RELI 2020 RELIGION AND HUMAN RIGHTS (3 credits)

This course introduces students to the intersection of religion and human rights. It takes human rights as a moral tradition and asks how it impacts and is impacted by religious moral thought.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2060 THE RELIGION OF ANCIENT EGYPT AND MESOPOTAMIA (3 credits)

This course is designed to familiarize the student with the religions of ancient Egypt and Mesopotamia. The course will use archaeological discoveries together with ancient Egyptian and Mesopotamian texts to explore the religions of these two civilizations. It will deal with Mesopotamian and Egyptian beliefs surrounding issues such as creation, afterlife, ethics, morality and rituals.

Prerequisite(s): Intro to World Religion is recommended but not necessary.

RELI 2120 HINDU SCRIPTURES (3 credits)

An introduction to some of the foundational scriptures of Hinduism (Sanatana Dharma) from traditional and modern perspectives, including the Vedas, the Upanishads, and the Bhagavad-Gita.

Prerequisite(s): Not open to non-degree graduate students.

RELI 2150 HEBREW SCRIPTURES (3 credits)

A historical introduction to the study of the Hebrew Scriptures from the Biblical to Talmudic period in the light of recent scholarship.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2160 NEW TESTAMENT: HISTORY, LITERATURE, AND SOCIETY (3 credits)

Who were Jesus, Peter, Mary, and Paul in the Roman empire of the early first century? How did these Jews of the Second Temple Period become the earliest generation of a 2,000 year history of Christianity? How did early Christian understandings of God and humanity shape or constrain their interpretations of and responses to affliction, healing, and death, both conceptually and in practice? Finding answers to these questions requires students to study the literature of the New Testament and other early Christian literature, along with scholarly analyses of key issues related to authorship, dating, textual analysis, literary genres, historical contexts, and varying interpretations. The purpose of the course is to train students in the content of the texts as well as critical tools related to documentary analysis, archaeological methods, and various literary and social scientific approaches, interdisciplinary tools which also enhance one's skills in a variety of careers and professions.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2170 QUR'AN (3 credits)

This course provides an introduction to the academic study of the Qur'an, its uses, interpretations, and applications in society from its earliest appearance up to the present.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2190 THE MODERN MIDDLE EAST (3 credits)

An interdisciplinary study of the social, religious, and historical dimensions of contemporary issues and events which make the Middle East cultural and geographic region a center of global tensions. After providing a background of how Islam spread in and unified the region, students will study factors which have shaped the Middle East from the late Ottoman period to the present, analyzing the principal sociocultural and political economic developments in the Middle East from the early 19th century to the early 21st century. (Cross-listed with HIST 2190, SOC 2190).

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

RELI 2200 GLOBAL RELIGIOUS ETHICS: THE BASICS (3 credits)

An introduction to the main types of ethical thought in religious traditions worldwide. The course will consider both historical and contemporary approaches and will relate ideas and practices of religious ethics to contemporary moral problems.

RELI 2400 RELIGION IN AMERICA (3 credits)

The role of religion in American culture, seen in the interaction between the inherited religious traditions and the crucial events in American experience and how this affects American identity - past and present.

Prerequisite(s): Sophomore or permission of instructor.

RELI 2500 SPIRITUALITY AND WELLNESS (3 credits)

This course provides an introduction to the emerging field of spirituality and wellness. Utilizing perspectives from multiple disciplines and incorporating both third-person (research, theory) and first-person (experiential, reflective) approaches, students will explore topics such as: the nature of spirituality; mindfulness, meditation and wellness; spirituality and public health; spiritual wellness on campuses; and ecospirituality.

Prerequisite(s): Not open to non-degree graduate students.

RELI 2730 THE BLACK SPIRITUAL EXPERIENCE (3 credits)

The Black Spiritual Experience course examines the trajectory of early African religions and philosophies, and their syncretization with European settler religions in America that have been practiced and embraced by Blacks in the U.S. since slavery. Students will survey the historical development of the Black church in America, and the emergence of liberation and Black theologies to combat white supremacy, oppression, and exploitation. This course will explore the cultural importance of music, dance, and art in worship and Black spiritual expressions; the role of religion and theology in empowering and uplifting African Americans, particularly during the Black Power and Civil Rights movements; the political impact of Black religious institutions in the long fight against systemic racism, racial violence, police brutality, and voter suppression in America; and the challenges of inclusion, equity, and intersectionality within the Black church around issues of gender, class, and sexual orientation. (Cross-listed with BLST 2730).

Distribution: U.S. Diversity General Education course

RELI 3020 NATIVE AMERICAN RELIGIONS (3 credits)

This course examines the life-ways, oral narratives, ceremonies, and philosophies of selected Native American tribal nations and communities from the major cultural regions of North America, utilizing historical, anthropological, and literary approaches. No single Native spiritual tradition or culture represents all Native North American beliefs and customs. Thus, attention will be given both to similarities among different tribal groups, and also the great diversity among the hundreds of indigenous ways of life on the North American continent, both ancient and modern. Particular topics addressed include the following: healing traditions and maintaining personal and communal balance, pilgrimages to sacred sites, and, critically, Native American creation stories inform the manner in which Native communities approach the natural world, including plants and animals as "other-than-human" persons.

RELI 3030 SHAMANISM (3 credits)

Study of the forms and techniques of shamanic experience from its Paleolithic and Neolithic origins to its contemporary practice among Indigenous peoples worldwide, including its role in the development of human religious traditions and systems of healing.

RELI 3050 RELIGIONS OF THE EAST (3 credits)

A study of the major religions that originate in South, Southeast, and East Asia, considering their origins, foundational doctrines, practices, beliefs, rituals and contemporary expressions. Included are the religions of Hinduism, Buddhism, Jainism, Sikhism, Daoism, Confucianism and Shintoism. Knowledge of the religious and spiritual traditions of South, Southeast, and East Asia will help students who intend to travel or work in those regions or who may have friends and colleagues from those regions of the world. A broad grasp of these critical cultural traditions will enhance international, cross-cultural understanding for any career or professional track.

RELI 3060 RELIGIONS OF THE WEST (3 credits)

The stories and histories, practices, communities, and interactions among Jews, Christians, and Muslims are part of a larger history of inter-religious encounters and development. In addition to learning about the ideas and scriptures, the ritual and ethical practices, and the forms of social organization of these religious communities, students will analyze how each one of these major religious traditions not only impacts each other, but also play significant roles in the emerging global community. With this additional perspective, students will be able to understand and discuss Judaism, Christianity, and Islam as dynamic forces historically and in the twenty-first century.

RELI 3130 WOMEN AND THE BIBLE (3 credits)

This course explores the characterization of women in Hebrew and Christian scriptures as well as what we can learn about the lives of women in the ancient world from these and other sources. Attention is also given to the reception and use of these texts in later historical periods including contemporary religious contexts. (Cross-listed with WGST 3120).

RELI 3200 ISLAM AND MUSLIMS (3 credits)

What do Muslims believe? How do they practice their faith? What role does Islam and what roles do Muslims play in the 21st century? This course provides an introduction to the history, beliefs, and practices of Islam and Muslim communities, including both Sunni and Shi'i traditions, Sufis and Salafis, from the time of Muhammad ibn Abdullah to the 21st century. Students will examine the ways in which we come to 'know' about Islam and how to approach mediated sources with a critical lens. Thus, in addition to highlighting the many important cultural, scientific, medical, artistic, and architectural contributions of Muslim societies throughout the past millennium, critical contemporary issues will also be addressed, including the role of women in Islam, the meaning of jihad, the legal traditions (shari'a and fiqh), the relationship between religion and politics in Islam, and issues of law, gender, myth, violence, colonialism, modernity, and Islamophobia.

RELI 3330 ROMAN CATHOLIC THOUGHT AND PRACTICE (3 credits)

What does the Roman Catholic Church teach today? What are the major official documents outlining the theological concerns of the Holy See since the time of Vatican II? How do Roman Catholics themselves think about the official teachings? This course is an investigation of developments and differences in Roman Catholic thought and practice over the past century. Students will examine prominent official statements (e.g., papal encyclicals and episcopal pronouncements) and commentary about different points of view. Special consideration will be given to the theological ethical bases in the tradition for various progressive and conservative theological trends. Students will analyze documents and issues and articulate their own perspectives both orally and in writing. Topics to be examined include both moral issues (e.g., ends of life decisions, poverty and justice, climate and human responsibility) and questions about the priesthood and the diaconate, interfaith dialogue, and inter-religious relations.

RELI 3400 RELIGION AND FILM (3 credits)

This course will examine the various ways in which religion and film connect, including the representations of religious groups in films, ways in which films replicate or alter religious concepts, and ways in which film as an aspect of popular culture functions analogously to religions in society. Methods used will include the analysis of film technique, auteur criticism, and audience reception analysis.

Prerequisite(s): Not open to non-degree graduate students.

RELI 3500 TOPICS IN RELIGIOUS STUDIES (3 credits)

The content of this course varies from semester to semester, giving instructor and students an opportunity to investigate various subjects of interest in religious studies. Typically, students will learn through reading, viewing, discussing, and writing about the topic under study. Some sections may include service learning and other forms of experiential learning. (May be repeated for credit as long as the topic is different, up to 18 hours of credit.)

RELI 3960 READINGS IN RELIGION (1-6 credits)

Individual research in selected areas or particular questions in religious studies, which are not covered in other courses. Typically, a student proposes a topic to an instructor, and they agree upon a list of readings (or other resources) to read, analyze, and evaluate, as well as expectations for writing papers and presenting ideas orally. Students are welcome to propose topics of study!

Prerequisite(s): Permission of instructor.

RELI 4000 RELIGIOUS STUDIES INTERNSHIP (1-6 credits)

A supervised internship enabling students to develop and apply knowledge and gain expertise related to the field of Religious Studies while working at a non-profit, educational, non-governmental or related organization. The host organization for the student must be approved in advance in consultation with the internship coordinator and the Chair of Religious Studies. This course may be repeated for a maximum of six credit hours.

Prerequisite(s): Junior or senior. Religious Studies major or minor. Permission of internship coordinator. Not open to non-degree graduate students.

RELI 4010 SENIOR SEMINAR IN RELIGION (3 credits)

This course provides a capstone experience in religious studies. It serves as the third writing course and is required for Religious Studies majors. The readings will deepen students' understanding of the field of Religious Studies and how it relates to social concerns, as well as guide students through developing a research project. Students will present research both in writing and verbally, in ways that address scholarship in Religious Studies and that are accessible to a general audience. Student will also have opportunities to reflect on experiential learning and career goals.

Prerequisite(s): Five courses in Religion, or permission of instructor.

RELI 4020 BUDDHIST TRADITIONS (3 credits)

This course is an exploration of Buddhist history, thought and practices. It begins with the origins, cultural context, and development of Buddhism in South Asia and then traces the path of Buddhism through Southeast Asia, Tibet, China, Korea, Japan and North America.

Prerequisite(s): Junior or permission of instructor.

RELI 4030 AFRICANA RELIGIONS (3 credits)

An introduction to religions in Africa and the diaspora, including African Traditional Religions, Christianity, Islam, and Afro-Caribbean religious traditions, using anthropological, historical, and other academic approaches to the study of religious and spiritual traditions. In particular, students will learn about the role of spirits, ancestors, witches, and other invisible agents in ideas and practices regarding health and healing. Finally, the class will examine the complex inter-relationships between religious ideas and practices and contemporary post-colonial political-economic realities, including the consequences of genocide and other human rights violations and the role of religious communities in social and economic development. (Cross-listed with RELI 8036, BLST 8036, BLST 4030).

RELI 4050 RELIGION IN EARLY AMERICA (3 credits)

This course examines the history and nature of religion in North America to c. 1770 with an emphasis on the British colonies. (Cross-listed with HIST 4010; HIST 8016).

Prerequisite(s): Junior or senior standing. Not open to non-degree graduate students.

RELI 4060 FIRST NATIONS: SPIRIT IN ARTS AND CULTURES (3 credits)

First Nations: Spirit in Arts and Cultures explores how contemporary Indigenous/Native (First Nations, Metis and Inuit) artists in the lands now known as Canada express their cultures, especially beliefs, through the fine arts. While we will focus on visual culture (sculpture, painting, film, mixed media), literary works (a novel, poetry) and music will also be included. First Nations, Metis and Inuit artists often simultaneously express traditions, their own experiences, and reflections on the present and past through their work. By doing this, they share valuable perspectives on health and healing as well as the national process of Truth and Reconciliation. Trying, so much as possible, to let the artists speak for themselves, we will explore how spirituality manifests itself in contemporary cultures for these Indigenous artists north of the border. (Cross-listed with RELI 8066, NAMS 4060, NAMS 8066).

RELI 4150 JUDAISM IN THE MODERN AGE (3 credits)

A study of Jewish communities and movements since the Enlightenment emphasizing historical, intellectual, religious-legal, and socio-cultural developments. Pivotal movements (e.g., Hassidism, Reform, Historical Conservative Judaism, Modern Orthodoxy, Zionism) and major historical events (e.g., the American and French Revolutions, Tsarist oppression, the Holocaust/Shoah and the establishment of the State of Israel) will be analyzed for their ongoing impact on Jewish thought, practice, and social organization. (Cross-listed with RELI 8156)

Prerequisite(s): Junior, three hours in religion, or permission of instructor.

RELI 4160 THE HOLOCAUST (3 credits)

An interdisciplinary approach in a seminar oriented format discussing various aspects of the most notorious genocide in modern times. The course will explore the history of anti-Semitism, the rise of Nazi Germany and the road to the 'final solution.' It will further explore psychological, sociological and intellectual aspects of the dark side of humanity. (Cross-listed with RELI 8166, HIST 4720, HIST 8726)

Prerequisite(s): Junior or instructor permission.

RELI 4170 HISTORY OF CHRISTIANITY I (3 credits)

The development of Christian theological, ritual, and social practice from the beginnings of Christianity through the Reformation. History of Christianity from its origins in the first century through the sixteenth century movements for reform. (Cross-listed with RELI 8176).

RELI 4180 HISTORY OF CHRISTIANITY II (3 credits)

This course will focus on the historical development of Christian ideas, practices, and institutions from the reformations of the sixteenth century CE through the early twenty-first century CE. In addition to the theological claims, students will examine the history of ritual practice and organizational development of the principal varieties of Christianity - Roman Catholic, Eastern Orthodox and other eastern churches, Protestant, and Pentecostal. (Cross-listed with RELI 8186).

RELI 4200 COMPARATIVE RELIGIOUS ETHICS (3 credits)

An introduction to historical and contemporary approaches to comparative religious ethics, with special focus on specific case studies as encountered in societies and religious communities across the globe. In addition to reading authors from a variety of perspectives (Aristotelians, natural law theorists, philosophers of law, pragmatists, theologians, and historians of religion), students will be introduced to special topics in the field, e.g., religion and public life, religion and law, syncretism, the secular/non-secular divide, etc. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 8206, CACT 8206)

RELI 4210 PUBLIC HEALTH, RELIGION, AND HUMAN RIGHTS (3 credits)

This course examines the intersections among public health, religion, and human rights. It considers how human rights impact public health and vice versa; how human rights and religious thought impact each other; how religious communities approach issues of public health; and how religious thought and practice affects people's health. Topics include infectious diseases such as HIV and COVID-19; issues of stigma and discrimination in public health; social determinants of health such as poverty and environmental quality; and women's and LGBTQ+ health. Students will gain skills of textual analysis, dialogue, and argumentative reasoning in both written and verbal form. (Cross-listed with RELI 8216, CACT 8216)

Prerequisite(s): Prerequisites: junior standing OR prior completion of either RELI 1010 or MEDH 1000.

RELI 4220 VIOLENT CONFLICTS, PEACEBUILDING, AND THE ETHICS OF INTERVENTION (3 credits)

This course is designed to familiarize the student with the nature of violent conflict, including terrorism, and a variety of the mechanisms for peacebuilding. The course will also explore human rights and the ethics of intervention. This course supports the Ethics and Values concentration in the Master of Arts in Critical and Creative Thinking. (Cross-listed with RELI 8226, CACT 8226)

RELI 4250 WAR, RELIGION, AND HUMAN RIGHTS (3 credits)

What is the connection between human rights, religion, conflict, and peacebuilding? Does religion cause war or help to stop it? How can human rights violations be prevented or stopped, and can religious actors be engaged in this work? Is the use of force ever appropriate to protect human rights? This course engages all of these questions by examining the ethical thought of multiple religious traditions; the work of human rights organizations; the just war tradition; and questions about sovereignty, peacebuilding, and the use of force worldwide. It includes discussion of historical issues and contemporary case studies. (Cross-listed with RELI 8256).

RELI 4260 THE END OF THE WORLD: RELIGION AND APOCALYPSE (3 credits)

This course introduces students to sacred texts and their interpretation by "end of the world" groups across world history. Several ancient, medieval, and contemporary groups are discussed. Special attention is paid to the connections between apocalyptic and political movements, as well as religion and violence. (Cross-listed with RELI 8266).

RELI 4400 WOMEN IN ISLAM (3 credits)

This course examines the religious, political and cultural assignments ascribed to Muslim women. Starting with the Qur'an, social, legal, and scriptural norms will be explored through the voices of Muslim women around the world. Passages of the Qur'an, hadiths and the commentaries that lead to the elevation and/ or demise of Muslim women and their rights are studied. Examining the role of the female body, sexuality and seclusion within a historical context will lead to an understanding of the gendering of women in Islam. (Cross-listed with RELI 8406)

Prerequisite(s): RELI 3200

RELI 4420 MUSLIMS IN AMERICA (3 credits)

This course is designed to familiarize the student with the multiplicity of Muslim voices in the United States and to examine the myths created through stereotyping and orienting. The course will also investigate how Muslims in America form identities as hybrids and transnationals and follows the chronological development of American Muslims including their identity construction, religious issues, and politics. (Cross-listed with RELI 8426)

Prerequisite(s): RELI 3200 or permission.

RELI 4450 HOLY TERROR: RELIGION AND HORROR (3 credits)

Examining the genre of horror in books, films, and television, students will explore the ways in which horror in its many forms illuminates upon an array of religious ideas. Some of the major subjects and themes examined in this class include: various cultural interpretations of sleep paralysis, the fear of death and dying badly, Hell and Satan, nature horror, body horror, and the breakdown of the established order of reality and its replacement with one that is alien and hostile to it. In addition to these themes, we will also explore horror in Native American and Eastern social and cultural contexts. Emphasis is placed on the genre's ability to portray complex religious, philosophical, sociological, and anthropological subject matter. (Cross-listed with RELI 8456).

RELI 4500 ANCIENT ISRAEL (3 credits)

Who were the Israelites? Where did they come from? This is one of the most debated topics in biblical studies. This course examines biblical texts, historical documents, archaeological discoveries, and sociological studies.

RELI 4520 JESUS AND ARCHAEOLOGY (3 credits)

Jesus and Archaeology is a course surveying the material culture of Judea and Galilee in the time of Jesus. Studying materials is a new approach to the long study of the Historical Jesus Quest. By providing a large amount of archaeological data, this method contributes a critical mass on old debated questions such as the society in Judea and Galilee, rural versus urban, Hellenism versus Judaism, size, population and language of Galilee in the time of Jesus and much more. (Cross-listed with RELI 8526).

RELI 4550 JESUS IN FILM (3 credits)

This course is a study of how the life of Jesus of Nazareth has been portrayed in cinema over the past century. Emphasis will be placed upon the ways in which the biblical sources are adapted for films, how Jesus films reflected and influenced the values and beliefs of the times in which they were made, and the reception by audiences of the diverse film representations of Jesus. (Cross-listed with RELI 8556).

RELI 4600 WOMEN AND RELIGION (3 credits)

This course on women and religion will focus on the intersections of power and oppression that women experience in four of the major world religions - Judaism, Christianity, Buddhism, and Islam. Students will examine the historical, cultural and religious contexts that highlight women's involvement or exclusion from activity and power within each religion. Students will research case studies from around the world to examine tensions within and between religious and secular societies through the lens of gender. (Cross-listed with RELI 8606).

RELI 4700 RELIGION, FILM, AND VIOLENCE (3 credits)

A study of the ways in which films represent violence and how these representations intersect with religious concepts. Topics will include how films express the justification or "sanctification" of violence as legitimate, redemptive violence, notions of sacrifice, and the nonviolent critique of violence. We will examine a variety of genres including action films, crime stories, horror, and religious films, noting their societal influence and how they express diverse values regarding violence and its legitimation. (Cross-listed with RELI 8756).

RELI 4830 ANCIENT GREEK MYTH, RELIGION & MAGIC (3 credits)

Students will examine the impact of ancient Greek myth and belief on actual religious practice: e.g., "lived" religion. Areas covered include formal civic sacrifice, wartime religion, family and personal devotions, mystery cults, oracles and seers, plus the popular pursuit of magic. (Cross-listed with HIST 8836, HIST 4830, RELI 8836).

RELI 4850 ROME AND THE EARLY CHURCH (3 credits)

Students will cover Roman-Christian-Jewish interactions from just before the birth of Jesus of Nazareth to c. 450 CE, with an emphasis on social and political history. We catalogue Christianity's transformation from its origins as a Jewish movement and an illegal "superstition" to the dominant religion of the Roman empire. (Cross-listed with HIST 8856, HIST 4850, RELI 8856).

Prerequisite(s): Junior standing.

Religion, Bachelor of Arts

To obtain a B.A. with a major in Religious Studies, a student must fulfill university, college, and departmental requirements.

Religion, Bachelor of Arts Requirements

120 credits minimally needed for a degree. Take as many electives as is needed to reach this minimum, while considering whether those credits can be best used toward a minor or 2nd major.

NOTE: 120 minimum credits are required for a bachelor's degree.

Credits 15

Total Credits 119-121

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Religion Minor

Religion Minor Requirements

An undergraduate minor in religion will consist of at least 15 hours in religion, of which at least nine must be upper division (3000-level or above). RELI 1010 is strongly recommended for the minor in religion.

The religion minor may be earned on campus or entirely online.

Sociology & Anthropology

Sociology and Anthropology are the broadest of the social sciences. Sociology is the scientific study of human relationships. Sociologists seek to understand the ways that often unseen social forces shape our lives. Anthropology is the holistic study of human biology and culture across time and place. Anthropologists typically work within one of four sub-disciplines: archaeology, biological anthropology, linguistic anthropology, and socio-cultural anthropology.

These disciplines are particularly useful to graduates entering the 21st century labor force. Our rapidly changing and increasingly diverse world offers both opportunities and monumental challenges. Sociology and Anthropology give students the analytical skills to understand such challenges and the tools to improve our society at all levels – from the neighborhood to the world community.

Other Information

All coursework taken for the Sociology major, minor, and Anthropology minor must be completed with a grade of "C" or better.

Up to six ANTH credits may be double counted toward the minor in anthropology and the major in sociology.

UNO Sociology Club – open to all students interested in discussing all things sociological!

UNO Student Anthropology Society – bring yourself, your lunch, and your interest in Anthropology!

Alpha Kappa Delta (AKD) – the Alpha Chapter of Nebraska of the International Sociological Honor Society for students who meet certain academic requirements.

For more information visit our Student Organizations (<https://www.unomaha.edu/college-of-arts-and-sciences/sociology-and-anthropology/student-opportunities/student-organizations.php>) page.

Option for Degree Completion Fast Track Program

The Department of Sociology & Anthropology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a Sociology BA/BS major who desire to pursue a Sociology MA degree.
- Students must have completed no less than 60 undergraduate hours.

- Students must have a minimum undergraduate GPA of 3.0 and a GPA of 3.3 in SOC and ANTH courses.
- Students must complete the Fast Track Approval form, obtain all signatures, and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
 - ANTH 1050, SOC 1010, SOC 2120, SOC 2130, SOC 2134 should be completed before enrolling in the first graduate course.
 - SOC 3510 and SOC 3514 should be taken before or concurrently with enrollment in the first graduate course.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status, including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived; the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/sociology-and-anthropology/>)

Degrees Offered

- Sociology, Bachelor of Arts (p. 417)
- Sociology, Bachelor of Science (p. 423)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the sociology major this is SOC 4900.

Bachelor of Arts (BA) and Bachelor of Science (BS) in Sociology

Students are required to complete 33 hours of coursework for the Sociology BA or BS degree: 21 hours of core required courses and 12 hours of additional sociology or anthropology courses. The department offers five optional concentrations that fulfill the 12 hours of additional coursework: anthropology, families and inequality, health and society, inequality and social justice, and work and organizations.

Students in the BA degree program are required to complete foreign language through the intermediate level.

Students in the BS degree program are required to complete 15 hours of cognate coursework, a field of specialization outside of sociology based on their interests and/or career aspirations. Cognates are designed by the student in consultation with the undergraduate adviser.

Online option

The Sociology BA/BS is available on campus or entirely online. Earning a concentration is not required, but online majors do have the option to select the health and society or work and society concentration.

Minors Offered

- Sociology Minor (p. 429)
- Anthropology Minor (p. 429)

Both the sociology and anthropology minors are available on campus or entirely online.

Sociology is the scientific study of social life that reveals the ways that often unseen social forces shape our lives. Anthropology is the holistic study of human biology and culture across time and place. At a fundamental level, both sociology and anthropology invite us to break through our common sense ideas about the world, allowing us to better understand and potentially improve society. Students who study sociology and anthropology will gain a distinct perspective on social inequality, patterns of behavior, forces for social change and resistance, and how social systems work.

Sociology majors learn the analytical skills needed to understand the challenges of a rapidly changing and increasingly diverse world. And they graduate with the tools to improve our societies at all levels – from the neighborhood to the global community. That's because a degree in sociology provides students with a well-rounded liberal arts education that emphasizes critical thinking, decision-making skills, and the ability to make connections across disciplines, leading to potential careers in:

- Family and Social Services Program Support
- Business Management and Leadership
- Marketing Analysis and Research
- Survey Research
- Health and Human Services
- Health Care Administration
- Nonprofit Organizational Administration
- Criminal Justice

Sociology

SOC 1010 INTRODUCTORY SOCIOLOGY (3 credits)

An introduction to the study of human societies. The course presents the fundamental concepts and theories that make up the sociological perspective. These serve as tools for the analysis of social inequality, social institutions and social change.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course

SOC 2100 SOCIAL PROBLEMS (3 credits)

An analysis of the origins of social problems in American society. Attention is given to the nature, consequences and solutions of selected social problems.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course

SOC 2120 SOCIOLOGICAL THEORY (3 credits)

SOC 2120 is an intellectual history of sociology as an academic discipline surveying outstanding contributions to its body of theory. The social contexts in which a variety of classical and contemporary theoretical traditions have arisen will be considered. Stress is placed on understanding and applying different approaches to sociological analysis through detailed textual interpretation of theoretical writings.

Prerequisite(s): SOC 1010 and Sociology major or permission of instructor. Not open to non-degree graduate students.

SOC 2130 SOCIAL STATISTICS (3 credits)

An introduction to the fundamental statistical techniques used in the analysis of social data, including descriptive and inferential statistics. The focus is on the production and interpretation of statistical information in the study of social life.

Prerequisite(s): MATH 1120, MATH 1130, MATH 1220, MATH 1310, or MATH 1530 or permission of instructor.

SOC 2134 SOCIAL STATISTICS LAB (1 credit)

A computer-based laboratory course to be taken in conjunction with SOC 2130. The focus is on using computer software to produce and interpret statistical information in the study of social life.

Prerequisite(s): MATH 1120, MATH 1130, MATH 1220, MATH 1310, or MATH 1530 and SOC 2130 (taken previously or concurrently) or permission of instructor. Not open to non-degree graduate students.

SOC 2150 SOCIOLOGY OF FAMILIES (3 credits)

This course provides a description and analysis of contemporary families from a sociological perspective. A life course perspective traces the development of family life, with special attention to change, choice, and diversity. Topics such as family structure, the functions of the family as an institution, family comparisons across culture and time, and difficulties faced by families in contemporary society will also be explored.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course and U.S. Diversity General Education course

SOC 2190 THE MODERN MIDDLE EAST (3 credits)

An interdisciplinary study of the social, religious, and historical dimensions of contemporary issues and events which make the Middle East cultural and geographic region a center of global tensions. After providing a background of how Islam spread in and unified the region, students will study factors which have shaped the Middle East from the late Ottoman period to the present, analyzing the principal sociocultural and political economic developments in the Middle East from the early 19th century to the early 21st century. (Cross-listed with RELI 2190, HIST 2190).

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

SOC 2300 SPORT & SOCIETY (3 credits)

This course provides a sociological examination of the contemporary sports world and the ways that the institution of sport both reflects and shapes society. The importance of sports to culture and socialization, the interaction between sports and other social institutions, and the unique role that sports plays in both perpetuating and contesting inequalities of race, gender, class, identity, and ability will be explored.

Distribution: Social Science General Education course

SOC 2400 SOCIOLOGY ON FILM (3 credits)

This course applies the sociological perspective to feature and documentary movies to critically explore social issues presented on film. Students will develop their sociological imaginations as they are introduced to essential sociological concepts such as culture, society, the social construction of reality, socialization, power and inequality, social institutions, and social problems as depicted in classic, contemporary, and foreign film. As social issues are serious and often controversial, the films examined may also be controversial and contain mature themes.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course

SOC 2800 MAJOR SOCIAL ISSUES (3 credits)

The course examines a major social issue from a sociological perspective with content and materials designed for non-majors. The topics will vary from semester to semester, so the course can be taken more than once.

SOC 3300 SOCIOLOGY OF GENDER (3 credits)

This course critically examines the meaning, purpose, and consequences of gender, by using sociological methods and theories to explore the institutions that structure gender relationships and identities, and form the contexts that shape social life in the United States. Particular attention will be given to how social institutions like the state, the economy, family and the mass media shape the definitions of femininity and masculinity, as well as how the gender system intersects with other structures of inequality - race, class, and sexual orientation.

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 3450 SOCIAL PSYCHOLOGY (3 credits)

Social interaction studied in situations of (1) social influences on individuals, (2) dyads or face-to-face groups, and (3) larger social systems. The concepts, theories, data, research methods and applications of varied substantive topics are examined. (Cross-listed with PSYC 3450).

Prerequisite(s): SOC 1010 or PSYC 1010

SOC 3510 RESEARCH METHODS (3 credits)

This course is a basic introduction to the principles, methods and techniques of empirical social research. The common methods used by sociologists and anthropologists are addressed such as surveys, interviews, and observation.

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor

SOC 3514 RESEARCH METHODS LAB (1 credit)

This is a laboratory course to be taken in conjunction with SOC 3510. The focus is on applying methodology and basic data analysis learned in SOC 3510 and the development of a sociological research proposal.

Prerequisite(s): SOC 1010, junior standing, and SOC 3510 (taken previously or concurrently); or permission of instructor.

SOC 3610 APPLIED ORGANIZATIONAL SOCIOLOGY (3 credits)

A foundational applied organizational sociology course that focuses on the understanding, analysis, and applications of basic knowledge of organizational structures and systems for solving organizational problems, enhancing organizational performance, and preparing students for leadership roles in organizations.

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor.

SOC 3690 SOCIAL INEQUALITY (3 credits)

Considers social inequality from a sociological vantage point, introducing students to the structure of inequality, power, and privilege. Attention is paid to the intersections of various forms of inequality, including an examination of class, race, ethnicity, gender, sexuality and sexual orientation, immigration, age, ability, etc. The consequences of social inequality for life chances and social mobility are examined.

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor.

SOC 3700 INTRODUCTION TO LGBTQ STUDIES (3 credits)

Introduces key themes and critical frameworks in Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) Studies. This course examines scholarly contributions from a range of academic disciplines and traces some of the ways that LGBT Studies has influenced cultural and social theory more broadly. Topics include LGBTQ histories and social movements; forms of oppression including heterosexism, homophobia, and transphobia; resistance to oppression; queer activism; intersecting identities; and representations in literature, art, and popular media.

Prerequisite(s): SOC 1010 or WGST 2010 or WGST 2020; or permission of the instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 3800 WORK AND SOCIETY (3 credits)

This course explores the social organization of work in the United States, from pre-industrial times to the present. It addresses how and why current work structures and practices emerged historically within a global context, and the social implications of these structures for various groups (based on race/ethnicity, immigration status, sexuality, and social class). The course grapples with the big questions: "How work is organized the way it is right now, how did we get here, and what might it look like in the future?"

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor.

SOC 3820 MEDICAL SOCIOLOGY (3 credits)

The study of the social patterning of health and illness, including inequalities in health by stratifying elements such as race, class, and gender. Examines the social definition of health, illness, and the social position of being a sick person in society. Also examines the interaction individuals have with health care providers and the structure of medicine in the U.S. and around the world. Offers a critical examination of the social institution of medicine.

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 3840 WORLD POPULATION AND SOCIAL ISSUES (3 credits)

This course introduces students to the scientific study of populations across the world and the social issues derived from population change. It includes basic training on demographic methods and the use of data sources. It covers concepts and theories that connect population dynamics to world economic development, global inequality, refugee and immigration issues, the status of women, intergenerational competition, and population pressure on food and the environment.

Prerequisite(s): SOC 1010 and sophomore standing, or permission of instructor. Six hours of social science, or permission of instructor.

Distribution: Global Diversity General Education course

SOC 3900 RACE AND ETHNIC RELATIONS IN THE U.S. (3 credits)

The course explores historical and contemporary meanings of race and ethnicity and introduces students to the ways sociologists think about 'race,' race relations and racism. It views current theoretical issues, and focuses on the recent histories and the current position of several major racial-ethnic populations in the U.S.: African Americans, Latino/a Americans, Native Americans, Asian Americans, and white/European ethnics. Emphasis is on how race/ethnicity has structured groups' experiences in relation to social institutions like health, education, culture and media, the legal system, and the economy.

Prerequisite(s): SOC 1010 and sophomore standing; or permission of instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 4130 SOCIOLOGY OF DEVIANCE (3 credits)

This course introduces students to the sociological study of behaviors that have been labeled as "deviant" because they presumably violate social norms. The course takes a constructionist approach, critically analyzing how deviance is socially defined, organized, and managed. Students will be challenged to see the diversity and pervasiveness of deviance in society and to question the labelling of behaviors, individuals, and powerless groups as deviant. We will explore the social processes, powerful actors, and social institutions that create deviance as well as efforts to resist definitions of deviance. (Cross-listed with SOC 8136).

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4140 URBAN SOCIOLOGY (3 credits)

This course examines classical and contemporary sociological theories on city formation, the urbanization process, and the interaction of society and the built environment. Topics covered include suburbanization, gentrification, residential segregation, social networks, crime, housing, city culture, and public policy. The focus is on U.S. cities with selected comparisons to other world regions. Students will also get basic knowledge and exposure to research methods to study urban areas locally. (Cross-listed with SOC 8146).

Prerequisite(s): SOC 1010 and junior standing, or permission from the instructor.

SOC 4150 AMERICAN FAMILY PROBLEMS (3 credits)

This course explores the problems and issues faced by contemporary American families, such as racism and sexism; the challenges of childhood and adolescence; divorce and remarriage; work and family conflict; and family violence. The difficulty of defining both "family" and "problems" is addressed throughout the course. (Cross-listed with SOC 8156)

Prerequisite(s): SOC 1010 and Junior standing, or permission of instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 4170 SOCIOLOGY OF FATHERHOOD (3 credits)

This course examines the existing social science research on fatherhood, exploring topics such as the evolution, history, demography, and politics of fatherhood; father involvement and its relationship to both children's and men's well-being; the effects of diversity and family structure on fatherhood; and public policy surrounding fatherhood. (Cross-listed with SOC 8176)

Prerequisite(s): SOC 1010 and junior standing, or permission of instructor. Not open to non-degree graduate students.

SOC 4180 OCCUPATIONS & CAREERS: FULFILLMENT AND CHALLENGES AT WORK (3 credits)

This course examines what makes individuals and groups happy and satisfied with their jobs, and the factors that can turn "a dead-end job" into a meaningful pursuit that lasts decades. The course utilizes a life course approach and covers early socialization experiences to retirement transitions. It also employs a sociological lens to explore how individual experiences in the work realm are affected by stratification (such as race/ethnicity, gender, sexuality, social class, and parental status) and as well as by occupational norms and structures, workplace relationships, and culture and practices at the organizational and societal levels. (Cross-listed with SOC 8186).

Prerequisite(s): SOC 1010 and junior standing, or permission of instructor

SOC 4200 SOCIOLOGY OF THE BODY (3 credits)

This course offers an overview of contemporary sociological theories of the body and uses these theories to explore substantive issues pertaining to the discourses, practices, and politics of the body in modern societies.

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor. Not open to non-degree graduate students.

SOC 4210 DISABILITY AND SOCIETY (3 credits)

This course takes a sociologically grounded but interdisciplinary look at the past, present, and potential future of disability. Along the way, competing models and theories of disability are critically explored and substantive issues pertaining to the social experiences and social responses to people with disabilities are discussed. (Cross-listed with SOC 8216)

Prerequisite(s): SOC 1010 and junior or senior standing; or permission of instructor. Not open to non-degree graduate students.

SOC 4240 SOCIAL TRANSFORMATIONS IN LATIN AMERICA (3 credits)

The course reviews the main social, economic, and political forces that have shaped Latin American societies, and the sociological theories used to understand Latin American development and underdevelopment. Race, ethnicity, gender and class in Latin America, as well as the region's position in the global economy are examined. (Cross-listed with SOC 8246, LLS 4240, LLS 8246).

Prerequisite(s): SOC 1010 and junior standing or permission of instructor

Distribution: Global Diversity General Education course

SOC 4250 CRISSCROSSING THE CONTINENT: LATIN AMERICAN MIGRATIONS (3 credits)

In this course we will use an interdisciplinary lens to study the changes and continuities of migration in the Americas. The course starts with an overview of immigration to the Americas during the first era of mass migration (1850-1920) to explore the relevance of European migrations for national and identity constructions in the Southern Cone of America. Students then will be introduced to the impacts of social and political change on emigration flows, both regionally and beyond the region. They will also explore migration related policies at the national and regional level. We will also study the changes and continuities in the migration system of the Americas. Lastly, we will analyze the new North-South migration, as well as immigration to Latin America from Asia (recent and historical), Europe, and Africa. (Cross-listed with SOC 8256, LLS 4250, LLS 8256).

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

Distribution: Global Diversity General Education course

SOC 4310 SOCIOLOGY OF SEXUALITIES (3 credits)

This class focuses on the social construction of sexualities - especially heterosexual sexualities, bisexual sexualities, and homosexual sexualities. A primary focus of the class will be LGBT/Queer Studies. The class examines how sexual desires/identities/orientations vary or remain the same in different places and times, and how they interact with other social and cultural phenomenon such as government, family, popular culture, scientific inquiry, and race, gender, and class. (Cross-listed with SOC 8316)

Prerequisite(s): SOC 1010 and Junior standing; or permission of the instructor. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

SOC 4350 WORK & FAMILY (3 credits)

This course examines the contemporary problems that individuals, families and communities in the U.S. have in integrating work and family/personal life. (Cross-listed with SOC 8356)

Prerequisite(s): SOC 1010 and junior or senior standing; or permission of instructor.

SOC 4440 HUMAN CONNECTION, LONELINESS, & HEALTH (3 credits)

This course examines the "loneliness epidemic" through a sociological perspective and is based on the premise that loneliness is a public health issue, as research consistently shows it is associated with a vast array of physical and mental health outcomes. After discussing the extent of loneliness and how to define it by distinguishing it from other types of social pain, the course covers: 1) the extent and nature of loneliness and its cultural/social sources; 2) the pathways from loneliness to health outcomes; and 3) possible interventions to reduce loneliness and improve public health. (Cross-listed with SOC 8446).

Prerequisite(s): SOC 1010 and junior standing; or permission of the instructor.

SOC 4470 SOUTH AFRICA & THE SOCIO POLITICS OF APARTHEID (3 credits)

South Africa and the Socio Politics of Apartheid examines the lived experiences of South African people under the Apartheid system, and their long struggle against European colonial oppression and racial segregation throughout the 20th century. Students will examine the laws, tools, and strategies that developed and sustained Apartheid, and the anti-Apartheid movements and international pressure that led to its repeal and South African democratic elections. (Cross-listed with BLST 8476, BLST 4470, PSCI 8476, PSCI 4470, SOC 8476).

Prerequisite(s): Junior standing or permission of instructor

Distribution: Global Diversity General Education course

SOC 4550 ORGANIZATIONAL DIVERSITY AND INCLUSION (3 credits)

This course provides advanced-level knowledge of the structural understanding, assessment, analysis, and management of social diversity as well as successful inclusion strategies in the workplace. Concepts and theories dealing with structural basis of the creation of difference, consequences of difference, inclusion, affirmative action, and diversity consulting skills are fully examined in this course. This course will prepare students for successful leadership in diverse organizational environments. (Cross-listed with SOC 8556)

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4620 APPLIED FORMAL ORGANIZATIONS (3 credits)

An advanced-level applied organizational sociology course that uses organizational theory, concepts, research, and practice to examine the structural bases of organizational effectiveness, efficiency, survival, and actions of organizational members. The course is designed to prepare students for organizational leadership using advanced knowledge and skills of organizational sociology. (Cross-listed with SOC 8626).

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4700 WOMEN'S HEALTH AND ISSUES OF DIVERSITY (3 credits)

This course provides a critical understanding of the inter-relationship between socio-cultural, economic, and political factors and women's physical and mental health. The aim is to provide an overview of the experience with the health care system. Emphasis will be on critically examining recent scholarship from a sociological, behavioral, health policy perspective. (Cross-listed with SOC 8706, PHHB 4700, PHHB 8706)

Distribution: U.S. Diversity General Education course

SOC 4740 SOCIAL JUSTICE AND SOCIAL CHANGE (3 credits)

This course investigates the economic, political and social constraints on equality present in local, national and global arrangements. Students will gain a theoretical understanding of these conditions as well as those that lead to social change, spanning from day-to-day resistance techniques to large scale social movements. Students will participate in a service learning or applied project as they explore contemporary social justice issues and learn both theoretical and practical tools needed to become successful change makers, activists, or community organizers. Examples of social justice movements or campaigns form the basis for understanding injustice at a local, national, and global level. (Cross-listed with SOC 8746)

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4760 ENVIRONMENTAL SOCIOLOGY (3 credits)

This course is an introduction to environmental sociology, a field of sociology that explores the interaction between the environment and society. Environmental sociologists consider how political, social, and economic factors have come to shape our patterns of interaction with the natural and built environment. Students will be expected to use the sociological perspective to understand the landscape of environmental problems, focusing on such issues as environment and health, disaster, environmental policy, climate change, environmental risk, human and animal interactions, sustainability, environmental justice and social movements. (Cross-listed with SOC 8766).

Prerequisite(s): SOC 1010 and junior standing or permission of instructor

SOC 4770 POLITICAL SOCIOLOGY (3 credits)

This course explores political sociology, focusing on political processes and power. Political sociologists investigate relationships between political institutions and various other institutions, including but not limited to the economy, education, media, and religion, and the impacts that these relationships have on society and the individuals that comprise the society. This course will explore the concepts, theories, and knowledge that comprise this field such as power, legitimacy, the state, networks, stratification, and collective action. (Cross-listed with PSCI 4770, PSCI 8776, SOC 8776).

Prerequisite(s): SOC 1010, junior standing or permission from instructor

SOC 4780 URBAN LATIN AMERICA (3 credits)

This course examines the experience of Latin American urbanization, attending to its contributions to urban sociology, social movements, and policymaking. Topics include urban transitions (e.g. pre-Hispanic to colonial, post-colonial to industrial, and the neoliberal turn), socio-spatial configurations (e.g. plazas, squatter settlements), urban marginality debates, urban politics, and planning as well as governance innovations (e.g. bus rapid transit systems, participatory budgeting). Students will compare city case studies across the region and to urban life in the United States. (Cross-listed with SOC 8786, LLS 4780, LLS 8786, CACT 8186).

Prerequisite(s): SOC 1010 and junior standing or permission of instructor

Distribution: Global Diversity General Education course

SOC 4800 CONTEMPORARY TOPICS IN SOCIOLOGY (3 credits)

This course reviews research and writing in an area of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with SOC 8806)

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4830 SOCIOLOGY OF MENTAL HEALTH & ILLNESS (3 credits)

This course will apply the sociological perspective to various topics regarding mental health and illness. The course will cover topics such as the social construction of mental illness, the social epidemiology of mental illness, labeling and stigma of those with a mental illness, and mental health policy/treatment. (Cross-listed with SOC 8836)

Prerequisite(s): SOC 1010, and junior standing; or permission of the instructor.

SOC 4850 SOCIOLOGY OF RELIGION (3 credits)

This course looks at religion as a social and cultural phenomenon, examining how religious beliefs, practices, institutions and movements shape and are shaped by their social context. Topics include: sociological theories and explanations of religion and spirituality; definitions of religion and the distinction between religion and other ideologies or worldviews; the measurement of religiosity and the scientific study of religion; trends in religiosity, spirituality, and the religious landscape historically and globally; sociological insights gained from the study of new religions, secularization, fundamentalism, and other issues related to contemporary religious experience. (Cross-listed with SOC 8856)

Prerequisite(s): SOC 1010 or permission of instructor.

SOC 4880 CONTEMPORARY TOPICS IN SOCIOLOGY (1 credit)

This course reviews research and writing in an area of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with SOC 8886).

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4890 CONTEMPORARY TOPICS IN SOCIOLOGY (2 credits)

This course reviews research and writing in an area of current interest in the field of sociology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with SOC 8896).

Prerequisite(s): SOC 1010 and junior standing; or permission of instructor.

SOC 4900 SENIOR THESIS (4 credits)

This is a capstone research and writing course designed for Sociology majors who are in their senior year. The major purpose of the course is to produce an original thesis of 20-25 pages, which will be developed through a series of assignments. Students will choose their own thesis topics with the purpose of reflecting on and synthesizing knowledge about sociological concepts, theories, and research methods. This course meets the University requirement of a third writing course.

Prerequisite(s): SOC 1010, 2120, 2130, 2134, 3510, 3514, Sociology major, and senior standing; or permission of instructor. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

SOC 4910 INTERNSHIP IN SOCIOLOGY (1-3 credits)

This course offers students an opportunity to experience sociology and/or anthropology through direct involvement in non-profit, for profit, government, or other organization. The host organization must be approved in advance in consultation with the internship coordinator. This course may be repeated for a maximum of six credit hours.

Prerequisite(s): Senior standing and permission of instructor.

SOC 4990 INDEPENDENT STUDY IN SOCIOLOGY (1-3 credits)

Guided readings and/or independent research in a special sociological topic under the supervision of a Sociology faculty member. A formal contract specifying the nature of the work to be completed must be signed before enrolling in the course. May be taken for a maximum of six hours.

Prerequisite(s): Permission of instructor. Not open to non-degree graduate students.

Anthropology

ANTH 1050 INTRODUCTION TO ANTHROPOLOGY (3 credits)

Anthropology is the humanistic and scientific study of humans, past and present. This course will present an overview of the four subdisciplines of anthropology: sociocultural, archaeological, biological, and linguistic.

Distribution: Social Science General Education course

ANTH 2000 ETHNOGRAPHY INDEPENDENT STUDY (1-3 credits)

This is an independent study course in which the student views films and digital materials, reads books and articles regarding a specific culture from an ethnographic perspective. Each culture will be a one (1) credit hour module. The intent is to acquaint the student in some depth with cultures in the world.

Prerequisite(s): One course in the social sciences and the instructor's permission.

ANTH 2990 GUIDED READING IN ANTHROPOLOGY (1-6 credits)

Guided readings and/or independent research in a special anthropological topic under the supervision of an Anthropology faculty member. A formal contract specifying the nature of the work to be completed must be signed before enrolling in the course. May be taken for a maximum of six hours.

Prerequisite(s): Permission of instructor. Not open to non-degree graduate students.

ANTH 3210 CULTURES OF AFRICAN PEOPLE (3 credits)

An introduction to cultures and societies of Africa. Analysis of kinship systems; political, economic and religious institutions; social change. Emphasis on the dynamics of social organization of African people.

Prerequisite(s): Sophomore or above with one three-hour introductory social science course

ANTH 3220 PEOPLES AND CULTURES OF NATIVE NORTH AMERICA (3 credits)

A survey of the Native peoples and cultures of North America, past and present. Topics covered include: economics, religion, social organization, kinship, political organization, material culture, gender and culture change through time.

Prerequisite(s): ANTH 1050 or permission of Instructor

ANTH 3260 WORLD CULTURES AND PEOPLES (3 credits)

This course utilizes ethnography to examine human cultures in a specific geographic context. The area approach in cultural anthropology reveals how the physical environment shapes culture and how those cultures, in turn, shape their environments. This course will also examine the larger social milieu and cultural change over time. The specific area will be announced each time the course is offered.

Prerequisite(s): ANTH 1050 or permission of instructor.

ANTH 3910 INTRODUCTION TO PHYSICAL ANTHROPOLOGY (3 credits)

An introduction to physical anthropology through an examination of theories and techniques used to investigate human origins; the relationship between humans and their physical environment; human variation, growth and development; and the evolution of human diseases.

Prerequisite(s): ANTH 1050 or High School Biology recommended.

Distribution: Natural/Physical Science General Education course

ANTH 3920 ESSENTIALS OF ARCHAEOLOGY (3 credits)

This course introduces students to the essentials of scientific archaeology. Topics addressed include the history of archaeology, site survey, mapping, testing, excavation, laboratory methods, analysis, interpretation, and documentation. Scientific archaeology focuses upon the use of empirical data to test or evaluate our interpretations of past human behavior.

Prerequisite(s): Anthropology 1050 or permission of instructor.

ANTH 4210 CULTURAL ANTHROPOLOGY (3 credits)

Cultural Anthropology is the sub-discipline of Anthropology that systematically considers cultural diversity (similarities and differences) in all known human societies. The scope of cultural anthropology is one of the broadest in the social sciences and includes the study of subsistence strategies and economies, kinship and social organization, political organization, religion, gender, language, expressive arts, human-environment relationships, and globalization. (Cross-listed with ANTH 8216).

Prerequisite(s): Junior or senior with a minimum of six hours of social science.

ANTH 4220 NORTH AMERICAN ARCHAEOLOGY (3 credits)

This course explores more than 20,000 years of Native American culture and lifeways in North America. Indigenous peoples faced numerous challenges throughout this vast and diverse continent. Hunters, gatherers, fishers, and horticulturalists adapted to all regions of North America. Students will be introduced to a range of archaeological concepts, methods and theoretical perspectives central to learning about this rich heritage of American archaeology. (Cross-listed with ANTH 8226).

Prerequisite(s): ANTH 1050 or permission of instructor

ANTH 4230 ETHNOMEDICINES OF THE AMERICAS (3 credits)

An anthropological approach to the study of the cultural systems of specific American ethnomedicines (traditional medicines) of North, Central and South America. For each ethnomedicine, the historical context, philosophy, practice, therapeutics, and utilization will be examined to understand how and why each ethnomedicine has survived despite tremendous extermination pressure. (Cross-listed with ANTH 8236).

Prerequisite(s): ANTH 1050

ANTH 4240 MEDICAL ANTHROPOLOGY (3 credits)

Medical anthropology is the cross-cultural study of human culture, health and illness. Using multiple theoretical perspectives, this course examines how cultural, social, environmental, and biological factors interact to produce patterns of health and illness in past and present human societies. (Cross-listed with ANTH 8246)

ANTH 4250 ENVIRONMENTAL ANTHROPOLOGY AND NATIVE PEOPLES OF THE GREAT PLAINS (3 credits)

Environmental anthropology seeks to understand the interrelationships between human societies and their biophysical and social environments. This course introduces students to basic concepts and theories used by anthropologists to study environmental influences upon both past and present Native American societies on the North American Great Plains. Particular attention will be given to the rapid and dramatic environmental changes that continue to challenge Native Americans in the Great Plains today. (Cross-listed with ANTH 8256)

Prerequisite(s): Anthropology 1050 and junior standing; or permission of instructor.

ANTH 4260 TOPICS IN CULTURAL ANTHROPOLOGY (3 credits)

Cultural Anthropology (Ethnology) is the comparative study of cultures. Each semester the course is offered, one topic will be selected from the subfield of Cultural Anthropology, such as: Applied Anthropology, Economic Anthropology, Political Anthropology, Visual Anthropology, Anthropology of Gender and Sexualities, Comparative Analysis of Kinship, or the Anthropology of Religion. Since the topic will vary, students may elect to take this course more than once.

Prerequisite(s): ANTH 1050 or permission of instructor.

ANTH 4270 DECOLONIZING NATIVE AMERICAN HEALTH (3 credits)

This course will utilize an interdisciplinary lens to interrogate Native American health and wellness grounded in the decolonizing theoretical and methodological tools drawn from Medical Anthropology and Native American Studies. Topics covered will include: Health Disparities, Federal Indian Health Policy, Historical Trauma, Medical Mistrust, Traditional Healing, Food Sovereignty and Research Ethics. (Cross-listed with ANTH 8276, NAMS 4270, NAMS 8276).

Prerequisite(s): ANTH 1050 or Instructor permission

ANTH 4280 CLINICAL ETHNOGRAPHY (3 credits)

Using ethnographic texts, this course explores the clinical world from an anthropological perspective. Students will use anthropological theories and methods to learn about cultures of medical practices, diverse health professions, the contexts of health care delivery, and the structural, cultural, and historical forces that influence the practice of healthcare in the U.S. and cross-culturally. (Cross-listed with ANTH 8286, MEDH 4280).

Prerequisite(s): ANTH 1050 or MEDH 1000 or permission of the instructor.

ANTH 4920 SEMINAR IN ANTHROPOLOGY (3 credits)

This course reviews research and writing in an area of current interest in the field of anthropology. The specific topic(s) to be covered will be announced at the time the course is being offered. Since the topics will vary, students may elect to take this course more than once. (Cross-listed with ANTH 8926).

Prerequisite(s): ANTH 1050 or permission of instructor

ANTH 4940 ARCHAEOLOGICAL FIELD METHODS (3 credits)

This course introduces students to the field methods of scientific archaeology. These field methods include map reading, use of satellite and aerial photographs, instrument survey and mapping, pedestrian survey or reconnaissance, site survey data collection, identification of artifacts (stone tools, ceramics, etc.) and ecofacts (animal remains, macrobotanicals, etc.), systematic artifact collection and documentation, soil probes and coring methods, GPS-based mapping, excavation methods, and data recording. Additional topics include laboratory methods (artifact and ecofact analysis, interpretation, and documentation). This field course ultimately focuses upon the use of empirical data to test or evaluate our interpretations of past human behavior. (Cross-listed with ANTH 8946).

Prerequisite(s): ANTH 1050 or permission of instructor.

ANTH 4990 INDEPENDENT STUDY IN ANTHROPOLOGY (1-3 credits)

Guided readings and/or independent research in a special anthropological topic under the supervision of an Anthropology faculty member. A formal contract specifying the nature of the work to be completed must be signed before enrolling in the course. May be taken for a maximum of six hours.

Prerequisite(s): Permission of instructor.

Additional Courses

Select one of the following options: 12

Option 1:

Select one upper-level ANTH course (3 credits)

Select three upper-level SOC courses (9 credits)

Option 2:

Select a concentration (12 credits)

College Breadth (choose one option) 15-30+

Option 1: Complete any UNO minor or undergraduate certificate - 15+ hours

Option 2: Additional General Education Requirements - 19+ hours

Additional quantitative literacy - 3 hours

Additional Social Science Gen. Ed. from 3rd Discipline - 3 hours

Additional Humanities Gen. Ed. from 3rd Discipline - 3 hours

HIST 1000 and HIST 1010 - 6 hours

Additional Nat. and Physical Science w/ Lab - 4-5 hours

Option 3: CAS comprehensive major (50+ hours) OR any second UNO major (30+ hours)

Bachelor of Arts Language Requirement 16

FREN, GERM, Or SPAN, 1110**, 1120, 2110, 2120

ELECTIVES

Elective hours as required to reach a total of 120 hours

Sociology, Bachelor of Arts Concentrations

- Anthropology (p. 419)
- Families and Inequality (p. 420)
- Health and Society (p. 420)
- Inequality and Social Justice (p. 421)
- Work and Organizations (p. 422)

*SOC 4900: requires SOC 1010, 2120, 2130+2134, 3510+3514 and 6 additional hours of upper division sociology or anthropology courses. Sociology majors and senior standing.		

****Students need at least 120 credits and a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives to reach the 27 credit minimum.**

Credits 14

Total Credits 120-122

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

****Transfer credit or placement exam scores may change suggested plan of study**

*SOC 4900: requires SOC 1010, 2120, 2130+2134, 3510+3514 and 6 additional hours of upper level sociology or anthropology courses. Sociology majors and senior standing.

#Cognate courses are chosen in consultation with major advisor.

**Students need at least 120 total credits and a minimum of 27 upper level credits throughout the entire degree, with at least 18 credits of upper level coursework taken within the major/concentration. May need to select 3000/4000 level free electives to reach those specific minimums.

Credits **15**

Total Credits **120-121**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract, and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

College Breadth (choose one option)		15-30+
Option 1: Complete any UNO minor or undergraduate certificate - 15+ hours		
Option 2: Additional General Education Requirements - 19+ hours		
Additional quantitative literacy - 3 hours		
Additional Social Science Gen. Ed. from 3rd Discipline - 3 hours		
Additional Humanities Gen. Ed. from 3rd Discipline - 3 hours		
HIST 1000 and HIST 1010 - 6 hours		
Additional Nat. and Physical Science w/ Lab - 4-5 hours		
Option 3: CAS comprehensive major (50+ hours) OR any second UNO major (30+ hours)		
Bachelor Science Cognate Requirement		15
Students in the BS degree program are required to complete 15 hours of cognate coursework, a field of specialization outside of sociology based on their interests and/or career aspirations. Cognates are designed by the student in consultation with the undergraduate adviser.		
ELECTIVES		
Elective hours as required to reach a total of 120 hours		

Sociology Minor

Sociology, Minor Requirements

A minor in sociology requires 15 hours. The sociology minor is available on campus, entirely online, or a combination of the two. Students are required to complete the following:

Code	Title	Credits
SOC 1010	INTRODUCTORY SOCIOLOGY	3
Additionally, select 12 credit hours in sociology electives with a minimum of 9 credit hours at the 3000-4000 level.		12

No more than nine hours will be accepted as transfer credit. All course work satisfying the minor must be completed with a grade of "C" (2.0) or better.

Anthropology Minor

Anthropology, Minor Requirements

A minor in anthropology requires 15 hours. The minor may be completed on campus, entirely online, or a combination of the two. Students are required to complete the following:

Code	Title	Credits
ANTH 1050	INTRODUCTION TO ANTHROPOLOGY	3
Additionally, select 12 credit hours in anthropology electives with a minimum of 9 credit hours at the 3000-4000 level.		12

No more than nine hours will be accepted as transfer credit. All course work satisfying the minor must be completed with a grade of "C" (2.0) or better. Up to six ANTH credits may be double counted toward the minor in anthropology and the major in sociology.

Women's and Gender Studies Mission

The UNO Women's and Gender Studies Program offers individuals and communities paths to transformation and empowerment through the collaborative work of students and faculty, who together study and explore all women's lives and all constructions of gender across time, place, and culture, using a feminist and/or queer lens. Our interdisciplinary faculty teach a curriculum that emphasizes the intersections of gender, race/ethnicity, nationality, socioeconomic class, ability levels, sexuality, and additional dimensions of difference.

We envision a world in which differences offer paths to meaningful and fulfilling contributions. Our program employs the tools of different disciplines, including communication, arts and humanities, social sciences, natural sciences, and history. Graduating students are prepared for many opportunities beyond graduation.

Description

Women's and Gender Studies is a liberal arts degree that prepares students for a wide variety of career and avocational paths. Majors or minors find employment in a variety of areas, choosing to work in advocacy or social services-related positions, community development, large and small business, and government.

Other Information

All coursework taken for the Women's and Gender Studies major or minor must be completed with a grade of "C-" or better.

All coursework taken for the LGBTQ-Sexuality Studies minor must be completed with a grade of "C" or better.

Please be advised that students who elect to complete both the WGST minor and LGBTQ-Sexuality Studies minor may count no more than two upper-division courses toward the completion of both minors.

Special Requirements

Courses presented for credit toward the minor or major must have been taught by a member of the Women's and Gender Studies faculty. Students should select WGST electives in consultation with their major adviser.

Residency

Students may transfer in no more than 9 credits earned at other institutions to the WGS minor and no more than 15 credits earned at other institutions to the WGS major.

Student Groups

Iota Iota Iota (Triota) is a club and honorary society that recognizes excellence in Women's and Gender Studies. Membership is available to any student who has completed two introductory courses in Women's and Gender Studies and has a cumulative GPA of at least 3.0. In addition, students majoring or minoring in Women's and Gender Studies can be involved with campus organizations such as the Women's and Gender Equity Resource Center, and the Queer and Trans Services.

Contact

Women's and Gender Studies Program Director 402.554.4841
339 Arts and Sciences Hall (ASH)

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/womens-and-gender-studies/>)

Degree Offered

- Women's and Gender Studies, Bachelor of Arts (p. 432)

Writing in the Discipline

All students are required to take a third writing course (Writing in the Discipline) as a part of their degree. The third writing course for the Women's and Gender Studies major may be met with ENGL 2400, ENGL 3050, or another approved third writing course.

Minor Offered

- Women's and Gender Studies Minor (p. 435)
- LGBTQ/Sexuality Studies Minor (p. 435)

Women, gender, and sexuality studies majors may find employment in a variety of areas depending on their skills and experience. Some of our majors pursue post-baccalaureate training in medicine, law, education, and other graduate programs. Others choose employment directly after graduation, following career paths in advocacy or social services-related positions, community development, business, and government. Some career-path examples include:

Business

- Human Resources Manager
- Financial Planner
- Business Manager
- Office Manager
- Convention/Event Planner

Education

- K-12 School Teacher (with additional certification)
- Childcare Center Lead Teacher

Health

- Community Health Outreach Worker
- Community Health Advocate
- Public Health Coordinator
- Health Services Project Administrator

Law

- Victim Assistance Case Manager
- Mediator

Media/Publications

- Magazine Freelance Writer/Researcher
- Independent Film Maker/Producer
- Editor
- Social Media Specialist
- Film Publicist
- Production Artist

Social and Public Service

- Counseling Services Director
- Training Coordinator
- Rape Crisis Center/Community Education Coordinator
- Women's Crisis Support Center Community Educator
- Girl Scouts of America Program Officer

- Food Bank Program Manager
- Community Service Agency Case Manager
- Community Service Resource Navigator
- Grant Writer

WGST 1950 BLACK WOMEN IN AMERICA (3 credits)

This course will examine how Black women in America have evolved politically, economically, and socially under oppressive conditions of slavery, the Reconstruction Era, Jim Crow, and through the Civil Rights, Black Lives Matter, and "Me Too" Movements. The underlying themes of this course are the impact of gender and race on Black women, with an emphasis of how gender and race are fueled by white supremacy, patriarchy, colonialism, capitalism, and imperialism. (Cross-listed with BLST 1950)

Distribution: U.S. Diversity General Education course

WGST 2000 SPECIAL TOPICS: GENDER AND SEXUALITY IN ENGLISH STUDIES (3 credits)

A variety of topics primarily for the non-major. (For example, this course might study the image of businesswomen in American literature.) One or two such topics may be offered each term, depending upon student interest and available faculty. Students should consult each term's class schedule in order to determine the specific topics for that term.

Prerequisite(s): None. ENGL 1160 recommended

WGST 2010 INTRODUCTION TO WOMEN'S AND GENDER STUDIES: SOCIAL AND BEHAVIORAL SCIENCE (3 credits)

A survey course which explores social science perspectives on women, men, and gender, including the biological contribution to human behavior and the impact of science as an institution. Examines challenges to traditional definitions of women's place and movements for change. Includes historical and multicultural materials.

Prerequisite(s): ENGL 1150 is recommended.

Distribution: Social Science General Education course and U.S. Diversity General Education course

WGST 2020 INTRODUCTION TO WOMEN'S AND GENDER STUDIES: HUMANITIES (3 credits)

An introduction to women's and gender studies in the humanities (literature, art, dance, music, theatre, philosophy). Explores both historical and contemporary images of women in these fields; discusses the context in which these images developed. Introduces the basic concepts and terminology of women's and gender studies.

Prerequisite(s): ENGL 1150 is recommended.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

WGST 3000 SPECIAL TOPICS: GENDER AND SEXUALITY IN ENGLISH STUDIES (3 credits)

A study of designated specific topics related to gender and sexuality studies within the disciplines of English (May be repeated for credit as long as the topic is not the same.)

Prerequisite(s): Variable according to topic.

WGST 3020 PERSPECTIVES ON LEADERSHIP (3 credits)

This course studies scholarship on and the practices of gender and leadership for undergraduate students. It is a service-learning course.

Prerequisite(s): WGST 2010 or WGST 2020

WGST 3080 HUMAN SEXUALITY (3 credits)

An examination of factors influencing sexual development. Emphasis is given to topics pertinent to healthful living in today's culturally diverse, global society. (Cross-listed with PHHB 3080).

WGST 3100 LGBT POLITICS (3 credits)

This course introduces students to the political struggle for Lesbian, Gay, Bisexual, and Transgender (LGBT) equal rights in the United States using a model of political empowerment, which may be applied for all minority or identity groups and social movements, generating operationalized measures of progress toward the loci of political power. (Cross-listed with PSCI 8105, PSCI 3100, WGST 8105)

Prerequisite(s): PSCI 1100 is recommended.

Distribution: U.S. Diversity General Education course

WGST 3120 WOMEN AND THE BIBLE (3 credits)

This course explores the characterization of women in Hebrew and Christian scriptures as well as what we can learn about the lives of women in the ancient world from these and other sources. Attention is also given to the reception and use of these texts in later historical periods including contemporary religious contexts. (Cross-listed with RELI 3130).

WGST 3130 WOMEN AND POLITICS (3 credits)

This course introduces students to women's political participation, including holding elective office, socialization, the feminist movement and its opposition, and public policies with particular impact on women. The focus is on contemporary perspectives on women in American political ideas and behavior. (Cross-listed with PSCI 3130, PSCI 8135, WGST 8135)

Prerequisite(s): PSCI 1100 is recommended.

Distribution: U.S. Diversity General Education course

WGST 3160 QUEER AMERICAN WESTS (3 credits)

A survey of queer literatures about the American West. The course will explore a variety of genres, including poetry, short stories, plays, novels, creative nonfiction, and, depending on time, film/television. "Queer" will be construed as including any "non-normative" sexualities and sexual identities (e.g., genderqueer, winkle, two-spirit, 3rd/4th gender). Non-western writers (e.g., Walt Whitman) imagining the West queerly may also be included. (Cross-listed with ENGL 4280, ENGL 8286).

Prerequisite(s): ENGL 1160; completion of writing in the major course recommended.

WGST 3180 GENDER IDENTITY IN PERSONAL WRITING (3 credits)

Students will read a variety of memoirs and personal essays by both emerging and established LGBTQIA+ creative nonfiction writers and allies, with a focus on trans writers; analyze the craft choices each author makes; analyze textual and theoretical explorations of gender identity and gender performativity; and explore their gender identities, and gender experiences in the essays that they compose. (Cross-listed with ENGL 3180).

Prerequisite(s): ENGL 1150 and ENGL 1160 or equivalents required.

WGST 3230 GENDER AND GLOBAL POLITICS (3 credits)

This seminar introduces students to gender politics in comparative and international politics. (Cross-listed with PSCI 3230, PSCI 8235, WGST 8235)

Prerequisite(s): PSCI 2500 is recommended.

Distribution: Global Diversity General Education course

WGST 3390 WOMEN, CRIME AND JUSTICE (3 credits)

This course focuses on women's experiences in the criminal justice system. The course will examine women's experiences as victims of crime, as offenders, as prisoners, and as criminal justice professionals. (Cross-listed with CRCJ 3390)

Prerequisite(s): WGST major; CRCJ or WGST minor; CRCJ 1010, ENGL 1160 and 45 credit hours; or instructor permission.

Distribution: U.S. Diversity General Education course

WGST 3490 GENDER AND PHILOSOPHY (3 credits)

This course examines philosophical arguments concerning gender and sexual difference, gender issues and women in the history of philosophy, and major views in feminist theory. Using arguments derived from feminist theory, we will undertake a critical inquiry into the ways in such gender, geography, and power inform political institutions and, in particular, medical research and health disparities. Taking the perspective of women's lives from across the globe through case studies, we will interrogate feminist theory in relation to non-US perspectives on gender and sexuality. (Cross-listed with PHIL 3490).

Prerequisite(s): Sophomore status OR 6 hours of PHIL OR 6 hours of WGST.

Distribution: Global Diversity General Education course

WGST 3750 GENDER AND COMMUNICATION (3 credits)

This course provides a survey of literature on communication about, by, and between women, men, and trans people in society, personal relationships, and organizations. Students develop an understanding of how cultural meanings of gender both shape and are shaped by communication. (Cross-listed with CMST 3750).

Prerequisite(s): Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

WGST 4000 SPECIAL TOPICS: GENDER & SEXUALITY IN ENGLISH STUDIES (3 credits)

A study of designated specific topics related to gender and sexuality studies at the Senior level within the disciplines of English (May be repeated for credit as long as the topic is not the same.)

Prerequisite(s): Variable according to topic

WGST 4010 SENIOR SEMINAR (3 credits)

This course provides a capstone experience in women's, gender and sexuality studies. It serves as the third writing course, and is required, for women's and gender studies majors. It is open to seniors who have completed at least five courses in Women's and Gender Studies, including WGST 2010 and WGST 2020, with a 'C' or better; others may enroll with permission.

Prerequisite(s): Senior standing, completion of at least five women's studies courses, including WGST 2010 and WGST 2020, with a grade of 'C' or better; or permission.

WGST 4020 INTERNSHIP IN WOMEN'S AND GENDER STUDIES (1-6 credits)

A faculty-supervised project involving part-time employment or service with a community agency, business, non-profit organization, university or other educational unit, or another appropriate organization or setting. Students will gain relevant practical experience and will integrate theory, concepts, and empirical knowledge from their classrooms with their work in the internship setting. Permission of instructor is required.

Prerequisite(s): WGST 2010 and WGST 2020, enrollment either as a WGST major or minor or as a BMS concentration in WGST, a 3.0 GPA, and permission of instructor.

WGST 4030 PERSONAL LEADERSHIP (3 credits)

In addition to a survey of leadership styles and theories, this course provides historical and contemporary perspectives of gender and leadership, barriers to women's leadership, bias, and discrimination. Individual leadership is examined within the context of being a change agent. This is a service learning course.

Prerequisite(s): WGST 2010 or WGST 2020

WGST 4050 SPECIAL TOPICS IN WOMEN'S AND GENDER STUDIES (3 credits)

This course will give instructor and students the opportunity to investigate a variety of advanced topics in Women's Studies. The content will vary from semester to semester, according to instructor. May be repeated for credit as long as topic differs.

Prerequisite(s): WGST 2010 and WGST 2020 or permission of instructor.

WGST 4060 HISTORY OF WOMEN IN AMERICA FROM 1875 - 1922 (3 credits)

This course examines the history of women in the United States from 1875 to 1992. Topics include law, work, sexuality and reproduction, immigration, civil rights, political participation and party politics, and changes to the American gender system, including family structure and employment. (Cross-listed with HIST 4060, WGST 8066, and HIST 8066).
Prerequisite(s): Junior or permission of instructor.

WGST 4070 GENDER AND LEADERSHIP CAPSTONE: COMMUNITY ACTION PROJECT (3 credits)

This course is designed for students in the final stage of the Gender and Leadership Certificate. Activities focus on practical experience in an organization that will allow students to exercise, observe, and later share lessons with classmates about leadership qualities and skills.
Prerequisite(s): WGST 2010 or WGST 2020 and either WGST 3020 or WGST 4030

WGST 4120 BLACK WOMEN LEADERS IN LIBERATION MOVEMENTS (3 credits)

This course studies scholarship on race, gender, and leadership with a specific focus on African and African descended women's roles in liberation movements in the U.S. and worldwide. Especial focus will be on the use of their personal narratives to analyze the wide range of ideas in the conception and execution of leadership. (Cross-listed with BLST 4120, BLST 8126).
Prerequisite(s): Junior standing or permission of instructor.

WGST 4130 GENDER & LEADING SOCIAL CHANGE (3 credits)

This course will cover theories, philosophies, movements, and concepts related to social change as a process and outcome. It is a service-learning course.
Prerequisite(s): WGST 2010 or 2020. Junior standing or permission.

WGST 4150 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)

An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with ENTR 4150, ENTR 8156, GEOG 4150, GEOG 8156 and WGST 8156).
Prerequisite(s): Junior, senior, or graduate standing, or permission of instructor.

WGST 4210 GEOGRAPHIES OF SEXUALITIES (3 credits)

How are geography and sexuality related? What have cities got to do with sexual identities? Can rural spaces foster diverse sexual communities? These and related questions are the focus of this upper-level undergraduate and graduate-level course. Students read scholarly work by and about LGBTQ+ (Lesbian, Gay, Bisexual, Transgender, Queer, and +), and cisgender people, and their lived experiences creating and inhabiting different geographies. Students gain an appreciation for the social construction of diverse sexualized spaces and considers questions about equity and policy through case studies in a variety of countries. Each student also researches a course-relevant topic they choose. (Cross-listed with GEOG 8216, GEOG 4210, WGST 8216).
Prerequisite(s): GEOG 1000, GEOG 1020, WGST 2010, or WGST 2020, or junior standing, or permission of the instructor.

WGST 4250 WOMEN'S STUDIES IN LITERATURE (3 credits)

A critical study of literature by and/or about women in which students learn about contributions of women to literature, ask what literature reveals about the identity and roles of women in various contexts, and evaluates standard interpretations from the perspectives of current research and individual experience. (Cross-listed with ENGL 4250, ENGL 8256).
Prerequisite(s): ENGL 1160 and one additional course in literature or permission.

WGST 4270 WOMEN WRITERS OF THE NORTH AMERICAN WEST (3 credits)

A survey of U.S. and Canadian women writers (18th century to the present) enabling students to examine issues of gender and sexuality across a wide thematic range, including settlement, land use, cultural displacement, and survival in western territories, states, and provinces of North America. (Cross-listed with ENGL 8276, ENGL 4270).
Prerequisite(s): ENGL 1150 and ENGL 1160 or equivalent; completion of ENGL 2410 or other writing in the major course recommended.

WGST 4550 HEALTH ASPECTS OF AGING (3 credits)

This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with PHHB 4550, PHHB 8556, GERO 4550, GERO 8556)

WGST 4910 TOPICS IN WOMEN'S HISTORY (3 credits)

A course on selected topics offered on a one-time or occasional basis. Course may be repeated as long as the topic is different each time. Cross listed with WGST 4910/WGST 8916 when topics are appropriate to Women's and Gender Studies.
Prerequisite(s): Junior

WGST 4930 SPECIAL TOPICS IN GENDER AND ART HISTORY (1-3 credits)

An illustrated lecture course dealing with a limited topic in the field of art history. The course may be coordinated with an external event such as an exhibition, publication or study trip.
Prerequisite(s): To be determined by the instructor based upon the preparation required for an adequate understanding of the material of the course. Lab fee required.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. To graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

Note: Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.0

Women's and Gender Studies Minor

Women's and Gender Studies Minor Requirements

The WGST minor requires 18 credits, as detailed below. Please be advised that students who elect to complete both the WGST minor and LGBTQ-Sexuality Studies minor may count no more than two upper-division courses toward the completion of both minors.

Code	Title	Credits
All of the following:		6
WGST 2010	INTRODUCTION TO WOMEN'S AND GENDER STUDIES: SOCIAL AND BEHAVIORAL SCIENCE	
WGST 2020	INTRODUCTION TO WOMEN'S AND GENDER STUDIES: HUMANITIES	
Select 12 credits of approved upper-division (3000-4000 level) WGST courses (see below)		12

Approved WGST courses

Code	Title	Credits
ART 4930	SPECIAL TOPICS IN ART HISTORY	
ENGL 4270	WOMEN WRITERS OF THE NORTH AMERICAN WEST	
ENGL 4960	TOPICS IN LANGUAGE AND LITERATURE

WRWS 4000	FORM AND THEORY

LGBTQ/Sexuality Studies Minor

LGBTQ (lesbian, gay, bisexual, transgender, and queer)/Sexuality Studies is an interdisciplinary field that examines the identities, experiences, and social positions of people often referred to as sexual/gender minorities. The field also examines sexual behaviors, identities, and communities as sex plays a key role in many people's lives. LGBTQ/Sexuality Studies has origins in many disciplines, including anthropology, art, English, history, media studies, psychology, public health, sociology, theatre, and women's and gender studies, among others. The field includes topics such as: identity formation of nonheterosexual sexualities, non-binary gender identities, health and well being of sexual/gender minorities, cultural groups, the politics of identity, and representations of queer lives in popular culture. This minor acknowledges that sexuality is an important distinguishing factor of our lives on par with race, social class, and gender.

