tribal culture. Students will be required to take a trip to South Africa including Johannesburg, Hoedspruit, Kruger National Park, and Skukuza. Students will be required to register their travel plans through Education Abroad. Usually offered alternate Summer semesters. Students enrolled in this course must have taken BIOL 3680/8685 during the spring semester immediately prior to this class, or have taken it some semester prior. (Cross-listed with BIOL 8695).

Prerequisite(s): Previous or concurrent enrollment in BIOL 3680/BIOL 8685 lecture.

BIOL 3730 FAUNA OF THE GREAT PLAINS (3 credits)

A survey of the common animal groups in the Great Plains Region and field techniques used to study these groups, with an emphasis on ecosystems and representative animals of Nebraska. Must enroll in lab. Usually offered in fall semesters.

Prerequisite(s): BIOL 1450 and BIOL 1750 and junior/senior

BIOL 3800 ANATOMY ACADEMIC ASSISTANTSHIP PRACTICUM (1 credit)

Assistantships for students participating in the Anatomy Academic Assistantship (AAA) program provide advanced Human Physiology and Anatomy students with the opportunity to apply their knowledge while gaining leadership and communication skills via the mentorship of current Human Physiology and Anatomy I and II students. Additionally, STEM service learning activities will be offered. This course is not intended to replace other biology courses required for degrees offered by the Department of Biology.

Prerequisite(s): Students must have a cumulative GPA of 3.0 or above, a grade of B in BIOL 2740, and be accepted to the Anatomy Academic Assistantship (AAA) Practicum. Students must receive permission of instructor. Not open to non-degree graduate students.

BIOL 3830 BIOLOGY OF PATHOGENIC MICROORGANISMS (3 credits)

This course will cover diseases commonly caused by microorganisms and the features of the microorganisms that cause those diseases. The course will also cover terms used to describe infections, their transmission and their occurrence, and the defenses of humans against infections. The goal of the course is to provide students with the knowledge to be able to diagnose common infectious diseases based on symptoms and test results. Usually offered in Spring semesters. (Cross-listed with BIOL 8835).

Prerequisite(s): BIOL 2140 or BIOL 2440 or BIOL 3240 or the equivalent, or by instructor permission. Not open to non-degree graduate students.

BIOL 4030 SPECIAL TOPICS IN BIOLOGY (3 credits)

A lecture and/or laboratory course for biology majors pertaining to a specific biological topic not available in the regular curriculum. Topics will be developed by individual faculty members reflecting their special interests and expertise. The course may be repeated for credit. (Cross-listed with BIOL 8036).

Prerequisite(s): Junior-senior, BIOL 1450 and BIOL 1750 with a grade of C- or higher.

BIOL 4034 SPECIAL TOPICS IN BIOLOGY-LAB (1 credit)

A laboratory course for biology majors pertaining to a specific biological topic not available in the regular curriculum, paired with a BIOL 8036/4030 Special Topics lecture course. Topics will be developed by individual faculty members reflecting their special interests and expertise. The course may be repeated for credit. (Cross-listed with BIOL 8046).

Prerequisite(s): Junior/senior, BIOL 1450 and BIOL 1750 with a grade of C- or higher.

BIOL 4040 DIRECTED READINGS IN BIOLOGY (1-3 credits)

A faculty directed study of a biological subject through selected readings, oral reports and a final written report. May be repeated up to a total of six hours for 4040 and 4050 combined.

Prerequisite(s): Junior-senior and written permission of instructor.

BIOL 4050 SUPERVISED RESEARCH IN BIOLOGY (1-3 credits)

Completion of a faculty supervised research project involving experimental design, data collection and analysis, and a final written report. May be repeated up to a total of six hours of BIOL 4040 and BIOL 4050 combined.

Prerequisite(s): Junior-senior and written permission of instructor.

BIOL 4100 BIOGEOGRAPHY (3 credits)

This course is intended as an introduction to biogeography, the study of the distribution and evolution of organisms across space and through time. Usually offered every year. (Cross-listed with BIOL 8106, GEOG 4100, GEOG 8106, GEOL 4100, GEOL 8106)

Prerequisite(s): BIOL 1450 and 1750 or GEOL 3100 or BIOL 3100, junior-senior.

BIOL 4110 STATISTICS FOR BIOLOGICAL SCIENCES (4 credits)

Introduction to statistical methods and software used to display, summarize, analyze, and interpret biological and medical data. (Cross-listed with BIOL 8116)

Prerequisite(s): BIOL 1450 and BIOL 1750 and MATH 1220, MATH 1130, or MATH 1530

BIOL 4120 CONSERVATION BIOLOGY (3 credits)

Study of biological diversity at the genetic, species and ecosystem levels, its values, and the factors that threaten it. We will explore the scientific basis of conservation biology and how it can be applied to the maintenance of biological diversity. Usually offered every year. (Cross-listed with BIOL 8126).

Prerequisite(s): BIOL 1450, 1750, 2140 and Junior-Senior in biology. Not open to non-degree graduate students.

BIOL 4130 MOLECULAR GENETICS (4 credits)

A lecture and lab course that explores the frontiers of molecular genetics research. Topics addressed will include DNA replication, gene function, gene expression, genetic manipulation, cloning, mutational analysis, genome sequencing, and epigenetics. Research techniques will include DNA/RNA isolation, PCR, cloning, gel electrophoresis, transgene generation, data analysis, and quantitative rtPCR. Students will get a solid grounding in scientific writing and presentations, as well as reading and assessing primary scientific literature. Lecture, discussion, and laboratory. (Cross-listed with BIOL 8136)

Prerequisite(s): BIOL 2140, 3020 and CHEM 2210 or 2260; or their equivalents. Must enroll in one lab section.

BIOL 4140 CELLULAR BIOLOGY (4 credits)

This course is a modern study of mammalian cell function. Focus will be placed on developing skills in experimental cellular biology. Material covered will include tissue culture techniques, cell staining applications, fluorescent microscopy, determination of gene expression, and high-throughput assay design. (Cross-listed with BIOL 8146)

Prerequisite(s): BIOL 2140, 3020 and CHEM 2210 or 2250. Junior or senior undergraduate standing. Must enroll in laboratory section and lecture for this course. Not open to non-degree graduate students.

BIOL 4150 CANCER BIOLOGY (3 credits)

The etiology of cancers, differences between types of malignancies, oncogenes and genetic modifiers, treatments, susceptibility, and tumor-induced immunosuppression are discussed. This is an active course focused on inquiry-based learning and the purpose of this course is to provide students a foundation in cancer biology while applying tools learned through cell biology, genetics, and immunology courses. (Cross-listed with BIOL 8156).

Prerequisite(s): BIOL 3020 and BIOL 2140. Recommended: BIOL 3240.

BIOL 4160 BIOINFORMATICS FOR BIOLOGISTS (3 credits)

This course intends to introduce fundamental concepts in bioinformatics with an emphasis on how to use biological databases and computational tools to solve common bioinformatics problems in biology and biomedicine. The topics consist of sequence database access and searching, sequence alignment and phylogeny, functional prediction of DNA and protein sequences, and genome sequencing and annotation. Students are expected to learn fundamental concepts in bioinformatics and gain extensive experience with the use of bioinformatics analysis tools. (Cross-listed with BIOL 8166).

Prerequisite(s): BIOL 2140 Genetics; BIOL 3020 Molecular Biology of the Cell; Or Permission of instructor

BIOL 4180 FRESHWATER ECOLOGY (4 credits)

A study of the physical, chemical and biological relationships that serve to establish and maintain plant and animal communities in freshwater environments. (Cross-listed with BIOL 8186, ENVN 4180).

Prerequisite(s): BIOL 1450 and BIOL 1750, junior-senior, or permission of instructor. Must enroll in lab. Not open to non-degree graduate students.

BIOL 4210 FIRE ECOLOGY (3 credits)

Study of fire in ecosystems including characteristics of fire, effects on flora, fauna and the abiotic environment, and use in maintaining native ecosystems. May include two weekend field exercises. (Cross-listed with BIOL 8216)

Prerequisite(s): BIOL 3340, junior-senior.

BIOL 4220 POPULATION BIOLOGY (4 credits)

Population biology takes a conceptual approach to study the dynamics, ecology, genetics, and evolution of populations. Topics include the growth and regulation of populations, population interactions, selection on individuals and groups, mating systems, and life history evolution. Implications of these topics for areas such as the ecology and evolution of disease, conservation, and resource management will be highlighted. Concepts are reinforced through labs emphasizing interpretation of results from population simulations and the relationship between theory and experimentation in population biology. Usually offered in alternate years. (Cross-listed with BIOL 8226).

Prerequisite(s): BIOL 2140 and 3340, junior-senior, or permission of instructor

BIOL 4230 EVOLUTION (3 credits)

The course emphasizes the general principles of evolution, particularly focusing on evolutionary changes and the mechanisms of evolution (natural selection, gene flow, mutation and genetic drift) that apply to all or most organisms. The course covers micro- and macroevolution, speciation, and human evolution. Students will discover how scientists can learn about what has happened in the evolutionary past and the most common patterns of change (i.e., changes that have characterized various groups of organisms). (Cross-listed with BIOL 8236).

Prerequisite(s): BIOL 2140, junior-senior. Not open to non-degree graduate students.

BIOL 4240 MARINE BIOLOGY (3 credits)

An introduction to the marine environment, this course explores physical conditions of the ocean including ocean chemistry, salinity, waves and currents, and tides as well as the ecology of planktonic, nektonic and benthic organisms— their communities and environments. Impacts of humans on the marine environment will also be covered. (Cross-listed with BIOL 8246)

Prerequisite(s): BIOL 1750

BIOL 4250 FIELD MARINE BIOLOGY (1 credit)

This lab is a hands-on introduction to the marine environment using a field trip to the Gulf Coast. Students will observe first-hand examples of local marine habitats and organisms. Students will be required to take a trip to the Gulf Coast of Texas, Louisiana, Mississippi, and Alabama during Spring Break. Students will be required to provide their own basic camping and snorkeling gear. (Cross-listed with BIOL 8256)

Prerequisite(s): BIOL 1750, previous or concurrent enrollment in BIOL 4240 and permission of instructor.

BIOL 4260 BEHAVIORAL ECOLOGY (3 credits)

Behavioral ecology is the study of behavior from an evolutionary and ecological point of view. Through the integration of research at different organizational levels and the use of many different organisms, behavioral ecology is one of the most integrative fields in biological sciences. This course will provide an introduction to the basic concepts of behavioral ecology and the integrative approaches used in behavioral ecology. Further, the course will train students in critical reading and discussion of primary literature in writing and in an oral setting. (Cross-listed with BIOL 8266)

Prerequisite(s): For BIOL 4260: BIOL 2140 Genetics and BIOL 3340 Ecology; or permission by the instructor. Not open to non-degree graduate students.

BIOL 4270 ANIMAL BEHAVIOR (3 credits)

Behavior of diverse animals for the understanding of the relationships between nervous integration and the behavior manifested by the organism, as well as the evolution and adaptive significance of behavior as a functional unit. (Cross-listed with BIOL 8276, PSYC 4270, PSYC 8276)

Prerequisite(s): BIOL 1750 and PSYC 1010 or permission of instructor, junior-senior.

BIOL 4280 ANIMAL BEHAVIOR LABORATORY (3 credits)

Laboratory and field studies of animal behavior with an ethological emphasis. Classical laboratory experiences and independent studies will be conducted. (Cross-listed with BIOL 8286, PSYC 4280, PSYC 8286)

Prerequisite(s): PSYC 4270 or BIOL 4270 or PSYC 8276 or BIOL 8273. Not open to non-degree graduate students.

BIOL 4290 NEUROETHOLOGY (3 credits)

In the field of Neuroethology a major goal is to understand the neural bases of animal behaviors in a natural context. In this course students will investigate how behaviors are generated and modulated by the nervous system in organisms ranging from insects to mammals. We will explore the neural mechanisms underlying a variety of animal behaviors as they interact with their natural environment ranging from sensory perception of the world (e.g. echolocation, electrolocation), to locomotor movements (e.g. flying, swimming), to more complex behaviors (e.g. learning, memory). (Cross-listed with NEUR 4290, NEUR 8296, BIOL 8296, PSYC 8296).

Prerequisite(s): NEUR 1520, NEUR 1540 and BIOL 1750; or by permission of instructor. Not open to non-degree graduate students.

BIOL 4320 HORMONES & BEHAVIOR (3 credits)

In this course, students will examine the interaction between hormones, chemical messengers released from endocrine glands, and behavior in both human and animal systems. Methods for studying hormonal issues on behavior will be addressed. This course will provide students in psychology, biology, and related disciplines an understanding of how hormones affect sensory processing, motor activities, and processing of information in the central nervous system. (Cross-listed with BIOL 8326, PSYC 4320, PSYC 8326)

Prerequisite(s): PSYC 1010 and either BIOL 1020 or 1750. Not open to non-degree graduate students.

BIOL 4410 WETLAND ECOLOGY AND MANAGEMENT (3 credits)

This course will examine the principles and theory of wetland ecology with application towards wetland management and regulation. An interdisciplinary overview of physical, biological and regulatory aspects of wetlands will allow students to synthesize information from their backgrounds in geography, geology and ecology. Definitions, classifications, natural processes and functions of wetland environments will be presented. Labs concentrate on field techniques used to assess specific plant, animal, soil, and hydrological characteristics of wetlands. (Cross-listed with ENVN 4410 and BIOL 8416)

Prerequisite(s): BIOL 3340 or instructor permission.

BIOL 4420 RESTORATION ECOLOGY (3 credits)

Restoration Ecology examines how people assist with the recovery of ecosystems that have been degraded. The course will examine the theory and application of restoration ecology through lecture, discussion, field trips, and development of a restoration management plan for a degraded ecosystem near Omaha. The course will provide information and resources used by restoration and land management professionals to plan, implement, and manage restorations. (Cross-listed with BIOL 8426, ENVN 4420)

Prerequisite(s): Junior or Senior standing.

BIOL 4440 PLANT PHYSIOLOGY (4 credits)

A study of plant processes and functions with emphasis on photosynthesis, growth and development, metabolism and mineral nutrition. (Cross-listed with BIOL 8446)

Prerequisite(s): BIOL1450, BIOL1750, and CHEM2210 or CHEM2250; or permission of instructor.

BIOL 4450 VIROLOGY (3 credits)

A comprehensive course about viruses. The course will address principles of viral infection, virus-host interaction, viral evolution and viral disease processes. Cellular and molecular aspects of viral infection will be the primary focus. This will include examination of viral particles, viral multiplication cycles, regulation of gene expression, viral assembly and viral escape. Viral immunology, viral defenses, viral vaccines and antiviral compounds will also be addressed. Emerging viruses and current viral topics will be a major part of the course. Usually offered in Fall semester. (Cross-listed with BIOL 8456)

Prerequisite(s): Prerequisites are CHEM 2260 and 2274 or CHEM 2210 and 2214, BIOL 3020 and 2140. Recommended: Biochemistry.

BIOL 4454 VIROLOGY LABORATORY (1 credit)

A laboratory to accompany virology lecture. This course enables students to work with viruses in the laboratory and to conduct experiments using viral systems. Experimental design, data gathering, data analysis and manuscript writing will be integral parts of the course. The experiments include host cell characterization, viral infection, virus purification from infected cells, viral genome isolation and viral transfection. Sequence analysis and sequence comparison will also be introduced. Laboratory exercises will emphasize fundamental molecular biology techniques and instrumentation. Usually offered in Fall semester. (Cross-listed with BIOL 8454)

Prerequisite(s): Biology 4450 - Virology is a prerequisite or co-requisite.

BIOL 4460 COMPARATIVE IMMUNOLOGY (4 credits)

This course is an exploration of comparative immunology across kingdoms. There will be a strong focus on human as well as mouse immunology. Laboratory sessions require dissections to determine lymphoid anatomy of representative organisms. Samples will be prepared and analyzed using immunological techniques such as flow cytometry. (Cross-listed with BIOL 8466).

Prerequisite(s): BIOL 3240 or consent of the instructor. Two classroom sessions and one laboratory session per week. Permit code required to register. Not open to non-degree graduate students.

BIOL 4490 MEDICINAL USES OF PLANTS (3 credits)

A scientific study of the biochemical properties and physiological effects of medicinal plants, including their historical uses, current applications to varying systems of the human body, and pathways by which today's potent drugs have transitioned from wild flora. Usually offered Fall semesters of even-numbered years. (Cross-listed with BIOL 8496)

Prerequisite(s): BIOL 1450, 1750 and junior-senior.

BIOL 4540 PRINCIPLES OF SYSTEMATICS (3 credits)

A thorough study of phylogenetics, including tree inference techniques, proper interpretation of evolutionary relationships and character evolution, and applications to investigations in various fields of study. Usually offered in fall semesters of odd-numbered years.

Prerequisite(s): BIOL 1450 and 1750, junior-senior.

BIOL 4550 MOLECULAR AND BIOMEDICAL BIOLOGY INTERNSHIP (3 credits)

Practical laboratory experience for students in the bachelor's of science program in Molecular and Biomedical Biology. In consultation with the MBB adviser and principal investigators, students will select a research laboratory where they will carry out an independent investigation for one semester. Most placements will be at UNMC or UNO. Recommended: Biochemistry. Usually offered Fall, Spring, Summer.

Prerequisite(s): Prerequisite of at least one 4000 level BIOL laboratory course.

BIOL 4560 BIOINFORMATICS INTERNSHIP (1-3 credits)

This course is a practical experience for students in the Bachelor of Science program in Bioinformatics. In consultation with the bioinformatics adviser and principal investigators, students will select a research laboratory and conduct an independent research project in bioinformatics for one or two semesters. Students will write a report describing their research methods, project implementation, and results. The course is limited to Bioinformatics majors and does not satisfy any requirements for other programs in the Department of Biology.

Prerequisite(s): BIOL 2140 Genetics, BIOI 3500 Advanced Bioinformatics Programming, and Permission of Instructor. The course is for students in the Bachelor of Science program in Bioinformatics. Not open to non-degree graduate students.

BIOL 4600 GIS APPLICATIONS FOR ENVIRONMENTAL SCIENCE (1 credit)

This course introduces the use of geographic information systems (GIS) and other geospatial tools for work in the fields of environmental science, ecology, and natural resource management. The course will develop a working knowledge of the common software and hardware tools used by ecologists through hands-on projects. (Cross-listed with BIOL 8606, ENVN 4600)

Prerequisite(s): BIOL 3340 or permission of instructor.

BIOL 4610 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)

An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. Cross-listed with ENVN 4610, GEOG 4610, GEOG 8616, GEOL 4610, GEOL 8616.

Prerequisite(s): Permission of instructor.

BIOL 4640 MOLECULAR MICROBIOLOGY (3 credits)

This course will cover the diversity observed in genomes, molecules, structures, metabolism, and regulation observed in microorganisms with a focus on bacteria and Archaea. Usually offered Fall semesters. (Cross-listed with BIOL 8646).

Prerequisite(s): Prerequisites are BIOL 2140 and BIOL 3020 or equivalents. Not open to non-degree graduate students.

BIOL 4644 MOLECULAR MICROBIOLOGY LAB (1 credit)

This course will train students to perform techniques commonly used in microbiology labs, such as isolation of bacteria, staining of bacterial cells, use of different media, antibiotic susceptibility tests, polymerase chain reactions, and enzymatic assays. (Cross-listed with BIOL 8645).

Prerequisite(s): Prerequisites of BIOL 2140 and BIOL 3020 and either BIOL 3830/8835 or BIOL 4640/8646 prior or concurrent.

BIOL 4650 BIOCHEMISTRY I (3 credits)

A comprehensive introduction to biochemistry emphasizing: structure-function relationships for proteins, carbohydrates, lipids, and nucleic acids; protein purification; enzyme kinetics and mechanisms; membranes and membrane transport; carbohydrate metabolism including glycolysis, the citric acid cycle and oxidative phosphorylation; and important applications of thermodynamics and the properties of water to living systems. (Fall) (Cross-listed with BIOL 8656, CHEM 4650, CHEM 8656).

Prerequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. BIOL 4654 must be taken concurrently.

BIOL 4654 BIOCHEMISTRY I LABORATORY (1 credit)

A laboratory course to help integrate the concepts learned in biochemistry lecture with the development of biochemical laboratory skills including experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on protein properties, including enzyme activity. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Fall) (Cross-listed with BIOL 8654, CHEM 4654, CHEM 8654).

Prerequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. BIOL 4650 must be taken concurrently with BIOL 4654. CHEM 4650 must be taken concurrently with CHEM 4654.

Distribution: Writing in the Discipline Sequenced Course

BIOL 4660 BIOCHEMISTRY II (3 credits)

A continuation of the study of the structure and function of biomolecules and biochemical reactions with an emphasis on metabolism of carbohydrates, lipids, amino acids and nucleotides, and the chemistry of signal transduction and genetic information transfer. (Spring) (Cross-listed with BIOL 8666, CHEM 4660, CHEM 8666).

Prerequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654. BIOL 4664 must be taken concurrently.

BIOL 4664 BIOCHEMISTRY II LABORATORY (1 credit)

A laboratory course to help integrate the concepts learned in Biochemistry II lecture with the development of biochemical laboratory skills, to gain practical experience in experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on nucleic acid properties. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring) (Cross-listed with BIOL 8664, CHEM 4664, CHEM 8664).

Prerequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654 with a C- or better. BIOL 4660 must be taken concurrently with BIOL 4664. CHEM 4660 must be taken concurrently with CHEM 4664.

Distribution: Writing in the Discipline Sequenced Course

BIOL 4710 TOXICOLOGY (3 credits)

An overview of the fundamentals of toxicology. Concepts include the dose-response relationship, absorption, distribution and excretion of toxicants, and the biotransformation of xenobiotics. Emphasis will be given to metals, pesticides, pharmaceutical compounds, chemical carcinogenesis and endocrine disruption. Usually offered Fall. (Cross-listed with BIOL 8716)

Prerequisite(s): CHEM 2210 or 2260 and BIOL 1750, BIOL 3020 or equivalent.

BIOL 4730 VERTEBRATE ENDOCRINOLOGY (4 credits)

An overview of the fundamentals of vertebrate endocrinology. Concepts include: the mammalian hypothalamus-pituitary system, the endocrinology of mammalian reproduction, the mammalian adrenal glands, endocrine disruption, endocrinology and metabolism. (Cross-listed with BIOL 8736)

Prerequisite(s): CHEM 2250, BIOL 1750, BIOL 3020 or equivalent. Not open to non-degree graduate students.

BIOL 4740 ANIMAL PHYSIOLOGY (3 credits)

An overview of the fundamentals of animal physiology. Concepts include: the physiology of nerve and muscle function, endocrine function, cardiovascular and respiratory function, oxygen and carbon dioxide delivery by the blood, and osmoregulation and excretion. The course is comparative in nature, including examples from humans, mammals, vertebrates and invertebrate animals. Usually offered Spring. (Cross-listed with BIOL 8746).

Prerequisite(s): BIOL 1450, BIOL 1750, and BIOL 2140 or permission of the instructor.

BIOL 4760 GENOME TECHNOLOGY AND ANALYSIS (3 credits)

This course will introduce the latest genome sequencing technologies and their broad applications in biology and medicine. Students will learn how genome sequencing is conducted by different platforms and obtain practical experience of how to use bioinformatics tools for genome analysis. Students are expected to be able to perform sequence analysis efficiently and interpret the results properly. (Cross-listed with BIOL 8766)

Prerequisite(s): BIOL2140 Genetics; or Permission of instructor

BIOL 4780 VERTEBRATE ZOOLOGY (4 credits)

A study of the general biology of the subphylum vertebrata including the morphology, anatomy, physiology and ecology of vertebrate representatives. (Cross-listed with BIOL 8786)

Prerequisite(s): Prerequisites are BIOL 1450, BIOL 1750, and junior-senior.

BIOL 4790 MAMMALOLOGY (4 credits)

The biology of mammals, including their evolution, functional morphology, physiology, ecology, zoogeography, behavior, classification and identification, with emphasis on North American groups. Field trips. Usually offered in alternate years. (Cross-listed with BIOL 8796)

Prerequisite(s): BIOL 1450, BIOL 1750, junior or senior standing. Must enroll in lab.

BIOL 4800 INTERNSHIP IN ENVIRONMENTAL MANAGEMENT AND PLANNING (1-3 credits)

Internship providing practical experience working with environmental organizations or government agencies for students interested in careers in environmental science and related fields. A proposed internship must be approved by the Environmental Studies Program prior to enrolling. Usually offered Fall, Spring, Summer. (Cross-listed with ENVN 4800)

Prerequisite(s): Permission of the Environmental Studies Program.

BIOL 4810 BEHAVIORAL GENETICS (4 credits)

This lecture and laboratory course will explore the interaction between behavior and genetics. Topics addressed will include research systems used in behavioral genetics research, ways of studying animal behavior, gene function, gene expression, genetic manipulation, genome sequencing, and bioinformatics. Research techniques will include behavioral observations, cognition assays, and traditional and cutting edge genetics research techniques and analyses (DNA/RNA isolation, PCR, gel electrophoresis, transgene generation, quantitative PCR, next generation sequencing). Students will design, conduct, analyze, and present semi-independent research projects over the course of the semester. (Cross-listed with NEUR 4810).

Prerequisite(s): BIOL 2140

BIOL 4820 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)

An introduction to environmental law and regulations intended for students pursuing careers in environmental sciences or related fields. The course emphasizes the origins, implementation, and enforcement of U.S. state and federal laws and regulations. Major federal environmental laws, covering air and water quality, solid and hazardous waste, pollution prevention and remediation, and natural resources will be discussed. Usually offered Fall semesters. (Cross-listed with ENVN 8826, ENVN 4820, GEOG 4820, GEOG 8826, PA 8826).

Prerequisite(s): Junior-senior or permission of the instructor.

BIOL 4830 DEVELOPMENTAL GENETICS (2 credits)

This course considers experimental approaches in developmental genetics and provides students with first-hand experience in laboratory techniques used in developmental genetics. (Cross-listed with BIOL 8836)

Prerequisite(s): Completion of, or concurrent registration in, BIOL 4850.

BIOL 4840 HERPETOLOGY (4 credits)

The biology of amphibians and reptiles, including their evolution, classification, anatomy, physiology, ecology, distribution and identification, with emphasis on North American groups. Methods for studying herptiles are examined. Usually offered in Spring semesters of even years. (Cross-listed with BIOL 8846).

Prerequisite(s): Prerequisites are BIOL 1450 and BIOL 1750. Must enroll in lab. Not open to non-degree graduate students.

BIOL 4850 DEVELOPMENTAL BIOLOGY (3 credits)

This course explores principles underlying the development of multicellular organisms, stressing the environmental, genetic, molecular, cellular, tissue, and evolutionary mechanisms of animal development. Usually offered once per year. (Cross-listed with BIOL 8856)

Prerequisite(s): Prerequisites are BIOL 1450, 1750, 2140, 3020, and CHEM 3650 or BIOL 4650 or CHEM 4650 and junior-senior status.

BIOL 4860 COMPARATIVE GENOMICS (3 credits)

This course will introduce fundamental concepts in genomics and genome comparison. Students will learn how genomes are constructed, how they evolve, how individual genomes are unique, and what genomic knowledge means in terms of human health and medicine. (Cross-listed with BIOL 8866)

Prerequisite(s): BIOL2140 Genetics; BIOL3020 Molecular Biology of the Cell; Or Permission of instructor. Not open to nondegree students.

BIOL 4870 MOLECULAR AND CELLULAR NEUROBIOLOGY (3 credits)

This course presents foundational topics in molecular and cellular neurobiology in the context of how the nervous system is functionally organized. Topics include: nervous system cell types and their subcellular organization; electrical properties of neurons and glia; energy metabolism and biochemistry of the brain; intra- and intercellular neuronal signaling; the regulation of gene expression in neuronal cells; synaptic plasticity; and how these are altered in disease. (Cross-listed with BIOL 8876, NEUR 4870, NEUR 8876).

Prerequisite(s): NEUR 1500, or both NEUR 1520 and NEUR 1540, or BIOL 3020, or permission of instructor.

BIOL 4890 GENES, BRAIN, AND BEHAVIOR (3 credits)

This course will evaluate the complex interaction between an organism's genome and neural activity pattern in the nervous system as related to behavior. In this course students will explore how changes in gene expression (allelic variants, epigenetics, differential regulation) and gene networks within neural tissue can reciprocally influence behaviors such as communication, foraging, reproduction, and cognition. (Cross-listed with NEUR 4890, NEUR 8896, BIOL 8896, PSYC 8896).

Prerequisite(s): NEUR 1520, NEUR 1540, and BIOL 2140. Or by permission of instructor. Not open to non-degree graduate students.

BIOL 4940 ENTOMOLOGY (4 credits)

The study of insects; their classification, morphology, physiology, behavior, life histories, ecology and evolution. (Cross-listed with BIOL 8946)

Prerequisite(s): BIOL 1450, BIOL 1750. Junior or Senior standing.

BIOL 4960 ADVANCED GENETICS (3 credits)

An in-depth consideration of topics in genetic analysis. Through reading and discussion of primary and secondary literature in genetics, students will develop a deeper understanding of genetic principles, including mutation, recombination, complementation, gene regulation, the genetic structure of populations and the genetic contributions to complex traits, and how these principles and associated methodologies, including next-generation sequencing and high throughput "omics" approaches, can be used to gain insight into fundamental biological questions. (Cross-listed with BIOL 8966).

Prerequisite(s): BIOL 2140 and BIOL 3020 and concurrent enrollment or completion of either CHEM 3650 or CHEM 4610 or CHEM 4650 or BIOL 4650, or permission of the instructor.

BIOL 4970 ADVANCED BOTANY (4 credits)

Advanced Botany examines plant structures (cells, tissues, and organs) and their connections with plant functions (growth, reproduction, photosynthesis, respiration, and dispersal). Topics covered include energy metabolism, development and morphogenesis, genetics, ecology, and the latest in plant taxonomy and phylogeny, keeping students on the forefront of cutting-edge botanical research. In lab, students conduct activities such as dissecting plant organs, making microscope slides, and conducting plant-based experiments, using plants from the local area, from native Great Plains collections, and from around the world and grown in the greenhouse. Students compare and contrast both physiological and morphological adaptations to varying environments. (Cross-listed with BIOL 8976, ENVN 4970).

Prerequisite(s): BIOL 1750 and junior or senior student status or above or instructor permission.

BIOL 4980 ORNITHOLOGY (4 credits)

An introduction to the general biology of birds, including their anatomy, physiology, behavior, ecology, classification and identification, with emphasis on North American groups. Usually offered in alternate years. (Cross-listed with BIOL 8986)

Prerequisite(s): BIOL 1750.

Distribution: OBIOWRT3 - Tier III Biology Writing Course

Biology, Bachelor of Arts

To obtain a BA with a major in Biology, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses—most commonly, Biology majors do not complete 46 hours of coursework exclusively to meet university General Education requirements, but may reduce this number, possibly to 25 hours or fewer, in following ways:
 - Test out of at least 3 hours of fundamental academic skills,
 - Take 6 hours of coursework that meets both the 6 hours of diversity requirements and six hours of distribution requirements,
 - Apply up to 5 hours of foreign language coursework toward meeting the 9-hour General Education humanities requirement,
 - Meet the 7-hour University General Education natural sciences distribution requirement through completing major courses.
- 16 hours foreign language requirement (Four years of a single language in high school or four college semesters will satisfy this requirement.)
- 12 hours college breadth requirement
- 51 hours of major courses
- Elective hours as required to reach a total of 120 hours

TOTAL HOURS: 120

Requirements

Code	Title	Credits
Biology Requirements		
BIOL 1450	BIOLOGY I	5
BIOL 1750	BIOLOGY II	5
BIOL 2140	GENETICS	4
BIOL 3340	ECOLOGY	4
The remaining 18 elective credits in biology should be chosen in consultation with a Biology advisor and must include at least 14 credits from BIOL 3000-4000 level courses, including at least one lab course (in addition to BIOL 3340). Up to three credits of BIOL 4030, up to three credits of either BIOL 4050 or BIOL 4800 and one credit of BIOL 4040 can be included. BIOL 3150 may not be used to satisfy the requirement for 3000-4000 level biology credits. Courses at the 1000-2000 level are restricted to:		18
BIOL 2440	THE BIOLOGY OF MICROORGANISMS	
BIOL 2740	HUMAN ANATOMY AND PHYSIOLOGY I	
BIOL 2840	HUMAN ANATOMY AND PHYSIOLOGY II	
Requirements in Chemistry		
Select one of the following required chemistry sequences:		14-16
Sequence 1:		
CHEM 1140 & CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY	
CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY	
CHEM 3650 & CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY	
Sequence 2:		
CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	
CHEM 1190 & CHEM 1194	GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY	
CHEM 2250	ORGANIC CHEMISTRY I	
CHEM 2260	ORGANIC CHEMISTRY II	
CHEM 2274	ORGANIC CHEMISTRY LABORATORY	

Sequence 3:	
CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY
CHEM 1190 & CHEM 1194	GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY
CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY
CHEM 3650 & CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY

Cognate Requirements in Physics

Select one of the following: 5-10

Option 1:

PHYS 1050 & PHYS 1054	INTRODUCTION TO PHYSICS and INTRODUCTION TO PHYSICS LABORATORY
-----------------------	--

Option 2:

PHYS 1110 & PHYS 1154	GENERAL PHYSICS I and GENERAL PHYSICS LABORATORY I
PHYS 1120 & PHYS 1164	GENERAL PHYSICS II and GENERAL PHYSICS LABORATORY II

Option 3:

PHYS 2110 & PHYS 1154	GENERAL PHYSICS I - CALCULUS LEVEL and GENERAL PHYSICS LABORATORY I
PHYS 2120 & PHYS 1164	GENERAL PHYSICS-CALCULUS LEVEL and GENERAL PHYSICS LABORATORY II

Math and Statistics

One approved math or computer science course from the following options: MATH 1220, 1300, 1320, 1330, 1340, 1930, 1940, 1950; CSCI 1200, 1620; CIST 1400; BIOL 4110 3-5

One approved course in statistics from the following options: BIOL 4110, STAT 3000, PSYC 3130, SOC 2130 3-4

BIOL 4110 may fulfill a math, statistics, or upper-level biology requirement, but may not fulfill more than one of these.

Total Credits 61-71

For a BA degree, the College of Arts and Sciences requires completion of a foreign language through the intermediate level.

Freshman

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I (*)	3
CMST 1110 or CMST 2120	PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE	3
MATH 1220 or MATH 1300	COLLEGE ALGEBRA (**) or COLLEGE ALGEBRA WITH SUPPORT	3-4
BIOL 1450	BIOLOGY I (***)	5

*ENGL 1150: requires placement via EPPE, ACT, or AP.

**MATH 1220: requires appropriate placement. Higher levels of Math may substitute. Please see your advisor for options.

***BIOL 1450: counts as a Natural & Physical Science Lecture and Lab course as well as a major requirement.

Spring		Credits
ENGL 1160	ENGLISH COMPOSITION II (*)	3

PHYS 1050 & PHYS 1054	INTRODUCTION TO PHYSICS and INTRODUCTION TO PHYSICS LABORATORY (**)	5
BIOL 1750	BIOLOGY II	5
Humanities and Fine Arts		3

*ENGL 1160: requires ENGL 1150 with grade of C- or higher or placement via EPPE or AP.

**There are other options for this major requirement – make sure you talk with an advisor before planning to take this class. Alternatively, students may take PHYS 1110 & PHYS 1154 followed by PHYS 1120 & PHYS 1164. This class also satisfies the 2nd Natural and Physical Science General Education requirement.

Credits **16**

Sophomore

Fall

CHEM 1140 & CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY (*)	5
--------------------------	---	---

Foreign Language 1110** 5

Humanities and Fine Arts 3

Social Science with US Diversity 3

*CHEM 1140: Requires MATH 1220 (or MATH 1300) or higher. ACT, SAT, AP or Math Placement Exam scores may substitute for the Math prereq to Chemistry 1140. Concurrent enrollment in CHEM 1144 required. There are other chemistry sequence options to complete this requirement—consult with an advisor before planning to take this class.

**Level 1110 foreign language courses count as a Humanity/ Fine Arts course, Global Diversity, and toward the student's BA requirement. If student is fulfilling the BA requirement via alternative methods, then 16 additional credits including a HFA and Global Diversity will need to be factored in to this degree plan.

Credits **16**

Spring

CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY (*)	5
--------------------------	---	---

BIOL 2140 GENETICS (**) 4

Foreign Language course 1120 5

*CHEM 2210: requires CHEM 1140 & CHEM 1144 or CHEM 1190 & CHEM 1194, either of which must be earned with a C- or better. CHEM 2214 to be taken concurrently. Please refer to your advisor or the catalog for other Chemistry options.

**BIOL 2140: requires BIOL 1450 and 1750, as well as CHEM 1140 or 1180.

Credits **14**

Junior

Fall

CHEM 3650 & CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY (*)	4
--------------------------	--	---

BIOL 3340 ECOLOGY (**) 4

Foreign Language Course 2110 3

Elective(***) 3

*CHEM 3650: requires CHEM 2210 & CHEM 2214 or CHEM 2260 & CHEM 2274, either of which must be earned with a grade of C- or better. CHEM 3654 to be taken concurrently. Please refer to your advisor and the catalog for other Chemistry options.

**BIOL 3340: requires BIOL 1450 and 1750; junior-senior standing or graduate student.

***A minimum of 27 upper-level credits is required in the overall degree, with at least 18 upper-level credits within the major. Depending on options selected throughout degree, upper-level electives may be needed in order to reach this minimum credit requirement.

Credits **14**

Spring

Lower or Upper-Level BIOL Elective* 3-4

Upper-Level BIOL Elective no Lab* 3

Statistics Course** 3

Foreign Language 2120 3

Social Science 3

*BIOL Electives- Lower-level options can include only one from: BIOL 2440, BIOL 2740, or BIOL 2840. Upper-level options cannot include BIOL 3150. For upper-level BIOL elective options and restrictions, please refer to the Catalog or curriculum guide from the Biology advisors.

**Approved Statistics Courses: BIOL 4110, STAT 3000, PSYC 3130, SOC 2130. Placement is required.

Credits **15-16**

Senior

Fall

Upper-Level BIOL Elective with Lab* 4

Upper-Level BIOL Elective no Lab* 3

Social Science Course** 3

Additional Humanities/Fine Arts Course for A&S or Course towards Minor/2nd Major*** 3

HIST 1000 or Minor/2nd Major Course# 3

*Upper-Level BIOL Electives cannot include BIOL 3150. See Catalog or curriculum guide from Biology advisors for upper-level biology course list and restrictions.

**Social Science course must be in a 2nd discipline

***A&S College Requirement Options. Additional HFA course must be in a 3rd discipline.

#A&S College Requirement Options.

Credits **16**

Spring

Upper-Level BIOL Elective no Lab (*) w 3

Additional Social Science Course for A&S or Course towards Minor/2nd Major** 3

HIST 1010 or Minor/2nd Major Course*** 3

Elective (#) 3

*Upper-Level BIOL Electives cannot include BIOL 3150. See Catalog or curriculum guide from Biology advisors for upper-level biology course list and restrictions.

*w Meets Advanced Writing requirement: see curriculum guide from Biology advisors for list of writing-approved courses.

**A&S College Requirement Options. Additional Social Science course must be in a 3rd discipline.

***A&S College Requirement Options.

#Students must have at least 120 total credits with at least 27 upper-level credits throughout their A&S degree. A minimum of 18 upper-level credits is required within their major. Depending on options selected throughout degree, upper-level electives may be needed in order to reach this minimum credit requirement.

Credits	15
Total Credits	120-122

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Biology, Bachelor of Science

To obtain a BS with a major in Biology, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses—most commonly, Biology majors do not complete 46 hours of coursework exclusively to meet University General Education requirements, but may reduce this number, possibly to 30 hours or fewer, in following ways:
 - Test out of at least 3 hours of fundamental academic skills,
 - Complete 6 hours of coursework satisfying both the 6 hours of diversity requirements and 6 hours of distribution requirements,
 - Meet the 7-hour University General Education natural sciences distribution requirement through completing major courses.
- 12 hours college breadth requirement
- 51 hours of major courses
- Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements

A total of at least 36 Biology credits is required. At least 18 of those 36 credits must come from upper-division biology courses (3000-4000 level).

Code	Title	Credits
Required Courses in Biology Core		
BIOL 1450	BIOLOGY I	5
BIOL 1750	BIOLOGY II	5
BIOL 2140	GENETICS	4
BIOL 3020	MOLECULAR BIOLOGY OF THE CELL	3
BIOL 3340	ECOLOGY	4

Advanced Themes in Biology

Select one course from Group I and at least three courses from Group II (see below) to obtain at least 12 credits of advanced study beyond the Biology Core. Two advanced courses must have approved laboratories.

Cognate Requirements in Chemistry

Select one of the following required chemistry sequences: 14-16

Sequence 1:	
CHEM 1140 & CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY
CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY
CHEM 3650 & CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY
Sequence 2:	
CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY
CHEM 1190 & CHEM 1194	GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY
CHEM 2250	ORGANIC CHEMISTRY I
CHEM 2260	ORGANIC CHEMISTRY II
CHEM 2274	ORGANIC CHEMISTRY LABORATORY
Sequence 3:	
CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY
CHEM 1190 & CHEM 1194	GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY
CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY
CHEM 3650 & CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY

Cognate Requirements in Physics

Select one of the following required physics sequences: 5-10

Sequence 1:	
PHYS 1050 & PHYS 1054	INTRODUCTION TO PHYSICS and INTRODUCTION TO PHYSICS LABORATORY
Sequence 2:	
PHYS 1110 & PHYS 1154	GENERAL PHYSICS I and GENERAL PHYSICS LABORATORY I
PHYS 1120 & PHYS 1164	GENERAL PHYSICS II and GENERAL PHYSICS LABORATORY II
Sequence 3:	
PHYS 2110 & PHYS 1154	GENERAL PHYSICS I - CALCULUS LEVEL and GENERAL PHYSICS LABORATORY I
PHYS 2120 & PHYS 1164	GENERAL PHYSICS-CALCULUS LEVEL and GENERAL PHYSICS LABORATORY II

Math and Statistics

Two approved courses in math or computer science from the list of options: 6

MATH 1220, MATH 1300 or MATH 1320, 1330, 1340, 1930, 1940, 1950; CSCI 1200, 1620; CIST 1400; BIOL 4110.

BIOL 4110 may fulfill a math, statistics, or upper-level biology requirement, but may not fulfill more than one of these.

One approved course in statistics from the following options: 3
BIOL 4110, STAT 3000, PSYC 3130, SOC 2130

Total Credits 61-68

Group I

Code	Title	Credits
Structure and Function of Multicellular Systems		
BIOL 3240	INTRODUCTION TO IMMUNOLOGY	3

**Physics Course options – Sequence I: No course. Sequence II: PHYS 1120 and 1164.	
***A&S College Requirement Options. Additional HFA Must be in a 3rd discipline.	
#A minimum of 27 upper-level credits is required in the overall degree, with at least 18 upper-level credits within the major. Depending on options selected throughout degree, upper-level electives may be needed in order to reach this minimum credit requirement.	
Credits	12-17
Total Credits	112-123

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: An undergraduate degree from UNO requires a minimum 120 credit hours, and completion of 30 credit hours per year, on average, is needed to finish in four years. Please review the requirements specific to your program.

Placement Exams: For Math, English, and Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

Please note: **Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Biology, Bachelor of Science with a Concentration in Education

To obtain a BS with a major in Biology with a concentration in Education, a student must fulfill university, College of Arts & Sciences, College of Education, Health and Human Sciences, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses—most commonly, Biology majors do not complete 46 hours of coursework exclusively to meet University General Education requirements, but may reduce this number, possibly to 30 hours or fewer, in following ways:
 - Test out of at least 3 hours of fundamental academic skills,
 - Complete 6 hours of coursework satisfying both the 6 hours of diversity requirements and 6 hours of distribution requirements,
 - Meet the 7-hour University General Education natural sciences distribution requirement through completing major courses.
- 66 major hours
- Elective hours won't be needed. Total will be 132-133, more than the 120 credit minimum.

TOTAL CAS HOURS: 93-94

TOTAL CEHHS HOURS: 39

Requirements

A Bachelor of Science in Biology with a Concentration in Education requires a minimum of 37 credits of coursework in Biology. At least 18 Biology credits must be at the 3000 or 4000 level.

A minimum of 42 credits in the College of Education, Health, and Human Sciences are required for the Concentration and state aligned certification requirements.

Code	Title	Credits
Required Core Courses:		
BIOL 1450	BIOLOGY I	5
BIOL 1750	BIOLOGY II	5
BIOL 2140	GENETICS	4
BIOL 2740	HUMAN ANATOMY AND PHYSIOLOGY I	4
BIOL 3020	MOLECULAR BIOLOGY OF THE CELL	3
BIOL 3240	INTRODUCTION TO IMMUNOLOGY	3
BIOL 3340	ECOLOGY	4
BIOL 3830	BIOLOGY OF PATHOGENIC MICROORGANISMS	3
BIOL 4230	EVOLUTION	3

Code	Title	Credits
Advanced Themes in Biology		
Students must take at least one course, together with the associated laboratory, from one of the following groups to obtain at least 3 credits of advanced study beyond the Biology Core:		

Group I

Cellular and Molecular Biology		
BIOL 4130	MOLECULAR GENETICS	4
BIOL 4140	CELLULAR BIOLOGY	4
BIOL 4450 & BIOL 4454	VIROLOGY and VIROLOGY LABORATORY	4
BIOL 4640 & BIOL 4644	MOLECULAR MICROBIOLOGY and MOLECULAR MICROBIOLOGY LAB	4

BIOL/CHEM 4650	BIOCHEMISTRY I (with the following lab)	3
BIOL/CHEM 4654	BIOCHEMISTRY I LABORATORY	1
BIOL/CHEM 4660	BIOCHEMISTRY II (with the following lab)	3
BIOL/CHEM 4664	BIOCHEMISTRY II LABORATORY	1
BIOL 4810	BEHAVIORAL GENETICS	4

Group II

Structure and Function of Multicellular Systems

BIOL 4440	PLANT PHYSIOLOGY	4
BIOL 4460	COMPARATIVE IMMUNOLOGY	4
BIOL 4850 & BIOL 4830	DEVELOPMENTAL BIOLOGY and DEVELOPMENTAL GENETICS	5

Group III

Biodiversity

BIOL/GEOL 3100	INVERTEBRATE PALEONTOLOGY (with the following lab)	3
BIOL/GEOL 3104	INVERTEBRATE PALEONTOLOGY LABORATORY	1
BIOL 3530	FLORA OF THE GREAT PLAINS	4
BIOL 3730	FAUNA OF THE GREAT PLAINS	3
BIOL 4780	VERTEBRATE ZOOLOGY	4
BIOL 4790	MAMMALOLOGY	4
BIOL 4840	HERPETOLOGY	4
BIOL 4940	ENTOMOLOGY	4
BIOL 4980	ORNITHOLOGY	4

Group IV

Ecology, Evolution, and Conservation Biology

BIOL 4180	FRESHWATER ECOLOGY	4
BIOL 4220	POPULATION BIOLOGY	4
BIOL 4240 & BIOL 4250	MARINE BIOLOGY and FIELD MARINE BIOLOGY	4
BIOL 4410	WETLAND ECOLOGY AND MANAGEMENT	3

Code	Title	Credits
Required Cognate Coursework in Chemistry		
CHEM 1140 & CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY	5
CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY	5
CHEM 3650 & CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY	4

Required Cognate Coursework in Physics

PHYS 1110 & PHYS 1154	GENERAL PHYSICS I and GENERAL PHYSICS LABORATORY I	5
--------------------------	---	---

Other Required Cognate Coursework

MATH 1220	COLLEGE ALGEBRA (or higher math course)	3
STAT 1530	ELEMENTARY STATISTICS	3
GEOL 1170	INTRODUCTION TO PHYSICAL GEOLOGY	4

Required Education Coursework

TED 2100	EDUCATIONAL FOUNDATIONS	3
TED 2200	HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS	3
TED 2380	DEVELOPMENT AND LEARNING IN ADOLESCENCE	3

TED 2400	PLANNING FOR EFFECTIVE TEACHING	6
TED 3550	SECONDARY CLASSROOM MANAGEMENT	3
TED 3690	LITERACY AND LEARNING	3
SPED 3800	DIFFERENTIATION AND INCLUSIVE PRACTICES	3
TED 4000	SPECIAL METHODS IN THE CONTENT AREA	3
TED 4600	CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL	12

Must pass Praxis I Core Exam for formal acceptance to Educator Preparation Program; Praxis II Content test required (at completion of endorsement)

Freshman

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I (*)	3
MATH 1220 or MATH 1300	COLLEGE ALGEBRA (**) or COLLEGE ALGEBRA WITH SUPPORT	3-4
BIOL 1450	BIOLOGY I (***)	5
Social Science		3

*ENGL 1150: requires placement via EPPE, ACT, or AP.

**MATH 1220: requires appropriate placement. Higher levels of Math may substitute. Please see your advisor for options.

***BIOL 1450: counts as a Natural & Physical Science Lecture and Lab course as well as a major requirement.

Credits 14-15

Spring

ENGL 1160	ENGLISH COMPOSITION II (*)	3
CMST 1110 or CMST 2120	PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE	3
BIOL 1750	BIOLOGY II	5
Humanities and Fine Arts		3
Social Science		3

*ENGL 1160: requires ENGL 1150 with grade of C- or higher or placement via EPPE or AP.

Recommended: Begin studying for Praxis CORE Academic Skills.

Credits 17

Summer

PHYS 1110 & PHYS 1154	GENERAL PHYSICS I and GENERAL PHYSICS LABORATORY I (*)	5
--------------------------	---	---

*PHYS 1110: requires MATH 1220 (or MATH 1300) or higher or proficiency via ACT, SAT or Math Placement Exam score.

Credits 5

Sophomore

Fall		
TED 2100	EDUCATIONAL FOUNDATIONS (*)	3
TED 2200	HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS	3
CHEM 1140 & CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY (**)	5
BIOL 2740	HUMAN ANATOMY AND PHYSIOLOGY I	4

*TED 2100 and 2200: Requires 2.50 GPA.

**CHEM 1140: requires C- or better in MATH 1220 (or MATH 1300) or higher. ACT, SAT, AP or Math Placement Exam scores may substitute for the Math prereq to Chemistry 1140. Must take CHEM 1144 concurrently.

Required: Apply for Educator Preparation Program at this time.

Credits 15

Spring

BIOL 2140	GENETICS (**)	4
CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY (***)	5
GEOL 1170	INTRODUCTION TO PHYSICAL GEOLOGY	4

**BIOL 2140: requires BIOL 1450 and 1750, as well as CHEM 1140 or 1180.

***CHEM 2210: requires CHEM 1140 and 1144 or CHEM 1190 and 1194, either of which must be earned with a C- or better. CHEM 2214 to be taken concurrently. Please refer to your advisor or the catalog for other Chemistry options.

Recommended but not required: Pass the Praxis CORE Academic Skills.

Credits 13

Summer

STAT 1530	ELEMENTARY STATISTICS (*)	3
BIOL 3020	MOLECULAR BIOLOGY OF THE CELL (**)	3

*STAT 1530: requires appropriate placement.

**BIOL 3020: requires BIOL 2140 and CHEM 1180 or 1190.

Credits 6

Junior

Fall		
TED 2380	DEVELOPMENT AND LEARNING IN ADOLESCENCE (*)	3
TED 2400	PLANNING FOR EFFECTIVE TEACHING (*)	6
BIOL 4230	EVOLUTION (**)	3
Social Science with U.S. Diversity***		3

*TED 2400 and 2380 must be taken back-to-back, in either a Morning or Afternoon block.

**BIOL 4230: requires BIOL 2140; junior-senior standing

***SS must be in a 2nd discipline.

Required: Pass Praxis CORE Academic Skills by the end of this semester.

Required: Acceptance into Educator Preparation Program. Must have 2.75 GPA.

Credits 15

Spring

TED 3550	SECONDARY CLASSROOM MANAGEMENT (*)	3
TED 3690	LITERACY AND LEARNING (*)	3
BIOL 3830	BIOLOGY OF PATHOGENIC MICROORGANISMS (**)	3
BIOL 3240	INTRODUCTION TO IMMUNOLOGY (***)	3
CHEM 3650 & CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY (#)	4

*TED 3550 and TED 3690 must be taken back-to-back, in either a Morning or Afternoon block.

**BIOL 3830: requires BIOL 2440 or 3240 or 2140. BIOL 4644 may be taken concurrently.

***BIOL 3240: requires BIOL 1450, 1750 and 2140. Requires junior standing. Recommended: BIOL 3020.

#CHEM 3650: requires CHEM 2210 & CHEM 2214 or CHEM 2260 & CHEM 2274, either of which must be earned with a grade of C- or better. CHEM 3654 to be taken concurrently.

Credits		16
Summer		
BIOL 3340	ECOLOGY (*)	4
Humanities and Fine Arts/Global Diversity		3
*BIOL 3340: requires BIOL 1450 and 1750; junior-senior standing or graduate student.		
Credits		7
Senior		
Fall		
TED 4000	SPECIAL METHODS IN THE CONTENT AREA (*)	3
SPED 3800	DIFFERENTIATION AND INCLUSIVE PRACTICES (*)	3
Advanced Themes Biology course w/lab		3-4
Humanities/Fine Arts**		3
*SPED 3800: Must be taken concurrently with TED 4000 or TED 3550		
**HFA must be in a 2nd discipline.		
Recommended but not required: Pass Praxis II.		
Credits		12-13
Spring		
TED 4600	CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL (*)	12
*Candidates must complete all course work, have a minimum cumulative GPA of 2.75, passing Praxis Core scores (Math, Reading, and Writing), and be accepted into Clinical Practice.		
Credits		12
Total Credits		132-134

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

GPA Requirements: Cumulative 2.5 GPA for Educator Preparation Program initial acceptance, cumulative 2.75 GPA for formal admission and graduation.

Graduation Requirements: Students must have a cumulative GPA of at least 2.75, no grade lower than "C" in required courses, and no incomplete in required courses to be recommended for graduation.

Additional Information About this Plan:

University Degree Requirements: An undergraduate degree from UNO requires a minimum 120 credit hours, and completion of 30 credit hours per year, on average, is needed to finish in four years. Please review the requirements specific to your program.

Placement Exams: For Math, English, and Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Biology Minor

Requirements

A minor in biology requires a minimum of 21 semester credit hours. All courses counted toward a minor in biology must be applicable toward a major in biology. Students may not earn a Biology minor and a Molecular and Biomedical Biology major.

Students majoring in neuroscience, psychology, bioinformatics, or environmental science with a concentration in life science may not count any upper-division biology courses toward both disciplines.

Required hours include:

Code	Title	Credits
BIOL 1450	BIOLOGY I	5
BIOL 1750	BIOLOGY II	5
BIOL 2140	GENETICS	4
or BIOL 3340	ECOLOGY	
In addition, at least 7 credit hours of courses at the 3000- or 4000-level are required. At least one of the 3000- or 4000-level courses must have a laboratory; BIOL 3340 (Ecology) may not be used to fill this requirement. Students transferring biology credits are required to take a minimum of two 3000- or 4000-level biology courses at UNO.		7
Total Credits		21

Black Studies

The central mission of the UNO Black Studies discipline is to prepare students to critically understand and interpret the complex histories, societies, and cultures of African people across the globe, and to employ theoretical and methodological tools drawn out of the collective Black experience in addressing relevant natural and social global issues on behalf of humanity. We situate this knowledge within a general discourse concerning what it teaches us about the totality of the human experience.

Other Program Related Information

Fast Track

The Master of Science in Urban Studies program has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students with a major in Emergency Management or Black Studies from UNO desiring to pursue a Master of Science in Urban Studies.
- Students should have senior status and must be within at least 30 undergraduate credits yet to complete their undergraduate degree. Exceptional students who do not meet this requirement may be considered.
- Students must have a minimum undergraduate GPA of 3.5.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course
- Students will work with their undergraduate advisor to register for the graduate courses.

- Students must consult with the Urban Studies advisor prior to enrollment in one of the courses listed below.
- A minimum cumulative GPA of 3.5 is required to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the Urban Studies program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
- Admission to Fast Track does NOT guarantee admission to the graduate program.
- For this program, if students maintain at least a grade of B+ in courses taken, they will be recommended for admission to the Urban Studies program.
- The admit term must be after the completion term of the undergraduate degree.

The following courses may be taken under the Fast Track program

- BLST 8886:Seminar on Black Leadership
- UBNS 8000:Seminar in Urban Studies
- UBNS 8060:Introduction to Urban Planning
- UBNS 8020:Race, Ethnicity and American Urban Culture**
- UBNS 8200:Community Organizing and Development**
 - PA 8010:The Public Economy**

**Must have completed or be concurrently enrolled in UBNS 8000

Other Information

All coursework taken for the Black Studies major or minor must be completed with a minimum grade of "C-" or better. Credits not considered applicable toward the completion of the Black Studies major or minor include those graded less than "C-", "I" (incomplete), "AU" (audit), "CR/NC" (credit/no-credit), or "S/U" (satisfactory/unsatisfactory).

BLST 1000 INTRODUCTION TO BLACK STUDIES (3 credits)

BLST 1000 provides students with an overview of African culture and history and the black Diaspora. A key component of this course is to interrogate the meanings and dimensions of slavery and colonialism, and their continuing political, social and cultural implications. Approaches essentially include historical examination of African and African American societies and cultures from pre-colonial and slavery periods to the present.

Distribution: Social Science General Education course and U.S. Diversity General Education course

BLST 1050 CLASSICAL AFRICAN CIVILIZATIONS (3 credits)

Classical African Civilization is an introductory survey of the civilizations of Africa and African people prior to 1500 C.E., with emphasis on the evolution of the peoples and nations, their civilizations, and the rise and fall of indigenous states. In particular, this course will cover the classical civilizations of Kemet (Ancient Egypt), Nubia, Axum, Carthage, Ghana, Mali, and Songhay. (Cross-listed with HIST 1050)

Distribution: Global Diversity General Education course

BLST 1260 SURVEY OF BLACK LITERATURE (3 credits)

This course will give students a general background in black literature and will encourage them to take advanced courses in this field. It consists of black literature not only in the U.S. but also in the West Indies and Africa. The main themes common to the black experience will be analyzed through an interesting study of some of the major works of some important black writers.

BLST 1950 BLACK WOMEN IN AMERICA (3 credits)

This course will examine how Black women in America have evolved politically, economically, and socially under oppressive conditions of slavery, the Reconstruction Era, Jim Crow, and through the Civil Rights, Black Lives Matter, and "Me Too" Movements. The underlying themes of this course are the impact of gender and race on Black women, with an emphasis of how gender and race are fueled by white supremacy, patriarchy, colonialism, capitalism, and imperialism. (Cross-listed with WGST 1950)

Distribution: U.S. Diversity General Education course

BLST 2100 BLACK AMERICAN CULTURE (3 credits)

The course surveys the cultural forms, expressions, and patterns developed by African Americans, as well as the social contexts of their development. The course will introduce students to the cultural life of African Americans, and how that life has influenced the nature of the community, and its triumphs and tragedies in the larger socio-political context of U.S. American culture.

Distribution: U.S. Diversity General Education course

BLST 2110 CRITICAL ISSUES IN BLACK EDUCATION (3 credits)

Critical Issues in Black Education is an undergraduate course which provides students with foundational knowledge of the historical, legal, social, political, and economic conditions influencing pedagogical and epistemological experiences that impact educational opportunities of Black students.

Distribution: U.S. Diversity General Education course

BLST 2120 HISTORY OF MODERN AFRICA (3 credits)

This course covers the era of the beginning, development and decline of European colonialism in Africa. The movement for decolonization, the emergence of independent sovereign nations and the strategic role that Africa plays in the forum of industrialized and developed nations is investigated. It examines the impact of European cultures and forced labor on traditional Africa, and the struggle for a resolution of the conflict between the three major traditions on the continent - Western and Indigenous. Religious indigenous practices are also considered, along with Christian and Islamic cultures. (Cross-listed with HIST 2920).

BLST 2130 AFRICAN POLITICS (3 credits)

African Politics examines the socio-cultural and economic environments which characterize political life in contemporary Africa. This course examines contemporary African politics and government in post-independence Africa, and the pre-colonial political and economic systems which influence contemporary African politics. The course assesses the various approaches used to study the political development of the African continent; examines the processes, features, and institutions of the African states; addresses key and persistent issues about African politics; and examines dimensions of social change and political reform. (Cross-listed with PSCI 2130).

Distribution: Global Diversity General Education course

BLST 2260 BLACK SHORT STORY (3 credits)

A study of short stories written by black American authors as literature and as experience. The course explains and defines cultural terms and practices, and attempts to prepare students for multicultural living. (Cross-listed with ENGL 2260.)

Prerequisite(s): ENGL 1150, ENGL 1154, or permission of instructor.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

BLST 2350 AFRICAN AMERICAN LITERATURE 1746-1939 (3 credits)

This course traces the development of black literature from 1746 to 1939. Included will be a study of multiple genres including: poetry, short story, novel, drama, and nonfiction. Trends to be studied will include early black writers, neoclassic and romantic traditions, and the Harlem Renaissance and Depression era schools of thought. (Cross-listed with ENGL 2350).

Prerequisite(s): ENGL 1160 or permission.

BLST 2360 AFRICAN AMERICAN LITERATURE 1940-PRESENT (3 credits)

This course traces the development of the literary contribution that black Americans have made from 1940 to the present. The course will study multiple genres including: poetry, short story, novel, drama, and nonfiction. Trends to be studied include an evolution in resistance in writing, a movement toward literary assimilation in the 1940s-1950s, and the subsequent movement toward "Black Arts" from the 1960s to the present. (Cross-listed with ENGL 2360).

Prerequisite(s): ENGL 1160 or instructor permission

BLST 2410 AFRICAN AMERICAN HISTORY I: 1619-1865 (3 credits)

The course examines the history of the earliest Africans in the Americas and briefly examines traditional African societies. It covers the transatlantic slave trade and its effects on Europe, Africa and the Americas, and analyzes the development of Afro-American culture and the struggle for freedom. (Cross-listed with HIST 2040)

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

BLST 2420 AFRICAN-AMERICAN HISTORY II: 1865-1954 (3 credits)

A survey of Afro-American history from the Civil War to the present. Covers Reconstruction and its overthrow, including the new methods of control which replaced slavery. Discusses the development of black ideologies and institutions. Traces urban migration and its impact on black society and culture. Follows black progress through World War II, the 1954 Supreme Court Decision, and rising militancy. (Cross-listed with HIST 2050)

Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

BLST 2430 AFRICAN AMERICAN HISTORY III: 1954-PRESENT DAY (3 credits)

This course is divided into three main parts: the Civil Rights Phase (1954-1963), during which the dominant mood was optimism over the possibilities of integration; the Black Power Phase (1963-1974), and the Pragmatist Phase (1972-present), characterized by attempts to preserve and maintain gains already won. (Cross-listed with HIST 2060)

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

BLST 2510 MUSIC AND THE BLACK EXPERIENCE (3 credits)

Music and the Black Experience will provide students with historical and cultural knowledge of African Americans in the American music entertainment industry; the cultural influences of West African music traditions in African American music; and the American socio-political experiences that influenced music genres unique to Black people. Students will explore how West African music traditions survived and evolved through American slavery, reconstruction, the Civil Rights era, and into the 21st century; and how Black musical artists challenged racial discrimination in the music industry to create distinct music genres culturally unique to Black people. Overall, students taking this course will gain an understanding of the cultural role of music throughout the Black experience in America, and an appreciation for African American musical artists and composers who influenced all popular American music genres, from Spirituals to Broadway. (Cross-listed with MUS 2510).

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

BLST 2540 INTRODUCTION TO EGYPTIAN HIEROGLYPHS (3 credits)

Introduction to Egyptian Hieroglyphics will provide students with fundamental elements of Kemetic (ancient Egyptian) grammar, vocabulary, transliteration, and translation. Egyptian hieroglyphs, classically referred to as the "medu netcher," is the oldest written language on the African continent. Students will embark on an examination of primary texts which reveal important features of classical Egyptian culture and civilization. By studying this ancient African language, students will gain historical knowledge of the ancient cultures of Kemet and other classical Nile Valley civilizations. (Cross-listed with HIST 2540).

BLST 2550 AFRICAN AMERICAN ECONOMICS AND CONSUMERISM (3 credits)

This course traces the evolution of African American business and economic development systems in the U.S. and will examine historical economic and political influences which impact African American business communities. Students will be exposed to various aspects of African American business and economics, including Black entrepreneurship and Black owned businesses before, during, and after slavery; an analysis of the role of Black churches in African-American communities; and the impact of modern economic and political systems on African American business communities. (Cross-listed with ENTR 2550).

Distribution: U.S. Diversity General Education course

BLST 2700 AFRICAN PHILOSOPHY (3 credits)

This course explores ancient, traditional and contemporary philosophical/theological concepts and doctrines of Africans through an investigation of their cosmological, metaphysical, ontological and ethical world views.

BLST 2710 AFRICANA SOCIAL & POLITICAL THOUGHT (3 credits)

Africana Social and Political Thought presents a survey of the basic elements of African-centered theories of knowledge and ways of being across time and throughout the African Diaspora. In this course, students will examine the Africana worldview through a broad multidisciplinary survey of African-centered social and political ideas. Students will critically compare and contrast classical European-centered and African-centered theories, with a focus on the significance of relational difference in understanding Africana worldviews.

BLST 2730 THE BLACK SPIRITUAL EXPERIENCE (3 credits)

The Black Spiritual Experience course examines the trajectory of early African religions and philosophies, and their syncretization with European settler religions in America that have been practiced and embraced by Blacks in the U.S. since slavery. Students will survey the historical development of the Black church in America, and the emergence of liberation and Black theologies to combat white supremacy, oppression, and exploitation. This course will explore the cultural importance of music, dance, and art in worship and Black spiritual expressions; the role of religion and theology in empowering and uplifting African Americans, particularly during the Black Power and Civil Rights movements; the political impact of Black religious institutions in the long fight against systemic racism, racial violence, police brutality, and voter suppression in America; and the challenges of inclusion, equity, and intersectionality within the Black church around issues of gender, class, and sexual orientation. (Cross-listed with RELI 2730).

Distribution: U.S. Diversity General Education course

BLST 3000 SURVEY OF BLACK EDUCATION (3 credits)

History of black education starting from its early origins in Timbuktu, Egypt and Ethiopia through the American black experience. Impact on western civilization. Black colleges and universities: the black scholar and the community. Contributions of black scholars to general knowledge. Myth of black intellectual inferiority. From interest to disenchantment. Role of educational institutions in American society. Proposed models for coping with urban education.

Prerequisite(s): BLST 1000 or permission of instructor.

BLST 3030 GEOGRAPHY OF AFRICA (3 credits)

This course is about the human geography of Africa. It offers an overview of the geography, economics, politics, history, oral and written literature, art, anthropology and sociology of the African continent, with particular focus on sub-Saharan Africa. The course attempts to dispel myths and stereotypes about the African continent and facilitates an understanding of the dynamics that shaped and continue to shape African systems and people. Students taking Geography of Africa will engage in a comprehensive and systematic survey of the environments, natural resources, populations, their cultures, and histories of the geographic regions of Africa and their development. (Cross-listed with GEOG 3030).

Prerequisite(s): Junior Standing or Instructor Permission

BLST 3120 THE AFRICAN AMERICAN EXPERIENCE IN POLITICS (3 credits)

This course will provide a historical and contemporary survey of the African American political experience in the United States, from the passage of the 15th Amendment in the late 1800s, to the 1965 Voting Rights Act, and continuing into the 21st century. Students will examine the evolution of the Black political experience, with emphasis on the fight against enslavement, segregation, lynchings and mass incarceration, and the long struggle of African Americans against institutional and structural racism in the American political system. (Cross-listed with PSCI 3120).

Prerequisite(s): BLST 1000

Distribution: U.S. Diversity General Education course

BLST 3250 RACE, PSYCHOLOGY & CULTURAL DIFFERENCE (3 credits)

Race, Psychology & Cultural Difference is an introductory course that teaches students the psychology behind prejudice, stereotyping, and implicit bias when encountering racial and cultural difference, with particular focus on African Americans. In this course, students will explore concepts of racial and cultural difference, examine fundamental psychological concepts relative to racial and cultural prejudice and stigmas, and discuss cognitive processes of categorization and stereotyping that shape perceptions of racial and cultural difference. Overall, students will explore a conceptual framework for understanding race, psychology, and cultural difference and will learn psychological well-being strategies and approaches for mindfulness, self-regulation, and self-affirmation as challenges to racial and cultural prejudice, stereotyping, and implicit bias. (Cross-listed with PSYC 3250).

Prerequisite(s): Sophomore standing or permission of instructor

BLST 3410 LAW AND THE BLACK COMMUNITY (3 credits)

Law and the Black Community provides an in-depth examination of the racialized American legal process as it pertains to and affects African Americans in the U.S. From the formation of the U.S. Constitution to present day, this course analyzes intersections of race, law, politics and culture, and explores the administration of justice and Black experiences through a critical legal perspective. (Cross-listed with CRCJ 3410, PSCI 3410).

Prerequisite(s): BLST 1000 OR CRCJ 1010 OR Junior standing OR instructor permission.

Distribution: U.S. Diversity General Education course

BLST 3450 AFRICAN ECONOMIC DEVELOPMENT (3 credits)

African Economic Development critically examines historical, political, and socioeconomic forces that have shaped African economies. Students taking this course will learn about the evolution of the modern economic systems, methods of production, distribution and exchange which affect African economies. The course examines the historical impact of colonialism, capitalism, and imperialism on the displacement of ancient trade routes and markets throughout the African continent; the historical impact of these foreign colonial states and tools on the development of contemporary African private sectors, economic institutions, and global competition; and contemporary strategies of economic development, regional cooperation, and international trade, particularly as they affect Sub-Saharan Africa. (Cross-listed with PSCI 3450).

Prerequisite(s): junior standing or permission of instructor

BLST 3510 CULTURAL COMMUNICATION IN AFRICAN-AMERICAN CINEMA (3 credits)

This course examines ways in which cultural identity is communicated through African-American cinema, defined as movies with predominantly African American filmmakers, producers, and/or actors. Cultural communication is integrated with historical, political, and social motivation for African-American cinema. (Cross-listed with CMST 3510)

Prerequisite(s): Sophomore standing and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

BLST 3700 CRITICAL WRITING FOR CULTURAL STUDIES (3 credits)

Critical Writing for Cultural Studies (BLST 3700) is a Writing in the Disciplines (WID) course that prepares undergraduate students, whose fields of interest include any area of humanities and/or social sciences, for the specific writing styles and research methodologies expected in cultural studies disciplines. This preparation includes instruction in resource evaluation, organization strategies, sentence style and vocabulary, documentation styles, and revision strategies.

Prerequisite(s): ENGL 1164 or by permission of the instructor.

Distribution: Writing in the Discipline Single Course

BLST 3970 INTERNSHIP IN BLACK STUDIES (1-3 credits)

A department-supervised project involving part-time employment or service with a community agency, business, non-profit organization, university or other educational unit, or another appropriate organization or setting. Students will gain relevant practical experience and will integrate theory, concepts, and empirical knowledge from their classrooms with their work in the internship setting. Permission of department head and/or Internship Coordinator and completion of an internship project form required.

Prerequisite(s): Completion of BLST 1000, enrollment either as a BLST major or minor or as a BGS concentration in BLST, permission of Department Head and/or Internship Coordinator and completion of an internship project form.

BLST 3980 SPECIAL TOPICS IN BLACK STUDIES (3 credits)

Special Topics in Black Studies will cover courses on a particular or specific topic, not otherwise specifically covered in the courses of the BLST curriculum, using the theoretical and methodological tools of the discipline of Black Studies. The course will trace the historical evolution of that topic from its points of origin into the present, presenting a survey of the Black Studies discipline and research concerning a specific topic. Students will read works about and within the topic area, situating it within its economic, political, and social contexts as they relate to the Black Studies discipline and African communities. The content of this course will change periodically. Each time this course is offered it will focus, in detail and in depth, on some aspect of the Black experience, such as language and dialect, historiography and historicity, theology and religion, musicology, literature, etc.

Prerequisite(s): Junior standing or permission of instructor.

BLST 3990 COMMUNITY STUDY PROJECT (3 credits)

The Community Study Project course is designed to teach interdisciplinary students to synthesize, apply, and integrate Black Studies research methods and tools with compatible disciplines and research areas to develop local, community-based research projects. Students taking this course will learn to identify and assess a local community's needs and assets; to collect, analyze, and present data about that community that is both participatory and inclusive of the community; and to identify strengths, limitations, and challenges when conducting research in local, urban communities. Research projects may be individual or in groups and may involve public or private community service organizations.

Prerequisite(s): Junior or senior standing or permission of instructor.

BLST 4030 AFRICANA RELIGIONS (3 credits)

An introduction to religions in Africa and the diaspora, including African Traditional Religions, Christianity, Islam, and Afro-Caribbean religious traditions, using anthropological, historical, and other academic approaches to the study of religious and spiritual traditions. In particular, students will learn about the role of spirits, ancestors, witches, and other invisible agents in ideas and practices regarding health and healing. Finally, the class will examine the complex inter-relationships between religious ideas and practices and contemporary post-colonial political-economic realities, including the consequences of genocide and other human rights violations and the role of religious communities in social and economic development. (Cross-listed with RELI 8036, RELI 4030, BLST 8036).

BLST 4120 BLACK WOMEN LEADERS IN LIBERATION MOVEMENTS (3 credits)

This course studies scholarship on race, gender, and leadership with a specific focus on African and African descended women's roles in liberation movements in the U.S. and worldwide. Especial focus will be on the use of their personal narratives to analyze the wide range of ideas in the conception and execution of leadership. (Cross-listed with WGST 4120)

Prerequisite(s): Junior standing or permission of instructor.

BLST 4150 AFRICAN AMERICAN PSYCHOLOGY (3 credits)

African American Psychology traces the psychological history of Africans and African Americans from self-attributes and identity, through race and racism, to cognition, learning, and language. This course will review concepts relevant to understanding the psychology of African Americans, methodological and research issues, and best practices. (Cross-listed with BLST 8156, PSYC 4150, PSYC 8156).

Prerequisite(s): BLST 1000 and Junior standing or Instructor permission

Distribution: U.S. Diversity General Education course

BLST 4210 THE HARLEM RENAISSANCE (3 credits)

"The Harlem Renaissance" was the name given to the explosion in cultural, artistic, and social awareness that occurred primarily in Harlem, an area of New York City, between the end of World War I and the middle of the 1930s. This course will familiarize students with the general characteristics of African American literature produced during this period and its relation to African American literature and American literature writ large. The selected texts and writers will provide particular insight into the historical experiences of African Americans in the U.S. primarily between the two world wars and inform the subsequent cultural production of African Americans in later years. (Cross-listed with ENGL 8216, ENGL 4210, BLST 8216).

Prerequisite(s): ENGL 1150 or ENGL 1160, ENGL 2410 recommended

BLST 4220 PAN AFRICANISM & BLACK LIBERATION (3 credits)

The Pan-Africanism and Black Liberation course will expose students to the historical origins and development of Pan-Africanism, and the connection to global Black liberation movements. In this course, students will learn about the origin of Pan-Africanism, including major Pan-African leaders and historical events; the definitions of Pan-Africanism, Black Nationalism, Ethiopianism, and Negritude; and the commonalities and linkages between African continental and diasporic Pan-African liberation movements. Students will critically examine the differences between Pan-Africanism as an ideological, political, and cultural movement, and will explore the evolution of Pan-African ideology and philosophy in the 21st century. (Cross-listed with BLST 8226)

Prerequisite(s): Junior or senior standing or permission of instructor

BLST 4260 WOMEN OF COLOR WRITERS (3 credits)

Women of Color Writers is designed to introduce students to the multicultural, literary experience and contributions of women of color writers. The course will elucidate the multi-ethnic and feminist/womanist perspectives reflected in literary works by examining the themes, motifs and idioms used to portray woman. The course examines critically the implications and conceptual grounds of literary study which have been based almost entirely on male literary experiences. (Cross-listed with BLST 8266)

Prerequisite(s): Black studies major or permission of instructor.

BLST 4350 THE BLACK ATLANTIC (3 credits)

This course examines the cultural and ethnic history of Black people who comprised "The Black Atlantic." The course is organized historically and begins with a brief overview of the European slave trade on the West African Coast in the 15th century. From there, we look critically at the arrival of Africans to the New World, examine varieties of slavery and freedom in the Americas, and conclude with slave revolts and emancipation activism in the 18th and 19th century. We will use the Haitian Revolution (in which Haiti became the first country to be founded by formerly enslaved people) as a special case study, a conduit for our exploration of this socio-cultural, economic, and Diasporic space. (Cross-listed with BLST 8356, HIST 4080, HIST 8086).

Prerequisite(s): Junior or senior standing or permission of instructor

BLST 4470 SOUTH AFRICA & THE SOCIO POLITICS OF APARTHEID (3 credits)

South Africa and the Socio Politics of Apartheid examines the lived experiences of South African people under the Apartheid system, and their long struggle against European colonial oppression and racial segregation throughout the 20th century. Students will examine the laws, tools, and strategies that developed and sustained Apartheid, and the anti-Apartheid movements and international pressure that led to its repeal and South African democratic elections. (Cross-listed with BLST 8476, PSCI 8476, PSCI 4470, SOC 8476, SOC 4470).

Prerequisite(s): Junior standing or permission of instructor

Distribution: Global Diversity General Education course

BLST 4580 COMMUNICATING RACE, ETHNICITY & IDENTITY (3 credits)

This is an undergraduate/graduate course that provides students with definitional and experiential knowledge about the origin of racial concepts, theories, and practices, definitions of ethnicity and identity, and the communicative relationship between race, ethnicity, and identity. (Cross-listed with BLST 8586, CMST 4580, CMST 8586)

Prerequisite(s): CMST 4530 or Junior standing or instructor permission; minimum cumulative GPA of 2.25.

Distribution: U.S. Diversity General Education course

BLST 4590 AFRICAN-AMERICAN POPULAR MUSIC FROM BEBOP TO HIP-HOP (3 credits)

This course is intended for music majors who wish to undertake a comprehensive survey of African-American popular music literature from c. 1900-present. The objective will be to provide the student with a broad overview with special attention given to musicians and individual works which typify a style or form. Listening assignments will be an integral part of the course, and attendance at live performances will supplement the lectures, discussions and readings. (Cross-listed with BLST 8596).

BLST 4650 SLAVERY AND RACE RELATIONS IN THE AMERICAS (3 credits)

Slavery and Race Relations in the Americas examines the historical relationship between the trans-Atlantic slave trade and American race relations, connecting the enslavement of Africans in the Americas to race relations in the Caribbean, Latin America, and the United States. (Cross-listed with BLST 8656, HIST 4070, HIST 8076, LLS 4650, LLS 8656).

Prerequisite(s): BLST 1000 and junior standing or permission of instructor

Distribution: U.S. Diversity General Education course

BLST 4710 BROWN V. BOARD OF EDUCATION (3 credits)

Brown v. Board of Education traces the educational history of African Americans from segregation to desegregation to re-segregation. This course will review the legal cases before and after the Supreme Court's Brown decision, their aftermath, and the effects on educational policies and practices. (Cross-listed with BLST 8716, PSCI 8136, PSCI 4130).

Prerequisite(s): Junior standing OR senior standing or permission of instructor.

Distribution: U.S. Diversity General Education course

BLST 4750 CRITICAL QUANTITATIVE RESEARCH METHODS (3 credits)

This online undergraduate/graduate course is a comprehensive source for foundational concepts in quantitative behavioral research. The course is designed to expose students to the role and importance of critical quantitative research of marginalized and underrepresented groups. Students will examine and gain definitional and empirical knowledge about conducting culturally relevant quantitative research and will learn both the logic behind and procedures for critical quantitative research, including research ethics, correlational and experimental designs, data collection, sampling, analysis, and reporting. (Cross-listed with BLST 8756).

Prerequisite(s): PSYC 3140 or Junior standing or instructor permission.

BLST 4880 BLACK LEADERSHIP IN AMERICA (3 credits)

Designed as a senior and graduate seminar, Black Leadership in America will examine the meaning and attributes of effective leadership strategies of African Americans, particularly as it relates to Black student leaders. The role of Black leadership will be explored using leadership and community theory, and will highlight the impact of Black culture within the broader American experience. (Cross-listed with BLST 8886).

Prerequisite(s): Senior or graduate student or instructor permission.

BLST 4900 INDEPENDENT STUDY (1-3 credits)

Individualized Study in Black Studies is a course that allows a student to register to conduct research on a particular topic, in conjunction with one or more faculty members in the department of Black Studies, using the theoretical and methodological tools of the discipline. The student will prepare and have approved by their faculty supervisor, an associated project proposal with a timetable for the research. The research deliverables may take the form of a paper, a project, a presentation, or some combination thereof. This course is designed for those students who are capable of pursuing, independently, an area of Black Studies that is not covered under the existing curriculum. The student will be supervised by a faculty member of the BLST department. All course assignments, requirements, and expectations will be clearly indicated in advance.

Prerequisite(s): Must have instructor permission

Black Studies, Bachelor of Science

The central mission of the UNO Black Studies discipline is to prepare students to critically understand and interpret the complex histories, societies, and cultures of African people across the globe, and to employ theoretical and methodological tools drawn out of the collective Black experience in addressing relevant natural and social global issues on behalf of humanity. We situate this knowledge within a general discourse concerning what it teaches us about the totality of the human experience.

Degree Student Learning Objectives

Students will be able to demonstrate their comprehension of disciplinary materials in their reading, and their oral communication skills, showing evidence of their knowledge of Africana including its civilizations, its political, economic, and social movements, its global scope of its diaspora, and the impact of its enslavement and colonization on the world.

Students will be able to synthesize and employ the theories, methodological tools, and research within the discipline to formulate research questions, collect, understand, analyze, and apply data as well as write and present cohesive arguments related to Africana peoples and phenomena.

Students will demonstrate internalization of their role as a global citizen through application of their knowledge on behalf of the larger community.

To obtain a B.S. with a major in Black Studies, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 12-19 hours college breadth requirement

- 48 hours of major courses
- 7-14 hours of electives

TOTAL HOURS: 120

Requirements

The Black Studies department currently offers a major leading to the B.S. degree. Black Studies majors must complete 33 hours of course work in the discipline.

Students are required to complete 15 hours of cognate coursework outside of Black Studies. Cognates are designed by the student in consultation with the undergraduate advisor.

Code	Title	Credits
Core Curriculum:		
BLST/HIST 1050	CLASSICAL AFRICAN CIVILIZATIONS	3
BLST 1000	INTRODUCTION TO BLACK STUDIES	3
BLST 2100	BLACK AMERICAN CULTURE	3
BLST 2410	AFRICAN AMERICAN HISTORY I: 1619-1865	3
BLST 2710	AFRICANA SOCIAL & POLITICAL THOUGHT	3
Total Credits		15

The remaining 18 hours shall be selected from upper division departmental courses (3000 and 4000 level). BLST 3980 and BLST 4900 may each be selected twice.

Freshman

Code	Title	Credits
BLST 1000	INTRODUCTION TO BLACK STUDIES	3

Total Credits	120-123

This roadmap is a suggested plan of study and does not replace meeting with the department chair or departmental advisor. Each student is required to do so each Fall and Spring semester in conjunction with their preparation of their schedule for those respective terms. Please note that students may need to adjust the actual sequence of courses based on course availability.

This plan is not a contract, and the printed curriculum is subject to change

Additional Information About this Plan:**Writing in the Discipline Requirement**

All students are required to take a writing in the discipline course within their major. For the Black Studies major, this is BLST 3700 or another approved course.

Majors Assessment

The Department **requires** the following of majors:

- Each major must complete at least one community-based activity consisting of a study abroad, service learning, and/or internship experience under the appropriate department course numbers.
- Each major must select one paper from their 3000 or 4000 level courses as their major departmental project.
- Each major must complete a content-laden "exit" interview.
- Specifications for all of these assessment requirements are available from the department.

Alternative Grading Policies

All coursework taken for the Black Studies major or minor must be completed with a grade of "C-" or better. Courses taken on a Credit/No Credit, Audit, or Satisfactory/Unsatisfactory basis may not go toward the Black Studies major or minor. In such cases, students will be asked to add additional BLST coursework to their academic curriculum as surrogates for the number of hour credits earned under such alternative arrangements.

Upper Division Course Contingency

If an insufficient number of courses are available at the upper division level for a student to complete a major or minor, the chair of the department may, at his or her discretion, accept alternative departmental courses, external courses dealing with subject matter related to the major or minor or external experiences in course settings like internships, study abroad, and/or community engagement as acceptable for meeting the requirements.

University Degree Requirements

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Black Studies Minor

Requirements

A Black Studies minor may be obtained by successful completion of fifteen (15) credits of course work, of which at least nine (9) hours must be composed of upper division (3000 and 4000 level) departmental courses.

Chemistry

The Department of Chemistry, which is approved by the American Chemical Society (ACS), offers both Bachelor of Science (B.S.) and Bachelor of Arts (B.A.) degrees. Students can choose among three B.S. degree options. The B.S. degree in Chemistry is designed for majors planning to be industrial or government chemists, planning to pursue a graduate degree in chemistry or biochemistry, or considering professional degrees in fields such as medicine. The B.S. degree with Concentration in Medicinal Chemistry is designed for students interested in health fields, graduate programs in life sciences or professional study such as pharmacy or medicine. The B.S. degree with Concentration in Education is designed for students planning to teach high school chemistry or plan to teach at a more advanced level and want to develop their teaching skills as part of their undergraduate education. The B.A. degree is appropriate for chemical technologists and pre-professional students, particularly fields other than the health sciences.

Other Information

Students working toward a degree in Chemistry or a Chemistry minor must earn a grade of "C-" or better in all courses used to fulfill Chemistry major or minor requirements. A GPA of 2.0 or higher in chemistry and cognate courses is required to graduate with a Chemistry major or minor.

The department highly encourages students to engage in undergraduate research with a faculty mentor. Students can start undergraduate research with CHEM 2950 or CHEM 4950 depending on their background and the needs of their faculty supervisor.

To make room for students making regular academic progress, those students who have been enrolled in a course three or more times: 1) will not be allowed to enroll prior to the first week of classes; and 2) will need permission of the instructor to enroll.

High school students who have successfully completed advanced high school chemistry courses (AP and/or IB) and are considering a modified course of study should consult with the department.

Chemistry and double majors, minors

Pharmaceutical Sciences majors

- may not add a Chemistry minor

- may add a Chemistry major or dual degree (BA Chemistry; BS Pharmaceutical Sciences), without overlapping restrictions.

Molecular and Biomedical Biology and Chemistry

- MBB majors may add a Chemistry minor or double major (no concentration) without overlapping restrictions
- MBB and Chemistry-Medicinal Chemistry as double majors may not count CHEM 4660-4664 Biochemistry II Lecture and Lab toward both majors.
- Chemistry-Medicinal Chemistry majors may add a Molecular and Biomedical Biology minor without overlapping restrictions

Biology and Chemistry

- Dual degrees with Biology and Chemistry (one being the BA, the other a BS) may not use the same 3000-4000 level Chemistry course toward both programs.
- One degree (BA or BS) with two majors (double major) of Biology and Chemistry may count the same 3000-4000 level Chemistry courses toward both programs.
- A Chemistry major and Biology minor may overlap 3000-4000 level Chemistry courses.
- A Biology major and Chemistry minor may overlap 3000-4000 level Chemistry courses.

Student Groups

The Department of Chemistry has an active student led Chemistry Club. Please visit our dedicated student organizations website (<https://www.unomaha.edu/college-of-arts-and-sciences/chemistry/student-opportunities/student-organizations.php>) for more information.

Contact Information

337 Durham Science Center
402.554.2651

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/chemistry/>)

Degrees Offered

- Chemistry, Bachelor of Arts (p. 109)
- Chemistry, Bachelor of Science (p. 110)
- Chemistry, Bachelor of Science with a Concentration in Medicinal Chemistry (p. 115)
- Chemistry, Bachelor of Science with a Concentration in Chemistry Education (p. 112)

Writing in the Discipline

All students are required to take a writing in the discipline course within their discipline. For the chemistry major, this is NSCI 3940 along with any two of the following courses: CHEM 3354, CHEM 3364, CHEM 4654, CHEM 4664, or another approved course.

Minors Offered

- Chemistry Minor (p. 117)

Love chemistry? Take the challenge and become a chemistry major! A career in chemistry is exciting. Most of our graduate majors go to professional schools (medical, dental, pharmacy schools, and other health related careers), some pursue graduate schools, and the rest land a job in industry. Companies that hire chemists include pharmaceutical companies, bulk commodity chemical companies, food manufacturers, personal, and household care product companies, and some of our students enjoy teaching in the K-12 schools!

Career options include, but are not limited to

- Healthcare professional (medical doctor, nurse, pharmacist, and dentist);*
- Professor after graduate schools;*
- Lab chemist
- Lab technician

- Quality assurance specialist
- Science teacher

*Advanced Degree Required

CHEM 1010 CHEMISTRY IN THE ENVIRONMENT AND SOCIETY (3 credits)

An introduction to 1) the environment's impact on each of us, 2) our impacts on the environment, and 3) the chemistry needed to understand it. Is it in your lungs?...in your food?...on your skin? What are the sources of your electricity and why does it matter? Are your choices sustainable? Those and related questions will be addressed as you explore air quality, climate change, fossil fuel combustion (and its alternatives), polymers, medicine, nutrition, and more in the context of their social, political and economic connections. (Fall, spring) Fulfills a University General Education Natural/Physical Science Requirement.

Prerequisite(s): MATH 1220 or MATH 1300 or MATH 1320 or higher with a grade of C- or better or equivalent.

Distribution: Natural/Physical Sci General Education lecture

CHEM 1014 CHEMISTRY IN THE ENVIRONMENT AND SOCIETY LABORATORY (1 credit)

Laboratory for CHEM 1010, a survey of the relationship of chemistry to current problems in environmental control, medicine, technology and energy production. (Fall, Spring)

Prerequisite(s): CHEM 1010 to be taken concurrently or completed previously with grade of C- or better.

Distribution: Natural/Physical Sci General Education lab course

CHEM 1140 FUNDAMENTALS OF COLLEGE CHEMISTRY (4 credits)

A comprehensive introduction to the basic principles of chemistry. This course is intended for all students needing a one-semester introductory course with laboratory including allied health students continuing to CHEM 2210, or those seeking a stronger background before enrollment in CHEM 1180. (Fall, spring, possibly summer). Fulfills a University General Education Natural/Physical Science Requirement.

Prerequisite(s): MATH 1220, MATH 1300, MATH 1320 or equivalent/higher (C- or better) or ACT Math subscore 23+ or ALEKS/Accuplacer score 4+ or SAT Math subscore 540+ or SAT2016 Math subscore 570+. CHEM 1144 must be taken concurrently or prior (C- or higher)

Distribution: Natural/Physical Sci General Education lecture

CHEM 1144 FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY (1 credit)

Laboratory explorations of chemical measurements, modeling, reactions and analyses. To be taken with CHEM 1140. (Fall, spring, possibly summer).

Prerequisite(s): CHEM 1140 concurrent or prior with C- or better.

Distribution: Natural/Physical Sci General Education lab course

CHEM 1170 GENERAL CHEMISTRY I-II (5 credits)

Intended for students with significant backgrounds in chemistry, the course is a combination of CHEM 1180 and CHEM 1190 completed in one semester. This course also includes a lab section. During lecture, the following topics will be covered: introductory quantum theory, electronic structures, bonding theory, gas laws, solution properties and reactions, acid-base theory, ionic equilibria, complexation, oxidation-reduction, thermodynamics and kinetics. The laboratory will include the introduction of basic laboratory skills and scientific experimental design.

Prerequisite(s): MATH 1330 or equivalent in the last two years (C- or better); OR ACT Math subscore of 26 in the last two years; OR ALEKS/Accuplacer score of at least 6 in the last two years; AND AP chemistry exam score 3 or greater; OR instructor permission.

Distribution: Natural/Physical Sci General Education lecture&lab

CHEM 1180 GENERAL CHEMISTRY I (3 credits)

A comprehensive survey of chemical principles; the first course in a two-semester sequence primarily for majors and those in the sciences. It is assumed that students will have a good background in elementary chemical principles. CHEM 1184 normally to be taken concurrently. (Fall, Spring, Summer) Fulfills a University General Education Natural/Physical Science Requirement.

Prerequisite(s): Minimum grade of C- in: MATH 1300; 1320; 1330; 1340; 1930; 1940; 1950; OR Math proficiency via ACT Math Subscore 25+; ALEKS/Accuplacer score 5+; SAT Math Subscore 570+; OR SAT2016 Math Subscore 590+; or CHEM 1140. CHEM 1184 concurrent/prior required.

Distribution: Natural/Physical Sci General Education lecture

CHEM 1184 GENERAL CHEMISTRY I LABORATORY (1 credit)

A laboratory program designed to enhance laboratory skills and illustrate chemical principles. (Fall, Spring, Summer) Fulfills a University General Education Natural/Physical Science requirement.

Prerequisite(s): CHEM 1180 concurrent or prior with a grade of C- or better.

Distribution: Natural/Physical Sci General Education lab course

CHEM 1190 GENERAL CHEMISTRY II (3 credits)

A study of acid-base theory, ionic equilibria, complexation, oxidation-reduction, thermodynamics and kinetics. CHEM 1194 to be taken concurrently. (Fall, Spring, Summer)

Prerequisite(s): Minimum grade of C- in CHEM 1180, CHEM 1184, & MATH 1300; 1320; 1330; 1340; 1930; 1940; 1950 (or approved higher level course) or ACT Math 25+ or SAT Math 570+ or SAT2016 Math 590+ or ALEKS/Accuplacer 5+. Required: CHEM 1194 concurrent

CHEM 1194 GENERAL CHEMISTRY II LABORATORY (1 credit)

A laboratory study of quantitative analysis and solution equilibria. Includes statistics applied to quantitative analysis. (Fall, Spring, Summer)

Prerequisite(s): CHEM 1180 and 1184 with a grade of C- or better or department recommendation of advanced placement. Prereq or coreq: CHEM 1190 (if prereq must be with a grade of C- or better).

CHEM 2210 FUNDAMENTALS OF ORGANIC CHEMISTRY (4 credits)

Chemistry 2210 is a course on basic organic chemistry, a one-semester course designed primarily for students in biology, elementary science education, and allied health fields.

Prerequisite(s): CHEM 1140 and CHEM 1144, or CHEM 1190 and CHEM 1194 with a grade of C- or better in each. CHEM 2214 to be taken concurrently.

CHEM 2214 FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY (1 credit)

Elementary organic chemistry laboratory to be taken concurrently with CHEM 2210. This course is for students in biology (non-premed, non-pre-dental tracks), elementary education and allied health majors.

Prerequisite(s): CHEM 1140 and CHEM 1144, or CHEM 1190 and CHEM 1194 with a grade of C- or better in each. CHEM 2210 to be taken concurrently.

CHEM 2250 ORGANIC CHEMISTRY I (3 credits)

The fundamental chemistry of carbon compounds. (Fall, Spring, Summer)

Prerequisite(s): CHEM 1190 and CHEM 1194 with a grade of C- or better. CHEM 1194 may be taken concurrently.

CHEM 2260 ORGANIC CHEMISTRY II (3 credits)

A continuation of the foundational study of the compounds of carbon. (Fall, Spring)

Prerequisite(s): CHEM 2250 with a grade of C- or better. Taking CHEM 2274 concurrently is recommended. Students are encouraged to take CHEM 2260 within 12 months of completing CHEM 2250.

CHEM 2274 ORGANIC CHEMISTRY LABORATORY (2 credits)

A laboratory course in the skills and techniques of experimentation in organic chemistry. (Fall, Spring, Summer)

Prerequisite(s): Minimum grades of C- or better in both CHEM 2250 and CHEM 1194. Students are encouraged to enroll in CHEM 2260 concurrently.

CHEM 2400 QUANTITATIVE ANALYSIS (3 credits)

Theory of quantitative analysis applied to gravimetric and volumetric analysis; theory of error and evaluation of analytical data; introduction to instrumental analysis and separation methods. (Fall)

Prerequisite(s): CHEM 1190 and CHEM 1194 with a grade of C- or better or equivalent. CHEM 2404 to be taken concurrently.

CHEM 2404 QUANTITATIVE ANALYSIS LAB (1 credit)

Laboratory application of principles of quantitative analysis and experience with sample preparations, titrations, and instrumental methods of analysis. Use of reaction chemistry, separations, and spectrophotometry in determinations. Introduction to quality control. (Fall)

Prerequisite(s): CHEM 1190 and CHEM 1194 with a grade of C- or better or equivalent. CHEM 2400 to be taken concurrently.

CHEM 2500 INTRODUCTION TO INORGANIC CHEMISTRY (3 credits)

A survey of the inorganic chemistry of metallic and nonmetallic species, including atomic, molecular and crystal structures, composition, properties and reactivities. (Spring).

Prerequisite(s): CHEM1190 with a grade of C- or better.

CHEM 2910 APPLIED TOPICS IN CHEMISTRY (1 credit)

More thorough examination of a chemistry topic than in the regular curriculum. Content (e.g., polymers, forensics, brewing and cooking, chemical industry, historical chemistry, art and chemistry, glassblowing) will vary with offering.

Prerequisite(s): Completion of 4 credit hours of university chemistry with grade(s) of C+ or better, or 8 credit hours of chemistry with grades of C or better.

CHEM 2930 APPLIED TOPICS IN CHEMISTRY (3 credits)

More thorough examination of a chemistry topic than in the regular curriculum. Content (e.g. polymers, forensics, brewing and cooking, chemical industry, historical chemistry, art and chemistry, glassblowing) will vary with offering.

Prerequisite(s): Completion 4 credit hours of university chemistry with grade(s) of C+ or better, or 8 CH of chemistry with grades of C or better.

CHEM 2950 INTRODUCTION TO RESEARCH IN CHEMISTRY (1 credit)

This course is intended to give students, possessing at least a high school background in chemistry, the opportunity to work with faculty and/or advanced students on an established research project. The creativity and communication expectations of these students will be less than for students enrolled in the 4000 level research courses. Guided laboratory/library work on an established research project.

Prerequisite(s): Permission of instructor. Not open to non-degree graduate students.

CHEM 3030 ENVIRONMENTAL CHEMISTRY (3 credits)

This course connects fundamental chemical principles to processes observed in the environment. The environmental processes studied may or may not be anthropogenic in nature and will include every environmental domain (air, water, soil/minerals/rocks) and interactions between domains.

Prerequisite(s): CHEM 1180 and CHEM 1184, CHEM 1190 and CHEM 1194, CHEM 2400 and CHEM 2404, or consent of the instructor

CHEM 3210 INTRODUCTION TO MOLECULAR MODELING (3 credits)

The course covers the advantages and limitations of current modeling systems, the criteria for choosing the appropriate modeling system to best solve a given problem and the computer resources needed to conduct the modeling experiments. Following an introduction to the theory behind a variety of modeling systems, students model organic and bioorganic compounds in projects designed to mimic real world applications. (Alternate Spring semesters). (Cross-listed with CHEM 8215).

Prerequisite(s): CHEM 2260 and CHEM 2274 with a grade of C- or better.

CHEM 3350 PHYSICAL CHEMISTRY I (3 credits)

A presentation of selected topics from the laws of thermodynamics, chemical and physical equilibria, phase diagrams, thermodynamics of solutions, electrochemistry and kinetics. (Fall) (Cross-listed with CHEM 8355).

Prerequisite(s): CHEM 2260, CHEM 2274, CHEM 2400, CHEM 2404, PHYS 1120 or PHYS 2120; MATH 1960. (Chemistry courses must be with a grade of C or better). Concurrent enrollment in CHEM 3354.

CHEM 3354 PHYSICAL CHEMISTRY I LABORATORY (1 credit)

Physical chemistry laboratory covering topics in thermodynamics, kinetics and electrochemistry, to be taken concurrently with CHEM 3350/8355. Instruction and practice in scientific writing is also an emphasis of the course. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. Offered in Fall. (Cross-listed with CHEM 8359)

Prerequisite(s): CHEM 2404, CHEM 2274; Coreq: CHEM 3350.

Distribution: Writing in the Discipline Sequenced Course

CHEM 3360 PHYSICAL CHEMISTRY II (3 credits)

A presentation of selected topics from the areas of quantum mechanics, spectroscopy, kinetics and statistical mechanics. (Cross-listed with CHEM 8365).

Prerequisite(s): CHEM 3350 and CHEM 3354 with a grade of C- or better.

CHEM 3364 PHYSICAL CHEMISTRY II LABORATORY (1 credit)

Physical chemistry laboratory covering topics in quantum mechanics, computational chemistry, spectroscopy, and kinetics, to be taken concurrently with CHEM 3360. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. Offered in Spring. (Cross-listed with CHEM 8369).

Prerequisite(s): CHEM 3350 and 3354 with a grade of C- or better, to be taken concurrently with CHEM 3360.

Distribution: Writing in the Discipline Sequenced Course

CHEM 3424 SPECTROMETRIC CHARACTERIZATIONS (1 credit)

A laboratory course intended to further develop the ability to determine chemical structure from focused spectrometric data especially IR, MS, 1D and 2D (proton and carbon) NMR. Lab time focuses on the spectrochemical data collection and interpretation. (Cross-listed with CHEM 8425).

Prerequisite(s): CHEM 2260, CHEM 2274, CHEM 2400 and CHEM 2404 with a grade of C or better.

CHEM 3514 INORGANIC PREPARATIONS (1 credit)

Laboratory preparation and characterization of representative types of inorganic compounds by various standard and special techniques. (Spring)

Prerequisite(s): CHEM 2274, CHEM 2400, CHEM 2404, CHEM 2500 with a grade of C- or better.

CHEM 3610 PRINCIPLES OF BIOCHEMISTRY FOR THE HEALTH SCIENCES (3 credits)

This course covers the introduction of biochemistry, biomolecules, and metabolism. It is primarily intended for students entering allied health fields.

Prerequisite(s): CHEM 2210 or CHEM 2260 with a C- or better. Not open to non-degree graduate students.

CHEM 3650 FUNDAMENTALS OF BIOCHEMISTRY (3 credits)

A survey of biochemistry emphasizing: cell structure, energy, and water; amino acid and protein structure/function, enzymes, and protein isolation; carbohydrates and carbohydrate metabolism (glycolysis, glycogen metabolism); aerobic metabolism (citric acid cycle and oxidative phosphorylation); lipids, membranes, transport, cholesterol, and lipid metabolism; and nucleic acids. (Fall, Spring)

Prerequisite(s): CHEM 2210 and CHEM 2214 or CHEM 2260 and CHEM 2274 with a grade of C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. CHEM 3654 must be taken concurrently.

CHEM 3654 FUNDAMENTALS OF BIOCHEMISTRY LABORATORY (1 credit)

A laboratory course to help integrate the concepts learned in the fundamentals of biochemistry lecture with the development of biochemical laboratory skills including data analysis. (Fall, Spring)

Prerequisite(s): CHEM 2210 and CHEM 2214 or CHEM 2260 and CHEM 2274 with a grade of C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. CHEM 3650 must be taken concurrently.

CHEM 3710 ESSENTIALS OF MEDICINAL CHEMISTRY (3 credits)

This course is an introduction to human drug discovery, mechanism of action, metabolism, and drug-drug interaction, while demonstrating the interdisciplinary nature of medicinal chemistry. An emphasis is placed on drug design, drug structure, and the relationship of structure to drug action and metabolism. (Spring)

Prerequisite(s): ENGL 1160 and CHEM 2260/CHEM 2274 with a grade of C- or better.

CHEM 3720 CHEMISTRY TEACHING STRATEGIES (3 credits)

A course exploring the pedagogical problems that chemistry teachers face and potential solutions to these problems. The purpose of the course is two-fold. To help with the professional development of chemistry teachers within the context of how people learn. To help students interested in chemical education research develop educational research ideas within the context of how people learn.

Prerequisite(s): CHEM 2250 or CHEM 2400 or by instructor consent.

CHEM 4230 ADVANCED ORGANIC CHEMISTRY - SYNTHESIS (3 credits)

An advanced lecture course in modern theories and organic reactions with application to synthesis. (Alternate Fall semesters) (Cross-listed with CHEM 8236).

Prerequisite(s): CHEM 2260 with a grade of C- or better.

CHEM 4240 ADVANCED ORGANIC CHEMISTRY - MECHANISM (3 credits)

An advanced lecture course in organic chemical reactions. (Cross-listed with CHEM 8246).

Prerequisite(s): CHEM 2260 and CHEM 2400 with a C- or better

CHEM 4244 ADVANCED ORGANIC CHEMISTRY-MOLECULAR MODELING LABORATORY (1 credit)

The use of molecular modeling software as means to predict structure, relative stabilities and reaction thermodynamics are covered in a hands-on environment. The course will survey various modeling methods and show its relevance to organic reactions and mechanisms therein. Students will learn how to use commercial software to obtain/supplement experimental data in a manner suitable for peer-review publication. (Cross-listed with CHEM 8276).

Prerequisite(s): CHEM 2260 and CHEM 2400 with a C- or better

CHEM 4250 ADVANCED ORGANIC CHEMISTRY: MECHANISMS AND MODELING (4 credits)

Presentation of advanced topics in organic chemistry focused on structure, bonding and reaction mechanisms. The use of molecular modeling software as means to predict structure, relative stabilities and reaction thermodynamics are covered in a hands-on environment. The course will survey various modeling methods and show its relevance to molecular orbital theory. The basic methodologies used to explore organic mechanisms are presented and then used to study mechanistic details of various reaction types. Students cannot count both Chem 4250 and Chem 4240 toward their degree. (Cross-listed with CHEM 8256).

Prerequisite(s): CHEM 2260 and CHEM 2274 with a C- or better

CHEM 4310 POLYMER CHEMISTRY (3 credits)

An introduction to the chemical and physical properties of polymers.

Emphasis will be on physical properties and structure/property relationships. Topics will include kinetics and synthesis. Students will gain an understanding of the characteristics of polymers and their applications.

Prerequisite(s): CHEM 2260 and CHEM 3350, each with a grade of C- or better, or instructor permission. Not open to non-degree graduate students.

CHEM 4320 NUCLEAR CHEMISTRY (3 credits)

An introduction to nuclear chemistry. Topics will include nuclear structure and changes, applications of nuclear radioactivity including radiometric dating, nuclear power, nuclear weapons, chemical properties of radioactive elements as well as applications in the chemical laboratory, industrial and medical applications.

Prerequisite(s): CHEM 3360 (or CHEM 2500, PHYS 1110 and MATH 1960 as a group). Any of the classes can be taken concurrently.

CHEM 4400 INSTRUMENTAL ANALYSIS (3 credits)

Study of instrumentation for use in chemical analysis and chemistry research. Advanced instrumental methods and data analysis techniques are included. (Cross-listed with CHEM 8406).

Prerequisite(s): CHEM 3350 and CHEM 3354 both with a C- or better; or CHEM 3360 and CHEM 3364 both with a C- or better; or instructor permission. Concurrent enrollment in CHEM 4404.

CHEM 4404 INSTRUMENTAL ANALYSIS LABORATORY (1 credit)

Use of instrumentation in quantitative and trace analysis. Advanced instrumental methods and electronics for instrumentation are included. (Spring) (Cross-listed with CHEM 8409).

Prerequisite(s): CHEM 3360, CHEM 3364, CHEM 3414 with a grade of C or better. Concurrent enrollment in CHEM 4400.

CHEM 4500 ADVANCED INORGANIC CHEMISTRY (3 credits)

The application of bonding models for understanding of the composition, structure, and reactions of inorganic molecules, including organometallic and bioinorganic complexes. (Cross-listed with CHEM 8506).