The LGBTQ/Sexuality Studies minor will offer students courses that complement and support their majors in many ways. The minor is intentionally flexible and interdisciplinary. Students who complete this minor will gain increased knowledge in the following:

- sexual identity, orientation, and behaviors, including heterosexualities, homosexualities, gay sexualities, lesbian sexualities, bisexualities, queer sexualities, etc.
- gender identities including trans identities, including but not limited to: genderqueer, non-binary, trans man, trans woman, gender nonconforming, gender creative, etc.
- sexology, or the study of sex and sexual behaviors, and human sexuality broadly
- sexual health such as STIs, HIV, and sexual reproduction
- theories of identity development, queer theory, and other social theories related to sexuality
- intersectionality of sexuality with race, class, gender, religion, ability, nationality, and other social characteristics
- diversity of human behavior and experience as it relates to sex and sexuality
- history and diversity of representations of LGBTQ in culture.

Minors Offered

LGBTQ/Sexuality Studies Minor

Other Information

All coursework taken for the LGBTQ/Sexuality Studies minor must be completed with a grade of “C” or better.

Contact

The LGBTQ/Sexuality Studies minor is a minor option under Women’s and Gender Studies.

Arts and Sciences Advising Center
220 Arts and Sciences Hall
402.554.2458

LGBTQ/Sexuality Studies Minor Requirements

Undergraduate students will be expected to complete at least 15 credit hours of LGBTQ/Sexuality courses with a grade of C or higher. Nine credit hours must be upper division (3000 or higher) courses. No more than nine credit hours will be accepted as transfer credit.

Courses not on the list can be petitioned to be accepted by approval of the Advisor of the minor.

Code	Title	Credits

³ ENGL 4960 when offered as: *Language, Gender, and Sexuality, Writing Women's Lives; Writing Graphic Memoirs*
⁴ HONR 3030 when offered as: *LGBTQ Health*
⁵ Select sections of PSYC 3540, per approval of the minor advisor.

Please be advised that students who elect to complete both the WGS minor and LGBTQ-Sexuality Studies minor may count no more than two upper-division courses toward the completion of both minors.

World Languages and Literature

The Department of World Languages and Literature offers a Bachelor of Arts (B.A.) in World Languages and Literature with concentrations in French, German, Spanish, and Spanish for Health Sciences. A total of 30 upper-division (3000-4000 level) credit hours are required for a concentration in French, German, or Spanish. A total of 31 credit hours (Spanish 1140 and additional upper-division courses) are required for the concentration in Spanish for Health Sciences. These concentrations foster linguistic, cultural, pragmatic, and sociohistorical knowledge/abilities in the target language.

The department offers introductory through advanced courses in French, German, and Spanish, as well as courses through the intermediate level in Japanese. It should be noted that the Spanish and German minors may be earned on campus, entirely online, or via a combination of the two.

In addition, the department participates in such interdisciplinary programs as International Studies, Latino and Latin American Studies, Women’s and Gender Studies, Medical Humanities, and offers study abroad programs in France, Germany, Canada, Mexico and Spain.

Double Majors for Secondary Education World Language Majors

Students pursuing a B.S. from the College of Education, Health and Human Sciences with a primary major in Secondary Education (Foreign Language-French or German or Spanish 7-12 Endorsement) and working toward Nebraska State Certification to teach in this area may also earn a second major in World Languages and Literature by declaring that major with the College of Arts & Sciences Advising Center (<https://www.unomaha.edu/college-of-arts-and-sciences/academic-advising-center/>) or at the main office for the World Languages and Literature department.

Students will complete 30 credit hours in French, German, or Spanish with grades of C or above (this is different from the World Languages and Literature Department’s requirement of a minimum grade of C- or above). Students declaring this second major should work with their advisor to select courses that align with both programs and require no additional coursework on the part of the student.

Other Information

Courses in the 1110 (or 1100), 1120 (or 1200), 2110 (or 2100), 2120 sequences may not be taken out of order. Students must pass the prerequisite course with a grade of “C-” or better before taking the next course in the sequence and may not take an earlier course in any sequence for credit once they have received credit in a later course in any sequence. Spanish 1140 has no prerequisites and students can take it at any point.

All 3000 and 4000 level courses may be taken for honors credit in cooperation with the University Honors Program.

There is a laboratory fee for all foreign language courses at the 1000 and 2000 levels. Fees are used to pay for language tutors that support student learning in those classes.

Special Requirements

The Department of World Languages and Literature does not accept transfer credits from any institution for its 1000/2000 level courses except for those as allowed by the College of Arts and Sciences. To enroll in any French, German, or Spanish course beyond 1110, a student who has not successfully completed the prerequisite courses at UNO must take the appropriate placement exam and qualify for the desired course. Native and heritage speakers of French, German or Spanish wishing to take a course in their language of nurture are exempt from this requirement. They are advised to make an appointment with an advisor in the Department of World Languages and Literature for appropriate placement. All other students are subject to this requirement including transfer students. UNK/UNL students are not exempt from this requirement. The Department of World Languages and Literature reserves the right to cancel the registration of any student who has not met the prerequisites for a course. Transfer courses at the 3000/4000 level are subject to the approval of a departmental adviser and the department chair. All our language courses must be completed with a grade of C- or better in order for the student to continue to the next course.

Residency

All majors in World Languages and Literature must complete a minimum of 12 credit hours in their major language at the 3000 or 4000 level in residence at UNO.

All minors in World Languages and Literature must complete a minimum of 9 credit hours in their minor language at the 3000 or 4000 level in residence at UNO.

Student Groups

The department of World Languages has active student groups: Le Cercle Français, Stammtisch, Sigma Delta Pi, the Spanish Club, and the Latinx+ Club. Visit the department website (<https://www.unomaha.edu/college-of-arts-and-sciences/foreign-languages-and-literature/student-opportunities/student-organizations.php>) for more information.

Contact

301 Arts & Sciences Hall

Website (<http://www.unomaha.edu/college-of-arts-and-sciences/foreign-languages-and-literature/>)

Degrees Offered

World Languages and Literature, Bachelor of Arts (p. 444)

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. FREN 4040, GERM 4040, and SPAN 4040 are the approved university writing courses for the concentrations in French, German and Spanish. SPAN 4800 is the approved university writing course for the concentration in Spanish for Health Sciences. Students must have completed ENGL 1160 in order to take their writing in the discipline course (of the university core curriculum) in a foreign language.

Minors Offered

- French Minor (p. 453)
- German Minor (p. 453) - Available online or on campus
- Spanish Minor (p. 453) - Available online or on campus
- Spanish for Health Sciences Minor (p. 454)

Minor in Foreign Languages

A minimum of 15 credit hours in courses at the 3000 and 4000 level are required for a minor in French, German, or Spanish. For a minor in Spanish for Health Sciences, a minimum of 16 credit hours are required in courses at the 3000 and 4000 level. All foreign language minors must complete a minimum of 9 credit hours in their minor language at the 3000 or 4000 level in residence at UNO. Students may earn the Spanish minor by taking courses on campus, online, or a combination of the two.

In the Department of Foreign Languages and Literature at UNO, our goal is to provide students with the linguistic and cultural proficiency required of a global education. Language study at UNO provides a myriad of opportunities to use the language you are studying both within and outside of the classroom through study abroad opportunities and engagement in the Omaha community. Foreign Languages & Literature majors often pursue career paths such as the following:

- business: human resources, sales, marketing, logistics, international business
- law/law enforcement: police, immigration, law (international, immigration or environmental law)
- government and non-profit services: non-profit management or administration, Peace Corps, Foreign Service, linguistics, social work, environmental justice, research (for think tanks, non-profits, government)
- healthcare: healthcare navigation, patient relations, nursing, medicine, dentistry, speech therapy
- education (p-16): teaching, bilingual assistance, administration (OPS requires that principals be or become bilingual), counseling, special education, library services
- communication/journalism: radio, television, publishing (e.g. newspapers, magazines, blogs, books), and advertising. Specialized areas include writing, editing, proofreading, transcribing, subtitling, voice-over recording
- travel and hospitality: travel agency services, tour guiding, event coordination, concierge services.

French

FREN 1010 WHY LANGUAGES MATTER: REPRESENTATIONS OF LINGUISTIC DIVERSITY IN THE US MEDIA (3 credits)

Delivered in English, this course introduces students to diversity in the US using language in context as points of departure. In this course, we analyze the intersection between language and ideological constructions (e.g., the objectification of Latino women, discrimination and stereotypes toward Asian peoples) and examine nodes of social meaning through visual and audio representations of language, as consumed in music, tv series, art (e.g., street art, installations) and social media. Departing from a US-centric and an assimilative approach, the course provides a historical and geographic lens through which these languages exist in the United States. (Cross-listed with WLL 1000, GERM 1010, JAPN 1020, SPAN 1010).

Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

FREN 1110 ELEMENTARY FRENCH I (5 credits)

Elementary French I emphasizes the mastery of all four language skills: speaking, listening, reading, and writing, as well as introduces cultural issues from the francophone world.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

FREN 1120 ELEMENTARY FRENCH II (5 credits)

French 1120 is the second course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including listening, writing, speaking, and reading.

Prerequisite(s): FREN 1110 with a grade of C- or better or placement by diagnostic examination. Department permission is needed for transfer credit.

FREN 2110 INTERMEDIATE FRENCH I (3 credits)

Grammar review, continued oral practice, and introduction to literary readings.

Prerequisite(s): FREN 1120 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

FREN 2120 INTERMEDIATE FRENCH II (3 credits)

Grammar review, continued oral practice, and introduction to literary readings.

Prerequisite(s): FREN 2110 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

FREN 3020 SPECIAL TOPICS IN FRENCH (3 credits)

Topics for this course will include French grammar review, conversation practice, composition, and structure. This course is a bridge course designed for students who have completed FREN 2120, FREN 3030, or FREN 3040, to prepare them for 3000/4000-level content courses in French.

Prerequisite(s): FREN 2120 or equivalent. Not open to non-degree graduate students.

FREN 3030 FRENCH CONVERSATION (3 credits)

Practice in a variety of conversational situations and levels.

Prerequisite(s): FREN 2120 or placement by Department of Foreign Languages diagnostic examination.

FREN 3040 FRENCH GRAMMAR AND COMPOSITION (3 credits)

Review of grammatical principles, practice in written composition.

Prerequisite(s): FREN 2120 or placement by Department of Foreign Languages diagnostic examination.

FREN 3050 INTRODUCTION TO TRANSLATION (3 credits)

Introduction to the theory and various techniques of translation from French into English. Students will review specific differences between French and English grammar and lexicon. Students will first practice translating sentences, moving to paragraphs to end on translating various genres of literary works. Throughout the course, students will translate a great variety of texts such as news articles, administrative forms, official records, business documents, brochures, operating instructions, and how to translate subtitles.

Prerequisite(s): FREN 3040 or permission

FREN 3060 READINGS IN FRENCH (3 credits)

This course aims to increase students' fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students' vocabulary through the use of a variety of primary sources; many genres will be sampled.

Prerequisite(s): FREN 2120. Not open to non-degree graduate students.

FREN 3160 INTRODUCTION TO FRENCH LITERATURE (3 credits)

Readings in this survey course will include a selection of French authors from the medieval period to the present. This selection will vary depending on the instructor. The main objective of this course is the development of critical reading skills and an understanding of major authors, movements, and themes in French literature. Students will read selections from numerous authors in a variety of genres, including short stories, theater, poetry, and the novel. The course also focuses on continuing to develop French language skills, in particular through reading for comprehension and interpretation of metaphorical meaning. Discussion will help to hone speaking skills.

Prerequisite(s): FREN 3060 or instructor permission.

FREN 3370 FRENCH CIVILIZATION (3 credits)

A historical view of France through its political, artistic, musical, literary, architectural and philosophical development from prehistory to the present.

Prerequisite(s): FREN 2120 or permission

FREN 3580 BUSINESS FRENCH (3 credits)

An introduction to the French business world. Students will acquire the necessary vocabulary, skills and cultural strategies to perform adequately in a French business environment so they can understand the cultural differences between the American and French business worlds.

Prerequisite(s): FREN 2120 or equivalent

FREN 4030 ADVANCED FRENCH CONVERSATION (3 credits)

This course focuses on the development of oral skills in French through the use of complex and sophisticated conversational structures and nuanced lexicon. Students will be involved in expressing or presenting their ideas and opinions, interpersonal speaking activities, and a variety of activities including reading short literary and cultural texts and screening films. (Cross-listed with FREN 8036).

Prerequisite(s): FREN 3030 or departmental permission. Not open to non-degree graduate students.

FREN 4040 ADVANCED FRENCH COMPOSITION AND STYLISTICS (3 credits)

In this capstone course, required for the completion of the major, learners will explore and practice advanced grammatical structures, write compositions in a variety of genres, and familiarize themselves with advanced stylistics.

Prerequisite(s): French majors with Junior or Senior standing. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

FREN 4050 SEMINAR IN THE CULTURE AND CIVILIZATION OF QUEBEC (3 credits)

An introduction to the many facets of Quebec Culture & Civilization, through readings on Quebec's history and contemporary culture and also through films and other media related to Quebec. (Cross-listed with FREN 8056).

Prerequisite(s): FREN 2120 or permission, and ENGL 1160

FREN 4070 FRANCOPHONE WEST AFRICA CULTURES (3 credits)

This course is intended as an introduction and exploration to the history, literary traditions and cinema of Francophone West Africa from 1945 to today. It seeks to familiarize students with the practice of reading literary texts, discussing seminal films and articulating critically informed reaction in writing. The course will focus on a selection of canonical authors and seminal films from Burkina Faso, Guinea, Ivory Coast, Mali, Mauritania and Senegal. The texts and films will provide a point of entry to the study of history, society, and culture. Historical, socio-political and cultural issues covered in the course will include: Ancient rites and oral literature, French colonization and post-colonialism, women and gender issues, childhood, immigration, the "Afropean" literature and West African Francophone countries contemporary challenges (politics and economies) with presentations on Benin, Niger and Togo today. (Cross-listed with FREN 8076).

Prerequisite(s): FREN 2120

FREN 4150 CONTEMPORARY FRENCH NOVEL (3 credits)

Selected contemporary French novels are analyzed and discussed. The main objective of this course is the development of critical reading and analytical skills that will allow students to reflect more productively upon the major social and aesthetic themes manifest in the texts under consideration. In addition, students will examine the sociopolitical and cultural contexts of these literary works. (Cross-listed with FREN 8156).

Prerequisite(s): FREN 3060 or permission. Not open to non-degree graduate students.

FREN 4170 CONTEMPORARY FRENCH THEATER (3 credits)

Selected contemporary French plays are analyzed and discussed. The main objective of this course is the development of critical reading and analytical skills that will allow students to reflect more productively upon the major social and aesthetic themes manifest in the texts under consideration. (Cross-listed with FREN 8176).

Prerequisite(s): FREN 3060 or permission of instructor. Not open to non-degree graduate students.

FREN 4220 THE STRUCTURE OF FRENCH (3 credits)

A survey of the linguistic structure of modern French, including phonology, morphology, and syntax. (Cross-listed with FREN 8226).

Prerequisite(s): FREN 3040 or departmental permission. Not open to non-degree graduate students.

FREN 4860 MODERN FRENCH WOMEN AUTHORS (3 credits)

Selected contemporary French literary texts written by women are analyzed and discussed. This may include novels, short stories, poetry, and graphic novels. The primary objective of this course is the development of critical reading and analytical skills that will allow students to reflect more productively upon the major social and aesthetic themes manifest in the works under consideration. In addition, students will examine the sociopolitical and cultural contexts of these works. (Cross-listed with FREN 8866).

Prerequisite(s): FREN 3060 or permission. Not open to non-degree graduate students.

FREN 4900 INDEPENDENT STUDY (1-3 credits)

Specially planned assignments in a well-defined field of French Studies, carried out under the supervision of a member of the Foreign Languages and Literature faculty. Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated the capability of working independently. In general, these independent studies should not be taken as substitutes for scheduled classes of the same nature. May be repeated for credit once. (Cross-listed with FREN 8906).

Prerequisite(s): Junior or Senior standing, no incompletes outstanding, and departmental permission. Not open to non-degree graduate students.

FREN 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)

This course is dedicated to the study of a narrow field of the literature and/or cinema of the Francophone world. (Cross-listed with FREN 8956).

Prerequisite(s): FREN 3030, FREN 3040, and FREN 3060

FREN 4960 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)

This course will address narrow field of study of the civilization, history, film, contemporary culture, art, politics, and or cultural studies of the Francophone world. (Cross-listed with FREN 8966).

Prerequisite(s): FREN 2120; FREN 3030, FREN 3040, and FREN 3060

FREN 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)

This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the Francophone world. (Cross-listed with FREN 8976).

Prerequisite(s): FREN 3030, FREN 3040, and FREN 3060

German

GERM 1010 WHY LANGUAGES MATTER: REPRESENTATIONS OF LINGUISTIC DIVERSITY IN THE US MEDIA (3 credits)

Delivered in English, this course introduces students to diversity in the US using language in context as points of departure. In this course, we analyze the intersection between language and ideological constructions (e.g., the objectification of Latino women, discrimination and stereotypes toward Asian peoples) and examine nodes of social meaning through visual and audio representations of language, as consumed in music, tv series, art (e.g., street art, installations) and social media. Departing from a US-centric and an assimilative approach, the course provides a historical and geographic lens through which these languages exist in the United States. (Cross-listed with WLL 1000, FREN 1010, JAPN 1020, SPAN 1010).

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

GERM 1110 ELEMENTARY GERMAN I (5 credits)

Elementary German I emphasizes the mastery of all four language skills (speaking, listening, reading, and writing) and introduces cultural issues from the German-speaking world.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

GERM 1120 ELEMENTARY GERMAN II (5 credits)

German 1120 is the second course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. It also includes a cultural component.

Prerequisite(s): GERM 1110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

GERM 2110 INTERMEDIATE GERMAN I (3 credits)

German 2110 is the third course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. It also includes a cultural component.

Prerequisite(s): GERM 1120 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

GERM 2120 INTERMEDIATE GERMAN II (3 credits)

German 2120 is the fourth course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. It includes a culture component.

Prerequisite(s): GERM 2110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

GERM 3030 GERMAN CONVERSATION (3 credits)

This course focuses on improving students' oral production of German including improvements to pronunciation, fluidity, and vocabulary.

Prerequisite(s): GERM 2120 or placement by Department of Foreign Languages diagnostic examination, or permission from instructor.

GERM 3040 GERMAN GRAMMAR & COMPOSITION (3 credits)

The course will review previously studied grammar topics in the German language, as well as cover more advanced grammar points that are essential for expressing complex ideas. It will focus on writing strategies for writing in a foreign language, for developing a descriptive essay and a narrative.

Prerequisite(s): GERM 2120, placement by Department of Foreign Languages diagnostic examination, or departmental permission.

GERM 3060 READINGS IN GERMAN (3 credits)

This course aims to increase students' fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students' vocabulary through the use of a variety of primary sources; many genres will be sampled.

Prerequisite(s): GERM 2120; Not open to non-degree graduate students

GERM 3190 LISTENING COMPREHENSION (3 credits)

Students will strengthen their listening comprehension skills in a wide variety of genres.

Prerequisite(s): GERM 2120 or placement into the 3000-level in German or permission from the instructor

GERM 3250 CONTEMPORARY CULTURE IN GERMAN SPEAKING COUNTRIES (3 credits)

In this course students will learn about the political, social, economic, and aesthetic life in German-speaking countries.

Prerequisite(s): GERM 2120 with a grade of C- or better, placement by department diagnostic exam, or instructor permission. Department permission is needed for transfer credit.

GERM 3370 GERMAN HISTORY FROM THE BEGINNINGS UNTIL THE EARLY MODERN PERIOD (3 credits)

This course covers history, art, architecture, customs, and philosophy of central Europe and the German-speaking world from prehistory until the early 18th century.

Prerequisite(s): GERM 2120 or permission.

GERM 3380 GERMAN HISTORY FROM THE ENLIGHTENMENT TO THE PRESENT (3 credits)

This course will cover the history, art, architecture, customs, and philosophy of central Europe and the German-speaking world from the Enlightenment until the present.

Prerequisite(s): GERM 2120 or permission.

GERM 3580 GERMAN FOR PROFESSIONAL LIFE (3 credits)

This course focuses upon the development of German language skills and concomitant cultural awareness that can be utilized to conduct oneself appropriately in professional situations in German-speaking countries.

Prerequisite(s): GERM 2120 or the equivalent.

GERM 3650 INTRODUCTION TO GERMAN FILM (3 credits)

This course introduces students to seminal works in the history of German film.

Prerequisite(s): GERM 2120 or by permission.

GERM 4040 ADVANCED COMPOSITION AND STYLISTICS (3 credits)

In this capstone course, required for the completion of the major, learners will explore and practice advanced grammatical structures, write compositions in a variety of genres, and familiarize themselves with advanced stylistics.

Prerequisite(s): Last two semesters of the major or permission of the department. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

GERM 4150 INTRODUCTION TO GERMAN LITERATURE (3 credits)

Introduction to the history of literature of Germany, Austria, and German-speaking Switzerland. Students will read selections from the 18th, 19th and 20th centuries.

Prerequisite(s): GERM 3060 or instructor permission.

GERM 4160 BLACK GERMANY: PEOPLE AND CULTURE (3 credits)

The course addresses fiction, film, photography, music and journalism to dive into Black people's contribution to German culture. From the formation of a Black community in imperial Germany, to the African American GI's role in postwar democratization process, the artistic output of so-called "occupation babies" born in the wake of WWII, to contemporary artists who continue to expand and refine German culture. The African Diaspora in Germany is a rich field to expand our notion of global connectedness and cultural identity, while taking a deep dive into contemporary German culture and social developments. (Cross-listed with GERM 8166).

GERM 4210 TRANSLATING GERMAN (3 credits)

Students learn basic translation theory and techniques from the German to the English language.

Prerequisite(s): GERM 3030 and GERM 3040 or by permission

GERM 4220 THE STRUCTURE OF GERMAN (3 credits)

A survey of the linguistic structure of modern German, including phonology, morphology, and syntax. (Cross-listed with GERM 8226).

Prerequisite(s): GERM 3040 and GERM 4610, or permission of instructor.

GERM 4900 INDEPENDENT STUDY (1-3 credits)

This is a course in which an individual student or a small group of students complete specially planned readings in a well-defined field of study, carried out under the supervision of a member of the foreign language faculty.

Designed primarily for the student who has need of work not currently available in the departmental offerings and who has demonstrated capability of working independently. May be repeated for credit once.

Prerequisite(s): GERM 2120 or placement by Department of Foreign Languages diagnostic examination, or permission from instructor.

GERM 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)

This course is dedicated to the study of a narrow field of the literature and/or cinema of the German-speaking world. (Cross-listed with GERM 8956).

Prerequisite(s): GERM 3030, GERM 3040, and GERM 3060

GERM 4960 PRO-SEMINAR: SOCIETY AND CULTURE (3 credits)

This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the German-speaking world. (Cross-listed with GERM 8966).

Prerequisite(s): GERM 3030, GERM 3040, and GERM 3060

GERM 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)

This course will address a narrow field of study of linguistics, translation/interpretation or the professional language of the German-speaking world. (Cross-listed with GERM 8976).

Prerequisite(s): GERM 3030, GERM 3040, and GERM 3060.

Spanish

SPAN 1010 WHY LANGUAGES MATTER: REPRESENTATIONS OF LINGUISTIC DIVERSITY IN THE US MEDIA (3 credits)

Delivered in English, this course introduces students to diversity in the US using language in context as points of departure. In this course, we analyze the intersection between language and ideological constructions (e.g., the objectification of Latino women, discrimination and stereotypes toward Asian peoples) and examine nodes of social meaning through visual and audio representations of language, as consumed in music, tv series, art (e.g., street art, installations) and social media. Departing from a US-centric and an assimilative approach, the course provides a historical and geographic lens through which these languages exist in the United States. (Cross-listed with WLL 1000, FREN 1010, JAPN 1020, GERM 1010).

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

SPAN 1100 ELEMENTARY SPANISH I FOR HEALTHCARE PROFESSIONALS (5 credits)

Spanish 1100 presents an introduction to the Spanish language and fosters the mastery of all linguistic skills; i.e., speaking, listening, reading, and writing, via a communicative approach. It also promotes an understanding of the target language's culture with an emphasis on sociocultural issues relevant to healthcare services.

SPAN 1110 ELEMENTARY SPANISH I (5 credits)

Elementary Spanish I emphasizes the mastery of all four language skills (speaking, listening, reading, and writing) and introduces cultural topics from across the Spanish-speaking world.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

SPAN 1120 ELEMENTARY SPANISH II (5 credits)

Spanish 1120 is the second course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.

Prerequisite(s): SPAN 1110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 1140 INTRODUCTION TO SPANISH FOR HEALTH SCIENCES (1 credit)

This course introduces students in the Spanish for Health Sciences concentration to fundamental topics that emerge from the intersection between healthcare and the Spanish language. These topics include: language diversity; language policy in the US; and historical and sociocultural factors that prevent access to care.

SPAN 1200 ELEMENTARY SPANISH 2 HEALTHCARE PROFESSIONALS (5 credits)

Spanish 1200 is built on the content introduced in Spanish 1100 and presents to students more complex communicative tasks that are typical of the interactions between patient/client and healthcare providers. The course fosters the mastery of all linguistic skills; i.e., speaking, listening, reading, and writing, via a communicative approach. It also promotes an understanding of the target language's culture with an emphasis on sociocultural issues relevant to healthcare services.

Prerequisite(s): SPAN 1110 or SPAN 1100 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 2110 INTERMEDIATE SPANISH I (3 credits)

Spanish 2110 is the third course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.

Prerequisite(s): SPAN 1120 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 2120 INTERMEDIATE SPANISH II (3 credits)

Spanish 2120 is the fourth course in the 16-hour Arts and Sciences Foreign Language requirement. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing.

Prerequisite(s): SPAN 2110 with a grade of C- or better, or placement by department diagnostic exam. Department permission is needed for transfer credit.

SPAN 2130 ACCELERATED SECOND-YEAR SPANISH (6 credits)

This accelerated course combines the content of Intermediate Spanish I and Intermediate Spanish II. It is communicative in approach and emphasizes the mastery of all language skills including speaking, listening, reading, and writing. Successful completion of this course fulfills the College of Arts and Sciences foreign language requirement. The entire course must be completed to receive credit.

Prerequisite(s): SPAN 1120 or placement by Department of Foreign Languages diagnostic examination. Department permission is needed for transfer credit.

SPAN 2150 INTRODUCTION TO HISPANIC LITERATURES AND CULTURES (3 credits)

In this course, students become acquainted with canonical texts within the Spanish and Spanish American literary traditions. The course focuses on developing reading and writing skills, and on helping students distinguish between literal and metaphorical meanings, which serves as a preparation for the development of more advanced interpretive skills.

Prerequisite(s): Placement exam results or advisor permission

SPAN 2300 INTERMEDIATE SPANISH I FOR HEALTHCARE PROFESSIONALS (3 credits)

The course integrates and refines learners' Spanish competencies, and allows students to apply them to real-life situations in the healthcare field. As such, this course enhances all linguistic skills, with a focus on the issues of register, dialect, and culturally appropriate vocabulary in the healthcare context. Also, the course fosters control and ease of speaking and listening; reading and writing are approached within the context of health literacy.

Prerequisite(s): SPAN 1110 & SPAN 1120 or SPAN 1100 & SPAN 1200; or enrollment via placement exam

SPAN 3010 SPANISH FOR HERITAGE SPEAKERS I (3 credits)

This course is designed to offer Spanish-speaking students an opportunity to study Spanish in an academic setting. Students will acquire Spanish literacy skills, develop their academic language skills in Spanish, and learn more about the Spanish language and their cultural heritage.

Prerequisite(s): Placement exam results or adviser permission

SPAN 3020 SPANISH FOR HERITAGE SPEAKERS II (3 credits)

This course will continue to build upon the Spanish language skills students have covered in Spanish for Heritage Speakers I. Students will develop strategic academic vocabulary, learn to critically analyze a text, produce a variety of written texts, and acquire new information in different academic content areas.

Prerequisite(s): SPAN 3010 or adviser permission

SPAN 3030 SPANISH CONVERSATION (3 credits)

Practice in a variety of conversational situations and levels.

Prerequisite(s): SPAN 2120 or SPAN 2130 or placement by Department of Foreign Languages diagnostic examination, or departmental permission. The course is for second-language learners. Heritage and native students should not enroll.

SPAN 3040 SPANISH GRAMMAR AND COMPOSITION (3 credits)

Review of grammatical principles and practice in written composition.

Prerequisite(s): SPAN 2120 or SPAN 2130 or placement by Department of Foreign Languages diagnostic examination, or departmental permission. The course is for second-language learners. Heritage and native students should not enroll.

SPAN 3050 LATIN AMERICA IN CONTEXT: HEALTH, BUSINESS, ENVIRONMENT, AND SOCIETY THROUGH ORAL PRACTICE (3 credits)

This course focuses on the development and intensive practice of oral expression in Spanish, and is intended for students interested in the fields of business, health, education, environmental sciences, social work, and cultural studies, who are either heritage speakers of Spanish or who are completing a major/minor in Spanish. The class provides a broad context of current relevant issues in Latin America, including politics and society; the state of the economy after decades of neoliberalism; racism; indigenous and Afro-descendent identities; domestic and gender violence; health and disabilities; adult, youth, & child immigration; and ecology and the environment. (Cross-listed with LLS 3050).

Prerequisite(s): SPAN 3010 or SPAN 3030

SPAN 3060 READINGS IN SPANISH (3 credits)

This course aims to increase students' fluency in reading and to develop comprehension skills that will help them in advanced language studies. The course will also enrich students' vocabulary through the use of a variety of primary sources; many genres will be sampled.

Prerequisite(s): SPAN 2120 or SPAN 2130. Not open to non-degree graduate students.

SPAN 3170 SURVEY OF SPANISH LITERATURE I (3 credits)

Introduction to the principal authors and works of Spanish literature from El Cid to the 17th century.

Prerequisite(s): SPAN 3030, SPAN 3040, or departmental permission. Not open to non-degree graduate students.

SPAN 3180 INTRODUCTION TO SPANISH LITERATURE (3 credits)

Spanish 3180, Introduction to Spanish Literature, aims to familiarize students with the most important writers and literary movements from the 18th to the 21st centuries, giving an overview of the history, society and culture of these times. This course will also focus on the continued development of students' listening, speaking, reading, and essay skills. In pursuit of these goals, students will have the opportunity to read not only the specific texts but critical and introductory articles that will help them situate themselves within this particular historical and literary context. Students will also have to write essays, take tests, and develop their critical skills.

Prerequisite(s): SPAN 3010 or SPAN 3030 and SPAN 3060 or departmental permission.

SPAN 3310 SUSTAINABILITY AND THE ENVIRONMENT IN THE SPANISH-SPEAKING WORLD (3 credits)

This course presents a broad, interdisciplinary introduction to some of the most pressing environmental and ecological problems in various parts of the Spanish-speaking world, as well as some of the ways in which such problems are being addressed at different levels to promote social and ecological sustainability (locally, nationally, regionally, and globally). The Spanish-speaking world, also known as the Hispanosphere, encompasses the following geographical areas: Spain, Hispanic America, Equatorial Guinea, and portions of the United States. In addition, the course explores some of the ways in which these topics have been represented through a variety of genres, such as documentaries, fiction films, comics, narrative texts, poetry, and essays. Finally, the course also focuses on the continued development of Spanish language skills, such as the acquisition of specialized vocabulary, formal and informal essay writing, presentational speaking skills, advanced reading, and the analysis of film and other media. (Cross-listed with ENVN 3310).

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, and SPAN 3060.

SPAN 3350 STORYTELLING IN SHORT STORIES (3 credits)

The aim of this course is for students to get acquainted with storytelling, cultures, and traditions of different Hispanic nations through the reading and listening of short stories. Through short stories, the course will present a broad and interdisciplinary approach to the most important authors and issues concerning today's world, including education, the environment, law, the workplace, gender and race relations, and political and military conflicts in Spanish-speaking countries. Besides learning about current Hispanic and Latino/a literary authors, students will focus on the development of oral skills in Spanish. They will understand and explore ways to communicate clearly and in an informed manner about current issues, while also developing an understanding of the way of thinking of a variety of people from a multidisciplinary perspective.

Prerequisite(s): SPAN 3030 or SPAN 3010 and SPAN 3060

SPAN 3410 SPANISH CIVILIZATION (3 credits)

History, geography, national economy, politics, society, education, art, music and literature of Spain.

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, and SPAN 3060.

SPAN 3420 LATIN AMERICAN CIVILIZATION (3 credits)

What do we know about Latin American culture, geography, politics and languages? How has Latin America been imagined from the United States? Does it make sense to think of Latin America as one space brought together by a similar history or is it better to imagine it as twenty particular countries with intersecting pasts and futures? This course will attempt to answer these questions by introducing you to a number of key topics and debates common to contemporary Latin American culture, including issues such as democracy, class, race/ethnicity, gender/sexuality, religion, family and globalization. (Cross-listed with LLS 3420).

Prerequisite(s): SPAN 3030 or SPAN 3010

SPAN 3510 SPANISH PHONETICS AND PHONOLOGY (3 credits)

Introduction to basic concepts in phonetics and phonology, and intensive practice in Spanish pronunciation.

Prerequisite(s): SPAN 3030 or SPAN 3040. Not open to non-degree graduate students.

SPAN 3570 SPANISH FOR HEALTHCARE PROFESSIONALS (3 credits)

Spanish for Healthcare Professionals provides an introduction of specialized communication in the healthcare context. Course objectives include the development of essential informal and formal vocabulary and expressions, and sociocultural competencies necessary for successful interaction with patients and other healthcare providers.

Prerequisite(s): SPAN 3030 or SPAN 3010

SPAN 3580 BUSINESS SPANISH (3 credits)

An introduction to the Spanish business world. Students will acquire the necessary skills and strategies to understand the differences in business practices and cultures between the US and Spanish-speaking countries. No prior business knowledge is required.

Prerequisite(s): SPAN 3030 and SPAN 3040 or SPAN 3010 and SPAN 3020, or permission from a Spanish advisor.

SPAN 4020 LANGUAGE ENHANCEMENT THROUGH VOCABULARY LEARNING (3 credits)

This class aims to expand students' vocabulary in Spanish. This will be achieved through doing an overview of current research that investigates how vocabulary is learned; identifying effective vocabulary learning strategies; and exploring topics not commonly encountered in Spanish classes such as commerce and science. The course also includes points of contact with the Spanish-speaking community in Omaha, where students can participate in interactions that connect what has been learned in the classroom to language use in real life. (Cross-listed with SPAN 8026).

Prerequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060 OR SPAN 3010, SPAN 3020, and SPAN 3060

SPAN 4030 ADVANCED SPANISH CONVERSATION (3 credits)

This course targets the development of oral skills in Spanish through the incorporation of complex and sophisticated conversational structures and nuanced lexicon. In particular, the course focuses on presentational (i.e., expressing or exposing ideas or opinions), and interpersonal speaking (i.e., engaging in conversation where learners narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with control of aspect). (Cross-listed with SPAN 8036)

Prerequisite(s): SPAN 3030 or SPAN 3010 or departmental permission

SPAN 4040 ADVANCED COMPOSITION AND STYLISTICS (3 credits)

In this capstone course, required for the completion of the major, learners will explore and practice advanced grammatical structures, write compositions in a variety of genres, and familiarize themselves with advanced stylistics. (Cross-listed with SPAN 8046).

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020 and SPAN 3060; Majors only, senior standing. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

SPAN 4060 INTRODUCTION TO TRANSLATION AND INTERPRETATION (3 credits)

This course offers an introduction to the translation and interpretation field. Course objectives include (a) understanding translation theory; (b) comprehending the role of communication in translation and interpretation; (c) targeting common grammatical and pragmatic errors; (d) increasing vocabulary knowledge in a variety of fields; and (e) gaining an increased awareness of the rigor and demands innate to the translation and interpretation fields. (Cross-listed with SPAN 8066).

Prerequisite(s): SPAN 3030 or SPAN 3010 or SPAN 3570 and declared minor in Spanish for Health Sciences or SPAN 3050 and declared minor in Spanish for Health Sciences

SPAN 4070 HISPANIC BILINGUALISM (3 credits)

This course explores bilingualism among Spanish speaking populations. Topics include societal bilingualism, the history of Spanish and language policy in Spain, Latin America, and the U.S., psychological aspects of bilingualism, monolingual vs. bilingual acquisition, first vs second language acquisition, and Spanish as a heritage language in the U.S. (Cross-listed with SPAN 8076).

Prerequisite(s): SPAN 3030, SPAN 3040, SPAN 3060 or SPAN 3010, SPAN 3020, SPAN 3060 and SPAN 4080 or instructor permission

SPAN 4080 INTRODUCTION TO HISPANIC LINGUISTICS (3 credits)

This course introduces students to the field of linguistics by exploring the following areas: phonetics and phonology (sound systems), morphology (word formation), historical linguistics (language development over time), and sociolinguistics and pragmatics (language in society and context), among others, as framed within the study of the Spanish language. (Cross-listed with SPAN 8086).

Prerequisite(s): SPAN 3030 and SPAN 3040 OR SPAN 3010 and SPAN 3020

SPAN 4120 HISPANIC SOCIOLINGUISTICS (3 credits)

This course introduces sociolinguistics, the study of the relationship between language and society, with an emphasis on the Spanish language. Its focus will be on correlational linguistics (how social factors such as age, gender and socioeconomic status affect language) and language and society (the role language plays in human conduct and social organization). Course topics will include the concept of speech communities, sociolinguistic variables, phonological and syntactic variation as well as languages in contact, bilingualism, Spanish in the U.S., Spanish as a heritage language, and language attitudes and ideologies. (Cross-listed with SPAN 8126).

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060 and SPAN 4080 or instructor permission

SPAN 4130 SPANISH IN THE UNITED STATES (3 credits)

This course looks at Spanish in the U.S. from a sociolinguistic perspective. Course topics include: Dialectal/regional differences, dialect contact, Spanish- English bilingualism and code-switching, "Spanglish", language maintenance, language ideologies surrounding Spanish in the U.S., and Spanish in public spheres (e.g., TV, movies, radio, music, stand-up comedy). (Cross-listed with SPAN 8136).

Prerequisite(s): SPAN 3030 or SPAN 3010 or instructor permission or SPAN 3570 and declared minor in Spanish for Health Sciences or SPAN 3050 and declared minor in Spanish for Health Sciences

SPAN 4140 INTRODUCTION TO LATIN AMERICAN FILM (3 credits)

The course will be a thematic study of significant Latin American films emphasizing and further investigating their relationship to history, culture, society and political issues that have often given rise to social movements. Films from a variety of Spanish-speaking countries including Mexico, Argentina, Chile, Cuba, Bolivia, etc. will be studied in their socio-political context. At the 8146 level, students will be introduced to theoretical approaches such as early film theory, montage theory, feminist theory, race theory, and phenomenological film theory in order to deepen their understanding these themes. (Cross-listed with SPAN 8146, LLS 4140).

Prerequisite(s): SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060

SPAN 4150 LITERATURE/CULTURE: CENTRAL AMERICA AND THE CARIBBEAN 1898-2000 (3 credits)

"Literature/ Culture: Central America and the Caribbean 1898- 2000" studies major historical and socio-cultural events in Latin American history in the 20th century, through their articulation in literary texts, film, and other cultural expressions from Central America and the Hispanic Caribbean. (Cross-listed with SPAN 8156, CACT 8416)

Prerequisite(s): SPAN 3030, SPAN 3040 and SPAN 3060 or permission of instructor

SPAN 4170 INTRODUCTION TO LATIN AMERICAN LITERATURES (3 credits)

The course is intended as an introduction to the study of canonical and non-canonical texts in Latin American literatures, from the 16th to 21st centuries. It seeks to acquaint students with the rich literary traditions of a large region, from South America to Central America and Mexico, as well as with the historical challenges posed by the salient heterogeneity of texts included in the Latin American corpus, from the standpoint of ethnicity, gender, social class, and literary genre. The course also focuses on continuing to develop Spanish language skills, specifically reading for comprehension and interpretation of metaphorical meaning, writing, and presentational speaking skills in Spanish. (Cross-listed with SPAN 8176, LLS 4170).

Prerequisite(s): SPAN 3030, SPAN 3040, or SPAN 3010, SPAN 3020; SPAN 3060.

SPAN 4190 REPRESENTATIONS OF THE SPANISH CIVIL WAR IN FILM AND POPULAR CULTURE (3 credits)

This course explores the principal social, economic, political, and cultural implications of the Spanish Civil War, including its antecedents and consequences, in order to critically analyze the ways in which such historical matters have been represented over time through film, as well as through other media. The course also focuses on the continued development of Spanish language skills, such as formal and informal essay writing, presentational speaking skills in Spanish, advanced reading, and interpretation of film theory and criticism. (Cross-listed with SPAN 8196).

Prerequisite(s): SPAN 3030, SPAN 3040, and SPAN 3060

SPAN 4220 THE STRUCTURE OF SPANISH (3 credits)

This course introduces students to the structure of the Spanish language with a focus on its morphology and syntax as seen in the study of constituents of a sentence, lexical categories, content and function words, the pronominal system, the structure of simple and complex sentences, and the verbal system, among others. It reviews frequent syntactical errors in Spanish L2 and Heritage learners with the purpose of advancing their linguistic competence. (Cross-listed with SPAN 8226).

Prerequisite(s): SPAN 3030 and 3040 or SPAN 3010 and SPAN 3020

SPAN 4330 LINGUISTIC JUSTICE AND LATINO HEALTH (3 credits)

Language barriers compromise the quality of health care for millions of Spanish-speaking patients each year. Spanish-speaking patients, for example, have disease (e.g., musculoskeletal diseases, pesticide poisoning, cervical cancer, HIV/AIDS), mortality, and pain burdens at least twice as high as English-speaking patients. At the same time, they have been disproportionately affected by infectious diseases such as the tuberculosis outbreaks or the COVID-19 pandemic. These facts make language a crucial concern for the improvement of health among Latinos in the US. Students in this course examine the relationship between language, health care, and health among Spanish speakers in the US through the dual lens of sociolinguistics and public health. We consider the effect of linguistic and discursive practices on access to health information and examine some of the measures currently in place to improve the transmission of health information across language boundaries. (Cross-listed with SPAN 8336).

Prerequisite(s): Instructor permission

SPAN 4510 ILLNESS AND DISEASE IN SOUTHERN CONE LATIN AMERICAN LITERATURES AND CULTURES (3 credits)

The course will examine representations of illness, disease, and affections in literary and cultural texts from the Latin American Southern Cone, focusing in Argentina, Uruguay, and Chile. It will explore notions of health and disease, as embedded in literary and cultural texts from the late 19th to the 21st centuries. We will examine the ways in which physical ailments, mental health symptoms, and other conditions or disorders have been conceptualized and portrayed, co-relating the individual "disruptions" caused by unwellness with a host of social and cultural factors. The course will also explore current treatments and therapies for the illnesses discussed in the texts, taking into account the integration of western and alternative medicine and practices. (Cross-listed with SPAN 8516, LLS 4510, LLS 8516). **Prerequisite(s):** SPAN 3010 and SPAN 3020 or SPAN 3030 and SPAN 3040 or SPAN 3050 and declared minor in Spanish for Health Sciences or SPAN 3570 and declared minor in Spanish for Health Sciences or special permission from instructor.

SPAN 4530 DIALECTS OF THE SPANISH-SPEAKING WORLD (3 credits)

This course explores the diversity and variation of the various dialects within the Spanish-speaking world. Special attention will be devoted to understanding phonetic and phonological processes that make up these dialects. Students will increase their familiarity with the diversity of the Spanish-speaking world and the complexity of the relationship between languages and dialects. Through the course, students will employ data-collection skills and methods commonly used in the field of linguistics. Course will be conducted in Spanish. (Cross-listed with SPAN 8536). **Prerequisite(s):** SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060 and SPAN 4080 or instructor permission

SPAN 4540 THE LANGUAGE OF REGGAETÓN: RACE, GENDER & CARIBBEAN FLOWS (3 credits)

This course applies theories and methods from the field of linguistics to the analysis of reggaetón and its surrounding cultural practices. It explores ties between language, race, gender, sexuality, and latinidad as connected to this musical form. This course involves a deep-dive into this Afro-Latino genre, which has evolved from its origins in Puerto Rico and Panamá - including its roots in West Africa, Jamaica, and other locals within the Black diaspora - to a global musical phenomenon. Students will analyze "El Movimiento" through various levels of linguistic and social analysis: structural linguistics (phonetics, phonology, morphosyntax, lexicography, etc.), discourse analysis, sociocultural and linguistic anthropology, critical race theory, and feminist & queer theory. (Cross-listed with SPAN 8546). **Prerequisite(s):** SPAN 3030 or SPAN 3010, SPAN 3040 or SPAN 3020, SPAN 3060 or instructor permission

SPAN 4760 FORENSIC LINGUISTICS (3 credits)

This course will present an overview of forensic linguistics with an emphasis on the areas where linguistics (i.e., the study of language and its structures) and the law intersect. We will especially focus on these items: the nature of legal language, linguistic methods for determining the meaning of laws and statutes, types of linguistic analysis used for investigating deception and fraud, language used for profiling and identifying suspects in criminal cases, the relationship between language proficiency and defendants' ability to understand their rights, the legal and linguistic complexities of invoking one's rights, the language-related factors that lead to false confessions, the role of linguistic analysis in civil cases, and the challenges faced by court interpreters and other linguistic complexities of the courtroom. (Cross-listed with SPAN 8766).

SPAN 4800 INTERNSHIP FOR LANGUAGE IN CONTEXT (3 credits)

This course provides students with practical, hands-on experience in a professional setting related to their language studies. This course offers an opportunity for students to apply their language skills in real-world contexts while gaining valuable insights into various industries, organizations, or institutions. (Cross-listed with WLL 4800). **Prerequisite(s):** Instructor permission. Not open to non-degree graduate students.

SPAN 4900 INDEPENDENT STUDY (1-3 credits)

Specially planned readings in a well-defined field of literature or linguistics carried out under the supervision of a member of the foreign language faculty. As independent study courses are intended to enrich a student's regular academic program, they may not be taken as substitutes for scheduled classroom courses of the same nature, nor should they be taken by majors or minors in the department prior to fulfilling required course work.. **Prerequisite(s):** Senior status, no incompletes outstanding, and departmental permission.

SPAN 4950 PRO-SEMINAR: LITERATURE AND/OR FILM (3 credits)

This course is dedicated to the study of a narrower field of the literature and/or cinema of the Spanish-speaking world. (Cross-listed with SPAN 8956) **Prerequisite(s):** SPAN 3030, SPAN 3040, and SPAN 3060

SPAN 4960 PRO-SEMINAR: CULTURE AND SOCIETY (3 credits)

This course will address a narrow field of study of the civilization, history, film, contemporary culture, art, politics, and/or cultural studies of the Spanish-speaking world. (Cross-listed with SPAN 8966) **Prerequisite(s):** SPAN 3030 or SPAN 3010 or SPAN 3570 and enrolled in Spanish for Health Sciences minor or SPAN 3050 and enrolled in Spanish for Health Sciences minor

SPAN 4970 PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS (3 credits)

This course addresses a narrow field of study in linguistics or the professional language of the Spanish-speaking world. (Cross-listed with SPAN 8976) **Prerequisite(s):** SPAN 3030 or SPAN 3010 or SPAN 3570 and enrolled in Spanish for Health Sciences minor or SPAN 3050 and enrolled in Spanish for Health Sciences minor

Elective		3
Note: Students need a minimum of 120 credits to graduate. Electives, minors, and additional majors can assist with reaching that minimum requirement.		
Credits		15

Total Credits		120-121
---------------	--	---------

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability and based on whether they are able to earn retroactive credit for courses at the beginning and intermediate levels. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

College of Business Administration (CBA)

College of Business Administration Mission

The mission of the UNO College of Business Administration is to teach and inspire diverse learners and connect them to organizations within and beyond the classroom, emphasizing innovative and career-focused learning, combined with transformative research, business collaboration, and community engagement that advance individual and regional prosperity.

College of Business Administration Vision

The vision of the UNO College of Business Administration is to be the business school of choice for hard-working learners of all backgrounds.

Other Information Relevant to the College of Business Administration

Attendance at First CBA Class Meeting

Students not present at the first class meeting of a College of Business Course, without prior notification to the instructor, may be administratively withdrawn from the course.

Accreditation Information

The UNO College of Business Administration undergraduate and graduate programs are accredited by AACSB International (Association to Advance Collegiate Schools of Business). This is the highest level of accreditation possible for a College of Business.

The Accounting Programs in the UNO College of Business Administration hold supplemental Accounting Accreditation by AACSB. Less than 200 Accounting Programs worldwide have earned this supplemental AACSB Accounting Accreditation.

Major	Degree	Accreditation Body
Accounting	BSBA MAcc	Association to Advance Collegiate Schools of Business (AACSB International)
Business Administration	Executive MBA	Association to Advance Collegiate Schools of Business (AACSB International)
Business Administration	MBA	Association to Advance Collegiate Schools of Business (AACSB International)
Banking and Financial Markets	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)
Business Analytics	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)
Business Finance	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)
Economics	BSBA, MA/MS Econ	Association to Advance Collegiate Schools of Business (AACSB International)

Investment Science & Portfolio Management	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)
Legal Studies	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)
Management & Leadership	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)
Marketing	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)
Real Estate & Land Use	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)
Sales	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)
Logistics & Supply Chain Management	BSBA	Association to Advance Collegiate Schools of Business (AACSB International)

Choice of Catalog Policy

The catalog year (requirement term) ties the student to the catalog year curriculum that they are required to follow and determines the contract of degree requirements a student must fulfill in order to graduate. Generally, the catalog year defaults to the same academic year that the student entered the University in a degree program. If a UNO student transfers from another degree program to the BSBA degree, the catalog year will be the academic year in which the student transferred into the BSBA degree program. Alternatively, a student may choose to follow all of the program and policy requirements outlined by any single catalog in effect during subsequent terms of continuous enrollment. Requests for change of catalog year must be approved by a CBA Academic Advisor. Students who have not been enrolled for two or more years will complete the program under the catalog for the academic year in which they return. For students continuously enrolled, a seven-year rule applies in that the catalog for students who have been continuously enrolled can only extend back seven years.

Beta Gamma Sigma

Beta Gamma Sigma is the international scholastic honor society in the field of business. Election to membership is available to both undergraduate and graduate students in business. Selection is based upon outstanding scholastic achievement.

Careers

Business is a broad, flexible, and valuable field of study. Students who graduate with a business degree can choose from a variety of professions in numerous industries and fields. Individuals with business degrees may find career opportunities working in government, large, mid-size, and small companies, nonprofit organizations, and institutions of higher education. A business degree prepares students for a wide variety of fulfilling and flexible careers, thus providing the opportunity to match personal interests and skills with professional ambitions, as well as allowing for the opportunity to pivot and flex careers as opportunities arise. Examples of potential business-related careers are provided by each department.

For additional information about Business careers, please contact the CBA Career Center. Website (<https://www.unomaha.edu/college-of-business-administration/career-center/>):

Admission Requirements

Incoming freshman must meet general university admission requirements to be admitted into the College of Business Administration. Transfer students and current UNO students must have a minimum 2.50 cumulative GPA to be admitted into the College of Business Administration.

Academic Requirements for the College Degree

Number of Hours to Graduate

Students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration to earn a Bachelor of Science in Business Administration (BSBA) degree.

42 semester hours must be earned in upper-division courses (3000-4000 level classes).

BSBA students earn 24 upper-division (3000/4000 level) credit hours in the business core curriculum and 18-24 hours in their BSBA concentrations.

The College of Business Administration does not require any physical education activity (PEA) courses. A maximum of four hours of PEA courses from different areas may be applied toward the degree.

A maximum of 24 credit hours may be applied from successful completion of non-business courses taken on a Credit/No Credit basis.

For a BSBA business core, BSBA concentration, or business elective course to fulfill BSBA requirements, it must be taken on a letter-grade basis and the student must earn a grade of "C" (2.0) or higher.

A maximum of six hours of professional development course credit may be taken from any educational body if evaluated by the American Council on Education (ACE) as equivalent to collegiate credit, and then may be applied toward the degree. Such credit may be used for non-business electives. The department chair must give written approval if a course is to be used for concentration elective hours or as a substitute for a required concentration course. Professional development courses are not applicable to BSBA business core courses.

Remedial courses and orientation courses at other institutions will not apply to the 120 minimum credit hours.

Requirements for a Bachelor of Science in Business Administration (BSBA) Degree

Undergraduate students who complete a degree from UNO's College of Business Administration earn a Bachelor of Science in Business Administration (BSBA) with at least one area of concentration. (See the complete list of BSBA concentrations)

All BSBA concentrations require 18 credit hours, except Accounting, which requires 24 credit hours.

Some concentrations or secondary concentrations require students to earn a "C+" or better in specific foundation courses. Specifically, MKT 3310 is the foundation course for the Marketing concentration as well as for the Marketing secondary concentration. MKT 3310 & MKT 3100 are the foundation courses for Sales concentration as well as for the Sales secondary concentration. Finally, FNBK 3250 & FNBK 3300 are the foundation courses for the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management concentrations as well as the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management secondary concentrations.

To meet requirements for the BSBA degree, students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration, 42 of those credits must be upper division courses (3000-4000 level), with the following requirements:

- Business GPA of 2.50 or above
- Cumulative GPA of 2.50 or above
- GPA of 2.50 or above for all upper division accounting courses (excluding ACCT 3000, ACCT 4500, and ACCT 4510) for the accounting concentration & secondary concentration.
- No grade below a "C" (2.0) will be counted as satisfactory completion of BSBA degree MAJOR REQUIREMENTS, including CBA BSBA business core courses, BSBA concentration courses, business elective courses, ENGL 1150, ENGL 1160, CMST 1110, and MATH 1370 (or MATH 1930).

Transfer Credit Policy

CBA will accept an upper-division BSBA business core course, BSBA concentration, or business elective course completed with a grade of "C" (2.0) or better at an AACSB accredited institution.

In order for an upper-division BSBA business core course to be accepted from a non-AACSB institution, the course must have been completed with a grade of "C" (2.0) or better and the student must complete an additional upper-division course (with a grade of "C" (2.0) or better) from an AACSB accredited institution within the same department to validate the transfer course. Please contact your CBA advisor to learn more about validation.

Residency Requirement

The last 30 of 36 consecutive semester hours for a degree must be earned following admission to the University of Nebraska at Omaha. A minimum of nine (9) of the twenty-four (24) required business core hours and one-half of the required concentration hours must be completed at UNO.

Retroactive Credit Policy

Placement Exams and Credit by Examinations Policies/Practices

<https://nextcatalog.unomaha.edu/undergraduate/student-life-support-services/> (p. 66)

Quality of Work

Any students earning below a 2.50 cumulative GPA for any semester while enrolled in the BSBA degree program will be placed on a "warning status." No grade below a "C" (2.0) will be counted as satisfactory completion of BSBA degree MAJOR REQUIREMENTS, including CBA BSBA business core courses, BSBA concentration courses, business elective courses, ENGL 1150, ENGL 1160, CMST 1110, and MATH 1370 (or MATH 1930).

Good Academic Standing Policy

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Credit/No Credit (CR/NC) Grades

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Completion of Incomplete Grade

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Repeatable Grades/Courses

Effective Fall 2002, a student may only attempt each required business core course three times.

This policy applies to the following courses:

Code	Title	Credits
ACCT 2010	PRINCIPLES OF ACCOUNTING I	3
ACCT 2020	PRINCIPLES OF ACCOUNTING II	3
BSAD 2130	PRINCIPLES OF BUSINESS STATISTICS	3
BSAD 3160	MANAGERIAL STATISTICS FOR BUSINESS	4
ECON 2200	PRINCIPLES OF ECONOMICS (MICRO)	3
ECON 2220	PRINCIPLES OF ECONOMICS (MACRO)	3
FNBK 3250	PRINCIPLES OF FINANCIAL MANAGEMENT	3
LAWS 3930	BUSINESS LAW FUNDAMENTALS	3
MGMT 3100	MANAGEMENT INFORMATION SYSTEMS	3
MGMT 3490	MANAGING PEOPLE AND ORGANIZATIONS	3
MGMT 4480	CORPORATE AND BUSINESS STRATEGY	3
MKT 3200	BUSINESS COMMUNICATIONS	3
MKT 3310	PRINCIPLES OF MARKETING	3
SCMT 3500	MANAGING OPERATIONS IN THE SUPPLY CHAIN	3

Any grade earned, excluding CR, W, NC, NR, I, IP, AU, S, U or R will count as an attempt for the three times limit.

The Undergraduate Program Council will only consider appeals of the three-attempt rule when the circumstances for the appeal are documented and the reason for the appeal is extraordinary.

Upper-division accounting courses may be taken only twice.

Appeal Process

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Grade Appeal Policy

Students who wish to appeal a grade which they feel was capriciously or prejudicially awarded shall first discuss the matter with the instructor and/or the department chairperson. If a satisfactory agreement cannot be reached, the student may submit a written appeal to the CBA Associate Dean by the deadlines listed below.

- For a course completed during the fall semester: The last business day in January
- For a course completed during the spring semester: The last business day in June
- For a course completed during any of the summer sessions: the last business day in September

The CBA Undergraduate Grade Appeal Committee will hold a grade appeal hearing to make a final determination based on the facts presented.

Academic Amnesty

A student may remove one or two semester's grades from the student's cumulative GPA and degree consideration by petitioning for academic amnesty in the CBA advising office. Removal of grades via academic amnesty shall be by entire semester(s). Students are allowed a maximum of two (2) semesters of amnesty.

Petitioning students, after the term(s) for which they are seeking amnesty, must have completed 12 consecutive hours with a minimum GPA of 2.75.

Students who are granted academic amnesty will not be eligible for degree with academic honors.

Academic amnesty will remove a CBA core course attempt from the Three-Attempt Rule under Repeatable Grades/Courses. The petition for academic amnesty is submitted to the academic advisor and the advisor will apply this policy to approve or deny the petition on behalf of the Undergraduate Program Council.

Academic Probation and Suspension

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Reinstatement Policy Following Academic Suspension

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Academic Advising

The aim and purpose of academic advising is to assist students in meeting the requirements of the degree program and to interpret college policies regarding academic requirements. In the College of Business Administration, academic advising is carried out by CBA's undergraduate advisors. Students should consult an academic advisor whenever questions arise concerning academic programs, but especially prior to registering for freshman year and registering for senior year.

Advising Holds

<https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/> (p. 28)

Student Holds

<https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/> (p. 28)

Declaring a Concentration

Students may declare a BSBA concentration when applying to the university or at any point.

Students who did not declare a BSBA concentration when applying to the university must meet with a CBA advisor to complete the BSBA declaration process.

Senior Check

A senior check will be processed for each BSBA student upon completion of 90 credit hours. This audit provides an official list of the student's remaining degree requirements. Students will be required to meet with an advisor to review the senior check. Final responsibility for scheduling courses and satisfactorily completing curriculum requirements for any degree rests with the student.

Bachelor of Science in Business Administration (BSBA) Degree

Undergraduate students who complete a degree from UNO's College of Business Administration earn a Bachelor of Science in Business Administration (BSBA) with at least one area of concentration. (See the complete list of BSBA concentrations)

All BSBA concentrations require 18 credit hours, except Accounting, which requires 24 credit hours.

Some concentrations or secondary concentrations require students to earn a "C+" or better in specific foundation courses. Specifically, MKT 3310 is the foundation course for the Marketing concentration as well as for the Marketing secondary concentration. MKT 3310 & MKT 3100 are the foundation courses for Sales concentration as well as for the Sales secondary concentration. Finally, FNBK 3250 & FNBK 3300 are the foundation courses for the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management concentrations as well as the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management secondary concentrations.

To meet requirements for the BSBA degree, students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration: 42 of those credits must be upper division courses (3000-4000 level), with the following requirements:

- Business GPA of 2.50 or above
- Cumulative GPA of 2.50 or above
- GPA of 2.50 or above for all upper division accounting courses (excluding ACCT 3000, ACCT 4500, and ACCT 4510) for the accounting concentration and secondary concentration.
- No grade below a "C" (2.0) will be counted as satisfactory completion of BSBA degree MAJOR REQUIREMENTS, including CBA BSBA business core courses, BSBA concentration courses, business elective courses, ENGL 1150, ENGL 1160, CMST 1110 and MATH 1370 (or MATH 1930).

An Advising hold will be placed if a student does not meet the 2.5 GPA. The hold will not be removed until the requirements are met or the student chooses a major outside the College of Business Administration.

Writing in the Discipline

All students are required to take a writing in the discipline course within their major. For the BSBA degree, this is MKT 3200.

MBA Fast Track

The College of Business Administration MBA program has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a BSBA degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a BSBA degree and desiring to pursue an MBA
- Students must have completed no less than 60 undergraduate hours
- Students must have a minimum undergraduate GPA of 3.0
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course
- Students will work with their undergraduate advisor to register for the graduate courses
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.

MKT 3310	PRINCIPLES OF MARKETING	
MGMT 3490	MANAGING PEOPLE AND ORGANIZATIONS	

MKT 3200	BUSINESS COMMUNICATIONS	
Graduating seniors with a 2.5 GPA are given enrollment priority. Must be taken in the graduating semester.		

Students must complete at least six hours of International Dimension course work beyond the general education global diversity requirement. International Dimension courses provide a global perspective (i.e., history, political science, literature or geography of foreign countries, foreign languages, international business, etc.). International Dimension courses include all university general education global diversity courses listed on the General Education website, plus the international business courses shown on the student's DegreeWorks website.

Students must complete MGMT 4480 their last semester. Students who have not completed FNBK 3250, MKT 3310, MKT 3200 and MGMT 3490 with a C (2.00) or better or who have a GPA below 2.50 will be administratively withdrawn from MGMT 4480. Preference is given to students who will graduate that semester.

The college reserves the right to institute and make effective, after due notice, during the course of a student's work toward a degree, any new ruling which may be necessary for the general good of the college, and to substitute courses currently offered for those no longer offered.

Each student admitted to the college is responsible for becoming familiar with the procedures and regulations in the undergraduate catalog.

Specific requirements for each CBA concentration are identified in the following section of this catalog.

Credits not required under general education requirements, the required business core curriculum, or a BSBA concentration can be taken as electives in business and/or in non-business areas to complete the required 120 hours for the BSBA degree.

Concentrations Offered

- Accounting Concentration (p. 481)
- Banking and Financial Markets Concentration (p. 496)
- Business Analytics Concentration (p. 498)
- Business Finance Concentration (p. 500)
- Economics Concentration (p. 490)
- Entrepreneurship Concentration (p. 522)
- Human Resource Management Concentration (p. 513)
- International Business Concentration (p. 525)
- Investment Science and Portfolio Management Concentration (p. 503)
- Logistics & Supply Chain Management Concentration (p. 515)
- Management & Leadership Concentration (p. 511)
- Marketing Concentration (p. 527)
- Real Estate and Land Use Economics Concentration (p. 505)
- Sales Concentration (p. 530)

Program Certificate Offered

- Internal Audit, Fraud, and Control, Certificate (p. 486)
- UNO Real Estate Certificate (p. 508)

Accounting

ACCT 2000 ACCOUNTING BASICS FOR NON-BUSINESS MAJORS (3 credits)

This course is designed to provide non-business students with an understanding of basic accounting terms and concepts, an understanding of the usefulness of accounting data for decision-making by internal and external business stakeholders, and the skills to actually use accounting data in decision-making.

Prerequisite(s): Student must be a non-business student. ENGL 1150 and MATH 1310 or MATH 1220 with 'C' (2.0) or better. Not open to non-degree graduate students

Distribution: Social Science General Education course

ACCT 2010 PRINCIPLES OF ACCOUNTING I (3 credits)

Basic concepts and assumptions underlying financial accounting; basic structure of accounting; the accounting cycle; external financial statements of the enterprise with emphasis on the corporation; income determination; accounting for and reporting of assets, liabilities and owners' equity; analysis and reporting of cash flows; financial statement analysis.

Prerequisite(s): ENGL 1150 with a 'C' (2.0) or better, a GPA of 2.5 or higher, and MATH 1370 or MATH 1930 with a 'C' (2.0) or better or concurrent enrollment in MATH 1370 or MATH 1930

ACCT 2020 PRINCIPLES OF ACCOUNTING II (3 credits)

A study of techniques and concepts affecting internal accounting in a business organization. These include budgeting in general, costing systems, variance analysis and generating reports for management decision-making. Special topics include segment reporting, control of decentralized operations, capital budgeting, and service department cost allocations.

Prerequisite(s): ACCT 2010, ENGL 1150, and MATH 1370 or MATH 1930, each with a C (2.0) or better, and a GPA of 2.5 or higher.

ACCT 3000 MANAGERIAL ACCOUNTING FOR SUPPLY CHAIN MANAGEMENT (3 credits)

This course highlights the important role of a managerial accountant in managing a global supply chain and covers the key accounting techniques for supply chain management. (Cross-listed with SCMT 3000)

Prerequisite(s): ACCT 2020 with a grade of C (2.0) or better or ACCT 2000 with a grade of C (2.0) or better and cumulative GPA of 2.5 or higher. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160. Not open to non-degree graduate students.

ACCT 3020 BASIC FEDERAL INCOME TAXATION (3 credits)

This course provides an introduction to the basic concepts and principles of federal income tax with an emphasis on concepts unique to individual taxpayers.

Prerequisite(s): ACCT 2020, ENGL 1150, ECON 2200 and ECON 2220 with a 'C' (2.0) or better in each course. Cumulative GPA of at least 2.5.

ACCT 3030 INTERMEDIATE FINANCIAL ACCOUNTING I (3 credits)

A more intensive study of basic accounting theory and principles learned in ACCT 2010. Topics include a conceptual framework of accounting, net income concepts, financial statements, present value applications, revenue recognition, current assets, plant assets, and intangible assets.

Prerequisite(s): ACCT 2020, ECON 2200, and ECON 2220, with a grade of 'C' (2.0) or better in each course and a 2.5 GPA. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3040 INTERMEDIATE FINANCIAL ACCOUNTING II (3 credits)

This is the second of two courses in intermediate financial accounting. This course focuses on financial reporting issues relating investments, debt financing, leases, contingencies, cash flows reporting and income taxes.

Prerequisite(s): ACCT 3030 and ENGL 1160, each with a 'C' (2.0) or better.

ACCT 3050 INTERMEDIATE MANAGERIAL ACCOUNTING (3 credits)

The objective of managerial accounting is to provide management with relevant and timely information to aid economic decision making. This course analyzes numerous economic decisions and identifies what information is relevant. Special attention is given to how different cost accumulation systems and different cost accounting and estimating techniques can aid the decision-making process.

Prerequisite(s): ACCT 2020, ECON 2200, ECON 2220, and BSAD 2130, BSAD 3140 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3080 ACCOUNTING INFORMATION SYSTEMS (3 credits)

Introduction to professional accounting information systems, including information systems concepts, accounting and database software and research tools to provide a foundation for subsequent accounting courses.

Prerequisite(s): ACCT 2020, ECON 2200 and ECON 2220, with "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 4010 ADVANCED FINANCIAL ACCOUNTING (3 credits)

Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 8016)

Prerequisite(s): ACCT 3030 and ACCT 3040 with "C+" (2.33) or better in each and ENGL 1160 with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4020 ANALYTICS FOR ACCOUNTING (3 credits)

Students develop an Analytics Mindset for the accounting profession, which includes the crossover competencies of accounting and business knowledge, data modeling and analytic abilities, and communication skills. Principal topics include fundamentals of data capture and cleansing, database development and implementation, visualization and presentation of information, and the use of accounting information for business decisions.

Prerequisite(s): ACCT 3030, ACCT 3080, and ENGL 1160 each with a C (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4040 ADVANCED FEDERAL INCOME TAXATION (3 credits)

Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 8046.)

Prerequisite(s): ACCT 3020, ACCT 3030, and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4050 PRINCIPLES OF INTERNAL AUDIT (3 credits)

This course introduces students to the internal audit profession and the internal audit process. Topics include: the definition of internal auditing, The Institute of Internal Auditor's International Professional Practices Framework, risk, governance and control issues, fraud detection and mitigation, communicating results, and conducting internal audit engagements. (Cross-listed with ACCT 8056).

Prerequisite(s): ACCT 3030 and ACCT 3080, each with a grade of C or better, and overall and upper-level accounting GPAs of 2.5 or better. Not open to non-degree graduate students.

ACCT 4060 ADVANCED MANAGERIAL ACCOUNTING (3 credits)

Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 8066.)

Prerequisite(s): ACCT 3050, ACCT 3030, and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4070 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)

Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 8076.)

Prerequisite(s): ACCT 3030 and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4080 PRINCIPLES OF AUDITING (3 credits)

An introduction to auditing, Standards, responsibilities, professional ethics, the audit framework, evidence and reports are studied.

Prerequisite(s): ACCT 3030, ACCT 3080, ENGL 1160, and BSAD 2130 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4090 INFORMATION SYSTEMS AUDITING (3 credits)

This course will provide an introduction of auditing an advanced accounting information system. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association. Accounting information systems control and security practices, and their assessment, will be discussed in the areas of operations, physical and logical access, systems, networks, development and applications, and incorporating hands-on exposure to automated evaluation tools.

Prerequisite(s): ACCT 4080 with a grade of C (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4500 INDEPENDENT STUDY (1-3 credits)

Individual investigation of specific problems in the field of accounting.

Prerequisite(s): Must have permission of the School of Accounting director.

ACCT 4510 ACCOUNTING INTERNSHIP (1-3 credits)

A course for junior or senior accounting students to apply their academic accounting knowledge to accounting practice in an employment situation. A student report on the internship experience and an employer's evaluation of the student's performance are course requirements. Can be applied to free electives, but not accounting specialization electives. (Maximum of 3 hours)

Prerequisite(s): ACCT 3030 and ENGL 1160, each with a C (2.0) or better, and permission of internship coordinator.

ACCT 8016 ADVANCED FINANCIAL ACCOUNTING (3 credits)

Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 4010).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3030 and ACCT 3040 with a grade of "C+" (2.33) or better in each. Not open to non-degree graduate students.

ACCT 8046 ADVANCED FEDERAL INCOME TAXATION (3 credits)

Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 4040).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3020 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8050 FINANCIAL STATEMENT ANALYSIS (3 credits)

Using the financial statement and supplemental information as inputs, this course utilizes a systematic fundamental analysis approach across a variety of decision-making contexts to understand how a business generates value for shareholders.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3040 with a "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8056 PRINCIPLES OF INTERNAL AUDIT (3 credits)

This course introduces students to the internal audit profession and the internal audit process. Topics include: the definition of internal auditing, The Institute of Internal Auditor's International Professional Practices Framework, risk, governance and control issues, fraud detection and mitigation, communicating results, and conducting internal audit engagements. (Cross-listed with ACCT 4050).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. Not open to non-degree graduate students.

ACCT 8066 ADVANCED MANAGERIAL ACCOUNTING (3 credits)

Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 4060).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3050 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8076 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)

Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 4070).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3030 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8080 CURRENT TECHNOLOGY USE IN ACCOUNTING (3 credits)

This course will cover tools and methods that facilitate business analytic techniques, with a focus on current and emerging technology. This may include tools for databases, spreadsheets, robotic process automation, data mining, artificial intelligence, and others.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. Successful completion of BSAD 8110, ACCT 2020, or equivalent. Not open to non-degree graduate students.

ACCT 8090 INFORMATION SYSTEMS AUDITING (3 credits)

This course presents a broad overview of the professional practice of information systems audit, emphasizing control and audit procedures related to security along with Information Technology General Controls. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association.

Prerequisite(s): ACCT 4080 with a grade of C (2.0) or better. Admission to MAcc or MBA program or permission of instructor. Not open to non-degree graduate students.

ACCT 8210 FINANCIAL ACCOUNTING THEORY (3 credits)

The development of accounting, current accounting theory and present controversies and suggested theory and practice.

Prerequisite(s): ACCT 3040. Not open to non-degree graduate students.

ACCT 8220 GRADUATE TOPICS IN INCOME TAXATION (3 credits)

This course will discuss commonly encountered tax issues such as gift and estate taxation, income taxation of estates and trusts, and exempt organizations, as well discuss current events while introducing the student to practitioner-oriented research publications.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better, or concurrent enrollment in ACCT 4040 or ACCT 8046. Not open to non-degree students.

ACCT 8230 MANAGEMENT ACCOUNTING ISSUES (3 credits)

An analysis of information to assist managers in determining successful strategies, developing those strategies into plans and controlling operating activities to achieve strategic goals.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3050 or BSAD 8210 with a "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8250 SEMINAR IN ACCOUNTING (3 credits)

A study of a specific area within the accounting discipline. Possible areas include: auditing, financial, managerial, systems and tax. May be repeated, but no area can be taken more than once.

Prerequisite(s): Admission to MAcc or MBA programs or permission of instructor. Not open to non-degree students.

ACCT 8260 FEDERAL TAX RESEARCH AND PLANNING (3 credits)

This course is intended to provide students with a working knowledge of the primary and secondary tax resources used in practice to solve tax problems, as well as basic tax planning concepts.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better. Not open to non-degree students.

ACCT 8280 SEMINAR IN ACCOUNTING INFORMATION SYSTEMS (3 credits)

This course examines current topics in Accounting Information Systems (AIS), how AIS contributes to business effectiveness and ineffectiveness, and the interaction between AIS and human decision-makers.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. Successful completion of BSAD 8110, ACCT 2020, or equivalent. Not open to non-degree graduate students.

ACCT 8290 ADVANCED FINANCIAL AUDITING (3 credits)

This course will provide students with an intense study of financial auditing in accordance with generally accepted auditing standards.

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 4080 with a grade of "C" (2.0) or better.

ACCT 8900 INDEPENDENT RESEARCH (1-3 credits)

This is an independent research course in which the student completes a focused project, typically individual research, under faculty supervision to supplement graduate study in a specific area within the Accounting discipline.

Prerequisite(s): Completed contract and permission needed from director of MAcc program. Not open to non-degree graduate students.

ACCT 8910 SPECIAL TOPICS IN ACCOUNTING (3 credits)

A variable content course with accounting topics based on student and faculty interest. May be repeated to a maximum of six (6) hours.

Prerequisite(s): Admission to MAcc program and permission of instructor. Not open to non-degree graduate students.

Economics**ECON 1200 SURVEY OF ECONOMICS (3 credits)**

An introduction to fundamental economic analysis, applying economic concepts to both domestic and international problems and policies.

Prerequisite(s): Not available to students who have completed either ECON 2200 or 2220.

Distribution: Social Science General Education course

ECON 2200 PRINCIPLES OF ECONOMICS (MICRO) (3 credits)

An introduction to economic principles, decision making and policies affecting product and resource markets. Particular emphasis is on price, output and input decisions by individuals and firms under various market conditions. An introduction to the fundamentals of international trade.

Prerequisite(s): ENGL 1150 and MATH 1310 or MATH 1220 with 'C-' (1.67) or better, or permission of CBA advisor

Distribution: Social Science General Education course

ECON 2220 PRINCIPLES OF ECONOMICS (MACRO) (3 credits)

An introduction to economic principles, decision making and policies on national income and output, employment, growth, money, the price level and the international economy.

Prerequisite(s): MATH 1310 or MATH 1220 and ENGL 1150 with a C-minus (1.67) or better, or permission of CBA advisor

Distribution: Social Science General Education course

ECON 2400 PRINCIPLES OF ECONOMICS FOR EDUCATORS (3 credits)

This course teaches principles of microeconomics and macroeconomics to K-12 educators. After taking this course students will be able to use the economic way of thinking to study current economic issues. Students will be introduced to macroeconomic principles, decision-making and policies on national income and output, employment, growth, money, price level, and fundamentals of international issues. Students will study microeconomic issues including product and resource markets, and prices output and input decisions under various market conditions. Economic concepts will be aligned to K-12 state social studies standards. This course cannot be substituted for ECON 2200 and/or ECON 2220.

Prerequisite(s): MATH 1310 or MATH 1220, ENGL 1150, ECON 2200 or ECON 2220. Not open to non-degree graduate students.

ECON 2600 SURVEY OF BEHAVIORAL ECONOMICS (3 credits)

This course examines the basic concepts behind behavioral economics and the application of behavioral economics across other fields of study. Students will be able to understand the basic variables influencing decision making, including framing and perception as well as the influence of social dynamics and psychological influences.

ECON 3130 ECONOMIC GEOGRAPHY (3 credits)

An introduction to the basic concepts and approaches in contemporary economic geography, stressing the importance of the spatial perspective for an understanding of how economic processes work at global, national, regional, and local scales. (Offered Fall) (Cross-listed with GEOG 3130).

Prerequisite(s): Majoring in Geography. Non-Geography majors: MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3200 ECONOMIC THEORY: MICRO (3 credits)

Analysis of individual, firm and industry behavior in product and factor markets. Provides a theoretical foundation for managerial and public policy decision-making.