Prerequisite(s): CHEM 2500 and CHEM 3350 with a grade of C- or better. CHEM 3350 may be taken concurrently.

CHEM 4510 SOLID STATE INORGANIC CHEMISTRY (3 credits)

A study of the structural and electronic basis of materials properties in the solid state. Properties examined include electrical conductivity, ferromagnetism, ferroelectricity, and superconductivity. Some experimental work will be conducted.

Prerequisite(s): CHEM 2500 and CHEM 3350 with a grade of C- or better; or permission of instructor.

CHEM 4540 GEOCHEMISTRY (3 credits)

This course will cover the application of chemical principles to geologic systems. Specific topics covered will include the origin of elements and their distribution in the earth, geochronology, stable isotope systems, aqueous geochemistry and crystal chemistry. These topics will be integrated to the study of soils, igneous, metamorphic and sedimentary rocks and ore deposits. (Every third semester). (Cross-listed with GEOL 4540).

Prerequisite(s): GEOL 1170, MATH 1950, CHEM 1190 and GEOL 2750 or CHEM 2500 (chemistry courses must have a grade of C or better)

CHEM 4610 BIOCHEMISTRY OF METABOLISM (4 credits)

The course covers the structure-function relationships of proteins, carbohydrates, lipids and nucleotides, with an emphasis on the biochemistry of metabolism and molecules of metabolism. It is primarily intended to prepare students for health-related professional schools. (Spring)

Prerequisite(s): CHEM 2260 and CHEM 2274 with a grade of C- or better.

CHEM 4650 BIOCHEMISTRY I (3 credits)

A comprehensive introduction to biochemistry emphasizing: structure-function relationships for proteins, carbohydrates, lipids, and nucleic acids; protein purification; enzyme kinetics and mechanisms; membranes and membrane transport; carbohydrate metabolism including glycolysis, the citric acid cycle and oxidative phosphorylation; and important applications of thermodynamics and the properties of water to living systems. (Fall) (Cross-listed with BIOL 4650, BIOL 8656, CHEM 8656).

Prerequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. Other comparable courses taken at accredited colleges or universities are acceptable. CHEM 4654 must be taken concurrently.

CHEM 4654 BIOCHEMISTRY I LABORATORY (1 credit)

A laboratory course to help integrate the concepts learned in biochemistry lecture with the development of biochemical laboratory skills including experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on protein properties, including enzyme activity. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Fall) (Cross-listed with BIOL 4654, BIOL 8654, CHEM 8654).

Prerequisite(s): CHEM 2260 and CHEM 2274; and either CHEM 2400 or BIOL 3020, all with a C- or better. BIOL 4650 must be taken concurrently with BIOL 4654. CHEM 4650 must be taken concurrently with CHEM 4654.

Distribution: Writing in the Discipline Sequenced Course

CHEM 4660 BIOCHEMISTRY II (3 credits)

A continuation of the study of the structure and function of biomolecules and biochemical reactions with an emphasis on metabolism of carbohydrates, lipids, amino acids and nucleotides, and the chemistry of signal transduction and genetic information transfer. (Spring) (Cross-listed with BIOL 4660, BIOL 8666, CHEM 8666).

Prerequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654. CHEM 4664 must be taken concurrently (Chemistry courses must have a grade of C- or better)

CHEM 4664 BIOCHEMISTRY II LABORATORY (1 credit)

A laboratory course to help integrate the concepts learned in Biochemistry II lecture with the development of biochemical laboratory skills, to gain practical experience in experimental design, data analysis, presentation of results and communication of scientific information, with a focus on formal instruction in journal-style writing and notebook skills. There is an emphasis on nucleic acid properties. Fulfills the third writing course requirement for students majoring in chemistry when NSCI 3940 and another approved laboratory course have been completed with a C- or better. (Spring) (Cross-listed with BIOL 4664, BIOL 8664, CHEM 8664).

Prerequisite(s): CHEM 4650 and CHEM 4654 or BIOL 4650 and BIOL 4654 with a C- or better. BIOL 4660 must be taken concurrently with BIOL 4664. CHEM 4660 must be taken concurrently with CHEM 4664.

Distribution: Writing in the Discipline Sequenced Course

CHEM 4670 PROTEIN PURIFICATION AND CHARACTERIZATION (2 credits)

This course is a study of protein biochemistry, protein purification techniques, and characterization strategies with an emphasis on chromatography and crystallography. The course has a significant laboratory component. (Cross-listed with CHEM 8676).

CHEM 4810 CHEMISTRY INTERNSHIP (1-6 credits)

Application of chemical skills in a non-academic laboratory or workplace through part-time employment or contracted work.

Prerequisite(s): CHEM 2260, CHEM 2274, CHEM 2400, CHEM 2404 with a grade of C- or better and permission of department chair.

CHEM 4930 SPECIAL TOPICS IN CHEMISTRY (1-3 credits)

Selected special topics in chemistry. (Cross-listed with CHEM 8936).

Prerequisite(s): CHEM 2260, CHEM 2400 with a grade of C or better.

Some topics will require more advanced prerequisites and will be accepted for advanced course work in chemistry.

CHEM 4950 CHEMISTRY PROJECTS (1 credit)

Initiation of an independent student research project, and communication of the results.

Prerequisite(s): Depends on the project. Generally, junior standing.

CHEM 4960 CHEMISTRY PROBLEMS (1-3 credits)

Independent student research and communication of results. (Cross-listed with CHEM 8966).

Prerequisite(s): CHEM 4950 with a grade of C or better and permission of instructor.

Chemistry, Bachelor of Arts

To obtain a B.A. with a major in Chemistry, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses (*Testing out of academic skills requirements and enrolling in General Education courses that meet both distribution and diversity requirements are likely to reduce the total number of General Education hours to 34 or fewer.*)
- 16 hours foreign language requirement
- 12 hours college breadth requirement
- 36 hours of major courses
- 19 hours of other courses required for the major
- Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements

A B.A. degree in chemistry requires a minimum of 36 credit hours of approved chemistry courses.

Code	Title	Credits
Chemistry Requirements		
CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	4
CHEM 1190 & CHEM 1194	GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY	4
CHEM 2250	ORGANIC CHEMISTRY I	3
CHEM 2260 & CHEM 2274	ORGANIC CHEMISTRY II and ORGANIC CHEMISTRY LABORATORY	5
CHEM 2400 & CHEM 2404	QUANTITATIVE ANALYSIS and QUANTITATIVE ANALYSIS LAB	4
CHEM 2500	INTRODUCTION TO INORGANIC CHEMISTRY	3
Select two of the following:		8
CHEM 3350 & CHEM 3354	PHYSICAL CHEMISTRY I and PHYSICAL CHEMISTRY I LABORATORY	
CHEM 3360 & CHEM 3364	PHYSICAL CHEMISTRY II and PHYSICAL CHEMISTRY II LABORATORY	
CHEM 4650 & CHEM 4654	BIOCHEMISTRY I and BIOCHEMISTRY I LABORATORY ()	
Five additional credit hours of chemistry must come from the chemistry courses approved for the B.S. in Chemistry degree.		5
Total Credits		36

Code	Title	Credits
Other Required Courses for the Major:		
MATH 1950	CALCULUS I	5
MATH 1960	CALCULUS II	4
Select one of the following sequences:		10

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change. Transfer credit or placement exam scores may change suggested plan of study.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

GPA Requirements: 2.0

Chemistry, Bachelor of Science

To obtain a B.S. with a major in Chemistry, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses
- 12 hours college breadth requirement
- 42 hours of major courses
- 19 hours of cognate courses
- Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements

A B.S. degree in chemistry requires a minimum of 42 credit hours of approved chemistry courses.

Chemistry, Bachelor of Science with a Concentration in Medicinal Chemistry

To obtain a B.S. with a major in Chemistry and a concentration in Medicinal Chemistry, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses (*Testing out of academic skills requirements and enrolling in General Education courses that meet both distribution and diversity requirements are likely to reduce the total number of General Education hours to 34 or fewer.*)
- 12 hours college breadth requirement
- 51 hours of major courses (including the optional concentration)
- 19 hours of cognate courses
- Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements

A Bachelor of Science degree in chemistry with a concentration in medicinal chemistry requires a minimum of 51 credit hours of coursework in both chemistry and biology.

Code	Title	Credits
Required Chemistry Courses

Recommended but not required		
MATH 1970	CALCULUS III	4

These courses can be applied to pre-professional curricula. For example, with proper selection of electives and sequencing of requirements, pre-pharmacy students may meet UNMC College of Pharmacy entrance requirements in three years and still be able to complete a B.S. in chemistry with a concentration in medicinal chemistry in four years.

To graduate with an ACS certified degree, see your chemistry advisor for proper course selection.

MATH 1960	CALCULUS II (***)	4
Humanities and Fine Arts / Global Diversity Course		3

*CHEM 1190: See catalog for most up-to-date prerequisites. Must take CHEM 1194 concurrently.

**ENGL 1160: Requires ENGL 1150 or placement.

***MATH 1960 requires MATH 1950. MATH 1960 is part of the BS Cognate.

Credits		14
Sophomore		
Fall		
CHEM 2250	ORGANIC CHEMISTRY I (*)	3
CHEM 2400 & CHEM 2404	QUANTITATIVE ANALYSIS and QUANTITATIVE ANALYSIS LAB (**)	4
HIST 1000	WORLD HISTORY TO 1500 (or Minor/2nd Major course***)	3
Social Science		3
Humanities and Fine Arts		3

*CHEM 2250: See catalog for most up-to-date prerequisites.

**CHEM 2400: See catalog for most up-to-date prerequisites. Must take CHEM 2404 concurrently.

***CAS Requirement

Credits		16
Spring		
CHEM 2260 & CHEM 2274	ORGANIC CHEMISTRY II and ORGANIC CHEMISTRY LABORATORY (*)	5
CHEM 2500	INTRODUCTION TO INORGANIC CHEMISTRY (**)	3

HIST 1010	WORLD HISTORY SINCE 1500 (or Minor/2nd Major Course ^{***})	3
PHYS 1110 or PHYS 2110	GENERAL PHYSICS I (^) or GENERAL PHYSICS I - CALCULUS LEVEL	4
PHYS 1154	GENERAL PHYSICS LABORATORY I	1
*CHEM 2260: Requires CHEM 2250 with grade of C- or better. Must take CHEM 2274 concurrently.		
**CHEM 2500: See catalog for most up-to-date prerequisites.		
***CAS Requirement		
^PHYS 1110: MATH 1220/1300 or higher with minimum grade of C-; or proficiency via approved scores from ACT, SAT, AP, or a placement exam. PHYS 2110 Requires MATH 1950 with C- min. PHYS 1110/2110+1154 are part of the BS Cognate.		

Credits **16**

Junior

Fall

CHEM 4650 & CHEM 4654	BIOCHEMISTRY I and BIOCHEMISTRY I LABORATORY (*)	4
PHYS 1120 or PHYS 2120	GENERAL PHYSICS II (**) or GENERAL PHYSICS-CALCULUS LEVEL	4
PHYS 1164	GENERAL PHYSICS LABORATORY II	1
Humanities and Fine Arts ^{***}		3
Social Science / US Diversity		3

*CHEM 4650: See catalog for the most up-to-date prerequisites. CHEM 4654 must be taken concurrently.

**PHYS 1120: Requires PHYS 1110 with min grade of C-. PHYS 2120 requires PHYS 2110 and MATH 1960. PHYS 1120/2120 & 1164 are part of the BS Cognate.

***Humanities/Fine Arts course must come from 2nd discipline.

Credits **15**

Spring

BIOL 1450	BIOLOGY I	5
CHEM 3710	ESSENTIALS OF MEDICINAL CHEMISTRY (*)	3
NSCI 3940	WRITING IN CHEMISTRY (**)	2
Additional Chemistry Lecture ^{***}		3-4
Additional Chemistry Lab ^{***}		1

*CHEM 3710: Requires ENGL 1160 and CHEM 2260+2274.

**NSCI 3940: Requires ENGL 1160, and CHEM 2400 or 2500.

***Must take one additional lecture and additional lab related to Organic Chemistry or CHEM 4660+4664 or CHEM 4250. See UNO catalog for options.

Credits **14-15**

Senior

Fall

BIOL 2140	GENETICS (*)	4
CHEM 3350 & CHEM 3354	PHYSICAL CHEMISTRY I and PHYSICAL CHEMISTRY I LABORATORY (**)	4
Social Science ^{***}		3
Additional Humanities and Fine Arts or Minor/2nd Major Course [^]		3

*BIOL 2140: Requires BIOL 1450, 1750, and CHEM 1180. BIOL 1750 is waived for Chemistry majors.

**CHEM 3350: Requires CHEM 2260+2274, 2400+2404, PHYS 1120 or 1120, and MATH 1960.

***Social Science course must be in a 2nd discipline.

^CAS Requirement: Humanities/Fine Arts Course must be in a 3rd discipline.

Credits **14**

Spring

Advanced Chemistry Elective*	4
Additional Social Science or Minor/2nd Major Course ^{**}	3
Elective or Minor/2nd Major Course ^{***}	3
Elective or Minor/2nd Major Course ^{***}	3
Elective Course ^{***}	3

*Must take 4 credit hours of Advanced Chemistry Electives. See Catalog for options.

**CAS Requirement: Social Science Course must be in a 3rd discipline.

***Students need a minimum of 120 credits to graduate. Electives, minors, or a 2nd major may be used to reach this minimum.

Credits **16**

Total Credits **120-121**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Chemistry Minor

Requirements

A minor in chemistry requires 18 credit hours of approved chemistry courses.

All chemistry courses counted toward a minor must be taken from classes approved for chemistry majors. In addition to General Chemistry I and II, students must take 10 additional hours of chemistry courses from the list below, with at least 7 hours at the 2000 level or higher taken in residence at UNO.

Code	Title	Credits
REQUIRED COURSES:		
CHEM 1180	GENERAL CHEMISTRY I (*)	3
CHEM 1184	GENERAL CHEMISTRY I LABORATORY (*)	1
CHEM 1190	GENERAL CHEMISTRY II (*)	3
CHEM 1194	GENERAL CHEMISTRY II LABORATORY (*)	1

Select 10 additional hours of chemistry courses from the below options, with at least 7 hours taken in residence at UNO: **10**

ANALYTICAL

CHEM 2400	QUANTITATIVE ANALYSIS (3 hrs)
CHEM 2404	QUANTITATIVE ANALYSIS LAB (1 hr)
CHEM 3030	ENVIRONMENTAL CHEMISTRY (3 hrs)
CHEM 3424	SPECTROMETRIC CHARACTERIZATIONS (1 hr)
CHEM 4400 & CHEM 4404	INSTRUMENTAL ANALYSIS and INSTRUMENTAL ANALYSIS LABORATORY (4 hrs including lab)

BIOCHEMISTRY

CHEM 4610	BIOCHEMISTRY OF METABOLISM (4 hrs)
CHEM/BIO 4650	BIOCHEMISTRY I (3 hrs)
CHEM/BIO 4654	BIOCHEMISTRY I LABORATORY (1 hr)
CHEM/BIO 4660	BIOCHEMISTRY II (3 hrs)
CHEM/BIO 4664	BIOCHEMISTRY II LABORATORY (1 hr)
CHEM 4670	PROTEIN PURIFICATION AND CHARACTERIZATION (2 hrs)

INORGANIC

CHEM 2500	INTRODUCTION TO INORGANIC CHEMISTRY (3 hrs)
CHEM 3514	INORGANIC PREPARATIONS (1 hr)
CHEM 4500	ADVANCED INORGANIC CHEMISTRY (3 hrs)
CHEM 4510	SOLID STATE INORGANIC CHEMISTRY (3 hrs)
CHEM 4540	GEOCHEMISTRY (3 hrs)

MEDICINAL

CHEM 3710	ESSENTIALS OF MEDICINAL CHEMISTRY (3 hrs)
-----------	---

NUCLEAR

CHEM 4320	NUCLEAR CHEMISTRY
-----------	-------------------

ORGANIC

CHEM 2250	ORGANIC CHEMISTRY I (3 hrs)
CHEM 2260	ORGANIC CHEMISTRY II (3 hrs)
CHEM 2274	ORGANIC CHEMISTRY LABORATORY (2 hrs)
CHEM 3210	INTRODUCTION TO MOLECULAR MODELING (3 hrs)
CHEM 4230	ADVANCED ORGANIC CHEMISTRY - SYNTHESIS (3 hrs)
CHEM 4240	ADVANCED ORGANIC CHEMISTRY - MECHANISM (3 hrs)
CHEM 4250	ADVANCED ORGANIC CHEMISTRY: MECHANISMS AND MODELING (4 hrs)

PHYSICAL CHEMISTRY

CHEM 3350	PHYSICAL CHEMISTRY I (3 hrs)
CHEM 3354	PHYSICAL CHEMISTRY I LABORATORY (1 hr)
CHEM 3360	PHYSICAL CHEMISTRY II (3 hrs)
CHEM 3364	PHYSICAL CHEMISTRY II LABORATORY (1 hr)

POLYMER

CHEM 4310	POLYMER CHEMISTRY (3 hrs)
-----------	---------------------------

RESEARCH

CHEM 4950	CHEMISTRY PROJECTS (1 hr)
CHEM 4960	CHEMISTRY PROBLEMS (1-3 hrs)

INTERNSHIP

CHEM 4810	CHEMISTRY INTERNSHIP (1-6 hrs)
-----------	--------------------------------

SPECIAL TOPICS

CHEM 4930	SPECIAL TOPICS IN CHEMISTRY (1-3 hrs)
-----------	---------------------------------------

Total Credits **18**

Economics

Economics is concerned with how resources are allocated in production, prices are determined, incomes are distributed and growth occurs. Economists examine such issues as how fiscal and monetary policies affect prices and employment, the effect on international trade of international trade agreements and the international price of the dollar, the size and future composition of the labor force, the effects of government regulations on the price, quantity and quality of goods and services, and costs and benefits of environmental policies.

Economists are employed by private businesses, utilities, railroads, government at all levels, educational institutions, labor unions, trade associations and non-profit organizations. In businesses, economists' duties include analyzing and forecasting industry and market conditions, and making recommendations and decisions relative to capital investments, marketing new products, employee compensation, and the impact of government regulation. In addition, economics is superb preparation for graduate work in areas such as business law, political science, international relations, gerontology, and public administration. Economics also is an excellent dual major or minor for many areas of study.

Other Information

All coursework taken for the Economics major or minor must be completed with a grade of "C" or better.

Option for Degree Completion

The Department of Economics has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- The program is available for undergraduate students pursuing the Bachelor of Science in Business Administration (with a concentration in Economics), Bachelor of Science in Economics, or Bachelor of Arts in Economics, desiring to pursue a Master of Science in Economics.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.50.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.

- The admit term must be after the completion term of the undergraduate degree.

Students in the Fast Track program must only enroll in dual-level ECON courses (ECON 8xx6) as their graduate coursework prior to admittance to the graduate program.

Student Groups

Economics Club

The main purpose of the UNO Economics Club (Econ Club, for short) is to increase awareness and knowledge of economic issues among Econ Club members and the overall UNO community. The organization also provides a venue for student-members to examine issues related to academic success, career success, and related matters. The organization shall work towards increasing the membership's engagement with the Omaha community.

Contact

Arts and Sciences Advising Center, 220 ASH

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/economics/>)

Degrees Offered

- Economics, Bachelor of Arts (p. 122)
- Economics, Bachelor of Science (p. 123)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the economics major this is ENGL 3050, ENGL 3980 or other approved course.

Minors Offered

- Economics Minor (p. 124)

By nature, Liberal Arts majors make great employees in any field because of their ability to communicate effectively, think critically and solve complex problems. These timeless skills make them attractive to employers in all walks of society. Specifically though, Economics majors often pursue careers as a:

- Commodities broker
- Credit analyst
- Data analyst
- Data scientist
- Economic forecaster
- Financial analyst
- Insurance underwriter
- Management consultant
- Market research analyst
- Public relations/media organizer
- Securities broker

ECON 1200 SURVEY OF ECONOMICS (3 credits)

An introduction to fundamental economic analysis, applying economic concepts to both domestic and international problems and policies.

Prerequisite(s): Not available to students who have completed either ECON 2200 or 2220.

Distribution: Social Science General Education course

ECON 2200 PRINCIPLES OF ECONOMICS (MICRO) (3 credits)

An introduction to economic principles, decision making and policies affecting product and resource markets. Particular emphasis is on price, output and input decisions by individuals and firms under various market conditions. An introduction to the fundamentals of international trade.

Prerequisite(s): ENGL 1150 and MATH 1310 or MATH 1220 with 'C-' (1.67) or better, or permission of CBA advisor

Distribution: Social Science General Education course

ECON 2220 PRINCIPLES OF ECONOMICS (MACRO) (3 credits)

An introduction to economic principles, decision making and policies on national income and output, employment, growth, money, the price level and the international economy.

Prerequisite(s): MATH 1310 or MATH 1220 and ENGL 1150 with a C-minus (1.67) or better, or permission of CBA advisor

Distribution: Social Science General Education course

ECON 2400 PRINCIPLES OF ECONOMICS FOR EDUCATORS (3 credits)

This course teaches principles of microeconomics and macroeconomics to K-12 educators. After taking this course students will be able to use the economic way of thinking to study current economic issues. Students will be introduced to macroeconomic principles, decision-making and policies on national income and output, employment, growth, money, price level, and fundamentals of international issues. Students will study microeconomic issues including product and resource markets, and prices output and input decisions under various market conditions. Economic concepts will be aligned to K-12 state social studies standards. This course cannot be substituted for ECON 2200 and/or ECON 2220.

Prerequisite(s): MATH 1310 or MATH 1220, ENGL 1150. Not open to non-degree graduate students.

ECON 2600 SURVEY OF BEHAVIORAL ECONOMICS (3 credits)

This course examines the basic concepts behind behavioral economics and the application of behavioral economics across other fields of study. Students will be able to understand the basic variables influencing decision making, including framing and perception as well as the influence of social dynamics and psychological influences.

ECON 3130 ECONOMIC GEOGRAPHY (3 credits)

An introduction to the basic concepts and approaches in contemporary economic geography, stressing the importance of the spatial perspective for an understanding of how economic processes work at global, national, regional, and local scales. (Offered Fall) (Cross-listed with GEOG 3130).

Prerequisite(s): Majoring in Geography. Non-Geography majors: MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3190 SPORTS ECONOMICS (3 credits)

Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Sports Economics, however, students will explore the very real ways in which economics influences sporting competitions and the businesses surrounding them. Students will explore topics such as unionization in sports, discrimination, amateurism, monopoly power, game theory, and more in the context of sports, giving the student a deeper understanding of how these topics apply to real-world problems. After this course, students will understand how readily economics can be applied to businesses and problems in any industry or domain.

Prerequisite(s): ECON 2200 OR ECON 1200 OR ECON 2400 OR Instructor Approval. Not open to non-degree graduate students.

ECON 3200 ECONOMIC THEORY: MICRO (3 credits)

Analysis of individual, firm and industry behavior in product and factor markets. Provides a theoretical foundation for managerial and public policy decision-making.

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 3220 ECONOMIC THEORY: MACRO (3 credits)

This course is designed to follow introductory economics, to examine the determination of output, employment, the price level, inflation, interest rates, and the exchange rate in the economy. Piece-by-piece, theoretical models will be constructed describing how each of these and other variables are determined in both, the long-run and in the short-run. We will analyze how changes in a particular event affect different markets in the economy, and in turn, how one market interacts with another within a general equilibrium framework. A large part of the course will be devoted to business cycle theory, macroeconomic policy issues, and open economy macroeconomics. The world economies are very much integrated, and thus, a full understanding of macroeconomics requires knowledge of international aspects of macroeconomics. The purpose of this course is to provide the student with an understanding of the connection between macroeconomic theory and related policy issues.

Prerequisite(s): Completion of ECON 2200 with a C or better AND ECON 2220 with a C or better

ECON 3290 ECONOMICS OF PUBLIC ISSUES (3 credits)

Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Economics of Public Issues, however, students will explore the real ways in which economics can be used to understand, explain, and answer tough questions that affect everyone. Students will explore and define capitalism and key economic institutions required for economies to develop and prosper. We will examine markets and market failures that exist today. Classes will focus on the outcomes - intended and unintended - of various policies (local, national, and global). While specific issues are going to be covered in the course the intent is that students will learn the tools and strategy of thinking like an economist to guide them through future issues that will come up in their personal, professional, and civic lives.

Prerequisite(s): ECON 2200 OR Instructor Approval.

ECON 3300 INTRODUCTION TO ECONOMETRICS (3 credits)

An introduction to empirical research methods in economics. Subjects covered include estimations of the basic linear regression model, hypothesis testing, correlation coefficients, analysis of variance, multicollinearity, dummy variables, specification error, auto-correlation, heteroscedasticity and unconditional forecasting. Empirical illustrations are provided by reference to contemporary economic questions.

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200, ECON 2220, BSAD 2130 or BSAD 3160, each with a "C" (2.0) or better, or permission of instructor.

ECON 3310 SQL, DATABASES, AND DATA CLEANING FOR DATA SCIENTISTS (3 credits)

Analytics requires data. Within an organization, this data is usually housed in databases. In this class, you will extract data from these systems using Structured Query Language (SQL), programmatically combine multiple datasets, and learn advanced programmatic data cleaning techniques, such as regular expression.

Prerequisite(s): ECON 2200 with a "C" or better

ECON 3320 INTRODUCTION TO ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3 credits)

This course explores the economic approach to environmental and natural resources. It introduces economic concepts and theory at a level accessible to non-economic majors but still challenging to economic majors. It then applies these to such topics as: air and water pollution, solid and hazardous waste management, renewable and nonrenewable natural resource use, and recycling.

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 3550 PUBLIC FINANCE (3 credits)

This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with FNBK 3550).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3600 INTRODUCTION TO INTERNATIONAL ECONOMICS (3 credits)

An introduction to analyses of international trade and the international monetary system. Subjects covered include the economic basis for international specialization and trade, the effect of trade on income distribution, commercial policy, economic integration, the balance of payments, adjustment mechanism, exchange rate determination, external effects of monetary and fiscal policy and foreign investment.

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 4000 SPECIAL TOPICS IN ECONOMICS (3 credits)

This course will explore a specified topic in the field of economics.

Prerequisite(s): Varies by offering

ECON 4210 INDUSTRIAL ORGANIZATION (3 credits)

In this class we will examine why firms and industries behave the way that they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like "Why does everyone hate the cable company?" and "Why are CEOs given so many stock options?" (Cross-listed with ECON 8216).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4240 LABOR ECONOMICS (3 credits)

The course will cover essential topics in Labor Economics including factors leading to equilibrium conditions in the labor market, human capital accumulation, discrimination in the workplace, compensation for undesirable work, mobility, unionization, and more. (Cross-listed with ECON 8246).

Prerequisite(s): ECON 3200

ECON 4300 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)

The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with non negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 8306).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4320 NATURAL RESOURCE ECONOMICS (3 credits)

This course introduces students to the economics and management of Earth's natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What role do markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 8326).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4340 ECONOMICS OF TECHNOLOGY (3 credits)

Innovative dynamism is the economic system which brings us the new goods and processes that make life longer and better. We will examine how the system works, including: The role of the breakthrough inventor and the innovative entrepreneur; whether the system improves or hurts ethical behavior, culture, equality, and the environment; the costs to workers in terms of job loss, and the benefits to workers in terms of the creation of better jobs; how funding, regulatory, and patent policies affect innovative dynamism; and how innovative dynamism in medicine can result in more and faster cures for cancer and other diseases. (Cross-listed with ECON 8346).

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better, or BSAD 8180, or permission of instructor.

ECON 4350 BUSINESS INTELLIGENCE AND REPORTING (3 credits)

The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are trained to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 8316).

Prerequisite(s): BSAD 2130 (or equivalent) OR Instructor Approval

ECON 4450 DOMESTIC MONETARY THEORY AND POLICY (3 credits)

The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 8456).

Prerequisite(s): ECON 3220, or permission of instructor.

ECON 4500 SPECIAL PROBLEMS IN ECONOMICS (2-3 credits)

Individual investigation of specific problems in the field of economics under the supervision of a faculty member.

Prerequisite(s): Senior and permission of department chair.

ECON 4510 ECONOMIC INTERNSHIP (1-3 credits)

Students engage in part time employment in their area of concentration to gain relevant business experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required (maximum 3 credit hours).

Prerequisite(s): Permission of internship coordinator; 'C' (2.0) or better in ECON 2200 and ECON 2220; 2.5 Cumulative GPA; junior or senior standing.

ECON 4570 ECONOMIC CONDITIONS ANALYSIS (3 credits)

This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn where to find data, how to analyze that data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will ensure equal participation. (Cross-listed with ECON 8576).

Prerequisite(s): ECON 2200 and ECON 2220, or permission of the instructor

ECON 4610 INTERNATIONAL TRADE (3 credits)

An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 8616).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4620 INTERNATIONAL MONETARY THEORY (3 credits)

This course is designed to introduce students to topic areas in International Macroeconomics and International Finance. Students will examine the mechanisms of the foreign exchange market, and how exchange rates are determined in the short-run as well as in the long-run. Students will investigate the different exchange rate regimes around the world, including fixed exchange rates, floating exchange rates, crawling pegs, and other arrangements. Students will examine the European Union and ask whether such a system is economically viable. This is especially important in the current economic environment facing Europe. Students will also examine exchange rate crises over history, and examine how they all have common elements. (Cross-listed with ECON 8626).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4660 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)

This course introduces theories and application of economic development and growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 8666).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4730 ECONOMICS OF ENTREPRENEURSHIP (3 credits)

This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 8736, BSAD 8736).

Prerequisite(s): ECON 2200 or permission of the instructor for all students

ECON 4850 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)

This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 8856)

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4990 SENIOR ASSESSMENT (0 credits)

This assessment tool is part of the Department's Student Outcomes effort. It is designed to monitor the Department's performance and to identify changes needed. Graduating seniors must register for and complete this course in the term in which they plan to graduate.

Prerequisite(s): Students must register for ECON 4990 in the term in which they plan to graduate. Not open to non-degree graduate students.

Economics, Bachelor of Arts

To obtain a BA with a major in Economics in the College of Arts & Sciences, a student must fulfill university, college, and departmental requirements.

Hour requirements follow:

- 46 hours of University General Education courses (*Testing out of academic skills requirements and enrolling in major courses that satisfy distribution requirements are likely to reduce the total number of General Education hours.*)
- 16 hours foreign language requirement
- Four years of a single language in high school or four college semesters will satisfy this requirement.
- 12-19 hours college breadth requirement
- 30 hours of major courses
- 6-16 hours of electives

TOTAL HOURS: 120

Requirements

A Bachelor of Arts in Economics consists of a minimum of 30 credit hours, as outlined below.

Code	Title	Credits
ECON 2200	PRINCIPLES OF ECONOMICS (MICRO)	3
ECON 2220	PRINCIPLES OF ECONOMICS (MACRO)	3
ECON 3200	ECONOMIC THEORY: MICRO	3
ECON 3220	ECONOMIC THEORY: MACRO	3

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Economics, Bachelor of Science

To obtain a BS with a major in Economics in the College of Arts & Sciences, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses (*Testing out of academic skills requirements and enrolling in major courses that satisfy distribution requirements are likely to reduce the total number of General Education hours.*)
- 12-19 hours college breadth requirement
- 51 hours of major courses
- 4-11 hours of electives

TOTAL HOURS: 120

Requirements

A Bachelor of Science in Economics consists of a minimum of 36 credit hours.

Code	Title	Credits
Required Economics Courses		
ECON 2200	PRINCIPLES OF ECONOMICS (MICRO)	3
ECON 2220	PRINCIPLES OF ECONOMICS (MACRO)	3

Select 12 hours of Economics electives from 3000-4000 level courses ² 12

Select six hours of Economics electives from 4000 level courses ² 6

Required Cognate Courses

For the B.S. degree, students are required to complete at least 15 hours of related cognate coursework, 3-5 credits of which must come from one of the following math courses: 15

MATH 1930	CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES
or MATH 1950	CALCULUS I
or MATH 1370	APPLIED ALGEBRA AND OPTIMIZATION WITH DATA ANALYSIS

The rest of the 15 credit cognate requirement may be drawn from the following fields: business administration, computer science, geography, history, international studies, mathematics, political science, public administration, sociology, statistics and urban studies. No more than 6 credits of cognate coursework may double-count within the general education requirements. Cognate courses from other fields must be approved by the Economics advisor.

Total Credits 51

¹ Equivalent courses include: SOC 2130, PSYC 3130, STAT 3000, STAT 1530, CIST 2500, STAT 3800, CRCJ/PA/SOWK 3000, and PSCI 3000.

² Economics courses are listed in the "College of Business Administration" section of this catalog.

A minimum of "C" (2.0) is necessary in each required and elective course.

Economics Minor

Requirements

A minor in Economics may be secured by completing the following:

Code	Title	Credits
ECON 2200	PRINCIPLES OF ECONOMICS (MICRO)	3
ECON 2220	PRINCIPLES OF ECONOMICS (MACRO)	3
Select 12 hours of upper division courses in Economics		12
Total Credits		18

Any course that may be used for the major may be used for the minor.

A grade of "C" (2.0) or better is required in each course counting toward the minor.

English

The Department of English at UNO works to increase the general literacy and cultural awareness of UNO students and also the citizens of Omaha and its immediate surroundings. Faculty are considerably involved in the Service Learning Academy, in area public high schools, in city- and state-wide cultural and literary societies, in public readings and lectures, in area literary competitions and a wide array of publication outlets, and at national and international venues, such as Fulbright and CLEPS.

Across all of our efforts in teaching, research, creative activity, and service, the UNO Department of English is a vital component of the university's strategic mission: to make students our focus, to promote academic excellence, and to engage with our community.

Other Information

All coursework taken for the English major or minor must be completed with a grade of "C-" or better.

Student Groups

Sigma Tau Delta (English Honor Society)

Option for Degree Completion—Fast Track Program

The Department of English has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame.

With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing the BA degree in English desiring to pursue an MA in English
- Students must have completed no less than 60 undergraduate hours
- Students must have a minimum undergraduate GPA of 3.5
- Students must complete the Fast Track Approval form (Advisor, GPC Chair) and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course
- Students will work with their undergraduate advisor to register for the graduate courses
- A minimum cumulative GPA of 3.0 is required to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid

- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.
- Students may enroll in dual-level courses for Fast-Track graduate credit, but not seminars

Fast Track Program - TESOL certificate

The Department of Foreign Languages and Literature has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing the BA degree with Foreign Languages & Literature major with concentrations in Spanish and/or French desiring to pursue an MA in Language Teaching. In addition, students pursuing the BA in English with a concentration in Language Studies or students pursuing the TESOL certificate desiring to pursue an MA in Language Teaching.
- Students must have completed no fewer than 60 undergraduate hours
- Students must have a minimum undergraduate GPA of 3.0
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course
- Students will work with their undergraduate advisor to register for the graduate courses
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good academic standing
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted to undergraduate status including financial aid
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.
- Students can complete 9 credit hours in the target language (cross-listed courses at the 4000 level).

Contact

192 Arts and Sciences Hall
402.554.2635

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/english/>)

Degrees Offered

- English, Bachelor of Arts (p. 132)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the English major this is either ENGL 2410 or ENGL 2420, depending on the concentration selected.

Minors Offered

- English Minor (p. 141)

Certificates Offered

- Certificate in Course in Teaching English to Speakers of Other Languages (TESOL) (p. 140)

Students who graduate with a BA from UNO's English department have gained so much more than an appreciation of language and literature. They are community leaders whose understanding of oral and written composition, linguistic and cultural norms, and rhetoric and argumentation are applied to a wide range of occupations. English graduates have not only gone on to organize data for marketing or engineering firms, but have also started businesses, joined political campaigns, and integrated with community institutions in teaching, writing, and other fields of community involvement.

Although the skills gained with an English major are applicable to many fields, English graduates most commonly pursue and succeed in fields such as:

- Marketing Director
- Speech Writer
- Technical Publications Manager
- Technical Writer
- Underwriter
- Account Manager
- Editor
- Research Analyst
- Copywriter
- Grant Specialist
- Journalist
- Web Content Specialist
- Press Secretary
- Program Coordinator Non-Profit

ENGL 1010 INTRODUCTION TO GENRE STUDIES: PROSE (3 credits)

This course introduces students to the study of short stories, novels, and creative non-fiction (optional; inclusion may vary by instructor).

Distribution: Humanities and Fine Arts General Education course

ENGL 1020 INTRODUCTION TO GENRE STUDIES: POETRY, DRAMA, FILM (3 credits)

This course introduces students to the study of poetry, drama, and film (optional; inclusion may vary by instructor).

Distribution: Humanities and Fine Arts General Education course

ENGL 1030 US CULTURES IN LITERATURE (3 credits)

The course introduces students to literary texts representing diverse U.S. groups: their ideologies, norms, and behaviors. Students will study conventions of various genres; ways in which those genres portray group identities; and attitudes toward group identities. Students will engage with texts through analysis, interpretation, and personal reflection.

Prerequisite(s): Placement of 4 or higher on the English Placement and Proficiency Exam (EPPE)

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

ENGL 1090 ENGLISH AS A SECOND LANGUAGE I (3 credits)

This class is an intermediate writing-intensive course that will help students learn about the nature of the academic essay in American university settings; it is intended for students whose language of nurture is not English. Students receive intensive instruction in vocabulary and grammatical conventions appropriate for writing in a variety of disciplines as they engage in expository essay writing. In addition, students study the conventions of a thesis-driven argument and appropriate use of evidence to support their assertions.

Prerequisite(s): A Score \geq 500 on the paper TOEFL, 61 on the Internet TOEFL, 6.0 on the IELTS, 44 on the PTE (Pearson Test of English), or a placement of 2 (ENGL 1090) by Dept of English diagnostic examination (called the English Placement and Proficiency Exam or EPPE).

ENGL 1100 ENGLISH AS A SECOND LANGUAGE II (3 credits)

This class is an advanced writing-intensive course in which students learn about the nature of the academic essay in American university settings; it is intended for students whose language of nurture is not English. Through a study of cultural rhetorics, students become acclimated to the more advanced academic environments they will encounter in American universities and learn the conventions of the writing they will be asked to perform in their major courses, for example, research standards demanded by US professors, including appropriate selection and integration of sources into a student's own writing and navigation of an academic library.

Prerequisite(s): Placement of 3 (ENGL 1100) by Department of English diagnostic examination (called the English Placement and Proficiency Exam or EPPE), or C- or better in ENGL 1090

ENGL 1150 ENGLISH COMPOSITION I (3 credits)

Instruction and practice in academic literacy practices, especially writing summaries, analyses, and critical essays in response to assigned texts. Sections identified as "ENGL 1154" are taught in a computer classroom. (Cross-listed with ENGL 1154).

Prerequisite(s): Placement of 5 (ENGL 1150) on the English Placement and Proficiency Exam (EPPE), score of 20+ on both the ACT Reading and English tests, score of 540+ on the SAT English test, grade of C- or better in ENGL 1100, or by departmental permission

Distribution: Fundamental Academic Skills-Composition 1

ENGL 1154 ENGLISH COMPOSITION I (3 credits)

Instruction and practice in academic literacy practices, especially writing summaries, analyses, and critical essays in response to assigned texts. Sections identified as "ENGL 1154" are taught in a computer classroom. (Cross-listed with ENGL 1150).

Prerequisite(s): Placement of 5 (ENGL 1150/ENGL 1154) on the English Placement and Proficiency Exam (EPPE), A score of 20 or higher on both the ACT Reading and English tests, grade of C- or better in ENGL 1050 or ENGL 1100, or permission of the department.

Distribution: Fundamental Academic Skills-Composition 1

ENGL 1160 ENGLISH COMPOSITION II (3 credits)

Instruction and practice in academic inquiry, especially researching, analyzing, and writing arguments. Sections identified as "ENGL 1164" are taught in a computer classroom. (Cross-listed with ENGL 1164).

Prerequisite(s): Placement of 6 (ENGL 1160/ENGL 1164) on the English Placement and Proficiency Exam (EPPE), grade of C- or better in Composition I, or permission of the department.

Distribution: Fundamental Academic Skills-Composition II

ENGL 1164 ENGLISH COMPOSITION II (3 credits)

Instruction and practice in academic inquiry, especially researching, analyzing, and writing arguments. Sections identified as "ENGL 1164" are taught in a computer classroom. (Cross-listed with ENGL 1160).

Prerequisite(s): Placement of 6 (ENGL 1160/ENGL 1164) on the English Placement and Proficiency Exam (EPPE), grade of C- or better in Composition I, or permission of the department.

Distribution: Fundamental Academic Skills-Composition II

ENGL 1200 AUTOBIOGRAPHICAL READING AND WRITING (3 credits)

This course helps students to write effectively by focusing on their own personal experience and by examining a variety of autobiographical writings. Students are exposed to multicultural perspectives throughout the course.

Prerequisite(s): English Placement and Proficiency Exam (EPPE) score of "3", score of 20+ on both the ACT Reading and English tests, score of 540+ on the SAT English test, grade of C- or better in ENGL 1100, or by Thompson Learning Community permission

Distribution: Humanities and Fine Arts General Education course

ENGL 2000 TOPICS IN LANGUAGE AND LITERATURE (3 credits)

A variety of topics primarily for the non-major. (For example, this course might study the image of the American businessman in American literature.) One or two such topics may be offered each term, depending upon current student interest and available faculty. Students should consult each term's class schedule in order to determine the specific topics for that term. (Cross-listed with WGST 2000 when topic is appropriate).

Prerequisite(s): Variable according to topic.

ENGL 2020 WOMEN'S, GENDER, & SEXUALITY STUDIES IN THE HUMANITIES (3 credits)

An introduction to gender, sexuality, and women's studies in the humanities, exploring both historical and contemporary representations of women and sexual/gender minorities in literature, film, fine arts, performance arts, religion, history, and philosophy.

Prerequisite(s): None; ENGL 1150 recommended.

ENGL 2110 INTRODUCTION TO CREATIVE NONFICTION WRITING (3 credits)

ENGL 2110 is an introduction to creative nonfiction writing. This course focuses on the study and analysis of creative nonfiction, which will focus primarily on the foundational elements of creative nonfiction writing, including characterization, dialogue, mood, rhythm and style, point-of-view, and voice.

Prerequisite(s): ENGL 1150, ENGL 1154, or equivalent, or special permission from instructor. Not open to non-degree graduate students.

Distribution: Humanities and Fine Arts General Education course

ENGL 2160 HONORS COMPOSITION: REASON AND RESEARCH (3 credits)

Instruction and practice in academic inquiry, especially researching, analyzing, and writing arguments. A variant of Composition II for honors students.

Prerequisite(s): Reserved for students in the Honors Program. Admission to the Honors Program and placement of 6 on the English Proficiency Placement Exam (EPPE), grade of C- or better in Composition I, or permission of the Honors Program.

Distribution: Fundamental Academic Skills-Composition II

ENGL 2230 SOCIO-CULTURAL REPRESENTATIONS IN LITERATURE (3 credits)

An introduction to the literature of Native Americans, black Americans, Hispanic Americans (Chicanos, Puerto Ricans or Cubans), and Asian Americans (Chinese and Japanese). Explains and defines cultural terms and practices, and attempts to prepare students for multicultural living.

Prerequisite(s): ENGL 1160 or permission.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

ENGL 2250 THE SHORT STORY (3 credits)

Readings in the modern short story with particular attention to literature as a reflection of life and to form as an outgrowth of content.

Prerequisite(s): ENGL 1160 / ENGL 1164 or permission.

Distribution: Humanities and Fine Arts General Education course

ENGL 2260 BLACK SHORT STORY (3 credits)

A study of short stories written by black American authors as literature and as experience. The course explains and defines cultural terms and practices, and attempts to prepare students for multicultural living. (Cross-listed with BLST 2260).

Prerequisite(s): ENGL 1150, ENGL 1154, or permission of instructor.

Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

ENGL 2280 INTRODUCTION TO LANGUAGE (3 credits)

A study of the nature of language and its role in human affairs.

Prerequisite(s): ENGL 1160 or permission.

Distribution: Social Science General Education course

ENGL 2310 INTRODUCTION TO BRITISH LITERATURE I (3 credits)

A survey of British literature from c.600 to the end of the 18th century.

Prerequisite(s): ENGL 1160 or permission

Distribution: Humanities and Fine Arts General Education course

ENGL 2320 INTRODUCTION TO BRITISH LITERATURE II (3 credits)

A survey of English literature from the Romantic period to the present.

Prerequisite(s): ENGL 1160 or permission

Distribution: Humanities and Fine Arts General Education course

ENGL 2350 AFRICAN AMERICAN LITERATURE 1746-1939 (3 credits)

This course traces the development of black literature from 1746 to 1939.

Included will be a study of multiple genres including: poetry, short story, novel, drama, and nonfiction. Trends to be studied will include early black writers, neoclassic and romantic traditions, and the Harlem Renaissance and Depression era schools of thought. (Cross-listed with BLST 2350).

Prerequisite(s): ENGL 1160 or permission.

ENGL 2360 AFRICAN AMERICAN LITERATURE 1940-PRESENT (3 credits)

This course traces the development of the literary contribution that black Americans have made from 1940 to the present. The course will study multiple genres including: poetry, short story, novel, drama, and nonfiction. Trends to be studied include an evolution in resistance in writing, a movement toward literary assimilation in the 1940s-1950s, and the subsequent movement toward "Black Arts" from the 1960s to the present. (Cross-listed with BLST 2360).

Prerequisite(s): ENGL 1160 or instructor permission

ENGL 2400 ADVANCED COMPOSITION (3 credits)

This course is an advanced study of writing, including careful examination of 1) written genres generally, 2) discourse conventions of a student's academic discipline, and 3) a student's own reading and writing strategies, processes, habits, and preferences. Students will develop understanding of how writing functions in academic and professional communities as well as gain proficiency in discipline-specific research and writing, including identification of audience and rhetorical situation.

Prerequisite(s): ENGL 1160 or permission

Distribution: Writing in the Discipline Single Course

ENGL 2410 CRITICAL APPROACHES TO LITERATURE (3 credits)

An introduction to research, theory, and writing about literary and cultural studies; includes, but is not limited to, reading literary works and a variety of critical interpretations of those works, specialized library research, learning the discipline's documentation style, and writing in diverse genres (e.g. synopses, abstracts, poetry explications, prose analyses, reviews, essay exams and research papers).

Prerequisite(s): ENGL 1160

Distribution: Writing in the Discipline Single Course

ENGL 2420 CRITICAL APPROACHES TO LANGUAGE STUDIES (3 credits)

This course introduces students to Language Studies, including disciplinary theories and discourses, key issues, and methodologies in rhetoric, composition, technical communication, and linguistics. Students will also practice and become familiar with the writing conventions within Language Studies.

Prerequisite(s): ENGL 1160.

Distribution: Writing in the Discipline Single Course

ENGL 2450 AMERICAN LITERATURE I (3 credits)

A survey of American literature to the Civil War.

Prerequisite(s): ENGL 1160 or permission of instructor.

Distribution: Humanities and Fine Arts General Education course

ENGL 2460 AMERICAN LITERATURE II (3 credits)

A survey of American literature since the Civil War.

Prerequisite(s): ENGL 1160 or permission.

Distribution: Humanities and Fine Arts General Education course

ENGL 2470 SURVEY OF NATIVE AMERICAN LITERATURE (3 credits)

An introduction to the literature of the oral tradition among the Native American peoples and to the written literature of post-contact and contemporary times.

Prerequisite(s): ENGL 1160 or permission.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

ENGL 2480 THE AMERICAN LANGUAGE (3 credits)

A study of the historical development, current condition, and diversity of English language varieties in America, including both linguistic and sociocultural factors that have influenced them.

Prerequisite(s): ENGL 1160 or permission

Distribution: U.S. Diversity General Education course

ENGL 2490 LATINO/A LITERATURE (3 credits)

This course is an introduction to contemporary literature by Latinos/as in the United States, providing an overview of Mexican American, Chicano/a, and other Latino/a voices in American literature from the mid-19th Century to the present.

Prerequisite(s): ENGL 1160 or by permission of the instructor. Not open to non-degree graduate students.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

ENGL 2500 LITERATURE OF WESTERN CIVILIZATION: THE ANCIENT WORLD (3 credits)

A study of European literature in English translation. Includes the works of such writers as Homer, Sophocles, Sappho, Virgil, Horace, Ovid and St. Augustine.

Prerequisite(s): ENGL 1160 or permission.

Distribution: Humanities and Fine Arts General Education course

ENGL 2510 GLOBAL EXPLORATIONS: MEDIEVAL TO EARLY MODERN WORLD (3 credits)

A study of world (excluding English) literature and culture in English translation. May include the study of Norse mythology, medieval Jewish and Muslim writers of southern Spain, or the works of such writers as Dante, Chretien de Troyes, Averroes (Ibn Rushid), Maimonides, Christine de Pisan, Maria de Zayas, or Rousseau.

Prerequisite(s): ENGL 1150 or permission

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

ENGL 2520 LITERATURE OF WESTERN CIVILIZATION: THE MODERN WORLD (3 credits)

A study of the modern period in European literature (exclusive of English literature) from the 18th century Romantic movement to recent 20th century developments, including writings from Rousseau through Solzhenitsyn.

Prerequisite(s): ENGL 1160 or permission

ENGL 3000 SPECIAL TOPICS IN ENGLISH (3 credits)

This course introduces students to a specialized subject matter in the disciplines of English Studies not covered in existing courses. This course may be repeated for different topics.

Prerequisite(s): Variable according to topic.

ENGL 3050 WRITING FOR THE WORKPLACE (3 credits)

In this course students learn to write polished, professional communication, focusing content for specific audiences and contexts. Instruction stresses audience and situational analysis, clarity, and professional tone and style as well as elements of format and pattern, research, and revision techniques.

Prerequisite(s): ENGL 1160, ENGL 1164, or permission of instructor

Distribution: Writing in the Discipline Single Course

ENGL 3100 NATIVE AMERICAN LITERATURE: MAJOR FIGURES (3 credits)

An in-depth study of elements of Native American literature or of particular poets, novelists, biographers or short story writers.

Prerequisite(s): ENGL 1160 or permission

ENGL 3130 AMERICAN NONFICTION (3 credits)

This is an intermediate literature course intended to give students broad exposure to American nonfiction. Students will study and analyze a variety of literary forms, including the personal essay, memoir, and literary journalism, from a wide range of historical periods.

Prerequisite(s): ENGL 1160 or equivalent. Not open to non-degree graduate students.

Distribution: Humanities and Fine Arts General Education course

ENGL 3150 FORM AND STYLE IN CREATIVE NONFICTION (3 credits)

This is an introduction to creative nonfiction. This course focuses on the study and analysis of the art of creative nonfiction and its various subgenres: personal essay, memoir, literary journalism, travel writing, segmented/collage essay, and literary/cultural analysis.

Prerequisite(s): ENGL 1160 or ENGL 1164 or a composition II equivalent. Not open to non-degree graduate students.

Distribution: Humanities and Fine Arts General Education course

ENGL 3170 SUCCESSFUL FREELANCE JOURNAL WRITING (3 credits)

This course will address the steps necessary to successful freelance writing: selecting an interesting topic, choosing an innovative angle, understanding audience, researching a suitable publication, drafting a compelling query, editing work and rewriting all or parts of the essay, working with editors, understanding and accepting rejection letters. Ultimately, students in this course will work toward the end goal of submitting their polished work for publication in both paying and non-paying markets.

Prerequisite(s): ENGL 1150 and ENGL 1160 or equivalents

ENGL 3180 GENDER IDENTITY IN PERSONAL WRITING (3 credits)

Students will read a variety of memoirs and personal essays by both emerging and established LGBTQIA-plus creative nonfiction writers and allies, with a focus on trans writers; analyze the craft choices each author makes; analyze textual and theoretical explorations of gender identity and gender performativity; and explore their gender identities, and gender experiences in the essays that they compose. (Cross-listed with WGST 3180).

Prerequisite(s): ENGL 1150 and ENGL 1160 or equivalents required.

ENGL 3280 IRISH LITERATURE I (3 credits)

This course explores Irish literature from the early medieval period (c. 600) to the late nineteenth century and the Irish Literary Renaissance. Texts include works written in Irish as well as in English, and cover a variety of genres, including but not limited to: early medieval monastic nature poetry, medieval prose saga literature, the Irish bardic and aisling traditions, political satire and laments, Anglo-Irish Ascendancy novels, and the Irish Gothic.

Prerequisite(s): ENGL 1160 or permission required; ENGL 2410 and ENGL 2310 recommended.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

ENGL 3290 IRISH LITERATURE II (3 credits)

A survey of Irish literature in both English and Irish from the beginning of the Irish Literary Renaissance (c. 1880) to the present.

Prerequisite(s): ENGL 1160 or permission required; ENGL 2410, and ENGL 2320 or ENGL 3280 recommended. Not open to non-degree graduate students.

Distribution: Global Diversity General Education course

ENGL 3300 JUNIOR TOPICS IN AMERICAN LITERATURE (3 credits)

This course is an introduction to topics in American literature, to include colonial, modern, and postmodern literature and also Native American and immigrant/diaspora literature written in English or read in translation. Readings will vary according to the topic specified.

Prerequisite(s): ENGL 2410 or ENGL 2420

ENGL 3400 JUNIOR TOPICS IN BRITISH/IRISH/ANGLOPHONE LITERATURE (3 credits)

This course introduces students to topics in British or Irish literature or the literature of the former British commonwealths. Readings will vary according to the topic specified.

Prerequisite(s): ENGL 2410 or ENGL 2420. Not open to non-degree graduate students.

ENGL 3500 JUNIOR TOPICS IN GLOBAL LITERATURE (3 credits)

Topics in world literature, to include trans-national and trans-continental literature written in English or read in translation. Readings will vary according to the topic specified.

Prerequisite(s): ENGL 2410 or ENGL 2420. Not open to non-degree graduate students.

ENGL 3610 INTRODUCTION TO LINGUISTICS (3 credits)

An introduction to the concepts and methodology of the scientific study of language; includes language description, history, theory, variation, and semantics as well as first and second language acquisition. (Cross-listed with ENGL 8615).

Prerequisite(s): ENGL 1160 or equivalent.

Distribution: U.S. Diversity General Education course and Social Science General Education course

ENGL 3770 WRITING CENTER THEORY, PEDAGOGY, AND RESEARCH (3 credits)

This course is an introduction to writing center theory, pedagogy, research, and history. The course is designed for undergraduate and graduate students interested in or already working in a writing center. Throughout the course we will explore a wide range of models for writing center work and the often problematic metaphors associated with those models. The overall aim in this course will be to help students develop multiple strategies for teaching writing one-to-one, for conducting research in writing centers, and for understanding writing center administration. (Cross-listed with ENGL 8775).

ENGL 3800 JUNIOR TOPICS IN LANGUAGE STUDIES (3 credits)

This is a special topics course in language studies intended primarily for juniors in the English major. Topics include specific study in the areas of composition, rhetoric, technical communication, and/or linguistics, and will often include considerations of other cultures and languages. Readings may vary according to the topic.

Prerequisite(s): ENGL 2410 or ENGL 2420. Not open to non-degree graduate students.

ENGL 3980 TECHNICAL WRITING ACROSS THE DISCIPLINES (3 credits)

This course emphasizes the problem-solving processes of producing effective written documents and visuals in technical professions. Students will study the genres, situations, and audiences related to professional settings, the contexts in which writing occurs, the process involved in individual and collaborative projects, and the production of technical documents.

Prerequisite(s): ENGL 1160 or permission

Distribution: Writing in the Discipline Single Course

ENGL 4020 AMERICAN POETRY TO 1900 (3 credits)

A comprehensive survey of the American poetic tradition from the 17th to the end of the 19th century. (Cross-listed with ENGL 8026).

Prerequisite(s): ENGL 2410 or ENGL 2420, or another writing in the major course recommended.

ENGL 4030 AMERICAN POETRY SINCE 1900 (3 credits)

A survey of the American poetic tradition from the turn of the twentieth-century to the present, focusing on various "schools" such as Imagism, High Modernism, the Harlem Renaissance, Confessional, Beats, and New Formalism. (Cross-listed with ENGL 8036).

Prerequisite(s): ENGL 2410 or ENGL 2420, or other writing in the major course recommended.

ENGL 4060 THE AMERICAN NOVEL (3 credits)

A comprehensive survey of the evolution of the American Novel from the 1780s to the present day. Special emphasis will be placed on how a broad range of authors have responded to changing cultural and historical circumstances, and on how they have expressed widely varying viewpoints depending on their own gender, race, geographic region, and/or ethnicity. (Cross-listed with ENGL 8066).

Prerequisite(s): ENGL 1150 and 1160; ENGL 2410 recommended

ENGL 4140 AMERICAN LITERARY REALISM AND NATURALISM (3 credits)

In the late nineteenth and early twentieth century two major literary genres - Realism and Naturalism - emerged in the United States not only to challenge the primacy of Romanticism and its generally optimistic view of life but also to actively engage with the modern America created after the Civil War. This course examines a wide range of realist and naturalist works, written between 1865 and 1914, by an extremely diverse group of male and female authors from different races, ethnicities, regions, religions, and socioeconomic classes. Emphasis will be placed on how various cultural, economic, political, and social factors influenced the construction and reception of these works. (Cross-listed with ENGL 8146).

Prerequisite(s): ENGL 2410 or ENGL 2420, and ENGL 2450 or ENGL 2460.

ENGL 4160 TOPICS IN AMERICAN REGIONALISM (3 credits)

A study of major topics in American literary regionalism, with special emphasis on particular social, cultural, and geographical contexts. Focus will be determined by instructor, but may include particular historical periods, geographic regions, authors, or literary themes. (Cross-listed with ENGL 8166).

Prerequisite(s): ENGL 1150 and ENGL 1160 or equivalent; ENGL 2410 highly recommended.

ENGL 4190 THE AMERICAN NIGHTMARE (3 credits)

The literature in this course represents and explores major trends that subvert America's fascination with the "American Dream" narrative and even contend its opposite, an "American Nightmare." Over the twentieth century, many writers expressed a disillusionment with the breach that separates experiences in America from the "America" idealized by narratives of the founding roots and the constructed American Dream. Writers who have experienced or witnessed the marginalization or helplessness of large portions of the American population write in a variety of ways about the failures of this American Dream narrative. This course will analyze these expressions in American literature. (Cross-listed with ENGL 8196).

Prerequisite(s): ENGL 1160 or permission.

ENGL 4210 THE HARLEM RENAISSANCE (3 credits)

"The Harlem Renaissance" was the name given to the explosion in cultural, artistic, and social awareness that occurred primarily in Harlem, an area of New York City, between the end of World War I and the middle of the 1930s. This course will familiarize students with the general characteristics of African American literature produced during this period and its relation to African American literature and American literature writ large. The selected texts and writers will provide particular insight into the historical experiences of African Americans in the U.S. primarily between the two world wars and inform the subsequent cultural production of African Americans in later years. (Cross-listed with ENGL 8216, BLST 4210, BLST 8216).

Prerequisite(s): ENGL 1150 or ENGL 1160, ENGL 2410 recommended

ENGL 4230 LATINO LITERATURE (3 credits)

A study of representative works of Mexican-American, Spanish-American, and American writers, along with their cultural and historical antecedents. Formerly ENGL 4180/8186 Chicano Literature and Culture. (Cross-listed with ENGL 8236).

Prerequisite(s): ENGL 2410 or ENGL 2420

ENGL 4240 TEACHING LATINO LITERATURE (3 credits)

This course is designed specifically for current or future teachers of high school students. It introduces pedagogical approaches of contemporary literature by Latinos/as in the United States. The course provides an overview of Mexican American, Chicano/a, and other Latino/a voices in American literature from mid-19th Century to the present and complement that with social, cultural, historical and other approaches to developing teaching strategies. (Cross-listed with ENGL 8246)

Prerequisite(s): ENGL 1160 or permission.

Distribution: U.S. Diversity General Education course

ENGL 4250 WOMEN'S STUDIES IN LITERATURE (3 credits)

A critical study of literature by and/or about women in which students learn about contributions of women to literature, ask what literature reveals about the identity and roles of women in various contexts, and evaluates standard interpretations from the perspectives of current research and individual experience. (Cross-listed with ENGL 8256, WGST 4250).

Prerequisite(s): ENGL 1160; ENGL 2410 or ENGL 2420 recommended.

ENGL 4260 WOMEN OF COLOR WRITERS (3 credits)

Women of Color Writers is designed to introduce students to the multicultural, literary experience and contributions of women of color writers. The course will elucidate the multi-ethnic and feminist/womanist perspectives reflected in literary works by examining the themes, motifs and idioms about a womanist perspective. The course examines critically the implications and conceptual grounds of literary study which have been based almost entirely on white, male literary experiences and criteria. (Cross-listed with ENGL 8266).

Prerequisite(s): English major. ENGL 1150 or ENGL 11160 required; ENGL 2410 highly recommended

ENGL 4270 WOMEN WRITERS OF THE NORTH AMERICAN WEST (3 credits)

A survey of U.S. and Canadian women writers (18th century to the present) enabling students to examine issues of gender and sexuality across a wide thematic range, including settlement, land use, cultural displacement, and survival in western territories, states, and provinces of North America. (Cross-listed with ENGL 8276, WGST 4270).

Prerequisite(s): ENGL 1150 and ENGL 1160 or equivalent; completion of ENGL 2410 or other writing in the major course recommended.

ENGL 4280 QUEER AMERICAN WESTS (3 credits)

A survey of queer literatures about the American West. The course will explore a variety of genres, including poetry, short stories, plays, novels, creative nonfiction, and, depending on time, film/television. "Queer" will be construed as including any "non-normative" sexualities and sexual identities (e.g., genderqueer, winkle, two-spirit, 3rd/4th gender). Non-western writers (e.g., Walt Whitman) imagining the West queerly may also be included. (Cross-listed with ENGL 8286, WGST 3160).

Prerequisite(s): ENGL 1160; completion of writing in the major course recommended.

ENGL 4300 ANGLO-SAXON LITERATURE (3 credits)

From the sixth to the eleventh centuries, a people known collectively as the Anglo-Saxons ruled Britain, giving it a new name and establishing the roots of the modern English language. Anglo-Saxon culture continues to haunt the modern imagination. We study the historic, artistic and intellectual environment that produced this influential literary tradition. We also place these people, their language, and their writings within the context of the broader early medieval world. Finally, we engage with some of the foremost modern scholars of this fascinating culture. (Cross-listed with ENGL 8306).

Prerequisite(s): ENGL 1160 and ENGL 2410 or ENGL 2420; ENGL 2310 recommended; or instructor permission

ENGL 4320 CHAUCER (3 credits)

A literary, linguistic, and historical study of the works of Geoffrey Chaucer: his dream visions, *Troilus and Criseyde*, and the *Canterbury Tales*. (Cross-listed with ENGL 8326).

Prerequisite(s): ENGL 2310 or ENGL 2320 or permission.

ENGL 4330 RENAISSANCE SATIRE (3 credits)

Satirical traditions and the literature of critique and invective as inherited from medieval and classical forms. Considerations will include satire as an aesthetic, philosophical, and political mode of expression; topicality as it relates to and portrays cultural history; and self-representation through humanist learning and response. (Cross-listed with ENGL 8336).

Prerequisite(s): ENGL 1160 or equivalent. ENGL 2410 or ENGL 2420 and ENGL 2310 are recommended.

ENGL 4340 SHAKESPEARE (3 credits)

A critical study of selected plays and poetry from Shakespeare's works, in the context of the historical and cultural moment of the English Renaissance and as a set of texts inherited and reinvented by modernity. (Cross-listed with ENGL 8346).

Prerequisite(s): ENGL 1160; ENGL 2410 or ENGL 2420 and ENGL 2310 are recommended.

ENGL 4360 RENAISSANCE LYRIC (3 credits)

A study of the meaning and form of the short poetry of the Renaissance, including the sonnet, epithalamion, elegy, mock epic, pastoral, satire, city poem, ballad, song, sestina, country poem, libel, complaint, psalm, devotional lyric, epistle, and epigram. (Cross-listed with ENGL 8366).

Prerequisite(s): ENGL 1160 required and ENGL 2410 and 2310 recommended.

ENGL 4370 RESTORATION AND EIGHTEENTH CENTURY LITERATURE (3 credits)

Poetry, prose (exclusive of the novel), and drama of England in the Restoration and 18th century (1660-1800), with emphasis on Swift and Johnson. Formerly ENGL 4620/8626. (Cross-listed with ENGL 8376).

Prerequisite(s): ENGL 2310 or ENGL 2320 or permission.

ENGL 4380 THE EIGHTEENTH CENTURY ENGLISH NOVEL (3 credits)

Readings in the English novel from Daniel Defoe to Jane Austen. Formerly ENGL 4640/8646. (Cross-listed with ENGL 8386).

Prerequisite(s): ENGL 2310 or ENGL 2320

ENGL 4390 MEDIEVAL CELTIC LITERATURE (3 credits)

This course examines the literature and culture of the Celtic civilizations. The course examines the archeological record and texts about the Celts by Greek and Roman authors, as well as later medieval tales from the Irish, Welsh, and Breton traditions. All texts are in translation with guided reference to the original languages. (Cross-listed with ENGL 8396).

Prerequisite(s): ENGL 2410 or ENGL 2420 and one ENGL course above 3299; or instructor permission; ENGL 2310 recommended. Not open to non-degree graduate students.

ENGL 4400 KING ARTHUR THROUGH THE AGES (3 credits)

Starting with post-medieval selections from the Arthurian corpus, this course follows Arthur back through his many literary incarnations, until we reach the "historical" Arthur (c.1000). We consider the different aesthetic additions, subtractions, and changes made to this secular king of kings within the social and historical contexts of each reincarnation. We also examine Arthur in other media, such as film, with divergent artistic agendas. These other media, too, will be considered within their social and historical contexts in terms of what they have to say about what modern audiences look for in their versions of Arthur and the stories from the Arthurian corpus. All texts are in translation, with guided reference to the original languages. (Cross-listed with ENGL 8406).

Prerequisite(s): ENGL 1160 and ENGL 2410 or ENGL 2420; ENGL 2320 recommended; or instructor permission

ENGL 4410 LITERATURE OF THE ROMANTIC PERIOD (3 credits)

This course surveys literary works published in the Romantic period (roughly, 1789-1832), focusing specifically on those by British, Irish, and Anglophone authors. It considers what these works signify about literary as well as cultural, political, and historical events, movements, or trends. (Cross-listed with ENGL 8416).

Prerequisite(s): ENGL 1160; ENGL 2320 recommended.

ENGL 4420 NINETEENTH-CENTURY ENGLISH AND ANGLOPHONE LITERATURES (3 credits)

English and Anglophone poetry and prose (excluding the novel) in the nineteenth century. (Cross-listed with ENGL 8426).

Prerequisite(s): ENGL 2320 or permission

ENGL 4430 THE BRITISH AND ANGLOPHONE NOVEL (19TH AND 20TH CENTURY) (3 credits)

Introduction to the British and Anglophone novel in the nineteenth and twentieth century. (Cross-listed with ENGL 8436).

Prerequisite(s): ENGL 2320 or permission of the instructor

ENGL 4440 BRAM STOKER: BEYOND DRACULA (3 credits)

This course examines several major works from Stoker's literary oeuvre: *The Snake's Pass* (1890), *Dracula* (1897), *The Jewel of Seven Stars* (1903), *The Lady of the Shroud* (1909), and *The Lair of the White Worm* (1911) and selected short stories. Stoker is one of the more complex figures among the Anglo-Irish literary tradition, so the author and his writing is placed within the social and cultural contexts of late 19th and early 20th century Ireland and England, as well as within broader literary theoretical frameworks - psychoanalytic, gender, and postcolonial criticism among them - for which Stoker's tales continue to provide such rich fodder. (Cross-listed with ENGL 8446).

Prerequisite(s): ENGL 1160 and ENGL 2410 or ENGL 2420; ENGL 2320 recommended; or instructor permission

ENGL 4450 MODERN IRISH DRAMA (3 credits)

A survey of the major movements and significant figures associated with Irish drama from the mid-nineteenth to the twenty-first centuries, with special attention to the socio-cultural and historical contexts in Ireland. (Cross-listed with ENGL 8456).

Prerequisite(s): ENGL 1160 required; ENGL 2410 or ENGL 2420 recommended

ENGL 4460 THE 20TH CENTURY ENGLISH NOVEL (3 credits)

Readings in the English novel from Joseph Conrad to the present. Formerly ENGL 4660/8666. (Cross-listed with ENGL 8466).

Prerequisite(s): ENGL 2410 or ENGL 2420; ENGL 2320 is recommended.

ENGL 4490 GREAT WORKS OF BRITISH LITERATURE (3 credits)

This course pursues a trans-historical approach to literary study while interrogating what makes a literary work "great" within the field of British Literature. It allows students to engage with great works of British literature from across the ages - starting with the foundations of British literary history in the medieval period and extending to the present. Attending to formal, thematic, and historical dimensions of a wide array of literary texts, we will increase our appreciation of the many ways texts make meaning while developing a deep understanding of the British literary tradition. Reading literature with a sense of purpose and comparatively across time will allow us not only to appreciate great works but also to enhance the impact they have on us. Furthermore, we will recognize how culture and politics inform what literary works become deemed "great," thereby developing a critical understanding of the process of canon formation. (Cross-listed with ENGL 8496).

Prerequisite(s): ENGL 1150 or ENGL 1160, ENGL 2410 recommended

ENGL 4620 HISTORY OF ENGLISH (3 credits)

A critical study of both the internal and external histories of English. Includes historical development of English phonology, morphology, graphics, syntax, diction, dialects, and semantics. (Cross-listed with ENGL 8626).

Prerequisite(s): Junior or permission

ENGL 4640 APPLIED LINGUISTICS (3 credits)

This course is designed to develop knowledge and skills for second language instructors and others interested in second language learning and instruction. Content covers relevant second language acquisition (SLA) theory and second language pedagogy. (Cross-listed with ENGL 8646).

Prerequisite(s): ENGL 3610 and Junior standing or with permission from instructor.

ENGL 4650 STRUCTURE OF ENGLISH (3 credits)

A study of grammar as it has been conceived through history, including traditional prescriptive and descriptive approaches as well as transformational-generative grammar. (Cross-listed with ENGL 8656).

Prerequisite(s): ENGL 3610 / ENGL 8615 or permission.

ENGL 4670 SOCIOLINGUISTICS (3 credits)

An exploration of interconnections between language, culture, and communicative meaning, stressing interactional, situational, and social functions of language as they take place and are created within social contexts. (Cross-listed with ENGL 8676).

Prerequisite(s): ENGL 3610/ENGL 8615, or permission.

ENGL 4690 TOPICS IN LINGUISTICS (3 credits)

This course introduces students to a specialized subject matter in the discipline of Linguistics not covered in existing courses. This course may be repeated for different topics. (Cross-listed with ENGL 8696).

ENGL 4730 CONTEMPORARY RHETORIC (3 credits)

A study of contemporary theories and their application with particular attention to invention, form, style, and cultural context. The course will include an overview of ancient rhetoric and address non-Western rhetorics, such as Native-American, Chinese, and Japanese rhetorical theories. Formerly, ENGL 4530/8536. (Cross-listed with ENGL 8736).

Prerequisite(s): Any 2000 or above writing course or permission

ENGL 4750 COMPOSITION THEORY & PEDAGOGY (3 credits)

This course is an overview of composition theories and pedagogies since 1968 and focuses on how historical movements in education and theoretical frameworks (rhetorical, expressivist, socio-cognitivist, collaborative, social constructionist, critical pedagogy, cultural studies, feminist, technological, and linguistic theories) both enrich and complicate the teaching of composition. (Cross-listed with ENGL 8756).

Prerequisite(s): Any 2000 or above writing course or permission

ENGL 4790 ENGLISH CAREER PREPARATION (1 credit)

This course will prepare students for an internship or a career, addressing topics such as finding and applying for internships, workplace and industry, resume and cover letters, interviewing techniques, developing a professional portfolio, and statement of goals. Taking this course prior to an internship is highly recommended. (Cross-listed with ENGL 8796).

Prerequisite(s): Junior or senior level, one 4000-level English course, or permission of instructor.

ENGL 4800 ENGLISH INTERNSHIP (1-3 credits)

Supervised internship in a professional setting with a local employer or nonprofit organization. Hands-on experience. Work hours, activities, and responsibilities must be specified in a written agreement between the employer and the student in consultation with the internship director. Some internships will be paid and some will not. (Cross-listed with ENGL 8806).

Prerequisite(s): ENGL 2410 or ENGL 2420, an ENGL 4000-level writing course, Junior/Senior standing, and permission of internship director.

ENGL 4810 DIGITAL LITERACIES FOR TECHNICAL COMMUNICATORS (3 credits)

This course addresses emerging issues in digital literacies such as the rhetoric of technology, technological competency, technology and information ecologies, critical awareness of technology and human interactions, judicious application of technological knowledge, user-centered design, networking and online communities, ethics and technology, and culture and technology. (Cross-listed with ENGL 8816, JMC 4810, JMC 8816).

Prerequisite(s): ENGL 1160 and CMST 1110 or permission of instructor

ENGL 4820 AUTOBIOGRAPHY (3 credits)

In this creative nonfiction writing course, students will craft, workshop, and revise original works of autobiographical nonfiction. Students will read, discuss and critically analyze writing techniques found in diverse autobiographical prose by published authors and student peers. A final project will invite students to research and summarize a book-length autobiography of their own. (Cross-listed with ENGL 8826).

Prerequisite(s): ENGL 2110 or ENGL 3150 or ENGL 2410 or ENGL 2420 or Instructor Permission

ENGL 4830 TECHNICAL COMMUNICATION (3 credits)

Technical Communication introduces students to the field of technical communication. Students will study the development of print and electronic genres common to industry settings, the design and production of technical documents, the writing processes and work practices of professional technical communicators, and the roles of technical communicators in organizational contexts. (Cross-listed with ENGL 8836, JMC 4830, JMC 8836.)

Prerequisite(s): ENGL 1160 and CMST 1110, or permission of instructor.

ENGL 4840 TRAVEL WRITING (3 credits)

Travel Writing is a course in professional writing. Although the course includes critical examinations of texts, the primary focus is on the composition of various kinds of travel essays. (Cross-listed with ENGL 8846).

Prerequisite(s): ENGL 2410, ENGL 2420, or ENGL 3150

ENGL 4850 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)

This course introduces students to strategies for integrating visual and textual elements of technical documents. Instruction will focus on design theory and application through individual and collaborative projects. Students will develop the professional judgment necessary for making and implementing stylistic choices appropriate for communicating technical information to a lay audience. (Cross-listed with ENGL 8856, JMC 4850, JMC 8856).

Prerequisite(s): ENGL 4810 or ENGL 4830, or permission of instructor.

ENGL 4860 THE MODERN FAMILIAR ESSAY (3 credits)

Students in this course will read as well as write the Modern Familiar Essay, a sub-genre of Creative Nonfiction, with an emphasis on writing the informal essay. Essays will represent a wide scope of perspectives and issues, including gender, social class, education, politics, culture, sexuality, health, race, and ethnicity, and will range from the the sixteenth century "inventor" of the modern essay to twenty-first century practitioners of the form. This course will also cover a wide range of sub-genres and stylistic forms, such as memoir, autobiography, flash, experimental, and more. (Cross-listed with ENGL 8866).

Prerequisite(s): ENGL 2410 or ENGL 2110 or ENGL 3150 or instructor permission for Arts, 7-12; Secondary English, 7-12; and/or English as a Second Language, 7-12

ENGL 4870 TECHNICAL EDITING (3 credits)

This course introduces students to the roles and responsibilities of technical editors: the editorial decision-making processes for genre, design, style, and production of technical information; the communication with technical experts, writers, and publishers; the collaborative processes of technical editing; and the techniques technical editors use during comprehensive, developmental, copyediting, and proofreading stages. (Cross-listed with ENGL 8876, JMC 4870, JMC 8876).

Prerequisite(s): ENGL 1160 or permission of the instructor

ENGL 4890 CAPSTONE COURSE IN TECHNICAL COMMUNICATION (3 credits)

In this capstone course, students will extend foundational skills learned in previous technical communication courses. Students will demonstrate their competency in the technical documentation process in organizational environments, the issues important to the technical communication profession, and the practices of writing and creating complex technical documents for specific purpose and audience. (Cross-listed with ENGL 8896, JMC 4890, JMC 8896).

Prerequisite(s): ENGL 4810, ENGL 4830, ENGL 4870 and ENGL 4850, or permission of instructor.

ENGL 4930 NARRATIVE NONFICTION (3 credits)

Students will read, discuss, and write critical analyses of narrative nonfiction by published and student writers. They will craft, workshop, and revise original works of narrative nonfiction. (Cross-listed with ENGL 8936).

Prerequisite(s): One creative nonfiction course or permission from the instructor

ENGL 4950 BRINGING THE WAR HOME: DEPICTIONS OF WAR VETERANS IN LITERATURE AND FILM (3 credits)

Course explores the impact of war on combatants, their families and communities as represented in literary fiction, film, historical documentation, first-person accounts, and other texts written in or translated to English. (Cross-listed with ENGL 8956, MEDH 4950).

Prerequisite(s): ENGL 1160

ENGL 4960 TOPICS IN LANGUAGE AND LITERATURE (3 credits)

This course introduces students to a specialized subject matter in the discipline of English Studies not covered in existing courses. This course may be repeated for different topics. (Cross-listed with ENGL 8966).

Prerequisite(s): Will vary depending on what the topic is.

ENGL 4970 WRITING ABOUT SICKNESS AND HEALTH (3 credits)

Students will explore many themes of the human experience in healthcare through reading and discussion of selected poems, short stories, excerpts from fiction, and essays and creative nonfiction. To help students generate their own poems, stories, and essays, the class will incorporate the work of community writing programs and projects. (Cross-listed with ENGL 8976).

Prerequisite(s): ENGL 1160 or permission of the instructor.

ENGL 4980 TOPICS: INDEPENDENT STUDY (3 credits)

Specially planned readings in a well-defined field of literature or language, carried out under the supervision of a member of the English faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit once.

Prerequisite(s): Permission of the instructor, junior or senior, and no incompletes outstanding.

ENGL 4990 SENIOR PAPER OR PROJECT (1 credit)

Attached to an existing 4000-level English course in which a student is currently enrolled and normally added during the first six weeks of the academic semester, the Senior Paper or Project contracts a student to produce a culminating paper or project in an area of the English major. The paper or project produced in conjunction with this course will constitute a student's most dedicated accomplishment at the end of her or his undergraduate career.

Prerequisite(s): Permission of the instructor and senior standing. Not open to non-degree graduate students.

English, Bachelor of Arts

Hour Requirements

To obtain a BA with a major in English, a student must fulfill university, college, and departmental requirements:

- 46 University General Education Hours (*Testing out of academic skills requirements and enrolling in major courses that satisfy distribution requirements are likely to reduce the total number of General Education hours.*)
- 16 Foreign Language Hours
- 12-19 College Breadth Requirement Hours
- 36-39 Major Hours
- 0-10 Elective Hours

TOTAL HOURS: 120

Core Requirements

Each concentration has its own core requirements including ENGL 2410 or ENGL 2420, foundational English courses. All concentrations also include a literature, language studies, or creative nonfiction course. All concentrations require a capstone experience, including an internship, the senior paper/project, or student teaching.

The Bachelor of Arts degree with a major in English may be completed through one of four concentrations, each with some overlap in course requirements to allow students to migrate efficiently between concentrations.

- Concentration in Creative Nonfiction
- Concentration in Language Studies
- Concentration in American Literature
- Concentration in British/Irish/Anglophone Literature
- Concentration in Secondary English Teaching (available exclusively as a double major with the BSED degree through CEHHS)

The English major with a concentration in Creative Nonfiction, Language Studies, American Literature, or British/Irish/Anglophone Literature may be added as a double major for students with a primary program of study in or outside the College of Arts and Sciences. For students pursuing a BSED through the College of Education, Health and Human Sciences, the English major is commonly added as a double major. Students should work with an advisor to ensure requirements for both programs are met through a careful selection of courses.

Students wishing to complete the Nebraska State Certification requirements to teach English at the 7-12 level now have the option to also earn a second major in English without adding additional time to their program of study. This partnership between CEHHS and the College of Arts and Sciences creates an efficient path for students who would like to earn the English major and prepare for Nebraska State Certification to teach in this area. Students declare the Bachelor of Science in Education with a major in Secondary Education (Secondary English 7-12 Endorsement) as their primary degree and program of study. They may then add English as a double major (not a dual degree) with a concentration in Secondary English Teaching. For details, see the Concentration in Secondary English Teaching.

American Literature

Code	Title	Credits
Required coursework:		
ENGL 2410 or ENGL 2420	CRITICAL APPROACHES TO LITERATURE CRITICAL APPROACHES TO LANGUAGE STUDIES	3
Select one from the following list of American Literature courses:		3

6 credits of elective in English at any level	6
Total Credits	31-33

The B.A. degree requires completion of a foreign language through the intermediate level.

- ¹ ENGL 4960 when pertaining to an American Literature topic.
² ENGL 4960 when pertaining to a British/Irish/Anglophone topic.
³ ENGL 4960 when pertaining to a Creative Nonfiction topic.
⁴ ENGL 4960 when pertaining to a Language Studies topic.

Secondary English Teaching

The English major with a concentration in Secondary Education 7-12 is ONLY offered as a double major with the College of Education, Health, and Human Sciences. Students are able to earn a B.S. from the College of Education, Health, and Human Sciences with a double major in Secondary Education (Secondary English 7-12 Endorsement) and English, along with Nebraska State Certification to teach in this area.

Complete 36 credit hours in English with grades of C or above (this is different from the English Department's requirement of a minimum grade of C- or above).

Code	Title	Credits
Required Coursework:		
ENGL 2410 or ENGL 2420	CRITICAL APPROACHES TO LITERATURE CRITICAL APPROACHES TO LANGUAGE STUDIES	3
ENGL 2310 or ENGL 2320	INTRODUCTION TO BRITISH LITERATURE I INTRODUCTION TO BRITISH LITERATURE II	3
ENGL 2450 or ENGL 2460	AMERICAN LITERATURE I AMERICAN LITERATURE II	3
ENGL 4060 or ENGL 4490	THE AMERICAN NOVEL GREAT WORKS OF BRITISH LITERATURE	3
Select one of the following:		3
ENGL 2250	THE SHORT STORY	
ENGL 2260	BLACK SHORT STORY	
ENGL 2280	INTRODUCTION TO LANGUAGE

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

ENGL 3130	AMERICAN NONFICTION	3
Additional Social Science for A&S OR Minor/2nd Major course**	3	
ENGL 1000-level or higher elective	3	
Elective	3	
*A&S College Requirement Options		
**A&S College Requirement Option. Additional SS must come from 3rd discipline		
Note: Students need a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives or concentration options to reach those specific minimums.		

Credits **16**

Senior

Fall

Additional Humanities & Fine Arts course for A&S OR Minor/2nd Major Course*		3
ENGL 4000-Level Creative Nonfiction course		3
ENGL 4000-Level Creative Nonfiction course		3
ENGL 4990 or ENGL 4800	SENIOR PAPER OR PROJECT (**) or ENGLISH INTERNSHIP	1-3
Elective		3
Elective		0-1

*A&S College Requirement Option. Additional HFA must come from 3rd discipline.

**ENGL 4800: requires ENGL 2410 or 2420, an ENGL 4000-level writing course, Jr/Sr standing, and permission of internship director. ENGL 4990 requires permission of the department.

Note: Students need a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives or concentration options to reach those specific minimums.

Credits **13-16**

Spring

ENGL 1000-level or higher elective	3
ENGL 4000-Level Brit Creative Nonfiction course	3
ENGL 1000-level or higher elective	3
Elective	3
Elective	3

*Students need a minimum of 120 total credits with at least 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives or concentration options to reach those specific minimums.

Credits **15**

Total Credits **119-123**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Teaching English to Speakers of Other Languages (TESOL) Certificate

Vision Statement

In the United States, the need for well-prepared language teachers is constant. Teachers are more likely than ever to have the opportunity to teach students who come from a variety of cultural and linguistic backgrounds.

The Department of English offers students the opportunity to obtain a certificate in Teaching English to Speakers of Other Languages (TESOL). This is a 15-hour/5-course certificate. Normally, students are able to complete the certificate requirements within three or four semesters.

The TESOL faculty have designed the certificate to help students get up to speed on language theory and pedagogy. You'll start with ENGL 3610 *Introduction to Linguistics*, which sets the foundation for upper-division courses. Then, you'll learn specifics about the English language so that you can explain sounds, words, sentences, and meanings to your students. In addition, you'll study theories about how adults learn languages as well as strategies for teaching language and designing curriculum.

A TESOL certificate does not certify a graduate to teach in Nebraska public schools. Instead, it is an academic credential meant (1) for teachers already certified in other areas, (2) for people who plan to teach in venues other than public schools, and (3) for anyone who works in some capacity with non-native speakers of English. The TESOL Certificate is a rigorous program that will make you very attractive to future employers, whether you remain in the U.S. or work overseas. But learning how to be a good teacher isn't easy. Are you ready for the challenge?

Students in Teacher Education or in Speech/Language Pathology should contact the TESOL director before applying to this program.

Program Contact Information

Sarah Osborn, PhD, Director
189S Arts & Sciences Hall (ASH)
402.554.2955
srfsosborn@unomaha.edu

Program Website (<https://www.unomaha.edu/college-of-arts-and-sciences/english/academics/undergraduate-programs.php>)

Application Deadlines

Applications for this program are accepted on a rolling basis. To apply, write an email to the TESOL Director (srfsosborn@unomaha.edu) and include the following information:

- Your major (and minor if applicable)
- Your overall GPA at UNO
- Your reasons for wanting to complete the TESOL Certificate.

If you're accepted into the program, you will see this change reflected in your UNO DegreeWorks within a few days.

Note that UNO also offers a Graduate TESOL Certificate, which has a separate application process. Visit the Graduate Studies page for more information. (<https://catalog.unomaha.edu/graduate/degree-programs-certificates-minors/english/teaching-english-speakers-other-languages-certificate/index.html#text> (<https://catalog.unomaha.edu/graduate/degree-programs-certificates-minors/english/teaching-english-speakers-other-languages-certificate/#text>))

Requirements

Students seeking a certificate in Teaching English to Speakers of Other Languages (TESOL) must take one course from each of the five categories below for a total of 15 credit hours.

Students in Teacher Education or in Speech/Language Pathology should contact the TESOL director before applying to this program.

Take one course from each of the 5 categories below:

Code	Title	Credits
Category I		
ENGL 3610	INTRODUCTION TO LINGUISTICS	3
Category II		
ENGL 4640	APPLIED LINGUISTICS	3
Category III		
ENGL 4650	STRUCTURE OF ENGLISH	3
Category IV		
ENGL 3770	WRITING CENTER THEORY, PEDAGOGY, AND RESEARCH ¹	3
ENGL 4750	COMPOSITION THEORY & PEDAGOGY ¹	
Category V		
ENGL 4620	HISTORY OF ENGLISH	3

ENGL 4670	SOCIOLINGUISTICS	
ENGL 4800	ENGLISH INTERNSHIP (with a TESOL Placement)	
Total Credits		15

¹ With a TESOL-focused project.

- Note 1: Under some circumstances, the TESOL Certificate Director may allow substitute courses.
- Note 2: Students who earn less than a B in ENGL 3610 Introduction to Linguistics may be disenrolled from the program.

The linguistics faculty strongly recommends that students become proficient in a second language.

English Minor

Requirements

Code	Title	Credits
Select 6 credits of English at the 1000 level or higher (except 1150 and 1160)		6
Select 9 credits of English at the 3000 level or higher		9
Total Credits		15

Environmental Studies

The field of Environmental Studies recognizes that finding solutions to the environmental challenges facing our society requires individuals with experience and training in a broad array of disciplines. Success in the field requires not only a scientific background to develop technical solutions but also an understanding of the social and economic implications of solutions and decisions. The Environmental Studies Program at UNO offers interdisciplinary undergraduate degrees that provide students with training in the breadth of disciplines required to understand the complex nature of solving environmental challenges, as well as the scientific expertise needed to successfully pursue a career relating to the environment.

Other Information

All coursework taken for the Environmental Science major or minor must be completed with a grade of "C-" or better.

Double Counting

ENVN–Geography & Planning and Geography double majors: Students may not count the same 3000-4000 level Geography courses towards both majors, with the exception of GEOG 3530 and 4050.

The **Environmental Science-Geography and Planning** major with Geography minor may not use the same 3000/4000 level course for both programs.

ENVN–Earth Sciences major and Geology minors: GEOL 1170 and one 2000-level or higher course may count toward both programs.

ENVN–Earth Sciences major and Geography minors: one upper-level GEOG/GEOL course may count toward both programs.

ENVN–Life Sciences and Biology double majors: With the exceptions of BIOL 1450 (<https://catalog.unomaha.edu/search/?P=BIOL%201450>), BIOL 1750 (<https://catalog.unomaha.edu/search/?P=BIOL%201750>), BIOL 2140 (<https://catalog.unomaha.edu/search/?P=BIOL%202140>), and BIOL (<https://catalog.unomaha.edu/search/?P=BIOL%203020>)3340, no other biology courses may count for both majors.

BS/BA Geology major with ENVN minor: no 3000/4000 level courses may overlap.

Fast Track Program (for students seeking the BS in Environmental Science with a concentration in Geography and Planning)

The Department of Geography/Geology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a BS in Environmental Science (Geography & Planning Option) desiring to pursue an MS in Geography.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must have a graduate faculty member in the department of Geography/Geology provide a short letter of support for their application to Fast Track as a faculty sponsor/mentor.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses
- A minimum cumulative GPA of 3.0 for graduate coursework is required to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived; the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/environmental-studies/>)

Degrees Offered

- Environmental Science, Bachelor of Science with a Concentration in Analytical Sciences (p. 144)
- Environmental Science, Bachelor of Science with a Concentration in Earth Sciences (p. 146)
- Environmental Science, Bachelor of Science with a Concentration in Geography and Planning (p. 149)
- Environmental Science, Bachelor of Science with a Concentration in Life Sciences (p. 151)

Writing in the Discipline

See concentrations.

Hour Requirements

To obtain a BS in Environmental Sciences, a student must fulfill university, college, and departmental requirements. As an interdisciplinary major, Environmental Sciences meets the college breadth requirement without the addition of a minor or additional General Education courses. Other hour requirements follow:

1. 46 hours of University General Education courses - Environmental Sciences majors who work with their advisor to select courses do not complete 46 hours of coursework solely for the purpose of meeting university General Education requirements. Instead, they select courses to ensure that they:
 - Take six hours of coursework that meets both the six hours of diversity requirements and six hours of distribution requirements,
 - Meet the three-hour University General Education mathematics requirement through completing statistics as part of their major courses,
 - Meet the seven-hour University General Education natural sciences distribution requirement through completing major courses.
 By doing so, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.
2. Minimum of 69-80 hours of major courses depending on the concentration selected.
3. 10 - 21 hours of electives. Total elective credit is determined by the General Education courses taken, concentration selected, and the selection of courses used to fulfill major requirements.

TOTAL HOURS: 120

Core Requirements

All majors complete a set of core courses in the environmental sciences, in addition to completing courses specific to their concentration. Core requirements include:

Code	Title	Credits
ENVN 2010	ENVIRONMENTAL PROBLEMS AND SOLUTIONS	2
Two additional approved introductory environmental science courses		6-7
ENVN/GEOL/BIOL 4610	ENVIRONMENTAL MONITORING AND ASSESSMENT	3
A minimum of 1 credit hour in ENVN 4800 (up to 3 credits can be applied to the major)		
ENVN/BIOL 4800	INTERNSHIP IN ENVIRONMENTAL MANAGEMENT AND PLANNING	1-3
ENVN/GEOG 4820	INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS	3
An approved course in statistics		3-4
An approved GIS course		1-4
An approved course focusing on the human dimensions of environmental studies		3
Total Credits		22-29

Minors Offered

- Environmental Science Minor (p. 153)

The Environmental Studies Program at UNO offers interdisciplinary undergraduate degrees that provide students with training in the breadth of disciplines required to understand the complex nature of solving environmental challenges. Students acquire the scientific expertise to effectively pursue a career relating to the environment by focusing on one of four areas of concentration. The Environmental Studies Program

is committed to preparing students for careers helping to meet the environmental challenges facing us locally, nationally and globally.

Environmental Science – Analytical Sciences concentration

The analytical sciences concentration is designed to produce environmental scientists with a strong background in chemistry preparing them to find solutions to problems associated with chemical pollutants that are being released into the air, earth and water environments of our planet.

Environmental Science – Earth Sciences concentration

The earth sciences concentration is designed to prepare students for a career in environmental geology, working on land, soil, and water conservation.

Environmental Science – Geography and Planning concentration

The geography and planning concentration is designed to produce local and regional planning specialists who understand the best approaches for preventing environmental problems.

Environmental Science – Life Sciences concentration

The life sciences concentration is designed to prepare a student for jobs as environmental biologists protecting natural ecosystems and promoting a healthy environment.

Some career options

- Air and Water quality scientist
- City and Regional Planning aide
- Conservation Biologist
- Environmental consultant
- Environmental educator
- Natural Resource Manager
- Environmental and Public Health Specialist
- Geospatial Information Systems technician
- Restoration Ecologist
- Soil and Water Conservationist
- Sustainability Coordinator
- Wildlife & Fisheries Biologist

ENVN 2010 ENVIRONMENTAL PROBLEMS AND SOLUTIONS (2 credits)

An overview of current environmental problems and the efforts to solve those problems. Intended for Environmental Studies majors and other students with an interest in conservation, the human environment, and management of natural resources. This course examines current local, regional, and global environmental issues and explores work being done to improve environmental quality. The purpose of the course is to give students a broad, interdisciplinary overview of environmental topics and to provide introductory, hands-on experience working with tools that are used to solve environmental problems that they will also encounter in advanced coursework. Usually offered every semester.

Prerequisite(s): BIOL 1330 or GEOL 1010 or GEOG 1050 (or concurrent enrollment). Not open to non-degree graduate students.

ENVN 3180 ENVIRONMENTAL ETHICS (3 credits)

This course introduces students to the thinkers and issues that make environmental ethics what it is today. It includes the analysis and evaluation, from ethical viewpoints, of such topics as: intrinsic value of animals, plants and ecosystems; animal rights; climate change; conservation and preservation; environmental law and politics; obligations to future generations; sustainability and new technologies; war, immigration, and the environment; human rights and the environment; nature and the built environment; and environmental activism. (Cross-listed with PHIL 3180).

Prerequisite(s): Junior or 3 hours of philosophy.

ENVN 4090 SPECIAL TOPICS IN ENVIRONMENTAL STUDIES (3 credits)

A lecture and/or laboratory course pertaining to a specific topic in environmental studies or sustainability not available in the regular curriculum. May be repeated as topics change.

Prerequisite(s): Junior or senior standing.

ENVN 4180 FRESHWATER ECOLOGY (4 credits)

A study of the physical, chemical and biological relationships that serve to establish and maintain plant and animal communities in freshwater environments. (Cross-listed with BIOL 8186, BIOL 4180).

Prerequisite(s): BIOL 1450 and BIOL 1750, junior-senior, or permission of instructor. Must enroll in lab. Not open to non-degree graduate students.

ENVN 4270 GLOBAL ENVIRONMENTAL POLITICS (3 credits)

This course introduces students to issues of global environmental politics and policy, including the science behind issues such as climate change, how environmental policy is made at the national and international levels, and what role politics plays in determining environmental resource use. (Cross-listed with PSCI 4270, PSCI 8276)

Prerequisite(s): PSCI 2210 or junior standing or permission of instructor.

ENVN 4310 OUR ENERGY FUTURE: SOCIETY, THE ENVIRONMENT AND SUSTAINABILITY (3 credits)

In this course, students will analyze our energy options including the environmental, economic, and ethical connections with a particular emphasis on electrical energy. The course doesn't prescribe a particular energy future but rather emphasizes development of the knowledge and skills to more effectively contribute to the conversation. To understand our future, the course begins with the present energy landscape and its historical underpinnings, then focuses on developing a student's ability to critically assess energy options by examining the associated implications, consequences, intent, origins, and bias. Students' own work, life, and academic experience are used in the course to underscore the individual relevance of these energy choices. The course includes the necessary science, but the greater emphasis is on the associated critical and creative thinking so that ultimately students can make informed, creative, sustainable energy choices. (Cross-listed with ENVN 8316, CACT 8316)

Prerequisite(s): Permission of instructor.

ENVN 4320 ECOLOGICAL SUSTAINABILITY AND HUMAN HEALTH (3 credits)

The course will explore and develop the complex context of the systemic links among ecosystems and human health (and more broadly human well-being) using case studies including climate change, water quality, infectious diseases and agricultural production. Students will develop skills in critical thinking and applied research by studying biological connections between humans and ecosystems and how social, economic and cultural processes and practices mediate these connections. This course supports the Health and the Environment concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8326)

Prerequisite(s): Junior or Senior standing

ENVN 4330 INTRODUCTION TO GREEN INFRASTRUCTURE (3 credits)

This course provides an overview of green infrastructure including issues managed with green infrastructure (storm water quality and quantity, urban habitat value, urban sustainability, etc.); basic design and management parameters for best management practices (BMPs); case study applications of BMPs; treatment train assessment and evaluation; and regulatory and cost considerations. (Cross-listed with ENVN 8336).

Prerequisite(s): Junior/Senior standing or instructor permission

ENVN 4350 GLOBAL CLIMATE CHANGE (3 credits)

The primary objective of this course is for students to form a scientific, evidence-based, stance on current and future changes to the Earth's climate. To this end, this course will be based on scientific inquiry into the current state of knowledge. Particular emphases are placed on evidence and causes of change, and the associated environmental and social impacts, including: water resources, extreme weather, human health, and others of interest to the class. (Cross-listed with GEOG 8356, GEOG 4350, ENVN 8356).

Prerequisite(s): At least 1 of the following: GEOG 1030, GEOG 1050, GEOG 3510, GEOG 4320, or permission of instructor

ENVN 4410 WETLAND ECOLOGY AND MANAGEMENT (3 credits)

This course will examine the principles and theory of wetland ecology with application towards wetland management and regulation. An interdisciplinary overview of physical, biological and regulatory aspects of wetlands will allow students to synthesize information from their backgrounds in geography, geology and ecology. Definitions, classifications, natural processes and functions of wetland environments will be presented. Labs concentrate on field techniques used to assess specific plant, animal, soil, and hydrological characteristics of wetlands. (Cross-listed with BIOL 4410 and BIOL 8416)

Prerequisite(s): BIOL 3340 or instructor permission.

ENVN 4420 RESTORATION ECOLOGY (3 credits)

Restoration Ecology examines how people assist with the recovery of ecosystems that have been degraded. The course will examine the theory and application of restoration ecology through lecture, discussion, field trips, and development of a restoration management plan for a degraded ecosystem near Omaha. The course will provide information and resources used by restoration and land management professionals to plan, implement, and manage restorations. (Cross-listed with BIOL 4420, BIOL 8426)

Prerequisite(s): Junior or Senior standing.

ENVN 4600 GIS APPLICATIONS FOR ENVIRONMENTAL SCIENCE (1 credit)

This course introduces the use of geographic information systems (GIS) and other geospatial tools for work in the fields of environmental science, ecology, and natural resource management. The course will develop a working knowledge of the common software and hardware tools used by ecologists through hands-on projects. (Cross-listed with BIOL 4600, BIOL 8606)

Prerequisite(s): BIOL 3340 or permission of instructor.

ENVN 4610 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)

An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, GEOG 4610, GEOG 8616, GEOL 4610, GEOL 8616)

Prerequisite(s): Permission of instructor.

ENVN 4700 SUSTAINABLE SOLUTIONS CAPSTONE (3 credits)

This is a capstone experience for students interested in sustainability and related fields. Students work as part of a multidisciplinary team under the guidance of faculty mentors to develop sustainable solutions to challenges faced by local, regional, or global organizations.

Prerequisite(s): Instructor permission.

ENVN 4800 INTERNSHIP IN ENVIRONMENTAL MANAGEMENT AND PLANNING (1-3 credits)

Internship providing practical experience working with environmental organizations or government agencies for students interested in careers in environmental science and related fields. A proposed internship must be approved by the Environmental Studies Program prior to enrolling. Usually offered Fall, Spring, Summer. (Cross-listed with BIOL 4800)

Prerequisite(s): Permission of the Environmental Studies Program.

ENVN 4820 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)

An introduction to environmental law and regulations intended for students pursuing careers in environmental sciences or related fields. The course emphasizes the origins, implementation, and enforcement of U.S. state and federal laws and regulations. Major federal environmental laws, covering air and water quality, solid and hazardous waste, pollution prevention and remediation, and natural resources will be discussed. Usually offered Fall semesters. (Cross-listed with ENVN 8826, BIOL 4820, GEOG 4820, GEOG 8826, PA 8826)

Prerequisite(s): Junior-senior or permission of the instructor.

ENVN 4970 ADVANCED BOTANY (4 credits)

Advanced Botany examines plant structures (cells, tissues, and organs) and their connections with plant functions (growth, reproduction, photosynthesis, respiration, and dispersal). Topics covered include energy metabolism, development and morphogenesis, genetics, ecology, and the latest in plant taxonomy and phylogeny, keeping students on the forefront of cutting-edge botanical research. In lab, students conduct activities such as dissecting plant organs, making microscope slides, and conducting plant-based experiments, using plants from the local area, from native Great Plains collections, and from around the world and grown in the greenhouse. Students compare and contrast both physiological and morphological adaptations to varying environments. (Cross-listed with BIOL 8976, BIOL 4970).

Prerequisite(s): BIOL 1750 and junior or senior student status or above or instructor permission.

Environmental Science, Bachelor of Science with a Concentration in Analytical Sciences

Requirements

Code	Title	Credits
Required core courses:		
(Note that in the case of cross-listed courses, Environmental Science majors must enroll in the ENVN section)		
ENVN 2010	ENVIRONMENTAL PROBLEMS AND SOLUTIONS	2
GEOL 1010	ENVIRONMENTAL GEOLOGY	3
GEOG 1050	HUMAN-ENVIRONMENT GEOGRAPHY	4
ENVN/GEOL/BIOL 4610	ENVIRONMENTAL MONITORING AND ASSESSMENT	3
A minimum of 1 credit hour in ENVN 4800 must be completed (up to 3 credits can be applied to the major)		
ENVN/BIOL 4800	INTERNSHIP IN ENVIRONMENTAL MANAGEMENT AND PLANNING	1-3

ENVN/GEOG 4820 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS 3

Also required:

An approved course in statistics (BIOL 4110, STAT 1530, STAT 3000, PSYC 3130, SOC 2130) 3-4

An approved GIS course (ENVN 4600, GEOG 1090, GEOG 3530, GEOG 4050) 1-4

An approved course focusing on the human dimensions of environmental studies (ANTH 4250, ENVN 3180, ENVN 4270, SOC 4760, PHIL 3180, PSCI 4270) 3

Analytical Sciences Concentration requirements:

CHEM 1180 GENERAL CHEMISTRY I 3

CHEM 1184 GENERAL CHEMISTRY I LABORATORY 1

CHEM 1190 GENERAL CHEMISTRY II 3

CHEM 1194 GENERAL CHEMISTRY II LABORATORY 1

Select one of the following organic chemistry sequences: 5-8

CHEM 2210 & CHEM 2214 FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY (5 cr)

OR

CHEM 2250 ORGANIC CHEMISTRY I (3 cr)

CHEM 2260 & CHEM 2274 ORGANIC CHEMISTRY II and ORGANIC CHEMISTRY LABORATORY (5 cr)

Also Required:

CHEM 2400 QUANTITATIVE ANALYSIS 3

CHEM 2404 QUANTITATIVE ANALYSIS LAB 1

CHEM 2500 INTRODUCTION TO INORGANIC CHEMISTRY 3

CHEM 3030 ENVIRONMENTAL CHEMISTRY 3

CHEM 3650 FUNDAMENTALS OF BIOCHEMISTRY 3

CHEM 3654 FUNDAMENTALS OF BIOCHEMISTRY LABORATORY 1

CHEM 4400 INSTRUMENTAL ANALYSIS 3

CHEM 4404 INSTRUMENTAL ANALYSIS LABORATORY 1

Required cognate courses:

BIOL 1330 ENVIRONMENTAL BIOLOGY 3

BIOL 2440 THE BIOLOGY OF MICROORGANISMS 4

PHYS 1110 GENERAL PHYSICS I 4

PHYS 1154 GENERAL PHYSICS LABORATORY I 1

PHYS 1120 GENERAL PHYSICS II 4

PHYS 1164 GENERAL PHYSICS LABORATORY II 1

Plus a minimum 11 hours selected from the following: 11

GEOL 1170 INTRODUCTION TO PHYSICAL GEOLOGY (4 cr)

GEOL 2600 GEOHYDROLOGY (3 cr)

GEOL 2750 & GEOL 2754 MINERALOGY and MINERALOGY LABORATORY (4 cr)

GEOL 2760 & GEOL 2764 IGNEOUS AND METAMORPHIC PETROLOGY and IGNEOUS AND METAMORPHIC PETROLOGY LABORATORY (4 cr)

GEOL 3300 & GEOL 3310 STRUCTURAL GEOLOGY and STRUCTURAL GEOLOGY FIELD METHODS (4 cr)

GEOL 4540 GEOCHEMISTRY (3 cr)

GEOG/GEOG 4640 CRITICAL ZONE SCIENCE (4 cr)

GEOG 3510 METEOROLOGY (3 cr)

GEOG 4010 CONSERVATION OF NATURAL RESOURCES (3 cr)

GEOG 4020 SPATIAL ANALYSIS IN GEOGRAPHY (3 cr)

GEOG 4030 COMPUTER MAPPING AND VISUALIZATION (3 cr)

GEOG 4050 GEOGRAPHIC INFORMATION SYSTEMS I (4 cr)

GEOG 4100 BIOGEOGRAPHY (3 cr)

GEOG 4260 PROCESS GEOMORPHOLOGY (4 cr)

GEOG 4320 CLIMATOLOGY (3 cr)

GEOG 4330 SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION (4 cr)

GEOG 4340 WATER RESOURCES (3 cr)

GEOG 4630 ENVIRONMENTAL REMOTE SENSING (4 cr)

GEOG 4660 GEOGRAPHIC INFORMATION SYSTEMS II (4 cr)

BIOL 3020 MOLECULAR BIOLOGY OF THE CELL (3 cr)

BIOL 3340 ECOLOGY (4 cr)

BIOL 3530 FLORA OF THE GREAT PLAINS (4 cr)

BIOL 4120 CONSERVATION BIOLOGY (3 cr)

ENVN 4180 FRESHWATER ECOLOGY (4 cr)

ENVN 4350 GLOBAL CLIMATE CHANGE (3 cr)

ENVN 4410 WETLAND ECOLOGY AND MANAGEMENT (3 cr)

Total Credits

82-91

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the environmental science major with a concentration in analytical science, the writing in the discipline requirement can be fulfilled by completing NSCI 3940 along with CHEM 3354 and an additional approved lab or by completing ENGL 3980.

Analytical Sciences Concentration

Freshman

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I	3
CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	4
PHYS 1110 & PHYS 1154	GENERAL PHYSICS I and GENERAL PHYSICS LABORATORY I	5
Humanities and Fine Arts/US Diversity		3

Credits

15

Spring

BIOL 1330	ENVIRONMENTAL BIOLOGY	3
CHEM 1190 & CHEM 1194	GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY	4
ENVN 2010	ENVIRONMENTAL PROBLEMS AND SOLUTIONS	2
PHYS 1120 & PHYS 1164	GENERAL PHYSICS II and GENERAL PHYSICS LABORATORY II	5

Credits

14

Sophomore

Fall

CHEM 2250	ORGANIC CHEMISTRY I	3
-----------	---------------------	---

CHEM 2400 & CHEM 2404	QUANTITATIVE ANALYSIS and QUANTITATIVE ANALYSIS LAB	4
CMST 1110 or CMST 2120	PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE	3
Social Science/Global Diversity		3

Credits **13**

Spring

CHEM 2260 & CHEM 2274	ORGANIC CHEMISTRY II and ORGANIC CHEMISTRY LABORATORY	5
CHEM 2500	INTRODUCTION TO INORGANIC CHEMISTRY	3
GEOL 1010	ENVIRONMENTAL GEOLOGY	3
Humanities and Fine Arts		3

Credits **14**

Junior

Fall

CHEM 3650 & CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY	4
Approved Statistics Course		3
Humanities and Fine Arts*		3
Social Science		3
An approved course focusing on the human dimensions of environmental studies		3
*HFA #3 – must be in a 2nd discipline		

Credits **16**

Spring

GEOL 1050	HUMAN-ENVIRONMENT GEOGRAPHY	4
Approved GIS Course		4
Approved GEOL/GEOG/BIO/ENVN elective		3
Social Science*		3
Elective of choice, if needed to reach 120**		1-3

*SS #3 – must be in a 2nd discipline

**120 total credits are required for a degree, with a minimum of 18 upper level (3000-4000) credits in the major and 27 upper level credits throughout the degree. Selecting 3000-4000 level electives or course options can help you reach these minimums.

Credits **15-17**

Summer

ENVN 4800	INTERNSHIP IN ENVIRONMENTAL MANAGEMENT AND PLANNING (*)	1
*ENVN 4800: Requires permission of instructor.		

Credits **1**

Senior

Fall

ENVN/GEOL/GEOL/ BIOL 4610	ENVIRONMENTAL MONITORING AND ASSESSMENT (*)	3
ENVN 4820	INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (**)	3
Approved GEOL/GEOG/BIO/ENVN elective***		3
Approved GEOL/GEOG/BIO/ENVN elective***		3
Elective of choice, if needed to reach 120.***		3

*120 total credits are required for a degree, with a minimum of 18 upper level (3000-4000) level credits in the major and 27 upper level credits throughout the degree. Selecting 3000-4000 level electives or course options, when given, can help you reach these minimums.

Credits **15**

Spring

BIOL 2440	THE BIOLOGY OF MICROORGANISMS	4
CHEM 3030	ENVIRONMENTAL CHEMISTRY	3
CHEM 4400 & CHEM 4404	INSTRUMENTAL ANALYSIS and INSTRUMENTAL ANALYSIS LABORATORY	4
NSCI 3940	WRITING IN CHEMISTRY	2
Approved GEOL/GEOG/BIO/ENVN elective		3

Credits **16**

Total Credits **119-121**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Environmental Science, Bachelor of Science with a Concentration in Earth Sciences

Requirements

Code	Title	Credits
Required core courses:		
(Note that in the case of cross-listed courses, Environmental Science major must enroll in the ENVN section)		
ENVN 2010	ENVIRONMENTAL PROBLEMS AND SOLUTIONS	2
BIOL 1330	ENVIRONMENTAL BIOLOGY	3
CHEM 1010	CHEMISTRY IN THE ENVIRONMENT AND SOCIETY	3
or CHEM 3030	ENVIRONMENTAL CHEMISTRY	
ENVN/GEOL/GEOL/ BIOL 4610	ENVIRONMENTAL MONITORING AND ASSESSMENT	3
Minimum of 1 credit hour of ENVN 4800 must be completed (up to 3 credits can be applied to the major)		
ENVN/BIOL 4800	INTERNSHIP IN ENVIRONMENTAL MANAGEMENT AND PLANNING	1-3
ENVN/BIOL/GEOL/ PA 4820	INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS	3
Also required:		
An approved course in statistics (BIOL 4110, STAT 1530, STAT 3000, PSYC 3130, SOC 2130)		3-4

An approved GIS course (GEOL 2300, ENVN 4600, GEOG 1090, GEOG 4050) 1-4

An approved course focusing on the human dimensions of environmental studies (ANTH 4250, ENVN 3180, ENVN 4270, SOC 4760, PHIL 3180, PSCI 4270) 3

Earth Sciences Concentration requirements:

GEOL 1170 INTRODUCTION TO PHYSICAL GEOLOGY 4

One course covering surface processes:

GEOL 4260 PROCESS GEOMORPHOLOGY 4

or GEOL 4330 SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION

or GEOL 4640 CRITICAL ZONE SCIENCE

Select an ADDITIONAL 27 hours of geography/geology/environmental science courses from the following: 27

ENVN 4410 WETLAND ECOLOGY AND MANAGEMENT

GEOL 1180 INTRODUCTION TO HISTORICAL GEOLOGY

GEOL 2300 GEOSCIENCE DATA ANALYSIS AND MODELING

GEOL 2500 SPECIAL TOPICS IN GEOGRAPHY-GEOLOGY

GEOL 2600 GEOHYDROLOGY

GEOL 2750 MINERALOGY

GEOL 2754 MINERALOGY LABORATORY

GEOL 2760 IGNEOUS AND METAMORPHIC PETROLOGY

GEOL 2764 IGNEOUS AND METAMORPHIC PETROLOGY LABORATORY

GEOL 3300 STRUCTURAL GEOLOGY

GEOL 3310 STRUCTURAL GEOLOGY FIELD METHODS

GEOL 3400 INTRODUCTION TO SEDIMENTARY GEOLOGY

GEOL/GEOG 4260 PROCESS GEOMORPHOLOGY

GEOL 4400 GEOPHYSICS

GEOL/GEOG 4640 CRITICAL ZONE SCIENCE

GEOG 3510 METEOROLOGY

GEOG 4010 CONSERVATION OF NATURAL RESOURCES

GEOG/BIOL/GEOL 4100 BIOGEOGRAPHY

GEOG 4320 CLIMATOLOGY

GEOG/GEOL 4330 SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION

GEOG 4350 GLOBAL CLIMATE CHANGE

GEOG 4630 ENVIRONMENTAL REMOTE SENSING

Required cognate courses:

Select one of the following chemistry sequences: 13

Sequence One:

CHEM 1140 & CHEM 1144 FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY

CHEM 2210 & CHEM 2214 FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY

GEOL 4540 GEOCHEMISTRY

Sequence Two:

CHEM 1180 & CHEM 1184 GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY

CHEM 1190 & CHEM 1194 GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY

CHEM 2210 & CHEM 2214 FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY

Select one of the following physics lecture and laboratory combinations: 5

PHYS 1050 & PHYS 1054 INTRODUCTION TO PHYSICS and INTRODUCTION TO PHYSICS LABORATORY

PHYS 1110 & PHYS 1154 GENERAL PHYSICS I and GENERAL PHYSICS LABORATORY I

PHYS 2110 & PHYS 1154 GENERAL PHYSICS I - CALCULUS LEVEL and GENERAL PHYSICS LABORATORY I

Total Credits 75-81

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the Environmental Science major with a concentration in Earth Science, the writing in the discipline requirement can be fulfilled by completing [GEOL 4950](#) or [ENGL 3980](#).

Freshman

Fall Credits

BIOL 1330 ENVIRONMENTAL BIOLOGY 3

CHEM 1010 CHEMISTRY IN THE ENVIRONMENT AND SOCIETY (*) 3

ENGL 1150 ENGLISH COMPOSITION I (**) 3

MATH 1220 COLLEGE ALGEBRA (***) 3
or MATH 1300 or COLLEGE ALGEBRA WITH SUPPORT

Humanities and Fine Arts/US Diversity 3

*CHEM 1010: requires MATH 1220 (MATH 1300) or equivalent.

**ENGL 1150: requires EPPE score of 5 or appropriate placement via AP or ACT.

***MATH: Please see the catalog for the most up-to-date prerequisites.

Credits 15

Spring

CMST 1110 PUBLIC SPEAKING FUNDS 3
or CMST 2120 or ARGUMENTATION AND DEBATE

ENGL 1160 ENGLISH COMPOSITION II (*) 3

ENVN 2010 ENVIRONMENTAL PROBLEMS AND SOLUTIONS (**) 2

GEOL 1170 INTRODUCTION TO PHYSICAL GEOLOGY 4

Social Science / Global Diversity (GEOG 1020 suggested) 3

*ENGL 1160: requires ENGL 1150, EPPE score of 6, or AP Score of 4

**ENVN 2010: requires BIOL 1330 or GEOG 1050 or GEOL 1010 or concurrent enrollment

Credits 15

Sophomore**Fall**

CHEM 1140 & CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY (*, **)	5
--------------------------	---	---

Approved GEOG/GEOL/ENVN Elective 3

Approved GEOG/GEOL/ENVN Elective 4

Humanities and Fine Arts 3

*CHEM 1140: Please see the catalog for the most up-to-date prerequisites.

**CHEM 1180/1184 and 1190/1194 together can substitute for CHEM 1140/1144.

Credits 15

Spring

CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY (*, **)	5
--------------------------	---	---

Approved GEOG/GEOL/ENVN Elective 4

Approved GEOG/GEOL/ENVN Elective 3

Social Science 3

*CHEM 2210: requires CHEM 1140/1144 or CHEM 1190/1194 with a C- or better. CHEM 2214 must be taken concurrently.

**CHEM 2250 and 2260/2274 together can substitute for CHEM 2210/2214.

Credits 15

Junior**Fall**

GEOL 4540	GEOCHEMISTRY	3
-----------	--------------	---

Approved GIS Course 4

Approved GEOG/GEOL/ENVN Elective 4

Humanities and Fine Arts* 3

*HFA – must be in a 2nd discipline

Credits 14

Spring

ENGL 3980	TECHNICAL WRITING ACROSS THE DISCIPLINES (*)	3
-----------	---	---

PHYS 1050 & PHYS 1054	INTRODUCTION TO PHYSICS and INTRODUCTION TO PHYSICS LABORATORY (**, ***, ^)	5
--------------------------	---	---

Approved GEOG/GEOL/ENVN Elective 4

Social Science# 3

*ENGL 3980: requires ENGL 1160, or EPPE score of 7, or AP score of 5

**PHYS 1050: HS algebra or equivalent

***PHYS 1054: HS algebra or equivalent; PHYS 1050 prior or concurrent

^The two-semester sequence of PHYS 1110/1154 and 1120/1164 can be taken in place of PHYS 1050/1054.

#SS – must be in a 2nd discipline

Credits 15

Summer

ENVN 4800	INTERNSHIP IN ENVIRONMENTAL MANAGEMENT AND PLANNING (*)	1
-----------	--	---

*ENVN 4800: requires permission of instructor.

Credits 1

Senior**Fall**

Environmental Science, Bachelor of Science with a Concentration in Geography and Planning

Requirements

Code	Title	Credits
Required core courses:		
(Note that in the case of cross-listed courses, Environmental Science majors must enroll in the ENVN section.)		
ENVN 2010	ENVIRONMENTAL PROBLEMS AND SOLUTIONS	2
ENVN/GEOG/GEOL/BIOL 4610	ENVIRONMENTAL MONITORING AND ASSESSMENT	3
GEOL 1010	ENVIRONMENTAL GEOLOGY	3
Minimum of 1 credit hour of ENVN 4800 must be completed (up to 3 credits can be applied to the major)		
ENVN/BIOL 4800	INTERNSHIP IN ENVIRONMENTAL MANAGEMENT AND PLANNING	1-3
ENVN/BIOL/GEOG/PA 4820	INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS	3
Also required:		
An approved course in statistics (BIOL 4110, STAT 1530, STAT 3000, PSYC 3130, SOC 2130)		3-4
An approved course focusing on the human dimensions of environmental studies (ANTH 4250, ENVN 3180, ENVN 4270, SOC 4760, PHIL 3180, PSCI 4270)		3
Introductory GIS lecture and lab:		
GEOG 3530	CARTOGRAPHY AND DATA VISUALIZATION	4
Geography and Planning Concentration requirements:		
Select one physical geography course from the following:		4
GEOG 1030	OUR DYNAMIC PLANET: INTRODUCTION TO PHYSICAL GEOGRAPHY	
GEOG 1050	HUMAN-ENVIRONMENT GEOGRAPHY	
Select three courses from the following in Human Geography and Planning:		9
GEOG 1020	INTRODUCTION TO HUMAN GEOGRAPHY	
GEOG 4120	URBAN GEOGRAPHY	
GEOG 4160	URBAN SUSTAINABILITY	
ENVN 4330	INTRODUCTION TO GREEN INFRASTRUCTURE	
Or alternative courses approved by advisor.		
Select three courses in Physical Geography:		9-12
GEOG 3440	NEBRASKA NATURAL RESOURCES MANAGMENT	
GEOG 3510 & GEOG 3514	METEOROLOGY and INTRODUCTION TO METEOROLOGY LABORATORY (*)	
GEOG/BIOL/GEOL 4100	BIOGEOGRAPHY	
GEOG 4260	PROCESS GEOMORPHOLOGY	
GEOG 4320	CLIMATOLOGY	
GEOG/GEOL 4330	SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION	
GEOG 4340	WATER RESOURCES	

GEOG 4350	GLOBAL CLIMATE CHANGE	
GEOG/GEOL 4640	CRITICAL ZONE SCIENCE	
• Both GEOG 3510 and GEOG 3514 must be completed and count as a single course towards this requirement.		
Select two additional courses in Geospatial Sciences:		6-8
GEOG 4020	SPATIAL ANALYSIS IN GEOGRAPHY	
GEOG 4030	COMPUTER MAPPING AND VISUALIZATION	
GEOG 4050	GEOGRAPHIC INFORMATION SYSTEMS I	
GEOG 4630	ENVIRONMENTAL REMOTE SENSING	
GEOG 4660	GEOGRAPHIC INFORMATION SYSTEMS II	
Required cognate courses:		
BIOL 1330	ENVIRONMENTAL BIOLOGY	3
CHEM 1010 & CHEM 1014	CHEMISTRY IN THE ENVIRONMENT AND SOCIETY and CHEMISTRY IN THE ENVIRONMENT AND SOCIETY LABORATORY	4
Select one computer science course from the following:		3
CIST 1300	INTRODUCTION TO WEB DEVELOPMENT	
ISQA 3310	MANAGING THE DATABASE ENVIRONMENT	
Select two additional courses in Biology from the following:		6-9
BIOL 1020	PRINCIPLES OF BIOLOGY	
BIOL 3340	ECOLOGY	
BIOL 3530	FLORA OF THE GREAT PLAINS	
BIOL 4120	CONSERVATION BIOLOGY	
BIOL 4180	FRESHWATER ECOLOGY	
BIOL 4210	FIRE ECOLOGY	
BIOL/ENVN 4410	WETLAND ECOLOGY AND MANAGEMENT	
Physics lecture and lab:		5
PHYS 1050 & PHYS 1054	INTRODUCTION TO PHYSICS and INTRODUCTION TO PHYSICS LABORATORY	
Total Credits		71-82

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the Environmental Science major with a concentration in Geography and Planning, the writing in the discipline requirement can be fulfilled by completing [ENGL 3980](#).

Freshman

Fall		Credits
BIOL 1330	ENVIRONMENTAL BIOLOGY	3
ENGL 1150	ENGLISH COMPOSITION I (*)	3
GEOG 1020	INTRODUCTION TO HUMAN GEOGRAPHY (**)	3
MATH 1220 or MATH 1300	COLLEGE ALGEBRA (***) or COLLEGE ALGEBRA WITH SUPPORT	3
Humanities and Fine Arts/US Diversity		3
*ENGL 1150: requires appropriate placement.		
**GEOG 1020 counts within the Human Geography category of the major and as a prerequisite for GEOG 3530. It may also be used for a social science/global diversity.		
***MATH: Math 1220/1300 or higher. Please see the catalog for the most up-to-date Math prerequisites.		

Credits

15

Spring

CHEM 1010 & CHEM 1014	CHEMISTRY IN THE ENVIRONMENT AND SOCIETY and CHEMISTRY IN THE ENVIRONMENT AND SOCIETY LABORATORY (*)	4
CMST 1110 or CMST 2120	PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE	3
ENGL 1160	ENGLISH COMPOSITION II (**)	3
ENVN 2010	ENVIRONMENTAL PROBLEMS AND SOLUTIONS (***)	2
GEOG 1030 or GEOG 1050	OUR DYNAMIC PLANET: INTRODUCTION TO PHYSICAL GEOGRAPHY or HUMAN-ENVIRONMENT GEOGRAPHY	4

*CHEM 1010: Requires MATH 1220 (or MATH 1300) or higher or proficiency via ACT, SAT, AP, or Math Placement Exam

**ENGL 1160: requires ENGL 1150 or appropriate placement.

***ENVN 2010: requires BIOL 1330 or GEOL 1010 or GEOG 1050 or concurrent enrollment.

Credits **16**

Sophomore**Fall**

GEOL 1010	ENVIRONMENTAL GEOLOGY	3
CIST 1300 or ISQA 3310	INTRODUCTION TO WEB DEVELOPMENT (*) or MANAGING THE DATABASE ENVIRONMENT	3
STAT 3000 or PSYC 3130 or SOC 2130 or STAT 1530	STATISTICAL METHODS I (**) or STATISTICS FOR THE BEHAVIORAL SCIENCES or SOCIAL STATISTICS or ELEMENTARY STATISTICS	3

Humanities and Fine Arts/ US Diversity 3

Social Science 3

*CIST 1300: MATH 1220/1300 or 1120 or 1130 or higher. A programming course is one of the prerequisites for GEOG 3530. ISQA 3310 requires CIST 2100 as a prereq, which can be used as a social science.

**Statistics: several options are available for students, most requiring MATH 1220/1300 or higher or proper placement as a prereq. Speak with your advisor for more options.

*120 total credits are required for a degree, with a minimum of 18 upper level (3000-4000) credits in the major and 27 upper level credits throughout the degree. Selecting 3000-4000 level electives or course options (such as statistics) can help you reach these minimums.

Credits **15**

ENVN/BIOL 4800	INTERNSHIP IN ENVIRONMENTAL MANAGEMENT AND PLANNING	1-3
ENVN/BIOL/GEOL/PA 4820	INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS	3
Also required:		
An approved course in statistics (BIOL 4110, STAT 1530, STAT 3000, PSYC 3130, SOC 2130)		3-4
An approved GIS course (ENVN 4600, GEOG 1090, GEOG 3530, GEOG 4050)		1-4
An approved course focusing on the human dimensions of environmental studies (ANTH 4250, ENVN 3180, ENVN 4270, SOC 4760, PHIL 3180, PSCI 4270)		3
Life Science Concentration requirements:		
BIOL 1450	BIOLOGY I	5

BIOL 1750	BIOLOGY II	5
BIOL 2140	GENETICS	4
BIOL 3340	ECOLOGY	4
BIOL 3530	FLORA OF THE GREAT PLAINS	4
BIOL 4120	CONSERVATION BIOLOGY	3

Select three additional upper division courses in Biology or Environmental Science from the approved list below). At least two courses must include a lab.

Required cognate courses:

CHEM 1010	CHEMISTRY IN THE ENVIRONMENT AND SOCIETY	3
or CHEM 3030	ENVIRONMENTAL CHEMISTRY	

In addition, select one of the following chemistry sequences: 10-13

Sequence One:

CHEM 1140 & CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY
CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY

Sequence Two:

CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY
CHEM 1190 & CHEM 1194	GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY
CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY

Complete one additional approved physical science course in Chemistry, Geology, Physical Geography, or Physics. 3-5

CHEM 3650 & CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY
PHYS 1050 & PHYS 1054	INTRODUCTION TO PHYSICS and INTRODUCTION TO PHYSICS LABORATORY
PHYS 1110	GENERAL PHYSICS I

*With approval from the Environmental Studies Program

** May be used to satisfy the statistics requirement or can count towards the required biology and environmental Science courses, but not both

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the environmental science major with a concentration in life sciences, the writing in the discipline requirement can be fulfilled through one of the two options for biology majors:

Option I

Complete two courses from each of the three tiers below. All courses used to meet the writing requirement must be taken at UNO. Only courses completed in 2010 or later qualify.

Tier I

Code	Title	Credits
BIOL 1450	BIOLOGY I	5
BIOL 1750	BIOLOGY II	5

Tier II

Code	Title	Credits
BIOL 2140	GENETICS	4
BIOL 3020	MOLECULAR BIOLOGY OF THE CELL	3
BIOL 3340	ECOLOGY	4

Tier III two writing in the discipline 3000 or 4000 level biology courses designated as Tier III courses.

Option II

Complete either:

Code	Title	Credits
BIOL 3150	WRITING AND COMMUNICATION IN THE BIOLOGICAL SCIENCES	3

OR		
ENGL 3980	TECHNICAL WRITING ACROSS THE DISCIPLINES	3

Freshman

Code	Title	Credits
BIOL 1450	BIOLOGY I	5
ENGL 1150	ENGLISH COMPOSITION I (*)	3
GEOG 1050	HUMAN-ENVIRONMENT GEOGRAPHY	4
MATH 1220 or MATH 1300	COLLEGE ALGEBRA (**) or COLLEGE ALGEBRA WITH SUPPORT	3-4
*ENGL 1150: requires placement via EPPE, ACT, or AP score		
**MATH : Refer to the catalog for the most up-to-date prerequisites.		

Credits 15-16

Spring

BIOL 1750	BIOLOGY II (*)	5
CMST 1110 or CMST 2120	PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE	3
ENGL 1160	ENGLISH COMPOSITION II (**)	3

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Environmental Science Minor

Students interested in a minor in environmental science must meet with the Director of Environmental Studies (jmccarty@unomaha.edu) to develop an approved plan of study.

Requirements

Code	Title	Credits
------	-------	---------

Required courses:

ENVN 2010	ENVIRONMENTAL PROBLEMS AND SOLUTIONS	2

Foreign Languages and Literature

The Department of Foreign Languages & Literature offers a Bachelor of Arts (B.A.) in Foreign Languages and Literature with concentrations in French, German, Spanish, and Spanish for Health Sciences. A total of 30 upper-division (3000-4000 level) credit hours are required for a concentration in French, German, and Spanish. In addition to SPAN 1140 (1 credit hour), a

total of 30 upper-division (3000-4000 level) credit hours are required for the concentration in Spanish for Health Sciences.

The department offers introductory through advanced courses in French, German, and Spanish, as well as courses through the intermediate level in Japanese. It should be noted that the Spanish minor may be earned on campus, entirely online, or a combination of the two. Chinese is offered at the beginning level. In addition, the department participates in such interdisciplinary programs as International Studies, Latino and Latin American Studies, Women's and Gender Studies, Medical Humanities, and offers summer courses in France, Germany, Canada, Mexico and Spain.

Double Majors for Secondary Education World Language Majors

Students pursuing a B.S. from the College of Education, Health and Human Sciences with a first major in Secondary Education (World Language-French or German or Spanish 7-12 Endorsement) and working toward Nebraska State Certification to teach in this area may also earn a second major in Foreign Languages and Literature by declaring that major with the College of Arts & Sciences Advising Center (<https://www.unomaha.edu/college-of-arts-and-sciences/academic-advising-center/>).

Students will complete 30 credit hours in French, German, or Spanish with grades of C or above (this is different from the Foreign Languages & Literature Department's requirement of a minimum grade of C- or above). Students declaring this second major should work with their advisor to select courses that align with both programs and require no additional coursework on the part of the student.

Other Information

Courses in the 1110, 1120, 2110, 2120 sequences may not be taken out of order. Students must pass the prerequisite course with a grade of "C-" or better before taking the next course in the sequence and may not take an earlier course in any sequence for credit once they have received credit in a later course in any sequence. All 3000 and 4000 level courses may be taken for honors credit in cooperation with the University Honors Program.

There is a laboratory fee for all foreign language courses at the 1000 and 2000 levels.

Special Requirements

The Department of Foreign Languages and Literature does not accept transfer credits from any institution for its 1000/2000 level courses except for those as allowed by the College of Arts and Sciences. To enroll in any French, German, or Spanish course beyond 1110, a student who has not successfully completed the prerequisite courses at UNO must take the appropriate placement exam and qualify for the desired course. Native and heritage speakers of French, German or Spanish wishing to take a course in their language of nurture are exempt from this requirement. They are advised to make an appointment with an advisor in the Department of Foreign Languages and Literature for appropriate placement. All other students are subject to this requirement including transfer students. UNK/UNL students are not exempt from this requirement. The Department of Foreign Languages and Literature reserves the right to cancel the registration of any student who has not met the prerequisites for a course. Transfer courses at the 3000/4000 level are subject to the approval of a departmental adviser and the department chair. All foreign language courses must be completed with a grade of C- or better in order for the student to continue to the next course.

Residency

All majors in Foreign Languages and Literature must complete a minimum of 12 credit hours in their major language at the 3000 or 4000 level in residence at UNO.

All minors in Foreign Languages and Literature must complete a minimum of 9 credit hours in their minor language at the 3000 or 4000 level in residence at UNO.

Student Groups

The department of Foreign Languages has active student groups: Le Cercle Français, Stammtisch, Pi Delta Phi, Sigma Delta Pi, and Tertulia. Visit the department website (<https://www.unomaha.edu/college-of-arts-and-sciences/foreign-languages-and-literature/student-opportunities/student-organizations.php>) for more information.

Option for Degree Completion - Fast Track Program

The Department of Foreign Languages and Literature has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing the BA degree with Foreign Languages & Literature major with concentrations in Spanish and/or French desiring to pursue an MA in Language Teaching.
- Students must have completed no fewer than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good academic standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted to undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived; the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
- Admission to Fast Track does NOT guarantee admission to the graduate program.
- The admit term must be after the completion term of the undergraduate degree.
- Students can complete 9 credit hours in the target language (cross-listed courses at the 4000 level).

Contact

301 Arts & Sciences Hall

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/foreign-languages-and-literature/>)

Degrees Offered

- Foreign Languages and Literature, Bachelor of Arts (p. 162)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. FREN 4040, GERM 4040, and SPAN 4040 are the approved university writing courses for the concentrations in French, German and Spanish. SPAN 4800 is the approved university writing course for the concentration in Spanish for Health Sciences. Students must have

completed ENGL 1160 in order to take their writing in the discipline course (of the university core curriculum) in a foreign language.

Minors Offered

- French Minor (p. 168)
- German Minor (p. 168)
- Spanish Minor (p. 169) - Available online or on campus
- Spanish for Health Sciences Minor (p. 169)

Minor in Foreign Languages

A minimum of 15 credit hours in courses at the 3000 and 4000 level are required for a minor in French, German, or Spanish. For a minor in Spanish for Health Sciences, a minimum of 16 credit hours are required in courses at the 3000 and 4000 level. All foreign language minors must complete a minimum of 9 credit hours in their minor language at the 3000 or 4000 level in residence at UNO. Students may earn the Spanish minor by taking courses on campus, online, or a combination of the two.

In the Department of Foreign Languages and Literature at UNO, our goal is to provide students with the linguistic and cultural proficiency required of a global education. Language study at UNO provides a myriad of opportunities to use the language you are studying both within and outside of the classroom through study abroad opportunities and engagement in the Omaha community. Foreign Languages & Literature majors often pursue career paths such as the following:

- business: human resources, sales, marketing, logistics, international business
- law/law enforcement: police, immigration, law (international, immigration or environmental law)
- government and non-profit services: non-profit management or administration, Peace Corps, Foreign Service, linguistics, social work, environmental justice, research (for think tanks, non-profits, government)
- healthcare: healthcare navigation, patient relations, nursing, medicine, dentistry, speech therapy
- education (p-16): teaching, bilingual assistance, administration (OPS requires that principals be or become bilingual), counseling, special education, library services
- communication/journalism: radio, television, publishing (e.g. newspapers, magazines, blogs, books), and advertising. Specialized areas include writing, editing, proofreading, transcribing, subtitling, voice-over recording
- travel and hospitality: travel agency services, tour guiding, event coordination, concierge services.

French

FREN 1110 ELEMENTARY FRENCH I (5 credits)

Elementary French I emphasizes the mastery of all four language skills: speaking, listening, reading, and writing, as well as introduces cultural issues from the francophone world.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

FREN 1120 ELEMENTARY FRENCH II (5 credits)

French 1120 is the second course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including listening, writing, speaking, and reading.

Prerequisite(s): FREN 1110 with a grade of C- or better or placement by diagnostic examination. Department permission is needed for transfer credit.

FREN 2110 INTERMEDIATE FRENCH I (3 credits)

Grammar review, continued oral practice, and introduction to literary readings.

Prerequisite(s): FREN 1120 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

FREN 2120 INTERMEDIATE FRENCH II (3 credits)

Grammar review, continued oral practice, and introduction to literary readings.

Prerequisite(s): FREN 2110 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

FREN 3020 SPECIAL TOPICS IN FRENCH (3 credits)

Topics for this course will include French grammar review, conversation practice, composition, and structure. This course is a bridge course designed for students who have completed FREN 2120, FREN 3030, or FREN 3040, to prepare them for 3000/4000-level content courses in French.

Prerequisite(s): FREN 2120 or equivalent. Not open to non-degree graduate students.

FREN 3030 FRENCH CONVERSATION (3 credits)

Practice in a variety of conversational situations and levels.

Prerequisite(s): FREN 2120 or placement by Department of Foreign Languages diagnostic examination.

FREN 3040 FRENCH GRAMMAR AND COMPOSITION (3 credits)

Review of grammatical principles, practice in written composition.

Prerequisite(s): FREN 2120 or placement by Department of Foreign Languages diagnostic examination.

FREN 3050 INTRODUCTION TO TRANSLATION (3 credits)

Introduction to the theory and various techniques of translation from French into English. Students will review specific differences between French and English grammar and lexicon. Students will first practice translating sentences, moving to paragraphs to end on translating various genres of literary works. Throughout the course, students will translate a great variety of texts such as news articles, administrative forms, official records, business documents, brochures, operating instructions, and how to translate subtitles.

Prerequisite(s): FREN 3040 or permission

FREN 3060 READINGS IN FRENCH (3 credits)

This course aims to increase students' fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students' vocabulary through the use of a variety of primary sources; many genres will be sampled.

Prerequisite(s): FREN 2120. Not open to non-degree graduate students.

FREN 3160 INTRODUCTION TO FRENCH LITERATURE (3 credits)

Readings in this survey course will include a selection of French authors from the medieval period to the present. This selection will vary depending on the instructor. The main objective of this course is the development of critical reading skills and an understanding of major authors, movements, and themes in French literature. Students will read selections from numerous authors in a variety of genres, including short stories, theater, poetry, and the novel. The course also focuses on continuing to develop French language skills, in particular through reading for comprehension and interpretation of metaphorical meaning. Discussion will help to hone speaking skills.

Prerequisite(s): FREN 3060 or instructor permission.

FREN 3370 FRENCH CIVILIZATION (3 credits)

A historical view of France through its political, artistic, musical, literary, architectural and philosophical development from prehistory to the present.

Prerequisite(s): FREN 2120 or permission

FREN 3580 BUSINESS FRENCH (3 credits)

An introduction to the French business world. Students will acquire the necessary vocabulary, skills and cultural strategies to perform adequately in a French business environment so they can understand the cultural differences between the American and French business worlds.

Prerequisite(s): FREN 2120 or equivalent

FREN 4030 ADVANCED FRENCH CONVERSATION (3 credits)

This course focuses on the development of oral skills in French through the use of complex and sophisticated conversational structures and nuanced lexicon. Students will be involved in expressing or presenting their ideas and opinions, interpersonal speaking activities, and a variety of activities including reading short literary and cultural texts and screening films. (Cross-listed with FREN 8036).

Prerequisite(s): FREN 3030 or departmental permission. Not open to non-degree graduate students.

FREN 4040 ADVANCED FRENCH COMPOSITION AND STYLISTICS (3 credits)

In this capstone course, required for the completion of the major, learners will explore and practice advanced grammatical structures, write compositions in a variety of genres, and familiarize themselves with advanced stylistics.

Prerequisite(s): French majors with Junior or Senior standing. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

FREN 4050 SEMINAR IN THE CULTURE AND CIVILIZATION OF QUEBEC (3 credits)

An introduction to the many facets of Quebec Culture & Civilization, through readings on Quebec's history and contemporary culture and also through films and other media related to Quebec. (Cross-listed with FREN 8056).

Prerequisite(s): FREN 2120 or permission, and ENGL 1160

FREN 4070 FRANCOPHONE WEST AFRICA CULTURES (3 credits)

This course is intended as an introduction and exploration to the history, literary traditions and cinema of Francophone West Africa from 1945 to today. It seeks to familiarize students with the practice of reading literary texts, discussing seminal films and articulating critically informed reaction in writing. The course will focus on a selection of canonical authors and seminal films from Burkina Faso, Guinea, Ivory Coast, Mali, Mauritania and Senegal. The texts and films will provide a point of entry to the study of history, society, and culture. Historical, socio-political and cultural issues covered in the course will include: Ancient rites and oral literature, French colonization and post-colonialism, women and gender issues, childhood, immigration, the "Afropean" literature and West African Francophone countries contemporary challenges (politics and economies) with presentations on Benin, Niger and Togo today. (Cross-listed with FREN 8076).

Prerequisite(s): FREN 2120

FREN 4150 CONTEMPORARY FRENCH NOVEL (3 credits)

Selected contemporary French novels are analyzed and discussed. The main objective of this course is the development of critical reading and analytical skills that will allow students to reflect more productively upon the major social and aesthetic themes manifest in the texts under consideration. In addition, students will examine the sociopolitical and cultural contexts of these literary works. (Cross-listed with FREN 8156).

Prerequisite(s): FREN 3060 or permission. Not open to non-degree graduate students.

FREN 4170 CONTEMPORARY FRENCH THEATER (3 credits)

Selected contemporary French plays are analyzed and discussed. The main objective of this course is the development of critical reading and analytical skills that will allow students to reflect more productively upon the major social and aesthetic themes manifest in the texts under consideration. (Cross-listed with FREN 8176).

Prerequisite(s): FREN 3060 or permission of instructor. Not open to non-degree graduate students.

FREN 4220 THE STRUCTURE OF FRENCH (3 credits)

A survey of the linguistic structure of modern French, including phonology, morphology, and syntax. (Cross-listed with FREN 8226).

Prerequisite(s): FREN 3040 or departmental permission. Not open to non-degree graduate students.

FREN 4860 MODERN FRENCH WOMEN AUTHORS (3 credits)

Selected contemporary French literary texts written by women are analyzed and discussed. This may include novels, short stories, poetry, and graphic novels. The primary objective of this course is the development of critical reading and analytical skills that will allow students to reflect more productively upon the major social and aesthetic themes manifest in the works under consideration. In addition, students will examine the sociopolitical and cultural contexts of these works. (Cross-listed with FREN 8866).

Prerequisite(s): FREN 3060 or permission. Not open to non-degree graduate students.

FREN 4900 INDEPENDENT STUDY (1-3 credits)

Specially planned readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign language faculty. As independent study courses are intended to enrich a student's regular academic program, they may not be taken as substitutes for scheduled classroom courses of the same nature, nor should they be taken by majors or minors in the department prior to fulfilling required course work. (Cross-listed with FREN 8906).

Prerequisite(s): Senior status, no incompletes outstanding, and departmental permission.

FREN 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)

This course is dedicated to the study of a narrow field of the literature and/or cinema of the Francophone world. (Cross-listed with FREN 8956).

Prerequisite(s): FREN 3030, FREN 3040, and FREN 3060

FREN 4960 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)

This course will address narrow field of study of the civilization, history, film, contemporary culture, art, politics, and or cultural studies of the Francophone world. (Cross-listed with FREN 8966).

Prerequisite(s): FREN 2120; FREN 3030, FREN 3040, and FREN 3060

FREN 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)

This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the Francophone world. (Cross-listed with FREN 8976).

Prerequisite(s): FREN 3030, FREN 3040, and FREN 3060

German

GERM 1110 ELEMENTARY GERMAN I (5 credits)

Elementary German I emphasizes the mastery of all four language skills (speaking, listening, reading, and writing) and introduces cultural issues from the German-speaking world.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

GERM 1120 ELEMENTARY GERMAN II (5 credits)

German 1120 is the second course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. It also includes a cultural component.

Prerequisite(s): GERM 1110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

GERM 2110 INTERMEDIATE GERMAN I (3 credits)

German 2110 is the third course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. It also includes a cultural component.

Prerequisite(s): GERM 1120 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

GERM 2120 INTERMEDIATE GERMAN II (3 credits)

German 2120 is the fourth course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. It includes a culture component.

Prerequisite(s): GERM 2110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

GERM 3030 GERMAN CONVERSATION (3 credits)

This course focuses on improving students' oral production of German including improvements to pronunciation, fluidity, and vocabulary.

Prerequisite(s): GERM 2120 or placement by Department of Foreign Languages diagnostic examination, or permission from instructor.

GERM 3040 GERMAN GRAMMAR & COMPOSITION (3 credits)

The course will review previously studied grammar topics in the German language, as well as cover more advanced grammar points that are essential for expressing complex ideas. It will focus on writing strategies for writing in a foreign language, for developing a descriptive essay and a narrative.

Prerequisite(s): GERM 2120, placement by Department of Foreign Languages diagnostic examination, or departmental permission.

GERM 3060 READINGS IN GERMAN (3 credits)

This course aims to increase students' fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students' vocabulary through the use of a variety of primary sources; many genres will be sampled.

Prerequisite(s): GERM 2120; Not open to non-degree graduate students

GERM 3190 LISTENING COMPREHENSION (3 credits)

Students will strengthen their listening comprehension skills in a wide variety of genres.

Prerequisite(s): GERM 2120 or placement into the 3000-level in German or permission from the instructor

GERM 3250 CONTEMPORARY CULTURE IN GERMAN SPEAKING COUNTRIES (3 credits)

In this course students will learn about the political, social, economic, and aesthetic life in German-speaking countries.

Prerequisite(s): GERM 2120 with a grade of C- or better, placement by department diagnostic exam, or instructor permission. Department permission is needed for transfer credit.

GERM 3370 GERMAN HISTORY FROM THE BEGINNINGS UNTIL THE EARLY MODERN PERIOD (3 credits)

This course covers history, art, architecture, customs, and philosophy of central Europe and the German-speaking world from prehistory until the early 18th century.

Prerequisite(s): GERM 2120 or permission.

GERM 3380 GERMAN HISTORY FROM THE ENLIGHTENMENT TO THE PRESENT (3 credits)

This course will cover the history, art, architecture, customs, and philosophy of central Europe and the German-speaking world from the Enlightenment until the present.

Prerequisite(s): GERM 2120 or permission.

GERM 3580 GERMAN FOR PROFESSIONAL LIFE (3 credits)

This course focuses upon the development of German language skills and concomitant cultural awareness that can be utilized to conduct oneself appropriately in professional situations in German-speaking countries.

Prerequisite(s): GERM 2120 or the equivalent.

GERM 3650 INTRODUCTION TO GERMAN FILM (3 credits)

This course introduces students to seminal works in the history of German film.

Prerequisite(s): GERM 2120 or by permission.

GERM 4040 ADVANCED COMPOSITION AND STYLISTICS (3 credits)

In this capstone course, required for the completion of the major, learners will explore and practice advanced grammatical structures, write compositions in a variety of genres, and familiarize themselves with advanced stylistics.

Prerequisite(s): Last two semesters of the major or permission of the department. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

GERM 4150 INTRODUCTION TO GERMAN LITERATURE (3 credits)

Introduction to the history of literature of Germany, Austria, and German-speaking Switzerland. Students will read selections from the 18th, 19th and 20th centuries.

Prerequisite(s): GERM 3060 or instructor permission.

GERM 4160 BLACK GERMANY: PEOPLE AND CULTURE (3 credits)

The course addresses fiction, film, photography, music and journalism to dive into Black people's contribution to German culture. From the formation of a Black community in imperial Germany, to the African American GI's role in postwar democratization process, the artistic output of so-called "occupation babies" born in the wake of WWII, to contemporary artists who continue to expand and refine German culture. The African Diaspora in Germany is a rich field to expand our notion of global connectedness and cultural identity, while taking a deep dive into contemporary German culture and social developments. (Cross-listed with GERM 8166).

GERM 4210 TRANSLATING GERMAN (3 credits)

Students learn basic translation theory and techniques from the German to the English language.

Prerequisite(s): GERM 3030 and GERM 3040 or by permission

GERM 4220 THE STRUCTURE OF GERMAN (3 credits)

A survey of the linguistic structure of modern German, including phonology, morphology, and syntax. (Cross-listed with GERM 8226).

Prerequisite(s): GERM 3040 and GERM 4610, or permission of instructor.

GERM 4900 INDEPENDENT STUDY (1-3 credits)

This is a course in which an individual student or a small group of students complete specially planned readings in a well-defined field of study, carried out under the supervision of a member of the foreign language faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit once.

Prerequisite(s): GERM 2120 or placement by Department of Foreign Languages diagnostic examination, or permission from instructor.

GERM 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)

This course is dedicated to the study of a narrow field of the literature and/or cinema of the German-speaking world. (Cross-listed with GERM 8956).

Prerequisite(s): GERM 3030, GERM 3040, and GERM 3060

GERM 4960 PRO-SEMINAR: SOCIETY AND CULTURE (3 credits)

This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the German-speaking world. (Cross-listed with GERM 8966).

Prerequisite(s): GERM 3030, GERM 3040, and GERM 3060

GERM 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)

This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the German-speaking world. (Cross-listed with GERM 8976).

Prerequisite(s): GERM 3030, GERM 3040, and GERM 3060.

Russian

RUSS 1120 ELEMENTARY RUSSIAN II (5 credits)

Russian 1120 is the second course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.

Prerequisite(s): RUSS 1110 with a grade of C- or better or three years of high school Russian. Department permission is needed for transfer credit.

RUSS 2110 INTERMEDIATE RUSSIAN I (3 credits)

Russian 2110 is the third course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.

Prerequisite(s): RUSS 1120 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

RUSS 2120 INTERMEDIATE RUSSIAN II (3 credits)

Russian 2120 is the fourth course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.

Prerequisite(s): RUSS 2110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

Spanish

SPAN 1100 ELEMENTARY SPANISH I FOR HEALTHCARE PROFESSIONALS (5 credits)

Spanish 1100 presents an introduction to the Spanish language and fosters the mastery of all linguistic skills; i.e., speaking, listening, reading, and writing, via a communicative approach. It also promotes an understanding of the target language's culture with an emphasis on sociocultural issues relevant to healthcare services.

SPAN 1110 ELEMENTARY SPANISH I (5 credits)

Elementary Spanish I emphasizes the mastery of all four language skills (speaking, listening, reading, and writing) and introduces cultural topics from across the Spanish-speaking world.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

SPAN 1120 ELEMENTARY SPANISH II (5 credits)

Spanish 1120 is the second course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.

Prerequisite(s): SPAN 1110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 1140 INTRODUCTION TO SPANISH FOR HEALTH SCIENCES (1 credit)

This course introduces students in the Spanish for Health Sciences concentration to fundamental topics that emerge from the intersection between healthcare and the Spanish language. These topics include: language diversity; language policy in the US; and historical and sociocultural factors that prevent access to care.

SPAN 1200 ELEMENTARY SPANISH 2 HEALTHCARE PROFESSIONALS (5 credits)

Spanish 1200 is built on the content introduced in Spanish 1100 and presents to students more complex communicative tasks that are typical of the interactions between patient/client and healthcare providers. The course fosters the mastery of all linguistic skills; i.e., speaking, listening, reading, and writing, via a communicative approach. It also promotes an understanding of the target language's culture with an emphasis on sociocultural issues relevant to healthcare services.

Prerequisite(s): SPAN 1110 or SPAN 1100 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 2110 INTERMEDIATE SPANISH I (3 credits)

Spanish 2110 is the third course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.

Prerequisite(s): SPAN 1120 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 2120 INTERMEDIATE SPANISH II (3 credits)

Spanish 2120 is the fourth course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.

Prerequisite(s): SPAN 2110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 2130 ACCELERATED SECOND-YEAR SPANISH (6 credits)

This accelerated course combines the content of Intermediate Spanish I and Intermediate Spanish II. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. Successful completion of this course fulfills the College of Arts and Sciences foreign language requirement. The entire course must be completed to receive credit.

Prerequisite(s): SPAN 1120 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

SPAN 2150 INTRODUCTION TO HISPANIC LITERATURES AND CULTURES (3 credits)

In this course, students become acquainted with canonical texts within the Spanish and Spanish American literary traditions. The course focuses on developing reading and writing skills, and on helping students distinguish between literal and metaphorical meanings, which serves as a preparation for the development of more advanced interpretive skills.

Prerequisite(s): Placement exam results or advisor permission

SPAN 2300 INTERMEDIATE SPANISH I FOR HEALTHCARE PROFESSIONALS (3 credits)

The course integrates and refines learners' Spanish competencies, and allows students to apply them to real-life situations in the healthcare field. As such, this course enhances all linguistic skills, with a focus on the issues of register, dialect, and culturally appropriate vocabulary in the healthcare context. Also, the course fosters control and ease of speaking and listening; reading and writing are approached within the context of health literacy.

Prerequisite(s): SPAN 1110 & SPAN 1120 or SPAN 1100 & SPAN 1200; or enrollment via placement exam

SPAN 3010 SPANISH FOR HERITAGE SPEAKERS I (3 credits)

This course is designed to offer Spanish-speaking students an opportunity to study Spanish in an academic setting. Students will acquire Spanish literacy skills, develop their academic language skills in Spanish, and learn more about the Spanish language and their cultural heritage.

Prerequisite(s): Placement exam results or adviser permission

SPAN 3020 SPANISH FOR HERITAGE SPEAKERS II (3 credits)

This course will continue to build upon the Spanish language skills students have covered in Spanish for Heritage Speakers I. Students will develop strategic academic vocabulary, learn to critically analyze a text, produce a variety of written texts, and acquire new information in different academic content areas.

Prerequisite(s): SPAN 3010 or adviser permission

SPAN 3030 SPANISH CONVERSATION (3 credits)

Practice in a variety of conversational situations and levels.

Prerequisite(s): SPAN 2120 or SPAN 2130 or placement by Department of Foreign Languages diagnostic examination, or departmental permission. The course is for second-language learners. Heritage and native students should not enroll.

SPAN 3040 SPANISH GRAMMAR AND COMPOSITION (3 credits)

Review of grammatical principles and practice in written composition.

Prerequisite(s): SPAN 2120 or SPAN 2130 or placement by Department of Foreign Languages diagnostic examination, or departmental permission. The course is for second-language learners. Heritage and native students should not enroll.

SPAN 3050 LATIN AMERICA IN CONTEXT: HEALTH, BUSINESS, ENVIRONMENT, AND SOCIETY THROUGH ORAL PRACTICE (3 credits)

This course focuses on the development and intensive practice of oral expression in Spanish, and is intended for students interested in the fields of business, health, education, environmental sciences, social work, and cultural studies, who are either heritage speakers of Spanish or who are completing a major/minor in Spanish. The class provides a broad context of current relevant issues in Latin America, including politics and society; the state of the economy after decades of neoliberalism; racism; indigenous and Afro-descendent identities; domestic and gender violence; health and disabilities; adult, youth, & child immigration; and ecology and the environment. (Cross-listed with LLS 3050).

Prerequisite(s): SPAN 3010 or SPAN 3030

SPAN 3060 READINGS IN SPANISH (3 credits)

This course aims to increase students' fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students' vocabulary through the use of a variety of primary sources; many genres will be sampled.

Prerequisite(s): SPAN 2120 or SPAN 2130. Not open to non-degree graduate students.

SPAN 3170 SURVEY OF SPANISH LITERATURE I (3 credits)

Introduction to the principal authors and works of Spanish literature from El Cid to the 17th century.

Prerequisite(s): SPAN 3030, SPAN 3040, or departmental permission. Not open to non-degree graduate students.

SPAN 3180 SURVEY OF SPANISH LITERATURE II (3 credits)

Spanish 3180, Introduction to Spanish Literature II, aims to familiarize students with the most important writers and literary movements from the 18th to the 21st centuries, giving an overview of the history, society and culture of these times. This course will also focus on the continued development of students' listening, speaking, reading, and essay skills. In pursuit of these goals, students will have the opportunity to read not only the specific texts but critical and introductory articles that will help them situate themselves within this particular historical and literary context. Students will also have to write essays, take tests, and develop their critical skills.

Prerequisite(s): SPAN 3030, SPAN 3040, or departmental permission.

SPAN 3410 SPANISH CIVILIZATION (3 credits)

History, geography, national economy, politics, society, education, art, music and literature of Spain.

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, and SPAN 3060.

SPAN 3420 LATIN AMERICAN CIVILIZATION (3 credits)

What do we know about Latin American culture, geography, politics and languages? How has Latin America been imagined from the United States? Does it make sense to think of Latin America as one space brought together by a similar history or is it better to imagine it as twenty particular countries with intersecting pasts and futures? This course will attempt to answer these questions by introducing you to a number of key topics and debates common to contemporary Latin American culture, including issues such as democracy, class, race/ethnicity, gender/sexuality, religion, family and globalization. (Cross-listed with LLS 3420).

Prerequisite(s): SPAN 3030 or SPAN 3010

SPAN 3510 SPANISH PHONETICS AND PHONOLOGY (3 credits)

Introduction to basic concepts in phonetics and phonology, and intensive practice in Spanish pronunciation.

Prerequisite(s): SPAN 3030 or SPAN 3040. Not open to non-degree graduate students.

SPAN 3570 SPANISH FOR HEALTHCARE PROFESSIONALS (3 credits)

Spanish for Healthcare Professionals provides an introduction of specialized communication in the healthcare context. Course objectives include the development of essential informal and formal vocabulary and expressions, and sociocultural competencies necessary for successful interaction with patients and other healthcare providers.

Prerequisite(s): SPAN 3030 or SPAN 3010

SPAN 3580 BUSINESS SPANISH (3 credits)

An introduction to the Spanish business world. Students will acquire the necessary skills and strategies to understand the differences in business practices and cultures between the US and Spanish-speaking countries. No prior business knowledge is required.

Prerequisite(s): SPAN 3030 and SPAN 3040 or SPAN 3010 and SPAN 3020, or permission from a Spanish advisor.

SPAN 4020 LANGUAGE ENHANCEMENT THROUGH VOCABULARY LEARNING (3 credits)

This class aims to expand students' vocabulary in Spanish. This will be achieved through doing an overview of current research that investigates how vocabulary is learned; identifying effective vocabulary learning strategies; and exploring topics not commonly encountered in Spanish classes such as commerce and science. The course also includes points of contact with the Spanish-speaking community in Omaha, where students can participate in interactions that connect what has been learned in the classroom to language use in real life. (Cross-listed with SPAN 8026).

Prerequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060 OR SPAN 3010, SPAN 3020, and SPAN 3060

SPAN 4030 ADVANCED SPANISH CONVERSATION (3 credits)

This course targets the development of oral skills in Spanish through the incorporation of complex and sophisticated conversational structures and nuanced lexicon. In particular, the course focuses on presentational (i.e., expressing or exposing ideas or opinions), and interpersonal speaking (i.e., engaging in conversation where learners narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with control of aspect). (Cross-listed with SPAN 8036)

Prerequisite(s): SPAN 3030 or SPAN 3010 or departmental permission

SPAN 4040 ADVANCED COMPOSITION AND STYLISTICS (3 credits)

In this capstone course, required for the completion of the major, learners will explore and practice advanced grammatical structures, write compositions in a variety of genres, and familiarize themselves with advanced stylistics. (Cross-listed with SPAN 8046).

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020 and SPAN 3060; Majors only, senior standing. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

SPAN 4060 INTRODUCTION TO TRANSLATION AND INTERPRETATION (3 credits)

This course offers an introduction to the translation and interpretation field. Course objectives include (a) understanding translation theory; (b) comprehending the role of communication in translation and interpretation; (c) targeting common grammatical and pragmatic errors; (d) increasing vocabulary knowledge in a variety of fields; and (e) gaining an increased awareness of the rigor and demands innate to the translation and interpretation fields. (Cross-listed with SPAN 8066).

Prerequisite(s): SPAN 3030 or SPAN 3010 or SPAN 3570 and declared minor in Spanish for Health Sciences or SPAN 3050 and declared minor in Spanish for Health Sciences

SPAN 4070 HISPANIC BILINGUALISM (3 credits)

This course explores bilingualism among Spanish speaking populations. Topics include societal bilingualism, the history of Spanish and language policy in Spain, Latin America, and the U.S., psychological aspects of bilingualism, monolingual vs. bilingual acquisition, first vs second language acquisition, and Spanish as a heritage language in the U.S. (Cross-listed with SPAN 8076).

Prerequisite(s): SPAN 3030, SPAN 3040, SPAN 3060 or SPAN 3010, SPAN 3020, SPAN 3060 and SPAN 4080 or instructor permission

SPAN 4080 INTRODUCTION TO HISPANIC LINGUISTICS (3 credits)

This course introduces students to the field of linguistics by exploring the following areas: phonetics and phonology (sound systems), morphology (word formation), historical linguistics (language development over time), and sociolinguistics and pragmatics (language in society and context), among others, as framed within the study of the Spanish language. (Cross-listed with SPAN 8086).

Prerequisite(s): SPAN 3030 and SPAN 3040 OR SPAN 3010 and SPAN 3020

SPAN 4120 HISPANIC SOCIOLINGUISTICS (3 credits)

This course introduces sociolinguistics, the study of the relationship between language and society, with an emphasis on the Spanish language. Its focus will be on correlational linguistics (how social factors such as age, gender and socioeconomic status affect language) and language and society (the role language plays in human conduct and social organization). Course topics will include the concept of speech communities, sociolinguistic variables, phonological and syntactic variation as well as languages in contact, bilingualism, Spanish in the U.S., Spanish as a heritage language, and language attitudes and ideologies. (Cross-listed with SPAN 8126).

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060 and SPAN 4080 or instructor permission

SPAN 4130 SPANISH IN THE UNITED STATES (3 credits)

This course looks at Spanish in the U.S. from a sociolinguistic perspective. Course topics include: Dialectal/regional differences, dialect contact, Spanish- English bilingualism and code-switching, "Spanglish", language maintenance, language ideologies surrounding Spanish in the U.S., and Spanish in public spheres (e.g., TV, movies, radio, music, stand-up comedy). (Cross-listed with SPAN 8136).

Prerequisite(s): SPAN 3030 or SPAN 3010 or instructor permission or SPAN 3570 and declared minor in Spanish for Health Sciences or SPAN 3050 and declared minor in Spanish for Health Sciences

SPAN 4140 INTRODUCTION TO LATIN AMERICAN FILM (3 credits)

The course will be a thematic study of significant Latin American films emphasizing and further investigating their relationship to history, culture, society and political issues that have often given rise to social movements. Films from a variety of Spanish-speaking countries including Mexico, Argentina, Chile, Cuba, Bolivia, etc. will be studied in their socio-political context. At the 8146 level, students will be introduced to theoretical approaches such as early film theory, montage theory, feminist theory, race theory, and phenomenological film theory in order to deepen their understanding these themes. (Cross-listed with SPAN 8146, LLS 4140).

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060

SPAN 4150 LITERATURE/CULTURE: CENTRAL AMERICA AND THE CARIBBEAN 1898-2000 (3 credits)

"Literature/ Culture: Central America and the Caribbean 1898- 2000" studies major historical and socio-cultural events in Latin American history in the 20th century, through their articulation in literary texts, film, and other cultural expressions from Central America and the Hispanic Caribbean. (Cross-listed with SPAN 8156, CACT 8416)

Prerequisite(s): SPAN 3030, SPAN 3040 and SPAN 3060 or permission of instructor

SPAN 4170 INTRODUCTION TO LATIN AMERICAN LITERATURES (3 credits)

The course is intended as an introduction to the study of canonical and non-canonical texts in Latin American literatures, from the 16th to 21st centuries. It seeks to acquaint students with the rich literary traditions of a large region, from South America to Central America and Mexico, as well as with the historical challenges posed by the salient heterogeneity of texts included in the Latin American corpus, from the standpoint of ethnicity, gender, social class, and literary genre. The course also focuses on continuing to develop Spanish language skills, specifically reading for comprehension and interpretation of metaphorical meaning, writing, and presentational speaking skills in Spanish. (Cross-listed with SPAN 8176, LLS 4170).

Prerequisite(s): SPAN 3030, SPAN 3040, or SPAN 3010, SPAN 3020; SPAN 3060.

SPAN 4190 REPRESENTATIONS OF THE SPANISH CIVIL WAR IN FILM AND POPULAR CULTURE (3 credits)

This course explores the principal social, economic, political, and cultural implications of the Spanish Civil War, including its antecedents and consequences, in order to critically analyze the ways in which such historical matters have been represented over time through film, as well as through other media. The course also focuses on the continued development of Spanish language skills, such as formal and informal essay writing, presentational speaking skills in Spanish, advanced reading, and interpretation of film theory and criticism. (Cross-listed with SPAN 8196).

Prerequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060

SPAN 4220 THE STRUCTURE OF SPANISH (3 credits)

This course introduces students to the structure of the Spanish language with a focus on its morphology and syntax as seen in the study of constituents of a sentence, lexical categories, content and function words, the pronominal system, the structure of simple and complex sentences, and the verbal system, among others. It reviews frequent syntactical errors in Spanish L2 and Heritage learners with the purpose of advancing their linguistic competence. (Cross-listed with SPAN 8226).

Prerequisite(s): SPAN 3030 and 3040 or SPAN 3010 and SPAN 3020

SPAN 4330 LINGUISTIC JUSTICE AND LATINO HEALTH (3 credits)

Language barriers compromise the quality of health care for millions of Spanish-speaking patients each year. Spanish-speaking patients, for example, have disease (e.g., musculoskeletal diseases, pesticide poisoning, cervical cancer, HIV/AIDS), mortality, and pain burdens at least twice as high as English-speaking patients. At the same time, they have been disproportionately affected by infectious diseases such as the tuberculosis outbreaks or the COVID-19 pandemic. These facts make language a crucial concern for the improvement of health among Latinos in the US. Students in this course examine the relationship between language, health care, and health among Spanish speakers in the US through the dual lens of sociolinguistics and public health. We consider the effect of linguistic and discursive practices on access to health information and examine some of the measures currently in place to improve the transmission of health information across language boundaries. (Cross-listed with SPAN 8336).

Prerequisite(s): Instructor permission

SPAN 4510 ILLNESS AND DISEASE IN SOUTHERN CONE LATIN AMERICAN LITERATURES AND CULTURES (3 credits)

The course will examine representations of illness, disease, and affections in literary and cultural texts from the Latin American Southern Cone, focusing in Argentina, Uruguay, and Chile. It will explore notions of health and disease, as embedded in literary and cultural texts from the late 19th to the 21st centuries. We will examine the ways in which physical ailments, mental health symptoms, and other conditions or disorders have been conceptualized and portrayed, co-relating the individual "disruptions" caused by unwellness with a host of social and cultural factors. The course will also explore current treatments and therapies for the illnesses discussed in the texts, taking into account the integration of western and alternative medicine and practices. (Cross-listed with SPAN 8516, LLS 4510, LLS 8516).

Prerequisite(s): SPAN 3010 and SPAN 3020 or SPAN 3030 and SPAN 3040 or SPAN 3050 and declared minor in Spanish for Health Sciences or SPAN 3570 and declared minor in Spanish for Health Sciences or special permission from instructor.

SPAN 4530 DIALECTS OF THE SPANISH-SPEAKING WORLD (3 credits)

This course explores the diversity and variation of the various dialects within the Spanish-speaking world. Special attention will be devoted to understanding phonetic and phonological processes that make up these dialects. Students will increase their familiarity with the diversity of the Spanish-speaking world and the complexity of the relationship between languages and dialects. Through the course, students will employ data-collection skills and methods commonly used in the field of linguistics. Course will be conducted in Spanish. (Cross-listed with SPAN 8536).

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060 and SPAN 4080 or instructor permission

SPAN 4760 FORENSIC LINGUISTICS (3 credits)

This course will present an overview of forensic linguistics with an emphasis on the areas where linguistics (i.e., the study of language and its structures) and the law intersect. We will especially focus on these items: the nature of legal language, linguistic methods for determining the meaning of laws and statutes, types of linguistic analysis used for investigating deception and fraud, language used for profiling and identifying suspects in criminal cases, the relationship between language proficiency and defendants' ability to understand their rights, the legal and linguistic complexities of invoking one's rights, the language-related factors that lead to false confessions, the role of linguistic analysis in civil cases, and the challenges faced by court interpreters and other linguistic complexities of the courtroom. (Cross-listed with SPAN 8766).

SPAN 4800 INTERNSHIP IN SPANISH (3 credits)

This course is a supervised internship in a professional setting with a for-profit, government or non-profit organization. Students will receive hands-on experience involving translation, interpretation, community outreach, planning of educational opportunities or community events in Spanish. Internship specific projects and goals will be decided between employer and student and approved by the Spanish internship director. Some internships will be paid, but most will not.

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060, junior or senior standing, and internship director permission. Not open to non-degree graduate students.

SPAN 4900 INDEPENDENT STUDY (1-3 credits)

Specially planned readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign language faculty. As independent study courses are intended to enrich a student's regular academic program, they may not be taken as substitutes for scheduled classroom courses of the same nature, nor should they be taken by majors or minors in the department prior to fulfilling required course work..

Prerequisite(s): Senior status, no incompletes outstanding, and departmental permission.

SPAN 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)

This course is dedicated to the study of a narrower field of the literature and/or cinema of the Spanish-speaking world. (Cross-listed with SPAN 8956)

Prerequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060

SPAN 4960 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)

This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the Spanish-speaking world. (Cross-listed with SPAN 8966)

Prerequisite(s): SPAN 3030 or SPAN 3010 or SPAN 3570 and enrolled in Spanish for Health Sciences minor or SPAN 3050 and enrolled in Spanish for Health Sciences minor

SPAN 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)

This course addresses a narrow field of study in linguistics or the professional language of the Spanish-speaking world. (Cross-listed with SPAN 8976)

Prerequisite(s): SPAN 3030 or SPAN 3010 or SPAN 3570 and enrolled in Spanish for Health Sciences minor or SPAN 3050 and enrolled in Spanish for Health Sciences minor

Foreign Languages and Literature, Bachelor of Arts

To obtain a B.A. with a major in Foreign Languages and Literature, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 16 hours of foreign languages (elementary and intermediate)
- 12-19 hours college breadth requirement
- 30-31 hours of major courses
- 9-16 hours of electives

TOTAL HOURS: 120

Students with a concentration in French, German, or Spanish take the following:

- 3 hours in Conversation (FREN 3030, GERM 3030, SPAN 3030 or SPAN 3010)
- 6 hours in Grammar, Composition, and Stylistics (FREN 3040 and FREN 4040; GERM 3040 and GERM 4040; SPAN 3040 or SPAN 3020 and SPAN 4040)
- 3 hours in Readings (FREN 3060, GERM 3060, or SPAN 3060)
- 18 hours of electives chosen from three tracks:
 - Literature and Film
 - Culture and Society
 - Linguistics and Language for the Professions.

A minimum of 3 hours must be taken within each of the three tracks. As long as students complete at least 3 hours in each track, they may fulfill their elective course requirements in whichever track or tracks they choose.

A total of 30 upper-division (3000-4000 level) credit hours is required.

It is strongly recommended that all foreign language majors include a study abroad component of at least one month during the second half of their program of study. All courses credited to a major or minor in a foreign language must be passed with a grade of "C-" or better.

Students with a concentration in Spanish for Health Sciences take the following:

- 1 hour in Introduction to Spanish for Health Sciences (SPAN 1140)
- 3 hours in Conversation (SPAN 3030 or SPAN 3010)

- 3 hours in Grammar and Composition (SPAN 3040 or SPAN 3020)
- 3 hours in Readings (SPAN 3060)
- 3 hours in Spanish for Healthcare Professionals or Latin America in Context (SPAN 3570 or SPAN 3050)
- 3 hours in Linguistic Justice and Latino Health or in Linguistics and Language for the Professions (SPAN 4330 or SPAN 4970)
- 3 hours in Internship in Spanish (SPAN 4800)

12 hours of electives. Elective courses include SPAN 3050 or SPAN 3570, SPAN 4060, SPAN 3420, SPAN 4030, SPAN 4130, SPAN 4330 or SPAN 4970, SPAN 4950, SPAN 4960.

In addition to SPAN 1140 (1 credit hour), a total of 30 upper-division (3000-4000 level) credit hours is required.

It is strongly recommended that all foreign language majors include a study abroad component of at least one month during the second half of their program of study. All courses credited to a major or minor in a foreign language must be passed with a grade of "C-" or better.

Concentration in French

Code	Title	Credits

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability and based on whether they are able to earn retroactive credit for courses at the beginning and intermediate levels. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

SPAN 2110 or SPAN 2300	INTERMEDIATE SPANISH I (*) or INTERMEDIATE SPANISH I FOR HEALTHCARE PROFESSIONALS	3-4
	OR- 4 CREDITS OF NATURAL/PHYSICAL SCIENCE LECTURE AND LAB (IF PLANNING TO TAKE SPAN 2130 IN SPRING)	
CMST 1110 or CMST 2120	PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE	3
	HUMANITIES AND FINE ARTS	3
	CAS BREADTH COURSE	3
	SOCIAL SCIENCE COURSE	3

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability and based on whether they are able to earn retroactive credit for courses at the Beginning and Intermediate levels. Please consult an advisor in your major program for further guidance.

*Note for the second year Spanish course, students have three options: SPAN 2110 & 2120 or SPAN 2300 & 2120 or SPAN 2130. Students may take SPAN 2110 or 2300 this semester, followed by SPAN 2120 in spring. Or students can take SPAN 2130 Accelerated 2nd year Spanish in the spring for 6 credits.

Credits		15-16
Spring		
SPAN 2120	INTERMEDIATE SPANISH II (3 credits *)	6-7
AND - NATURAL SCIENCE LECTURE AND LAB (4 CREDITS)		
OR		
SPAN 2130	ACCELERATED SECOND-YEAR SPANISH (6 credits)	
HUMANITIES AND FINE ARTS		3
CAS BREADTH COURSE		3
ELECTIVE		2
*Note for the second year Spanish course, students have three options: SPAN 2110 & 2120 or SPAN 2300 & 2120 or SPAN 2130. Students who took SPAN 2110 or 2300 would take SPAN 2120 this semester. Those who did not can take SPAN 2130 Accelerated 2nd Year Spanish for 6 credits this semester.		

Credits		14-15
Junior		
Fall		
SPAN 3030 or SPAN 3010	SPANISH CONVERSATION or SPANISH FOR HERITAGE SPEAKERS I	3
SPAN 3060	READINGS IN SPANISH	3
CAS BREADTH COURSE		3
CAS BREADTH COURSE OR ELECTIVE		3
NATURAL/PHYSICAL SCIENCE LECTURE		3

Credits		15
Spring		
SPAN 3040 or SPAN 3020	SPANISH GRAMMAR AND COMPOSITION or SPANISH FOR HERITAGE SPEAKERS II	3
ONE 3000/4000 LEVEL APPROVED SPANISH ELECTIVE FOR 3 CREDITS *		3
CAS BREADTH COURSE		3
CAS BREADTH COURSE OR ELECTIVE		3
ELECTIVE OR A HUMANITIES FINE ARTS COURSE IF SPAN 1100 WAS TAKEN		3
*Need 12 min credits of approved Spanish elective from 3000/4000 level. A list of approved courses can be found in the catalog.		

Credits		15
Senior		
Fall		
SPAN 3050 or SPAN 3570	LATIN AMERICA IN CONTEXT: HEALTH, BUSINESS, ENVIRONMENT, AND SOCIETY THROUGH ORAL PRACTICE or SPANISH FOR HEALTHCARE PROFESSIONALS	3
SPAN 4060	INTRODUCTION TO TRANSLATION AND INTERPRETATION	3
OR - ONE 3000/4000 LEVEL APPROVED SPANISH ELECTIVE FOR 3 CREDITS*		
SPAN 4330	LINGUISTIC JUSTICE AND LATINO HEALTH	3

OR- ONE 3000/4000 LEVEL APPROVED SPANISH ELECTIVE FOR 3 CREDITS*

CAS BREADTH COURSE	3
ELECTIVE	3
*Need 12 minimum credits of approved Spanish electives from 3000/4000 level. A list of approved courses can be found in the catalog.	

Credits		15
Spring		
SPAN 4970	PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS	3
OR- ONE 3000/4000 LEVEL APPROVED SPANISH ELECTIVE FOR 3 CREDITS*		
SPAN 4030 or SPAN 3420	ADVANCED SPANISH CONVERSATION or LATIN AMERICAN CIVILIZATION	3
OR - ONE 3000/4000 LEVEL APPROVED SPANISH ELECTIVE FOR 3 CREDITS*		
SPAN 4800	INTERNSHIP IN SPANISH	3
CAS BREADTH COURSE OR GENERAL ELECTIVE		3
ELECTIVE OR NATURAL SCIENCE WITH LAB (IF STILL NEEDED)		3-4

*Need 12 minimum credits of approved Spanish elective from 3000/4000 level. A list of approved courses can be found in the catalog.

Credits		15-16
Total Credits		118-122

- Minimum 120 total credits required
- Minimum 30 total 3000/4000 level credits in Spanish required, 31 total major credits.
- CAS Breadth courses should be chosen in consultation with a CAS advisor.
- Actual number of electives, general education credits, and CAS Breadth courses needed will vary based on multiple factors. Students will need to work closely with an advisor to develop their individualized plan of study.

French Minor

Requirements

Code	Title	Credits
FREN 3030	FRENCH CONVERSATION	3
FREN 3040	FRENCH GRAMMAR AND COMPOSITION	3
Select 9 credit hours in French electives at the 3000 or 4000 level		9
Total Credits		15

Native/heritage speakers of this language should see a departmental advisor regarding placement.

German Minor

Requirements

Code	Title	Credits
GERM 3030	GERMAN CONVERSATION	3
GERM 3040	GERMAN GRAMMAR & COMPOSITION	3

Select 9 credit hours in German electives at the 3000 or 4000 level

Total Credits 15

Native/heritage speakers of this language should see a departmental advisor regarding placement.

Spanish Minor

The Spanish minor may be completed by taking courses on campus, entirely online, or a combination of the two.

Requirements

Code	Title	Credits
Select one of the following options:		9
Option 1 for students learning Spanish as a second language:		
SPAN 3030	SPANISH CONVERSATION	
SPAN 3040	SPANISH GRAMMAR AND COMPOSITION	
SPAN 3060	READINGS IN SPANISH	
Option 2 for heritage Spanish speakers:		
SPAN 3010	SPANISH FOR HERITAGE SPEAKERS I	
SPAN 3020	SPANISH FOR HERITAGE SPEAKERS II	
SPAN 3060	READINGS IN SPANISH	
Additionally, select 6 credit hours in Spanish electives at the 3000 or 4000 level		6
Total Credits		15

Native/heritage speakers of this language should see a departmental advisor regarding placement.

Spanish for Health Sciences Minor

Code	Title	Credits
Requirements		
SPAN 1140	INTRODUCTION TO SPANISH FOR HEALTH SCIENCES	1
SPAN 3030	SPANISH CONVERSATION	3
or SPAN 3010	SPANISH FOR HERITAGE SPEAKERS I	
SPAN 3570	SPANISH FOR HEALTHCARE PROFESSIONALS	3
SPAN 3050	LATIN AMERICA IN CONTEXT: HEALTH, BUSINESS, ENVIRONMENT, AND SOCIETY THROUGH ORAL PRACTICE	3
SPAN 4060	INTRODUCTION TO TRANSLATION AND INTERPRETATION	3
or SPAN 4330	LINGUISTIC JUSTICE AND LATINO HEALTH	
Electives (select one from the following)		3
SPAN 3420	LATIN AMERICAN CIVILIZATION	
SPAN 4030	ADVANCED SPANISH CONVERSATION	
SPAN 4060	INTRODUCTION TO TRANSLATION AND INTERPRETATION	
or SPAN 4330	LINGUISTIC JUSTICE AND LATINO HEALTH	
SPAN 4130	SPANISH IN THE UNITED STATES	
Total Credits		16

Native/heritage speakers of this language should see a departmental advisor regarding placement.

General Science

The Bachelor of Science in General Science is offered with or without a concentration. Without a concentration, it is a major with courses taken from multiple disciplines: biology, chemistry, physics, mathematics and geology. It is ideal for the student who enjoys a variety of sciences, preferring breadth over depth. A concentration in Medical Laboratory Science is available for students planning to apply to UNMC's program, and allows for more specificity as it applies to Medical Laboratory Science pre-requisites.

Contact

Arts and Sciences Advising Center
220 ASH
402.554.2458

Degrees Offered

- General Science, Bachelor of Science (p. 170)

All coursework taken for the General Science major must be completed with a grade of "C-" or better.

Writing in the Discipline

Writing in the discipline course: All students are required to take a writing in the discipline course within their major. For the general science major this is ENGL 3980 or another approved course.

The General Science major is designed to help students gain a broad scientific background and develop fundamental skills in mathematics and science. Few students choose General Science initially. Instead, they transfer into it after finding one of the other natural or physical science majors to be more demanding or more narrowly focused than expected.

The major in General Science is appropriate for students who are preparing for careers in some health professions (Pre-Occupational Therapy, Pre-Physical Therapy, Pre-Nursing, Pre-Medical Laboratory Science, etc.) for those who wish to enter graduate school programs at the Masters or Doctoral degree levels, for those students who wish to attain Teacher Certification, and those preparing for employment in a variety of science or science-related career areas.

When combined with other more specific majors or minors, a degree in general science can also be excellent preparation for careers in law, business, public relations, and writing careers in science, technology or natural history.

Career options include, but are not limited to

- Healthcare
- Technical Writing
- Research
- Environmental Science
- Natural History
- Business
- Public Relations
- Law
- High School Science Teacher

General Science, Bachelor of Science

Requirements

To obtain a B.S. with a major in General Science, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of General Education courses
Most commonly, General Science majors do not complete 46 hours of coursework solely for the purpose of meeting university General Education requirements. Instead, they often take six hours of coursework that meets both the six hours of diversity requirements and six hours of distribution requirements and meet the seven-hour University General Education natural sciences distribution requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 33 or fewer.
- 12-19 hours college breadth requirement
- 64-65 hours major courses
- 3-11 hours electives

Total Hours: 120

The B.S. degree with a major in general science consists of 49-50 credits of natural science courses as outlined below and 15 credits of cognate coursework selected in collaboration with the advisor from complementary disciplines.

Arts and Sciences students must complete 27 credits of upper division coursework within their degree.

Code	Title	Credits
Biology Required Courses		
BIOL 1450	BIOLOGY I	5
BIOL 1750	BIOLOGY II	5
Chemistry Required Courses		
CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	4
CHEM 1190 & CHEM 1194	GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY	4
Geology Required Course		
GEOL 1170	INTRODUCTION TO PHYSICAL GEOLOGY	4
Physics Required Courses		10
Physics may be taken on an algebraic or calculus level. Select one of the following options:		
Option 1:		
PHYS 1110 & PHYS 1154	GENERAL PHYSICS I and GENERAL PHYSICS LABORATORY I	
PHYS 1120 & PHYS 1164	GENERAL PHYSICS II and GENERAL PHYSICS LABORATORY II	
Option 2:		
PHYS 2110 & PHYS 1154	GENERAL PHYSICS I - CALCULUS LEVEL and GENERAL PHYSICS LABORATORY I	
PHYS 2120 & PHYS 1164	GENERAL PHYSICS-CALCULUS LEVEL and GENERAL PHYSICS LABORATORY II	
Mathematics/Statistics Required Courses		
Select one of the following options:		5-6
Option 1:		
MATH 1950	CALCULUS I	

or MATH 1940	CALCULUS FOR BIOMEDICINE
Option 2:	
MATH 1930	CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES (and an approved statistics course)
Electives	
Select 12 credits of electives at the 2000 level or higher in at least two of the following disciplines: biology, chemistry, physics, geology.	
Total Credits	
49-50	

Medical Laboratory Science Concentration

The B.S. in General Science is offered with a concentration in medical laboratory science for students planning to apply to UNMC's Medical Laboratory Science Program (MLS). This program was designed in collaboration with UNMC to allow a student to complete two Bachelor's degrees in as little as 122 credits. Students will apply to UNO's General Science program and add on the medical laboratory science concentration. Following the guide below allows the student to complete UNO's general education requirements and UNMC's MLS pre-requisite coursework in no more than three years. Near the beginning of the student's third year of UNO studies, they will need to apply to UNMC's MLS program. Provided that the student has followed the curriculum as laid out below, and maintained a cumulative or math/science GPA of 3.0, he/she will be guaranteed an interview with UNMC's MLS program. Upon acceptance into UNMC's MLS program, students will complete 11 months of studies in specific MLS courses. After completion of the MLS program at UNMC, students may transfer their UNMC coursework back to UNO to earn a dual degree of BS MLS from UNMC/ BS GSCI-MLS concentration from UNO. Students must have a minimum of 30 credits in residence at UNO and of those, 15 credits must come from the natural and physical sciences.

Code	Title	Credits
BIOLOGY (21 credits)		
BIOL 1450	BIOLOGY I	5
BIOL 1750	BIOLOGY II	5
BIOL 2140	GENETICS	4
BIOL 2440	THE BIOLOGY OF MICROORGANISMS	4
BIOL 3240	INTRODUCTION TO IMMUNOLOGY	3
CHEMISTRY (14 credits)		
CHEM 1140 & CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY ¹	5
CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY ²	5
CHEM 3650 & CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY and FUNDAMENTALS OF BIOCHEMISTRY LABORATORY	4
MATHEMATICS (4 credits)		
MATH 1300	COLLEGE ALGEBRA WITH SUPPORT (Not required if student has an ACT MATH subscore of 23+. In that case, students should consider taking MATH 1300 or higher as a part of the cognate coursework.)	4
STATISTICS (3 credits)		
Select one of the following:		
PSYC 3130	STATISTICS FOR THE BEHAVIORAL SCIENCES	3
STAT 3000	STATISTICAL METHODS I	3

PA/SOWK/CRCJ 3000 APPLIED STATISTICS AND DATA PROCESSING IN PUBLIC SECTOR 3

ENGLISH COMPOSITION (3 credits)

ENGL 1160 ENGLISH COMPOSITION II ³ 3

PUBLIC SPEAKING (3 credits)

CMST 1110 PUBLIC SPEAKING FUNDS 3

or CMST 2120 ARGUMENTATION AND DEBATE

HUMANITIES & FINE ARTS (9 credits)

Three (3) Humanities & Fine Arts courses of choice from UNO's University Gen Ed list and coming from at least 2 different disciplines. One should be a U.S. Diversity or Global Diversity. 9

SOCIAL SCIENCES (6 credits)

Two (2) Social Sciences of choice from UNO's University Gen Ed list. At least one should be a U.S. Diversity or Global Diversity (whichever one wasn't taken as a humanities). 6

COGNATE COURSES (15 credits minimum)

Selected in collaboration with UNO advisor. May not be transferred back from UNMC. Suggested courses are:

BIOL 1060 INTRODUCTION TO MEDICAL CAREERS & ETHICS 2

BIOL 1160 TERMINOLOGY OF HUMAN HEALTH & DISEASE 2

BIOL 2740 HUMAN ANATOMY AND PHYSIOLOGY I 4

BIOL 2840 HUMAN ANATOMY AND PHYSIOLOGY II 4

Social Science of choice (3 credits) 3

¹ CHEM 1180-1184 and CHEM 1190-1194 may be substituted for CHEM 1140-1144.

² CHEM 2250 and CHEM 2260-2274 may be substituted for CHEM 2210-2214.

³ UNMC will accept ENGL 1150 or 1160 but UNO requires at least ENGL 1160 or placement beyond via Advanced Placement or EPPE.

Upon acceptance to the Bachelor of Science in Medical Laboratory Science program at UNMC, students will take at least 43 credits of professional MLS coursework to transfer back toward the completion of this additional UNO degree—a B.S. in general science—medical laboratory science concentration. Within the 43 credits of coursework transferring back to UNO, will be the Advanced Writing requirement for the UNO degree.

If the student is not accepted to UNMC, the following will need to be added to complete the GSCI major: GEOL 1170, PHYS 1110/PHYS 1154, an additional 3 credits of social sciences if not taken within the cognate, an Advanced Writing course, a minor or additional College of Arts & Sciences Gen Eds, and electives to reach 120 credits total. Students must have a minimum of 27 credits at the 3000/4000 level throughout the entire degree.

General Science Bachelor of Science

Freshman

Fall		Credits
BIOL 1450	BIOLOGY I (*)	5
ENGL 1150	ENGLISH COMPOSITION I (**)	3
MATH 1930 or MATH 1940 or MATH 1950	CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES (***) or CALCULUS FOR BIOMEDICINE or CALCULUS I	3-5
Humanities and Fine Arts		3

*BIOL 1450: Requires high school biology and chemistry. College level chemistry recommended. This course will count as a Natural & Physical Science Lecture/Lab course as well as major requirement.

***MATH 1930 or MATH 1940: Requires MATH 1300, 1320, or higher with minimum grade of C-, or Math ACT sub-score of 25, or appropriate Math Placement Exam score within the last two years. If taking MATH 1950 as an alternative, it will require MATH 1300/1320 + MATH 1330 OR MATH 1340 (minimum grade of C-) OR proper placement via ACT Math sub-score or Math Placement Exam within the last two years. MATH 1930/1940/1950 are higher than the general education Math/QL requirement, so would count as that and the College of Arts and Sciences QL requirement for the Add'l Gen Eds, in addition to counting as a calculus course for the major. Please know that this major requires EITHER MATH 1930 + STAT 1530 OR MATH 1940/1950. If taking MATH 1930, students will also need to take STAT 1530 (or approved alternative) for this major. Taking MATH 1940 or 1950 will not require students to also take STAT 1530 for this major.

***MATH 1930 or MATH 1940: Requires MATH 1300, 1320, or higher with minimum grade of C-, or Math ACT sub-score of 25, or appropriate Math Placement Exam score within the last two years. If taking MATH 1950 as an alternative, MATH 1300/1320 + MATH 1330 OR MATH 1340 (minimum grade of C-) OR proper placement via ACT Math sub-score within the last two years will be required. This course is higher than the general education Math/QL requirement, so would count as that and the College of Arts and Sciences QL requirement for the Add'l Gen Eds, in addition to counting as a calculus course for the major. If taking MATH 1930, students will also need to take STAT 1530 (or approved alternative) for this major. Taking MATH 1940 or 1950 will not require students to also take STAT 1530 for this major.

Spring		
BIOL 1750	BIOLOGY II (*)	5
ENGL 1160	ENGLISH COMPOSITION II (**)	3
STAT 1530	ELEMENTARY STATISTICS (***)	3
Social Science		3

*BIOL 1750: Requires BIOL 1450. This course counts as the A&S Add'l Gen Ed Natural & Physical Science Lec/Lab in addition to being a major requirement.

**ENGL 1160: Requires ENGL 1150 or appropriate placement via EPPE, AP scores or transfer credit.

***STAT 1530: Requires MATH 1210 or higher, a Math ACT sub-score of 19+, or appropriate Math Placement Exam score within the last two years. Students do not need to take STAT 1530 if MATH 1940 or MATH 1950 are chosen for the major's calculus requirement. If taking MATH 1940 or 1950, replace STAT 1530 this semester with another course from a later semester, chosen in consultation with your advisor.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Medical Laboratory Science Concentration**Freshman**

Credits **13**

Summer**AT UNMC**

After taking the above 3 years worth of courses, upon acceptance to the Bachelor of Science in Medical Laboratory Science program at UNMC, students will take at least 43 credits of professional MLS coursework to transfer back toward the completion of this additional UNO degree—a B.S. in general science—medical laboratory science concentration.	43
---	----

If the student is not accepted to UNMC, the following will need to be added to complete the GSCI major: GEOL 1170, PHYS 1110-1154, an additional 3 credits of social sciences if not taken within the cognate, an Advanced Writing course, a minor or additional College of Arts & Sciences Gen Eds, and electives to reach 120 credits total. Students must have a minimum of 27 credits at the 3000/4000 level throughout the entire degree.

Credits	43
Total Credits	127

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Graduation Requirements: The B.S. in general science is offered with a concentration in medical laboratory science for students planning to apply to UNMC's Medical Laboratory Science Program (MLS). This program was designed in collaboration with UNMC to allow a student to complete two bachelor's degrees in as little as 122 credits. Students will apply to UNO's General Science program and add on the medical laboratory science concentration. Following the guide below allows the student to complete UNO's general education requirements and UNMC's MLS prerequisite coursework in no more than three years. Near the beginning of the student's third year of UNO studies, they will need to apply to UNMC's MLS program. Provided that the student has followed the curriculum, for example, as laid out above, maintained a cumulative or math/science GPA of 3.0, he/she will be guaranteed an interview with UNMC's MLS program. Upon acceptance into UNMC's MLS program, students will complete 11 months of studies in specific MLS courses. After completion of the MLS program at UNMC, students may transfer their UNMC coursework back to UNO to earn a dual degree of BS MLS from UNMC/ BS GSCI-MLS concentration from UNO. Students must have a minimum of 30 credits in residence at UNO and of those, 15 credits must come from the natural and physical sciences.

Geography

The Department offers both a Bachelor of Arts and a Bachelor of Science in Geography. We also offer concentrations in Geographic Information Systems and Travel & Tourism, and a Minor in Geography. The geography program at UNO prepares students for careers in urban and environmental planning, geographic information systems, cartography, remote sensing, and other areas of geographic research.

Other Information

All coursework taken for the Geography major or minor must be completed with a grade of "C-" or better.

Double-counting rules between Geography and Environmental Science-Geography and Planning:

Students pursuing both majors may not count the same 3000-4000 level Geography courses towards both programs, with the exception of GEOG 3530 and 4050.

The **Environmental Science-Geography and Planning** major with Geography minor may not use the same 3000/4000 level course for both programs.

Double-counting rules between Geography and Geology:

Only one course at the upper level may be counted as credit for both the Geography major and Geology minor, or Geology major and Geography minor. All other upper-level courses can only count in either the major or minor.

Geography may also be studied through the College of Public Affairs and Community Service in the Division of Continuing Studies. Students interested in this degree program must meet with an adviser in the Division of Continuing Studies. The concentration consists of a minimum of 30 credit hours in geography, details of which are found here (<https://www.unomaha.edu/college-of-public-affairs-and-community-service/division-of-continuing-studies/academics/areas-of-concentration/geography.php>).

Option for Degree Completion Fast Track Program

The Department of Geography/Geology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a BA/BS in Geography desiring to pursue an MS in Geography.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must have a graduate faculty member in the department of Geography/Geology provide a short letter of support for their application to Fast Track as a faculty sponsor/mentor.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses
- A minimum cumulative GPA of 3.0 for graduate coursework is required to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.

Degrees Offered

- Geography, Bachelor of Arts (p. 178)
- Geography, Bachelor of Science (p. 181)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the geography major, students may choose from the following: ENGL 3050 or ENGL 3980.

Minors Offered

- Geography Minor (p. 184)

Geographers are on the front line, tackling some of the most urgent issues facing our world, such as climate change, rapid urbanization, and the spread of infectious diseases. Want to make a difference in our world? – become a geographer!

Geography is the study of the earth as the home to humans, from the environment and landscape to the ways in which humans depend on, adapt to, and modify our world. It mixes the physical sciences (landforms, climate, biology), with the social sciences (population, land use, culture, economic development), using cutting-edge spatial technologies (geographic information systems, global positioning systems, remote sensing). We are interested not only in where things are, but why they are there, and “why should we care?” To study geography means honing both observational and analytical skills. With these skills, our graduates work in a wide range of fields, including:

- urban planning
- environmental management (for state and federal agencies)
- cartography and spatial analysis (for state and federal agencies as well as private companies)
- emergency planning
- meteorology
- education.

GEOG 1000 WORLD REGIONAL GEOGRAPHY (3 credits)

An introductory course designed to study the world and its macro-regions using a combination of physical and human geography. (Offered Fall, Spring)

Distribution: Global Diversity General Education course and Social Science General Education course

GEOG 1020 INTRODUCTION TO HUMAN GEOGRAPHY (3 credits)

An introductory course which studies the geography of human activity through a topic by topic coverage of cultural traits and complexes that characterize different societies in the world. Major cultural topics of focus are the geography of population, agricultural systems, settlement, language, religion, political patterns, and man's ways of occupying urban and industrial space, among others.

Distribution: Global Diversity General Education course and Social Science General Education course

GEOG 1030 OUR DYNAMIC PLANET: INTRODUCTION TO PHYSICAL GEOGRAPHY (4 credits)

This course is designed to acquaint the student with those processes active in shaping the surface of the earth and their relationship to one another. Includes the study of the atmosphere, river systems and hydrology, glaciers, climate, plate tectonics and landforms. Includes weekly laboratory sessions. (Offered Fall, Spring)

Distribution: Natural/Physical Sci General Education lecture&lab

GEOG 1050 HUMAN-ENVIRONMENT GEOGRAPHY (4 credits)

Learn about how sustainability and quality of life depend on human interactions with environmental phenomena such as Climate, Drought, Energy, Water, and Biodiversity. These interactions influence patterns of Urbanization, Technology, Consumption, and Agriculture that can improve or degrade quality of life and sustainability. Lecture emphasizes concepts for understanding and explaining human-environment interaction. Labs focus on fundamentals of physical earth science and how these offer possibilities for sustainable development.

Distribution: Natural/Physical Sci General Education lecture&lab

GEOG 1090 INTRODUCTION TO GEOSPATIAL SCIENCES (4 credits)

An introductory lecture/lab that has students learn and apply the principles of geospatial science within the frameworks of Geographic Information Science (GISc), Remote Sensing, Aerial Photography, Photogrammetry, Global Positioning Systems and Cartography/Visualization. The course focuses on the underlying scientific basis that is shared across all of these frameworks. Students will produce both maps and spatial analysis by the end of the course using all of the above frameworks.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Natural/Physical Sci General Education lecture&lab

GEOG 2620 AERIAL PHOTOGRAPHIC INTERPRETATION (3 credits)

A practical application of various types of air photographs to the interpretation and analysis of both physical and cultural landscapes. Provides a fundamental tool for those interested in geography, geology, ecology and the environment. Recommended: Three hours in geography or geology.

GEOG 3000 TRAVEL STUDY IN GEOGRAPHY (3 credits)

The course examines the development of travel as a human endeavor and the process of planning a trip to a foreign country. A major objective of the course is the use and evaluation of Internet travel resources. This is accomplished by searching for relevant sources and assembling this material for presentation to others through the Internet.

Prerequisite(s): An introductory course in geography is highly recommended along with a basic knowledge of online tools available through the Internet.

GEOG 3030 GEOGRAPHY OF AFRICA (3 credits)

This course is about the human geography of Africa. It offers an overview of the geography, economics, politics, history, oral and written literature, art, anthropology and sociology of the African continent, with particular focus on sub-Saharan Africa. The course attempts to dispel myths and stereotypes about the African continent and facilitates an understanding of the dynamics that shaped and continue to shape African systems and people. Students taking Geography of Africa will engage in a comprehensive and systematic survey of the environments, natural resources, populations, their cultures, and histories of the geographic regions of Africa and their development. (Cross-listed with BLST 3030).

Prerequisite(s): Junior or instructor permission

GEOG 3050 GEOGRAPHY IN FILM (3 credits)

Our views of the world are largely shaped by images that we see through popular media. This course examines contemporary films from around the world and how they depict places, the environment, and the lives of people. Critical and constructive examination of film will enable students to understand how images produce powerful ideological messages and how they shape the representation of entire cultures and people.

Prerequisite(s): Junior standing. Introductory courses in regional, human, physical geography are highly recommended.

GEOG 3070 GEOGRAPHY OF LATIN AMERICA (3 credits)

This course surveys the physical and human environments of Latin America. Emphasis is placed upon cultural factors in the use of land and Latin American development. (Cross-listed with LLS 3070).

Prerequisite(s): Junior

GEOG 3080 EAST & SOUTHEAST ASIA (3 credits)

An introduction to the physical and human landscape of East, and Southeast Asia, encompassing countries from Japan to Myanmar. Emphasis is placed upon the sequence of occupancy of the land, agrarian traditional economies and contemporary development. Dominated by China, the region represents a major area for economic development.

Prerequisite(s): Junior

GEOG 3130 ECONOMIC GEOGRAPHY (3 credits)

An introduction to the basic concepts and approaches in contemporary economic geography, stressing the importance of the spatial perspective for an understanding of how economic processes work at global, national, regional, and local scales. (Offered Fall) (Cross-listed with ECON 3130)

Prerequisite(s): Majoring in Geography. Non-Geography majors: MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

GEOG 3230 GEOGRAPHY OF EUROPE (3 credits)

This course is a comprehensive examination of contemporary Europe from a geographical perspective. The course covers physical, cultural, political, urban, population and economic geography of Europe as well as the recent political and economic transformations in both Western and Eastern Europe.

Prerequisite(s): GEOG 1000, GEOG 1020, GEOG 1030 or GEOG 1050, and junior.

GEOG 3240 GEOGRAPHY OF RUSSIA AND ITS NEIGHBORS (3 credits)

A comprehensive examination of Russia and the former Soviet republics from a geographical perspective. The course is organized topically to cover physical, historical, political, urban, population, economic and environmental geography. Special attention is given to geographical and environmental effects of the collapse of the former Soviet Union and the post-Communist transformation.

Prerequisite(s): GEOG 1000 or GEOG 1020 or GEOG 3130 and junior, or permission of instructor

GEOG 3330 UNITED STATES & CANADA (3 credits)

GEOG 3330: UNITED STATES & CANADA involves the analysis of the natural environment, historical development, economic systems, cultural patterns, and political structures of the Canada geographic region. The course provides a regional geographic perspective on these two countries by examining the expression of culture on the landscape. The course is designed for students wishing to gain regional geographical knowledge, while expanding their understanding of the interconnections among people and place within the United States and Canada.

Prerequisite(s): Junior

GEOG 3440 NEBRASKA NATURAL RESOURCES MANAGEMENT (3 credits)

Method and actual application of managing natural resources in Nebraska, with emphasis on individual stewardship. The course will focus on the most current political, physical and economic developments in resources management.

Prerequisite(s): Junior standing or permission of the instructor.

GEOG 3510 METEOROLOGY (3 credits)

A course designed to acquaint the student with the atmospheric environment. The course deals with atmospheric processes, their relationship and variation in both time and space, and their effect on the overall environment of the earth.

Distribution: Natural/Physical Sci General Education lecture

GEOG 3514 INTRODUCTION TO METEOROLOGY LABORATORY (1 credit)

This lab is designed to give students practice with atmospheric processes using scientific principles techniques, procedures and data associated with meteorology. Offered on-line only.

Prerequisite(s): Concurrent or previous enrollment in GEOG 3510

Distribution: Natural/Physical Sci General Education lab course

GEOG 3530 CARTOGRAPHY AND DATA VISUALIZATION (4 credits)

An introduction to the concepts and techniques of map construction and visual data communication. Topics include map scale, map projections, thematic cartography, history of cartography, computer mapping, and global positioning systems. Particular attention is given to designing both paper and Internet distributed maps. This course is offered in both the Fall and Spring semesters. (Cross-listed with GEOG 8535).

Prerequisite(s): GEOG 1000 or GEOG 1020 and GEOG 1030 or GEOG 1050, a statistics course, and a programming course.

GEOG 3540 CARTOGRAPHY & GIS LAB (2 credits)

An introduction to the methods and techniques of map construction using both graphic design and geographic information system software. Topics include map design for both general reference and thematic maps. Particular attention is given to the processing, compilation, data classification, and symbolization of various types of spatial data. This course is the lab component of GEOG 3530.

Prerequisite(s): Concurrent registration in GEOG 3530.

GEOG 4010 CONSERVATION OF NATURAL RESOURCES (3 credits)

This course provides a diverse overview of the principles and contemporary issues related to ecology and management of wildlife, fisheries, forests, soil, rangeland, minerals, and water. It includes the philosophical, economic and social aspects of resource management. Current local, regional, and global issues are examined. (Cross-listed with GEOG 8016).

Prerequisite(s): Three hours of geography.

GEOG 4020 SPATIAL ANALYSIS IN GEOGRAPHY (3 credits)

An introduction to spatial analysis with a focus on spatial statistics. Emphasis will be placed on the nature of geographic data, spatial data handling, modeling logic, sampling theory, and design. Both descriptive and spatial statistics methods are covered. Students will receive hands-on experience working with statistical data sets, software, and scientific visualization of research results. (Cross-listed with GEOG 8026).

Prerequisite(s): STAT 1530 or equivalent

GEOG 4030 COMPUTER MAPPING AND VISUALIZATION (3 credits)

Computer techniques in the mapping and visualization of spatial data. Various forms of spatial data manipulation and computer graphic output techniques are examined. Particular attention is given to the creation of maps for the internet and the incorporation of interaction and animation in their display. (Cross-listed with GEOG 8036).

Prerequisite(s): GEOG 1090 or permission of instructor. Background in programming, particularly JavaScript, highly recommended.

GEOG 4040 GEOARCHAEOLOGY (3 credits)

An introduction to geoarchaeology: the application of methods and techniques of geography, geology and other earth sciences to solve archaeological problems and reconstruct past environments. (Cross-listed with GEOG 8046, GEOL 4040).

Prerequisite(s): Major in geology or geography; or major in anthropology, philosophy or religion with GEOG 1030, GEOG 1060 or GEOG 1070; or GEOL 1170 or GEOL 1010; or permission

GEOG 4050 GEOGRAPHIC INFORMATION SYSTEMS I (4 credits)

An introduction to the concepts and principles of geographic information systems (GIS). Emphasis will be placed on geographic data inputs, manipulation, analysis, and output functions. Exercises introduce students to GIS software and applications. Usually offered Fall, Spring, Summer. (Cross-listed with GEOG 8056).

Prerequisite(s): GEOG 3530 and GEOG 3540 or 6 credit hours of GEOG course.

GEOG 4100 BIOGEOGRAPHY (3 credits)

This course is intended as an introduction to biogeography, the study of the distribution and evolution of organisms across space and through time. Usually offered every year. (Cross-listed with BIOL 4100, GEOL 4100, BIOL 8106, GEOG 8106, GEOL 8106).

Prerequisite(s): BIOL 1450 and BIOL 1750 or GEOL 3100 or BIOL 3100, junior-senior.

GEOG 4120 URBAN GEOGRAPHY (3 credits)

This course is designed to serve as an introduction to the complex and dynamic urban system, including the physical, economic, political, cultural, social, and environmental forces that shape the form and function of cities, as well as how individuals and groups experience urban life. We make ample use of geographic information systems (GIS) to analyze cities and better understand crucial urban concepts such as urban growth and development, patterns of urban form, segregation and neighborhood change, economic specialization and agglomeration, urban sprawl, and environmental justice. (Offered Fall) (Cross-listed with GEOG 8126).

GEOG 4130 POLITICAL GEOGRAPHY (3 credits)

An introduction to the basic concepts and approaches in contemporary political geography at the global, national and local scales. Core topics to be examined include geopolitics, imperialism, war and peace, global ecopolitics, states, nationalism and electoral geography. (Offered Fall) (Cross-listed with GEOG 8136).

Prerequisite(s): An introductory level human geography course: GEOG 1020 or GEOG 1000, Junior

GEOG 4150 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)

An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with WGST 4150, ENTR 4150, ENTR 8156, GEOG 8156 and WGST 8156).

Prerequisite(s): Junior, senior, or graduate standing, or permission of instructor.

GEOG 4160 URBAN SUSTAINABILITY (3 credits)

Using sustainability as a conceptual framework, students in this course will investigate a variety of social, economic, and environmental challenges facing cities of the 21st century. Topics and issues explored include urban growth and expansion, livability, equity & gentrification, energy use & production, urban farming, poverty, automobility & transportation, water security, urban pollution, and the role of cities in climate change. (Cross-listed with GEOG 8166)

Prerequisite(s): Junior

GEOG 4170 ADVANCED CULTURAL GEOGRAPHY (3 credits)

This course examines current theoretical debate and research practice in a select topic in Cultural Geography. Emphasis will be on readings and discussion with students engaging in original research. Specific thematic focus will vary from year to year. This course may be taken multiple times as long as topics differ. (Cross-listed with GEOG 8176).

Prerequisite(s): GEOG 1000 or GEOG 1020, junior standing, or permission of the instructor.

GEOG 4230 GREAT PLAINS & NEBRASKA (3 credits)

This course is a comprehensive examination of the Great Plains region from a geographical perspective. It considers both the physical and human geography of the Plains, with particular attention to our home, Nebraska. Topics to be covered include: the Plains' unique ecosystems, its early human inhabitants, its later settlers, its evolving land-use patterns, and current issues. (Cross-listed with GEOG 8236).

GEOG 4260 PROCESS GEOMORPHOLOGY (4 credits)

A lecture and laboratory course focused on understanding Earth surface processes and the evolution of landforms across spatial and temporal scales. The course emphasizes applying unifying concepts in geomorphology, quantitative methodology and modern process-oriented geomorphology to interpret landscape evolution. (Cross-listed with GEOG 8266, GEOL 4260).

Prerequisite(s): One of the following: GEOL 1010, GEOL 1170, GEOG 1030, GEOG 1050 or instructor permission.

GEOG 4320 CLIMATOLOGY (3 credits)

A study of climatic processes and their effect on shaping the physical landscape. Emphasis on physical and applied aspects of the field. (Cross-listed with GEOG 8326).

Prerequisite(s): GEOG 1030, GEOG 1050, GEOG 3510, or permission of instructor.

GEOG 4330 SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION (4 credits)

This course is designed to familiarize students with basic soil chemical, physical and biological properties, soil morphological characteristics, soil classification and soil forming processes. The course focuses on relationships between soils and environmental factors and how such factors alter soil forming processes. The lab will focus on developing basic field skills, including soil morphological descriptions and soil mapping, as well as common laboratory methods used to analyze soils. (Cross-listed with GEOL 4330, GEOG 8336).

Prerequisite(s): One of the following: GEOG 1030, GEOG 1050, GEOL 1010, GEOL 1170 or instructor permission.

GEOG 4340 WATER RESOURCES (3 credits)

This course explores the applied principles of hydrology, water systems modeling, river basin development, and water management issues and practices in the United States and other parts of the world. Two local Saturday field trips will be required. (Cross-listed with GEOG 8346).

Prerequisite(s): GEOG 1060 and Junior standing

GEOG 4350 GLOBAL CLIMATE CHANGE (3 credits)

The primary objective of this course is for students to form a scientific, evidence-based, stance on current and future changes to the Earth's climate. To this end, this course will be based on scientific inquiry into the current state of knowledge. Particular emphases are placed on evidence and causes of change, and the associated environmental and social impacts, including: water resources, extreme weather, human health, and others of interest to the class. (Cross-listed with GEOG 8356, ENVN 8356, ENVN 4350).

Prerequisite(s): At least one of the following: GEOG 1030, GEOG 1050, GEOG 3510, GEOG 4320, or permission from instructor

GEOG 4400 EMERGING TOPICS IN GEOGRAPHY (3 credits)

Emerging Topics in Geography focuses on the latest research areas in the field of geography. The specific topic of each course set will be based on the research trends in geography. This course will be offered on demand. (Cross-listed with GEOG 8406).

GEOG 4530 HISTORICAL GEOGRAPHY OF THE UNITED STATES (3 credits)

This course examines the geography, physical and human, real, perceived, or theoretical, of the United States' historical development. It considers the ways history has and has not been affected by geography. It will also cover the field of historical geography, its theories and practices. (Cross-listed with GEOG 8536).

Prerequisite(s): Junior and HIST 1110 and HIST 1120 or GEOG 1020 or GEOG 3330

GEOG 4550 GEOGRAPHY OF ECONOMIC GLOBALIZATION (3 credits)

A study of the geography of economic globalization and the geography of the world economy. The major topics include the historical development of the world economy and globalization from the geographical perspective, trends in geography of global production, trade and investment, the most important factors and actors in the globalization processes and its geographic effects, geography of transnational corporations, case studies of economic geography of selected industries and service activities, effects of globalization on the developed and developing countries. This course also supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with GEOG 8556, CACT 8116).

Prerequisite(s): An introductory level human geography course: GEOG 1020 or GEOG 1000

GEOG 4600 INDEPENDENT RESEARCH (1-3 credits)

Advanced study in the form of a major paper to give the senior student knowledge of and experience in using government documents, professional, and/or primary materials on a topic. Must be under the supervision of the instructor who is particularly qualified for the topic chosen. (Cross-listed with GEOL 4600).

Prerequisite(s): Permission of department chair.

GEOG 4610 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)

An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, ENVN 4610, GEOL 4610, GEOG 8616, GEOL 8616)

Prerequisite(s): Permission of instructor.

GEOG 4620 GEOGRAPHICAL FIELD STUDIES (3 credits)

Field experience course based on variable topics and themes. Students must attend the multiple day field trip that will require overnight stays. (Cross-listed with GEOG 8626).

Prerequisite(s): Instructor Permission. Not open to non-degree graduate students.

GEOG 4630 ENVIRONMENTAL REMOTE SENSING (4 credits)

An introduction to remote sensing science and technology. Emphasis will be placed on multispectral data, matter/energy interactions, sensor system characteristics, photogrammetry, image interpretation, digital image processing, and environmental applications. Formal laboratory instruction will provide students with problem-solving skills and hands-on experience with remote sensing and GIS software. (Cross-listed with GEOG 8636).

Prerequisite(s): GEOG 1060 or GEOG 1070 or GEOL 1170. Introductory statistics highly recommended.

GEOG 4640 CRITICAL ZONE SCIENCE (4 credits)

This course examines the Critical Zone (CZ), Earth's permeable layer that extends from the top of vegetation to the bottom of groundwater. The CZ is a constantly evolving layer where rock, soil, water, air, and living organisms interact to regulate the landscape and natural habitats; it also determines the availability of life-sustaining resources, including our food production and water quality. CZ science is an interdisciplinary and international endeavor focused on cross-disciplinary science. In this course, we will focus on using data available from the existing National Science Foundation (NSF)-funded CZ Observatories (CZOs) along with readings, discussions and activities to explore interactions within the CZ. (Cross-listed with GEOG 8646, GEOL 4640)

Prerequisite(s): One of the following: GEOL 1170, GEOL 1010, GEOG 1030 or GEOG 1050; one chemistry or physics course recommended; or instructor permission.

GEOG 4660 GEOGRAPHIC INFORMATION SYSTEMS II (4 credits)

An introduction to advanced geographic information systems (GIS) topics. Emphasis will be placed on algorithms and analysis for information extraction. Topics include spatial interpolation, remote sensing GIS integration, software development, spatial analysis, GIS modeling, and future advances in GIS. Formal laboratory instruction will provide students with GIS experience to solve application problems. Usually offered in Fall. (Cross-listed with GEOG 8666).

Prerequisite(s): GEOG 4050 / GEOG 8056

GEOG 4800 INTERNSHIP IN ENVIRONMENTAL REGIONAL PLANNING EARTH SCIENCE (1-6 credits)

Internships with local agencies or corporations enable students to gain knowledge and experience and apply their learning in comprehensive regional or environmental planning or environmental science.

Prerequisite(s): Senior, major or area of concentration in geography or environmental science and permission

GEOG 4820 INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS (3 credits)

An introduction to environmental law and regulations intended for students pursuing careers in environmental sciences or related fields. The course emphasizes the origins, implementation, and enforcement of U.S. state and federal laws and regulations. Major federal environmental laws, covering air and water quality, solid and hazardous waste, pollution prevention and remediation, and natural resources will be discussed. Usually offered Fall semesters. (Cross-listed with ENVN 8826, ENVN 4820, BIOL 4820, GEOG 8826, PA 8826).

Prerequisite(s): Junior-senior or permission of the instructor.

Geography, Bachelor of Arts

To obtain a B.A. with a major in Geography, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses
- 16 hours of foreign languages
- 12 hours college breadth requirement
- 42 hours of major courses
- Elective hours as required to total 120 hours.