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 3220 ECONOMIC THEORY: MACRO (3 credits)

This course is designed to follow introductory economics, to examine the determination of output, employment, the price level, inflation, interest rates, and the exchange rate in the economy. Piece-by-piece, theoretical models will be constructed describing how each of these and other variables are determined in both, the long-run and in the short-run. We will analyze how changes in a particular event affect different markets in the economy, and in turn, how one market interacts with another within a general equilibrium framework. A large part of the course will be devoted to business cycle theory, macroeconomic policy issues, and open economy macroeconomics. The world economies are very much integrated, and thus, a full understanding of macroeconomics requires knowledge of international aspects of macroeconomics. The purpose of this course is to provide the student with an understanding of the connection between macroeconomic theory and related policy issues.

Prerequisite(s): Completion of ECON 2200 with a C or better AND ECON 2220 with a C or better

ECON 3290 ECONOMICS OF PUBLIC ISSUES (3 credits)

Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Economics of Public Issues, however, students will explore the real ways in which economics can be used to understand, explain, and answer tough questions that affect everyone. Students will explore and define capitalism and key economic institutions required for economies to develop and prosper. We will examine markets and market failures that exist today. Classes will focus on the outcomes - intended and unintended - of various policies (local, national, and global). While specific issues are going to be covered in the course the intent is that students will learn the tools and strategy of thinking like an economist to guide them through future issues that will come up in their personal, professional, and civic lives.

Prerequisite(s): ECON 2200 OR Instructor Approval.

ECON 3300 INTRODUCTION TO ECONOMETRICS (3 credits)

An introduction to empirical research methods in economics. Subjects covered include estimations of the basic linear regression model, hypothesis testing, correlation coefficients, analysis of variance, multicollinearity, dummy variables, specification error, auto-correlation, heteroscedasticity and unconditional forecasting. Empirical illustrations are provided by reference to contemporary economic questions.

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200, ECON 2220, BSAD 2130 or BSAD 3160, each with a "C" (2.0) or better, or permission of instructor.

ECON 3310 SQL, DATABASES, AND DATA CLEANING FOR DATA SCIENTISTS (3 credits)

Analytics requires data. Within an organization, this data is usually housed in databases. In this class, you will extract data from these systems using Structured Query Language (SQL), programmatically combine multiple datasets, and learn advanced programmatic data cleaning techniques, such as regular expression.

Prerequisite(s): ECON 2200 with a "C" or better

ECON 3550 PUBLIC FINANCE (3 credits)

This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with FNBK 3550).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3600 INTRODUCTION TO INTERNATIONAL ECONOMICS (3 credits)

An introduction to analyses of international trade and the international monetary system. Subjects covered include the economic basis for international specialization and trade, the effect of trade on income distribution, commercial policy, economic integration, the balance of payments, adjustment mechanism, exchange rate determination, external effects of monetary and fiscal policy and foreign investment.

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 4000 SPECIAL TOPICS IN ECONOMICS (3 credits)

This course will explore a specified topic in the field of economics.

Prerequisite(s): Varies by offering

ECON 4210 INDUSTRIAL ORGANIZATION (3 credits)

In this class we will examine why firms and industries behave the way that they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like "Why does everyone hate the cable company?" and "Why are CEOs given so many stock options?" (Cross-listed with ECON 8216).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4240 LABOR ECONOMICS (3 credits)

The course will cover essential topics in Labor Economics including factors leading to equilibrium conditions in the labor market, human capital accumulation, discrimination in the workplace, compensation for undesirable work, mobility, unionization, and more. (Cross-listed with ECON 8246).

Prerequisite(s): ECON 2200 OR Equivalent OR Instructor Approval

ECON 4300 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)

The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with non negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 8306).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C"(2.0) or better, or permission of instructor.

ECON 4320 NATURAL RESOURCE ECONOMICS (3 credits)

This course introduces students to the economics and management of Earth's natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What role to markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 8326).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4330 ENVIRONMENTAL ECONOMICS AND SUSTAINABILITY (3 credits)

In this course students will apply economic concepts and models to environmental concerns and policy solutions that combat environmental degradation. Topics include: Air and water pollution, solid waste management, carbon taxation, cap-and-trade systems, and economic motivations for sustainable business management. (Cross-listed with ECON 8336).

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 4340 ECONOMICS OF TECHNOLOGY (3 credits)

Innovative dynamism is the economic system which brings us the new goods and processes that make life longer and better. We will examine how the system works, including: The role of the breakthrough inventor and the innovative entrepreneur; whether the system improves or hurts ethical behavior, culture, equality, and the environment; the costs to workers in terms of job loss, and the benefits to workers in terms of the creation of better jobs; how funding, regulatory, and patent policies affect innovative dynamism; and how innovative dynamism in medicine can result in more and faster cures for cancer and other diseases. (Cross-listed with ECON 8346).

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better, or BSAD 8180, or permission of instructor.

ECON 4350 BUSINESS INTELLIGENCE AND REPORTING (3 credits)

The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are trained to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 8316).

Prerequisite(s): BSAD 2130 (or equivalent) OR Instructor Approval

ECON 4450 DOMESTIC MONETARY THEORY AND POLICY (3 credits)

The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 8456).

Prerequisite(s): ECON 3220, or permission of instructor.

ECON 4500 SPECIAL PROBLEMS IN ECONOMICS (2-3 credits)

Individual investigation of specific problems in the field of economics under the supervision of a faculty member.

Prerequisite(s): Senior and permission of department chair.

ECON 4510 ECONOMIC INTERNSHIP (1-3 credits)

Students engage in part time employment in their area of concentration to gain relevant business experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required (maximum 3 credit hours).

Prerequisite(s): Permission of internship coordinator; 'C' (2.0) or better in ECON 2200 and ECON 2220; 2.5 Cumulative GPA; junior or senior standing.

ECON 4570 ECONOMIC CONDITIONS ANALYSIS (3 credits)

This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn where to find data, how to analyze that data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will ensure equal participation. (Cross-listed with ECON 8576).

Prerequisite(s): ECON 2200 and ECON 2220, or permission of the instructor

ECON 4610 INTERNATIONAL TRADE (3 credits)

An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 8616).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4620 INTERNATIONAL MONETARY THEORY (3 credits)

This course is designed to introduce students to topic areas in International Macroeconomics and International Finance. Students will examine the mechanisms of the foreign exchange market, and how exchange rates are determined in the short-run as well as in the long-run. Students will investigate the different exchange rate regimes around the world, including fixed exchange rates, floating exchange rates, crawling pegs, and other arrangements. Students will examine the European Union and ask whether such a system is economically viable. This is especially important in the current economic environment facing Europe. Students will also examine exchange rate crises over history, and examine how they all have common elements. (Cross-listed with ECON 8626).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4660 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)

This course introduces theories and application of economic development and growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 8666).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4730 ECONOMICS OF ENTREPRENEURSHIP (3 credits)

This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 8736, BSAD 8736).

Prerequisite(s): ECON 2200 or permission of the instructor for all students

ECON 4770 SPORTS ECONOMICS (3 credits)

Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Sports Economics, students will explore the very real ways in which economics influences sporting competitions and the businesses surrounding them. Students will explore topics such as unionization in sports, discrimination, amateurism, monopoly power, game theory, and more in the context of sports, giving the student a deeper understanding of how these topics apply to real-world problems. After this course, students will understand how readily economics can be applied to businesses and problems in any industry or domain. (Cross-listed with ECON 8256).

Prerequisite(s): ECON 2200 OR Equivalent OR Instructor Approval. Not open to non-degree graduate students.

ECON 4850 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)

This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 8856)

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4990 SENIOR ASSESSMENT (0 credits)

This assessment tool is part of the Department's Student Outcomes effort. It is designed to monitor the Department's performance and to identify changes needed. Graduating seniors must register for and complete this course in the term in which they plan to graduate.

Prerequisite(s): Students must register for ECON 4990 in the term in which they plan to graduate. Not open to non-degree graduate students.

ECON 8010 SEMINAR IN PUBLIC FINANCE (3 credits)

This course is designed to develop the tools of applied welfare economics and to use these tools to evaluate the expenditure and tax decisions of governments. The structure, effects and reform of the U.S. individual and corporate income taxes, social security and healthcare system will be emphasized. Government debt and deficits will also be discussed.

Prerequisite(s): ECON 3200 or ECON 8210 or BSAD 8100 or permission

ECON 8050 ECONOMIC EDUCATION (3 credits)

A study and examination of economic principles and how they can be related to the teacher's classroom presentation. This course is designed to furnish the k-12 teacher with sufficient background and understanding to aid in the recognition of economic issues and the teaching of economic concepts and principles.

Prerequisite(s): No previous course work in economics. Not open to Economics majors.

ECON 8080 MONEY AND FINANCIAL INSTITUTIONS (3 credits)

This course examines the financial system (institutions, instruments, markets, practices, and public authorities), and the implementation of monetary policy that aims to maintain financial stability and support economic growth. The course discusses current events reported in the financial press and uses the analytic frameworks developed in class to analyze these issues. This course trains students to think systematically about the current state of the economy and use quantitative tools to analyze the interactions between monetary policy and the financial system.

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 8200 SEMINAR IN MICRO ECONOMIC THEORY (3 credits)

The course covers major topics in microeconomic theory. The major topics covered are the theory of consumer behavior, theory of production and cost, theory of the firm, pure exchange economy, general equilibrium, and welfare theory.

Prerequisite(s): ECON 3200, ECON 3220 and ECON 8306 or permission.

ECON 8210 APPLIED MANAGERIAL ECONOMICS (3 credits)

This is a course in empirical economic modeling techniques deployed by economists and other business consultants use in business and public policy applications. There are four main themes: 1) techniques used in demand analysis and economic forecasting, 2) techniques used in production and cost analysis, 3) supply chain and trade analysis, and 4) analysis and measurement of competitive interactions.

Prerequisite(s): ECON 2200 or equivalent, or permission of the instructor.

ECON 8216 INDUSTRIAL ORGANIZATION (3 credits)

In this class we will examine why firms and industries behave the way that they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like "Why does everyone hate the cable company?" and "Why are CEOs given so many stock options?" (Cross-listed with ECON 4210).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 8220 SEMINAR IN MACRO THEORY (3 credits)

This course traces the development of macroeconomic theory from the classical point of view to current schools of thought. Keynesian, neo-Keynesian and neo-classical models are developed.

Prerequisite(s): ECON 3200 or ECON 8210 or BSAD 8100, ECON 3220, and ECON 8306, or permission.

ECON 8230 BUSINESS CONDITIONS ANALYSIS (3 credits)

This course is concerned with the statistical measurement and evaluation of general business conditions, as well as the adaptation of business policies to changing business conditions. Emphasis is placed upon the practical application of statistical analysis techniques to business situations within the framework of the aggregate economy.

Prerequisite(s): ECON 2200 and ECON 2220.

ECON 8246 LABOR ECONOMICS (3 credits)

The course will cover essential topics in Labor Economics including factors leading to equilibrium conditions in the labor market, human capital accumulation, discrimination in the workplace, compensation for undesirable work, mobility, unionization, and more. (Cross-listed with ECON 4240).

Prerequisite(s): ECON 2200 OR BSAD 8150 OR Instructor Approval

ECON 8256 SPORTS ECONOMICS (3 credits)

Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Sports Economics, students will explore the very real ways in which economics influences sporting competitions and the businesses surrounding them. Students will explore topics such as unionization in sports, discrimination, amateurism, monopoly power, game theory, and more in the context of sports, giving the student a deeper understanding of how these topics apply to real-world problems. After this course, students will understand how readily economics can be applied to businesses and problems in any industry or domain. (Cross-listed with ECON 4770).

Prerequisite(s): ECON 2200 OR BSAD 8150 OR Equivalent OR Instructor Approval. Not open to non-degree graduate students.

ECON 8290 RESEARCH METHODS IN ECONOMICS AND BUSINESS (3 credits)

Covers the methodology of economics: choosing a research topic, literature search tools, data source identification, data summary techniques, basic statistical data analysis using statistical packages, and clear economics writing. The student will become familiar with these techniques through text materials, journal studies, and completion of an empirical economics paper.

Prerequisite(s): ECON 3200, ECON 3220, or equivalents, or permission of the instructor. Not open to non-degree graduate students.

ECON 8300 ECONOMETRICS (3 credits)

The study of the underlying assumptions, techniques and applications of single and multiple equation regression analysis in economics.

Prerequisite(s): Basic Statistics, ECON 8306/ECON 4300, or permission. Not open to non-degree graduate students.

ECON 8306 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)

The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with non negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 4300).

Prerequisite(s): ECON 2200 and ECON 2220, or BSAD 8180.

ECON 8310 BUSINESS FORECASTING (3 credits)

The course will cover forecasting tools and applications applied to business settings. The first half of the course will cover traditional Econometric forecasting methods and the second half of the course will focus on predictive analytics models and machine learning. Time in the computer lab will be focused on teaching students how to implement the models discussed in lectures. (Cross-listed with BSAD 8080).

Prerequisite(s): ECON 8320 (or equivalent programming experience) or permission of instructor. Not open to non-degree graduate students.

ECON 8316 BUSINESS INTELLIGENCE AND REPORTING (3 credits)

The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are trained to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 4350).

Prerequisite(s): BSAD 2130 (or equivalent) OR Instructor Approval

ECON 8320 TOOLS FOR DATA ANALYSIS (3 credits)

The course will cover basic principles of programming languages, as well as libraries useful in collecting, cleaning and analyzing data to answer research questions. The course will utilize basic Economic principles and Econometric methods as inspiration for assignments and projects throughout the duration of the course, and will do so in a way that is accessible to non-Economists. This course is intended to introduce the student to the Python programming language as a tool for conducting data analysis. While the course uses Python, the student should be able to move to other languages frequently used in data analysis using the principles taught in this course.

Prerequisite(s): BSAD 2130 or equivalent; or instructor approval.

ECON 8326 NATURAL RESOURCE ECONOMICS (3 credits)

This course introduces students to the economics and management of Earth's natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What role do markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 4320).

Prerequisite(s): ECON 2200 and ECON 2220, BSAD 8150 or permission of instructor.

ECON 8330 DATA ANALYSIS FROM SCRATCH (3 credits)

Econometrics is routinely taught as an application class using a 'black box' like Stata or SAS to perform calculations. This class takes a different approach. Using the Python programming language, we build all estimators from scratch. Additionally, we introduce numerous non-parametric and simulation techniques. This approach to econometrics results in a stronger understanding of statistical assumptions and methods, a better understanding of when a method is appropriate, and stronger programming techniques. Furthermore, a deeper understanding of the underlying mechanics provides the student the ability to program custom procedures not already built into popular software packages. As part of the course, students will work with a community partner to answer a real question with data; MBA students should consult with their advisor about this course satisfying the project-focused capstone requirement.

Prerequisite(s): A multivariate or regression analysis course such as ECON 8300, ISQA 9130 or STAT 8436, and a programming class such as ECON 8320 or equivalent programming experience; or instructor approval. Not open to non-degree graduate students.

ECON 8336 ENVIRONMENTAL ECONOMICS AND SUSTAINABILITY (3 credits)

In this course students will apply economic concepts and models to environmental concerns and policy solutions that combat environmental degradation. Topics include: Air and water pollution, solid waste management, carbon taxation, cap-and-trade systems, and economic motivations for sustainable business management. (Cross-listed with ECON 4330).

Prerequisite(s): Admission to Graduate College, MBA Program or by permission of the instructor.

ECON 8346 ECONOMICS OF TECHNOLOGY (3 credits)

Innovative dynamism is the economic system which brings us the new goods and processes that make life longer and better. We will examine how the system works, including: The role of the breakthrough inventor and the innovative entrepreneur; whether the system improves or hurts ethical behavior, culture, equality, and the environment; the costs to workers in terms of job loss, and the benefits to workers in terms of the creation of better jobs; how funding, regulatory, and patent policies affect innovative dynamism; and how innovative dynamism in medicine can result in more and faster cures for cancer and other diseases. (Cross-listed with ECON 4340).

Prerequisite(s): ECON 2200 or BSAD 8180 or permission of the instructor.

ECON 8456 DOMESTIC MONETARY THEORY AND POLICY (3 credits)

The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 4450).

ECON 8576 ECONOMIC CONDITIONS ANALYSIS (3 credits)

This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn where to find data, how to analyze that data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will ensure equal participation. (Cross-listed with ECON 4570).

Prerequisite(s): ECON 2200 and ECON 2220, or Permission from the instructor

ECON 8616 INTERNATIONAL TRADE (3 credits)

An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 4610).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8626 INTERNATIONAL MONETARY THEORY (3 credits)

This course is designed to introduce students to topic areas in International Macroeconomics and International Finance. Students will examine the mechanisms of the foreign exchange market, and how exchange rates are determined in the short-run as well as in the long-run. Students will investigate the different exchange rate regimes around the world, including fixed exchange rates, floating exchange rates, crawling pegs, and other arrangements. Students will examine the European Union and ask whether such a system is economically viable. This is especially important in the current economic environment facing Europe. Students will also examine exchange rate crises over history, and examine how they all have common elements. (Cross-listed with ECON 4620).

Prerequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8666 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)

This course introduces theories and application of economic development and growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 4660).

Prerequisite(s): ECON 2200 and ECON 2220, or BSAD 8180, or permission of instructor.

ECON 8736 ECONOMICS OF ENTREPRENEURSHIP (3 credits)

This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 4730, BSAD 8736.)

Prerequisite(s): ECON 2200 or permission of the instructor for all students.

ECON 8856 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)

This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 4850).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 8910 SPECIAL STUDIES IN ECONOMICS (3 credits)

This course will focus on issues or developments in a specific area of economics or business.

Prerequisite(s): Graduate student in good standing and as indicated for specific workshop or seminar.

ECON 8920 INDEPENDENT STUDY (1-3 credits)

Guided independent study and research.

Prerequisite(s): Graduate student in economics and permission of instructor.

ECON 8940 ECONOMIC INTERNSHIP (1-3 credits)

Guided internship in a firm or organization that makes use of, or extends, the student's skill in economics.

Prerequisite(s): Completion of at least nine hours of graduate level economics and permission of instructor.

ECON 8990 THESIS (1-6 credits)

An independent research project, written under the supervision of a graduate adviser in the department of economics. Approval of the topic and the completed project by departmental committee is required.

Prerequisite(s): Approval of the topic and the completed project by departmental committee is required.

Finance and Banking**FNBK 2280 PERSONAL FINANCE (3 credits)**

This course focuses strengthening the development of sound financial habits through knowledge and application of concepts and activities that enhance personal and family finance.

FNBK 2710 PRINCIPLES OF INSURANCE (3 credits)

This course is intended to introduce students to the basic concepts of risk and insurance. Special emphasis is placed on the insurance coverage needed by the consumer: life, health, homeowner and auto insurance. (Fall, Spring)

Prerequisite(s): Not open to non-degree graduate students.

FNBK 3000 FINANCIAL REPORTING AND ANALYSIS (3 credits)

Seeks to develop students' understanding of the origin and derivation of accounting data, and their skills in employing the data for the purpose of financial analysis, reporting and valuation.

Prerequisite(s): ACCT 2020 with 'C' (2.0) or better.

FNBK 3250 PRINCIPLES OF FINANCIAL MANAGEMENT (3 credits)

As an introduction to financial management, the course will cover a broad area of corporate finance and discuss topics including assessment of financial statement information, time value of money, bond and stock valuation, as well as capital budgeting.

Prerequisite(s): ACCT 2010, ECON 2200, ECON 2220, MATH 1320 or MATH 1370 or MATH 1930, BSAD 2130 or 3160, ENGL 1160/ENGL 1164 or concurrent enrollment in ENGL 1160/1164 each with "C" or better and 2.5 GPA.

FNBK 3300 INTERMEDIATE FINANCIAL MANAGEMENT (3 credits)

This course is intended to develop an intermediate level of understanding of financial analysis and decision making, as well as an understanding of the context within which these skills are used, through an in-depth exploration of the essential mathematical operations that underpin advanced finance courses. Critical thinking and computer literacy will be enhanced using MS Excel for spreadsheet calculations and model building.

Prerequisite(s): FNBK 3250 with a C+ or better and 2.5 overall GPA. Not open to non-degree graduate students.

FNBK 3330 ENTREPRENEURIAL FINANCE (3 credits)

This course focuses on venture capital formation and the financing of entrepreneurial ventures. The course is intended for students interested in entrepreneurship, venture capital markets, investment banking, and other careers related to new venture financing and/or deal structuring. The course applies basic financial theory to the unique environment of incubating and growing new ventures. (Cross-listed with ENTR 3330).

Prerequisite(s): FNBK 3250 with 'C' (2.0) or better.

FNBK 3400 INVESTMENT PRINCIPLES AND PRACTICES (3 credits)

A study of the market for investment securities, an introduction to the field of security analysis, and selection and management of a portfolio of securities. (Fall, Spring)

Prerequisite(s): FNBK 3300, GPA of 2.5 or better or approval of instructor.

FNBK 3500 FINANCIAL MARKETS (3 credits)

An overview of money and banking, monetary policy, and analysis of the operations of financial markets in a global context, as well as the evolving regulatory framework within which these markets operate.

Prerequisite(s): ECON 2200 and ECON 2220 and FNBK 3250 with 'C' or better, or approval of instructor.

FNBK 3550 PUBLIC FINANCE (3 credits)

This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with ECON 3550).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

FNBK 3650 COMMERCIAL BANK MANAGEMENT (3 credits)

This course focuses on the theory and practice of managing commercial banks. Topics covered include but are not limited to: Bank regulations, bank performance analysis, asset liability management, credit analysis and consumer loans. This course emphasizes the link between theory and practice through readings, guest lecturers from industry experts, and a comprehensive bank research project on a local bank of your choice. At the end of the course, students should have a good understanding of basic banking theories as well as banking practices, and current issues and challenges facing the banking industry.

Prerequisite(s): FNBK 3300, GPA of 2.5 or better or approval of instructor.

FNBK 3700 INTERNATIONAL FINANCIAL MANAGEMENT (3 credits)

This course focuses on the application of basic principles and techniques of international financial management to the decision-making process of the multinational firms. The course covers foreign exchange markets, management of foreign exchange risk, international working capital management, and foreign portfolio and direct investment. Factors bearing on international financing and investment decisions, such as political risk and international taxation issues will be also explored. (Fall, Spring, Summer).

Prerequisite(s): FNBK 3250 with 'C+' (2.3) or better, GPA of 2.5 or better or approval of instructor.

FNBK 4000 SPECIAL TOPICS IN FINANCE AND BANKING (1-5 credits)

The topics addressed in this finance and banking special topics course will vary but are typically an in-depth exploration of a specific topic in the field of finance and banking. Please contact the finance and banking department chairperson for the specific course offering.

FNBK 4150 ADVANCED FINANCIAL MANAGEMENT (3 credits)

This course aims to develop the student's ability to identify, analyze and solve integrative problems in management of business finance, including financial analysis, working capital management, capital budgeting decisions, long term financing, and leasing, through the use of prescribed readings, case studies and computer applications. (Fall, Spring).

Prerequisite(s): FNBK 3300, GPA of 2.5 or better, and senior standing. It is highly recommended that a student have an additional 6 hours of finance instruction beyond the introductory course prior to taking this class.

FNBK 4210 SELLING FINANCIAL SERVICES (3 credits)

Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with BSAD 8216, MKT 4210).

Prerequisite(s): MKT 3310 with a C+ or better grade and 2.5 GPA. Not open to non-degree graduate students.

FNBK 4470 BEHAVIORAL FINANCE & INVESTING (3 credits)

This course focuses on how actual investor behaviors and market behaviors differ from traditional theories of finance. This course will examine psychological biases, identify how such biases influence financial markets and settings, and explore methods that can be utilized to recognize and overcome such behavioral pitfalls. (Cross-listed with BSAD 8476).

Prerequisite(s): Junior or senior standing. Not open to non-degree graduate students.

FNBK 4500 SPECIAL PROBLEMS IN FINANCE AND BANKING (2-3 credits)

Individual investigation of specific problems in the fields of finance and banking. (Fall, Spring).

Prerequisite(s): Senior. Note: permission of department chair required prior to registration.

FNBK 4510 FINANCE AND BANKING INTERNSHIP (1-3 credits)

Students will engage in an applied experience in their area of specialization to gain relevant experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required. Note: FNBK4510 may be taken for a maximum of 3 credits.

Prerequisite(s): Permission of internship coordinator; 'C+' or better in FNBK 3250; 2.5 cumulative gpa; junior or senior standing

FNBK 4570 INVESTMENT MANAGEMENT FOR FINANCIAL ANALYSTS (3 credits)

This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with BSAD 8576).

Prerequisite(s): Senior standing. Not open to non-degree graduate students.

FNBK 4590 RISK MANAGEMENT FOR BUSINESS MANAGERS (3 credits)

An analysis of risk management techniques for handling the risk exposures most businesses face, including insurance, self insurance, risk control and risk avoidance, among others. (Cross-listed with BSAD 8596).

Prerequisite(s): At least junior standing.

FNBK 4600 FINANCIAL RISK MANAGEMENT (3 credits)

The course provides students with an intermediate level analysis of financial derivatives, and the use of these instruments for managing risk in financial institutions. (Cross-listed with BSAD 8606).

Prerequisite(s): FNBK 3400 and FNBK 3500 both with a 'C' (2.0) or better, and senior or graduate standing.

FNBK 4610 PORTFOLIO MANAGEMENT (3 credits)

This course will focus on modern development in portfolio management including efficient markets, stock selection, and hedging procedures. The main objective of this course is to prepare students for the management of financial resources through the development of skills necessary to make prudent investment decisions.

Prerequisite(s): FNBK 3400 with a "C+" (2.33) or above, and a 2.5 GPA.

Law and Society**LAWS 2000 SPECIAL TOPICS IN LAW AND SOCIETY (3 credits)**

This special topics course will address specific topics which will vary by semester and is intended primarily for upper division business students who are pursuing a Legal Studies concentration.

LAWS 3000 INTRODUCTION TO THE LEGAL PROFESSION (1 credit)

This course provides experiences and assignments designed to enhance understanding of the legal system, legal education, law school admissions processes, legal career opportunities, legal analysis, the legal profession, and the law school experience.

LAWS 3170 ETHICS IN BUSINESS (3 credits)

Application of ethical concepts and principles to moral issues in business including corporate responsibility, discrimination, advertising, competition, whistle-blowing, trade secrets, multinationals, environment, workers' rights, government regulation, investment, bribes, product liability, and consumerism.

Prerequisite(s): ECON 2200 and ECON 2220.

LAWS 3460 REAL ESTATE LAW (3 credits)

Upper-level survey course in real estate law, which examines estates in land, conveyances, leases, mortgages, easements, zoning, environmental law, contracts, taxes, foreclosures, landlord-tenant relations, agency, Fair Housing, and Nebraska License Law. (Cross-listed with RELU 3460)

Prerequisite(s): RELU 2410 or RELU 3410.

LAWS 3930 BUSINESS LAW FUNDAMENTALS (3 credits)

LAWS 3930 introduces students to the legal system governing business transactions. This course emphasizes constitutional law, the Common Law, and relevant statutory law. The legal topics covered include litigation and ADR, torts, contracts, Sale of Goods, insurance, international law, and regulation of business.

Prerequisite(s): ENGL 1160, CMST 1110, ECON 2200, & MGMT 3200 or MKT 3200 all with 'C'(2.0) or better, 2.5 GPA.

LAWS 3940 LEGAL AND ETHICAL APPLICATIONS (3 credits)

LAWS 3940 exposes students to business organization law and ethics. Emphasis is on business organizations (e.g., agency, partnerships, corporations), financial transactions (e.g., checks, liens, securities), and property (e.g., environment, intellectual). Ethics is a discrete subject area studied and its analytical tools are applied to all of these areas of law.

Prerequisite(s): LAWS 3930 and ACCT 2020 both with C+ (2.3) or better; 2.5 GPA

LAWS 4220 LEGAL ISSUES IN MANAGEMENT (3 credits)

This course provides an overview of the general nature of legal knowledge in human resources administration. The course is designed to alert students of the legal considerations when an employer-employee relationship is established. Discusses how human resource practices have been impacted by recent legal developments, anti-discrimination laws, affirmative action and labor relations.

Prerequisite(s): MGMT 3490 and MGMT 3510 or MGMT 4030 with a C (2.0) or better, and a 2.5 GPA, or permission of instructor.

LAWS 4410 DIVERSITY, EQUITY, ACCESS AND INCLUSION SOLUTIONS FOR MINIMIZING RISK (3 credits)

This course provides students an opportunity to explore the various aspects of power, access, and equity as it relates to the business environment. Students will explore tensions through the range of dimensions in which diversity is manifested among business leaders, staff, and stakeholders (include anyone impacted by business decisions, such as: employees, contractors, suppliers, customers, and the community) through policies, systems, histories, structures, and legislation. Students will have the opportunity to learn differences that individuals bring to a business environment and how stakeholders can capitalize on those differences by creating long-term inclusive environments. (Cross-listed with BSAD 8416).

Prerequisite(s): Junior standing or permission from the instructor. Not open to non-degree graduate students.

LAWS 4500 SPECIAL PROBLEMS IN LAW AND SOCIETY (1-6 credits)

Individual investigation of specific problems in the field of business law. (Fall, Spring)

Prerequisite(s): Senior and permission of program chair.

LAWS 4510 LAW AND SOCIETY INTERNSHIP (1-3 credits)

Students engage in an applied experience in their concentration area to gain relevant industry experience and to practice the skills and concepts learned in the classroom. Student reports on the internship experience and an employer's evaluation of the student's performance are course requirements. LAWS 4510 may be taken for a maximum of 3 credits. (Fall, Spring, Summer)

Prerequisite(s): Permission of Department Internship Coordinator.

LAWS 4910 SEMINAR ON BUSINESS LAW (3 credits)

Contact the instructor since the content will vary from semester to semester, but will have a strong emphasis on current events. The course will focus on one aspect of relationship between government and business, and its related ethical and international law issues. A major student research project is included.

Prerequisite(s): LAWS 3930, ECON 2200, and ACCT 2020, or permission of department chair.

LAWS 4930 INTERNATIONAL BUSINESS LAW (3 credits)

This course is designed to inform students interested in international business transactions of the major legal principles governing international law, the major legal systems affecting the conduct of international business transactions, the domestic and foreign policies of the United States which affect business overseas, and foreign business inside American borders.

Prerequisite(s): LAWS 3930.

Management**MGMT 1200 INTRODUCTION TO MANAGEMENT (3 credits)**

This course will introduce foundational management concepts including management functions, leadership, planning, decision-making, quality improvement, ethics and careers in management.

MGMT 1500 INTRODUCTION TO BUSINESS (3 credits)

This course is for students who are interested in gaining foundational knowledge in many aspects of the business world including economics, finance, marketing, management, and accounting.

Distribution: Social Science General Education course

MGMT 3100 MANAGEMENT INFORMATION SYSTEMS (3 credits)

This course covers a broad spectrum of knowledge and techniques in MIS. Students will be given the opportunity to relate how technology and systems are utilized to support managerial decision making, streamline business processes, and enhance general organizational efficiencies. Topics centering around IT planning, network computing, electronic commerce, and data/knowledge management are all used to instill the importance of leveraging information systems for strategic advantage.

Prerequisite(s): ACCT 2020, MGMT 3200 or MKT 3200, and MGMT 3490, each with a 'C' (2.0) or better, and a 2.5 GPA. Not open to non-degree graduate students.

MGMT 3410 INTRODUCTION TO SUPPLY CHAIN MANAGEMENT (3 credits)

Supply chain management is the design and management of business processes needed to turn raw materials from suppliers into products and services that meet the needs of the final customer. The goals of this course center around providing students with the foundations of supply chain management and effectively managing the flow of goods, information, and services to obtain sustainable competitive advantage within an industry. Students will develop critical thinking skills focused on business process analysis and the use of key performance indicators to determine operational efficiencies for all organization levels. (Cross-listed with SCMT 3410, MKT 3410).

Prerequisite(s): Sophomore standing; GPA of 2.0 or better; or by permission of instructor. Not open to non-degree graduate students.

MGMT 3490 MANAGING PEOPLE AND ORGANIZATIONS (3 credits)

In this course, students will delve into applying management concepts to the real-world and the dynamic interplay between individuals, groups, and broader organizational contexts. The course uses effective management practices and leadership styles mixed with knowledge of organizational structures and intricacies of human behavior to promote individual's confidence in skills areas such as communication, conceptualization, interpersonal problems, and decision-making. Students are exposed to current management trends and the importance of successful management in modern organizations.

Prerequisite(s): ENGL 1160 and MGMT 3200 or MKT 3200 each with a "C" (2.0) or above, and a 2.5 cumulative GPA.

MGMT 3600 BUSINESS ETHICS (3 credits)

Students will learn about the factors, opportunities and pressures that lead to ethical dilemmas, and will develop their understanding of foundations and processes that encourage and reward ethical decision making and behaviors. Lots of examples, sourced from case studies and current events will be provided. (Cross-listed with BSAD 3600, MKT 3600)

Prerequisite(s): Junior classification (minimum of 58 earned credit hours) with a minimum 2.5 cumulative GPA. Completion of MGMT 3200 or MKT 3200 with a minimum grade of "C" (2.0). Not open to non-degree graduate students.

MGMT 3800 CROSS-SECTOR COLLABORATIVE LEADERSHIP (3 credits)

The goal of PA 3800/MGMT 3800 is to prepare students to serve as collaborative leaders of cross-sector initiatives. Specifically, this course will prepare students for success in working collaboratively across private, nonprofit and public sector organizations while also enhancing their overall development as a leader. Examples of successful and unsuccessful cross-sector collaborations will be explored along with discussions of theories related to cross-sector collaboration. (Cross-listed with PA 3800).

Prerequisite(s): Permission from instructor or MGMT 3490 with a grade of C or higher or enrollment in the cross-sector collaborative leadership minor.

MGMT 4000 SPECIAL TOPICS IN MANAGEMENT (3 credits)

This special topic course will address specific topics of management that vary by semester. The course is intended primarily for upper division students who are pursuing a management and leadership, supply chain management, or human resources management concentration.

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4010 TOTAL REWARDS (3 credits)

This course is a comprehensive review of the theory and practice of developing and implementing cost-effective employee compensation and benefits programs. Students will gain and utilize effective strategies for managing the single largest controllable expense for organizations; employee pay and benefits. The design of this course is most beneficial for students pursuing future careers in management and human resource professions. (Cross-listed with BSAD 8146).

Prerequisite(s): MGMT 3490 with a C or better and MGMT 4030 with a C+ or better and a 2.5 GPA; or permission of instructor

MGMT 4030 HUMAN RESOURCE MANAGEMENT (3 credits)

This course is a comprehensive review of the field of human resource management and its relevance to employees, managers, and organization stakeholders for goal achievement. The design of this course is structured to educate future managers and leaders on the importance of utilizing effective HR methods that comply with federal laws and the critical role of HR professionals in achieving the organization's positive workplace culture, competitive advantage, and overall success. (Cross-listed with BSAD 8136).

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4040 MANAGING BEHAVIOR IN ORGANIZATIONS (3 credits)

In this course students will learn the knowledge and skills necessary to effectively manage and lead others. The foundations of Organizational Behavior are explored through discussion, application, and analysis, to build connection to critical aspects of real-world scenarios. Students are equipped with the tools and resources to understand the decision-making process, on both the individual and organizational level, to shape behaviors of topics overviewing attitudes, motivation, leadership, employee engagement, group dynamic, and company culture.

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor. Not open to non-degree graduate students.

MGMT 4050 MANAGERIAL DECISION MAKING (3 credits)

This course will provide students with the opportunity to learn, understand, and apply techniques for effective individual and organizational problem solving. The students will interactively participate in generating, prioritizing and organizing their ideas in order to become better managerial decision-makers/problem solvers.

Prerequisite(s): MGMT 3490 with a C, or a 2.5 GPA, or permission of instructor

MGMT 4060 HEALTHCARE ANALYTICS FOR BUSINESS (3 credits)

This course will focus on the mixing of analytics and technology to develop key performance indicators that integrate and evaluate clinical, administrative, and financial performance. Concepts in this course explore the intersection of information management, performance metrics, data visualization, and result communication spanning across the healthcare ecosystem. Topics covering health outcome analysis, financial performance, developing analytic strategies, data quality and governance, and the four stages of actionable intelligence are all used to educate the advantages of leveraging analytics. (Cross-listed with BSAD 8066, SCMT 4060).

Prerequisite(s): MGMT 3490 or SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

MGMT 4090 MANAGING COLLABORATIVE ENGAGEMENT (3 credits)

This course will provide students with the opportunity to develop knowledge and strategies for leading teams, enhancing collaboration, building consensus, problem solving in teams, facilitating group processes, and designing collaborative workspaces. (Cross-listed with BSAD 8096, ACMP 4090, SCMT 4090)

Prerequisite(s): Junior standing or permission of instructor.

MGMT 4100 MANAGING CHANGE AND INNOVATION (3 credits)

This course is designed to increase students' understanding and knowledge of today's rapidly evolving business landscapes. Navigating through aspects of value creation, obtaining competitive advantage, adaptability, and managing resistance supports individuals' ability in influencing change management and innovating environments in many organizational settings.

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4110 STAFFING THE ORGANIZATION (3 credits)

This course is a comprehensive review of issues and techniques involved in the acquisition and management of a high quality and diverse workforce for optimal organizational effectiveness. Students pursuing future manager and human resource professions will benefit from practice utilizing effective strategies for recruiting, selecting, placing, and integrating new employees into an organization's workforce. (Cross-listed with BSAD 8166).

Prerequisite(s): MGMT 3490 with a C or better and MGMT 4030 with a C+ or better and a 2.5 GPA; or permission of instructor. Students are encouraged to take MGMT 4220 prior to taking this course.

MGMT 4120 TALENT DEVELOPMENT (3 credits)

This course is a comprehensive review of the theory and practice of developing and implementing cost-effective employee training and development programs to optimize human capital effectiveness in modern organizations. The course is designed to enable future managers and human resource professionals to utilize effective strategies for assessing employee training needs and developing appropriate solutions to maximize talent utilization. (Cross-listed with BSAD 8156).

Prerequisite(s): MGMT 3490 with a C or better and MGMT 4030 with a C+ or better and a 2.5 GPA; or permission of instructor.

MGMT 4150 GLOBAL BUSINESS MANAGEMENT (3 credits)

The central objective of this course is to explore the unique opportunities and challenges that confront international managers as they navigate the complex and ever-changing global economic, political, legal, technological, and cultural environment. This course will particularly focus on people, values, and culture, better equipping students to both undertake an international career as well as effectively lead organizations with a culturally diverse workforce in any environment. (Cross-listed with BSAD 8236).

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA, or permission of instructor. Not open to non-degree graduate students.

MGMT 4220 EMPLOYMENT LAW (3 credits)

This course is a comprehensive review of the legal framework in human resource management practice. The course is designed to prepare future managers and human resource professionals for the myriad legal issues involved in the employer-employee relationship and what is required for effective compliance. (Spring)

Prerequisite(s): MGMT 3490 and MGMT 3510 or MGMT 4030 with a C (2.0) or better, and a 2.5 GPA; or permission of instructor.

MGMT 4230 LEARNING TO LEAD (3 credits)

The course provides an insight into the introduction of applied leadership concepts, qualities, and practices used to create effective leadership. The background of systemic decision-making processes and examples of actual leaders' problems, strategy approaches, and skill styles are used to challenge students to analyze their own leadership potential and effectiveness. Along with empowering individuals' leadership capabilities, this course explores psychological biases and obstacles that can influence the direction of leaders and their decision-making style.

Prerequisite(s): MGMT 3490 with a C or better, a minimum cumulative GPA of 2.5, or permission of instructor. Not open to non-degree graduate students.

MGMT 4330 PROJECT MANAGEMENT (3 credits)

This course focuses on the systemic exploration of planning and executing complex projects to create organizational success. Using a comprehensive understanding of principles, methodologies, and tools within project management, students will learn how to initiate critical processes, plan objectives and constraints, execute management and leadership, monitor budgets and development, and close outcomes of complex projects. Skills obtained from this course enhance individuals' ability to recognize, identify, and prioritize organizations' culture and structure to lead projects across various industries efficiently. (Cross-listed with SCMT 4330, BSAD 8336)

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of the instructor. Not open to non-degree graduate students.

MGMT 4440 MANAGEMENT OF QUALITY AND PROCESS IMPROVEMENT (3 credits)

Major topics in this course include TQM, process reengineering, process improvement, and tools and techniques to formulate, change and implement these concepts in organizations. Students can develop their knowledge and skills to apply these concepts in organizations through the applied orientation of this course. (Cross-listed with SCMT 4440).

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4450 MANAGERIAL NEGOTIATION STRATEGIES (3 credits)

This course introduces students to the theory and practice of negotiation across various organizational settings. The ability to successfully negotiate an outcome is an important aspect of management and leadership. Negotiation can be used to determine multiparty relationships, manage conflict resolution, and improve organizational outcomes. Using a combination of conceptual frameworks, roleplaying exercises, and debriefing opportunities, the design of this course is structured to help students understand the power and influence negotiation has over the successful outcomes of managers, leaders, and organizations. (Cross-listed with SCMT 4450, BSAD 8456)

Prerequisite(s): MGMT 3490 with a grade of C or above, at least a cumulative GPA of 2.5, or permission of instructor.

MGMT 4480 CORPORATE AND BUSINESS STRATEGY (3 credits)

This collaborative course is a comprehensive study of the analytical techniques and managerial tasks associated with analyzing, formulating, and implementing strategy in organizations. Connections between the functional business areas and how to create and maintain a competitive advantage, achieve growth, and drive long-term success are explored through contemporary readings, business cases, team projects, and computerized situations.

Prerequisite(s): Must be a graduating senior, have a declared major in BSBA program, 2.5 cumulative GPA, MGMT 3200 or MKT 3200, MGMT 3490, MKT 3310, FNBK 3250 with a "C" (2.0) or better.

MGMT 4500 SPECIAL PROBLEMS IN MANAGEMENT (1-3 credits)

This independent study course gives students an opportunity to complete a focused project in the field of management, human resource management international business, supply chain management, or entrepreneurship under faculty supervision.

Prerequisite(s): MGMT 3490 with a C or better, 2.5 GPA; permission of program chair; junior/senior standing; must obtain agreement from a faculty member to supervise; submit completed Special Problems contract to MGMT Dept Chair. Forms in CBA advising office.

MGMT 4510 MANAGEMENT INTERNSHIP (1-3 credits)

Students can receive degree credit when engaging in part time employment with a business that is relevant to the management discipline. Work assignments are a valuable opportunity to gain practical experience and insight into various aspects of managerial roles within the workforce. Duties within the part time role must relate to general management (i.e., strategy, production/operations, project management, planning, organizing, leading, or controlling) and provide students with an environment to apply their academic knowledge to a professional setting. Combining both academic and professional atmospheres, students gain interpersonal development of leadership and build understanding of managerial responsibilities within organizations.

Prerequisite(s): MGMT 3490 with a C or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MGMT 4520 HUMAN RESOURCES MANAGEMENT INTERNSHIP (1-3 credits)

Students can receive degree credit when engaging in part time employment with a business that is relevant to the human resources management discipline. Work assignments are a valuable opportunity to gain practical experience and insight into various aspects of HR managerial roles within the workforce. Duties within the part time role must relate to general HR management (i.e., staffing, training, employee relations) and provide students with an environment to apply their academic knowledge to a professional setting. Combining both academic and professional atmospheres, students gain interpersonal development of leadership and build understanding of HR managerial responsibilities within organizations.

Prerequisite(s): MGMT 4030 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MGMT 4690 EMERGING TECHNOLOGY AND INNOVATION (3 credits)

This course equips entrepreneurially-minded students with a more complete range and vision of the viability of various startup opportunities (with a specific focus on innovative technologies and innovative business models). Students will become familiarized with the new and emerging technologies and innovations that define modern industries and product categories, as well as the various shifts in the way cutting-edge business gets done, regardless of industry. (Cross-listed with ENTR 4690, BSAD 8696).

Prerequisite(s): Junior standing or higher; 2.75 minimum GPA; or permission of instructor

MGMT 4720 INNOVATION VENTURES (3 credits)

This team-based course provides students with the opportunity to practice the basic tools of business discovery and validation. Concepts and techniques in innovation, entrepreneurship, and strategy will be used to aid students in the venture creation process. Important considerations impacting the viability of the venture post formation will also be explored. Practical real-world experimentation is the central component of the course and will help students to conceive, develop, and launch their own innovative ventures. (Cross-listed with BSAD 8726, ACMP 4720, ACMP 8256, ENTR 4720, MKT 4720).

Prerequisite(s): ENTR 3710 and junior standing or above or by instructor permission

MGMT 4960 CROSS-SECTOR COLLABORATIVE LEADERSHIP CAPSTONE (3 credits)

This is a capstone course that prepares students to be effective leaders in the 21st century. This course is the final leadership course in the Cross-Sector Collaborative Leadership minor. This minor requires a capstone project that encompasses the student's knowledge and training. It is designed to provide an applied service-learning opportunity for students. (Cross-listed with PA 4960).

Prerequisite(s): Must be completing either the Cross-Sector Collaborative Leadership Minor or the Cross-Sector Collaborative Leadership Concentration. Must have completed PA 3800/MGMT 3800. Not open to non-degree graduate students.

MGMT 8116 STAFFING THE ORGANIZATION (3 credits)

This course is a comprehensive review of issues and techniques related to the acquisition of high-quality human resources for optimal organizational effectiveness. The course is designed to enable future managers and human resource professionals to utilize effective strategies for recruiting, selecting, placing, and integrating new employees into the organization's workforce. (Cross-listed with MGMT 4110).

Prerequisite(s): BSAD 8136 or permission of instructor.

Marketing**MKT 2210 SURVEY OF MARKETING (3 credits)**

This course is designed for any student who has an interest in marketing and focuses on basic product and services marketing as well as digital and social media marketing.

MKT 3100 PROFESSIONAL SELLING (3 credits)

This course focuses on professional selling and relationship marketing principles and practices. A variety of personal and direct sales techniques, psychology, and application of personal communication theory will be applied. Role-plays and presentations will be utilized to help students learn and execute the sales process model.

Prerequisite(s): ENGL 1160 with 'C' (2.0) or better and GPA of 2.3 or better; or permission of instructor.

MKT 3200 BUSINESS COMMUNICATIONS (3 credits)

This course develops business communication skills such as selecting and using appropriate technologies for reaching intended audiences. Students will practice effective explanatory, narrative, persuasive, and investigative writing in the context of business communication.

Prerequisite(s): ENGL 1160 and CMST 1110, each with a grade of "C" (2.0) or better; 2.5 GPA.

Distribution: Writing in the Discipline Single Course

MKT 3310 PRINCIPLES OF MARKETING (3 credits)

An examination of marketing functions and the institutions which perform them, choice of criteria for marketing strategy decisions, marketing structural relationships, and the role of marketing in society.

Prerequisite(s): ECON 2200, MATH 1310 or MATH 1220, ENGL 1160, and MGMT 3200 or MKT 3200 all with 'C'(2.0) or better, and 2.5 GPA.

MKT 3320 CONSUMER BEHAVIOR (3 credits)

Consumers purchase, use, experience, and dispose of products and services as part of their consumption process. How and why consumers choose various brand options, form judgments about these brands, and decide which options to buy and/or re-buy are essential knowledge for marketing professionals. The course covers the psychological and social issues that guide consumption decisions. (Cross-listed with BSAD 8345).

Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better; or permission of instructor.

MKT 3340 OMNI CHANNEL MARKETING (3 credits)

This course is designed to provide students with an overview of the omnichannel marketing landscape. Omnichannel marketing focuses on creating a seamless shopping experience through the integration of multiple channels. Attention is paid to how modern-day retailers can create a holistic and highly personalized experience for customers.

Prerequisite(s): MKT 3310 with 'C+' or better; and GPA of 2.5 or better; or permission of instructor.

MKT 3350 MARKETING SERVICE PRODUCTS (3 credits)

This elective explores how intangibility forces customers to evaluate service products differently, creating more challenges for marketers. The course is based on the premise that financial benefits reward services that provide value to customers, and develops strategies for creating value.

Prerequisite(s): MKT 3310 with a 'C+' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 3360 DIGITAL MARKETING COMMUNICATIONS (3 credits)

This course is designed to familiarize students with digital marketing concepts and applications. It provides a detailed understanding of relevant digital channels and platforms that companies use as part of their marketing mix. The course is structured to guide students through paid, earned, and owned digital media as part of a comprehensive digital marketing communications strategy. The course employs a mixture of lecture, discussion, simulation games, and sponsored consulting projects with real-world companies.

Prerequisite(s): MKT 3310 with 'C+' or better and GPA of 2.5 or better; or permission of instructor.

MKT 3370 SOCIAL MEDIA MARKETING (3 credits)

This course is designed to familiarize students with social media marketing concepts and applications. It provides a detailed understanding of relevant social media channels and platforms that companies use as part of their marketing mix. Students will apply their knowledge from class by completing several in-class exercises as well as graded assignments. The course employs a mixture of lecture, discussion, simulation games, and sponsored consulting projects with real-world companies.

Prerequisite(s): Completion of MKT 3310 with a C+ or better.

MKT 3380 INTERNATIONAL MARKETING (3 credits)

A study of the processes, procedures, characteristics and environments for goods and services in foreign market places. Reference is drawn to the theories and concepts of domestic marketing to appraise their applicability to international markets. Considerable attention is given to the features of the foreign market environments which both facilitate the marketing processes, inhibit them, and require strategies and tactics of accommodation.

Prerequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better.

MKT 3390 GRAPHIC DESIGN FOR MARKETERS (3 credits)

The course provides a hands-on introduction to the concepts and tools used in graphic design to create marketing communications. Material and assignments will focus on how design supports marketing communication strategy. Students will learn the principles and vocabulary of design, how to critique graphic design, and how to create basic print materials. Students will learn and practice the skills necessary to communicate with graphic designers and advertising professionals in order to successfully implement marketing strategies.

Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better.

MKT 3400 MARKETING INNOVATION (3 credits)

Product, service, and process innovation are essential drivers of firm performance. However, firms face considerable and complex challenges when bringing innovative ideas to life. For example, what marketing research methods should we employ to uncover vital consumer insights? How do these insights influence the development and launch of new products and services? What differentiated value are we delivering to our consumers? How do we successfully bring this new product or service to market? How does a brand's purpose and personality influence consumers' perceptions, purchase decisions, adoption, and engagement? This course will cover key marketing principles involved in the development and launch of new and innovative products and services - from conception to commercialization. Furthermore, we will explore how new-age technologies impact each stage of the development and launch processes. (Cross-listed with BSAD 8435).

Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better; or permission of instructor.

MKT 3410 INTRODUCTION TO SUPPLY CHAIN MANAGEMENT (3 credits)

Supply chain management is the design and management of business processes needed to turn raw materials from suppliers into products and services that meet the needs of the final customer. The goals of this course center around providing students with the foundations of supply chain management and effectively managing the flow of goods, information, and services to obtain sustainable competitive advantage within an industry. Students will develop critical thinking skills focused on business process analysis and the use of key performance indicators to determine operational efficiencies for all organization levels. (Cross-listed with SCMT 3410, MGMT 3410).

Prerequisite(s): Sophomore standing; GPA of 2.0 or better; or by permission of instructor. Not open to non-degree graduate students.

MKT 3600 BUSINESS ETHICS (3 credits)

Students will learn about the factors, opportunities and pressures that lead to ethical dilemmas, and will develop their understanding of foundations and processes that encourage and reward ethical decision making and behaviors. Lots of examples, sourced from case studies and current events will be provided. (Cross-listed with BSAD 3600, MGMT 3600).

Prerequisite(s): Junior classification (minimum of 58 earned credit hours) with a minimum 2.5 cumulative GPA. Completion of MGMT 3200 or MKT 3200 with a minimum grade of 'C' (2.0). Not open to non-degree graduate students.

MKT 3610 BUSINESS TO BUSINESS MARKETING (3 credits)

This course examines the decisions involved in marketing goods and services to the industrial buyer as opposed to the consumer buyer. Buyer motivation, promotion decisions, channel decisions, product development and pricing policies involved in the marketing of industrial goods are considered.

Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better; or permission of instructor

MKT 4000 SPECIAL TOPICS IN MARKETING (3 credits)

This special topics course will address specific topics which will vary by semester and is intended primarily for upper division students who are pursuing a marketing or sales concentration.

Prerequisite(s): MKT 3310 plus 6 hours of Marketing, all with 'C+' or better; GPA of 2.5 or better; or permission of instructor.

MKT 4200 CONSULTATIVE SELLING PRINCIPLES (3 credits)

The primary focus of the Consultative Selling Principles course is to develop the behaviors, methodologies, principles, and processes required to successfully lead and manage complex selling initiatives to a win-win close. The course examines and applies, through role playing and other activities, the critical relationship building, critical thinking, problem solving, listening and negotiating capabilities which are the foundation skills underlying consultative selling. (Cross-listed with BSAD 8206)

Prerequisite(s): MKT 3310 with 'C+' or better; MKT 3100 with C+ or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4210 SELLING FINANCIAL SERVICES (3 credits)

Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with BSAD 8216, FNBK 4210).

Prerequisite(s): MKT 3310 with a C+ or better grade and 2.5 GPA. Not open to non-degree graduate students.

MKT 4220 GLOBAL STRATEGIC ACCOUNT MANAGEMENT (3 credits)

Throughout this course, the management of strategic account programs at national, multi-country, and global levels will be addressed. The primary focus of the curriculum is on the critical success factors for driving revenue, sustainable long term-growth and profitability with a base of core strategic buyers. (Cross-listed with BSAD 8226)

Prerequisite(s): Senior or graduate student standing and permission of the instructor. Not open to non-degree graduate students.

MKT 4300 MARKETING MANAGEMENT (3 credits)

This case study course examines product, price, promotion and channel of distribution policies. Major emphasis is placed on analysis of marketing problems and the facets of making marketing decisions.

Prerequisite(s): MKT 3310 with grade of 'C+' or better plus 6 hours of marketing, all with 'C' (2.0) or better, senior standing; GPA of 2.5 or better; or permission of instructor.

MKT 4320 SALES MANAGEMENT (3 credits)

The student will be exposed to current research findings in sales management and to business cases and simulations where sales management theories and concepts will be applied. This course will prepare students to develop and implement specific compensation, motivation, and evaluation strategies for managing sales professionals across a wide variety of organizations. (Cross-listed with BSAD 8326).

Prerequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4340 MARKETING RESEARCH (3 credits)

Application of analytical tools to marketing problems including markets, products, distribution channels, sales efforts and advertising. Emphasis on planning, investigation, collection, interpretation of data and presentation of results.

Prerequisite(s): MKT 3310 with 'C+' or better; BSAD 2130 or BSAD 3140 or BSAD 3160 with 'C' (2.0) or better; GPA of 2.5 or better; or permission of instructor.

MKT 4360 E-MARKETING (3 credits)

This course focuses on utilizing the Internet as a marketing platform. Course content includes discussion of how the Internet is used by businesses for designing products, pricing, promotions, distribution, positioning, gathering information, and cultivating relationships with stakeholders. The discussion about the rise of social media, sharing economy, virtual reality devices, and other relevant trends will also be part of the course. (Cross-listed with BSAD 8366).

Prerequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4370 MARKETING ANALYTICS (3 credits)

This course focuses on the application of data analytics in marketing decision making (e.g., segmentation, sales forecasting, and resource allocation). Students will learn to apply statistics and econometrics to solve marketing problems. Key topics in this course include marketing data visualization, marketing metrics, descriptive and predictive analytics, and digital marketing analytics. This course takes a very hands-on approach with real-world databases and equips students with tools that can be used immediately on the job. (Cross-listed with BSAD 8396).

Prerequisite(s): MKT 3310 with 'C+' or better; BSAD 2130 or BSAD 3140 or BSAD 3160 with 'C' (2.0) or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4380 INDUSTRIAL PURCHASING AND LOGISTICS MANAGEMENT (3 credits)

This course will focus on the strategic procurement of products and services in order to gain a competitive advantage through integrated supply management. Students will learn about strategic supply management, contract negotiation, and supplier quality management. Students will develop an understanding of supplier performance management through the use of supply chain information systems. (Cross-listed with SCMT 4380, BSAD 8386.)

Prerequisite(s): SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

MKT 4420 BUSINESS DEMOGRAPHICS (3 credits)

The goal of this course is to develop a demographic perspective in order to assist in understanding the business environment and business policy. How population change impacts consumer markets and all of the functions (for example, accounting, finance and management) that must exist for these markets to perform. Includes a history of population change and policy as well as a view toward international population considerations. (Cross-listed with BSAD 8426).

Prerequisite(s): MKT 3310 with 'C+' or better; GPA 2.5 or better, Junior Standing; or permission of instructor. Not open to non-degree graduate students.

MKT 4500 SPECIAL PROBLEMS IN MARKETING (1-3 credits)

This course consists of an individual investigation of specific marketing topics under the supervision of a faculty member and could include readings, independent research, and a written research paper.

Prerequisite(s): Principles of Marketing (MKT 3310) with minimum C+ or permission of instructor.

MKT 4510 MARKETING INTERNSHIP (1-3 credits)

Students engage in part time employment in the marketing discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general marketing or a specialization within the domain (i.e. selling, social media, advertising, market research).

Prerequisite(s): MKT 3310 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MKT 4540 SUPPLY CHAIN MANAGEMENT INTERNSHIP (1-3 credits)

Students engage in part-time employment in supply chain management to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to the field of supply chain management (i.e., purchasing, scheduling, supplier relations, materials management, or logistics). (Cross-listed with SCMT 4540)

Prerequisite(s): MKT-MGMT 3410 Sustainable Supply Chain Management and GPA of 2.5 or better; or by permission of the instructor. Not open to non-degree graduate students.

MKT 4720 INNOVATION VENTURES (3 credits)

This team-based course provides students with the opportunity to practice the basic tools of business discovery and validation. Concepts and techniques in innovation, entrepreneurship, and strategy will be used to aid students in the venture creation process. Important considerations impacting the viability of the venture post formation will also be explored. Practical real-world experimentation is the central component of the course and will help students to conceive, develop, and launch their own innovative ventures. (Cross-listed with BSAD 8726, ACMP 4720, ACMP 8256, ENTR 4720, MGMT 4720).

Prerequisite(s): ENTR 3710 and junior standing or above or by instructor permission

MKT 4760 SELLING IN AN ENTREPRENEURIAL CONTEXT (3 credits)

Successful entrepreneurs are able to identify unmet needs in the marketplace and then design and sell products or services that fulfill those needs. Sales effectiveness is essential for entrepreneurs because they must be able to build sustainable sales pipelines that ensure profitable growth while simultaneously addressing other pressing issues including financing, staffing, and product development. This course will focus on consultative solution-based sales fundamentals that can be applied in an entrepreneurial selling environment. (Cross-listed with ENTR 4760, BSAD 8766)

Prerequisite(s): GPA 2.5 or better; MKT 3100 with a "C+" or better; MKT 3310 with a "C+" or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4800 HONORS STUDIES IN MARKETING (3 credits)

A comprehensive examination of marketing as it is practiced among firms representing different industrial sectors. Course objectives include individual inquiry, theoretical applications and limitations, and an increased academic understanding of the discipline of marketing. Only grades 'B' and above will be awarded. Students exhibiting performance below the 'B' level will receive an 'F' for the course. Admission to this course is by invitation only.

Prerequisite(s): Permission of instructor. Senior standing, 3.2 GPA or above, declared business college specialization in MKT or BFIN or MGMT or communications (journalism, PR or broadcasting). Not open to non-degree graduate students.

Real Estate and Land Use Economics**RELU 2410 REAL ESTATE PRINCIPLES AND PRACTICES (3 credits)**

An introductory survey of real estate principles and practices which introduces the terminology, concepts and basic practices in the fields of real estate law, real estate finance, real estate appraisal, real estate property taxation and miscellaneous topic areas. Note: Students cannot receive credit for both RELU 2410 and RELU 3410. (Fall, Spring)

RELU 2700 REAL PROPERTY RIGHTS AND OWNERSHIP: OVERCOMING BARRIERS (3 credits)

Real estate is ubiquitous and the ownership of property - and accompanying property rights - have shaped US history and enabled millions to build wealth. At the same time, property ownership has eluded many, especially those from underrepresented groups. This class will expose students to historical and current barriers to property ownership, assess efforts to address these disparities, explore remedies, and give students the practical tools they'll need to plan for, and eventually acquire, their first home or other real estate.

RELU 3410 REAL ESTATE PRINCIPLES AND PRACTICES (3 credits)

This is a survey course in real estate principles and practices, which is designed to familiarize students with industry terminology, current practices, and cover the following topics: Licensure, property rights, legal descriptions, real estate law and contracts, appraisal, financing, investments, Fair Housing, and related topic areas. This course provides foundational knowledge of the real estate field and will prepare students to successfully complete more advanced real estate coursework. NOTE: Students cannot receive credit for both RELU 2410 and RELU 3410. (Cross-listed with BSAD 8605).

RELU 3430 REAL ESTATE BROKERAGE AND SALES (3 credits)

Overview of real estate brokerage and sales principles, to include buying and selling, leasing, brokerage business operations, contracts, closings, legal requirements, Fair Housing, advertising, and career opportunities.

Prerequisite(s): RELU 2410 or RELU 3410.

RELU 3450 PROPERTY MANAGEMENT (3 credits)

This course focuses on commercial and residential property management concepts and their application to the operation, control, and oversight of real property. The course will study leasing, tenant selection and relations, maintenance, marketing, contract management, asset management principles, as well as Fair Housing Laws and the Americans With Disabilities Act as they pertain to property management. (Cross-listed with BSAD 8625).

Prerequisite(s): RELU 2410 or RELU 3410.

RELU 3460 REAL ESTATE LAW (3 credits)

Upper-level survey course in real estate law, which examines estates in land, conveyances, leases, mortgages, easements, zoning, environmental law, contracts, taxes, foreclosures, landlord-tenant relations, agency, Fair Housing, and Nebraska License Law. (Cross-listed with LAWS 3460)

Prerequisite(s): RELU 2410 or RELU 3410.

RELU 4390 REAL ESTATE INVESTMENTS (3 credits)

This course focuses on methods used to analyze existing and proposed commercial and residential real estate investments through dynamic programming models, and explores strategies to finance commercial real estate. The class ultimately prepares students to understand the risks and rewards associated with financing and investing in real estate. (Cross-listed with BSAD 8616).

Prerequisite(s): RELU 2410 or RELU 3410 or FNBK 3250

RELU 4400 RESIDENTIAL REAL ESTATE FINANCE (3 credits)

This course focuses on the methods of financing residential real estate through the examination of various mortgage instruments, mortgage lenders, and the risks associated with leveraging real property. Industry terminology, concepts, best practices, and financial calculations are also presented, as are the influences of governmental policies on the industry. (Fall)

Prerequisite(s): RELU 2410 or RELU 3410

RELU 4410 BASIC APPRAISAL PROCEDURES (3 credits)

Fundamentals of real estate valuation and appraising; factors affecting value; valuing land, valuing improvements and the valuation of special classes of residential property; appraisal practice, depreciation and obsolescence, appraising rules, the mathematics of appraising; an appraisal of a single family residence is required.

Prerequisite(s): RELU 2410 or RELU 3410 AND FNBK 3250 with a C or better

RELU 4420 INCOME PROPERTY APPRAISAL (3 credits)

Introduction to the theory and concepts of income capitalization approaches, methods and techniques to valuation of real estate income property. Characteristics of yield on investment real estate; future income projections; mortgage coefficients; purchase and leaseback reversions; Ellwood Tables; capitalization rates and investment yields; types of annuities; and condemnation appraisal. (Spring)

Prerequisite(s): RELU 2410 or RELU 3410; and FNBK 3250

RELU 4440 REAL ESTATE DEVELOPMENT (3 credits)

This course focuses on the procedures and complexities in developing and redeveloping various commercial property types and mixed-use real estate. Topics include an overview of the real estate development process, assembling a team, identifying project stakeholders, financial analysis, site selection, market analysis, and the regulatory environment. (Cross-listed with BSAD 8626).

Prerequisite(s): RELU 2410 or RELU 3410 with a grade of B or above, and a cumulative GPA of 3.0 or better, or permission of Real Estate Program Director.

RELU 4460 COMMERCIAL REAL ESTATE FINANCE (3 credits)

A foundation course in commercial real estate finance including legal, analytical, institutional and governmental aspects.

Prerequisite(s): RELU 2410 and FNBK 3250

RELU 4500 REAL ESTATE INDEPENDENT STUDY (1-3 credits)

Individual investigation of specific issues or problems in real estate.

Prerequisite(s): Permission of Real Estate Program Director.

RELU 4510 REAL ESTATE INTERNSHIP (1-3 credits)

Students will engage in an applied experience in their area of specialization to gain relevant industry experience and to practice the skills and concepts learned in the classroom. Student reports on the internship experience and an employer's evaluation of the student's performance are course requirements. RELU 4510 may be taken for a maximum of 3 credits. (Fall, Spring, Summer)

Prerequisite(s): Permission of Department Internship Coordinator.

Supply Chain Management**SCMT 3000 MANAGERIAL ACCOUNTING FOR SUPPLY CHAIN MANAGEMENT (3 credits)**

This course highlights the important role of a managerial accountant in managing a global supply chain and covers the key accounting techniques for supply chain management. (Cross-listed with ACCT 3000)

Prerequisite(s): ACCT 2020 with a grade of C (2.0) or better or ACCT 2000 with a grade of C (2.0) or better and cumulative GPA of 2.5 or higher. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160. Not open to non-degree graduate students.

SCMT 3410 INTRODUCTION TO SUPPLY CHAIN MANAGEMENT (3 credits)

Supply chain management is the design and management of business processes needed to turn raw materials from suppliers into products and services that meet the needs of the final customer. The goals of this course center around providing students with the foundations of supply chain management and effectively managing the flow of goods, information, and services to obtain sustainable competitive advantage within an industry. Students will develop critical thinking skills focused on business process analysis and the use of key performance indicators to determine operational efficiencies for all organization levels. (Cross-listed with MGMT 3410, MKT 3410).

Prerequisite(s): Sophomore standing; GPA of 2.0 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 3500 MANAGING OPERATIONS IN THE SUPPLY CHAIN (3 credits)

The course is designed to introduce students to strategic decisions in manufacturing and service operations. Students will learn how operations integrate all other business processes for competitive advantage. The course covers current applications of quality concepts, business process reengineering, supply-chain management, lean systems, and ERP systems for business operations efficiency and effectiveness.

Prerequisite(s): BSAD 2130 or 3160, ENGL 1160/ENGL 1164 or concurrent enrollment in ENGL 1160/1164 each with "C" or better and 2.5 GPA

SCMT 4060 HEALTHCARE ANALYTICS FOR BUSINESS (3 credits)

This course will focus on the mixing of analytics and technology to develop key performance indicators that integrate and evaluate clinical, administrative, and financial performance. Concepts in this course explore the intersection of information management, performance metrics, data visualization, and result communication spanning across the healthcare ecosystem. Topics covering health outcome analysis, financial performance, developing analytic strategies, data quality and governance, and the four stages of actionable intelligence are all used to educate the advantages of leveraging analytics. (Cross-listed with BSAD 8066, MGMT 4060).

Prerequisite(s): MGMT 3490 or SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4070 INTERNATIONAL LOGISTICS MANAGEMENT (3 credits)

This course will focus on the logistics of international trade and how managers facilitate the flow of goods and services in import and export environments. Students will learn about infrastructure and business practices needed to manage international transportation, communications, services, and regulatory requirements. Students will develop an understanding of international terms of trade, transaction risk management, and location decisions for placement of warehouses and distribution centers. (Cross-listed with BSAD 8076).

Prerequisite(s): SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4090 MANAGING COLLABORATIVE ENGAGEMENT (3 credits)

This course will provide students with the opportunity to develop knowledge and strategies for leading teams, enhancing collaboration, building consensus, problem solving in teams, facilitating group processes, and designing collaborative workspaces. (Cross-listed with BSAD 8096, ACMP 4090, MGMT 4090)

Prerequisite(s): Junior standing or permission of instructor.

SCMT 4160 ENTERPRISE RESOURCE PLANNING SOFTWARE CONSULTING (3 credits)

Enterprise Resource Planning (ERP) consulting is designed to provide students foundational knowledge required to become a consultant working with enterprise systems. ERP systems are used by most organizations to manage and integrate the core functions of a business. Students will be exposed to a broad range of consulting skills that spans package selection to the implementation process. Students will work with a live instance of an ERP system focusing on the cross-functional integration of core business processes primarily in a manufacturing environment including finance, operations/supply chain, procurement, and fulfillment. The goal of the course is to provide students a foundation for careers in the area of ERP systems and consulting. (Cross-listed with ISQA 4160, ISQA 8166)

SCMT 4170 EMERGING TRENDS IN SUPPLY CHAIN MANAGEMENT (3 credits)

This course will focus on megatrends influencing supply chain management and design in the 21st century. Key concepts in this course will include contemporary opportunities and challenges in creating customer value via the supply chain with a focus on globalization, sustainability, and risk management. Specific topics will include the influence of the empowered customer on supply chain design, global supply chain trends, and the need for integration of technology and talent to create a competitive advantage. (Cross-listed with BSAD 8176).

Prerequisite(s): SCMT 3410/MKT 3410/MGMT 3410 Sustainable Supply Chain Management; Cumulative GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4330 PROJECT MANAGEMENT (3 credits)

This course focuses on the systemic exploration of planning and executing complex projects to create organizational success. Using a comprehensive understanding of principles, methodologies, and tools within project management, students will learn how to initiate critical processes, plan objectives and constraints, execute management and leadership, monitor budgets and development, and close outcomes of complex projects. Skills obtained from this course enhance individuals' ability to recognize, identify, and prioritize organizations' culture and structure to lead projects across various industries efficiently. (Cross-listed with MGMT 4330, BSAD 8336)

Prerequisite(s): MGMT3490 with a C or better and a 2.5 GPA; or permission of the instructor. Not open to non-degree graduate students.

SCMT 4350 GLOBAL SOURCING AND INNOVATION (3 credits)

This course focuses on global suppliers as partners in the development and commercialization of new products. Students will learn about open innovation and the integration of internal and external business systems in new product innovation. Students will develop an understanding of regulatory policies related to information sharing and the intellectual property rights of buyers and suppliers. (Cross-listed with BSAD 8356).

Prerequisite(s): SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4370 SUPPLY CHAIN ANALYTICS (3 credits)

This course focuses on integrating supply chain management through the use of key performance indicators. Key concepts in this course include data visualization, supplier performance metrics, service-dominant logic, and the supply chain for data. Specific topics include the influence of the empowered customer on supply chain metrics, using metrics to develop a competitive advantage, data-driven decision making, and the four stages of actionable intelligence. (Cross-listed with BSAD 8376).

Prerequisite(s): SCMT 3410 with a grade of C or above, at least a cumulative GPA of 2.5, or permission of instructor. Not open to non-degree graduate students.

SCMT 4380 INDUSTRIAL PURCHASING AND LOGISTICS MANAGEMENT (3 credits)

This course will focus on the strategic procurement of products and services in order to gain a competitive advantage through integrated supply management. Students will learn about strategic supply management, contract negotiation, and supplier quality management. Students will develop an understanding of supplier performance management through the use of supply chain information systems. (Cross-listed with MKT 4380, BSAD 8386)

Prerequisite(s): SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4440 MANAGEMENT OF QUALITY AND PROCESS IMPROVEMENT (3 credits)

Major topics in this course include TQM, process reengineering, process improvement, and tools and techniques to formulate, change and implement these concepts in organizations. Students can develop their knowledge and skills to apply these concepts in organizations through the applied orientation of this course. (Cross-listed with MGMT 4440).

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

SCMT 4450 MANAGERIAL NEGOTIATION STRATEGIES (3 credits)

This course introduces students to the theory and practice of negotiation across various organizational settings. The ability to successfully negotiate an outcome is an important aspect of management and leadership. Negotiation can be used to determine multiparty relationships, manage conflict resolution, and improve organizational outcomes. Using a combination of conceptual frameworks, roleplaying exercises, and debriefing opportunities, the design of this course is structured to help students understand the power and influence negotiation has over the successful outcomes of managers, leaders, and organizations. (Cross-listed with MGMT 4450, BSAD 8456)

Prerequisite(s): MGMT 3490 with a grade of C or above, at least a cumulative GPA of 2.5, or permission of instructor.

SCMT 4460 SUPPLY CHAIN INTEGRATION (3 credits)

This course will focus on the integration of internal and external systems designed to maximize the efficiency and effectiveness of supply chain networks developed by industrial organizations, government agencies, and not-for-profit organizations. Key concepts will include supply chain design, trends in technology, and cross-functional collaboration, coordination, and communication along the value chain. Specific topics will include the influence of empowered customers on supply chain integration, global supply chain trends, closed-loop supply chains, and the challenges and benefits of integrating technology and talent in the workplace.

Prerequisite(s): SCMT 3410/MKT 3410/MGMT 3410 Sustainable Supply Chain Management; Cumulative GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

SCMT 4540 SUPPLY CHAIN MANAGEMENT INTERNSHIP (1-3 credits)

Students engage in part-time employment in supply chain management to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to the field of supply chain management (i.e., purchasing, scheduling, supplier relations, materials management, or logistics). (Cross-listed with MKT 4540).

Prerequisite(s): SCMT 3410, GPA of 2.5 or better, AND permission of instructor. Not open to non-degree graduate students.

BSBA as a Second Bachelor's Degree

All BSBA concentrations require 18 credit hours, except Accounting, which requires 24 credit hours.

Some concentrations or secondary concentrations require students to earn a "C+" or better in specific foundation courses. Specifically, MKT 3310 is the foundation course for the Marketing concentration as well as for the Marketing secondary concentration. MKT 3310 & MKT 3100 are the foundation courses for Sales concentration as well as for the Sales secondary concentration. Finally, FNBK 3250 & FNBK 3300 are the foundation courses for the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management concentrations as well as the Business Finance, Banking and Financial Markets, and Investment Science & Portfolio Management secondary concentrations.

To meet requirements for the BSBA degree, students must earn a minimum of 120 credit hours in courses acceptable to the College of Business Administration: 42 of those credits must be upper division courses (3000-4000 level), with the following requirements:

- Business GPA of 2.50 or above
- Cumulative GPA of 2.50 or above
- GPA of 2.50 or above for all upper division accounting courses (excluding ACCT 3000, ACCT 4500, and ACCT 4510) for the accounting concentration and secondary concentration.
- No grade below a "C" (2.0) will be counted as satisfactory completion of BSBA degree MAJOR REQUIREMENTS, including CBA BSBA business core courses, BSBA concentration courses, business elective courses, ENGL 1150, ENGL 1160, CMST 1110 and MATH 1370 (or MATH 1930).

An Advising hold will be placed if a student does not meet the 2.5 GPA. The hold will not be removed until the requirements are met or the student chooses a major outside the College of Business Administration.

Concentration Courses **18-24**

ELECTIVES

Elective hours as required to reach a total of 120 hours

Students who previously earned a business degree cannot earn a second business degree. If a student completes all requirements (including any necessary prerequisites) associated with an additional BSBA concentration after earning a business degree, the student's transcript will only list the courses completed, not the additional BSBA concentration. If desired, upon completion of all BSBA concentration requirements, the student may request (through CBA's Undergraduate Advising Office) a letter indicating that the student has completed all requirements for the additional BSBA concentration.

Accounting Mission Statement

The UNO School of Accounting leverages its distinctive metropolitan position to:

- Prepare students for professional accounting and business careers by delivering AACSB Accounting Accredited and IMA Endorsed BSBA-Accounting and Master of Accounting programs,
- Create and disseminate knowledge that impacts students, the academy, and business professionals by engaging in relevant scholarly activities, and
- Enrich relationships among students, faculty, and business professionals in the Omaha region by providing and supporting engagement opportunities.

The UNO School of Accounting has earned supplemental accounting accreditation by the AACSB International (Association to Advance Collegiate Schools of Business) for its undergraduate and graduate programs in accounting. This accreditation is in addition to the UNO College of Business Administration's AACSB business accreditation. Fewer than 200 institutions worldwide hold both AACSB business and accounting accreditation. Information about AACSB accreditation is available here (<https://www.aacsb.edu/educators/accreditation/business-accreditation/>).

The UNO School of Accounting has received the IMA Endorsement of Higher Education from the Institute of Management Accountants for its management accounting curricula. UNO's accounting programs meet the educational standards enabling students to pursue the Certified Management Accountant (CMA) credential and careers in private and public accounting. Information about the IMA's endorsement program is available here (<https://www.imanet.org/educators/higher-education-endorsement-program/?ssopc=1>).

The UNO School of Accounting is recognized by the Institute of Internal Auditors (IIA) as an IIA Internal Audit Awareness Program School, acknowledging our inclusion of internal auditing concepts in auditing courses. See information about the this IIA program here (<https://www.theiia.org/en/about-us/initiatives-and-awards/academic-relations/internal-audit-academic-awareness-program/>).

Accounting students have the opportunity to acquire an excellent accounting education from faculty members who use appropriate and

varied teaching methodologies and who incorporate the most recent developments in their discipline into the curriculum. Accounting instructors seek to create an environment which maximizes the development of critical skills such as problem solving, analysis, technology agility, communication and teamwork. Students are strongly encouraged to continue their professional development and to enhance their careers by seeking a Master of Accounting or other graduate degree and one or more professional certifications or designations. Well-recognized and valued accounting certifications include the Certified Public Accountant (CPA), the Certified Management Accountant (CMA), the Certified Internal Auditor (CIA), the Certified Fraud Examiner (CFE), and the Certified Information Systems Auditor (CISA).

Nebraska applicants for the CPA Exam are required to have completed at least 150 college semester credit hours. UNO students can meet the CPA Exam educational requirements with a minimum of 150 credit hours by completing the BSBA-Accounting degree (120 hours) and the Master of Accounting (MAcc) degree (30 hours) at UNO. Complete information on the MAcc degree program is available online (<https://www.unomaha.edu/college-of-business-administration/accounting/graduate-program/>) or in the UNO graduate catalog. Additional information about the undergraduate accounting program, including links to professional associations and certification resources, is available online (<https://www.unomaha.edu/college-of-business-administration/accounting/>).

BSBA degree candidates may earn a concentration in accounting, and BSBA degree candidates earning a concentration in other business areas may earn a secondary concentration in accounting. A student who has previously earned a non-business bachelor's degree and who completes all of the accounting concentration course and GPA requirements does not earn a business degree, an accounting concentration, or a secondary concentration; that student's transcript lists the courses completed and grades earned.

Special Requirements

Course-related items:

1. Students interested in taking the CPA Exam in Nebraska must complete ACCT 4070 or ACCT 8076 or ACCT 8090.
2. Students pursuing an accounting concentration who complete ACCT 3080 with a grade of C or better are not required to take the business core course MGMT 3100.

Concentration-related items:

- A student may enroll only twice in any upper-division accounting course. You are enrolled in a course if your name appears on the final class list published immediately after drop/add week. Therefore, you may drop a course only one time (excluding drops during drop/add week). If you drop the same course twice (or receive any grade below a C twice), you will not be permitted to enroll in this course a third time.
- A minimum GPA of 2.50 overall is required for enrollment in any upper-division (3000-level or 4000-level) accounting course.
- Accounting courses at the 4000-level also require a minimum GPA of 2.50 in all upper-division UNO accounting courses successfully completed to date (excluding ACCT 3000, ACCT 4500, and ACCT 4510).
- Students who wish to contract to take upper-division accounting courses as "honors" courses should contact the course instructor.

Accounting study at UNO provides the skills for many diverse career choices in the accounting field as well as an excellent foundation to pursue CPA, CMA, and other types of certifications. Accounting career options include professional positions in the areas of auditing and information systems, financial accounting, management accounting, and taxation.

The School of Accounting offers Power Dinners and the annual Meet the Firms Expo as part of its Accounting Careers Program for students to explore diverse accounting career paths and to engage with accounting professionals. The School of Accounting's Accounting Career Advisor

and Internship Coordinator mentors and advises students and provides guidance for internships and other career opportunities.

Student Groups

Beta Alpha Psi

Beta Alpha Psi (BAP) is an honor organization for financial information students and practicing professionals. The primary objective of Beta Alpha Psi is to encourage and give recognition to scholastic and professional excellence. This includes promoting the study and practice of accounting, finance, and information systems; providing opportunities for self-development, service and the association of members with practicing professionals; and encouraging a sense of ethical, social and civic responsibility. Membership into Beta Alpha Psi is based on scholastic achievement.

ACCT 2000 ACCOUNTING BASICS FOR NON-BUSINESS MAJORS (3 credits)

This course is designed to provide non-business students with an understanding of basic accounting terms and concepts, an understanding of the usefulness of accounting data for decision-making by internal and external business stakeholders, and the skills to actually use accounting data in decision-making.

Prerequisite(s): Student must be a non-business student. ENGL 1150 and MATH 1310 or MATH 1220 with a 'C' (2.0) or better. Not open to non-degree graduate students

Distribution: Social Science General Education course

ACCT 2010 PRINCIPLES OF ACCOUNTING I (3 credits)

Basic concepts and assumptions underlying financial accounting; basic structure of accounting; the accounting cycle; external financial statements of the enterprise with emphasis on the corporation; income determination; accounting for and reporting of assets, liabilities and owners' equity; analysis and reporting of cash flows; financial statement analysis.

Prerequisite(s): ENGL 1150 with a 'C' (2.0) or better, a GPA of 2.5 or higher, and MATH 1370 or MATH 1930 with a 'C' (2.0) or better or concurrent enrollment in MATH 1370 or MATH 1930

ACCT 2020 PRINCIPLES OF ACCOUNTING II (3 credits)

A study of techniques and concepts affecting internal accounting in a business organization. These include budgeting in general, costing systems, variance analysis and generating reports for management decision-making. Special topics include segment reporting, control of decentralized operations, capital budgeting, and service department cost allocations.

Prerequisite(s): ACCT 2010, ENGL 1150, and MATH 1370 or MATH 1930, each with a C (2.0) or better, and a GPA of 2.5 or higher.

ACCT 3000 MANAGERIAL ACCOUNTING FOR SUPPLY CHAIN MANAGEMENT (3 credits)

This course highlights the important role of a managerial accountant in managing a global supply chain and covers the key accounting techniques for supply chain management. (Cross-listed with SCMT 3000)

Prerequisite(s): ACCT 2020 with a grade of C (2.0) or better or ACCT 2000 with a grade of C (2.0) or better and cumulative GPA of 2.5 or higher. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160. Not open to non-degree graduate students.

ACCT 3020 BASIC FEDERAL INCOME TAXATION (3 credits)

This course provides an introduction to the basic concepts and principles of federal income tax with an emphasis on concepts unique to individual taxpayers.

Prerequisite(s): ACCT 2020, ENGL 1150, ECON 2200 and ECON 2220 with a 'C' (2.0) or better in each course. Cumulative GPA of at least 2.5.

ACCT 3030 INTERMEDIATE FINANCIAL ACCOUNTING I (3 credits)

A more intensive study of basic accounting theory and principles learned in ACCT 2010. Topics include a conceptual framework of accounting, net income concepts, financial statements, present value applications, revenue recognition, current assets, plant assets, and intangible assets.

Prerequisite(s): ACCT 2020, ECON 2200, and ECON 2220, with a grade of 'C' (2.0) or better in each course and a 2.5 GPA. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3040 INTERMEDIATE FINANCIAL ACCOUNTING II (3 credits)

This is the second of two courses in intermediate financial accounting. This course focuses on financial reporting issues relating investments, debt financing, leases, contingencies, cash flows reporting and income taxes.

Prerequisite(s): ACCT 3030 and ENGL 1160, each with a 'C' (2.0) or better.

ACCT 3050 INTERMEDIATE MANAGERIAL ACCOUNTING (3 credits)

The objective of managerial accounting is to provide management with relevant and timely information to aid economic decision making. This course analyzes numerous economic decisions and identifies what information is relevant. Special attention is given to how different cost accumulation systems and different cost accounting and estimating techniques can aid the decision-making process.

Prerequisite(s): ACCT 2020, ECON 2200, ECON 2220, and BSAD 2130, BSAD 3140 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 3080 ACCOUNTING INFORMATION SYSTEMS (3 credits)

Introduction to professional accounting information systems, including information systems concepts, accounting and database software and research tools to provide a foundation for subsequent accounting courses.

Prerequisite(s): ACCT 2020, ECON 2200 and ECON 2220, with "C" (2.0) or better in each. Cumulative GPA of at least 2.5. ENGL 1160 with a grade of 'C' (2.0) or better or concurrent enrollment in ENGL 1160.

ACCT 4010 ADVANCED FINANCIAL ACCOUNTING (3 credits)

Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 8016)

Prerequisite(s): ACCT 3030 and ACCT 3040 with "C+" (2.33) or better in each and ENGL 1160 with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4020 ANALYTICS FOR ACCOUNTING (3 credits)

Students develop an Analytics Mindset for the accounting profession, which includes the crossover competencies of accounting and business knowledge, data modeling and analytic abilities, and communication skills. Principal topics include fundamentals of data capture and cleansing, database development and implementation, visualization and presentation of information, and the use of accounting information for business decisions.

Prerequisite(s): ACCT 3030, ACCT 3080, and ENGL 1160 each with C (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4040 ADVANCED FEDERAL INCOME TAXATION (3 credits)

Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 8046.)

Prerequisite(s): ACCT 3020, ACCT 3030, and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4050 PRINCIPLES OF INTERNAL AUDIT (3 credits)

This course introduces students to the internal audit profession and the internal audit process. Topics include: the definition of internal auditing, The Institute of Internal Auditor's International Professional Practices Framework, risk, governance and control issues, fraud detection and mitigation, communicating results, and conducting internal audit engagements. (Cross-listed with ACCT 8056).

Prerequisite(s): ACCT 3030 and ACCT 3080, each with a grade of C or better, and overall and upper-level accounting GPAs of 2.5 or better. Not open to non-degree graduate students.

ACCT 4060 ADVANCED MANAGERIAL ACCOUNTING (3 credits)

Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 8066.)

Prerequisite(s): ACCT 3050, ACCT 3030, and ENGL 1160, each with "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4070 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)

Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 8076.)

Prerequisite(s): ACCT 3030 and ENGL 1160, each with a "C" (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division accounting GPA of at least 2.5. Not open to non-degree graduate students.

ACCT 4080 PRINCIPLES OF AUDITING (3 credits)

An introduction to auditing, Standards, responsibilities, professional ethics, the audit framework, evidence and reports are studied.

Prerequisite(s): ACCT 3030, ACCT 3080, ENGL 1160, and BSAD 2130 or BSAD 3160, with a "C" (2.0) or better in each. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4090 INFORMATION SYSTEMS AUDITING (3 credits)

This course will provide an introduction of auditing an advanced accounting information system. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association. Accounting information systems control and security practices, and their assessment, will be discussed in the areas of operations, physical and logical access, systems, networks, development and applications, and incorporating hands-on exposure to automated evaluation tools.

Prerequisite(s): ACCT 4080 with a grade of C (2.0) or better. Cumulative GPA of at least 2.5. Cumulative upper-division Accounting GPA of at least 2.5.

ACCT 4500 INDEPENDENT STUDY (1-3 credits)

Individual investigation of specific problems in the field of accounting.

Prerequisite(s): Must have permission of the School of Accounting director.

ACCT 4510 ACCOUNTING INTERNSHIP (1-3 credits)

A course for junior or senior accounting students to apply their academic accounting knowledge to accounting practice in an employment situation. A student report on the internship experience and an employer's evaluation of the student's performance are course requirements. Can be applied to free electives, but not accounting specialization electives. (Maximum of 3 hours)

Prerequisite(s): ACCT 3030 and ENGL 1160, each with a C (2.0) or better, and permission of internship coordinator.

ACCT 8016 ADVANCED FINANCIAL ACCOUNTING (3 credits)

Specialized issues in financial accounting. Principal topics include business combinations and consolidated financial statements, partnership accounting, translation of foreign currency financial statements, accounting for foreign currency denominated transactions, and SEC reporting requirements. (Cross-listed with ACCT 4010).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3030 and ACCT 3040 with a grade of "C+" (2.33) or better in each. Not open to non-degree graduate students.

ACCT 8046 ADVANCED FEDERAL INCOME TAXATION (3 credits)

Analysis of various advanced tax issues, such as accounting methods, property transactions, and formation, operation, and liquidation of C-corporations, S-corporations and partnerships. (Cross-listed with ACCT 4040).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3020 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8050 FINANCIAL STATEMENT ANALYSIS (3 credits)

Using the financial statement and supplemental information as inputs, this course utilizes a systematic fundamental analysis approach across a variety of decision-making contexts to understand how a business generates value for shareholders.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3040 with a "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8056 PRINCIPLES OF INTERNAL AUDIT (3 credits)

This course introduces students to the internal audit profession and the internal audit process. Topics include: the definition of internal auditing, The Institute of Internal Auditor's International Professional Practices Framework, risk, governance and control issues, fraud detection and mitigation, communicating results, and conducting internal audit engagements. (Cross-listed with ACCT 4050).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. Not open to non-degree graduate students.

ACCT 8066 ADVANCED MANAGERIAL ACCOUNTING (3 credits)

Intensive study and discussion of the responsibilities of managerial accountants in the decision-making process in organizations and the consequences of the manner in which they use cost accounting information in decision-making. (Cross-listed with ACCT 4060).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3050 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8076 GOVERNMENTAL/NONPROFIT ACCOUNTING AND AUDITING (3 credits)

Study of budgeting, accounting, financial reporting and auditing in governmental and nonprofit entities. (Cross-listed with ACCT 4070).

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 3030 with a grade of "C" (2.0) or better. Not open to non-degree graduate students.

ACCT 8080 CURRENT TECHNOLOGY USE IN ACCOUNTING (3 credits)

This course will cover tools and methods that facilitate business analytic techniques, with a focus on current and emerging technology. This may include tools for databases, spreadsheets, robotic process automation, data mining, artificial intelligence, and others.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. Successful completion of BSAD 8110, ACCT 2020, or equivalent. Not open to non-degree graduate students.

ACCT 8090 INFORMATION SYSTEMS AUDITING (3 credits)

This course presents a broad overview of the professional practice of information systems audit, emphasizing control and audit procedures related to security along with Information Technology General Controls. Content studied will include professional standards, guidelines, and procedures promulgated by the Information Systems Audit and Control Association.

Prerequisite(s): ACCT 4080 with a grade of C (2.0) or better. Admission to MAcc or MBA program or permission of instructor. Not open to non-degree graduate students.

ACCT 8210 FINANCIAL ACCOUNTING THEORY (3 credits)

The development of accounting, current accounting theory and present controversies and suggested theory and practice.

Prerequisite(s): ACCT 3040. Not open to non-degree graduate students.

ACCT 8220 GRADUATE TOPICS IN INCOME TAXATION (3 credits)

This course will discuss commonly encountered tax issues such as gift and estate taxation, income taxation of estates and trusts, and exempt organizations, as well discuss current events while introducing the student to practitioner-oriented research publications.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better, or concurrent enrollment in ACCT 4040 or ACCT 8046. Not open to non-degree students.

ACCT 8230 MANAGEMENT ACCOUNTING ISSUES (3 credits)

An analysis of information to assist managers in determining successful strategies, developing those strategies into plans and controlling operating activities to achieve strategic goals.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 3050 or BSAD 8210 with a "C" (2.0) of better. Not open to non-degree graduate students.

ACCT 8250 SEMINAR IN ACCOUNTING (3 credits)

A study of a specific area within the accounting discipline. Possible areas include: auditing, financial, managerial, systems and tax. May be repeated, but no area can be taken more than once.

Prerequisite(s): Admission to MAcc or MBA programs or permission of instructor. Not open to non-degree students.

ACCT 8260 FEDERAL TAX RESEARCH AND PLANNING (3 credits)

This course is intended to provide students with a working knowledge of the primary and secondary tax resources used in practice to solve tax problems, as well as basic tax planning concepts.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. ACCT 4040 or ACCT 8046 with a "C" (2.0) or better. Not open to non-degree students.

ACCT 8280 SEMINAR IN ACCOUNTING INFORMATION SYSTEMS (3 credits)

This course examines current topics in Accounting Information Systems (AIS), how AIS contributes to business effectiveness and ineffectiveness, and the interaction between AIS and human decision-makers.

Prerequisite(s): Admission to MAcc or MBA program or permission of instructor. Successful completion of BSAD 8110, ACCT 2020, or equivalent. Not open to non-degree graduate students.

ACCT 8290 ADVANCED FINANCIAL AUDITING (3 credits)

This course will provide students with an intense study of financial auditing in accordance with generally accepted auditing standards.

Prerequisite(s): Admission to MAcc or MBA program or permission of the Director of the MAcc program. ACCT 4080 with a grade of "C" (2.0) or better.

ACCT 8900 INDEPENDENT RESEARCH (1-3 credits)

This is an independent research course in which the student completes a focused project, typically individual research, under faculty supervision to supplement graduate study in a specific area within the Accounting discipline.

Prerequisite(s): Completed contract and permission needed from director of MACC program. Not open to non-degree graduate students.

ACCT 8910 SPECIAL TOPICS IN ACCOUNTING (3 credits)

A variable content course with accounting topics based on student and faculty interest. May be repeated to a maximum of six (6) hours.

Prerequisite(s): Admission to MAcc program and permission of instructor. Not open to non-degree graduate students.

Accounting Concentration

To earn an accounting concentration, a student must

- earn a minimum GPA of 2.50 overall, and
- earn a minimum GPA of 2.50 in all upper-division accounting courses successfully completed at UNO (excluding ACCT 3000 (<https://catalog.unomaha.edu/search/?P=ACCT%203000>), ACCT 4500 (<https://catalog.unomaha.edu/search/?P=ACCT%204500>), and ACCT 4510 (<https://catalog.unomaha.edu/search/?P=ACCT%204510>)).

Special Requirements

Course-related items:

1. Students interested in taking the CPA Exam in Nebraska must complete ACCT 4070 (<https://catalog.unomaha.edu/search/?P=ACCT%204070>).
2. Students pursuing an accounting concentration who complete ACCT 3080 (<https://catalog.unomaha.edu/search/?P=ACCT%203080>) with a grade of C or better are not required to take the business core course MGMT 3100 (<https://catalog.unomaha.edu/search/?P=MGMT%203100>).

Concentration-related items:

- A student may enroll only twice in any upper-division accounting course. You are enrolled in a course if your name appears on the final class list published immediately after drop/add week. Therefore, you may drop a course only one time (excluding drops during drop/add week). If you drop the same course twice (or receive any grade below a C twice), you will not be permitted to enroll in this course a third time.
- A minimum GPA of 2.50 overall is required for enrollment in any upper-division (3000-level or 4000-level) accounting course.
- Accounting courses at the 4000-level also require a minimum GPA of 2.50 in all upper-division accounting courses successfully completed at UNO to date (excluding ACCT 3000 (<https://catalog.unomaha.edu/search/?P=ACCT%203000>), ACCT 4500 (<https://catalog.unomaha.edu/search/?P=ACCT%204500>), and ACCT 4510 (<https://catalog.unomaha.edu/search/?P=ACCT%204510>)).
- Students who wish to contract to take upper-division accounting courses as "honors" courses should contact the course instructor.

Contact: UNO School of Accounting at 402.554.3650 or unocbaaccounting@unomaha.edu

¹ Requires placement from UNO's English Placement and Proficiency Exam.

² Requires placement from ACT/SAT scores, UNO's Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.

³ For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160

⁴ A minimum Upper Division Accounting GPA of 2.50 is required for enrollment in any upper-division (4000-level) accounting course.

⁵ A minimum Upper Division Accounting GPA of 2.50 is required for enrollment in any upper-division (4000-level) accounting course. (See DegreeWorks for approved elective options)

sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines <https://www.unomaha.edu/general-education/overview/index.php>.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements:

Students must earn a minimum of 120 credit hours for a BSBA.

42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

Internal Audit, Fraud, and Control Certificate

The objective of the Internal Audit, Fraud, and Control Certificate is to provide students with current information in the profession of internal audit, accounting information systems, and fraud risk assessment. The certificate provides a foundation for the Certified Internal Auditor (CIA) examination and certification. Earning this certificate will encourage and prepare students to pursue the CIA credential. This certificate and potential professional certification will help students sharpen their skills and earn a standard of credibility and recognition of competence in the field.

Internal Auditing, Fraud, and Control (IAFC) Certificate Requirements

Economics

Economists are problem solvers. The profession has produced methods to better match organ recipients with donors (saving countless lives), improved the financial savings rate for U.S. veterans, and reduced crime through small incentives.

The field is a method of studying humans using models and data; it is not a series of facts about the economy you memorize. While economics includes the study of what people buy and how products are produced, the field is far more expansive. Economics can be applied to numerous fields including art, education, law, medicine, psychology, sociology, and urban studies. Further, economics is the foundational science on which all business fields are built.

Economics is a systematic and scientific way of looking at human choices.

Economics has been the steppingstone to a future career for many of the nation's most ambitious people. In addition to numerous CEOs and U.S. Presidents, economics is the most popular degree at six out of the eight Ivy League schools (Business Insider, "The three most popular majors at every Ivy League school").

Career opportunities are vast when you hold an economics degree. Warren Buffett (Berkshire Hathaway), Sheryl Sandberg (Meta/Facebook), Sandra Day O'Connor (former Associate Justice of the U.S. Supreme Court), and Nate Silver (FiveThirtyEight) all hold economics degrees. While their careers are very different, they all use the methods and data analysis tools taught in economics to further their success.

Economists are employed by private businesses, public sectors, and non-profit organizations and are among the highest paid disciplines. In businesses, economists' duties include various forms of analysis to help make business decisions. Common job titles include Data Analyst, Data Scientist, Market Research Analyst, Financial Analyst, Technical Analyst, and Research Associate.

Here at UNO, we offer three different undergraduate programs in economics: A STEM-designated Bachelor of Science in Economics (<https://catalog.unomaha.edu/undergraduate/college-arts-sciences/economics/economics-bs/>), a Bachelor of Arts in Economics (<https://catalog.unomaha.edu/undergraduate/college-arts-sciences/economics/economics-ba/>), and a Bachelor of Science in Business Administration - Economics Concentration (<https://catalog.unomaha.edu/undergraduate/college-business-administration/bs-business-administration/economics/>). These programs contain nearly the same economics courses: which degree makes the most sense for you depends on your other interests.

In addition, economics is superb preparation for graduate work in areas such as business, law, political science, international relations, gerontology, and public administration. Economics also is an excellent dual **major** or **minor** for other areas of study.

Economics Club

The main purpose of the UNO Economics Club is to increase awareness and knowledge of economic issues among Economics Club members and the overall UNO community. The organization also provides a venue for student members to examine issues related to academic success, career success, and related matters. The organization shall work towards increasing the membership's engagement with the Omaha community.

Membership eligibility includes all currently enrolled students in good standing who pay University Program and Facilities Fees (UPFF) at UNO. Any individual from the community is eligible for membership without voting privileges and the ability to run for office.

Any person who satisfies the eligibility requirements may become a member of the organization by completing an Economics Club Membership Form. The membership form is available at MH 332C or may be downloaded here (<https://www.unomaha.edu/college-of-business-administration/>). Contact phone number: 402.554.2803

Economics Fast Track Program

The Department of Economics has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- The program is available for undergraduate students pursuing the BS in Business Administration (with a concentration in Economics), BS in Economics, or BA in Economics, desiring to pursue a MS in Economics.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.5.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.

Students in the Fast Track program must only enroll in dual-level ECON courses (ECON 8xx6) as their graduate coursework prior to admittance to the graduate program.

Degrees Offered

Bachelor of Science in Business Administration (<https://catalog.unomaha.edu/undergraduate/college-business-administration/bs-business-administration/>)

Concentrations Offered

- Business Analytics Concentration (p. 498)
- Economics Concentration (p. 490)

Secondary Concentrations Offered

- Secondary Concentration in Economics (p. 490)
- Secondary Concentration in Business Analytics (p. 498)

- Actuary
- Business Journalist
- Consultant
- Data and Analytics Specialist
- Economic Analyst
- Economic Researcher
- Economic Strategist
- Financial Advisor
- Financial Analyst
- Market Analyst
- Policy Analyst
- Statistician
- Supply Chain Analyst

ECON 1200 SURVEY OF ECONOMICS (3 credits)

An introduction to fundamental economic analysis, applying economic concepts to both domestic and international problems and policies.

Prerequisite(s): Not available to students who have completed either ECON 2200 or 2220.

Distribution: Social Science General Education course

ECON 2200 PRINCIPLES OF ECONOMICS (MICRO) (3 credits)

An introduction to economic principles, decision making and policies affecting product and resource markets. Particular emphasis is on price, output and input decisions by individuals and firms under various market conditions. An introduction to the fundamentals of international trade.

Prerequisite(s): ENGL 1150 and MATH 1310 or MATH 1220 with 'C-' (1.67) or better, or permission of CBA advisor

Distribution: Social Science General Education course

ECON 2220 PRINCIPLES OF ECONOMICS (MACRO) (3 credits)

An introduction to economic principles, decision making and policies on national income and output, employment, growth, money, the price level and the international economy.

Prerequisite(s): MATH 1310 or MATH 1220 and ENGL 1150 with a C-minus (1.67) or better, or permission of CBA advisor

Distribution: Social Science General Education course

ECON 2400 PRINCIPLES OF ECONOMICS FOR EDUCATORS (3 credits)

This course teaches principles of microeconomics and macroeconomics to K-12 educators. After taking this course students will be able to use the economic way of thinking to study current economic issues. Students will be introduced to macroeconomic principles, decision-making and policies on national income and output, employment, growth, money, price level, and fundamentals of international issues. Students will study microeconomic issues including product and resource markets, and prices output and input decisions under various market conditions. Economic concepts will be aligned to K-12 state social studies standards. This course cannot be substituted for ECON 2200 and/or ECON 2220.

Prerequisite(s): MATH 1310 or MATH 1220, ENGL 1150, ECON 2200 or ECON 2220. Not open to non-degree graduate students.

ECON 2600 SURVEY OF BEHAVIORAL ECONOMICS (3 credits)

This course examines the basic concepts behind behavioral economics and the application of behavioral economics across other fields of study. Students will be able to understand the basic variables influencing decision making, including framing and perception as well as the influence of social dynamics and psychological influences.

ECON 3130 ECONOMIC GEOGRAPHY (3 credits)

An introduction to the basic concepts and approaches in contemporary economic geography, stressing the importance of the spatial perspective for an understanding of how economic processes work at global, national, regional, and local scales. (Offered Fall) (Cross-listed with GEOG 3130).

Prerequisite(s): Majoring in Geography. Non-Geography majors: MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3200 ECONOMIC THEORY: MICRO (3 credits)

Analysis of individual, firm and industry behavior in product and factor markets. Provides a theoretical foundation for managerial and public policy decision-making.

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 3220 ECONOMIC THEORY: MACRO (3 credits)

This course is designed to follow introductory economics, to examine the determination of output, employment, the price level, inflation, interest rates, and the exchange rate in the economy. Piece-by-piece, theoretical models will be constructed describing how each of these and other variables are determined in both, the long-run and in the short-run. We will analyze how changes in a particular event affect different markets in the economy, and in turn, how one market interacts with another within a general equilibrium framework. A large part of the course will be devoted to business cycle theory, macroeconomic policy issues, and open economy macroeconomics. The world economies are very much integrated, and thus, a full understanding of macroeconomics requires knowledge of international aspects of macroeconomics. The purpose of this course is to provide the student with an understanding of the connection between macroeconomic theory and related policy issues.

Prerequisite(s): Completion of ECON 2200 with a C or better AND ECON 2220 with a C or better

ECON 3290 ECONOMICS OF PUBLIC ISSUES (3 credits)

Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Economics of Public Issues, however, students will explore the real ways in which economics can be used to understand, explain, and answer tough questions that affect everyone. Students will explore and define capitalism and key economic institutions required for economies to develop and prosper. We will examine markets and market failures that exist today. Classes will focus on the outcomes - intended and unintended - of various policies (local, national, and global). While specific issues are going to be covered in the course the intent is that students will learn the tools and strategy of thinking like an economist to guide them through future issues that will come up in their personal, professional, and civic lives.

Prerequisite(s): ECON 2200 OR Instructor Approval.

ECON 3300 INTRODUCTION TO ECONOMETRICS (3 credits)

An introduction to empirical research methods in economics. Subjects covered include estimations of the basic linear regression model, hypothesis testing, correlation coefficients, analysis of variance, multicollinearity, dummy variables, specification error, auto-correlation, heteroscedasticity and unconditional forecasting. Empirical illustrations are provided by reference to contemporary economic questions.

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200, ECON 2220, BSAD 2130 or BSAD 3160, each with a "C" (2.0) or better, or permission of instructor.

ECON 3310 SQL, DATABASES, AND DATA CLEANING FOR DATA SCIENTISTS (3 credits)

Analytics requires data. Within an organization, this data is usually housed in databases. In this class, you will extract data from these systems using Structured Query Language (SQL), programmatically combine multiple datasets, and learn advanced programmatic data cleaning techniques, such as regular expression.

Prerequisite(s): ECON 2200 with a "C" or better

ECON 3550 PUBLIC FINANCE (3 credits)

This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with FNBK 3550).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 3600 INTRODUCTION TO INTERNATIONAL ECONOMICS (3 credits)

An introduction to analyses of international trade and the international monetary system. Subjects covered include the economic basis for international specialization and trade, the effect of trade on income distribution, commercial policy, economic integration, the balance of payments, adjustment mechanism, exchange rate determination, external effects of monetary and fiscal policy and foreign investment.

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

ECON 4000 SPECIAL TOPICS IN ECONOMICS (3 credits)

This course will explore a specified topic in the field of economics.

Prerequisite(s): Varies by offering

ECON 4210 INDUSTRIAL ORGANIZATION (3 credits)

In this class we will examine why firms and industries behave the way that they do. We will explore why some industries face intense competition while others enjoy large profits, why some industries offer only bundles, and why some firms buy up their supply chain when others do not. This theoretical course will illuminate un-theoretical implications to your life and future business ventures. This course will use your economic knowledge, a bit of psychology (behavioral economics) and game theory to answer questions like "Why does everyone hate the cable company?" and "Why are CEOs given so many stock options?" (Cross-listed with ECON 8216).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4240 LABOR ECONOMICS (3 credits)

The course will cover essential topics in Labor Economics including factors leading to equilibrium conditions in the labor market, human capital accumulation, discrimination in the workplace, compensation for undesirable work, mobility, unionization, and more. (Cross-listed with ECON 8246).

Prerequisite(s): ECON 2200 OR Equivalent OR Instructor Approval

ECON 4300 QUANTITATIVE APPLICATIONS IN ECONOMICS AND BUSINESS (3 credits)

The study and application of modern quantitative techniques to problem-solving in economics and business. It is designed to help the student to translate verbal arguments in economics and business into their mathematical equivalents, to improve analytical skills, and to attain proficiency in marginal analysis, equilibrium analysis, static optimization, and comparative statics analysis. It covers topics such as exponential and logarithmic functions and their applications, linear algebra and its applications, derivatives and their applications, maximization of functions with one variable and multi variables, maximization with non negativity constraints, and integral calculus and its applications in economics and business. (Cross-listed with ECON 8306).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C"(2.0) or better, or permission of instructor.

ECON 4320 NATURAL RESOURCE ECONOMICS (3 credits)

This course introduces students to the economics and management of Earth's natural resources. We address questions such as: Are we running out of natural resources? Are we using resources in a sustainable fashion? What role to markets play in resource use? We will address issues related to fossil-based resources, minerals, fisheries, water, land, forests and other associated topics. The course covers the basic theoretical framework for understanding the optimal rate of resource use, identifies the factors that determine the actual rate of use, and considers and evaluates various public policy prescriptions. (Cross-listed with ECON 8326).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4330 ENVIRONMENTAL ECONOMICS AND SUSTAINABILITY (3 credits)

In this course students will apply economic concepts and models to environmental concerns and policy solutions that combat environmental degradation. Topics include: Air and water pollution, solid waste management, carbon taxation, cap-and-trade systems, and economic motivations for sustainable business management. (Cross-listed with ECON 8336).

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better.

ECON 4340 ECONOMICS OF TECHNOLOGY (3 credits)

Innovative dynamism is the economic system which brings us the new goods and processes that make life longer and better. We will examine how the system works, including: The role of the breakthrough inventor and the innovative entrepreneur; whether the system improves or hurts ethical behavior, culture, equality, and the environment; the costs to workers in terms of job loss, and the benefits to workers in terms of the creation of better jobs; how funding, regulatory, and patent policies affect innovative dynamism; and how innovative dynamism in medicine can result in more and faster cures for cancer and other diseases. (Cross-listed with ECON 8346).

Prerequisite(s): MATH 1310 or MATH 1220 and ECON 2200, each with a "C" (2.0) or better, or BSAD 8180, or permission of instructor.

ECON 4350 BUSINESS INTELLIGENCE AND REPORTING (3 credits)

The course will teach students to use state-of-the-art Business Intelligence (BI) software to generate reports and information from data. BI software is used to inform decision-making in industries from transportation to medicine, from marketing to government, and is facilitated by rapidly increasing access to data in all industries. Students will learn to employ best practices in visualization and verbal communication as they are trained to create valuable insights from data and convey those insights to stakeholders. Additionally, the course will aid students in preparing for certification in the use of state-of-the-art BI software. (Cross-listed with ECON 8316).

Prerequisite(s): BSAD 2130 (or equivalent) OR Instructor Approval

ECON 4450 DOMESTIC MONETARY THEORY AND POLICY (3 credits)

The course will introduce students to topics in money and banking, financial institutions, markets, financial instruments, and monetary theory in order to enhance financial decision making and enable students to effectively analyze economic news in media such as the Wall Street Journal, The New York Times, Business Week, Barrons, The Economist, and other related business publications. This knowledge will enable students to formulate their own views about the current economic environment, government policies, and responses to economic environments. (Cross-listed with ECON 8456).

Prerequisite(s): ECON 3220, or permission of instructor.

ECON 4500 SPECIAL PROBLEMS IN ECONOMICS (2-3 credits)

Individual investigation of specific problems in the field of economics under the supervision of a faculty member.

Prerequisite(s): Senior and permission of department chair.

ECON 4510 ECONOMIC INTERNSHIP (1-3 credits)

Students engage in part time employment in their area of concentration to gain relevant business experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required (maximum 3 credit hours).

Prerequisite(s): Permission of internship coordinator; 'C' (2.0) or better in ECON 2200 and ECON 2220; 2.5 Cumulative GPA; junior or senior standing.

ECON 4570 ECONOMIC CONDITIONS ANALYSIS (3 credits)

This course teaches students how to conduct an economic analysis of, and produce an economic forecast for, a local economy such as a state, county, or metropolitan area. Students will learn where to find data, how to analyze that data, how to develop models with the data, and how to present the data in a clear, concise, and jargon-free manner. The final published report will be authored by the students registered in the course. All students will contribute equally to the final report. The instructor will ensure equal participation. (Cross-listed with ECON 8576).

Prerequisite(s): ECON 2200 and ECON 2220, or permission of the instructor

ECON 4610 INTERNATIONAL TRADE (3 credits)

An analysis of the character of international economic relations. Subjects covered include the economic basis for international specialization and trade, the economic gains from trade, commercial policy, economic integration and economic growth. (Cross-listed with ECON 8616).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4620 INTERNATIONAL MONETARY THEORY (3 credits)

This course is designed to introduce students to topic areas in International Macroeconomics and International Finance. Students will examine the mechanisms of the foreign exchange market, and how exchange rates are determined in the short-run as well as in the long-run. Students will investigate the different exchange rate regimes around the world, including fixed exchange rates, floating exchange rates, crawling pegs, and other arrangements. Students will examine the European Union and ask whether such a system is economically viable. This is especially important in the current economic environment facing Europe. Students will also examine exchange rate crises over history, and examine how they all have common elements. (Cross-listed with ECON 8626).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4660 INTERNATIONAL ECONOMIC DEVELOPMENT (3 credits)

This course introduces theories and application of economic development and growth, economic problems facing developing countries, analyzes domestic economic issues (e.g., per capita GDP, income distribution, population, unemployment, urbanization, education, fiscal policies, and financial policies), and international economic issues (e.g., trade, foreign investment, and foreign debt). Financial crises, debt crises, and economic recovery will be discussed. (Cross-listed with ECON 8666).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4730 ECONOMICS OF ENTREPRENEURSHIP (3 credits)

This course will review economic theories of entrepreneurship with special emphasis on Schumpeter's theory of creative destruction. The main focus of the seminar will be on the "high-level" entrepreneurship that sometimes results in major innovations. This course will address the societal benefits of entrepreneurship, factors influencing entrepreneurial success, the policies that best encourage entrepreneurship, and how firms can survive and prosper in an entrepreneurial environment. (Cross-listed with ECON 8736, BSAD 8736).

Prerequisite(s): ECON 2200 or permission of the instructor for all students

ECON 4770 SPORTS ECONOMICS (3 credits)

Economics is frequently considered an abstract topic, with interesting results that are not easily applied in the real world. Through Sports Economics, students will explore the very real ways in which economics influences sporting competitions and the businesses surrounding them. Students will explore topics such as unionization in sports, discrimination, amateurism, monopoly power, game theory, and more in the context of sports, giving the student a deeper understanding of how these topics apply to real-world problems. After this course, students will understand how readily economics can be applied to businesses and problems in any industry or domain. (Cross-listed with ECON 8256).

Prerequisite(s): ECON 2200 OR Equivalent OR Instructor Approval. Not open to non-degree graduate students.

ECON 4850 ECONOMICS OF URBAN AND REGIONAL DEVELOPMENT (3 credits)

This course will consider factors and trends in development at the global and national level but will focus primarily on economic development at the state, local, and regional levels in the United States. The focus of this course will be real world strategic planning for economic development. (Cross-listed with ECON 8856)

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better, or permission of instructor.

ECON 4990 SENIOR ASSESSMENT (0 credits)

This assessment tool is part of the Department's Student Outcomes effort. It is designed to monitor the Department's performance and to identify changes needed. Graduating seniors must register for and complete this course in the term in which they plan to graduate.

Prerequisite(s): Students must register for ECON 4990 in the term in which they plan to graduate. Not open to non-degree graduate students.

Economics Concentration

BSBA Degree with Economics Concentration Requirements

Code	Title	Credits
General Education Requirements - 46 Hours Required		
Fundamental Academic Skills		15
ENGL 1150	ENGLISH COMPOSITION I	
ENGL 1160	ENGLISH COMPOSITION II

SCMT 3500	MANAGING OPERATIONS IN THE SUPPLY CHAIN (^)
MGMT 4480	CORPORATE AND BUSINESS STRATEGY (^)

*INTERNATIONAL DIMENSION - 3 hrs

*INTERNATIONAL DIMENSION - 3 hrs

*Students must complete at least six hours of course work beyond the general education diversity requirement with a global perspective (i.e., history, political science, literature or geography of foreign countries, foreign languages, international business, etc.). Global courses include all university general education global diversity courses listed on the General Education website, plus the international business courses shown on the student's DegreeWorks website

Select 1 of the Following 3

CMST 2120	ARGUMENTATION AND DEBATE (**)
CMST 3130	SPEECH COMMUNICATION IN BUSINESS AND THE PROFESSIONS (^)
CMST 3140	CONTEMPORARY PRESENTATIONS (^)
CMST 3150	INTERCOLLEGIATE FORENSICS I (^)
CMST 3160	INTERCOLLEGIATE FORENSICS II (^)
MKT 3100	PROFESSIONAL SELLING (^)

Economics Concentration Courses

All of the Following 18

ECON 3200	ECONOMIC THEORY: MICRO (^)
ECON 3220	ECONOMIC THEORY: MACRO (^)
ECON 3300	INTRODUCTION TO ECONOMETRICS (^)
ECON 3XXX OR ECON 4XXX	
ECON 4XXX	
ECON 4XXX	

Optional Focus Areas

Focus Areas are a purposeful collection of economics courses designed to ready students for a particular career. Focus Areas are optional, and do not appear on the transcript, but the department highly recommends students consider them when selecting their additional Economics credits. A Focus Area is completed when students successfully finish nine (9) credits from a given Focus Area.

Modern Business

ECON 4210	INDUSTRIAL ORGANIZATION (^)
ECON 4240	LABOR ECONOMICS (^)
ECON 4320	NATURAL RESOURCE ECONOMICS (^)

¹ Requires placement from UNO's English Placement and Proficiency Exam.

² Requires placement from ACT/SAT scores, UNO's Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.

³ For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3130, CMST 3140, CMST 3150, or CMST 3160

⁴ An Economics Concentration Elective must be a 3000 or 4000 level course within the Economics department.

⁵ An Economics Concentration Elective must be a 3000 or 4000 level course within the Economics department.

⁶ An Economics Concentration Elective must be a 3000 or 4000 level course within the Economics department.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines <https://www.unomaha.edu/general-education/overview/index.php>. (<https://www.unomaha.edu/general-education/overview/index.php.html>)

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements:

Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

Finance, Banking and Real Estate

Contact

Chair, Department of Finance, Banking and Real Estate
402.554.2418

Website (<http://www.unomaha.edu/college-of-business-administration/finance-banking-real-estate/>)

Degrees Offered

- Business Administration, Bachelor of Science (<https://catalog.unomaha.edu/undergraduate/college-business-administration/bs-business-administration/>)

Concentrations Offered

- Banking and Financial Markets Concentration (p. 496)
- Business Finance Concentration (p. 500)
- Investment Science and Portfolio Management Concentration (p. 503)
- Real Estate and Land Use Economics Concentration (p. 505)

Secondary Concentrations Offered

- Secondary Concentration in Banking and Financial Markets (p. 496)
- Secondary Concentration in Business Finance (p. 500)
- Secondary Concentration in Investment Science and Portfolio Management (p. 503)
- Secondary Concentration in Real Estate and Land Use Economics (p. 505)

Note: A careful structuring of course work will allow students to obtain a triple concentration in Investment Science and Portfolio Management, Business Finance, and Banking and Financial Markets, without extra courses. In addition, students may earn a concentration in Real Estate and Land Use Economics and a corresponding Finance concentration. Students must complete FNBK 3250 with a C+ or above in order to specialize in any Finance and Banking concentration or secondary concentration.

Certificates Offered

UNO Real Estate Certificate (p. 508)

Finance, Banking, and Real Estate

- Appraiser
- Bank Operations Manager
- Commercial Banking Officer
- Commercial or Residential Broker
- Corporate Financial Officer
- Corporate Lawyer
- Financial Advisor
- Insurance Management
- Investment Analyst
- Mortgage Officer
- Portfolio Manager
- Real Estate Agent
- Retail Banking Officer
- Risk Management Specialist
- Stockbroker
- Underwriting Specialist

FNBK 2280 PERSONAL FINANCE (3 credits)

This course focuses strengthening the development of sound financial habits through knowledge and application of concepts and activities that enhance personal and family finance.

FNBK 2710 PRINCIPLES OF INSURANCE (3 credits)

This course is intended to introduce students to the basic concepts of risk and insurance. Special emphasis is placed on the insurance coverage needed by the consumer: life, health, homeowner and auto insurance. (Fall, Spring)

Prerequisite(s): Not open to non-degree graduate students.

FNBK 3000 FINANCIAL REPORTING AND ANALYSIS (3 credits)

Seeks to develop students' understanding of the origin and derivation of accounting data, and their skills in employing the data for the purpose of financial analysis, reporting and valuation.

Prerequisite(s): ACCT 2020 with 'C' (2.0) or better.

FNBK 3250 PRINCIPLES OF FINANCIAL MANAGEMENT (3 credits)

As an introduction to financial management, the course will cover a broad area of corporate finance and discuss topics including assessment of financial statement information, time value of money, bond and stock valuation, as well as capital budgeting.

Prerequisite(s): ACCT 2010, ECON 2200, ECON 2220, MATH 1320 or MATH 1370 or MATH 1930, BSAD 2130 or 3160, ENGL 1160/ENGL 1164 or concurrent enrollment in ENGL 1160/1164 each with "C" or better and 2.5 GPA.

FNBK 3300 INTERMEDIATE FINANCIAL MANAGEMENT (3 credits)

This course is intended to develop an intermediate level of understanding of financial analysis and decision making, as well as an understanding of the context within which these skills are used, through an in-depth exploration of the essential mathematical operations that underpin advanced finance courses. Critical thinking and computer literacy will be enhanced using MS Excel for spreadsheet calculations and model building.

Prerequisite(s): FNBK 3250 with a C+ or better and 2.5 overall GPA. Not open to non-degree graduate students.

FNBK 3330 ENTREPRENEURIAL FINANCE (3 credits)

This course focuses on venture capital formation and the financing of entrepreneurial ventures. The course is intended for students interested in entrepreneurship, venture capital markets, investment banking, and other careers related to new venture financing and/or deal structuring. The course applies basic financial theory to the unique environment of incubating and growing new ventures. (Cross-listed with ENTR 3330).

Prerequisite(s): FNBK 3250 with 'C' (2.0) or better.

FNBK 3400 INVESTMENT PRINCIPLES AND PRACTICES (3 credits)

A study of the market for investment securities, an introduction to the field of security analysis, and selection and management of a portfolio of securities. (Fall, Spring)

Prerequisite(s): FNBK 3300, GPA of 2.5 or better or approval of instructor.

FNBK 3500 FINANCIAL MARKETS (3 credits)

An overview of money and banking, monetary policy, and analysis of the operations of financial markets in a global context, as well as the evolving regulatory framework within which these markets operate.

Prerequisite(s): ECON 2200 and ECON 2220 and FNBK 3250 with 'C' or better, or approval of instructor.

FNBK 3550 PUBLIC FINANCE (3 credits)

This course explores the objectives and rationale of government activity in a market economy, including positive and normative analysis of public expenditures and taxes. Topics include Social Security, health insurance, education, food stamps, student aid, unemployment insurance, efficiency and incidence of major revenue sources, and tax reform proposals. (Cross-listed with ECON 3550).

Prerequisite(s): MATH 1310 or MATH 1220, ECON 2200 and ECON 2220, each with a "C" (2.0) or better.

FNBK 3650 COMMERCIAL BANK MANAGEMENT (3 credits)

This course focuses on the theory and practice of managing commercial banks. Topics covered include but are not limited to: Bank regulations, bank performance analysis, asset liability management, credit analysis and consumer loans. This course emphasizes the link between theory and practice through readings, guest lecturers from industry experts, and a comprehensive bank research project on a local bank of your choice. At the end of the course, students should have a good understanding of basic banking theories as well as banking practices, and current issues and challenges facing the banking industry.

Prerequisite(s): FNBK 3300, GPA of 2.5 or better or approval of instructor.

FNBK 3700 INTERNATIONAL FINANCIAL MANAGEMENT (3 credits)

This course focuses on the application of basic principles and techniques of international financial management to the decision-making process of the multinational firms. The course covers foreign exchange markets, management of foreign exchange risk, international working capital management, and foreign portfolio and direct investment. Factors bearing on international financing and investment decisions, such as political risk and international taxation issues will be also explored. (Fall, Spring, Summer).

Prerequisite(s): FNBK 3250 with 'C+' (2.3) or better, GPA of 2.5 or better or approval of instructor.

FNBK 4000 SPECIAL TOPICS IN FINANCE AND BANKING (1-5 credits)

The topics addressed in this finance and banking special topics course will vary but are typically an in-depth exploration of a specific topic in the field of finance and banking. Please contact the finance and banking department chairperson for the specific course offering.

FNBK 4150 ADVANCED FINANCIAL MANAGEMENT (3 credits)

This course aims to develop the student's ability to identify, analyze and solve integrative problems in management of business finance, including financial analysis, working capital management, capital budgeting decisions, long term financing, and leasing, through the use of prescribed readings, case studies and computer applications. (Fall, Spring).

Prerequisite(s): FNBK 3300, GPA of 2.5 or better, and senior standing. It is highly recommended that a student have an additional 6 hours of finance instruction beyond the introductory course prior to taking this class.

FNBK 4210 SELLING FINANCIAL SERVICES (3 credits)

Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with BSAD 8216, MKT 4210).

Prerequisite(s): MKT 3310 with a C+ or better grade and 2.5 GPA. Not open to non-degree graduate students.

FNBK 4470 BEHAVIORAL FINANCE & INVESTING (3 credits)

This course focuses on how actual investor behaviors and market behaviors differ from traditional theories of finance. This course will examine psychological biases, identify how such biases influence financial markets and settings, and explore methods that can be utilized to recognize and overcome such behavioral pitfalls. (Cross-listed with BSAD 8476).

Prerequisite(s): Junior or senior standing. Not open to non-degree graduate students.

FNBK 4500 SPECIAL PROBLEMS IN FINANCE AND BANKING (2-3 credits)

Individual investigation of specific problems in the fields of finance and banking. (Fall, Spring).

Prerequisite(s): Senior. Note: permission of department chair required prior to registration.

FNBK 4510 FINANCE AND BANKING INTERNSHIP (1-3 credits)

Students will engage in an applied experience in their area of specialization to gain relevant experience and to practice the skills and concepts learned in the classroom. Supplemental reports and/or reading may be required. Note: FNBK4510 may be taken for a maximum of 3 credits.

Prerequisite(s): Permission of internship coordinator; 'C+' or better in FNBK 3250; 2.5 cumulative gpa; junior or senior standing

FNBK 4570 INVESTMENT MANAGEMENT FOR FINANCIAL ANALYSTS (3 credits)

This course provides critical knowledge needed for students pursuing a career in investment management. The topic areas bridge academic theory, current industry practice, and ethical and professional standards and comprehensively address the areas assessed in the Chartered Financial Analyst examinations. (Cross-listed with BSAD 8576).

Prerequisite(s): Senior standing. Not open to non-degree graduate students.

FNBK 4590 RISK MANAGEMENT FOR BUSINESS MANAGERS (3 credits)

An analysis of risk management techniques for handling the risk exposures most businesses face, including insurance, self insurance, risk control and risk avoidance, among others. (Cross-listed with BSAD 8596).

Prerequisite(s): At least junior standing.

FNBK 4600 FINANCIAL RISK MANAGEMENT (3 credits)

The course provides students with an intermediate level analysis of financial derivatives, and the use of these instruments for managing risk in financial institutions. (Cross-listed with BSAD 8606).

Prerequisite(s): FNBK 3400 and FNBK 3500 both with a 'C' (2.0) or better, and senior or graduate standing.

FNBK 4610 PORTFOLIO MANAGEMENT (3 credits)

This course will focus on modern development in portfolio management including efficient markets, stock selection, and hedging procedures. The main objective of this course is to prepare students for the management of financial resources through the development of skills necessary to make prudent investment decisions.

Prerequisite(s): FNBK 3400 with a "C+" (2.33) or above, and a 2.5 GPA.

RELU 2410 REAL ESTATE PRINCIPLES AND PRACTICES (3 credits)

An introductory survey of real estate principles and practices which introduces the terminology, concepts and basic practices in the fields of real estate law, real estate finance, real estate appraisal, real estate property taxation and miscellaneous topic areas. Note: Students cannot receive credit for both RELU 2410 and RELU 3410. (Fall, Spring)

RELU 2700 REAL PROPERTY RIGHTS AND OWNERSHIP: OVERCOMING BARRIERS (3 credits)

Real estate is ubiquitous and the ownership of property - and accompanying property rights - have shaped US history and enabled millions to build wealth. At the same time, property ownership has eluded many, especially those from underrepresented groups. This class will expose students to historical and current barriers to property ownership, assess efforts to address these disparities, explore remedies, and give students the practical tools they'll need to plan for, and eventually acquire, their first home or other real estate.

RELU 3410 REAL ESTATE PRINCIPLES AND PRACTICES (3 credits)

This is a survey course in real estate principles and practices, which is designed to familiarize students with industry terminology, current practices, and cover the following topics: Licensure, property rights, legal descriptions, real estate law and contracts, appraisal, financing, investments, Fair Housing, and related topic areas. This course provides foundational knowledge of the real estate field and will prepare students to successfully complete more advanced real estate coursework. NOTE: Students cannot receive credit for both RELU 2410 and RELU 3410. (Cross-listed with BSAD 8605).

RELU 3430 REAL ESTATE BROKERAGE AND SALES (3 credits)

Overview of real estate brokerage and sales principles, to include buying and selling, leasing, brokerage business operations, contracts, closings, legal requirements, Fair Housing, advertising, and career opportunities.

Prerequisite(s): RELU 2410 or RELU 3410.

RELU 3450 PROPERTY MANAGEMENT (3 credits)

This course focuses on commercial and residential property management concepts and their application to the operation, control, and oversight of real property. The course will study leasing, tenant selection and relations, maintenance, marketing, contract management, asset management principles, as well as Fair Housing Laws and the Americans With Disabilities Act as they pertain to property management. (Cross-listed with BSAD 8625).

Prerequisite(s): RELU 2410 or RELU 3410.

RELU 3460 REAL ESTATE LAW (3 credits)

Upper-level survey course in real estate law, which examines estates in land, conveyances, leases, mortgages, easements, zoning, environmental law, contracts, taxes, foreclosures, landlord-tenant relations, agency, Fair Housing, and Nebraska License Law. (Cross-listed with LAWS 3460)

Prerequisite(s): RELU 2410 or RELU 3410.

RELU 4390 REAL ESTATE INVESTMENTS (3 credits)

This course focuses on methods used to analyze existing and proposed commercial and residential real estate investments through dynamic programming models, and explores strategies to finance commercial real estate. The class ultimately prepares students to understand the risks and rewards associated with financing and investing in real estate. (Cross-listed with BSAD 8616).

Prerequisite(s): RELU 2410 or RELU 3410 or FNBK 3250

RELU 4400 RESIDENTIAL REAL ESTATE FINANCE (3 credits)

This course focuses on the methods of financing residential real estate through the examination of various mortgage instruments, mortgage lenders, and the risks associated with leveraging real property. Industry terminology, concepts, best practices, and financial calculations are also presented, as are the influences of governmental policies on the industry. (Fall)

Prerequisite(s): RELU 2410 or RELU 3410

RELU 4410 BASIC APPRAISAL PROCEDURES (3 credits)

Fundamentals of real estate valuation and appraising; factors affecting value; valuing land, valuing improvements and the valuation of special classes of residential property; appraisal practice, depreciation and obsolescence, appraising rules, the mathematics of appraising; an appraisal of a single family residence is required.

Prerequisite(s): RELU 2410 or RELU 3410 AND FNBK 3250 with a C or better

RELU 4420 INCOME PROPERTY APPRAISAL (3 credits)

Introduction to the theory and concepts of income capitalization approaches, methods and techniques to valuation of real estate income property. Characteristics of yield on investment real estate; future income projections; mortgage coefficients; purchase and leaseback reversions; Ellwood Tables; capitalization rates and investment yields; types of annuities; and condemnation appraisal. (Spring)

Prerequisite(s): RELU 2410 or RELU 3410; and FNBK 3250

RELU 4440 REAL ESTATE DEVELOPMENT (3 credits)

This course focuses on the procedures and complexities in developing and redeveloping various commercial property types and mixed-use real estate. Topics include an overview of the real estate development process, assembling a team, identifying project stakeholders, financial analysis, site selection, market analysis, and the regulatory environment. (Cross-listed with BSAD 8626).

Prerequisite(s): RELU 2410 or RELU 3410 with a grade of B or above, and a cumulative GPA of 3.0 or better, or permission of Real Estate Program Director.

RELU 4460 COMMERCIAL REAL ESTATE FINANCE (3 credits)

A foundation course in commercial real estate finance including legal, analytical, institutional and governmental aspects.

Prerequisite(s): RELU 2410 and FNBK 3250

RELU 4500 REAL ESTATE INDEPENDENT STUDY (1-3 credits)

Individual investigation of specific issues or problems in real estate.

Prerequisite(s): Permission of Real Estate Program Director.

RELU 4510 REAL ESTATE INTERNSHIP (1-3 credits)

Students will engage in an applied experience in their area of specialization to gain relevant industry experience and to practice the skills and concepts learned in the classroom. Student reports on the internship experience and an employer's evaluation of the student's performance are course requirements. RELU 4510 may be taken for a maximum of 3 credits. (Fall, Spring, Summer)

Prerequisite(s): Permission of Department Internship Coordinator.

Banking and Financial Markets Concentration

The objective of the Banking and Financial Markets concentration is to provide additional study in the areas of financial management of commercial banks including the organization, operation, financing and functions of banks and certain related financial institutions. This program is specifically designed for those students interested in pursuing careers in banking, bank regulatory agencies, or in related financial institutions, such as credit unions, sales and consumer finance companies, and government agencies.

The completion of specified courses in business finance, banking, and investment science and portfolio management may be applied toward concentration requirements in all three areas.

Banking and Financial Markets concentration and secondary concentration students are required to earn a "C+" or better in FNBK 3250 and FNBK 3300.

¹ Requires placement from UNO's English Placement and Proficiency Exam.

² Requires placement from ACT/SAT scores, UNO's Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.

³ Students who are concentrating in Banking and Financial Markets must receive a grade of "C+" or better in FNBK 3250.

⁴ For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160

⁵ Students who are concentrating in Banking and Financial Markets must receive a grade of "C+" or better in FNBK 3300.

⁶ For this requirement students must choose from an approved list of Banking and Financial Markets Elective classes. (See DegreeWorks for approved options)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines <https://www.unomaha.edu/general-education/overview/index.php>. (<https://www.unomaha.edu/general-education/overview/index.php.html>)

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements:

Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses. Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses. CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

Business Analytics Concentration

Because domain knowledge is critical to business analytics, the BSBA Business Analytics concentration is required to be completed together with another BSBA concentration within the College of Business Administration.

Business Finance Concentration

The objective of the business finance concentration is to prepare students for careers in such areas as financial management, capital budgeting, and international financial management. The focus is on the functions of finance in the firm, cash management, sources of financing, the financial system and strategic capital budgeting.

The completion of specified courses in business finance, banking, and investment science and portfolio management may be applied toward concentration requirements in all three areas.

Business Finance concentration and secondary concentration students are required to earn a "C+" or better in FNBK 3250 and FNBK 3300.

might be required to take a lower level math course before MATH 1370 depending on their placement scores.

³ Students who are concentrating in Business Finance must receive a grade of "C+" or better in FNBK 3250

⁴ For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160

⁵ Students who are concentrating in Business Finance must receive a grade of "C+" or better in FNBK 3300

⁶ For this requirement students must choose from an approved list of Business Finance Elective classes. (See DegreeWorks for approved options)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines <https://www.unomaha.edu/general-education/overview/index.php>.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

****Transfer credit or placement exam scores may change suggested plan of study**

GPA Requirements:

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements:

Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

¹ Requires placement from UNO's English Placement and Proficiency Exam.

² Requires placement from ACT/SAT scores, UNO's Math Placement Exam, or an approved prerequisite course within the last two years. Students

Investment Science and Portfolio Management Concentration

The investment science and portfolio management concentration provides theoretical and practical application of security analysis, asset pricing, and dynamic portfolio management for students interested in the investment management field. Students will have the opportunity to apply theoretical models discussed in class by managing funds in the student managed investment club. Students are encouraged to actively participate in the club early in their academic career.

The completion of specified courses in business finance, banking, and investment science and portfolio management may be applied toward concentration requirements in all three areas.

Investment Science and Portfolio Management concentration and secondary concentration students are required to earn a "C+" or better in FNBK 3250 and FNBK 3300.

Degrees Offered

- Bachelor of Science in Business Administration (<https://catalog.unomaha.edu/undergraduate/college-business-administration/bs-business-administration/>)

Management Concentrations

Management concentrations include Management & Leadership, Human Resource Management, and Supply Chain Management. Managers combine human and material resources to accomplish organizational objectives. Such results are achieved through the managerial processes of planning, leading, organizing and controlling. Today's competitive, global business environment presents many challenges to managers including managing change and innovation, managing diversity, developing a global perspective, becoming an effective leader, and improving organizational performance by focusing on quality and continuous improvement. The management concentrations are designed to prepare students to effectively face these challenges in an environment of risk, uncertainty, and ambiguity. All Management concentrations require a minimum of eighteen (18) credit hours. A student may choose more than one concentration with a resulting increase in the number of required courses.¹

¹ Note: Students completing more than one Management concentration cannot apply more than six common credits to each Management concentration.

Concentrations Offered:

- Management & Leadership Concentration (p. 511)
- Human Resource Management Concentration (p. 513)
- Logistics & Supply Chain Management Concentration (p. 515)

Secondary Concentrations Offered:

- Secondary Concentration in Management & Leadership (p. 511)
- Secondary Concentration in Logistics & Supply Chain Management (p. 515)

Management

- Account Executive
- Business Analyst
- Business Development Manager
- Business Systems Analyst
- Compliance Analyst
- Customer Relationship Manager
- Human Resources and Management Consultant
- Human Resources Executive
- Human Resources Manager
- Logistics Analyst
- Office Manager
- Operations Officer
- Project Manager
- Purchasing Specialist
- Retail Manager
- Training and Development Specialist

MGMT 1200 INTRODUCTION TO MANAGEMENT (3 credits)

This course will introduce foundational management concepts including management functions, leadership, planning, decision-making, quality improvement, ethics and careers in management.

MGMT 1500 INTRODUCTION TO BUSINESS (3 credits)

This course is for students who are interested in gaining foundational knowledge in many aspects of the business world including economics, finance, marketing, management, and accounting.

Distribution: Social Science General Education course

MGMT 3100 MANAGEMENT INFORMATION SYSTEMS (3 credits)

This course covers a broad spectrum of knowledge and techniques in MIS. Students will be given the opportunity to relate how technology and systems are utilized to support managerial decision making, streamline business processes, and enhance general organizational efficiencies. Topics centering around IT planning, network computing, electronic commerce, and data/knowledge management are all used to instill the importance of leveraging information systems for strategic advantage.

Prerequisite(s): ACCT 2020, MGMT 3200 or MKT 3200, and MGMT 3490, each with a 'C' (2.0) or better, and a 2.5 GPA. Not open to non-degree graduate students.

MGMT 3410 INTRODUCTION TO SUPPLY CHAIN MANAGEMENT (3 credits)

Supply chain management is the design and management of business processes needed to turn raw materials from suppliers into products and services that meet the needs of the final customer. The goals of this course center around providing students with the foundations of supply chain management and effectively managing the flow of goods, information, and services to obtain sustainable competitive advantage within an industry. Students will develop critical thinking skills focused on business process analysis and the use of key performance indicators to determine operational efficiencies for all organization levels. (Cross-listed with SCMT 3410, MKT 3410).

Prerequisite(s): Sophomore standing; GPA of 2.0 or better; or by permission of instructor. Not open to non-degree graduate students.

MGMT 3490 MANAGING PEOPLE AND ORGANIZATIONS (3 credits)

In this course, students will delve into applying management concepts to the real-world and the dynamic interplay between individuals, groups, and broader organizational contexts. The course uses effective management practices and leadership styles mixed with knowledge of organizational structures and intricacies of human behavior to promote individual's confidence in skills areas such as communication, conceptualization, interpersonal problems, and decision-making. Students are exposed to current management trends and the importance of successful management in modern organizations.

Prerequisite(s): ENGL 1160 and MGMT 3200 or MKT 3200 each with a "C" (2.0) or above, and a 2.5 cumulative GPA.

MGMT 3600 BUSINESS ETHICS (3 credits)

Students will learn about the factors, opportunities and pressures that lead to ethical dilemmas, and will develop their understanding of foundations and processes that encourage and reward ethical decision making and behaviors. Lots of examples, sourced from case studies and current events will be provided. (Cross-listed with BSAD 3600, MKT 3600)

Prerequisite(s): Junior classification (minimum of 58 earned credit hours) with a minimum 2.5 cumulative GPA. Completion of MGMT 3200 or MKT 3200 with a minimum grade of "C" (2.0). Not open to non-degree graduate students.

MGMT 3800 CROSS-SECTOR COLLABORATIVE LEADERSHIP (3 credits)

The goal of PA 3800/MGMT 3800 is to prepare students to serve as collaborative leaders of cross-sector initiatives. Specifically, this course will prepare students for success in working collaboratively across private, nonprofit and public sector organizations while also enhancing their overall development as a leader. Examples of successful and unsuccessful cross-sector collaborations will be explored along with discussions of theories related to cross-sector collaboration. (Cross-listed with PA 3800).

Prerequisite(s): Permission from instructor or MGMT 3490 with a grade of C or higher or enrollment in the cross-sector collaborative leadership minor.

MGMT 4000 SPECIAL TOPICS IN MANAGEMENT (3 credits)

This special topic course will address specific topics of management that vary by semester. The course is intended primarily for upper division students who are pursuing a management and leadership, supply chain management, or human resources management concentration.

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4010 TOTAL REWARDS (3 credits)

This course is a comprehensive review of the theory and practice of developing and implementing cost-effective employee compensation and benefits programs. Students will gain and utilize effective strategies for managing the single largest controllable expense for organizations; employee pay and benefits. The design of this course is most beneficial for students pursuing future careers in management and human resource professions. (Cross-listed with BSAD 8146).

Prerequisite(s): MGMT 3490 with a C or better and MGMT 4030 with a C+ or better and a 2.5 GPA; or permission of instructor

MGMT 4030 HUMAN RESOURCE MANAGEMENT (3 credits)

This course is a comprehensive review of the field of human resource management and its relevance to employees, managers, and organization stakeholders for goal achievement. The design of this course is structured to educate future managers and leaders on the importance of utilizing effective HR methods that comply with federal laws and the critical role of HR professionals in achieving the organization's positive workplace culture, competitive advantage, and overall success. (Cross-listed with BSAD 8136).

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4040 MANAGING BEHAVIOR IN ORGANIZATIONS (3 credits)

In this course students will learn the knowledge and skills necessary to effectively manage and lead others. The foundations of Organizational Behavior are explored through discussion, application, and analysis, to build connection to critical aspects of real-world scenarios. Students are equipped with the tools and resources to understand the decision-making process, on both the individual and organizational level, to shape behaviors of topics overviewing attitudes, motivation, leadership, employee engagement, group dynamic, and company culture.

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor. Not open to non-degree graduate students.

MGMT 4050 MANAGERIAL DECISION MAKING (3 credits)

This course will provide students with the opportunity to learn, understand, and apply techniques for effective individual and organizational problem solving. The students will interactively participate in generating, prioritizing and organizing their ideas in order to become better managerial decision-makers/problem solvers.

Prerequisite(s): MGMT 3490 with a C, or a 2.5 GPA, or permission of instructor

MGMT 4060 HEALTHCARE ANALYTICS FOR BUSINESS (3 credits)

This course will focus on the mixing of analytics and technology to develop key performance indicators that integrate and evaluate clinical, administrative, and financial performance. Concepts in this course explore the intersection of information management, performance metrics, data visualization, and result communication spanning across the healthcare ecosystem. Topics covering health outcome analysis, financial performance, developing analytic strategies, data quality and governance, and the four stages of actionable intelligence are all used to educate the advantages of leveraging analytics. (Cross-listed with BSAD 8066, SCMT 4060).

Prerequisite(s): MGMT 3490 or SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

MGMT 4090 MANAGING COLLABORATIVE ENGAGEMENT (3 credits)

This course will provide students with the opportunity to develop knowledge and strategies for leading teams, enhancing collaboration, building consensus, problem solving in teams, facilitating group processes, and designing collaborative workspaces. (Cross-listed with BSAD 8096, ACMP 4090, SCMT 4090)

Prerequisite(s): Junior standing or permission of instructor.

MGMT 4100 MANAGING CHANGE AND INNOVATION (3 credits)

This course is designed to increase students' understanding and knowledge of today's rapidly evolving business landscapes. Navigating through aspects of value creation, obtaining competitive advantage, adaptability, and managing resistance supports individuals' ability in influencing change management and innovating environments in many organizational settings.

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4110 STAFFING THE ORGANIZATION (3 credits)

This course is a comprehensive review of issues and techniques involved in the acquisition and management of a high quality and diverse workforce for optimal organizational effectiveness. Students pursuing future manager and human resource professions will benefit from practice utilizing effective strategies for recruiting, selecting, placing, and integrating new employees into an organization's workforce. (Cross-listed with BSAD 8166).

Prerequisite(s): MGMT 3490 with a C or better and MGMT 4030 with a C+ or better and a 2.5 GPA; or permission of instructor. Students are encouraged to take MGMT 4220 prior to taking this course.

MGMT 4120 TALENT DEVELOPMENT (3 credits)

This course is a comprehensive review of the theory and practice of developing and implementing cost-effective employee training and development programs to optimize human capital effectiveness in modern organizations. The course is designed to enable future managers and human resource professionals to utilize effective strategies for assessing employee training needs and developing appropriate solutions to maximize talent utilization. (Cross-listed with BSAD 8156).

Prerequisite(s): MGMT 3490 with a C or better and MGMT 4030 with a C+ or better and a 2.5 GPA; or permission of instructor.

MGMT 4150 GLOBAL BUSINESS MANAGEMENT (3 credits)

The central objective of this course is to explore the unique opportunities and challenges that confront international managers as they navigate the complex and ever-changing global economic, political, legal, technological, and cultural environment. This course will particularly focus on people, values, and culture, better equipping students to both undertake an international career as well as effectively lead organizations with a culturally diverse workforce in any environment. (Cross-listed with BSAD 8236).

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA, or permission of instructor. Not open to non-degree graduate students.

MGMT 4220 EMPLOYMENT LAW (3 credits)

This course is a comprehensive review of the legal framework in human resource management practice. The course is designed to prepare future managers and human resource professionals for the myriad legal issues involved in the employer-employee relationship and what is required for effective compliance. (Spring)

Prerequisite(s): MGMT 3490 and MGMT 3510 or MGMT 4030 with a C (2.0) or better, and a 2.5 GPA; or permission of instructor.

MGMT 4230 LEARNING TO LEAD (3 credits)

The course provides an insight into the introduction of applied leadership concepts, qualities, and practices used to create effective leadership. The background of systemic decision-making processes and examples of actual leaders' problems, strategy approaches, and skill styles are used to challenge students to analyze their own leadership potential and effectiveness. Along with empowering individuals' leadership capabilities, this course explores psychological biases and obstacles that can influence the direction of leaders and their decision-making style.

Prerequisite(s): MGMT 3490 with a C or better, a minimum cumulative GPA of 2.5, or permission of instructor. Not open to non-degree graduate students.

MGMT 4330 PROJECT MANAGEMENT (3 credits)

This course focuses on the systemic exploration of planning and executing complex projects to create organizational success. Using a comprehensive understanding of principles, methodologies, and tools within project management, students will learn how to initiate critical processes, plan objectives and constraints, execute management and leadership, monitor budgets and development, and close outcomes of complex projects. Skills obtained from this course enhance individuals' ability to recognize, identify, and prioritize organizations' culture and structure to lead projects across various industries efficiently. (Cross-listed with SCMT 4330, BSAD 8336)

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of the instructor. Not open to non-degree graduate students.

MGMT 4440 MANAGEMENT OF QUALITY AND PROCESS IMPROVEMENT (3 credits)

Major topics in this course include TQM, process reengineering, process improvement, and tools and techniques to formulate, change and implement these concepts in organizations. Students can develop their knowledge and skills to apply these concepts in organizations through the applied orientation of this course. (Cross-listed with SCMT 4440).

Prerequisite(s): MGMT 3490 with a C or better and a 2.5 GPA; or permission of instructor.

MGMT 4450 MANAGERIAL NEGOTIATION STRATEGIES (3 credits)

This course introduces students to the theory and practice of negotiation across various organizational settings. The ability to successfully negotiate an outcome is an important aspect of management and leadership. Negotiation can be used to determine multiparty relationships, manage conflict resolution, and improve organizational outcomes. Using a combination of conceptual frameworks, roleplaying exercises, and debriefing opportunities, the design of this course is structured to help students understand the power and influence negotiation has over the successful outcomes of managers, leaders, and organizations. (Cross-listed with SCMT 4450, BSAD 8456)

Prerequisite(s): MGMT 3490 with a grade of C or above, at least a cumulative GPA of 2.5, or permission of instructor.

MGMT 4480 CORPORATE AND BUSINESS STRATEGY (3 credits)

This collaborative course is a comprehensive study of the analytical techniques and managerial tasks associated with analyzing, formulating, and implementing strategy in organizations. Connections between the functional business areas and how to create and maintain a competitive advantage, achieve growth, and drive long-term success are explored through contemporary readings, business cases, team projects, and computerized situations.

Prerequisite(s): Must be a graduating senior, have a declared major in BSBA program, 2.5 cumulative GPA, MGMT 3200 or MKT 3200, MGMT 3490, MKT 3310, FNBK 3250 with a "C" (2.0) or better.

MGMT 4500 SPECIAL PROBLEMS IN MANAGEMENT (1-3 credits)

This independent study course gives students an opportunity to complete a focused project in the field of management, human resource management international business, supply chain management, or entrepreneurship under faculty supervision.

Prerequisite(s): MGMT 3490 with a C or better, 2.5 GPA; permission of program chair; junior/senior standing; must obtain agreement from a faculty member to supervise; submit completed Special Problems contract to MGMT Dept Chair. Forms in CBA advising office.

MGMT 4510 MANAGEMENT INTERNSHIP (1-3 credits)

Students can receive degree credit when engaging in part time employment with a business that is relevant to the management discipline. Work assignments are a valuable opportunity to gain practical experience and insight into various aspects of managerial roles within the workforce. Duties within the part time role must relate to general management (i.e., strategy, production/operations, project management, planning, organizing, leading, or controlling) and provide students with an environment to apply their academic knowledge to a professional setting. Combining both academic and professional atmospheres, students gain interpersonal development of leadership and build understanding of managerial responsibilities within organizations.

Prerequisite(s): MGMT 3490 with a C or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MGMT 4520 HUMAN RESOURCES MANAGEMENT INTERNSHIP (1-3 credits)

Students can receive degree credit when engaging in part time employment with a business that is relevant to the human resources management discipline. Work assignments are a valuable opportunity to gain practical experience and insight into various aspects of HR managerial roles within the workforce. Duties within the part time role must relate to general HR management (i.e., staffing, training, employee relations) and provide students with an environment to apply their academic knowledge to a professional setting. Combining both academic and professional atmospheres, students gain interpersonal development of leadership and build understanding of HR managerial responsibilities within organizations.

Prerequisite(s): MGMT 4030 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MGMT 4690 EMERGING TECHNOLOGY AND INNOVATION (3 credits)

This course equips entrepreneurially-minded students with a more complete range and vision of the viability of various startup opportunities (with a specific focus on innovative technologies and innovative business models). Students will become familiarized with the new and emerging technologies and innovations that define modern industries and product categories, as well as the various shifts in the way cutting-edge business gets done, regardless of industry. (Cross-listed with ENTR 4690, BSAD 8696).

Prerequisite(s): Junior standing or higher; 2.75 minimum GPA; or permission of instructor

MGMT 4720 INNOVATION VENTURES (3 credits)

This team-based course provides students with the opportunity to practice the basic tools of business discovery and validation. Concepts and techniques in innovation, entrepreneurship, and strategy will be used to aid students in the venture creation process. Important considerations impacting the viability of the venture post formation will also be explored. Practical real-world experimentation is the central component of the course and will help students to conceive, develop, and launch their own innovative ventures. (Cross-listed with BSAD 8726, ACMP 4720, ACMP 8256, ENTR 4720, MKT 4720).

Prerequisite(s): ENTR 3710 and junior standing or above or by instructor permission

MGMT 4960 CROSS-SECTOR COLLABORATIVE LEADERSHIP CAPSTONE (3 credits)

This is a capstone course that prepares students to be effective leaders in the 21st century. This course is the final leadership course in the Cross-Sector Collaborative Leadership minor. This minor requires a capstone project that encompasses the student's knowledge and training. It is designed to provide an applied service-learning opportunity for students. (Cross-listed with PA 4960).

Prerequisite(s): Must be completing either the Cross-Sector Collaborative Leadership Minor or the Cross-Sector Collaborative Leadership Concentration. Must have completed PA 3800/MGMT 3800. Not open to non-degree graduate students.

Management & Leadership Concentration

The management & leadership concentration provides students with opportunities to develop the technical, interpersonal, conceptual, diagnostic, communication, and decision-making skills to effectively carry out management functions. The management & leadership concentration is designed with the flexibility to permit students to select management courses that will meet their specific interests and career objectives.

¹ Requires placement from UNO's English Placement and Proficiency Exam.

² Requires placement from ACT/SAT scores, UNO's Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.

³ Students who are concentrating in Management & Leadership must receive a grade of "C" or better in MGMT 3490

⁴ For this requirement students must choose from an approved list of Management & Leadership Core classes. (See DegreeWorks for approved options)

⁵ For these requirements students must choose from an approved list of Management & Leadership Core/Elective classes. (See DegreeWorks for approved options)

⁶ For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160

⁷ For this requirement students must choose from an approved list of Management & Leadership Elective classes. (See DegreeWorks for approved options)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines <https://www.unomaha.edu/general-education/overview/index.php>. (<https://www.unomaha.edu/general-education/overview/index.php.html>)

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

****Transfer credit or placement exam scores may change suggested plan of study**

GPA Requirements:

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements:

Students must earn a minimum of 120 credit hours for a BSBA.

42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

Human Resource Management Concentration

The Human Resource Management concentration is for students who wish to focus on the human resource management functions of an organization. These functions include workforce staffing (recruitment and selection), talent development (training and development), performance management, total rewards (compensation and benefits), employee and labor relations, and strategic human resource planning.

Students must complete MGMT 4030 (<https://catalog.unomaha.edu/search/?P=MGMT%204030>) with a C+ or above in order to complete the Human Resource Management concentration.

¹ Requires placement from UNO's English Placement and Proficiency Exam.

² Requires placement from ACT/SAT scores, UNO's Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.

³ Students who are concentrating in Human Resource Management must receive a grade of "C+" or better in MGMT 3490

⁴ Students who are concentrating in Human Resource Management must receive a grade of "C+" or better in MGMT 4030

⁵ For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines <https://www.unomaha.edu/general-education/overview/index.php>. (<https://www.unomaha.edu/general-education/overview/index.php.html>)

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found

at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements:

Students must earn a minimum of 120 credit hours for a BSBA.