TOTAL HOURS: 120

The BA degree with a major in Geography requires a minimum of 42 credits, 25 of which must be taken at the 3000 level or higher. All 3000 level or higher courses taken in the Geography Fundamentals and Geography Diversity Requirements count toward this requirement.

Students who wish more concentrated applications in geography may choose an optional concentration of either Geographic Information Systems or Travel and Tourism. The specific course requirements for these concentrations may also be used to satisfy the major requirements where the overlap of course options occurs.

The Bachelor of Arts degree with a major in Geography requires 42* credits of major coursework, of which 25 must be upper-level (3000-4000) Geography courses. Statistics and programming courses do not count toward the upper-level Geography requirement.

**CIST 1300 may be necessary if student does not have programming experience. In that case, the total would be 45.*

- 24 credits of Geography Fundamentals Requirements
- 18-20 credits of Geography Diversity Requirements
- (0-3 credits of programming-see GEOG 3530)

TOTAL = 42-47

Requirements

Code	Title	Credits
GEOGRAPHY FUNDAMENTALS REQUIREMENTS		
GEOG 1000	WORLD REGIONAL GEOGRAPHY	3
GEOG 1020	INTRODUCTION TO HUMAN GEOGRAPHY	3
GEOG 1030	OUR DYNAMIC PLANET: INTRODUCTION TO PHYSICAL GEOGRAPHY	4

GEOG 1050	HUMAN-ENVIRONMENT GEOGRAPHY	4
GEOG 3530	CARTOGRAPHY AND DATA VISUALIZATION (*)	4
GEOG 4620	GEOGRAPHICAL FIELD STUDIES (Can also apply to the upper-level Global or North American category, depending on the field study destination.) ¹	3
STAT 1530	ELEMENTARY STATISTICS (or other approved course)	3

Note: All pre-reqs for GEOG 3530 are a part of this list, with the exception of programming. Students without programming experience will need to take CIST 1300 or receive instructor permission prior to enrollment into GEOG 3530.

GEOGRAPHY DIVERSITY REQUIREMENTS

Select the required number of courses from each of the Geography Diversity groups below.

Physical Geography (choose at least one course) **3-4**

GEOG 3440	NEBRASKA NATURAL RESOURCES MANAGMENT	
GEOG 3510 & GEOG 3514	METEOROLOGY and INTRODUCTION TO METEOROLOGY LABORATORY (the lab is optional)	
GEOG 4010	CONSERVATION OF NATURAL RESOURCES	
GEOG/GEOL 4040	GEOARCHAEOLOGY	
GEOG/BIOL/GEOL 4100	BIOGEOGRAPHY	
GEOG 4260	PROCESS GEOMORPHOLOGY	
GEOG 4320	CLIMATOLOGY	
GEOG 4330	SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION	
GEOG 4340	WATER RESOURCES	
GEOG 4350	GLOBAL CLIMATE CHANGE	
GEOG/ENVN/GEOL/BIOL 4610	ENVIRONMENTAL MONITORING AND ASSESSMENT	
GEOG 4640	CRITICAL ZONE SCIENCE	

Human Geography (choose at least two courses) **6**

GEOG/ECON 3130	ECONOMIC GEOGRAPHY	
GEOG 3440	NEBRASKA NATURAL RESOURCES MANAGMENT	
GEOG 3930	POLITICAL GEOGRAPHY	
GEOG 4010	CONSERVATION OF NATURAL RESOURCES	
GEOG 4120	URBAN GEOGRAPHY	
GEOG/WGST 4150	GEOGRAPHY, GENDER AND ENTREPRENEURSHIP	
GEOG 4160	URBAN SUSTAINABILITY	
GEOG 4170	ADVANCED CULTURAL GEOGRAPHY	
GEOG 4550	GEOGRAPHY OF ECONOMIC GLOBALIZATION	

GEOG/PA/BIOL/ENVN 4820	INTRODUCTION TO ENVIRONMENTAL LAW & REGULATIONS	
------------------------	---	--

Global Perspectives (choose at least one course) **3**

GEOG 3000	TRAVEL STUDY IN GEOGRAPHY	
-----------	---------------------------	--

GEOG 3030	GEOGRAPHY OF AFRICA	
GEOG 3050	GEOGRAPHY IN FILM	
GEOG 3070	GEOGRAPHY OF LATIN AMERICA	
GEOG 3080	EAST & SOUTHEAST ASIA	
GEOG 3230	GEOGRAPHY OF EUROPE	
GEOG 3240	GEOGRAPHY OF RUSSIA AND ITS NEIGHBORS	

North American Perspectives (choose at least one course) **3**

GEOG 3330	UNITED STATES & CANADA	
GEOG 4230	GREAT PLAINS & NEBRASKA	
GEOG 4530	HISTORICAL GEOGRAPHY OF THE UNITED STATES	

Geospatial Science (choose at least one course) **3-4**

GEOG 2620	AERIAL PHOTOGRAPHIC INTERPRETATION	
GEOG 4020	SPATIAL ANALYSIS IN GEOGRAPHY	
GEOG 4030	COMPUTER MAPPING AND VISUALIZATION	
GEOG 4050	GEOGRAPHIC INFORMATION SYSTEMS I	
GEOG 4630	ENVIRONMENTAL REMOTE SENSING	
GEOG 4660	GEOGRAPHIC INFORMATION SYSTEMS II	

Total Credits **18-20**

¹ **Geographical Field Studies Requirement**

Optional method of completing GEOG 4620: Students who have completed study abroad, or military service for more than six months outside the USA can complete the course without going on the multiple day field trip. Contact the department for the details regarding this alternative method.

Code Title Credits

BACHELOR OF ARTS FOREIGN LANGUAGE REQUIREMENT

Students earning the Bachelor of Arts degree are required to take a foreign language up through level IV or the intermediate level.

Optional Concentrations

Geography majors have the option to declare a concentration, if they wish. Concentrations are at least 15 credits, and are allowed to count within the major requirements, where applicable.

Geographic Information Science and Technology Concentration

Code Title Credits

Required Courses

Select 9 credit hours of computer science coursework in consultation with an advisor **9**

Additional Required Courses **3-7**

Both:	
MATH 1320	PRE-CALCULUS ALGEBRA (3 cr)
or MATH 1300	COLLEGE ALGEBRA WITH SUPPORT
MATH 1330	TRIGONOMETRY (3 cr)

Or one of the following:

MATH 1340	ALGEBRA AND TRIGONOMETRY FOR CALCULUS (5 cr)
MATH 1930	CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES (3 cr)
MATH 1950	CALCULUS I (5 cr)

Additionally, select one of the following: 3-4

GEOG 4020	SPATIAL ANALYSIS IN GEOGRAPHY (3 cr)	
GEOG 4030	COMPUTER MAPPING AND VISUALIZATION (3 cr)	
GEOG 4050	GEOGRAPHIC INFORMATION SYSTEMS I (4 cr)	
GEOG 4660	GEOGRAPHIC INFORMATION SYSTEMS II (4 cr)	
Total Credits		15-20

Travel and Tourism Concentration

Code	Title	Credits
Required Course		

GEOG 3000	TRAVEL STUDY IN GEOGRAPHY	3
-----------	---------------------------	---

Additional Required Courses

Select four of the following: 12

GEOG/ECON 3130	ECONOMIC GEOGRAPHY (3 cr)	
GEOG 3230	GEOGRAPHY OF EUROPE (3 cr)	
GEOG 3240	GEOGRAPHY OF RUSSIA AND ITS NEIGHBORS (3 cr)	
GEOG 3330	UNITED STATES & CANADA (3 cr)	
GEOG 4230	GREAT PLAINS & NEBRASKA (3 cr)	
GEOG 4620	GEOGRAPHICAL FIELD STUDIES (3 cr)	

Total Credits 15**Freshman****Fall** Credits

GEOG 1020	INTRODUCTION TO HUMAN GEOGRAPHY (*)	3
GEOG 1030	OUR DYNAMIC PLANET: INTRODUCTION TO PHYSICAL GEOGRAPHY	4
ENGL 1150	ENGLISH COMPOSITION I (**)	3
MATH 1220 or MATH 1300	COLLEGE ALGEBRA (***) or COLLEGE ALGEBRA WITH SUPPORT	3-4
Humanities and Fine Arts course		3

*Geog 1020 is a social science and global diversity as well as major course.

**ENGL 1150: Requires appropriate placement.

***MATH: See catalog for most up-to-date pre-requisites.

Credits 16-17**Spring**

GEOG 1000	WORLD REGIONAL GEOGRAPHY (*)	3
GEOG 1050	HUMAN-ENVIRONMENT GEOGRAPHY	4

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Geography, Bachelor of Science

To obtain a B.S. with a major in Geography, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

46 hours of University General Education courses

12 hours college breadth requirement

39 hours of major courses

Elective hours as required to total 120 hours.

TOTAL HOURS: 120

The BS degree with a major in Geography requires a minimum of 39 credits, 22 of which must be taken at the 3000 level or higher. All 3000 level or higher courses taken in the Geography Fundamentals and Geography Diversity Requirements count toward this requirement.

Students who wish more concentrated applications in geography may choose an optional concentration of either Geographic Information Systems or Travel and Tourism. The specific course requirements for these concentrations may also be used to satisfy the major requirements where the overlap of course options occurs.

Requirements

Code	Title	Credits
Geography Fundamentals Requirements		
GEOG 1000	WORLD REGIONAL GEOGRAPHY	3
GEOG 1020	INTRODUCTION TO HUMAN GEOGRAPHY	3
GEOG 1030	OUR DYNAMIC PLANET: INTRODUCTION TO PHYSICAL GEOGRAPHY	4

Geography Minor

Requirements

A minor in geography requires a minimum of 16 credit hours. Required coursework includes:

Code	Title	Credits
GEOG 1000	WORLD REGIONAL GEOGRAPHY	3
or GEOG 1020	INTRODUCTION TO HUMAN GEOGRAPHY	
Choose one of the following:		4
GEOG 1030	OUR DYNAMIC PLANET: INTRODUCTION TO PHYSICAL GEOGRAPHY	
GEOG 1050	HUMAN-ENVIRONMENT GEOGRAPHY	
GEOG 1090	INTRODUCTION TO GEOSPATIAL SCIENCES	
Select a minimum of 9 credit hours of geography coursework at the 3000 level or higher.		9
Total Credits		16

Geology

The Geology Program in the Department of Geography/Geology at UNO is dedicated to educating students in the Geological Sciences. This program not only prepares students for a variety of geoscience careers, but also provides a broad education in the Arts & Sciences, which prepares students for careers in other fields and areas.

Other Information

All coursework taken for a Geology major or minor must be completed with a grade of "C-" or better.

Geography majors pursuing a minor in Geology or Geology majors pursuing a minor in Geography may not use more than 3 credits of 3000-4000 level GEOG/GEOL courses toward both programs.

For the GEOL BS/BA and ENVN minor, no 3000/4000 level courses may overlap.

Environmental Studies - Earth Sciences majors and Geology minor: GEOL 1170 and one 2000-level or higher course may count toward both programs.

Environmental Studies - Earth Sciences majors and Geography minor: only one upper-level GEOG/GEOL course may count toward both programs.

Student Groups

University of Nebraska-Omaha Geoscience Society (UNOGS) (<https://www.unomaha.edu/college-of-arts-and-sciences/geology/student-opportunities/student-organizations.php>)

Contact

260 DSC
402.554.2662

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/geology/>)

Degrees Offered

- Geology, Bachelor of Arts (p. 187)
- Geology, Bachelor of Science (p. 191)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the geology major, this is GEOL 4950 or another approved course.

Minors Offered

- Geology Minor (p. 194)

Graduates from UNO's Geology Program will be well-prepared to enter the workforce and pursue a career in the geosciences field. This could include working in the environmental geology and environmental engineering field, the exploration for energy and mineral resources, the policy and education areas, as well as being prepared to continue on to graduate school. Because our graduates are educated in the broad sciences as well as Geology, they are also uniquely qualified for careers outside of traditional fields (for example, environmental law, administrative positions in science related organizations, K-12 education, etc.).

- Environmental Consulting and Engineering Firms
- Groundwater Management
- Petroleum Exploration
- Geology/Earth Science Education
- Mineral Exploration

- Natural Resource Management
- Museums/Curation of Fossils
- National Park Education or Research

GEOL 1010 ENVIRONMENTAL GEOLOGY (3 credits)

This is an introductory course for non-majors designed to make students aware of their physical environment and those factors that should influence where we site our home and communities. Topics will include hazards associated with volcanoes, earthquakes, landslides, floodplains and the problems associated with toxic waste disposal.

Distribution: Natural/Physical Science General Education course

GEOL 1100 EARTH SYSTEM SCIENCE (3 credits)

This course is an introduction to system science as applied to the earth. Students learn about simple earth system models, focusing on the hydrologic, rock and carbon cycles and energy flow through and linkages among them. Students also learn how short and long term global changes result from system interactions.

Distribution: Natural/Physical Sci General Education lecture

GEOL 1104 EARTH SYSTEM SCIENCE LAB (1 credit)

This laboratory course is an optional companion to GEOL 1100, Earth System Science, but can be taken alone. Computer and web based exercises lead students through scientific investigation of Earth components, processes and systems. Topics include: scientific visualization and methodology, energy flow in the earth environment, convection in fluids, population dynamics, plate tectonics, river systems, coastal systems, biodiversity and Earth system history.

Distribution: Natural/Physical Sci General Education lab course

GEOL 1170 INTRODUCTION TO PHYSICAL GEOLOGY (4 credits)

Fundamentals of geology. The study of the internal geologic processes and external and erosional and depositional processes which create the subsurface and surface features of the earth. Fundamentals of contour mapping, topographic map interpretation and identification of common minerals and rocks will be covered in a required laboratory period. One field trip required.

Distribution: Natural/Physical Sci General Education lecture&lab

GEOL 1180 INTRODUCTION TO HISTORICAL GEOLOGY (4 credits)

Basic fundamentals for interpretation of earth history. Deduction of history of earth-moon system through interpretation of geologic phenomena using principles of stratigraphy, sedimentation, structure and fossil content. Global tectonics, encompassing theories of sea-floor spreading and continental drift are presented. Fundamentals and interpretation of geologic environments and geologic maps, coupled with identification of fossils will be covered in a required laboratory period. One Saturday field trip required.

Prerequisite(s): GEOL 1170 or GEOL 1070 or permission of Geography-Geology Department.

GEOL 2014 ENVIRONMENTAL GEOLOGY LAB (1 credit)

Basic topics such as geohydrology, water quality, waste management (including landfill siting and design), flood frequency, slope stability and earthquake hazards are covered via labs and field trips at a detailed introductory level. Local sites and associated data are used where possible to illustrate fundamental principles and commonly used analytic techniques.

Prerequisite(s): GEOL 1010 or GEOG 1170 or GEOG 1030 or permission of instructor.

GEOL 2100 GEOLOGY OF NEBRASKA (3 credits)

An introduction to the geologic features of Nebraska, and how the evidence they provide can be used to scientifically interpret the ancient history of the region. A review of the geologic history of Nebraska as it is currently understood will place the events documented in the larger context of Earth history.

Distribution: Natural/Physical Science General Education course

GEOL 2300 GEOSCIENCE DATA ANALYSIS AND MODELING (3 credits)

Introduction to foundation geoscience analysis and modeling techniques and conceptual frameworks. Topics covered include: describing and comparing populations, geologic map construction, fractals, surface contouring and modeling, non-linear behavior, GIS, graphic representation, photogrammetry, and computer modeling. Examples and exercises work with actual geoscience data. Students also gain experience with data retrieval from geoscience databases.

Prerequisite(s): GEOL 1010 or GEOL 1170, or GEOG 1030 or GEOG 1060 or GEOG 1070, or permission of instructor.

GEOL 2500 SPECIAL TOPICS IN GEOGRAPHY-GEOLOGY (1 credit)

This course will provide for an in-depth study of a geographical or geological subject (as specified in the course subtitle). Various classes will be offered as sections of GEOL 2500, but will be separate from one another. Students may repeat GEOL 2500 as often as they like as long as no specific subject is duplicated.

Distribution: Natural/Physical Science General Education course

GEOL 2750 MINERALOGY (3 credits)

Introduction to crystallography and mineralogy. Crystallography section is a study of crystal structure, symmetry and crystal systems. Mineralogy section is devoted to the description, identification and classification of minerals based on their crystal forms, physical properties, chemical composition and occurrence in nature. Must be taken concurrently with GEOL 2754.

Prerequisite(s): GEOL 1170. Must be taken concurrently with GEOL 2754.

GEOL 2754 MINERALOGY LABORATORY (1 credit)

A systematic investigation of minerals and the techniques of studying minerals to be taken concurrently with GEOL 2750. (Fall)

Prerequisite(s): Concurrent enrollment in GEOL 2750

GEOL 2760 IGNEOUS AND METAMORPHIC PETROLOGY (3 credits)

A study of the nature, origin, and significance of igneous and metamorphic rocks. Topics include genesis and crystallization of magmas, phase equilibria of mineral assemblages, and pressure and temperature conditions of metamorphism. One weekend field trip will be required. Must be taken concurrently with GEOL 2764.

Prerequisite(s): GEOL 2750. Must be taken concurrently with GEOL 2764.

GEOL 2764 IGNEOUS AND METAMORPHIC PETROLOGY LABORATORY (1 credit)

Petrology Laboratory is an introduction to the methods of petrology with emphasis on hand specimen identification and use of the petrographic microscope. Must be taken concurrently with GEOL 2760. (Spring)

Prerequisite(s): Concurrent enrollment in GEOL 2760

GEOL 3100 INVERTEBRATE PALEONTOLOGY (3 credits)

An introduction to the development of life through the study of the morphology, evolution and geological distribution of fossils. Must be taken concurrently with GEOL 3104/BIOL 3104. (Cross-listed with BIOL 3100).

Prerequisite(s): GEOL 1180. Must be taken concurrently with GEOL 3104/BIOL 3104.

GEOL 3104 INVERTEBRATE PALEONTOLOGY LABORATORY (1 credit)

An examination of representative specimens of groups of organisms important in the fossil record and an introduction to analytical techniques in paleontology. Must be taken concurrently with GEOL 3100.

Prerequisite(s): GEOL 1180 or permission; Concurrent enrollment in GEOL 3100

GEOL 3300 STRUCTURAL GEOLOGY (3 credits)

A study of the deformation of rocks in the earth's crust. Recognition of structural features such as types of fractures, folds, faults and foliations. Analysis of stress and strain in rocks under physical conditions occurring in the earth's crust that form structural features. Knowledge of structural associations for crustal shortening, extension and other kinematic regimes.

Prerequisite(s): GEOL 2750

GEOL 3310 STRUCTURAL GEOLOGY FIELD METHODS (1 credit)

A lab course to accompany GEOL 3300. Field trip is included. Emphasis will be on collection, interpretation and presentation of field and lab data. Must be taken concurrently with GEOL 3300.

Prerequisite(s): GEOL 2750, concurrent enrollment in GEOL 3300.

GEOL 3400 INTRODUCTION TO SEDIMENTARY GEOLOGY (3 credits)

An introduction to the basic principles and concepts of sedimentology and stratigraphy. It will include a review of sedimentary processes and depositional environments and principles and techniques of stratigraphy, such as biostratigraphy and radiometric dating.

Prerequisite(s): GEOL 2750 and GEOL 2754

GEOL 3700 PLATE TECTONICS (3 credits)

An introduction to and analysis of the paradigm that has revolutionized the Earth Sciences, the theory of plate tectonics; includes polar wandering and magnetic reversals, structure and life cycle of the oceanic crust, origin of major topographic and structural features of the earth, arc volcanism, continental collisions, mineral deposits, supercontinent cycles and mantle convection.

Prerequisite(s): GEOL 1170, GEOL 1180 and upper division standing.

GEOL 4040 GEOARCHAEOLOGY (3 credits)

An introduction to geoarchaeology: the application of methods and techniques of geography, geology and other earth sciences to solve archaeological problems and reconstruct past environments. (Cross-listed with GEOG 4040, GEOG 8046).

Prerequisite(s): Major in geology or geography; or major in anthropology, philosophy, or religion with GEOG 1030, GEOG 1060 or GEOG 1070; or GEOL 1170 or GEOL 1010; or permission.

GEOL 4100 BIOGEOGRAPHY (3 credits)

This course is intended as an introduction to biogeography, the study of the distribution and evolution of organisms across space and through time. Usually offered every year. (Cross-listed with GEOL 8106, BIOL 4100, BIOL 8106, GEOG 4100, GEOG 8106).

Prerequisite(s): BIOL 1450 and BIOL 1750 or GEOL 3100 or BIOL 3100, junior-senior.

GEOL 4260 PROCESS GEOMORPHOLOGY (4 credits)

A lecture and laboratory course focused on understanding Earth surface processes and the evolution of landforms across spatial and temporal scales. The course emphasizes applying unifying concepts in geomorphology, quantitative methodology and modern process-oriented geomorphology to interpret landscape evolution. (Cross-listed with GEOG 8266, GEOG 4260).

Prerequisite(s): One of the following: GEOL 1010, GEOL 1170, GEOG 1030, GEOG 1050 or instructor permission.

GEOL 4300 ENGINEERING GEOLOGY (3 credits)

The course provides an overview of the application of geologic principles to engineering projects and applications. These would include geologic investigations for engineering projects related to: geologic hazard assessment, foundation design, slope stability, control of groundwater seepage, underground excavation support, erosion control, and evaluation of geologic materials for engineering purposes.

Prerequisite(s): Physical Geology (GEOL 1170) or Environmental Geology (GEOL 1010), Structural Geology (GEOL 3300) or permission of instructor.

GEOL 4330 SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION (4 credits)

This course is designed to familiarize students with basic soil chemical, physical and biological properties, soil morphological characteristics, soil classification and soil forming processes. The course focuses on relationships between soils and environmental factors and how such factors alter soil forming processes. The lab will focus on developing basic field skills, including soil morphological descriptions and soil mapping, as well as common laboratory methods used to analyze soils. (Cross-listed with GEOG 4330, GEOG 8336)

Prerequisite(s): One of the following: GEOG 1030, GEOG 1050, GEOL 1010, GEOL 1170 or instructor permission.

GEOL 4400 GEOPHYSICS (3 credits)

A study of geophysical techniques used to understand the earth, study environmental problems, and in resource exploration. Seismic, gravity, heat flow, magnetic and other methods will be presented. The insights from these methods into earthquake events, stress distributions, rock rheology and plate tectonics will also be addressed. Interpretive skills will be emphasized. (Cross-listed with PHYS 4400).

Prerequisite(s): GEOL 1170, PHYS 1110 or higher, or permission of instructor

GEOL 4450 GEOHYDROLOGY (3 credits)

A course dealing with geology, chemistry and hydraulics of groundwater. Designed mainly for Geology majors but can be helpful to other disciplines where ground water is involved.

Prerequisite(s): GEOL 1170, MATH 1320 or higher, or permission of instructor

GEOL 4500 PALEOCLIMATOLOGY (3 credits)

Paleoclimatology involves the study of Earth's past climate history to better understand modern climate change. The course explores how we know climate changed in the past using geologic and geochemical proxies and then investigates the Earth's past climates from its birth to modern anthropogenic climate change. The course involves lecture, activities, and critical assessment of scientific literature to better understand Earth's dynamic past.

Prerequisite(s): GEOL 1170 or GEOL 1180

GEOL 4540 GEOCHEMISTRY (3 credits)

This course will cover the application of chemical principles to geologic systems. Specific topics covered will include the origin of elements and their distribution in the earth, geochronology, stable isotope systems, aqueous geochemistry and crystal chemistry. These topics will be integrated to the study of soils, igneous, metamorphic and sedimentary rocks and ore deposits. (Every third semester). (Cross-listed with CHEM 4540).

Prerequisite(s): GEOL 1170, CHEM 1140 or CHEM 1180, and either GEOL 2750 or CHEM 2500, or permission of Instructor

GEOL 4600 INDEPENDENT RESEARCH (1-3 credits)

Advanced study in the form of a major paper to give the senior student knowledge of and experience in using government documents, professional, and/or primary materials on a topic. Must be under the supervision of the instructor who is particularly qualified for the topic chosen. (Cross-listed with GEOG 4600).

Prerequisite(s): Permission of department chair.

GEOL 4610 ENVIRONMENTAL MONITORING AND ASSESSMENT (3 credits)

An interdisciplinary approach to techniques for the design and implementation of environmental inventory and monitoring schemes used to evaluate natural resources. Students work as teams to synthesize information from their backgrounds in geography, geology and ecology to evaluate the impacts of human actions on environmental quality following the framework for environmental assessments provided by the National Environmental Policy Act. Course is organized to accommodate variable needs of students with different backgrounds and career choices. Usually offered every year. (Cross-listed with BIOL 4610, ENVN 4610, GEOG 4610, GEOG 8616, GEOL 8616).

Prerequisite(s): Permission of instructor.

GEOL 4620 ADVANCED FIELD COURSE (6 credits)

Six weeks of advanced study on selected field problems. Conducted in a geologically classic area where all the major rock types and structures may be studied in a variety of geological situations. Reports, which integrate the geology, surface processes and literature of the studied areas, is required. Recommended to follow the junior year.

Prerequisite(s): GEOL 1170, GEOL 1180, GEOL 2750, GEOL 2760, GEOL 3300; GEOL 3450 recommended.

GEOL 4640 CRITICAL ZONE SCIENCE (4 credits)

This course examines the Critical Zone (CZ), Earth's permeable layer that extends from the top of vegetation to the bottom of groundwater. The CZ is a constantly evolving layer where rock, soil, water, air, and living organisms interact to regulate the landscape and natural habitats; it also determines the availability of life-sustaining resources, including our food production and water quality. CZ science is an interdisciplinary and international endeavor focused on cross-disciplinary science. In this course, we will focus on using data available from the existing National Science Foundation (NSF)-funded CZ Observatories (CZOs) along with readings, discussions and activities to explore interactions within the CZ. (Cross-listed with GEOG 4640, GEOG 8646)

Prerequisite(s): One of the following: GEOL 1170, GEOL 1010, GEOG 1030 or GEOG 1050; one chemistry or physics course recommended; or instructor permission.

GEOL 4800 INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/EARTH SCIENCE (3 credits)

Internship with local agencies or corporations enabling students to gain knowledge and experience in geology, comprehensive regional or environmental planning, or environmental science.

Prerequisite(s): Senior, major or area of concentration in Geology or Environmental Science and permission.

GEOL 4950 SENIOR THESIS (3 credits)

An independent research project undertaken by all geology majors during their final year. Topics will be selected in consultation with appropriate faculty and researched through field work, laboratory work and/or library sources.

Prerequisite(s): Senior, ENGL 1150/ENGL 1154 and ENGL 1160/ENGL 1164

Distribution: Writing in the Discipline Single Course

Geology, Bachelor of Arts

To obtain a B.A. with a major in Geology, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses - *(Most commonly, Geology majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead, they often test out of at least six hours of fundamental academic skills, take courses that meet both the three hours of U.S. Diversity requirements and three hours of social sciences requirements, meet five hours of humanities and 3 hours of global diversity requirements with a language course, and meet the seven-hour natural sciences distribution requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 22 or fewer.)*
- 12 hours of college breadth requirement
- 16 hours of foreign language
- 70 hours of major courses

TOTAL HOURS: 120

Requirements

Geology is offered as a Bachelor of Arts or a Bachelor of Science degree. Students may choose one of two tracks to follow: a general Geology Track and a Geology Career Track. Requirements for each are below.

The required core courses for either the B.A. or B.S. degree in geology are:

Code	Title	Credits
GEOL 1170	INTRODUCTION TO PHYSICAL GEOLOGY	4
GEOL 1180	INTRODUCTION TO HISTORICAL GEOLOGY	4

GEOL 2300	GEOSCIENCE DATA ANALYSIS AND MODELING	3
GEOL 2750	MINERALOGY	3
GEOL 2754	MINERALOGY LABORATORY	1
GEOL 3300	STRUCTURAL GEOLOGY	3
GEOL 3310	STRUCTURAL GEOLOGY FIELD METHODS	1
GEOL 3400	INTRODUCTION TO SEDIMENTARY GEOLOGY	3
GEOL 4620	ADVANCED FIELD COURSE	6
Students must choose one of the tracks below.		

For a B.A., the college requires completion of a foreign language through the intermediate level.

General Geology Track

In addition to the core geology requirements, students wishing to follow the general geology track must also take one of the following:

Code	Title	Credits
GEOL 4260	PROCESS GEOMORPHOLOGY	4
GEOLOGY/GEOG 4640	CRITICAL ZONE SCIENCE	4
GEOLOGY/GEOG 4330	SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION	4

In addition, students in the General geology track must take one of the following:

GEOL 4800	INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/EARTH SCIENCE	3
GEOL 4950	SENIOR THESIS	3

In addition, the major must select at least 12 hours of geology or geography courses that should be chosen after consultation with an adviser.

Required cognate courses are:

An approved statistics course		3
CHEM 1140	FUNDAMENTALS OF COLLEGE CHEMISTRY	4
CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY	1
PHYS 1110	GENERAL PHYSICS I	4
PHYS 1154	GENERAL PHYSICS LABORATORY I	1

Select one of the following options:

Option 1:		
PHYS 1120	GENERAL PHYSICS II	4
PHYS 1164	GENERAL PHYSICS LABORATORY II	1
Option 2:		
GEOL 4400	GEOPHYSICS	3

Geology Career Track

In addition to the core geology requirements, students wishing to follow the Geology career track must also take one of the following:

Code	Title	Credits
GEOL 4260	PROCESS GEOMORPHOLOGY	4
GEOLOGY/GEOG 4640	CRITICAL ZONE SCIENCE	4
GEOLOGY/GEOG 4330	SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION	4

Additionally, students in the Geology career track must take one of the following:

GEOL 4800	INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/EARTH SCIENCE	3
GEOL 4950	SENIOR THESIS	3

Students must also take additional Geology/Geography/related-field courses, which add up to at least 12 credits, and should be chosen after consultation with an advisor.

Required cognate courses:

Chemistry

CHEM 1180	GENERAL CHEMISTRY I	3
CHEM 1184	GENERAL CHEMISTRY I LABORATORY	1

Select one of the following options:

Option 1:

CHEM 1190	GENERAL CHEMISTRY II	3
CHEM 1194	GENERAL CHEMISTRY II LABORATORY	1

Option 2:

GEOL 4540	GEOCHEMISTRY	3
-----------	--------------	---

Math

Select one of the following options:

Option 1:

MATH 1950	CALCULUS I	5
MATH 1960	CALCULUS II	4

Option 2:

MATH 1930	CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES	3
-----------	--	---

Physics

PHYS 2110	GENERAL PHYSICS I - CALCULUS LEVEL	4
PHYS 1154	GENERAL PHYSICS LABORATORY I	1

Select one of the following options:

Option 1:

PHYS 2120	GENERAL PHYSICS-CALCULUS LEVEL	4
PHYS 1164	GENERAL PHYSICS LABORATORY II	1

Option 2:

GEOL 4400	GEOPHYSICS	3
-----------	------------	---

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for

the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Geology, Bachelor of Science

To obtain a B.S. with a major in Geology, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses - *(Most commonly, Geology majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead, they often test out of at least three hours of fundamental academic skills, take courses that meet both the six hours of diversity requirements and six hours of distribution requirements, and meet the seven-hour natural sciences distribution requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.)*
- 12 hours of college breadth requirement
- 74 hours of major courses
- Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements

Geology is offered as a Bachelor of Arts or a Bachelor of Science degree. Students may choose one of two tracks to follow: a general geology track and a geology career track. Requirements for each are below.

The required core courses for either the B.A. or B.S. degree in geology are:

Code	Title	Credits
GEOL 1170	INTRODUCTION TO PHYSICAL GEOLOGY	4
GEOL 1180	INTRODUCTION TO HISTORICAL GEOLOGY	4
GEOL 2300	GEOSCIENCE DATA ANALYSIS AND MODELING	3
GEOL 2750	MINERALOGY	3
GEOL 2754	MINERALOGY LABORATORY	1
GEOL 3300	STRUCTURAL GEOLOGY	3
GEOL 3310	STRUCTURAL GEOLOGY FIELD METHODS	1
GEOL 3400	INTRODUCTION TO SEDIMENTARY GEOLOGY	3
GEOL 4620	ADVANCED FIELD COURSE	6

Students must choose one of the tracks below.

General Geology Track

In addition to the core geology requirements, students wishing to follow the general geology track must also take one of the following:

Code	Title	Credits
GEOL 4260	PROCESS GEOMORPHOLOGY	4
GEOL/GEOG 4640	CRITICAL ZONE SCIENCE	4
GEOL/GEOG 4330	SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION	4

In addition, students in the General geology track must take one of the following:

GEOL 4800	INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/EARTH SCIENCE	3
GEOL 4950	SENIOR THESIS	3

In addition, the major must select at least twelve hours of geology or geography courses that should be chosen after consultation with an advisor

Required cognate courses are:

An approved statistics course		3
CHEM 1140	FUNDAMENTALS OF COLLEGE CHEMISTRY	4

CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY	1
-----------	--	---

PHYS 1110	GENERAL PHYSICS I	4
-----------	-------------------	---

PHYS 1154	GENERAL PHYSICS LABORATORY I	1
-----------	------------------------------	---

Select one of the following options:

Option 1:

PHYS 1120	GENERAL PHYSICS II	4
-----------	--------------------	---

PHYS 1164	GENERAL PHYSICS LABORATORY II	1
-----------	-------------------------------	---

Option 2:

GEOL 4400	GEOPHYSICS	3
-----------	------------	---

Geology Career Track

In addition to the core geology requirements, students wishing to follow the geology career track must also take one of the following:

Code	Title	Credits
GEOL 4260	PROCESS GEOMORPHOLOGY	4
GEOL/GEOG 4640	CRITICAL ZONE SCIENCE	4
GEOL/GEOG 4330	SOIL GENESIS, MORPHOLOGY AND CLASSIFICATION	4

Additionally, students in the geology career track must take one of the following:

GEOL 4800	INTERNSHIP IN ENVIRONMENTAL/REGIONAL PLANNING/EARTH SCIENCE	3
GEOL 4950	SENIOR THESIS	3

Students must also take additional geology/geography/related-field courses, which add up to at least twelve credits, and should be chosen after consultation with an advisor.

Required cognate courses:

Chemistry

CHEM 1180	GENERAL CHEMISTRY I	3
-----------	---------------------	---

CHEM 1184	GENERAL CHEMISTRY I LABORATORY	1
-----------	--------------------------------	---

Select one of the following options:

Option 1:

CHEM 1190	GENERAL CHEMISTRY II	3
-----------	----------------------	---

CHEM 1194	GENERAL CHEMISTRY II LABORATORY	1
-----------	---------------------------------	---

Option 2:

GEOL 4540	GEOCHEMISTRY	3
-----------	--------------	---

Math

Select one of the following options:

Option 1:

MATH 1950	CALCULUS I	5
-----------	------------	---

MATH 1960	CALCULUS II	4
-----------	-------------	---

Option 2:

MATH 1930	CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES	3
-----------	--	---

Physics

PHYS 2110	GENERAL PHYSICS I - CALCULUS LEVEL	4
PHYS 1154	GENERAL PHYSICS LABORATORY I	1
Select one of the following options:		
Option 1:		
PHYS 2120	GENERAL PHYSICS-CALCULUS LEVEL	4
PHYS 1164	GENERAL PHYSICS LABORATORY II	1
Option 2:		
GEOL 4400	GEOPHYSICS	3

Career Geology Track

History

The mission of the Department of History is to develop in our students a
thorough appreciation of the historical events, personalities, and patterns
that have coalesced through the centuries to create the world we live in
today. In addition to the all-important sense of perspective and context
that an understanding of the past provides, students of history also gain
important tangible skills that equip them to succeed in a wide array
of careers. Specifically, our majors learn to find and critically analyze
source materials, to interpret evidence in subtle and nuanced ways, and

to communicate their findings effectively, both orally and in writing. Study after study reveals that these are the skills that employers in countless fields value most in their workforce.

Other Information

All coursework taken for a History major or minor must be completed with a grade of "C-" or better.

Student Groups

Eligible students are encouraged to join the National History Honorary Society, Phi Alpha Theta. Our local chapter sponsors a variety of enrichment activities throughout the year.

Option for Degree Completion—Fast Track Program

The Department of History has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame.

With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing BA/BS in History desiring to pursue a MA in History.
- Students must have completed no less than 95 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good academic standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - If students obtain a minimum GPA of 3.8 in the graduate courses taken within the Fast Track Program, this will be considered a plus factor for admission to the master's degree program.
 - The admit term must be after the completion term of the undergraduate degree.

Degrees Offered

- History, Bachelor of Arts (p. 199)
- History, Bachelor of Science (p. 200)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the history major, this is HIST 2980.

Bachelor of Arts and Bachelor of Science in History

For the Bachelor of Arts or the Bachelor of Science in history, a minimum of 36 hours in history are required. Specific requirements are below.

B.A. degree seeking students must take foreign language through the intermediate level.

B.S. degree seeking students, in lieu of foreign language, must complete a 15 hour "cognate field." The cognate should consist of 12 hours at the 3000/4000 level in one or more related disciplines selected to complement the student's interests in history. Additionally, one 3-hour course in logic or statistics or one 3-hour writing course from another department must also be taken. The specific composition of a student's cognate field will be determined in consultation with the student's faculty advisor.

Bachelor of Multidisciplinary Studies

Students who wish to complete a Bachelor of Multidisciplinary Studies degree with a concentration in history should consult with an advisor in the Division of Continuing Studies. This degree requires 30 credit hours in history, of which nine hours must be at the 3000/4000 level. HIST 2980 and HIST 4990 are recommended for every student who plans to pursue a graduate degree in history. Students interested in this degree program must meet with an adviser in the Division of Continuing Studies. The major consists of a minimum of 30 credit hours in history, details of which are here (<https://www.unomaha.edu/college-of-public-affairs-and-community-service/division-of-continuing-studies/academics/areas-of-concentration/history.php>).

Minors Offered

- History Minor (p. 202)

If you seek to understand how and why the world came to be the way that it is today, then the study of History is your starting point, and the Department of History should become your academic home.

At the most fundamental level, History majors ask "How did we get to this point?" And in seeking the answers to that question, they gain deep and rich insights into both the great diversity and the binding commonalities of the human experience. Ultimately, then, the study of History helps us to define and understand the most essential elements of our own identity – who we are, where we come from, and how we are connected. Who could ask for a more important, dramatic, or rewarding academic endeavor?

- Attorney
- Analyst in a wide variety of industries such as insurance and banking
- Paralegal
- Federal, state, and local governments
- Politics
- Teaching
- Federal Bureau of Investigation

HIST 1000 WORLD HISTORY TO 1500 (3 credits)

An examination of selected traditional and pre-industrial civilizations in the context of their regional, cultural and historical roots.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

HIST 1010 WORLD HISTORY SINCE 1500 (3 credits)

An examination of selected societies since the beginning of the modern era.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

HIST 1050 CLASSICAL AFRICAN CIVILIZATIONS (3 credits)

Classical African Civilization is an introductory survey of the civilizations of Africa and African people prior to 1500 C.E., with emphasis on the evolution of the peoples and nations, their civilizations, and the rise and fall of indigenous states. In particular, this course will cover the classical civilizations of Kemet (Ancient Egypt), Nubia, Axum, Carthage, Ghana, Mali, and Songhay. (Cross-listed with BLST 1050).

Distribution: Global Diversity General Education course

HIST 1110 AMERICAN HISTORY TO 1865 (3 credits)

A survey of North American history from the Indigenous and pre-contact era to the end of the Civil War.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

HIST 1120 AMERICAN HISTORY SINCE 1865 (3 credits)

A general survey of American history since the Civil War, emphasizing social and political change and the emergence of the United States as a global power.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

HIST 2030 HISTORY OF MEDICINE: FROM ANTIQUITY TO THE PRESENT (3 credits)

This course will cover the history of medicine and medical practices from the earliest civilizations to the present. In addition to this chronological scope, the course will also examine medical practices in cultures from across the world. (Cross-listed with MEDH 2030).

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

HIST 2040 AFRICAN AMERICAN HISTORY I: 1619-1865 (3 credits)

The course examines the history of the earliest Africans in the Americas and briefly examines traditional African societies. It covers the transatlantic slave trade and its effects on Europe, Africa and the Americas, and analyzes the development of Afro-American culture and the struggle for freedom. (Cross-listed with BLST 2410)

Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

HIST 2050 AFRICAN-AMERICAN HISTORY II: 1865-1954 (3 credits)

A survey of Afro-American history from the Civil War to the present. Covers Reconstruction and its overthrow, including the new methods of control which replaced slavery. Discusses the development of black ideologies and institutions. Traces urban migration and its impact on black society and culture. Follows black progress through World War II, the 1954 Supreme Court Decision, and rising militancy. (Cross-listed with BLST 2420)

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

HIST 2060 AFRICAN AMERICAN HISTORY III: 1954-PRESENT DAY (3 credits)

This course is divided into three main parts: the Civil Rights Phase (1954-1963), during which the dominant mood was optimism over the possibilities of integration; the Black Power Phase (1963-1974), and the Pragmatist Phase (1972-present), characterized by attempts to preserve and maintain gains already won. (Cross-listed with BLST 2430)

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

HIST 2190 THE MODERN MIDDLE EAST (3 credits)

An interdisciplinary study of the social, religious, and historical dimensions of contemporary issues and events which make the Middle East cultural and geographic region a center of global tensions. After providing a background of how Islam spread in and unified the region, students will study factors which have shaped the Middle East from the late Ottoman period to the present, analyzing the principal sociocultural and political economic developments in the Middle East from the early 19th century to the early 21st century. (Cross-listed with RELI 2190, SOC 2190).

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

HIST 2480 HISTORY OF LATIN AMERICA: PRECONQUEST TO THE PRESENT (3 credits)

A history of the nations of Latin America from the pre-Columbian indigenous cultures to the present time. Among the topics included will be the nature of indigenous cultures, the various European incursions, regional revolutions against European empires, nation-building, and the place of Latin America in global history. (Cross-listed with LLS 2480).

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

HIST 2510 ANCIENT GREECE: BRONZE AGE TO CLASSICAL ERAS (3 credits)

A study of cultures in the Aegean/Eastern Mediterranean, from the Bronze Age through Classical-era Greece, to better appreciate their influence on later cultures, especially those of Rome, Europe, and North America.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

HIST 2520 ANCIENT HISTORY - ROME (3 credits)

A survey of Roman history including Rome's wars of expansion, the rise and fall of the Republican government, the reorganization of the state under the emperors, and the nature of Rome's Empire and its peoples. The course will also examine aspects of Roman society, including living conditions, family organization, religion, and the diversity of Roman culture, including in the visual arts.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Global Diversity General Education course

HIST 2540 INTRODUCTION TO EGYPTIAN HIEROGLYPHS (3 credits)

Introduction to Egyptian Hieroglyphics will provide students with fundamental elements of Kemetic (ancient Egyptian) grammar, vocabulary, transliteration, and translation. Egyptian hieroglyphs, classically referred to as the "medu netcher," is the oldest written language on the African continent. Students will embark on an examination of primary texts which reveal important features of classical Egyptian culture and civilization. By studying this ancient African language, students will gain historical knowledge of the ancient cultures of Kemet and other classical Nile Valley civilizations. (Cross-listed with BLST 2540).

HIST 2620 MODERN BRITAIN (3 credits)

This course will provide an overview of some of the major events in modern British history, considering both national and global perspectives. Topics covered will include empire, war, industrialization, technology, welfare, decolonization, gender, and pop culture along with a myriad of other subjects.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Global Diversity General Education course

HIST 2710 A HISTORY OF RUSSIA FROM KIEVAN RUS' TO THE CRIMEAN WAR (3 credits)

This course will examine Russian history beginning with the medieval Kievan state. The course will examine the consolidation of the Russian state under Ivan IV, the geographical expansion of Russia, the great reforms under Peter the Great, and conclude with the crisis of the Russian state following the Crimean War.

HIST 2720 RUSSIA: FROM THE CRIMEAN WAR TO THE PRESENT (3 credits)

This course examines Russian history from the great reforms ushered in under Alexander II to the present day. Among the topics covered are the crisis of Imperial Russia, the Bolshevik Revolution, life in the USSR, the USSR in the Second World War, the USSR in the Cold War, the collapse of communism, and the changes in Russian society since 1991.

Distribution: Global Diversity General Education course

HIST 2810 HISTORY OF CHINA: FROM THE MANCHU CONQUEST TO THE PRESENT (3 credits)

This course examines Chinese history from the seventeenth-century Manchu conquests to the present. Topics covered will include the nature of the Manchu-Qing Dynasty, the destabilization which began in the nineteenth century, growing pressure exerted by other powers, and the rise and rule of the Chinese Communist Party.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Global Diversity General Education course

HIST 2820 JAPAN: FROM WARRING STATES TO THE MODERN DAY (3 credits)

This course will examine the course of Japanese history beginning with the Warring States (Sengoku) era of fifteenth and sixteenth centuries. It will then continue by assessing unified Japan under the Tokugawa bakufu, the initial stability of this period, then the growing tensions which led to the collapse of the bakufu state in the 1860s. From there, the course will analyze the emergence of modern Japan during the Meiji Restoration, its evolution to a military state, and then conclude with an assessment of Japan's transformation in the post-World War II era.

Distribution: Global Diversity General Education course

HIST 2920 HISTORY OF MODERN AFRICA (3 credits)

This course covers the era of the beginning, development and decline of European colonialism in Africa. The movement for decolonization, the emergence of independent sovereign nations and the strategic role that Africa plays in the forum of industrialized and developed nations is investigated. It examines the impact of European cultures and forced labor on traditional Africa, and the struggle for a resolution of the conflict between the three major traditions on the continent - Western and Indigenous. Religious indigenous practices are also considered, along with Christian and Islamic cultures. (Cross-listed with BLST 2120).

HIST 2980 HISTORICAL METHODOLOGY (3 credits)

The critical method in collecting, organizing, and presenting historical material. Required for history majors. Students are encouraged to enroll in this course as soon as possible after declaring their major.

Prerequisite(s): ENGL 1160 and permission of department chair or chair's designee. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

HIST 2990 PEOPLE AND ISSUES IN HISTORY (3 credits)

An in-depth investigation of a topic as announced in the course subtitle. Students may enroll for different sections as long as no specific subject is duplicated.

Prerequisite(s): Not open to non-degree graduate students.

HIST 3520 HISTORY OF ROMAN EMPIRE (3 credits)

This course examines the Roman Empire (30 BC to AD 476), also known as the Principate, with the class's main focus on its first three centuries. The course covers the rise of the Imperial government, its development, and the challenges it faced in the reigns of different emperors. Included will be discussion of Rome's relationship with neighboring kingdoms, with the peoples in its own provinces, and with religious minority groups such as the Jews and Christians.

Prerequisite(s): Junior status or permission of instructor. Students must have written permission from the course instructor to apply the course to the requirements of the Ancient Mediterranean Studies Minor.

HIST 4010 RELIGION IN EARLY AMERICA (3 credits)

This course examines the history and nature of religion in North America to c. 1770 with an emphasis on the British colonies. (Cross-listed with HIST 8016, RELI 4050).

Prerequisite(s): Junior or senior standing. Not open to non-degree graduate students.

HIST 4040 HOMESCAPES: THE MATERIAL CULTURE OF EVERYDAY LIFE IN AMERICA, 1600-1860 (3 credits)

This course examines the culture and technologies of house forms and work landscapes in North America, 1600-1860. (Cross-listed with HIST 8046).

Prerequisite(s): 60 hours. Not open to non-degree graduate students.

HIST 4050 HISTORY OF WOMEN IN AMERICA TO 1875 (3 credits)

This course examines the history of women in what is now the United States from the seventeenth century to 1875. Topics include law, work, sexuality and reproduction, slavery, cross-cultural encounters, religion, political activism, and the transformation of gender by the market and industrial revolutions. (Cross-listed with HIST 8056).

Prerequisite(s): Junior standing or permission of the instructor. Not open to non-degree graduate students.

HIST 4060 HISTORY OF WOMEN IN AMERICA FROM 1875 - 1992 (3 credits)

This course examines the history of women in the United States from 1875 to 1992. Topics include law, work, sexuality and reproduction, immigration, civil rights, political participation and party politics, and changes to the American gender system, including family structure and employment. (Cross-listed with WGST 4060, WGST 8066, and HIST 8066).

Prerequisite(s): Junior or permission of instructor; Not open to non-degree graduate students.

HIST 4070 SLAVERY AND RACE RELATIONS IN THE AMERICAS (3 credits)

Slavery and Race Relations in the Americas examines the historical relationship between the trans-Atlantic slave trade and American race relations, connecting the enslavement of Africans in the Americas to race relations in the Caribbean, Latin America, and the United States. (Cross-listed with BLST 4650, BLST 8656, HIST 8076, LLS 4650, LLS 8656).

Prerequisite(s): Junior or senior standing

Distribution: U.S. Diversity General Education course

HIST 4080 THE BLACK ATLANTIC (3 credits)

This course examines the cultural and ethnic history of Black people who comprised "The Black Atlantic." The course is organized historically and begins with a brief overview of the European slave trade on the West African Coast in the 15th century. From there, we look critically at the arrival of Africans to the New World, examine varieties of slavery and freedom in the Americas, and conclude with slave revolts and emancipation activism in the 18th and 19th century. We will use the Haitian Revolution (in which Haiti became the first country to be founded by formerly enslaved people) as a special case study, a conduit for our exploration of this socio-cultural, economic, and Diasporic space. (Cross-listed with BLST 8356, BLST 4350, HIST 8086).

Prerequisite(s): Junior standing or permission of instructor

HIST 4140 COLONIAL AMERICAN HISTORY (3 credits)

This course provides a study of the settlement and development of North America to c. 1763 with an emphasis on the British colonies. (Cross-listed with HIST 8146).

Prerequisite(s): Junior standing or permission of instructor

HIST 4150 THE AMERICAN REVOLUTIONARY ERA, 1763-89 (3 credits)

This course examines the period of the American Revolution beginning with the changed circumstances in the British North American colonies following the end of the French and Indian War and concluding with the ratification of the United States Constitution. The course analyses social, political, and military themes from this period. (Cross-listed with HIST 8156).

Prerequisite(s): junior standing or permission of instructor.

HIST 4160 THE EARLY AMERICAN REPUBLIC: FROM THE CONSTITUTION TO THE SECOND PARTY SYSTEM (3 credits)

This course covers an important period of American history beginning with the first federal government and ending with an analysis of the consolidation of the Second American Party system. Topics to be covered include the earliest debates over the nature of the federal government, foreign relations, the emergence of political parties, and the rise of the Jacksonian democracy. (Cross-listed with HIST 8166).

Prerequisite(s): Junior or permission of instructor.

HIST 4170 HISTORY OF THE AMERICAN WEST (3 credits)

An examination of the unique aspects of the region of the United States known as "the west." Students will learn about the multiple peoples, cultures, and environments which combined to form this region. Content will also include an examination of how the myths of the west were created. (Cross-listed with HIST 8176).

Prerequisite(s): Junior or permission of instructor.

HIST 4180 THE AMERICAN CIVIL WAR PERIOD: FROM THE TEXAS REVOLUTION THROUGH RECONSTRUCTION (3 credits)

This course focuses on the period of the American Civil War. It will begin with the background to, and events of the Texas Revolution. It will then consider the growing national tensions over slavery, particularly as a consequence of the Mexican-American War before examining the immediate causes of the civil war. The course will then examine the war itself before concluding with analysis of Reconstruction. (Cross-listed with HIST 8186).

Prerequisite(s): Junior or permission of instructor.

HIST 4240 EMERGENCE OF MODERN AMERICA (3 credits)

This course examines American history from the end of Reconstruction to the end of World War II. Among the topics covered are western expansion, industrialization, immigration, and the expanding international footprint of the United States. (Cross-listed with HIST 8246).

Prerequisite(s): Junior or permission of instructor.

HIST 4330 U.S. CONSTITUTIONAL HISTORY TO 1860 (3 credits)

This course will examine the history of the United States constitution from its promulgation in 1787 through the end of the Civil War. This will include consideration of both English and colonial precedents. The course will analyze the process of writing and ratifying the document in the late 1780s and will then look at some of the key legal decisions between 1790 and 1860. (Cross-listed with HIST 8336).

Prerequisite(s): Junior or permission of instructor.

HIST 4340 U.S. CONSTITUTIONAL HISTORY SINCE 1860 (3 credits)

This course examine the increasingly important role played by competing interpretations of the United States constitution since the outbreak of the Civil War. This will include the emergence of the idea of a "living constitution," the extension of constitutional guarantees to the states, and examination of critical Supreme Court cases. (Cross-listed with HIST 8346).

Prerequisite(s): Junior or permission of instructor.

HIST 4360 THE U.S. IN THE COLD WAR (3 credits)

This course will examine the impact of the Cold War in modern American history on two levels. First it will seek to understand how the Cold War influenced American foreign policy decisions since the end of World War II and examine the long term consequences of those policies for both the U.S. and the world. Secondly, this course will examine how the Cold War impacted or shaped American culture, domestic politics, and social movements in the postwar period. (Cross-listed with HIST 8366).

Prerequisite(s): Junior standing or permission of the instructor

HIST 4400 HISTORY OF NATIVE AMERICAN INDIGENOUS PEOPLES (3 credits)

This survey of North American Indigenous peoples provides a historical overview of the peoples and their interactions with settlers, wars, policies, and other events that have shaped modern Tribal and U.S. relations. (Cross-listed with HIST 8406, NAMS 4400).

Prerequisite(s): Junior or permission of instructor.

HIST 4410 HISTORY OF NEBRASKA (3 credits)

An examination of the history of Nebraska from Native American occupation to the present, with emphasis on environmental factors that have shaped the region and its people. (Cross-listed with HIST 8416).

Prerequisite(s): Junior or permission of instructor.

HIST 4420 THE SIOUX TRIBE (3 credits)

A cultural and historical study of the Sioux tribes emphasizing the earliest historic period to the present. (Cross-listed with HIST 8426).

Prerequisite(s): Junior standing or permission of instructor.

HIST 4450 NATIVE AMERICAN ENVIRONMENTALISM (3 credits)

This course studies North American tribal subsistence and natural resource use practices from the early historic period to the present, Native Americans as environmentalists, and modern tribal environmentalism. (Cross-listed with HIST 8456).

Prerequisite(s): Junior standing or permission of instructor.

HIST 4460 AMERICAN IMMIGRATION HISTORY (3 credits)

A study of American immigration from the colonial era to the present. Topics covered include Old World origins of migration, the old immigrants from western Europe, the new immigrants from southern and eastern Europe, non-European immigrants, native-born American responses to immigrants, the periods of immigrant adjustment in the new physical environment, and the contemporary revival of ethnicity. (Cross-listed with HIST 8466).

Prerequisite(s): Junior or permission of instructor.

HIST 4480 THE UNITED STATES IN THE 1960S (3 credits)

This course is a review of the economic, social, cultural, and political changes that marked the United States in the 1960s. (Cross-listed with HIST 8486).

Prerequisite(s): Junior standing or permission of the instructor.

HIST 4530 EUROPE: RENAISSANCE & REFORMATION (3 credits)

This course will examine European history from the fifteenth through the seventeenth centuries. Among the topics which will be covered are the Renaissance, the Protestant Reformation, the Catholic Reformation, Wars of Religion, the beginning of European overseas expansion, and the Scientific Revolution. In addition to examining the religious ideas and revolutions of the period, there will also be analysis of economic, social, and political change. (Cross-listed with HIST 8536).

Prerequisite(s): Junior or permission of instructor.

HIST 4540 MEDIEVAL EUROPE (3 credits)

A dive into the history of medieval Europe through the stories of men and women, their beliefs, struggles, contradictions and achievements. (Cross-listed with HIST 8546).

Prerequisite(s): Junior or permission of instructor.

HIST 4610 TUDOR AND STUART ENGLAND (3 credits)

English history from the end of the Wars of the Roses in 1485 to the death of Queen Anne in 1714. The course will examine the efforts of the Tudors and Stuarts to establish dynasties, the religious upheavals in the sixteenth and seventeenth centuries, changes in the role of Parliament, the Civil Wars, and the beginning of English overseas expansion. (Cross-listed with HIST 8616).

Prerequisite(s): Junior or permission of instructor.

HIST 4720 THE HOLOCAUST (3 credits)

An interdisciplinary approach in a seminar oriented format discussing various aspects of the most notorious genocide in modern times. The course will explore the history of anti-Semitism, the rise of Nazi Germany and the road to the 'final solution.' It will further explore psychological, sociological and intellectual aspects of the dark side of humanity. (Cross-listed with RELI 4160, RELI 8166, HIST 8726).

Prerequisite(s): Junior or instructor permission.

HIST 4730 ISRAEL AND PALESTINE (3 credits)

This course will outline the history of the conflict over Palestine/Israel, examine its present status, and explore its likely unfolding in the future. It seeks to provide a broad and concise understanding of the historical events which have shaped the relations between Israelis and Palestinians, as well as a keen awareness of the challenges and prospects related to their future. (Cross-listed with HIST 8736).

Prerequisite(s): Junior standing or permission of the instructor.

HIST 4740 COMPARATIVE GENOCIDE (3 credits)

This course explores genocide and its many forms throughout history. It begins by considering the varied elements and definitions of the term. Next it looks at what makes people kill before going on to examine many different genocides throughout history. Finally, the course addresses the prosecution and prevention of genocide. (Cross-listed with HIST 8746)

Prerequisite(s): Junior. Not open to non-degree graduate students.

HIST 4800 U.S. AND THE MIDDLE EAST (3 credits)

This course focuses on the evolution of US relations with and Foreign Policy vis-a-vis the Middle East over the last six decades. It seeks to illuminate the constant features in contrast to the changes in direction, examining the agendas of varying administrations as well as the treatment by the media of this region. It follows a chronological framework with particular emphasis on key thematic topics. While emphasizing the political dimensions of international relations, the class will also explore cultural and social aspects of the ties between the US and the peoples of the Middle East. (Cross-listed with HIST 8806).

Prerequisite(s): Junior or permission of instructor.

HIST 4820 MESOPOTAMIA AND PRE-ISLAMIC PERSIA (3 credits)

Examination of the Ancient Near East from the emergence of its earliest civilizations—Sumer, Akkad and Babylonia—through the Bronze and Iron Ages, concluding with Persia in the Common Era (CE) just before the rise of Islam. (Cross-listed with HIST 8826).

Prerequisite(s): Junior standing.

HIST 4830 ANCIENT GREEK MYTH, RELIGION & MAGIC (3 credits)

Students will examine the impact of ancient Greek myth and belief on actual religious practice: e.g., "lived" religion. Areas covered include formal civic sacrifice, wartime religion, family and personal devotions, mystery cults, oracles and seers, plus the popular pursuit of magic. (Cross-listed with HIST 8836, RELI 4830, RELI 8836).

Prerequisite(s): Junior standing

HIST 4840 ALEXANDER THE GREAT AND THE MACEDONIAN ORIGIN (3 credits)

Examination of the conquests of Alexander the Great, as well as controversies in Alexander studies. Includes discussion of both the Macedonian culture that produced him and the career of his father, Philip II. (Cross-listed with HIST 8846).

Prerequisite(s): Junior standing

HIST 4850 ROME AND THE EARLY CHURCH (3 credits)

Students will cover Roman-Christian-Jewish interactions from just before the birth of Jesus of Nazareth to c. 450 CE, with an emphasis on social and political history. We catalogue Christianity's transformation from its origins as a Jewish movement and an illegal "superstition" to the dominant religion of the Roman empire. (Cross-listed with HIST 8856, RELI 4850, RELI 8856).

Prerequisite(s): Junior standing.

HIST 4900 INDEPENDENT STUDIES (1-3 credits)

Project arranged individually with undergraduate students. May be repeated as long as the subject differs, to a maximum of six hours.

Prerequisite(s): Written permission of instructor.

HIST 4910 TOPICS IN HISTORY (3 credits)

This course introduces students to specialized subject matter not available in existing History courses. Course may be repeated as long as the topic is substantially different each time. Course may be cross-listed with other programs e.g. Native American Studies (NAMS), Women's and Gender Studies (WGST) when topics are appropriate. (Cross-listed with HIST 8916).

Prerequisite(s): Junior standing

HIST 4920 INTERNSHIP IN HISTORICAL STUDIES (1-3 credits)

The undergraduate student is supervised by a member of the faculty in a project involving part-time employment or service with a museum, historic site, historical society or other institution. Work hours, activities, reporting requirements, and responsibilities must be specified in written agreement between employer, student, and/or History Intern Program Coordinator. This course is normally taken for 3 hours. If a hosting institution cannot commit to a supervised workload which the departmental advisor believes to be equivalent to 3 hours, course may be taken for fewer hours. In such circumstances, students may repeat the course up to a total of 3 hours.

Prerequisite(s): Student must have completed or enrolled in at least 6 hours of upper-division history courses (3000-4000). Student must have approval of History Intern Program Coordinator before enrolling. Not open to non-degree graduate students.

HIST 4990 SENIOR SEMINAR (3 credits)

Capstone research course for history majors. Students will be required to produce an original research paper. Each section of this course will be offered with a specific subject or theme.

Prerequisite(s): HIST 2980 and permission of department chair or chair's designee. Not open to non-degree graduate students.

History, Bachelor of Arts

To obtain a B.A. with a major in History, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

1. 46 hours of University General Education courses
2. 16 hours of foreign languages
3. 12 hours college breadth requirement
4. 36 hours of major courses
5. Elective hours as required to total 120 hours.

TOTAL HOURS: 120

Requirements

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

History, Bachelor of Science

To obtain a B.S. with a major in History, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

1. 46 hours of University General Education courses
2. 12 hours college breadth requirement
3. 51 hours of major courses
4. Elective hours as required to total 120 hours.

TOTAL HOURS: 120

HIST 1000	WORLD HISTORY TO 1500	3
HIST 1010	WORLD HISTORY SINCE 1500	3
HIST 2980	HISTORICAL METHODOLOGY	3
HIST 4990	SENIOR SEMINAR	3
Select 6 hours lower-division history courses (1000-2000) of which at least 3 must be HIST 1110 or HIST 1120.		6
Select an additional 18 hours upper-division history courses (3000-4000). ¹		18
In Lieu of Foreign Language, Cognate Requirements for B.S.²		15
For the B.S. degree, students are required to complete at least 15 hours of related cognate coursework that must be approved by a History Department Academic Advisor. Students will choose one course in advanced writing or statistics, in consultation with their advisor. Twelve hours must be courses at the 3000/4000 level.		
Total Credits		51

¹ Within the courses taken at the 2000 level or above, the following “geographic distribution” requirements also apply:

- at least 3 hrs. in US History courses
- at least 3 hrs. in European History courses
- at least 3 hrs. in “Wider World” courses (not US or European)

² The specific composition of a student’s cognate field will be determined in consultation with the student’s departmental advisor.

Total Credits	120-121

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

History Minor

Requirements

Students may earn a minor in history by completing 15 hours in history, with at least 9 hours in 3000-4000 level courses.

Holocaust and Genocide Studies Minor

Description

The mission of the Holocaust and Genocide Studies (HGS) Faculty is to promote and facilitate the scholarly study of the Holocaust and other historical genocides throughout history. One of its chief mandates is to provide an interdisciplinary approach in which the topic of the HGS is covered in a variety of departments/programs and from a variety of perspectives. The HGS minor is intended to create a student who is more aware of the importance of genocide in both the past and present and to prepare them for potential careers in fields related to the HGS. The following are key objectives of the minor:

- Learn the history of genocide from a global and comparative perspective
- Learn the history of genocide in an interdisciplinary context
- Master core competencies in other disciplines and majors with the Holocaust and genocide as the subject matter
- Recognize the current relevance of the study of the Holocaust and genocide
- Gain a working knowledge of methods of prevention, intervention, and justice for instances of genocide throughout history
- Develop "moral muscles" that enable students to recognize and react to injustices occurring at home and abroad

- Prepare students for a variety of careers in both the public and private sector that focus on the recognition, prevention, intervention, amelioration, and prosecution of genocide and mass atrocity.

Other Information

All coursework taken for the Holocaust and Genocide Studies minor must be completed with a grade of "C-" or better.

Contact

Holocaust and Genocide Studies Director/Advisor, Mark Scherer, Ph.D., J.D.
Professor of History
287W Arts and Sciences Hall, 402.554.4823
mscherer@unomaha.edu

Requirements

Undergraduate students will be expected to complete at least **18 credit hours** of HGS courses with a grade of C- or higher in at least **three departments**, including Anthropology, History, Philosophy, Political Science, Religious Studies and Sociology. A course in another department may be permissible with review and approval by the HGS director

² RELI 3500 when topic pertains to HGS

Human Rights Studies Minor

Description

The interdisciplinary human rights studies minor provides students with a fuller understanding of the origins, theories, and contemporary realities of human rights through the exploration of multiple intellectual spaces of human rights discourse. Having an understanding of human rights will help students to address issues such as migration and refugees, ethnic cleansing and genocide, discrimination, terrorism, poverty, children's rights, surveillance, torture, humanitarian intervention, armed conflict, and capital punishment.

Although the breadth of this program complements majors across the disciplinary spectrum, it is particularly valuable for those majoring in fields related to society, politics, and the law, such as sociology, political science, philosophy, religious studies, history, and anthropology. Not only is it relevant to those students seeking careers in the public, private, and non-profit sectors, it is well-suited for those who have an interest in human rights research and advocacy both locally and globally. The human rights studies minor is ideally suited for students who want to put their knowledge and skills to use through local internships and study abroad programs available to UNO students. It will also serve to enhance research skills and experiences for students who plan to pursue further education in graduate programs, as well as law school.

Other Information

All coursework taken for the human rights studies minor must be completed with a grade of "C" or better.

Interdisciplinary Studies

Solving the challenges of our increasingly complex world requires interdisciplinary thinking, methods, and solutions. Choosing to major in Interdisciplinary Studies offers you an opportunity to customize your bachelor's degree by designing your own program of study. You will select complementary courses or minors from academic disciplines that allow you to focus on the subjects and topics that interest you.

Core coursework in the major explores diverse subjects that share a strong interdisciplinary theme. By emphasizing the importance of studying complex issues from multiple perspectives, these courses equip students with skills in critical thinking, interpretation, problem-solving, and multi-faceted analysis.

You may choose to pursue either a Bachelor of Science with a cognate requirement or a Bachelor of Arts with a foreign language requirement in either the Integrative or Individualized Studies concentrations:

Integrative Studies Concentration: This academic plan allows you to create your own major by combining established minor programs of study.

Your plan must include two minors (<https://www.unomaha.edu/college-of-arts-and-sciences/academics/minors-at-uno.php>) (or more, depending on the student's interest) from any academic programs in the university to build content knowledge in specific areas of focus. Students must complete all requirements of each minor program of study, with at least 18 credit hours coming from upper-division courses.

Individualized Studies Concentration: This academic plan allows you to create your own major and through individual, complementary courses. Your plan must include a total of at least 18 credits of upper-division coursework and 36 total credits from any academic programs in the university to build content knowledge in specific areas of focus. Students are required to draft an intentional plan of study, including a rationale and course outline.

Exploratory Studies Concentration: If you are a first-year student with fewer than 45 credits who has not declared a major or been admitted to the major of your choice, you will be admitted to Exploratory Studies. In this concentration, you will enjoy an immediate academic home that allows you to explore different disciplines and programs by taking Exploratory Studies 1000, designed to give you knowledge about various majors and minors at UNO, as well as enroll in general education courses that help you explore a best-fit major while satisfying your general education requirements. You will engage in cross-curricular academic advising, career assessment, guided exploration of majors and careers, mentoring, and programming designed to provide you the support you need as you figure out your best-fit major. You will have the opportunity to interact with advisors, faculty, peer mentors, and professionals from different fields in order to discover your passions and make an informed decision on a major. Exploratory Studies majors are required to declare a major within their first 45 credit hours in any college, which includes the option to switch to either the Integrative Studies or Individualized Studies concentrations in Interdisciplinary Studies (see above).

Declaring the Integrative or Individualized Concentration

Students are required to meet with the Interdisciplinary Studies advisor before declaring.

Double Majors

Double majoring in Interdisciplinary Studies with the Integrative or Individualized concentration offers students an opportunity for supplemental practice. Those interested in double majoring should pursue another UNO program that does not overlap substantially with their concentration coursework.

Residency

Students choosing either the Integrative or Individualized Studies Concentration must complete INDS 1000 and INDS 4950 and at least 12 additional hours of major requirements at UNO. Students choosing the Integrative Studies Concentration must complete at least 6 hours of coursework in each minor that fulfills the concentration requirements.

Contact Information

Exploratory Studies:

Tammie Kennedy, Director

Integrative and Individualized Concentrations:

Michelle Quick, Advisor

mquick@unomaha.edu

website (<https://www.unomaha.edu/college-of-arts-and-sciences/interdisciplinary-studies/>)

- Interdisciplinary Studies, Bachelor of Arts (p. 205)
- Interdisciplinary Studies, Bachelor of Science (p. 208)

Writing in the Discipline (WID)

Students choosing either the Integrative or Individualized Studies Concentration should take a WID course that is relevant to the focus of their studies. Consult with the Interdisciplinary Studies advisor for approved courses.

Because the Interdisciplinary Studies major is uniquely crafted by each student through either the Individualized or Integrative Concentration, students can apply their skills gained to numerous occupational fields including, but not limited to the following:

- business
- the arts
- non-profit sector
- environmental policy
- urban studies
- language and culture studies
- social justice
- helping professions
- information and technology
- education
- law
- medicine and allied health professions
- human resources
- public service sector

EXPL 1000 EXPLORATORY STUDIES (3 credits)

All Exploratory Studies students will take EXPL 1000, a general education course specifically designed for Explorers which: Empowers students to define their passions, talents, and interests to choose a best-fit major/minor; helps students explore different disciplines, Academic Focus Areas, and majors/minors at UNO; draws on happiness and well-being theories to help students better define the meaning of success in college and in life; provides mentorship from faculty, staff, peer mentors, EXPL Ambassadors, and more.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course

INDS 1000 INTRODUCTION TO INTERDISCIPLINARY STUDIES (3 credits)

This course introduces students to the differences between disciplinary and interdisciplinary approaches to learning and research, and how to create/critique interdisciplinary arguments, understand interdisciplinary processes, and assess the quality of their own work. Students gain the opportunity to engage in the study of thinking, reading, writing, and problem-solving through an interdisciplinary lens across the natural and physical sciences, social sciences, and humanities. This course fosters intellectual curiosity by examining personal, social, cultural, and scientific challenges, and asking students to consider interdisciplinary solutions. Open to all majors interested in learning how interdisciplinarity can both contextualize and enrich individual disciplines. For those majoring or considering majoring in Interdisciplinary Studies, this course will also offer the opportunity to craft an intentional plan of study by connecting with faculty and peers across various disciplines.

Prerequisite(s): Students majoring in Interdisciplinary Studies should take INDS 1000. Not open to non-degree graduate students.

Distribution: Social Science General Education course

INDS 4950 INTERDISCIPLINARY STUDIES: CAPSTONE COURSE (3 credits)

The course provides students with the opportunity to refine their practice of interdisciplinary thinking and its application to the real world; to demonstrate the knowledge and skills acquired thus far with the production of a senior project; to produce a rationale for their capstone project and specializations legible to potential employers.

Prerequisite(s): INDS 1000; a course satisfying the intensive writing requirement, and a research method course offered in their fields of study.

Interdisciplinary Studies, Bachelor of Arts

To obtain a B.A. with a major in Interdisciplinary Studies, a student must fulfill university, college, and program requirements. As an interdisciplinary major of at least 50 hours, this major meets the College breadth requirement. Other hour requirements follow:

- 46 hours of University General Education courses
Most majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead they select courses that meet multiple requirements.
- 16 hours foreign language requirement
- 50 hours of major courses
- At least 8 hours of electives

TOTAL HOURS: 120

Note: If student will have earned fewer than 120 credits by end of semester, they should take additional classes in a focus area or University electives.		
Credits		13
Total Credits		120-121

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an Interdisciplinary Studies advisor for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams:

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Interdisciplinary Studies, Bachelor of Science

To obtain a B.S. with a major in Interdisciplinary Studies, a student must fulfill university, college, and program requirements. As an interdisciplinary major of at least 50 hours, this major meets the College breadth requirement. Other hour requirements follow:

- 46 hours of University General Education courses
Most majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead they select courses that meet multiple requirements.
- 15 hours cognate coursework
- 50 hours of major courses
- At least 9 hours of electives

TOTAL HOURS: 120

Requirements

Code	Title	Credits
INDS 1000	INTRODUCTION TO INTERDISCIPLINARY STUDIES	3
INDS 4950	INTERDISCIPLINARY STUDIES: CAPSTONE COURSE	3
One approved research course		3-4
Approved courses include but are not limited to the following:		
BSAD 3160	MANAGERIAL STATISTICS FOR BUSINESS (4 credit hours)	
CRCJ 2510	RESEARCH METHODS	
CRCJ/SOWK/PA 3000	APPLIED STATISTICS AND DATA PROCESSING IN PUBLIC SECTOR	
PSCI 2000	INTRODUCTION TO POLITICAL INQUIRY AND WRITING	
PSCI 3000	QUANTITATIVE ANALYSIS IN POLITICAL SCIENCE	
PSYC 3130	STATISTICS FOR THE BEHAVIORAL SCIENCES	
SOC 2130	SOCIAL STATISTICS	
SOC 3510	RESEARCH METHODS	
STAT 1530	ELEMENTARY STATISTICS	
STAT 3000	STATISTICAL METHODS I	
Elective hours to be determined in consultation with the advisor		5-11
Integrative or Individualized Studies Concentration		30-36

Optional

This academic plan may include one or more semesters of study abroad, or internships, if appropriate.

Total Hours **50-51**

Concentration in Exploratory Studies

If you are a first-year student with fewer than 45 credits who has not declared a major or been admitted to the major of your choice, you will be admitted to Exploratory Studies. In this concentration, you will enjoy an immediate academic home that allows you to explore different disciplines and programs by taking Exploratory Studies 1000, designed to give you knowledge about various majors and minors at UNO, as well as enroll in general education courses that help you explore a best-fit major while satisfying your general education requirements. You will engage in cross-curricular academic advising, career assessment, guided exploration of majors and careers, mentoring, and programming designed to provide you the support you need as you figure out your best-fit major. You will have the opportunity to interact with advisors, faculty, peer mentors, and professionals from different fields in order to discover your passions and make an informed decision on a major. Exploratory Studies majors are required to declare a major within their first 45 credit hours in any college, which includes the option to switch to either the Integrative Studies or Individualized Studies concentrations in Interdisciplinary Studies (see below).

Course Requirement

Code	Title	Credits
EXPL 1000	EXPLORATORY STUDIES	3

Concentration in Individualized Studies

This academic plan allows you to create your own major through individual, complementary courses. Your plan must include a total of at least 18 credits of upper-division coursework and 36 total credits from any academic programs in the university to build content knowledge in specific areas of focus. Students must draft an intentional plan of study with the Interdisciplinary Studies advisor before being eligible to declare the Individualized concentration.

Concentration in Integrative Studies

This academic plan allows you to create your own major by combining established minor programs of study. Your plan must include two minors (<https://www.unomaha.edu/college-of-arts-and-sciences/academics/minors-at-uno.php>) (or more, depending on the student's interest) from any academic program in the university to build content knowledge in specific areas of focus. Students must complete all requirements of each minor program of study, with at least 18 credit hours coming from upper-division courses.

International Studies

The International Studies (INST) Major at UNO is an interdisciplinary program that provides an international focus and foundation for professional careers in the private, nonprofit, and public sectors, as well as graduate studies. Among these careers and further studies are international management and business, diplomacy and foreign service, national security and intelligence, international law and policy, conflict mediation, humanitarian aid, international development, non-profit

organizations, international education, and public affairs. The members of the International Studies Faculty encourage students majoring in International Studies to place significant emphasis on the study of foreign languages and cultures. Many INST majors have a double major or a minor in a foreign language.

At a minimum, in order to satisfy the INST foreign language requirement, majors who are completing an Area Studies Concentration must complete the equivalent of three years of one university-level foreign language study (completion of a minor is recommended) or two years each of two foreign languages. At least one foreign language studied by those completing an Area Studies Concentration must be associated with the area chosen.

For students who are completing the general curriculum option, the Global Strategic Studies concentration or the International Management and Business Leadership concentration, the foreign language requirement will be two years of one foreign language (16 hours) or one year of foreign language (10 hours) supplemented with 6 hours of language credits in the same language from studying abroad.

If a student is a native speaker of another language, formal foreign language study may not be required.

Student Groups

Sigma Iota Rho (International Studies Honorary Society)

Fast Track Program - Master of Science in Political Science for International Studies Majors

The Department of Political Science has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing BA/BS in Political Science or BA in International Studies and desiring to pursue a Master of Science in Political Science.
- Students must have completed no less than 60 undergraduate hours
- Students must have a minimum undergraduate GPA of 3.5.
- Students must complete the Fast Track Approval form and obtain all signatures and submit it to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 for graduate coursework is required to remain in good standing
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.

Website (<https://www.unomaha.edu/college-of-arts-and-sciences/international-studies/>)

Degrees Offered

- International Studies, Bachelor of Arts (p. 212)

Writing in the Discipline

All students are required to take a writing course within their major. For the INST major, the following are some of the recommended courses: ENGL 2420 Critical Approaches to Language Studies, ENGL 3050 Writing for the Workplace, ENGL 3980 Technical Writing, or JMC 2100 Media Writing.

Check with the INST advisor for additional approved advanced writing courses.

Minors Offered

- International Studies Minor (p. 218)

As an International Studies major, a world of opportunities open up that span the globe. The International Studies major cultivates skills that are translatable across continents and cultures. Even within the United States, there are a wealth of possibilities for International Studies Majors.

College graduates need to be prepared for a new world - one digitally linked, partnered in trade, and demanding transnational solutions. UNO's International Studies Major (INST), an interdisciplinary Bachelor of Arts degree program, provides undergraduate students with the necessary background in global affairs and intercultural communications. The degree is individualized, flexible and marketable.

Career Opportunities

By nature, International Studies majors make exceptional employees in virtually any field because of their ability to communicate effectively, think critically and solve complex problems. These timeless skills make them attractive to employers from all walks of society. Specifically, International Studies majors tend to pursue careers in the following fields:

- Diplomacy and Foreign Service
- Security and Intelligence Analysis
- Public Service
- Conflict Mediation
- Communications
- Cultural Diversity Training
- Economics
- English as a Second Language (ESL) Teaching
- Sustainable Development
- Executive
- Human Resources
- Humanitarian Relief
- Human Rights
- Immigration
- International Commerce/Global Business
- International Development
- International Education
- International Law and Policy
- International Non-profit Sector
- Lobbyist
- Military
- Peace Corps

INST 2130 GLOBAL CHALLENGES (3 credits)

An interdisciplinary, team-taught course which examines the seven global challenges - population, resources, technology, information, economies, conflict, governance - facing the world in the 21st century. The class introduces students to a range of interdependent factors and forces that influence international affairs.

Distribution: Social Science General Education course and Global Diversity General Education course

INST 3010 PERSPECTIVES IN INTERNATIONAL STUDIES (1 credit)

Topical and or general analysis of selected countries and regions offered in conjunction with possible study tours in those areas under investigation. Internships and/or study abroad experiences usually form the basis for the course. Can be repeated up to 12 hours. This course may be taken for honors credit.

Prerequisite(s): Permission of instructor.

INST 3020 PERSPECTIVES IN INTERNATIONAL STUDIES (2 credits)

Topical and or general analysis of selected countries and regions offered in conjunction with possible study tours in those areas under investigation. Internships and/or study abroad experiences usually form the basis for the course. Can be repeated up to 12 hours. This course may be taken for honors credit.

Prerequisite(s): Permission of instructor.

INST 3030 PERSPECTIVES IN INTERNATIONAL STUDIES (3 credits)

Topical and or general analysis of selected countries and regions offered in conjunction with possible study tours in those areas under investigation. Internships and/or study abroad experiences usually form the basis for the course. Can be repeated up to 12 hours. This course may be taken for honors credit.

Prerequisite(s): Permission of instructor.

INST 4140 TOPICS IN INTERNATIONAL STUDIES (3 credits)

This course examines a topic involving a wide range of international studies theories, methods, and fields to provide international studies majors a sense of how the elements of international studies fit together to form a coherent interdisciplinary. A student may take the course more than once as topics will change each semester.

Prerequisite(s): Junior or above or permission of the instructor

INST 4950 LATIN AMERICAN STUDY ABROAD (3 credits)

This course is designed as an international study abroad course that will introduce undergraduate and graduate students to the dynamism of socio-cultural, economic, and political changes taking place across Latin America. Note: International travel and special fees required. (Cross-listed with LLS 8956, LLS 4950)

Prerequisite(s): Senior standing or Junior standing with permission of the department. LLS 1000 or LLS 1010 or equivalent and departmental permission.

INST 4990 SENIOR E-PORTFOLIO (0 credits)

This E-Portfolio course is part of International Studies' Student Outcomes effort. It is designed to help monitor the success of the program through monitoring students' performance in the program. Graduating seniors must register for and complete INST 4990 - Senior E-Portfolio in the term in which they plan to graduate.

Prerequisite(s): Students must register for INST 4990 in the term in which they plan to graduate. Not open to non-degree graduate students.

International Studies, Bachelor of Arts

A major in International Studies must meet or exceed the requirements for a major as specified by the College of Arts and Sciences. Beyond the core courses and foreign language classes, the curriculum for INST majors is constructed of those courses that have an international focus in disciplines such as history, political science, information technology, geography, sociology, management, marketing, economics, philosophy and religion, English, and related courses in the fine arts and humanities.

INST majors can choose either a general curriculum INST degree or choose a concentration in Global Strategic Studies, Area Studies or International Management and Business Leadership.

Degree Requirements

To obtain a B.A. with a major in International Studies, a student must fulfill university, college, and departmental requirements. Other hour requirements follow:

- 46 hours of University General Education courses
- 12-19 hours college breadth requirement
- 46-49 hours of major courses including the foreign language requirement
- 0-18 hours of electives

TOTAL HOURS: 120

All coursework taken for the International Studies major must be completed with a grade of "C-" or better. There is a minimum of 30 credits of required coursework plus the foreign language requirement which is described in more detail below.

Foreign Language Requirements:

At a minimum, in order to satisfy the INST foreign language requirement, majors who are completing an Area Studies Concentration must complete the equivalent of three years of one university-level foreign language study (completion of a minor is recommended) or two years each of two foreign languages. At least one foreign language studied by those completing an area studies concentration must be associated with the area chosen.

For students who are completing the general curriculum INST major, the Global Strategic Studies Concentration or the International Management and Business Leadership Concentration, the foreign language requirement will be two years of one foreign language for 16 hours (levels I-IV) or one year of foreign language for 10 hours (levels I-II) supplemented with 6 hours (levels III-IV) of the same language, earned from studying abroad.

If a student is a native speaker of another language, formal foreign language study may not be required.

Code	Title	Credits
Core Curriculum		
INST 2130	GLOBAL CHALLENGES	3
INST 4140	TOPICS IN INTERNATIONAL STUDIES	3
INST 4990	SENIOR E-PORTFOLIO	0
GEOG 1000	WORLD REGIONAL GEOGRAPHY	3
PSCI 2210	INTRODUCTION TO INTERNATIONAL RELATIONS	3
ECON 2200	PRINCIPLES OF ECONOMICS (MICRO)	3
ECON 2220	PRINCIPLES OF ECONOMICS (MACRO)	3

There are options for majors to choose general curriculum or from one of three concentrations:

- Area Studies (p. 213)
- Global Strategic Studies (p. 213)
- International Management and Business Leadership (p. 213)

General Curriculum Option

This option is meant to provide the possibility of majoring in INST but not having to declare a specific concentration. The INST core courses listed above are required then at least 15 hours of 3000-4000 level International Studies coursework that is designed in coordination with the academic

advisors must be completed. Students must complete the e-portfolio requirements during their last semester.

Area Studies

This concentration offers the opportunity to focus on one or more areas of regional interest. Examples include Latin America, Europe and the Middle East. Please discuss with an academic advisor the possibility of other areas of concentration, including Africa, Central Asia-South Asia (CASA), and East Asia which will depend on the availability of relevant courses at a given time. In addition to the INST core courses, at least **15 hours** of 3000-4000 level coursework in at least 2 departments that focus on the select region must be completed. At a minimum, majors who choose this concentration must complete the equivalent of three years of one university-level foreign language study (completion of a minor is recommended) or two years each of two foreign languages. At least one foreign language studied by those choosing this concentration must be associated with the area chosen. Studying abroad in your area of interest is strongly recommended. Course lists for Area Studies will differ according to the area and availability of courses offered.

Global Strategic Studies

This concentration is designed for individuals interested in careers in government, national security and intelligence, in teaching in secondary and higher education, and in graduate school studies in any of these areas. The foreign language requirement for this concentration will be two years of one foreign language for 16 hours (levels I-IV) or one year of foreign language for 10 hours (levels I-II), supplemented with 6 hours (levels III-IV) of the same language earned from studying abroad.

Code	Title	Credits
In addition to the INST core courses, students will complete at least 15 hours of 3000-4000 level coursework in at least 2 departments from the following list and/or other courses as deemed appropriate:		
ECON/GEOG 3130	ECONOMIC GEOGRAPHY	3
ECON 4610	INTERNATIONAL TRADE	3
ECON 4620	INTERNATIONAL MONETARY THEORY	3
ECON 4660	INTERNATIONAL ECONOMIC DEVELOPMENT	3
GEOG 3930	POLITICAL GEOGRAPHY	3
HIST 4740	COMPARATIVE GENOCIDE	3
PSCI 3220	INTERNATIONAL ORGANIZATIONS	3
PSCI 3260	UNITED STATES FOREIGN POLICY	3
PSCI 4240	INTERNATIONAL CONFLICT RESOLUTION	3
PSCI 4290	INTERNATIONAL DEVELOPMENT & SUSTAINABILITY	3

International Management and Business Leadership

This concentration is recommended for individuals interested in careers in the global business sector, in government, with international organizations and foundations, and international hotel management. Students choosing this concentration may take courses from the areas of International Finance, International Marketing, International Management, and International Economics, as well as related courses in Political Science, Geography, History, and Sociology. The foreign language requirement for this concentration is two years of one foreign language for 16 hours (levels I-IV) or one year of foreign language for 10 hours (levels I-II) supplemented with 6 hours (levels III-IV) of language credits of the same language from studying abroad.

Students must add the following to their core courses:

Code	Title	Credits
ACCT 2010	PRINCIPLES OF ACCOUNTING I	3
ACCT 2020	PRINCIPLES OF ACCOUNTING II	3
and must complete at least 15 hours of 3000-4000 level business courses		15

International Studies Minor

The International Studies minor will open up a world of opportunities. Research confirms that employers today look for people who understand diversity, can connect multidisciplinary perspectives, and think critically to create transnational solutions to complex problems. The International Studies minor demonstrates that you are ready for work at a 21st-century organization.

Requirements

Code	Title	Credits
Required Course		
INST 2130	GLOBAL CHALLENGES	3
Additional Courses		
Select an additional 15 credits of approved coursework—12 credits of which must be at the 3000-4000 level from at least two different disciplines. Several approved courses are listed below, and students may speak with an International Studies advisor to inquire about additional courses that may apply to the minor:		15
CMST 2010	INTERPERSONAL COMMUNICATION	
CMST 4510	PERSUASION AND SOCIAL INFLUENCE	
CMST 4530	INTERCULTURAL COMMUNICATION-US	
ECON 2200	PRINCIPLES OF ECONOMICS (MICRO)

PSCI 3220	INTERNATIONAL ORGANIZATIONS	
PSCI 4240	INTERNATIONAL CONFLICT RESOLUTION	
PSCI 4290	INTERNATIONAL DEVELOPMENT & SUSTAINABILITY	

Total Credits 18

Islamic Studies Minor

The Islamic Studies Program is an interdisciplinary program that is focused on Islam and Muslim societies across the globe.

The program aims to equip undergraduate students with knowledge on Muslim states and societies through its minor program. To this end, the program continuously increases the number of courses at UNO about Islam and Muslims.

Given the importance of Islam in world politics and the global economy, our minor program is beneficial for those students who plan to pursue a career in business, education, history, anthropology, international studies, religious studies, communication, political science, social work, public administration, art and art history, medicine, criminal justice, sociology and other fields.

Other Information

All coursework taken for the Islamic Studies minor must be completed with a grade of "C" or better.

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/islamic-studies/>)

Requirements

A minor in Islamic Studies requires a total of eighteen (18) hours with a minimum of 12 hours at 3000 level or above.

The Islamic Studies minor requires:

Code	Title	Credits
Required Courses		
HIST/RELI/SOC 2190	THE MODERN MIDDLE EAST	3
RELI 3200	ISLAM AND MUSLIMS	3
Select one of the following:		3
PSCI 3700	GOVERNMENT AND POLITICS OF THE MIDDLE EAST	
PSCI 4210	INTERNATIONAL RELATIONS OF THE MIDDLE EAST	
PSCI 4620	ISLAM AND POLITICS	
Electives		
Select nine credits from the following list of approved Islamic Studies electives:		9
RELI 3500	TOPICS IN RELIGIOUS STUDIES ¹	
RELI 4400	WOMEN IN ISLAM	
RELI 4420	MUSLIMS IN AMERICA	
HIST 4730	ISRAEL AND PALESTINE	
HIST 4800	U.S. AND THE MIDDLE EAST	
PSCI 3700	GOVERNMENT AND POLITICS OF THE MIDDLE EAST	
PSCI 4210	INTERNATIONAL RELATIONS OF THE MIDDLE EAST	
PSCI 4620	ISLAM AND POLITICS	
PSCI 4710	COMPARATIVE INTERNATIONAL DEVELOPMENT AND INNOVATION	
Total Credits		18

¹ Note: RELI 3500 when taught as an Islamic Studies topic.

Other courses may be acceptable toward the Islamic Studies minor, as approved by the Islamic Studies director.

Latino/Latin American Studies (LLS)

Latino/Latin American Studies (LLS) is an **interdisciplinary academic program** that seeks to combine academic excellence with real-world engagement in order to enhance our understanding of Latinos in the United States and Latin American societies, and prepare students to be well-informed and active critical thinkers in an increasingly multicultural and transnational United States.

Our program prepares undergraduate students for a wide variety of career options. A major in Latino/Latin American Studies (LLS) or a minor in Chicano/Latino Studies (CLS) are particularly useful to those students planning a career in public service, non-profits, education, law, health, counseling, and business. LLS offers student research, a variety of national and international learning experiences, and internship opportunities which help prepare them for their chosen careers and graduate school.

The bookend of the LLS curriculum is the Senior Capstone. In this course, students need to complete an internship in a relevant community organization, in any of the areas of the Office of Latino/Latin American Studies (OLLAS, where the academic programs are housed), or as a research assistant for an OLLAS faculty member. Students also will develop a portfolio that will prepare them to enter the labor market with an in-depth knowledge of the Latino experience in the Midwest and the United States and in Latin America.

The LLS curriculum includes courses from programs such as foreign languages (Spanish), Political Sciences, History, International Studies, and Sociology/Anthropology making it very simple for students to obtain **double majors** with these and/or other programs through strategic overlapping of course requirements for both programs. Examples of programs and the maximum amount of allowable credit overlapping are below. Students interested in these or other program combinations will need to work closely with their programmatic advisor(s).

- Double Major in LLS and International Studies: Students enrolled in the Area Studies Concentration can count up to 18 LLS credits in approved coursework toward the 33 required credits for the International Studies major.
- Double Major in LLS and Sociology: Students can count between 9 and 12 LLS credits in approved coursework towards the 33 credits required credits for the Sociology major.
- Double Major in LLS and Political Science: Students can count between 9 and 12 LLS credits in approved coursework towards the 33 required credits for the Political Science major.
- Double Major in LLS and Foreign Languages & Literature (Spanish concentration): Students can count up to 12 LLS credits in approved coursework towards the 30 required credits for the Foreign Languages & Literature major with a Spanish concentration.

Other Information

The LLS major and the CLS Minor are housed in the Office of Latino/Latin American Studies (<https://www.unomaha.edu/college-of-arts-and-sciences/ollas/>) (OLLAS). OLLAS is a bilingual and interdisciplinary program established in 2003. OLLAS is the only specialized unit within the University of Nebraska System focused on education, research, and community engagement of Latinos in the Midwest and on the interconnections between Nebraska, the Midwest Region, and Latin America. Our main goals are to 1) create learning opportunities for students and communities beyond the classroom and across borders, 2) develop policy-oriented and community-relevant research, and 3) establish strategic and egalitarian community partnerships to strengthen our capacity to address local and global concerns. In accomplishing these

goals, we seek to assist Nebraska and the Great Plains region, as well as the growing Latino population, in reaching a shared prosperous present and future in a context of cultural understanding, respect of differences, and promotion of human rights.

LLS majors and minors are invited to join our OLLAS Learning Community, volunteer in our multiple community events, and develop networks and collaborations with other students, with close to thirty OLLAS faculty (<https://www.unomaha.edu/college-of-arts-and-sciences/ollas/about-us/directory/>) from many UNO departments and from UNMC, and with community organizations and their leaders.

All coursework taken for the LLS major or CLS minor must be completed with a grade of "C-" or better.

Although the Office of Latino/Latin American Studies (OLLAS) does not yet offer a graduate degree, it does offer a number of graduate courses. Students pursuing graduate programs in other colleges and departments are encouraged to concentrate on Latinos of Latin America and take advantage of Latino/Latin American Studies course offerings.

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/ollas/>)

Degrees Offered

- Latino/Latin American Studies, Bachelor of Arts (p. 222)

Writing in the Discipline

All students are required to take a Writing in the Discipline course within their major. For the LLS major, this is LLS 4990 or a 4000-level LLS course approved by the OLLAS advisors. Three hours are earned through the completion of the senior capstone portfolio or by writing a research-based paper in an upper-level LLS course, fulfilling the departmental writing course requirement (three hours).

Minors Offered

- Chicano/Latino Studies Minor (p. 225)

Our major uses an interdisciplinary approach to prepare our students for multiple careers that require a cultural, historical, social, and political grounded knowledge of Latinos in the United States and the Latin American region. In an ever-changing world, our program prepares critical thinkers, researchers, and practitioners, ready to engage with the fastest-growing minority in the United States and with a world region of historical relevance to the nation.

Among other areas, our majors are well prepared to work in:

- Community-based non-profit organizations
- Private small business with interests in the Latino community
- Large companies in areas of diversity training and company/community relations
- Large private foundations
- Schools
- Law offices
- Local, state, and federal government
- Hospitals

Our students are also well prepared to continue graduate and professional programs in the social sciences and the humanities, including sociology, political sciences, history, public health, social work, and law among others. In addition, when chosen as a complementary major, we provide an excellent set of tools to those pursuing careers in education, the arts, local and international business, diplomacy, medical sciences, technology design, and government to name a few.

LLS 1000 LATIN AMERICA: AN INTRODUCTION (3 credits)

The course introduces the students to the study of Latin America. Its main focus is on contemporary Latin American societies and regional dynamics, but historical forces and the impact of globalization are continuously evaluated. Students will learn about the region's dominant forces and trends associated with development policies, political regimes, population changes, urbanization, and a whole host of social problems, challenges and perspectives. Topics for readings, discussions and assignments include social inequality, gender, race, violence, the environment, food, health, education, social media, religion, emigration and international relations. Students will have opportunities to explore in more depth specific topics as well.

Distribution: Social Science General Education course and Global Diversity General Education course

LLS 1020 INTRODUCTION TO CHICANO/LATINO STUDIES (3 credits)

The course introduces students to intellectual, artistic, literary, musical, and other cultural traditions and contributions of Chicanos/Latinos in the U.S. and in their historical crossing of real and imaginary borders. This course focuses on the specific groups that make up the Latino population in the United States (i.e. Chicanos, Puerto Ricans, Cubans, Central Americans and South Americans) and examines each group's settlement, migration, and social integration paths. Topics for readings, discussions, and assignments include the different racial, ethnic, gender, sexual identities, immigration status and other social groups that construct the Latino population.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

LLS 2480 HISTORY OF LATIN AMERICA: PRECONQUEST TO THE PRESENT (3 credits)

A history of the nations of Latin America from the pre-Columbian indigenous cultures to the present time. Among the topics included will be the nature of indigenous cultures, the various European incursions, regional revolutions against European empires, nation-building, and the place of Latin America in global history. (Cross-listed with HIST 2480).

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

LLS 2810 MUSIC IN LATIN AMERICAN CULTURE (3 credits)

This course surveys musical traditions from countries in Latin America and the Caribbean. Characteristic regional genres, ensembles, instruments, and music rituals will be examined. We will also trace the historical, cultural, and socio-political aspects of Latin American music on a global scale and delve into the developments of some international musical genres. (Cross-listed with MUS 2810).

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

LLS 3050 LATIN AMERICA IN CONTEXT: HEALTH, BUSINESS, ENVIRONMENT, AND SOCIETY THROUGH ORAL PRACTICE (3 credits)

This course focuses on the development and intensive practice of oral expression in Spanish, and is intended for students interested in the fields of business, health, education, environmental sciences, social work, and cultural studies, who are either heritage speakers of Spanish or who are completing a major/minor in Spanish. The class provides a broad context of current relevant issues in Latin America, including politics and society; the state of the economy after decades of neoliberalism; racism; indigenous and Afro-descendent identities; domestic and gender violence; health and disabilities; adult, youth, & child immigration; and ecology and the environment. (Cross-listed with SPAN 3050).

Prerequisite(s): SPAN 3010 or SPAN 3030

LLS 3070 GEOGRAPHY OF LATIN AMERICA (3 credits)

This course surveys the physical and human environments of Latin America. Emphasis is placed upon cultural factors in the use of land and Latin American development. (Cross-listed with GEOG 3070).

Prerequisite(s): LLS 1000 or instructor approval

LLS 3140 LATINO/-A POLITICS (3 credits)

This course introduces students to the dynamism and growth of the role of Latinos, as a group of political actors, in the United States. This course provides students with an exposure to and understanding of various concepts and dimensions of this phenomenon, including historical and contemporary Latino political thought and the efforts to increase political empowerment (representation and participation) and influence through grassroots, social, and political movements. (Cross-listed with PSCI 8145, PSCI 3140, LLS 8145)

Prerequisite(s): PSCI 1100 is recommended.

Distribution: U.S. Diversity General Education course

LLS 3420 LATIN AMERICAN CIVILIZATION (3 credits)

What do we know about Latin American culture, geography, politics and languages? How has Latin America been imagined from the United States? Does it make sense to think of Latin America as one space brought together by a similar history or is it better to imagine it as twenty particular countries with intersecting pasts and futures? This course will attempt to answer these questions by introducing you to a number of key topics and debates common to contemporary Latin American culture, including issues such as democracy, class, race/ethnicity, gender/sexuality, religion, family and globalization. (Cross-listed with SPAN 3420).

Prerequisite(s): SPAN 3030 or SPAN 3010, LLS 1000 or instructor approval.

LLS 3510 IMMIGRATION LAW AND LATINOS (3 credits)

This course provides an overview of the U.S. Immigration laws with an emphasis on Latino migration. In analyzing Latino migration, we will look at the push and pull factors of migration, the channels available for lawful migration, and the impact immigrants have in our society. (Cross-listed with PSCI 3510).

Prerequisite(s): Must have taken at least one social science course as well as a different LLS course, junior standing or above, or permission of the instructor.

LLS 3680 GOVERNMENT AND POLITICS OF LATIN AMERICA (3 credits)

This course introduces students to the political institutions, processes, and public policies of the states of Latin America. (Cross-listed with LLS 8685, PSCI 3680, PSCI 8685)

Prerequisite(s): PSCI 2500 or junior status or permission of instructor.

Distribution: Global Diversity General Education course

LLS 4140 INTRODUCTION TO LATIN AMERICAN FILM (3 credits)

The course will be a thematic study of significant Latin American films emphasizing and further investigating their relationship to history, culture, society and political issues that have often given rise to social movements. Films from a variety of Spanish-speaking countries including Mexico, Argentina, Chile, Cuba, Bolivia, etc. will be studied in their socio-political context. At the 8146 level, students will be introduced to theoretical approaches such as early film theory, montage theory, feminist theory, race theory, and phenomenological film theory in order to deepen their understanding these themes. (Cross-listed with SPAN 8146, SPAN 4140).

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060

LLS 4170 INTRODUCTION TO LATIN AMERICAN LITERATURES (3 credits)

The course is intended as an introduction to the study of canonical and non-canonical texts in Latin American literatures, from the 16th to 21st centuries. It seeks to acquaint students with the rich literary traditions of a large region, from South America to Central America and Mexico, as well as with the historical challenges posed by the salient heterogeneity of texts included in the Latin American corpus, from the standpoint of ethnicity, gender, social class, and literary genre. The course also focuses on continuing to develop Spanish language skills, specifically reading for comprehension and interpretation of metaphorical meaning, writing, and presentational speaking skills in Spanish. (Cross-listed with SPAN 8176, SPAN 4170).

Prerequisite(s): SPAN 3030, SPAN 3040; or SPAN 3010, SPAN 3020; SPAN 3060.

LLS 4240 SOCIAL TRANSFORMATIONS IN LATIN AMERICA (3 credits)

The course reviews the main social, economic, and political forces that have shaped Latin American societies, and the sociological theories used to understand Latin American development and underdevelopment. Race, ethnicity, gender and class in Latin America, as well as the region's position in the global economy are examined. (Cross-listed with SOC 8246, SOC 4240, LLS 8246).

Prerequisite(s): Must have taken at least one social science course as well as a different LLS course, junior standing or above, or permission of the instructor.

Distribution: Global Diversity General Education course

LLS 4250 CRISSCROSSING THE CONTINENT: LATIN AMERICAN MIGRATIONS (3 credits)

In this course we will use an interdisciplinary lens to study the changes and continuities of migration in the Americas. The course starts with an overview of immigration to the Americas during the first era of mass migration (1850-1920) to explore the relevance of European migrations for national and identity constructions in the Southern Cone of America. Students then will be introduced to the impacts of social and political change on emigration flows, both regionally and beyond the region. They will also explore migration related policies at the national and regional level. We will also study the changes and continuities in the migration system of the Americas. Lastly, we will analyze the new North-South migration, as well as immigration to Latin America from Asia (recent and historical), Europe, and Africa. (Cross-listed with SOC 4250, SOC 8256, LLS 8256).

Prerequisite(s): Must have taken at least one social science course as well as a different LLS course, junior standing or above, or permission of the instructor.

Distribution: Global Diversity General Education course

LLS 4280 INTERNATIONAL RELATIONS OF LATIN AMERICA (3 credits)

Analysis of the role of Latin American states in the international political arena. Emphasis upon developing, applying and testing an explanatory theory of international politics through the study of the inter-American system: the regional, institutional and ideological environment, power relations, policies and contemporary problems. (This course fulfills the department's international politics requirement). (Cross-listed with LLS 8286, PSCI 4280, PSCI 8286)

Prerequisite(s): PSCI 2500 or junior standing or permission of the instructor.

Distribution: Global Diversity General Education course

LLS 4430 INTERNATIONAL MIGRATION, DEVELOPMENT AND CITIZENSHIP (3 credits)

The course examines the forces driving contemporary global migration, the impact of migration in both sending and receiving nations' development, as well as the politics and practices of migration policy development. The course also discusses the current debates on immigrant incorporation and citizenship in the receiving countries. (Cross-listed with LLS 8436, CACT 8436).

Prerequisite(s): Must have taken at least one social science course as well as a different LLS course, junior standing or above, or permission of the instructor.

LLS 4510 ILLNESS AND DISEASE IN SOUTHERN CONE LATIN AMERICAN LITERATURES AND CULTURES (3 credits)

The course will examine representations of illness, disease, and affections in literary and cultural texts from the Latin American Southern Cone, focusing in Argentina, Uruguay, and Chile. It will explore notions of health and disease, as embedded in literary and cultural texts from the late 19th to the 21st centuries. We will examine the ways in which physical ailments, mental health symptoms, and other conditions or disorders have been conceptualized and portrayed, co-relating the individual "disruptions" caused by unwellness with a host of social and cultural factors. The course will also explore current treatments and therapies for the illnesses discussed in the texts, taking into account the integration of western and alternative medicine and practices. (Cross-listed with SPAN 8516, SPAN 4510, LLS 8516).

Prerequisite(s): LLS 1000; SPAN 3030 and SPAN 3040 or SPAN 3010 and SPAN 3020; SPAN 3060; or special permission from instructor.

LLS 4650 SLAVERY AND RACE RELATIONS IN THE AMERICAS (3 credits)

Slavery and Race Relations in the Americas examines the historical relationship between the trans-Atlantic slave trade and American race relations, connecting the enslavement of Africans in the Americas to race relations in the Caribbean, Latin America, and the United States. (Cross-listed with BLST 8656, BLST 4650, HIST 8076, HIST 4070, LLS 8656).

Prerequisite(s): LLS 1000, junior standing, or instructor permission

LLS 4780 URBAN LATIN AMERICA (3 credits)

This course examines the experience of Latin American urbanization, attending to its contributions to urban sociology, social movements, and policymaking. Topics include urban transitions (e.g. pre-Hispanic to colonial, post-colonial to industrial, and the neoliberal turn), socio-spatial configurations (e.g. plazas, squatter settlements), urban marginality debates, urban politics, and planning as well as governance innovations (e.g. bus rapid transit systems, participatory budgeting). Students will compare city case studies across the region and to urban life in the United States. (Cross-listed with SOC 4780, SOC 8786, LLS 8786, CACT 8186).

Prerequisite(s): Must have taken at least one social science course as well as a different LLS course, junior standing or above, or permission of the instructor

Distribution: Global Diversity General Education course

LLS 4900 INDEPENDENT STUDY (3 credits)

This course is designed for those students who are capable of pursuing, independently, an area of Latino/Latin American Studies that is not covered under the existing curriculum. The student will be supervised by a member of the faculty of the LLS department. All course assignments, requirements, and expectations will be clearly indicated in advance. May be repeated for credit, up to six hours, under a different topic.

Prerequisite(s): Permission of LLS faculty member required.

LLS 4950 LATIN AMERICAN STUDY ABROAD (3 credits)

This course is designed as an international study abroad course that will introduce undergraduate and graduate students to the dynamism of socio-cultural, economic, and political changes taking place across Latin America. Note: International travel and special fees required. (Cross-listed with LLS 8956, INST4950)

Prerequisite(s): Senior standing or Junior standing with permission of the department. LLS 1000 or LLS 1010 or equivalent and departmental permission.

Latino/Latin American Studies, Bachelor of Arts

Requirements

In the major in Latino/Latin American Studies (LLS) students learn about critical issues such as: urban segregation; education; health and socioeconomic disparities; environmental justice; political mobilization; human rights; migration; language shifts; and cultural creations both in Latin America and how these affect the Latino community in the United States.

The requirements of the LLS major are flexible, incorporating courses from programs such as foreign languages (Spanish), Political Sciences, History, International Studies, and Sociology/Anthropology to facilitate obtaining **double majors** with these and/or other programs.

To obtain a B.A. with a major in LLS, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

(Testing out of academic skills requirements and enrolling in major courses that satisfy distribution requirements are likely to reduce the total number of General Education hours to 40 or fewer.)

46 hours of University General Education courses

16 hours of foreign languages

12 hours college breadth requirement

48 hours of major courses

Elective hours as required to total 120 hours

TOTAL HOURS: 120

The major requires a total of 30 credit hours. Not included in the 30 credit hours: at least 16 credit hours of Spanish or Portuguese (also fulfill Arts & Sciences language requirement). Students whose primary major is in a college other than Arts & Sciences must complete at least two semesters in Spanish or Portuguese. **Native/heritage speakers of Spanish may be exempt from this requirement. Such students should contact the Foreign Languages & Literature Department for correct placement to determine if additional coursework is necessary.

Residency requirement: No student may transfer into the major more than 9 credits. Students must complete at least 21 of the 30 credit hours at UNO.

Code	Title	Credits
Courses Required for Major (Core Curriculum)		
LLS 1000	LATIN AMERICA: AN INTRODUCTION	3

LLS 1020	INTRODUCTION TO CHICANO/LATINO STUDIES	3
Select one research methods or statistics course approved by the OLLAS director/academic advisor. Most research methods or statistics courses required for other majors fulfill this requirement. A non-exhaustive list of approved courses includes:		3
BSAD 2130	PRINCIPLES OF BUSINESS STATISTICS	
CRCJ 2510	RESEARCH METHODS	
CRCJ/SOWK/PA 3000	APPLIED STATISTICS AND DATA PROCESSING IN PUBLIC SECTOR	
ECON 3300	INTRODUCTION TO ECONOMETRICS

Credits	15-16
Total Credits	119-122

¹ LLS requires 16 hours of Spanish or Portuguese language coursework. UNO does not offer Portuguese, but does offer Spanish. A student beginning with level 1 would take SPAN 1110 (which also counts as a Humanity/Fine Arts course), SPAN 1120, SPAN 2110 and 2120. A student who has taken up through Level IV Spanish in high school would be exempt from taking Spanish at UNO but would not earn any credit. The student could take the Foreign Language Placement Exam and try to test into level SPAN 2120 or even 3000. By taking one 3-credit 3000 level Spanish course or SPAN 2120, and passing it with a C- or better, the non-native Spanish speaker would be able to request 13-16 free retroactive credits for the Spanish courses they passed over. Those credits and courses would fill the gap of credits and earn them a Humanity/Fine Arts course. On a similar note, a native Spanish or Portuguese speaking student would be exempt from this requirement completely but would not earn any college credit toward their degree. The native Spanish speaker could gain permission to take SPAN 3010-Spanish for Heritage Speakers for 3 credits and after passing it, receive 16 free retroactive credits toward their degree. A student who fulfills the language requirement by virtue of native Spanish or Portuguese language speaking abilities, or Spanish/Portuguese through high school up through level IV and who chooses not to attempt SPAN 2120, a 3000-level Spanish or SPAN 3010 (for native Spanish speakers) at UNO will need to fill the 16 credit gap in their degree plan which will be as a result of not taking the FLNG courses planned in this 4-year plan. The student will need to include an additional Humanities/Fine Arts Gen Ed course within those 16 credits. Please consult with your advisor to discuss your options.

² LLS approved courses that fulfill a Gen Ed requirement:

Code	Title	Credits
Humanities and Fine Arts:		
LLS 1020	INTRODUCTION TO CHICANO/LATINO STUDIES (Also counts as U.S. Diversity)	3
ENGL 2490	LATINO/A LITERATURE (Also counts as U.S. Diversity)	3
LLS/HIST 2480	HISTORY OF LATIN AMERICA: PRECONQUEST TO THE PRESENT (Also counts as Global Diversity)	3
Social Sciences:		
LLS 1000	LATIN AMERICA: AN INTRODUCTION (Also counts as Global Diversity)	3
U.S. Diversity:		
LLS 1020	INTRODUCTION TO CHICANO/LATINO STUDIES (Also counts as Humanities)	3

LLS/PSCI 3140	LATINO/-A POLITICS	3

LLS/BLST 4650	SLAVERY AND RACE RELATIONS IN THE AMERICAS	3
SOC 3900	RACE AND ETHNIC RELATIONS IN THE U.S.	3

Global Diversity:

LLS 1000	LATIN AMERICA: AN INTRODUCTION (Also counts as Social Sciences)	3
LLS/HIST 2480	HISTORY OF LATIN AMERICA: PRECONQUEST TO THE PRESENT (Also counts as Humanities)	3
LLS/PSCI 3680	GOVERNMENT AND POLITICS OF LATIN AMERICA	3
LLS/SOC 4240	SOCIAL TRANSFORMATIONS IN LATIN AMERICA	3
LLS/SOC 4250	CRISSCROSSING THE CONTINENT: LATIN AMERICAN MIGRATIONS	3
LLS/PSCI 4280	INTERNATIONAL RELATIONS OF LATIN AMERICA	3
LLS/SOC 4780	URBAN LATIN AMERICA	3

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Chicano/Latino Studies Minor Requirements

The OLLAS minor is a perfect complement to a wide variety of majors across campus, such as Public Health, Medical Humanities, Business and Finance, Social Work, Criminal Justice, Journalism, Education, and Fine Arts, among others, where the work of the discipline intersects with the growing presence and importance of Latinos (Mexicanos, Chicanos, Central Americans, and South Americans) in the United States and our local communities.

Residency requirement: No student may transfer into the minor more than 6 credits. Students must complete at least 12 of the 18 credit hours at UNO.

A total of 18 credit hours to include:

Mathematics

Students interested in specializing in mathematics and intending to do either graduate work in Mathematics or work in business or industry will be interested in this degree. The Department of Mathematics and Statistical Sciences Degree Program prepares students for employment in the private or public sector, graduate school, and scientific research. Studying mathematics naturally develops quantitative thinking and analytical problem solving, talents with universal application. Demand will always be high for individuals with these universal talents to solve society's diverse and complex problems.

Eight concentrations and a No Concentration Option are available for a Bachelor of Arts and a Bachelor of Science.

Other Information

All coursework taken for the Mathematics major or minor must be completed with a grade of C- or better.

At least one MATH or STAT course at the 3000 level or higher (excluding STAT 3000) must be taken at UNO to establish residency for the Mathematics major or minor.

Double Majors

If planned correctly, some disciplines, such as computer science and math 6-12 teaching endorsement, require few to no additional math courses beyond what is required for the major. Talk to your advisor about double majoring with Mathematics to expand your educational opportunities!

Student Groups

Math Club

Pi Mu Epsilon National Mathematics Honorary Society
Putnam Competition

Fast Track Program

Other Program Related Information

Fast Track Program

The Department of Mathematics and Statistical Sciences has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a BA/BS in Mathematics or pursuing a double-major with BA/BS in Mathematics as the primary or secondary major desiring to pursue a MA/MS/MAT in Mathematics.
- Students must have completed no less than 60 undergraduate hours
- Students must have a minimum undergraduate GPA of 3.0.
- Students must complete the Fast Track Approval form, obtain all signatures, and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good academic standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/mathematics/>)

Bachelor of Arts and Bachelor of Science in Mathematics

The B.A. and B.S. Degrees with a major in Mathematics consists of 46 credits of required courses in Mathematics. Approved Statistics courses may also be included. Either degree option has eight possible concentrations and a No Concentration Option. The concentrations are defined by the required upper division courses.

Degrees Offered

- Mathematics, Bachelor of Arts (p. 233)
- Mathematics, Bachelor of Science (p. 246)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the math major, select one of the following:

Code	Title	Credits
CIST 3000	ADVANCED COMPOSITION FOR IS&T	3
ENGL 3050	WRITING FOR THE WORKPLACE	3
ENGL 3980	TECHNICAL WRITING ACROSS THE DISCIPLINES	3
PHIL 3000	PHILOSOPHY WRITING SEMINAR	3

The Bachelor of Arts Degree requires foreign language through the intermediate level (16 credits).

The Bachelor of Science Degree requires at least 15 hours of related Cognate coursework that must be approved by the Math Academic Advisor/Coordinator. Students can also choose a UNO Minor to satisfy their Cognate requirement; however, this Cognate minor cannot double-count as the Option 1 minor for the College of Arts & Sciences College Breadth Requirement. A Computer Science Minor cannot satisfy the Cognate requirement for Mathematics. No more than 6 credits of Cognate coursework may double-count within the general education requirements.

Minors Offered

- Mathematics Minor (p. 259)

The Department Mathematics and Statistical Sciences Degree Program prepares students for employment in the private or public sector, graduate school, and scientific research. Studying Mathematics naturally develops quantitative thinking and analytic problem solving, skills with universal application. Mathematics majors learn to make critical observations, organize, analyze, and interpret data, and extract information and patterns. Demand will always be high for individuals with these universal skills to solve society's diverse and complex problems.

Mathematics majors often pursue careers as a:

- Cryptanalyst – developing encryption for cyber security for the Defense Department.
- Data scientist – analyzing data to make predictive decisions for a retailer.
- Operations research analyst – optimally determining which aircraft an airline should purchase.
- Teacher – teaching Math at the 7-12 level.
- Actuary – evaluating risk and helping companies make decisions.

When the Mathematics major is matched with complementary minors and thoughtful internships, new possibilities arise. A few examples are:

- Math + Biology = Biomathematician: modeling biological processes for a Biotech company.

- Math + Graphic Design = Animator: making realistic graphics for a movie.
- Math + Forensics = Forensics Analyst: solve crimes for the FBI.
- Math + Geology = Hydrologist: solving problems related to water quantity, quality, and availability for the U.S. Geological Survey.
- Math + English = Technical writer: writing documents for industries that need writers fluent with numbers and calculations.

MATH 1100 DATA LITERACY AND VISUALIZATION (3 credits)

Designed to help students become familiar with different types of data that are available in business, non-profit and governmental organizations. Students will learn basic data organization and manipulation as well as appropriate visualization techniques including charts, maps, and dashboards using cutting edge software tools. Students will apply this knowledge and skills to real-world data and develop skills in presentation of research results, strategic decision making and forecasting analysis. (Cross-listed with STAT 1100).

Distribution: Math

MATH 1120 INTRODUCTION TO MATHEMATICAL AND COMPUTATIONAL THINKING (3 credits)

This course embraces the visual arts to introduce students to the foundational elements of mathematical and computational thinking. Visual patterns form the basis for explorations in arithmetic and geometric sequences, from which algebraic functions and corresponding functions in computer programs are reasoned.

Distribution: Math

MATH 1130 QUANTITATIVE LITERACY (3 credits)

Designed to equip students with the mathematical, statistical, and computational skills necessary to explore real-life situations. Students will learn and practice critical-thinking and problem-solving skills needed to use quantitative information to make responsible decisions in a variety of areas such as finance, health, and the environment.

Distribution: Math

MATH 1140 QUANTITATIVE REASONING FOR HEALTHCARE PROFESSIONALS (3 credits)

This course prepares students with the basic mathematical skills required for nursing programs. Topics include: fractions, decimals, percentages, ratios, conversions between measurement systems, dimensional analysis, formulating dosages and flow rates, interpreting drug orders, and nutritional analyses.

Distribution: Math

MATH 1210 INTERMEDIATE ALGEBRA (3 credits)

This course is designed to prepare students to be successful in MATH 1220, MATH 1300, and STAT 1530. Topics include simplifying mathematical expressions, the properties of equality, solving linear equations in one variable, using linear equations to solve problems, fractions, ratios and proportions, graphing and the rectangular coordinate system, relations and functions, systems of linear equations and inequalities in two variables, polynomial expressions and functions, factoring and solving polynomial equations. Credit earned in MATH 1210 will not count toward degree requirements.

MATH 1220 COLLEGE ALGEBRA (3 credits)

This course presents properties of real numbers, linear equations and graphing, systems of equations, linear inequalities, polynomials, algebraic fractions, exponents, logarithms, and an Introduction to Statistics. This course is designed to prepare students to be successful in MATH 1320 or MATH 1370. Students who have passed MATH 1310 with a C- or better should not take this course.

Prerequisite(s): Within the last two years: ALEKS score at least 3, ACT Math at least 19, SAT Math at least 460, SAT2016 Math at least 500, Accuplacer at least 3, MATH 1210 C- or better or MATH 1220. Students who passed MATH 1310 (C- or better) should not take MATH 1220.

Distribution: Math

MATH 1300 COLLEGE ALGEBRA WITH SUPPORT (4 credits)

This course teaches prerequisite material and all College Algebra (MATH 1320) content; it is intended for students who need additional mathematics support. This course will cover polynomial functions, exponential functions, logarithmic functions, and modeling of natural phenomena using these kinds of functions. Discussion of functions will center around four representations: algebraic, graphic, tabular, and verbal. Particular emphasis will be placed on development of covariational reasoning. Support sections will include arithmetic and algebra content necessary to engage with polynomial functions, exponential functions, and logarithmic functions at the College Algebra level, such as properties of real numbers, linear equations, graphing functions, factoring polynomials, and quadratic functions.

Distribution: Math

MATH 1320 PRE-CALCULUS ALGEBRA (3 credits)

An advanced algebra course that teaches the following topics: algebraic operations, functions, graphs, linear and quadratic equations and inequalities, polynomial and rational functions, systems of equations, binomial theorem, complex numbers, exponentials, logarithms, sequences, series, and combinatorics.

Prerequisite(s): One of the following within the last two years: ALEKS score of at least 4, ACT Math at least 22, Math SAT at least 540, Math SAT2016 at least 570, Accuplacer score at least 4, MATH 1220 or MATH 1310 each with C- or better, or MATH 1320

MATH 1330 TRIGONOMETRY (3 credits)

This course introduces elements of plane trigonometry, including trigonometric and circular functions, inverse trigonometric functions, solutions of triangles, identities and conditional equations, vectors, and conic sections.

Prerequisite(s): One of the following within the last two years: ALEKS score at least 5, ACT Math at least 25, Math SAT at least 570, Math SAT2016 at least 590, Accuplacer at least 5, MATH 1320 or MATH 1300 with C- or better, or MATH 1330, or permission of instructor

MATH 1340 ALGEBRA AND TRIGONOMETRY FOR CALCULUS (5 credits)

A combined algebra and trigonometry course for science and engineering students planning to enroll in MATH 1950. Topics include: systems of equations, polynomials and rational functions, exponential and logarithmic functions, trigonometric functions and their inverses, trigonometric identities and applications, conic sections, and complex numbers. Credit for both MATH 1320/MATH 1324 and MATH 1340, or both MATH 1330 and MATH 1340 will not be given.

Prerequisite(s): One of the following within the last two years: ALEKS score of at least 4, ACT Math at least 23, Math SAT at least 540, Math SAT2016 at least 570, Accuplacer at least 5, MATH 1310 or MATH 1220 C- or better, or MATH 1340

MATH 1370 APPLIED ALGEBRA AND OPTIMIZATION WITH DATA ANALYSIS (3 credits)

This is an applied algebra course with optimization, teaching the following topics with an emphasis on data analysis and application: algebraic, exponential, and logarithmic functions; derivatives and applications thereof; and data analysis. The course will emphasize data analysis and applications of covered topics in order to demonstrate the relevance of mathematics to solving real-world problems.

Prerequisite(s): One of the following within the last two years: ALEKS score 4+, ACT Math sub score 23+, SAT Math 540+, SAT2016 Math 570+, Accuplacer 4+, MATH 1220/MATH 1300/MATH 1320 with C- or better, or MATH 1370, or permission of instructor

MATH 1930 CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES (3 credits)

Topics covered include functions, limits, derivatives, integrals, and applications. Trigonometry is not required. May not be used as a prerequisite for MATH 1960. Credit will not be granted for both MATH 1930 and 1950.

Prerequisite(s): One of the following within the last two years: ALEKS score 5+, ACT Math sub score 25+, Math SAT 570+, or Math SAT2016 590+, Accuplacer score 6+, MATH 1320 or MATH 1300 with C- or better, or MATH 1930, or permission of instructor

MATH 1940 CALCULUS FOR BIOMEDICINE (5 credits)

Introductory calculus with an emphasis on dynamical systems analysis applied to biological systems. Topics include differential and integral calculus, elementary chaos theory, discrete modeling, neural networks, and elementary differential equations, population dynamics, and biochemical signal transduction.

Prerequisite(s): One of the following within the last two years: ALEKS score at least 5, ACT Math sub score at least 25, Math SAT at least 570, Math SAT2016 at least 590, Accuplacer score at least 6, MATH 1320/ MATH 1300 with C- or better; or permission of instructor

MATH 1950 CALCULUS I (5 credits)

This is a course in plane analytic geometry emphasizing the study of functions, limits, derivatives and applications, and an introduction to integration.

Prerequisite(s): One of the following within last two years: ALEKS score 6+, ACT Math 26+, Math SAT 590+, Math SAT2016 610+, Accuplacer 7+, MATH 1330/MATH 1340 C- or better; or permission of instructor. Prior enrollment in MATH 1950 cannot be used as prerequisite

MATH 1960 CALCULUS II (4 credits)

This course introduces applications of integration, techniques of integration, infinite sequences and series, parametric functions, and polar functions. A mathematical software package is introduced, with required assignments.

Prerequisite(s): MATH 1950 with a grade of C- or better or permission of instructor.

MATH 1970 CALCULUS III (4 credits)

This course presents vector functions, parametric equations, solid analytic geometry, partial differentiation, multiple integration, and an introduction to vector calculus. A mathematical software package is introduced with required assignments.

Prerequisite(s): MATH 1960 with a grade of C- or better, or MATH 1970 with a grade of F or better, or permission of instructor.

MATH 2030 DISCRETE MATHEMATICS (3 credits)

A foundation course in discrete mathematics for applied disciplines including computer science, computer engineering, or biology. Topics include: logic, sets, functions, induction and recursive definitions, elementary combinatorics, discrete probability, elementary chaos theory, elementary cellular automata, graphs, trees, matrices.

Prerequisite(s): MATH 1950 or MATH 1940 or MATH 1930, with a grade of C- or better.

MATH 2050 APPLIED LINEAR ALGEBRA (3 credits)

This course presents Matrix algebra, simultaneous equations, vector spaces, with applications of linear algebra and computational considerations. Mathematical software is utilized, with required assignments.

Prerequisite(s): MATH 1940 or MATH 1950 with a grade of C- or better

MATH 2200 MATHEMATICAL COMPUTING I (3 credits)

This is a first course in mathematical computing. It covers the basic elements of scientific programming in both a computer algebra system and a high-level programming language. Explored are implementation issues, problem description, model building, method development, and solution assessment.

Prerequisite(s): MATH 1950

MATH 2230 INTRODUCTION TO ABSTRACT MATH (3 credits)

This course provides a transition from the calculus to more abstract mathematics. Topics include logic, sets and functions, an introduction to mathematical proof, mathematical induction, relations. Important prerequisite material for a number of more advanced mathematics courses is studied.

Prerequisite(s): MATH 1960 or permission. Credit will not be given for both MATH 2030 and MATH 2230.

MATH 2350 DIFFERENTIAL EQUATIONS (3 credits)

Topics include solutions of linear and first-order nonlinear differential equations with applications, higher-order linear differential equations with applications, power series solutions, and Laplace transform methods.

Prerequisite(s): MATH 1960 with a grade of C- or better or permission of instructor.

MATH 3100 APPLIED COMBINATORICS (3 credits)

Basic counting methods, generating functions, recurrence relations, principle of inclusion-exclusion. Polya's formula. Elements of graph theory, trees and searching network algorithms. (Cross-listed with MATH 8105, CSCI 3100, CSCI 8105).

Prerequisite(s): MATH 2030, MATH 2040, MATH 2230, or CSCI 2030 all with a C- or better. Mathematical logic; Set theory; Relations; Functions; Congruences; Inductive and recursive definitions; Discrete probability; sets, graphs, trees, & matrices

MATH 3200 MATHEMATICAL COMPUTING II (3 credits)

This course is a second course in mathematical computing. It covers the design and development of algorithms and more advanced elements of programming in a mathematical context. The programming language Python will be used. The programming assignments are primarily based on data science and calculus concepts and are designed to reinforce and deepen the understanding of these concepts.

Prerequisite(s): CIST 1400 or MATH 2200, and MATH 1970 (the latter may be taken concurrently) all with a grade of C- or better.

MATH 3230 INTRODUCTION TO ANALYSIS (3 credits)

This course provides a theoretical foundation for the concepts of elementary calculus. Topics include real number system, topology of the real line, limits, functions of one variable, continuity, differentiation. (Cross-listed with MATH 8235).

Prerequisite(s): MATH 1960 and MATH 2230 each with a grade of C- or better.

MATH 3250 INTRODUCTION TO NUMERICAL METHODS (3 credits)

This course emphasizes the implementation of several numerical methods to problems that arise in science and engineering. It involves the application of the computer to solve mathematical problems using the following computational techniques: Taylor Series approximation, numerical differentiation, root-finding methods, interpolation, extrapolation, curve fitting, solution methods for matrix equations, numerical differentiation, numerical integration, and the solution of differential equations. (Cross-listed with MATH 8255).

Prerequisite(s): MATH 1960 with a C or better.

MATH 3400 THEORY OF INTEREST (3 credits)

A study of the measurement of interest, annuities, amortization schedules and other financial mathematics topics.

Prerequisite(s): MATH 1960 with a grade of C- or higher.

MATH 3640 MODERN GEOMETRY (3 credits)

This course will study the modern foundations of Euclidean and Non-Euclidean Geometry. Included will be a study of the principles of axiomatic systems. Euclidean Geometry will be investigated using Hilbert's axioms for Euclidean geometry (or another equivalent Euclidean geometry axiom set). Hyperbolic geometry will be encountered through the models of Klein and Poincare. Neutral geometry with Lambert and Saccheri quadrilaterals will be studied. Finite geometries and projective geometries will also be explored. (Cross-listed with MATH 8645).

Prerequisite(s): MATH 2230 with a grade of C- or better.

MATH 3850 HISTORY OF MATHEMATICS (3 credits)

An overview of the history of mathematics and famous mathematicians via studying and solving famous mathematical problems, exploring famous mathematical theorems, and studying the biographies of famous mathematicians. (Cross-listed with MATH 8855).

Prerequisite(s): MATH 1950 with a grade of C- or higher and one of either MATH 2230 or MATH 2000 with a grade of C- or higher.

MATH 4010 INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS (3 credits)

This is a proof-oriented course presenting the foundations of Recursion Theory. We present the definition and properties of the class of primitive recursive functions, study the formal models of computation, and investigate partially computable functions, universal programs. We prove Rice's Theorem, the Recursion Theorem, develop the arithmetic hierarchy, demonstrate Post's theorem. Introduction to the formal theories of computability and complexity is also given. (Cross-listed with CSCI 4010, CSCI 8016, MATH 8016).

Prerequisite(s): MATH 2230 or MATH 2030 with a C- or better or CSCI 3660 with a C- or better or instructor's permission.

MATH 4030 MODERN ALGEBRA (3 credits)

Algebra is the study of mathematical manipulations that preserve something (like equality - when solving equations). The areas in which Algebra finds application are quite diverse, from Ancient Greek Geometry through to Modern Information Protection and Security (error correcting codes, data compression, and cryptography). This course begins with topics that should be familiar (such as ruler-and-compass constructions, and modular arithmetic) and builds upon this foundation through polynomial rings up to finite fields and basic group theory. (Cross-listed with MATH 8036).

Prerequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better

MATH 4050 LINEAR ALGEBRA (3 credits)

Linear algebra is extensively utilized in the mathematical modeling of many natural phenomena. Many scientific and engineering disciplines, such as data science, chemical engineering and biology, make extensive use of the theory and techniques commonly present in basic to advanced linear algebra courses. The goal of this course is to help students to grasp a solid theoretical understanding of vectors, vector spaces, inner product spaces, linear transformations, eigenvalues, canonical forms, complex vectors, matrices, and orthogonality. By going through the materials in a mathematically rigorous way, students will develop deeper and more accurate intuitions of the basic concepts in linear algebra. Consequently, the applications of linear algebra will become much more transparent. (Cross-listed with MATH 8056).

Prerequisite(s): MATH 2050 with a grade of C- or better; MATH 2030 or MATH 2230 or equivalent with a grade of C- or better; or permission

MATH 4110 ABSTRACT ALGEBRA I (3 credits)

An introduction to group theory. Various classes of group are studied: symmetric groups, abelian, cyclic, and permutation groups. Basic tools are developed and used: subgroups, normal subgroups, cosets, the Lagrange theorem, group homomorphisms, quotient groups, direct products, and group actions on a set. The course culminates with the Sylow theorems in finite group theory. The theory is illustrated with examples from geometry, linear algebra, number theory, crystallography, and combinatorics. (Cross-listed with MATH 8116).

Prerequisite(s): MATH 4050/MATH 8056 with a C- or better or MATH 4560/MATH 8566 with a C- or better or permission of instructor

MATH 4120 ABSTRACT ALGEBRA II (3 credits)

An introduction to ring and field theory. Various classes of commutative rings are considered including polynomial rings, and the Gaussian integers. Examples of fields include finite fields and various extensions of the rational numbers. Concepts such as that of an ideal, integral domain, characteristic and extension field are studied. The course culminates with an introduction to Galois theory. Applications include the resolution of two classical problems: the impossibility of angle-trisection and the general unsolvability of polynomial equations of degree 5 or higher. (Cross-listed with MATH 8126).

Prerequisite(s): MATH 4110/MATH 8116 with a C- or better or permission of instructor

MATH 4150 GRAPH THEORY & APPLICATIONS (3 credits)

Introduction to graph theory. Representations of graphs and graph isomorphism. Trees as a special case of graphs. Connectivity, covering, matching and coloring in graphs. Directed graphs and planar graphs. Applications of graph theory in several fields such as networks, social sciences, VLSI, chemistry and parallel processing. (Cross-listed with MATH 8156, CSCI 4150, CSCI 8156).

Prerequisite(s): CSCI 2030 with a C- or better, or MATH 2030 with a C- or better, or MATH 2230 with a C- or better, or permission of instructor.

MATH 4200 NUMERICAL METHODS (3 credits)

This course involves solving nonlinear algebraic equations and systems of equations, interpolation and polynomial approximation, numerical differentiation and integration, numerical solutions to ordinary differential equations, analysis of algorithms and errors, and computational efficiency. (Cross-listed with MATH 8206, CSCI 4200, CSCI 8206).

Prerequisite(s): MATH 1970 and MATH 2050 and MATH 2350 with a C- or better or permission of instructor.

MATH 4230 MATHEMATICAL ANALYSIS I (3 credits)

Provides a theoretical foundation for the concepts of classical calculus. Topics include ordered fields, the real and complex number system, basic metric space topology, numerical sequences and series, limits and continuity in metric spaces, monotonic functions, differentiation, (functions of several variables included). (Cross-listed with MATH 8236).

Prerequisite(s): MATH 3230/MATH 8235 with a grade of C- or better.

MATH 4240 MATHEMATICAL ANALYSIS II (3 credits)

Provides a theoretical foundation for the concepts of classical Calculus (vector calculus included). Topics include sequences and series of functions, uniform convergence, power series, Fourier series, multivariable real differential and integral calculus, the Implicit Function Theorem, integration of different forms, and the important formulas, connecting those integrals, due to: Green, Gauss, Riemann, and Ostrogradski. (Cross-listed with MATH 8246).

Prerequisite(s): MATH 4230/MATH 8236 with a grade of C- or better.

MATH 4270 COMPLEX ANALYSIS (3 credits)

This course is an introduction to the theory of functions of a complex variable, a fundamental area of mathematics with multiple applications to science and engineering. Topics include the field of complex numbers, complex differentiation, the complex contour integral and Cauchy's integral formula, Taylor expansions and analytic functions, conformal mapping and Riemann's conformal equivalence theorem, residue theory and Laurent series, harmonic functions, and applications. (Cross-listed with MATH 8276).

Prerequisite(s): MATH 3230/MATH 8235 with a grade of C- or better or permission of the instructor.

MATH 4300 DETERMINISTIC OPERATIONS RESEARCH MODELS (3 credits)

This is a survey course of deterministic operations research models and algorithms. Topics include linear programming, network programming, and integer programming. (Cross-listed with CSCI 4300, CSCI 8306, MATH 8306).

Prerequisite(s): MATH 2050 with a C- or better or permission of instructor.

MATH 4310 PROBABILISTIC OPERATIONS RESEARCH MODELS (3 credits)

This is a survey course of probabilistic operations, research models and algorithms. Topics include Markov chains, queueing theory, inventory models, forecasting, and simulation. (Cross-listed with CSCI 4310, CSCI 8316, MATH 8316).

Prerequisite(s): MATH 2050 and either MATH 4740 or MATH 8746 or STAT 3800 or STAT 8805 all with a C- or better or permission of instructor.

MATH 4320 COMPUTATIONAL OPERATIONS RESEARCH (3 credits)

Survey of computational methods used in the solution of operations research problems. Some topics may include scripting to guide optimization software, constraint programming, heuristics and metaheuristics for optimization, basic machine learning algorithms, and simulation. (Cross-listed with MATH 8326, CSCI 4320, CSCI 8326).

Prerequisite(s): MATH 3200 or CSCI 1620, and MATH 4300 each with a grade of C- or better or permission of instructor.

MATH 4330 INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS (3 credits)

This course introduces the basic methods of PDEs guided by applications in physics and engineering. The main topics to be covered include The Linear First order PDEs, Transport equations, Characteristics, Classification of PDEs, Separation of variables, Heat conduction, vibrating membranes, boundary value problems, Maximum principle, Sturm-Liouville problems, Fourier series, Fourier integrals, Harmonic functions, Legendre polynomials, Distributions, Green's functions. (Cross-listed with MATH 8336).

Prerequisite(s): MATH 1970 with a C- or better and MATH 2350 with a C- or better, or permission of instructor; MATH 2050 recommended, not required.

MATH 4350 ORDINARY DIFFERENTIAL EQUATIONS (3 credits)

This course covers the theory of initial-, boundary-, and eigenvalue problems, existence theorems, real and complex linear systems of differential equations, and stability theory. There will be a strong emphasis on methods for finding solutions of initial and boundary value problems and analyzing properties of these solutions for various ordinary differential equations. (Cross-listed with MATH 8356).

Prerequisite(s): MATH 1970 with a C- or better, MATH 2050 with a C- or better, and MATH 2350 with a C-, or better or instructor's permission.

MATH 4400 THE FINITE ELEMENT METHOD (3 credits)

Introduction to finite elements methods for solving ordinary and partial differential equations. Theoretical foundations of finite element methods for boundary value problems, approximation by piecewise polynomial functions, variation formulation of partial differential equations, basic error estimates. The Rayleigh-Ritz-Galerkin method, convergence of approximations, time-dependent problems, error analysis, discretization and computer implementation, applications to problems in elasticity, heat transfer, and fluid mechanics. (Cross-listed with MATH 8406).

Prerequisite(s): MATH 1970, MATH 2050 and MATH 2350 all with a C- or better or instructor permission. MATH 3300/MATH 8305 and MATH 4330/MATH 8336 recommended. Students should be able to use a programming language (ie MATLAB) to complete computational assignments

MATH 4450 INTRODUCTION TO MACHINE LEARNING AND DATA MINING (3 credits)

This is an introduction to machine learning and data mining which covers the following topics with an emphasis on mathematical and statistical analysis: linear and nonlinear regression models, model selection and regularization methods, resampling methods, classification models, tree-based models, and unsupervised learning topics. If time allows, text mining and deep learning will also be introduced in the course. Statistical software will be used. (Cross-listed with MATH 8456, STAT 4450, STAT 8456)

Prerequisite(s): MATH 4740/8746 with a C- or better or STAT 3800/8805 with a C- or better or permission of instructor.

MATH 4560 NUMBER THEORY & CRYPTOGRAPHY (3 credits)

An overview of one of the many beautiful areas of mathematics and its modern application to secure communication. The course is ideal for any student who wants a taste of mathematics outside of, or in addition to, the calculus sequence. Topics to be covered include: prime numbers, congruences, perfect numbers, primitive roots, quadratic reciprocity, sums of squares, and Diophantine equations. Applications include error-correcting codes, symmetric and public key cryptography, secret sharing, and zero knowledge proofs. (Cross-listed with MATH 8566, CSCI 4560, CSCI 8566).

Prerequisite(s): MATH 2230 with a C- or better or MATH 2030 with a C- or better or CSCI 2030 with a C- or better or permission of instructor

MATH 4610 INTRODUCTION TO TOPOLOGY (3 credits)

This is a proof-oriented course presenting the foundations of topology. Metric spaces and general topological spaces are introduced. The course explores the properties of connectedness, compactness and completeness, and operations of Tychonoff product and hyperspace. (Cross-listed with MATH 8616).

Prerequisite(s): MATH 3230 with a C- or better or permission of instructor.

MATH 4620 ITERATED FUNCTION SYSTEMS AND FRACTALS (3 credits)

This is a proof-oriented course presenting the foundations of fractal geometry. It introduces students to the beauty, magic, and applications of fractals and iterated function systems, with emphasis on the mathematics behind it all. Topics range from contractions on hyperspaces and their fixed points to fractal dimensions to Julia and Mandelbrot sets. (Cross-listed with MATH 8626).

Prerequisite(s): MATH 4610 with a C- or better or permission of instructor.

MATH 4660 AUTOMATA, COMPUTABILITY, AND FORMAL LANGUAGES (3 credits)

This course presents a sampling of several important areas of theoretical computer science. Definition of formal models of computation and important properties of such models, including finite automata and Turing machines. Definition and important properties of formal grammars and their languages. Introduction to the formal theories of computability and complexity. (Cross-listed with CSCI 4660, CSCI 8666, MATH 8666)

Prerequisite(s): MATH 2030. Recommended: CSCI 3320/CSCI 8325.

MATH 4740 INTRODUCTION TO PROBABILITY AND STATISTICS I (3 credits)

A mathematical introduction to probability theory including the properties of probability; probability distributions; expected values and moments; specific discrete and continuous distributions; and transformations of random variables. (Cross-listed with MATH 8746).

Prerequisite(s): MATH 1970 and either MATH 2230 or MATH 2030 all with a grade of C- or better or permission of instructor.

MATH 4750 INTRODUCTION TO PROBABILITY AND STATISTICS II (3 credits)

Theory and methods of statistical inference including sampling distributions, estimators, estimation, and statistical hypotheses. (Cross-listed with MATH 8756).

Prerequisite(s): MATH 4740/MATH 8746 with a grade of C- or better.

MATH 4760 TOPICS IN APPLIED MATHEMATICS (3 credits)

Selection of such topics such as dynamical systems and chaos, Boolean networks, modeling of discrete or continuous systems, matrix theory, difference equations, information theory, discrete events simulation and other approved by Upper Curriculum Committee. (Cross-listed with MATH 8766).

Prerequisite(s): MATH 3100/CSCI 3100 with a grade of C- or better, or permission of instructor.

MATH 4900 INDEPENDENT STUDIES (1-3 credits)

A variable credit course for the junior or senior who will benefit from independent reading assignments and research-type problems. As independent study courses are intended to enrich a student's regular academic program, they may not normally be taken as substitutes for scheduled classroom courses of the same nature. May be repeated for credit, up to six hours, under a different topic.

Prerequisite(s): Permission of the Upper Curriculum Committee of the Mathematics Department via submission of the Undergraduate Independent Study Form available on the Mathematics website.

MATH 4950 TOPICS IN THEORETICAL MATHEMATICS (3 credits)

This course introduces students to a specialized subject matter in the areas of theoretical mathematics not covered in existing courses. The course may be repeated for different topics up to a maximum of six credit hours. The specific topics will vary, depending upon when the course is offered. One example of a course is Axiomatic Set Theory. (Cross-listed with MATH 8956).

Prerequisite(s): Permission of Instructor.

MATH 4970 SEMINAR IN APPLIED MATHEMATICS (3 credits)

A seminar in Applied Mathematics, where the students would read and present research in applied math and write their exposition of those topics.

Prerequisite(s): MATH 3100/CSCI 3100 with a grade of C- or better, or permission of instructor.

MATH 4980 SEMINAR (3 credits)

A seminar in mathematics. This course introduces students to an important form of mathematical activity and culture, where a specialized mathematical subject matter (not covered in typical courses) is studied and discussed in a collaborative setting. The course may be repeated for different topics up to a maximum of six credit hours. The specific topics will vary, depending upon when the course is offered. One example of a seminar topic is Current Trends in Set Theory of the Reals.

Prerequisite(s): Permission of instructor.

STAT 1100 DATA LITERACY AND VISUALIZATION (3 credits)

Designed to help students become familiar with different types of data that are available in business, non-profit and governmental organizations. Students will learn basic data organization and manipulation as well as appropriate visualization techniques including charts, maps, and dashboards using cutting edge software tools. Students will apply this knowledge and skills to real-world data and develop skills in presentation of research results, strategic decision making and forecasting analysis. (Cross-listed with MATH 1100).

Distribution: Math

STAT 1530 ELEMENTARY STATISTICS (3 credits)

An elementary introduction to the basic concepts of probability, descriptive statistics, and statistical inference, including point estimation, confidence intervals, and hypotheses testing.

Prerequisite(s): One of the following within the last two years: ALEKS score of at least 3, ACT Math sub score at least 19, Math SAT at least 460, Math SAT2016 at least 500, Accuplacer score at least 3, or MATH 1000 or MATH 1210 (each with a C- or better)

Distribution: Math

STAT 3000 STATISTICAL METHODS I (3 credits)

An introduction to descriptive statistics, measures of central value and dispersion, probability and distributions, population and sample, simple linear regression, statistical inference: point estimation, confidence intervals, hypotheses testing, two population comparison, goodness-of-fit tests, analysis of variance. Statistical software like Minitab or Excel will be utilized in the course. (Cross-listed with STAT 8005).

Prerequisite(s): MATH 1220 or MATH 1300 or MATH 1320 or equivalent with a grade of C- or better, or permission of instructor

STAT 3800 APPLIED ENGINEERING PROBABILITY AND STATISTICS (3 credits)

An introduction to the application of probability and statistics to engineering problems. Topics include: probability and probability distributions, mathematical expectation, distribution of random variables, binomial, Poisson, hypergeometric, gamma, normal, and t-distributions, Central Limit Theorem, confidence intervals, hypothesis testing. If time allows, some linear regression and contingency tables. Credit for both MATH 4740 and STAT 3800 will not be given. (Cross-listed with STAT 8805)

Prerequisite(s): MATH 1970

STAT 4410 INTRODUCTION TO DATA SCIENCE (3 credits)

Topics covered in this course include Data Technology, Methods of gathering and cleaning structured or unstructured data, Exploratory data analysis & Dynamic and interactive data visualization, Modeling data for prediction, forecasting or classification. (Cross-listed with STAT 8416)

Prerequisite(s): MATH 4740 with at least C- or concurrent or STAT 3800 with at least C- or permission of instructor. Students enrolling in this course should be comfortable with computer programming & have knowledge of data structures & preliminary statistical methods.

STAT 4420 EXPLORATORY DATA VISUALIZATION AND QUANTIFICATION (3 credits)

Topics covered in this course include Exploratory Data Visualization for categorical/qualitative single/multivariate data, Grammar of Graphics, Organizing Data for Visualization, Methods of Displaying Data that include dynamic and interactive visualization, Visual Diagnostics of Statistical Models and Visual Statistical Inference. Students planning to enroll in this course should be comfortable with computer programming and have knowledge of data structures and preliminary statistical methods. (Cross-listed with STAT 8426)

Prerequisite(s): STAT 3800 or STAT 8805 or MATH 4740 or MATH 8746 with a grade of C- or better or another introductory probability/statistics course with a grade of C- or better, and MATH 3200 or CSCI 1620 with a grade of C- or better, or permission of instructor.

STAT 4430 LINEAR MODELS (3 credits)

This is an introduction to linear statistical models which will include: simple linear regression models, multiple linear regression models, ANOVA models including one way ANOVA, randomized block design, and other designs. Also, logistic regression models, Poisson regression models, bootstrapping/resampling models, survival analysis. Some necessary linear algebra and mathematical statistics ideas will be covered in the course also. If time allows, some mixed models and/or survival models. Much use of computer software will be made. (Cross-listed with STAT 8436)

Prerequisite(s): MATH 4750 or MATH 8756 w/ a C- or better or STAT 3800 or STAT 8805 w/ a C- or better or instructor permission based on students' having taken a basic statistics course w/ a grade of C- or better & having at least a basic knowledge of calculus.

STAT 4440 TIME SERIES ANALYSIS (3 credits)

The objective of this course is to learn and apply statistical methods for the analysis of data that have been observed over time. Topics covered include: Models for Stationary and Non-Stationary Time Series, Model Specification, Parameter Estimation, Model Diagnostics, Forecasting, Seasonal Models, Time Series Regression, and Spectral Analysis. Statistical software will be used. (Cross-listed with STAT 8446)

Prerequisite(s): MATH 4750 or MATH 8756 w/ a grade of C- or better or STAT 3800 or STAT 8805 w/ a C- or better or another introductory probability/statistics course w/ a C- or better, or permission of instructor.

STAT 4450 INTRODUCTION TO MACHINE LEARNING AND DATA MINING (3 credits)

This is an introduction to machine learning and data mining which covers the following topics with an emphasis on mathematical and statistical analysis: linear and nonlinear regression models, model selection and regularization methods, resampling methods, classification models, tree-based models, and unsupervised learning topics. If time allows, text mining and deep learning will also be introduced in the course. Statistical software will be used. (Cross-listed with MATH 4450, MATH 8456, STAT 8456)
Prerequisite(s): MATH 4740/8746 with a C- or better or STAT 3800/8805 with a C- or better or permission of instructor.

Mathematics, Bachelor of Arts

To obtain a B.A. with a major in Mathematics, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses (*Testing out of academic skills requirements and enrolling in General Education courses that meet both distribution and diversity requirements are likely to reduce the total number of General Education hours to 40 or fewer.*)
- 16 hours foreign language requirement
- 12 hours college breadth requirement
- 46 hours of major courses
- Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements

Code	Title	Credits
Courses Required (Core Curriculum)		
MATH 1950	CALCULUS I	5
MATH 1960	CALCULUS II	4
MATH 1970	CALCULUS III	4
MATH 2050	APPLIED LINEAR ALGEBRA	3
MATH 2230	INTRODUCTION TO ABSTRACT MATH	3
MATH 2350	DIFFERENTIAL EQUATIONS	3
MATH 3230	INTRODUCTION TO ANALYSIS	3
Select one of the following courses:		3
CIST 1400	INTRODUCTION TO COMPUTER SCIENCE I	
MATH 2200	MATHEMATICAL COMPUTING I ¹	
MATH 3250	INTRODUCTION TO NUMERICAL METHODS	
Additional Coursework: Concentration or No Concentration Option		
An additional 18 credits of approved upper-level MATH/STAT courses which must include at least 9 credits at the 4000 level		18
Optional Concentrations Include:		
Applied Mathematics		
Pre-Actuarial Mathematics		
Computational Mathematics		
Data Science		
Mathematics Education		
Operations Research		
Pure Mathematics		
Statistics		
B.A. Degree Additional Requirements		

Foreign language through the intermediate level.	
Total Credits	46
1 Recommended for students in the Education, Statistics, and Pre-Actuarial Mathematics concentrations.	
2 Recommended for students in the Computational Mathematics concentration.	

Applied Mathematics Concentration

This concentration is recommended for students interested in inherently interdisciplinary subjects which apply to many problems that arise in the physical, biological, economic, social, and network sciences as well as in engineering. Applied Mathematics provides a set of qualitative and quantitative skills and knowledge for use in these fields.

Applied Mathematics has a profound impact on our daily lives. Whether it is weather forecasts, genetic or neural networks, search engines, climate research, evolution of species, stock market and finance, ground or air transportation, architecture, or movie recommendations, none of these would work the way they do without algorithms and tools from the mathematical sciences. The concentration in Applied Mathematics allows students to investigate the mathematics of problems arising in the physical, biological, economic, social, and network sciences as well as in engineering.

Applied Mathematics appeals to people with a variety of different interests, ranging from those with a desire to obtain a good quantitative background for use in some future career, to those who are interested in the basic techniques and approaches in themselves.

Code	Title	Credits
The 18 credits of upper-level courses must include:		
MATH 3100	APPLIED COMBINATORICS	3
MATH 4330	INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS	3
MATH 4760	TOPICS IN APPLIED MATHEMATICS	3
MATH 4970	SEMINAR IN APPLIED MATHEMATICS	3
Along with two 3 credit electives from the following:		6
MATH 3400	THEORY OF INTEREST	
MATH 4050	LINEAR ALGEBRA	
MATH 4150	GRAPH THEORY & APPLICATIONS	
MATH/CSCI 4200	NUMERICAL METHODS	
MATH 4300	DETERMINISTIC OPERATIONS RESEARCH MODELS	
MATH 4310	PROBABILISTIC OPERATIONS RESEARCH MODELS	
MATH 4320	COMPUTATIONAL OPERATIONS RESEARCH	
MATH 4350	ORDINARY DIFFERENTIAL EQUATIONS	
MATH 4400	THE FINITE ELEMENT METHOD	
MATH 4560	NUMBER THEORY & CRYPTOGRAPHY	
MATH 4740	INTRODUCTION TO PROBABILITY AND STATISTICS I	
MATH 4750	INTRODUCTION TO PROBABILITY AND STATISTICS II	
MATH 4760	TOPICS IN APPLIED MATHEMATICS	
MATH 4900	INDEPENDENT STUDIES	
MATH 4970	SEMINAR IN APPLIED MATHEMATICS	
Total Credits		18

Data Science Concentration

This concentration is recommended for students interested in a career as a data science professional or pursuing graduate study in disciplines with

a strong data analysis component. Data science is the art and science of transforming raw data into deliverable data products in order to help businesses or government agencies make more informed decisions.

Code	Title	Credits
Upper Level Courses		
The 18 credits of upper-level courses must include:		
MATH 3200 or CSCI 1620	MATHEMATICAL COMPUTING II INTRODUCTION TO COMPUTER SCIENCE II	3
MATH 4740	INTRODUCTION TO PROBABILITY AND STATISTICS I	3
MATH 4750	INTRODUCTION TO PROBABILITY AND STATISTICS II	3
STAT 4410	INTRODUCTION TO DATA SCIENCE	3
STAT 4420	EXPLORATORY DATA VISUALIZATION AND QUANTIFICATION	3
Select two of the following elective courses:		3
MATH/CSCI 4300	DETERMINISTIC OPERATIONS RESEARCH MODELS	
MATH/CSCI 4310	PROBABILISTIC OPERATIONS RESEARCH MODELS	
MATH/STAT 4450	INTRODUCTION TO MACHINE LEARNING AND DATA MINING	
MATH 4900	INDEPENDENT STUDIES	
STAT 4430	LINEAR MODELS	
STAT 4440	TIME SERIES ANALYSIS	
Total Credits		18

Mathematics Education Concentration

This concentration is recommended for students interested in pursuing a career in Secondary Education. In some cases it is possible to simultaneously earn a B.S. or a B.A. in Math and a B.S. in Secondary Education.

Code	Title	Credits
The 18 credits of upper-level courses must include:		
MATH 3640	MODERN GEOMETRY	3
MATH 3850	HISTORY OF MATHEMATICS	3
MATH 4030	MODERN ALGEBRA	3
MATH 4740	INTRODUCTION TO PROBABILITY AND STATISTICS I	3
Select two of the following elective courses:		6
MATH 3100	APPLIED COMBINATORICS	
MATH 3200	MATHEMATICAL COMPUTING II	
MATH 4050	LINEAR ALGEBRA	
MATH 4560	NUMBER THEORY & CRYPTOGRAPHY	
MATH 4610	INTRODUCTION TO TOPOLOGY	
Total Credits		18

Additional Requirement

Students must include the following Educator Preparation Program Requirements:

Code	Title	Credits
TED 2100	EDUCATIONAL FOUNDATIONS	3
TED 2200	HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS	3
TED 2380	DEVELOPMENT AND LEARNING IN ADOLESCENCE	3
TED 2400	PLANNING FOR EFFECTIVE TEACHING	6

TED 3550	SECONDARY CLASSROOM MANAGEMENT	3
TED 3690	LITERACY AND LEARNING	3
TED 4000	SPECIAL METHODS IN THE CONTENT AREA	3
SPED 3800	DIFFERENTIATION AND INCLUSIVE PRACTICES	3
Total Credits		27

For those who want a Nebraska Math 6-12 Teaching Certificate:

TED 4600	CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL ¹	12
----------	---	----

¹ These requirements also fulfill the College of Arts & Sciences breadth requirement.

Pre-Actuarial Mathematics Concentration

This concentration is recommended for students interested in a career as an Actuary and who plan on taking the actuarial exams.

An actuary evaluates the financial impact of risk by evaluating the likelihood of future events, designing creative ways to reduce the likelihood of undesirable events, and decreasing the impact of undesirable events that do occur.

Actuaries work for insurance companies, government, and consulting firms. In the actuarial profession, you can earn while you learn. Many students receive on-the-job training while enrolled in the examination process. Employers are generally supportive and may give students study time during working hours, pay exam fees, and award raises for each exam passed. However, most employers prefer to hire people who have started the series of examinations on their own and have already passed at least two or three.

Code	Title	Credits
The 18 credits of upper-level courses must include:		
MATH 3200	MATHEMATICAL COMPUTING II	3
MATH 3400	THEORY OF INTEREST	3
MATH/CSCI 4310 or STAT 4430	PROBABILISTIC OPERATIONS RESEARCH MODELS LINEAR MODELS	3
MATH 4740	INTRODUCTION TO PROBABILITY AND STATISTICS I	3
MATH 4750	INTRODUCTION TO PROBABILITY AND STATISTICS II	3
STAT 4440	TIME SERIES ANALYSIS	3
Total Credits		18

Operations Research Concentration

This concentration is recommended for students interested in a career as an operations research analyst or in pursuing a graduate degree in operations research or a related field.

The broad real-world applicability of operations research makes it an attractive choice for math majors. In operations research courses, students get a solid background in mathematical modeling of decision-making problems, algorithms for solving different types of these problems, as well as experience using appropriate software tools.

Operations research is the application of advanced analytical methods to enable better decision making. A plethora of problems may be solved using operations research; among these are (1) determining the route a delivery

truck should take in order to make all deliveries while traveling the fewest number of miles; (2) determining the best location for a new facility such as a fire station; (3) scheduling airline flights and crew; and (4) determining the optimal distribution of bicycles in a bike sharing system. Operations research includes problem-solving methods such as deterministic and stochastic optimization, machine learning, and simulation.

Code	Title	Credits
The 18 hours of upper-level courses must include:		
MATH 3200 or CSCI 1620	MATHEMATICAL COMPUTING II INTRODUCTION TO COMPUTER SCIENCE II	3
MATH/CSCI 4300	DETERMINISTIC OPERATIONS RESEARCH MODELS	3
MATH/CSCI 4310	PROBABILISTIC OPERATIONS RESEARCH MODELS	3
MATH 4320	COMPUTATIONAL OPERATIONS RESEARCH	3
MATH 4740 or STAT 3800	INTRODUCTION TO PROBABILITY AND STATISTICS I APPLIED ENGINEERING PROBABILITY AND STATISTICS	3
Select one of the following:		3
MATH/CSCI 4150	GRAPH THEORY & APPLICATIONS	
MATH/STAT 4450	INTRODUCTION TO MACHINE LEARNING AND DATA MINING	
MATH 4750	INTRODUCTION TO PROBABILITY AND STATISTICS II	
MATH 4900	INDEPENDENT STUDIES	
STAT 4410	INTRODUCTION TO DATA SCIENCE	
STAT 4420	EXPLORATORY DATA VISUALIZATION AND QUANTIFICATION	
STAT 4430	LINEAR MODELS	
STAT 4440	TIME SERIES ANALYSIS	
Total Credits		18

Statistics Concentration

This concentration is recommended for students interested in the theoretical and practical aspects of statistics, particularly those students who are interested in pursuing graduate study in statistics or biostatistics.

Statistics, the study of data, is of growing importance. Students who have the skills to properly collect, analyze, interpret, and present data are in high demand around the country.

The objectives of this concentration are: (1) to gain an understanding of the mathematical underpinnings of statistics; (2) to use appropriate statistical modeling to solve practical problems; (3) to develop an understanding of how to use statistical software; (4) to communicate statistical results to non-statisticians.

Statistics is used in many fields, including biology, sociology, psychology, medicine, economics, quality control, and sports. This diversity, along with the growing need for people with statistical knowledge, makes it an attractive choice for mathematics students.

Code	Title	Credits
The 18 credits of upper-level courses must include:		
MATH 3200	MATHEMATICAL COMPUTING II	3
MATH 4740	INTRODUCTION TO PROBABILITY AND STATISTICS I	3
MATH 4750	INTRODUCTION TO PROBABILITY AND STATISTICS II	3
Select three of the following, with at least two from group A:		9

Group A:	
STAT 4420	EXPLORATORY DATA VISUALIZATION AND QUANTIFICATION
STAT 4430	LINEAR MODELS
STAT 4440	TIME SERIES ANALYSIS
Group B:	
MATH/CSCI 3100	APPLIED COMBINATORICS

Computational Mathematics Concentration

This concentration is recommended for students interested in computational science, particularly those students who are interested in pursuing graduate study in applied and computational mathematics at the graduate level.

A concentration in computational mathematics may be useful in a wide range of areas including science, engineering, government, healthcare, business, and information technology. The specialization in computational mathematics is designed for students with a strong interest in Mathematics and in mathematical applications to areas of science and engineering. By choosing elective courses carefully, students completing this specialization will be prepared for a career in a variety of computing and/or engineering areas. Students will also be prepared to continue on to a graduate program in applied mathematics.

Computational mathematics involves the use of math and computers to solve problems and predict outcomes. The concentration in computational mathematics is intended for any student who is interested in applications to solving practical and physical problems in engineering, science, and business. This concentration is also recommended for students who wish to work in the research and development area of industry. The concentration is especially intended for students seeking a career as quantitative analysts, computational scientists, and applied mathematicians, and for those thinking of continuing the study of applied and computational mathematics at the graduate level.

Code	Title	Credits
The 18 credits of upper-level courses must include:		
MATH/CSCI 4200	NUMERICAL METHODS	3
MATH 4330	INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS	3

Total Credits		18

Pure Mathematics Concentration

What do UNO Alumni Chief Operating Officer Matt Culek of Citadel Securities, Senior Industrial Logician Andrew Gacek of Rockwell Collins, Microsoft Data Scientist Daniel Miller and University of Toronto Post-doc Melissa Emory have in common? They sought out the strongest foundation in mathematics available here at UNO, taking the courses required for the Pure Mathematics Concentration.

This concentration is strongly recommended for students interested in a pursuing a graduate degree in mathematics, but as indicated above, is highly recommended for any student interested in getting the most out of their mathematics major.

Students pursuing a graduate degree are expected to have a strong foundation based in analysis, topology, and abstract algebra. This is what this concentration provides.

Challenging yourself has other advantages. Matt Culek credits his ability to trouble-shoot proposals brought to him by quantitative analysts at Citadel Securities to the habits of thought developed in his undergraduate course in number theory here at UNO.

Code	Title	Credits
18 credits of upper-level courses in this concentration must include the following 3 courses:		9
MATH 4050	LINEAR ALGEBRA (3 credits)	
MATH 4110	ABSTRACT ALGEBRA I (3 credits)	
MATH 4230	MATHEMATICAL ANALYSIS I (3 credits)	
Choose 3 of the following courses:		9
NOTE: Students who plan to apply for a Ph.D. program in Mathematics should choose their elective courses from those with the numbered superscripts, with #1 signifying highest priority.		
MATH 3640	MODERN GEOMETRY	
MATH 4010	INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS	
MATH 4120	ABSTRACT ALGEBRA II (3 credits) ²	
MATH 4150	GRAPH THEORY & APPLICATIONS	
MATH 4240	MATHEMATICAL ANALYSIS II (3 credits) ³	
MATH 4270	COMPLEX ANALYSIS (3 credits) ⁴	
MATH 4330	INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS ⁵	
MATH 4350	ORDINARY DIFFERENTIAL EQUATIONS	
MATH/CSCI 4560	NUMBER THEORY & CRYPTOGRAPHY (3 credits)	
MATH 4610	INTRODUCTION TO TOPOLOGY (3 credits) ¹	
MATH 4900	INDEPENDENT STUDIES

Elective at 3000-4000 Level or Minor/2nd Major Course***		3
*MATH 4760: Requires MATH 3100		
**MATH 4970: Requires MATH 3100		
***Students need at least 120 credits and a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives to reach the 27 credit minimum.		
Credits		15
Total Credits		120

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

*Must take 3 Stat Electives with at least 2 from Group A. This semester Group A options: STAT 4420 (S) requires MATH 4750 & CSCI 1620 or MATH 3200; STAT 4440 (S) requires MATH 4750 & CSCI 1620 or MATH 3200.

**Must take 3 Stat Electives with at least 2 from Group A. This semester Group B options: MATH/CSCI 3100 (F, S) requires MATH 2230; MATH/CSCI 4310 (S) requires MATH 3050 and 4750; MATH/STAT 4450 (S) requires MATH 4740; MATH 4900 Independent Study.

***Students need at least 120 credits and a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives to reach the 27 credit minimum.

Credits	15
Total Credits	120

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Mathematics, Bachelor of Science

To obtain a B.S. with a major in Mathematics, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

46 hours of University General Education courses (*Testing out of academic skills requirements and enrolling in General Education courses that satisfy both distribution and diversity requirements are likely to reduce the total number of General Education hours to 40 or fewer.*)

12 hours college breadth requirement

61 hours of major courses

Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements

Code	Title	Credits
Courses Required (Core Curriculum)		
MATH 1950	CALCULUS I	5
MATH 1960	CALCULUS II	4
MATH 1970	CALCULUS III	4
MATH 2050	APPLIED LINEAR ALGEBRA	3
MATH 2230	INTRODUCTION TO ABSTRACT MATH	3
MATH 2350	DIFFERENTIAL EQUATIONS	3
MATH 3230	INTRODUCTION TO ANALYSIS	3
Select one of the following courses:		3
CIST 1400	INTRODUCTION TO COMPUTER SCIENCE I	
MATH 2200	MATHEMATICAL COMPUTING I ¹	

MATH 3250	INTRODUCTION TO NUMERICAL METHODS ²
-----------	--

Additional Coursework: Concentration or No Concentration Option

An additional 18 credits of approved upper-level MATH/STAT courses which must include at least 9 credits at the 4000 level

Optional Concentrations Include:

Applied Mathematics
Pre-Actuarial Mathematics
Computational Mathematics
Data Science
Mathematics Education
Operations Research
Statistics
Pure Mathematics

B.S. Degree Additional Requirement 15

The Bachelor of Science Degree requires at least 15 hours of related Cognate coursework that must be approved by the Mathematics Academic Advisor/Coordinator. Students can also choose a UNO Minor to satisfy their cognate requirement; however, this Cognate minor cannot double-count as the Option 1 minor for the College of Arts & Sciences College Breadth Requirement. A Computer Science Minor cannot satisfy the Cognate requirement for Mathematics. No more than 6 credits of cognate coursework may double-count within the general education requirements.

Total Credits 61

- ¹ Recommended for students in the Education, Statistics, and Pre-Actuarial Mathematics concentrations.
- ² Recommended for students in the Computational Mathematics concentration.

Applied Mathematics Concentration

This concentration is recommended for students interested in inherently interdisciplinary subjects which apply to many problems that arise in the physical, biological, economic, social, and network sciences as well as in engineering. Applied Mathematics provides a set of qualitative and quantitative skills and knowledge for use in these fields.

Applied Mathematics has a profound impact on our daily lives. Whether it is weather forecasts, genetic or neural networks, search engines, climate research, evolution of species, stock market and finance, ground or air transportation, architecture, or movie recommendations, none of these would work the way they do without algorithms and tools from the mathematical sciences. The concentration in Applied Mathematics allows students to investigate the mathematics of problems arising in the physical, biological, economic, social, and network sciences as well as in engineering.

Applied Mathematics appeals to people with a variety of different interests, ranging from those with a desire to obtain a good quantitative background for use in some future career, to those who are interested in the basic techniques and approaches in themselves.

Code	Title	Credits
The 18 credits of upper-level courses must include:		
MATH 3100	APPLIED COMBINATORICS	3
MATH 4330	INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS	3
MATH 4760	TOPICS IN APPLIED MATHEMATICS	3
MATH 4970	SEMINAR IN APPLIED MATHEMATICS	3
Along with two 3 credit electives from the following:		6
MATH 3400	THEORY OF INTEREST	

MATH 4050	LINEAR ALGEBRA	
MATH 4150	GRAPH THEORY & APPLICATIONS	
MATH/CSCI 4200	NUMERICAL METHODS	
MATH 4300	DETERMINISTIC OPERATIONS RESEARCH MODELS	
MATH 4310	PROBABILISTIC OPERATIONS RESEARCH MODELS	
MATH 4320	COMPUTATIONAL OPERATIONS RESEARCH	
MATH 4350	ORDINARY DIFFERENTIAL EQUATIONS	
MATH 4400	THE FINITE ELEMENT METHOD	
MATH 4560	NUMBER THEORY & CRYPTOGRAPHY	
MATH 4750	INTRODUCTION TO PROBABILITY AND STATISTICS II	
MATH 4760	TOPICS IN APPLIED MATHEMATICS	
MATH 4900	INDEPENDENT STUDIES	
MATH 4970	SEMINAR IN APPLIED MATHEMATICS	
Total Credits		18

Data Science Concentration

This concentration is recommended for students interested in a career as a data science professional or pursuing graduate study in disciplines with a strong data analysis component. Data science is the art and science of transforming raw data into deliverable data products in order to help businesses or government agencies make more informed decisions.

Code	Title	Credits
Upper level Courses		
The 18 credits of upper-level courses must include:		
MATH 3200	MATHEMATICAL COMPUTING II	3
or CSCI 1620	INTRODUCTION TO COMPUTER SCIENCE II	
MATH 4740	INTRODUCTION TO PROBABILITY AND STATISTICS I	3
MATH 4750	INTRODUCTION TO PROBABILITY AND STATISTICS II	3
STAT 4410	INTRODUCTION TO DATA SCIENCE	3
STAT 4420	EXPLORATORY DATA VISUALIZATION AND QUANTIFICATION	3
Select one of the following elective courses:		3
MATH/CSCI 4300	DETERMINISTIC OPERATIONS RESEARCH MODELS	
MATH/CSCI 4310	PROBABILISTIC OPERATIONS RESEARCH MODELS	
MATH/STAT 4450	INTRODUCTION TO MACHINE LEARNING AND DATA MINING	
MATH 4900	INDEPENDENT STUDIES	
STAT 4430	LINEAR MODELS	
STAT 4440	TIME SERIES ANALYSIS	
Total Credits		18

Mathematics Education Concentration

This concentration is recommended for students interested in pursuing a career in Secondary Education. In some cases it is possible to simultaneously earn a B.S. or a B.A. in Math and a B.S. in Secondary Education.

Code	Title	Credits
The 18 credits of upper-level courses must include:		
MATH 3640	MODERN GEOMETRY	3
MATH 3850	HISTORY OF MATHEMATICS	3
MATH 4030	MODERN ALGEBRA	3

MATH 4740	INTRODUCTION TO PROBABILITY AND STATISTICS I	3
Select two of the following elective courses:		6
MATH/CSCI 3100	APPLIED COMBINATORICS	
MATH 3200	MATHEMATICAL COMPUTING II	
MATH 4050	LINEAR ALGEBRA	
MATH 4560	NUMBER THEORY & CRYPTOGRAPHY	
MATH 4610	INTRODUCTION TO TOPOLOGY	
Total Credits		18

Additional Requirement

Students must include the following Educator Preparation Program Requirements:

Code	Title	Credits
TED 2100	EDUCATIONAL FOUNDATIONS	3
TED 2200	HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS	3
TED 2380	DEVELOPMENT AND LEARNING IN ADOLESCENCE	3
TED 2400	PLANNING FOR EFFECTIVE TEACHING	6
TED 3550	SECONDARY CLASSROOM MANAGEMENT	3
TED 3690	LITERACY AND LEARNING	3
TED 4000	SPECIAL METHODS IN THE CONTENT AREA	3
SPED 3800	DIFFERENTIATION AND INCLUSIVE PRACTICES	3
Total Credits		27

Code	Title	Credits
For those who want a Nebraska Math 6-12 Teaching Certificate:		
TED 4600	CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL ¹	12

¹ These requirements also fulfill the College of Arts & Sciences breadth requirement.

Pre-Actuarial Mathematics Concentration

This concentration is recommended for students interested in a career as an actuary and who plan on taking the actuarial exams.

An actuary evaluates the financial impact of risk by evaluating the likelihood of future events, designing creative ways to reduce the likelihood of undesirable events, and decreasing the impact of undesirable events that do occur.

Actuaries work for insurance companies, government, and consulting firms. In the actuarial profession, you can earn while you learn. Many students receive on-the-job training while enrolled in the examination process. Employers are generally supportive and may give students study time during working hours, pay exam fees, and award raises for each exam passed. However, most employers prefer to hire people who have started the series of examinations on their own and have already passed at least two or three.

Code	Title	Credits
The 18 credits of upper-level courses must include:		
MATH 3200	MATHEMATICAL COMPUTING II	3
MATH 3400	THEORY OF INTEREST	3
MATH/CSCI 4310	PROBABILISTIC OPERATIONS RESEARCH MODELS	3

or STAT 4430	LINEAR MODELS	
MATH 4740	INTRODUCTION TO PROBABILITY AND STATISTICS I	3
MATH 4750	INTRODUCTION TO PROBABILITY AND STATISTICS II	3
STAT 4440	TIME SERIES ANALYSIS	3
Total Credits		18

Operations Research Concentration

This concentration is recommended for students interested in a career as an operations research analyst or in pursuing a graduate degree in operations research or a related field.

The broad real-world applicability of operations research makes it an attractive choice for math majors. In operations research courses students get a solid background in mathematical modeling of decision-making problems, algorithms for solving different types of these problems, as well as experience using appropriate software tools.

Operations research is the application of advanced analytical methods to enable better decision making. A plethora of problems may be solved using operations research; among these are (1) determining the route a delivery truck should take in order to make all deliveries while traveling the fewest number of miles; (2) determining the best location for a new facility such as a fire station; (3) scheduling airline flights and crew; and (4) determining the optimal distribution of bicycles in a bike sharing system. Operations research includes problem-solving methods such as deterministic and stochastic optimization, machine learning, and simulation.

Code	Title	Credits
The 18 hours of upper-level courses must include:		
MATH 3200	MATHEMATICAL COMPUTING II	3
or CSCI 1620	INTRODUCTION TO COMPUTER SCIENCE II	
MATH/CSCI 4300	DETERMINISTIC OPERATIONS RESEARCH MODELS	3
MATH/CSCI 4310	PROBABILISTIC OPERATIONS RESEARCH MODELS	3
MATH 4320	COMPUTATIONAL OPERATIONS RESEARCH	3
MATH 4740	INTRODUCTION TO PROBABILITY AND STATISTICS I	3
or STAT 3800	APPLIED ENGINEERING PROBABILITY AND STATISTICS	
Select one of the following:		3
MATH/CSCI 4150	GRAPH THEORY & APPLICATIONS	
MATH/STAT 4450	INTRODUCTION TO MACHINE LEARNING AND DATA MINING	
MATH 4750	INTRODUCTION TO PROBABILITY AND STATISTICS II	
MATH 4900	INDEPENDENT STUDIES	
STAT 4410	INTRODUCTION TO DATA SCIENCE	
STAT 4420	EXPLORATORY DATA VISUALIZATION AND QUANTIFICATION	
STAT 4430	LINEAR MODELS	
STAT 4440	TIME SERIES ANALYSIS	
Total Credits		18

Statistics Concentration

This concentration is recommended for students interested in the theoretical and practical aspects of statistics, particularly those students who are interested in pursuing graduate study in statistics or biostatistics.

Statistics, the study of data, is of growing importance. Students who have the skills to properly collect, analyze, interpret, and present data are in high demand around the country.

The objectives of this concentration are: (1) to gain an understanding of the mathematical underpinnings of statistics; (2) to use appropriate statistical modeling to solve practical problems; (3) to develop an understanding of how to use statistical software; (4) to communicate statistical results to non-statisticians.

Statistics is used in a many fields, including biology, sociology, psychology, medicine, economics, quality control, and sports. This diversity, along with the growing need for people with statistical knowledge makes it an attractive choice for mathematics students.

Code	Title	Credits
The 18 credits of upper-level courses must include:		
MATH 3200	MATHEMATICAL COMPUTING II	3
MATH 4740	INTRODUCTION TO PROBABILITY AND STATISTICS I	3
MATH 4750	INTRODUCTION TO PROBABILITY AND STATISTICS II	3
Select three of the following, with at least two from group A:		9
Group A:		
STAT 4420	EXPLORATORY DATA VISUALIZATION AND QUANTIFICATION	
STAT 4430	LINEAR MODELS	
STAT 4440	TIME SERIES ANALYSIS	
Group B:		
MATH/CSCI 3100	APPLIED COMBINATORICS	
MATH/CSCI 4310	PROBABILISTIC OPERATIONS RESEARCH MODELS	
MATH/STAT 4450	INTRODUCTION TO MACHINE LEARNING AND DATA MINING	
MATH 4900	INDEPENDENT STUDIES	
STAT 4410	INTRODUCTION TO DATA SCIENCE	
Total Credits		18

Computational Mathematics Concentration

This concentration is recommended for students interested in computational science, particularly those students who are interested in pursuing graduate study in applied and computational mathematics at the graduate level.

A concentration in computational mathematics may be useful in a wide range of areas including science, engineering, government, health care, business, and information technology. The specialization in computational mathematics is designed for students with a strong interest in mathematics and in mathematical applications to areas of science and engineering. By choosing elective courses carefully, students completing this specialization will be prepared for a career in a variety of computing and/or engineering areas. Students will also be prepared to continue on to a graduate program in applied mathematics.

Computational mathematics involves the use of math and computers to solve problems and predict outcomes. The concentration in computational mathematics is intended for any student who is interested in applications to solving practical and physical problems in engineering, science, and business. This concentration is also recommended for students who wish to work in the research and development area of industry. The concentration is especially intended for students seeking a career as quantitative analysts, computational scientists, and applied mathematicians, and for those thinking of continuing the study of applied and computational mathematics at the graduate level.

The 18 credits of upper-level courses must include:

Code	Title	Credits
MATH/CSCI 4200	NUMERICAL METHODS	3
MATH 4330	INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS	3
MATH 4350	ORDINARY DIFFERENTIAL EQUATIONS	3
MATH 4400	THE FINITE ELEMENT METHOD	3
Select two of the following:		6
MATH 4050	LINEAR ALGEBRA	
MATH 4230	MATHEMATICAL ANALYSIS I	
MATH 4240	MATHEMATICAL ANALYSIS II	
MATH 4320	COMPUTATIONAL OPERATIONS RESEARCH	
MATH 4740	INTRODUCTION TO PROBABILITY AND STATISTICS I	
MATH 4750	INTRODUCTION TO PROBABILITY AND STATISTICS II	
MATH 4900	INDEPENDENT STUDIES	
MATH 4970	SEMINAR IN APPLIED MATHEMATICS	
Total Credits		18

Pure Mathematics Concentration

What do UNO Alumni Chief Operating Officer Matt Culek of Citadel Securities, Senior Industrial Logician Andrew Gacek of Rockwell Collins, Microsoft Data Scientist Daniel Miller and McGill University Post-doc Melissa Emory have in common? They sought out the strongest foundation in mathematics available here at UNO, taking the courses required for the Pure Mathematics Concentration.

This concentration is strongly recommended for students interested in a pursuing a graduate degree in mathematics, but as indicated above, is highly recommended for any student interested in getting the most out of their mathematics major.

Students pursuing a graduate degree are expected to have a strong foundation based in analysis, topology, and abstract algebra. This is what this concentration provides.

Challenging yourself has other advantages. Matt Culek credits his ability to trouble-shoot proposals brought to him by quantitative analysts at Citadel Securities to the habits of thought developed in his undergraduate course in number theory here at UNO.

Code	Title	Credits
18 credits of upper-level courses in this concentration must include the following 3 courses:		9
MATH 4050	LINEAR ALGEBRA (3 credits)	
MATH 4110	ABSTRACT ALGEBRA I (3 credits)	
MATH 4230	MATHEMATICAL ANALYSIS I (3 credits)	
Choose 3 of the following courses:		9
NOTE: Students who plan to apply for a Ph.D. program in Mathematics should choose their elective courses from those with the numbered superscripts, with #1 signifying highest priority.		
MATH 3640	MODERN GEOMETRY	
MATH 4010	INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS	
MATH 4120	ABSTRACT ALGEBRA II (3 credits) ²	
MATH 4150	GRAPH THEORY & APPLICATIONS	
MATH 4240	MATHEMATICAL ANALYSIS II (3 credits) ³	
MATH 4270	COMPLEX ANALYSIS (3 credits) ⁴	

MATH 4330	INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS ⁵	
MATH 4350	ORDINARY DIFFERENTIAL EQUATIONS	
MATH/CSCI 4560	NUMBER THEORY & CRYPTOGRAPHY (3 credits)	
MATH 4610	INTRODUCTION TO TOPOLOGY (3 credits) ¹	
MATH 4900	INDEPENDENT STUDIES	
Total Credits		18

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Group A Elective or Cognate*		3
Group B Elective or Cognate**		3
Cognate		3
Elective at 3000-4000 Level/Minor/Double Major Course***		3
Elective at 3000-4000 Level/Minor/Double Major Course***		3

*Must take 3 Stat Electives with at least 2 from Group A.

This semester Group A options: STAT 4420 (S) requires MATH 4750 & CSCI 1620 or MATH 3200; STAT 4440 (S) requires MATH 4750 & CSCI 1620 or MATH 3200.

**Must take 3 Stat Electives with at least 2 from Group A.

This semester Group B options: MATH/CSCI 3100 (F, S) requires MATH 2230; MATH/CSCI 4310 (S) requires MATH 3050 and 4750; MATH/STAT 4450 (S) requires MATH 4740; MATH 4900 Independent Study.

***Students need at least 120 credits and a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives and/or cognate courses to reach the 27 credit minimum.

Credits **15**

Total Credits **120**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Mathematics Minor

Requirements

All coursework must be completed with a grade of C- or better. At least one MATH course 3000-level or higher or STAT course 3800 level or higher must be completed at UNO to establish residency. Three tracks are available.

The **Traditional Track** Mathematics Minor allows for the most flexibility in Upper Division courses. Several programs including Engineering, Computer Science, and Secondary Education: Math Endorsement can complete a Traditional Track Mathematics Minor with few or no additional courses.

The **Discrete Mathematics Track** Mathematics Minor bypasses MATH 1960 Calculus II and instead guides students towards courses that are relevant to their specific fields. These include Biology, Neuroscience, Philosophy, Political Science, Physics, Economics, Finance, Social Sciences, Network Sciences, Computer Science, and Engineering.

The **Cybersecurity Track** Mathematics Minor bypasses MATH 1960 Calculus II and instead guides students towards courses that are relevant to work in Cybersecurity.

Traditional Track

The Traditional Track minor in mathematics may be obtained by successful completion of 18-19 credits in mathematics courses consisting of:

Code	Title	Credits
MATH 1950	CALCULUS I	5
MATH 1960	CALCULUS II	4
MATH 2030	DISCRETE MATHEMATICS (or CSCI 2030 MATHEMATICAL FOUNDATIONS OF COMPUTER SCIENCE)	3
or MATH 2230	INTRODUCTION TO ABSTRACT MATH	
One 3000-4000 level Math/Stat course ^{1,2}		3
One additional math course 1970 or above		3-4
Total Credits		18-19

¹ STAT 3000 does not count towards the Mathematics Minor.

² ECEN 3050 will count towards the Mathematics Minor for Engineering majors.

Discrete Mathematics Track

The Discrete Mathematics Track minor in mathematics may be obtained by successful completion of 17 credits in mathematics courses consisting of:

Code	Title	Credits
MATH 1940	CALCULUS FOR BIOMEDICINE	5
or MATH 1950	CALCULUS I	
MATH 2030	DISCRETE MATHEMATICS	3
MATH 3100	APPLIED COMBINATORICS	3
Select two Mathematics courses from the following:		6
MATH 3640	MODERN GEOMETRY	
MATH 4010	INTRODUCTION TO THE THEORY OF RECURSIVE FUNCTIONS	
MATH 4030	MODERN ALGEBRA	
MATH 4150	GRAPH THEORY & APPLICATIONS	
MATH 4560	NUMBER THEORY & CRYPTOGRAPHY	
MATH 4760	TOPICS IN APPLIED MATHEMATICS	
MATH 4970	SEMINAR IN APPLIED MATHEMATICS	
Total Credits		17

Cybersecurity Track

The Cybersecurity Track minor in mathematics may be obtained by successful completion of 17-18 credits in mathematics courses consisting of:

Code	Title	Credits
MATH 1950	CALCULUS I	5
MATH 2050	APPLIED LINEAR ALGEBRA	3
MATH 2230	INTRODUCTION TO ABSTRACT MATH	3
MATH 4560	NUMBER THEORY & CRYPTOGRAPHY	3
One additional MATH/STAT course at MATH 1960 level or higher. ¹		3-4
Total Credits		17-18

¹ STAT 3000 does not count towards the Mathematics Minor.

If planned correctly, some disciplines require few, if any, additional math courses beyond what is required for the major. Please see suggested coursework for such majors below.

Courses marked with an asterisk* are not normally required for these programs, and are added here to achieve the Mathematics Minor.

College of Education, Health, and Human Sciences Majors

Secondary Education with Math 6-12 Endorsement

These students automatically fulfill the 20 credits required for a math minor with required coursework for the major.

Biomechanics

Total Credits **19**

Information Science and Technology Majors

Computer Science

Computer Science majors can earn a Mathematics Minor without taking any extra courses, simply by choosing cross-listed MATH/CSCI courses as part of their Computer Science Core Extension requirement. In addition to MATH 1950 and MATH 1960, all MATH/CSCI cross-listed courses qualify, but credit will not be given for both MATH 2230 and MATH 2030/CSCI 2030.

Cybersecurity

Code	Title	Credits
MATH 1950	CALCULUS I	5
MATH 2050	APPLIED LINEAR ALGEBRA *	3
MATH 2230	INTRODUCTION TO ABSTRACT MATH	3
MATH 4560	NUMBER THEORY & CRYPTOGRAPHY	3

One additional MATH/STAT course at MATH 1960 level or higher. *

Bioinformatics

Code	Title	Credits
MATH 1950	CALCULUS I	5
MATH 1960	CALCULUS II *	3-4
or MATH 3100	APPLIED COMBINATORICS

or CSCI 2030	MATHEMATICAL FOUNDATIONS OF COMPUTER SCIENCE	
MATH 4150	GRAPH THEORY & APPLICATIONS	3
One additional MATH/STAT course MATH 1970 or above *		3-4
Total Credits		17-19

Medical Humanities

General Information

The Medical Humanities major helps students increase their understanding of the nature of illness, health, wellness, healing, and medicine by exploring these topics in three blocks of classes that share a commonality of focus. The Major in Medical Humanities is intentionally flexible and interdisciplinary, reflecting both the needs of students and the nature of the field.

To ensure cohesion, all majors take the introductory course, a Medical Humanities Commons course, which is an interdisciplinary examination of a single relevant topic (e.g. "Suffering" or "Compliance") and a Capstone course in Medical Humanities that includes a project integrating their chosen coursework with community engagement.

Block 1: Inclusivity & Diversity: Courses in this block allow students to explore how race, ethnicity, gender, sex, age and income affect the experience of health, illness and medicine. Demographically, the population of the United States is aging and diversifying and this affects who seeks health care and how they interact with the system. Poverty has an enormous impact on the health and well-being of individuals, communities and populations. Students pursuing careers in health care will therefore benefit from a foundational understanding of these concepts and perspectives.

Block 2: Ethics, Religion & Culture: Courses in this block provide students with a foundation in the values, beliefs and concepts that define how health, illness, disease and medicine are experienced at a social and cultural level by individuals and societies. It prepares students to confront ethical questions of meaning and value that arise in the context of medical research and practice. Spirituality and religion for many patients, practitioners and communities are the heart of health care. Exploring cross-cultural perspectives on medical beliefs, practices and systems encourages students to reflect on the diverse ways humans approach, experience and solve problems of health and health care delivery.

Block 3: Narrative Medicine, Communication & Fine Arts: Courses in this block allow students the opportunity to explore different ways of observing, communicating and understanding health, illness and healing. Narrative medicine encourages students to write, reflect and find meaning in their own and others experiences with health and medicine. Literature introduces students to life situations associated with illness and disability in an intimate and intuitive way. Communication skills are essential for interprofessional teams, and working with clients and patients. Music, visual art and drama courses encourage students to express and experience the human condition in unique ways, as well as improving listening, observation and communication skills.

Other Information

All coursework taken for the medical humanities major must be completed with a grade of "C-" or better.

Residency

A maximum of three credit hours can be transferred from another university to count towards the medical humanities major, unless the Director agrees to additional credit transfer.

- Medical Humanities, Bachelor of Science (p. 265)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the medical humanities major this course is ENGL 2400, WRWS 3500, ENGL 4970 or another approved course.

- Medical Humanities Minor (p. 267)

An education with a humanities perspective on health and medicine shapes individuals to think critically, compassionately and knowledgeably about the human condition, appreciate and respect diverse communities, and develop reflective and resilient habits of the mind. A major in Medical Humanities prepares graduates for health care occupations through its focus on the humanistic aspects of medicine that promote patient centered care and resilient professionals.

Students could benefit from this program if they are planning careers in

- medicine
- public health
- mental health
- counseling
- nursing
- health education
- bioethics
- health care administration
- health communications and public relations
- patient advocacy
- human resources
- wellness
- chaplaincy

MEDH 1000 INTRODUCTION TO MEDICAL HUMANITIES (3 credits)

This is an interdisciplinary survey course in Medical Humanities. It focuses on the contributions and perspectives of arts and humanities in providing a broad and culturally diverse understanding of health, illness, healing, and medicine.

Distribution: Humanities and Fine Arts General Education course

MEDH 2010 SYMBOLIC LOGIC (3 credits)

A first course in symbolic logic designed to introduce students to formal systems of sentential logic and predicate logic. The course explores the nature of both syntax (the formal structure of elements of language) and semantics (interpretive relations between language and subject matter including notions such as truth and reference). Students learn how to translate between English and formal languages, how to construct truth-tables and interpretations to test for key semantic properties, and how to construct derivations. In addition, students will consider the nature and relationships between important logical properties and explore foundational issues in logical metatheory. Throughout the course, students will encounter broad philosophical themes such as the purpose of language, constraints on translation, and nature of meaning itself. (The study of logic is also excellent preparation for the LSAT and the reasoning portions of other examinations for graduate study.) (Cross-listed with PHIL 2010).

MEDH 2030 HISTORY OF MEDICINE: FROM ANTIQUITY TO THE PRESENT (3 credits)

This course will cover the history of medicine and medical practices from the earliest civilizations to the present. In addition to this chronological scope, the course will also examine medical practices in cultures from across the world. (Cross-listed with HIST 2030).

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

MEDH 2060 ART AND SCIENCE OF MEDICAL DECISION-MAKING (3 credits)

The course explores multiple facets of medical decision-making, including the perspective of the patient, the family, and the healthcare provider. Topics include basic anatomy and medical terminology, which will be used to understand decision-making in the context of the provider. Students use literature and other records to generate and critically evaluate clinical decisions. The course does not satisfy requirements for degree programs in the Department of Biology minor, BA, BS in Biology; BS in Biotechnology. (Cross-listed with BIOL 2060).

Prerequisite(s): BIOL 1060 or concurrent.

MEDH 2300 HUMAN VALUES IN MEDICINE (3 credits)

Human Values in Medicine examines questions of value and meaning that arise in medical contexts. This course provides an opportunity for philosophy majors, medical humanities majors / minors, and students preparing for health professions to confront ethical and social issues in medicine and biomedical research. (Cross-listed with PHIL 2300).

MEDH 3000 MEDICAL HUMANITIES COMMONS (3 credits)

A multidisciplinary study of a health-related topic from the perspective of medical humanities. Each semester the course will focus on a different topic or problem for exploration and inquiry. The course topic or problem is examined using disciplinary perspectives, interdisciplinary intersections, and translational opportunities.

Prerequisite(s): MEDH 1000 or Permission of the instructor.

MEDH 3450 PHILOSOPHY OF MEDICINE (3 credits)

This course considers a range of philosophical questions raised by and within the practice of medicine. The course begins with a conceptual investigation of the meaning of "health" from "illness." Is the classification of individuals as healthy or ill an objective, scientific matter? Or is it instead a matter of social and ethical values? What follows from answering this question one way, versus another? This introduction forms the backdrop against which we move on to investigate a range of further topics. Examples of some of the topics that may be covered include: medical and social models of disability; the role morality of doctors and other medical providers; abortion, euthanasia, and conscientious objection in the healthcare professions; health measurement and quality of life; "death panels" and health resource rationing; conditions on appropriately voluntary and informed consent to medical procedures; and the ethics of biomedical research. (Cross-listed with PHIL 3450).

Prerequisite(s): 6 hours of Philosophy OR Sophomore status OR permission of the instructor

MEDH 4000 TOPICS IN MEDICAL HUMANITIES (3 credits)

This course introduces students to a specialized subject matter in the disciplines of medical humanities not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours. (Cross-listed with MEDH 8006).

Prerequisite(s): Junior standing or the permission of the instructor.

MEDH 4900 CAPSTONE IN MEDICAL HUMANITIES (3 credits)

In this capstone course for students majoring in Medical Humanities, students will curate and complete their portfolio of educational experiences in the discipline. To integrate and apply their previous course work and experience, students will participate in a community-focused medical humanities project.

Prerequisite(s): Senior standing (or students in junior standing with permission from the instructor) and MEDH 1000, MEDH 3000 and a writing in the discipline course approved for the major. Not open to non-degree graduate students.

MEDH 4950 BRINGING THE WAR HOME: DEPICTIONS OF WAR VETERANS IN LITERATURE AND FILM (3 credits)

Course explores the impact of war on combatants, their families and communities as represented in literary fiction, film, historical documentation, first-person accounts, and other texts written in or translated to English. (Cross-listed with ENGL 8956, ENGL 4950).

Prerequisite(s): ENGL 1160 prerequisite

MEDH 4990 INDEPENDENT STUDY IN MEDICAL HUMANITIES (1-3 credits)

This course is guided reading or independent research in special topics in Medical Humanities under the supervision of a member of the Medical Humanities faculty. This course is designed primarily for the student interested in topics not currently available in the program offerings and who has demonstrated ability to work independently. May be repeated once for credit. (Cross-listed with MEDH 8996).

Prerequisite(s): Junior standing or permission of the instructor. Not open to non-degree graduate students.

MEDH 8006 TOPICS IN MEDICAL HUMANITIES (3 credits)

This course introduces students to a specialized subject matter in the disciplines of medical humanities not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours. (Cross-listed with MEDH 4000).

Prerequisite(s): Graduate standing or permission of the instructor

MEDH 8996 INDEPENDENT STUDY IN MEDICAL HUMANITIES (1-3 credits)

This course is guided reading or independent research in special topics in Medical Humanities under the supervision of a member of the Medical Humanities faculty. This course is designed primarily for the student interested in topics not currently available in the program offerings and who has demonstrated ability to work independently. May be repeated once for credit. (Cross-listed with MEDH 4990).

Prerequisite(s): Permission of the instructor. Not open to non-degree graduate students.

Medical Humanities, Bachelor of Arts

To obtain a B.A. with a major in Medical Humanities, a student must fulfill university, college, and program requirements. Hour requirements follow:

- 46 hours of University General Education courses
Most majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead they select courses that meet multiple requirements.
- 12-19 hours college breadth requirement
- 16 hours foreign language requirement

- 30 hours of major courses
- At least 9 hours of electives

TOTAL HOURS: 120

Requirements

Code	Title	Credits

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:**University Degree Requirements:**

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams:

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Medical Humanities, Bachelor of Science

To obtain a B.S. with a major in Medical Humanities, a student must fulfill university, college, and program requirements. Hour requirements follow:

- 46 hours of University General Education courses
Most majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead they select courses that meet multiple requirements.
- 12-19 hours college breadth requirement
- 15 hours cognate requirement
- 30 hours of major courses
- At least 10 hours of electives

TOTAL HOURS: 120

Elective*	2-3
*MEDH 4900 Pre-Req is MEDH 1000, 3000, and WID course for the MEDH major.	

*120 total credits required. Of the 120, at least 27 credits must be upper level throughout the degree. Electives and/or Cognate courses may need to be selected at the 3000-4000 level to meet this minimum.

Credits 14-15

Total Credits 120-122

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams:

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Graduation Requirements: Physics majors must also take the two assessment tests (Major Field Test and Local test) and complete the exit interview.

The senior project must be approved and the department chair notified at least eight months prior to graduation as a Physics major and the student must register for either PHYS 4950 (<https://catalog.unomaha.edu/search/?P=PHYS%204950>) or PHYS 4960 (<https://catalog.unomaha.edu/search/?P=PHYS%204960>).

Medical Humanities Minor

Description

Medical humanities is an interdisciplinary field that explores, from multiple perspectives, connections between humans, cultures, medicine and allied health sciences. Medical humanities complements the health sciences, and encompasses the humanities, social sciences and the arts. It includes topics related to: health and illness; the interactions between health practices and conceptions of personhood, gender, and community; beliefs; practices, healing and ethics across cultures; the nature of suffering; and models of wellness.

The minor in medical humanities provides students who are interested in careers in medicine, nursing, public health, psychology, social work, health education, and other allied health sciences, with courses that complement and support their studies. The minor is intentionally flexible and interdisciplinary, reflecting both the needs of students and the nature of the discipline. It includes options and opportunities such as distance education and service learning. The medical humanities minor helps

students to increase their understanding of the nature of illness, health, wellness, healing and medicine by exploring these topics in relation to:

- inclusivity and diversity
- ethics, religion and culture
- narrative medicine, communication, fine arts

Other Information

All coursework taken for the medical humanities minor must be completed with a grade of "C-" or better.

dpendley@unomaha.edu

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/medical-humanities/>)

Requirements

Undergraduate students seeking to minor in medical humanities must complete at least 15 credit hours of medical humanities courses with a grade of C- or higher and include at least one course from each of three core areas or blocks related to the study and practice of medical humanities: Block 1) inclusivity and diversity; Block 2) ethics, religion and culture; Block 3) narrative medicine, communication, fine arts.

A minimum of 9 out of the 15 credit hours of coursework must be upper division (3000 or higher) courses.

Please note: As this is a new minor, courses are being added. As new courses are being added on an on-going basis, students should select medical humanities courses in consultation with their minor advisor who will provide them with the most recent list of course options.

Courses Fulfilling the Core Area/Block Requirements

Students must choose at least one course from each of the three core areas or blocks below. The rest of the 15 credit minor requirement may consist of coursework chosen from the medical humanities minor full course listings. No less than 9 out of the 15 total credit hours for the minor must be taken at the 3000-4000 level.

Block Requirement Options

MEDH 1000 Introduction to Medical Humanities will fulfill one Block requirement. That is, a MEDH minor taking MEDH 1000 may use it to satisfy the requirement of three hours of coursework from Block 1, 2, or 3.

MEDH 3000 Medical Humanities Commons will fulfill one Block requirement. Attribution to Block 1, 2, or 3 will be handled through advisement, as the topic may change from semester to semester.

Code	Title	Credits
Block 1: Inclusivity and Diversity		
BLST 3980	SPECIAL TOPICS IN BLACK STUDIES (HIV and AIDS in Africa)	3

PSYC 1010	INTRODUCTION TO PSYCHOLOGY I	3
PSYC 1020	INTRODUCTION TO PSYCHOLOGY II	3
RELI 1010	RELIGIONS OF THE WORLD	3
SOC 1010	INTRODUCTORY SOCIOLOGY	3
WGST 2010	INTRODUCTION TO WOMEN'S AND GENDER STUDIES: SOCIAL AND BEHAVIORAL SCIENCE	3

MEDH 1000Introduction to Medical Humanities will fulfill one Block requirement. That is, a MEDH minor taking MEDH 1000 may use it to satisfy the requirement of three hours of coursework from Block 1,2, or 3.

MEDH 3000Medical Humanities Commons will fulfill one Block requirement. Attribution to Block 1, 2, or 3 will be handled through advisement as the topic may change from semester to semester.

Medieval/Renaissance Studies Minor

The minor in Medieval/Renaissance Studies is designed to help students understand and appreciate the thirteen centuries belonging to the Middle Ages and the Renaissance through the disciplines of history, English and other European languages, art history, history of music, theatre, history of science, Middle Eastern studies, philosophy, and theology. Students explore the Medieval and Renaissance era and their crucial developments, from the invention of eyeglasses to the printing by moveable type, from Gothic cathedrals to the discovery of America, from the birth of university to the development of all the modern European vernacular languages, from King Arthur and Robin Hood to Shakespeare's plays and Michelangelo's paintings and sculpture.

Minors Offered

Medieval/Renaissance Studies Minor

Other Information

All coursework taken for the Medieval/Renaissance Studies minor must be completed with a grade of "C" or better.

Website (<http://www.unomaha.edu/mrs/>)

Requirements

Undergraduate students seeking to minor in Medieval and Renaissance Studies must complete at least 15 credit hours of coursework from at least three of the four following areas: 1) Fine and Performing Arts; 2) Literature and Language; 3) History; and 4) Philosophy and Religion. See below for a list of approved courses. A minimum of 9 credits must be at the upper-division (3000/4000) level.

Please note: As new courses are being added to this minor on an on-going basis, students should select Medieval/Renaissance Studies courses in consultation with their minor advisor or with the minor director, who will provide them with the most recent list of course options.

Fine and Performing Arts

Code	Title	Credits

RELI 3500	TOPICS IN RELIGIOUS STUDIES (Qur'an)	3
RELI 4170	HISTORY OF CHRISTIANITY I	3

No more than 3 credits of independent study, directed readings, or internships may be applied toward the minor, and such study is subject to approval by the program director.

Only one course in Latin may be applied to the minor, for a maximum of 3 credits.

Molecular and Biomedical Biology

Students seeking biomedical careers can pursue specialized studies in cellular and molecular biology. Molecular and Biomedical Biology majors gain real-world experience in biomedical research during the required biotechnology internship under the Molecular Biotechnology Pathway. Under the Biomedical Humanities Pathway, Molecular and Biomedical Biology majors explore perspectives that connect the human condition to biomedicine. The Molecular and Biomedical Biology major is an outstanding way to prepare for graduate programs in cellular and molecular biology, a career in the biotechnology industry, or the health professions.

Other Information

All coursework taken for the Molecular and Biomedical Biology major or minor must be completed with a grade of "C-" or better.

Overlapping Restrictions

Students may not earn a Molecular & Biomedical Biology major and Biology minor, nor a Biology major and Molecular & Biomedical Biology minor.

For a double major in Biology and Molecular & Biomedical Biology
-Beyond: BIOL 1450, BIOL 1750, BIOL 2140 and BIOL 3020, no other biology courses may count for both majors.

Molecular & Biomedical Biology with a double major / dual degree (BA MEDH; BS MBB) in Medical Humanities:

-Students with this combination of majors must select the MBB Track I: Molecular Biotechnology pathway. The MBB Track II: Biomedical Humanities pathway cannot be followed for a student completing both majors.

Molecular & Biomedical Biology with a double major in Bioinformatics:

-Beyond BIOL 1450, BIOL 1750, BIOL 2140, and BIOL 3020, no other biology courses may satisfy the requirements for both majors.

-No part of the Bioinformatics major may satisfy requirements within the MBB Track I: Molecular Biotechnology pathway.

Molecular & Biomedical Biology with a double major in Neuroscience:

-Beyond BIOL 1450, BIOL 1750, and BIOL 2140, no other biology courses may satisfy requirements for both majors.

Molecular and Biomedical Biology and Chemistry:

- MBB majors may add a Chemistry minor or double major (no concentration) without overlapping restrictions
- MBB and Chemistry-Medicinal Chemistry as double majors may not count CHEM 4660-4664 Biochemistry II Lecture and Lab toward both majors.
- Chemistry-Medicinal Chemistry majors may add a Molecular and Biomedical Biology minor without overlapping restrictions

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/biology/academics/biotechnology.php>)

Degrees Offered

- Molecular and Biomedical Biology, Bachelor of Science (p. 272)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the Molecular and Biomedical Biology major, the writing in the discipline requirement can be fulfilled by completing a sequence of approved biology courses at UNO that incorporate discipline specific writing as part of their requirements. To satisfy the requirement for the writing in the discipline course students must complete BIOL 1450 AND BIOL 1750, two courses from BIOL 2140, BIOL 3020 and BIOL 3340 and two additional 3000/4000 level courses that are approved as meeting the writing requirement by the Department of Biology. Only courses taken at UNO and after January 1, 2010 can be applied to this requirement. Students not meeting the writing requirement through this sequence of courses will fulfill the writing requirement by completing BIOL 3150 or, ENGL 3980, or another college-approved advanced writing course.

Minors Offered

- Molecular and Biomedical Biology, Minor (p. 275)

At a most basic level molecular and biomedical biology involves the use of biological organisms, systems, or processes to develop technologies and products to improve the quality of life. Nowhere is this more apparent than in healthcare and new avenues to diagnose, treat, and study disease. The curriculum focuses on molecular biology, genetics and genomics, cellular biology, and biochemistry. Through the Molecular Biotechnology track, students are able to participate in research through a semester-long internship in an academic, commercial, clinical, or government laboratory in the region. Within the Biomedical Humanities track, students are exposed to perspectives that connect the human condition to biomedicine.

- Laboratory Technologist
- Research Technician
- Biomedical Scientist
- Pharmaceutical/Medical Product Sales Representative
- Health Professional
- Health Educator
- Data Analyst

Specialized fields include:

- Agricultural or animal biotechnology
- Bio-based fuels
- Pharmaceuticals
- Conservation and the environment
- Medical technology
- Healthcare
- Biomedical consulting

Molecular and Biomedical Biology, Bachelor of Science

To obtain a BS in Molecular and Biomedical Biology (MBB), a student must fulfill university, college, and department requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses-most commonly, Biology majors do not complete 46 hours of coursework exclusively to meet university General Education requirements, but may reduce this number, possibly to 30 hours or fewer, in following ways:
 - Test out of at least three hours of fundamental academic skills,
 - Take six hours of coursework that meets both the six hours of diversity requirements and six hours of distribution requirements,
 - Meet the seven-hour University General Education natural sciences distribution requirement through completing major courses.
- 12 hours college breadth requirement
- 51 hours of major courses
- Elective hours as required to total of 120 hours

TOTAL HOURS: 120

Requirements

The Bachelor of Science in Molecular and Biomedical Biology degree requires 36-45 credits of biology courses of which 18 credits must be 3000-4000 level courses. The course requirements are below.

Code	Title	Credits
Required Courses		
BIOL 1450	BIOLOGY I	5
BIOL 1750	BIOLOGY II	5
BIOL 2140	GENETICS	4
BIOL 3020	MOLECULAR BIOLOGY OF THE CELL	3
BIOL 3240	INTRODUCTION TO IMMUNOLOGY	3
Biochemistry Lecture and Lab		
Select one of the following:		4
BIOL/CHEM 4650	BIOCHEMISTRY I (with the following lab)	
BIOL/CHEM 4654	BIOCHEMISTRY I LABORATORY	
or		
CHEM 4610	BIOCHEMISTRY OF METABOLISM	
Additional Courses		
Select three of the following, at least two must be lab-based:		10-13
BIOL 4130	MOLECULAR GENETICS	
BIOL 4140	CELLULAR BIOLOGY	
BIOL 4450 & BIOL 4454	VIROLOGY and VIROLOGY LABORATORY	
BIOL 4460	COMPARATIVE IMMUNOLOGY	
BIOL 4640	MOLECULAR MICROBIOLOGY	
BIOL 4810	BEHAVIORAL GENETICS	
BIOL 4850 & BIOL 4830	DEVELOPMENTAL BIOLOGY and DEVELOPMENTAL GENETICS	
BIOL 4860	COMPARATIVE GENOMICS	

BIOL/CHEM 4660	BIOCHEMISTRY II
BIOL/CHEM 4664	BIOCHEMISTRY II LABORATORY
BIOL 4760	GENOME TECHNOLOGY AND ANALYSIS
BIOL/NEUR 4870	MOLECULAR AND CELLULAR NEUROBIOLOGY

Required Chemistry Sequence

CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	4
CHEM 1190 & CHEM 1194	GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY	4
CHEM 2250	ORGANIC CHEMISTRY I	3
CHEM 2260	ORGANIC CHEMISTRY II	3
CHEM 2274	ORGANIC CHEMISTRY LABORATORY	2

Physics

PHYS 1110 or PHYS 2110	GENERAL PHYSICS I GENERAL PHYSICS I - CALCULUS LEVEL	4
PHYS 1154	GENERAL PHYSICS LABORATORY I	1

Mathematics

Two courses in mathematics or statistics are required and must include one of the following calculus courses:

MATH 1930	CALCULUS FOR THE MANAGERIAL, LIFE, AND SOCIAL SCIENCES (3 cr)	
MATH 1940	CALCULUS FOR BIOMEDICINE (5 cr)	
MATH 1950	CALCULUS I (5 cr)	

To complete the degree, students choose one of the following two tracks:

Track 1: Molecular Biotechnology

This track will position students to excel in graduate, medical, business, or law schools, as well as industry careers. Students will have about 10 hours of free electives with this track.

Code	Title	Credits
Internship		3
BIOL 4550	MOLECULAR AND BIOMEDICAL BIOLOGY INTERNSHIP	
Six hours in Information, Innovation, and Development		6
BIOI 2000	FOUNDATIONS OF BIOINFORMATICS	
BIOI 3000	APPLIED BIOINFORMATICS	
ITIN 1110	INTRODUCTION TO IT INNOVATION	
ITIN 2220	APPLIED I.T. INNOVATION	
ENTR 3710	ENTREPRENEURIAL FOUNDATIONS	
ENTR 4740	TECHNOLGY AND INNOVATION MANAGEMENT	
ACCT 2010	PRINCIPLES OF ACCOUNTING I	
MGMT 3490	MANAGING PEOPLE AND ORGANIZATIONS	
STAT 4410	INTRODUCTION TO DATA SCIENCE	

Track 1 Total Credits 70-73

Track 2: Biomedical Humanities

This is a path to prepare students for success in healthcare and affiliated training programs. Students will have approximately 4 hours of free electives with this track. Requires completion of minor in Medical Humanities (p. 267). BIOL 1060 Intro to Health Careers and Ethics must be taken as part of the minor and nine credits must be in upper division (3000 or higher) courses.

Code	Title	Credits
Track 2 Total Credits		76-79

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the Molecular and Biomedical Biology major, the writing in the discipline requirement can be fulfilled by completing a sequence of approved biology courses at UNO that incorporate discipline specific writing as part of their requirements. To satisfy the requirement for the writing in the discipline course students must complete BIOL 1450 AND BIOL 1750, two courses from BIOL 2140, BIOL 3020 and BIOL 3340 and two additional 3000/4000 level courses that are approved as meeting the writing requirement by the Department of Biology. Only courses taken at UNO and after January 1, 2010 can be applied to this requirement. Students not meeting the writing requirement through this sequence of courses will fulfill the writing requirement by completing BIOL 3150, ENGL 3980, or another college-approved advanced writing course.

Track 1: Molecular Biotechnology Track**Freshman**

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I	3
CMST 1110 or CMST 2120	PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE	3
CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	4
BIOL 1450	BIOLOGY I	5
Credits		15

w Meets Advanced Writing requirement: BIOL 4130, BIOL 4140, BIOL 4450/BIOL 4454, BIOL 4640, BIOL 4850, BIOL 4830, CHEM 4660/4664. Alternatively, students may meet the writing requirement by completing BIOL 3150 Writing in Biology or ENGL 3980 Technical Writing Across the Disciplines.

[^]The Medical Humanities minor requires 15 credits, of which 9 must be 3000-4000 level. Take an upper or lower level course, accordingly.

**Students must have a minimum of 120 credits, with 27 upper-level credits throughout the degree and 18 of those upper level credits must be concentrated in the major. Electives may need to be selected at the 3000-4000 level to reach these minimums.

***SS must come from a 2nd discipline.

Credits 14

Total Credits 120-126

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Molecular and Biomedical Biology, Minor

Requirements

Courses required for Molecular and Biomedical Biology Minor.

A minor in molecular and biomedical biology requires a minimum of 21 semester credit hours. All courses counted toward a minor in molecular and biomedical biology, must be applicable toward a major in molecular and biomedical biology. These hours must include:

Code	Title	Credits
Required courses:		
BIOL 1450	BIOLOGY I	5
BIOL 1750	BIOLOGY II	5
BIOL 2140	GENETICS	4
BIOL 3020	MOLECULAR BIOLOGY OF THE CELL	3
In addition, select one 4000-level Biology lecture + lab course from the Molecular and Biomedical Biology major course options, listed below:		4-5

BIOL 4130	MOLECULAR GENETICS (4 hrs for lec + lab)
BIOL 4140	CELLULAR BIOLOGY (4 hrs for lec + lab)
BIOL 4450 & BIOL 4454	VIROLOGY and VIROLOGY LABORATORY (4450 lec + 4454 lab, 4 hrs total)
BIOL 4460	COMPARATIVE IMMUNOLOGY (4 hrs for lec + lab)
BIOL 4640	MOLECULAR MICROBIOLOGY (4 hrs for lec + lab)
BIOL/CHEM 4650	BIOCHEMISTRY I (4650 lec + following 4654 lab, 4 hrs total)
BIOL/CHEM 4654	BIOCHEMISTRY I LABORATORY (1 hr)
BIOL/CHEM 4660	BIOCHEMISTRY II (4660 lec + following 4664 lab, 4 hrs total)
BIOL/CHEM 4664	BIOCHEMISTRY II LABORATORY (1 hr)
BIOL 4810	BEHAVIORAL GENETICS (4 hrs for lec + lab)
BIOL 4850 & BIOL 4830	DEVELOPMENTAL BIOLOGY and DEVELOPMENTAL GENETICS (4850 lec + 4830 lab, 5 hrs total)
TOTAL	21-22

Students transferring biology credits are required to take a minimum of two 3000 or 4000-level courses at UNO. Students may not earn a molecular and biomedical biology minor if they earn a biology major.

Native American Studies Minor

Mission

Native American Studies offers students an opportunity to learn about Native American Tribal Nations, cultures, literatures, histories, arts, values, lifeways, spirituality, and social and political institutions. Our program has a long-standing tradition of activism on contemporary issues and includes a focus on urban Indigenous issues, providing students with the opportunity to engage in meaningful community-based research.

Minors Offered

Native American Studies minor

Other Information

All coursework taken for the Native American Studies minor must be completed with a grade of "C" or better.

Students may also elect to pursue a Native American Studies concentration (30 hours) through the Bachelor of Multidisciplinary Studies program (College of Public Affairs and Community Service). This program should be initiated by the beginning of the junior year.

Contact

Brady DeSanti, Ph.D., Native American Studies Director
402.554.2956
bdesanti@unomaha.edu

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/native-american-studies/>)

Requirements

The Native American Studies minor requires 15 credit hours, a minimum 9 hours must be 3000 and/or 4000 level. Introduction to Native American Studies (NAMS 1100) is required.

Code	Title	Credits
NAMS 1100	INTRODUCTION TO NATIVE AMERICAN STUDIES	3
At least 12 hours of courses approved for credit in the Native American Studies Program. (9 must be 3000 and/or 4000 level.)		12
Total Credits		15

Neuroscience

The study of neuroscience is one of the most rapidly growing areas of life sciences, reflecting the importance of the fundamental and applied interest in how the nervous system is coordinated and regulated. The field of neuroscience examines the physiology, anatomy, pharmacology, development, growth, maintenance, and evolution of nervous system processes.

Students working toward completion of this degree will be able to concentrate in one of two tracks (Molecular/Cellular Neuroscience or Integrative/Behavioral Neuroscience) or take courses that provide a blended combination of these complementary areas of neuroscience. The major provides both content and hands-on experience in various areas of neuroscience, and is an excellent choice for students with interests in pursuing neuroscience-related graduate programs, health careers (for example, students with post-graduate aspirations for attending medical, PA, dental, veterinary, or nursing school), or careers in private industry. Students will emerge from the major with the ability to think across disciplines, to formulate questions and seek answers, to interpret data and draw conclusions, and to effectively communicate the outcome of these processes to a larger audience. This suite of skills makes neuroscience majors eligible for a variety of career opportunities both within and outside the discipline of neuroscience.