42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

Logistics & Supply Chain Management Concentration

The logistics & supply chain management concentration is for students who wish to focus on the supply chain functions within an organization. These functional areas include logistics (transportation management and scheduling), procurement (purchasing and materials management), effective resource management (lean manufacturing and lean supply chain management), and the three pillars of sustainable chains (people, profit, and planet).

ENTR 2550 AFRICAN AMERICAN ECONOMICS AND CONSUMERISM (3 credits)

This course traces the evolution of African American business and economic development systems in the U.S. and will examine historical economic and political influences which impact African American business communities. Students will be exposed to various aspects of African American business and economics, including Black entrepreneurship and Black owned businesses before, during, and after slavery; an analysis of the role of Black churches in African-American communities; and the impact of modern economic and political systems on African American business communities. (Cross-listed with BLST 2550).

Distribution: U.S. Diversity General Education course

ENTR 2980 SEMINAR IN ENTREPRENEURSHIP (1 credit)

This seminar exposes students to entrepreneurs and innovators from multiple industries and varied backgrounds. This course will explicitly link entrepreneurship theories with the best practice experiences of successful entrepreneurs in the region. Through purposeful interaction with the region's start-up community, this course will strengthen the networks of entrepreneurship students and equip students with the knowledge and tools to make their business ideas a reality.

ENTR 3330 ENTREPRENEURIAL FINANCE (3 credits)

This course focuses on venture capital formation and the financing of entrepreneurial ventures. The course is intended for students interested in entrepreneurship, venture capital markets, investment banking, and other careers related to new venture financing and/or deal structuring. The course applies basic financial theory to the unique environment of incubating and growing new ventures. (Cross-listed with FNBK 3330).

Prerequisite(s): ENTR 3710 with a C or better

ENTR 3710 ENTREPRENEURIAL FOUNDATIONS (3 credits)

A study of the analytical techniques and managerial tasks associated with developing and executing business plans for small firms and start-ups. These skills, including strategic positioning and competitor analysis, marketing, teaming, project and operations management, and cash flow projection will be taught through a combination of contemporary readings, speakers, and hands-on practice problems.

Prerequisite(s): Sophomore standing and 2.0 GPA.

ENTR 4000 SPECIAL TOPICS IN ENTREPRENEURSHIP (3 credits)

This special topics course will address specific topics which will vary by semester and is intended primarily for upper division students who are pursuing an entrepreneurship concentration.

Prerequisite(s): ENTR 3710 plus 6 hours of Entrepreneurship, all with C+ or better; GPA of 2.5 or better; or permission of instructor.

ENTR 4150 GEOGRAPHY, GENDER AND ENTREPRENEURSHIP (3 credits)

An advanced seminar focused on links among geography, gender and work, emphasizing leadership and entrepreneurship. The course considers theory and method in addition to empirical work. The nature of space, of gender, and of work, are examined. Topics include the gendering of work, the geography of entrepreneurship, gender and leadership. (Cross-listed with ENTR 8156, GEOG 4150, GEOG 8156, WGST 4150, WGST 8156)

Prerequisite(s): Junior, senior, or graduate standing, or permission of instructor.

ENTR 4390 MEDIA ENTREPRENEURSHIP (3 credits)

Media Entrepreneurship explores new and emerging media business models from local, national and global perspectives. Students learn about and work within the start-up economy and entrepreneurial approaches. The course offers professional and critical perspectives. (Cross-listed with JMC 4390, COMM 8396).

Prerequisite(s): JMC 3340 and JMC 3350 or permission of instructor

ENTR 4530 ENTREPRENEURSHIP INTERNSHIP (1-3 credits)

Students engage in part time employment in a new or small business to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to establishing or growing a small business such as market research, customer development, systems design and implementation, funding activities, etc.

Prerequisite(s): ENTR 3710 with a C+ or better, a 2.5 GPA, and junior level standing, and permission of instructor. Not open to non-degree graduate students.

ENTR 4690 EMERGING TECHNOLOGY AND INNOVATION (3 credits)

This course equips entrepreneurially-minded students with a more complete range and vision of the viability of various startup opportunities (with a specific focus on innovative technologies and innovative business models). Students will become familiarized with the new and emerging technologies and innovations that define modern industries and product categories, as well as the various shifts in the way cutting-edge business gets done, regardless of industry. (Cross-listed with MGMT 4690, BSAD 8696).

Prerequisite(s): Junior standing or higher; 2.75 minimum GPA; or permission of instructor

ENTR 4710 COMPARATIVE INTERNATIONAL DEVELOPMENT AND INNOVATION (3 credits)

Comparative International Development and Innovation will analyze the rise and fall of civilizations from a historical and theoretical perspective in a comparative manner. The course will address issues concerning political, social, economic, and environmental change in national, and international contexts. Among its major emphases are state institutions, economic growth, entrepreneurship, and the transformation of social structure and culture. (Cross-listed with ENTR 8716, PSCI 4710, PSCI 8716).

Prerequisite(s): Junior or senior standing

ENTR 4720 INNOVATION VENTURES (3 credits)

This team-based course provides students with the opportunity to practice the basic tools of business discovery and validation. Concepts and techniques in innovation, entrepreneurship, and strategy will be used to aid students in the venture creation process. Important considerations impacting the viability of the venture post formation will also be explored. Practical real-world experimentation is the central component of the course and will help students to conceive, develop, and launch their own innovative ventures. (Cross-listed with BSAD 8726, ACMP 4720, ACMP 8256, MGMT 4720, MKT 4720).

Prerequisite(s): ENTR 3710 and junior standing or above or by instructor permission

ENTR 4730 NEW VENTURE FORMATION (3 credits)

This course is a comprehensive study of the interrelationships between functional business areas in a start-up or small firm. These interrelationships will be taught through the development of a complete business plan for a start-up or small business.

Prerequisite(s): ENTR 3710 with a C (2.00) or better; GPA 2.5

ENTR 4740 TECHNOLOGY AND INNOVATION MANAGEMENT (3 credits)

This course covers the challenges that surround technology and innovation management. Approaching innovation management as a strategic process, this course will focus in on how the innovation process works and what kinds of organizational environments support this process, as well as how innovation affects the competitive dynamics of markets so that firms can better manage their innovation(s).

Prerequisite(s): ENTR 3710. Not open to non-degree graduate students.

ENTR 4750 SOCIAL ENTREPRENEURSHIP (3 credits)

Motivated by the desire for social change and community betterment, social entrepreneurs use innovation to solve society's problems in a variety of settings - nonprofits, for-profit businesses, or government agencies. Guest speakers, case discussion, lecture, and student presentations will be used in this course and students will be expected to develop a detailed business plan for a social enterprise.

Prerequisite(s): Minimum GPA 2.5

ENTR 4760 SELLING IN AN ENTREPRENEURIAL CONTEXT (3 credits)

Successful entrepreneurs are able to identify unmet needs in the marketplace and then design and sell products or services that fulfill those needs. Sales effectiveness is essential for entrepreneurs because they must be able to build sustainable sales pipelines that ensure profitable growth while simultaneously addressing other pressing issues including financing, staffing, and product development. This course will focus on consultative solution-based sales fundamentals that can be applied in an entrepreneurial selling environment. (Cross-listed with MKT 4760, BSAD 8766)

Prerequisite(s): GPA 2.5 or better; MKT 3100 with a "C+" or better; MKT 3310 with a "C+" or better; or permission of instructor. Not open to non-degree graduate students.

ENTR 4770 INTRODUCTORY MAVERICK VENTURE FUND (1 credit)

This course teaches the basics of venture capital, including, the topics of term sheets, due diligence and learning the perspectives of the entrepreneur and investor. Students in this course have the opportunity to observe more advanced students making investments, ranging from 5,000 dollars to 10,000 dollars plus. This course is the first of three, one-credit courses where students gain more advanced venture funding knowledge and application at each level. (Cross-listed with BSAD 8776).

Prerequisite(s): This course requires instructor approval.

ENTR 4780 INTERMEDIATE MAVERICK VENTURE FUND (1 credit)

In this course, students source deals, listen to pitches, and select start-ups to be funded. Investments typically range from 5,000 dollars to 10,000 dollars plus. This course is the second in a set of three courses that increase in difficulty with each course. (Cross-listed with BSAD 8786).

Prerequisite(s): Students must have taken Maverick Venture Fund - 1: Venture Capital Concepts (ENTR 4770/8770).

ENTR 4790 ADVANCED MAVERICK VENTURE FUND (1 credit)

This course applies advanced concepts of venture capital. Students will learn how to monitor and assist start-ups in the scaling process. Students learn how to leverage community partners to amplify investment opportunities. This course is the third in a set of three courses that increase in difficulty with each course. (Cross-listed with BSAD 8796).

Prerequisite(s): Students must have taken MAVERICK VENTURE FUND - 2: APPLICATION, SOURCING DEALS & DUE DILIGENCE

MKT 2210 SURVEY OF MARKETING (3 credits)

This course is designed for any student who has an interest in marketing and focuses on basic product and services marketing as well as digital and social media marketing.

MKT 3100 PROFESSIONAL SELLING (3 credits)

This course focuses on professional selling and relationship marketing principles and practices. A variety of personal and direct sales techniques, psychology, and application of personal communication theory will be applied. Role-plays and presentations will be utilized to help students learn and execute the sales process model.

Prerequisite(s): ENGL 1160 with 'C' (2.0) or better and GPA of 2.3 or better; or permission of instructor.

MKT 3200 BUSINESS COMMUNICATIONS (3 credits)

This course develops business communication skills such as selecting and using appropriate technologies for reaching intended audiences. Students will practice effective explanatory, narrative, persuasive, and investigative writing in the context of business communication.

Prerequisite(s): ENGL 1160 and CMST 1110, each with a grade of "C" (2.0) or better; 2.5 GPA.

Distribution: Writing in the Discipline Single Course

MKT 3310 PRINCIPLES OF MARKETING (3 credits)

An examination of marketing functions and the institutions which perform them, choice of criteria for marketing strategy decisions, marketing structural relationships, and the role of marketing in society.

Prerequisite(s): ECON 2200, MATH 1310 or MATH 1220, ENGL 1160, and MGMT 3200 or MKT 3200 all with 'C'(2.0) or better, and 2.5 GPA.

MKT 3320 CONSUMER BEHAVIOR (3 credits)

Consumers purchase, use, experience, and dispose of products and services as part of their consumption process. How and why consumers choose various brand options, form judgments about these brands, and decide which options to buy and/or re-buy are essential knowledge for marketing professionals. The course covers the psychological and social issues that guide consumption decisions. (Cross-listed with BSAD 8345).

Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better; or permission of instructor.

MKT 3340 OMNI CHANNEL MARKETING (3 credits)

This course is designed to provide students with an overview of the omnichannel marketing landscape. Omnichannel marketing focuses on creating a seamless shopping experience through the integration of multiple channels. Attention is paid to how modern-day retailers can create a holistic and highly personalized experience for customers.

Prerequisite(s): MKT 3310 with 'C+' or better; and GPA of 2.5 or better; or permission of instructor.

MKT 3350 MARKETING SERVICE PRODUCTS (3 credits)

This elective explores how intangibility forces customers to evaluate service products differently, creating more challenges for marketers. The course is based on the premise that financial benefits reward services that provide value to customers, and develops strategies for creating value.

Prerequisite(s): MKT 3310 with a 'C+' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 3360 DIGITAL MARKETING COMMUNICATIONS (3 credits)

This course is designed to familiarize students with digital marketing concepts and applications. It provides a detailed understanding of relevant digital channels and platforms that companies use as part of their marketing mix. The course is structured to guide students through paid, earned, and owned digital media as part of a comprehensive digital marketing communications strategy. The course employs a mixture of lecture, discussion, simulation games, and sponsored consulting projects with real-world companies.

Prerequisite(s): MKT 3310 with 'C+' or better and GPA of 2.5 or better; or permission of instructor.

MKT 3370 SOCIAL MEDIA MARKETING (3 credits)

This course is designed to familiarize students with social media marketing concepts and applications. It provides a detailed understanding of relevant social media channels and platforms that companies use as part of their marketing mix. Students will apply their knowledge from class by completing several in-class exercises as well as graded assignments. The course employs a mixture of lecture, discussion, simulation games, and sponsored consulting projects with real-world companies.

Prerequisite(s): Completion of MKT 3310 with a C+ or better.

MKT 3380 INTERNATIONAL MARKETING (3 credits)

A study of the processes, procedures, characteristics and environments for goods and services in foreign market places. Reference is drawn to the theories and concepts of domestic marketing to appraise their applicability to international markets. Considerable attention is given to the features of the foreign market environments which both facilitate the marketing processes, inhibit them, and require strategies and tactics of accommodation.

Prerequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better.

MKT 3390 GRAPHIC DESIGN FOR MARKETERS (3 credits)

The course provides a hands-on introduction to the concepts and tools used in graphic design to create marketing communications. Material and assignments will focus on how design supports marketing communication strategy. Students will learn the principles and vocabulary of design, how to critique graphic design, and how to create basic print materials. Students will learn and practice the skills necessary to communicate with graphic designers and advertising professionals in order to successfully implement marketing strategies.

Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better.

MKT 3400 MARKETING INNOVATION (3 credits)

Product, service, and process innovation are essential drivers of firm performance. However, firms face considerable and complex challenges when bringing innovative ideas to life. For example, what marketing research methods should we employ to uncover vital consumer insights? How do these insights influence the development and launch of new products and services? What differentiated value are we delivering to our consumers? How do we successfully bring this new product or service to market? How does a brand's purpose and personality influence consumers' perceptions, purchase decisions, adoption, and engagement? This course will cover key marketing principles involved in the development and launch of new and innovative products and services - from conception to commercialization. Furthermore, we will explore how new-age technologies impact each stage of the development and launch processes. (Cross-listed with BSAD 8435).

Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better; or permission of instructor.

MKT 3410 INTRODUCTION TO SUPPLY CHAIN MANAGEMENT (3 credits)

Supply chain management is the design and management of business processes needed to turn raw materials from suppliers into products and services that meet the needs of the final customer. The goals of this course center around providing students with the foundations of supply chain management and effectively managing the flow of goods, information, and services to obtain sustainable competitive advantage within an industry. Students will develop critical thinking skills focused on business process analysis and the use of key performance indicators to determine operational efficiencies for all organization levels. (Cross-listed with SCMT 3410, MGMT 3410).

Prerequisite(s): Sophomore standing; GPA of 2.0 or better; or by permission of instructor. Not open to non-degree graduate students.

MKT 3600 BUSINESS ETHICS (3 credits)

Students will learn about the factors, opportunities and pressures that lead to ethical dilemmas, and will develop their understanding of foundations and processes that encourage and reward ethical decision making and behaviors. Lots of examples, sourced from case studies and current events will be provided. (Cross-listed with BSAD 3600, MGMT 3600).

Prerequisite(s): Junior classification (minimum of 58 earned credit hours) with a minimum 2.5 cumulative GPA. Completion of MGMT 3200 or MKT 3200 with a minimum grade of 'C' (2.0). Not open to non-degree graduate students.

MKT 3610 BUSINESS TO BUSINESS MARKETING (3 credits)

This course examines the decisions involved in marketing goods and services to the industrial buyer as opposed to the consumer buyer. Buyer motivation, promotion decisions, channel decisions, product development and pricing policies involved in the marketing of industrial goods are considered.

Prerequisite(s): MKT 3310 with 'C+' or better; 2.5 GPA or better; or permission of instructor

MKT 4000 SPECIAL TOPICS IN MARKETING (3 credits)

This special topics course will address specific topics which will vary by semester and is intended primarily for upper division students who are pursuing a marketing or sales concentration.

Prerequisite(s): MKT 3310 plus 6 hours of Marketing, all with 'C+' or better; GPA of 2.5 or better; or permission of instructor.

MKT 4200 CONSULTATIVE SELLING PRINCIPLES (3 credits)

The primary focus of the Consultative Selling Principles course is to develop the behaviors, methodologies, principles, and processes required to successfully lead and manage complex selling initiatives to a win-win close. The course examines and applies, through role playing and other activities, the critical relationship building, critical thinking, problem solving, listening and negotiating capabilities which are the foundation skills underlying consultative selling. (Cross-listed with BSAD 8206)

Prerequisite(s): MKT 3310 with 'C+' or better; MKT 3100 with C+ or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4210 SELLING FINANCIAL SERVICES (3 credits)

Selling Financial Services concentrates on methods to effectively sell services and products in the financial services industry, including the banking, brokerage and insurance sectors. Targeting, initiating, and acquiring client relationships, expanding business opportunities, and maintaining long-term client relationships are the course's focal points. This integrative course is designed to provide students with a basic understanding of the selling profession and sales culture within the financial services industry. (Cross-listed with BSAD 8216, FNBK 4210).

Prerequisite(s): MKT 3310 with a C+ or better grade and 2.5 GPA. Not open to non-degree graduate students.

MKT 4220 GLOBAL STRATEGIC ACCOUNT MANAGEMENT (3 credits)

Throughout this course, the management of strategic account programs at national, multi-country, and global levels will be addressed. The primary focus of the curriculum is on the critical success factors for driving revenue, sustainable long term-growth and profitability with a base of core strategic buyers. (Cross-listed with BSAD 8226)

Prerequisite(s): Senior or graduate student standing and permission of the instructor. Not open to non-degree graduate students.

MKT 4300 MARKETING MANAGEMENT (3 credits)

This case study course examines product, price, promotion and channel of distribution policies. Major emphasis is placed on analysis of marketing problems and the facets of making marketing decisions.

Prerequisite(s): MKT 3310 with grade of 'C+' or better plus 6 hours of marketing, all with 'C' (2.0) or better, senior standing; GPA of 2.5 or better; or permission of instructor.

MKT 4320 SALES MANAGEMENT (3 credits)

The student will be exposed to current research findings in sales management and to business cases and simulations where sales management theories and concepts will be applied. This course will prepare students to develop and implement specific compensation, motivation, and evaluation strategies for managing sales professionals across a wide variety of organizations. (Cross-listed with BSAD 8326).

Prerequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4340 MARKETING RESEARCH (3 credits)

Application of analytical tools to marketing problems including markets, products, distribution channels, sales efforts and advertising. Emphasis on planning, investigation, collection, interpretation of data and presentation of results.

Prerequisite(s): MKT 3310 with 'C+' or better; BSAD 2130 or BSAD 3140 or BSAD 3160 with 'C' (2.0) or better; GPA of 2.5 or better; or permission of instructor.

MKT 4360 E-MARKETING (3 credits)

This course focuses on utilizing the Internet as a marketing platform. Course content includes discussion of how the Internet is used by businesses for designing products, pricing, promotions, distribution, positioning, gathering information, and cultivating relationships with stakeholders. The discussion about the rise of social media, sharing economy, virtual reality devices, and other relevant trends will also be part of the course. (Cross-listed with BSAD 8366).

Prerequisite(s): MKT 3310 with 'C+' or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4370 MARKETING ANALYTICS (3 credits)

This course focuses on the application of data analytics in marketing decision making (e.g., segmentation, sales forecasting, and resource allocation). Students will learn to apply statistics and econometrics to solve marketing problems. Key topics in this course include marketing data visualization, marketing metrics, descriptive and predictive analytics, and digital marketing analytics. This course takes a very hands-on approach with real-world databases and equips students with tools that can be used immediately on the job. (Cross-listed with BSAD 8396).

Prerequisite(s): MKT 3310 with 'C+' or better; BSAD 2130 or BSAD 3140 or BSAD 3160 with 'C' (2.0) or better; GPA of 2.5 or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4380 INDUSTRIAL PURCHASING AND LOGISTICS MANAGEMENT (3 credits)

This course will focus on the strategic procurement of products and services in order to gain a competitive advantage through integrated supply management. Students will learn about strategic supply management, contract negotiation, and supplier quality management. Students will develop an understanding of supplier performance management through the use of supply chain information systems. (Cross-listed with SCMT 4380, BSAD 8386.)

Prerequisite(s): SCMT 3410; GPA of 2.5 or better; or by permission of instructor. Not open to non-degree graduate students.

MKT 4420 BUSINESS DEMOGRAPHICS (3 credits)

The goal of this course is to develop a demographic perspective in order to assist in understanding the business environment and business policy. How population change impacts consumer markets and all of the functions (for example, accounting, finance and management) that must exist for these markets to perform. Includes a history of population change and policy as well as a view toward international population considerations. (Cross-listed with BSAD 8426).

Prerequisite(s): MKT 3310 with 'C+' or better; GPA 2.5 or better, Junior Standing; or permission of instructor. Not open to non-degree graduate students.

MKT 4500 SPECIAL PROBLEMS IN MARKETING (1-3 credits)

This course consists of an individual investigation of specific marketing topics under the supervision of a faculty member and could include readings, independent research, and a written research paper.
Prerequisite(s): Principles of Marketing (MKT 3310) with minimum C+ or permission of instructor.

MKT 4510 MARKETING INTERNSHIP (1-3 credits)

Students engage in part time employment in the marketing discipline to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to general marketing or a specialization within the domain (i.e. selling, social media, advertising, market research).
Prerequisite(s): MKT 3310 with a C+ or better, a 2.5 GPA, and junior level standing; and permission of instructor.

MKT 4540 SUPPLY CHAIN MANAGEMENT INTERNSHIP (1-3 credits)

Students engage in part-time employment in supply chain management to gain relevant business experience and to practice the skills and concepts learned in the classroom. Work assignment must encompass duties related to the field of supply chain management (i.e., purchasing, scheduling, supplier relations, materials management, or logistics). (Cross-listed with SCMT 4540)
Prerequisite(s): MKT-MGMT 3410 Sustainable Supply Chain Management and GPA of 2.5 or better; or by permission of the instructor. Not open to non-degree graduate students.

MKT 4720 INNOVATION VENTURES (3 credits)

This team-based course provides students with the opportunity to practice the basic tools of business discovery and validation. Concepts and techniques in innovation, entrepreneurship, and strategy will be used to aid students in the venture creation process. Important considerations impacting the viability of the venture post formation will also be explored. Practical real-world experimentation is the central component of the course and will help students to conceive, develop, and launch their own innovative ventures. (Cross-listed with BSAD 8726, ACMP 4720, ACMP 8256, ENTR 4720, MGMT 4720).
Prerequisite(s): ENTR 3710 and junior standing or above or by instructor permission

MKT 4760 SELLING IN AN ENTREPRENEURIAL CONTEXT (3 credits)

Successful entrepreneurs are able to identify unmet needs in the marketplace and then design and sell products or services that fulfill those needs. Sales effectiveness is essential for entrepreneurs because they must be able to build sustainable sales pipelines that ensure profitable growth while simultaneously addressing other pressing issues including financing, staffing, and product development. This course will focus on consultative solution-based sales fundamentals that can be applied in an entrepreneurial selling environment. (Cross-listed with ENTR 4760, BSAD 8766)
Prerequisite(s): GPA 2.5 or better; MKT 3100 with a "C+" or better; MKT 3310 with a "C+" or better; or permission of instructor. Not open to non-degree graduate students.

MKT 4800 HONORS STUDIES IN MARKETING (3 credits)

A comprehensive examination of marketing as it is practiced among firms representing different industrial sectors. Course objectives include individual inquiry, theoretical applications and limitations, and an increased academic understanding of the discipline of marketing. Only grades 'B' and above will be awarded. Students exhibiting performance below the 'B' level will receive an 'F' for the course. Admission to this course is by invitation only.
Prerequisite(s): Permission of instructor. Senior standing, 3.2 GPA or above, declared business college specialization in MKT or BFIN or MGMT or communications (journalism, PR or broadcasting). Not open to non-degree graduate students.

Entrepreneurship Concentration

The Entrepreneurship Concentration is for students interested in starting, owning, and/or operating a business venture as well as students interested in serving entrepreneurial ventures as consultants, bankers, accountants, and marketing professionals. The entrepreneurship concentration has a practical emphasis designed to assist students in developing and operating their new and/or small ventures. Courses in this concentration lead students through the different processes of getting into business, addresses important operating issues relevant to the running of day-to-day activities of a venture, and discuss the important topic of planning for business growth and development.

¹ Requires placement from UNO's English Placement and Proficiency Exam.

² Requires placement from ACT/SAT scores, UNO's Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.

³ For this requirement students must choose from an approved list of Entrepreneurship Elective classes. (See DegreeWorks for approved options)

⁴ For this requirement students must choose from an approved list of Entrepreneurship Elective classes. (See DegreeWorks for approved options)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines <https://www.unomaha.edu/general-education/overview/index.php>. (<https://www.unomaha.edu/general-education/overview/index.php.html>)

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements:

Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

International Business Concentration

A concentration in International Business (IB) provides students with the knowledge, skills and experience necessary for successful careers in the global business environment. BSBA students must combine the International Business Concentration with another BSBA Concentration. With this preparation, graduates will be prepared for employment in many manufacturing, service, or knowledge-based industries with international markets, international suppliers, international sources of finance, or an internationally diverse workforce.

The completion of specified courses in international business may be applied toward the course requirements in other concentration areas.

¹ Requires placement from UNO's English Placement and Proficiency Exam.

² Requires placement from ACT/SAT scores, UNO's Math Placement Exam, or an approved prerequisite course within the last two years. Students might be required to take a lower level math course before MATH 1370 depending on their placement scores.

³ For this requirement students must choose from the following list: MKT 3100, CMST 2120, CMST 3100, CMST 3120, CMST 3130, CMST 3140, CMST 3150, or CMST 3160

⁴ For this requirement students must choose from an approved list of International Business Elective classes. (See DegreeWorks for approved options)

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

General Education courses (Humanities, Social Science & Natural Science) must be from at least two different disciplines <https://www.unomaha.edu/general-education/overview/index.php>. (<https://www.unomaha.edu/general-education/overview/index.php.html>)

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements:

Students must earn a minimum of 120 credit hours for a BSBA. 42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

Marketing Concentration

Students earning a concentration in marketing learn research skills necessary for discovering the needs or desires of their firm's target market. These skills enable marketers to develop a thorough understanding of their target market(s), the marketplace—whether local, national, global or virtual, the firm's competitors, and the competitive environment. Working together with other units in the firm, marketers design products and services that provide benefits and/or solve customer problems better or more efficiently than competitors' products. In other words, marketers contribute to the

firm's competitive advantages to avoid being easily copied by competitors. Marketers design and implement strategic marketing plans in order to

1. Communicate effectively with the target market so customers understand the benefits offered by the firm relative to competitors;
2. Distribute products and services in ways that maximize customer satisfaction while simultaneously minimizing the firm's costs; and
3. Provide value to the target market so that customers are satisfied with the benefits received for the price paid, especially when compared to value available from competitors.

Students must complete MKT 3310 (<https://catalog.unomaha.edu/search/?P=MKT%203310>) with a C+ or above in order to take additional marketing courses, to complete the marketing concentration, or to complete the secondary concentration in marketing.

Students must meet all prerequisites to enroll in MKT 3310 (<https://catalog.unomaha.edu/search/?P=MKT%203310>). For students who wish to complete a secondary concentration in marketing, at least one of the courses must be MKT 4300 (<https://catalog.unomaha.edu/search/?P=MKT%204300>) or MKT 4340 (<https://catalog.unomaha.edu/search/?P=MKT%204340>). For the remaining six (6) hours of upper-division (3000 or

4000 level) marketing courses, any course approved for the marketing concentration may also be used for the secondary concentration in marketing, with the exception of MKT 4500 (<https://catalog.unomaha.edu/search/?P=MKT%204500>). A grade of C (2.00) or better is required for a course to apply to the secondary concentration.

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

Courses within the College of Business require students to obtain a minimum NU GPA of 2.5 or better.

Graduation Requirements:

Students must earn a minimum of 120 credit hours for a BSBA.

42 of those credit hours must be in upper division courses.

Students must earn a C (2.00) or above in all fundamental academic skills, pre-business, upper division business core, and business concentration courses.

CBA students must earn a minimum NU GPA of 2.50 and a minimum Business GPA of 2.50. If students are earning an accounting concentration or secondary concentration, a minimum upper division accounting GPA of 2.50 is additionally required.

Sales Concentration

The Sales concentration provides students with the opportunity to develop communication, interpersonal, decision-making, and critical-thinking skills that will enable them to effectively carry out sales functions across a variety of contexts, career paths, and industries. The Sales concentration is specifically designed to develop knowledge and skills in relational and consultative selling.

Sales concentration and Sales secondary concentration students are required to earn a "C+" or better in MKT 3310 or MKT 3100.

College of Communication, Fine Arts and Media

College Vision Statement

The College of Communication, Fine Arts and Media (CFAM) is united by its common conviction that imagination and human communication are inseparable aspects of the same intellectual process. Through innovative and traditional teaching and the use of emerging technologies, the college promotes learning, research, scholarship, creative activity, and service

to the profession and to the broader community in all aspects of human communication.

Central to the college's educational mission is the instruction of students in the essential, practical and theoretical knowledge that they will need to succeed in their chosen disciplines. Through its diverse outreach activities, the college is equally committed to the engagement of a broad constituency. The college makes important contributions to the cultural growth and well-being of the people of the region and prepares students to participate in a global community.

General Information

Overview of Degree Programs

The college is structured as three distinct schools: the School of the Arts (Art & Art History, Theatre, Writer’s Workshop), the School of Communication and the School of Music.

The College of Communication, Fine Arts and Media (CFAM) offers the following degree programs:

- Bachelor of Arts
- Bachelor of Fine Arts
- Bachelor of Music
- Bachelor of Science
- Graduate Degrees (offered through Graduate Studies)

Accreditation Information

Major	Degree	Accreditation Body
Art History	BA	National Association of Schools of Art and Design (NASAD)
Music	BA	National Association of Music (NASM)
Music Conducting	MM	National Association of Schools of Music (NASM)
Music Education	BM	- National Association of Schools of Music (NASM) - Association for Advancing Quality in Educator Preparation (AAQEP) - Nebraska Department of Education
Music Education	MM	National Association of Schools of Music (NASM)
Music Performance	BM MM	National Association of Schools of Music (NASM)
Studio Art	BASA BFA	National Association of Schools of Art and Design (NASAD)
Studio Art with K-12 Certification	BASA BFA	- National Association of Schools of Art and Design (NASAD) - Association for Advancing Quality in Educator Preparation (AAQEP)- Nebraska Department of Education

Choice of Catalog Policy

The catalog year (requirement term) is what ties the student to the catalog year curriculum that they are required to follow and determines the contract of degree requirements a student must fulfill in order to graduate. Generally, the catalog year defaults to the same semester that the student entered the University in a degree program; however, students are eligible for more recent catalog years if it is to their benefit and approved by their advisor. By changing catalogs, a student is responsible for fulfilling all of the graduation requirements in their newly chosen catalog year. Requests to Change of Catalog Year must be approved by your Academic Advisor(s) and the CFAM Dean's Office. Students who suspend their matriculation for more than two semesters forfeit the requirements under their initial catalog and must complete the program under the catalog for the academic year in which they return.

Program Contact Information

College of Communication, Fine Arts and Media Dean's Office:
402.554.3857

Program Website (<https://www.unomaha.edu/college-of-communication-fine-arts-and-media/>)

Admission Requirements

Admission to programs in the College of Communication, Fine Arts and Media follow regular admission procedures of the University outlined in the current undergraduate catalog. The application deadline for admission to a degree seeking program is August 1 for fall semester, December 1 for spring semester.

Students who wish to transfer into CFAM from another college within the University must obtain written permission from and meet with a CFAM Dean's Office advisor. A minimum cumulative grade point average (GPA) of 2.25 is required to transfer into the college.

Academic Requirements for the College Degrees

Number of Hours to Graduate

Students must complete a minimum of 120 semester hours of college credit toward the degree of Bachelor of Science in Communication, Bachelor of Arts in Communication, Bachelor of Arts in Art History, Bachelor of Arts in Studio Art, Bachelor of Fine Arts (Studio Art and Creative Writing), Bachelor of Arts in Theatre, Bachelor of Arts in Music or Bachelor of Music. The minimum credit hour requirement for students in art or music seeking K-12 certification may vary according to current guidelines for teacher certification. Students must maintain close contact with an advisor each semester to insure progress toward fulfillment of their course of study. No student may count more than 87 semester hours of credit in any one discipline toward graduation. Actual limits are determined by faculty in the various disciplines.

General Education Requirements

Students are required to complete the UNO General Education requirements. See below for specific information about quantitative literacy and writing in the discipline.

Quantitative Literacy

Students seeking degrees within the College of Communication, Fine Arts and Media can complete any of the courses approved for quantitative literacy.

Writing in the Discipline

The following courses have been approved to fulfill the requirement for Writing in the Discipline for students seeking degrees within the College of Communication, Fine Arts and Media:

Students in Art/Art History, Music (not K-12), and Writer's Workshop

WRWS 3500 Creative Writing in the Arts

Students in Communication studies or Journalism/Media Communication

CMST 3340 Rhetorical Criticism (For students in Communication Studies)

JMC 2100 Media Writing (For students in Journalism/Media Communication)

Students in Art, K-12 and Music, K-12 Only

TED 2100 Educational Foundations

Students in Theatre Only

THEA 3710 Theatre History and Literature: Modern 1850-2000

THEA 4780 Theatre History and Literature: Classical to 1500

[THEA 4790](#) Theatre History and Literature: Renaissance to 1850

Academic advisors can provide information about the specific course required for each degree program

Foreign Language Requirement for BA degrees in Music, Theater, and Studio Art degrees

While Bachelor of Arts degrees typically require foreign language as part of the degree requirements, students in music, theatre, and studio arts are exempt from this requirement.

Minimum GPA/Additional Requirements

All students who have not yet earned any college credit and who are eligible to enter the university are accepted for admission to the college. Students who are seeking a degree within the School of Music are also required to complete an entrance audition for admission into the music program.

Admission of transfer students or students who have previously been enrolled at UNO is evaluated on an individual basis. A 2.25 grade point average in previous course work is required.

Application deadline for admission: August 1 for fall semester, December 1 for spring semester

Transfer Credit Policy

Students may apply no more than 96 quarter hours (64 semester hours), transferred from a two year institution, towards a UNO bachelor's degree. Academic advisors retain the right to accept or reject courses based on their transferability and validity to fulfill major requirements.

Unacceptable Credits

Credits in any courses classified as "remedial" or courses in other colleges of the university not approved by the College of Communication, Fine Arts and Media faculty may not be applied toward degrees offered by CFAM.

Placement Exams and Credit by Examinations Policies/Practices

<https://nextcatalog.unomaha.edu/undergraduate/student-life-support-services/> (p. 66)

Residency Requirement

Thirty (30) of the last 36 hours required for the degree must be registered for and completed at the University of Nebraska at Omaha.

Quality of Work

A grade of "C" or higher will be required for any major course accepted for any College of Communication, Fine Arts and Media degree requirement. All students must maintain a minimum 2.0 grade point average (GPA) in all course work, including work transferred from other institutions, to remain in good standing in the college.

The School of Communication requires students to earn a minimum of "C" in all major course work. Furthermore, students who take sophomore level or above journalism and media communication courses, or junior level or above communication studies courses must maintain at least a 2.25 cumulative GPA.

The School of the Arts requires students to earn a minimum of "C" in all major course work. Students pursuing the BFA in Studio Arts must maintain a 3.0 GPA in all art courses including the BFA sequence. Students seeking Art, K-12 certification must adhere to the GPA/grading standards set for the UNO Educator Preparation Program.

The School of Music requires a 2.5 GPA in all music courses. Students enrolled in the Bachelor of Music, performance concentration must maintain a 3.0 average in their major applied field. Students seeking K-12 certification must adhere to the GPA/grading standards set for the UNO Educator Preparation Program

All grades reported by the faculty to the registrar become a part of the student's permanent record and are included in computation of the cumulative grade point average, regardless of the total number required for the degree.

Good Academic Standing Policy

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Credit/No Credit (CR/NC) Grades

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Completion of Incomplete Grade

Students have one semester after an incomplete is awarded to complete the course work. After this, the grade changes to a withdrawal. Students who complete the required course work outside of the allotted time frame may still receive credit by re-enrolling and paying tuition for the course. Exceptions are made when a student has been working in good

faith continuously to complete the course work, with no breaks in work submitted, or within contracted terms determined by the faculty member.

Repeatable Grades/Courses

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Appeal Process

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Grade Appeal Policy

Undergraduate students wanting to appeal a grade received in a College of Communication, Fine Arts and Media unit course should first discuss the matter directly with the instructor. If a satisfactory agreement is not reached, the student may submit an appeal in writing to the chair/director of the academic unit in which the course is offered.

If the student and chair/director of the academic unit do not reach a satisfactory agreement, the student may submit an appeal in writing to the Dean of the College of Communication, Fine Arts and Media, at which point the appeal may be referred to the Education Policy Committee of the College for review. The student's written appeal to the Dean must be made by the end of the following semester after the academic unit's decision. For example, if the academic unit's decision is made in the fall semester, the student has until the end of the spring semester to submit a written appeal. If the Education Policy Committee of the College reviews the appeal it may request additional information from the student, the instructor, the academic unit or its chair/director as needed. Education Policy Committee members who have voted on the case at the academic unit level must recuse themselves from the Committee's vote. Upon making a decision, the Education Policy Committee will send its recommendation to the Dean's office in writing, and the Dean's office will notify the student of the College's decision.

Academic Amnesty

A student enrolled in the College of Communication, Fine Arts and Media may request to have one or two semesters (taken at UNO, UNL, and/or UNK) removed from their cumulative grade point average and degree consideration by petitioning for academic amnesty. The form for applying for Academic Amnesty can be found [here \(https://www.unomaha.edu/college-of-communication-fine-arts-and-media/files/docs/AcademicAmnestyPetition.pdf\)](https://www.unomaha.edu/college-of-communication-fine-arts-and-media/files/docs/AcademicAmnestyPetition.pdf)

The following conditions for academic amnesty apply:

- Have been out of the Nebraska system for at least one calendar year (12-month period).
- Have substandard coursework ("F" or "D" grades) earned within the University of Nebraska system (UNO, UNL, UNK, UNMC) prior to the year out (substandard grades earned after the year out will not be included in the Academic Amnesty contract).
- Be admitted as a degree-seeking student at the University of Nebraska.

Requirements:

- Academic Amnesty will begin with the first course(s) taken upon return to UNO.
- Students may apply for Academic Amnesty at any time after taking the one-year break.
- After returning from the one-year break, demonstrate academic success in new UNO coursework.
- Academic success may be demonstrated by one of the following:
 - Completing at least 12 semester hours (simultaneous or sequential) with a minimum of 3.0 cumulative GPA,

- Completing at least 24 semester hours (simultaneous or sequential) with a minimum of 2.5 cumulative GPA.
- Students must maintain continuous enrollment (at least six (6) semester hours completed within any 12-month period).
- Students will work with their academic advisor to select the coursework to be amnestied.
- Students must inform an academic advisor when the Academic Amnesty requirements are met.

Notes:

- All amnestied coursework will remain on the student's academic record (transcript); however, the courses will not be included in calculation of the student's grade point average. Courses will be annotated "Academic Amnesty Excluded from GPA" on the transcript.
- Once Academic Amnesty is granted, students will not be eligible for honors at graduation. Students are still eligible for Dean's List and Chancellor's List honors.
- While demonstrating academic success, no changes are made to the student's academic record. If a student's cumulative GPA is still below standard, the students will continue to be reported as "continued on probation." Should the student revert to substandard academic performance while working on Academic Amnesty, the student can still be suspended. Academic Amnesty is intended to provide relief from the past without providing immunity from future substandard academic performance.
- Students must still meet all university and college requirements to graduate.

Academic Probation and Suspension

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Reinstatement Policy Following Academic Suspension

<https://nextcatalog.unomaha.edu/undergraduate/grades/> (p. 35)

Academic Advising

Each student enrolled in a College of Communication, Fine Arts and Media degree program is encouraged to review requirements for their intended degree with an assigned academic advisor. (<https://www.unomaha.edu/college-of-communication-fine-arts-and-media/academics/advising.php>) Information on assigned advisors is available in the student's relevant school offices. Additionally, students can contact academic advisors via the MavCONNECT (<https://www.unomaha.edu/enterprise-systems/mavconnect/>). Review of specific degree requirements should be conducted with an advisor at scheduled times each semester in preparation for and prior to each enrollment/registration period.

Advising Holds

<https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/> (p. 28)

Student Holds

<https://nextcatalog.unomaha.edu/undergraduate/enrollment/enrollment/> (p. 28)

Senior Check

Students who have completed 91+ credit hours toward their chosen degree program are required to have a senior check completed by an academic advisor. This process will assure the student's graduation date, assuming

satisfactory completion of all approved courses. All substitutions and/or changes to a student's degree requirements must be noted in writing during the advising process. Should this procedure not be followed, responsibility for meeting graduation requirements falls on the student. Errors made could prevent timely graduation.

School of Communication Mission

The School of Communication provides a student-centered, dynamic environment designed to elevate, empower, and engage students to become skilled, ethical citizens and professionals who can excel in diverse local and global communities.

Vision

Our vision is to be a recognized leader in innovative teaching, leading-edge research/creative activity, and community-engagement initiatives. We will achieve this by supporting and attracting exceptional faculty and outstanding undergraduate and graduate students from within and outside the metropolitan area.

Other information

For School of Communication majors, courses that have been applied toward general education requirements may also be applied to the major, minor, or second-field of concentration requirements, with the exception of the courses used to fulfill the general education oral communication requirement.

All students who take most sophomore-level or above (2000-, 3000- or 4000-level) journalism and media communication courses (JMC), or junior-level or above (3000- or 4000-level) communication studies (CMST) courses, are required to have a cumulative grade-point average of at least 2.25. Any exceptions will be by written permission of the school. Students will receive a worksheet listing requirements to track their progress toward a degree.

Communication Studies students may not complete more than a total of three hours of credit for forensics activities (CMST 3150 and CMST 3160) or more than a total of six hours of credit for Internships and Independent Study. Exceptions to these limits can be made by the School of Communication director.

Journalism and Media Communication students may not complete more than a total of six hours of credit for Internships and Independent Study. Exceptions to these limits may be made by the School of Communication director.

Students may double major within the School of Communication by completing the requirements for both CMST and JMC programs. Some classes, such as JMC 4970 and CMST 4970 Internship Experience, may count toward both majors with advisor approval.

The Bachelor of Arts in Communication (BAC) degree includes a foreign language requirement (16 credit hours or high school equivalent), while the Bachelor of Science in Communication (BSC) degree includes a minimum of 15 hours in a second field of study (or a minor as specified by a department or school). A second field of study is defined as courses within a single department of the university or as courses that all relate to a single subject area or topic. The second field of study must include at least six hours of upper-level courses (3000- or 4000-level) except as specifically exempted in writing by a school advisor or the school director.

Students must earn at least a "C" in all courses required for the major, as well as in all foreign language courses required for the Bachelor of Arts in Communication and in all classes in the second field of study (or minor) required for the Bachelor of Science in Communication.

Contact

The School of Communication office areas are located in Arts and Sciences Hall Room 140, Room 107, Room 108, and Room 105. Phone: 402.554.2600 or 402.554.2520.

Website (<http://communication.unomaha.edu/>)

Degrees Offered

The School of Communication offers Bachelor of Arts and Bachelor of Science degree programs in the Communication Studies (course prefix is CMST) and Journalism and Media Communication (course prefix is JMC) programs.

- Communication Studies, Bachelor of Arts (p. 543)
- Communication Studies, Bachelor of Science (p. 544)
- Journalism and Media Communication, Bachelor of Arts (p. 546)
- Journalism and Media Communication, Bachelor of Science (p. 550)

Writing in the Discipline

The advanced writing classes for the Communication Studies program is Rhetorical Criticism CMST 3340 and for the Journalism and Media Communication program is Media Writing JMC 2100

Communication Studies

The requirements for the Communication Studies program include 57 credits, plus 15 credits in a second field of study for a Bachelor of Science in Communication and 16 hours in a foreign language for a Bachelor of Arts in Communication. A total of 120 credits are required, including general education requirements and general electives.

Journalism and Media Communication

The requirements for the Journalism and Media Communication program include 57 credits, plus 15 credits in a second field of study for a Bachelor of Science in Communication degree and 16 hours in a foreign language for a Bachelor of Arts in Communication degree. A total of 120 credits are required, including general education requirements and general electives.

Journalism and Media Communication students must select one of two concentrations: Emerging Media or Public Relations/Advertising.

Minors Offered

- Communication Studies Minor (p. 546)
- Journalism and Media Communication Minor (p. 554)
- Visual Communication and Culture Minor (p. 554)

Communication Studies

Effective communication, whether written, spoken or non-verbal is essential for success in any career field and Communication Studies students develop and hone these critical skills. Besides strong verbal, nonverbal, and written communication skills, Communication Studies students also develop critical thinking skills including synthesizing information, building a cohesive argument, and analytical proficiency. Students may also apply their classroom knowledge externally by completing internships with nationally and internationally recognized organizations, both profit and non-profit.

Possible careers include:

- Corporate/Organizational Trainer & Facilitator
- Talent developer
- Mediator
- Project Manager

- Human Resources director
- Customer service industry
- Executive director-nonprofit & for profit
- Fundraising/Foundation Officer
- Event planner
- Property Manager
- Corporate Recruiter

Journalism and Media Communication

Journalism and Media Communication provides a comprehensive education in emerging media, public relations/advertising. Coursework in media communication, media writing, media production principles, media theory, and communication research provide a strong foundation for any form of mediated communication.

Beyond the classroom, students get hands-on experiences working in the field through internships; service learning projects; production of *The Omaha News* and *Consider This* - programs produced in the UNO Television studio; working both on-air and behind the scenes at MavRadio (<https://www.mavradio.fm/>) - UNO's student-run radio station; broadcasts of UNO athletic events held at Baxter Arena; and working directly with professional clients in MavPR and the PR/Ad Capstone course. Regardless of the path a student chooses, JMC can lead to multiple career opportunities.

Possible careers include:

- Content creator and influencer
- Strategic communication specialist
- Journalist or magazine writer or editor
- Social media marketer
- Corporate communication director
- Nonprofit or government communication director
- Sports media marketer or broadcaster
- Podcaster
- News broadcaster or producer
- Media researcher

Communication Studies

CMST 1110 PUBLIC SPEAKING FUNDS (3 credits)

Public Speaking Fundamentals helps students become effective public speakers, as well as critical listeners and evaluators of public communication. Students will learn the principles of audience adaptation, topic selection, organization, development of ideas and presentation of speeches. Each student will design and present a minimum of four public speeches.

Distribution: Fundamental Academic Skills-Public Speaking

CMST 1310 PERSPECTIVES IN COMMUNICATION STUDIES (3 credits)

This course surveys concepts in the dynamic field of speech communication. Students will examine how communication practices shape our worldviews and our relationships in both private and public contexts. This course emphasizes concepts including, but not limited to: a) interpersonal relationships, b) organizational communication & employee relations, c) public & political communication, d) communication technology & human relationships, e) culture & communication, f) health communication, g) communication training & instructional development and h) conflict resolution. Students will also have the opportunity to be informed about possible careers in speech communication.

Distribution: Social Science General Education course

CMST 1400 EXPLORING COMMUNICATION STUDIES (3 credits)

This course is an introduction to the field of Communication Studies. Students will learn the history of the discipline, the fundamental concepts, forms, and terms of the discipline, as well as the research methodologies often used by communication scholars. Various topics and areas of inquiry within the field (with specific focus on the areas offered and available to the students in the School of Communication) are discussed to set up students for success by developing a plan of study around their interests. Related careers will be included.

CMST 2010 INTERPERSONAL COMMUNICATION (3 credits)

This course is an introduction to the study of interpersonal communication. Within this course, students will be introduced to the theories, research, and concepts relevant to interpersonal communication and will be given opportunities to develop and enhance their own communication skills.

Distribution: Social Science General Education course

CMST 2100 INTRODUCTION TO COMMUNICATION THEORY (3 credits)

Communication Theory is an undergraduate course designed to introduce students to the major foundational theories that inform the field of communication. Special emphasis is placed on communication theories that examine the self, the message, relationship development, groups and organizations, the public and the media, as well as culture and diversity. Skills learned in this course are necessary foundations for the upper-level communication courses as well as the Communication Studies capstone course.

CMST 2120 ARGUMENTATION AND DEBATE (3 credits)

Theory and practice of effective argumentation and debate. Students will participate in a variety of speaking activities involving the application of argumentation principles to current political and social issues.

Distribution: Fundamental Academic Skills-Public Speaking

CMST 2300 INTERGROUP DIALOGUE (3 credits)

The increasing diversity in the US presents a growing need for communication skills one can apply whenever we work with, learn with, and relate to those with different social identities than our own. This course is designed to provide students with experiences and skills necessary to engage in open and constructive dialogue across social identity groups. The course incorporates content learning, structured interaction, peer facilitation, and self-reflection to support students as they explore issues of intergroup relations, conflict, and community.

Distribution: U.S. Diversity General Education course

CMST 2410 SMALL GROUP COMMUNICATION AND LEADERSHIP (3 credits)

This course is an introduction to the theory and practice of communication and leadership within small group settings. This course will provide students with broad knowledge about small group communication processes.

Distribution: Social Science General Education course

CMST 3130 SPEECH COMMUNICATION IN BUSINESS AND THE PROFESSIONS (3 credits)

This course is designed to introduce students to the important and varied role communication plays in the workplace and other professional settings. The course emphasizes informative and persuasive communication principles and practices in one-to-many presentational situations as well as group communication and interviewing.

Prerequisite(s): CMST 1110 or CMST 2120. Not open to non-degree graduate students.

CMST 3140 CONTEMPORARY PRESENTATIONS (3 credits)

This course helps students craft messages for an audience through assignments representing contemporary public address. Responsible public address emphasizes creating messages that encourage democratic deliberation through artful presentation of truth. Students will investigate practical aspects of public communication theory, engage in audience analysis, and explore language choices to develop their ability to responsibly practice public communication.

Prerequisite(s): CMST 1110 or CMST 2120

CMST 3150 INTERCOLLEGIATE FORENSICS I (1-3 credits)

This course familiarizes students to Intercollegiate Forensics. Students enrolled in this course will compete in a variety of speaking and performance events to develop their skills in prepared public speaking, oral interpretation of literature, and extemporaneous/improvised speaking. Students are required to compete in 1-3 speaking events during the semester.

Prerequisite(s): Permission of the Director of Forensics only

CMST 3160 INTERCOLLEGIATE FORENSICS II (1-3 credits)

This course is catered to communication, pre-law, and other interested students who desire to further their participation in intercollegiate forensics including informative, persuasive, impromptu, extemporaneous, and after-dinner speaking. This course advances students' skills in oral interpretation, solo and or duet acting, rhetorical criticism, and discussion.

Prerequisite(s): Permission of the Director of Forensics only

CMST 3300 LEADERSHIP FOR INTERGROUP DIALOGUE (3 credits)

This class instructs, coaches, supports, and empowers student-leaders to effectively facilitate important intergroup dialogues with their peers. Students are given leadership opportunities developing skills regarding facilitating difficult conversations, perspective sharing, and navigating conflict.

Prerequisite(s): CMST 2300 and permission of instructor. Not open to non-degree graduate students.

CMST 3340 RHETORICAL CRITICISM (3 credits)

Developing critical and analytical skills is vital to succeed in contemporary culture. In this course students will learn a variety of theoretical and critical approaches to rhetorical criticism enabling them to critically analyze the messages that surround us. This course offers students the tools to analyze the ways rhetoric undergirds or undermines existing power structures, and how it might reshape them.

Prerequisite(s): CMST 2100 or permission of instructor. Not open to non-degree graduate students.

Distribution: Writing in the Discipline Single Course

CMST 3350 COMMUNICATION RESEARCH (3 credits)

Research is important to understand communication, messages, audiences, behaviors, and motivations. This course develops students' abilities to conduct communication research focusing on two overarching methodological approaches used by communication scholars and industry professionals - Quantitative and Qualitative. The topics include research design, data management, statistical analysis, and report writing.

Prerequisite(s): CMST 2100 or instructor permission. Not open to non-degree graduate students.

CMST 3510 CULTURAL COMMUNICATION IN AFRICAN-AMERICAN CINEMA (3 credits)

This course examines ways in which cultural identity is communicated through African-American cinema, defined as movies with predominantly African American filmmakers, producers, and/or actors. Cultural communication is integrated with historical, political, and social motivation for African-American cinema. (Cross-listed with BLST 3510)

Prerequisite(s): Sophomore standing and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

CMST 3520 INTERVIEWING (3 credits)

This course is a practical course that focuses on various types of interview performances. The course will explore interview types such as probing/journalistic, survey, recruiting/employment, performance, counseling, and persuasive

CMST 3530 INTERCULTURAL COMMUNICATION & POWER (3 credits)

The objective of this course is to examine the interplay of communication, power, and culture. In this class, culture is described as the normative standard of behavior espoused by members based on group's identity, values, attitudes, and beliefs. Power dynamics are explored for their impact on relations between dominant and non-dominant subcultures in the U.S. context. This curriculum demonstrates the role of communication for effective relations within and between cultures. By the end of this course students will be able to recognize, articulate, and actuate effective practices in cultural competency.

Prerequisite(s): Pre-req CMST 2100, CMST 2300, or permission of instructor

Distribution: U.S. Diversity General Education course

CMST 3600 SPECIAL TOPICS IN COMMUNICATION STUDIES (3 credits)

A variable topic course in communication studies at the Junior level. Topics to be covered may include but are not limited to: marital and family communication, instructional communication, organizational communication, intercultural communication, conflict, relational communication, communication competence, health communication, communication research or theory, communication and gender, social movements, political communication, listening, communication and the aged, etc. (May be repeated for credit as long as the topic is not the same.)

Prerequisite(s): CMST 2100, co or pre req CMST 3350 or CMST 3340, or permission of instructor

CMST 3750 GENDER AND COMMUNICATION (3 credits)

This course provides a survey of literature on communication about, by, and between women, men, and trans people in society, personal relationships, and organizations. Students develop an understanding of how cultural meanings of gender both shape and are shaped by communication. (Cross-listed with WGST 3750).

Prerequisite(s): Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course

CMST 4120 COMMUNICATION AND SOCIAL PROTEST (3 credits)

This class will examine the role played by communication in movements for social change in contemporary society. We will examine social movements which rely on speeches (i.e. women's rights movements), social movements which rely on the grassroots political efforts of their members (i.e. the environmental rights movement) and the overall strategies of persuasion utilized in movements which seek social change, including emerging communication technologies.

Prerequisite(s): Pre or co-req CMST 3340, or permission of instructor

CMST 4130 FAMILY COMMUNICATION (3 credits)

This course emphasizes the role of communication in family relationships. Theories, models, and research methods will be used to examine the family in various cultures and contexts (e.g., nuclear families, single-parent families, and blended families). Topics that will be covered in this course include: family conflict, family roles, family stories, family stress, family well-being, genograms, marriage, and divorce. (Cross-listed with CMST 8136)

Prerequisite(s): Pre or co-req CMST 3350, or permission of instructor. Not open to non-degree graduate students.

CMST 4140 COMMUNICATION AND HUMAN RELATIONSHIPS (3 credits)

This course applies theories of interpersonal processes and communication principles to the study of close, significant and personal human relationships. Discussion focuses on the communication in different types of relationships and relational stages, e.g., strangers, acquaintances, friendships and intimates.

Prerequisite(s): Pre or co req CMST 3350, or permission of instructor. Not open to non-degree graduate students.

CMST 4150 ORGANIZATIONAL TRAINING AND DEVELOPMENT (3 credits)

This course introduces students to the process of designing communication training programs and workshops for a variety of professional settings. It provides students, especially those who are prospective trainers and/or consultants, with experiential and cognitive knowledge about needs assessment, adult learning, communication training research, objectives writing, module design, interactive delivery methods and program evaluation. (Cross-listed with COMM 8156)

Prerequisite(s): Junior or Senior Standing, or permission of instructor. Not open to non-degree graduate students.

CMST 4160 COMMUNICATION FOR INSTRUCTIONAL SETTINGS (3 credits)

This course is designed to help prospective instructors and/or trainers understand and apply the principles of communication in instructional settings (i.e., classrooms, workshops, training programs). It introduces students to the research area in the speech communication discipline called 'Instructional Communication' by covering these five units:

1) Communication Strategies, Objectives, & Content; 2) Student Communication Needs & Expectations; 3) Feedback, Reinforcement, & Discussion; 4) Context, Climate, & Influence; and 5) Teacher Communicator Style, Characteristics, & Behaviors. (Cross-listed with COMM 8166)

Prerequisite(s): Junior or Senior Standing, or permission of instructor

CMST 4170 ORGANIZATIONAL COMMUNICATION (3 credits)

This course will help students understand organizational communication theories, models, and processes; apply these principles in organizational communication speaking exercises; and learn management and leadership skills. (Cross-listed with CMST 8176)

Prerequisite(s): Junior standing; and a minimum cumulative GPA of 2.25. Not open to non-degree graduate students.

CMST 4180 COMMUNICATION LEADERSHIP AND POWER AND ORGANIZATIONS (3 credits)

This course provides theoretical and experiential knowledge about such topics as communication leadership styles and tactics, superior and subordinate interactions, power, ethical responsibilities, and diversity gender issues related to communication leadership. (Cross-listed with COMM 8186)

Prerequisite(s): Junior or Senior Standing, or permission of instructor. Not open to non-degree graduate students.

CMST 4190 COMPUTER-MEDIATED COMMUNICATION (3 credits)

Computer-Mediated Communication addressing emerging issues of virtual communities, identity, civic life and participation, online relationships, collaborative work environments, digital networks, gender race class issues, legal and ethical considerations of technology, and commodification of mediated communication. (Cross-listed with CMST 8196).

CMST 4220 HEALTH COMMUNICATION (3 credits)

This course introduces students to the interdisciplinary field of health communication. In this course, students will learn various theories of health communication as well as current research and trends in health communication and its related fields. To speak to the complexity and dynamism of health communication, this course will expose students to the multiple voices and perspectives involved in the delivery of health and healthcare.

Prerequisite(s): Junior or Senior Standing, or permission of instructor. Not open to non-degree graduate students.

CMST 4300 RISK AND CRISIS COMMUNICATION (3 credits)

Risk/Crisis Communication, both as a discipline and a practice, has been discussed and enacted as long as there has been information to communicate because of an extraordinary event. Governments, businesses, universities, even individuals - all of engaged in one form of risk or crisis communication or another. Whether successful in its intentions or not, the act is there. This class is a theoretically-driven course to inform our practices as both creators of messages and critics of those same messages. (Cross-listed with JMC 4300).

Prerequisite(s): CMST 3350 OR Permission of Instructor.

CMST 4510 PERSUASION AND SOCIAL INFLUENCE (3 credits)

The primary goal of this course is to provide students with a solid grounding in theories, principles, and strategies of persuasion social influence as they apply to everyday contexts in which influence attempts take place. Students should gain familiarity with findings from empirical investigations on persuasion, social influence, and compliance gaining, and will learn about strategies and techniques of persuasion relating. (Cross-listed with COMM 8516)

Prerequisite(s): Junior or Senior Standing, or permission of instructor. Not open to non-degree graduate students.

CMST 4570 INTERCULTURAL COMMUNICATION IN THE GLOBAL WORKPLACE (3 credits)

This course examines the intercultural perspective of organizational communication in a modern global world by focusing on the management of cultural differences in the global workplace. The trend towards a global economy is bringing people of different ethnic and cultural background together. Thus, the development of greater intercultural understanding has become an essential element of global workplace. After taking this course you will be more aware of cultural diversity in an organizational setting and further develop intercultural sensitivity and intercultural competence that will help you adapt to your future organizational life. (Cross-listed with COMM 8576).

Prerequisite(s): CMST 3340 and CMST 3350 or permission of instructor

Distribution: Global Diversity General Education course

CMST 4580 COMMUNICATING RACE, ETHNICITY & IDENTITY (3 credits)

This is an undergraduate/graduate course that provides students with definitional and experiential knowledge about the origin of racial concepts, theories, and practices, definitions of ethnicity and identity, and the communicative relationship between race, ethnicity, and identity. (Cross-listed with CMST 8586, BLST 4580, BLST 8586)

Prerequisite(s): CMST 4530 or Junior standing or instructor permission; minimum cumulative GPA of 2.25.

Distribution: U.S. Diversity General Education course

CMST 4700 INTERPERSONAL CONFLICT (3 credits)

This course provides an overview of interpersonal conflict processes. It examines perspectives on conflict, patterns of constructive and destructive conflict, conflict styles and tactics, interpersonal power, negotiation strategies, conflict assessment, and conflict skill development. (Cross-listed with COMM 8706)

Prerequisite(s): Junior or Senior standing, or permission of instructor

CMST 4800 CONFLICT MEDIATION (3 credits)

This course develops knowledge of mediation theory, research, and practice and communication skills essential to the effective mediation of disputes in various contexts.

Prerequisite(s): CMST 2010 or CMST 2410 or CMST 2300 or CMST4700, or permission of instructor

CMST 4940 COMMUNICATION STUDIES CAPSTONE SEMINAR (3 credits)

Communication Studies Capstone Seminar is an undergraduate course designed to provide students with the opportunity to integrate the knowledge and skills they have acquired as communication majors and to prepare them to enter the job market or graduate school using their speech communication skills and knowledge.

Prerequisite(s): CMST 2300, CMST 3340 and CMST 3350 or permission of instructor

CMST 4970 INTERNSHIP EXPERIENCE (1-3 credits)

This course will provide students professional communication-related experience in an internship approved and supervised by the School of Communication. 3 credits = 150 hours at site. 2 credits = 100 hours at site. 1 credit = 50 hours at site. Additional coursework completed online will develop career competencies including resume, cover letter, portfolio, and interviewing skills.

Prerequisite(s): Sophomore standing; instructor permission; and minimum cumulative GPA of 3.0.

CMST 4980 INDEPENDENT STUDY COMMUNICATION (3 credits)

Specialized studies in communication supplementing regular courses: readings, research, tutorial.

Prerequisite(s): CMST 2300, CMST 3340 and CMST 3350 and permission of department

Journalism and Media Communication

JMC 1050 FILM HISTORY AND APPRECIATION (3 credits)

A journey through one of many different possible worlds of film. Students will learn about various dimensions of filmmaking—historical development, cinematography, editing, screenwriting, and so much more. Exposure to critical perspectives on the genre(s) under consideration. Includes regular viewing of excerpts and full-length films. (Cross-listed with THEA 1050).

Distribution: Humanities and Fine Arts General Education course

JMC 1500 INTRODUCTION TO JOURNALISM AND MEDIA COMMUNICATION (3 credits)

A survey of the history, organization and social significance of the mass media, including newspapers, radio, television, books, magazines, advertising, public relations and films.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course

JMC 2000 NEWS LITERACY (3 credits)

The digital age has made news and information sources more prevalent than ever before. This course will explore and determine the credibility of news and information and to recognize the standards of fact-based journalism to know what to trust, act on and share.

Prerequisite(s): Not open to non-degree graduate students.

JMC 2100 MEDIA WRITING (3 credits)

This class will teach students to gather information and write for all areas of mass communication, including print, broadcast, online media, public relations and advertising.

Prerequisite(s): ENGL 1150

Distribution: Writing in the Discipline Single Course

JMC 2110 PHOTOGRAPHY (3 credits)

This course provides instruction in photography's technical fundamentals and visual foundations. It covers camera operation, digital image processing, and professional photo presentation. It establishes a strong technical foundation while fostering a greater understanding of photography as a means to enhance the student's visual communication skill.

JMC 2150 NEWS WRITING AND REPORTING (3 credits)

The class addresses the theory and practice of writing and reporting for media audiences, with an emphasis on print and online media. Some of the assignments in the class will focus on covering public affairs and analyzing media coverage of public affairs.

Prerequisite(s): JMC 2100

JMC 2200 MEDIA PRODUCTION PRINCIPLES (3 credits)

This course offers a comprehensive foundation in media production, covering essential theories, technical competencies, and practical skills related to the operation of prevalent hardware and software used in audio and video production. Topics include digital video camera operation, an introduction to non-linear video and non-linear audio editing programs, and audio recording.

Prerequisite(s): JMC 2100 (co-req). Not open to non-degree graduate students.

JMC 2320 VIDEO FIELD PRODUCTION (3 credits)

The class provides in-depth, hands-on theory and practice of field production and editing principles and techniques. It expands from single-camera to multi-camera projects. The goal is for students to leave this course with a strong understanding of aesthetic shooting principles, audio and video equipment, and a solid working knowledge of field production and post-production practices.

Prerequisite(s): JMC 2100 (co-req) and JMC 2200, or instructor consent. Not open to non-degree graduate students.

JMC 2370 ALL ABOUT AUDIO (3 credits)

This course emphasizes the fundamentals of audio production and writing for radio and its online communication venues. On-air delivery, use of video and audio streaming, and broadcast industry issues are also covered.

Prerequisite(s): JMC 2200 (co-req).

JMC 2500 SOCIAL MEDIA COMMUNICATION (3 credits)

Social Media Communication (SMC) introduces and explains social media and social network sites, as these apply to journalism, advertising, public relations and digital marketing communication. Computer-mediated communication within social media cultivates critical thinking about opportunities and challenges, including engagement, privacy, trust and misinformation. Social influence happens within mediated interpersonal, entertainment and sports posts that present identity and cultivate online communities. Contemporary problems and issues are explored, such as justice, politics, romance and health.

JMC 2620 PR AND ADVERTISING DESIGN (3 credits)

This is a course concerned with the principles of print and electronic public relations and advertising design using applied digital methods and skills. Students will learn the principles of design in a variety of print and interactive formats relating to public relations and advertising. Concepts will be taught in a lecture setting, and skills will be demonstrated in a lab setting. An advertising and public relations design campaign will be completed.

Prerequisite(s): JMC 2100

JMC 3030 MULTIMEDIA JOURNALISM (3 credits)

This course is designed to give students the knowledge and skills needed to become multimedia professionals. Before each technology is introduced, students will learn the principles and goals involved in creating interesting, professional stories. This class is not about equipment operation or software but, rather, will focus on the ways journalists can use new technologies. However, it is important that students come to this class already familiarized with the basic tools of Internet publishing and multimedia journalism. Students will continue to develop news judgment and reporting abilities in this class. By the end of the semester, students are expected to develop a multimedia media package.

Prerequisite(s): JMC 2100 and JMC 2200

JMC 3230 PRINCIPLES OF PUBLIC RELATIONS (3 credits)

This course will focus primarily on techniques to garner and sustain public understanding, acceptance and support for an organization. This course will explain the merits of these techniques through theory and application, and will offer constant reminders of the relationship between theory and practice. Understanding theory can result in more efficient and effective use of techniques.

Prerequisite(s): JMC 2100

JMC 3270 PUBLIC AFFAIRS REPORTING (3 credits)

The class is designed to help students build and refine their researching, interviewing, reporting and writing skills through the coverage of a public affairs news beat for print, broadcast and online formats.

Prerequisite(s): JMC 2100

JMC 3320 VIDEO STUDIO PRODUCTION (3 credits)

The class introduces the student to the studio-production environment, equipment, and best practices. It applies multi-camera production concepts to a live switched environment. It provides reinforcement of editing principles by integrating pre-produced elements into a live production. The goal is for students to leave this course with a strong understanding of live-production principles, studio-production equipment, and a solid working knowledge of studio-production practices.

Prerequisite(s): JMC 2320. Not open to non-degree graduate students.

JMC 3340 MEDIA THEORY (3 credits)

How do media work? How do we think they work? How can we study what effect media messages have on our lives? From movies to entertainment to news, and even video games, media contain overt and hidden impacts and convey a variety of messages. Understanding the theories of media communication will make you a better storyteller, and will help you shape your message for its best impact. Explore the theories that are dominant today, those we have discarded (and why), and how this all keeps evolving as new media continue to emerge.

Prerequisite(s): JMC 2100 and JMC 1500

JMC 3350 COMMUNICATION RESEARCH (3 credits)

Research is important to understand communication, messages, audiences, behaviors, and motivations. This course develops students' abilities to conduct communication research focusing on two overarching methodological approaches used by communication scholars and industry professionals - Quantitative and Qualitative. The topics include research design, data management, statistical analysis, and report writing.

Prerequisite(s): JMC 1500 and JMC 2100 or permission of instructor. Not open to non-degree graduate students.

JMC 3370 PODCAST THIS (3 credits)

A survey of trends in audio storytelling including the use of Adobe software and studio engineering equipment. Students will learn various aspects of podcasting from inception to digital distribution. They will also critically engage in analyzing storytellers as well as researching, writing, voicing, and producing their own podcasts.

Prerequisite(s): JMC 2370 or permission of instructor

JMC 3400 FEATURE AND OPINION WRITING (3 credits)

Students will learn the genre of feature and opinion writing including editorials, columns, and reviews. They will enhance their research, writing, and organizational skills necessary for feature story, long-form and magazine writing. They will also enhance their interviewing techniques and develop, write, and market articles.

Prerequisite(s): JMC 2100

JMC 3620 PRINCIPLES OF CREATIVE ADVERTISING (3 credits)

This is a broad examination of advertising principles in all media, including the psychology of advertising; the creative, production and marketing aspects; and practical exercises in print, broadcast and social media. The course is organized in a way to take students through the process of creating relevant solutions to solve client advertising problems/opportunities.

Prerequisite(s): JMC 2100

JMC 3700 VISUAL COMMUNICATION AND CULTURE (3 credits)

This course will introduce students to 'the visual,' both in production and critique. This course provides students the opportunity to further their own understanding of what "visual culture" is and how they both can critically create and consume the various products of that culture. In addition, this course will help students create, develop, and cultivate the knowledge base they will need to successfully complete the Visual Communication and Culture minor.

Prerequisite(s): JMC 3340 (co-req) and JMC 3350 (co-req) or permission by instructor

Distribution: Humanities and Fine Arts General Education course

JMC 3710 DESIGN IN MOTION (3 credits)

This course introduces the fundamental aspects of content creation for television, social media, and web video creation. Focused on the principles of typography, design, and animation, students will have a working knowledge of how to plan, develop, and load content into television graphics software that can be distributed across multiple media platforms. Content may include how to create the following with motion: full screen, lower third, ticker, bug, slab, opening titles, transitions, and statistical graphics.

Prerequisite(s): JMC 2200, JMC 2320

JMC 4010 MEDIA HISTORY (3 credits)

This class covers development of the U.S. media from 1690 to present day, including newspapers, magazines, radio, television, the new media of the Internet, advertising and public relations. A special emphasis is placed on freedom of the press.

Prerequisite(s): JMC 3340 (co-req), JMC 3350 (co-req), or instructor permission

JMC 4040 SOCIAL MEDIA MEASUREMENT AND MANAGEMENT (3 credits)

Social Media Measurement and Management explores the dynamic development of social media platforms within a journalism and media communication context. Students of journalism, broadcasting, public relations, advertising and marketing will examine theories and best practices of social media interaction and engagement. (Cross-listed with COMM 8046)

Prerequisite(s): JMC 3340 (co-req) and JMC 3350 (co-req) or instructor permission

JMC 4250 STRATEGIC WRITING FOR PUBLIC RELATIONS AND ADVERTISING (3 credits)

This is an advanced skills course that combines theory and practical application in writing for public relations and advertising. Students will plan and execute strategy and tactics to craft and deliver a persuasive message to a variety of audiences.

Prerequisite(s): JMC 3230. Not open to non-degree graduate students.

JMC 4260 MEDIA RELATIONS (3 credits)

This course focuses on the communication tools used in media relations, the nuances of working with reporters from press and various media, news writing, news judgment, strategic planning, and the application of communication theories in understanding the relationship between news organizations and media relations representatives for organizations and corporations.

JMC 4300 RISK AND CRISIS COMMUNICATION (3 credits)

Risk/Crisis Communication, both as a discipline and a practice, has been discussed and enacted as long as there has been information to communicate because of an extraordinary event. Governments, businesses, universities, even individuals - all of engaged in one form of risk or crisis communication or another. Whether successful in its intentions or not, the act is there. This class is a theoretically-driven course to inform our practices as both creators of messages and critics of those same messages. (Cross-listed with CMST 4300).

Prerequisite(s): JMC 3340 and JMC 3350 or Permission of Instructor

JMC 4310 MEDIA & POLITICS (3 credits)

An in-depth study of the impact of the media on political communication. This course will explore the symbiotic relationship of media and political communication, including the influence of traditional mass media, digital media, and social media on the political communication process. Students will delve into media theories and critically examine the influence of the media on the political communication process. (Cross-listed with COMM 8316).

Prerequisite(s): Junior standing, ENGL 1160 and JMC 3350, and cumulative GPA 2.25

JMC 4320 TELEVISION COMMERCIAL PRODUCTION (3 credits)

Acquire the knowledge and skill to work with a client in creating commercial television messages designed to motivate viewers. The course will teach students how to plan, storyboard, write, record and edit the elements into a deliverable product to the client's satisfaction.

Prerequisite(s): JMC 2320 or instructor permission

JMC 4340 SPORTS BROADCASTING AND PRODUCTION (3 credits)

Students will learn to distinguish between the differences between sports production and sports performance. Students will also learn to broadcast a variety of sports using multiple platforms. Accuracy and immediacy are vital skills that students will be expected to develop. Students will learn and understand the importance and process of preparing for play-by-play and color commentary.

Prerequisite(s): JMC 3030 or permission of instructor. Not open to non-degree graduate students.

JMC 4370 COMMUNICATION WORKSHOP (3 credits)

A workshop to explore communication theory and processes and to develop skills in their application.

Prerequisite(s): Junior standing, ENGL1160, permission of instructor, and minimum overall GPA of 2.25

JMC 4380 FILM THEORY AND CRITICISM (3 credits)

A broad study of film critique methods, analysis, and interrogation based on current and traditional theoretical approaches to criticism (e.g., semiotic analysis, Postmodernism, genre, auteur theory, apparatus, feminist approaches, discourse analysis). Specific films (both classical and contemporary) may be examined as a form of socio-cultural inquiry.

Prerequisite(s): JMC 3340 (co-requisite); JMC 3350; or instructor permission.

JMC 4390 MEDIA ENTREPRENEURSHIP (3 credits)

Media Entrepreneurship explores new and emerging media business models from local, national and global perspectives. Students learn about and work within the start-up economy and entrepreneurial approaches. The course offers professional and critical perspectives. (Cross-listed with COMM 8396, ENTR 4390).

Prerequisite(s): JMC 3340 and JMC 3350 or permission of instructor

JMC 4400 MEDIA ETHICS (3 credits)

The course examines ethical standards and practices of the media - print, electronic and online media, as well as advertising, public relations and entertainment media. It includes development of ethical decision-making skills.

Prerequisite(s): JMC 3340 (co-req); JMC 3350 (co-req)

JMC 4410 COMMUNICATION LAW AND POLICY (3 credits)

Communication practitioners need to understand legal protections and constraints. This course explores legal concepts, frameworks and principles to understand constitutional, statutory, regulatory and case law and policies. The student must have a basic understanding of government, social studies and human rights principles. The First Amendment and international law provide a framework for exploring current cases and issues.

Prerequisite(s): Junior standing or permission of instructor

JMC 4420 SPORTS WRITING (3 credits)

Students will learn aspects of the specialized field of sports media communication. Areas will include writing, interviewing, storytelling, multiple media platforms, and the ethics of sports reporting. Writing experiences across the media spectrum, from traditional media to the new forms of online journalism, will be practiced.

Prerequisite(s): JMC 2100 or permission of instructor. Not open to non-degree graduate students.

JMC 4430 GLOBAL MEDIA COMMUNICATION (3 credits)

In-depth study of global media communication systems. This course will examine cultural influence of dominant global media, the changing global media climates, information flow, regulation and censorship of media worldwide. Students will look at the various aspects of mass communication including advertising, public relations, broadcasting, movies and social media. There will be an emphasis on global communication theories and on critical examinations of media systems.

Prerequisite(s): JMC 3340 (co-req), JMC 3350 (co-req), or instructor permission

JMC 4440 MEDIA CONTENT AND CREATION (3 credits)

This course is a culmination of skills students acquired in the Emerging Media concentration and prepares them for the Capstone experience and careers in the media industry. In this class, students will produce substantive and original reporting projects on a timely issue showcasing their talents as a prospective journalist and/or media professional. A field component to this course requires time outside of class. Students' work will be publicly available on television, cable, and the internet. This class contributes to a digital portfolio allowing students to showcase their work.

Prerequisite(s): JMC 2320, JMC 2370, JMC 3030 (co-req)

JMC 4450 PR AND ADVERTISING CAPSTONE (3 credits)

This advanced course provides students with professional development opportunities to hone their Public Relations and Advertising skills. Students will apply their knowledge to serve a university or community client by assessing their needs and developing an integrated marketing communication campaign. The final project will contribute to students' portfolios used for the job market.

Prerequisite(s): JMC 3340, JMC 3350 and JMC 4250 (co-req), and Senior standing or permission of instructor. Not open to non-degree graduate students.

JMC 4460 EMERGING MEDIA CAPSTONE (3 credits)

This advanced course provides students with professional development opportunities to polish their skills. Students will continue to create content for the School of Communication's media outlets and will assume mentoring and leadership roles under the supervision of instructors of the capstone classes.