Other Information

All coursework taken for the neuroscience major must be completed with a grade of "C-" or better.

Note for Double Majors in Neuroscience and Biology:

Beyond the neuroscience fundamentals courses, students cannot use a 3000/4000 level course to count toward both majors.

Note for Double Majors in Neuroscience and Psychology: Beyond the neuroscience fundamentals courses, students cannot use a 3000/4000 level course to count toward both majors. Students may overlap 3000/4000 level PSYC courses between the Psychology Neuroscience & Behavior concentration and the Neuroscience major.

Note for Students Completing a Neuroscience Major and Psychology Minor:

No psychology coursework will be allowed to count toward both programs.

Note for Students Completing a Neuroscience Major and Biology Minor:

No 3000/4000 level course(s) may count toward both programs.

Note for Students Completing a Neuroscience Major and an Additional Major or Minor in Any Other Field: No 3000/4000 level course(s) may count toward both programs without prior approval.

Additional Laboratory Experiences

Students wishing additional laboratory experiences can enroll in Experiential Study in Neuroscience (NEUR 4960) or seek independent research opportunities with faculty conducting neuroscience research at UNO, UNMC, Creighton University, or Boys Town National Research Hospital.

Student Groups

Nu Rho Psi – National Honor Society in Neuroscience

<http://nurhopsi.org>

Canvas Site – Neuroscience Majors should join the UNO Neuroscience Student Interest Group Canvas Site. If you are a Neuroscience Major and would like to be added to the Canvas page, email Dr. Sollars.

Contact

Neuroscience Director, Dr. Suzanne Sollars: 402.554.3981

Contact by email is best: ssollars@unomaha.edu

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/neuroscience/>)

Degrees Offered

- Neuroscience, Bachelor of Science (p. 279)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the Neuroscience major, this is fulfilled with NEUR 3600 or PSYC 3140.

- Neuroscience Minor (p. 282)

Neuroscience is a rapidly growing field, with a much faster than average projected jobs growth of 17% in the next ten years (U.S. Department of Labor). Students in our program have been highly successful in admissions to graduate and medical schools, and obtaining employment in neuroscience-related fields. Alumni from our Neuroscience Program have outstanding jobs as physicians, researchers, nurses, physician assistants, teachers, dentists, medical industry experts, technicians, and CEO's of neuroscience-related businesses.

Within your Neuroscience Program, you will gain knowledge in all aspects of how the brain and body function, with tracks in cellular and molecular neuroscience, and integrative behavioral neuroscience. Built within the curriculum are opportunities for hands-on experimental experiences. We currently have faculty with expertise in neuropharmacology, neuroimmunology, development, endocrinology, gerontology, genetics, sensory systems, behavior, philosophy, and biomechanics. Your curriculum will focus on understanding and engaging with new and innovative research within neuroscience, science writing, data analysis, and applications of the latest concepts in the field.

Career Opportunities:

- Research & Development
- Hospitals
- Universities/Colleges
- Laboratories
- Government Agencies
- Health Care
- Pharmaceutical & Other Science Industries
- Laboratory Software and Equipment
- Science Writing
- Consultancies
- Medical Illustrators

NEUR 1000 SUPERHEROES, ZOMBIES, CYBORGS AND DROIDS: COULD THEY LIVE AMONG US? (3 credits)

Neuroscience is constantly pushing the boundaries of what is possible, and concepts once relegated to the realm of science fiction are quickly becoming not only possible, but inevitable. In this course, we will use superheroes, zombies, cyborgs, and droids as vehicles into the wonderful and exciting world of neuroscience and how the brain and nervous system function. Mind control, enhanced strength, artificial brains...these may all seem like pure fantasy, but the reality may surprise you. This course fulfills the General Education: Natural and Physical Sciences requirement.

Prerequisite(s): High School Biology and High School Chemistry recommended. Not open to non-degree graduate students.

Distribution: Natural/Physical Sci General Education lecture

NEUR 1520 INTRODUCTION TO NEUROSCIENCE I (3 credits)

The nervous system is intricate, complex, and is the subject of one of the most exciting fields in the life sciences. This course is part 1 of a 2-semester sequence designed for neuroscience majors or students who are contemplating neuroscience as a major. This course will focus on understanding how the nervous system interacts at the cellular and molecular levels: anatomy and function of neurons, communication within and between neurons, and how neurons interact to perceive and process sensory information.

Prerequisite(s): High school biology and chemistry. Not open to non-degree graduate students.

NEUR 1540 INTRODUCTION TO NEUROSCIENCE II (3 credits)

The nervous system is intricate, complex, and is the subject of one of the most exciting fields in the life sciences. This course is part 2 of a 2-semester sequence designed for neuroscience majors or students who are contemplating neuroscience as a major. This course will focus on understanding how the nervous system interacts at the organismal, behavioral and cognitive levels: how the nervous system develops, how the motor system, hormones, and physiology influences behavior, and how cognition and systems neuroscience leads to understanding of the mind.

Prerequisite(s): NEUR 1520 or permission of instructor. Not open to non-degree graduate students.

NEUR 1560 NEUROSCIENCE PATHWAYS TO DISCOVERY (3 credits)

Experience the tools, strategies, challenges, and joy of discovery in neuroscience in a hands-on, active-learning environment. This laboratory/lecture course will introduce concepts of research exploration, guide students in developing topics for experimentation, and help students build ways to assemble the pieces needed to answer questions in neuroscience.

Prerequisite(s): Recommend concurrent with NEUR 1520 or NEUR 1540. Not open to non-degree graduate students.

NEUR 3500 BIOLOGICAL PRINCIPLES OF AGING (3 credits)

The Biological Bases of Aging Course provides a survey of the primary topics in the biology of aging field for undergraduate students. This a required course for the Gerontology major. By the end of the course, students will understand major theories, biological methods, and seminal research studies in the biology of aging field. Furthermore, students will learn how to critically analyze and interpret primary research about biological aging. This course provides preparation for students considering graduate school in gerontology or biology, geriatric nursing and social work, geriatric medicine, neuroscience, psychology, and exercise science. (Cross-listed with GERO 3500, BIOL 3500)

Prerequisite(s): Sophomore/Junior/Senior Standing. Not open to non-degree graduate students.

NEUR 3600 RESEARCH METHODS IN NEUROSCIENCE (3 credits)

In this course, students will get an introduction to how neuroscientists acquire, interpret, discuss, and share knowledge. Skills covered include study design, reading primary research articles, interpreting statistics, and writing scientific papers.

Prerequisite(s): PSYC 3130 and ENGL 1160 (or permission of Instructor) Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

NEUR 4000 SYSTEMS NEUROSCIENCE (3 credits)

This is an advanced course for the Neuroscience major designed to provide a solid understanding of the peripheral and central connections that make the systems of the body function. Data and theories of brain-behavior relationships from current research in neuroscience will be discussed. (Cross-listed with NEUR 8006).

Prerequisite(s): NEUR 1520 and NEUR 1540, BIOL 1450, BIOL 1750; or permission. Not open to non-degree graduate students.

NEUR 4050 ADVANCED BIOLOGY OF AGING (3 credits)

This course covers biological aging topics at an advanced level, and is designed for undergraduate and graduate students who have some prior knowledge about biology or aging. The course will be interdisciplinary in nature and focus on topics relevant to gerontology, biology, psychology, and exercise science. Students will learn how to think critically about primary research in the biology of aging. Furthermore, they will apply their knowledge of the biology of aging field by creating a handbook of healthy aging for older adults. (Cross-listed with GERO 4050, GERO 8056).

NEUR 4160 NEUROPHARMACOLOGY (3 credits)

Neuropharmacology will introduce students to ligand-receptor interactions and their effects on behavior, cognition, and development. This course will characterize the molecular structure of ligands and how these small molecules or biologics affect central nervous system receptors and transporters. Students will learn about structure-activity relationships and principles of pharmacology: distribution, metabolism, pharmacokinetics, and elimination) and explore the historical milestones in drug development. We'll also discuss the dynamic actions of drugs of abused drugs and the mechanisms of action. For undergraduate Neuroscience Majors, the course counts as a Neuroscience Block 1. (Cross-listed with NEUR 8166, PSYC 4160, PSYC 8166).

Prerequisite(s): NEUR 1520 or NEUR 1540 or PSYC 1020 or BIOL 1450. PSYC 4230 recommended for students who have not taken NEUR 1520 or BIOL 1450.

NEUR 4200 ADVANCED NEUROSCIENCE LABORATORY (3 credits)

This course is designed as a capstone laboratory course for Neuroscience majors. The course will provide students with hands-on experience in collecting data in diverse areas of neuroscience, analyzing these data, interpreting the data, and preparing written and verbal presentations of the data.

Prerequisite(s): NEUR 1520, NEUR 1540, PSYC 3130, PSYC 3140 or NEUR 3600, and BIOL 1450. Not open to non-degree graduate students.

NEUR 4230 BEHAVIORAL NEUROSCIENCE (3 credits)

A comprehensive study of the relationship of the nervous and other organ systems to behavior. Research on both human and other animal species is considered. (Cross-listed with PSYC 4230).

Prerequisite(s): BIOL 1450 OR PSYC 1010

NEUR 4290 NEUROETHOLOGY (3 credits)

In the field of Neuroethology a major goal is to understand the neural bases of animal behaviors in a natural context. In this course students will investigate how behaviors are generated and modulated by the nervous system in organisms ranging from insects to mammals. We will explore the neural mechanisms underlying a variety of animal behaviors as they interact with their natural environment ranging from sensory perception of the world (e.g. echolocation, electrolocation), to locomotor movements (e.g. flying, swimming), to more complex behaviors (e.g. learning, memory). (Cross-listed with NEUR 8296, BIOL 4290, BIOL 8296, PSYC 8296).

Prerequisite(s): NEUR 1520, NEUR 1540 and BIOL 1750; or by permission of instructor. Not open to non-degree graduate students.

NEUR 4330 SOCIAL NEUROSCIENCE (3 credits)

This course will evaluate the biological substrates of sociality and social behavior, and explore the impact of social environments on brain function and development. Students in the course will explore the molecular, cellular, neurotransmitter, and endocrine influences on social behavior, including affiliative care, aggression, social bonding, altruism, and social cognition. (Cross-listed with NEUR 8336, PSYC 8336).

Prerequisite(s): NEUR 1520 or NEUR 1540, and BIOL 1450, or permission of Instructor. Not open to non-degree graduate students.

NEUR 4480 NEUROIMMUNOLOGY (3 credits)

The course explores the bi-directional mechanisms by which the brain and the immune system communicate with each other in health and during injury or infection. This course also introduces human immunology as a basis for understanding the advanced content in neuroimmunology. Topics include innate immunity in the central nervous system (CNS), inflammation in neurodegenerative diseases, CNS infections and autoimmune diseases. Reading and evaluating neuroimmunology primary literature, presentation and scientific writing will be emphasized. Counts as a Neuroscience Block 1 course requirement. (Cross-listed with NEUR 8486).

Prerequisite(s): NEUR 1520 and NEUR 1540, or permission of Instructor.

NEUR 4640 NEURAL MECHANISMS OF SUBSTANCE USE DISORDERS (3 credits)

This course details how the brain changes during and after the administration of illicit substances. Illicit drugs 'hijack' the natural reward pathways and brain circuits. Material highlights brain regions, neural circuits, and structural alterations that accompany illicit drug use. Modern neuroscience research techniques that measure and manipulate brain function reveal opportunities for therapeutic interventions. The course will explore how therapeutic interventions repair the brain. (Cross-listed with NEUR 8646).

Prerequisite(s): NEUR 1520 and NEUR 1540

NEUR 4650 NEUROMECHANICS OF HUMAN MOVEMENT (3 credits)

A study of basic principles of neural process as they relate to human voluntary movement. Applications of neural and mechanical principles through observations and assessment of movement, from learning to performance, as well as development. (Cross-listed with BMCH 4650).

Prerequisite(s): NEUR 1540 or permission of instructor

NEUR 4810 BEHAVIORAL GENETICS (4 credits)

This lecture and laboratory course will explore the interaction between behavior and genetics. Topics addressed will include research systems used in behavioral genetics research, ways of studying animal behavior, gene function, gene expression, genetic manipulation, genome sequencing, and bioinformatics. Research techniques will include behavioral observations, cognition assays, and traditional and cutting edge genetics research techniques and analyses (DNA/RNA isolation, PCR, gel electrophoresis, transgene generation, quantitative PCR, next generation sequencing). Students will design, conduct, analyze, and present semi-independent research projects over the course of the semester. (Cross-listed with BIOL 4810).

Prerequisite(s): BIOL 2140

NEUR 4840 GLIA IN HEALTH AND DISEASE (3 credits)

While neurons are often highlighted as the primary drivers of brain function, evidence is rapidly growing that a lesser-known class of cells, glia, are intimately involved in virtually all aspects of central nervous system function. This course is designed for students looking for an in-depth discussion on the various glial cells of the central system, with an emphasis on cutting-edge research and the techniques used to study them. Counts as a Block 1 Neuroscience requirement. (Cross-listed with NEUR 8846).

Prerequisite(s): NEUR 1520 or NEUR 1540, or permission of Instructor.

NEUR 4850 NEUROBIOLOGY OF LEARNING AND MEMORY (3 credits)

This course will evaluate the neurobiology of learning and memory. In this course students will explore how learning and memory processes are encoded and stored at the cellular and molecular neurobiology levels. We will examine both classic and cutting edge studies to see how changes in molecular activity, genetics, and cellular physiology can influence learning and memory processes. Counts as a Block 1 course for Neuroscience Majors. (Cross-listed with NEUR 8856).

Prerequisite(s): NEUR 1520 & NEUR 1540 or Instructor Permission. Not open to non-degree graduate students.

NEUR 4870 MOLECULAR AND CELLULAR NEUROBIOLOGY (3 credits)

This course presents foundational topics in molecular and cellular neurobiology in the context of how the nervous system is functionally organized. Topics include: nervous system cell types and their subcellular organization; electrical properties of neurons and glia; energy metabolism and biochemistry of the brain; intra- and intercellular neuronal signaling; the regulation of gene expression in neuronal cells; synaptic plasticity; and how these are altered in disease. (Cross-listed with BIOL 4870, BIOL 8876, NEUR 8876).

Prerequisite(s): NEUR 1500, or both NEUR 1520 and NEUR 1540, or BIOL 3020, or permission of instructor.

NEUR 4890 GENES, BRAIN, AND BEHAVIOR (3 credits)

This course will evaluate the complex interaction between an organism's genome and neural activity pattern in the nervous system as related to behavior. In this course students will explore how changes in gene expression (allelic variants, epigenetics, differential regulation) and gene networks within neural tissue can reciprocally influence behaviors such as communication, foraging, reproduction, and cognition. (Cross-listed with NEUR 8896, BIOL 4890, BIOL 8896, PSYC 8896).

Prerequisite(s): NEUR 1520, NEUR 1540, and BIOL 2140. Or by permission of instructor. Not open to non-degree graduate students.

NEUR 4910 SPECIAL TOPICS IN NEUROSCIENCE - BLOCK 1 (3 credits)

Fulfills Neuroscience BLOCK 1 or Neuroscience Elective requirement. A study of designated special topic in neuroscience. Students may repeat this class as long as the specific topic is not duplicated.

Prerequisite(s): NEUR 1520, junior-senior status (sophomore status by permission), or instructor permission. Not open to non-degree graduate students.

NEUR 4920 SPECIAL TOPICS IN NEUROSCIENCE - BLOCK 2 (3 credits)

This course fulfills Neuroscience BLOCK 2 or Neuroscience Elective requirements. A study of designated special topic in neuroscience. Students may repeat this class as long as the specific topic is not duplicated.

Prerequisite(s): NEUR 1520 or NEUR 1540, junior-senior status (sophomore status by permission), or instructor permission. Not open to non-degree graduate students.

NEUR 4930 SPECIAL TOPICS IN NEUROSCIENCE - NEURO ELECTIVE BLOCK (3 credits)

This course will provide for an in-depth study of a designated topic in neuroscience that is different than the focus of an existing course in the neuroscience curriculum. Students may repeat this class as long as the specific topic is not duplicated. Fulfills a Neuroscience Elective requirement.

Prerequisite(s): NEUR 1520 or NEUR 1540, or Instructor permission.

NEUR 4960 EXPERIENTIAL STUDY IN NEUROSCIENCE (1-3 credits)

Focused research projects, data analysis, and/or directed readings with faculty supervision. Oral and written reports based on empirical research are expected outcomes.

Prerequisite(s): NEUR 1520; PSYC 3130. PSYC 3140 recommended. Instructor permission required.

Neuroscience, Bachelor of Science

To obtain a BS with a major in Neuroscience, a student must fulfill university, college, and departmental requirements. As an interdisciplinary major, Neuroscience major requirements meet the college breadth requirement. Other hour requirements follow:

- 46 hours of University General Education courses (*Testing out of academic skills requirements and enrolling in major courses that satisfy distribution requirements are likely to reduce the total number of General Education hours and allow for additional elective hours.*)
- 54-56 hours of major courses
- 15 hours of Cognate Courses or a Minor
- 3-5 hours of electives

TOTAL HOURS: 120

Requirements

Code	Title	Credits
Required Neuroscience Fundamentals Courses (Core)		
NEUR 1520	INTRODUCTION TO NEUROSCIENCE I	3
NEUR 1540	INTRODUCTION TO NEUROSCIENCE II	3
PSYC 3130	STATISTICS FOR THE BEHAVIORAL SCIENCES	3
NEUR 3600	RESEARCH METHODS IN NEUROSCIENCE	3-4
or PSYC 3140	RESEARCH METHODS IN PSYCHOLOGY	
BIOL 1450	BIOLOGY I	5
BIOL 1750	BIOLOGY II	5
BIOL 2140	GENETICS ¹	4
Select ONE of the following sequences of natural sciences courses with labs (or their equivalents at higher levels) for a minimum of 10 credit hours in chemistry OR physics:		10
Choice 1:		
CHEM 1140 & CHEM 1144	FUNDAMENTALS OF COLLEGE CHEMISTRY and FUNDAMENTALS OF COLLEGE CHEMISTRY LABORATORY	
AND		
CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY	
OR		
CHEM 1180	GENERAL CHEMISTRY I	
CHEM 1184	GENERAL CHEMISTRY I LABORATORY	
CHEM 1190	GENERAL CHEMISTRY II	
CHEM 1194	GENERAL CHEMISTRY II LABORATORY	
AND		
CHEM 2250	ORGANIC CHEMISTRY I ²	
CHEM 2260	ORGANIC CHEMISTRY II ²	
CHEM 2274	ORGANIC CHEMISTRY LABORATORY ²	
Choice 2:		
PHYS 1110 & PHYS 1154	GENERAL PHYSICS I and GENERAL PHYSICS LABORATORY I	
PHYS 1120 & PHYS 1164	GENERAL PHYSICS II and GENERAL PHYSICS LABORATORY II	

¹ Pre-requisite to BIOL 2140 is CHEM 1140-CHEM 1144 or CHEM 1180-CHEM 1184, and BIOL 1450 & BIOL 1750.

² Students can substitute CHEM 2210 and CHEM 2214 for the CHEM 2250, CHEM 2260, and CHEM 2274 sequence.

Advanced Neuroscience Courses

In addition to the required fundamentals courses, 18 credit hours as a combination from the Cornerstone Neuroscience Lecture (3 credits), Laboratory (3 – 4 credits), and Block I, Block II, and Block III Courses (12 credits) from the lists below must be selected. Within the 12 hour credit selection, at least 3 credits must come from Block I and at least 3 credits must come from Block II. To complete the 18 credits required, a minimum of 6 credits can be taken from a combination of Block I, Block II, and Block III. No more than three hours of Experiential Study in Neuroscience (NEUR 4960) may be applied to the Additional Advanced Neuroscience Courses category. NEUR 4910, NEUR 4920, and NEUR 4930 may be taken more than once as long as they are different topics. No courses can double-count within this 18 credit hour group.

Cornerstone Lab and Lecture

Code	Title	Credits
Select one of the following lab courses:		

NEUR 4200	ADVANCED NEUROSCIENCE LABORATORY	3-4
NEUR/BIOL 4810	BEHAVIORAL GENETICS	
PSYC/BIOL 4280	ANIMAL BEHAVIOR LABORATORY	

Select one of the following lecture courses (that has not already been used to satisfy the Supporting Neuroscience Elective Courses requirement):

NEUR 4000	SYSTEMS NEUROSCIENCE	3
NEUR 4160	NEUROPHARMACOLOGY	
NEUR 4330	SOCIAL NEUROSCIENCE	
NEUR 4480	NEUROIMMUNOLOGY	
NEUR/BIOL 4870	MOLECULAR AND CELLULAR NEUROBIOLOGY	
NEUR/BIOL 4890	GENES, BRAIN, AND BEHAVIOR	
PSYC/BIOL 4320	HORMONES & BEHAVIOR	

Total Credits **6-7**

Block I Neuroscience Choices: Molecular and Cellular Neuroscience

Code	Title	Credits
NEUR 4000	SYSTEMS NEUROSCIENCE	3

At least 3 hours of cognate coursework must be at the 3000-4000 level. Note that some classes have prerequisites. Courses are listed in the catalog.

**120 credits minimally needed for a degree. Take as many electives as is needed to reach this minimum. Students need 27 upper level credits throughout the degree. Electives may need to be selected at the 3000- 4000 level to reach this minimums.

Credits **15**

Total Credits **121-123**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Neuroscience Minor

Requirements

A minor in Neuroscience requires 15 credit hours. Students are able to complete the minor with combination of online and in-person coursework. All coursework will need to be completed with a grade of C- or better. No coursework in the minor will be allowed to double-count with a major or minor in Psychology or Biology.

Students are required to complete NEUR 1520 and NEUR 1540, plus 9 credit hours in selected 4000-level Neuroscience electives.

Code	Title	Credits
Required courses		
NEUR 1520	INTRODUCTION TO NEUROSCIENCE I	3
NEUR 1540	INTRODUCTION TO NEUROSCIENCE II	3

Pharmaceutical Sciences

The UNO Bachelor of Science degree with a major in Pharmaceutical Sciences is a partnership between faculty in the Chemistry department (CHEM) within the College of Arts and Sciences at the University of Nebraska at Omaha (UNO), and the College of Pharmacy (CoP) within the University of Nebraska Medical Center (UNMC). It is intended to provide a comprehensive undergraduate education for students interested in Doctor of Pharmacy or Pharmaceutical Sciences graduate programs, or entry-level careers requiring a Bachelor of Science degree, such as sales representatives or pharmaceutical research technicians. Graduates of the program will have the sort of skills today's workforce demands, including communication, computer competencies, and teamwork skills, and will receive targeted skills in a professional field that is changing as healthcare practices and drug delivery development evolves.

Future researchers in drug development and future pharmacists will benefit from a pharmacy education that begins at the undergraduate level. Students will receive an education that propels them into programs and entry-level positions, ready to engage with other healthcare providers in the complexities of delivering patient-centered healthcare or ready to collaborate as a medical scientist in a team-oriented work environment. The partnership between UNO and UNMC will provide students with opportunities to interact with a broader base of academic and clinical faculty and staff than is typical for undergraduate students. Undergraduates in the program will engage with Chemistry or College of Pharmacy faculty to complete programmatic research requirements.

Graduates of the pharmaceutical sciences major will also have the prerequisites for entrance into UNMC's College of Pharmacy's PharmD program.

Other Information

Students working toward a degree in pharmaceutical sciences must earn a grade of "C" or better in all courses used to fulfill the major and cognate requirements. A GPA of 2.0 or higher in major and cognate courses is required to graduate with a B.S. in pharmaceutical sciences.

High school students who have successfully completed advanced high school chemistry courses (AP and/or IB) and are considering a modified course of study should consult with their advisor.

IMPORTANT OVERLAPPING RESTRICTIONS

Pharmaceutical Sciences majors:

- **may not add a Chemistry minor**

- may add a Chemistry major or dual degree (BA Chemistry; BS Pharmaceutical Sciences) without overlapping restrictions.

Website (<https://www.unomaha.edu/college-of-arts-and-sciences/chemistry/academics/pharmaceutical-sciences.php>)

Degrees Offered

- Pharmaceutical Sciences Bachelor of Science (p. 283)

Writing in the Discipline

All students are required to take a writing in the discipline course within their discipline. For the pharmaceutical sciences major, this is NSCI 3940 along with any two of the following courses: CHEM 3354, CHEM 3364, CHEM 4654, CHEM 4664, or another approved course.

The B.S. degree in pharmaceutical sciences prepares graduates for a variety of entry-level positions in the pharmaceutical and medical industry related to drug therapy, medicine production and drug delivery. These are often high wage, high demand, and high skills jobs (H3) and include some of the following:

- Sales and marketing
- Drug research and development
- Clinical research
- Quality assurance
- Pharmaceutical manufacturing
- Chemical manufacturing
- Food and beverage manufacturing
- Testing laboratories for biomedical and bioscience.

The B.S. in pharmaceutical sciences also prepares graduates interested in pursuing further professional education with the goal of providing patient care as a pharmacist (through completion of a PharmD degree), and to graduates interested in pursuing advanced education and training to become a medical research scientist through a Master of Science (M.S.) or Doctor of Philosophy (Ph.D.) degree. The program also provides students who plan to enter health professional schools another option of a major in addition to the commonly selected majors, such as biology, chemistry, molecular and biomedical biology, and neuroscience.

Pharmaceutical Sciences Bachelor of Science

Degree Requirements

Code	Title	Credits
UNIVERSITY FUNDAMENTAL SKILLS AND GENERAL EDUCATION		
ENGL 1150	ENGLISH COMPOSITION I	3
ENGL 1160	ENGLISH COMPOSITION II	3
CMST 1110	PUBLIC SPEAKING FUNDS	3
or CMST 2120	ARGUMENTATION AND DEBATE	
NSCI 3940	WRITING IN CHEMISTRY	2
ONE APPROVED STATISTICS COURSE: (preferred options: PSYC 3130 or SOC 2130 or STAT 3000 or BIOL 4110)		3-4
9 Credits of Social Sciences (includes a Diversity) - at least 2 subjects represented		9
6 Credits of Humanities & Fine Arts (includes a Diversity)		6
3 Credits of Humanities & Fine Arts from a 2nd subject (PHIL 2030 Ethics if pre-pharmacy)		3
College of Arts and Sciences Breadth Requirements		
Option I: A UNO minor, excluding Chemistry (15-18 credits); or Option II: Additional Gen Eds (12 credits); or Option III: Second major (30+ credits) (Selected in consultation with advisor.)		15
CHEMISTRY COURSES - ALL REQUIRED		
CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	4
CHEM 1190 & CHEM 1194	GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY	4
CHEM 2250	ORGANIC CHEMISTRY I	3

CHEM 2260 & CHEM 2274	ORGANIC CHEMISTRY II and ORGANIC CHEMISTRY LABORATORY	5

CHEM 4660 & CHEM 4664	BIOCHEMISTRY II and BIOCHEMISTRY II LABORATORY	4

PHARMACEUTICAL SCIENCES COURSES - -ALL REQUIRED

Pharmaceutical Science courses are coordinated/taught by College of Pharmacy faculty. Research experience may be with UNMC or UNO faculty.

PHSI 1010	INTRODUCTION TO FOUNDATIONS AND CAREER PATHS IN PHARMACEUTICAL SCIENCES	1
PHSI 3110	CURRENT RESEARCH TOPICS IN PHARMACEUTICAL SCIENCES	1
PHSI 3210: Foundations Molecules to Medicine		3
PHSI 3310: Applications of Molecules to Medicine		3
PHSI 4010	INTRODUCTION TO PHARMACEUTICAL SCIENCE	3
PHSI 4210: Contemporary Use of Medicines		2
PHSI 4410	PHARMACEUTICAL SCIENCES RESEARCH EXPERIENCE	1
PHSI 4510: Advanced Research in Pharmaceutical Sciences		1

MAJOR ELECTIVES:

Pharmaceutical Science electives vary by semester and according to demand. PHSI electives are selected in collaboration with a faculty major advisor.

BACHELOR OF SCIENCE COGNATE COURSES: STEM - ALL REQUIRED

BIOL 1450	BIOLOGY I	5
BIOL 2740	HUMAN ANATOMY AND PHYSIOLOGY I	4
BIOL 2840	HUMAN ANATOMY AND PHYSIOLOGY II	4
MATH 1940 or MATH 1950	CALCULUS FOR BIOMEDICINE CALCULUS I	5
PHYS 1110 & PHYS 1154	GENERAL PHYSICS I and GENERAL PHYSICS LABORATORY I	5
ELECTIVES TO REACH 120 CREDIT MINIMUM		1-5

Total Credits **120-125**

Freshman

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I	3
CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	4
MATH 1940 or MATH 1950	CALCULUS FOR BIOMEDICINE or CALCULUS I	5
PHSI 1010	INTRODUCTION TO FOUNDATIONS AND CAREER PATHS IN PHARMACEUTICAL SCIENCES	1

Credits **13**

Spring

ENGL 1160	ENGLISH COMPOSITION II	3
CHEM 1190 & CHEM 1194	GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY	4
BIOL 1450	BIOLOGY I	5

Humanities/Fine Arts Course #1 (add U.S. Diversity) 3

Credits **15**

Sophomore

Fall

CMST 1110 or CMST 2120	PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE	3
CHEM 2250	ORGANIC CHEMISTRY I	3
CHEM 2400 & CHEM 2404	QUANTITATIVE ANALYSIS and QUANTITATIVE ANALYSIS LAB	4
CAS Breadth Course #1		3
Social Science Course #1 (add Global Diversity)		3

Credits **16**

Spring

CHEM 2260 & CHEM 2274	ORGANIC CHEMISTRY II and ORGANIC CHEMISTRY LABORATORY	5
Humanities/Fine Arts Course #2 (second discipline)		3
Social Science Course #2		3
CAS Breadth Course #2		3
BIOL 1160	TERMINOLOGY OF HUMAN HEALTH & DISEASE (recommended prior to or concurrent with A&P)	2

Credits **16**

Junior

Fall

CHEM 4650 & CHEM 4654	BIOCHEMISTRY I and BIOCHEMISTRY I LABORATORY	4
PHSI 3110	CURRENT RESEARCH TOPICS IN PHARMACEUTICAL SCIENCES	1
PHSI 3210: Foundations of Molecules to Medicine		3
Pharmaceutical Sciences Elective (topics vary based on interest and demand)		1
Humanities and Fine Arts Course #3 (PHIL 2030 - Intro to Ethics if pre-pharmacy)		3
CAS Breadth Course #3		3

Credits **15**

Spring

CHEM 4660 & CHEM 4664	BIOCHEMISTRY II and BIOCHEMISTRY II LABORATORY	4
PHSI 3310: Applications of Molecules to Medicine		3
PHSI 4410	PHARMACEUTICAL SCIENCES RESEARCH EXPERIENCE	1
Pharmaceutical Sciences Elective (topics vary based on interest and demand)		1
CAS Breadth Course #4		3
Approved Statistics Course* (if pre-pharmacy) or Elective		3

*Approved Statistics Courses: STAT 3000; PSYC 3130; SOC 2130; BIOL 4110.

Credits **15**

Senior

Fall

BIOL 2740	HUMAN ANATOMY AND PHYSIOLOGY I	4
PHYS 1110 & PHYS 1154	GENERAL PHYSICS I and GENERAL PHYSICS LABORATORY I	5
PHSI 4010	INTRODUCTION TO PHARMACEUTICAL SCIENCE	3
PHSI 4510: Advanced Research in Pharmaceutical Sciences		1
CAS Breadth Course #5		3

Pharmaceutical Sciences Elective (topics vary based on interest and demand) 1

Credits 17

Spring

BIOL 2840 HUMAN ANATOMY AND PHYSIOLOGY II 4

NSCI 3940 WRITING IN CHEMISTRY 2

PHSI 4210: Contemporary Use of Medicines 2

Social Science Course #3 3

Pharmaceutical Sciences Elective (topics vary based on interest and demand) 3

****NOTE:** Students are required to have 120 credits minimum for a bachelor's degree. No less than 18 credits of upper level coursework in the major and 27 upper level coursework throughout the degree are required within the 120.

Credits 14

Total Credits 121

Philosophy

The study of philosophy is an attempt to understand the world in as unified and general a way as possible. Philosophers want to know what there is, how it works, how we know, how we should live, what is good, what is immoral, whether or not there is a God, and many other things—and, especially, how all these things fit together. One reason the study of philosophy is useful is that the methodology of philosophy—careful reasoning, precise application of logic, and thorough analysis of concepts—is applicable to any subject matter whatsoever.

The philosophy major may be earned in one of three ways: (1) the traditional major surveys core areas of critical reasoning and logic, ethics and value theory, metaphysics and epistemology, (2) the major with a concentration in the philosophy of brains, minds, and machines focuses on questions at the intersection of philosophy, psychology, neuroscience, computer science and artificial intelligence, and (3) the major with a concentration in ethics, law, and social/political philosophy centers on questions regarding the basis and nature of morality, the foundations of the law and the goals of criminal justice, our obligations with respect to the environment, and the like. The philosophy minor offers options for electives suited to nearly any companion major. The interdisciplinary ethics minor enhances and complements most other degrees.

Other Information

All coursework taken for the philosophy major or minor must be completed with a grade of "C-" or better.

No more than 6 hours counted as credit toward a major or another minor may be counted as credit toward the **ethics** minor.

Residency Requirement

A maximum of three credit hours can be transferred from another university to count towards the philosophy major, unless the chair agrees to additional credit transfer.

Student Groups

Philosophy Club (<https://www.unomaha.edu/college-of-arts-and-sciences/philosophy/student-opportunities/student-organizations.php>)

Contact

205 Arts and Sciences Hall
402.554.2628

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/philosophy/>)

Degrees Offered

- Philosophy, Bachelor of Arts (p. 290)
- Philosophy, Bachelor of Arts Concentration in the Philosophy of Brains, Minds, and Machines (p. 292)
- Philosophy, Bachelor of Arts Concentration in Ethics, Law, and Social-Political Philosophy (p. 294)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the philosophy major this is PHIL 3000 or PHIL 4000. Currently PHIL 3000 is generally offered in the spring semester. PHIL 4000 is only offered on rare occasion.

Minors Offered

- Philosophy Minor (p. 295)
- Ethics Minor (p. 295)

Philosophy builds the core skills that employers most value: critical thinking, creative thinking, and analytic writing. This means that study in Philosophy provides a solid foundation for a career in almost anything that you can imagine.

Just a few examples...

- Law: Philosophy majors have among the highest average scores on the Law School Admission Exam (LSAT) and have among the highest acceptance rates to law school.
- Medicine: Philosophy and other humanities majors have among the highest average scores on the Medical College Admission Test (MCAT) and among the highest acceptance rates to medical school.
- Business: Philosophy majors have among the highest average scores on the Graduate Management Admission Test (GMAT).
- Graduate School: Philosophy majors have among the highest average scores on the Graduate Record Examination (GRE) and have the highest average scores on the both the verbal section and the analytic writing section.
- Technology: Philosophy majors often go to work in technology related fields such as computer programming and artificial intelligence (AI) where their background in logic and language, as well as ethics, is highly prized. In particular, philosophy courses are a central part of prestigious programs in Artificial Intelligence.
- Public administration and social services
- Criminal Justice
- Education

When the study of Philosophy is paired with other areas of study, the foundation for success is even greater. In short, double-majoring in Philosophy multiplies the skills and knowledge provided by both majors. This is an especially attractive option since a double-major in Philosophy only requires 30 credit hours.

PHIL 1010 INTRODUCTION TO PHILOSOPHY: MEANING OF LIFE (3 credits)

We all find ourselves at one point or another wondering what everything adds up to. This sentiment manifests itself as different questions: 'why are we here?', 'what's my purpose?', 'how can I lead a fulfilling life?', or, perhaps most relevantly, 'what is the meaning of life?'. Now that you're in college, these questions are of the essence. Where will you go from here? Which skills should you develop? Which major should you choose? What should you pursue? Love? Family? Friendship? Education? Career? Fame? Fortune? Religious devotion? Service to others? Fulfillment? Happiness? What does it mean to be happy or fulfilled? In this course, we're going to set all else aside and dedicate real effort to coming to grips with these questions. Our focus will be on developing our ability to think about what we're asking and acquiring the tools necessary to assess the responses on offer.

Distribution: Humanities and Fine Arts General Education course

PHIL 1020 CONTEMPORARY MORAL PROBLEMS (3 credits)

Introduction to the application of basic moral concepts and theories to contemporary moral issues. Discussion topics will vary and may include: distribution of wealth and resources, environmental ethics and sustainability, animal rights, capital punishment, torture, euthanasia, abortion, cloning, genetic engineering, privacy rights, drug laws, marriage and sexuality, gun control, and affirmative action.

Distribution: Humanities and Fine Arts General Education course

PHIL 1030 INTRODUCTION TO PHILOSOPHY: BRAINS, MINDS, AND MACHINES (3 credits)

Introduction to Philosophy: Brains, Minds, and Machines examines central questions in philosophy about the nature of the mind, the self, human rationality, perception/experience, and technology through the lens of work in cognitive science, neuroscience, artificial intelligence, and psychology. Some major topics and questions include: What are minds? Is the human mind a digital computer? Could a machine - e.g., a robot or a computer - be truly intelligent, or have experiences like humans and animals do? How does the brain "represent" its environment? In engaging these questions, the course also introduces students to foundational issues in cognitive science and artificial intelligence including: nativism vs. empiricism, mental representation, classical artificial intelligence vs. neural networks, modularity, evolutionary psychology, embodied cognition, and extended cognition.

Distribution: Humanities and Fine Arts General Education course

PHIL 1040 INTRODUCTION TO PHILOSOPHY: LAW, POLITICS, AND SOCIETY (3 credits)

A first course in philosophy designed to introduce students to the foundational theories and concepts of legal philosophy, ethics, and social/political philosophy. Students engage theories and concepts by exploring how they are relevant to life in contemporary society. Discussion topics may include free speech, immigration, racism, authoritarianism and populism, human rights, and humanitarian intervention.

Distribution: Humanities and Fine Arts General Education course

PHIL 1050 INTRODUCTION TO PHILOSOPHY: PHILOSOPHY, TECHNOLOGY, AND SCIENCE FICTION (3 credits)

This course introduces core philosophical ideas through a selection of accessible science fiction short stories and films. Does a society's technology determine its values and development? Does technology reflect our values or is it neutral? How does the development of new technologies help or harm people? Will ordinary humans be overtaken by artificially intelligent machines? Can an algorithm make ethical decisions? We will be exploring these questions in the philosophy of technology through how technological advances have been presented in science fiction. In addition, we will also be exploring the philosophical issues around how biological systems could be manipulated. What are the prospects and dangers of biohacking? What are the boundaries of what makes us human? How could different life and ecosystems evolve? How would alien life evolve? Finally, the course will ask questions about the boundaries of science. Should scientists refrain from researching certain scientific questions for ethical reasons?

Distribution: Humanities and Fine Arts General Education course

PHIL 1210 CRITICAL REASONING (3 credits)

A study of the principles of correct reasoning: induction, deduction, formal and informal fallacies. Critical reasoning is excellent preparation for the LSAT and the reasoning portions of other examinations for graduate study.

Distribution: Humanities and Fine Arts General Education course

PHIL 1230 LOGICAL REASONING FOR STANDARDIZED GRADUATE EXAMINATIONS (3 credits)

This course offers an intensive, boot-camp training in logical reasoning which emphasizes the specific skills needed to solve the logic problems included on many standardized graduate admissions exams, such as the LSAT (Law School Admission Test), GMAT (Graduate Management Admission Test), and MCAT (Medical College Admission Test). Substantial portions of these exams assess critical reasoning and logical problem solving ability. This course offers a condensed review of logical techniques required to analyze and solve such problems, not only with the goal of improving student performance on exams, but also because examining the underlying structure of these reasoning problems helps to improve logical analysis and evaluation skills across a wide range of other purposes.

PHIL 2010 SYMBOLIC LOGIC (3 credits)

A first course in symbolic logic designed to introduce students to formal systems of sentential logic and predicate logic. The course explores the nature of both syntax (the formal structure of elements of language) and semantics (interpretive relations between language and subject matter including notions such as truth and reference). Students learn how to translate between English and formal languages, how to construct truth-tables and interpretations to test for key semantic properties, and how to construct derivations. In addition, students will consider the nature and relationships between important logical properties and explore foundational issues in logical metatheory. Throughout the course, students will encounter broad philosophical themes such as the purpose of language, constraints on translation, and nature of meaning itself. (The study of logic is also excellent preparation for the LSAT and the reasoning portions of other examinations for graduate study.) (Cross-listed with MEDH 2010).

PHIL 2020 INTRODUCTION TO PHILOSOPHY OF MIND (3 credits)

This course is an introductory overview of fundamental issues in the study of mind, thinking, and consciousness. Students explore these philosophical issues from the perspective of current research in psychology, neuroscience, linguistics and computer science.

PHIL 2030 INTRODUCTION TO ETHICS (3 credits)

A critical study of basic moral concepts and problems contained in ethical theories of important western philosophers: relativism, egoism, happiness, obligation, justice, freedom, conscience, love, religious precepts, moral rules, moral attitudes and moral language.

Distribution: Humanities and Fine Arts General Education course

PHIL 2040 INTRODUCTION TO EAST ASIAN PHILOSOPHY (3 credits)

This course makes a critical and philosophical inquiry into the fundamental questions raised in East Asian Philosophy, typically including a critical evaluation of the traditional theories in Confucianism, Buddhism, and Taoism of China, Korea, and Japan, as well as contemporary responses to those theories, e.g., Kyoto School or Maoism.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

PHIL 2300 HUMAN VALUES IN MEDICINE (3 credits)

Human Values in Medicine examines questions of value and meaning that arise in medical contexts. This course provides an opportunity for philosophy majors, medical humanities majors / minors, and students preparing for health professions to confront ethical and social issues in medicine and biomedical research. (Cross-listed with MEDH 2300).

PHIL 3000 PHILOSOPHY WRITING SEMINAR (3 credits)

This course focuses on writing instruction, with a particular emphasis on logical argument, editing and revision, and research methods in the discipline of philosophy. It is designed for students who are beginning to take upper-level coursework and is suitable for Philosophy majors, minors, and non-majors, particularly those who seek additional preparation in argument-focused writing.

Prerequisite(s): Composition II or the equivalent, and three hours of Philosophy, are required.

Distribution: Writing in the Discipline Single Course

PHIL 3010 PHILOSOPHY OF JUSTICE (3 credits)

An examination of the concept of justice from Greek moral philosophy to modern moral philosophy with focus on the problems of modern moral philosophy and the application of those ideas in government and society.

Prerequisite(s): Junior or 3 credits in philosophy.

PHIL 3020 THE JUSTIFICATION OF PUNISHMENT (3 credits)

The course examines the major philosophical arguments concerning the conditions under which punishment is justifiable, and provides a background of ethical theory in order to make these arguments comprehensible.

Prerequisite(s): Junior, or 3 credits in philosophy, or 1 course in criminology & criminal justice.

PHIL 3040 PHILOSOPHY OF LAW (3 credits)

An overview of central issues in the philosophy of law, including the nature, source, and legitimacy of law, the relationship between law and morality, competing theories of legal reasoning and interpretation, the sources and structure of rights and responsibilities, and theories of punishment.

Prerequisite(s): Junior standing or 6 hours in Philosophy.

PHIL 3050 ETHICAL THEORY (3 credits)

This course surveys issues and controversies in meta-ethics, that is, in the theoretical understanding of ethics. A central organizing question is whether or not there are objective ethical facts that we use ethical language to report and discuss. If there are ethical facts, what kind of facts are they and how could we know them? There seems to be no scientific experiment or mathematical proof which could demonstrate an ethical claim. If there are no ethical facts, is ethics simply a matter of emotional self-expression, arbitrary cultural norms, or the like? If so, can there be significant ethical truth and substantive ethical knowledge? All in all, students will survey a variety of proposals on the fundamental nature of ethics and develop an understanding of their relative strengths and weaknesses.

Prerequisite(s): PHIL 2030 or 6 hours in philosophy or permission of instructor.

PHIL 3060 VALUES AND VIRTUES (3 credits)

This course explores advanced topics in ethics with particular emphasis on value theory and virtue ethics. Topics to be considered include the meaning and status of value claims, sources of value, intrinsic goods, agent-relative goods, practical reason, moral development, happiness, moral ambiguity, moral luck, the identification of virtues, and relationships of care, trust, and responsibility. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with CACT 8215)

PHIL 3110 HISTORY OF ANCIENT PHILOSOPHY (3 credits)

A survey of the major philosophers and schools of ancient Greece and Rome: pre-Socratics, Plato, Aristotle, Cynics, Epicureans, Stoics, Skeptics, and Neo-Platonists. The original texts examined in this course explore fundamental questions about the purpose of human life and the value of self-examination, the nature of the universe and possibility of knowledge, and the achievement of virtue and human happiness.

PHIL 3130 HISTORY OF MODERN PHILOSOPHY (3 credits)

The Modern Period (roughly 1600 to 1800) was a time of great scientific advancement, political upheaval, and philosophical progress. During this period, philosophers wrestled with fundamental metaphysical questions about the nature of matter, causation, mind, and God, key epistemological questions regarding the nature and grounds of knowledge, and central ethical and political questions about our rights and duties. As such, the philosophical work of this period provides the foundations for contemporary work in epistemology, metaphysics, philosophy of mind, philosophy of science, ethics, and political philosophy. In this course, students will explore the interpretation and implications of work by some of the most influential thinkers of the period such as Descartes, Spinoza, Locke, Leibniz, Berkeley, Hume, Reid, and Kant.

Prerequisite(s): 3 hours in Philosophy or permission of the instructor.

PHIL 3140 NINETEENTH CENTURY PHILOSOPHY (3 credits)

An examination of major views in 19th century philosophy including the development of German idealism, British empiricism, and Marxism. Special attention will be paid to the origins of existentialism, pragmatism, and modern empiricism as reactions to 19th century positions.

Prerequisite(s): Junior or permission of instructor.

PHIL 3150 PHILOSOPHY OF HISTORY (3 credits)

This course is designed to introduce students to the thinkers and issues in the philosophy of history (and historiography). After being coined by Voltaire, the term 'philosophy of history' has taken on different meanings. Prior to the twentieth century, philosophy of history meant speculation over the course and aims of history. It sought to investigate the subject matter of history, that is, the historical process itself. Consequently, philosophers of history aimed at comprehensive views of this process. During the twentieth century, however, philosophy of history became "analytical or critical." The aim of this approach is to question and criticize the ways that historians work, so issues of knowledge and explanation have become very important for the present-day philosopher of history. Although the course takes a thematic approach to the study of the philosophy of history, prominent philosophers who have investigated history will be introduced throughout the course.

Prerequisite(s): Junior or 3 credits in philosophy.

PHIL 3170 ETHICS IN BUSINESS (3 credits)

An application of ethical principles to moral issues arising in business: corporate responsibility and agency, fiduciary duties, discrimination, advertising, whistle-blowing, trade secrets, environmental protection, product safety and liability, employee rights, government regulation, investment and duties to shareholders, commodification and consumerism.

Distribution: Humanities and Fine Arts General Education course

PHIL 3180 ENVIRONMENTAL ETHICS (3 credits)

This course introduces students to the thinkers and issues that make environmental ethics what it is today. It includes the analysis and evaluation, from ethical viewpoints, of such topics as: intrinsic value of animals, plants and ecosystems; animal rights; climate change; conservation and preservation; environmental law and politics; obligations to future generations; sustainability and new technologies; war, immigration, and the environment; human rights and the environment; nature and the built environment; and environmental activism. (Cross-listed with ENVN 3180).

Prerequisite(s): Junior or 3 hours of philosophy.

PHIL 3200 PHILOSOPHY OF RELIGION (3 credits)

What must a being be like to be rightfully called "God"? Why think that such a being exists? Why would such a being allow there to be suffering and evil in the world? Could you ever be justified in believing that a miracle occurred? Are faith and reason compatible? What is the role of religion in morality? Students will consider these BIG questions and the best answers to them.

PHIL 3210 SOCIAL PHILOSOPHY (3 credits)

An examination of the problems and concepts of social and political philosophy.

Prerequisite(s): 3 credits in philosophy or junior or permission of instructor.

PHIL 3220 PHILOSOPHY OF ART (3 credits)

The course is an inquiry into historical and contemporary philosophical perspectives on the making, interpreting and criticizing of works of art, including relations of the arts to other dimensions of cultures. Students will wrestle with foundational questions (e.g., "What is beauty?", "What is art?", "What makes good art good?", "Is there a right way to interpret art?"), consider connections between art and ethics, culture, and politics (e.g., "Can an artwork be both immoral and good?", "Can a particular culture have exclusive rights to an artform?", "How does public art create political communities and divisions?"), explore questions within particular arts (e.g., "Can music represent?", "Why do we respond emotionally to fictions?"), and experience and evaluate art in light of these investigations. (Cross-listed with PHIL 8225)

Prerequisite(s): Junior or 3 credits in philosophy.

PHIL 3230 PHILOSOPHY AND POPULAR MEDIA (3 credits)

This course examines Philosophy in the context of contemporary popular media including graphic novels, interactive art, video games and VR worlds, or other still-emergent formats. The specific forms of popular art or media selected as a focus area during each term may change in successive course offerings, to suit thematic emphases or new developments (e.g. webseries graphic novels, video games and their associated literature, fictional universes shared between comics and film).

PHIL 3260 HISTORY OF AMERICAN PHILOSOPHY: 20TH CENTURY (3 credits)

This course is designed to introduce students to the thinkers and movements in 20th century American thought, particularly pragmatism, idealism, naturalism, new realism, and critical realism. One chief concern is the issue of what constitutes American philosophy. Is there such a thing as "American philosophy"? This course is intended to address this issue. To set the stage for a look at 20th century philosophical thought, students will briefly look at American thought prior to the 20th century: Puritan thought, the American Enlightenment, and Transcendentalism (Emerson and Whitman). Students will then examine the classical American pragmatists (Royce, Peirce, James, and Dewey), as well as contemporary pragmatists (Rorty, Fraser, Putnam, and Hacking). The course will end with a look at naturalism, new and critical realism, and contemporary moral, social, and political philosophy.

Prerequisite(s): Junior or 3 credits in philosophy.

PHIL 3300 EARLY ANALYTIC PHILOSOPHY (3 credits)

This course focuses on the foundations of the Analytic tradition (from 1879 to 1930). During this period, central figures such as Gottlob Frege, Bertrand Russell, G.E. Moore, Ludwig Wittgenstein, and Frank Ramsey aimed to bring clarity and precision to a wide range of philosophical problems by focusing on fundamental issues in the philosophy of logic and the philosophy of language. Understanding the developments of this period is essential to understanding the development of philosophy in the 20th and 21st centuries.

Prerequisite(s): 3 credits in philosophy or permission of instructor.

PHIL 3370 CONCEPTS OF NATURE (3 credits)

An examination of key philosophical conceptions of nature from the Greeks through the 21st century. Topics covered include concepts of time, the cosmos, causation, determinism, natural law, the relationship between God and nature, and the place of humans and animals in nature.

Prerequisite(s): Previous experience in philosophy, especially PHIL 3110, would be helpful.

PHIL 3400 PHILOSOPHY OF NATURAL SCIENCE (3 credits)

An examination of the philosophical problems associated with the methods of the natural sciences, the presuppositions of scientific inquiry, and the nature of scientific laws and theories.

Prerequisite(s): 3 credits in philosophy or permission of instructor.

PHIL 3410 PHILOSOPHY OF SOCIAL SCIENCE (3 credits)

This course introduces students to central philosophical issues that are raised by and within the practice of social science. Some key questions are: In which respects is social science similar to natural science and in which respects is it dissimilar? Does social science aim at forming generalizable explanations, or does it seek to provide humanistic understanding? Can social science be conducted in a purely objective, disinterested way, or does the practice of social science always rely on at least implicit value assumptions? Must responsible researchers interrogate their research for such assumptions, and, if so, what does it take for research to "pass?"

Prerequisite(s): 3 credits in philosophy and junior, or permission of instructor.

PHIL 3430 PHILOSOPHY OF BIOLOGY (3 credits)

Philosophy of Biology will consider foundational conceptual issues in biology like the nature and structure of biological explanation, the possibility of laws in evolutionary theory, the relationship between different causal components of biological processes (genetics and development), the problem of species reality and classification, the explanatory character of ascription of biological function, and the extension of biological explanations to human psychology and culture. It is designed for both the philosopher who can explore central epistemological and metaphysical issues in the context of biological science and for the biologist who wants to explore the conceptual foundations and presuppositions of her science.

Prerequisite(s): 3 hours in philosophy or biology or permission of instructor.

PHIL 3450 PHILOSOPHY OF MEDICINE (3 credits)

This course considers a range of philosophical questions raised by and within the practice of medicine. The course begins with a conceptual investigation of the meaning of "health" from "illness." Is the classification of individuals as healthy or ill an objective, scientific matter? Or is it instead a matter of social and ethical values? What follows from answering this question one way, versus another? This introduction forms the backdrop against which we move on to investigate a range of further topics. Examples of some of the topics that may be covered include: medical and social models of disability; the role morality of doctors and other medical providers; abortion, euthanasia, and conscientious objection in the healthcare professions; health measurement and quality of life; "death panels" and health resource rationing; conditions on appropriately voluntary and informed consent to medical procedures; and the ethics of biomedical research. (Cross-listed with MEDH 3450).

Prerequisite(s): 6 hours of Philosophy OR Sophomore status OR permission of the instructor

PHIL 3480 PHILOSOPHY OF RACE (3 credits)

Where does the concept of race come from? Where did the racial categories on the US census come from? How has the concept of race influenced scientific theories? Do empirical findings of genetic differences between racial groups show that races are biologically real? Why are racial categories used in medicine? Can all health disparities between races be explained by social factors? Is some particular concept of race necessary for political and social opposition to racism? The course will involve reading original articles and book extracts from a range of disciplines, including history, philosophy, and several sciences. These articles will be explained and discussed in class through a philosophical lens. The course aims to provide students with the philosophical tools and concepts to think about race and racism in a nuanced and reflective way.

Prerequisite(s): Sophomore Status OR 6 credit hours Philosophy OR Permission of the Instructor

Distribution: U.S. Diversity General Education course

PHIL 3490 GENDER AND PHILOSOPHY (3 credits)

This course examines philosophical arguments concerning gender and sexual difference, gender issues and women in the history of philosophy, and major views in feminist theory. Using arguments derived from feminist theory, we will undertake a critical inquiry into the ways in which gender, geography, and power inform political institutions and, in particular, medical research and health disparities. Taking the perspective of women's lives from across the globe through case studies, we will interrogate feminist theory in relation to non-US perspectives on gender and sexuality. (Cross-listed with WGST 3490).

Prerequisite(s): Sophomore status OR 6 hours of PHIL OR 6 hours of WGST.

Distribution: Global Diversity General Education course

PHIL 3500 PROBLEMS IN PHILOSOPHY (3 credits)

Seminar on specialized topic in philosophy. (See "Topic" in class search for specification of particular topic.)

Prerequisite(s): Junior or 6 hours in philosophy.

PHIL 3510 PHENOMENOLOGY AND EXISTENTIALISM (3 credits)

A critical examination of phenomenology and existentialism as historical and philosophical movements. Course focus includes such thinkers as Edmund Husserl, Martin Heidegger, Jean-Paul Sartre, and Simone De Beauvoir.

Prerequisite(s): Junior or 3 credits in philosophy or permission of the instructor.

PHIL 3520 HERMENEUTICS IN PHILOSOPHY (3 credits)

Introduction to hermeneutics or the notion of interpretation in certain thinkers and philosophy movements since the late 19thC. Focus includes Nietzsche, pragmatism, Heidegger, Gadamer, Frankfurt School, and Derrida. Course to exclude topics or things covered in PHIL3510.

Prerequisite(s): 3 hours in philosophy, junior, or permission of instructor.

PHIL 3570 UNDERSTANDING SELF-DECEPTION (3 credits)

What is it to deceive yourself? Why do we do it? Is it necessarily a bad thing? This course is designed to introduce students to a variety of problems associated with the issue of self-deception. Students will investigate the nature of self-deception from both philosophical and psychological perspectives. Students will apply foundational theories to explore the ethical implications of self-deception and the relation of self-deception to issues like imposter syndrome and the project of autobiography.

PHIL 3600 EPISTEMOLOGY (3 credits)

The course covers major theories and debates in Epistemology (i.e., the study of evidence, reasons, justification, warrant, knowledge, explanation, and understanding). The course covers both foundational structural debates (e.g., the structure of justification, the analysis for knowledge, the requirements of explanation, and the nature of understanding) and applied issues (e.g., expertise and testimony, peer disagreement, burden of proof, group deliberation and voting, epistemic bubbles and conspiracy theories, and the value of feelings of confidence, surety, and certainty).

Prerequisite(s): 6 hours of philosophy or permission of instructor.

PHIL 3650 PHILOSOPHY OF MIND (3 credits)

A discussion of various accounts of the nature of minds which focuses upon philosophical problems such as whether the mind is identical with the brain, the extent of similarities between human minds and computers, the nature of personal identity and the relationship of mental activity to behavior. (Cross-listed with PHIL 8655, PSYC 3650).

Prerequisite(s): No Prerequisites. Some prior coursework in Philosophy is recommended, but not required.

PHIL 3700 SPACE, TIME, AND REALITY (3 credits)

What is space? Is there more to space than the arrangement of things in it? What is time? Is time travel possible? What is the relation between space and time? This course introduces students to the study of the fundamental nature of reality with a focus on the elusive nature of space and time. The course places emphasis on the challenge of finding metaphysical truths about the world given the epistemic constraints imposed by our observational limits. Some representative views from the history of philosophy will be covered, though special attention will be given to contemporary debate.

Prerequisite(s): 3 hours of philosophy or permission of instructor.

PHIL 3960 READINGS IN PHILOSOPHY (1-3 credits)

Readings in specialized areas or individual problems in philosophy.

Prerequisite(s): Permission of instructor.

PHIL 4000 ADVANCED PHILOSOPHY WRITING SEMINAR (3 credits)

This is the capstone course of the philosophy major, designed to teach students to write at an advanced level. Students will present their own writing and critique the writing of others, under close guidance of the instructor. By the end of the seminar, each student will have produced a "journal-length" (approximately 20 page) paper on a philosophical topic, and gained extensive experience in revising papers and editing the work of others.

Prerequisite(s): Junior standing and 15 hours in philosophy including 9 hours consisting of 3000-level courses, or instructor permission. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

PHIL 4220 NEUROETHICS (3 credits)

Neuroscience is a burgeoning field that yields new insights into the workings of the human mind and brain. Work in basic neuroscience also yields technological innovations - brain scans, smart pills, brain modification techniques, etc. - that have profound ethical and social implications. In this upper level philosophy course, we will primarily examine the social, legal, medical, and ethical implications of current and emerging neuroscience technologies and research practices. The emerging field of "neuroethics" examines the ethical ramifications of neuroscience using the concepts of normative and applied ethics. The course will discuss the ethics of neuroscientific technologies - e.g., the use of neuroimaging in the clinical and legal contexts - using the major ethical theories (utilitarianism, virtue ethics, deontological ethics) and principles central to biomedical ethics (autonomy, beneficence, justice, non-maleficence, competence, and informed consent).

Prerequisite(s): Prior Philosophy coursework, particularly PHIL 2300, or prior coursework in Neuroscience, is recommended but not required. Sophomore standing or above.

PHIL 4240 PHILOSOPHY OF EMOTION (3 credits)

In this class, we will aim to understand emotions, moods, attitudes, and other affective phenomena from a broad, empirically informed perspective while keeping practical issues in mind. We will ask questions such as: What are emotions, moods, and the rest? How are these various affective phenomena related to one another? How do they provide information about our relationship to the world? Under what conditions are they appropriate or inappropriate? What role do they play in our reasoning and decision-making? What role do they play in our ethical lives? What role do they play in the arts (e.g., music, literature, film)? (Cross-listed with PSYC 4240).

Prerequisite(s): No prerequisites. Some prior philosophical coursework would be useful, but it is not required.

PHIL 4250 LIMITS OF CONSCIOUSNESS (3 credits)

Consciousness is often considered one of the last great mysteries of science. Despite our internal experience of pleasures, sights, sounds, and pains, it is a largely open question why we have these experiences and what makes them happen. This upper level seminar class examines the philosophy, psychology, and neuroscience of consciousness. Topics covered will include neuroscientific theories of consciousness, unconscious perception, the relationship between attention and consciousness, animal consciousness, and detecting consciousness in the persistent vegetative state. (Cross-listed with PHIL 8256, PSYC 8256, PSYC 4250).

Prerequisite(s): PSYC 1010; or 6 hours in Philosophy. Not open to non-degree graduate students.

PHIL 4260 MORAL PSYCHOLOGY (3 credits)

The growing interdisciplinary field of moral psychology studies our moral beliefs and decision-making processes using the tools of anthropology, psychology, philosophy, and neuroscience. Topics in the science of morality will include the moral-conventional distinction (the distinction between moral norms and non-moral norms such as etiquette), the role of reasons vs. emotions in moral judgment, the brain basis of moral decision-making, cultural differences in moral norms, psychopathy, and the development of morality in children. Psychology studies the nature of moral judgment using behavioral tasks. Neuroscience employs techniques such as functional magnetic resonance imaging (fMRI), transcranial magnetic stimulation (TMS), and other tools for monitoring and manipulating brain processes to study "where" in the brain moral decision making occurs and the nature of these decisions. Throughout the course, we will examine how these empirical findings intersect with the ethical choices that we ought to make. (Cross-listed with PSYC 4260).

Prerequisite(s): No prerequisites. Prior Philosophy coursework is recommended but not required.

PHIL 4610 PHILOSOPHY OF LANGUAGE (3 credits)

This course provides an introduction to the central problems and foundational theories in the philosophy of language. We will investigate central semantic issues concerning the nature of reference, meaning, and truth; examine key pragmatic issues concerning the role of context and the ways in which we use language; and explore expressive and figurative uses of language such as metaphor. Such issues lie at heart of many perennial philosophical puzzles, encompass debates in linguistics and psycholinguistics, and pose challenges to work in Computer Science and, especially, Artificial Intelligence.

Prerequisite(s): 6 hours of Philosophy OR Sophomore status OR Permission of Instructor

Philosophy, Bachelor of Arts

To obtain a B.A. with a major in Philosophy, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses
- 16 hours of foreign language
- 12 hours college breadth requirement
- 30 hours of major courses
- Electives as required to total 120 hours.

TOTAL HOURS: 120

Requirements

The Bachelor of Arts in Philosophy requires a minimum of 30 credits in philosophy, 21 hours of which must be upper division (3000-4990). The degree may be earned in one of three ways:

1. Philosophy Major
2. Philosophy Major with a Concentration in Philosophy of Brains, Minds, and Machines.

3. Philosophy Major with a Concentration in Ethics, Law, and Social-Political Philosophy

Code	Title	Credits
Courses Required for Major (Core Curriculum)		
The Bachelor of Arts in Philosophy requires 30 credit hours, 21 hours of which must be upper division (3000-4990).		
Lower division courses must include the following:		
PHIL 1210 or PHIL 2010	CRITICAL REASONING SYMBOLIC LOGIC	3
PHIL 2030	INTRODUCTION TO ETHICS	3
At least one course from the following list of advanced courses in Metaphysics and Epistemology:		3
PHIL 3130	HISTORY OF MODERN PHILOSOPHY	
PHIL 3600	EPISTEMOLOGY	
PHIL 3700	SPACE, TIME, AND REALITY	
PHIL 4240	PHILOSOPHY OF EMOTION	
PHIL 4610	PHILOSOPHY OF LANGUAGE	
At least one course from the following list of advanced courses in Value Theory:		3
PHIL 3050	ETHICAL THEORY	
PHIL 3220	PHILOSOPHY OF ART	
PHIL/MEDH 3450	PHILOSOPHY OF MEDICINE	
PHIL 3480	PHILOSOPHY OF RACE	
PHIL 3490	GENDER AND PHILOSOPHY	
Philosophy Writing Requirement:		3
PHIL 3000 or PHIL 4000	PHILOSOPHY WRITING SEMINAR ADVANCED PHILOSOPHY WRITING SEMINAR	
Electives:		15
Select 15 additional credit hours in PHIL, with a minimum of 12 credit hours at the 3000/4000 level.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Philosophy, Bachelor of Arts Concentration in Philosophy of Brains, Minds and Machines

Requirements

The philosophy major with a concentration in the philosophy of brains, minds, and machines requires 30 credit hours of which 21 hours must be upper level (3000-4000) in philosophy .

Code	Title	Credits

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Philosophy Minor Requirements

The requirements for the minor in philosophy are 15 hours in philosophy, of which no more than 6 may be below the 3000 level, completed with a grade of C- or higher.

Ethics Minor Requirements

The requirements for the minor in ethics are 15 hours of approved coursework, of which no more than 6 may be below the 3000 level, completed with a grade of C- or higher. No more than 6 hours counted as credit toward a major or another minor may be counted as credit toward the ethics minor. All special topics courses and independent studies are permitted only upon review and approval.

Code	Title	Credits
Core Requirement		
PHIL 2030	INTRODUCTION TO ETHICS	3
Elective Course		
3 hours from any course on the lists below:		3
Theory and Meta-Ethics Requirement		
6 hours minimum selected from the following:		6

PHIL 2040	INTRODUCTION TO EAST ASIAN PHILOSOPHY
PHIL 3050	ETHICAL THEORY
PHIL 3060	VALUES AND VIRTUES
PHIL 3110	HISTORY OF ANCIENT PHILOSOPHY
PHIL 3210	SOCIAL PHILOSOPHY
PHIL 3500	PROBLEMS IN PHILOSOPHY (Theoretical or Meta-Ethical focus; requires approval)
PHIL 3960	READINGS IN PHILOSOPHY (Theoretical or Meta-Ethical focus; requires approval)
RELI 2200	GLOBAL RELIGIOUS ETHICS: THE BASICS
RELI 3500	TOPICS IN RELIGIOUS STUDIES (Theoretical or Meta-Ethical focus; requires approval)
RELI 3960	READINGS IN RELIGION (Theoretical or Meta-Ethical focus; requires approval)
RELI 4200	COMPARATIVE RELIGIOUS ETHICS

Practical and Applied Requirement

3 hours minimum, selected from the following lists: 3

Business, Engineering, and Technology

BSAD 2600	ETHICS IN ORGANIZATIONS
BSAD/MGMT/MKT 3600	BUSINESS ETHICS
CIST 3110	INFORMATION TECHNOLOGY ETHICS
CNST 420	PROFESSIONAL PRACTICE AND ETHICS
ENGR 320	LEADERSHIP, MANAGEMENT, AND ETHICS
ENGR 400	PROFESSIONAL ETHICS AND SOCIAL RESPONSIBILITY
JMC 4400	MEDIA ETHICS
PHIL 3170	ETHICS IN BUSINESS

Law and Justice

CRCJ 4060	CRIMINAL JUSTICE ETHICS
LAWS/PHIL 3170	ETHICS IN BUSINESS
LAWS 3940	LEGAL AND ETHICAL APPLICATIONS
PHIL 1040	INTRODUCTION TO PHILOSOPHY: LAW, POLITICS, AND SOCIETY
PHIL 3010	PHILOSOPHY OF JUSTICE
PHIL 3020	THE JUSTIFICATION OF PUNISHMENT
PHIL 3040	PHILOSOPHY OF LAW
PSCI 3240	THE POLITICS AND PRACTICE OF HUMAN RIGHTS
PSCI 4310	CLASSICAL POLITICAL THOUGHT
PSCI 4320	EARLY MODERN POLITICAL THOUGHT
PSCI 4330	LATE MODERN POLITICAL THOUGHT
PSCI 4340	CONTEMPORARY POLITICAL THOUGHT
PSYC 4800	LAW & PSYCHOLOGY: ETHICS, RESEARCH & SERVICE

Science and Medicine

BMCH 1100	ETHICS OF SCIENTIFIC RESEARCH
PHIL 1020	CONTEMPORARY MORAL PROBLEMS
PHIL 2300	HUMAN VALUES IN MEDICINE
PHIL 3180	ENVIRONMENTAL ETHICS
PHIL 3450	PHILOSOPHY OF MEDICINE
PHIL 3480	PHILOSOPHY OF RACE

Religion and Education

RELI 3500	TOPICS IN RELIGIOUS STUDIES
RELI 3960	READINGS IN RELIGION

RELI 4220	VIOLENT CONFLICTS, PEACEBUILDING, AND THE ETHICS OF INTERVENTION
SPED 2100	PROFESSIONALISM & ETHICS OF INTERPRETING

Special Topics

PHIL 3500	PROBLEMS IN PHILOSOPHY (Practical or applied focus; requires approval)
PHIL 3960	READINGS IN PHILOSOPHY (Practical or applied focus; requires approval)

Total Credits**15**

Physics

The Physics Department at UNO is a vibrant program well-known for offering quality education, diverse research activities, and broad community outreach programs.

The variety of options students have in the physics program makes our graduates well prepared to thrive in modern industries. Additionally, about a third of physics graduates are accepted into top graduate degree programs where they can pursue a master's or doctoral degree in physics, physics education, engineering, chemistry, astrophysics, biophysics and medical physics. Our curriculum is flexible and provides students with a number of options to better prepare them for the career of their choice.

In addition to our Bachelors of Science program we offer concentrations in Biomedical Physics and Physics Education. The Physics Department emphasizes involving its physics majors in undergraduate research as well as the education process. Working closely with the faculty provides students a valuable experience. Beyond-the-classroom learning opportunities engage students and create a sense of community. Research projects are available in the following areas: astrophysics, biophysics, medical physics, computational physics, quantum computing, materials for energy applications, solid-state physics, and physics education.

Other Information

All coursework taken for the Physics major or minor must be completed with a grade of "C-" or better.

Physics majors must also take the two assessment tests (Major Field Test and Local Test) and complete the exit interview.

Apart from PHYS 1154, PHYS 1164, and PHYS 1950, no 1000-level courses may count toward the major requirements in physics. However, they do count as electives for various other college degrees.

Physics majors should strive to take as many of the courses in modern physics (PHYS 4210, PHYS 4220, PHYS 4230) and electronics (PHYS 3500) as their program will permit.

The **senior project** must be approved and the department chair notified at least eight months prior to graduation as a Physics major and the student must register for either PHYS 4950 or PHYS 4960.

Upper division courses (3000-level or higher) will assume that students have at least some experience with, and ability to use, computers for solving physics problems.

Physics is also offered as a concentration in the Division of Continuing Studies.

Website (<http://www.physics.unomaha.edu/>)

Degrees Offered

- Physics, Bachelor of Arts (p. 300)
- Physics, Bachelor of Science (p. 302)
- Physics, Bachelor of Science with a Concentration in Biomedical Physics (p. 303)
- Physics, Bachelor of Science with a Concentration in Physics Education (p. 306)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the Physics major this is: ENGL 3980.

Minors Offered

- Physics Minor (p. 308)

Physics is one of the broadest scientific disciplines. Most students develop expertise with a great variety of hands-on experiences with instrumentation, fabrication, analytical techniques and computer modeling. These practical skills make physicists attractive to employers in physics, engineering, financial and computer science fields.

Particular skills include: research and problem solving, fluency in using scientific equipment, refined mathematical skills, programming, modeling and simulation, and quality control protocol.

“Soft skills” are also vital to successful career. Soft skills you would be trained in at the university include: cultivating strategic written and oral communication skills, learning to work well on a team, and being a good listener.

Some common jobs for those who have a bachelor’s degree in physics include:

- Design or process engineer
- Software engineer
- Applications engineer
- Inside sales engineer
- Research analyst
- Lab technician
- IT developer (administrator, consultant)
- Programmer
- High school science teacher
- Accelerator operator
- Data analyst
- Systems analyst
- Technical specialist.

If students choose to continue and receive a graduate degree the 10 most common jobs are

- Research scientist (at tech companies, national laboratories or universities)
- Professor, physics teacher
- Data scientist
- Lab manager
- Medical physicist
- Aerospace engineer
- Astronomer
- Environmental scientist
- Geophysicist.

PHYS 1030 PHYSICS OF EVERYDAY LIFE (3 credits)

A conceptual course in the principles of physics and their relationship to man and his environment. Topics included relate the basic laws of physics and recent developments in science to their effects on man. This course is intended for students not majoring in the sciences and may be used in partial fulfillment of the natural science requirement.

Prerequisite(s): High School algebra or equivalent.

Distribution: Natural/Physical Sci General Education lecture

PHYS 1034 PHYSICS OF EVERYDAY LIFE LABORATORY (1 credit)

A physics laboratory consisting of a series of concise experiments which relate man directly to his physical environment.

Prerequisite(s): High school algebra or equivalent; PHYS 1030, prior or concurrent.

Distribution: Natural/Physical Sci General Education lab course

PHYS 1050 INTRODUCTION TO PHYSICS (4 credits)

A terminal one-semester course covering major topics in mechanics, heat, sound, electricity, magnetism, light and modern physics. Designed particularly for non-science liberal arts majors or others for whom such a one-semester coverage might be deemed adequate. (Does not count towards physics requirement for chemistry, physics and engineering majors.)

Prerequisite(s): High school algebra or equivalent.

Distribution: Natural/Physical Sci General Education lecture

PHYS 1054 INTRODUCTION TO PHYSICS LABORATORY (1 credit)

A series of concise experiments on varied topics in physics, such as scientific sampling, optics, elasticity, motion, sound, light and electricity are covered in this one-semester course. Emphasis is placed on data collection and graphing, and error reduction.

Prerequisite(s): High school algebra or equivalent; PHYS 1050, prior or concurrent, or permission of the instructor

Distribution: Natural/Physical Sci General Education lab course

PHYS 1110 GENERAL PHYSICS I WITH ALGEBRA (4 credits)

First part of a two-semester continuing course designed for students with no prior background in physics. Mechanics, heat and sound are covered in this semester.

Prerequisite(s): MATH 1310 or MATH 1220 or equivalent, or MPE score above 2 or permission of instructor

Distribution: Natural/Physical Sci General Education lecture

PHYS 1120 GENERAL PHYSICS (4 credits)

Second part of a two-semester continuing course designed for students with no prior background in physics. Electricity and magnetism, light, and a little modern physics are covered.

Prerequisite(s): PHYS 1110 or permission.

PHYS 1154 GENERAL PHYSICS LABORATORY I (1 credit)

One-semester laboratory course for students enrolled in PHYS 1110 or PHYS 2110. Covers experiments in mechanics, wave motion and heat.

Prerequisite(s): PHYS 1110 or PHYS 2110, prior or concurrent.

Distribution: Natural/Physical Sci General Education lab course

PHYS 1164 GENERAL PHYSICS LABORATORY II (1 credit)

One-semester laboratory course for students enrolled in PHYS 1120 or PHYS 2120. Second semester covers experiments in electricity and magnetism, optics, and modern physics.

Prerequisite(s): PHYS 1120 or PHYS 2120, prior or concurrent.

PHYS 1350 PRINCIPLES OF ASTRONOMY (3 credits)

An introductory course that satisfies divisional requirements in natural science. Topics discussed include the night sky, gravity, telescopes, atoms and radiation, the solar system, the sun and stars; and cosmology.

Prerequisite(s): High school algebra or equivalent.

Distribution: Natural/Physical Sci General Education lecture

PHYS 1354 INTRODUCTORY ASTRONOMY LAB (1 credit)

Laboratory sessions acquaint students with basic phenomena, methods and data acquisition in astronomy. By use of the experiments, students will be able to explore and add to what has been discussed in lecture. Several night observing sessions will also be available for students to use telescopes.

Prerequisite(s): PHYS 1350 prior or concurrent.

Distribution: Natural/Physical Sci General Education lab course

PHYS 1750 FUNDAMENTAL PHYSICS OF SOUND (4 credits)

A course designed for music and communication majors. It covers transmission of sound, wave motion, pitch, quality, sound synthesis, acoustics, resonance, interference, musical scales, string and wind instruments, recording and reproduction of sound. Three lectures and one discussion per week.

Prerequisite(s): High school algebra or equivalent.

PHYS 1754 FUNDAMENTAL PHYSICS OF SOUND LABORATORY (1 credit)

A laboratory that accompanies PHYS 1750. The experiments are coordinated with the music-related portions of lecture course. The laboratory is designed for music majors.

Prerequisite(s): PHYS 1750 prior or concurrent and music major or permission of instructor.

PHYS 1950 PHYSICS GATEWAY COURSE (1 credit)

Designed for first year physics majors, a one-semester introduction to concepts and tools to be encountered and used in earning a physics degree.

Prerequisite(s): High school algebra or equivalent.

PHYS 2030 ENERGY AND FUELS (3 credits)

This one semester course focuses on energy from a macroscopic perspective. Viewpoints based on the law of physics are distinguished from unsupported opinion. Topics include: electricity production and consumption; mineral and fossil fuel resources; nuclear, solar, fossil fuel and biomass energies; pollution, conservation and recycling; extrapolation and interconnections.

Prerequisite(s): MATH 1310 or MATH 1220

PHYS 2040 RADIATION FUNDAMENTALS (3 credits)

This one-semester course examines the ways radiation affects our daily lives. Topics include: structure of matter and types of radiation, half-life and activity, biological effects of radiation, radiation standards and protection, uses of isotopes and radiation, nuclear wastes life-cycle, nature of risk versus benefit, dose calculations and shielding fundamentals.

Prerequisite(s): MATH 1310 or MATH 1220, minimum of PHYS 1050.

PHYS 2110 GENERAL PHYSICS I - CALCULUS LEVEL (4 credits)

First part of a two-semester continuing course for students majoring in some area of science, mathematics or engineering. Mechanics, molecular properties of matter and heat are covered in the first semester.

Prerequisite(s): MATH 1950 (MATH 1930 for Geology majors) or permission of the instructor. High school physics or PHYS 1050 is recommended.

Distribution: Natural/Physical Sci General Education lecture

PHYS 2120 GENERAL PHYSICS-CALCULUS LEVEL (4 credits)

Second part of a two-semester continuing course for students majoring in some area of science, mathematics or engineering. Wave motion, electricity, magnetism and light are considered during the second semester.

Prerequisite(s): PHYS 2110 and MATH 1960 (MATH 1930 for Geology majors) or permission of the instructor.

PHYS 2130 MODERN PHYSICS (4 credits)

The course is composed of introductions to relativity theory and quantum theory with applications to atomic and nuclear structure. Topics include: Planck radiation law; Compton Effect; photoelectric effect; the Rutherford experiments and Bohr model of the atom; the Schrodinger electronic structure of atoms; nuclear reactions, nuclear models, radioactive decay, fission, fusion and elementary particles.

Prerequisite(s): PHYS 2110, PHYS 2120, MATH 1950, & MATH 1960; or permission.

PHYS 2350 SPECIAL TOPICS IN ASTRONOMY: OBSERVATIONAL ASTRONOMY (2-3 credits)

This one semester course emphasizes personal study of the sky, including observing, measuring and recording celestial positions. Students will be shown how to observe and measure the Sun, the Moon, visible planets, and stars, and how to document astronomical observations. Students will be required to study outdoors on their own and will also use the department's observing facilities.

Prerequisite(s): PHYS 1350 or instructor permission.

PHYS 3250 MATHEMATICAL METHODS OF PHYSICS (3 credits)

Training in the use of mathematical techniques applicable to physics problems encountered in upper-level physics courses. Vector operators, Fourier analysis, frequently used differential equations (ordinary and partial), orthogonal functions, and matrix methods of coordinate transformation are included. Emphasis is given to solving problems from mechanics such as vectorial mechanics, oscillatory systems, wave motion, potential theory, etc.

Prerequisite(s): MATH 1950, MATH 1960, MATH 1970 and PHYS 2160 or 2120 or permission.

PHYS 3260 COMPUTER TOOLS FOR PHYSICISTS (2 credits)

This course will introduce a wide selection of computer-powered mathematical tools for doing physics or any upper level science courses. It will introduce software packages in real and complex algebra, trigonometry, calculus I & II, linear algebra, statistics, differential equations, special functions, graphics, document preparation, and programming in the manner of a research scientist.

Prerequisite(s): PHYS 1120 or PHYS 2120 and MATH 1960.

PHYS 3300 INTRODUCTION TO BIOMEDICAL PHYSICS (3 credits)

This course is designed primarily for students desiring to specialize in Biomedical Physics. The course emphasizes an understanding of the fundamental principles of physics and the use of these principles in a variety of biological and medical applications with the major goal to merge physics, biology, and medicine in a unified perspective. PHYS 3300 covers various topics relating basic physics to living systems, including mechanics, fluid mechanics, thermodynamics, sound, electricity, optics, atomic physics, nuclear physics, and nanotechnology. It also describes various technologies widely used in modern medicine such as laser surgery, ultrasound imaging, X-ray, computed tomography, and magnetic resonance imaging. Each topic briefly introduces related background of physics principles as well as comprehensive overview of biological/medical application, thus (although highly recommended) very little background in physics or biology is required. This course will benefit students with interests in medicine, biology, biophysics, or medical physics.

Prerequisite(s): PHYS1110 is required. PHYS2110 and PHYS1120 or PHYS2120 are recommended.

PHYS 3450 CLASSICAL MECHANICS (3 credits)

Statics and dynamics of particles and rigid bodies including the equations of Lagrange and Hamilton.

Prerequisite(s): MATH 1970, PHYS 3250 or permission.

PHYS 3500 ELEMENTS OF ELECTRONICS (3 credits)

The topics covered will include basic circuit theory, principles and operation of electronic devices such as diodes, transistors and integrated circuits. Application of these devices in various electronic circuits. Both analog and digital circuitry will be studied. (Cross-listed with PHYS 8505)

Prerequisite(s): PHYS 1120 or PHYS 2120 and MATH 1970

PHYS 3504 EXPERIMENTAL PHYSICS I (1 credit)

A set of experiments designed to complement PHYS 3750 and PHYS 4200.

Prerequisite(s): PHYS 2120

PHYS 3524 EXPERIMENTAL PHYSICS II (1 credit)

A set of experiments designed to complement PHYS 3760 and PHYS 4210.

Prerequisite(s): PHYS 2120

PHYS 3544 EXPERIMENTAL PHYSICS III (1 credit)

A set of experiments designed to complement PHYS 3450, PHYS 3850, and PHYS 4200.

Prerequisite(s): PHYS 2120

PHYS 3564 EXPERIMENTAL PHYSICS IV (1 credit)

A set of experiments designed to complement PHYS 3020 and PHYS 4220.

Prerequisite(s): PHYS 2120

PHYS 3600 THERMODYNAMICS AND STATISTICAL PHYSICS (3 credits)

Topics include: empirical and absolute temperature, equations of state, work, heat, entropy, the four laws of thermodynamics, phase changes, thermodynamic potentials, classical and quantum statistics of an ideal gas. Applications to be included: Einstein theory of a solid, paramagnetism, blackbody radiation, and conduction electrons. (Cross-listed with PHYS 8605)

Prerequisite(s): PHYS 2120 and MATH 1970.

PHYS 3750 ELECTRICITY AND MAGNETISM I (3 credits)

An advanced study of electrostatics and magnetostatics, including Coulomb's law, Gauss' law, the scalar potential, conductors and dielectrics, electrostatic energy, special methods, electric current, Ampere's law, the magnetic induction, Faraday's law, and the electromagnetic wave equation as obtained from Maxwell's equations, with simple examples such as transmission lines and antennas. (Cross-listed with PHYS 8755)

Prerequisite(s): MATH 1950, MATH 1960, MATH 1970, PHYS 3250, or permission.

PHYS 3760 ELECTRICITY AND MAGNETISM II (3 credits)

A selection of more advanced topics from electromagnetic theory, including a deeper treatment of the electromagnetic wave equations derived from Maxwell's equations, extending to propagation, reflection and refraction of plane waves, waves in wave guides, and radiation. Other topics covered might be magnetism and magnetic energy, plasmas and special relativity. (Cross-listed with PHYS 8765)

Prerequisite(s): PHYS 3750

PHYS 3800 OPTICS (3 credits)

The behavior of electromagnetic radiation as formulated in the ray, wave, and quantum models. Topics will include: reflection and refraction, vergence, matrix method, optical instruments, scalar waves, electromagnetic waves, blackbody radiation, interference, diffraction, and lasers; if time permits, fiber optics and holography will also be included. (Cross-listed with PHYS 8805)

Prerequisite(s): PHYS 1120 or PHYS 2120 and MATH 1970

PHYS 4200 INTRODUCTION TO QUANTUM MECHANICS (3 credits)

This course provides an introduction to the historical development of modern physics and to the Schrodinger formulation of quantum mechanics. Specific topics will include square wells potential barriers, the simple harmonic oscillator potential and the hydrogen atom. Characteristics of multi-electron atoms, including angular momentum coupling schemes, spectra and transition rules will also be included. (Cross-listed with PHYS 8206)

Prerequisite(s): PHYS 3250 or permission.

PHYS 4210 QUANTUM THEORY (3 credits)

The matrix operator formalism is covered along with philosophical implications of this approach. The methods developed will be applied to simple harmonic oscillator and hydrogen atom potentials. Raising and lowering operators, creation-annihilation operators, and first and second order perturbation theory will be discussed. (Cross-listed with PHYS 8216)

Prerequisite(s): PHYS 4200 or permission.

PHYS 4220 PHYSICS OF MOLECULES AND SOLIDS (3 credits)

This course covers the various types of atomic bonding found in molecules and solids. Electronic energy levels and spectra of molecules will be discussed. Topics in solid state physics will include mechanics and thermodynamics of crystals, the scattering of waves, including x-ray and neutron scattering, electron scattering and phonon and photon interactions. (Cross-listed with PHYS 8226)

Prerequisite(s): PHYS 4200 or permission.

PHYS 4230 SPECIAL RELATIVITY AND NUCLEAR PHYSICS (3 credits)

This course includes a brief historical background of the development of relativity theory and the importance of the experiments performed in conjunction with it. Lorentz transformations and covariant formalism will be developed and applied to certain problems in mechanics and electricity and magnetism. The nuclear physics portion of the course will include the historical development of the concept of the nuclear atom. Theoretical models of nuclear structure will be discussed, along with the theory of alpha, beta and gamma decay. Fission and fusion discussed as time permits. (Cross-listed with PHYS 8236)

Prerequisite(s): PHYS 4200 or permission.

PHYS 4300 GENERAL RELATIVITY (3 credits)

A study of general relativity theory and its leading applications. Physical motivations and conceptual foundations will be explored. Students will be guided step-by-step to mastery of the tensor analysis required by this theory. Topics covered will include the equivalence principle, recap of special relativity, tensors, curvature and geodesics, Einstein field equations, black holes, cosmology, and gravitational waves. (Cross-listed with PHYS 8306)

Prerequisite(s): PHYS 3750 and PHYS 4230, or permission of instructor.

PHYS 4350 ASTROPHYSICS (3 credits)

This course introduces the fundamentals of astrophysics to students with a prior knowledge of physics and mathematics. A review will be given of light and telescopes, classical and quantum mechanics and special relativity. Basic laws of physics will be applied to various topics such as: the sun, nuclear fusion and particle physics, evolution and end state of stars, interstellar medium, galaxies and cosmology. (Cross-listed with PHYS 8356)

Prerequisite(s): PHYS 2130 or 4200 and MATH 1970. Recommended: PHYS 1350.

PHYS 4400 GEOPHYSICS (3 credits)

A study of geophysical techniques used to understand the earth, study environmental problems, and in resource exploration. Seismic, gravity, heat flow, magnetic and other methods will be presented. The insights from these methods into earthquake events, stress distributions, rock rheology and plate tectonics will also be addressed. Interpretive skills will be emphasized. (Cross-listed with GEOL 4400).

Prerequisite(s): GEOL 1170, PHYS 1110 or higher, or permission of instructor

PHYS 4500 BIOLOGICAL PHYSICS (3 credits)

This course is designed primarily for students specializing in Biomedical Physics. As a part of Biomedical Physics program at the Department of Physics, the course introduces the fundamental principles of physics and the use of these principles for various biological applications. PHYS 4500/8506 covers various topics including cells, polymers, polyelectrolytes, membranes, mesoscopic forces, self-assembly, photonics, fluid mechanics, motility, chemical kinetics, enzyme kinetics, modern experimental techniques of biophysics. Each topic connects biomolecules with their functions and relevant biological phenomena from a physics perspective. This course will benefit students with interests in biological and medical physics, as well as chemistry, biology. (Cross-listed with PHYS 8506).

Prerequisite(s): PHYS 2110 is required. PHYS 2120 and PHYS 3300 are recommended.

PHYS 4550 PHYSICS IN MEDICINE (3 credits)

This course is designed primarily for students desiring to specialize in Biomedical Physics. The course introduces principles and applications of various medical imaging modalities and medical physics based therapies. Topics include such imaging techniques as ultrasound, X-ray imaging, Computed Tomography (CT), MRI imaging, and positron emission tomography. The course discusses physical principles behind medical imaging and therapeutic applications and covers interaction of different kinds of radiation with biological matter. (Cross-listed with PHYS 8556).
Prerequisite(s): PHYS 2110; PHYS 2120, and PHYS 2130 for Physics majors or permission of the instructor. PHYS 3300 and PHYS 4500 are recommended.

PHYS 4800 INTERNSHIP (1-6 credits)

Internship with agencies or corporations enabling students to gain knowledge and experience in practical applications of physics and/or environmental principles.
Prerequisite(s): Junior or senior standing. Permission.

PHYS 4950 PROBLEMS IN PHYSICS (1-3 credits)

Individual laboratory and/or library work, or reading course in some field of physics. (Cross-listed with PHYS 4960, PHYS 8956, PHYS 8966)
Prerequisite(s): PHYS 2120 and permission of instructor.

PHYS 4960 PROBLEMS IN PHYSICS (1-3 credits)

Individual laboratory and/or library work, or reading course in some field of physics. (Cross-listed with PHYS 4950, PHYS 8956, PHYS 8966)
Prerequisite(s): PHYS 2120 and permission of instructor.

Physics, Bachelor of Arts

To obtain a B.A. with a major in Physics, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
Most commonly, Physics majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead, they often test out of at least three hours of fundamental academic skills, take courses that meet both the six hours of diversity requirements and six hours of distribution requirements, and meet four hours of the natural sciences distribution requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 33 or fewer.
- 16 hours of a foreign language
- 12-19 hours college breadth requirement
- 49 hours of major courses
- 0-9 hours of electives

TOTAL HOURS: 120

Requirements

Code	Title	Credits
Introductory Physics and Math Courses		
PHYS 1950	PHYSICS GATEWAY COURSE	1
PHYS 2110 & PHYS 1154	GENERAL PHYSICS I - CALCULUS LEVEL and GENERAL PHYSICS LABORATORY I	5
PHYS 2120 & PHYS 1164	GENERAL PHYSICS-CALCULUS LEVEL and GENERAL PHYSICS LABORATORY II	5
PHYS 2130	MODERN PHYSICS	4
PHYS 3250	MATHEMATICAL METHODS OF PHYSICS 1	3
MATH 1950	CALCULUS I	5
MATH 1960	CALCULUS II	4

MATH 1970	CALCULUS III	4
Physics Core Courses		
PHYS 3450	CLASSICAL MECHANICS	3
PHYS 3600	THERMODYNAMICS AND STATISTICAL PHYSICS	3
PHYS 3750	ELECTRICITY AND MAGNETISM I	3
PHYS 3800	OPTICS	3
PHYS 4200	INTRODUCTION TO QUANTUM MECHANICS	3
Advanced Laboratory		
PHYS 3504	EXPERIMENTAL PHYSICS I	1
Select one of the following:		1
PHYS 3524	EXPERIMENTAL MATERIALS SCIENCE	
PHYS 3544	EXPERIMENTAL PHYSICS III	
PHYS 3564	EXPERIMENTAL PHYSICS IV	
Senior Project		
In addition to the above requirements, a senior project is required, for which students must register for PHYS 4950 or PHYS 4960. ²		
PHYS 4950 or PHYS 4960	PROBLEMS IN PHYSICS	1
Total Credits		49

¹ Students taking a number of 2000-level mathematics courses may be permitted to waive PHYS 3250 or PHYS 3260.
² Please see more details about the senior project in the "Other Information" portion of the physics section.

For the B.A. degree, foreign language is required through the intermediate level.

Freshman		
Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I (*)	3
MATH 1950	CALCULUS I (**)	5
PHYS 1950	PHYSICS GATEWAY COURSE	1
Foreign Language Course 1110***		5
*ENGL 1150: Requires appropriate placement.		
**MATH 1950: Requires placement through the Accuplacer or ALEKS Exam or ACT or SAT scores OR grades of C- or better within the past 2 years in both Math 1320 and 1330 or Math 1340.		
***Level 1110 foreign language courses count as a Humanity/Fine Arts course, Global Diversity, and toward the student's BA requirement. If student is fulfilling the BA requirement via alternative methods, then 16 additional credits including a HFA and Global Diversity will need to be factored in to this degree plan.		

Credits		14
Spring		
MATH 1960	CALCULUS II	4
PHYS 2110 & PHYS 1154	GENERAL PHYSICS I - CALCULUS LEVEL and GENERAL PHYSICS LABORATORY I (*)	5

reach that minimum amount.

Credits 16-18

Total Credits 119-121

This roadmap is a suggested plan of study and does not replace meeting
with an advisor. Please note that students may need to adjust the actual
sequence of courses based on course availability. Please consult an advisor
in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120
credit hours. Please review the requirements for your specific program to
determine all requirements for the program. In order to graduate on-time
(four years for an undergraduate degree), you need to take 30 hours each
year.

Placement Exams:

For Math, English, Foreign Language, a placement exam may be
required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of
study

GPA Requirements: 2.0

Graduation Requirements: Physics majors must also take the two
assessment tests (Major Field Test and Local test) and complete the exit
interview.

The senior project must be approved and the department chair notified at least eight months prior to graduation as a Physics major and the student must register for either PHYS 4950 (<https://catalog.unomaha.edu/search/?P=PHYS%204950>) or PHYS 4960 (<https://catalog.unomaha.edu/search/?P=PHYS%204960>).

Physics, Bachelor of Science

Requirements

The Bachelor of Science (B.S.) degree in physics is offered with three different options for students to follow: Option I is for the student who intends to go on to graduate school in physics; Option II allows for the degree to be enhanced by a second discipline; and finally, the Bachelor of Science in physics with a concentration in education leads to a physics teaching certificate at the secondary-school level. To help prospective physics majors make optimal decisions, they are encouraged to speak with a departmental adviser as early as possible.

To obtain a B.S. with a major in physics, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
Most commonly, physics majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead, they often test out of at least three hours of fundamental academic skills, take courses that meet both the six hours of diversity requirements and six hours of distribution requirements, and meet 4 hours of the natural sciences distribution requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 33 or fewer.
- 12-19 hours college breadth requirement
- 55 hours of major courses
- 15-16 hours of cognate courses
- 0-4 hours of electives

TOTAL HOURS: 120

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams:

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

****Transfer credit or placement exam scores may change suggested plan of study**

GPA Requirements: 2.0

Graduation Requirements: Physics majors must also take the two assessment tests (Major Field Test and Local test) and complete the exit interview.

The senior project must be approved and the department chair notified at least eight months prior to graduation as a Physics major and the student must register for either PHYS 4950 (<https://catalog.unomaha.edu/search/?P=PHYS%204950>) or PHYS 4960 (<https://catalog.unomaha.edu/search/?P=PHYS%204960>).

Physics, Bachelor of Science with a Concentration in Physics Education

To obtain a B.S. with a major in Physics, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses
Most commonly, Physics majors do not complete 46 hours of coursework solely for the purpose of meeting University General Education requirements. Instead, they often test out of at least three hours of fundamental academic skills, take courses that meet both the six hours of diversity requirements and six hours of distribution requirements, and meet the 7 hour natural sciences distribution requirement through completing major courses. In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 30 or fewer.
- 62 hours of major courses
- Elective hours as required to total 120 hours

TOTAL HOURS: 120

Requirements

A Bachelor of Science in physics with a concentration in education leads to a physics teaching certificate at the secondary-school level. In some cases, it is possible to earn both a B.S. in physics and a B.S. in secondary education.

PHYS 1350 & PHYS 1354	PRINCIPLES OF ASTRONOMY and INTRODUCTORY ASTRONOMY LAB	4
TED 2380	DEVELOPMENT AND LEARNING IN ADOLESCENCE	3
TED 2400	PLANNING FOR EFFECTIVE TEACHING (*)	6
HUMANITIES/FINE ARTS COURSE #2		3

*TED 2400 and 2380 must be taken back-to-back, in either a Morning or Afternoon block.

Required: Pass Praxis CORE Academic Skills by the end of this semester.

Required: Acceptance into Educator Preparation Program. Must have 2.75 GPA.

Credits 16

Junior**Fall**

CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY (*)	4
PHYS 3250 or MATH 2350	MATHEMATICAL METHODS OF PHYSICS (**) or DIFFERENTIAL EQUATIONS	3
PHYS 3300	INTRODUCTION TO BIOMEDICAL PHYSICS (***)	3
PHYS 3600	THERMODYNAMICS AND STATISTICAL PHYSICS (#)	3
HUMANITIES/FINE ARTS COURSE #3^		3

*CHEM 1180: Requires MATH 1320 or higher with grade of C- or better in last 2 years or placement via ACT/SAT/Math Placement Exam.

**PHYS 3250: Requires PHYS 2120 and MATH 1970. MATH 2350 requires MATH 1960

***PHYS 3300: Requires PHYS 1110. PHYS 2110 and PHYS 2120 are recommended.

#PHYS 3600: Requires MATH 1970 and PHYS 2120.

^HUMANITIES/FINE ARTS COURSE MUST BE IN A 2ND DISCIPLINE

Credits 16

Spring

PHYS 2130	MODERN PHYSICS (*)	4
PHYS 3450	CLASSICAL MECHANICS (**)	3

TED 3550	SECONDARY CLASSROOM MANAGEMENT (***)	3
TED 3690	LITERACY AND LEARNING (***)	3
Social Science Course #2		3

*PHYS 2130: Requires PHYS 2110, PHYS 2120, MATH 1950 and MATH 1960

**PHYS 3450: Requires MATH 1970 and PHYS 3250

***TED 3550 and TED 3690 must be taken back-to-back, in either a Morning or Afternoon block.

Credits 16

Senior**Fall**

GEOL 1170	INTRODUCTION TO PHYSICAL GEOLOGY	4
PHYS 3504	EXPERIMENTAL PHYSICS I (*)	1
PHYS 3750	ELECTRICITY AND MAGNETISM I (**)	3
SPED 3800	DIFFERENTIATION AND INCLUSIVE PRACTICES (***)	3
TED 4000	SPECIAL METHODS IN THE CONTENT AREA	3

Social Science Course #3^ 3

*PHYS 3504: Requires PHYS 2120. Complements PHYS 3750 and PHYS 4200

**PHYS 3750: Requires MATH 1970 and PHYS 3250

***SPED 3800: Must be taken concurrently with TED 4000 or TED 3550

^Social Science Course: Must be in a 2nd discipline.

Credits 17

Spring

TED 4600	CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL	12
----------	---	----

Credits 12

Total Credits 122

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.75

Graduation Requirements: Major Field Test, Local Test. For Teaching Certificate: Completion of Praxis CORE

Physics Minor

Requirements

The physics minor requires 18 credit hours in physics coursework, as outlined below. Minimum grade required for each course is "C-".

Code	Title	Credits
Required Courses:		9
PHYS 2110	GENERAL PHYSICS I - CALCULUS LEVEL (4 cr)	
PHYS 2120	GENERAL PHYSICS-CALCULUS LEVEL (4 cr)	
PHYS 1154 or PHYS 1164	GENERAL PHYSICS LABORATORY I (1 cr) GENERAL PHYSICS LABORATORY II	
Students must select 9 credit hours of electives, with a minimum of 6 credits at the 3000/4000 level.		
Select 6 credits from the following:		6
PHYS 3450	CLASSICAL MECHANICS (3 cr)	
PHYS 3600	THERMODYNAMICS AND STATISTICAL PHYSICS (3 cr)	
PHYS 3750	ELECTRICITY AND MAGNETISM I (3 cr)	
PHYS 3800	OPTICS (3 cr)	
PHYS 4200	INTRODUCTION TO QUANTUM MECHANICS (3 cr)	
Select an additional 3 credits in physics from 1000-4000 level, excluding PHYS 1030, 1034, 1050, 1054, 1110 and 1120.		3
Total Credits		18

Note: PHYS 3250 is a common prerequisite to other physics courses and could be a helpful free elective. Additionally, MATH 1950 and MATH 1960 are required for PHYS 2110 and PHYS 2120 respectively, with MATH 1970 being a common prerequisite to other physics courses.

Political Science

A major in political science prepares students for a rich and rewarding career. Political science graduates are well equipped for professions both at home and abroad in the fields of law, business, criminal justice, education, journalism, and government service at the local, state, and federal levels. In fact, many political science graduates have reached the pinnacle of their respective professions.

Political science is a flexible major, with the curriculum available **on campus or entirely online**. Political science is among the most popular liberal arts majors and is highly suitable for combination as a **double major** with other disciplines such as business, economics, foreign languages, history, international studies, philosophy, psychology, and sociology, among others.

The Bachelor of Arts and Bachelor of Science degrees may be obtained with or without a concentration. Students may pursue concentrations in government affairs and civic engagement, foreign and national security affairs, law and the courts, political thought, and race, ethnicity and gender politics.

Public Service

The political science major provides students with the tools to become effective and politically active citizens and leaders. Students learn to process the endless flow of ideas, rhetoric and data that are an inescapable feature of the information age. By polishing valuable skills in analysis, communication, research, and writing, political science classes challenge students to think independently, with an informed awareness of current affairs and tolerance for other points of view. With these skills

political science graduates are always among the leaders in community organizations and electoral politics.

Pre-Law

Political science continues to be the single most popular major among students who apply to law school. Law schools emphasize the importance of a course of study that develops the following skills: an understanding of human nature and human institutions, clarity in written and oral communication, and creative and critical thinking. Political science offers such an education, plus a number of courses that provide undergraduates with a rigorous introduction to legal concepts and arguments, as well as to the operation of the American legal system. Students who are interested in a majoring in political science as a preparation for law school are encouraged to pursue a concentration in law and the courts and they are invited to consult with the department's pre-law advisor.

Other Information

A political science major or minor must earn at least a "C-" in all political science and cognate courses presented in satisfaction of the major or minor. While a minimum of 36 hours of political science is required of a major (B.A. or B.S.), up to 45 hours may be applied toward either the B.A. or B.S. degree.

For the political science minor, 9 credits must be taken in residence at UNO.

For the political science major, 15 credits must be taken in residence at UNO.

The Division of Continuing Studies offers the Bachelor of General Studies degree with an area of concentration in political science. Students interested in this degree program must meet with an adviser in the Division of Continuing Studies. The major consists of a minimum of **30** credit hours in political science, details of which are here. (<https://www.unomaha.edu/college-of-public-affairs-and-community-service/division-of-continuing-studies/academics/areas-of-concentration/political-science.php>)

Option for Degree Completion Fast Track Program

The Department of Political Science has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing BA/BS in Political Science or BA in International Studies desiring to pursue a MS in Political Science.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.5.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.

- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.

Notes:

- 8000-level courses taken at the undergraduate level without having been accepted into the integrated program will not count towards a graduate program.
- Students accepted into the Fast Track program may be denied entry into the graduate program due to, but not limited to poor performance, academic integrity issues, and other violations of the student code of conduct.
- Before starting graduate work, students are expected to complete all PSCI subfield introductory courses (1100, 2000, 2210, 2310, and 2500) and 2-3 (3000/4000) level political science courses.
- Please inquire with the Department of Political Science graduate advisor for more information about this program.

Contact Information

275 Arts & Sciences Hall

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/political-science/>)

Degrees Offered

- Political Science, Bachelor of Arts (p. 314)
- Political Science, Bachelor of Science (p. 317)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. PSCI 2000 is required to satisfy the writing in the discipline course requirement for all Political Science Bachelor of Arts and Bachelor of Science students.

Minors Offered

- Political Science Minor (p. 320)
- Leadership and Public Policy Minor (p. 320)

Political Science majors make great employees in any field because of their ability to communicate effectively, think critically and solve complex problems. These timeless skills make them attractive to employers in all walks of society. Specifically though, Political Science majors often pursue careers in:

- Government
- Public Sector Jobs
- National Security
- Journalism and Media
- Law
- Diplomacy & International Affairs
- Business
- Human Rights
- Education

- Military
- Nonprofit & International Organizations

PSCI 1000 INTRODUCTION TO POLITICAL SCIENCE (3 credits)

This course introduces students to political ideas, behaviors, processes, institutions, and issues on a national and global level.

Distribution: Global Diversity General Education course and Social Science General Education course

PSCI 1100 INTRODUCTION TO AMERICAN NATIONAL GOVERNMENT (3 credits)

This course introduces students to the foundational principles, institutions, processes, and policies of national government in the United States.

Distribution: U.S. Diversity General Education course and Social Science General Education course

PSCI 2000 INTRODUCTION TO POLITICAL INQUIRY AND WRITING (3 credits)

This course introduces students to how political scientists conduct inquiry into political questions and how they write about the results of their investigations for various kinds of audiences. Students will learn the basics of quantitative and qualitative research methods in political science, will learn how to use the library and other available sources of information, and will produce the various kinds of writings by which political scientists communicate their findings to the public, to other scholars, and to political and governmental actors.

Prerequisite(s): PSCI 1100 or PSCI 1000 preferred. ENGL 1150 required and ENGL 1160 recommended.

Distribution: Writing in the Discipline Single Course

PSCI 2110 INTRODUCTION TO PUBLIC POLICY (3 credits)

An introduction to the formation and evaluation of public policy, with particular focus on the stages of public policy development.

Distribution: Social Science General Education course

PSCI 2120 INTRODUCTION TO LEADERSHIP (3 credits)

This course introduces students to civic leadership in a public setting, including theories of leadership, models of leadership, cases of success and failure, and the inherent tensions among democracy, leadership, and administration.

Distribution: Social Science General Education course

PSCI 2130 AFRICAN POLITICS (3 credits)

African Politics examines the socio-cultural and economic environments which characterize political life in contemporary Africa. This course examines contemporary African politics and government in post-independence Africa, and the pre-colonial political and economic systems which influence contemporary African politics. The course assesses the various approaches used to study the political development of the African continent; examines the processes, features, and institutions of the African states; addresses key and persistent issues about African politics; and examines dimensions of social change and political reform. (Cross-listed with BLST 2130).

Distribution: Global Diversity General Education course

PSCI 2150 CAREERS IN LAW AND POLITICS (3 credits)

This course introduces students to a diversity of career paths in both the public and private sector that are available in the fields of law and politics, and the motivations, qualifications, and expertise necessary for each.

Prerequisite(s): PSCI 1000 or PSCI 1100 is recommended. Not open to non-degree graduate students.

PSCI 2180 INTRODUCTION TO LAW (3 credits)

This course introduces students to the foundations, principles, functions, institutions, processes, issues, and fields of law with a special emphasis on the American political and legal systems.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course

PSCI 2210 INTRODUCTION TO INTERNATIONAL RELATIONS (3 credits)

This course introduces students to historical and contemporary questions and major theoretical approaches to world affairs through examination of the international system in terms of the economic, military, and political forces between states, international organizations, and transnational actors.

Distribution: Social Science General Education course and Global Diversity General Education course

PSCI 2310 INTRODUCTION TO POLITICAL THOUGHT (3 credits)

This course introduces students to the nature and scope of politics, the foundations of political thought, and competing traditions of political theory through the ideas of major political philosophers, the interpretation of their ideas, and the possible application of their ideas today.

Distribution: Humanities and Fine Arts General Education course

PSCI 2500 INTRODUCTION TO COMPARATIVE POLITICS (3 credits)

This course introduces students to the fundamental concepts and theoretical approaches used to study political institutions, processes, and public policies in different country settings. This course also illustrates the rich diversity of political life and the importance of global political and economic change.