Prerequisite(s): JMC 4440 (may not be taken as a co-requisite); Senior standing. Not open to non-degree graduate students.

JMC 4810 DIGITAL LITERACIES FOR TECHNICAL COMMUNICATORS (3 credits)

This course addresses emerging issues in digital literacies such as the rhetoric of technology, technological competency, technology and information ecologies, critical awareness of technology and human interactions, judicious application of technological knowledge, user-centered design, networking and online communities, ethics and technology, and culture and technology. (Cross-listed with JMC 8816).

Prerequisite(s): ENGL 1160 and CMST 1110 or permission of instructor.

JMC 4820 POLITICS AND FILM (3 credits)

This course introduces students to the analysis of politics and film, focusing on how politics is portrayed in film and the politics of film making.

JMC 4830 TECHNICAL COMMUNICATION (3 credits)

Technical Communication introduces students to the field of technical communication. Students will study the development of print and electronic genres common to industry settings, the design and production of technical documents, the writing processes and work practices of professional technical communicators, and the roles of technical communicators in organizational contexts. (Cross-listed with ENGL 4830, ENGL 8836, JMC 8836).

Prerequisite(s): ENGL 1160 and CMST 1110 and minimum overall GPA of 2.25

JMC 4850 INFORMATION DESIGN FOR TECHNICAL COMMUNICATORS (3 credits)

This course introduces students to strategies for integrating visual and textual elements of technical documents. Instruction will focus on design theory and application through individual and collaborative projects. Students will develop the professional judgment necessary for making and implementing stylistic choices appropriate for communicating technical information to a lay audience. (Cross-listed with JMC 8856).

Prerequisite(s): JMC 4810 or JMC 4830 or permission of instructor

JMC 4870 TECHNICAL EDITING (3 credits)

This course introduces students to the roles and responsibilities of technical editors: the editorial decision-making processes for genre, design, style, and production of technical information; the communication with technical experts, writers, and publishers; the collaborative processes of technical editing; and the techniques technical editors use during comprehensive, developmental, copyediting, and proofreading stages. (Cross-listed with JMC 8876).

Prerequisite(s): ENGL 1160 or permission of the instructor

JMC 4890 CAPSTONE COURSE IN TECHNICAL COMMUNICATION (3 credits)

In this capstone course, students will extend foundational skills learned in previous technical communication courses. Students will demonstrate their competency in the technical documentation process in organizational environments, the issues important to the technical communication profession, and the practices of writing and creating complex technical documents for specific purpose and audience. (Cross-listed with JMC 8896).

Prerequisite(s): JMC 4810, JMC 4830, JMC 4870, JMC 4850 or permission of instructor

JMC 4900 SEMINAR MASS COMMUNICATION (3 credits)

A senior seminar applying historical and theoretical perspective to current issues and developments in mass communications. (Cross-listed with JMC 8906).

Prerequisite(s): Junior standing and (Communication Studies or Journalism and Media Communication major) and ENGL 1160 and minimum overall GPA of 2.25

JMC 4920 MEDIA LITERACY (3 credits)

An advanced seminar on the study of media and information literacy through deconstruction of mass communication content, meaning construction, framing analyses and critical/cultural approaches. (Cross-listed with COMM 8926).

Prerequisite(s): JMC 3350 or instructor permission

JMC 4970 INTERNSHIP EXPERIENCE (1-3 credits)

This course will provide students professional communication-related experience in an internship approved and supervised by the School of Communication. 3 credits = 150 hours at site. 2 credits = 100 hours at site. 1 credit = 50 hours at site. Additional coursework completed online will develop career competencies including resume, cover letter, portfolio, and interviewing skills.

Prerequisite(s): Sophomore standing; instructor permission; and minimum cumulative GPA of 2.25.

JMC 4980 INDEPENDENT STUDY IN COMMUNICATION (3 credits)

Specialized studies in communication supplementing regular courses: readings; research; tutorial.

Prerequisite(s): JMC 3340, JMC 3350, permission of department, and minimum GPA of 2.25

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams:

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Communication Studies Minor

Communication Studies Minor Requirements

Students may earn a minor in communication studies. To earn a minor, students must complete at least 15 credits in Communication Studies, including CMST 2100, with at least 9 credits coming from courses at the 3000/4000 level. CMST courses used to fulfill general education requirements may not be used towards the minor. All courses in the minor must be completed with a grade of "C" or higher.

Journalism and Media Communication, Bachelor of Arts

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams:

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

2.25 cumulative GPA

GPA Requirements: 2.25 cumulative GPA

Journalism and Media Communication Minor

Journalism and Media Communication Minor Requirements

Students may earn a minor in Journalism and Media Communication with courses selected from JMC offerings. To fulfill the minor, students must complete 18 hours in JMC offerings with 9 of those credit hours in JMC 1500, JMC 2100, and JMC 2200. Within the JMC major, students may not have a minor in another concentration besides the primary concentration they have selected for their major. For example, students following the emerging media concentration cannot minor in the PR/Ad concentration. All courses in the minor must be completed with a grade of "C" or higher.

Visual Communication and Culture Minor

Visual Communication and Culture Minor Requirements

Students may earn a minor in Visual Communication and Culture (VCC) by taking 18 hours in classes approved by the VCC Coordinator that align with the underlying philosophy of the minor. Three of the hours must include Introduction to Visual Communication and Culture (JMC 3700). The remaining 15 credits will come from both within the School of Communication (at least six credits/two classes) and outside the school (at least six credits/two classes). Nine of the total hours in the minor must be at the 3000-4000 level.

Courses may not be used for both the VCC minor and other major or minor programs, without approval from both VCC and major advisors. For students who are majoring in the School of Communication, courses may be used for the VCC minor and a student's general education requirements. School of Communication classes that journalism and media communication majors apply toward the VCC minor must come from communication studies. School of Communication classes that communication studies majors apply toward the minor must come from journalism and media communication. All courses in the minor must be completed with a grade of "C" or higher.

School of Music

The School of Music is one of three schools within the College of Communication, Fine Arts, and Media. It is located in the newly renovated Janet A. and Willis S. Strauss Performing Arts Center, which is nestled near the focal point of the campus, a campanile that houses a carillon of forty-seven bells. The complex itself boasts a tunable 420 seat concert hall and 100 seat recital hall, impressive acoustic isolation, recording studio, and well-equipped classrooms and rehearsal spaces. The center serves as a nexus of musical activity not only for the university, but for the city of Omaha as well.

The School of Music has a faculty of 45 full and part time members and is a fully accredited member of the National Association of Schools of Music (NASM). Degrees offered include the Bachelor of Music degree in performance, the Bachelor of Music with K-12 certification and the Bachelor of Arts in Music degree with concentrations in music studies, jazz studies, music technology, and music industry.

Other Information

All students wishing to declare a major in music must be accepted by audition. Audition requirements can be accessed at music.unomaha.edu (<http://music.unomaha.edu>). Prospective majors should contact the Coordinator of Music Outreach and Recruitment at 402.554.2177 to discuss audition requirements.

For students who are not music majors, the School of Music offers many courses that will satisfy the general education requirements for Humanities/Fine Arts as well as Cultural Diversity. Click here (<https://www.unomaha.edu/general-education/overview/distribution-requirements.php>) for a list of music courses that are approved for general education. Additionally, the School of Music has numerous ensembles that are open to both majors and non-majors. Some ensembles require acceptance by audition. Auditions for select ensembles occur during the week before the semester begins. Information on all ensembles can be found online (<https://www.unomaha.edu/college-of-communication-fine-arts-and-media/music/student-involvement/>)

Information for All Students

The specific requirements for the degrees in music are listed below. In addition to the specific music requirements, all students are required to complete the general education requirements found here (<https://www.unomaha.edu/general-education/>)

Contact

402.554.3411

Website (<https://www.unomaha.edu/college-of-communication-fine-arts-and-media/music/>)

Degrees Offered

- Music, Bachelor of Arts (p. 566)
- Music Performance, Bachelor of Music (p. 576)
- Music, Bachelor of Music, K-12 Certification (p. 587)

Writing in the Discipline

As part of the fundamental academic requirements for the university, all students are required to take a writing in the discipline course within their major. The course for students in the Bachelor of Music or Bachelor of Arts in Music track is WRWS 3500. Students in the music education track (Bachelor of Music, K-12) take TED 2100.

Bachelor of Music

The professional program in music provides a comprehensive music education that prepares students with the technical skills, historical context, and theoretical knowledge to create meaningful musical contributions.

Students in the music performance track are prepared for advanced graduate study in music while students in the music education track pursue teacher certification to apply their musical skills in the K-12 classroom.

Performance

- Studio musician
- Concert musician
- Tutor/instructor
- Director
- National guard member
- Accompanist

Music, K-12 Education

- Elementary music educator
- Secondary music educator
- Tutor/instructor

Bachelor of Arts in Music

The Bachelor of Arts degrees allow students to develop advanced musical skills within a comprehensive liberal arts degree. Concentrations in instrumental, keyboard, or voice studies train students in classical music repertoire to prepare them for careers in a music field outside the concert hall or classroom. Jazz studies is similar, but focuses specifically on jazz and commercial applications of music. The concentration in music technology prepares students for audio recording, sound editing, and other computer-based applications of music. Finally, the concentration in Entrepreneurial Studies brings skills of innovation and application of business principles in a musical setting.

Jazz Studies

- Recording musician
- Concert musician
- Instructor
- Music librarian
- Composer/arranger

Music Technology

- Audio engineer
- Music producer
- Sound mixing artist
- Broadcast technician
- Multimedia specialist
- Foley artist
- Engraving technician

Music Industry

- Arts administrator
- Music/licensing publisher
- Event planner
- Development specialist
- Publicist

Music Studies

- Music librarian
- Music director
- Entertainment/music attorney
- Critic
- Music therapist

MUS 115A APPLIED BASSOON (1-2 credits)

This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 115B APPLIED CELLO (1-2 credits)

This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.

MUS 115C APPLIED CLARINET (1-2 credits)

This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 115D APPLIED DOUBLE BASS (1-2 credits)

This course provides individual weekly instruction on bass. Students work with the instructor to schedule lessons for one credit hour (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required. The primary goal of the bass student is to develop the highest level of technical and musical proficiency on his/her instrument. Through weekly applied lessons and personal practice time, it is intended that the student will gain the tools necessary to become a more mature musician.

Prerequisite(s): This course requires an audition performed for & approved by the string or jazz faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.

MUS 115E APPLIED EUPHONIUM (1-2 credits)

This course provides individual weekly instruction on euphonium. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 115F APPLIED FLUTE (1-2 credits)

This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): An audition performed for and approved by the woodwind faculty is required. Students enrolled in this course must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 and MUS 1000-007.

MUS 115G APPLIED FRENCH HORN (1-2 credits)

This course provides individual weekly instruction on french horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 115H APPLIED GUITAR (1-2 credits)

This course provides individual weekly instruction on guitar. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.

MUS 115I APPLIED HARP (1-2 credits)

This course provides individual weekly instruction on harp. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.

MUS 115J APPLIED OBOE (1-2 credits)

This course provides individual weekly instruction on oboe. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 115K APPLIED PERCUSSION (1-2 credits)

This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons for one credit hour (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the percussion faculty. Music majors must attend the weekly masterclass.

MUS 115L APPLIED PIANO (1-2 credits)

This course provides individual weekly instruction on piano. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credits (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the piano faculty. Music majors must attend the weekly masterclass.

MUS 115M APPLIED PIPE ORGAN (1-2 credits)

This course provides individual weekly instruction on organ. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the keyboard faculty. Music majors must attend the weekly masterclass.

MUS 115N APPLIED SAXOPHONE (1-2 credits)

This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 115O APPLIED TROMBONE (1-2 credits)

This course provides individual weekly instruction on trombone. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 115P APPLIED TRUMPET (1-2 credits)

This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 115Q APPLIED TUBA (1-2 credits)

This course provides individual weekly instruction on tuba. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 115R APPLIED VIOLA (1-2 credits)

This course provides individual weekly instruction on viola. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.

MUS 115S APPLIED VIOLIN (1-2 credits)

This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (violin majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.

MUS 115T APPLIED VOICE (1-2 credits)

This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for one credit hour (non music majors) or two credit hours (voice music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the voice faculty. Students must also enroll in a choral ensemble MUS 2700/MUS 4100 and attend the weekly masterclass. MUS 115T students are also required to attend Freshman Voice Seminar.

MUS 115U APPLIED CARILLON (1-2 credits)

This course provides individual weekly instruction on carillon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the keyboard faculty.

MUS 167B APPLIED CLASS - PIANO (1 credit)

Basic reading of treble and bass clef are a prerequisite for this course. Beginning with learning correct posture, hand position and technique, a deeper understanding of key musical elements such as key signatures, dynamic markings, time signatures, rhythmic values, and musical terminology will begin the coursework. Reading, coordination, rhythm, scales, improvisation, technology, duet and solo repertoire will be used to strengthen both keyboard and overall musical skills. *This is a sequential course whereby all students must pass the fall semester before enrolling in spring semester.

MUS 167C APPLIED CLASS - VOICE I (1 credit)

This course provides class instruction in the development of elementary basic skills in applied voice.

MUS 169D APPLIED CLASS JAZZ PIANO (1 credit)

This course will consist of class instruction designed to teach students basic jazz piano skills.

Prerequisite(s): MUS 1420 or MUS 2430

MUS 215A APPLIED BASSOON (1-2 credits)

This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 215B APPLIED CELLO (1-2 credits)

This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 115B. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of cello and attend the weekly masterclass.

MUS 215C APPLIED CLARINET (1-2 credits)

This course provides individual weekly instruction on clarinet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 215D APPLIED DOUBLE BASS (1-2 credits)

This course provides individual weekly instruction on double bass. Students work with the instructor to schedule lessons for one credit (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 115D. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of double bass and attend the weekly masterclass.

MUS 215E APPLIED EUPHONIUM (1-2 credits)

This course provides individual weekly instruction on euphonium. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 215F APPLIED FLUTE (1-2 credits)

This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition for & approval by the woodwind faculty, OR successful completion of 4 hours of MUS 115F. Students must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 & 1000-007.

MUS 215G APPLIED FRENCH HORN (1-2 credits)

This course provides individual weekly instruction on french horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 215H APPLIED GUITAR (1-2 credits)

This course provides individual weekly instruction on guitar. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the string faculty. Must also enroll in an instrumental ensemble. Music majors must attend the weekly master classes.

MUS 215I APPLIED HARP (1-2 credits)

This course provides individual weekly instruction on harp. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 115I. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of harp and attend the weekly masterclass.

MUS 215J APPLIED OBOE (1-2 credits)

This course provides individual weekly instruction on oboe. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 215K APPLIED PERCUSSION (1-2 credits)

This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons for one credit (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the percussion faculty. Music majors must attend the weekly masterclass.

MUS 215L APPLIED PIANO (1-2 credits)

This course provides individual weekly instruction on piano. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the piano faculty. Music majors must attend the weekly masterclass.

MUS 215M APPLIED PIPE ORGAN (1-2 credits)

This course provides individual weekly instruction on organ. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the keyboard faculty. Music majors must attend the weekly masterclass.

MUS 215N APPLIED SAXOPHONE (1-2 credits)

This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credits (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 215O APPLIED TROMBONE (1-2 credits)

This course provides individual weekly instruction on trombone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 215P APPLIED TRUMPET (1-2 credits)

This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 215Q APPLIED TUBA (1-2 credits)

This course provides individual weekly instruction on tuba. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 215R APPLIED VIOLA (1-2 credits)

This course provides individual weekly instruction on viola. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 115R. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of viola and attend the weekly masterclass.

MUS 215S APPLIED VIOLIN (1-2 credits)

This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 115S. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of violin and attend the weekly masterclass.

MUS 215T APPLIED VOICE (1-2 credits)

This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for one credit hour (non music majors) or two credit hours (voice music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for and approved by the voice faculty. All enrolled students must also enroll in a choral ensemble (MUS 2700, MUS 4100). All students must attend the weekly masterclass.

MUS 315A APPLIED BASSOON (1-2 credits)

This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 315B APPLIED CELLO (1-2 credits)

This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 215B. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of cello and attend the weekly masterclass.

MUS 315C APPLIED CLARINET (1-2 credits)

This course provides individual weekly instruction on clarinet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 315D APPLIED DOUBLE BASS (1-2 credits)

This course provides individual weekly instruction on double bass. Students work with the instructor to schedule lessons for one credit (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 215D. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of double-bass and attend the weekly masterclass.

MUS 315E APPLIED EUPHONIUM (1-2 credits)

This course provides individual weekly instruction on euphonium. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 315F APPLIED FLUTE (1-2 credits)

This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Audition for & approval by woodwind faculty OR successful completion of 4 hrs of MUS 215F and a "PASS" in the Sophomore Continuation Jury. Concurrent enrollment in an instrumental ensemble. Music majors: Concurrent enrollment in MUS 1000-001 & 1000-007.

MUS 315G APPLIED FRENCH HORN (1-2 credits)

This course provides individual weekly instruction on french horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 315H APPLIED GUITAR (1-2 credits)

This course provides individual weekly instruction on guitar. Students work with the instructor to schedule lessons for one credit (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 215H. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of guitar and attend the weekly masterclass.

MUS 315I APPLIED HARP (1-2 credits)

This course provides individual weekly instruction on harp. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 215I. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of harp and attend the weekly masterclass.

MUS 315J APPLIED OBOE (1-3 credits)

This course provides individual weekly instruction on oboe. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 315K APPLIED PERCUSSION (1-2 credits)

This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons for one credit (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the percussion faculty. Music majors must attend the weekly masterclass.

MUS 315L APPLIED PIANO (1-2 credits)

This course provides individual weekly instruction on piano. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the piano faculty. Music majors must attend the weekly masterclass.

MUS 315M APPLIED PIPE ORGAN (1-3 credits)

This course provides individual weekly instruction on organ. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the keyboard faculty. Music majors must attend the weekly masterclass.

MUS 315N APPLIED SAXOPHONE (1-2 credits)

This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 315O APPLIED TROMBONE (1-2 credits)

This course provides individual weekly instruction on trombone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 315P APPLIED TRUMPET (1-2 credits)

This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credits (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 315Q APPLIED TUBA (1-2 credits)

This course provides individual weekly instruction on tuba. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 315R APPLIED VIOLA (1-2 credits)

This course provides individual weekly instruction on viola. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 215R. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of viola and attend the weekly masterclass.

MUS 315S APPLIED VIOLIN (1-2 credits)

This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 215S. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of violin and attend the weekly masterclass.

MUS 315T APPLIED VOICE (1-2 credits)

This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for one credit hour or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for and approved by the voice faculty. All enrolled students must also enroll in a choral ensemble (MUS 2700, MUS 4100). All students must attend the weekly masterclass.

MUS 415A APPLIED BASSOON (1-2 credits)

This course provides individual weekly instruction on bassoon. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 415B APPLIED CELLO (1-2 credits)

This course provides individual weekly instruction on cello. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 315B. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of cello and attend the weekly masterclass.

MUS 415C APPLIED CLARINET (1-2 credits)

This course provides individual weekly instruction on clarinet. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 415D APPLIED DOUBLE BASS (1-2 credits)

This course provides individual weekly instruction on double bass. Students work with the instructor to schedule lessons for one credit (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 315D. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of double bass and attend the weekly masterclass.

MUS 415E APPLIED EUPHONIUM (1-2 credits)

This course provides individual weekly instruction on euphonium. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. This level of applied study provides instruction on fundamental brass playing concepts. Weekly assignments can include technical studies, scale exercises, tone and articulation studies, breathing exercises, solo and orchestral repertoire, chamber music, etc.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 415F APPLIED FLUTE (1-2 credits)

This course provides individual weekly instruction on flute. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition for & approval by the woodwind faculty, OR successful completion of 4 credit hours of MUS 315F. Students must also enroll in an instrumental ensemble. Music majors must be concurrently enrolled in MUS 1000-001 & 1000-007.

MUS 415G APPLIED FRENCH HORN (1-2 credits)

This course provides individual weekly instruction on french horn. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 415H APPLIED GUITAR (1-2 credits)

This course provides individual weekly instruction on the guitar. Students work with the instructor to schedule lessons for one credit (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 315H. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of guitar and attend the weekly masterclass.

MUS 415I APPLIED HARP (1-2 credits)

This course provides individual weekly instruction on harp. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 315I. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of harp and attend the weekly masterclass.

MUS 415J APPLIED OBOE (1-2 credits)

This course provides individual weekly instruction on oboe. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 415K APPLIED PERCUSSION (1-2 credits)

This course provides individual weekly instruction on percussion. Students work with the instructor to schedule lessons for one credit (BA) or two credit hours (BM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the percussion faculty. Music majors must attend the weekly masterclass.

MUS 415L APPLIED PIANO (1-2 credits)

This course provides individual weekly instruction on piano. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the piano faculty. Music majors must attend the weekly masterclass.

MUS 415M APPLIED PIPE ORGAN (1-3 credits)

This course provides individual weekly instruction on organ. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires an audition performed for & approved by the keyboard faculty. Music majors must attend the weekly masterclass.

MUS 415N APPLIED SAXOPHONE (1-2 credits)

This course provides individual weekly instruction on saxophone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the woodwind faculty. Music majors must attend the weekly masterclass.

MUS 4150 APPLIED TROMBONE (1-2 credits)

This course provides individual weekly instruction on trombone. Students work with the instructor to schedule lessons for one credit hour (BA), two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 415P APPLIED TRUMPET (1-2 credits)

This course provides individual weekly instruction on trumpet. Students work with the instructor to schedule lessons for one credit hour (BM) or two credit hours (BM), or three credit hours (MM). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 415Q APPLIED TUBA (1-2 credits)

This course provides individual weekly instruction on tuba. Students work with the instructor to schedule lessons for one credit hour (non-majors) or two credit hours (music majors). Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): Enrollment in this course requires an audition performed for and approved by the brass faculty. Music majors must attend the weekly masterclass.

MUS 415R APPLIED VIOLA (1-2 credits)

This course provides individual weekly instruction on viola. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 315R. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of viola and attend the weekly masterclass.

MUS 415S APPLIED VIOLIN (1-2 credits)

This course provides individual weekly instruction on violin. Students work with the instructor to schedule lessons for one credit or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 215S. Must also enroll in an instrumental ensemble. Students must be Music Majors in the area of violin and attend the weekly masterclass.

MUS 415T APPLIED VOICE (1-2 credits)

This course is a continuation of the applied music sequence of study for music majors. This course provides individual weekly instruction for voice. Students work with their assigned instructor to schedule lessons for one credit hour or two credit hours. Students are evaluated at each lesson on their musical and technical progress. A lab fee is required.

Prerequisite(s): This course requires successful completion of MUS 315T. This course requires an audition performed for and approved by the voice faculty. All enrolled students must also enroll in a choral ensemble (MUS 2700, MUS 4100) and attend the weekly masterclass.

MUS 1000 CONVOCATION (0 credits)

This course is a weekly meeting of all music majors which provides students with performance opportunities for themselves as well as recitals and lectures by guest artists.

Prerequisite(s): Music majors only.

MUS 1010 MUSIC TECHNOLOGY NOW (0 credits)

This course is a weekly meeting of all music technology majors. The course includes presentations of ongoing student projects, lectures by resident and visiting music technologists, audio engineering training and practicum opportunities, and critical listening experiences.

Prerequisite(s): Not open to non-degree graduate students.

MUS 1050 MUSIC OF THE PEOPLE: THE BEATLES (3 credits)

The Beatles are arguably the most influential and important rock band in history. Their music influenced not only the shape of popular music but youth culture. Course objectives are to learn the history of the music of the Beatles from their early influences and formation to their break-up and legacy; to understand the relationship of this music to larger cultural, political, and economic formations; to become familiar with aspects of the diverse musical structures used in their music; and to become familiar with the advances in sound and recording technology their music spawned and influenced innovation to music today.

Distribution: Humanities and Fine Arts General Education course

MUS 1070 MUSIC OF THE PEOPLE: ROCK AND POP (3 credits)

The objectives of this course are 1) to learn the history of rock music from its beginnings in earlier forms of popular music to the beginning of the 21st century 2) to understand the relationship of this music to larger cultural, political, and economic formations; and 3) to become familiar with aspects of musical structure which have been used in rock music.

Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

MUS 1080 MUSIC OF THE PEOPLE: THE WORLD (3 credits)

A study of music of various cultures throughout the world practiced primarily by individuals who produce music as a part of their everyday life. Using music as a window into various cultures the course gives students an insight into cultures that may vary from their own.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

MUS 1090 MUSIC APPRECIATION (3 credits)

A listening course for the non-music major designed to promote a better understanding of noteworthy compositions from various periods and styles. Lab fee required.

Distribution: Humanities and Fine Arts General Education course

MUS 1100 MUSIC OF THE PEOPLE: JAZZ (3 credits)

In this course, the history of jazz will be traced from its origins up to the present. Designed primarily for non-music majors, the course will chronicle the development of various stylistic trends which characterize jazz and discuss the prominent musical artists that influenced each style period within the history of jazz. Lab fee required.

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

MUS 1170 FOUNDATIONS OF MUSIC TECHNOLOGY (3 credits)

This course addresses the foundational people, concepts, and terms of music technology. The course covers a broad spectrum of themes including acoustics, psychoacoustics, microphones, Musical Instrument Digital Instrument (MIDI), synthesis, computer music, notation, and sampling. Intended for students pursuing a Bachelor of Arts with a concentration in Music Technology.

MUS 1390 BASIC MUSICIANSHIP (3 credits)

This course is designed to develop basic music reading skills through experiential learning that promotes music literacy skills of note reading, rhythmic reading, key signatures, and simple meter. It is designed for students interested in music degree tracks who have limited understanding of music theory.

Prerequisite(s): Music major or permission of the instructor. Not open to non-degree graduate students.

MUS 1400 MUSIC FUNDAMENTALS (3 credits)

Introduction to Music Studies will cover the basics of music including music reading in multiple clefs, scales, key signatures, meter signatures, rhythm, triads, seventh chords, and elementary aural and singing skills. The primary purpose of the course is to prepare students for further study in music at the college level.

Prerequisite(s): Music major or permission of instructor. Not open to non-degree graduate students.

MUS 1410 MUSIC CORE CURRICULUM I (4 credits)

The study of basic elements of music and their application to musical performance, education, and analysis.

Prerequisite(s): Music Major or permission from the instructor. Successful completion of 1400 (C or better). Not open to non-degree graduate students.

MUS 1420 MUSIC CORE CURRICULUM II (4 credits)

The study of basic elements of music and their application to musical performance, education, and analysis.

Prerequisite(s): Completion of MUS 1410 with the grade C or better or permission of the instructor. Not open to non-degree graduate students.

MUS 1430 COMMERCIAL MUSIC THEORY I (3 credits)

This course will integrate Roman Numeral, Lead Sheet, and Nashville notations through realization and analysis. It will also combine Common Practice Period music theory with Jazz theory in an effort to promote practical usage of theoretical systems in performance and practice.

Prerequisite(s): Prerequisites include MUS 1390 and MUS 1400.

MUS 1600 INTRODUCTION TO ARTS EDUCATION (1 credit)

This course is designed to provide an overview of the arts education profession. It will focus on the history, philosophy, and fundamentals of arts education in the United States. (Cross-listed with ART 1600).

MUS 1640 DICTION FOR SINGERS I (1 credit)

A study of the International Phonetic Alphabet (IPA) and the rules of pronunciation as applied to vocal literature of the English and Italian languages.

Prerequisite(s): Music major

MUS 1660 DICTION FOR SINGERS II (1 credit)

A study of the rules and guidelines of pronunciation as applied to vocal literature of German and French languages.

Prerequisite(s): Successful completion of MUS 1640

MUS 1690 KEYBOARD SKILLS I (1 credit)

Instruction in this course will prepare students for keyboard skills for continued success as a professional musician, teacher or music educator. An emphasis will be placed on the following skills: scales/chords, sight reading, SATB reading, open score reading, improvisation, basic accompaniment, continued development of technical skills through individual piano selections and exciting project using contemporary music. Arrangements of popular music, chord charts and stylistic awareness in regards to the piano will be developed throughout the course. Beginning skills of ensemble playing will be encouraged throughout the semesters. This is a sequential course whereby all students must enroll in fall semester and pass before enrolling in spring semester.

Prerequisite(s): MUS 167B (Piano) or equivalent. Permission.

MUS 2100 EXPLORING MUSIC THERAPY AND ADAPTIVE MUSIC THERAPY (3 credits)

An exploratory introduction to music therapy and adaptive music in the rehabilitation and reorganization of human beings into social life, health, and wellbeing. A survey of the history of music therapy is included and with the processes and principles used by practicing music therapists. (Cross-listed with MEDH 2100).

Prerequisite(s): Not open to non-degree graduate students.

MUS 2200 AUDIO RECORDING TECHNIQUES I (3 credits)

This course provides students with basic instruction in analog and digital audio recording. Topics include hardware, software, microphones, and basic production. Upon completion of the course students will have the skills and the knowledge to do basic audio recording such as recording live concerts and simple multi-track recording.

Prerequisite(s): MUS 1170 OR permission of the instructor. Not open to non-degree graduate students.

MUS 2300 SOUND DESIGN FOR VIDEO GAMES, FILM, AND SOUND ART (3 credits)

This course provides an overview of sound design theory & techniques. Using various multimedia platforms, students will effectively create compelling audio assets for video games, film, and artistic sound installations.

Prerequisite(s): Music Tech majors or permission of instructor. Not open to non-degree graduate students.

MUS 2410 MUSIC CORE CURRICULUM III (4 credits)

The study of intermediate elements of music and their application to musical performance, education, and analysis.

Prerequisite(s): MUS 1420 or permission. Not open to non-degree graduate students.

MUS 2420 MUSIC CORE CURRICULUM IV (4 credits)

The study of advanced elements of music and their application to musical performance, education, and analysis.

Prerequisite(s): MUS 2410 or permission. Not open to non-degree graduate students.

MUS 2430 COMMERCIAL MUSIC THEORY 2 (3 credits)

As a continuation of MUS 1430, this course will integrate Roman Numeral, Lead Sheet, and Nashville notations through realization and analysis. It will also combine Common Practice Period music theory with Jazz theory in an effort to promote practical usage of theoretical systems in performance and practice.

Prerequisite(s): MUS 1390, MUS 1400, and MUS 1430

MUS 2480 CLASS APPLIED JAZZ IMPROVISATION (2 credits)

This course is intended for the serious music student who wishes to gain basic knowledge and skills in the area of jazz improvisation. The course will emphasize beginning improvisation skills, basic jazz literature, chord scale relationships, melodic concepts, ear training, and analysis of improvised solos.

Prerequisite(s): MUS 1410 or MUS 1430

MUS 2510 MUSIC AND THE BLACK EXPERIENCE (3 credits)

Music and the Black Experience will provide students with historical and cultural knowledge of African Americans in the American music entertainment industry; the cultural influences of West African music traditions in African American music; and the American socio-political experiences that influenced music genres unique to Black people. Students will explore how West African music traditions survived and evolved through American slavery, reconstruction, the Civil Rights era, and into the 21st century; and how Black musical artists challenged racial discrimination in the music industry to create distinct music genres culturally unique to Black people. Overall, students taking this course will gain an understanding of the cultural role of music throughout the Black experience in America, and an appreciation for African American musical artists and composers who influenced all popular American music genres, from Spirituals to Broadway. (Cross-listed with BLST 2510).

Distribution: Humanities and Fine Arts General Education course and U.S. Diversity General Education course

MUS 2550 MUSIC HISTORY I (3 credits)

This course is intended for music majors who wish to undertake a study of music literature and history of the Ancient, Medieval, Renaissance, and Baroque eras. The objective of the course is to illustrate the musical concepts, styles and performance practices through composers, individual works and scores that typify these eras and the cultural context surrounding them. Outside listening, reading, musical analysis and discussion will supplement lectures.

MUS 2560 MUSIC HISTORY II (3 credits)

This course is intended for music majors who wish to undertake a study of music literature and history of the Pre-Classical, Classical, Romantic, and Modern eras. The objective of the course is to illustrate the musical concepts, styles and performance practices through composers, individual works and scores that typify these eras and the cultural context surrounding them. Outside listening, reading, musical analysis and discussion will supplement lectures.

MUS 2600 FUNDAMENTALS OF CONDUCTING (2 credits)

The purpose of this course is to provide a basic foundation of conducting skills.

Prerequisite(s): This course is limited to music majors. Students must have successfully completed MUS 1410, MUS 1420. Not open to non-degree graduate students.

MUS 2610 ADVANCED PIANO TECHNIQUES I (1 credit)

Instruction in this course will prepare piano majors with advanced keyboard techniques for continued success as a professional musician or private instructor. An emphasis will be placed on the following skills: sight reading, SATB reading, open score reading, improvisation, intermediate/advanced accompaniment, and continued crafting of personal skill sets. Students will arrange contemporary music. Intermediate to advanced skills of ensemble playing will be cultivated throughout the semesters. This is a sequential course whereby all students must enroll in fall semester and pass before enrolling in spring semester.

Prerequisite(s): Piano Major

MUS 2620 ADVANCED PIANO TECHNIQUES II (1 credit)

Instruction in this course will prepare piano majors with advanced keyboard techniques for continued success as a professional musician or private instructor. An emphasis will be placed on the following skills: sight reading, SATB reading, open score reading, improvisation, intermediate/advanced accompaniment, and continued crafting of personal skill sets. Students will arrange contemporary music. Advanced skills of ensemble playing will be cultivated throughout the semester. This is a sequential course whereby all students must enroll in fall semester and pass before enrolling in spring semester.

Prerequisite(s): Piano Major; Successful completion of MUS 2610. Not open to non-degree graduate students.

MUS 2690 KEYBOARD SKILLS II (1 credit)

Continuation of keyboard skills curriculum for continued success and independent thinking allowing students skill level for the following: scales/chords, sight reading, SATB reading, open score reading, improvisation, basic accompaniment, continued development of technical skills through individual piano selections and exciting project using contemporary music. Advanced arrangements of popular music, chord charts and stylistic awareness continue to develop throughout the course. Advanced skills of ensemble playing and experience will be a part of the curriculum. Class instruction in advanced development of keyboard skills including sight reading, harmonization, open score reading, accompaniments and facility.

Prerequisite(s): MUS 1690 or equivalent. Permission.

MUS 2700 UNIVERSITY CHORUS (0-1 credits)

University Chorus is an ensemble open to all University students, faculty and staff. No audition necessary. All styles of music, including popular. Students wanting humanities/fine arts general education credit must register for 1 credit hour.

Prerequisite(s): University Chorus participants need to be aware of the importance of rehearsals and concerts, and commit to those times in their schedule. Student must seek approval from the Director of Choral Activities in order to take this course for 0 credits.

Distribution: Humanities and Fine Arts General Education course

MUS 2730 CHAMBER ORCHESTRA (0-1 credits)

A string orchestra with selected winds performing symphonic repertoire. Public performance. Open to all students and members of the greater metropolitan community.

Prerequisite(s): Audition is required.

MUS 2740 CHAMBER MUSIC (0-1 credits)

Specialized chamber music groups from the string, wind, percussion, jazz, or technology area. Literature will be chosen from the extensive materials available for these combinations of instruments.

Prerequisite(s): Audition and permission.

MUS 2750 MARCHING BAND (0 credits)

Open to all full and part-time UNO students during the fall semester only. No audition is required. K-12 instrumental music education majors are required to enroll in Marching Band for two semesters.

MUS 2760 UNIVERSITY CONCERT BAND (0-1 credits)

University Band is a performing ensemble that is open to all UNO students, staff, and faculty. The band has varied programming of contemporary and classical works. There is no audition necessary.

Prerequisite(s): There are no prerequisites for University Band, but participants need to be aware of the importance of rehearsals and concerts and commit to those times in their schedules.

Distribution: Humanities and Fine Arts General Education course

MUS 2770 JAZZ ENSEMBLE (0-1 credits)

A select ensemble performing jazz literature from all periods. Open to all full- and part-time UNO students. An audition is required with the director.

Prerequisite(s): Acceptance into jazz ensemble is by audition only. Students must demonstrate technical command of their instrument, sightreading skills in multiple jazz styles and ability to demonstrate credible jazz improvisation skills.

MUS 2790 COLLABORATIVE PIANO (1 credit)

This course is designed to develop skills useful for pianists to learn to skills to collaborate with vocalists, instrumentalists and ensembles. Individual class times will also accompany rehearsals with designated collaborative partners. The vast repertoire and stylistic knowledge for areas such as musical theater, voice, choral, strings, brass, orchestra and wind ensemble set the beginning of exciting partnerships throughout a musical career.

Prerequisite(s): Completion of MUS 167B, MUS 1690, MUS 2690.

Permission. Not open to non-degree graduate students.

MUS 2800 SOUND REINFORCEMENT (3 credits)

This course provides students with basic instruction in the fundamental knowledge and techniques of live sound production. Topics include equipment, processes, and systems used in a variety of scenarios with emphasis on practical, hands-on production. Upon completion of the course students will have the skills and the knowledge to provide basic sound reinforcement.

Prerequisite(s): Activities include on-location sound reinforcement, written live sound observations, in-class practicum, and electronics labs. Not open to non-degree graduate students.

MUS 2810 MUSIC IN LATIN AMERICAN CULTURE (3 credits)

This course surveys musical traditions from countries in Latin America and the Caribbean. Characteristic regional genres, ensembles, instruments, and music rituals will be examined. We will also trace the historical, cultural, and socio-political aspects of Latin American music on a global scale and delve into the developments of some international musical genres. (Cross-listed with LLS 2810).

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

MUS 3100 MUSIC INFORMATICS (3 credits)

Surveys the use of digital music data in the study, composition, performance, analysis, storage, and dissemination of music. Various computational approaches and technologies in music informatics including music information retrieval will be explored and implemented by students. (Cross-listed with ACMP 3100)

Prerequisite(s): Successful completion of one of the following three courses satisfies the prerequisite requirement: CIST 1300 or MUS 3170 or MUS 3180. Not open to non-degree graduate students.

MUS 3170 EXPLORING MUSIC TECHNOLOGY (3 credits)

An overview of computers and music. The course will focus on broad themes of people, procedures, data structures, software, hardware, and computer music environments. Intended for students with limited music or computer backgrounds.

MUS 3180 ELECTRONIC MUSIC PRODUCTION (3 credits)

An exploration of the potentials of electronic music. Concepts of electronic music are presented through the use of a computer, software, and appropriate hardware. Students create assignments that demonstrate the application of basic techniques. (Cross-listed with ACMP 3180)

MUS 3190 JUNIOR/NON DEGREE RECITAL (1 credit)

This course is designed for all undergraduate performance music majors performing a junior or any student who wants to perform a non-degree recital.

Prerequisite(s): Applied Music (MUS 1150-3150) and/or permission of applied instructor. Payment of Recital Fee (Conductors' fees are automatically waived). Not open to non-degree graduate students.

MUS 3200 JAZZ PEDAGOGY (1 credit)

Course includes middle school and high school instrumental jazz literature, basic improvisation, rhythm section techniques and laboratory ensemble experiences.

Prerequisite(s): MUS 2410 or MUS 2430

MUS 3210 AUDIO RECORDING TECHNIQUES II (3 credits)

This course provides students with advanced instruction in sound recording and digital audio production. Topics include microphone technique, analog audio hardware, digital audio software, and advanced production techniques.

Prerequisite(s): MUS 2200

MUS 3260 MUSICAL THEATRE AND OPERA WORKSHOP (1 credit)

THEA 3260/MUS 3260 Musical Theatre and Opera Workshop is an ensemble offered during fall semester that integrates singing, movement and acting through rehearsal, private musical coaching and group exercise. It is designed for students in opera and musical theatre and develops the skill sets that are needed for performance. (Cross-listed with THEA 3260).

Prerequisite(s): THEA 1200 or MUS 115 T; PEA 111Q or PEA 111R or PEA 112W; THEA 1300 or THEA 2300. These prerequisites can be waived by the professors.

MUS 3400 FORM AND ANALYSIS (2 credits)

The study of musical forms and their application to musical arranging for choir, band, and orchestra.

Prerequisite(s): MUS 2420

MUS 3440 COMPOSITION I (1 credit)

Individualized applied study of the basic craft of musical composition in small media and various styles.

Prerequisite(s): MUS 2420 and written permission. Not open to non-degree graduate students.

MUS 3480 CLASS APPLIED JAZZ IMPROVISATION II (2 credits)

This course is intended for the serious music student who wishes to gain advanced knowledge and skills in the area of jazz improvisation. This course will emphasize advanced improvisation skills, standard jazz literature, advanced jazz harmony, chord/scale relationships, melodic concepts, ear training, and analysis of improvised solos.

Prerequisite(s): MUS 2480

MUS 3600 MUSIC EDUCATION CORE I - ELEMENTARY (5 credits)

Methods and materials for teaching elementary (K-6) general, instrumental and choral music.

Prerequisite(s): Students must be accepted to the College of Education, Health and Human Sciences (CEHHS) Teacher Preparation Program and have completed MUS 1600 and MUS 1410 with a C or better; Music Education Majors only. Not open to non-degree graduate students.

MUS 3604 MUSIC EDUCATION BEGINNING PRACTICUM (1 credit)

In Beginning Practicum, teacher candidates are observing and practicing instructional strategies for music students in grades K-5 in school settings. Students will spend a minimum of 20 hours in an elementary music classroom.

Prerequisite(s): MUS 3600 - corequisite, 2.75 NU GPA. Not open to non-degree graduate students.

MUS 3610 MUSIC EDUCATION CORE II - MIDDLE SCHOOL/JUNIOR HIGH SCHOOL (5 credits)

Course includes brass and percussion pedagogy, middle school instrumental and choral literature and techniques, general music, conducting, and laboratory ensemble experiences.

Prerequisite(s): MUS 3600 or permission.

MUS 3614 MUSIC EDUCATION INTERMEDIATE PRACTICUM (1 credit)

In Intermediate Practicum, teacher candidates are observing and practicing instructional strategies for middle school students in school settings. Students will spend a minimum of 30 hours in a middle school music classroom.

Prerequisite(s): Prerequisites: MUS 3600, MUS 3604; Corequisite: MUS 3610; 2.75 NU GPA. Not open to non-degree graduate students.

MUS 3630 MUSIC EDUCATION CORE III - HIGH SCHOOL METHODS (5 credits)

This course explores all aspects of administering high school vocal and instrumental music programs as well as prepares the student for clinical teaching and the job search process.

Prerequisite(s): MUS 3600 and MUS 3610 or permission, 2.75 NU GPA.

MUS 3634 MUSIC EDUCATION ADVANCED PRACTICUM (1 credit)

In Advanced Practicum, teacher candidates are observing and practicing instructional strategies for high school students in school settings. Students will spend a minimum of 30 hours in a high school music classroom.

Prerequisite(s): Prerequisites: MUS 3600, MUS 3604, MUS 3610, MUS 3614. Corequisite: MUS 3630; 2.75 NU GPA. Not open to non-degree graduate students.

MUS 3640 MUSIC EDUCATION FINAL PRACTICUM (2 credits)

This course is designed to link theoretical concepts learned in the classroom to the practical application of "real world" situations and to familiarize students with the profession of music education. Hours completed in this course count as the final practicum as specified by the College of Education Teacher Preparation Program and required by the Nebraska Department of Education for teacher certification.

Prerequisite(s): MUS 3630, 2.75 NU GPA. Not open to non-degree graduate students.

MUS 3650 INTERNSHIPS IN MUSIC (0-3 credits)

A course designed to link theoretical concepts learned in the classroom to the practical application of "real world" situations and to familiarize students with attitudes, operations and programs of various musical organizations.

Prerequisite(s): Junior standing or permission of Music Department Chair. Not open to non-degree graduate students.

MUS 3660 ADVANCED CONDUCTING (2 credits)

An advanced course in conducting for music majors. This course will provide a theoretical and practical study of various materials and methods as they relate to conducting score study, gestures, rehearsal strategy and related performance practices.

Prerequisite(s): Successful completion of MUS 2420.

MUS 4000 SPECIAL STUDIES IN MUSIC (1-3 credits)

Seminars or workshops in Theory, History, Performance, and Music Education designed to meet specific interests and needs of students. Topics and number of credits for each specific offering will be announced during the prior semester. (Cross-listed with MUS 8006).

MUS 4100 CONCERT CHOIR (0-1 credits)

A select choral ensemble specializing in outstanding examples of music of all styles and from all periods. Public performance. Open to all University students.

Prerequisite(s): The prerequisite for Concert Choir is an audition. Student must seek approval from the Director of Choral Activities in order to take this course for 0 credit.

MUS 4120 CHAMBER CHOIR (0-1 credits)

A select choral ensemble of 20-32 singers, specializing in outstanding examples of a cappella choral music. Preparation and performance of all styles of music. Appearances in concerts throughout the year, on campus; in the metropolitan area; and occasionally, in various other regions of Nebraska and the world.

Prerequisite(s): Auditions at start of each semester - solo, sight-sing, range check, & group audition to match voice qualities. Must seek approval from Director of Choral Activities to take course for 0 credits. Not open to non-degree graduate students.

MUS 4130 UNIVERSITY ORCHESTRA (0-1 credits)

Heartland Philharmonic Orchestra is a full symphony orchestra performing symphonic repertoire. Public performance. Open to all students and members of the greater metropolitan community. Repertoire is drawn from the four periods of music associated with symphonic literature: Baroque, Classical, Romantic, and Modern.

Prerequisite(s): Audition and permission.

MUS 4160 SYMPHONIC WIND ENSEMBLE (0-1 credits)

The Symphonic Wind Ensemble performs the finest concert band literature at four campus concerts, professional conferences, and tours. Open to all full- and part-time students.

Prerequisite(s): Audition is required for membership in the Symphonic Wind Ensemble.

MUS 4190 RECITAL (1 credit)

This course is designed for all undergraduate students performing a senior recital. All recitals are to be one half hour to one hour depending on the student's degree requirements.

Prerequisite(s): Recital fee payment (conductor's fees waived) & applied instructor's permission. BM-Education & BA Students: 4 semesters of appropriate Applied Music (MUS 1150-3150). BM-Performance: MUS 3190; 7 semesters of appropriate Applied Music (MUS 1150-3150).

MUS 4220 AUDIO RECORDING TECHNIQUES III (3 credits)

This course provides students with advanced instruction in sound mixing, digital audio editing, audio post-production and mastering. Topics include advanced digital audio editing, audio signal processing techniques, analog signal processing hardware, automation, and final product authoring and mastering.

Prerequisite(s): MUS 3170, MUS 4200 & MUS 4210. Not open to non-degree graduate students.

MUS 4240 ADVANCED AUDIO RECORDING TECHNIQUES (3 credits)

This course provides students with advanced instruction in sound mixing, digital audio editing, audio post-production and mastering. Topics include advanced digital audio editing, audio signal processing techniques, analog signal processing hardware, automation, and final product authoring and mastering. (Cross-listed with MUS 8246).

Prerequisite(s): MUS 3170, MUS 4200 & MUS 4210. Not open to non-degree graduate students.

MUS 4280 ADVANCED TOPICS IN MUSIC TECHNOLOGY (3 credits)

A seminar in Music Technology on an advanced or emerging topic in the field. The topic for each offering will be announced the prior semester.

Prerequisite(s): Permission of department.

MUS 4290 MUSIC CAPSTONE PROJECT (1 credit)

This course is to serve as a capstone project for students in the Bachelor of Arts in Music degree. Projects must be approved by the faculty and a member of the faculty will be assigned to advise on the project.

Prerequisite(s): Senior standing and successful completion of MUS 1420 or MUS 1430. Not open to non-degree graduate students.

MUS 4300 BUSINESS OF MUSIC (3 credits)

An overview of the global music industry as practiced in the United States, this course will provide insights into a number of key areas of business related to music. Students will also explore a diversity of music industry career paths in areas such as arts management, music products & merchandizing, public relations, music production & recording, publishing, and online music distribution.

Prerequisite(s): Students must be enrolled as music majors, or by permission of instructor.

MUS 4400 ADVANCED COMPOSITION (1 credit)

Individualized applied study of the craft of musical composition in larger media and various styles.

Prerequisite(s): MUS 3440 and written permission. Not open to non-degree graduate students.

MUS 4430 ARRANGING FOR JAZZ ENSEMBLE (3 credits)

Techniques of writing for jazz ensembles of various combinations of instruments. (Cross-listed with MUS 8436).

Prerequisite(s): MUS 2480 or MUS 2420

MUS 4440 MUSIC SINCE 1945 (3 credits)

This course covers important developments in music in the United States and Europe since 1945. (Cross-listed with MUS 8446).

Prerequisite(s): Completion of MUS 3420 or permission of instructor.

MUS 4450 ORCHESTRATION (2 credits)

Basics of instrumentation and scoring for band and orchestra.

Prerequisite(s): Completion of MUS 2420 with a C or better. Not open to non-degree graduate students.

MUS 4530 HISTORY OF WESTERN OPERA (3 credits)

This course will consist of significant music theater works in the Western world from 1600 to the present. (Cross-listed with MUS 8536).

Prerequisite(s): MUS 2550 and MUS 2560, Junior standing.

MUS 4540 RENAISSANCE MUSIC LITERATURE (3 credits)

This course is intended for music majors who wish to undertake a comprehensive survey of music literature c. 1350-1600. (Cross-listed with MUS 8546).

Prerequisite(s): MUS 2550, MUS 2560, and MUS 2570. Not open to non-degree graduate students.

MUS 4550 BAROQUE MUSIC LITERATURE (3 credits)

This course is intended for music majors who wish to undertake a comprehensive survey of music literature from c. 1600-1750. (Cross-listed with MUS 8556).

Prerequisite(s): MUS 2550 and MUS 2560.

MUS 4560 CLASSICAL MUSIC LITERATURE (3 credits)

This course is intended for music majors who wish to undertake a comprehensive survey of music literature from c. 1750-1815. (Cross-listed with MUS 8566).

Prerequisite(s): MUS 2550, MUS 2560, and MUS 2570.

MUS 4570 ROMANTIC MUSIC LITERATURE (3 credits)

This course is intended for music majors who wish to undertake a comprehensive survey of Music literature from c. 1815-1912. (Cross-listed with MUS 8576).

Prerequisite(s): MUS 2550 and MUS 2560.

MUS 4580 MUSIC FROM 1900 - 1945 (3 credits)

This course is intended for music majors who wish to undertake a comprehensive survey of music literature from the post-romantic period to 1945. The objective will be to provide the student with a broad overview with special attention given to composers and individual works which typify a style or form. (Cross-listed with MUS 8586).

Prerequisite(s): MUS 2560.

MUS 4590 AFRICAN-AMERICAN POPULAR MUSIC FROM BEBOP TO HIP-HOP (3 credits)

This course is intended for music majors who wish to undertake a comprehensive survey of African-American popular music literature from c. 1900-present. The objective will be to provide the student with a broad overview with special attention given to musicians and individual works which typify a style or form. Listening assignments will be an integral part of the course, and attendance at live performances will supplement the lectures, discussions and readings. (Cross-listed with MUS 8596).

MUS 4600 PIANO PEDAGOGY (3 credits)

This course is a survey of the art of teaching the piano. Course content will include a survey of beginning and intermediate piano methods, literature for the beginning/intermediate piano student, studio business practice, professional organizations, and group piano instruction pedagogy. (Cross-listed with MUS 8606).

Prerequisite(s): Permission of instructor.

MUS 4610 VOICE PEDAGOGY (3 credits)

This course is a study of the physiological and acoustical properties of the vocal mechanism and of the various techniques used in developing the singing voice. Also, it will apply knowledge acquired about the voice through studio teaching and observations of other voice teachers.(Cross-listed with MUS 8616).

Prerequisite(s): Voice Music Major or permission of instructor.

MUS 4620 INSTRUMENTAL PEDAGOGY (3 credits)

This course is a study of the physiological and acoustical properties of various instruments and of techniques used in developing instrumental technique. Also, it will apply knowledge acquired about the instrument through studio teaching and observations of other instrumental teachers.

MUS 4660 HEALTH AND WELLNESS FOR MUSICIANS (3 credits)

Health and Wellness for Musicians gives an overview of the dimensions of wellness and common health/wellness challenges for musicians. The course provides students with a toolbox of ideas and strategies for the development, design, and implementation of a music wellness campaign for non-musicians and individualized wellness plans for specific instruments and voice types. (Cross-listed with MUS 8696).

MUS 4720 CHORAL LITERATURE (3 credits)

A survey course in the study of significant choral genre of the various periods of music from plain song to contemporary music. (Cross-listed with MUS 8726).

Prerequisite(s): MUS 2570 and MUS 3640. Junior music major standing or permission of the instructor.

MUS 4730 KEYBOARD LITERATURE (3 credits)

This course will examine literature written for keyboard (piano) from the 16th century to the present. Emphasis will be placed on solo literature of the Baroque, Classic, Romantic, and Contemporary periods. Included are keyboard concertos with orchestra and works for four hands and two pianos. (Cross-listed with MUS 8736).

Prerequisite(s): Permission of instructor.

MUS 4740 VOICE LITERATURE (3 credits)

This course is a study of the development of art song in Europe and America. Emphasis will be given to German and French song literature and their influence on English and American song. (Cross-listed with MUS 8746)

Prerequisite(s): Junior voice or permission of instructor.

MUS 4750 INSTRUMENTAL LITERATURE (3 credits)

This course is a study of the development of instrumental (brass, winds, strings, percussion) literature in Europe and America.

Prerequisite(s): Not open to non-degree graduate students.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Jazz Studies Concentration

Music, Bachelor of Arts in Music - Concentration in Jazz Studies Requirements

Code	Title	Credits
GENERAL EDUCATION REQUIREMENTS - 46 Hours Required		
Minimum of "C-" required		
Fundamental Academic Skills		15

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

School of the Arts

School of the Arts

The School of the Arts is one of three schools in the College of Communication, Fine Arts and Media. It comprises Art & Art History, Theatre, and Writer's Workshop. Formed in 2015 the School is located in the award-winning Weber Fine Arts Building which houses along with traditional lecture and seminar rooms and computer labs, dedicated studio spaces for art-making, acting, directing, and theatrical design. Weber's Black Box Theater and Art Gallery and unit programming make Weber and the School campus's theatrical and artistic hub.

The units in the School of the Arts offer several degree programs. Art & Art History is a fully accredited member of the National Association of Schools of Art and Design (NASAD). In the Studio Arts area, students can earn a Bachelor of Arts or a Bachelor of Fine Arts in 2D, 3D, Media Arts, Illustration, or Graphic Design. Studio Art students can also earn a K-12 certification. Art History majors can concentrate in Academic Art History or Arts Management. Theatre offers a Bachelor of Arts degree with concentrations in Acting/Directing, Musical Theatre, Stage Management, Design, and Technology. Students in Writer's Workshop (Creative Writing) can earn a BFA or an MFA in Creative Writing. Writer's Workshop offers concentrations in Poetry, Fiction, Creative Nonfiction, and Screenwriting.

For students who are not majors in the School of the Arts, there are many opportunities to minor in one of its subject areas. The School has minors in Studio Art, Art History, Theatre, Musical Theatre, Arts Entrepreneurship, and Creative Writing.

The specific requirements for the School of the Arts degrees are listed under each unit: Art & Art History, Theatre and Writer's Workshop. In addition to the major requirements students must complete UNO's General Education program.

Art and Art History

Art & Art History educates artists, scholars and teachers by fostering creative expression, visual literacy, and critical thinking through practice and research. By developing mastery of various disciplines in art, students are prepared to become leaders in their chosen careers and make positive contributions to the world. Art & Art History is fully accredited by the National Association of Schools of Art and Design (NASAD).

Contact Information

For more information, contact Art & Art History at 402.554.2420.

Website (<http://www.unomaha.edu/college-of-communication-fine-arts-and-media/art-and-art-history/>)

Admissions

Any student enrolled in the College of Communication, Fine Arts and Media may declare a major in Art & Art History. Students working on their BASA

must pass a portfolio review (ART 2000), which is normally conducted after a student has completed the Studio Core I courses, or the equivalents.

Degrees Offered

- Art History, Bachelor of Arts (p. 596)
- Studio Art, Bachelor of Arts (p. 601)
- Studio Art, Bachelor of Fine Arts (p. 614)

Writing in the Discipline

Writing in the discipline course: All students are required to take a writing in the discipline course within their major. For Art & Art History this is WRWS 3500 or another approved course.

Minors Offered

- Art History Minor (p. 601)
- Studio Art Minor (p. 626)
- Arts Entrepreneurship Minor (p. 645)

Art History

Art History is an interdisciplinary field that studies the most significant artists and artworks in human history and emphasizes the role of visual culture from the past to the present. Students majoring in Art History at UNO can prepare for advanced graduate study in art history as well as careers in museum studies or art administration.

- Museum curator
- Gallerist
- Exhibit Installation technician
- Art conservationist/restorer
- Art law/anti-forgery specialist
- Interior designer
- Art/estate appraiser
-

Studio Art

The programs in studio art provide a comprehensive art education that prepares students with the technical skills, historical context, and theoretical knowledge to create meaningful artistic contributions. Visual imagery created through painting, drawing, printmaking, book arts, ceramics, sculpture, graphic design, media arts, or game design are emphasized in this program. Additionally, students can also pursue teacher certification to apply their artistic skills in the K-12 classroom.

2D

- Artist
- Fashion illustrator
- Comic illustrator
- Storyboarder
- Medical illustrator
- Art therapist
- Concept artist
- Art educator

3D

- Sculptor
- Art educator
- Special effects artist
- 3D animator

Graphic Design

- Corporate graphic designer
- Web designer
- Marketing/advertising artist
- UX/UI designer

Illustration

- Graphic Novelist
- Preproduction for Animation (storyboard artist, concept artist, production management)
- Editorial Illustrator
- Children's Illustrator
- Webcomic artist
- Comic colorist, inker or penciler
- Creative business owner

Media Arts (Intermedia and Digital Art/ Game Design)

- Concept/character artist
- Photographer
- Animator
- Digital Artist
- Game art director
- Video Artist

Art, K-12 Education

- Elementary art educator
- Secondary art educator
- Tutor

ART 1010 ART APPRECIATION (3 credits)

This course is designed as an introductory-level art history for the non-art major. It surveys the aesthetic principles of the visual arts and their interpretation in a socio-historical context. (May not be taken for major credit.) Lab fee required.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: U.S. Diversity General Education course and Humanities and Fine Arts General Education course

ART 1040 GLOBAL INDIGENOUS ART (3 credits)

This introductory course explores Indigenous architecture, paintings, sculpture, and decorative arts of six geographic regions: Africa, Mesoamerica, North America, South America, Asia, and Oceania. Students will examine the religious beliefs, ritual practices, and politics embedded within the production of Indigenous artworks. The class will also examine contemporary artworks to understand the continuity and innovation of cultural traditions and the importance of repatriation. Lab fee required.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

ART 1100 FOUNDATION: DRAWING (3 credits)

This course is an introduction to the essential tools of art making through an active exploration of drawing mediums and design concepts. The focus is on the development of conceptual and technical skills used in contemporary studio practice. The course will have a strong emphasis on learning to see in the context of an observational studio practice.

Prerequisite(s): Lab fee required.

ART 1110 FOUNDATION: 3D DESIGN (3 credits)

This course is an introduction to the technical and conceptual aspects of three dimensional design, focusing on drawing and sculpture problems. Students will develop an understanding of 3-D design components and principles, learn handmade and shop oriented technologies, and explore analytical and conceptual drawing. They will also address critical skills and the cultural analysis of art practice.

Prerequisite(s): Lab fee required.

ART 1210 FOUNDATION: 2-D DESIGN (3 credits)

This course is an introduction to the elements and principles of design utilizing a variety of 2-D media and formats. These will be investigated through compositional strategies, studio techniques, gestalt understanding, critical thinking and concepts of contemporary methodologies in art making. Lab fee required.

ART 1220 FOUNDATION: DIGITAL MEDIA (3 credits)

An introduction to digital art and design skills, nomenclature, and practice while learning aesthetics and art and design history. Students learn to balance practical knowledge with visual, theoretical, and historical frameworks, and they complete digital skills exercises that incorporate art and design history. These digital skills are then practiced and reinforced with more in-depth art and design projects.

Prerequisite(s): Lab fee required.

ART 1600 INTRODUCTION TO ARTS EDUCATION (1 credit)

This course is designed to provide an overview of the arts education profession. It will focus on the history, philosophy, and fundamentals of arts education in the United States. (Cross-listed with MUS 1600).

ART 1810 WATERCOLOR I (3 credits)

This course cover beginning watercolor techniques with basic water media skills taught in the class. No experience is necessary for students enrolled in 1810.

ART 1820 WATERCOLOR II (3 credits)

This course will review fundamental methods and techniques associated with watercolor painting and will introduce more advanced techniques. Advanced watercolor students submit a written contract for their semester plan which includes the concept or content and approximate number of paintings. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 credit hours.)

Prerequisite(s): ART 1810

ART 2000 CORE ONE PORTFOLIO REVIEW (0 credits)

ART 2000 Core One Portfolio Review is a zero credit hour course offered every Fall and Spring semester. All BASA majors on the 2013-14 catalog year and after must complete the ART 2000 Core I Portfolio review to graduate with the BASA or BFA major. ART 2000 will usually be completed during the sophomore year; i.e. between 27 and 57 credit hours, but may be completed later.

Prerequisite(s): Students must complete ART 1100; ART 1110; ART 1210; ART 1220. Not open to non-degree graduate students.

ART 2050 SURVEY OF WESTERN ART HISTORY I (3 credits)

A survey of the major developments in painting, sculpture and architecture from Paleolithic cave paintings through the Middle Ages.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

ART 2060 SURVEY OF WESTERN ART HISTORY II (3 credits)

This course is a survey of the major developments in painting, sculpture and architecture from the Renaissance to the 20th century. Lab fee required.

Distribution: Humanities and Fine Arts General Education course and Global Diversity General Education course

ART 2070 ART OF INDIA AND SOUTHEAST ASIA (3 credits)

A study of the arts of India and cultures under its influence, with attention to religious and philosophical background. Lab fee required.

Prerequisite(s): Sophomore standing. Not open to non-degree graduate students.

ART 2080 ART OF CHINA AND JAPAN (3 credits)

This course is a study of the arts of China and Japan, with attention to religious and philosophical backgrounds. Lab fee required.

Prerequisite(s): Sophomore standing . Not open to non-degree graduate students.

ART 2100 LIFE DRAWING I (3 credits)

Life Drawing I is an introduction to drawing the human form. The goal of the course is to introduce drawing media and relate them to the problems of drawing the figure. Both perceptual and conceptual skill building are emphasized. Lab fee required.

Prerequisite(s): ART 1100 and ART 1210.

ART 2110 LIFE DRAWING II (3 credits)

Life Drawing II is an expansion of the instruction and skill set obtained during Life Drawing I. This course continues to assist the student become aware of unfamiliar forms in the figure. Perceptual and conceptual skill building is again emphasized. Lab Fee required.

Prerequisite(s): ART 2100

ART 2200 TYPEFACE DESIGN AND TYPOGRAPHY (3 credits)

Typeface Design and Typography is foundational to the practice of graphic design and the Graphic Design Concentration sequence. This intensive studio course focuses on the skills, theory, history and practice of typeface design as well as the theory and practice of typography and layout.

Prerequisite(s): ART 1220 ART 3130

ART 2300 WEB DESIGN (3 credits)

This course is an introduction to basic web design skills and topics, with an emphasis on design and visual communication.

Prerequisite(s): ART 1220. Not open to non-degree graduate students.

ART 2600 SURVEY OF COMICS: MORE THAN CAPES AND TIGHTS (3 credits)

This course is a survey of the history of the Western comic from its earliest days to the modern era.

Prerequisite(s): Not open to non-degree graduate students.

ART 2610 EXPLORATION OF GLOBAL COMICS (3 credits)

This course is a survey of the history, influences and evolution of comics from countries around the world such as France, Italy, the Middle East, Japan, South America and Africa. Students will come to understand how comics grew and evolved under different social, political and cultural climates around the world.

Distribution: Global Diversity General Education course and Humanities and Fine Arts General Education course

ART 2910 OBSERVATIONAL DRAWING FOR SKETCHBOOK (3 credits)

This studio course focuses on drawing from observation in the studio and in public space. Students will work to develop a sketchbook drawing practice utilizing both dry and wet media. We will draw on-location around campus and around Omaha. Students will practice drawing the human figure without the use of a traditional model and develop their technical and expressive skills in drawing architecture, nature, and found objects.

Prerequisite(s): ART 1100 or by permission of instructor

ART 2920 ILLUSTRATION 1: INTRODUCTION TO ILLUSTRATION (3 credits)

This studio course focuses on the fundamentals of visual storytelling. Using a combination of digital and traditional techniques students will complete projects in editorial, sequential, instructional, advertisement, surface pattern design and visual development illustration. The primary emphasis for this course will be to learn the illustration process from initial research, ideation and comp sketching to drafts and finishes. Students will learn industry standards as they model the client-illustrator relationship through multiple rounds of review. Time will be spent looking at historic and contemporary examples. Students will collect and analyze illustrations that appeal to them in order to establish their visual taste and direct their personal styles. For Illustration concentration students the class will culminate in a mid-program review where students submit their work in order to qualify to continue in the concentration.

Prerequisite(s): ART 1100, ART 1220, or by permission of instructor

ART 3000 MEDIA ARTS 1 (3 credits)

This course is an introduction and overview to the concentration of Media Arts. The curriculum is designed to provide a basic knowledge of electronic imaging and production techniques for students wishing to continue in digital media or those working with media production artists. Areas introduced will be Digital Image Production, Digital Video Production, and Animation.

Prerequisite(s): Art 1220 or permission of instructor

ART 3100 ADVANCED DRAWING I (3 credits)

Instruction in drawing at an advanced level to develop practical skills and techniques through directed classroom projects.

Prerequisite(s): ART 1100

ART 3110 ADVANCED DRAWING II (3 credits)

Instruction in drawing at an advanced level to develop practical skills and techniques through directed classroom projects. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.)

Prerequisite(s): ART 1100 and ART 3100

ART 3120 MEDIA ARTS 2 (3 credits)

Advanced overview of Intermedia and digital production as well as critical theory for artists. The course includes both fine art and applied uses of Intermedia and digital art through the development of individual and group projects using digital and electronic media means.

Prerequisite(s): Art 3000 or permission of instructor.

ART 3130 GRAPHIC DESIGN 1 (3 credits)

The first course in the Graphic Design sequence, Graphic Design I is an upper division course focusing on the essential elements of Graphic Design as a discipline and practice. Working individually, students learn the tools, terminology, theory, and history of Graphic Design as a professional and artistic practice. Focused attention and time is spent learning conceptualization skills, digital skills, design practice and the relationship between the designer and their social and historical context.

Prerequisite(s): ART 1220, or permission of instructor

ART 3140 COMPUTER-GENERATED IMAGERY (CGI) I: INTERACTIVE 3D VIRTUAL SPACES (3 credits)

This course introduces students to basic principles and aesthetic considerations of computer-generated imagery and interactive virtual spaces. The course will focus on using computers as a tool to create three-dimensional virtual art forms and design interactive art spaces and navigable virtual/game worlds. The course exposes students to various theoretical and aesthetic positions and encourages them to think of CGI and virtual space building as an art-making process. Students will produce artwork by acquiring technical skills and exploring creative uses within the medium.

Prerequisite(s): ART 1220 or permission of the instructor

ART 3150 VIDEO ART (3 credits)

An introduction to video art production and critical theory for artists. The course exposes students to a variety of theoretical and aesthetic positions and encourages them to think of video as an art making process rather than mass media product. Students are required to produce a number of video art works. Production rather than consumption is stressed as a pedagogical mode.

Prerequisite(s): ART 3000 or permission of instructor

ART 3160 GAME DESIGN AS ART (3 credits)

This course will encompass theory and practice of game development, game creation as an art process, and an exploration of the work of artists who have created game based work. Areas of study during the course will include game design and mechanics, explorations of theory, narrative and storytelling with game paradigms, social and ethical concerns of gaming and gaming as cultural resistance.

Prerequisite(s): Not open to non-degree graduate students

ART 3170 DIGITAL GAME DESIGN (3 credits)

This course provides an introduction to digital game development. It will explore all aspects of creating 2d games. Students will work on individual and team projects. Students will learn to do concept art, pre-production planning, prototyping and testing, all working towards creating completed games.

Prerequisite(s): Non-degree graduate students not allowed.

ART 3200 THE HAND PRODUCED BOOK I: TYPOGRAPHY AND BOOK DESIGN (3 credits)

This course is an introduction to the typographic principles and fundamental letterpress techniques as applied to printed books. Each student learns hand typesetting and letterpress procedures, then designs and prints a small edition of their selected text. Lab fee required.

ART 3210 COLOR THEORY (3 credits)

Instruction in the study of color through directed classroom assignments.

Prerequisite(s): ART 1110 and ART 1210

ART 3220 HAND PRODUCED BOOK II: LETTERPRESS PRINTING (3 credits)

Continuing work in typography and book design with an emphasis on book illustration, multi-color printing, and the standardization and control of edition work. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.) Lab fee required.

Prerequisite(s): ART 3200

ART 3230 BOOK STRUCTURES: INTRODUCTION TO BOOKBINDING (3 credits)

This course investigates basic approaches to bookbinding, introducing students to the history, tools and techniques of the discipline. In addition to the concertina structure and simple presentation wrappers, students execute a variety of non-adhesive bindings, both Western and Japanese, and learn basic case-binding methods. Lab fee required.

ART 3250 PATTERNED PAPER (3 credits)

This course examines various techniques employed in the creation of decorative patterned papers traditionally used in bookbinding for both cover material and/or end sheets. The emphasis of the course will be on effective pattern design, the mastery of pattern paper production methods, and fine craft standards. Lab fee required.

ART 3300 ELEMENTARY ART METHODS (3 credits)

Study of the theory, methods, curriculum and recent research affecting art education with emphasis on the elementary art program. Student must complete a 50-hour practicum which occurs outside of scheduled class time. Lab fee required.

Prerequisite(s): Students must be formally admitted to the College of Education Educator Preparation Program; PK-12 Art Education Majors only; 2.75 NU GPA. Lab Fee Required.

ART 3310 ELEMENTARY SCULPTURE (3 credits)

This course begins the exploration of the 3-dimensional artistic form which can be constructed using a variety of materials including clay, plaster, wood, steel and new media. Lab fee required..

Prerequisite(s): ART 1110

ART 3320 INTERMEDIATE SCULPTURE (3 credits)

Intermediate Sculpture continues and expands upon the elementary level of sculpture and builds upon methods, technologies, problem solving and professional practice. Lab fee required.

Prerequisite(s): ART 3310

ART 3330 ART IN PUBLIC PLACES (3 credits)

The goal of this course is to introduce students to the concepts and practice related to displaying artwork in public places. Following a thorough examination of the history of public art, the course will focus on the various visual languages and iconography appropriate for public venues. The course emphasizes building original artwork using both traditional and digital technologies, displaying work in public spaces, artist responsibilities and related professional practice.

Prerequisite(s): ART 1110

ART 3340 DIGITAL SCULPTURE - DESIGN AND BUILD TECHNOLOGIES (3 credits)

The goal of this course is to introduce students to the methods of designing objects in a digital environment and realizing them as objects in the physical world. Students will learn to create forms using a variety of 3D modeling software and scanning technologies. The course will introduce students to the Autodesk suite of programs, including 3D Studio Max, Maya Inventor, 123D Catch, as well as Zbrush. Once students have achieved a high level of competency on the computer, the class will begin exploring systems for building their creations. Using Make 123D, Pepakura and Makerware students will fabricate objects in plastic, cardboard and wood. Additionally, the class will address both the artistic and functional applications of these methods.

Prerequisite(s): ART 1110

ART 3360 APPLIED ART & DESIGN (3 credits)

This course is designed to present an opportunity for education and other undergraduate students to develop basic skills, knowledge and appreciation of the arts and crafts of our culture and other world cultures. The course content will be individualized for the purposes of adapting methods, values, content, and media for students working with special populations or in special settings. Lab fee required.

Prerequisite(s): Sophomore.

ART 3370 TECHNOLOGY IN ARTS EDUCATION (3 credits)

This course is specifically designed for pre-service art teachers to learn how to integrate media arts, visual and instructional technology, and digital visual culture into arts curriculum appropriate for application to K-12 contexts. Students will critically examine digital arts, digital art media and technology, and digital visual culture environments and address pedagogical and implementation issues as they simultaneously create their own digital art and digital visual culture. Lab fee required.

Prerequisite(s): Prereq: TED 2400; K-12 ART/ED majors only. Coreq: ART 3300. With permission of the instructor. Senior standing. Lab fee required. Not open to non-degree graduate students.

ART 3410 ELEMENTARY PAINTING (3 credits)

Instruction in oil painting permits each student the time and environment to work and develop individually. Perceptual and conceptual skill building emphasized. Knowledge of contemporary painting integral to painting practice. Lab fee required.

Prerequisite(s): ART 1100 and ART 1210

ART 3420 INTERMEDIATE PAINTING (3 credits)

Instruction in oil painting permits each student the time and environment to work and develop individually. Emphasis on developing cohesive body of work in context of experimentation. Knowledge of contemporary painting integral to painting practice. Lab fee required.

Prerequisite(s): ART 3410

ART 3510 ELEMENTARY PRINTMAKING (3 credits)

This is an introductory course to the history and studio practices of printmaking. Lab fee required.

Prerequisite(s): ART 1100 and ART 1210

ART 3520 PHOTOGRAPHIC DIGITAL PRINTMAKING (3 credits)

Introduction to photographic and digital printmaking technologies including pre-press and printing techniques. Lab fee required.

Prerequisite(s): ART 1100 and ART 1210

ART 3530 PAPERMAKING (3 credits)

This course examines the history and techniques of classic papermaking, sheet formation and producing edition sheets. Lab fee required.

Prerequisite(s): ART 1110 and ART 1210

ART 3610 ELEMENTARY CERAMICS (3 credits)

This course is an introduction to the medium of ceramics. The focus of this course will be the use of clay as a sculptural medium with the emphasis on various, basic techniques for creating objects in clay. Lab fee required.

Prerequisite(s): ART 1110

ART 3620 INTERMEDIATE CERAMICS (3 credits)

This course is a continuation of processes covered in the Elementary Ceramics course with basic pottery techniques utilizing the wheel, hand building, object prototyping and advanced mold making. Additional emphasis will be on scale and completion of mid-to large size projects.

Prerequisite(s): ART 3610. Lab fee required.

ART 3700 INTRODUCTION TO ANCIENT ART (3 credits)

This course provides an introduction into the art and cultures of the ancient Mediterranean areas. Lab fee required.

Prerequisite(s): ART 2050 or permission of instructor. Not open to non-degree graduate students.

ART 3710 EGYPTIAN ART (3 credits)

This course will examine ancient Egyptian culture through its art and architecture. Lab fee required.

Prerequisite(s): For Fine Arts majors, completion of Art 2050 & Art 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 3720 GREEK ART (3 credits)

This course will immerse students in the art and culture of ancient Greece. Lab fee required.

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 3730 ETRUSCAN & ROMAN ART (3 credits)

This course provides an in-depth investigation of Etruscan and Roman civilizations. Lab fee required.

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 3750 AMERICAN ART (3 credits)

This course provides a study of art, architecture, and material culture produced in the United States approached through varied contexts (artistic, religious, political, economic, etc.) and methodologies. Lab fee required.

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 3760 RESEARCH, WRITING, AND COMMUNICATION FOR CAREERS IN ART (3 credits)

This class prepares students for advanced level art history courses as well as a career in art history and/or related fields. Basic skills such as critical thinking, analytical reading, traditional and innovative research methods, writing, and public speaking will be emphasized.

Prerequisite(s): ART 2050 and ART 2060

ART 3770 HISTORY OF ARCHITECTURE TO 1850 (3 credits)

A survey of the history, aesthetics and technical developments in architecture from ancient times to the middle of the 19th century. Lab fee required.

Prerequisite(s): None. Recommended: ART 2050 or ART 2060 (prereq or coreq).

ART 3780 HISTORY OF ARCHITECTURE SINCE 1850 (3 credits)

This course is a survey of the history of architecture since the coming of the industrial age, including the major schools and movements in architecture of the 20th century.

Prerequisite(s): None. Recommended: ART 2050 or ART 2060. Lab fee required.

ART 3800 HISTORY OF DESIGN (3 credits)

The history of modern global design movements, primarily 1851 to present. The movements cover a range of media, from graphic arts and industrial design to furnishing and interior design.

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 3830 HISTORY OF PHOTOGRAPHY (3 credits)

This course provides an introduction to the history of photography from its earliest forms to that of contemporary society and culture. Lab fee required.

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 3860 WOMEN IN ANCIENT AND MEDIEVAL ART (3 credits)

The purpose of this course is to provide an introduction of women through the art and culture of the ancient Mediterranean and western Middle Ages.

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 3870 GENDER & SEXUALITY IN MODERN ART (3 credits)

This course provides an introduction to topics of gender and sexuality in modern art, from 1860 to the present.