Distribution: Global Diversity General Education course and Social Science General Education course

PSCI 3000 QUANTITATIVE ANALYSIS IN POLITICAL SCIENCE (3 credits)

This course introduces students to the techniques that political scientists use to answer research questions with quantitative data, as well as issues of research design, hypothesis formation, and causation. The course emphasizes the methods used to collect, analyze, and extract information from data using statistical computer software. (Cross-listed with PSCI 8005)

Prerequisite(s): MATH 1120, MATH 1130, MATH 1530, MATH 1220 or MATH 1310 or permission of department.

PSCI 3010 URBAN POLITICS (3 credits)

This course introduces students to the development, powers, forms of government, and functions of cities and their suburbs as well as the problems faced by elected officials, business and community leaders, and citizens in the urban setting. (Cross-listed with PSCI 8015)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3040 GOVERNMENT AND POLITICS OF NEBRASKA (3 credits)

This course introduces students to the development, structures, functions and public policies of the government of the state of Nebraska. (Cross-listed with PSCI 8045)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor. .

PSCI 3050 STATE GOVERNMENT AND POLITICS (3 credits)

This course introduces students to the development, structures, functions and public policies of states. (Cross-listed with PSCI 8055)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3100 LGBT POLITICS (3 credits)

This course introduces students to the political struggle for Lesbian, Gay, Bisexual, and Transgender (LGBT) equal rights in the United States using a model of political empowerment, which may be applied for all minority or identity groups and social movements, generating operationalized measures of progress toward the loci of political power. (Cross-listed with PSCI 8105, WGST 3100, WGST 8105)

Prerequisite(s): PSCI 1100 is recommended.

Distribution: U.S. Diversity General Education course

PSCI 3120 THE AFRICAN AMERICAN EXPERIENCE IN POLITICS (3 credits)

This course will provide a historical and contemporary survey of the African American political experience in the United States, from the passage of the 15th Amendment in the late 1800s, to the 1965 Voting Rights Act, and continuing into the 21st century. Students will examine the evolution of the Black political experience, with emphasis on the fight against enslavement, segregation, lynchings and mass incarceration, and the long struggle of African Americans against institutional and structural racism in the American political system. (Cross-listed with BLST 3120)

Prerequisite(s): PSCI 1000 or PSCI 1100

Distribution: U.S. Diversity General Education course

PSCI 3130 WOMEN AND POLITICS (3 credits)

This course introduces students to women's political participation, including holding elective office, socialization, the feminist movement and its opposition, and public policies with particular impact on women. The focus is on contemporary perspectives on women in American political ideas and behavior. (Cross-listed with PSCI 8135, WGST 3130, WGST 8135)

Prerequisite(s): PSCI 1100 is recommended.

Distribution: U.S. Diversity General Education course

PSCI 3140 LATINO/-A POLITICS (3 credits)

This course introduces students to the dynamism and growth of the role of Latinos, as a group of political actors, in the United States. This course provides students with an exposure to and understanding of various concepts and dimensions of this phenomenon, including historical and contemporary Latino political thought and the efforts to increase political empowerment (representation and participation) and influence through grassroots, social, and political movements. (Cross-listed with PSCI 8145, LLS 3140, LLS 8145)

Prerequisite(s): PSCI 1100 is recommended.

Distribution: U.S. Diversity General Education course

PSCI 3150 ASIAN PACIFIC AMERICANS AND THE NEW MINORITY POLITICS (3 credits)

This course will be devoted to a broad discussion about the emergence of Asian Pacific Americans by birth and immigration, the fastest growing minority in the U.S., as a significant factor in American politics. (This course fulfills the department's American politics requirement).

Prerequisite(s): Junior standing or by professor's permission.

PSCI 3160 POLITICAL PARTIES (3 credits)

This course introduces students to the origin, development, structure, and functions of political parties in the United States as political organizations, coalitions of voters, and governing coalitions that seek to hold office and influence public policy. (Cross-listed with PSCI 8165)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3170 INTEREST GROUPS (3 credits)

This course introduces students to the theories, formation, organization, and activities of interest groups and their impact on public policy, particularly through their role in campaigns and elections and lobbying. (Cross-listed with PSCI 8175)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3180 CAMPAIGNS AND ELECTIONS (3 credits)

This course introduces students to the evolution and modern application of campaigns and elections in the United States through examination of campaign management and campaign strategy in congressional and presidential elections. (Cross-listed with PSCI 8185)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 3210 GEOPOLITICS OF CENTRAL ASIA AND SOUTH ASIA (3 credits)

This course will focus on the geographic area of Central Asia-South Asia (CASA) and provide students with opportunity to understand the dynamics that made this region a traditional contest area between regional and global powers for centuries. Central Asia-South Asia region is home to successful democracies, a monarchy, and dictatorships. This course is designed to help students analytically assess the geopolitical variables concerning the CASA region and the players involved. Post 9/11 developments in Afghanistan have brought the whole region once again to the forefront of geopolitical struggle between global and regional players, thus reigniting the struggle of the New Great Game in the region. These multiple elements of regional, development, stability and instability will be discussed in this course.

Prerequisite(s): PSCI 2210 or junior standing or permission of instructor. Recommended: INST 2130: Introduction to International Studies.

PSCI 3220 DIPLOMACY AND INTERNATIONAL PROBLEM SOLVING (3 credits)

This course introduces students to the history, principles, structures, and processes developed to organize and legitimize peaceful reconciliation of the differences of nation-states and to advance their mutual interests in the contemporary global political and economic system. (Cross-listed with PSCI 8225)

Prerequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 3230 GENDER AND GLOBAL POLITICS (3 credits)

This seminar introduces students to gender politics in comparative and international politics. (Cross-listed with PSCI 8235, WGST 3230, WGST 8235)

Prerequisite(s): PSCI 2500 is recommended.

Distribution: Global Diversity General Education course

PSCI 3240 THE POLITICS AND PRACTICE OF HUMAN RIGHTS (3 credits)

This course introduces students to human rights issues across the globe and explores the theoretical foundations of human rights as well as human rights institutions and transitional justice. (Cross-listed with PSCI 8245)

Prerequisite(s): PSCI 2210 or junior standing or permission of the instructor.

PSCI 3250 GLOBAL SECURITY ISSUES (3 credits)

This course introduces students to issues of national and international security that cross boundaries and threaten all countries including issues such as climate change, environmental deterioration, population and demographics, gender issues, disease and public health, the media, asymmetrical warfare, drugs/organized crime, and cyberthreats. (Cross-listed with PSCI 8255)

Prerequisite(s): PSCI 2210 or junior status or permission of instructor.

PSCI 3260 UNITED STATES FOREIGN POLICY (3 credits)

This course introduces students to the analysis of foreign and defense policy processes in the United States, including the role of the President, Congress, Departments of State and Defense, the intelligence community, and other actors/factors affecting policy formulation and implementation. (Cross-listed with PSCI 8265)

Prerequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 3340 AMERICAN POLITICAL THOUGHT (3 credits)

This course introduces students to the ideals, ideologies, identities, and institutions of American political thought from the country's origins to the present. Topics to be covered may include the political thought of the early American settlers and of the founding generation, the debates over the creation and implementation of the Constitution, the 19th century arguments over slavery, the rise of progressivism, the New Deal and its critics, and contemporary American conservatism and liberalism. (Cross-listed with PSCI 8345)

Prerequisite(s): PSCI 1100 or PSCI 2310 or junior standing or permission of instructor.

PSCI 3410 LAW AND THE BLACK COMMUNITY (3 credits)

Law and the Black Community provides an in-depth examination of the racialized American legal process as it pertains to and affects African Americans in the U.S. From the formation of the U.S. Constitution to present day, this course analyzes intersections of race, law, politics and culture, and explores the administration of justice and Black experiences through a critical legal perspective. (Cross-listed with BLST 3410, CRCJ 3410).

Prerequisite(s): BLST 1000 or CRCJ 1010 or Junior standing or instructor permission

Distribution: U.S. Diversity General Education course

PSCI 3450 AFRICAN ECONOMIC DEVELOPMENT (3 credits)

African Economic Development critically examines historical, political, and socioeconomic forces that have shaped African economies. Students taking this course will learn about the evolution of the modern economic systems, methods of production, distribution and exchange which affect African economies. The course examines the historical impact of colonialism, capitalism, and imperialism on the displacement of ancient trade routes and markets throughout the African continent; the historical impact of these foreign colonial states and tools on the development of contemporary African private sectors, economic institutions, and global competition; and contemporary strategies of economic development, regional cooperation, and international trade, particularly as they affect Sub-Saharan Africa. (Cross-listed with BLST 3450).

PSCI 3500 EUROPEAN POLITICS (3 credits)

This course introduces students to the political institutions, processes, and public policies of the states of Europe, including the European Union. (Cross-listed with PSCI 8505)

Prerequisite(s): PSCI 2500 or junior status or permission of instructor.

Distribution: Global Diversity General Education course

PSCI 3510 IMMIGRATION LAW AND LATINOS (3 credits)

This course provides an overview of the U.S. Immigration laws with an emphasis on Latino migration. In analyzing Latino migration, we will look at the push and pull factors of migration, the channels available for lawful migration, and the impact immigrants have in our society. (Cross-listed with LLS 3510).

PSCI 3580 GOVERNMENT AND POLITICS OF RUSSIA AND THE POST-SOVIET STATES (3 credits)

This course introduces students to the political cultures, institutions, processes, and public policies of Russia and the states of the former Soviet Union. (Cross-listed with PSCI 8585)

Prerequisite(s): PSCI 2500 or junior status or permission of instructor.

Distribution: Global Diversity General Education course

PSCI 3640 GOVERNMENT AND POLITICS OF CHINA AND EAST ASIA (3 credits)

This course introduces students to the political cultures, institutions, processes, policies, and other characteristics of China and neighboring states, with reference to other major powers engaged in the region. (Cross-listed with PSCI 8645)

Prerequisite(s): PSCI 2500 or junior standing or permission of instructor.

Distribution: Global Diversity General Education course

PSCI 3660 GOVERNMENT AND POLITICS OF JAPAN AND EAST ASIA (3 credits)

This course introduces students to the political cultures, institutions, processes, policies and other characteristics of Japan and neighboring states, with reference to other major powers engaged in the region. (Cross-listed with PSCI 8665)

Prerequisite(s): PSCI 2500 or junior standing or permission of instructor.

Distribution: Global Diversity General Education course

PSCI 3680 GOVERNMENT AND POLITICS OF LATIN AMERICA (3 credits)

This course introduces students to the political institutions, processes, and public policies of the states of Latin America. (Cross-listed with PSCI 8685, LLS 3680, LLS 8685)

Prerequisite(s): PSCI 2500 or junior status or permission of instructor.

Distribution: Global Diversity General Education course

PSCI 3700 GOVERNMENT AND POLITICS OF THE MIDDLE EAST (3 credits)

This course introduces students to government and politics in the contemporary Middle East, including considerations of state formation, authoritarianism and democratization, state-society relations, religion, culture, gender, and economy. (Cross-listed with PSCI 8705)

Prerequisite(s): PSCI 2500 or junior standing or permission of instructor.

Distribution: Global Diversity General Education course

PSCI 3910 SPECIAL TOPICS IN POLITICAL SCIENCE (1 credit)

This course introduces students to a specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours.

PSCI 3920 SPECIAL TOPICS IN POLITICAL SCIENCE (2 credits)

This course introduces students to a specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours.

PSCI 3930 SPECIAL TOPICS IN POLITICAL SCIENCE (3 credits)

This course introduces students to a specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours.

PSCI 4030 THE PRESIDENCY (3 credits)

This course introduces students to the development and modern application of presidential leadership through examination of presidential selection, presidential decision-making, the relationship of the presidency with other governmental and non-governmental actors, and the role of the presidency in making public policy. (Cross-listed with PSCI 8036)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4040 CONGRESS AND THE LEGISLATIVE PROCESS (3 credits)

This course introduces students to the development of the Congress and modern application of the legislative process through examination of congressional elections, congressional leadership, congressional decision-making, legislative rules and procedures, the relationship of the Congress with other governmental and non-governmental actors, and the role of the Congress in making public policy. (Cross-listed with PSCI 8046)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4050 THE JUDICIAL PROCESS (3 credits)

This course introduces students to the administration of law in federal and state courts with respect to the organization of the courts, judicial selection, judicial powers, judicial decision-making, judicial policy-making, the bar, and reform movements in the pursuit of justice. (Cross-listed with PSCI 8056)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4100 MONEY IN AMERICAN POLITICS (3 credits)

This course surveys facts and scholarship about two types of money in American politics: money as a political resource and money as policy. As a political resource, money is critically important for candidates to win elections, for interest groups to exert influence on government, and for policy expertise from civil society to inform government policy. As policy itself, in history or in modern times money has lain at the heart of policy debates like the creation of a national bank, gold and silver as legal tender, and financial regulations, as well as perennial governmental processes like federal budgeting and appropriations and the selection of congressional party leaders. This course trains students to comprehend, analyze, critically evaluate, and build on key research on these topics. (Cross-listed with PSCI 8106).

Prerequisite(s): PSCI 1100 is a strongly recommended prerequisite.

PSCI 4110 POLITICAL PSYCHOLOGY (3 credits)

This course introduces students to the role of human thought, emotion, and behavior in politics through examination of the psychological factors that motivate political elites and the mass public. (Cross-listed with PSCI 8116, PSYC 4110, PSYC 8116)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4120 PUBLIC OPINION AND POLLING (3 credits)

This course introduces students to the origins, nature, measurement, and consequences of public opinion on policymaking. (Cross-listed with PSCI 8126)

Prerequisite(s): PSCI 1100 or junior standing or permission of the instructor.

PSCI 4130 BROWN V. BOARD OF EDUCATION (3 credits)

Brown v. Board of Education traces the educational history of African Americans from segregation to desegregation to re-segregation. This course will review the legal cases before and after the Supreme Court's Brown decision, their aftermath, and the effects on educational policies and practices. (Cross-listed with BLST 8716, BLST 4710, PSCI 8136).

Prerequisite(s): Junior standing OR senior standing or permission of instructor.

Distribution: U.S. Diversity General Education course

PSCI 4140 CONSTITUTIONAL LAW: CIVIL RIGHTS (3 credits)

This course introduces students to the history, principles, and judicial interpretation of key constitutional provisions and federal statutes regarding civil rights in the United States. (Cross-listed with PSCI 8146)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4150 LAW AND THE COURTS: MOCK TRIAL (3 credits)

This course introduces students to the American legal system, including its courtroom aspects, through preparation of and participation in a mock trial case.

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor. Not open to non-degree graduate students.

PSCI 4160 LAW AND THE COURTS: MOCK TRIAL PRACTICUM (1-3 credits)

This course introduces students to the American legal system through participation in mock trial competition.

Prerequisite(s): PSCI 4150 or junior standing or permission of instructor. Not open to non-degree graduate students.

PSCI 4170 CONSTITUTIONAL LAW: FOUNDATIONS (3 credits)

This course introduces students to the principles, design and operation of the American constitutional system with emphasis on analysis of the Declaration of Independence, the Articles of Confederation, the proceedings of the Constitutional Convention, and the Federalist Papers. (Cross-listed with PSCI 8176)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor

PSCI 4180 CONSTITUTIONAL LAW: THE FEDERAL SYSTEM (3 credits)

This course introduces students to American constitutional law as it relates to issues of federalism, the relation of the nation and the states, and separation of powers, the relation of the three branches of the national government. (Cross-listed with PSCI 8186)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4190 CONSTITUTIONAL LAW: CIVIL LIBERTIES (3 credits)

This course introduces students to the philosophy, history, and development of the personal liberties guaranteed by the Constitution including freedom of speech, religion, assembly, petition, and the right of privacy, primarily through examination of Supreme Court decisions. (Cross-listed with PSCI 8196)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSCI 4200 INTERNATIONAL RELATIONS OF EAST ASIA (3 credits)

This course introduces students to the international politics of East Asia with an emphasis on the contemporary relations among major East Asian states (China, Japan, the Korean peninsula) and the United States. (Cross-listed with PSCI 8206)

Prerequisite(s): PSCI 2210 or junior standing or permission of instructor.

Distribution: Global Diversity General Education course

PSCI 4210 INTERNATIONAL RELATIONS OF THE MIDDLE EAST (3 credits)

This course focuses on the international politics of the Middle East region, specifically looking at conditions for peace and causes of war. It examines how the international system, domestic politics, ideologies, and leaders influence international politics in the Middle East. (Cross-listed with PSCI 8216)

Prerequisite(s): PSCI 2210 or junior standing or permission of instructor.

Distribution: Global Diversity General Education course

PSCI 4240 INTERNATIONAL CONFLICT RESOLUTION (3 credits)

This course introduces students to different approaches to peace, their basic assumptions, and their application to current conflicts. (Cross-listed with PSCI 8246)

Prerequisite(s): PSCI 2210 or junior status or permission of instructor.

PSCI 4250 INTELLIGENCE AND NATIONAL SECURITY (3 credits)

This course introduces students to the United States intelligence services, and their relation to broader U.S. national security policy. (Cross-listed with PSCI 8256)

Prerequisite(s): PSCI 2210 or junior standing or permission of instructor

PSCI 4260 INTERNATIONAL LAW (3 credits)

The course introduces students to the general principles of international law, including the key actors, the creation and sources of international law, the interpretation of international law by courts and tribunals, and its enforcement. (Cross-listed with PSCI 8266)

Prerequisite(s): PSCI 2210 or junior status or permission of instructor.

PSCI 4270 GLOBAL ENVIRONMENTAL POLITICS (3 credits)

This course introduces students to issues of global environmental politics and policy, including the science behind issues such as climate change, how environmental policy is made at the national and international levels, and what role politics plays in determining environmental resource use. (Cross-listed with ENVN 4270, PSCI 8276)

Prerequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 4280 INTERNATIONAL RELATIONS OF LATIN AMERICA (3 credits)

Analysis of the role of Latin American states in the international political arena. Emphasis upon developing, applying and testing an explanatory theory of international politics through the study of the inter-American system: the regional, institutional and ideological environment, power relations, policies and contemporary problems. (This course fulfills the department's international politics requirement). (Cross-listed with PSCI 8286, LLS 4280, LLS 8286)

Prerequisite(s): PSCI 2500 or junior standing or permission of the instructor.

Distribution: Global Diversity General Education course

PSCI 4290 INTERNATIONAL DEVELOPMENT & SUSTAINABILITY (3 credits)

This course introduces students to different concepts of international development through the lens of sustainability. The course explores a broad range of activities related to international development, including international aid, trade, philanthropy, interventions in conflict, peacebuilding, public health, human rights, social justice, and the environment. (Cross-listed with PSCI 8296, CACT 8306)

Prerequisite(s): PSCI 2210 or junior standing or permission of instructor.

PSCI 4310 CLASSICAL POLITICAL THOUGHT (3 credits)

This course introduces students to key works representative of premodern political thought. Authors examined may include Plato, Aristotle, Xenophon, Cicero, Augustine, and Aquinas. (Cross-listed with PSCI 8316).

Prerequisite(s): PSCI 2310 or junior standing or permission of instructor.

PSCI 4320 EARLY MODERN POLITICAL THOUGHT (3 credits)

This course introduces students to key works of the 16th through mid-18th centuries. Authors examined may include Machiavelli, Hobbes, Hume, Smith and Montesquieu. (Cross-listed with PSCI 8326)

Prerequisite(s): PSCI 2310 or junior standing or permission of instructor

PSCI 4330 LATE MODERN POLITICAL THOUGHT (3 credits)

This course introduces students to key texts of the mid-18th through 19th centuries. Authors to be examined may include Rousseau, Burke, Mill, Tocqueville, Marx, and Nietzsche. (Cross-listed with PSCI 8336)

Prerequisite(s): PSCI 2310 or junior standing or permission of instructor.

PSCI 4340 CONTEMPORARY POLITICAL THOUGHT (3 credits)

This course introduces students to leading works of contemporary political thought, including Marx, Spencer, Dahl, Rawls, feminism, and rational choice. The theories, their interrelationships, the theorists, and the manifestations of these works will be discussed and analyzed. (Cross-listed with PSCI 8346)

Prerequisite(s): PSCI 2310 or junior standing or permission of instructor.

PSCI 4350 DEMOCRACY (3 credits)

A basic study of theory, practice and practitioners of political democracy, its roots, development, present application and problems and future. (Cross-listed with PSCI 8356)

Prerequisite(s): PSCI 2500 or junior standing or permission of instructor is required.

PSCI 4360 AUTHORITARIAN REGIMES (3 credits)

An analysis of various types of authoritarian regimes, their differences from democratic governments, and the causes of their establishment, maintenance, and failure. (Cross-listed with PSCI 8366).

Prerequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 4370 GENERALS AND POLITICIANS: CIVIL-MILITARY RELATIONS (3 credits)

This course introduces students to civil-military relations and military politics across the globe. (Cross-listed with PSCI 8376).

Prerequisite(s): PSCI 2500 or junior standing or permission of the instructor.

Distribution: Global Diversity General Education course

PSCI 4380 TOPICS IN POLITICAL THEORY (3 credits)

This course will conduct an in-depth exploration of an important issue, movement, thinker, or work in political theory. The particular subject matter will vary and will be chosen by the instructor.

Prerequisite(s): Junior, or permission of instructor. Junior, or permission of instructor. Not open to non-degree graduate students.

PSCI 4430 INDIAN GAMING (3 credits)

This course will be an in depth study of the history and development of Indian Gaming law and policy. (Cross-listed with NAMS 4140).

Prerequisite(s): PSCI 1100, or junior standing, or permission of instructor.

PSCI 4440 FEDERAL INDIAN LAW (3 credits)

This course provides an overview of tribal legal authority as it exists within federal law. It includes traditional North American tribal governance and leadership practices. Key topics include the federal-tribal trust relationship, Indian treaties, federal Indian policies and case law, and 20th Century establishment of modern tribal governments and courts. (Cross-listed with NAMS 4440).

Prerequisite(s): PSCI 1100, or junior standing, or permission of instructor.

PSCI 4450 CONTEMPORARY TRIBAL NATION BUILDING (3 credits)

This course applies traditional North American tribal governance and leadership beliefs and practices in a critical examination of contemporary tribal governments, tribal courts and programs, and tribal leaders. This course challenges students to assess present tribal governments and leaders concerning their effectiveness in meeting the needs of tribal people today. (Cross-listed with NAMS 4240).

Prerequisite(s): PSCI 1100, or junior standing, or permission of instructor.

PSCI 4470 SOUTH AFRICA & THE SOCIO POLITICS OF APARTHEID (3 credits)

South Africa and the Socio Politics of Apartheid examines the lived experiences of South African people under the Apartheid system, and their long struggle against European colonial oppression and racial segregation throughout the 20th century. Students will examine the laws, tools, and strategies that developed and sustained Apartheid, and the anti-Apartheid movements and international pressure that led to its repeal and South African democratic elections. (Cross-listed with BLST 8476, BLST 4470, PSCI 8476, SOC 8476, SOC 4470).

Prerequisite(s): Junior standing or permission of instructor

Distribution: Global Diversity General Education course

PSCI 4500 GOVERNMENT AND POLITICS OF GREAT BRITAIN (3 credits)

A comprehensive study of contemporary British politics and government. Emphasis will be focused on the formal institutions and informal customs and practices of the British political system. (Cross-listed with PSCI 8506).

Prerequisite(s): Junior

PSCI 4520 POLITICS OF FRANCE (3 credits)

This course introduces students to the political heritage of France, contemporary political institutions and problems, and political and policy responses to these problems. (Cross-listed with PSCI 8526)

Prerequisite(s): PSCI 2500 or junior standing or permission of instructor.

Distribution: Global Diversity General Education course

PSCI 4550 POLITICAL VIOLENCE, INSURGENCY, AND TERRORISM (3 credits)

This course is a survey on the types of violence used within a political context, focusing on its causes, forms and consequences. Specifically, this course details why and how violence occurs, and its impact on institutions and the people operating within that system. (Cross-listed with PSCI 8556).

Prerequisite(s): PSCI 2210 or PSCI 2500

PSCI 4620 ISLAM AND POLITICS (3 credits)

This course introduces students to the interaction between religion and politics in the Muslim world, covering various political ideologies in the Muslim world and different experiences of Muslim-majority countries such as Saudi Arabia, Pakistan, Iran, Turkey, Indonesia, and Egypt. It will also analyze mainstream and radical transnational Islamic movements. (Cross-listed with PSCI 8626)

Prerequisite(s): PSCI 2210 or 2500 is recommended.

Distribution: Global Diversity General Education course

PSCI 4630 ASIAN POLITICS (3 credits)

This course provides students with a broad understanding of Asian Politics with a focus on Northeast Asia (Mainland China, Japan, South Korea, North Korea, and Taiwan) and some emphasis on Southeast Asia (Singapore, Philippines, Thailand, and Vietnam). Students in this course will investigate these Asian societies and discuss their shared history as well as their common political themes, patterns, and connections. Students will explore state institutions, political parties, and state-society relations through the overarching themes of development, democracy, and nationalism. Specific themes include the economic rise of East Asian states, the emergence and development of democracy in the region, and the persistence of authoritarianism. By the end of the course, students will be able to describe, explain, and critically evaluate from a social science perspective the principal political features and processes of these Asian societies and develop their own research projects based on a topic discussed in the course. (Cross-listed with PSCI 8646).

Prerequisite(s): PSCI 2500 or equivalent is recommended.

PSCI 4710 COMPARATIVE INTERNATIONAL DEVELOPMENT AND INNOVATION (3 credits)

Comparative International Development and Innovation will analyze the rise and fall of civilizations from a historical and theoretical perspective in a comparative manner. The course will address issues concerning political, social, economic, and environmental change in national, and international contexts. Among its major emphases are state institutions, economic growth, entrepreneurship, and the transformation of social structure and culture. (Cross-listed with PSCI 8716, ENTR 4710, ENTR 8716).

PSCI 4770 POLITICAL SOCIOLOGY (3 credits)

This course explores political sociology, focusing on political processes and power. Political sociologists investigate relationships between political institutions and various other institutions, including but not limited to the economy, education, media, and religion, and the impacts that these relationships have on society and the individuals that comprise the society. This course will explore the concepts, theories, and knowledge that comprise this field such as power, legitimacy, the state, networks, stratification, and collective action. (Cross-listed with PSCI 8776, SOC 4770, SOC 8776).

Prerequisite(s): SOC 1010, junior standing or permission of instructor

PSCI 4820 POLITICS AND FILM (3 credits)

This course introduces students to the analysis of politics and film, focusing on how politics is portrayed in film and the politics of film making. (Cross-listed with JMC 4820, JMC 8826, PSCI 8826)

PSCI 4900 READINGS IN POLITICAL SCIENCE (1-3 credits)

This course provides students an opportunity to study an advanced and specialized subject matter in the field of political science not covered in existing courses. The student must be capable of pursuing a highly independent course of study, which must be approved in consultation with the instructor in advance. This course may be repeated for different topics up to a maximum of six credit hours.

Prerequisite(s): Permission of instructor.

PSCI 4910 POLITICAL SCIENCE INTERNSHIP (1-6 credits)

This course offers students an opportunity to experience the resolution of public issues through direct involvement in career-oriented policy organizations. The host organization must be approved in advance in consultation with the internship coordinator. This course may be repeated for a maximum of six credit hours.

Prerequisite(s): Permission of instructor.

PSCI 4920 ADVANCED SPECIAL TOPICS IN POLITICAL SCIENCE (1-3 credits)

This course introduces students to an advanced and specialized subject matter in the field of political science not covered in existing courses. This course may be repeated for different topics up to a maximum of six credit hours. (Cross-listed with PSCI 8926)

Prerequisite(s): Junior standing or permission of instructor.

PSCI 4950 SENIOR ASSESSMENT IN POLITICAL SCIENCE (0 credits)

This zero-credit-hour course is used to assess the knowledge and skills that are imparted by the Political Science program to its students. Seniors must enroll in the class, take the major field test, and submit a writing assignment from one of their upper level political science courses. Because this is a 0 credit course, these items will not be graded, but they will be scored for purposes of program assessment.

Prerequisite(s): Senior standing. Permission of Department Chair required.

Distribution: Writing in the Discipline Single Course

Political Science, Bachelor of Arts

To obtain a B.A. with a major in Political Science, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 16 hours of foreign languages
- 12-19 hours college breadth requirement
- 36 hours of major courses
- 3-10 hours of electives

TOTAL HOURS: 120

Requirements

The major consists of a minimum of 36 credit hours in political science. At least 18 hours of political science courses must be taken at the 3000 and 4000 levels.

Code	Title	Credits
B.A. Requirements		
PSCI 1100	INTRODUCTION TO AMERICAN NATIONAL GOVERNMENT	3

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Political Science, Bachelor of Science

To obtain a B.S. with a major in Political Science, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 12-19 hours college breadth requirement
- 51 hours of major courses
- 4-11 hours of electives

TOTAL HOURS: 120

Requirements

The major consists of a minimum of 36 credit hours in political science. At least 18 hours of political science courses must be taken at the 3000 and 4000 levels.

Code	Title	Credits
PSCI 1100	INTRODUCTION TO AMERICAN NATIONAL GOVERNMENT	3
PSCI 2000	INTRODUCTION TO POLITICAL INQUIRY AND WRITING	3
PSCI 2210	INTRODUCTION TO INTERNATIONAL RELATIONS	3
PSCI 2310	INTRODUCTION TO POLITICAL THOUGHT	3

PSCI 3000	QUANTITATIVE ANALYSIS IN POLITICAL SCIENCE	3
PSCI 4950	SENIOR ASSESSMENT IN POLITICAL SCIENCE	0
Electives		
Remaining hours in political science shall be elected by students in accordance with their interests.		18
Cognate Courses		
Select a minimum of 15 credit hours of cognate course work in other disciplines.		15
Total Credits		51

Cognate Courses

A minimum of 15 credit hours of cognate course work in other disciplines must also be taken to support the student's work in the major. This requirement is the same as that of the College of Arts and Sciences.

Students should consult with departmental advisers and the department chair to determine which courses are suitable for inclusion in the cognate. Students should be aware that some courses require pre-requisites. In addition, no more than six hours of courses at the 1000 level nor courses used to satisfy general education requirements will be credited as cognate course work.

Optional Concentrations

The Bachelor of Arts and Bachelor of Science degrees are available with or without a concentration. If students choose, a concentration may be pursued in government affairs and civic engagement, foreign and national security affairs, law and the courts, political thought, or race, ethnicity and gender politics.

PSCI 4950	SENIOR ASSESSMENT IN POLITICAL SCIENCE	0

NOTE: *Students need a minimum of 120 total credits with no
less than 27 upper level credits throughout the entire degree.
Students may need to select 3000/4000 level free electives,
cognate courses, or may earn minors or second majors to
reach these specific minimums.

Credits 13-14

Total Credits 119-122

This roadmap is a suggested plan of study and does not replace meeting
with an advisor. Please note that students may need to adjust the actual
sequence of courses based on course availability. Please consult an advisor
in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours
for a UNO undergraduate degree is 120 credit hours. Please review the
requirements for your specific program to determine all requirements for
the program. In order to graduate on-time (four years for an undergraduate
degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement
exam may be required. More information on these exams can be found

at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Political Science Minor

Requirements

An undergraduate minor in political science may be earned by completing 15 hours of political science, 12 of which must be at the 3000 to 4000 level. All of these courses must be completed with a grade of "C-" or better.

The political science minor is offered on campus, entirely online, or a combination of the two.

Leadership and Public Policy Minor

Description

The leadership and public policy minor is designed to appeal to students in a wide variety of majors that desire to complement their primary field of study with practical knowledge that will enable them to serve as public leaders. The minor will direct students to think critically about the viable solutions needed to solve problems that require effective leadership for the public good. It will engage students in learning about leadership for the public good and effective citizenship.

Students in the minor will learn the role of leadership in public policy. Specifically, they will learn how people in positions of both public responsibility (such as government officials) and private influence (such as the heads of for-profit and non-profit organizations) act in the realm of public policy: how demands for changes to public policy are organized and communicated, how social problems are identified and policies to address them are developed, how such policies are formally enacted, how they are implemented, and how they are evaluated.

This minor will offer students a substantive qualification in public policy leadership and will give them a way to demonstrate a specific commitment in this area of expertise to potential employers and graduate programs. It will prepare students for work in public organizations, as well as private for-profit and non-profit organizations, involved in the policy-making process. It will also prepare them for graduate studies in fields such as political science, public administration, and law.

Other Information

All coursework taken for the leadership and public policy minor must be completed with a grade of "C-" or better.

The leadership and public policy minor is intended for majors outside of political science. Should a political science major choose to also minor in leadership and public policy, minor requirements will not double-count within the political science major.

Contact

Dr. Carson Holloway, Political Science Chairperson
275 Arts & Sciences Hall
402-554-2624
cholloway@unomaha.edu

Requirements

The minor in leadership and public policy requires a total of 15 credit hours. Students will be required to take the following courses:

Code	Title	Credits
PSCI 2110	INTRODUCTION TO PUBLIC POLICY	3
PSCI 2120 or PA 2000	INTRODUCTION TO LEADERSHIP LEADERSHIP & ADMINISTRATION	3
Select three upper division courses in leadership or public policy from the following: ¹		9
PSCI 3010	URBAN POLITICS	
PSCI 3040	GOVERNMENT AND POLITICS OF NEBRASKA	
PSCI 3050	STATE GOVERNMENT AND POLITICS	
BLST/PSCI 3410	LAW AND THE BLACK COMMUNITY	
PSCI 4030	THE PRESIDENCY	
PSCI 4040	CONGRESS AND THE LEGISLATIVE PROCESS	
PSCI 4050	THE JUDICIAL PROCESS	
PA 3200	PROGRAM PLANNING AND EVALUATION	
PA 4300	SEMINAR IN PUBLIC POLICY	
PA 4390	PUBLIC BUDGETING	
Total Credits		15

¹ Other appropriate upper-division courses may also be used with the permission of an advisor.

Psychology

The Department of Psychology offers the Bachelor of Arts and the Bachelor of Science degrees. The psychology course requirements are identical in these two degree programs, emphasizing training and hands-on experience in the research process centered on a four-course sequence capped by a laboratory in one of six areas of psychology: learning, cognition, development, sensation and perception, behavioral neuroscience, or animal behavior. The B.A. and B.S. degree programs differ in additional course requirements, as described below. Both programs prepare the student for graduate study in psychology.

Psychology majors may declare a concentration in any one of the following eight areas: applied behavior analysis, cognitive science, developmental psychology, forensic psychology, industrial/organizational psychology, mental health, neuroscience and behavior, and school psychology. Each concentration is a minimum of 12 credit hours. A concentration is optional, and only one concentration may be declared.

Other Information

All coursework taken for the psychology major or minor must be completed with a grade of "C-" or better.

For the psychology minor, 9 credits must be taken in residence at UNO.

Students who come from community colleges with psychology courses that are taught at the upper division level here: The courses will count toward the psychology major, but will not count toward the 27-credit upper division psychology requirement.

One of the required non-psychology courses for the B.S. degree may be taken CR/NC.

For psychology courses that are cross-listed with another discipline (PSYC/BIOL, PSYC/SOC, PSYC/GERO), only one course per discipline may count toward the cross-listed discipline and the psychology major or minor.

Note for Double Majors in Neuroscience and Psychology:

Beyond the neuroscience fundamentals courses, students cannot use a 3000/4000 level course to count toward both majors. Students may

overlap 3000/4000 level PSYC courses between the PSYC Neuroscience and Behavior Concentration and the Neuroscience major.

Note for Students Completing a Neuroscience Major and Psychology Minor:

No upper-level (3000/4000 level) PSYC courses will be allowed to count toward both programs.

Student Groups

Psi Chi - Local (<https://www.unomaha.edu/college-of-arts-and-sciences/psychology/student-opportunities/psi-chi.php>); National Honor Society in Psychology (<https://www.psichi.org/default.aspx>)

Nu Rho Psi – National Honor Society in Neuroscience (<https://nurhopsi.org/>)

Psychology Student Interest Group – Canvas Page where students can learn about events, activities, meetings, or opportunities related to psychology happening on campus or in the Omaha community! Psychology students will automatically receive an invitation to join the canvas page near the start of the semester from the Canvas portal. Students can also request to be added to this group by submitting their email address here (https://unomaha.az1.qualtrics.com/jfe/form/SV_1SUVaqjKEDZGIYd/).

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/psychology/>)

Degrees Offered

- Psychology, Bachelor of Arts (p. 325)
- Psychology, Bachelor of Science (p. 329)

Writing in the Discipline

PSYC 3140 fulfills the requirement for a writing in the discipline course within the Psychology major.

Minors Offered

- Psychology Minor (p. 334)

As most people know, a primary focus in psychology is in the diagnosis and treatment of mental health issues. But that's just one of many specialties within the field. In addition to Clinical and Counseling Psychology, other popular subdisciplines include Industrial-Organizational Psychology, School Psychology, Applied Behavior Analysis, Behavioral Neuroscience, Developmental Psychology, Social Psychology, and Cognitive Psychology.

Because Psychology is so diverse in its focus and research, a Bachelor's degree in Psychology prepares students for a wide variety of careers. This major helps students develop universally useful skills like communication, critical-thinking, an understanding of the scientific process, and a proficiency with statistics and data. A Bachelor's degree in Psychology is also a great choice for those interested in pursuing a graduate degree in Psychology, Counseling, Law and Criminal Justice, Social Work, or Medicine and Health Sciences. So if you're curious about why we do the things that we do and ready for a rewarding career, join us in Psychology.

Psychology majors who have completed a Bachelor's degree often pursue careers in the following fields:

- Mental health services
- Social services
- Human resources
- Case management
- Physical health and wellness
- Crisis work

- Rehabilitation services
- Testing and assessment
- Business administration
- Research and data analysis
- Nonprofit and charitable organizations

PSYC 1010 INTRODUCTION TO PSYCHOLOGY I (3 credits)

An overview of scientific understanding of the human mind and behavior. Theories and empirical tests of explanations for how we think, feel, and act. This course is a prerequisite to all subsequent, more specialized courses in Psychology.

Distribution: Social Science General Education course

PSYC 1020 INTRODUCTION TO PSYCHOLOGY II (3 credits)

Provides students who have completed a course in introductory psychology with an opportunity for in-depth study of selected areas of psychology along with related laboratory experiences. Research methodology is emphasized.

Prerequisite(s): PSYC 1010. The proposed course is designed to build upon the content knowledge gained in a first introductory psychology course.

PSYC 2000 CAREER PATHS IN PSYCHOLOGY (1 credit)

A course that introduces the student to the different career paths available to psychology majors, both within and outside of the psychology field and those including graduate or professional school as well as career paths for those with bachelor's degrees. Required of psychology majors. This is a one (1) hour credit course.

Prerequisite(s): PSYC 1010.

PSYC 2024 EXPLORATIONS IN THE SCIENCE OF PSYCHOLOGY (2 credits)

This course explores the scientific foundation of psychology representing several topic areas such as Learning, Developmental, Cognitive, and Physiological Psychology. Basic application of statistics and APA manuscript writing will build a solid background for upper-level courses in Psychology.

Prerequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 2100 LEARNING ASSISTANT SEMINAR (0 credits)

This course focuses on effective methods of college teaching and instructional strategies. Students participate in activities designed to increase their understanding of the role of a Learning Assistant.

Prerequisite(s): PSYC 1010 and permission of instructor. Not open to non-degree graduate students.

PSYC 2500 LIFESPAN PSYCHOLOGY (3 credits)

A life span approach to development focusing on the biological, cognitive, and social emotional changes in development occurring from infancy through old age. The impact of these changes on the individual's behavior and interactions with society will be emphasized.

Prerequisite(s): PSYC 1010.

PSYC 3130 STATISTICS FOR THE BEHAVIORAL SCIENCES (3 credits)

An introduction to statistics with particular emphasis on models and hypothesis testing covering analysis of variance, chi-square, F and t-tests, first-order regression and correlation.

Prerequisite(s): One from this list: MATH 1120, MATH 1300, MATH 1320, STAT 1530, MATH 1310 or MATH 1220. Psychology Majors Only: PSYC 2024 (prior to, or concurrent with).

PSYC 3140 RESEARCH METHODS IN PSYCHOLOGY (4 credits)

An introduction to the methods by which psychologists attempt to create, disseminate and integrate knowledge about behavior. PSYC 3140 fulfills the Writing in the Discipline Requirement for Psychology and Neuroscience majors.

Prerequisite(s): Psychology majors require PSYC 2000, PSYC 3130 and ENGL 1160. Neuroscience majors require PSYC 3130 and ENGL 1160

Distribution: Writing in the Discipline Single Course

PSYC 3150 SMALL-N RESEARCH METHODS (4 credits)

This course provides an introduction to small-n research methods including design, implementation, analysis, dissemination, and integration knowledge about behavior. Students also learn to use of small-n designs to identify evidence-based practices to address clinical problems experienced by individuals across a variety of settings and how to critically evaluate research in psychology. The course differs from other research methods courses (e.g., those involving qualitative methods or group designs) with its focus on objective, repeated measurement and analysis of performance at the level of the individual. This course fulfills the Writing in the Discipline Requirement for Psychology.

Prerequisite(s): PSYC 3130 or Junior Status. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

PSYC 3250 RACE, PSYCHOLOGY & CULTURAL DIFFERENCE (3 credits)

Race, Psychology & Cultural Difference is an introductory course that teaches students the psychology behind prejudice, stereotyping, and implicit bias when encountering racial and cultural difference, with particular focus on African Americans. In this course, students will explore concepts of racial and cultural difference, examine fundamental psychological concepts relative to racial and cultural prejudice and stigmas, and discuss cognitive processes of categorization and stereotyping that shape perceptions of racial and cultural difference. Overall, students will explore a conceptual framework for understanding race, psychology, and cultural difference and will learn psychological well-being strategies and approaches for mindfulness, self-regulation, and self-affirmation as challenges to racial and cultural prejudice, stereotyping, and implicit bias. (Cross-listed with BLST 3250).

Prerequisite(s): Sophomore standing or permission of instructor

PSYC 3410 CLINICAL PSYCHOLOGY (3 credits)

A broad survey of problems and practices in the diagnosis and treatment of emotional and behavioral disorders.

Prerequisite(s): PSYC 1010.

PSYC 3430 PERSONALITY AND ADJUSTMENT (3 credits)

The study of persons in a social context and their resultant effective and ineffective behavior, with emphasis on types of adjustment.

Prerequisite(s): PSYC 1010.

PSYC 3450 SOCIAL PSYCHOLOGY (3 credits)

Social interaction studied in situations of (1) social influences on individuals, (2) dyads or face-to-face groups, and (3) larger social systems. The concepts, theories, data, research methods and applications of varied substantive topics are examined. (Cross-listed with SOC 3450)

Prerequisite(s): SOC 1010 or PSYC 1010

PSYC 3510 EDUCATIONAL PSYCHOLOGY (3 credits)

A study of the capacities and interests of children and their individual differences. Factors that influence learning and an evaluation of learning and classroom procedures are included.

Prerequisite(s): PSYC 1010.

PSYC 3520 CHILD PSYCHOLOGY (3 credits)

A study of the biological, social, emotional and cognitive development of the child emphasizing infancy and childhood.

Prerequisite(s): PSYC 1010.

PSYC 3540 ADOLESCENT PSYCHOLOGY (3 credits)

A review of theory and available evidence useful in understanding changes and problems in the physical, intellectual, social and emotional adjustment of individuals in adolescence.

Prerequisite(s): PSYC 1010.

PSYC 3650 PHILOSOPHY OF MIND (3 credits)

A discussion of various accounts of the nature of minds which focuses upon philosophical problems such as whether the mind is identical with the brain, the extent of similarities between human minds and computers, the nature of personal identity and the relationship of mental activity to behavior. (Cross-listed with PHIL 3650, PHIL 8655).

Prerequisite(s): No Prerequisites. Some prior coursework in Philosophy is recommended but not required.

PSYC 4010 HISTORY OF PSYCHOLOGY (3 credits)

A study of the origins, development and nature of psychology and its relation to external events; emphasis on the period since 1875. (Cross-listed with PSYC 8016)

Prerequisite(s): at least 15 hours of Psychology credits including PSYC 1010 or approval of instructor. Not open to non-degree students or students in other departments or programs.

PSYC 4020 LEARNING (3 credits)

A comprehensive coverage of the experimental literature and theories on human and animal learning.

Prerequisite(s): PSYC 1020

PSYC 4024 LABORATORY IN PSYCHOLOGY: LEARNING (3 credits)

Classical experiments and a service-learning research project designed to apply general learning principles. Systematic techniques used to assess behavior changes associated with the learning process, research design, and scientific report writing will be emphasized.

Prerequisite(s): PSYC 3140 and PSYC 4020. Not open to nondegree students.

PSYC 4030 CONCEPTUAL ANALYSIS OF BEHAVIOR (3 credits)

This course will provide students with an introduction to the theory and philosophy of behavior. Students will explore the history and foundations of behaviorism, alternative and contrasting perspectives of behavior, the shift from Behavior Modification to Behavior Analysis, the analysis of behavior within, and contemporary applications of Behavior Analysis. This course will emphasize and revisit how the theory and philosophy of behavior translate to real-world applications.

Prerequisite(s): At least 15 hours of Psychology including PSYC 1010. Not open to non-degree graduate students.

PSYC 4070 COGNITIVE PSYCHOLOGY (3 credits)

An exploration of historical and contemporary research and theory concerned with cognitive processes including attention, memory, problem solving and concept formation.

Prerequisite(s): PSYC 1020.

PSYC 4074 LABORATORY IN PSYCHOLOGY: COGNITION, SENSATION AND PERCEPTION (3 credits)

Laboratory work coordinated with PSYC 4070, emphasizing a presentation of methods of research assessing human attention, memory and problem-solving processes. Research design, data analysis and research report writing are also emphasized.

Prerequisite(s): PSYC 3140 and PSYC 4070 or PSYC 4090 or PSYC 4210.

PSYC 4090 COGNITIVE NEUROSCIENCE (3 credits)

This course is concerned with the relationship between cognition and the brain. Special attention will be devoted to the techniques used to study specific relationships and the theoretical perspectives that have guided research in the area. Topics for the course include history, neural mechanisms, methods, lateralization of function, sensation and perception, memory, language, action and movement, executive processes, computer models, and the social brain.

Prerequisite(s): PSYC 1020 or NEUR 1520 or NEUR 1540. Not open to non-degree graduate students.

PSYC 4110 POLITICAL PSYCHOLOGY (3 credits)

This course introduces students to the role of human thought, emotion, and behavior in politics through examination of the psychological factors that motivate political elites and the mass public. (Cross-listed with PSCI 4110, PSCI 8116, PSYC 8116)

Prerequisite(s): PSCI 1100 or junior standing or permission of instructor.

PSYC 4130 ADVANCED UNDERGRADUATE STATISTICS FOR THE BEHAVIORAL SCIENCES (3 credits)

Traditional undergraduate statistics courses cover a range of inferential approaches allowing students to begin engaging in social science research. Nevertheless, those pursuing a senior thesis, participating in a research lab and/or considering going to graduate school would benefit from additional statistical training. This course aims to expand on the material covered in traditional behavioral statistics classes and offers students the opportunity to develop expertise in additional approaches usually reserved for graduate students. Combining examples from developmental psychology, cross-cultural comparisons, adolescent peer relations and psycho-physiology, we will cover advanced statistical approaches with the goal of tackling questions that apply in the real world. This course focuses on learning both the mechanics of correlation and regression as well as an understanding of the statistical concepts underlying correlations and regression, the use of these statistics and interpretation of the results.

Prerequisite(s): PSYC 3130, MATH 1120, STAT 1530, MATH 1310 or MATH 1220.

PSYC 4150 AFRICAN AMERICAN PSYCHOLOGY (3 credits)

African American Psychology traces the psychological history of Africans and African Americans from self-attributes and identity, through race and racism, to cognition, learning, and language. This course will review concepts relevant to understanding the psychology of African Americans, methodological and research issues, and best practices. (Cross-listed with PSYC 8156, BLST 4150, BLST 8156).

Prerequisite(s): PSYC 1010 and Junior standing or Instructor permission

Distribution: U.S. Diversity General Education course

PSYC 4160 NEUROPHARMACOLOGY (3 credits)

Neuropharmacology will introduce students to ligand-receptor interactions and their effects on behavior, cognition, and development. This course will characterize the molecular structure of ligands and how these small molecules or biologics affect central nervous system receptors and transporters. Students will learn about structure-activity relationships and principles of pharmacology: distribution, metabolism, pharmacokinetics, and elimination) and explore the historical milestones in drug development. We'll also discuss the dynamic actions of drugs of abused drugs and the mechanisms of action. For undergraduate Neuroscience Majors, the course counts as a Neuroscience Block 1. (Cross-listed with PSYC 8166, NEUR 4160, NEUR 8166).

Prerequisite(s): NEUR 1520 or NEUR 1540 or PSYC 1020 or BIOL 1450. PSYC 4230 recommended for students who have not taken NEUR 1520 or BIOL 1450.

PSYC 4210 SENSATION AND PERCEPTION (3 credits)

Reading and discussion concerning psychophysical methods, sensory physiology, phenomenology of various sensory systems and theories of the perceptual process.

Prerequisite(s): PSYC 1020 or NEUR 1520 or NEUR 1540.

PSYC 4230 BEHAVIORAL NEUROSCIENCE (3 credits)

A comprehensive study of the relationship of the nervous and other organ systems to behavior. Research on both human and other animal species is considered. (Cross-listed with NEUR 4230).

Prerequisite(s): PSYC 1010 OR BIOL 1450

PSYC 4234 LABORATORY IN PSYCHOLOGY: BEHAVIORAL NEUROSCIENCE (3 credits)

Laboratory course designed to introduce the students to the techniques and procedures of physiological psychology. Scientific report writing, problems of research design and data analysis also will be emphasized.

Prerequisite(s): PSYC 3140. Psych majors PSYC 4230; Neuroscience majors NEUR 1520 or NEUR 1540.

PSYC 4240 PHILOSOPHY OF EMOTION (3 credits)

In this class, we will aim to understand emotions, moods, attitudes, and other affective phenomena from a broad, empirically informed perspective while keeping practical issues in mind. We will ask questions such as: What are emotions, moods, and the rest? How are these various affective phenomena related to one another? How do they provide information about our relationship to the world? Under what conditions are they appropriate or inappropriate? What role do they play in our reasoning and decision-making? What role do they play in our ethical lives? What role do they play in the arts (e.g., music, literature, film)? (Cross-listed with PHIL 4240).

Prerequisite(s): No prerequisites. Some prior philosophical coursework would be useful, but it is not required.

PSYC 4250 LIMITS OF CONSCIOUSNESS (3 credits)

Consciousness is often considered one of the last great mysteries of science. Despite our internal experience of pleasures, sights, sounds, and pains, it is a largely open question why we have these experiences and what makes them happen. This upper level seminar class examines the philosophy, psychology, and neuroscience of consciousness. Topics covered will include neuroscientific theories of consciousness, unconscious perception, the relationship between attention and consciousness, animal consciousness, and detecting consciousness in the persistent vegetative state. (Cross-listed with PSYC 8256, PHIL 4250, PHIL 8256)

Prerequisite(s): PSYC 1010; or 6 hours in Philosophy. Not open to non-degree graduate students.

PSYC 4260 MORAL PSYCHOLOGY (3 credits)

The growing interdisciplinary field of moral psychology studies our moral beliefs and decision-making processes using the tools of anthropology, psychology, philosophy, and neuroscience. Topics in the science of morality will include the moral-conventional distinction (the distinction between moral norms and non-moral norms such as etiquette), the role of reasons vs. emotions in moral judgment, the brain basis of moral decision-making, cultural differences in moral norms, psychopathy, and the development of morality in children. Psychology studies the nature of moral judgment using behavioral tasks. Neuroscience employs techniques such as functional magnetic resonance imaging (fMRI), transcranial magnetic stimulation (TMS), and other tools for monitoring and manipulating brain processes to study "where" in the brain moral decision making occurs and the nature of these decisions. Throughout the course, we will examine how these empirical findings intersect with the ethical choices that we ought to make. (Cross-listed with PHIL 4260).

Prerequisite(s): No prerequisites. Some prior course work in Philosophy is recommended, but not required.

PSYC 4270 ANIMAL BEHAVIOR (3 credits)

Behavior of diverse animals for the understanding of the relationships between nervous integration and the behavior manifested by the organism, as well as the evolution and adaptive significance of behavior as a functional unit. (Cross-listed with PSYC 8276, BIOL 4270, BIOL 8276)

Prerequisite(s): BIOL 1750 and PSYC 1010 or permission of instructor, junior-senior.

PSYC 4280 ANIMAL BEHAVIOR LABORATORY (3 credits)

Laboratory and field studies of animal behavior with an ethological emphasis. Classical laboratory experiences and independent studies will be conducted. (Cross-listed with PSYC 8286, BIOL 4280, BIOL 8286)

Prerequisite(s): PSYC 4270 or BIOL 4270 or PSYC 8276 or BIOL 8273. Not open to non-degree graduate students.

PSYC 4310 PSYCHOLOGICAL AND EDUCATIONAL TESTING (3 credits)

The use of standardized tests in psychology and education is considered with special regard to their construction, reliability and validity. (Cross-listed with PSYC 8316)

Prerequisite(s): PSYC 1010 and junior/senior. Not open to non-degree graduate students.

PSYC 4320 HORMONES & BEHAVIOR (3 credits)

In this course, students will examine the interaction between hormones, chemical messengers released from endocrine glands, and behavior in both human and animal systems. Methods for studying hormonal issues on behavior will be addressed. This course will provide students in psychology, biology, and related disciplines an understanding of how hormones affect sensory processing, motor activities, and processing of information in the central nervous system. (Cross-listed with PSYC 8326, BIOL 4320, BIOL 8326)

Prerequisite(s): PSYC 1010 and either BIOL 1020 or 1750. Not open to non-degree graduate students.

PSYC 4350 BASIC/EXPERIMENTAL BEHAVIOR ANALYSIS (3 credits)

This course provides an overview of essential concepts on basic and experimental behavior analysis. Students will learn to apply a theoretical framework of behavior change concepts to socially important behaviors.

Prerequisite(s): PSYC 1010; PSYC 4020. Not open to non-degree graduate students.

PSYC 4414 LABORATORY IN APPLIED BEHAVIOR ANALYSIS (3 credits)

Laboratory and field experience emphasizing practice and research used in behavior analysis. Emphasis will be placed on application of behavioral principles and tactics in community settings (e.g., clinic, home, school).

Prerequisite(s): PSYC 3140 or PSYC 3150; PSYC 4020; PSYC 4570 or instructor approval. Not open to non-degree graduate students.

PSYC 4440 ABNORMAL PSYCHOLOGY (3 credits)

A course designed to examine the aberrant behavior of individuals. Symptoms, dynamics, therapy and prognosis of syndromes are considered. (Cross-listed with PSYC 8446)

Prerequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4444 CAPSTONE IN PSYCHOLOGY: MENTAL HEALTH (3 credits)

PSYC 4444 is a capstone course to apply and expand concepts learned in mental health coursework. Students will experience exposure to and practice utilizing mental health skills such as interviewing, screening, assessment, service coordination, family-centered care, report-writing, group intervention, basic observation and data collection, mental health documentation, and other skills needed in applied mental health settings within a multicultural perspective.

Prerequisite(s): PSYC 3130 and ONE of the following classes: PSYC 4440, PSYC 4470, PSYC 4510, PSYC 4570, PSYC 4590. PSYC 3140 or PSYC 3150 recommended but not required. Open to Juniors and Seniors. Not open to non-degree graduate students.

PSYC 4450 PERSONALITY THEORIES (3 credits)

A comparative approach to the understanding and appreciation of personality theories considering history, assertions, applications, validations and prospects. (Cross-listed with PSYC 8456)

Prerequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4460 PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING (3 credits)

The focus of this course is on the major social and psychological changes that occur as a function of aging. Both normal and abnormal patterns of developmental change are examined, along with their implications for behavior. (Cross-listed with GERO 4460, GERO 8466).

Prerequisite(s): Junior or Senior.

PSYC 4470 MENTAL HEALTH AND AGING (3 credits)

The goal of this courses is to survey the mental health needs of older adults. Consideration is given to identifying both positive mental health and pathological conditions. Treatment interventions effective with older adults and their families are also discussed. (Cross-listed with PSYC 8476, GERO 4470, GERO 8476)

Prerequisite(s): Junior or Senior

PSYC 4510 PSYCHOLOGY IN THE SCHOOLS (3 credits)

This course introduces students to the academic and mental health needs of children and youth in schools, as well as how those needs are addressed individually and systemically. A service learning experience enables students to work directly with school-age children.

Prerequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4520 PSYCHOLOGY OF LANGUAGE (3 credits)

Language is what makes us human. It influences our thoughts and affects our lives in many ways. In this class, topics include the distinctive features of human language as a system of communication, the understanding and production of speech, reading and spelling, language development, bilingualism, language disorders, and how our social and cultural environment can influence how language is used. (Cross-listed with PSYC 8526)

Prerequisite(s): Senior or graduate or permission of instructor. Not open to non-degree graduate students.

PSYC 4530 CULTURAL PSYCHOLOGY (3 credits)

This course will provide an overview of the cultural, community and ecological factors that play a role in how people perceive their environments. The goal is to investigate the ways in which culture affects individual behaviors, attitudes and cognitions. It may be easy to tell that two cultures are different, but identifying exactly what is meant - and all that is encompassed - when speaking about "culture" can be much more difficult. Culture can include everything from gender constructs and race/ethnicity to the effects of new technologies. All of these aspects of culture affect individuals' psychological make-up and behavior. Although psychology has largely developed from a Western tradition, attention to research from non-Western perspectives will also be emphasized. This course supports the Cultural and Global Analysis concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 8536, CACT 8106).

Prerequisite(s): PSYC 1010.

PSYC 4544 LABORATORY IN DEVELOPMENTAL PSYCHOLOGY (3 credits)

Laboratory work coordinated with PSYC 3520 and PSYC 3540 emphasizing the methods of research and statistical analyses used in the study of human development. Emphasis will be placed on the development of skills involved in the design of experiments, data collection, data analysis, reasoning about results, and scientific report writing.

Prerequisite(s): PSYC 3140, PSYC 3520, and PSYC 3540 or permission of instructor. Not open to non-degree graduate students.

PSYC 4560 FORENSIC PSYCHOLOGY (3 credits)

The roles and functions of forensic psychologists, as participants in the legal system, are studied, with special emphasis on the relevance of theories and principles from social psychology. Psychological concepts, theories, data, research methods and applications to varied substantive topics are examined (e.g., forensic careers, police psychology, violence, criminal profiling, sociopathy and psychopathy, risk assessment, expert testimony, and corrections).

Prerequisite(s): PSYC 1010 or SOC 1010 and PSYC 3450 or SOC 3450.

PSYC 4570 BEHAVIOR ANALYSIS AND INTERVENTIONS (3 credits)

Introduction to experimental methodology, rationale and research literature of changing behavior through behavior modification techniques. Particular attention will be paid to methodological concerns regarding single subject design, ethical considerations and ramifications of behavior intervention with children and youth. (Cross-listed with PSYC 8576)

Prerequisite(s): PSYC 1010, PSYC 4020 and permission of instructor. Not open to non-degree graduate students.

PSYC 4590 PSYCHOLOGY OF EXCEPTIONAL CHILDREN (3 credits)

A study of exceptional children and adolescents with sensory or motor impairments, intellectual retardations or superiorities, talented or gifted abilities, language or speech discrepancies, emotional or behavioral maladjustments, social or cultural differences, or major specific learning disabilities.

Prerequisite(s): PSYC 1010 and junior/senior.

PSYC 4630 ORGANIZATIONAL PSYCHOLOGY (3 credits)

This is a survey course which will cover the major concepts, theories and empirical research related to organizational psychology. Specific topics will include: work motivation, leadership, decision making and job satisfaction as well as more recent trends such as cultural diversity, work teams, work-family and quality issues. (Cross-listed with PSYC 8636)

Prerequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4640 PERSONNEL PSYCHOLOGY (3 credits)

A survey of psychological principles, theories and research related to personnel issues. Course includes discussion of personnel selection, performance appraisal, recruitment, training and health and safety. (Cross-listed with PSYC 8646)

Prerequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4644 LABORATORY IN PSYCHOLOGY: SOCIAL/INDUSTRIAL-ORGANIZATIONAL (3 credits)

Laboratory work coordinated with PSYC 3450 and PSYC 4630 or PSYC 4640, emphasizing a presentation of methods of research assessing human social behavior and applied psychological processes. Research design, data analysis and research report writing are also emphasized.

Prerequisite(s): PSYC 3140, PSYC 3450 and PSYC 4630 or PSYC 4640.

PSYC 4650 CREATIVITY AND INNOVATION IN ORGANIZATIONS (3 credits)

To provide a discussion of the antecedents of individual and organizational creativity, including measurement, models, characteristics of the individual and the environment that facilitate creativity and innovation in an organizational setting. Students in this course will be able to understand the research literature related to creativity and innovation and apply the findings to improve critical and creative thinking, implementation of creative ideas, and development of creative teams and organizations. This course supports the Organizational Science and Leadership concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with PSYC 8656, CACT 8506)

PSYC 4680 POSITIVE PSYCHOLOGY, HEALTH, & WELL-BEING (3 credits)

Positive psychology is the scientific study of the "good life", or the positive aspects of the human experience that make life worth living. The discipline of positive psychology focuses on both individual and societal well-being. Students will learn the tenets of positive psychology and well-being research findings, including the various definitions and operationalizations of happiness and well-being.

Prerequisite(s): PSYC 1010

PSYC 4800 LAW & PSYCHOLOGY: ETHICS, RESEARCH & SERVICE (3 credits)

This course presents legal principles relevant to all psychological specialties, with special reference to mental health services. Ethical reasoning and the APA ethics code are considered. (Cross-listed with PSYC 8806)

Prerequisite(s): 15 hours of Psychology credits including PSYC 1010 or approval of the instructor. Not open to non-degree graduate students.

PSYC 4810 PRACTICE AND ETHICS IN BEHAVIOR ANALYSIS (3 credits)

This course presents ethical and legal issues relevant to research and practice in behavior analysis. This class will provide undergraduate students with knowledge of ethic codes and legal statutes that guide the field of applied behavior analysis and psychology more broadly. The primary emphasis will be the practical application of ethics to clinic, school, and community settings where children and adolescents are the recipients of services. Class topics related to ethics will be: principles, decision making, assessment and practice, supervision, research, responsibilities to the field of applied behavior analysis, and responsibility in public statements.

Prerequisite(s): PSYC 1010. Not open to non-degree graduate students.

PSYC 4910 SPECIAL TOPICS IN PSYCHOLOGY (1 credit)

One credit hour Special Topics courses allow for in-depth study of psychology topics not offered in our regular curriculum. When enrolling, see notes section on course listing for specific topic. May be repeated as topics change, but six hours of Special Topics courses (PSYC 4910, PSYC 4920, and PSYC 4930) is the maximum that may be applied toward a psychology major.

PSYC 4920 SPECIAL TOPICS IN PSYCHOLOGY (2 credits)

Two credit hour Special Topics courses allow for in-depth study of psychology topics not offered in our regular curriculum. When enrolling, see notes section on course listing for specific topic. May be repeated as topics change, but six hours of Special Topics courses (PSYC 4910, PSYC 4920, and PSYC 4930) is the maximum that may be applied toward a psychology major.

Prerequisite(s): Variable according to topic.

PSYC 4930 SPECIAL TOPICS IN PSYCHOLOGY (3 credits)

Three credit hour Special Topics courses allow for in-depth study of psychology topics not offered in our regular curriculum. When enrolling, see notes section on course listing for specific topic. May be repeated as topics change, but six hours of Special Topics courses (PSYC 4910, PSYC 4920, and PSYC 4930) is the maximum that may be applied toward a psychology major.

PSYC 4960 INDEPENDENT STUDY IN PSYCHOLOGY (1-6 credits)

A faculty-supervised special research project and/or directed readings involving empirical research and appropriate oral and written reports arranged individually with students on topics not explored in other offerings. If students do not complete the work during the semester they enroll in the course, they must complete all the work within an academic year of their enrollment.

Prerequisite(s): A minimum of 10 hours of Psychology including PSYC 1010 & PSYC 1020 and 1 additional course. Completion of the Independent Study Form and permission from the Undergraduate Program Committee (UPC).

PSYC 4970 PRACTICUM IN PSYCHOLOGY (3 credits)

This course provides an opportunity for practical application and further development of knowledge and skills acquired in the undergraduate psychology major. The practicum will provide a practical and career-building placement in a work setting. Students will develop skills and knowledge important for new steps in careers and graduate programs.

Prerequisite(s): PSYC 1020; PSYC 3140; GPA requirement: 2.8; Permission of instructor, and Letter of agreement from industry mentor. Not open to non-degree graduate students.

PSYC 4990 SENIOR THESIS (3-6 credits)

The course is designed to provide the student with the opportunity to initiate, design, analyze, and write-up an original experimental study in an area of interest to the student. Although the course is intended primarily for students who need to satisfy the requirement of a second experimental/laboratory course in the Bachelor of Science degree program, all students interested in this course will be considered on an individual basis.

Prerequisite(s): PSYC 3140 ('B' or better), 'B' average in major; signed statement from faculty member of Psychology Department who is willing to serve as adviser; written approval from chair of undergraduate program committee. Must be a 2nd semester junior or later.

Psychology, Bachelor of Arts

To obtain a B.A. with a major in Psychology, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 16 hours foreign language requirement
- 12-19 hours college breadth requirement
- 37 hours of major courses
- 2-9 hours of electives

TOTAL HOURS: 120

Requirements

The psychology major requires 37 psychology credits, 27 credits of which must be upper-division. There are additional B.A. requirements, as detailed below.

Code	Title	Credits
Core Courses ¹		
PSYC 1010	INTRODUCTION TO PSYCHOLOGY I	3
PSYC 1020	INTRODUCTION TO PSYCHOLOGY II	3
PSYC 2000	CAREER PATHS IN PSYCHOLOGY	1
PSYC 2024	EXPLORATIONS IN THE SCIENCE OF PSYCHOLOGY	2
PSYC 3130	STATISTICS FOR THE BEHAVIORAL SCIENCES	3
PSYC 3140	RESEARCH METHODS IN PSYCHOLOGY	4
Psychology Distribution Requirements		
Select four courses from the Psychology Distribution Areas as outlined below.		12
Upper-Level Psychology Laboratory Courses		
Select one of the following:		3
PSYC 4024	LABORATORY IN PSYCHOLOGY: LEARNING	
PSYC 4074	LABORATORY IN PSYCHOLOGY: COGNITION, SENSATION AND PERCEPTION	
PSYC 4234	LABORATORY IN PSYCHOLOGY: BEHAVIORAL NEUROSCIENCE	
PSYC/BIOL 4280	ANIMAL BEHAVIOR LABORATORY	
PSYC 4544	LABORATORY IN DEVELOPMENTAL PSYCHOLOGY	
PSYC 4644	LABORATORY IN PSYCHOLOGY: SOCIAL/ INDUSTRIAL-ORGANIZATIONAL	
PSYC 4990	SENIOR THESIS ²	
Upper-Level Psychology Electives		
Two additional 3-credit hour 3000- or 4000-level Psychology courses are required. These may be selected from the Psychology Distribution Requirements, the Labs, or any other 3000- or 4000- level Psychology courses offered.		6
Additional B.A. Requirement		
Foreign Language: The B.A. degree program requires completion of a foreign language through the intermediate level.		
Total Credits		37

¹ These six courses should be taken early in the student’s degree program. Concepts learned in these courses will benefit the student in upper-level Psychology classes.

² PSYC 4990–Senior Thesis Part II: Data Analysis, Interpretations and Conclusions. Requires special permission from a faculty member and the student must meet the Psychology Senior Thesis criteria.

Psychology Distribution Areas

Four courses (12 credit hours) are required, one course (3 credit hours) each from four of the following five areas.

Applied Psychology

Code	Title	Credits
PSYC 3510	EDUCATIONAL PSYCHOLOGY	3
PSYC 4020	LEARNING	3

PSYC 4310	PSYCHOLOGICAL AND EDUCATIONAL TESTING	3
PSYC 4510	PSYCHOLOGY IN THE SCHOOLS	3
PSYC 4560	FORENSIC PSYCHOLOGY	3
PSYC 4630	ORGANIZATIONAL PSYCHOLOGY	3
PSYC 4640	PERSONNEL PSYCHOLOGY	3

Social/Personality/Developmental Psychology

Code	Title	Credits
PSYC/SOC 3450	SOCIAL PSYCHOLOGY	3
PSYC 3520	CHILD PSYCHOLOGY	3
PSYC 3540	ADOLESCENT PSYCHOLOGY	3
PSYC 4450	PERSONALITY THEORIES	3
PSYC/GERO 4460	PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING	3

Mental Health

Code	Title	Credits
PSYC 3410	CLINICAL PSYCHOLOGY	3
PSYC 3430	PERSONALITY AND ADJUSTMENT	3
PSYC 4440	ABNORMAL PSYCHOLOGY	3
PSYC/GERO 4470	MENTAL HEALTH AND AGING	3
PSYC 4590	PSYCHOLOGY OF EXCEPTIONAL CHILDREN	3
PSYC 4800	LAW & PSYCHOLOGY: ETHICS, RESEARCH & SERVICE	3

Cognitive/Neuroscience

Code	Title	Credits
PSYC 4070	COGNITIVE PSYCHOLOGY	3
PSYC 4090	COGNITIVE NEUROSCIENCE	3
PSYC 4210	SENSATION AND PERCEPTION	3
PSYC 4230	BEHAVIORAL NEUROSCIENCE	3
PSYC/BIOL 4270	ANIMAL BEHAVIOR	3
PSYC/BIOL 4320	HORMONES & BEHAVIOR	3
PSYC 4520	PSYCHOLOGY OF LANGUAGE	3

Additional Perspectives

Code	Title	Credits
PSYC/PHIL 3650	PHILOSOPHY OF MIND	3
PSYC 4010	HISTORY OF PSYCHOLOGY	3
PSYC/PSCI 4110	POLITICAL PSYCHOLOGY	3
PSYC/BLST 4150	AFRICAN AMERICAN PSYCHOLOGY	3
PSYC/PHIL 4250	LIMITS OF CONSCIOUSNESS	3
PSYC 4680	POSITIVE PSYCHOLOGY, HEALTH, & WELL-BEING	3
PSYC 4960	INDEPENDENT STUDY IN PSYCHOLOGY ¹	1-6
PSYC 4990	SENIOR THESIS ²	3

¹ PSYC 4960 requires special permission from a faculty mentor, approval of the UPC, and a final paper, project or conference presentation.

² PSYC 4990–Senior Thesis Part I: Thesis Proposal (3 credit hours). Requires special permission from a faculty member and the student must meet the Psychology Senior Thesis criteria.

Optional Concentrations

Psychology majors may declare a concentration in any one of the following seven areas. Each concentration is a minimum of 12 credit hours. A

concentration is optional, and only one concentration may be declared. The concentration will be noted on the student's transcript.

Concentration in Applied Behavior Analysis

To obtain a Concentration in ABA, students will complete of 12-13 credit hours from the Verified Course Sequence, indicating that the student has a more in-depth knowledge of ABA.

Required

Code	Title	Credits
Required Courses		
PSYC 4570	BEHAVIOR ANALYSIS AND INTERVENTIONS	3
PSYC 4020	LEARNING	3
Select 2 from the following		6-7
PSYC 4030	CONCEPTUAL ANALYSIS OF BEHAVIOR	
PSYC 4414	LABORATORY IN APPLIED BEHAVIOR ANALYSIS	
PSYC 4810	PRACTICE AND ETHICS IN BEHAVIOR ANALYSIS	
PSYC 4350	BASIC/EXPERIMENTAL BEHAVIOR ANALYSIS	
PSYC 3150	SMALL-N RESEARCH METHODS	
Total Credits		12-13

Concentration in Cognitive Science

Code	Title	Credits
PSYC 4070	COGNITIVE PSYCHOLOGY	3
or PSYC 4090	COGNITIVE NEUROSCIENCE	
Select three of the following:		9
PSYC/PHIL 3650	PHILOSOPHY OF MIND	
PSYC 4210	SENSATION AND PERCEPTION	
PSYC 4230	BEHAVIORAL NEUROSCIENCE	
PSYC/PHIL 4250	LIMITS OF CONSCIOUSNESS	
PSYC 4520	PSYCHOLOGY OF LANGUAGE	
PHIL 4610	PHILOSOPHY OF LANGUAGE	
ENGL 3610	INTRODUCTION TO LINGUISTICS	
Total Credits		12

Concentration in Developmental Psychology

Code	Title	Credits
PSYC 3520	CHILD PSYCHOLOGY	3
PSYC 3540	ADOLESCENT PSYCHOLOGY	3
Select two of the following:		6
PSYC 2500	LIFESPAN PSYCHOLOGY	
PSYC 3510	EDUCATIONAL PSYCHOLOGY	
PSYC 4090	COGNITIVE NEUROSCIENCE	
PSYC 4230	BEHAVIORAL NEUROSCIENCE	
PSYC 4520	PSYCHOLOGY OF LANGUAGE	
PSYC 4544	LABORATORY IN DEVELOPMENTAL PSYCHOLOGY	
PSYC 4590	PSYCHOLOGY OF EXCEPTIONAL CHILDREN	
PSYC 4930	SPECIAL TOPICS IN PSYCHOLOGY	
PSYC 4960	INDEPENDENT STUDY IN PSYCHOLOGY (Developmental Psychology topic)	

PSYC 4990	SENIOR THESIS (Developmental Psychology topic)
-----------	--

Total Credits **12**

Concentration in Forensic Psychology

Code	Title	Credits
PSYC 4560	FORENSIC PSYCHOLOGY	3
PSYC 4800	LAW & PSYCHOLOGY: ETHICS, RESEARCH & SERVICE	3
Select two of the following:		6
PSYC/SOC 3450	SOCIAL PSYCHOLOGY	
PSYC 4440	ABNORMAL PSYCHOLOGY	
Courses in Criminal Justice approved by the advisor

Students must work closely with their major advisor to plan effectively for this requirement and to discuss the best options for their interests and future plans.

Credits 13-15

Total Credits 118-121

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Psychology, Bachelor of Science

To obtain a B.S. with a major in Psychology, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 12-19 hours college breadth requirement
- 52 hours of major courses
- 3-10 hours of electives

TOTAL HOURS: 120

Requirements

The psychology major requires 37 psychology credits, 27 credits of which must be upper-division. Additional B.S. requirements include the completion of 15 hours of cognate coursework, as detailed below.

Code	Title	Credits
Core Courses ¹		
PSYC 1010	INTRODUCTION TO PSYCHOLOGY I	3
PSYC 1020	INTRODUCTION TO PSYCHOLOGY II	3
PSYC 2000	CAREER PATHS IN PSYCHOLOGY	1
PSYC 2024	EXPLORATIONS IN THE SCIENCE OF PSYCHOLOGY	2
PSYC 3130	STATISTICS FOR THE BEHAVIORAL SCIENCES	3
PSYC 3140	RESEARCH METHODS IN PSYCHOLOGY	4

Psychology Distribution Requirements

Select four courses from the Psychology Distribution Areas as outlined below. 12

Upper-Level Psychology Laboratory Courses

Select one of the following: 3

PSYC 4024	LABORATORY IN PSYCHOLOGY: LEARNING
PSYC 4074	LABORATORY IN PSYCHOLOGY: COGNITION, SENSATION AND PERCEPTION
PSYC 4234	LABORATORY IN PSYCHOLOGY: BEHAVIORAL NEUROSCIENCE
PSYC/BIOL 4280	ANIMAL BEHAVIOR LABORATORY
PSYC 4544	LABORATORY IN DEVELOPMENTAL PSYCHOLOGY
PSYC 4644	LABORATORY IN PSYCHOLOGY: SOCIAL/ INDUSTRIAL-ORGANIZATIONAL
PSYC 4990	SENIOR THESIS ²

Upper-Level Psychology Electives

Two additional 3-credit hour 3000- or 4000-level Psychology courses are required. These may be selected from the Psychology Distribution Requirements, the Labs, or any other 3000- or 4000-level Psychology courses offered. 6

Additional B.S. Requirements (Cognate) Courses listed below. 15

Total Credits 52

¹ These six courses should be taken early in the student's degree program. Concepts learned in these courses will benefit the student in upper-level Psychology classes.

² PSYC 4990 –Senior Thesis Part II: Data Analysis, Interpretations and Conclusions. Requires special permission from a faculty member and the student must meet the Psychology Senior Thesis criteria.

Psychology Distribution Areas

Four courses (**12 credit hours**) are required, one course (**3 credit hours**) each from four of the following five areas.

Applied Psychology

Code	Title	Credits
PSYC 3510	EDUCATIONAL PSYCHOLOGY	3
PSYC 4020	LEARNING	3
PSYC 4310	PSYCHOLOGICAL AND EDUCATIONAL TESTING	3
PSYC 4510	PSYCHOLOGY IN THE SCHOOLS	3
PSYC 4560	FORENSIC PSYCHOLOGY	3
PSYC 4630	ORGANIZATIONAL PSYCHOLOGY	3
PSYC 4640	PERSONNEL PSYCHOLOGY	3

Social/Personality/Developmental Psychology

Code	Title	Credits
PSYC/SOC 3450	SOCIAL PSYCHOLOGY	3
PSYC 3520	CHILD PSYCHOLOGY	3
PSYC 3540	ADOLESCENT PSYCHOLOGY	3
PSYC 4450	PERSONALITY THEORIES	3
PSYC/GERO 4460	PSYCHOLOGY OF ADULT DEVELOPMENT AND AGING	3

Mental Health

Code	Title	Credits
PSYC 3410	CLINICAL PSYCHOLOGY	3
PSYC 3430	PERSONALITY AND ADJUSTMENT	3
PSYC 4440	ABNORMAL PSYCHOLOGY	3
PSYC/GERO 4470	MENTAL HEALTH AND AGING	3
PSYC 4590	PSYCHOLOGY OF EXCEPTIONAL CHILDREN	3
PSYC 4800	LAW & PSYCHOLOGY: ETHICS, RESEARCH & SERVICE	3

Cognitive/Neuroscience

Code	Title	Credits
PSYC 4070	COGNITIVE PSYCHOLOGY	3
PSYC 4090	COGNITIVE NEUROSCIENCE	3
PSYC 4210	SENSATION AND PERCEPTION	3
PSYC 4230	BEHAVIORAL NEUROSCIENCE	3
PSYC/BIOL 4270	ANIMAL BEHAVIOR	3
PSYC/BIOL 4320	HORMONES & BEHAVIOR	3
PSYC 4520	PSYCHOLOGY OF LANGUAGE	3

Additional Perspectives

Code	Title	Credits
PSYC/PHIL 3650	PHILOSOPHY OF MIND	3
PSYC 4010	HISTORY OF PSYCHOLOGY	3
PSYC/PSCI 4110	POLITICAL PSYCHOLOGY	3
PSYC/BLST 4150	AFRICAN AMERICAN PSYCHOLOGY	3
PSYC/PHIL 4250	LIMITS OF CONSCIOUSNESS	3
PSYC 4680	POSITIVE PSYCHOLOGY, HEALTH, & WELL-BEING	3

PSYC 4960 INDEPENDENT STUDY IN PSYCHOLOGY 1-6

PSYC 4990 SENIOR THESIS ² 3

¹ PSYC 4960 requires special permission from a faculty mentor, approval of the UPC, and a final paper, project or conference presentation.

² PSYC 4990–Senior Thesis Part I: Thesis Proposal (**3 credit hours**).

Requires special permission from a faculty member and the student must meet the Psychology Senior Thesis criteria.

Code Title Credits
Cognate Coursework

Students pursuing a BS in psychology must complete 15 credit hours of a cognate set of courses. Students will select one of the five cognate sets below. Course selection must include at least two different departments or programs. No more than 6 hours of courses may be at the 1000 level, with the remaining 9 hours taken at the 2000 level or above. Six (6) hours of cognate coursework may double count with General Education requirements. Students may take a minor in place of the cognate under the following circumstances: 1) Students pursuing Option 1 College Requirements, which requires a minor, must take a second minor to satisfy the cognate requirement; OR 2) Students pursuing Option 2 College Requirements, which require additional general education courses, may add a minor to satisfy the cognate requirement.

Advocacy, Ethics, Social Justice & Law

BSAD 3600	BUSINESS ETHICS
CMST 1110	PUBLIC SPEAKING FUNDS
CMST 2120	ARGUMENTATION AND DEBATE
CRCJ 1010	SURVEY OF CRIMINAL JUSTICE

Optional Concentrations

Psychology majors may declare a concentration in any one of the following seven areas. Each concentration is a minimum of 12 credit hours. A concentration is optional, and only one concentration may be declared. The concentration will be noted on the student's transcript.

Concentration in Applied Behavior Analysis

To obtain a Concentration in ABA, students will complete of 12-13 credit hours from the Verified Course Sequence, indicating that the student has a more in-depth knowledge of ABA.

Code	Title	Credits
Required Courses		
PSYC 4570	BEHAVIOR ANALYSIS AND INTERVENTIONS	3
PSYC 4020	LEARNING	3

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found

at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Psychology Minor

Requirements

An undergraduate minor in psychology may be earned by completing the following:

Code	Title	Credits
PSYC 1010	INTRODUCTION TO PSYCHOLOGY I	3
Select 12 hours of upper division (3000 or 4000 level) Psychology courses.		12
Total Credits		15

A grade of “C-” or better must be earned in all courses submitted for a minor in Psychology.

Religious Studies

“Religious studies” introduces students to the academic study of religion and spirituality as well as the variety of religious traditions around the world (e.g., Hinduism, Buddhism, and Sikhism; Judaism, Christianity, and Islam; Chinese religious traditions; indigenous religious traditions in North America and in Africa; atheism and agnosticism, pagan and other nature-based traditions). Students with a particular thematic interest may pursue the study of “religion and film,” “spirituality and wellness,” and/or “religion and human rights.” Because religion is deeply implicated in history, culture, politics, literature, and medicine, the study of religion is critical to understanding and explaining complex global issues in both the past and the present. One does not have to be “religious” or “spiritual” to study religion, nor is the study of religion directed toward establishing the truth of one religion over another.

To major in religion (i.e., religious studies) means to engage some of the most profound questions people ask themselves: What does it mean to be human? How are we part of a world of animals and plants, water and earth? What are our responsibilities to other persons and the earth? How do we make decisions about fundamental individual and social issues? Is there a world of invisible agents (e.g., ancestors, spirits, gods, and God) or ultimate meaning and value? If so, what difference does it make? With these questions in mind, we pursue the academic study of religion and spirituality from a variety of theoretical and methodological perspectives, including anthropology, archaeology, cognitive sciences, fine arts, history, philosophy, psychology, sociology, and textual analysis.

Because religious studies is an interdisciplinary field of study, students may use the major in religion in many different ways: as preparation for graduate school; as a stand-alone or second major in a program of study leading to a career in business, healthcare, public service, social services, or teaching; or, simply and most profoundly, to enrich personal knowledge and skills and understanding of others. Students commonly combine religious studies with another major or minor to improve their cultural awareness and enhance their career and civic life.

Consistent with this interdisciplinary emphasis, religious studies faculty teach courses supporting a variety of major and minor programs, including ancient Mediterranean studies, international studies, Islamic studies, Medieval and Renaissance studies, Latino/a Latin American studies, Native American studies, women's and gender studies, medical humanities, and human rights studies.

Underlying the practical applications in different fields and professions, the basic intellectual purpose of religious studies is to develop an appreciation

for, an understanding of, and a critical insight into the rich variety of the world's religious and spiritual traditions in the complex global realities (cultural, social, economic, political, and environmental) of the twenty-first century.

Other Information

All coursework taken for the Religion major or minor must be completed with a grade of "C-" or better.

Online Option

The Religion major and minor are both flexible programs, offering students the option to earn either while taking courses in-person on UNO's campus, entirely online, or as a combination of the two.

Contact

205 Arts and Sciences Hall
402.554.2628

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/religion/>)

Degrees Offered

- Religion, Bachelor of Arts (p. 339)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the Religion major, this is the "Senior Seminar in Religion" (RELI 4010) course.

Minors Offered

- Religion Minor (p. 340)

Religious Studies majors graduate with valuable knowledge and skills, including opportunities to gain experience through service learning classes and internships. A major in Religious Studies at UNO cultivates skills that employers say are particularly important: written and verbal communication, problem-solving, teamwork, and leadership. In diverse professional roles, Religious Studies alums find their knowledge of religious, spiritual, and other cultural traditions extremely helpful in their ability to communicate clearly and respectfully with diverse coworkers, managers, patients, clients, family, and friends.

These advantages can propel students into a number of different careers:

- business
- counseling
- education
- healthcare
- public service
- social services
- writer and/or poet.

UNO Religious Studies graduates may move into masters and doctoral level work in any one of many different fields (e.g., history, political science, sociology/anthropology, social work, etc.). The majority of our graduates have taken their knowledge and experience into a spectrum of careers and professions. Some of these careers currently pursued by graduates, and other former students, of Religious Studies at UNO include:

- accountant
- business owner
- chaplain
- farmer
- musician
- librarian

- non-profit administrator
- physician
- poet and writer
- and university professor

RELI 1000 TOPICS IN RELIGION AND SPIRITUALITY (1 credit)

As a first year topics course, the main purpose is to introduce students to some aspect of the academic study of religion and spirituality. The specific topics will vary considerably; however, the objectives include training students in study methods generally and how to study religion as a scholarly subject in particular.

RELI 1010 INTRODUCTION TO WORLD RELIGIONS (3 credits)

A introductory course in religious studies, designed both to introduce students to ways of understanding religion as a phenomenon in human culture and history and also to survey a wide variety of the religions of the world.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

RELI 1050 FIRST YEAR SEMINAR IN RELIGION (3 credits)

The purpose of this course is to introduce students to a particular topic in the study of religion. Although the topic for this course will vary from semester to semester, students will be expected to read, to write, and to discuss the assigned texts and the ideas they contain. Students will learn basic skills in reading academic literature, writing about significant issues, and speaking articulately about the questions and issues. These skills will be helpful in other university and professional work.

RELI 2000 ARCHAEOLOGY OF BIBLICAL LANDS (3 credits)

This course introduces students to the purpose and methods of biblical archaeology and includes a survey of the material culture of the land of the Bible from the Chalcolithic (5th - 4th millennia BCE) to the Persian periods (4th century BCE). Special emphasis will be placed on the relationship between biblical narratives and the archaeological reconstruction of ancient social and natural environments.

RELI 2010 RELIGION AND CRITICAL THOUGHT (3 credits)

This class introduces students to critical approaches to the study of religion. Students are exposed to a variety of social scientific, scientific, philosophical, indigenous, and critical literary approaches to the study of wide-ranging religious beliefs and practices. The course is required for majors and recommended for minors in Religion as well as others with high interest in the field of Religious Studies.

Prerequisite(s): 3 hours in Religion or permission of instructor.

RELI 2020 RELIGION AND HUMAN RIGHTS (3 credits)

This course introduces students to the intersection of religion and human rights. It takes human rights as a moral tradition and asks how it impacts and is impacted by religious moral thought.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2060 THE RELIGION OF ANCIENT EGYPT AND MESOPOTAMIA (3 credits)

This course is designed to familiarize the student with the religions of ancient Egypt and Mesopotamia. The course will use archaeological discoveries together with ancient Egyptian and Mesopotamian texts to explore the religions of these two civilizations. It will deal with Mesopotamian and Egyptian beliefs surrounding issues such as creation, afterlife, ethics, morality and rituals.

Prerequisite(s): Intro to World Religion is recommended but not necessary.

RELI 2120 HINDU SCRIPTURES (3 credits)

An introduction to some of the foundational scriptures of Hinduism (Sanatana Dharma) from traditional and modern perspectives, including the Vedas, the Upanishads, and the Bhagavad-Gita.

Prerequisite(s): Not open to non-degree graduate students.

RELI 2150 HEBREW SCRIPTURES (3 credits)

A historical introduction to the study of the Hebrew Scriptures from the Biblical to Talmudic period in the light of recent scholarship.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2160 NEW TESTAMENT: HISTORY, LITERATURE, AND SOCIETY (3 credits)

Who were Jesus, Peter, Mary, and Paul in the Roman empire of the early first century? How did these Jews of the Second Temple Period become the earliest generation of a 2,000 year history of Christianity? How did early Christian understandings of God and humanity shape or constrain their interpretations of and responses to affliction, healing, and death, both conceptually and in practice? Finding answers to these questions requires students to study the literature of the New Testament and other early Christian literature, along with scholarly analyses of key issues related to authorship, dating, textual analysis, literary genres, historical contexts, and varying interpretations. The purpose of the course is to train students in the content of the texts as well as critical tools related to documentary analysis, archaeological methods, and various literary and social scientific approaches, interdisciplinary tools which also enhance one's skills in a variety of careers and professions.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

RELI 2170 QUR'AN (3 credits)

This course provides an introduction to the academic study of the Qur'an, its uses, interpretations, and applications in society from its earliest appearance up to the present.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2190 THE MODERN MIDDLE EAST (3 credits)

An interdisciplinary study of the social, religious, and historical dimensions of contemporary issues and events which make the Middle East cultural and geographic region a center of global tensions. After providing a background of how Islam spread in and unified the region, students will study factors which have shaped the Middle East from the late Ottoman period to the present, analyzing the principal sociocultural and political economic developments in the Middle East from the early 19th century to the early 21st century. (Cross-listed with HIST 2190, SOC 2190).

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2200 GLOBAL RELIGIOUS ETHICS: THE BASICS (3 credits)

An introduction to the main types of ethical thought in religious traditions worldwide. The course will consider both historical and contemporary approaches and will relate ideas and practices of religious ethics to contemporary moral problems.

RELI 2400 RELIGION IN AMERICA (3 credits)

The role of religion in American culture, seen in the interaction between the inherited religious traditions and the crucial events in American experience and how this affects American identity - past and present.

Prerequisite(s): Sophomore or permission of instructor.

RELI 2500 SPIRITUALITY AND WELLNESS (3 credits)

This course provides an introduction to the emerging field of spirituality and wellness. Utilizing perspectives from multiple disciplines and incorporating both third-person (research, theory) and first-person (experiential, reflective) approaches, students will explore topics such as: the nature of spirituality; mindfulness, meditation and wellness; spirituality and public health; spiritual wellness on campuses; and ecospiritality.

Prerequisite(s): Not open to non-degree graduate students.

RELI 2730 THE BLACK SPIRITUAL EXPERIENCE (3 credits)

The Black Spiritual Experience course examines the trajectory of early African religions and philosophies, and their syncretization with European settler religions in America that have been practiced and embraced by Blacks in the U.S. since slavery. Students will survey the historical development of the Black church in America, and the emergence of liberation and Black theologies to combat white supremacy, oppression, and exploitation. This course will explore the cultural importance of music, dance, and art in worship and Black spiritual expressions; the role of religion and theology in empowering and uplifting African Americans, particularly during the Black Power and Civil Rights movements; the political impact of Black religious institutions in the long fight against systemic racism, racial violence, police brutality, and voter suppression in America; and the challenges of inclusion, equity, and intersectionality within the Black church around issues of gender, class, and sexual orientation. (Cross-listed with BLST 2730).

Distribution: U.S. Diversity General Education course

RELI 3020 NATIVE AMERICAN RELIGIONS (3 credits)

This course examines the life-ways, oral narratives, ceremonies, and philosophies of selected Native American tribal nations and communities from the major cultural regions of North America, utilizing historical, anthropological, and literary approaches. No single Native spiritual tradition or culture represents all Native North American beliefs and customs. Thus, attention will be given both to similarities among different tribal groups, and also the great diversity among the hundreds of indigenous ways of life on the North American continent, both ancient and modern. Particular topics addressed include the following: healing traditions and maintaining personal and communal balance, pilgrimages to sacred sites, and, critically, Native American creation stories inform the manner in which Native communities approach the natural world, including plants and animals as "other-than-human" persons.

RELI 3030 SHAMANISM (3 credits)

Study of the forms and techniques of shamanic experience from its Paleolithic and Neolithic origins to its contemporary practice among Indigenous peoples worldwide, including its role in the development of human religious traditions and systems of healing.

RELI 3050 RELIGIONS OF THE EAST (3 credits)

A study of the major religions that originate in South, Southeast, and East Asia, considering their origins, foundational doctrines, practices, beliefs, rituals and contemporary expressions. Included are the religions of Hinduism, Buddhism, Jainism, Sikhism, Daoism, Confucianism and Shintoism. Knowledge of the religious and spiritual traditions of South, Southeast, and East Asia will help students who intend to travel or work in those regions or who may have friends and colleagues from those regions of the world. A broad grasp of these critical cultural traditions will enhance international, cross-cultural understanding for any career or professional track.

RELI 3060 RELIGIONS OF THE WEST (3 credits)

The stories and histories, practices, communities, and interactions among Jews, Christians, and Muslims are part of a larger history of inter-religious encounters and development. In addition to learning about the ideas and scriptures, the ritual and ethical practices, and the forms of social organization of these religious communities, students will analyze how each one of these major religious traditions not only impacts each other, but also play significant roles in the emerging global community. With this additional perspective, students will be able to understand and discuss Judaism, Christianity, and Islam as dynamic forces historically and in the twenty-first century.

RELI 3130 WOMEN AND THE BIBLE (3 credits)

This course explores the characterization of women in Hebrew and Christian scriptures as well as what we can learn about the lives of women in the ancient world from these and other sources. Attention is also given to the reception and use of these texts in later historical periods including contemporary religious contexts. (Cross-listed with WGST 3120).

RELI 3200 ISLAM AND MUSLIMS (3 credits)

What do Muslims believe? How do they practice their faith? What role does Islam and what roles do Muslims play in the 21st century? This course provides an introduction to the history, beliefs, and practices of Islam and Muslim communities, including both Sunni and Shi'i traditions, Sufis and Salafis, from the time of Muhammad ibn Abdullah to the 21st century. Students will examine the ways in which we come to 'know' about Islam and how to approach mediated sources with a critical lens. Thus, in addition to highlighting the many important cultural, scientific, medical, artistic, and architectural contributions of Muslim societies throughout the past millennium, critical contemporary issues will also be addressed, including the role of women in Islam, the meaning of jihad, the legal traditions (shari'a and fiqh), the relationship between religion and politics in Islam, and issues of law, gender, myth, violence, colonialism, modernity, and Islamophobia.

RELI 3330 ROMAN CATHOLIC THOUGHT AND PRACTICE (3 credits)

What does the Roman Catholic Church teach today? What are the major official documents outlining the theological concerns of the Holy See since the time of Vatican II? How do Roman Catholics themselves think about the official teachings? This course is an investigation of developments and differences in Roman Catholic thought and practice over the past century. Students will examine prominent official statements (e.g., papal encyclicals and episcopal pronouncements) and commentary about different points of view. Special consideration will be given to the theological ethical bases in the tradition for various progressive and conservative theological trends. Students will analyze documents and issues and articulate their own perspectives both orally and in writing. Topics to be examined include both moral issues (e.g., ends of life decisions, poverty and justice, climate and human responsibility) and questions about the priesthood and the diaconate, interfaith dialogue, and inter-religious relations.

RELI 3400 RELIGION AND FILM (3 credits)

This course will examine the various ways in which religion and film connect, including the representations of religious groups in films, ways in which films replicate or alter religious concepts, and ways in which film as an aspect of popular culture functions analogously to religions in society. Methods used will include the analysis of film technique, auteur criticism, and audience reception analysis.

Prerequisite(s): Not open to non-degree graduate students.

RELI 3500 TOPICS IN RELIGIOUS STUDIES (3 credits)

The content of this course varies from semester to semester, giving instructor and students an opportunity to investigate various subjects of interest in religious studies. Typically, students will learn through reading, viewing, discussing, and writing about the topic under study. Some sections may include service learning and other forms of experiential learning. (May be repeated for credit as long as the topic is different, up to 18 hours of credit.)

RELI 3960 READINGS IN RELIGION (1-6 credits)

Individual research in selected areas or particular questions in religious studies, which are not covered in other courses. Typically, a student proposes a topic to an instructor, and they agree upon a list of readings (or other resources) to read, analyze, and evaluate, as well as expectations for writing papers and presenting ideas orally. Students are welcome to propose topics of study!

Prerequisite(s): Permission of instructor.

RELI 4000 RELIGIOUS STUDIES INTERNSHIP (1-6 credits)

A supervised internship enabling students to develop and apply knowledge and gain expertise related to the field of Religious Studies while working at a non-profit, educational, non-governmental or related organization. The host organization for the student must be approved in advance in consultation with the internship coordinator and the Chair of Religious Studies. This course may be repeated for a maximum of six credit hours.

Prerequisite(s): Junior or senior. Religious Studies major or minor. Permission of internship coordinator. Not open to non-degree graduate students.

RELI 4010 SENIOR SEMINAR IN RELIGION (3 credits)

This course provides a capstone experience in religious studies. It serves as the third writing course and is required for Religious Studies majors. The readings will deepen students' understanding of the field of Religious Studies and how it relates to social concerns, as well as guide students through developing a research project. Students will present research both in writing and verbally, in ways that address scholarship in Religious Studies and that are accessible to a general audience. Student will also have opportunities to reflect on experiential learning and career goals.

Prerequisite(s): Five courses in Religion, or permission of instructor.

RELI 4020 BUDDHIST TRADITIONS (3 credits)

This course is an exploration of Buddhist history, thought and practices. It begins with the origins, cultural context, and development of Buddhism in South Asia and then traces the path of Buddhism through Southeast Asia, Tibet, China, Korea, Japan and North America.

Prerequisite(s): Junior or permission of instructor.

RELI 4030 AFRICANA RELIGIONS (3 credits)

An introduction to religions in Africa and the diaspora, including African Traditional Religions, Christianity, Islam, and Afro-Caribbean religious traditions, using anthropological, historical, and other academic approaches to the study of religious and spiritual traditions. In particular, students will learn about the role of spirits, ancestors, witches, and other invisible agents in ideas and practices regarding health and healing. Finally, the class will examine the complex inter-relationships between religious ideas and practices and contemporary post-colonial political-economic realities, including the consequences of genocide and other human rights violations and the role of religious communities in social and economic development. (Cross-listed with RELI 8036, BLST 8036, BLST 4030).

RELI 4050 RELIGION IN EARLY AMERICA (3 credits)

This course examines the history and nature of religion in North America to c. 1770 with an emphasis on the British colonies. (Cross-listed with HIST 4010; HIST 8016).

Prerequisite(s): Junior or senior standing. Not open to non-degree graduate students.

RELI 4060 FIRST NATIONS: SPIRIT IN ARTS AND CULTURES (3 credits)

First Nations: Spirit in Arts and Cultures explores how contemporary Indigenous/Native (First Nations, Metis and Inuit) artists in the lands now known as Canada express their cultures, especially beliefs, through the fine arts. While we will focus on visual culture (sculpture, painting, film, mixed media), literary works (a novel, poetry) and music will also be included. First Nations, Metis and Inuit artists often simultaneously express traditions, their own experiences, and reflections on the present and past through their work. By doing this, they share valuable perspectives on health and healing as well as the national process of Truth and Reconciliation. Trying, so much as possible, to let the artists speak for themselves, we will explore how spirituality manifests itself in contemporary cultures for these Indigenous artists north of the border. (Cross-listed with RELI 8066, NAMS 4060, NAMS 8066).

RELI 4150 JUDAISM IN THE MODERN AGE (3 credits)

A study of Jewish communities and movements since the Enlightenment emphasizing historical, intellectual, religious-legal, and socio-cultural developments. Pivotal movements (e.g., Hassidism, Reform, Historical Conservative Judaism, Modern Orthodoxy, Zionism) and major historical events (e.g., the American and French Revolutions, Tsarist oppression, the Holocaust/Shoah and the establishment of the State of Israel) will be analyzed for their ongoing impact on Jewish thought, practice, and social organization. (Cross-listed with RELI 8156)

Prerequisite(s): Junior, three hours in religion, or permission of instructor.

RELI 4160 THE HOLOCAUST (3 credits)

An interdisciplinary approach in a seminar oriented format discussing various aspects of the most notorious genocide in modern times. The course will explore the history of anti-Semitism, the rise of Nazi Germany and the road to the 'final solution.' It will further explore psychological, sociological and intellectual aspects of the dark side of humanity. (Cross-listed with RELI 8166, HIST 4720, HIST 8726)

Prerequisite(s): Junior or instructor permission.

RELI 4170 HISTORY OF CHRISTIANITY I (3 credits)

The development of Christian theological, ritual, and social practice from the beginnings of Christianity through the Reformation. History of Christianity from its origins in the first century through the sixteenth century movements for reform. (Cross-listed with RELI 8176).

RELI 4180 HISTORY OF CHRISTIANITY II (3 credits)

This course will focus on the historical development of Christian ideas, practices, and institutions from the reformations of the sixteenth century CE through the early twenty-first century CE. In addition to the theological claims, students will examine the history of ritual practice and organizational development of the principal varieties of Christianity - Roman Catholic, Eastern Orthodox and other eastern churches, Protestant, and Pentecostal. (Cross-listed with RELI 8186).

RELI 4200 COMPARATIVE RELIGIOUS ETHICS (3 credits)

An introduction to historical and contemporary approaches to comparative religious ethics, with special focus on specific case studies as encountered in societies and religious communities across the globe. In addition to reading authors from a variety of perspectives (Aristotelians, natural law theorists, philosophers of law, pragmatists, theologians, and historians of religion), students will be introduced to special topics in the field, e.g., religion and public life, religion and law, syncretism, the secular/non-secular divide, etc. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 8206, CACT 8206)

RELI 4210 PUBLIC HEALTH, RELIGION, AND HUMAN RIGHTS (3 credits)

This course examines the intersections among public health, religion, and human rights. It considers how human rights impact public health and vice versa; how human rights and religious thought impact each other; how religious communities approach issues of public health; and how religious thought and practice affects people's health. Topics include infectious diseases such as HIV and COVID-19; issues of stigma and discrimination in public health; social determinants of health such as poverty and environmental quality; and women's and LGBTQ+ health. Students will gain skills of textual analysis, dialogue, and argumentative reasoning in both written and verbal form. (Cross-listed with RELI 8216, CACT 8216)

Prerequisite(s): Prerequisites: junior standing OR prior completion of either RELI 1010 or MEDH 1000.

RELI 4220 VIOLENT CONFLICTS, PEACEBUILDING, AND THE ETHICS OF INTERVENTION (3 credits)

This course is designed to familiarize the student with the nature of violent conflict, including terrorism, and a variety of the mechanisms for peacebuilding. The course will also explore human rights and the ethics of intervention. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 8226, CACT 8226)

RELI 4250 WAR, RELIGION, AND HUMAN RIGHTS (3 credits)

What is the connection between human rights, religion, conflict, and peacebuilding? Does religion cause war or help to stop it? How can human rights violations be prevented or stopped, and can religious actors be engaged in this work? Is the use of force ever appropriate to protect human rights? This course engages all of these questions by examining the ethical thought of multiple religious traditions; the work of human rights organizations; the just war tradition; and questions about sovereignty, peacebuilding, and the use of force worldwide. It includes discussion of historical issues and contemporary case studies. (Cross-listed with RELI 8256).

RELI 4260 THE END OF THE WORLD: RELIGION AND APOCALYPSE (3 credits)

This course introduces students to sacred texts and their interpretation by "end of the world" groups across world history. Several ancient, medieval, and contemporary groups are discussed. Special attention is paid to the connections between apocalyptic and political movements, as well as religion and violence. (Cross-listed with RELI 8266).

RELI 4400 WOMEN IN ISLAM (3 credits)

This course examines the religious, political and cultural assignments ascribed to Muslim women. Starting with the Qur'an, social, legal, and scriptural norms will be explored through the voices of Muslim women around the world. Passages of the Qur'an, hadiths and the commentaries that lead to the elevation and/ or demise of Muslim women and their rights are studied. Examining the role of the female body, sexuality and seclusion within a historical context will lead to an understanding of the gendering of women in Islam. (Cross-listed with RELI 8406)

Prerequisite(s): RELI 3200

RELI 4420 MUSLIMS IN AMERICA (3 credits)

This course is designed to familiarize the student with the multiplicity of Muslim voices in the United States and to examine the myths created through stereotyping and orienting. The course will also investigate how Muslims in America form identities as hybrids and transnationals and follows the chronological development of American Muslims including their identity construction, religious issues, and politics. (Cross-listed with RELI 8426)

Prerequisite(s): RELI 3200 or permission.

RELI 4450 HOLY TERROR: RELIGION AND HORROR (3 credits)

Examining the genre of horror in books, films, and television, students will explore the ways in which horror in its many forms illuminates upon an array of religious ideas. Some of the major subjects and themes examined in this class include: various cultural interpretations of sleep paralysis, the fear of death and dying badly, Hell and Satan, nature horror, body horror, and the breakdown of the established order of reality and its replacement with one that is alien and hostile to it. In addition to these themes, we will also explore horror in Native American and Eastern social and cultural contexts. Emphasis is placed on the genre's ability to portray complex religious, philosophical, sociological, and anthropological subject matter. (Cross-listed with RELI 8456).

RELI 4500 ANCIENT ISRAEL (3 credits)

Who were the Israelites? Where did they come from? This is one of the most debated topics in biblical studies. This course examines biblical texts, historical documents, archaeological discoveries, and sociological studies.

RELI 4520 JESUS AND ARCHAEOLOGY (3 credits)

Jesus and Archaeology is a course surveying the material culture of Judea and Galilee in the time of Jesus. Studying materials is a new approach to the long study of the Historical Jesus Quest. By providing a large amount of archaeological data, this method contributes a critical mass on old debated questions such as the society in Judea and Galilee, rural versus urban, Hellenism versus Judaism, size, population and language of Galilee in the time of Jesus and much more. (Cross-listed with RELI 8526).

RELI 4550 JESUS IN FILM (3 credits)

This course is a study of how the life of Jesus of Nazareth has been portrayed in cinema over the past century. Emphasis will be placed upon the ways in which the biblical sources are adapted for films, how Jesus films reflected and influenced the values and beliefs of the times in which they were made, and the reception by audiences of the diverse film representations of Jesus. (Cross-listed with RELI 8556).

RELI 4600 WOMEN AND RELIGION (3 credits)

This course on women and religion will focus on the intersections of power and oppression that women experience in four of the major world religions - Judaism, Christianity, Buddhism, and Islam. Students will examine the historical, cultural and religious contexts that highlight women's involvement or exclusion from activity and power within each religion. Students will research case studies from around the world to examine tensions within and between religious and secular societies through the lens of gender. (Cross-listed with RELI 8606).

RELI 4700 RELIGION, FILM, AND VIOLENCE (3 credits)

A study of the ways in which films represent violence and how these representations intersect with religious concepts. Topics will include how films express the justification or "sanctification" of violence as legitimate, redemptive violence, notions of sacrifice, and the nonviolent critique of violence. We will examine a variety of genres including action films, crime stories, horror, and religious films, noting their societal influence and how they express diverse values regarding violence and its legitimation. (Cross-listed with RELI 8756).

RELI 4830 ANCIENT GREEK MYTH, RELIGION & MAGIC (3 credits)

Students will examine the impact of ancient Greek myth and belief on actual religious practice: e.g., "lived" religion. Areas covered include formal civic sacrifice, wartime religion, family and personal devotions, mystery cults, oracles and seers, plus the popular pursuit of magic. (Cross-listed with HIST 8836, HIST 4830, RELI 8836).

RELI 4850 ROME AND THE EARLY CHURCH (3 credits)

Students will cover Roman-Christian-Jewish interactions from just before the birth of Jesus of Nazareth to c. 450 CE, with an emphasis on social and political history. We catalogue Christianity's transformation from its origins as a Jewish movement and an illegal "superstition" to the dominant religion of the Roman empire. (Cross-listed with HIST 8856, HIST 4850, RELI 8856).