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 3910 INTERMEDIATE PRINTMAKING (3 credits)

Intermediate Printmaking expands upon basic printmaking concepts and techniques and includes monotype variations, intaglio techniques, Moku Hanga woodcuts and other woodcut processes. Students will be involved with drawing, creating, problem solving and understanding the printmaking studio and its processes.

Prerequisite(s): ART 3510. Not open to non-degree graduate students.

ART 3920 ILLUSTRATION 2: THE STATIC IMAGE (3 credits)

This studio course will explore the static image, including but not limited to magazine illustration, book cover illustration, advertisement illustration, single-panel cartoons and background painting for animation. Students will develop their technical ability in digital painting and drawing and enhance their skill sets in ink and watercolor. Projects will be medium specific so that students can hone their craft as they respond to thematic prompts. Students will develop sketchbook practices for research and ideation. Emphasis will be placed on generating original visual ideas, utilizing visual metaphor and interpreting texts. Students will learn to compose and frame their illustrations and apply gestalt design principles to create readable images.

Prerequisite(s): ART 2920 or permission of instructor

ART 4000 SPECIAL SEMINARS IN ART EDUCATION (1-3 credits)

A series of intensive courses in the history and theory of art education designed specifically for elementary and secondary school art teachers. These courses are scheduled as special seminars or workshops according to purpose. (Cross-listed with ART 8006.)

Prerequisite(s): Junior and Department Permission

ART 4010 SPECIAL TOPICS IN STUDIO ART (3 credits)

This course concerns itself with a variety of limited topics in the field of Studio Art. At times this course is coordinated with an external event such as a visiting artist, exhibition or study trip. It may also be considered a testing ground for acceptance and interest in a relatively new topic in Studio Arts. Exact content will be determined by the offering instructor.

Prerequisite(s): Prerequisites of each 4010 course will be determined by the instructor and therefore will require special permission.

ART 4020 PROFESSIONAL STUDIO PRACTICES (3 credits)

This is a capstone course for the Studio Arts area that includes book arts, ceramics, drawing, painting, printmaking, sculpture and media (2D, 3D, and Media). During the semester, students will learn the administrative component that is essential for cultivating and maintaining a sustainable studio practice in art. Activities include writing artist statements, an artist curriculum vitae alongside participating in the simulated arts activities of applying for an exhibition and artist grant and understanding the benefits and liabilities of social media.

Prerequisite(s): Students must be of Junior standing. Not open to non-degree graduate students.

ART 4040 BASA SENIOR ART EXHIBITION (0 credits)

The BASA Senior Art Exhibition is the culminating experience of the studio art major. The exhibition is a group exhibition required of all senior majors. Although the exhibition is not a credit bearing course, a passing grade is required to graduate. Student work should demonstrate maturity in thought, execution and presentation. The artwork must come from advanced coursework within their chosen concentration and represent a high level of quality, depth of inquiry, and best critical judgement.

Prerequisite(s): BASA majors, Seniors in their last academic semester, or permission from instructor. Not open to non-degree graduate students.

ART 4130 MEDIA ART III (3 credits)

This is a digital studio course for students interested in exploring interactive digital projects using current or emerging technologies. The course includes both fine art and applied uses of digital art through the development of individual and group projects using digital and electronic media means. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.)

Prerequisite(s): ART 3120 or permission of instructor.

ART 4140 COMPUTER-GENERATED IMAGERY (CGI) II: 3D MODELING (3 credits)

This course is a continuation of principles and practices introduced in ART 3140. The goal of this course is intended for experienced students to explore advanced principles and aesthetic considerations of computer-generated imagery by creating 3D modeling and sculpting with professional programs (i.e. ZBrush, Maya, or others) for game design, virtual reality, and other applications.

Prerequisite(s): ART 3140 or permission of the instructor.

ART 4150 GRAPHIC DESIGN 2 (3 credits)

A continuation of the Graphic Design sequence, Graphic Design 2 is an advanced course utilizing the knowledge and skills acquired in Graphic Design 1. In Graphic Design 2 students apply acquired knowledge and skills to solve design problems for more complex systems. Intermediate digital skills are paired with intermediate production and materials problems as students complete product and package design systems. These design systems are then paired with companion web and video components. Additionally, students continue their study of professional practices and presentation skills.

Prerequisite(s): ART 3130, or permission of instructor.

ART 4160 GRAPHIC DESIGN 3 (3 credits)

A continuation of the Graphic Design sequence, Graphic Design 3 is an advanced, professional simulation course utilizing the knowledge and skills acquired in Graphic Design 1 and 2. Working individually and in teams, students create large-scale design systems over multiple communications channels for consumer product or services. The course culminates in a thesis presentation with accompanying brand book.

Prerequisite(s): ART 4150, or permission of instructor.

ART 4170 GRAPHIC DESIGN STUDIO (3 credits)

A continuation of the Graphic Design sequence, Design Studio is an advanced, capstone course utilizing the knowledge and skills acquired in Graphic Design 1, 2, and 3. Working individually and in teams, students design thesis research projects, create professional portfolios, present their work to the public, and work on client projects for on and off-campus organizations.

Prerequisite(s): ART 4160, or permission of instructor.

ART 4180 ADVANCED DIGITAL GAME DESIGN (3 credits)

This course provides an advanced experience to digital game development. It explores all aspects of creating 3d games. Students will work on individual and team projects and will learn concept art, pre-production planning, prototyping and testing while working towards creating completed games using a three dimensional platform.

Prerequisite(s): ART 3170 or permission of the instructor. Not open to non-degree graduate students.

ART 4190 GAME DESIGN STUDIO (3 credits)

This course provides a capstone study in game development. It explores game design, game prototyping, finalization, distribution and promotion. Students will work in teams to conceptualize, pitch, prototype, and present an audience ready game. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.)

Prerequisite(s): ART 3160, ART 3170, or ART 4180 or permission of instructor. Not open to non-degree graduate students.

ART 4210 PRINTED BOOKS (3 credits)

This course covers the invention of moveable type through the refinement in printing styles and technology to the present age.

Prerequisite(s): ART 3220 and ART 3230 or permission of instructor.

ART 4220 ILLUSTRATION 3: SEQUENTIAL IMAGES (3 credits)

This studio course focuses on sequential images. From picture books and comics to greeting cards and how-to instructions, students will learn to frame and pace their images to clearly communicate ideas and emotion. Emphasis will be placed on developing original narratives and understanding the rules of framing and pacing to create readable stories. The semester will culminate with a short self-published comic or picture book.

Prerequisite(s): ART 3920 or permission from instructor

ART 4290 ILLUSTRATION STUDIO (3 credits)

This is an advanced capstone course for Illustration students who have already taken Illustration 1, 2, and 3. In this course students will choose one illustration field to focus on. From there they will develop their professional portfolio, complete a book project, create an animation demo reel or develop a pitch package. This course will cover industry best practices, contracts, mainstream and alternative career pathways for illustrators.

Prerequisite(s): ART 2920, ART 3920, and ART 4220 or permission from instructor

ART 4300 SECONDARY ART METHODS (3 credits)

This course is the study of theory, methods, art curriculum content, and recent research in art education relative to art education in middle and high school settings. Students are required to complete a 50-hour practicum that occurs outside of scheduled class time. Lab fee required

Prerequisite(s): Students must be formally admitted to the College of Education Educator Preparation Program; ART 3300 or Permission; PK-12 Art Education Majors only; 2.75 NU GPA. Lab Fee Required.

ART 4310 ADVANCED SCULPTURE (3 credits)

Advanced work in area of student's choice with facilities for oxyacetylene welding, arc welding and wood working. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.) Lab fee required. (Cross-listed with ART 8316.)

Prerequisite(s): ART 3310

ART 4320 BACHELOR OF FINE ARTS INDEPENDENT STUDY I (3 credits)

This course is an advanced individualized study in studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design.

Prerequisite(s): Advanced level courses in area of concentration, and permission of instructor.

ART 4330 BACHELOR OF FINE ARTS INDEPENDENT STUDY II (3 credits)

BFA II is the second semester of an advanced individualized study in a studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design. Lab fee required.

Prerequisite(s): Completion of ART 4320 (BFA I) in the area of emphasis.

ART 4340 BACHELOR OF FINE ARTS INDEPENDENT STUDY III (3 credits)

This course is the continuation of BFA II for the advanced individualized study in studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design. This course is only used if, for some reason the student is unable to proceed to BFA Thesis after completing BFA II. Lab fee required.

Prerequisite(s): Completion of ART 4320 and 4330 and permission of instructor as this course is only used when the student is unable to proceed to the BFA Thesis.

ART 4350 TRENDING TOPICS IN ART EDUCATION (3 credits)

This is a series of intensive courses dealing with the theory and practice of current trends in art education designed specifically for pre-service art teachers. These courses are scheduled as special seminars or workshops according to purpose. Lab fee may be required.

Prerequisite(s): Prereq: TED 2400; K-12 ART/ED majors only. Senior standing or permission of instructor

ART 4410 ADVANCED PAINTING (3 credits)

Advanced instruction in oil painting permits students the time and environment to work and develop individually. Emphasis on developing cohesive body of work as continuation from work done in Intermediate painting. Knowledge of contemporary painting integral to painting practice. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.) Lab fee required. (Cross-listed with ART 8416.)

Prerequisite(s): ART 3420

ART 4420 BACHELOR OF FINE ARTS THESIS (3 credits)

This course is the culmination of the BFA process with an individually designed study in studio art concentration area of Ceramics, Drawing, Hand Produced Book, Sculpture, Painting, Printmaking or Graphic Design. A faculty committee and thesis exhibition are required for completion of this course. Lab fee required.

Prerequisite(s): Completion of ART 4320 and ART 4330 and permission of instructor.

ART 4440 INDEPENDENT STUDY IN STUDIO ART (1-3 credits)

This course is an independent study with variable credit for studio art students who have already taken the most advanced level course in their chosen degree program.

Prerequisite(s): This course requires permission from instructor.

ART 4510 ADVANCED TECHNIQUES IN PRINTMAKING (3 credits)

This course allows students to develop their skills in both lithography and intaglio and the color processes for each printmaking technique. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.) Lab fee required. (Cross-listed with ART 8516.)

Prerequisite(s): ART 3510

ART 4530 ART INTERNSHIP (0-3 credits)

A tutored internship at a local arts institution that will introduce students to following areas of concentration: Curatorial Collections Research, Education Outreach, and Preparation/Installation. Working as an Artist's Studio Assistant or in the areas of Web page design or graphic design are also appropriate internship projects. Ideally, the internship should provide the student with an opportunity to gain pre-professional experiences and skills. It should also increase his or her awareness of current issues and practices within the field of art.

Prerequisite(s): Reserved for studio art (BASA & BFA), Art Education, or Art History majors; junior standing & min GPA of 3.0. Permission of Faculty Advisor & Intern Sponsor required. Advanced art history, art education, or studio courses may be required.

ART 4610 ADVANCED CERAMICS (3 credits)

This course will consist of advanced work on the potter's wheel, casting and preparations in glaze composition, as well as loading and firing of a high-fire kiln. The content of this course varies from semester to semester allowing students the opportunity to investigate and practice a variety of techniques. (May be repeated for credit up to 6 hours.) Lab fee required. (Cross-listed with ART 8616.)

Prerequisite(s): ART 3610

ART 4730 CLASSICAL ART HISTORY (3 credits)

This course is a study of painting, sculpture, architecture and minor arts of the classical world beginning with Cycladic art and including Minoan, Mycenaean, Greek, Etruscan and Roman art through 300 A.D. Lab fee required. (Cross-listed with ART 8736.)

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 4740 INTRODUCTION TO COLLECTIONS MANAGEMENT (3 credits)

This course focuses on collections management and will offer insights into collections care practices and standards. It requires a team to provide the appropriate range of care necessary to maintaining diverse collections of objects. Lectures and talks will include those presented by top experts in the field. Students will gain invaluable insights and practical knowledge of effective collections management. Course content will include theoretical and practical components to introduce policies and procedures, database systems, fine art insurance and shipping, object handling, conservation and installation standards.

Prerequisite(s): Sophomore standing or permission of the instructor.

ART 4750 LATE ROMAN AND BYZANTINE ART HISTORY (3 credits)

A study of painting, sculpture and architecture of the Eastern Roman Empire from the founding of Constantinople, and of Western Europe from the time of Constantine to the dissolution of the Western Roman Empire. Lab fee required. (Cross-listed with ART 8756.)

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 4760 TECHNICAL ART HISTORY (3 credits)

Technical art history, which investigates the materials and techniques of artworks and the scientific methods used to study them, is one of the fastest growing areas of art history. Knowledge of the physical properties of an art object, often revealed only through scientific tools, can provide crucial insights into its origins, creative genesis and development, dating, alterations and best approaches to restoring or conserving it. This course will focus primarily on the information yielded by technical studies of Renaissance panel paintings. After reviewing the context and style of Renaissance paintings, the course explores the techniques and materials used in their creation and the scientific methods of examination and their applications. The intersections between the technical examination of art and paintings conversation will also be briefly introduced.

Prerequisite(s): ART 2050 and ART 2060

ART 4770 EARLY MEDIEVAL ART (3 credits)

This course provides a study of painting, sculpture and architecture of Western Medieval Art. Lab fee required.

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 4780 LATE MEDIEVAL ART HISTORY (3 credits)

This course is a study of painting, sculpture and architecture of the European Middle Age periods of Romanesque and Gothic Art. Lab fee required.

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 4810 NORTHERN EUROPEAN RENAISSANCE ART HISTORY (3 credits)

This course is a study of the paintings, sculpture and architecture during the 14th, 15th and 16th centuries in France, the Low Countries, Germany, Spain and England. Lab fee required.

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required. Not open to non-degree graduate students.

ART 4830 ITALIAN RENAISSANCE ART HISTORY (3 credits)

Study of painting, sculpture and architecture in Italy during the 14th, 15th and 16th centuries. Lab fee required. (Cross-listed with ART 8836.)

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 4850 BAROQUE AND ROCOCO ART HISTORY (3 credits)

This course is a study of painting, sculpture and architecture in Europe during the 17th and 18th centuries. Lab fee required. (Cross-listed with ART 8856.)

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), plus junior standing. For non-majors, junior standing and permission of the instructor are required.

ART 4880 MODERN ART I (ART OF EUROPE AND THE AMERICAS, 1850-1920) (3 credits)

A study of the most significant developments in European art and architecture dating from the early Modern period and examined in varied contexts (artistic, religious, political, economic, etc.). (Cross-listed with ART 8886.)

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 plus junior standing. For non-majors, junior standing and permission of the instructor are required. Lab fee required.

ART 4890 MODERN ART II (ART OF EUROPE AND THE AMERICAS, 1918-1968) (3 credits)

This course explores the major artistic movements and artists active in Europe and the Americas between the end of WWI and the Vietnam Era circa 1968. (Cross-listed with ART 8896.)

Prerequisite(s): For Fine Arts majors, completion of Art 2050 & Art 2060 plus junior standing. For non-majors, junior standing and permission of the instructor are required. Lab fee required.

ART 4900 CONTEMPORARY ART HISTORY SINCE 1968 (3 credits)

This course introduces contemporary visual arts in a global context from 1968 to the present with topics of discussion including art, aesthetics, politics, gender and sexuality, race and economics. (Cross-listed with ART 8906.)

Prerequisite(s): For Fine Arts majors, completion of Art 2050 & Art 2060 plus junior standing. For non-majors, junior standing and permission of the instructor are required. Lab fee required.

ART 4910 INDEPENDENT STUDY IN ART HISTORY (1-3 credits)

This course is an independent research project under the direct supervision of the sponsoring faculty member, generally involving the writing of a paper. Lab fee required.

Prerequisite(s): Art History major in upper division and permission of instructor.

ART 4920 ART IN THEORY AND IN PRACTICE SINCE 1900 (3 credits)

This course introduces BFA students to the essential theories and critical positions that have shaped the practice of contemporary art in the West since 1900. It also addresses the purpose and nature of the artist's statement, the studio critique, the exhibition, and professionally written art criticism.

Prerequisite(s): Acceptance in BFA program, ART 2050 & ART 2060, & ART 4890 or ART 4900. Other students will need instructor's permission. Students not meeting the min qualifications or instructor's permission will be dropped. Not open to non-degree graduate students.

ART 4930 SPECIAL TOPICS IN ART HISTORY (3 credits)

These illustrated lecture courses deal with a limited topic in the field of art history. The course may be coordinated with an external event such as an exhibition, publication or study trip. Lab fee required. (Cross-listed with ART 8936)

Prerequisite(s): ART 2050 or ART 2060 or instructor permission.

ART 4940 ART HISTORY METHODS (3 credits)

This is a seminar course surveying major developments in aesthetics and selected problems in the discipline of Art History. Required for art history majors. Lab fee required.

Prerequisite(s): For Fine Arts majors, completion of ART 2050 & ART 2060 (Prereq or coreq), and preferably, one other art history course.

ART 4950 ART CRITICISM (3 credits)

A study of art criticism from antiquity to the present. Students will both engage art critical writing as a creative and analytical tool.

Prerequisite(s): Senior standing in Art History and completion of or concurrent enrollment in ART 3760 or ART 4940) plus the approval of the Art History faculty.

ART 4990 ART HISTORY CAPSTONE (1 credit)

Art History majors will have the choice of either: 1) writing a thesis (20-25 pages) and giving a 20 min. public presentation, 2) taking a comprehensive exam with questions based on their coursework, or 3) completing an internship project and giving a 20 min. public presentation.

Prerequisite(s): Senior standing in Art History and completion of or concurrent enrollment in ART 3760 (Art History Seminar) or ART 4940 (Art History Methods) plus the approval of the Art History faculty.

Art History, Bachelor of Arts

Art History studies the artistic traditions of different cultures and time periods, artists and their creative processes, and approaches to analyzing and interpreting art. The curriculum consists of survey and period courses and topical courses such as Technical Art History, Gods, Gladiators, & Gore: Antiquity on the Big Screen, and LatinX Art. There are two concentrations in the Art History major. The Academic Art History concentration prepares students for graduate school and has enhanced language and history requirements. For gallery, museum, and arts non-profit career preparation, the Arts Management concentration includes leadership, fundraising, public relations, and collections management courses.

Art History, Bachelor of Arts Requirements

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

¹ *This course is repeatable

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

¹ *This course is repeatable

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

¹ *This course is repeatable

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Studio Art, Bachelor of Fine Arts

The Bachelor of fine arts (BFA) each requires a minimum of 120 credit hours of course work.

The BFA provides a more extensive, well-rounded, performance-oriented art background which prepares students for a professional life in fine arts and post graduate study. For the BFA, 72 of the required 120 credit hours are ART classes.

To be admitted to the BFA program, a student must have declared an applicable studio art concentration or K-12 certification and meet other eligibility requirements (see the Department website (<http://www.unomaha.edu/college-of-communication-fine-arts-and-media/art-and-art-history/undergraduate-programs/bfa-studio-art.php>) or a Art & Art History advisor for details).

NOTE: In order for BFA students to graduate in 120 total credit hours, the 6 hours used to fulfill the university diversity requirement must be courses which also fulfill university General Education distribution requirements.

Studio Art, Bachelor of Fine Arts Requirements

Code	Title	Credits
GENERAL EDUCATION REQUIREMENTS - 46 Hours Required		
Minimun of "C-" required		
Fundamental Academic Skills		15
ENGL 1150	ENGLISH COMPOSITION I

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

* For a comprehensive list of elective courses please consult your advisor.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Students in the BASA w/ PK-12 Certification program must complete the Praxis Core Academic Skills test by the completion of TED 2400. Prior to the completion of Clinical Practice students must successfully complete the

Praxis II Art Content Knowledge exam. More information on both exams can be found at <https://www.unomaha.edu/college-of-education/student-services/academics/required-exams.php>

GPA Requirements: BASA w/ PK-12 students must have at least a 2.5 GPA at the time of applying for the Pre-Professional Education Core classes (TED 2100 and TED 2200). By the time students formally apply to the College of Education, Health, and Human Sciences (TED 2300 and TED 2400) student GPA must be 2.75.

Graduation Requirements: Should students unsuccessfully complete their Clinical Practice or choose to not move forward with the PK-12 Art Certification, students may still graduate with a BASA degree.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

* For a comprehensive list of elective courses please consult your advisor.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Students in the BASA w/ PK-12 Certification program must complete the Praxis Core Academic Skills test by the completion of TED 2400. Prior to the completion of Clinical Practice students must successfully complete the Praxis II Art Content Knowledge exam. More information on both exams can be found at <https://www.unomaha.edu/college-of-education/student-services/academics/required-exams.php>

GPA Requirements: BASA w/ PK-12 students must have at least a 2.5 GPA at the time of applying for the Pre-Professional Education Core classes (TED 2100 and TED 2200). By the time students formally apply to the College of Education, Health, and Human Sciences (TED 2300 and TED 2400) student GPA must be 2.75.

Graduation Requirements: Should students unsuccessfully complete their Clinical Practice or choose to not move forward with the PK-12 Art Certification, students may still graduate with a BASA degree.

Theatre

Theatre coursework is designed to provide students with well-rounded experiences encompassing the varied components that work together to create the theatrical experience. These areas include performance (acting/directing/musical theatre), production design (scenic, costume, lighting, sound), box office, publicity, house management, dramaturgy, stage management, and much more. Above all, we're committed to each student's individual development toward artistic and cultural maturity and growth that cultivates global diversity and service to our community. Through in-class and production work, students gain valuable life skills including discipline, collaboration, communication, project management, research, planning, achieving deadlines, and problem-solving.

The unit's mission is to ignite in the student, teacher, and community: critical thinking, compassionate feeling, collaborative vision, and the capacity to delight.

Other Information

The general areas of study in theatre are acting, directing, musical theatre, dramatic literature, theatre history and criticism, and design/production including stagecraft, stage lighting, scene design, costume, and makeup. Beyond the general theatre core, students may pursue a concentration in a specialized area such as acting, musical theatre, design, production, technology, stage management, or theatre scholarship.

Theatre majors are required to participate actively and consistently in productions sponsored by the department. The department stages a minimum of four major productions per academic year. These productions encompass the breadth and vitality of live theatre, from musicals to classics

to new plays. A variety of production opportunities are also offered in the Studio theatre space.

Writing in the Discipline

Students deepen their knowledge and understanding of Theatre, as well as develop their academic writing abilities by completing one of the approved upper-division Theatre History courses, which include THEA 3710 THEA 4780 , and THEA 4790.

Degrees Offered

- Theatre, Bachelor of Arts (p. 636)

Minors Offered

- Arts Entrepreneurship Minor (p. 645)
- Theatre Minor (p. 646)
- M (p. 646)usical Theatre Minor (p. 646)

THEA 1000 THEATRE PRACTICUM (1 credit)

Lecture, discussion, and experience in theatre production concepts and techniques. One hour formal meeting each week and an average of two-four hours per week in an assigned technical production area based on your interests and skills. Required of Theatre majors and may be taken by all other students. May be repeated eight times.

THEA 1010 THEATRE APPRECIATION (3 credits)

A survey course designed to introduce students to all areas of theatre practice and study. Several major periods of theatre art and practice will be explored and, depending on the instructor, emphasis may include acting, playwriting, design and theatre technology, and or theatre literature.

Prerequisite(s): None. Not recommended for Theatre Majors

Distribution: Humanities and Fine Arts General Education course

THEA 1020 SUMMER MUSICAL THEATRE ACADEMY (0-1 credits)

Intensive supervised workshops and experiential learning opportunities involving significant contribution(s) to the summer musical theatre academy or other departmentally approved arts organizations and programs.

Prerequisite(s): Permission of Instructor

THEA 1050 FILM HISTORY AND APPRECIATION (3 credits)

A journey through one of many different possible worlds of film. Students will learn about various dimensions of filmmaking—historical development, cinematography, editing, screenwriting, and so much more. Exposure to critical perspectives on the genre(s) under consideration. Includes regular viewing of excerpts and full-length films. (Cross-listed with JMC 1050).

Distribution: Humanities and Fine Arts General Education course

THEA 1060 HISTORY OF THE BROADWAY MUSICAL (3 credits)

This course develops knowledge of America's Broadway musical tradition as an artistic and cultural phenomenon. It explores the evolving art form from its earliest ethnic expressions to the golden age of song, the classic book musical, innovations in form, and ending with the most recent embrace of inclusiveness and the diversity of our American identity.

Distribution: Humanities and Fine Arts General Education course

THEA 1070 SUPER HERO CINEMA (3 credits)

A senses-shattering survey of the cinema of superheroes! Students will study the history and evolution of the superhero genre on the big (and small) screens, reviewing selected excerpts and full-length films, recorded lectures, and curated readings. Featuring a pulse-pounding parade of profound and provocative motion pictures!

THEA 1200 SINGING TECHNIQUE FOR ACTORS (1 credit)

THEA 1200 Singing Technique for Actors provides instruction in singing technique. It is designed for non-music majors to practice the concepts of vocal health, resonance, breath support, elements of good musicianship and song interpretation. It is focused on Contemporary Commercial Music (CCM)/non-classical styles of singing and uses different criteria than the School of Music to meet more diverse musical backgrounds.

THEA 1300 ACTING I (3 credits)

The basic acting class, for majors and non-majors. Emphasis on freeing oneself as a preparation for basic character and scene work using exercises for relaxation, energy generation, concentration and group interaction. Three relationships basic to the actor are explored: to oneself, to another actor, to the ensemble.

Distribution: Humanities and Fine Arts General Education course

THEA 1500 FOUNDATIONS OF PRODUCTION DESIGN (3 credits)

An introductory course introducing students to the omnipresence and role of design in contemporary society; and to fundamental elements and principles of analysis, conceptualization, and visual interpretation, as they apply to the production design process.

THEA 1600 FOUNDATIONS OF SCENIC PRODUCTION (3 credits)

An introduction to scenic production class designed to develop the skills, knowledge, theories and materials of professional designers and craftpersons, as well as developing a working knowledge of the practices in the business of technical theatre.

THEA 1604 FOUNDATIONS OF SCENIC PRODUCTION LAB (0 credits)

Foundations of Scenic Production Lab covers topics in theatre safety, rigging, lighting and construction, to be taken concurrently with THEA 1600. Instruction and practice in industry standards is also an emphasis of the course.

Prerequisite(s): Enrolled concurrently with THEA 1600, Foundations of Scenic Production

THEA 1650 STAGE COSTUME (3 credits)

An introductory course covering foundational vocabulary, skills, materials, tools, and processes used for costume construction specifically for the theatre.

Prerequisite(s): THEA 1654 to be taken concurrently.

THEA 1654 STAGE COSTUME LAB (0 credits)

Topics in Stage Costume Lab include foundational vocabulary, skills, materials, tools, and processes used for costume construction specifically for the theatre.

Prerequisite(s): THEA 1650 to be taken concurrently.

THEA 1660 STAGE MAKEUP (3 credits)

This course will introduce students to the complexities of stage makeup. Utilizing a hands on approach, the course is specially designed to facilitate active learning while exploring basic makeup procedures and complex prosthetic makeup application.

THEA 1700 SCRIPT ANALYSIS (3 credits)

This course introduces a variety of approaches for analyzing plays and other dramatic works, especially as they are employed by actors, directors, designers, dramaturgs, and other theatre artists. There will be multiple opportunities to apply these methods of analysis through class discussion and written work. Script analysis will be explored with an eye toward theatrical production, recognizing each playscript as the blueprint for a potential production. Particular attention will be paid to genre, structure, style, character, theme, language, imagery, and dramatic action. The focus will be on traditional dramatic structure, though some attention/discussion will be given to less traditional/non-linear works.

THEA 2000 THEATRE PRACTICUM II (2 credits)

Lecture, discussion, and experience in theatre production concepts and techniques. One hour formal meeting each week with Instructor, and an average of two-four Lab hours per week (or more) in an assigned technical production area based on your interests and skills. Lab hours will be established with the lab supervisor. Required of Theatre majors and may be taken by all other students. May be repeated for credit.

Prerequisite(s): Four semesters of THEA 1000.

THEA 2020 THEATRE FOR YOUNG AUDIENCES (3 credits)

A course that introduces the theories and practices of using theatre and drama as an educational and social tool, as well as creating theatre for and with youth. Includes opportunities to create and utilize techniques in both performance and the learning environment.

Prerequisite(s): THEA 1010 Theatre Appreciation or THEA 1300 Acting I or THEA 1600 Foundation: Scenic Production

THEA 2030 INTERNSHIP I (1-6 credits)

This course provides an opportunity for the student to participate in a professional theatre company and receive course credit. The course will involve practical application. Areas of study might include artistic direction, direction, dramaturgy, arts management, production management, design and technology, or performance. Assignments are made according to the individual interests and skills of the student as they match available opportunities and needs in the industry.

Prerequisite(s): THEA 1000 Theatre Practicum (2 credits). Permission of instructor.

THEA 2280 DANCE FOR THE THEATRE I (1 credit)

In this course, students will explore a wide array of dance styles, each carefully selected to enhance their understanding and appreciation of the role dance plays in musical theatre.

THEA 2290 DANCE FOR THE THEATRE II (1 credit)

Dance for Theatre II will serve as an Intermediate course that will build on students' foundational dance skills and vocabulary. Students will explore a wide array of dance styles, each carefully selected to enhance their understanding and appreciation of the role dance plays in musical theatre.

Prerequisite(s): THEA 2280 or permission of instructor

THEA 2300 MOVEMENT FOR THE ACTOR (3 credits)

Discovery and training of the human body as a technical instrument and as one of the key expressive elements of any performance-oriented medium.

Prerequisite(s): THEA 1300 Acting I

THEA 2400 STAGE MANAGEMENT (3 credits)

This fundamental course investigates theater-making from the point of view of a stage manager. Through the exploration of a theatre production process, students learn the artistic and organizational techniques needed to professionally stage-manage traditional and non-traditional productions. Integrated management theory allows each student to identify how their practice can be informed by theory and to begin cultivating their individual stage management style.

Prerequisite(s): Permission of instructor

THEA 2500 DRAWING FOR THE THEATRE (3 credits)

Drawing for the Theatre is a course that introduces students to the visual language of drawing through observation, exercises and most importantly, evaluations and critiques. In addition to traditional drawing techniques, this course will cover color theory and figure drawing. The course develops insights into the mechanisms of visual perception, how the individual components of the drawing relate to the whole and compositional organization. Each student develops observational skills rooted in traditional drawing media while striving to develop critical thinking and research skills.

Prerequisite(s): THEA 1500 or THEA 1510 Foundations of Production Design, THEA 1700 Script Analysis

THEA 2600 COSTUME PATTERNING AND DRAPING (3 credits)

Exploration of the creation of patterns for theatrical costumes. Techniques include flat patterning, draping and development of historical patterns. Specific attention is given to period silhouette and detail and theatrical costume production conventions.

Prerequisite(s): THEA 1650 or THEA 1550 or permission of instructor.

THEA 3000 SPECIAL TOPICS IN THEATRE (3 credits)

This course utilizes a topical approach that explores various aspects of theatre that are outside the set Theatre curriculum. Topics and disciplines will vary from term to term. Course description will be announced in advance. It is repeatable for credit if content differs.

THEA 3010 ADVANCED PROJECTS IN THEATRE: INDEPENDENT STUDY (1-3 credits)

Special projects in theatre supplementing regular courses; individual research projects; combined study and practicum.

Prerequisite(s): THEA 1000 Theatre Practicum, THEA 1700 Script Analysis

THEA 3200 MUSICAL THEATRE ENSEMBLE (1 credit)

THEA 3200 Musical Theatre Ensemble is offered during spring semester and uses the study of selected musical theatre repertoire, rehearsal, individual coaching, and group exercise to provide instruction in ensemble singing, solo singing, musicianship, movement and acting. It is designed for students pursuing musical theatre study and develops the skill sets that are needed for musical theatre performance.

THEA 3210 ADVANCED SINGING TECHNIQUE FOR ACTORS (1 credit)

THEA 3210 Advanced Singing Technique for Actors provides instruction in advanced singing technique. It is designed for students to develop and practice the concepts of vocal health, resonance, breath support, elements of good musicianship and song interpretation. It is focused on CCM/non-classical styles of singing and uses different criteria than the School of Music to meet more diverse musical backgrounds. This course advances to higher levels of instruction in singing technique from the perspective of the actor and musical theatre repertoire.

Prerequisite(s): THEA 1200

THEA 3230 AMERICAN MUSICAL THEATRE REPERTOIRE HISTORY (3 credits)

THEA 3230 American Musical Theatre Repertoire History is a lecture-based course that surveys important songwriters and significant shows from present day Broadway back in time to the 1927 Showboat. It is designed to give students from the avid musical theatre enthusiast to those pursuing career paths in musical theatre a foundation in the innovations, history, musical styles, major breakthroughs, and growth of the art form from Showboat and Oklahoma to Hamilton and Hadestown.

THEA 3260 MUSICAL THEATRE AND OPERA WORKSHOP (1 credit)

THEA 3260/MUS 3260 Musical Theatre and Opera Workshop is an ensemble offered during fall semester that integrates singing, movement and acting through rehearsal, private musical coaching and group exercise. It is designed for students in opera and musical theatre and develops the skill sets that are needed for performance. (Cross-listed with MUS 3260).

THEA 3300 ACTING II (3 credits)

Incorporating skills and awareness developed in Acting I, this class moves toward examining various tools for character development by oneself, in large group improvisations and with written scripts. Specific scene work leads to a final scene presented both for the class and for all interested persons.

Prerequisite(s): THEA 1300 Acting I

THEA 3310 VOICE FOR THE ACTOR (3 credits)

This course is a comprehensive exploration of the actor's voice and speech. The student gains a detailed understanding of breath, tension and relaxation, resonance, articulation, textual interpretation, and learns to combine movement and voice, enhancing creativity in vocal expression. The focus is freeing the unique vocal potential of each student, and on training the voice for performance.

Prerequisite(s): THEA 1300 Acting I. Not open to non-degree graduate students.

Distribution: Humanities and Fine Arts General Education course

THEA 3400 DIRECTING I (3 credits)

Directing I examines the development of the role of director in Western Theatre; provides practice in the directing process including script analysis, dramaturgical research, staging visual composition, collaboration with designers and performers; considers alternative approaches to directing and encourages students to begin to develop a personal directing style.

Prerequisite(s): THEA 1300, THEA 1500, THEA 1600, THEA 1700, THEA 3300

THEA 3410 HUMAN DYNAMICS IN THE ARTS (3 credits)

Human Dynamics in Arts is a practical course for students who aspire to become effective leaders, managers and directors of arts-based organizations in, non-profit, education, and business sectors. Students will gain a deeper understanding of how to strengthen organizations by recognizing the complex interplay of individual motivation, personal growth, effective communication, and organizational goals. Students will learn to apply specific communication techniques that will enable them to recognize patterns of behavior that reflect underlying emotional needs critical to motivation and workplace productivity. They will use these techniques to build trust, foster positive working relationships, maximize talents, and develop more effective, productive, and dynamic organizations. Students will also gain an understanding of the importance of developing an entrepreneurial mindset critical to success in a rapidly changing workplace. They will learn to recognize opportunities, identify solutions, and develop clear, effective strategies for moving their arts organizations forward.

Prerequisite(s): CMST 1110 and Junior Standing

THEA 3420 GLOBAL CITIZENSHIP IN THE ARTS (3 credits)

This course is about artistic excellence married to ethical practices and responsible world citizenship. Students will analyze and evaluate how to use art to address community issues and discover a road map that allows for authentic, consistent, and sustainable commitment to the community and its needs.

Prerequisite(s): ENGL 1160 and Junior Standing

THEA 3500 COLLABORATIVE DESIGN STUDIES (3 credits)

Collaborative Design Studies explores the integration and process of theatrical production including scenery, lighting, costume, projection and sound. It chronicles their individual and collective impact on storytelling. While developing the skills of the Scenographer, students will work collaboratively as they foster their individual artistic design talents, and recognize the impact of design on society through storytelling.

Prerequisite(s): THEA 1500/THEA 1510, THEA 1600/THEA 1630, THEA 1700

THEA 3660 STAGE AND TV LIGHTING (3 credits)

Characteristics and control of light and color and their application to the theatre and television; elementary electricity; lens systems; reflectors; lamps; control systems; automation. (Cross-listed with THEA 8665).

Prerequisite(s): THEA 1630 or permission of instructor.

THEA 3700 THEATRE HISTORY AND LITERATURE: 1960-PRESENT (3 credits)

This course offers a brief survey of European and world theatre from the emergence of post-modernism to the present time. It also focuses especially on theatre for social change, community development, and the community-based theatre movement. It will include a service-learning component with one or more regional social-service or similar agencies.

Prerequisite(s): ENGL 1160, THEA 1700

THEA 3710 THEATRE HISTORY AND LITERATURE:MODERN / 1800-1960 (3 credits)

This course is a survey of both western European and world theatre from the emergence of modernism to 1980, about the time of the emergence of post-modernism.

Prerequisite(s): ENGL 1160, THEA 1700

THEA 3720 THEATRE AND SOCIAL JUSTICE (3 credits)

This service-learning course will combine both research and practice in theatre that involves social change. Students will study the history of such theatre, with special focus on developments in the 20th century. All research will be accompanied by several community-based projects whereby students will create theatre with specific populations (schools, community centers, health centers, senior homes, etc.).

Prerequisite(s): ENGL 1160, THEA 1700

THEA 4000 SUMMER THEATRE WORKSHOP (3 credits)

Intensive supervised workshop experience involving significant overall contribution(s) to the summer theatre program.

THEA 4020 ADVANCED PROJECTS IN THEATRE (1-3 credits)

Completion of a undergraduate project relevant to the student's major area of study under the supervision of an advisor. The project must demonstrate competency in writing and research/creative activity as it pertains to appropriate aspects of theatre.

Prerequisite(s): 9 hours of theatre in the general area to be studied and permission of the instructor.

THEA 4030 INTERNSHIP II (1-6 credits)

This course provides an opportunity for the student to participate in a professional theatre company and receive course credit. The course will involve practical application. Areas of study might include artistic direction, direction, dramaturgy, arts management, production management, design and technology, or performance. Assignments are made according to the individual interests and skills of the student as they match available opportunities and needs in the industry.

Prerequisite(s): THEA 1000 Practicum, THEA 2000 Practicum II or Permission of Instructor

THEA 4050 SHAKESPEARE ON FILM: THE ART OF INTERPRETATION (3 credits)

Study how Shakespeare's plays are interpreted for performance. Explore how production shapes our understanding of the text. Understand how the change of medium from page to stage to screen reveals meaning in unique ways. Experience a dynamic way of making the most extraordinary plays your own. Classes will feature readings, lecture, class discussion, and film screenings of different cinematic interpretations of several of Shakespeare's plays. Previous study of Shakespeare is helpful but not required.

Prerequisite(s): Junior standing or permission of instructor.

Distribution: Humanities and Fine Arts General Education course

THEA 4310 ADVANCED ACTING: POST REALISM (3 credits)

Advanced work in the technical skills of voice, speech, movement and textual analysis needed for post-realist material.

Prerequisite(s): THEA 1700, THEA 2300, THEA 1300, THEA 3300 or graduate with an undergraduate major or minor in theatre or permission of instructor.

THEA 4320 ADVANCED ACTING: GREEKS TO RESTORATION (3 credits)

The fundamental theories and practices of major styles of acting from ancient Greece to the Restoration, including interpretation of outstanding dramatic literature.

Prerequisite(s): THEA 1700, THEA 2300, THEA 1300, THEA 3300 or graduate with an undergraduate major or minor in theatre or permission of instructor.

THEA 4330 ADVANCED ACTING: ENSEMBLE PLAY PRODUCTION (3 credits)

In-depth exploration of a play or playwright's work to connect acting class with performance. Special emphasis on creating a working process that allows the ensemble to emerge. The class will culminate in public performance.
Prerequisite(s): THEA 1700, THEA 2300, THEA 1300, THEA 3300 or graduate with an undergraduate major or minor in theatre or permission of instructor.

THEA 4340 ADVANCED ACTING: AUDITIONING (3 credits)
An acting class designed to develop auditioning skills and material as well as cultivate a working knowledge of the business of acting.

Prerequisite(s): THEA 2310 or THEA 1300 and THEA 2320 or THEA 3300 and Junior standing. Graduate with an undergraduate major or minor in theatre or permission of the instructor.

THEA 4400 DIRECTING II (3 credits)
A practicum in play selection, analysis, casting, rehearsing and performing.
Prerequisite(s): THEA 1300/THEA 2310, THEA 1500/THEA 1510, THEA 1600/THEA 1630, THEA 1700, THEA 3300/THEA 2320, THEA 3400/THEA 4430

THEA 4500 CHALLENGES IN PRODUCTION DESIGN (3 credits)
Evaluation and exploration of the world of theatrical storytelling using line, texture, contrast, theme, metaphor and symbolism. Students will work collaboratively as they foster their individual artistic talents, and recognize the impact of design on society through storytelling. (Cross-listed with THEA 8506).
Prerequisite(s): THEA 1500/THEA 1510 and THEA 1700 or permission of instructor.

THEA 4550 PERIOD STYLES IN DRESS AND DECOR (3 credits)
An historical survey course introducing students to the major periods and iconic styles and trends in western architecture, dress and interior decor of the past 2000 years; and to the social, cultural and technological influences on those trends, particularly as they relate to theatrical and production design.
Prerequisite(s): THEA 1700 and THEA 3700/THEA 3770, THEA 3710/THEA 3760, THEA 4710 or THEA 4720 or by permission of instructor.

THEA 4610 SCENE DESIGN (3 credits)
Scene Design is an advanced level course intended for aspiring scene designers or those that want to learn about the specific requirements of the scene design process. The focus of this course will be the study of techniques of communicating a scenic design. Topics of class will include, script analysis, sketching, research, floor plans, wall elevations, sketch models, paint elevations, and presentations models.
Prerequisite(s): THEA 1600 and THEA 1700 and Junior standing.

THEA 4780 THEATRE HISTORY AND LITERATURE: CLASSICAL TO 1500 (3 credits)
This course is a survey of both western European and early Asian theatre and the related theatre literature in ancient Greece and Rome, India, and medieval Europe from the fifth century BCE to the beginning of the European renaissance.
Prerequisite(s): ENGL1160 and Junior standing

THEA 4790 THEATRE HISTORY AND DRAMATIC LITERATURE: 1500 TO 1800 (3 credits)
This course is a survey of primarily western European theatre and the related theatre literature from the Renaissance until the English sentimental comedy.
Prerequisite(s): ENGL 1160 and Junior standing or Permission of the Instructor.

THEA 4900 ADVANCED PROJECTS - CAPSTONE (3 credits)
Demonstration of mastery in a specific area of theatre through an advanced project in acting, musical theatre, directing, design/technical theatre, playwriting, or dramaturgy. This will serve as an end of career course designed to evaluate the student's competency and knowledge of theatre practice.
Prerequisite(s): THEA 1000 Practicum, THEA 2000 Practicum, and permission of the instructor

Theatre, Bachelor of Arts

The Bachelor of Arts in Theatre degree program delivers a holistic understanding of theatrical artistry, instilling foundational competencies essential for diverse roles in production, including box office management, publicity, performance, design, directing, producing, and more. Our curriculum strikes a balance between traditional academic coursework and hands-on training, ensuring students receive a comprehensive education. At the heart of our program lies a commitment to nurturing each student's artistic and cultural development. By blending a broad-based liberal arts foundation with focused professional training, the BA in Theatre equips students with the skills and knowledge needed to excel in the field.

Students may elect to pursue either a General Major or a concentration in **Acting/Directing, Musical Theatre, Stage Management, Design, or Technology**. Students pursuing a concentration are required to participate in formal juries each semester to receive faculty feedback and evaluation of their progress in the program.

Learn more about the BA in Theatre, here (p. 636).

sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and the curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, and Foreign Languages, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change the suggested plan of study

Acting/Directing Concentration

Writer's Workshop: Creative Writing

The Writer's Workshop mission is to offer creative writing students an apprenticeship with professional writers. We prepare students to read closely, think critically, write professionally and find their voices in poetry, fiction, creative nonfiction, and screenwriting. Students will also sharpen their capacity for empathy, opening themselves to diverse cultural points of view.

Other Information

Thesis Option

Students whose work is above average and who are considering doing graduate work in creative writing may apply after one Advanced Studio to pursue the BFA with Senior Thesis. The result is a book-length manuscript of original work in the student's area of concentration (e.g. a collection of poems, a collection of short stories, a novel, a collection of essays, or a screenplay), prepared during the last year of study while working one-on-one with a WRWS faculty member. To earn this special designation on their official transcripts, candidates for the degree must take two semesters of WRWS 4990.

Writing in the Discipline

WRWS 2050 or WRWS 2060 Fundamentals of Fiction or Fundamentals of Poetry

Student Groups

The Crop Literary Club
13th Floor Literary Magazine

For More Information on Creative Writing

Degrees Offered

- Creative Writing, Bachelor of Fine Arts (p. 649)

Minors Offered:

- Arts Entrepreneurship Minor (p. 645)
- Creative Writing Minor (p. 655)
- Editing & Publishing (p. 656)
- Screenwriting Minor (p. 656)

WRWS 1010 CONTEMPORARY WRITERS:IN PERSON IN PRINT (3 credits)

An introduction to reading contemporary literature by studying the ways in which a writer shapes a poem or tale to communicate with an audience. Emphasizes the most contemporary prose and poetry and includes a series of readings and classroom visits by guest writers whose books are the texts for the class.

Prerequisite(s): ENGL1160 or equivalent. Not open to non-degree graduate students.

WRWS 1500 INTRODUCTION TO CREATIVE WRITING (3 credits)

An introduction for non-majors in creative writing to the art and craft of writing fiction, poetry, and creative nonfiction. Follows a workshop format based on individual and group critique of students' writing, discussion of principles and techniques of the craft, and reading and analysis of instructive literary examples.

Prerequisite(s): ENGL1160

Distribution: Humanities and Fine Arts General Education course

WRWS 2000 SPECIAL STUDIES IN WRITING (3 credits)

Offers varying subjects in writing and reading for the basic study of special forms, structures and techniques of imaginative literature. Consult the current class schedule for the semester's subject. May be repeated for credit with change of subject.

Prerequisite(s): ENGL 1160. Not open to non-degree graduate students.

WRWS 2050 FUNDAMENTALS OF FICTION WRITING (3 credits)

A study of the ways in which writers confront the technical choices of their craft, this course introduces students to the major elements of fiction in order to increase their critical awareness both as readers and writers and to prepare them for work in succeeding fiction studios.

Prerequisite(s): Prerequisite(s)/Corequisite(s): ENGL1160 or equivalent.

WRWS 2060 FUNDAMENTALS OF POETRY WRITING (3 credits)

This beginning writing course in poetry emphasizes the manner in which poets meet and deal with the technical choices confronting them in the making of a poem. Written work introduces students to a number of established forms in order to increase an understanding of the elements of a successful poem.

Prerequisite(s): ENGL1160 or equivalent. Not open to non-degree graduate students.

WRWS 2100 BASIC FICTION STUDIO (4 credits)

A basic workshop course in fiction writing, studying the shapes and techniques of composing complete fictions. This is the first of four fiction studios.

Prerequisite(s): WRWS2050

WRWS 2200 BASIC POETRY STUDIO (4 credits)

This beginning level studio explores different poetic forms and encourages the development of the writer's voice.

Prerequisite(s): WRWS 2060

WRWS 2300 BASIC CREATIVE NONFICTION STUDIO (4 credits)

A beginning studio in various forms and craft techniques of creative nonfiction. Students study and practice writing such forms as the personal essay, the memoir, the adventure narrative, the essay of issues, etc.

Prerequisite(s): WRWS 2050 or 2060. Not open to non-degree graduate students.

WRWS 2400 FOUNDATIONS OF SCREENWRITING (3 credits)

This course introduces the student to the foundational elements of screenwriting. The student will learn and practice the techniques of conveying a story in images and sound, creating characters with human motives and conflicts, editing for economy and thematic significance. Proper script formatting will be taught and expected.

Prerequisite(s): English 1160 or equivalent.

Distribution: Humanities and Fine Arts General Education course

WRWS 2600 BASIC SCREENWRITING AND TELEVISION WRITING STUDIO (4 credits)

This studio introduces the fundamentals of screenwriting. The student will produce a pitch, outline and completed industry-standard screenplay that conveys a story, creates characters, and is edited for economy and theme. Proper script formatting will be taught and expected.

Prerequisite(s): WRWS 2050, or WRWS 2060. Not open to non-degree graduate students.

WRWS 3000 SELECTED TOPICS IN WRITING (1-3 credits)

This course presents selected theoretical and practical approaches to crafting one or more the following genres: poetry, fiction, creative nonfiction, screenwriting, young adult literature, the video game narrative, or the graphic novel. Specific topics for the course will vary from semester to semester. Consult current class scheduled for the semester's topic(s). This course may be repeated for credit as a different course under a new topic

Prerequisite(s): Vary according to specific topics being offered

WRWS 3010 LITERARY MAGAZINE: STAFF & RESEARCH (3 credits)

This course provides hands-on experience to staff members of UNO's literary journal, 13th Floor. Staff will read and assess submitted manuscripts, assisting appointed genre editors to produce the annual spring issue. In addition to learning editorial procedures, publication processes, and jargon, students at this level will become familiar with national literary journals through research and analysis. May be repeated up to six hours.

WRWS 3020 THE BUSINESS OF WRITING & PUBLISHING (3 credits)

This class will teach students to navigate the literary landscape as publishing writers and as editors. Students will research literary niches, diverse digital and print publications, editing and publishing practices, terminology, and relevant applications. In preparation for roles in editing and publishing, students will identify and refine individual creative and editorial goals to be conveyed in professional settings and documents, such as CV/resume, cover letter, prepared submission, biographical note.

Prerequisite(s): WRWS 3010. Not open to non-degree graduate students.

WRWS 3030 ADVANCED CONTEMPORARY WRITERS (3 credits)

This advanced course explores contemporary literature by studying the ways in which writers in multiple genres shape their work to communicate with an audience. It emphasizes the most contemporary prose and poetry and includes a series of readings and classroom visits by guest writers whose books are the texts for the class.

Prerequisite(s): ENGL 1160 or equivalent.

WRWS 3100 INTERMEDIATE FICTION STUDIO (4 credits)

An intermediate course in fiction writing. Emphasis on developing complete short stories or constructing a novel.

Prerequisite(s): WRWS 2100 or permission of instructor. Not open to non-degree graduate students.

WRWS 3200 INTERMEDIATE POETRY STUDIO (4 credits)

An intermediate course in the making of poetry, this class will focus on the study of traditional and contemporary models, as well as crafting original poems.

Prerequisite(s): WRWS 2200. Not open to non-degree graduate students.

WRWS 3300 INTERMEDIATE CREATIVE NONFICTION STUDIO (4 credits)

An intermediate-level studio course in forms and crafting techniques of creative nonfiction. Students study and practice writing within such forms as the literary essay, the essay of issues, historical nonfiction, the nonfiction novel, etc.

Prerequisite(s): WRWS 2300 or permission of instructor. Not open to non-degree graduate students.

WRWS 3500 CREATIVE WRITING FOR THE ARTS (3 credits)

An introduction to the art and craft of writing fiction, poetry, creative nonfiction, and analyses of works in art, music, and journalism/political rhetoric. Intended for non-majors in creative writing, and tailored to the needs of other arts disciplines, notably those in CFAM, the course will follow a workshop format based on individual and group critique of students' writing, discussion of principles and techniques of craft and selected literary readings. Students will also experience and analyze other arts forms, which may include exhibits of visual and performance art, journalistic essays and/or political speeches.

Prerequisite(s): ENGL 1160 or equivalent.

Distribution: Humanities and Fine Arts General Education course and Writing in the Discipline Single Course

WRWS 3600 INTERMEDIATE SCREENWRITING STUDIO (4 credits)

This course will build on the foundation established in the Beginning Screenwriting Studio (2600). The student will complete and revise the first draft of a feature-length screenplay. The student will also pitch, note-card, and begin writing a speculation script for television. The class will attend Film Streams once a month to view the current independent offering. There will be lectures and assigned reading. The course will culminate in the student beginning work on a second feature-length screenplay.

Prerequisite(s): WRWS 2600. Not open to non-degree graduate students.

WRWS 3800 THE WRITER'S VOICE: AUTHORS ON THE PAGE AND AT THE PODIUM (3 credits)

This course will serve as an introduction to the art and craft of fiction, poetry, and creative nonfiction, as well as to analyses of written and publicly performed works of creative writing. This course is open to students who are not creative writing majors, and it is tailored to the needs of other arts disciplines, notably those in CFAM. WRWS 3800 will involve students crafting reflective, analytical, and creative writing based on the texts and video recorded public readings of visiting authors.

Prerequisite(s): ENGL 1160 or equivalent

Distribution: Writing in the Discipline Single Course

WRWS 3990 INDEPENDENT STUDIES (3-6 credits)

For the writing major who has need of work not currently available in program offerings and who has demonstrated a capacity for working independently. Emphasis on in-depth study in some specific aspect of writing.

Prerequisite(s): Permission of instructor. Not open to non-degree graduate students.

WRWS 4000 FORM AND THEORY (3 credits)

Advanced study of varying forms, structures, and techniques in creative writing. Specific topics of study may change each semester, and students may repeat the course under a new topic. Consult current class schedule.

Prerequisite(s): Completion of WRWS 2100 or 2200 or 2300, varies according to specific topics offered.

WRWS 4010 LITERARY MAGAZINE: EDITING & PRODUCTION (3 credits)

Students in this class will serve on the editorial team of UNO's literary journal, 13th Floor, in one of the following positions: Editor-in-Chief, Creative Nonfiction Editor, Fiction Editor, Poetry Editor, Screenwriting Editor, Layout & Design Editor, Managing & Promotions Editor, or Assistant Editor. Editors will be selected by the faculty advisor/instructor through an application process prior to spring semester. Student editors will oversee respective genre teams to select final submissions for inclusion in the annual issue of 13th Floor and will work as an editorial team to bring the journal from submission to print. Course offered in spring semester only.

Prerequisite(s): WRWS 3010 or by permission of instructor/faculty advisor.

WRWS 4100 ADVANCED FICTION STUDIO II (4 credits)

An advanced course in fiction in which students write and edit the most fully-developed short stories and/or novel sections of their college career, as well as read, analyze, and discuss assigned texts. Students examine the techniques of fiction writing, use the vocabulary and perspective they have gained so far to discuss their and others' work. They draw upon aspects of the self, the senses, imagination and memory to produce texts unique to their own voice and experience. (Cross-listed with WRWS 4110, WRWS 8116)

Prerequisite(s): WRWS 3100 or permission of instructor. Not open to non-degree graduate students.

WRWS 4110 ADVANCED FICTION STUDIO II (4 credits)

An advanced course in fiction in which students write and edit the most fully-developed short stories and/or novel sections of their college career, as well as read, analyze, and discuss assigned texts. Students examine the techniques of fiction writing, use the vocabulary and perspective they have gained so far to discuss their and others' work. They draw upon aspects of the self, the senses, imagination and memory to produce texts unique to their own voice and experience. (Cross-listed with WRWS 4100, WRWS 8116)

Prerequisite(s): WRWS 3100 or permission of instructor. Not open to non-degree graduate students.

WRWS 4200 ADVANCED POETRY STUDIO I (4 credits)

An advanced course in poetry writing. Emphasis on refining poetic technique. (Cross-listed with WRWS 8206)

Prerequisite(s): WRWS 3200 or WRWS 4210 or permission of instructor. Not open to non-degree graduate students.

WRWS 4210 ADVANCED POETRY STUDIO II (4 credits)

An advanced course in poetry writing with an emphasis on refining poetic technique and expression.

Prerequisite(s): WRWS 3200 or WRWS 4200 or permission of instructor. Not open to non-degree graduate students.

WRWS 4300 ADVANCED CREATIVE NONFICTION STUDIO (4 credits)

An advanced studio course in writing creative nonfiction. The course provides a context in which the student continues to practice techniques of literary nonfiction through the process of writing and rewriting.

Prerequisite(s): WRWS 3300 or permission of instructor. Not open to non-degree graduate students.

WRWS 4310 ADVANCED CREATIVE NONFICTION STUDIO II (4 credits)

An advanced studio course in writing creative nonfiction. The course provides a context in which the student continues to practice techniques of literary nonfiction through the process of writing and rewriting.

Prerequisite(s): WRWS 2300 and WRWS 3300, or permission of instructor. Not open to non-degree graduate students.

WRWS 4600 ADVANCED SCREENWRITING STUDIO I (4 credits)

This class will focus on the craft of screenwriting: plot, format, substance, style, scene development, film structure (both independent and main stream), three dimensional characters, and precise, professional dialogue. The student will complete a feature-length screenplay over course of the semester. There will be lectures and assigned reading. Once a month the student will view the current independent offering at Film Streams. This class will guide the student in completing a work portfolio, querying agents, applying to internships, and preparing for a career in film and television. (Cross-listed with WRWS 8606).

Prerequisite(s): WRWS 2600 and WRWS 3600.

WRWS 4610 ADVANCED SCREENWRITING STUDIO II (4 credits)

This class will build on the knowledge gained in Beginning Screenwriting Studio (WRWS 2600) and Intermediate Screenwriting Studio (WRWS 3600). The student will complete a second feature-length screenplay and an original pilot for television. There will be lectures and assigned reading. Once a month the student will view the current independent offering at Film Streams. This class will guide the student in completing a work portfolio, querying agents, applying to internships, and preparing for a career in film and television after graduation.

Prerequisite(s): WRWS 2600 and WRWS 3600. Not open to non-degree graduate students.

WRWS 4990 SENIOR THESIS (3-6 credits)

An option for the writing majors in their last year of study to enable them to prepare a body of original work in their areas of concentration for judging by a committee of faculty.

Prerequisite(s): Permission of department chair and thesis advisor. Not open to non-degree graduate students.

Upper-Level Literature	3
Elective	3

Credits 17

Total Credits 120-122

¹ If student enters UNO with AP Comp credit, they can take Comp II in Freshman Fall semester, and Fundamentals of Fiction/Poetry in Freshman Spring semester.

² *Fundamentals of Fiction or Poetry is, on rare occasion, accepted from another institution.

**Fundamentals fulfills the Writing in the Discipline requirement

³ Most pre-reqs for CNF and Screenwriting Electives overlap with WRWS required courses; however, the pre-reqs for a few CNF/Screenwriting Electives adds 3-6 hours to the Road Map.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: Students must successfully complete all major courses with a grade of "C" (2.0) or better.

Graduation Requirements: The BFA in Creative Writing requires a minimum of 75 semester hours of major coursework designated by the candidate's area of emphasis (Fiction, Poetry, Creative Nonfiction or Screenwriting) in consultation with the student's program advisor. The degree requires 120 total credit hours of coursework.

Creative Nonfiction Concentration

College of Education, Health, and Human Sciences

Mission/Vision

The College of Education, Health, and Human Science's philosophy and purpose are grounded in the central principles identified by the faculty for preparing graduates who are dedicated practitioners, reflective scholars, and responsible citizens. The outcomes/goals related to the principles focus on the knowledge, skills, and disposition espoused by the faculty and are built on the fundamental belief that all children can learn. The full text of the conceptual framework may be found here (<https://www.unomaha.edu/college-of-education-health-and-human-sciences/>)

Please note the information contained in this portion of the catalog is general information for the College of Education, Health, and Human Sciences. For more specific details please consult information specific to your intended department.

General Information

Overview of degree programs

The College of Education, Health, and Human Sciences is comprised of six academic units; the Departments of Counseling; Educational Leadership; Special Education and Communication Disorders; Teacher Education; Biomechanics, and Health and Kinesiology. Through its departments and school, the college seeks to prepare individuals for careers in a variety of fields including teaching, educational administration, counseling, public health, athletic training, exercise science, library science, special education, sign language interpreting, biomechanics, early childhood inclusive education and communication disorders. The college offers programs at the undergraduate and graduate levels. This catalog describes only those programs at the undergraduate level.

The college offers the following undergraduate degrees: Bachelor of Science in Education, Bachelor of Science in Biomechanics, Bachelor of Science in Kinesiology, and Bachelor of Science in Public Health. Some programs must be completed in conjunction with one (or more) other programs. Educator preparation programs lead to state certification. Additionally, the college offers a number of special course sequences which do not result in a degree but which result in added teaching endorsements.

All students in a degree program in the college must meet the university general education requirements. Additional information on these requirements can be found at the University General Education website (<https://www.unomaha.edu/general-education/>). Please contact an academic advisor for recommended choices for the major.

Certain majors/programs in the College of Education, Health, and Human Sciences require specifically related content coursework. For further information, and to view the requirements for specific majors/programs, visit the college website (<https://www.unomaha.edu/college-of-education/>) or contact an academic advisor.

Accreditation Information

The following programs in the College of Education, Health, and Human Sciences are accredited by:

Major	Degree	Accreditation Body
Athletic Training	MA	Commission on Accreditation of Athletic Training Education (CAATE)

Counseling: Concentration in Community Counseling	MA MS	Council for Accreditation of Counseling and Related Educational Programs (CACREP)
Counseling: Concentration in School Counseling K-12	MA MS	- Council for Accreditation of Counseling and Related Educational Programs (CACREP) - Nebraska Department of Education
Educational Leadership	MS Ed.S. Ed.D	Nebraska Department of Education
Early Childhood Inclusive	BSED	- Association for Advancing Quality in Educator Preparation (AAQEP) - Nebraska Department of Education
Elementary Education	BSED	- Association for Advancing Quality in Educator Preparation (AAQEP) - Nebraska Department of Education
Public Health	BS	Council on Education for Public Health (CEPH)
School Library	MS/Endorsement	- Nebraska Department of Education and National Recognition by the American Library Association (ALA) and the American Association of School Librarians (AASL)
Secondary Education	BSED	- Association for Advancing Quality in Educator Preparation (AAQEP) - Nebraska Department of Education
Special Education	BSED	- Association for Advancing Quality in Educator Preparation (AAQEP) - Nebraska Department of Education
Speech-Language Pathology	MS	- Council of Academic Accreditation of the American Speech-Language-Hearing Association (ASHA) - Nebraska Department of Education

All preparation programs within the college adhere to the national standards promulgated by their respective professional organizations.

Choice of Catalog Policy

Students maintaining continuous enrollment follow the requirements outlined by the Catalog in effect when they first enroll in the University of Nebraska at Omaha. The Catalog of the term of admission prescribes, at minimum, the General Education curriculum and the set of academic policies that govern progress toward completion of a degree. The Catalog

of the term of admission also describes the program requirements of the student's major(s), minors, endorsements, and concentrations. Alternatively, a student may choose to follow **all** of the program and policy requirements outlined by any single Catalog in effect during subsequent terms of continuous enrollment. If a student elects to move to another catalog, the change of catalog must be noted in MavCONNECT and Degreeworks by the advisor. Each student is responsible for knowing and abiding by the policies described in the Catalog chosen.

For interruptions in enrollment of more than one semester, individuals will be held to the requirements of the catalog of the year when they re-enter the College.

Program Website (<http://www.unomaha.edu/college-of-education/>)

Admission Requirements

Prospective students may apply for admission to the college by indicating their preference on the University Application for Admission.

Deadlines for UNO undergraduate admission to the College of Education, Health, and Human Sciences are:

- August 1 for fall semester
- December 1 for spring semester
- June 1 for summer sessions

Admission to the College of Education, Health, and Human Sciences does not guarantee admission to a specific program. Certain programs, such as educator preparation, require a separate application and admission process. Specific admission requirements for programs within the College of Education, Health, and Human Sciences are noted in the departments'/ school's section of this catalog or on the college website.

Academic Requirements for the College Degrees

Number of Hours to Graduate

The bachelor's degrees (BS in Education, BS in Biomechanics, BS in Kinesiology, and BS in Public Health) require a minimum of 120 credit hours; 30 of the last 36 hours must be taken in residence. University General Education requirements apply to all programs. The College of Education, Health, and Human Sciences will accept toward a degree program those courses for which credit by examination is given (up to 30 hours) and recommended by the respective departments within the college of the university. Up to eight credit hours of elective credit may be allowed for military service.

Program specifications and expectations are noted in the departments'/ school's sections of this catalog or on the college **website** (<https://www.unomaha.edu/college-of-education/>). Candidates in educator preparation programs must also complete all requirements in the professional education sequence, and the requirements for their teaching certification and endorsements/emphasis area(s). Students in non-educator

preparation programs must complete all the requirements of the particular program.

Minimum GPA/Additional Requirements

Students in the College of Education, Health, and Human Sciences must maintain a 2.5 cumulative grade point average. This GPA is calculated based on all courses taken in the University of Nebraska system (UNL, UNO, UNK). The cumulative GPA determines eligibility for professional coursework.

Individual major programs within the College of Education, Health, and Human Sciences can require students to maintain higher GPA standards to remain in good standing. In addition, course prerequisites may require higher GPA to enter upper-level coursework.

College Requirements, BA/BS Requirements

For specific program requirements, see the department/school section of this catalog or the college website.

Transfer Credit Policy

Students may transfer into the college from other institutions by completing the application process and meeting the minimum cumulative grade point average GPA of 2.5 (on a 4.0 scale).

Transfer credit from outside the NU system can be applied to course requirements, but outside credit does not affect the NU system GPA or a student's good standing in the college. Transfer GPA is only considered before a student has earned 12 or more hours in the NU system. In this time period, students may be permitted into courses or accepted to professional programs based on their transfer cumulative GPA. Once students complete 12 credits or more in the NU system, the NU system GPA will be used to measure quality of work.

Official transcripts must be sent to the UNO Office of Admissions from each previous college or university attended whether credit was earned or not. Hand-carried or student-submitted transcripts are not acceptable. Only 64 credit hours can be transferred from an approved 2-year institution.

Only credits earned at accredited institutions will be accepted by the college. In accordance with University policies, the college will accept, for transfer, grades of "C-" or better for University General Education courses. Credits earned at an institution which is part of the Nebraska Network of Community Colleges will be accepted by the college provided the grades are the equivalent of a "C-" or better for University General Education courses. Credits from institutions seeking regional accreditation (but not yet accredited) may be accepted after 30 hours of work are satisfactorily completed at UNO. Acceptance of any transfer credits by the college does not ensure application to a particular program or endorsement.

Determination of applicability is the responsibility of the specific department/school. Departments within the college and programs will determine applicability of transfer credits and of grades to meet specific requirements. The University accepts "C-" grades, but programs may have a higher standard of applicability of transfer credits. For specific program requirements, see the department/school section of this catalog or the college website.

Individuals with degrees in education, transferring to the College of Education, Health, and Human Sciences for teacher certification only, must successfully complete all program requirements prior to clinical practice. (The program coursework for any endorsement must total a minimum of 12 hours, six of which are in the major area.)

Special Note: Transfer Admission from Colleges within UNO

Students transferring from another college on the UNO campus to the College of Education, Health, and Human Sciences must meet the minimum cumulative GPA requirement of 2.5.

Unacceptable Credits

Professional education courses will be accepted only from institutions which are accredited for teacher education by the national, state and/or regional accrediting agency and those classes are good for a 10 year period. Education courses will not be accepted from two-year institutions or other institutions unless the college has a specific articulation agreement with that institution or the course has received departmental approval.

Retroactive Credit Policy >> (p. 33)

Advanced Placement Credits >> (p. 33)

Military Credit >> (p. 33)

IB Credit >> (p. 33)

Placement Exams and Credit by Examinations Policies/Practices >> (<http://catalog.unomaha.edu/undergraduate/student-life-support-services/testing-center/>)

Residency Requirement

The bachelor's degrees (BS in Education, BS in Biomechanics, BS in Kinesiology, and BS in Public Health) require a minimum of 120 credit hours; 30 of the last 36 hours must be taken in residence.

Quality of Work

The following quality of work standards apply to all individuals in the college.

- Maintain a cumulative GPA of 2.5 or higher for admission to the College of Education, Health, and Human Sciences. For specific program requirements, see the department/school section of this catalog or the college website.
- Maintain a 2.5 cumulative grade point average to remain in good standing with the College of Education, Health, and Human Sciences. This GPA is calculated based on all courses taken in the University of Nebraska system (UNL, UNO, UNK). The cumulative GPA determines eligibility for professional coursework.
- Individual major programs within the College of Education, Health, and Human Sciences can require students to maintain higher GPA standards to remain in good standing. In addition, course prerequisites may require a higher GPA to enter upper-level coursework. For specific program requirements, see the department/school section of this catalog or the college website.
- Individuals are expected to progress steadily toward the degree. Majors will complete work for the degree according to the requirements of the catalog of the year in which they entered the college. For interruptions in enrollment of more than one semester, individuals will be held to the requirements of the catalog of the year when they re-enter the college.

NOTE: Please see departments'/school's sections for information on programs, lists of courses, and additional academic performance requirements

General Education courses

Per General Education policy, College of Education, Health, and Human Sciences general education courses meeting Humanities/ Fine Arts, Social Science or Natural Science requirements are exempt from the repeat policy and students do not need to meet the minimum CEHHS 2.5 NU GPA requirement to take courses filling these distribution requirements.

Courses that meet only U.S. or Global Diversity requirements may enforce prerequisites of the program or department.

For undergraduate CEHHS courses that have no listed pre-requisite, any UNO student is eligible to enroll.

A minimum grade of "C-" must be earned in all coursework in the university general education requirements to be applied to a College of Education, Health, and Human Sciences degree.

Good Academic Standing Policy

>> (p. 35)

Credit/No Credit (CR/NC) Grades

>> (p. 35)

Completion of Incomplete Grade

Under certain circumstances, a student may be eligible for an "I" grade in a course. Please see information in the grades information section of the [catalog \(p. 35\)](#).

Questions about the procedures to follow in the college should be directed to the respective department chair or school director.

Students who do receive a grade of "I" in a course with a department prefix of BMCH, CDIS, COUN, HEKI, KINS, PHHB, SPED, or TED may not enroll in any course for which the "I" course is a prerequisite until the "I" grade has been removed and replaced with a passing grade.

Repeatable Grades/Courses

For a general education course offered by the College of Education, Health, and Human Sciences, any student may repeat this course.

A College of Education, Health, and Human Sciences student in an educator preparation program, non-certification concentration, Library Science, Communication Disorders or Sign Language Interpreting concentration who receives a grade below "C" or a "W" (Withdraw) in any undergraduate course with a department prefix of BMCH, CDIS, COUN, HEKI, KINS, PHHB, SPED, or TED may re-enroll in that course for one additional time for a total of two attempts. For exceptions to this rule, please review program-specific requirements.

A College of Education, Health, and Human Sciences student in Biomechanics, Kinesiology, or Public Health who receives a grade below "C-" or a "W" (Withdraw) in any undergraduate course with a department prefix of BMCH, CDIS, COUN, HEKI, KINS, PHHB, SPED, or TED may re-enroll in that course for one additional time for a total of two attempts. For exceptions to this rule, please review program-specific requirements.

A candidate who is removed from, withdraws from, or receives a grade of "I" in field, internship, clinical, practicum, or clinical practice experience, regardless of reason, must appeal to the Academic Review Committee (ARC) to be allowed to repeat the experience. If the appeal is granted, the candidate must reapply for a placement. A candidate may repeat such experiences only once

See also "Completion of Incomplete Grade" for additional information.

Overload Appeal Guidelines

Student appeals to take overload hours in any semester must be directed to the Associate Dean of the college. An overload is defined as anything above 18 credit hours in the fall or spring semester. The appeal request may be submitted in writing or via UNO e-mail address. The appeal request must contain the following information.

- Student name.
- Semester for which the overload is requested.
- List of all courses (arranged by course number, title, and number of credit hours) to be taken in that semester.
- Current, cumulative GPA.
- Reasons for requesting the overload.

Please note:

This is a formal process. Appropriate language and “business letter” format should be used in the appeal.

Failure to provide the required information will delay the process and may jeopardize your ability to enroll in desired courses.

All responses will be sent through your UNO e-mail address.

Dr. Jason Coleman, Associate Dean
jdc Coleman@unomaha.edu
Roskens Hall 211

Appeal Process >> (p. 35)

Grade Appeal Policy

Individuals who believe that their grade in a particular course does not properly reflect their performance, or that the instructor acted in an arbitrary or capricious manner in determining the grade, should first contact the instructor to determine the rationale for the grade or if there was an error in reporting. Consultation with the instructor should take place before taking any formal action in regard to a grade appeal.

After the instructor has provided the rationale for the grade in question and has indicated that no error in reporting was made, the individual may then wish to petition the department/school for reconsideration. In such instances, the student should contact the department chair/school director to obtain information on the procedures to follow in requesting an appeal at the department/school level.

If an individual believes that the department/school action did not comply with the due process procedures or did not provide legitimate relief, he/she may petition the Student Affairs Committee of the College of Education, Health, and Human Sciences. This committee is the appellate body for grade appeals after a student has received a decision at the department/school level. Students wishing to appeal a grade to the Student Affairs Committee should contact the Dean's Office (Roskens Hall 211) to obtain the procedures to follow in filing an appeal.

Academic Amnesty

Academic Amnesty provides relief from a poor academic record acquired within the University of Nebraska system by excluding substandard coursework with a final grade of “D” or “F” from a student's cumulative grade point average (GPA) calculation. Academic Amnesty will not remove course(s) or grade(s) from the transcript but once granted, will not count as part of the overall GPA.

Eligibility:

To be eligible for Academic Amnesty, students must:

- Have been out of the Nebraska system for at least one calendar year (12-month period).

- Have substandard coursework (“F” or “D” grades) earned within the University of Nebraska system (UNO, UNL, UNK, UNMC) prior to the year out (substandard grades earned after the year out will not be included in the Academic Amnesty contract).
- Be admitted as a degree-seeking student at the University of Nebraska.

Amnesty Requirements:

- Academic Amnesty will begin with the first course(s) taken upon return to UNO.
- Students may apply for Academic Amnesty at any time after taking the one-year break.
- After returning from the one-year break, demonstrate academic success in new UNO coursework.
Academic success may be demonstrated by one of the following:
 - Completing at least 12 semester hours (simultaneous or sequential) with a minimum of 3.0 cumulative GPA,
 - Completing at least 24 semester hours (simultaneous or sequential) with a minimum of 2.5 cumulative GPA.
- Students must maintain continuous enrollment (at least six (6) semester hours completed within any 12-month period).
- Students will work with their academic advisor to select the coursework to be amnestied.
- Students must inform an academic advisor when the Academic Amnesty requirements are met.

Notes:

- All amnestied coursework will remain on the student's academic record (transcript); however, the courses will not be included in calculation of the student's grade point average. Courses will be annotated “Academic Amnesty Excluded from GPA” on the transcript.
- Once Academic Amnesty is granted, students will not be eligible for honors at graduation. Students are still eligible for Dean's List and Chancellor's List honors.
- While demonstrating academic success, no changes are made to the student's academic record. If a student's cumulative GPA is still below standard, the students will continue to be reported as “continued on probation.” Should the student revert to substandard academic performance while working on Academic Amnesty, the student can still be suspended. Academic Amnesty is intended to provide relief from the past without providing immunity from future substandard academic performance.
- Students must still meet all university and college requirements to graduate.

Academic Probation and Suspension

Students whose GPA fall below 2.5 on a 4.0 scale will be placed on academic probation with the College of Education, Health, and Human Sciences for one semester. During the probationary semester, students may enroll in a voluntary support program and make efforts to raise the cumulative GPA.

During a probation semester, CEHHS students are allowed to repeat College of Education, Health, and Human Sciences courses in which they did not earn a passing grade (see program requirements for minimum passing grade). Students who want to repeat a course with field or practicum requirements must appeal and/or seek permission in accordance with departmental guidelines to be allowed to repeat the experience.

Students are encouraged to repeat courses in which they earned below the minimum passing grade to return to good standing in the College of Education, Health, and Human Sciences. Per Office of the University

Registrar policy, when an undergraduate course is repeated, only the most recent grade will be calculated into the GPA.

Students whose cumulative GPA remains below the 2.5 minimum for the second consecutive semester are ineligible to remain in the College of Education, Health, and Human Sciences and must change their major and college. Such students may re-enter the College of Education, Health, and Human Sciences should they repair their cumulative GPA to the standard required for their program.

Students whose GPAs fall below 2.0 on a 4.0 scale may be subject to suspension based on the Office of the University Registrar's posted guidelines. (<https://www.unomaha.edu/registrar/faculty-and-staff/additional-information/probation-suspension-deans-list.php>)

Reinstatement Policy Following Academic Suspension >> (p. 35)

Academic Advising

Working in partnership with academic advisors is key to student success. Programs in the College of Education, Health, and Human Sciences are carefully sequenced. To move through these programs in a timely manner, students must plan carefully and regularly consult their advisors. In addition to program requirements, academic advisors assist students in exploring and defining an academic career, life goals, and pathways for success. Advisors will assist in developing problem-solving and decision-making skills through a collaborative and process-oriented advising approach. Advisors provide information about university requirements; discuss career goals, graduate or professional programs, or licensure requirements; and refer to campus resources that improve students' academic experiences. Students are expected to meet with their advising partners every semester.