Prerequisite(s): Junior standing.

Religion, Bachelor of Arts

To obtain a B.A. with a major in Religious Studies, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 16 hours of foreign languages
- 12-19 hours college breadth requirement
- 30 hours of major courses
- 6-16 hours of electives

TOTAL HOURS: 120

Requirements

A Bachelor of Arts in religion consists of a minimum of 30 credit hours in the field, of which at least 18 hours must be in upper division (3000-4000 level) courses.

The B.A. degree requires completion of a **foreign language** through the intermediate level.

Code	Title	Credits
Required Courses		
RELI 1010	RELIGIONS OF THE WORLD	3
Select one course about scriptural traditions in the following range: (RELI 2100 - RELI 2189).		
RELI 2010	RELIGION AND CRITICAL THOUGHT	3
RELI 4010	SENIOR SEMINAR IN RELIGION	3
Electives		

Remaining hours in religion shall be elected by students in accordance with their interests. 18

Total Credits 30

At least 18 hours of religion courses must be taken at the 3000 and 4000 levels.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>
 **Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Religion Minor

Requirements

An undergraduate minor in religion will consist of at least 15 hours in religion, of which at least nine must be upper division (3000-level or above). RELI 1010 is strongly recommended for the minor in religion.

The religion minor may be earned on campus or entirely online.

Sociology & Anthropology

Sociology and Anthropology are the broadest of the social sciences. Sociology is the scientific study of human relationships. Sociologists seek to understand the ways that often unseen social forces shape our lives. Anthropology is the holistic study of human biology and culture across time and place. Anthropologists typically work within one of four sub-disciplines: archaeology, biological anthropology, linguistic anthropology, and socio-cultural anthropology.

These disciplines are particularly useful to graduates entering the 21st century labor force. Our rapidly changing and increasingly diverse world offers both opportunities and monumental challenges. Sociology and Anthropology give students the analytical skills to understand such challenges and the tools to improve our society at all levels – from the neighborhood to the world community.

Other Information

All coursework taken for the Sociology major, minor, and Anthropology minor must be completed with a grade of "C" or better.

Up to six ANTH credits may be double counted toward the minor in anthropology and the major in sociology.

UNO Sociology Club – open to all students interested in discussing all things sociological!

UNO Student Anthropology Society – bring yourself, your lunch, and your interest in Anthropology!

Alpha Kappa Delta (AKD) – the Alpha Chapter of Nebraska of the International Sociological Honor Society for students who meet certain academic requirements.

For more information visit our Student Organizations (<https://www.unomaha.edu/college-of-arts-and-sciences/sociology-and-anthropology/student-opportunities/student-organizations.php>) page.

Option for Degree Completion Fast Track Program

The Department of Sociology & Anthropology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a Sociology BA/BS major who desire to pursue a Sociology MA degree.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0 and a GPA of 3.3 in SOC and ANTH courses.
- Students must complete the Fast Track Approval form, obtain all signatures, and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
 - ANTH 1050, SOC 1010, SOC 2120, SOC 2130, SOC 2134 should be completed before enrolling in the first graduate course.
 - SOC 3510 and SOC 3514 should be taken before or concurrently with enrollment in the first graduate course.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status, including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived; the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.

Contact

383 Arts and Sciences Hall

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/sociology-and-anthropology/>)

Degrees Offered

- Sociology, Bachelor of Arts (p. 347)
- Sociology, Bachelor of Science (p. 349)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the sociology major this is SOC 4900.

Bachelor of Arts (BA) and Bachelor of Science (BS) in Sociology

Students are required to complete 33 hours of coursework for the Sociology BA or BS degree: 21 hours of core required courses and 12 hours of additional sociology or anthropology courses. The department offers five optional concentrations that fulfill the 12 hours of additional coursework: anthropology, families and inequality, health and society, inequality and social justice, and work and organizations.

Students in the BA degree program are required to complete foreign language through the intermediate level.

Students in the BS degree program are required to complete 15 hours of cognate coursework, a field of specialization outside of sociology based on their interests and/or career aspirations. Cognates are designed by the student in consultation with the undergraduate adviser.

Online option

The Sociology BA/BS is available on campus or entirely online. Earning a concentration is not required, but online majors do have the option to select the health and society or work and society concentration.

Minors Offered

- Sociology Minor (p. 352)
- Anthropology Minor (p. 352)

Both the sociology and anthropology minors are available on campus or entirely online.

Sociology is the scientific study of social life that reveals the ways that often unseen social forces shape our lives. Anthropology is the holistic study of human biology and culture across time and place. At a fundamental level, both sociology and anthropology invite us to break through our common sense ideas about the world, allowing us to better understand and potentially improve society. Students who study sociology and anthropology will gain a distinct perspective on social inequality, patterns of behavior, forces for social change and resistance, and how social systems work.

Sociology majors learn the analytical skills needed to understand the challenges of a rapidly changing and increasingly diverse world. And they graduate with the tools to improve our societies at all levels – from the neighborhood to the global community. That's because a degree in sociology provides students with a well-rounded liberal arts education that emphasizes critical thinking, decision-making skills, and the ability to make connections across disciplines, leading to potential careers in:

- Family and Social Services Program Support
- Business Management and Leadership
- Marketing Analysis and Research
- Survey Research
- Health and Human Services
- Health Care Administration
- Nonprofit Organizational Administration
- Criminal Justice

Sociology

SOC 1010 INTRODUCTORY SOCIOLOGY (3 credits)

An introduction to the study of human societies. The course presents the fundamental concepts and theories that make up the sociological perspective. These serve as tools for the analysis of social inequality, social institutions and social change.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course

SOC 2100 SOCIAL PROBLEMS (3 credits)

An analysis of the origins of social problems in American society. Attention is given to the nature, consequences and solutions of selected social problems.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course

SOC 2120 SOCIOLOGICAL THEORY (3 credits)

SOC 2120 is an intellectual history of sociology as an academic discipline surveying outstanding contributions to its body of theory. The social contexts in which a variety of classical and contemporary theoretical traditions have arisen will be considered. Stress is placed on understanding and applying different approaches to sociological analysis through detailed textual interpretation of theoretical writings.

Prerequisite(s): SOC 1010 and Sociology major or permission of instructor. Not open to non-degree graduate students.

SOC 2130 SOCIAL STATISTICS (3 credits)

An introduction to the fundamental statistical techniques used in the analysis of social data, including descriptive and inferential statistics. The focus is on the production and interpretation of statistical information in the study of social life.

Prerequisite(s): MATH 1120, MATH 1130, MATH 1220, MATH 1310, or MATH 1530 or permission of instructor.

SOC 2134 SOCIAL STATISTICS LAB (1 credit)

A computer-based laboratory course to be taken in conjunction with SOC 2130. The focus is on using computer software to produce and interpret statistical information in the study of social life.

Prerequisite(s): MATH 1120, MATH 1130, MATH 1220, MATH 1310, or MATH 1530 and SOC 2130 (taken previously or concurrently) or permission of instructor. Not open to non-degree graduate students.

SOC 2150 SOCIOLOGY OF FAMILIES (3 credits)

This course provides a description and analysis of contemporary families from a sociological perspective. A life course perspective traces the development of family life, with special attention to change, choice, and diversity. Topics such as family structure, the functions of the family as an institution, family comparisons across culture and time, and difficulties faced by families in contemporary society will also be explored.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course and U.S. Diversity General Education course

SOC 2190 THE MODERN MIDDLE EAST (3 credits)

An interdisciplinary study of the social, religious, and historical dimensions of contemporary issues and events which make the Middle East cultural and geographic region a center of global tensions. After providing a background of how Islam spread in and unified the region, students will study factors which have shaped the Middle East from the late Ottoman period to the present, analyzing the principal sociocultural and political economic developments in the Middle East from the early 19th century to the early 21st century. (Cross-listed with RELI 2190, HIST 2190).

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

SOC 2300 SPORT & SOCIETY (3 credits)

This course provides a sociological examination of the contemporary sports world and the ways that the institution of sport both reflects and shapes society. The importance of sports to culture and socialization, the interaction between sports and other social institutions, and the unique role that sports plays in both perpetuating and contesting inequalities of race, gender, class, identity, and ability will be explored.

Distribution: Social Science General Education course

SOC 2400 SOCIOLOGY ON FILM (3 credits)

This course applies the sociological perspective to feature and documentary movies to critically explore social issues presented on film. Students will develop their sociological imaginations as they are introduced to essential sociological concepts such as culture, society, the social construction of reality, socialization, power and inequality, social institutions, and social problems as depicted in classic, contemporary, and foreign film. As social issues are serious and often controversial, the films examined may also be controversial and contain mature themes.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course

SOC 2800 MAJOR SOCIAL ISSUES (3 credits)

The course examines a major social issue from a sociological perspective with content and materials designed for non-majors. The topics will vary from semester to semester, so the course can be taken more than once.

SOC 3300 SOCIOLOGY OF GENDER (3 credits)

This course critically examines the meaning, purpose, and consequences of gender, by using sociological methods and theories to explore the institutions that structure gender relationships and identities, and form the contexts that shape social life in the United States. Particular attention will be given to how social institutions like the state, the economy, family and the mass media shape the definitions of femininity and masculinity, as well as how the gender system intersects with other structures of inequality - race, class, and sexual orientation.

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 3450 SOCIAL PSYCHOLOGY (3 credits)

Social interaction studied in situations of (1) social influences on individuals, (2) dyads or face-to-face groups, and (3) larger social systems. The concepts, theories, data, research methods and applications of varied substantive topics are examined. (Cross-listed with PSYC 3450).

Prerequisite(s): SOC 1010 or PSYC 1010

SOC 3510 RESEARCH METHODS (3 credits)

This course is a basic introduction to the principles, methods and techniques of empirical social research. The common methods used by sociologists and anthropologists are addressed such as surveys, interviews, and observation.

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor

SOC 3514 RESEARCH METHODS LAB (1 credit)

This is a laboratory course to be taken in conjunction with SOC 3510.

The focus is on applying methodology and basic data analysis learned in SOC 3510 and the development of a sociological research proposal.

Prerequisite(s): SOC 1010, junior standing, and SOC 3510 (taken previously or concurrently); or permission of instructor.

SOC 3610 APPLIED ORGANIZATIONAL SOCIOLOGY (3 credits)

A foundational applied organizational sociology course that focuses on the understanding, analysis, and applications of basic knowledge of organizational structures and systems for solving organizational problems, enhancing organizational performance, and preparing students for leadership roles in organizations.

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor.

SOC 3690 SOCIAL INEQUALITY (3 credits)

Considers social inequality from a sociological vantage point, introducing students to the structure of inequality, power, and privilege. Attention is paid to the intersections of various forms of inequality, including an examination of class, race, ethnicity, gender, sexuality and sexual orientation, immigration, age, ability, etc. The consequences of social inequality for life chances and social mobility are examined.

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor.

SOC 3700 INTRODUCTION TO LGBTQ STUDIES (3 credits)

Introduces key themes and critical frameworks in Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) Studies. This course examines scholarly contributions from a range of academic disciplines and traces some of the ways that LGBT Studies has influenced cultural and social theory more broadly. Topics include LGBTQ histories and social movements; forms of oppression including heterosexism, homophobia, and transphobia; resistance to oppression; queer activism; intersecting identities; and representations in literature, art, and popular media.

Prerequisite(s): SOC 1010 or WGST 2010 or WGST 2020; or permission of the instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 3800 WORK AND SOCIETY (3 credits)

This course explores the social organization of work in the United States, from pre-industrial times to the present. It addresses how and why current work structures and practices emerged historically within a global context, and the social implications of these structures for various groups (based on race/ethnicity, immigration status, sexuality, and social class). The course grapples with the big questions: "How work is organized the way it is right now, how did we get here, and what might it look like in the future?"

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor.

SOC 3820 MEDICAL SOCIOLOGY (3 credits)

The study of the social patterning of health and illness, including inequalities in health by stratifying elements such as race, class, and gender. Examines the social definition of health, illness, and the social position of being a sick person in society. Also examines the interaction individuals have with health care providers and the structure of medicine in the U.S. and around the world. Offers a critical examination of the social institution of medicine.

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 3840 WORLD POPULATION AND SOCIAL ISSUES (3 credits)

This course introduces students to the scientific study of populations across the world and the social issues derived from population change. It includes basic training on demographic methods and the use of data sources. It covers concepts and theories that connect population dynamics to world economic development, global inequality, refugee and immigration issues, the status of women, intergenerational competition, and population pressure on food and the environment.

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor. Six hours of social science, or permission of instructor.

Distribution: Global Diversity General Education course

SOC 3900 RACE AND ETHNIC RELATIONS IN THE U.S. (3 credits)

The course explores historical and contemporary meanings of race and ethnicity and introduces students to the ways sociologists think about 'race,' race relations and racism. It views current theoretical issues, and focuses on the recent histories and the current position of several major racial-ethnic populations in the U.S.: African Americans, Latino/a Americans, Native Americans, Asian Americans, and white/European ethnics. Emphasis is on how race/ethnicity has structured groups' experiences in relation to social institutions like health, education, culture and media, the legal system, and the economy.

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 4130 SOCIOLOGY OF DEVIANCE (3 credits)

This course introduces students to the sociological study of behaviors that have been labeled as "deviant" because they presumably violate social norms. The course takes a constructionist approach, critically analyzing how deviance is socially defined, organized, and managed. Students will be challenged to see the diversity and pervasiveness of deviance in society and to question the labelling of behaviors, individuals, and powerless groups as deviant. We will explore the social processes, powerful actors, and social institutions that create deviance as well as efforts to resist definitions of deviance. (Cross-listed with SOC 8136).

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4140 URBAN SOCIOLOGY (3 credits)

This course examines classical and contemporary sociological theories on city formation, the urbanization process, and the interaction of society and the built environment. Topics covered include suburbanization, gentrification, residential segregation, social networks, crime, housing, city culture, and public policy. The focus is on U.S. cities with selected comparisons to other world regions. Students will also get basic knowledge and exposure to research methods to study urban areas locally. (Cross-listed with SOC 8146).

Prerequisite(s): SOC 1010 and junior standing, or permission from the instructor.

SOC 4150 AMERICAN FAMILY PROBLEMS (3 credits)

This course explores the problems and issues faced by contemporary American families, such as racism and sexism; the challenges of childhood and adolescence; divorce and remarriage; work and family conflict; and family violence. The difficulty of defining both "family" and "problems" is addressed throughout the course. (Cross-listed with SOC 8156)

Prerequisite(s): SOC 1010 and Junior standing, or permission of instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 4170 SOCIOLOGY OF FATHERHOOD (3 credits)

This course examines the existing social science research on fatherhood, exploring topics such as the evolution, history, demography, and politics of fatherhood; father involvement and its relationship to both children's and men's well-being; the effects of diversity and family structure on fatherhood; and public policy surrounding fatherhood. (Cross-listed with SOC 8176)

Prerequisite(s): SOC 1010 and junior standing, or permission of instructor. Not open to non-degree graduate students.

SOC 4180 OCCUPATIONS & CAREERS: FULFILLMENT AND CHALLENGES AT WORK (3 credits)

This course examines what makes individuals and groups happy and satisfied with their jobs, and the factors that can turn "a dead-end job" into a meaningful pursuit that lasts decades. The course utilizes a life course approach and covers early socialization experiences to retirement transitions. It also employs a sociological lens to explore how individual experiences in the work realm are affected by stratification (such as race/ethnicity, gender, sexuality, social class, and parental status) and as well as by occupational norms and structures, workplace relationships, and culture and practices at the organizational and societal levels. (Cross-listed with SOC 8186).

Prerequisite(s): SOC 1010 and junior standing, or permission of instructor

SOC 4200 SOCIOLOGY OF THE BODY (3 credits)

This course offers an overview of contemporary sociological theories of the body and uses these theories to explore substantive issues pertaining to the discourses, practices, and politics of the body in modern societies.

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor. Not open to non-degree graduate students.

SOC 4210 DISABILITY AND SOCIETY (3 credits)

This course takes a sociologically grounded but interdisciplinary look at the past, present, and potential future of disability. Along the way, competing models and theories of disability are critically explored and substantive issues pertaining to the social experiences and social responses to people with disabilities are discussed. (Cross-listed with SOC 8216)

Prerequisite(s): SOC 1010 and junior or senior standing; or permission of instructor. Not open to non-degree graduate students.

SOC 4240 SOCIAL TRANSFORMATIONS IN LATIN AMERICA (3 credits)

The course reviews the main social, economic, and political forces that have shaped Latin American societies, and the sociological theories used to understand Latin American development and underdevelopment. Race, ethnicity, gender and class in Latin America, as well as the region's position in the global economy are examined. (Cross-listed with SOC 8246, LLS 4240, LLS 8246).

Prerequisite(s): SOC 1010 and junior standing or permission of instructor

Distribution: Global Diversity General Education course

SOC 4250 CRISSCROSSING THE CONTINENT: LATIN AMERICAN MIGRATIONS (3 credits)

In this course we will use an interdisciplinary lens to study the changes and continuities of migration in the Americas. The course starts with an overview of immigration to the Americas during the first era of mass migration (1850-1920) to explore the relevance of European migrations for national and identity constructions in the Southern Cone of America. Students then will be introduced to the impacts of social and political change on emigration flows, both regionally and beyond the region. They will also explore migration related policies at the national and regional level. We will also study the changes and continuities in the migration system of the Americas. Lastly, we will analyze the new North-South migration, as well as immigration to Latin America from Asia (recent and historical), Europe, and Africa. (Cross-listed with SOC 8256, LLS 4250, LLS 8256).

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

Distribution: Global Diversity General Education course

SOC 4310 SOCIOLOGY OF SEXUALITIES (3 credits)

This class focuses on the social construction of sexualities - especially heterosexual sexualities, bisexual sexualities, and homosexual sexualities. A primary focus of the class will be LGBT/Queer Studies. The class examines how sexual desires/identities/orientations vary or remain the same in different places and times, and how they interact with other social and cultural phenomenon such as government, family, popular culture, scientific inquiry, and race, gender, and class. (Cross-listed with SOC 8316)

Prerequisite(s): SOC 1010 and Junior standing; or permission of the instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 4350 WORK & FAMILY (3 credits)

This course examines the contemporary problems that individuals, families and communities in the U.S. have in integrating work and family/personal life. (Cross-listed with SOC 8356)

Prerequisite(s): SOC 1010 and junior or senior standing; or permission of instructor.

SOC 4440 HUMAN CONNECTION, LONELINESS, & HEALTH (3 credits)

This course examines the "loneliness epidemic" through a sociological perspective and is based on the premise that loneliness is a public health issue, as research consistently shows it is associated with a vast array of physical and mental health outcomes. After discussing the extent of loneliness and how to define it by distinguishing it from other types of social pain, the course covers: 1) the extent and nature of loneliness and its cultural/social sources; 2) the pathways from loneliness to health outcomes; and 3) possible interventions to reduce loneliness and improve public health. (Cross-listed with SOC 8446).

Prerequisite(s): SOC 1010 and junior standing; or permission of the instructor.

SOC 4470 SOUTH AFRICA & THE SOCIO POLITICS OF APARTHEID (3 credits)

South Africa and the Socio Politics of Apartheid examines the lived experiences of South African people under the Apartheid system, and their long struggle against European colonial oppression and racial segregation throughout the 20th century. Students will examine the laws, tools, and strategies that developed and sustained Apartheid, and the anti-Apartheid movements and international pressure that led to its repeal and South African democratic elections. (Cross-listed with BLST 8476, BLST 4470, PSCI 8476, PSCI 4470, SOC 8476).

Prerequisite(s): Junior standing or permission of instructor

Distribution: Global Diversity General Education course

SOC 4550 ORGANIZATIONAL DIVERSITY AND INCLUSION (3 credits)

This course provides advanced-level knowledge of the structural understanding, assessment, analysis, and management of social diversity as well as successful inclusion strategies in the workplace. Concepts and theories dealing with structural basis of the creation of difference, consequences of difference, inclusion, affirmative action, and diversity consulting skills are fully examined in this course. This course will prepare students for successful leadership in diverse organizational environments. (Cross-listed with SOC 8556)

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4620 APPLIED FORMAL ORGANIZATIONS (3 credits)

An advanced-level applied organizational sociology course that uses organizational theory, concepts, research, and practice to examine the structural bases of organizational effectiveness, efficiency, survival, and actions of organizational members. The course is designed to prepare students for organizational leadership using advanced knowledge and skills of organizational sociology. (Cross-listed with SOC 8626).

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4700 WOMEN'S HEALTH AND ISSUES OF DIVERSITY (3 credits)

This course provides a critical understanding of the inter-relationship between socio-cultural, economic, and political factors and women's physical and mental health. The aim is to provide an overview of the experience with the health care system. Emphasis will be on critically examining recent scholarship from a sociological, behavioral, health policy perspective. (Cross-listed with SOC 8706, PHHB 4700, PHHB 8706)

Distribution: U.S. Diversity General Education course

SOC 4740 SOCIAL JUSTICE AND SOCIAL CHANGE (3 credits)

This course investigates the economic, political and social constraints on equality present in local, national and global arrangements. Students will gain a theoretical understanding of these conditions as well as those that lead to social change, spanning from day-to-day resistance techniques to large scale social movements. Students will participate in a service learning or applied project as they explore contemporary social justice issues and learn both theoretical and practical tools needed to become successful change makers, activists, or community organizers. Examples of social justice movements or campaigns form the basis for understanding injustice at a local, national, and global level. (Cross-listed with SOC 8746)

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4760 ENVIRONMENTAL SOCIOLOGY (3 credits)

This course is an introduction to environmental sociology, a field of sociology that explores the interaction between the environment and society. Environmental sociologists consider how political, social, and economic factors have come to shape our patterns of interaction with the natural and built environment. Students will be expected to use the sociological perspective to understand the landscape of environmental problems, focusing on such issues as environment and health, disaster, environmental policy, climate change, environmental risk, human and animal interactions, sustainability, environmental justice and social movements. (Cross-listed with SOC 8766).

Prerequisite(s): SOC 1010 and junior standing or permission of instructor

SOC 4770 POLITICAL SOCIOLOGY (3 credits)

This course explores political sociology, focusing on political processes and power. Political sociologists investigate relationships between political institutions and various other institutions, including but not limited to the economy, education, media, and religion, and the impacts that these relationships have on society and the individuals that comprise the society. This course will explore the concepts, theories, and knowledge that comprise this field such as power, legitimacy, the state, networks, stratification, and collective action. (Cross-listed with PSCI 4770, PSCI 8776, SOC 8776).

Prerequisite(s): SOC 1010, junior standing or permission from instructor

SOC 4780 URBAN LATIN AMERICA (3 credits)

This course examines the experience of Latin American urbanization, attending to its contributions to urban sociology, social movements, and policymaking. Topics include urban transitions (e.g. pre-Hispanic to colonial, post-colonial to industrial, and the neoliberal turn), socio-spatial configurations (e.g. plazas, squatter settlements), urban marginality debates, urban politics, and planning as well as governance innovations (e.g. bus rapid transit systems, participatory budgeting). Students will compare city case studies across the region and to urban life in the United States. (Cross-listed with SOC 8786, LLS 4780, LLS 8786, CACT 8186).

Prerequisite(s): SOC 1010 and junior standing or permission of instructor

Distribution: Global Diversity General Education course

SOC 4800 CONTEMPORARY TOPICS IN SOCIOLOGY (3 credits)

This course reviews research and writing in an area of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with SOC 8806)

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4830 SOCIOLOGY OF MENTAL HEALTH & ILLNESS (3 credits)

This course will apply the sociological perspective to various topics regarding mental health and illness. The course will cover topics such as the social construction of mental illness, the social epidemiology of mental illness, labeling and stigma of those with a mental illness, and mental health policy/treatment. (Cross-listed with SOC 8836)

Prerequisite(s): SOC 1010, and junior standing; or permission of the instructor.

SOC 4850 SOCIOLOGY OF RELIGION (3 credits)

This course looks at religion as a social and cultural phenomenon, examining how religious beliefs, practices, institutions and movements shape and are shaped by their social context. Topics include: sociological theories and explanations of religion and spirituality; definitions of religion and the distinction between religion and other ideologies or worldviews; the measurement of religiosity and the scientific study of religion; trends in religiosity, spirituality, and the religious landscape historically and globally; sociological insights gained from the study of new religions, secularization, fundamentalism, and other issues related to contemporary religious experience. (Cross-listed with SOC 8856)

Prerequisite(s): SOC 1010 or permission of instructor.

SOC 4880 CONTEMPORARY TOPICS IN SOCIOLOGY (1 credit)

This course reviews research and writing in an area of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with SOC 8886).

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4890 CONTEMPORARY TOPICS IN SOCIOLOGY (2 credits)

This course reviews research and writing in an area of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with SOC 8896).

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4900 SENIOR THESIS (4 credits)

This is a capstone research and writing course designed for Sociology majors who are in their senior year. The major purpose of the course is to produce an original thesis of 20-25 pages, which will be developed through a series of assignments. Students will choose their own thesis topics with the purpose of reflecting on and synthesizing knowledge about sociological concepts, theories, and research methods. This course meets the University requirement of a third writing course.

Prerequisite(s): SOC 1010, 2120, 2130, 2134, 3510, 3514, Sociology major, and senior standing; or permission of instructor. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

SOC 4910 INTERNSHIP IN SOCIOLOGY (1-3 credits)

This course offers students an opportunity to experience sociology and/or anthropology through direct involvement in non-profit, for profit, government, or other organization. The host organization must be approved in advance in consultation with the internship coordinator. This course may be repeated for a maximum of six credit hours.

Prerequisite(s): Senior standing and permission of instructor.

SOC 4990 INDEPENDENT STUDY IN SOCIOLOGY (1-3 credits)

Guided readings and/or independent research in a special sociological topic under the supervision of a Sociology faculty member. A formal contract specifying the nature of the work to be completed must be signed before enrolling in the course. May be taken for a maximum of six hours.

Prerequisite(s): Permission of instructor. Not open to non-degree graduate students.

Anthropology

ANTH 1050 INTRODUCTION TO ANTHROPOLOGY (3 credits)

Anthropology is the humanistic and scientific study of humans, past and present. This course will present an overview of the four subdisciplines of anthropology: sociocultural, archaeological, biological, and linguistic.

Distribution: Social Science General Education course

ANTH 2000 ETHNOGRAPHY INDEPENDENT STUDY (1-3 credits)

This is an independent study course in which the student views films and digital materials, reads books and articles regarding a specific culture from an ethnographic perspective. Each culture will be a one (1) credit hour module. The intent is to acquaint the student in some depth with cultures in the world.

Prerequisite(s): One course in the social sciences and the instructor's permission.

ANTH 2990 GUIDED READING IN ANTHROPOLOGY (1-6 credits)

Guided readings and/or independent research in a special anthropological topic under the supervision of an Anthropology faculty member. A formal contract specifying the nature of the work to be completed must be signed before enrolling in the course. May be taken for a maximum of six hours.

Prerequisite(s): Permission of instructor. Not open to non-degree graduate students.

ANTH 3210 CULTURES OF AFRICAN PEOPLE (3 credits)

An introduction to cultures and societies of Africa. Analysis of kinship systems; political, economic and religious institutions; social change. Emphasis on the dynamics of social organization of African people.

Prerequisite(s): Sophomore or above with one three-hour introductory social science course

ANTH 3220 PEOPLES AND CULTURES OF NATIVE NORTH AMERICA (3 credits)

A survey of the Native peoples and cultures of North America, past and present. Topics covered include: economics, religion, social organization, kinship, political organization, material culture, gender and culture change through time.

Prerequisite(s): ANTH 1050 or permission of Instructor

ANTH 3260 WORLD CULTURES AND PEOPLES (3 credits)

This course utilizes ethnography to examine human cultures in a specific geographic context. The area approach in cultural anthropology reveals how the physical environment shapes culture and how those cultures, in turn, shape their environments. This course will also examine the larger social milieu and cultural change over time. The specific area will be announced each time the course is offered.

Prerequisite(s): ANTH 1050 or permission of instructor.

ANTH 3910 INTRODUCTION TO PHYSICAL ANTHROPOLOGY (3 credits)

An introduction to physical anthropology through an examination of theories and techniques used to investigate human origins; the relationship between humans and their physical environment; human variation, growth and development; and the evolution of human diseases.

Prerequisite(s): ANTH 1050 or High School Biology recommended.

Distribution: Natural/Physical Science General Education course

ANTH 3920 ESSENTIALS OF ARCHAEOLOGY (3 credits)

This course introduces students to the essentials of scientific archaeology. Topics addressed include the history of archaeology, site survey, mapping, testing, excavation, laboratory methods, analysis, interpretation, and documentation. Scientific archaeology focuses upon the use of empirical data to test or evaluate our interpretations of past human behavior.

Prerequisite(s): Anthropology 1050 or permission of instructor.

ANTH 4210 CULTURAL ANTHROPOLOGY (3 credits)

Cultural Anthropology is the sub-discipline of Anthropology that systematically considers cultural diversity (similarities and differences) in all known human societies. The scope of cultural anthropology is one of the broadest in the social sciences and includes the study of subsistence strategies and economies, kinship and social organization, political organization, religion, gender, language, expressive arts, human-environment relationships, and globalization. (Cross-listed with ANTH 8216).

Prerequisite(s): Junior or senior with a minimum of six hours of social science.

ANTH 4220 NORTH AMERICAN ARCHAEOLOGY (3 credits)

This course explores more than 20,000 years of Native American culture and lifeways in North America. Indigenous peoples faced numerous challenges throughout this vast and diverse continent. Hunters, gatherers, fishers, and horticulturalists adapted to all regions of North America. Students will be introduced to a range of archaeological concepts, methods and theoretical perspectives central to learning about this rich heritage of American archaeology. (Cross-listed with ANTH 8226).

Prerequisite(s): ANTH 1050 or permission of instructor

ANTH 4230 ETHNOMEDICINES OF THE AMERICAS (3 credits)

An anthropological approach to the study of the cultural systems of specific American ethnomedicines (traditional medicines) of North, Central and South America. For each ethnomedicine, the historical context, philosophy, practice, therapeutics, and utilization will be examined to understand how and why each ethnomedicine has survived despite tremendous extermination pressure. (Cross-listed with ANTH 8236).

Prerequisite(s): ANTH 1050

ANTH 4240 MEDICAL ANTHROPOLOGY (3 credits)

Medical anthropology is the cross-cultural study of human culture, health and illness. Using multiple theoretical perspectives, this course examines how cultural, social, environmental, and biological factors interact to produce patterns of health and illness in past and present human societies. (Cross-listed with ANTH 8246)

ANTH 4250 ENVIRONMENTAL ANTHROPOLOGY AND NATIVE PEOPLES OF THE GREAT PLAINS (3 credits)

Environmental anthropology seeks to understand the interrelationships between human societies and their biophysical and social environments. This course introduces students to basic concepts and theories used by anthropologists to study environmental influences upon both past and present Native American societies on the North American Great Plains. Particular attention will be given to the rapid and dramatic environmental changes that continue to challenge Native Americans in the Great Plains today. (Cross-listed with ANTH 8256)

Prerequisite(s): Anthropology 1050 and junior standing; or permission of instructor.

ANTH 4260 TOPICS IN CULTURAL ANTHROPOLOGY (3 credits)

Cultural Anthropology (Ethnology) is the comparative study of cultures. Each semester the course is offered, one topic will be selected from the subfield of Cultural Anthropology, such as: Applied Anthropology, Economic Anthropology, Political Anthropology, Visual Anthropology, Anthropology of Gender and Sexualities, Comparative Analysis of Kinship, or the Anthropology of Religion. Since the topic will vary, students may elect to take this course more than once.

Prerequisite(s): ANTH 1050 or permission of instructor.

ANTH 4270 DECOLONIZING NATIVE AMERICAN HEALTH (3 credits)

This course will utilize an interdisciplinary lens to interrogate Native American health and wellness grounded in the decolonizing theoretical and methodological tools drawn from Medical Anthropology and Native American Studies. Topics covered will include: Health Disparities, Federal Indian Health Policy, Historical Trauma, Medical Mistrust, Traditional Healing, Food Sovereignty and Research Ethics. (Cross-listed with ANTH 8276, NAMS 4270, NAMS 8276).

Prerequisite(s): ANTH 1050 or Instructor permission

ANTH 4920 SEMINAR IN ANTHROPOLOGY (3 credits)

This course reviews research and writing in an area of current interest in the field of anthropology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with ANTH 8926).

Prerequisite(s): ANTH 1050 or permission of instructor

ANTH 4940 ARCHAEOLOGICAL FIELD METHODS (3 credits)

This course introduces students to the field methods of scientific archaeology. These field methods include map reading, use of satellite and aerial photographs, instrument survey and mapping, pedestrian survey or reconnaissance, site survey data collection, identification of artifacts (stone tools, ceramics, etc.) and ecofacts (animal remains, macrobotanicals, etc.), systematic artifact collection and documentation, soil probes and coring methods, GPS-based mapping, excavation methods, and data recording. Additional topics include laboratory methods (artifact and ecofact analysis, interpretation, and documentation). This field course ultimately focuses upon the use of empirical data to test or evaluate our interpretations of past human behavior. (Cross-listed with ANTH 8946).

Prerequisite(s): ANTH 1050 or permission of instructor.

ANTH 4990 INDEPENDENT STUDY IN ANTHROPOLOGY (1-3 credits)

Guided readings and/or independent research in a special anthropological topic under the supervision of an Anthropology faculty member. A formal contract specifying the nature of the work to be completed must be signed before enrolling in the course. May be taken for a maximum of six hours.

Prerequisite(s): Permission of instructor.

Sociology, Bachelor of Arts

To obtain a BA with a major in Sociology, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 16 hours of foreign languages
- 12-19 hours college breadth requirement
- 33 hours of major courses
- 3-13 hours of electives

TOTAL HOURS: 120

Requirements

Code	Title	Credits

**Students need at least 120 credits and a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives to reach the 27 credit minimum.

Credits **13-14**

Total Credits **119-122**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Sociology, Bachelor of Science

To obtain a BS with a major in Sociology, a student must fulfill university, college, and departmental requirements. Hour requirements follow:

- 46 hours of University General Education courses
- 12-19 hours college breadth requirement
- 48 hours of major courses
- 4-14 hours of electives

TOTAL HOURS: 120

Requirements

Code	Title	Credits
Core Required Courses		
SOC 1010	INTRODUCTORY SOCIOLOGY	3
ANTH 1050	INTRODUCTION TO ANTHROPOLOGY	3
SOC 2120	SOCIOLOGICAL THEORY	3
SOC 2130	SOCIAL STATISTICS	3
SOC 2134	SOCIAL STATISTICS LAB	1
SOC 3510	RESEARCH METHODS	3
SOC 3514	RESEARCH METHODS LAB	1
SOC 4900	SENIOR THESIS	4
Additional Courses		

Select one of the following options: 12

Option 1:

Select one upper-level ANTH course (3 credits)

Select three upper-level SOC courses (9 credits)

Option 2:

Select a Concentration (12 credits)

Additional Requirements for the BS Degree

Students in the BS degree program are required to complete 15 hours of cognate coursework, a field of specialization outside of sociology based on their interests and/or career aspirations. Cognates are designed by the student in consultation with the undergraduate adviser.

Total Credits	118-120
----------------------	----------------

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract, and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Sociology Minor

Requirements

A minor in sociology requires 15 hours. The sociology minor is available on campus, entirely online, or a combination of the two. Students are required to complete the following:

Code	Title	Credits
SOC 1010	INTRODUCTORY SOCIOLOGY	3
Additionally, select 12 credit hours in sociology electives with a minimum of 9 credit hours at the 3000-4000 level.		12

Total Hours 15

No more than nine hours will be accepted as transfer credit. All course work satisfying the minor must be completed with a grade of "C" (2.0) or better.

Anthropology Minor

Requirements

A minor in anthropology requires 15 hours. The minor may be completed on campus, entirely online, or a combination of the two. Students are required to complete the following:

Code	Title	Credits
ANTH 1050	INTRODUCTION TO ANTHROPOLOGY	3
Additionally, select 12 credit hours in anthropology electives with a minimum of 9 credit hours at the 3000-4000 level.		12

Total Credits 15

No more than nine hours will be accepted as transfer credit. All course work satisfying the minor must be completed with a grade of "C" (2.0) or better. Up to six ANTH credits may be double counted toward the minor in anthropology and the major in sociology.

Women's and Gender Studies

Mission

The UNO Women's and Gender Studies Program offers individuals and communities paths to transformation and empowerment through the collaborative work of students and faculty, who together study and explore all women's lives and all constructions of gender across time, place, and culture, using a feminist lens. Our interdisciplinary faculty teach a curriculum that emphasizes the intersections of gender and sexuality across time, place, and culture, using a feminist and/or queer lens.

We envision a world in which differences offer paths to meaningful and fulfilling contributions. Thus, our interdisciplinary faculty teach a curriculum that emphasizes the intersections of gender and sexuality with race/ethnicity, nationality, socioeconomic class, ability levels, and additional dimensions of difference.

Our program employs the tools of different disciplines, including communication, arts and humanities, social sciences, natural sciences, and history. Graduating students are prepared for many opportunities beyond graduation.

Description

Women's and Gender Studies is a liberal arts degree that prepares students for a wide variety of career and avocational paths. Majors or minors find employment in a variety of areas, choosing to work in advocacy or social services-related positions, community development, large and small business, and government.

Other Information

All coursework taken for the Women's and Gender Studies major or minor must be completed with a grade of "C-" or better.

All coursework taken for the LGBTQ-Sexuality Studies minor must be completed with a grade of "C" or better.

Please be advised that students who elect to complete both the WGST minor and LGBTQ-Sexuality Studies minor may count no more than two upper-division courses toward the completion of both minors.

Special Requirements

Courses presented for credit toward the minor or major must have been taught by a member of the Women's and Gender Studies faculty. Students should select WGST electives in consultation with their major adviser.

Residency

Students may transfer in no more than 9 credits earned at other institutions to the WGS minor and no more than 15 credits earned at other institutions to the WGS major.

Student Groups

Iota Iota Iota (Triota) is a club and honorary society that recognizes excellence in Women's and Gender Studies. Membership is available to any student who has completed two introductory courses in Women's and Gender Studies and has a cumulative GPA of at least 3.0. In addition, students majoring or minoring in Women's and Gender Studies can be involved with campus organizations such as the Women's and Gender Equity Resource Center, and the Queer and Trans Services.

Contact

Women's and Gender Studies Program Director 402.554.4841
339 Arts and Sciences Hall (ASH)

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/womens-and-gender-studies/>)

Degree Offered

- Women's and Gender Studies, Bachelor of Arts (p. 355)

Writing in the Discipline

All students are required to take a third writing course (Writing in the Discipline) as a part of their degree. The third writing course for the Women's and Gender Studies major may be met with ENGL 2400, ENGL 3050, or another approved third writing course.

Minor Offered

- Women's and Gender Studies Minor (p. 358)
- LGBTQ/Sexuality Studies Minor (p. 358)

Women, gender, and sexuality studies majors may find employment in a variety of areas depending on their skills and experience. Some of our majors pursue post-baccalaureate training in medicine, law, education, and other graduate programs. Others choose employment directly after graduation, following career paths in advocacy or social services-related positions, community development, business, and government. Some career-path examples include:

Business

- Human Resources Manager
- Financial Planner
- Business Manager
- Office Manager
- Convention/Event Planner

Education

- K-12 School Teacher (with additional certification)
- Childcare Center Lead Teacher

Health

- Community Health Outreach Worker
- Community Health Advocate
- Public Health Coordinator
- Health Services Project Administrator

Law

- Victim Assistance Case Manager
- Mediator

Media/Publications

- Magazine Freelance Writer/Researcher
- Independent Film Maker/Producer
- Editor
- Social Media Specialist
- Film Publicist
- Production Artist

Social and Public Service

- Counseling Services Director
- Training Coordinator
- Rape Crisis Center/Community Education Coordinator
- Women's Crisis Support Center Community Educator
- Girl Scouts of America Program Officer
- Food Bank Program Manager
- Community Service Agency Case Manager
- Community Service Resource Navigator
- Grant Writer

WGST 1950 BLACK WOMEN IN AMERICA (3 credits)

This course will examine how Black women in America have evolved politically, economically, and socially under oppressive conditions of slavery, the Reconstruction Era, Jim Crow, and through the Civil Rights, Black Lives Matter, and "Me Too" Movements. The underlying themes of this course are the impact of gender and race on Black women, with an emphasis of how gender and race are fueled by white supremacy, patriarchy, colonialism, capitalism, and imperialism. (Cross-listed with BLST 1950)

Distribution: U.S. Diversity General Education course

WGST 2000 SPECIAL TOPICS: GENDER AND SEXUALITY IN ENGLISH STUDIES (3 credits)

A variety of topics primarily for the non-major. (For example, this course might study the image of businesswomen in American literature.) One or two such topics may be offered each term, depending upon student interest and available faculty. Students should consult each term's class schedule in order to determine the specific topics for that term.

Prerequisite(s): None. ENGL 1160 recommended

WGST 2010 INTRODUCTION TO WOMEN'S AND GENDER STUDIES: SOCIAL AND BEHAVIORAL SCIENCE (3 credits)

A survey course which explores social science perspectives on women, men, and gender, including the biological contribution to human behavior and the impact of science as an institution. Examines challenges to traditional definitions of women's place and movements for change. Includes historical and multicultural materials.

Prerequisite(s): ENGL 1150 is recommended.

Distribution: Social Science General Education course and U.S. Diversity General Education course

WGST 2020 INTRODUCTION TO WOMEN'S AND GENDER STUDIES: HUMANITIES (3 credits)

An introduction to women's and gender studies in the humanities (literature, art, dance, music, theatre, philosophy). Explores both historical and contemporary images of women in these fields; discusses the context in which these images developed. Introduces the basic concepts and terminology of women's and gender studies.

Prerequisite(s): ENGL 1150 is recommended.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

WGST 3000 SPECIAL TOPICS: GENDER AND SEXUALITY IN ENGLISH STUDIES (3 credits)

A study of designated specific topics related to gender and sexuality studies within the disciplines of English (May be repeated for credit as long as the topic is not the same.)

Prerequisite(s): Variable according to topic.

WGST 3020 PERSPECTIVES ON LEADERSHIP (3 credits)

This course studies scholarship on and the practices of gender and leadership for undergraduate students. It is a service-learning course.

Prerequisite(s): WGST 2010 or WGST 2020

WGST 3080 HEALTH CONCEPTS OF SEXUAL DEVELOPMENT (3 credits)

An examination of factors influencing sexual development. Emphasis is given to topics pertinent to healthful living in today's culturally diverse, global society. (Cross-listed with PHHB 3080).

WGST 3100 LGBT POLITICS (3 credits)

This course introduces students to the political struggle for Lesbian, Gay, Bisexual, and Transgender (LGBT) equal rights in the United States using a model of political empowerment, which may be applied for all minority or identity groups and social movements, generating operationalized measures of progress toward the loci of political power. (Cross-listed with PSCI 8105, PSCI 3100, WGST 8105)

Prerequisite(s): PSCI 1100 is recommended.

Distribution: U.S. Diversity General Education course

WGST 3120 WOMEN AND THE BIBLE (3 credits)

This course explores the characterization of women in Hebrew and Christian scriptures as well as what we can learn about the lives of women in the ancient world from these and other sources. Attention is also given to the reception and use of these texts in later historical periods including contemporary religious contexts. (Cross-listed with RELI 3130).

WGST 3130 WOMEN AND POLITICS (3 credits)

This course introduces students to women's political participation, including holding elective office, socialization, the feminist movement and its opposition, and public policies with particular impact on women. The focus is on contemporary perspectives on women in American political ideas and behavior. (Cross-listed with PSCI 3130, PSCI 8135, WGST 8135)

Prerequisite(s): PSCI 1100 is recommended.

Distribution: U.S. Diversity General Education course

WGST 3160 QUEER AMERICAN WESTS (3 credits)

A survey of queer literatures about the American West. The course will explore a variety of genres, including poetry, short stories, plays, novels, creative nonfiction, and, depending on time, film/television. "Queer" will be construed as including any "non-normative" sexualities and sexual identities (e.g., genderqueer, winkle, two-spirit, 3rd/4th gender). Non-western writers (e.g., Walt Whitman) imagining the West queerly may also be included. (Cross-listed with ENGL 4280, ENGL 8286).

Prerequisite(s): ENGL 1160; completion of writing in the major course recommended.

WGST 3180 GENDER IDENTITY IN PERSONAL WRITING (3 credits)

Students will read a variety of memoirs and personal essays by both emerging and established LGBTQIA+ creative nonfiction writers and allies, with a focus on trans writers; analyze the craft choices each author makes; analyze textual and theoretical explorations of gender identity and gender performativity; and explore their gender identities, and gender experiences in the essays that they compose. (Cross-listed with ENGL 3180).

Prerequisite(s): ENGL 1150 and ENGL 1160 or equivalents required.

WGST 3230 GENDER AND GLOBAL POLITICS (3 credits)

This seminar introduces students to gender politics in comparative and international politics. (Cross-listed with PSCI 3230, PSCI 8235, WGST 8235)

Prerequisite(s): PSCI 2500 is recommended.

Distribution: Global Diversity General Education course

WGST 3390 WOMEN, CRIME AND JUSTICE (3 credits)

This course focuses on women's experiences in the criminal justice system. The course will examine women's experiences as victims of crime, as offenders, as prisoners, and as criminal justice professionals. (Cross-listed with CRCJ 3390)

Prerequisite(s): WGST major; CRCJ or WGST minor; CRCJ 1010, ENGL 1160 and 45 credit hours; or instructor permission.

Distribution: U.S. Diversity General Education course

WGST 3490 GENDER AND PHILOSOPHY (3 credits)

This course examines philosophical arguments concerning gender and sexual difference, gender issues and women in the history of philosophy, and major views in feminist theory. Using arguments derived from feminist theory, we will undertake a critical inquiry into the ways in such gender, geography, and power inform political institutions and, in particular, medical research and health disparities. Taking the perspective of women's lives from across the globe through case studies, we will interrogate feminist theory in relation to non-US perspectives on gender and sexuality. (Cross-listed with PHIL 3490).

Prerequisite(s): Sophomore status OR 6 hours of PHIL OR 6 hours of WGST.

Distribution: Global Diversity General Education course

WGST 3750 GENDER AND COMMUNICATION (3 credits)

This course provides a survey of literature on communication about, by, and between women, men, and trans people in society, personal relationships, and organizations. Students develop an understanding of how cultural meanings of gender both shape and are shaped by communication. (Cross-listed with CMST 3750).

Prerequisite(s): Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

WGST 4000 SPECIAL TOPICS: GENDER & SEXUALITY IN ENGLISH STUDIES (3 credits)

A study of designated specific topics related to gender and sexuality studies at the Senior level within the disciplines of English (May be repeated for credit as long as the topic is not the same.)

Prerequisite(s): Variable according to topic

WGST 4010 SENIOR SEMINAR (3 credits)

This course provides a capstone experience in women's, gender and sexuality studies. It serves as the third writing course, and is required, for women's and gender studies majors. It is open to seniors who have completed at least five courses in Women's and Gender Studies, including WGST 2010 and WGST 2020, with a 'C' or better; others may enroll with permission.

Prerequisite(s): Senior standing, completion of at least five women's studies courses, including WGST 2010 and WGST 2020, with a grade of 'C' or better; or permission.

WGST 4020 INTERNSHIP IN WOMEN'S AND GENDER STUDIES (1-6 credits)

A faculty-supervised project involving part-time employment or service with a community agency, business, non-profit organization, university or other educational unit, or another appropriate organization or setting. Students will gain relevant practical experience and will integrate theory, concepts, and empirical knowledge from their classrooms with their work in the internship setting. Permission of instructor is required.

Prerequisite(s): WGST 2010 and WGST 2020, enrollment either as a WGST major or minor or as a BMS concentration in WGST, a 3.0 GPA, and permission of instructor.

WGST 4030 PERSONAL LEADERSHIP (3 credits)

In addition to a survey of leadership styles and theories, this course provides historical and contemporary perspectives of gender and leadership, barriers to women's leadership, bias, and discrimination. Individual leadership is examined within the context of being a change agent. This is a service learning course.

Prerequisite(s): WGST 2010 or WGST 2020

WGST 4050 SPECIAL TOPICS IN WOMEN'S AND GENDER STUDIES (3 credits)

This course will give instructor and students the opportunity to investigate a variety of advanced topics in Women's Studies. The content will vary from semester to semester, according to instructor. May be repeated for credit as long as topic differs.

Prerequisite(s): WGST 2010 and WGST 2020 or permission of instructor.

WGST 4060 HISTORY OF WOMEN IN AMERICA FROM 1875 - 1922 (3 credits)

This course examines the history of women in the United States from 1875 to 1992. Topics include law, work, sexuality and reproduction, immigration, civil rights, political participation and party politics, and changes to the American gender system, including family structure and employment. (Cross-listed with HIST 4060, WGST 8066, and HIST 8066).

Prerequisite(s): Junior or permission of instructor.

WGST 4070 GENDER AND LEADERSHIP CAPSTONE: COMMUNITY ACTION PROJECT (3 credits)

This course is designed for students in the final stage of the Gender and Leadership Certificate. Activities focus on practical experience in an organization that will allow students to exercise, observe, and later share lessons with classmates about leadership qualities and skills.

Prerequisite(s): WGST 2010 or WGST 2020 and either WGST 3020 or WGST 4030

WGST 4120 BLACK WOMEN LEADERS IN LIBERATION MOVEMENTS (3 credits)

This course studies scholarship on race, gender, and leadership with a specific focus on African and African descended women's roles in liberation movements in the U.S. and worldwide. Especial focus will be on the use of their personal narratives to analyze the wide range of ideas in the conception and execution of leadership. (Cross-listed with BLST 4120)

Prerequisite(s): Junior standing or permission of instructor.

WGST 4130 GENDER & LEADING SOCIAL CHANGE (3 credits)

This course will cover theories, philosophies, movements, and concepts related to social change as a process and outcome. It is a service-learning course.

Prerequisite(s): WGST 2010 or 2020. Junior standing or permission.

WGST 4150 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)

An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with ENTR 4150, ENTR 8156, GEOG 4150, GEOG 8156 and WGST 8156).

Prerequisite(s): Junior, senior, or graduate standing, or permission of instructor.

WGST 4250 WOMEN'S STUDIES IN LITERATURE (3 credits)

A critical study of literature by and/or about women in which students learn about contributions of women to literature, ask what literature reveals about the identity and roles of women in various contexts, and evaluates standard interpretations from the perspectives of current research and individual experience. (Cross-listed with ENGL 4250, ENGL 8256).

Prerequisite(s): ENGL 1160 and one additional course in literature or permission.

WGST 4270 WOMEN WRITERS OF THE NORTH AMERICAN WEST (3 credits)

A survey of U.S. and Canadian women writers (18th century to the present) enabling students to examine issues of gender and sexuality across a wide thematic range, including settlement, land use, cultural displacement, and survival in western territories, states, and provinces of North America. (Cross-listed with ENGL 8276, ENGL 4270).

Prerequisite(s): ENGL 1150 and ENGL 1160 or equivalent; completion of ENGL 2410 or other writing in the major course recommended.

WGST 4550 HEALTH ASPECTS OF AGING (3 credits)

This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with PHHB 4550, PHHB 8556, GERO 4550, GERO 8556)

WGST 4910 TOPICS IN WOMEN'S HISTORY (3 credits)

A course on selected topics offered on a one-time or occasional basis. Course may be repeated as long as the topic is different each time. Cross listed with WGST 4910/WGST 8916 when topics are appropriate to Women's and Gender Studies.

Prerequisite(s): Junior

WGST 4930 SPECIAL TOPICS IN GENDER AND ART HISTORY (1-3 credits)

An illustrated lecture course dealing with a limited topic in the field of art history. The course may be coordinated with an external event such as an exhibition, publication or study trip.

Prerequisite(s): To be determined by the instructor based upon the preparation required for an adequate understanding of the material of the course. Lab fee required.

Women's and Gender Studies, Bachelor of Arts

Requirements

A minimum of 120 credit hours is required for a Bachelor of Arts degree in women's and gender studies (BA). At least 30 credits of a student's bachelor's degree must be taken in residence at UNO. Registering for courses without having taken the stated prerequisites could result in administrative withdrawal.

To obtain a BA, a student must fulfill the university, college and interdisciplinary program requirements. Some courses may satisfy requirement in more than one area, but credit is awarded only once, thereby reducing the total number of credit hours for the degree to 120. This total does not include all prerequisites.

- 40-46 hours of university General Education courses (9 hours of which can be satisfied by courses in the required areas below)
- 12-19 hours of College of Arts and Sciences requirements
- 16 hours of Foreign Language or American Sign Language courses
- 33 hours of Women's and Gender Studies courses
- 6-19 hours of elective/prerequisite courses

TOTAL HOURS: 120

The Bachelor of Arts in women's and gender studies requires a minimum of 33 credits as outlined below.

This roadmap is a suggested plan of study and does not replace meeting
with an advisor. Please note that students may need to adjust the actual
sequence of courses based on course availability. Please consult an advisor
in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours
for a UNO undergraduate degree is 120 credit hours. Please review the
requirements for your specific program to determine all requirements for
the program. To graduate on-time (four years for an undergraduate degree),
you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement
exam may be required. More information on these exams can be found

at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

Note: Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Women's and Gender Studies Minor

Requirements

The WGS minor requires 18 credits:

Code	Title	Credits
WGST 2010	INTRODUCTION TO WOMEN'S AND GENDER STUDIES: SOCIAL AND BEHAVIORAL SCIENCE	3
WGST 2020	INTRODUCTION TO WOMEN'S AND GENDER STUDIES: HUMANITIES	3
Select 12 credits of approved upper-division (3000-4000 level) WGST elective courses (see below)		12
Total Credits		18

Please be advised that students who elect to complete **both** the WGS minor and LGBTQ/Sexuality Studies minor may count no more than two upper-division courses toward the completion of both minors.

LGBTQ/Sexuality Studies Minor

LGBTQ (lesbian, gay, bisexual, transgender, and queer)/Sexuality Studies is an interdisciplinary field that examines the identities, experiences, and social positions of people often referred to as sexual/gender minorities. The field also examines sexual behaviors, identities, and communities as sex plays a key role in many people's lives. LGBTQ/Sexuality Studies has origins in many disciplines, including anthropology, art, English, history, media studies, psychology, public health, sociology, theatre, and women's and gender studies, among others. The field includes topics such as: identity formation of non-heterosexual sexualities, non-binary gender identities, health and well being of sexual/gender minorities, cultural groups, the politics of identity, and representations of queer lives in popular culture. This minor acknowledges that sexuality is an important distinguishing factor of our lives on par with race, social class, and gender.

The LGBTQ/Sexuality Studies minor will offer students courses that complement and support their majors in many ways. The minor is intentionally flexible and interdisciplinary. Students who complete this minor will gain increased knowledge in the following:

- sexual identity, orientation, and behaviors, including heterosexualities, homosexualities, gay sexualities, lesbian sexualities, bisexualities, queer sexualities, etc.
- gender identities including trans identities, including but not limited to: genderqueer, non-binary, trans man, trans woman, gender non-conforming, gender creative, etc.
- sexology, or the study of sex and sexual behaviors, and human sexuality broadly
- sexual health such as STIs, HIV, and sexual reproduction
- theories of identity development, queer theory, and other social theories related to sexuality
- intersectionality of sexuality with race, class, gender, religion, ability, nationality, and other social characteristics
- diversity of human behavior and experience as it relates to sex and sexuality
- history and diversity of representations of LGBTQ in culture.

Minors Offered

LGBTQ/Sexuality Studies Minor

Other Information

All coursework taken for the LGBTQ/Sexuality Studies minor must be completed with a grade of "C" or better.

Contact

The LGBTQ/Sexuality Studies minor is a minor option under Women's and Gender Studies. The advisor for the program is Dr. Jay Irwin. For more information, please contact him at jirwin@unomaha.edu.

Requirements

Undergraduate students will be expected to complete at least 15 credit hours of LGBTQ/Sexuality courses with a grade of C or higher. Nine credit hours must be upper division (3000 or higher) courses. No more than nine credit hours will be accepted as transfer credit.

Courses not on the list can be petitioned to be accepted by approval of the Advisor of the minor.

⁴ HONR 3030 when offered as: *LGBTQ Health*

⁵ Select sections of PSYC 3540, per approval of the minor advisor.

Please be advised that students who elect to complete both the WGS minor and LGBTQ-Sexuality Studies minor may count no more than two upper-division courses toward the completion of both minors.

College of Business Administration (CBA)

College of Business Administration Mission

UNO CBA provides a balance of academic perspectives with practical applications.

"We engage our students in learning experiences that enable them to become knowledgeable, motivated, and resourceful business professionals."

"We impact and transform practice and advance scholarly thought through research and diverse community engagement."

College of Business Administration Vision

As a premier College of Business Administration, UNO CBA will further our reputation as the region's leading provider of business education and expertise.

Other Information Relevant to the College of Business Administration

Attendance at First CBA Class Meeting

Students not present at the first class meeting of a College of Business Course, without prior notification to the instructor, may be administratively withdrawn from the course.

Accreditation Information

The UNO College of Business Administration undergraduate and graduate programs are accredited by AACSB - the International Association to Advance Collegiate Schools of Business. This is the highest level of accreditation possible for a College of Business.

The Accounting Programs in the UNO College of Business Administration hold specialized Accounting Accreditation by AACSB. Less than 200 Accounting Programs worldwide have earned specialized AACSB Accounting Accreditation.

Major	Degree	Accreditation Body
Accounting	BSBA MAcc	Association to Advance Collegiate Schools of Business (AACSB International)
Business Administration	Executive MBA	Association to Advance Collegiate Schools of Business (AACSB International)
Business Administration	MBA	Association to Advance Collegiate Schools of Business (AACSB International)
Banking and Financial Markets	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)

Sales	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)
Supply Chain Management	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)

Choice of Catalog Policy

A student registering in the College of Business Administration of UNO for the first time may, except for the following limitations, complete work for the degree according to:

- The requirements of the catalog of the year in which you last entered the College and have since been in continuous enrollment (i.e., **no enrollment gap of more than two consecutive semesters**) OR
- The catalog current at the time the student applied for the BSBA degree. For students continuously enrolled, a seven-year rule applies in that the catalog for students who have been continuously enrolled can only extend back seven years.
- The earliest catalog available to an intra-University transfer will be the catalog in use when the student transferred to the College of Business Administration

Careers

Business is a broad, flexible, and valuable field of study. Students who graduate with a business degree can choose from a variety of professions in a number of industries and fields. Individuals with business degrees may

find career opportunities working in government, large, mid-size, and small companies, nonprofit organizations, and institutions of higher education. A business degree prepares students for a fulfilling and flexible career, matching personal interests with professional ambitions, and allowing for the ability to pivot and flex careers as opportunities arise. Although a business degree applies to a vast array of careers, allowing an individual to work in any number of industries or roles, for ease of use, a list of possible business-related careers is broken down by department.

For more information about Business careers, please contact the CBA Career Center. Website (<https://www.unomaha.edu/college-of-business-administration/career-center/>):

Program Website (<https://www.unomaha.edu/college-of-business-administration/>)

Admission Requirements

Incoming freshman must meet general university admission requirements to be admitted into the College of Business Administration. Transfer students and current UNO students must have a minimum 2.50 cumulative GPA to be admitted into the College of Business Administration.

Academic Requirements for the College Degree

Number of Hours to Graduate

Students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration to earn a BSBA degree.

42 semester hours must be earned in upper-division courses (3000-4000 level classes).

BSBA students earn 24 upper-division (3000/4000 level) credit hours in the business core curriculum and 18-24 hours in their BSBA concentrations.

The College of Business does not require any physical education activity (PEA) courses. A total of four hours of PEA courses from different areas may be applied toward the degree.

A maximum of 24 hours may be taken for university credit on a Credit/No Credit basis.

Requirements for a Bachelor of Science in Business Administration (BSBA) Degree

Undergraduate students who complete a degree from UNO's College of Business Administration earn a Bachelor of Science in Business Administration (BSBA) with at least one area of concentration in business (See the complete list of BSBA concentrations)

All BSBA concentrations require 18 credit hours, except Accounting, which requires 24 credit hours.

Some concentrations or secondary concentrations require students to earn a "C+" or better in a specific foundation courses. Specifically,

MKT 3310 is the foundation course for the Marketing concentration as well as for the Marketing secondary concentration. MKT 3310 & MKT 3100 are the foundation courses for Sales concentration as well as for the Sales secondary concentration. Finally, FNBK 3250 & FNBK 3300 are the foundation courses for the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management concentrations as well as the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management secondary concentrations.

To meet requirements for the BSBA degree, students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration, 42 of those credits must be upper division courses (3000-4000 level), with the following requirements:

- Business GPA of 2.50 or above
- Cumulative GPA of 2.50 or above
- GPA of 2.50 or above for all upper division accounting courses (excluding ACCT 3000, ACCT 4500, and ACCT 4510) for the accounting concentration & secondary concentration.
- Must earn a "C" or better in classes for it to count towards the BSBA degree
- The grade of "C-" or better will be accepted in General Education courses (Natural Science, Humanities, & Social Science (except ECON 2200 & ECON 2220))

Transfer Credit Policy

CBA will accept upper-division core courses completed at AACSB institutions.

In order for an upper-division core course to be accepted from non-AACSB institutions, the student must complete an additional upper-division course from an AACSB accredited school within the same department to validate the transfer course. Please contact your CBA advisor to learn more about validation.

Courses completed for validation must be completed with a grade of C (2.00) or better.

Only transfer courses with a grade of "C" or higher will be applied toward the BSBA degree.

Unacceptable Credits

Remedial courses and orientation courses at other institutions will not apply to the 120 minimum credit hours.

No business course may be taken on a Credit/No Credit basis.

A maximum of six hours of professional development course credit may be taken from any educational body if evaluated by the American Council on Education (ACE) as equivalent to collegiate credit, and then may be applied toward the degree. Such credit may be used for non-business electives. The department chair must give written approval if a course is to be used for concentration elective hours or as a substitute for a required concentration course.

Business core requirements taken as professional development courses are not applicable to the BSBA degree.

Residency Requirement

The last 30 of 36 consecutive semester hours for a degree must be earned following admission to the University of Nebraska at Omaha. A minimum of nine (9) of the twenty-four (24) required business core hours and one-half of the required concentration hours must be completed at UNO.

Retroactive Credit Policy

<https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/> (p. 30)

Advanced Placement Credits

<https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/> (p. 30)

Military Credit

<https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/> (p. 30)

IB Credit

<https://nextcatalog.unomaha.edu/undergraduate/transfer-credit/> (p. 30)

Placement Exams and Credit by Examinations Policies/Practices

<https://nextcatalog.unomaha.edu/undergraduate/student-life-support-services/> (p. 62)

Quality of Work

Any students earning below a 2.50 cumulative GPA for any semester while enrolled in the BSBA degree program will be placed on a "warning status." No grade below a C (2.00) will be counted as satisfactory completion of CBA courses.

Good Academic Standing Policy

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 31)

Credit/No Credit (CR/NC) Grades

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 31)

Completion of Incomplete Grade

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 31)

Repeatable Grades/Courses

Effective Fall 2002, a student may only attempt each required business core course three times.

This policy applies to the following courses:

Code	Title	Credits
ACCT 2010	PRINCIPLES OF ACCOUNTING I	3
ACCT 2020	PRINCIPLES OF ACCOUNTING II	3
BSAD 2130	PRINCIPLES OF BUSINESS STATISTICS	3
BSAD 3160	MANAGERIAL STATISTICS FOR BUSINESS	4
ECON 2200	PRINCIPLES OF ECONOMICS (MICRO)	3
ECON 2220	PRINCIPLES OF ECONOMICS (MACRO)	3
FNBK 3250	PRINCIPLES OF FINANCIAL MANAGEMENT	3
LAWS 3930	BUSINESS LAW FUNDAMENTALS	3
MGMT 3100	MANAGEMENT INFORMATION SYSTEMS	3
MGMT 3490	MANAGING PEOPLE AND ORGANIZATIONS	3
MGMT 4480	CORPORATE AND BUSINESS STRATEGY	3
MKT 3200	BUSINESS COMMUNICATIONS	3
MKT 3310	PRINCIPLES OF MARKETING	3
SCMT 3500	MANAGING OPERATIONS IN THE SUPPLY CHAIN	3

Any grade earned, excluding CR, W, NC, NR, I, IP, AU, S, U or R will count as an attempt for the three times limit.

The Undergraduate Program Council will only consider appeals of the three-attempt rule when the circumstances for the appeal are documented and the reason for the appeal is extraordinary.

Upper-division accounting courses may be taken only twice.

Appeal Process

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 31)

Grade Appeal Policy

Students who wish to appeal a grade which they feel was capriciously or prejudicially awarded shall first discuss the matter with the instructor and/or the department chairperson. If a satisfactory agreement cannot be reached, the student may submit a written appeal to the CBA Associate Dean by the deadlines listed below.

- For a course completed during the fall semester: The last business day in January
- For a course completed during the spring semester: The last business day in June
- For a course completed during any of the summer sessions: the last business day in September

The CBA Undergraduate Grade Appeal Committee will hold a grade appeal hearing to make a final determination based on the facts presented.

Academic Amnesty

A student may remove one or two semester's grades from the student's cumulative GPA and degree consideration by petitioning for academic amnesty in the CBA advising office. Removal of grades via academic amnesty shall be by entire semester(s). Students are allowed a maximum of two (2) semesters of amnesty.

Petitioning students, after the term(s) for which they are seeking amnesty, must have completed 12 consecutive hours with a minimum GPA of 2.75.

Students who are granted academic amnesty will not be eligible for degree with academic honors.

Academic amnesty will remove a CBA core course attempt from the Three-Attempt Rule under Academic Performance. The petition for academic amnesty is submitted to the academic advisor and the advisor will apply this policy to approve or deny the petition on behalf of the Undergraduate Program Council.

Academic Probation and Suspension

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 31)

Reinstatement Policy Following Academic Suspension

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 31)

Academic Advising

The aim and purpose of academic advising is to assist students in meeting the requirements of the degree program and to interpret college policies regarding academic requirements. In the College of Business Administration, academic advising is carried out by CBA's undergraduate advisors. Students should see an academic advisor whenever questions arise concerning academic programs, but especially prior to registering for freshman year and registering for senior year.

Advising Holds

<https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/> (p. 24)

Student Holds

<https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/> (p. 24)

Declaring a Concentration

Students may declare a BSBA concentration when applying to the university or at any point.

Students who did not declare a BSBA concentration when applying to the university must meet with a CBA advisor to complete the BSBA declaration process.

Senior Check

A senior check will be processed for each BSBA student upon completion of 90 credit hours. This audit provides an official list of the student's remaining degree requirements. Students will be required to meet with an advisor to review the senior check. Final responsibility for scheduling courses and satisfactorily completing curriculum requirements for any degree rests with the student.

Bachelor of Science in Business Administration (BSBA) Degree

Undergraduate students who complete a degree from UNO's College of Business Administration earn a Bachelor of Science in Business Administration (BSBA) with at least one area of concentration in business (See the complete list of BSBA concentrations)

All BSBA concentrations require 18 credit hours, except Accounting, which requires 24 credit hours.

Some concentrations or secondary concentrations require students to earn a "C+" or better in a specific foundation courses. Specifically, MKT 3310 is the foundation course for the Marketing concentration as well as for the Marketing secondary concentration. MKT 3310 & MKT 3100 are the foundation courses for Sales concentration as well as for the Sales secondary concentration. Finally, FNBK 3250 & FNBK 3300 are the foundation courses for the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management concentrations as well as the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management secondary concentrations.

To meet requirements for the BSBA degree, students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration, 42 of those credits must be upper division courses (3000-4000 level), with the following requirements:

- Business GPA of 2.50 or above
- Cumulative GPA of 2.50 or above
- GPA of 2.50 or above for all upper division accounting courses (excluding ACCT 3000, ACCT 4500, and ACCT 4510) for the accounting concentration and secondary concentration
- Must earn a "C" or better in classes, for it to count towards the BSBA degree
- The grade of "C-" or better will be accepted in General Education courses (Natural Science, Humanities, & Social Science (except ECON 2200 & ECON 2220))

An Advising hold will be placed if a student does not meet the 2.5 GPA.

The hold will not be removed until the requirements are met or the student chooses a major outside the College of Business Administration.

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the BSBA degree, this is MKT 3200.

MBA Fast Track

The College of Business Administration MBA program has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a BSBA degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a BSBA degree and desiring to pursue an MBA
- Students must have completed no less than 60 undergraduate hours
- Students must have a minimum undergraduate GPA of 3.0
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course
- Students will work with their undergraduate advisor to register for the graduate courses
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.

Graduating seniors with a 2.5 GPA are given enrollment priority. Must be taken in the graduating semester.		

Required Speech Course

BSBA students are also required to complete a second 3-credit speech course (beyond Public Speaking Fundamentals) from the following list (all courses must be completed with a C (2.00) or better):

Code	Title	Credits
CMST 2120	ARGUMENTATION AND DEBATE	3
CMST 3130	SPEECH COMMUNICATION IN BUSINESS AND THE PROFESSIONS	3
CMST 3140	CONTEMPORARY PRESENTATIONS	3
CMST 3150	INTERCOLLEGIATE FORENSIC ACTIVITIES	3
CMST 3160	INTERCOLLEG FORENSIC ACTVTS	3
MKT 3100	PROFESSIONAL SELLING	3

Students must complete at least six hours of course work beyond the general education diversity requirement with a global perspective (i.e., history, political science, literature or geography of foreign countries, foreign languages, international business, etc.). Global courses include all university general education global diversity courses listed on the General Education website, plus the international business courses shown on the student's DegreeWorks website.

Students must complete MGMT 4480 their last semester. Students who have not completed FNBK 3250, MKT 3310, MKT 3200 and MGMT 3490 with

a C (2.00) or better or who have a GPA below 2.50 will be administratively withdrawn from MGMT 4480. Preference is given to students who will graduate that semester.

The college reserves the right to institute and make effective, after due notice, during the course of a student's work toward a degree, any new ruling which may be necessary for the general good of the college, and to substitute courses currently offered for those no longer offered.

Each student admitted to the college is responsible for becoming familiar with the procedures and regulations in the undergraduate catalog.

Specific requirements for each CBA concentration are identified in the following section of this catalog.

Credits not required under general education requirements, the required business core curriculum, or a BSBA concentration can be taken as electives in business and/or in non-business areas to complete the required 120 hours for the BSBA degree.

Concentrations Offered

- Accounting Concentration (p. 386)
- Banking and Financial Markets Concentration (p. 398)
- Business Analytics Concentration (p. 400)
- Business Finance Concentration (p. 401)
- Economics Concentration (p. 394)
- Entrepreneurship Concentration (p. 420)
- Human Resource Management Concentration (p. 413)
- International Business Concentration (p. 381)
- Investment Science and Portfolio Management Concentration (p. 403)
- Legal Studies Concentration (p. 405)
- Logistics & Supply Chain Management Concentration (p. 414)
- Management & Leadership Concentration (p. 411)
- Marketing Concentration (p. 422)
- Real Estate and Land Use Economics Concentration (p. 406)
- Sales Concentration (p. 423)

Program Certificate Offered

- UNO Real Estate Certificate (p. 408)

Accounting

ACCT 2000 ACCOUNTING BASICS FOR NON-BUSINESS MAJORS (3 credits)

This course is designed to provide non-business students with an understanding of basic accounting terms and concepts, an understanding of the usefulness of accounting data for decision-making by internal and external business stakeholders, and the skills to actually use accounting data in decision-making.

Prerequisite(s): Student must be a non-business student. ENGL 1150 and MATH 1310 or MATH 1220 with 'C'-(2.0) or better. Not open to non-degree graduate students

Distribution: Social Science General Education course

ACCT 2010 PRINCIPLES OF ACCOUNTING I (3 credits)

Basic concepts and assumptions underlying financial accounting; basic structure of accounting; the accounting cycle; external financial statements of the enterprise with emphasis on the corporation; income determination; accounting for and reporting of assets, liabilities and owners' equity; analysis and reporting of cash flows; financial statement analysis.

Prerequisite(s): ENGL 1150 with a 'C' (2.0) or better, a GPA of 2.5 or higher, and MATH 1370 or MATH 1930 with a 'C' (2.0) or better or concurrent enrollment in MATH 1370 or MATH 1930

ACCT 2020 PRINCIPLES OF ACCOUNTING II (3 credits)

A study of techniques and concepts affecting internal accounting in a business organization. These include budgeting in general, costing systems, variance analysis and generating reports for management decision-making. Special topics include segment reporting, control of decentralized operations, capital budgeting, and service department cost allocations.

Prerequisite(s): ACCT 2010, ENGL 1150, and MATH 1370 or MATH 1930, each with a C (2.0) or better, and a GPA of 2.5 or higher.

ACCT 3000 MANAGERIAL ACCOUNTING FOR SUPPLY CHAIN MANAGEMENT (3 credits)

This course highlights the important role of a managerial accountant in managing a global supply chain and covers the key accounting techniques for supply chain management. (Cross-listed with SCMT 3000)

Prerequisite(s): ACCT 2020 with a grade of C (2.0) or better or ACCT 2000 with a grade of C (2.0) or better and cumulative GPA of 2.5 or higher. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160. Not open to non-degree graduate students.

ACCT 3020 BASIC FEDERAL INCOME TAXATION (3 credits)

This course provides an introduction to the basic concepts and principles of federal income tax with an emphasis on concepts unique to individual taxpayers.

Prerequisite(s): ACCT 2020, ENGL 1150, ECON 2200 and ECON 2220 with a 'C' (2.0) or better in each course. Cumulative GPA of at least 2.5.

ACCT 3030 INTERMEDIATE FINANCIAL ACCOUNTING I (3 credits)

A more intensive study of basic accounting theory and principles learned in ACCT 2010. Topics include a conceptual framework of accounting, net income concepts, financial statements, present value applications, revenue recognition, current assets, plant assets, and intangible assets.

Prerequisite(s): ACCT 2020, ECON 2200, and ECON 2220, with a grade of 'C' (2.0) or better in each course and a 2.5 GPA. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3040 INTERMEDIATE FINANCIAL ACCOUNTING II (3 credits)

This is the second of two courses in intermediate financial accounting. This course focuses on financial reporting issues relating investments, debt financing, leases, contingencies, cash flows reporting and income taxes.

Prerequisite(s): ACCT 3030 and ENGL 1160, each with a 'C' (2.0) or better.

ACCT 3050 INTERMEDIATE MANAGERIAL ACCOUNTING (3 credits)

The objective of managerial accounting is to provide management with relevant and timely information to aid economic decision making. This course analyzes numerous economic decisions and identifies what information is relevant. Special attention is given to how different cost accumulation systems and different cost accounting and estimating techniques can aid the decision-making process.

Prerequisite(s): ACCT 2020, ECON 2200, ECON 2220, and BSAD 2130, BSAD 3140 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3080 ACCOUNTING INFORMATION SYSTEMS (3 credits)

Introduction to professional accounting information systems, including information systems concepts, accounting and database software and research tools to provide a foundation for subsequent accounting courses.

Prerequisite(s): ACCT 2020, ECON 2200 and ECON 2220, with "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 4010 ADVANCED FINANCIAL ACCOUNTING (3 credits)

Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 8016)

Prerequisite(s): ACCT 3030 and ACCT 3040 with "C+" (2.33) or better in each and ENGL 1160 with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4020 ANALYTICS FOR ACCOUNTING (3 credits)

Students develop an Analytics Mindset for the accounting profession, which includes the crossover competencies of accounting and business knowledge, data modeling and analytic abilities, and communication skills. Principal topics include fundamentals of data capture and cleansing, database development and implementation, visualization and presentation of information, and the use of accounting information for business decisions.

Prerequisite(s): ACCT 3030, ACCT 3080, and ENGL 1160 each with C (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4040 ADVANCED FEDERAL INCOME TAXATION (3 credits)

Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 8046.)

Prerequisite(s): ACCT 3020, ACCT 3030, and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4060 ADVANCED MANAGERIAL ACCOUNTING (3 credits)

Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 8066.)

Prerequisite(s): ACCT 3050, ACCT 3030, and ENGL 1160, each with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4070 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)

Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 8076.)

Prerequisite(s): ACCT 3030 and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4080 PRINCIPLES OF AUDITING (3 credits)

An introduction to auditing, Standards, responsibilities, professional ethics, the audit framework, evidence and reports are studied.

Prerequisite(s): ACCT 3030, ACCT 3080, ENGL 1160, and BSAD 2130 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4090 INFORMATION SYSTEMS AUDITING (3 credits)

This course will provide an introduction of auditing an advanced accounting information system. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association. Accounting information systems control and security practices, and their assessment, will be discussed in the areas of operations, physical and logical access, systems, networks, development and applications, and incorporating hands-on exposure to automated evaluation tools.

Prerequisite(s): ACCT 4080 with a grade of C (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4500 INDEPENDENT STUDY (1-3 credits)

Individual investigation of specific problems in the field of accounting.

Prerequisite(s): Must have permission of the School of Accounting director.

ACCT 4510 ACCOUNTING INTERNSHIP (1-3 credits)

A course for junior or senior accounting students to apply their academic accounting knowledge to accounting practice in an employment situation. A student report on the internship experience and an employer's evaluation of the student's performance are course requirements. Can be applied to free electives, but not accounting specialization electives. (Maximum of 3 hours)

Prerequisite(s): ACCT 3030 and ENGL 1160, each with a C (2.0) or better, and permission of internship coordinator.

ACCT 8016 ADVANCED FINANCIAL ACCOUNTING (3 credits)

Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 4010).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3030 and ACCT 3040 with a grade of "C+" (2.33) or better in each. Not open to non-degree graduate students.

ACCT 8046 ADVANCED FEDERAL INCOME TAXATION (3 credits)

Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 4040).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3020 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8050 FINANCIAL STATEMENT ANALYSIS (3 credits)

Using the financial statement and supplemental information as inputs, this course utilizes a systematic fundamental analysis approach across a variety of decision-making contexts to understand how a business generates value for shareholders.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3040 with a "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8066 ADVANCED MANAGERIAL ACCOUNTING (3 credits)

Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 4060).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3050 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8076 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)

Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 4070).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3030 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8080 CURRENT TECHNOLOGY USE IN ACCOUNTING (3 credits)

This course will cover tools and methods that facilitate business analytic techniques, with a focus on current and emerging technology. This may include tools for databases, spreadsheets, robotic process automation, data mining, artificial intelligence, and others.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. Successful completion of BSAD 8110, ACCT 2020, or equivalent. Not open to non-degree graduate students.

ACCT 8090 INFORMATION SYSTEMS AUDITING (3 credits)

This course presents a broad overview of the professional practice of information systems audit, emphasizing control and audit procedures related to security along with Information Technology General Controls. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association.

Prerequisite(s): ACCT 4080 with a grade of C (2.0) or better. Admission to MAcc or MBA program or permission of instructor. Not open to non-degree graduate students.

ACCT 8210 FINANCIAL ACCOUNTING THEORY (3 credits)

The development of accounting, current accounting theory and present controversies and suggested theory and practice.

Prerequisite(s): ACCT 3040. Not open to non-degree graduate students.

ACCT 8220 GRADUATE TOPICS IN INCOME TAXATION (3 credits)

This course will discuss commonly encountered tax issues such as gift and estate taxation, income taxation of estates and trusts, and exempt organizations, as well as discuss current events while introducing the student to practitioner-oriented research publications.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better, or concurrent enrollment in ACCT 4040 or ACCT 8046. Not open to non-degree students.

ACCT 8230 MANAGEMENT ACCOUNTING ISSUES (3 credits)

An analysis of information to assist managers in determining successful strategies, developing those strategies into plans and controlling operating activities to achieve strategic goals.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3050 or BSAD 8210 with a "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8250 SEMINAR IN ACCOUNTING (3 credits)

A study of a specific area within the accounting discipline. Possible areas include: auditing, financial, managerial, systems and tax. May be repeated, but no area can be taken more than once.

Prerequisite(s): Admission to MAcc or MBA programs or permission of instructor. Not open to non-degree students.

ACCT 8260 FEDERAL TAX RESEARCH AND PLANNING (3 credits)

This course is intended to provide students with a working knowledge of the primary and secondary tax resources used in practice to solve tax problems, as well as basic tax planning concepts.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better. Not open to non-degree students.

ACCT 8280 SEMINAR IN ACCOUNTING INFORMATION SYSTEMS (3 credits)

This course examines current topics in Accounting Information Systems (AIS), how AIS contributes to business effectiveness and ineffectiveness, and the interaction between AIS and human decision-makers.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. Successful completion of BSAD 8110, ACCT 2020, or equivalent. Not open to non-degree graduate students.

ACCT 8290 ADVANCED FINANCIAL AUDITING (3 credits)

This course will provide students with an intense study of financial auditing in accordance with generally accepted auditing standards.

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 4080 with a grade of "C" (2.0) or better.

ACCT 8900 INDEPENDENT RESEARCH (1-3 credits)

This is an independent research course in which the student completes a focused project, typically individual research, under faculty supervision to supplement graduate study in a specific area within the Accounting discipline.

Prerequisite(s): Completed contract and permission needed from director of MAcc program. Not open to non-degree graduate students.

ACCT 8910 SPECIAL TOPICS IN ACCOUNTING (3 credits)

A variable content course with accounting topics based on student and faculty interest. May be repeated to a maximum of six (6) hours.

Prerequisite(s): Admission to MAcc program and permission of instructor. Not open to non-degree graduate students.

Economics**ECON 1200 SURVEY OF ECONOMICS (3 credits)**

An introduction to fundamental economic analysis, applying economic concepts to both domestic and international problems and policies.

Prerequisite(s): Not available to students who have completed either ECON 2200 or 2220.

Distribution: Social Science General Education course

ECON 2200 PRINCIPLES OF ECONOMICS (MICRO) (3 credits)

An introduction to economic principles, decision making and policies affecting product and resource markets. Particular emphasis is on price, output and input decisions by individuals and firms under various market conditions. An introduction to the fundamentals of international trade.

Prerequisite(s): ENGL 1150 and MATH 1310 or MATH 1220 with 'C-' (1.67) or better, or permission of CBA advisor

Distribution: Social Science General Education course

ECON 2220 PRINCIPLES OF ECONOMICS (MACRO) (3 credits)

An introduction to economic principles, decision making and policies on national income and output, employment, growth, money, the price level and the international economy.

Prerequisite(s): MATH 1310 or MATH 1220 and ENGL 1150 with a C-minus (1.67) or better, or permission of CBA advisor

Distribution: Social Science General Education course

ECON 2400 PRINCIPLES OF ECONOMICS FOR EDUCATORS (3 credits)

This course teaches principles of microeconomics and macroeconomics to K-12 educators. After taking this course students will be able to use the economic way of thinking to study current economic issues. Students will be introduced to macroeconomic principles, decision-making and policies on national income and output, employment, growth, money, price level, and fundamentals of international issues. Students will study microeconomic issues including product and resource markets, and prices output and input decisions under various market conditions. Economic concepts will be aligned to K-12 state social studies standards. This course cannot be substituted for ECON 2200 and/or ECON 2220.

Prerequisite(s): MATH 1310 or MATH 1220, ENGL 1150. Not open to non-degree graduate students.

ECON 2600 SURVEY OF BEHAVIORAL ECONOMICS (3 credits)

This course examines the basic concepts behind behavioral economics and the application of behavioral economics across other fields of study. Students will be able to understand the basic variables influencing decision making, including framing and perception as well as the influence of social dynamics and psychological influences.

ECON 3130 ECONOMIC GEOGRAPHY (3 credits)

An introduction to the basic concepts and approaches in contemporary economic geography, stressing the importance of the spatial perspective for an understanding of how economic processes work at global, national, regional, and local scales. (Offered Fall) (Cross-listed with GEOG 3130).

Prerequisite(s): Majoring in Geography. Non-Geography majors: MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3190 SPORTS ECONOMICS (3 credits)

Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Sports Economics, however, students will explore the very real ways in which economics influences sporting competitions and the businesses surrounding them. Students will explore topics such as unionization in sports, discrimination, amateurism, monopoly power, game theory, and more in the context of sports, giving the student a deeper understanding of how these topics apply to real-world problems. After this course, students will understand how readily economics can be applied to businesses and problems in any industry or domain.

Prerequisite(s): ECON 2200 OR ECON 1200 OR ECON 2400 OR Instructor Approval. Not open to non-degree graduate students.

ECON 3200 ECONOMIC THEORY: MICRO (3 credits)

Analysis of individual, firm and industry behavior in product and factor markets. Provides a theoretical foundation for managerial and public policy decision-making.

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 3220 ECONOMIC THEORY: MACRO (3 credits)

This course is designed to follow introductory economics, to examine the determination of output, employment, the price level, inflation, interest rates, and the exchange rate in the economy. Piece-by-piece, theoretical models will be constructed describing how each of these and other variables are determined in both, the long-run and in the short-run. We will analyze how changes in a particular event affect different markets in the economy, and in turn, how one market interacts with another within a general equilibrium framework. A large part of the course will be devoted to business cycle theory, macroeconomic policy issues, and open economy macroeconomics. The world economies are very much integrated, and thus, a full understanding of macroeconomics requires knowledge of international aspects of macroeconomics. The purpose of this course is to provide the student with an understanding of the connection between macroeconomic theory and related policy issues.

Prerequisite(s): Completion of ECON 2200 with a C or better AND ECON 2220 with a C or better

ECON 3290 ECONOMICS OF PUBLIC ISSUES (3 credits)

Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Economics of Public Issues, however, students will explore the real ways in which economics can be used to understand, explain, and answer tough questions that affect everyone. Students will explore and define capitalism and key economic institutions required for economies to develop and prosper. We will examine markets and market failures that exist today. Classes will focus on the outcomes - intended and unintended - of various policies (local, national, and global). While specific issues are going to be covered in the course the intent is that students will learn the tools and strategy of thinking like an economist to guide them through future issues that will come up in their personal, professional, and civic lives.

Prerequisite(s): ECON 2200 OR Instructor Approval.

ECON 3300 INTRODUCTION TO ECONOMETRICS (3 credits)

An introduction to empirical research methods in economics. Subjects covered include estimations of the basic linear regression model, hypothesis testing, correlation coefficients, analysis of variance, multicollinearity, dummy variables, specification error, auto-correlation, heteroscedasticity and unconditional forecasting. Empirical illustrations are provided by reference to contemporary economic questions.

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200, ECON 2220, BSAD 2130 or BSAD 3160, each with a "C" (2.0) or better, or permission of instructor.

ECON 3310 SQL, DATABASES, AND DATA CLEANING FOR DATA SCIENTISTS (3 credits)

Analytics requires data. Within an organization, this data is usually housed in databases. In this class, you will extract data from these systems using Structured Query Language (SQL), programmatically combine multiple datasets, and learn advanced programmatic data cleaning techniques, such as regular expression.

Prerequisite(s): ECON 2200 with a "C" or better

ECON 3320 INTRODUCTION TO ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3 credits)

This course explores the economic approach to environmental and natural resources. It introduces economic concepts and theory at a level accessible to non-economic majors but still challenging to economic majors. It then applies these to such topics as: air and water pollution, solid and hazardous waste management, renewable and nonrenewable natural resource use, and recycling.

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 3550 PUBLIC FINANCE (3 credits)

This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with FNBK 3550).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3600 INTRODUCTION TO INTERNATIONAL ECONOMICS (3 credits)

An introduction to analyses of international trade and the international monetary system. Subjects covered include the economic basis for international specialization and trade, the effect of trade on income distribution, commercial policy, economic integration, the balance of payments, adjustment mechanism, exchange rate determination, external effects of monetary and fiscal policy and foreign investment.

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 4000 SPECIAL TOPICS IN ECONOMICS (3 credits)

This course will explore a specified topic in the field of economics.

Prerequisite(s): Varies by offering

ECON 4210 INDUSTRIAL ORGANIZATION (3 credits)

In this class we will examine why firms and industries behave the way that they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like "Why does everyone hate the cable company?" and "Why are CEOs given so many stock options?" (Cross-listed with ECON 8216).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4240 LABOR ECONOMICS (3 credits)

The course will cover essential topics in Labor Economics including factors leading to equilibrium conditions in the labor market, human capital accumulation, discrimination in the workplace, compensation for undesirable work, mobility, unionization, and more. (Cross-listed with ECON 8246).

Prerequisite(s): ECON 3200

ECON 4300 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)

The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with non negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 8306).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C"(2.0) or better, or permission of instructor.

ECON 4320 NATURAL RESOURCE ECONOMICS (3 credits)

This course introduces students to the economics and management of Earth's natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What role to markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 8326).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4340 ECONOMICS OF TECHNOLOGY (3 credits)

Innovative dynamism is the economic system which brings us the new goods and processes that make life longer and better. We will examine how the system works, including: The role of the breakthrough inventor and the innovative entrepreneur; whether the system improves or hurts ethical behavior, culture, equality, and the environment; the costs to workers in terms of job loss, and the benefits to workers in terms of the creation of better jobs; how funding, regulatory, and patent policies affect innovative dynamism; and how innovative dynamism in medicine can result in more and faster cures for cancer and other diseases. (Cross-listed with ECON 8346).

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better, or BSAD 8180, or permission of instructor.

ECON 4350 BUSINESS INTELLIGENCE AND REPORTING (3 credits)

The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are trained to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 8316).

Prerequisite(s): BSAD 2130 (or equivalent) OR Instructor Approval

ECON 4450 DOMESTIC MONETARY THEORY AND POLICY (3 credits)

The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 8456).

Prerequisite(s): ECON 3220, or permission of instructor.

ECON 4500 SPECIAL PROBLEMS IN ECONOMICS (2-3 credits)

Individual investigation of specific problems in the field of economics under the supervision of a faculty member.

Prerequisite(s): Senior and permission of department chair.

ECON 4510 ECONOMIC INTERNSHIP (1-3 credits)

Students engage in part time employment in their area of concentration to gain relevant business experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required (maximum 3 credit hours).

Prerequisite(s): Permission of internship coordinator; 'C' (2.0) or better in ECON 2200 and ECON 2220; 2.5 Cumulative GPA; junior or senior standing.

ECON 4570 ECONOMIC CONDITIONS ANALYSIS (3 credits)

This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn where to find data, how to analyze that data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will ensure equal participation. (Cross-listed with ECON 8576).

Prerequisite(s): ECON 2200 and ECON 2220, or permission of the instructor

ECON 4610 INTERNATIONAL TRADE (3 credits)

An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 8616).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4620 INTERNATIONAL MONETARY THEORY (3 credits)

This course is designed to introduce students to topic areas in International Macroeconomics and International Finance. Students will examine the mechanisms of the foreign exchange market, and how exchange rates are determined in the short-run as well as in the long-run. Students will investigate the different exchange rate regimes around the world, including fixed exchange rates, floating exchange rates, crawling pegs, and other arrangements. Students will examine the European Union and ask whether such a system is economically viable. This is especially important in the current economic environment facing Europe. Students will also examine exchange rate crises over history, and examine how they all have common elements. (Cross-listed with ECON 8626).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4660 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)

This course introduces theories and application of economic development and growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 8666).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4730 ECONOMICS OF ENTREPRENEURSHIP (3 credits)

This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 8736, BSAD 8736).

Prerequisite(s): ECON 2200 or permission of the instructor for all students

ECON 4850 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)

This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 8856)

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4990 SENIOR ASSESSMENT (0 credits)

This assessment tool is part of the Department's Student Outcomes effort. It is designed to monitor the Department's performance and to identify changes needed. Graduating seniors must register for and complete this course in the term in which they plan to graduate.

Prerequisite(s): Students must register for ECON 4990 in the term in which they plan to graduate. Not open to non-degree graduate students.

ECON 8010 SEMINAR IN PUBLIC FINANCE (3 credits)

This course is designed to develop the tools of applied welfare economics and to use these tools to evaluate the expenditure and tax decisions of governments. The structure, effects and reform of the U.S. individual and corporate income taxes, social security and healthcare system will be emphasized. Government debt and deficits will also be discussed.

Prerequisite(s): ECON 3200 or ECON 8210 or BSAD 8100 or permission of the instructor.

ECON 8020 ENVIRONMENTAL ECONOMICS AND MANAGEMENT (3 credits)

This course covers topics related to environmental economics and policy, with an emphasis on comparative policy analysis and business strategies towards the environment. (Cross-listed with BSAD 8020).

Prerequisite(s): ECON 2200 and ECON 2220 or BSAD 8180, or permission of the instructor. Not open to non-degree graduate students.

ECON 8050 ECONOMIC EDUCATION (3 credits)

A study and examination of economic principles and how they can be related to the teacher's classroom presentation. This course is designed to furnish the k-12 teacher with sufficient background and understanding to aid in the recognition of economic issues and the teaching of economic concepts and principles.

Prerequisite(s): No previous course work in economics. Not open to Economics majors.

ECON 8080 MONEY AND FINANCIAL INSTITUTIONS (3 credits)

This course examines the financial system (institutions, instruments, markets, practices, and public authorities), and the implementation of monetary policy that aims to maintain financial stability and support economic growth. The course discusses current events reported in the financial press and uses the analytic frameworks developed in class to analyze these issues. This course trains students to think systematically about the current state of the economy and use quantitative tools to analyze the interactions between monetary policy and the financial system.

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 8200 SEMINAR IN MICRO ECONOMIC THEORY (3 credits)

The course covers major topics in microeconomic theory. The major topics covered are the theory of consumer behavior, theory of production and cost, theory of the firm, pure exchange economy, general equilibrium, and welfare theory.

Prerequisite(s): ECON 3200, ECON 3220 and ECON 8306 or permission.

ECON 8210 APPLIED MANAGERIAL ECONOMICS (3 credits)

This is a course in empirical economic modeling techniques deployed by economists and other business consultants use in business and public policy applications. There are four main themes: 1) techniques used in demand analysis and economic forecasting, 2) techniques used in production and cost analysis, 3) supply chain and trade analysis, and 4) analysis and measurement of competitive interactions.

Prerequisite(s): ECON 2200 or equivalent, or permission of the instructor.

ECON 8216 INDUSTRIAL ORGANIZATION (3 credits)

In this class we will examine why firms and industries behave the way that they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like "Why does everyone hate the cable company?" and "Why are CEOs given so many stock options?" (Cross-listed with ECON 4210).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 8220 SEMINAR IN MACRO THEORY (3 credits)

This course traces the development of macroeconomic theory from the classical point of view to current schools of thought. Keynesian, neo-Keynesian and neo-classical models are developed.

Prerequisite(s): ECON 3200 or ECON 8210 or BSAD 8100, ECON 3220, and ECON 8306, or permission.

ECON 8230 BUSINESS CONDITIONS ANALYSIS (3 credits)

This course is concerned with the statistical measurement and evaluation of general business conditions, as well as the adaptation of business policies to changing business conditions. Emphasis is placed upon the practical application of statistical analysis techniques to business situations within the framework of the aggregate economy.

Prerequisite(s): ECON 2200 and ECON 2220.

ECON 8246 LABOR ECONOMICS (3 credits)

The course will cover essential topics in Labor Economics including factors leading to equilibrium conditions in the labor market, human capital accumulation, discrimination in the workplace, compensation for undesirable work, mobility, unionization, and more. (Cross-listed with ECON 4240).

Prerequisite(s): ECON 2200 OR BSAD 8150

ECON 8290 RESEARCH METHODS IN ECONOMICS AND BUSINESS (3 credits)

Covers the methodology of economics: choosing a research topic, literature search tools, data source identification, data summary techniques, basic statistical data analysis using statistical packages, and clear economics writing. The student will become familiar with these techniques through text materials, journal studies, and completion of an empirical economics paper.

Prerequisite(s): ECON 3200, ECON 3220, or equivalents, or permission of the instructor. Not open to non-degree graduate students.

ECON 8300 ECONOMETRICS (3 credits)

The study of the underlying assumptions, techniques and applications of single and multiple equation regression analysis in economics.

Prerequisite(s): Basic Statistics, ECON 8306/ECON 4300, or permission. Not open to non-degree graduate students.

ECON 8306 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)

The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with non negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 4300).

Prerequisite(s): ECON 2200 and ECON 2220, or BSAD 8180.

ECON 8310 BUSINESS FORECASTING (3 credits)

The course will cover forecasting tools and applications applied to business settings. The first half of the course will cover traditional Econometric forecasting methods and the second half of the course will focus on predictive analytics models and machine learning. Time in the computer lab will be focused on teaching students how to implement the models discussed in lectures. (Cross-listed with BSAD 8080).

Prerequisite(s): ECON 8320 (or equivalent programming experience) or permission of instructor. Not open to non-degree graduate students.

ECON 8316 BUSINESS INTELLIGENCE AND REPORTING (3 credits)

The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are trained to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 4350).

Prerequisite(s): BSAD 2130 (or equivalent) OR Instructor Approval

ECON 8320 TOOLS FOR DATA ANALYSIS (3 credits)

The course will cover basic principles of programming languages, as well as libraries useful in collecting, cleaning and analyzing data to answer research questions. The course will utilize basic Economic principles and Econometric methods as inspiration for assignments and projects throughout the duration of the course, and will do so in a way that is accessible to non-Economists. This course is intended to introduce the student to the Python programming language as a tool for conducting data analysis. While the course uses Python, the student should be able to move to other languages frequently used in data analysis using the principles taught in this course.

Prerequisite(s): BSAD 2130 or equivalent; or instructor approval.

ECON 8326 NATURAL RESOURCE ECONOMICS (3 credits)

This course introduces students to the economics and management of Earth's natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What role to markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 4320).

Prerequisite(s): ECON 2200 and ECON 2220, BSAD 8150 or permission of instructor.

ECON 8330 DATA ANALYSIS FROM SCRATCH (3 credits)

Econometrics is routinely taught as an application class using a 'black box' like Stata or SAS to perform calculations. This class takes a different approach. Using the Python programming language, we build all estimators from scratch. Additionally, we introduce numerous non-parametric and simulation techniques. This approach to econometrics results in a stronger understanding of statistical assumptions and methods, a better understanding of when a method is appropriate, and stronger programming techniques. Furthermore, a deeper understanding of the underlying mechanics provides the student the ability to program custom procedures not already built into popular software packages. As part of the course, students will work with a community partner to answer a real question with data; MBA students should consult with their advisor about this course satisfying the project-focused capstone requirement.

Prerequisite(s): A multivariate or regression analysis course such as ECON 8300, ISQA 9130 or STAT 8436, and a programming class such as ECON 8320 or equivalent programming experience; or instructor approval. Not open to non-degree graduate students.

ECON 8346 ECONOMICS OF TECHNOLOGY (3 credits)

Innovative dynamism is the economic system which brings us the new goods and processes that make life longer and better. We will examine how the system works, including: The role of the breakthrough inventor and the innovative entrepreneur; whether the system improves or hurts ethical behavior, culture, equality, and the environment; the costs to workers in terms of job loss, and the benefits to workers in terms of the creation of better jobs; how funding, regulatory, and patent policies affect innovative dynamism; and how innovative dynamism in medicine can result in more and faster cures for cancer and other diseases. (Cross-listed with ECON 4340).

Prerequisite(s): ECON 2200 or BSAD 8180 or permission of the instructor.

ECON 8456 DOMESTIC MONETARY THEORY AND POLICY (3 credits)

The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 4450).

ECON 8576 ECONOMIC CONDITIONS ANALYSIS (3 credits)

This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn where to find data, how to analyze that data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will ensure equal participation. (Cross-listed with ECON 4570).

Prerequisite(s): ECON 2200 and ECON 2220, or Permission from the instructor

ECON 8616 INTERNATIONAL TRADE (3 credits)

An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 4610).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8626 INTERNATIONAL MONETARY THEORY (3 credits)

This course is designed to introduce students to topic areas in International Macroeconomics and International Finance. Students will examine the mechanisms of the foreign exchange market, and how exchange rates are determined in the short-run as well as in the long-run. Students will investigate the different exchange rate regimes around the world, including fixed exchange rates, floating exchange rates, crawling pegs, and other arrangements. Students will examine the European Union and ask whether such a system is economically viable. This is especially important in the current economic environment facing Europe. Students will also examine exchange rate crises over history, and examine how they all have common elements. (Cross-listed with ECON 4620).

Prerequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8666 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)

This course introduces theories and application of economic development and growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 4660).

Prerequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8736 ECONOMICS OF ENTREPRENEURSHIP (3 credits)

This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 4730, BSAD 8736.)

Prerequisite(s): ECON 2200 or permission of the instructor for all students.

ECON 8856 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)

This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 4850).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 8910 SPECIAL STUDIES IN ECONOMICS (3 credits)

This course will focus on issues or developments in a specific area of economics or business.

Prerequisite(s): Graduate student in good standing and as indicated for specific workshop or seminar.

ECON 8920 INDEPENDENT STUDY (1-3 credits)

Guided independent study and research.

Prerequisite(s): Graduate student in economics and permission of instructor.

ECON 8940 ECONOMIC INTERNSHIP (1-3 credits)

Guided internship in a firm or organization that makes use of, or extends, the student's skill in economics.

Prerequisite(s): Completion of at least nine hours of graduate level economics and permission of instructor.

ECON 8990 THESIS (1-6 credits)

An independent research project, written under the supervision of a graduate adviser in the department of economics. Approval of the topic and the completed project by departmental committee is required.

Prerequisite(s): Approval of the topic and the completed project by departmental committee is required.

Finance and Banking**FNBK 2280 PERSONAL FINANCE (3 credits)**

This course focuses strengthening the development of sound financial habits through knowledge and application of concepts and activities that enhance personal and family finance.

FNBK 2710 PRINCIPLES OF INSURANCE (3 credits)

This course is intended to introduce students to the basic concepts of risk and insurance. Special emphasis is placed on the insurance coverage needed by the consumer: life, health, homeowner and auto insurance. (Fall, Spring)

Prerequisite(s): Not open to non-degree graduate students.

FNBK 3000 FINANCIAL REPORTING AND ANALYSIS (3 credits)

Seeks to develop students' understanding of the origin and derivation of accounting data, and their skills in employing the data for the purpose of financial analysis, reporting and valuation.

Prerequisite(s): ACCT 2020 with 'C' (2.0) or better.

FNBK 3250 PRINCIPLES OF FINANCIAL MANAGEMENT (3 credits)

As an introduction to financial management, the course will cover a broad area of corporate finance and discuss topics including assessment of financial statement information, time value of money, bond and stock valuation, as well as capital budgeting.

Prerequisite(s): ACCT 2010, ECON 2200, ECON 2220, MATH 1320 or MATH 1370 or MATH 1930, BSAD 2130 or 3160, ENGL 1160/ENGL 1164 or concurrent enrollment in ENGL 1160/1164 each with "C" or better and 2.5 GPA.

FNBK 3300 INTERMEDIATE FINANCIAL MANAGEMENT (3 credits)

This course is intended to develop an intermediate level of understanding of financial analysis and decision making, as well as an understanding of the context within which these skills are used, through an in-depth exploration of the essential mathematical operations that underpin advanced finance courses. Critical thinking and computer literacy will be enhanced using MS Excel for spreadsheet calculations and model building.

Prerequisite(s): FNBK 3250 with a C+ or better and 2.5 overall GPA. Not open to non-degree graduate students.

FNBK 3330 ENTREPRENEURIAL FINANCE (3 credits)

This course focuses on venture capital formation and the financing of entrepreneurial ventures. The course is intended for students interested in entrepreneurship, venture capital markets, investment banking, and other careers related to new venture financing and/or deal structuring. The course applies basic financial theory to the unique environment of incubating and growing new ventures. (Cross-listed with ENTR 3330).

Prerequisite(s): FNBK 3250 with 'C' (2.0) or better.

FNBK 3400 INVESTMENT PRINCIPLES AND PRACTICES (3 credits)

A study of the market for investment securities, an introduction to the field of security analysis, and selection and management of a portfolio of securities. (Fall, Spring)

Prerequisite(s): FNBK 3300, GPA of 2.5 or better or approval of instructor.

FNBK 3500 FINANCIAL MARKETS (3 credits)

An overview of money and banking, monetary policy, and analysis of the operations of financial markets in a global context, as well as the evolving regulatory framework within which these markets operate.

Prerequisite(s): ECON 2200 and ECON 2220 and FNBK 3250 with 'C' or better, or approval of instructor.

FNBK 3550 PUBLIC FINANCE (3 credits)

This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with ECON 3550).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

FNBK 3650 COMMERCIAL BANK MANAGEMENT (3 credits)

This course focuses on the theory and practice of managing commercial banks. Topics covered include but are not limited to: Bank regulations, bank performance analysis, asset liability management, credit analysis and consumer loans. This course emphasizes the link between theory and practice through readings, guest lecturers from industry experts, and a comprehensive bank research project on a local bank of your choice. At the end of the course, students should have a good understanding of basic banking theories as well as banking practices, and current issues and challenges facing the banking industry.

Prerequisite(s): FNBK 3300, GPA of 2.5 or better or approval of instructor.

FNBK 3700 INTERNATIONAL FINANCIAL MANAGEMENT (3 credits)

This course focuses on the application of basic principles and techniques of international financial management to the decision-making process of the multinational firms. The course covers foreign exchange markets, management of foreign exchange risk, international working capital management, and foreign portfolio and direct investment. Factors bearing on international financing and investment decisions, such as political risk and international taxation issues will be also explored. (Fall, Spring, Summer).

Prerequisite(s): FNBK 3250 with 'C+' (2.3) or better, GPA of 2.5 or better or approval of instructor.

FNBK 4000 SPECIAL TOPICS IN FINANCE AND BANKING (1-5 credits)

The topics addressed in this finance and banking special topics course will vary but are typically an in-depth exploration of a specific topic in the field of finance and banking. Please contact the finance and banking department chairperson for the specific course offering.

FNBK 4150 ADVANCED FINANCIAL MANAGEMENT (3 credits)

This course aims to develop the student's ability to identify, analyze and solve integrative problems in management of business finance, including financial analysis, working capital management, capital budgeting decisions, long term financing, and leasing, through the use of prescribed readings, case studies and computer applications. (Fall, Spring).

Prerequisite(s): FNBK 3300, GPA of 2.5 or better, and senior standing. It is highly recommended that a student have an additional 6 hours of finance instruction beyond the introductory course prior to taking this class.

FNBK 4210 SELLING FINANCIAL SERVICES (3 credits)

Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with BSAD 8216, MKT 4210).

Prerequisite(s): MKT 3310 with a C+ or better grade and 2.5 GPA. Not open to non-degree graduate students.

FNBK 4470 BEHAVIORAL FINANCE & INVESTING (3 credits)

This course focuses on how actual investor behaviors and market behaviors differ from traditional theories of finance. This course will examine psychological biases, identify how such biases influence financial markets and settings, and explore methods that can be utilized to recognize and overcome such behavioral pitfalls. (Cross-listed with BSAD 8476).

Prerequisite(s): Junior or senior standing. Not open to non-degree graduate students.

FNBK 4500 SPECIAL PROBLEMS IN FINANCE AND BANKING (2-3 credits)

Individual investigation of specific problems in the fields of finance and banking. (Fall, Spring).

Prerequisite(s): Senior. Note: permission of department chair required prior to registration.

FNBK 4510 FINANCE AND BANKING INTERNSHIP (1-3 credits)

Students will engage in an applied experience in their area of specialization to gain relevant experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required. Note: FNBK4510 may be taken for a maximum of 3 credits.

Prerequisite(s): Permission of internship coordinator; 'C+' or better in FNBK 3250; 2.5 cumulative gpa; junior or senior standing

FBNK 4570 INVESTMENT MANAGEMENT FOR FINANCIAL ANALYSTS (3 credits)

This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with BSAD 8576).

Prerequisite(s): Senior standing. Not open to non-degree graduate students.

FBNK 4590 RISK MANAGEMENT FOR BUSINESS MANAGERS (3 credits)