- The Roskens Hall 204 academic advising office serves Elementary, Secondary, Early Childhood Inclusive, Special Education, Library Science, and Communication Disorders majors.
- The Health and Kinesiology advising office is located in 207 in the H&K building and serves pre-Athletic Training, Biomechanics, Kinesiology, and Public Health majors as well as students in exploratory Health & Kinesiology.

Mission of College of Education, Health, and Human Sciences Academic Advising

Our mission is to empower students to explore and achieve their educational goals through intentional partnerships.

Vision of College of Education, Health, and Human Sciences Academic Advising

College of Education, Health, and Human Sciences advisors help students make the most of their education. We support the personal and professional growth of the whole student with the goal of promoting persistence and success.

Values of College of Education, Health, and Human Sciences Academic Advising

As advisors, we value engaged student learning. We believe high expectations and consistent support are key to helping emerging professionals navigate the university curriculum. We work in our college and on our campus to advocate for student success.

Advising Holds >> (p. 28)

Student Holds >> (p. 28)

Senior Check

Senior checks are completed in conjunction with academic advisors. For specific program requirements, see the department/school section of this catalog or the college website.

Application for Degree

All students graduating from UNO must file an "Application for Degree" with the Records and Registration Office and pay the required fee at the beginning of the semester in which they will graduate and not later than the date listed in the university calendar. Failure to file for the degree by this deadline may postpone a student's graduation date. Applications are available online via MavLink. After applying for the degree, students should visit the UNO Bookstore as soon as possible to order the cap and gown and graduation announcements. For more information click [here](https://www.unomaha.edu/registrar/students/graduation-and-diplomas/graduation-general-information.php) (<https://www.unomaha.edu/registrar/students/graduation-and-diplomas/graduation-general-information.php>).

Biomechanics

The mission of the Division of Biomechanics and Research Development is to serve not only the University of Nebraska at Omaha but the entire University of Nebraska system and the state of Nebraska by (a) educating and developing a dynamic workforce to meet our scientific needs at a national and international level and by (b) enhancing economic growth through development of biotechnology and biomechanical intellectual property produced by students and faculty performing innovative research in the multiple laboratories of the Biomechanics Research Building. The research performed in the Division will provide a new understanding of the dynamic aspects of human and animal biomechanics via multidisciplinary approaches. In particular, we aim to achieve the following specific objectives:

1. Quantitatively characterize and improve our understanding of the complex biomechanical systems in healthy and abnormal states via innovative analyses.
2. Educate and train students, basic scientists, and clinicians, so that they may apply concepts of biomechanics in their careers as educators and researchers.
3. Develop new diagnostic and prognostic tests and related biomechanical technology for a variety of movement and cardiovascular disorders and aging.
4. Provide biomechanically related services to interested parties and University and community partners.
5. Participate in community outreach activities that involve biomechanically related educational opportunities.

Biomechanics is the study of forces that act on the body and the effects they produce. It is an intersection of biology, physiology, anatomy, physics, mathematics, and chemistry. Biomechanics is a rapidly growing discipline that has many applications in robotics, forensics, ergonomics, clinical assessment and rehabilitation of movement disorders, design of prosthetics, sports performance, sports equipment design, safety, etc.

The B.S. in Biomechanics is an excellent choice for students planning to a) pursue graduate education and careers in research, b) work in biomechanically related industry and hospital laboratories, and c) pursue graduate education in professional schools for physical therapy, occupational therapy, medicine and other science-based programs.

The Minor in Biomechanics is ideal for those students who have a major outside of Biomechanics and would benefit from learning the basic principles of Biomechanics.

Other Information

Once students are admitted to the Bachelor of Science in Biomechanics they will be in the College of Education, Health, and Human Sciences and will be required to maintain a cumulative college GPA of 2.5/4.0 scale and grades of "C-" or better in the core courses to remain in good standing in the College of Education, Health, and Human Sciences.

The department highly encourages students to engage in undergraduate research with a faculty mentor. A list of Biomechanics faculty can be found on our website (<http://www.unomaha.edu/college-of-education/biomechanics-core-facility/about-us/directory/>). There are also many undergraduate volunteer and student worker opportunities available in the Department.

Fast Track Program

The Department of Biomechanics has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a BS in Biomechanics desiring to pursue a MS in Biomechanics.
- Students must have completed no less than 60 undergraduate hours
- Students must have a minimum undergraduate GPA of 3.0
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course
- Students will work with their undergraduate advisor to register for the graduate courses
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - Applicants for this program are highly encouraged to pursue research opportunities in the Department of Biomechanics or comparable programs.
 - The admit term must be after the completion term of the undergraduate degree.

All 8000 level BMCH courses are eligible for students part of the Fast Track program.

Department of Biomechanics
Biomechanics Research Building

402.554.3228

unobiomechanics@unomaha.edu

Website (<https://www.unomaha.edu/college-of-education/biomechanics-core-facility/>)

Degrees Offered

- Biomechanics, Bachelor of Science (p. 664)

Writing in the Discipline

BMCH 4990 Capstone Design in Biomechanics II

Minors Offered

- Biomechanics Minor (p. 665)
- Sports Biomechanics Minor (p. 666)

Biomechanics is the study of the mechanical laws that create human and animal motion. Biomechanics applies principles from engineering, mechanics, physics, and biology to study human and animal movement. Biomechanics majors have the ability to pursue a wide variety of careers. These careers range from being technologically centered to human health centered.

Potential career opportunities/settings:

- Physical and Occupational Therapy*
 - Physical Therapist
 - Occupational Therapist
- Prosthetics and Orthotics*
 - Prosthetist
- Medical Device Design
 - Research Scientist
- Clinical Research
 - Gait Analysis Biomechanist
- Robotics
 - Field Application Engineer
 - Robotics Technician
- Ergonomics
 - Ergonomist
- Medicine* (Orthopedics, Cardiology, Neurology)
 - Orthopedic Surgery
 - Sports Medicine
- Athletic Training*
 - Athletic Trainer
- Sports Performance
 - Footwear Material Developer
 - Footwear Research and Development

*Requires graduate study

BMCH 1000 INTRODUCTION TO BIOMECHANICS (3 credits)

This is an introductory course in biomechanics that provides a brief history, an orientation to the profession, and explores the current trends and problems and their implications for the discipline.

Distribution: Social Science General Education course

BMCH 1100 ETHICS OF SCIENTIFIC RESEARCH (3 credits)

This course is a survey of the main ethical issues in scientific research.

Distribution: Humanities and Fine Arts General Education course

BMCH 2200 ANALYTICAL METHODS IN BIOMECHANICS (3 credits)

Through this course, students will learn the fundamentals of programming and problem solving for biomechanics with Matlab and Excel. Students will also learn the attributes and uses of other programming languages.

BMCH 2400 HUMAN PHYSIOLOGY & ANATOMY I (4 credits)

The study of the structure and function of the systems of the body with an emphasis on the skeletal, muscular, cardiovascular and respiratory systems.

Distribution: Natural/Physical Sci General Education lecture&lab

BMCH 2500 HUMAN PHYSIOLOGY AND ANATOMY II (4 credits)

The study of the structure and function of the systems of the body with an emphasis on the nervous system, special senses, digestive system, endocrine system, metabolism and body temperature regulation, lymphatic system, and urinary system.

Prerequisite(s): PE 2400 or BMCH 2400 with a grade of C- or better.

BMCH 3000 BIOMECHANICAL STATICS & DYNAMICS (3 credits)

This course is the study and exploration of the effect of forces on biological systems, mainly the human body, during static and dynamic situations.

Prerequisite(s): PHYS 2110, PHYS 1154

BMCH 4000 BIOMATERIALS (3 credits)

Students will learn the classification, properties, characterization methods, body interactions, applications, and design principles of biomaterials.

(Cross-listed with BMCH 8006).

BMCH 4010 WEARABLE MATERIALS FOR BIOMECHANICAL PERFORMANCE I (3 credits)

This course contains lecture and lab components focused on the design and characterization of wearable materials used in biomechanical and biomedical applications for heat management, moisture removal, and respiratory protection. Students will learn the classification, properties, evaluation methods, and design principles of wearable materials. (Cross-listed with BMCH 8016).

Prerequisite(s): BMCH 4000 or BMCH 4670 or Department Permission

BMCH 4100 BIOINSPIRED ROBOTICS (3 credits)

The goal of the course is to involve students in an interdisciplinary vision of biomechanics, biology, engineering and architecture by learning how humans and other animals function in their environment. These design principles from nature can be translated into novel devices, structures, and robots. (Cross-listed with BMCH 8106).

BMCH 4110 3D PRINTING IN HEALTHCARE (3 credits)

A study of basic principles and applications of additive manufacturing (i.e., 3D printing) in healthcare settings. This course will incorporate introductory lectures, practical applications, case studies, and hands-on experiences incorporating basic design techniques and 3D printing. Students will be exposed to various 3D printing techniques and approaches. This course will equip students with knowledge and hands-on experience of basic design techniques and 3D printing. Students will demonstrate, evaluate, and apply technical knowledge about computer aided design and 3D printing. The final project includes a presentation of short grant proposal. (Cross-listed with BMCH 8116).

BMCH 4200 METHODS IN BIOMECHANICS I (3 credits)

In this course students learn about the methods and equipment used in biomechanics as well as the analysis of data collected from those methods. Course experiences include both lecture and lab based learning. (Cross-listed with BMCH 8206).

Prerequisite(s): BMCH 3000, BMCH 2200 with a grade of C- or better or department permission.

BMCH 4210 METHODS IN BIOMECHANICS II (3 credits)

In this course students learn about advanced methods and equipment used in biomechanics, as well as the analysis of data collected from those methods. Course experiences include both lecture and lab based learning. This course builds on the experience gained in BMCH 4200/8206, Methods in Biomechanics I. (Cross-listed with BMCH 8216).

Prerequisite(s): BMCH 4200 with a grade of C- or better or department permission.

BMCH 4630 BIOMECHANICS (3 credits)

A study of the forces that act on a human body and the effects that they produce.

Prerequisite(s): BMCH 2400 [previously PE 2400] or PE 2880 or BIOL 2740 or equivalent, AND PHYS 1110 and PHYS 1154 OR MATH 1950 to be taken concurrently or completed previously with a grade of C- or better.

BMCH 4640 ORTHOPEDIC BIOMECHANICS (3 credits)

Orthopedic Biomechanics focuses on the use of biomechanical principles and scientific methods to address clinical questions that are of particular interest to professionals such as orthopedic surgeons, physical therapists, rehabilitation specialists, and others. (Cross-listed with BMCH 8646).

Prerequisite(s): BMCH 4630 or department permission.

BMCH 4650 NEUROMECHANICS OF HUMAN MOVEMENT (3 credits)

A study of basic principles of neural process as they relate to human voluntary movement. Applications of neural and mechanical principles through observations and assessment of movement, from learning to performance, as well as development. (Cross-listed with NEUR 4650).

Prerequisite(s): BMCH 1000 or PE 2430.

BMCH 4660 CLINICAL IMMERSION FOR RESEARCH AND DESIGN (3 credits)

This course will involve exposure to current clinical practices, identification of unmet clinical needs, and information regarding future career options. In this course, students will be matched with local clinical sites to provide a unique opportunity for innovative and interdisciplinary approaches to problem solving subject to practical constraints. Concepts in clinical rehabilitation, integrated assessments, regulation of medical devices in health care will be covered. This course will review the latest research efforts for rehabilitation in the context of device design and implementation. (Cross-listed with BMCH 8666).

Prerequisite(s): BMCH 4630 or equivalent and Instructor Permission. Not open to non-degree graduate students.

BMCH 4670 INTRODUCTION TO MECHANICS OF BIOMATERIALS (3 credits)

In this course students will learn how to analyze the stresses and strains in different structures under complex loading conditions with extensive examples from biomaterials and materials generally used in the medical device field. (Cross-listed with BMCH 8676).

Prerequisite(s): BMCH 3000 or Department Permission

BMCH 4680 SPORTS BIOMECHANICS (3 credits)

This course is intended to provide students with a foundational knowledge on how to analyze sport movements through biomechanical analytical methods. Students will utilize foundational biomechanical principles and apply them to a variety of sports and associated movements. (Cross-listed with BMCH 8686).

Prerequisite(s): BMCH 4630 or KINS 4100 or Instructor Permission

BMCH 4690 CARDIOVASCULAR BIOMECHANICS (3 credits)

This course will introduce students to cardiovascular biomechanics, emphasizing the integration of analytical and experimental methods to better understand the mechanobiology of tissues. (Cross-listed with BMCH 8696).

Prerequisite(s): BMCH 3000, BMCH 4670, or Department Permission

BMCH 4980 CAPSTONE DESIGN IN BIOMECHANICS I (4 credits)

Teams of senior-level students work with sponsors and faculty advisers to develop solutions to real problems in the biomechanics and health-care related fields.

Prerequisite(s): Department Permission.

BMCH 4990 CAPSTONE DESIGN IN BIOMECHANICS II (4 credits)
Teams of senior-level students work with sponsors and faculty advisers to develop solutions to real problems in the biomechanics and health-care related fields. The Capstone Design II course is intended to further develop and validate the concept direction chosen during Capstone Design I by designing the specific details necessary to build and test a proof-of-concept prototype.
Prerequisite(s): BMCH 4980, or department permission.

Biomechanics, Bachelor of Science

Biomechanics, Bachelor of Science Requirements

¹ BIOL2740 and BIOL2840 can be taken in place of BMCH 2400 and 2500

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Biomechanics Minor Requirements

Code	Title	Credits
18 Hours Required		
Core Courses		9
BMCH 1000	INTRODUCTION TO BIOMECHANICS	
BMCH 2200	ANALYTICAL METHODS IN BIOMECHANICS	
BMCH 2400	HUMAN PHYSIOLOGY & ANATOMY I	
Select one plan of study		9
Cardiovascular Biomechanics		
Select three from the following:		
BMCH 3000	BIOMECHANICAL STATICS & DYNAMICS	
BMCH 4000	BIOMATERIALS	
BMCH 4670	INTRODUCTION TO MECHANICS OF BIOMATERIALS	
BMCH 4690	CARDIOVASCULAR BIOMECHANICS	

Human Movement**Select three from the following:**

BMCH 4100	BIOINSPIRED ROBOTICS
BMCH 4200	METHODS IN BIOMECHANICS I
BMCH 4210	METHODS IN BIOMECHANICS II
BMCH 4630	BIOMECHANICS
BMCH 4640	ORTHOPEDIC BIOMECHANICS
BMCH 4650	NEUROMECHANICS OF HUMAN MOVEMENT

Must earn grade of "C-" or higher in coursework

Sports Biomechanics Minor

Sports Biomechanics Minor Requirements

Code	Title	Credits
All of the following		17
BMCH 2400	HUMAN PHYSIOLOGY & ANATOMY I	
BMCH 4630	BIOMECHANICS	
BMCH 4640	ORTHOPEDIC BIOMECHANICS	
BMCH 4680	SPORTS BIOMECHANICS	
KINS 1010	INTRODUCTION TO SPORTS MEDICINE	
KINS 4940	PHYSIOLOGY OF EXERCISE	

Must earn grade of "C-" or higher in coursework

Health and Kinesiology

Our Mission

The School of Health and Kinesiology (H&K) is committed to excellence and the faculty is dedicated to teaching, scholarly activity, and service. The primary mission of the School of H&K is to prepare students for successful careers or advanced academic studies in kinesiology, public health, and physical education. The faculty shares a common sense of purpose to provide the knowledge, resources, and opportunities that will enable students to possess the skills and dispositions necessary to become dedicated practitioners, reflective scholars, and responsible citizens.

Accreditation

The teacher educator programs in Health and Physical Education are accredited by the National Council for Accreditation of Teacher Education (NCATE) and the Nebraska Department of Education.

The Bachelor of Science in Public Health program is accredited by the Council on Education for Public Health (CEPH).

Contact

School of Health and Kinesiology
6323 Maverick Plaza
Omaha, NE 68182
402.554.2670

Website (<https://www.unomaha.edu/college-of-education/health-kinesiology/>)

Admissions

Public Health Admission Information

Students must have a cumulative and major GPA of at least 2.5.

Kinesiology Admission Information

Students must have a cumulative and major GPA of at least 2.5.

Physical Education and Health Education Educator Preparation Program Admission Information

The college offers educator preparation programs at the following levels: elementary education, middle level, and secondary education. For a complete listing of the endorsement areas at each level can be found here (<https://www.unomaha.edu/college-of-education/student-services/certification/endorsements.php>).

Degrees Offered

- Bachelor of Science in Public Health (p. 676)
- Bachelor of Science in Kinesiology (p. 678)

Writing in the Discipline

Public Health majors fulfill the Writing in the Discipline requirement through the completion of PHHB 4960

Kinesiology majors fulfill the Writing in the Discipline requirement through the completion of KINS 4010, KINS 4940, and BMCH 4630

Minors Offered

- Human Performance Minor (p. 680)
- Public Health Minor (p. 680)
- Sports Medicine Minor (p. 680)
- Worksite Wellness Minor (p. 681)

Endorsements Offered

- Physical Education (PK-12) and Health Education (p. 736)
- Physical Education (7-12) and Health Education (7-12) (p. 738)
- Coaching (7-12) (p. 749)

Public Health, Bachelor of Science

A degree in Public Health prepares students to become professionals who promote the health of the general public through education and skills for individuals and communities. Public Health professionals are leaders who engage in advocacy for policies that enhance and ensure healthy populations.

Potential Career Opportunities/settings and examples:

- Government agencies
 - Centers for Disease Control and Prevention (CDC)
 - Department of Health and Human Services
 - State, Regional, County, and City Health Departments
 - Legislative bodies
 - Housing Authority
 - Peace Corps

- School Systems
 - Primary – 12 education
 - Colleges/Universities
 - Administration
- Non-profit organizations
 - American Red Cross
 - American Cancer Society
 - Women's Center for Advancement
 - Diabetes Educational Center of the Midlands
 - Planned Parenthood
 - Multiple Sclerosis Society
 - Wellness Council of the Midlands
- Non-Governmental Organizations (Global Health)
 - World Food Program
 - CARE International
 - International Red Cross
 - Oxfam
 - Catholic Relief Services
 - World Vision
- Foundations
 - Buffett Foundation
 - Gates Foundation
- Hospitals
- Corporations

Kinesiology, Bachelor of Science in Education

The Kinesiology program is designed to prepare students to assume positions as fitness or health promotion directors and exercise consultants.

Potential Career Opportunities/settings:

- Biomechanist
- Community Fitness Specialist
- Exercise Physiologist
- Fitness Club Management
- Hospital Based Fitness & Wellness Specialist
- Laboratory Technician
- Personal Trainer
- Physical Activity Specialist
- Physical Therapy Aid or Technician
- Sports Industry/Equipment Exercise Science Specialist
- Strength & Conditioning Specialist
- Worksite Fitness/Wellness Specialist

Physical Education Teaching Preparation

The Physical Education Teaching program prepares students to become certified physical educators in the state of Nebraska. Students may select an endorsement that includes Physical Education PK-6 and 7-12 dual endorsement or Physical Education 7-12 and Health Education 7-12 dual endorsement. The program includes hands on field experience in both urban and suburban schools beginning with observations and culminating with student teaching the final semester.

Potential Career Opportunities/settings:

- Elementary School
- Middle School
- High School

*Requires additional degrees/certifications.

HEKI 2000 MEDICAL TERMINOLOGY (1 credit)

This course provides students the foundation for understanding medical language and terminology used in health-related careers. Students will gain an understanding of the basic elements used to build and analyze medical terms used to describe the human body. Utilizing the body systems approach, students will learn correct pronunciation, definitions, and spelling used to describe the human body, pathological processes, procedures, as well as conditions and diseases that affect it.

HEKI 2100 STATISTICS IN HEALTH AND KINESIOLOGY (3 credits)

This class is designed to present an introduction to statistical evaluation of testing and measurement techniques commonly used in health and kinesiology. Appropriate test selection, administration, and the interpretation of results with fundamental statistical methods will be emphasized.

Prerequisite(s): MATH 1220, or ACT Math sub score of at least 23, or Accuplacer score of at least 4, or Math SAT score of at least 540

HEKI 2400 HEALTH ED. & PHYSICAL ED. FOR THE ELEMENTARY SCHOOL TEACHER (3 credits)

This course is designed to aid the classroom teacher in developing and implementing health education and physical education programs in the elementary school curriculum.

Prerequisite(s): TED 2300

HEKI 3090 APPLIED NUTRITION (3 credits)

This foundational nutrition course uses nutritional concepts and scientific inquiry to explore the impact of nutrition on individuals and society as a whole. Students will explore the role of nutrients in food as they relate to human performance and disease. Additionally, they will gain knowledge and skills to evaluate food choices, dietary guidelines, and current diet trends and the implications for both long and short-term health.

Distribution: Natural/Physical Science General Education course

HEKI 4100 ADVANCED MUSCULOSKELETAL ANATOMY (3 credits)

This course is designed for students interested in healthcare careers, specifically in the rehabilitation sciences, wanting to improve their knowledge of the musculoskeletal system. Emphasis will be placed on palpations, range of motion assessment, and strength testing of various muscles and joints throughout the body. This course will consist of largely hands-on activities working in small groups. (Cross-listed with HEKI 8106).

Prerequisite(s): Prerequisites - BMCH 2400 or BIOL 2740, or instructor permission.

KINS 1010 INTRODUCTION TO SPORTS MEDICINE (1 credit)

The primary purpose of this course is to allow students to explore a variety of professions related to the field of sports medicine and how they work together to ensure safe participation in physical activity. Topics such as basic injury pathology, safe participation in sports, communication, and legal and ethical issues will be reviewed.

KINS 1500 FUNDAMENTALS OF GROUP EXERCISE (1 credit)

This course is designed to provide students with the knowledge and skills to perform fundamental exercises associated with a variety of group exercise formats (e.g. bootcamp, kickboxing, yoga, indoor cycling, step, etc.). Students will also learn proper technique, transitions, progressions/regressions, modification, and sequencing to create a safe and inclusive class environment.

Prerequisite(s): Kinesiology majors, Pre-AT, Exploratory H&K, or PE Teaching majors

KINS 1600 FUNDAMENTALS OF RESISTANCE TRAINING (1 credit)

This class is designed to provide each student with the knowledge needed to understand how to properly perform basic weight training movements for each muscle group. Students will understand and learn the importance of keeping good body positioning, technique, spotting, breathing and safety procedures with free weights and machine weights as well learning to developing basic weight-training programs and understanding basic training principles.

Prerequisite(s): Kinesiology majors, Pre-AT, Exploratory H&K, or PE Teaching majors. Not open to non-degree graduate students.

KINS 1800 FITNESS FOR LIVING (3 credits)

This course is aimed at exploring the values of physical activity, assessing fitness needs and prescribing appropriate activities. The course will be taught as a lecture lab.

KINS 2130 LIFEGUARDING (3 credits)

This course is designed to prepare candidates in assuming the duties and responsibilities of a lifeguard. The main focus will be accident prevention in and around the water. Also stressed will be the recognition of a person in distress and a drowning victim. The development of an emergency plan and the articulation with the emergency rescue service will also be key elements in this course.

KINS 2140 WATER SAFETY INSTRUCTORS COURSE (3 credits)

This is a course in water safety instruction. The purpose of this course is to teach those enrolled how to teach the various swimming skills. This would include teaching beginning swimming through emergency water safety. Candidates who satisfactorily complete the course will be issued a Water Safety Instructor Certificate.

Prerequisite(s): Seventeen years of age and possession of current Advanced Lifesaving or Emergency Water Safety Certificate

KINS 2210 GROUP EXERCISE LEADERSHIP (2 credits)

This course is designed to provide students with competencies in the theory, concepts, and skills related to group exercise instruction and leadership. Students will explore both the dynamics of group participation and instructions across various modalities including; step, hi-low aerobics, cardio kickboxing, water aerobics, dance fitness, sports conditioning, indoor cycling, yoga, Pilates, and barre.

Prerequisite(s): PE 1800 or KINS 1800 with a grade of C- or better, School of H&K majors, Secondary Education majors with endorsements in Health/PE 7-12, and PE Pk-6th and 7-12

KINS 2220 THEORY AND PRACTICE OF TEACHING RESISTANCE TRAINING (2 credits)

This course is designed for the college student majoring in Exercise Science, Physical Education and related degrees to develop leadership skills necessary to teach safe and effective resistance training programs.

Prerequisite(s): PE 1800 or KINS 1800 with a grade of C- or better, School of H&K majors, Secondary Education majors with endorsements in Health/PE 7-12, and PE Pk-6th and 7-12

KINS 2310 TEACHING GAMES 1 (3 credits)

The purpose of this course is to help preservice physical education teachers facilitate enhanced performance, analysis, and tactical understanding of invasion games and field run/score games (e.g. basketball, soccer, team handball, football, speedball, ultimate Frisbee, hockey, softball, cricket, and modified kickball).

Prerequisite(s): Not open to non-degree graduate students.

KINS 2320 TEACHING GAMES 2 (3 credits)

The purpose of this course is to help preservice physical education teachers facilitate enhanced performance, analysis, and tactical understanding of net/wall games and lifetime activities (e.g. volleyball, badminton, tennis, racquetball, golf, archery, pickleball, table tennis).

Prerequisite(s): Not open to non-degree graduate students.

KINS 2330 OUTDOOR/ADVENTURE ACTIVITIES (3 credits)

The course will address the basic requirements for living comfortably and traveling in wilderness areas. Basic orienteering skills, team building activities, identifying and minimizing risks associated with outdoor pursuits, and environmental safety issues will be included.

Prerequisite(s): SED or ELED major, HED 3030 or PHHB 3030. Not open to non-degree graduate students.

KINS 2430 FOUNDATIONS IN KINESIOLOGY (3 credits)

This is an introductory course in kinesiology that includes an orientation to the profession and a consideration of current trends, problems and issues and their implications for the field of kinesiology. The course also examines the relationship of kinesiology to other cultures, general education, and global perspective.

Distribution: Social Science General Education course

KINS 2700 FUNDAMENTALS OF ATHLETIC TRAINING (3 credits)

An introduction to the field of athletic training as well as injury prevention and basic athletic training skills in wound care, taping/bracing, evaluation, and treatment.

Prerequisite(s): PE 1010 or KINS 1010, BMCH 2400, BMCH 2500 and admission into the Athletic Training Program. Not open to non-degree graduate students.

KINS 2800 MOTOR LEARNING (3 credits)

This course is the study of motor development, and the conditions and factors that influence the normal development and the learning of motor skills. Emphasis is placed upon normal developmental patterns and behaviors and learning principles throughout the life-span as it relates to a diverse American culture.

Prerequisite(s): PE 2430/KINS 2430 with a grade of C- or better, or ATHT majors, or permission of instructor

KINS 3000 SPECIAL PROJECTS (1-3 credits)

Conducted as short course, seminar, workshop or special project.

Prerequisite(s): The prerequisite for the special project will be determined by the instructor.

KINS 3010 SCIENTIFIC PRINCIPLES OF COACHING (3 credits)

Designed for coaches and potential coaches who are not physical education majors. Covers basic information to include kinesiology, physiology of exercise and behavioral aspects of coaching.

Prerequisite(s): For non physical education majors.

KINS 3040 PREVENTION AND CARE OF ATHLETIC INJURIES (3 credits)

This course covers selected topics related to the prevention and care of athletic related injuries. Emphasis will be placed on injury prevention through proper training, conditioning, nutrition and hydration strategies. Basic evaluation and treatment of athletic related injuries and legal aspects will also be covered.

Prerequisite(s): PE3010/KINS 3010, or BMCH 2400 or BIOL 2740, and HED3030/PHHB 3030 or current CPR certification and First Aid certification or departmental permission.

KINS 3060 METHODS OF PRESCHOOL AND PRIMARY SCHOOL PHYSICAL EDUCATION (3 credits)

The study of current methodology in developmentally appropriate preschool and primary school physical education. Candidates will use the assessment, planning, implementation and evaluation model in developing physical education programs for this age group.

Prerequisite(s): KINS 2800, EDUC 2510 or EDUC 2520 or TED 2400, 2.75 NU GPA

KINS 3110 INTRODUCTION TO DANCE (3 credits)

This course provides an introduction to dance as a performing art focusing on the choreographer, the dancer, the audience, the different dance genres and dance as a means of communication and expression.

KINS 3120 DANCE SOMATICS: AN INTEGRATED APPROACH TO UNDERSTANDING THE BODY IN MOTION (3 credits)

This course explores the body in motion through the lenses of various dance and movement theories, as well as self-reflection. Students will learn to move in an embodied way and understand the physiological, developmental, and psychological foundation of movement for dance.

Prerequisite(s): Not open to non-degree graduate students.

KINS 3130 CHOREOGRAPHY 1: INTRODUCTION TO CHOREOGRAPHIC TOOLS, ARTISTIC AESTHETICS, & PERFORMANCE ELEMENTS (3 credits)

This course explores the act of choreography as a medium for artist expression through improvisation, choreographic constructs, and content themes. Students will learn how to build ideas into choreographic dances through experimentation, structured frameworks, and feedback. Students will also present their work in a small performance at the conclusion of the semester.

Prerequisite(s): Not open to non-degree graduate students.

KINS 3140 SPORTS OFFICIATING (3 credits)

The general principles, basic guidelines, philosophy, mechanics and rules of officiating several team and individual sports will be covered.

KINS 3300 TEACHING DANCE IN THE SCHOOLS (3 credits)

The course is designed for physical education pedagogy majors, elementary teachers, and recreation leaders who are interested in obtaining the fundamentals of a variety of rhythmic and creative dance activities and their teaching methods for preschool through twelfth grade.

Prerequisite(s): EDUC 2010 or TED 2300 or TED 2380 or permission of instructor

KINS 3350 TEACHING & CURRICULUM DEVELOPMENT IN ELEMENTARY PHYSICAL EDUCATION (3 credits)

The study of teaching methodology and curriculum development in the elementary schools. Particular attention will be given to meeting the motor needs and interests of children aged 9-12. Assessing children's motor performance, prescribing activities, and evaluating the program effectiveness will be addressed.

Prerequisite(s): KINS 3060, KINS 3300, KINS 2310, TED 2400, 2.75 NU GPA

KINS 3480 ORGANIZATION AND ADMINISTRATION OF ATHLETICS (3 credits)

A study of the organization and administration of athletics in the secondary schools.

Prerequisite(s): Sophomore

KINS 3710 SWIMMING COACHING THEORY AND PRACTICE (3 credits)

This course is designed to develop the competencies essential to the successful coaching of swimming at all levels. The focus is on theory, swimming techniques, rules, safety, and coaching methods of competitive swimming.

KINS 3720 SOCCER COACHING THEORY & PRACTICE (3 credits)

A course of study designed to develop the competencies essential to the successful coaching of soccer. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection, and modern coaching theories specific to the sport of soccer.

KINS 3730 SOFTBALL COACHING THEORY AND PRACTICE (3 credits)

A course of study designed to develop the competencies essential to the successful coaching of fast pitch softball. The course will encompass the philosophy of coaching, coaching techniques, conditions/training activities and the analysis and correction of skills.

KINS 3740 VOLLEYBALL COACHING THEORY AND PRACTICE (3 credits)

A course of study designed to develop the competencies essential to the successful coaching of volleyball. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories.

KINS 3750 WRESTLING COACHING THEORY AND PRACTICE (3 credits)

A course of study designed to develop the competencies essential to the successful coaching of wrestling. The focus is on conditioning/training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories specific to the sport of wrestling.

KINS 3760 BASEBALL COACHING THEORY AND PRACTICE (3 credits)

A course of study designed to develop knowledge in all phases of the game. Special focus is on fundamentals, drills, managing and psychology of coaching.

KINS 3770 FOOTBALL COACHING THEORY AND PRACTICE (3 credits)

A course of study designed to develop the competencies essential to the successful coaching of football on all levels. The focus is on theory, history and origin, conditioning, safety techniques, coaching techniques, strategy, equipment selection and modern coaching theories.

KINS 3780 TRACK AND FIELD COACHING THEORY AND PRACTICE (3 credits)

A course of study designed to develop the competencies essential to the successful coaching of track and field. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories specific to the sport of track and field.

KINS 3790 BASKETBALL COACHING THEORY AND PRACTICE (3 credits)

A course of study designed to develop the competencies essential to the successful coaching of basketball. The focus is on conditioning training activities, coaching techniques, competition strategies, equipment selection and modern coaching theories specific to the sport of basketball.

KINS 3800 HOCKEY COACHING THEORY (3 credits)

An introductory course in the developing the desirable attributes of hockey players, rules of the game, fundamental skills and systems of ice hockey as well as the study of key principles in successful players. Basic offensive and defensive strategies will be discussed. Also discussed will be the evolution of the sport and its equipment.

KINS 3900 MOTIVATION FOR PHYSICAL ACTIVITY (3 credits)

The central purpose of this course is to examine the psychological basis of exercise and physical activity. The majority of the course will focus on traditional theories principles of psychology as they relate to exercise. Emphasis is placed on understanding the motives underlying involvement in exercise and physical activity and the psychological benefits derived from acute and chronic involvement in an exercise program. Throughout the course, consideration will be given to theoretical models, research findings, and practical application of the concepts to a variety of performance settings.

Prerequisite(s): PSYC 1010 with a grade of C- or better.

KINS 4000 TEACHING & CURRICULUM DEVELOPMENT IN SECONDARY PHYSICAL EDUCATION (3 credits)

This course is designed to develop candidates' competencies in physical education instructional methodology and curriculum development. Analysis of teacher behavior and selection of content and materials will be examined. Candidates will be introduced to and will implement various methods of teaching physical education at the secondary level so as to develop the skills to become an effective teacher.

Prerequisite(s): KINS 2310, KINS 2320, KINS 2330, KINS 3300, TED 2400, 2.75 NU GPA

KINS 4010 LABORATORY METHODS IN EXERCISE SCIENCE (6 credits)

This course will provide students an opportunity to achieve competency in operating various pieces of equipment typically used in biomechanics and exercise physiology laboratories. The students will gain experience in interpreting the results of the tests administered, and writing exercise prescriptions based upon those results. Students must have current CPR certification.

Prerequisite(s): BMCH 2500 or BIOL 2840, BMCH 4630, PE 4940 or KINS 4940, CPR certification, department consent; must be School of H&K major or ATHT major. Students cannot complete KINS 4010 and KINS 4800 in the same term.

KINS 4050 EXERCISE AND SPORT NUTRITION (3 credits)

This course presents an overview of the principles of nutrition and the relationship between nutrition and health, fitness, and sports performance. It is designed to provide students with the knowledge and skills necessary to assess nutritional status, improve overall health, and enhance sports performance. (Cross-listed with KINS 8056).

Prerequisite(s): HEKI 3090

KINS 4070 OPTIMIZING SPORTS PERFORMANCE (3 credits)

The course is designed for coaches, athletes and physically active people, and allied health professionals. Course content emphasizes integration of several disciplines in sports medicine aimed at preparing one for optimal sports performance. Topics include peaking, detraining, overuse injury, efficiency, special foods and nutritional requirements, genetics and trainability, and designing of multi-year training schedules. (Cross-listed with KINS 8076).

Prerequisite(s): PE 4940/KINS 4940 with a grade of C- or better.

KINS 4080 CLINICAL EXERCISE PHYSIOLOGY (3 credits)

This course will offer students the knowledge, skills, and abilities to take the American College of Sports Medicine's health fitness instructor certification exam. This course will emphasize health risk assessment, exercise testing, and exercise prescription for healthy and clinical populations. (Cross-listed with KINS 8086).

Prerequisite(s): PE 4940/KINS 4940 with a grade of C- or better.

KINS 4100 APPLIED KINESIOLOGY (3 credits)

This course will introduce students to the use of basic theories and principles of movement analysis from a kinesiological perspective. Students will apply anatomical knowledge to break down movement from a broad spectrum of activities.

Prerequisite(s): BMCH 2400 or PE 2880 or BIOL 2740 or equivalent and sophomore standing

Distribution: Writing in the Discipline Sequenced Course

KINS 4150 ADAPTED PHYSICAL ACTIVITY THEORY AND PRACTICE (3 credits)

A study of problems as they relate to philosophy, procedures and practices, and organization and administration of physical education & physical activity programs for exceptional students. This course surveys societal issues surrounding adaptive sports and recreation along with movement problems associated with specific disabilities. This course also provides the student with an opportunity to work with an individual who has a disability.

Prerequisite(s): PE 2800 or KINS 2800 with a grade of C- or better and Jr Standing and PYED major or TED 2300 and TED 2380 and Special Education or Secondary Education major with endorsement codes: 0802S or 0802C or 1913S

Distribution: U.S. Diversity General Education course

KINS 4200 PLANNING WORKSITE WELLNESS PROGRAMS (3 credits)

This course will focus on the planning of quality worksite wellness programs utilizing standards established by the Association for Worksite Health Promotion. Steps in the planning process such as needs assessment, strategic planning, implementation, and evaluation will be taught with special application to the worksite. Critical issues involving worksite programs also will be addressed such as upper management support, program standards, corporate culture, competencies for worksite health promotion professionals, economic benefits, behavioral theories, legal issues, and the integration of worksite wellness programs and health care. (Cross-listed with KINS 8206).

Prerequisite(s): Junior standing.

KINS 4310 LOWER EXTREMITY EVALUATION (3 credits)

This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the low back, hip, and lower extremities. (Cross-listed with KINS 8316).

Prerequisite(s): PE 2700 or KINS 2700 and PE 4710 or KINS 4710. Not open to non-degree graduate students.

KINS 4320 UPPER EXTREMITY EVALUATION (3 credits)

This course is designed to provide the candidate with knowledge and skill in the area of advanced athletic injury assessment. The candidate will be exposed to current methodology in the field of orthopedic assessment, pathophysiology of orthopedic injury, and application of current research in injury evaluation. The candidate will receive practical experience in the management of athletic injuries. This course will focus on the head, neck, thorax, and upper extremities. (Cross-listed with KINS 8326).

Prerequisite(s): PE 4310/KINS 4310, PE 4330/KINS 4330, and PE 4720/KINS 4720. Not open to non-degree graduate students.

KINS 4330 ATHLETIC THERAPEUTIC MODALITIES (3 credits)

This course will cover the theory, physiology and application of physical agents used in the treatment of injuries and illness. Students will gain practical experience utilizing selected agents to treat injuries and illnesses. (Cross-listed with KINS 8336).

Prerequisite(s): PE 2700 or KINS 2700 and PE 4710 or KINS 4710. Not open to non-degree graduate students.

KINS 4350 ORGANIZATION AND ADMINISTRATION OF ATHLETIC TRAINING (3 credits)

Administration of athletic training programs including the use of records and forms, budgets, facility design and legal concerns. (Cross-listed with KINS 8356).

Prerequisite(s): PE 4340/KINS 4340, PE 4320/KINS 4320

KINS 4360 ORTHOPEDIC AND MEDICAL ASPECTS OF ATHLETIC TRAINING (3 credits)

This course will enhance the candidate's knowledge of orthopedic and medical aspects of athletic training. Involves directed observation, experiential learning, literature review and hands-on experience under the supervision of local medical professionals in various settings. The student will be exposed to advanced evaluation and treatment skills, including imaging techniques and surgical procedures, rehabilitation and athletic training management.

Prerequisite(s): PE 4320/KINS 4320 and PE 4340/KINS 4340

KINS 4500 BEHAVIORAL ASPECTS OF COACHING (3 credits)

This course is designed to provide the physical education teacher and athletic coach with an overview of the behavioral aspects of coaching athletes. The course will provide information which will enable the coach to enhance as well as orchestrate performance of elementary, junior high, senior high, college, and post-college athletes. (Cross-listed with KINS 8506).

KINS 4700 FITNESS MANAGEMENT (3 credits)

This course is an introduction to management concepts for fitness professionals such as human resource management, financial management, marketing, and facility risk management. Assessment, development, prescription, implementation, and evaluation strategies will be presented for each management concept. Students will develop the knowledge and skills necessary to orchestrate and manage high quality programs in various fitness settings.

KINS 4710 CLINICAL PRACTICUM IN ATHLETIC TRAINING I (1 credit)

Clinical Practicum in Athletic Training I is the first course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Students will demonstrate skills and proficiencies in emergency procedures and the basic therapeutic modalities.

Prerequisite(s): Formal admission to the Athletic Training Program, instructor permission, & continued compliance w/published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 2700/KINS 2700. Not open to non-degree graduate students.

KINS 4720 CLINICAL PRACTICUM IN ATHLETIC TRAINING II (1 credit)

Clinical Practicum in Athletic Training II is the second course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Students will demonstrate advanced proficiencies in emergency procedures and initial proficiencies in lower extremity evaluation and application of therapeutic modalities.

Prerequisite(s): Formal admission to Athletic Training Program, PE 4710/KINS 4710, instructor permission, compliance w/ published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 4310/KINS 4310 & PE 4330/KINS 4330

KINS 4730 CLINICAL PRACTICUM IN ATHLETIC TRAINING III (1 credit)

Clinical Practicum in Athletic Training III is the third course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Emphasis on mastery of skills and proficiencies in lower extremity care and initial proficiency in upper extremity evaluation and care.

Prerequisite(s): Formal admission to Athletic Training, PE 4720/KINS 4720, instructor permission, compliance w/published Athletic Training Technical Standards for Admission. Co-requisite: PE 4320/KINS 4320 & PE 4340/KINS 4340. Not open to non-degree graduate students.

KINS 4740 CLINICAL PRACTICUM IN ATHLETIC TRAINING IV (1 credit)

Clinical Practicum in Athletic Training IV is the fourth course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Emphasis on mastery of upper extremity evaluation and care and skills in medical exam techniques, pharmacology and interviewing.

Prerequisite(s): Formal admission to Athletic Training Program, PE 4730/KINS 4730, instructor permission, & compliance with published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 4360/KINS 4360. Not open to non-degree graduate students.

KINS 4750 CLINICAL PRACTICUM IN ATHLETIC TRAINING V (1 credit)

Clinical Practicum in Athletic Training V is the fifth course in the Clinical Practica series for students admitted to the Athletic Training Program. Students will perform required clinical experiences under the supervision of a licensed athletic trainer in order to improve clinical and decision-making skills. Emphasis on mastery of skills in medical examination techniques and administrative tasks.

Prerequisite(s): Formal admission to the Athletic Training Program, PE 4740/KINS 4740, instructor permission, & compliance w/published Athletic Training Program Technical Standards for Admission. Co-requisite: PE 4350/KINS 4350. Not open to non-degree graduate students.

KINS 4800 KINESIOLOGY PRACTICUM (3 credits)

This practicum places the candidate in the role of an exercise leader in a Fitness for Living class. During this experience the candidate will participate in a seminar which will meet three days a week. Responsibilities in the role of an exercise leader will include: direct contact with students enrolled in this class during all lectures and activities and exercise leadership and supervision, fitness testing, and class presentations. During the seminar sessions the candidates will participate in discussions, group activities, and share experiences relative to their exercise leadership roles. Candidates must have current CPR certification.

Prerequisite(s): PE 2210/KINS 2210, PE 2220/KINS 2220, BMCH 2500 or BIOL 2840, BMCH 4630 or KINS 4100, PE 4940/KINS 4940, CPR certification and department consent. Students cannot complete KINS 4010 and KINS 4800 in the same term.

KINS 4850 CARDIOVASCULAR DISEASE PREVENTION AND REHABILITATION (3 credits)

The purpose of this course is to provide candidates with an introduction to the theories and practices involved in all phases of cardiac rehabilitation. (Cross-listed with KINS 8856).

Prerequisite(s): PE 2500/KINS 2500 with a grade of C- or better or BIOL 2840 with a grade of C- or better, PE 4940/KINS 4940 with a grade of C- or better

KINS 4910 INTERNSHIP IN KINESIOLOGY (3 credits)

This course is a supervised, educational work experience of at least 150 clock hours over at least a ten week period at an approved worksite offering programs and experiences in all areas of kinesiology and health promotion.

Prerequisite(s): PE 4800 or KINS 4800, 2.5 GPA, CPR Certification, and department consent

KINS 4930 MEASUREMENT AND EVALUATION IN KINESIOLOGY (3 credits)

This course is designed to present the theory and application of measurement and evaluation techniques commonly used in physical education, exercise science, physical activity, and health promotion. Appropriate test selection, administration, and the interpretation of results with fundamental statistical methods will be emphasized. Students will participate in selected practical testing and measurement procedures.

Prerequisite(s): PE 4940 or KINS 4940 with a grade of C- or better

KINS 4940 PHYSIOLOGY OF EXERCISE (3 credits)

A study of the major physiological systems of the human body and its acute and chronic responses to exercise. Includes application of physiological concepts to physical training and conditioning.

Prerequisite(s): BMCH 2400 or BIOL 2740 with a grade of C- or better and sophomore standing. School of H&K majors or Human Performance minors only, or with department approval.

Distribution: Writing in the Discipline Sequenced Course

KINS 4960 TOPICS IN SPORTS MEDICINE (3 credits)

This course covers selected topics regarding the science and medicine of sports participation. Some areas to be covered include the medical supervision of the athlete, special populations, conditioning, environmental concerns and sports nutrition.

Prerequisite(s): PE 4340/KINS 4340, PE 4350/KINS 4350, and PE 4730/KINS 4370; or instructor permission

KINS 4970 PROBLEMS OF PHYSICAL EDUCATION (1-3 credits)

This course is designed to provide an opportunity for individuals or groups to study problems in physical education.

Prerequisite(s): Permission of instructor

KINS 4980 COACHING PRACTICUM (1 credit)

This course is designed to give the candidate practical experiences in the coaching of specific sports.

Prerequisite(s): Junior standing and related coaching methods course. Permission of instructor

KINS 4990 INTERNSHIP IN ATHLETIC TRAINING (6 credits)

This course is a supervised, educational work experience of at least 300 clock hours over a minimum of a 10-week period at an approved athletic training worksite.

Prerequisite(s): 90 hours completed, 2.5 GPA and department consent

PEA 111A RACQUETBALL (1 credit)

This course is designed to develop the fundamental skills and knowledge of the sport of racquetball.

PEA 111B TENNIS (1 credit)

This course is designed to develop the fundamental skills and knowledge of the game of tennis. Included will be the fundamental skills and strategies of playing the game.

PEA 111C GOLF (1 credit)

This course is designed to develop the fundamental skills and knowledge of the game of golf.

PEA 111D JUDO (1 credit)

A basic judo course designed primarily for men and women students with limited experience in judo. The course includes techniques of falling, self-balance, body management, disturbing opponent's balance, throwing techniques, techniques of pins, recognition of choking and armlocks, and judo principles for self-defense and individual sport techniques.

PEA 111E SELF-DEFENSE (1 credit)

This is a self defense course designed primarily for men and women students with little experience in self defense.

PEA 111F TAEKWONDO (1 credit)

Originally designed as a means of self-defense. Taekwondo is also excellent for physical conditioning, increasing agility, and building self-confidence. The purpose of the course is to introduce the student to the basic techniques and philosophies of Taekwondo.

PEA 111G BASIC HAPKIDO (1 credit)

In addition to the kicks and strikes normally associated with Oriental martial arts, Hapkido adds throws, take-downs, and restraint and submission holds. Hapkido is also excellent for physical conditioning, increasing agility, and building self-confidence. The purpose of the course is to introduce the student to the basic techniques and philosophies of Hapkido.

PEA 111H WEIGHT TRAINING/BODY CONDITIONING (1 credit)

The course is designed to develop the skills and knowledge necessary to begin and participate in a program of weight lifting as a lifelong activity.

PEA 111I ADVANCED WEIGHT TRAINING (1 credit)

The course is designed to enhance weightlifting and conditioning skills to an advanced level from skills already possessed by the student.

PEA 111N KICKBOXING (1 credit)

The course is a combination of boxing and kicking techniques and total body conditioning. It will focus on low, moderate, and/or high impact movements. The course will concentrate on safe and effective exercises that will develop the aerobic endurance and strength of the student. Students will utilize hand-wraps, gloves, focus mitts, and kicking shields during the course.

PEA 111O MULTICULTURAL DANCE (1 credit)

This course is designed to provide students with an introduction to dances from Europe, Asia, Africa, and North and South America.

PEA 111P MODERN DANCE (1 credit)

This course for men and women students is designed to develop technique in modern dance and acquire a brief knowledge, understanding, appreciation of modern dance, its history, and composition.

PEA 111Q BALLET (1 credit)

The course introduces the student to basic ballet technique and fosters an appreciation for ballet as an art form.

PEA 111R JAZZ I (1 credit)

The course is designed to introduce the student to various fundamental techniques in jazz dance and to incorporate these techniques into dance sequences.

PEA 111S RELAXATION TECHNIQUES (1 credit)

This course involves discussion about stress and its health related aspects. The focus is on demonstration and practice of selected stress management skills.

PEA 111T YOGA I (1 credit)

This course actively covers the scope of hatha yoga through both demonstration and participation as well as historical review of yoga.

PEA 111U YOGA II (1 credit)

This course actively continues to cover the scope of hatha yoga through both demonstration and participation as well as historical review of yoga.

PEA 111V BEGINNING/INTERMEDIATE SWIMMING (1 credit)

This course in Beginning and Intermediate Swimming is designed to expose the student to the basic skills involved in safe and efficient aquatics practices. Skills and information dealing with general water safety will be covered in order to create an awareness of the cause and prevention of water accidents, to develop a desire to be safe and to encourage healthy and safe water recreation.

PEA 111W SCUBA (1 credit)

SCUBA is an exciting, lifetime recreational activity that you can enjoy anywhere in the world and opens the doors to future tracks such as Marine Biology, Engineering, Physical Sciences and more. This course teaches students the basics of open water diving including equipment preparation, pre-dive safety checks, assembly and maintenance, underwater dive safety including ascents, buoyancy, emergency preparation and much more. Included in the course fee are the digital materials, logbook, purchase of snorkel gear and use of the pool and other necessary gear. During the nine sessions at Diventures you will complete the classroom, pool work and open water training to provide you a lifetime Open Water Diver certification from Scuba Schools International (SSI). Classroom and Pool are to be held at Diventures. The training dives are to be held the following weekend, weather dependent.

Prerequisite(s): A Medical Statement & Questionnaire (before the course) and Water Fitness Evaluation (Swim Assessment and Survival Float - during the course) must be completed.

PEA 111X BASKETBALL (1 credit)

This course is designed to develop the fundamental skills and knowledge of the game of basketball.

PEA 111Z BACKPACKING & CAMPING (1 credit)

This course is designed to introduce the student to backpacking and orienteering in order to provide the students with an appreciation for the outdoor environment.

PEA 112A SWIM CONDITIONING (1 credit)

This course in Swim Conditioning is designed to expose the participants to the benefits and variety of swimming as a lifetime fitness exercise.

Prerequisite(s): Participants should have the ability to continuously swim 25 yards.

PEA 112C POWER YOGA (1 credit)

This course provides an exercise program based on traditional yoga poses (asanas) in a continuous series of exercises. The course will concentrate on safe, effective, exercise that will develop the cardiovascular fitness, muscular strength, endurance and flexibility of the student.

PEA 112D PILATES MATWORK (1 credit)

This course is based on a method of exercise developed by Joseph H. Pilates. The course will concentrate on safe, effective exercise that will develop the cardiorespiratory fitness, muscular strength, endurance and flexibility of the student.

PEA 112E JAZZ II (1 credit)

The course is designed to build upon the techniques learned in Jazz Dance I.

Prerequisite(s): PEA 111R or permission of instructor

PEA 112F ROCK CLIMBING (1 credit)

This class focuses on the basic knowledge and skills necessary for the sport of rock climbing. Topics covered will include protecting the climber from falling, movement on the rock, rappelling, and an introduction to anchor setting and ethics. Each topic will emphasize risk management and current accepted technique in the field.

PEA 112G BALLET II (1 credit)

The course builds on the work introduced in Ballet I. While still basic, there is increased complexity as the student begins to demonstrate greater ability.

Prerequisite(s): PEA 111Q or permission of instructor

PEA 112H BALLROOM DANCE I (1 credit)

This course is designed to introduce the student to various fundamental techniques in Ballroom social dance and to incorporate these into basic Ballroom, Latin, and Swing dances.

PEA 112I TAI CHI FOR MOVEMENT IMPROVEMENT (1 credit)

This course is designed to teach students various forms of Tai Chi. There will be emphasis on balance, coordination, flexibility, relaxation, and strength. It is designed for all levels of ability.

PEA 112J MODERN DANCE 2 (1 credit)

The course is designed to further the student's study of modern dance techniques.

Prerequisite(s): PEA 111P or permission of instructor. Not open to non-degree graduate students.

PEA 112K SOCCER (1 credit)

This course is designed to develop the fundamental skills and knowledge of the game of soccer.

PEA 112L WALKING/JOGGING (1 credit)

This course is designed to help the students improve personal fitness through walking and jogging.

PEA 112M VOLLEYBALL (1 credit)

This course is designed to develop the fundamental skills and knowledge of the game of volleyball.

PEA 112N ZUMBA (1 credit)

Zumba is a fitness program inspired by Latin dance. Zumba combines Latin rhythms (salsa, bachata, merengue, and chachacha.) with cardiovascular exercise to create an aerobic routine that is fun and easy to follow.

PEA 112O BALLROOM DANCE II (1 credit)

The course is designed to further the student's study of Ballroom Dance techniques.

Prerequisite(s): PEA 112H or permission of instructor

PEA 112P INDOOR CYCLING (1 credit)

This activity course is an indoor stationary cycling program. It is a high intensity, cardiovascular fitness program designed to promote lifetime fitness.

PEA 112Q HIP HOP (1 credit)

This course is designed to give students a beginning understanding and appreciation of hip hop dance.

PEA 112R NET GAMES (1 credit)

This course is designed to teach students the fundamental skills and rules of Badminton, Tennis, Pickleball, and Table Tennis.

PEA 112S CROSS-TRAINING (1 credit)

This course is designed to develop the technique, fitness level and knowledge base to effectively participate in cross-training activities. Individuals will be exposed to a variety of methods such as, but not limited to, plyometrics, agility training, kettlebells, and core training.

PEA 112T ADVANCED MARTIAL ARTS (1 credit)

The purpose of this course is to expand upon the basic techniques and philosophies presented in the UNO Martial Arts Introductory classes. The class will review the basic concepts and techniques taught in the introductory classes which may be new to the student depending on the introductory class experience of the student.

Prerequisite(s): PEA 111G, PEA 111F, or PEA 111D; or instructor consent.

PEA 112U QI GONG (1 credit)

This course actively covers the scope of Qi Gong through demonstration and participation as well as through a systematic elucidation of the history and theoretical underpinnings of Qi Gong.

PEA 112V MINDFULNESS MEDITATION (1 credit)

This course actively covers the scope of Meditation practices, including Mindfulness, through demonstration, lecture, discussion, and participation. Various methods will be taught, as well as the history, philosophy and practices of meditation. Contemporary research will also be discussed.

PEA 112W TAP I (1 credit)

The course is designed to introduce the student to various fundamental techniques in tap dance and to incorporate these techniques into dance sequences.

PEA 112X BARRE FITNESS (1 credit)

This is a fitness course that utilizes safe barre exercises to develop muscular endurance, flexibility, and neuromotor training. The course will concentrate on integrating the use of the ballet barre, light weights, and various props.

PEA 113A BEGINNING ICE SKATING (1 credit)

This course is designed for beginning ice skaters. Instructional emphasis will be placed on safely learning the life-long activity of ice skating. Students will develop an understanding of the basic principles and terminology of the sport of ice skating, improve on any current ice skating skills, and develop new skills such as forward and backward skating, crossovers, turns, and stops.

PEA 1130 ADAPTED PHYSICAL EDUCATION (1 credit)

This course is designed to provide an opportunity for independent physical education activity for a disabled person.

Prerequisite(s): A disability which does not allow participation in regularly scheduled physical education activity courses.

PHHB 1500 FOUNDATIONS IN PUBLIC HEALTH (3 credits)

An introductory course for public health majors and other interested students, that examines the foundations of public health. The course includes an orientation to the process and the professions of public health and a consideration of current trends, problems and issues and their implications for public health professionals. The course will help candidates develop the knowledge, skills, competencies, and attitudes necessary to orchestrate an environment for positive public health.

Distribution: Social Science General Education course

PHHB 2070 SUBSTANCE ABUSE AND MISUSE: PREVENTION AND MANAGEMENT (3 credits)

An introduction to the effects and rationales of drug use, misuse, and abuse. Included are the physiological, psychological, sociological, pharmacological, and legal aspects of drugs in a culturally diverse United States and abroad.

PHHB 2310 HEALTHFUL LIVING (3 credits)

A study of selected health problems and issues in our society as related to knowledge, attitudes, and behaviors necessary for healthful living in a culturally diverse society.

PHHB 2850 STRESS MANAGEMENT (3 credits)

The health-related aspects of stress will be the focus of this course. Selected techniques for the self-regulation of stress will be demonstrated, practiced, and analyzed. Pressures from the culturally diverse United States and implications of a global society will be analyzed. Students will develop skills and competencies necessary to create a learning environment conducive to reducing stress.

PHHB 3000 SPECIAL PROJECTS (1-3 credits)

This course is designed to provide an opportunity to study a topic in public health through short course, seminar, workshop, or special project.

Prerequisite(s): The prerequisite for the special project will be determined by the instructor.

PHHB 3030 FIRST AID (3 credits)

Designed to give students knowledge and skill in implementing immediate, temporary treatment in case of injury or sudden illness before the services of a physician. Upon successful completion of the course, a student will receive a standard first aid and cardiopulmonary resuscitation certificate.

PHHB 3060 PROMOTING POSITIVE HEALTH (3 credits)

The focus of this team taught, experiential course will be assisting individual students: a) determine what wellness and mindfulness changes they wish to make in their lives; b) assisting them in acquiring the skills and learning about theories of how to effectuate change, and c) assisting them in making the change.

Prerequisite(s): HPER 3090/HEKI 3090, HPER 2850/HEKI 2850, and Holistic Health - Eastern Perspectives. At least two of the following: PEA 111T, PEA 112I, PEA 112U, or PEA 112V One additional PEA course (may not be from the previous category or basketball or volleyball)

PHHB 3070 DEATH AND DYING (3 credits)

An interdisciplinary survey of literature in the field of thanatology, with an emphasis on working with the older patient and his or her family. (Cross-listed with GERO 3070).

PHHB 3080 HUMAN SEXUALITY (3 credits)

An examination of factors influencing sexual development. Emphasis is given to topics pertinent to healthful living in today's culturally diverse, global society. (Cross-listed with WGST 3080).

PHHB 3310 INJURY PREVENTION IN PUBLIC HEALTH (3 credits)

This course is designed to explore public health strategies for the development and maintenance of safe physical environments with a focus on prevention of intentional and unintentional injuries. It explores a multitude of safety programs for school, business, recreation, transportation, and the home.

PHHB 4000 METHODS AND MATERIALS IN HEALTH EDUCATION (3 credits)

This course will provide an opportunity to study, develop and use different materials and equipment in public health. Various methods of teaching health will be practiced and evaluated. Candidates will be able to gain classroom and field experience (service-learning) in planning lessons and presentations.

Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4040 EPIDEMIOLOGY & PREVENTION OF DISEASE (3 credits)

The course is designed for public health students and others who are interested in public health. The cause, prevention, treatment and control of prevalent communicable and non-communicable disease in a culturally diverse and global society will be emphasized. Special emphasis will be given to diseases and health problems that can be prevented or controlled through public health initiatives.

Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4050 INTRODUCTION TO RESEARCH IN PUBLIC HEALTH (3 credits)

This course will assist students to develop the basic skills to read and evaluate applied research to address contemporary problems in public health. The course will provide an introduction to proposal writing, data collection, research design, statistical analysis, and computer application. Unique problems associated with data collection in public health settings such as public health departments, neighborhood health centers, and community based organizations will be addressed.

PHHB 4060 SCHOOL HEALTH PROGRAMS (3 credits)

The purpose of this course is to provide information and strategies for planning, implementing, and evaluating Coordinated School Health Programs (CSHP) for diverse cultural groups. Content includes an overview of school health programs, the essential functions of each of the eight components, the role of national and state organizations in working with local agencies and school districts in promoting the development of comprehensive school health programs.

Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4130 COMMUNITY HEALTH (3 credits)

A survey course of community health issues. The basics of epidemiology/statistical sciences, environmental health, managerial/administrative sciences, and behavioral/social sciences for community health are examined. Public health candidates will gain skills needed to develop and manage community health programs.

PHHB 4200 A PUBLIC HEALTH APPROACH TO MENTAL HEALTH (3 credits)

This public health course will help students think critically about the prevention, identification, and treatment of mental illness in the United States. Students will be introduced to concepts from the disciplines of public health, psychology and sociology to understand mental health disorders and their impact on population health. Students will explore health disparities through the lens of cultural, social, behavioral, psychological, and economic factors. Students will recognize that mental health exists on a continuum and develop skills to address environmental influences on behavior. (Cross-listed with PHHB 8206).

PHHB 4280 SOCIAL MARKETING FOR PUBLIC HEALTH (3 credits)

This course will introduce students to current theory, practices and resources in the field of social marketing as it relates to public health. Students will analyze and implement social marketing techniques.

Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4400 HEALTH LITERACY (3 credits)

This course is designed to provide students with the competencies to reduce problems associated with low health literacy. The two primary foci will be strategies to help patients and other health consumers improve their health literacy, and strategies to help health providers and health educators communicate in a manner that can be understood by all persons regardless of their health literacy

PHHB 4420 PUBLIC HEALTH INFORMATICS (3 credits)

Students will learn the implementation, operation, and application of health information systems. Students will explore the legal and ethical issues surrounding health informatics and patient records, management and communication in health informatics, and social and organizational issues pertaining to health informatics.

Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4550 HEALTH ASPECTS OF AGING (3 credits)

This course emphasizes health promotion for older adults. Special health needs of older Americans are compared and contrasted with health needs for other age groups. Prevention or delaying of chronic diseases and disorders are emphasized. (Cross-listed with GERO 4550 and GERO 8556 and PHHB 8556 and WGST 4550).

PHHB 4650 GLOBAL HEALTH (3 credits)

This course will explore contemporary health problems around the world with particular emphasis being placed on problems experienced by developing countries. The political, economic, social, geographical, biological aspects of the problems and possible solutions will be addressed.

Distribution: Global Diversity General Education course

PHHB 4700 WOMEN'S HEALTH AND ISSUES OF DIVERSITY (3 credits)

This course provides a critical understanding of the inter-relationship between socio-cultural, economic, and political factors and women's physical and mental health. The aim is to provide an overview of the experience with the health care system. Emphasis will be on critically examining recent scholarship from a sociological, behavioral, health policy perspective. (Cross-listed with PHHB 8706, SOC 4700, SOC 8706).

Distribution: U.S. Diversity General Education course

PHHB 4880 PUBLIC HEALTH POLICY (3 credits)

This course provides an overview of the U.S. health system, and an introduction to the skills necessary to address health policy issues. Students will develop a working knowledge of health services terminology, recognize basic health care concepts, distinguish between various components of the health care delivery system and be able to apply concepts learned in the analysis of a public health problem.

Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4950 PUBLIC HEALTH LEADERSHIP AND ADVOCACY (3 credits)

This course reviews public health leadership concepts and practices that prepare candidates to fulfill professional roles as advocates and leaders in the health field. Politics and power structure in communities and organizations are addressed. The processes through which changes in the political, economic, organizational, and physical environment related to health status and health behavior are brought about will be addressed. Media advocacy, the legislative process, community organization, and coalition development will be explored as means of environmental change.

Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4960 PUBLIC HEALTH - PLANNING AND ORGANIZATION (3 credits)

The course is designed to provide public health students an understanding of planning and organization in public health. The use of planning tools including social assessment methods, epidemiological methods, behavioral methods, organizational methods, administrative methods and evaluation procedures for public health initiatives will be included. Grant writing components will be emphasized.

Prerequisite(s): HED 1500 or PHHB 1500

PHHB 4970 PROBLEMS OF HEALTH EDUCATION (1-3 credits)

This course is designed to provide an opportunity for individuals or groups to study problems in health education.

Prerequisite(s): Permission of instructor.

PHHB 4990 INTERNSHIP IN PUBLIC HEALTH (3 credits)

This internship provides on-the-job training for public health students in a cooperative program with state and local health departments or other appropriate community and public health agencies. Direct field experience is completed by the student under the supervision of an experienced practitioner in an approved public health agency.

Prerequisite(s): Completion of or current enrollment in core courses, GPA of 2.5 or above in required courses, and no grade below a C in required courses, and permission of instructor.

RLS 2440 FOUNDATIONS OF RECREATION AND LEISURE (3 credits)

A survey approach to the recreation, leisure services, parks professional field to include the historical philosophical bases of the overall profession. Provides the necessary foundational knowledge for majors as well as candidates within other areas of study.

RLS 2500 OUTDOOR RECREATION (3 credits)

A survey of the dynamics of outdoor recreation in American life. Designed to guide candidates through a learning experience that results in an introduction to and a broad-based understanding and appreciation of outdoor recreation.

RLS 3100 SOCIAL ASPECTS OF SPORT AND LEISURE (3 credits)

A critical examination of the function and significance of sports within the overall leisure behavior patterns of Western society. Recreational sport, sport spectatorship, and competitive athletics are considered from the dominant theoretical perspectives within sociology.

Prerequisite(s): Six hours of social science or permission.

RLS 3500 FOUNDATIONS OF RECREATION THERAPY (3 credits)

An introduction to therapeutic recreation services as a specialized field within recreation. Course content touches on the majority of the special populations recognized within American society. An in-depth survey approach is utilized.

RLS 4070 CAMPUS RECREATION MANAGEMENT (3 credits)

A review of the knowledge, skills, and abilities required for the management of typical campus recreation programs and facilities. This course will prepare students for entry level positions managing campus recreation employees, programs, facilities and services. (Cross-listed with RLS 8076)

RLS 4100 FACILITY DESIGN AND MANAGEMENT (3 credits)

This course is designed to acquaint the recreation major or practitioner with the knowledge and certifications necessary to maintain and operate a recreation building including all major activity areas using the latest standards and technology. Attention will be devoted to the design and management process, including terminology, court specifications, handicapped accessibility, and swimming pool operation.

RLS 4240 RECREATION ADMINISTRATION (3 credits)

Designed to provide a background of information on public, private, and commercial recreation with special attention to organization, promotion, and development from the administrative aspect. (Cross-listed with RLS 8246)

Prerequisite(s): RLS Major and Senior status

RLS 4300 RECREATION PROGRAMMING AND LEADERSHIP (3 credits)

An advanced study of recreational programming and leadership through practical applications. Emphasis is placed upon understanding proven programming and leadership knowledge and skills; understanding participant leisure behavior; understanding participant leisure needs; and skill development in ways through which organization, agencies and businesses create services to respond to the leisure needs of the consumer. (Cross-listed with RLS 8306)

Prerequisite(s): Junior, Senior or Graduate Standing

RLS 4400 TRAVEL AND TOURISM (3 credits)

This course is designed to provide the recreation major or practitioner, and other interested candidates, with an awareness of the major components of the travel and tourism industry, including its costs and benefits to a resident community. (Cross-listed with RLS 8406)

Prerequisite(s): Junior Standing.

RLS 4420 RECREATION FOR THE AGING (3 credits)

Role of leisure services as related to understanding and working with elders. Emphasis on recreation programming as a mode of intervention. Analysis and study of the phases of aging, with reference to psychomotor, affective, and cognitive changes; introduction to the theories of aging and how they relate to the lifestyle of this population; recreational therapy intervention, activity adaptation and program design; leisure education and issues and trends. (Cross-listed with RLS 8426, GERO 4420, GERO 8426)

RLS 4550 PRACTICUM I (6 credits)

Practical learning experience in leisure service delivery under close University and agency supervision.

Prerequisite(s): Senior, 2.5 GPA and department consent.

RLS 4560 PRACTICUM II (6 credits)

Practical learning experience in leisure service delivery under close University and agency supervision.

Prerequisite(s): Senior, 2.5 GPA and department consent.

RLS 4970 PROBLEMS OF RECREATION (1-3 credits)

The purpose of this course is to provide an opportunity for candidates to participate in special conferences on problems in the field of recreation and to further professional improvement and growth beyond the normal four-year undergraduate program.

Prerequisite(s): Permission of instructor.

Public Health, Bachelor of Science

Degree Description

The public health program prepares students to become professionals who promote the health of local, national, and global populations through education and skills for individuals and communities. A degree in public health prepares students to think critically about societal issues through a justice-based framework, and public health professionals engage in advocacy for policies that ensure and support healthy populations. Students who graduate with a degree in public health pursue careers in a variety of fields, including health administration; health promotion, and behavior; epidemiology; and environmental health. Students are also prepared to pursue graduate degrees in public health or related fields.

Admissions

Students must have a cumulative and major GPA of at least 2.5.

Fast Track Program

The School of Health and Kinesiology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor’s degree and a master’s degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a BS in Public Health major desiring to pursue a MS in Health & Kinesiology with a Health Behavior concentration, or those pursuing a BS in Kinesiology major desiring to pursue a MS in Health & Kinesiology with an Exercise Science concentration.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.
- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.

- The admit term must be after the completion term of the undergraduate degree.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

Kinesiology, Bachelor of Science in Kinesiology Degree Description

The kinesiology major is designed to prepare students to assume positions as fitness or health promotion directors and exercise consultants in private or public agencies, health centers, cardiac rehabilitation programs, as well as corporate fitness programs. This major is also well-suited as a pre-professional program for students interested in further pursuing a career in athletic training, physical therapy, occupational therapy, nursing, physician assistant, and other medical fields. Additionally, the kinesiology major will prepare students for research intensive graduate programs in exercise physiology, biomechanics, physical activity, and others.

Admissions

Students must have a cumulative and major GPA of at least 2.5.

Fast Track Program

The School of Health and Kinesiology has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to 9 graduate hours toward the completion of their undergraduate program as well as the graduate degree program.

Program Specifics:

- This program is available for undergraduate students pursuing a BS in Public Health major desiring to pursue a MS in Health & Kinesiology with a Health Behavior concentration, or those pursuing a BS in Kinesiology major desiring to pursue a MS in Health & Kinesiology with an Exercise Science concentration.
- Students must have completed no less than 60 undergraduate hours.
- Students must have a minimum undergraduate GPA of 3.0.
- Students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses.

- A minimum cumulative GPA of 3.0 is required for graduate coursework to remain in good standing.
- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all rights and privileges granted undergraduate status including financial aid.
- Near the end of the undergraduate program, formal application to the graduate program is required. The application fee will be waived, the applicant will need to contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does NOT guarantee admission to the graduate program.
 - The admit term must be after the completion term of the undergraduate degree.

Alternative Entry into the MA in Athletic Training from the BS in Kinesiology

The School of Health and Kinesiology offers an alternative entry into the MA in Athletic Training, which allows outstanding students to complete the BS undergraduate Kinesiology degree and the MA in Athletic Training graduate degree. The alternative entry program is designed for dedicated students who are motivated and willing to take on early the challenges relating to graduate education. Interested students are encouraged to meet with their academic advisor for more information about this program.

Teacher Education

Teacher Education at UNO is dedicated to your success and the success of our region's children and teens. As an undergraduate student you will receive one-on-one guidance from an instructional coach who will give you meaningful feedback on your skills as you practice teaching in one of our many partner schools. This process will prepare you for the clinical practice experience and the real world of teaching upon graduation. As a graduate student in one of our award-winning programs, you'll experience blended learning with distance friendly classes taught by professors with PK-12 classroom experience.

Whether you want to teach kindergarten or high school math, whether you are a first-year student or an experienced educator seeking more skills, you will benefit from the unique network of support offered by our department, UNO and the schools of our city. You will receive the opportunities you need and the support you can rely on to become a dedicated practitioner, a reflective scholar and a responsible citizen.

Accreditation

For program accreditation information, please refer to this table (p. 657).

Other Information

Praxis II Content Test:

All educator preparation candidates seeking certification are required to take a Praxis II content test in each endorsement area of their preparation prior to being awarded initial teacher certification through the Nebraska Department of Education (NDE). It is recommended that candidates take the Praxis II content test the semester prior to their clinical practice semester.

This link (<http://www.ets.org/praxis/ne/requirements/>) will take you to the ETS website page for the Nebraska Department of Education requirements. The page lists the Nebraska requirements for each endorsement area.

Professional Education Sequence

All candidates in programs leading to teacher certification must complete the courses that constitute the professional education sequence. The professional education sequence is composed of 15 credit hours

organized into three courses of three credits each and one course of six credits: TED 2100, TED 2200, TED 2300 or TED 2380 and TED 2400.

TED 2100 and TED 2200 (Pre-professional Education Core) are open to all students on the UNO campus with a cumulative 2.5 GPA. TED 2200 meets the Nebraska Department of Education requirement for human relations.

To enroll in the other professional education sequence courses (TED 2300 or TED 2380 and TED 2400), candidates must have successfully applied to the Educator Preparation Program and must satisfy any other prerequisites listed for the course. Candidates who receive a grade below "C", "I" (incomplete), or a "W" (Withdraw) in a professional education sequence course may not continue in the professional course sequence until that grade is removed.

TED 2300 must be completed satisfactorily with a "C" or better prior to enrollment in TED 2400.

Note: Candidates, who receive a grade below "C" or an "I"; or who voluntarily withdraw from any practicum or field experience after being identified as a student in jeopardy; or who are withdrawn from any practicum or field experience must petition to continue in the program.

Professional Dispositions Statement

Teaching is a profession that requires its potential candidates to be individuals of integrity. Prospective teachers must be able to demonstrate they are individuals of strong moral character who can make mature decisions for themselves and for the students whom they will teach. Teachers are responsible for the education, safety, and well-being of anyone in their charge. The University of Nebraska at Omaha College of Education, Health, and Human Sciences prepares future teachers who show a high degree of moral character and the ability to act responsibly inside and outside the classroom. These individuals must be able to serve as representatives of the College and the University and must demonstrate the personal and professional dispositions of the teaching profession.

Inappropriate behaviors on the part of the candidates, which in the College's reasonable judgment, violate the University's Student Code of Conduct, establish a lack of integrity or moral/ethical character, or demonstrate conduct or patterns of behavior inconsistent with the personal and professional dispositions expected in the teaching profession, shall be sufficient grounds for 1) denial of admission to or enrollment in educator preparation programs, 2) dismissal or removal from programs, courses, observations, field experiences, practica, clinical practice, and similar field-based experiences, and 3) withholding institutional recommendation for certification. Such behaviors could be evidenced within the University or PK-12 school environment, outside the University or PK-12 school environment, and/or in an electronic or digital context. Displays or patterns of behaviors may be established by any credible means including, but not limited to, the facts surrounding a record of arrests or convictions or information obtained by the University directly from a school or district official. Teacher candidates should note that the College of Education, Health, and Human Sciences must provide a recommendation for certification in order for a student to obtain his/her teaching certificate. Accordingly, inappropriate behaviors by candidates could jeopardize not only their educational goals at UNO but also their professional goals including the ability to become a certified teacher.

Candidates who exhibit inappropriate behaviors may be referred for a Conference of Concern to formally identify the unsuitable behaviors, recommend corrective action(s), and determine the candidate's suitability for continuing in educator preparation. Candidates who have convictions outlined in the Nebraska Department of Education's Rule 20, Section 005.07A, will be allowed to continue in the educator preparation program or referred for certification only through an appeal to the Commissioner or State Board of Education.

Note: In accordance with the Nebraska Department of Education, Rule 20, the following information must be provided to all persons who apply for admission to programs leading to teacher certification: *Persons who have*

felony convictions or misdemeanor convictions involving abuse, neglect or sexual misconduct are automatically rejected by the Nebraska Department of Education for certification.

Field/Clinical/Practicum/Clinical Practice Experiences

As part of their educator preparation program, candidates are required to complete various field, clinical, practicum, and clinical practice experiences.

In accordance with policies and procedures of the Nebraska Department of Education, and in compliance with the requests of cooperating school districts, no candidate will be permitted to participate in PK-12 classroom-based experiences (including clinical practice) until a signed statement of personal and professional fitness to teach has been completed. The statement of personal and professional fitness is required as part of the admission application to an educator preparation program.

Clinical Practice Policies

All candidates for Elementary, Middle level, Special education, or Secondary teacher certification will be required to complete one semester of full-day clinical practice for a total of 12 credit hours. Candidates seeking an additional endorsement to the basic certificate will be required to complete additional clinical practice experiences in their endorsement area(s). Clinical practice experiences will be completed in identified, local, metropolitan, area schools where placement and supervision are arranged through the College of Education, Health, and Human Sciences.

Admission to clinical practice is by application only. Application for clinical practice must be made in the fall or spring term preceding the clinical practice semester. Applicants cannot be considered for placement unless all application materials are submitted by the announced deadline:

September 15 for spring clinical practice and February 1 for fall clinical practice.

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Special Note: Candidates who are withdrawn from any clinical practice experience, or who voluntarily withdraw after being identified as a candidate in jeopardy, must petition if they wish to continue in their professional preparation program.

Certification

Upon successful completion of all coursework and clinical practice, candidates are eligible to apply and may be recommended for a State of Nebraska teaching certificate. Candidates may be recommended to NDE once all holds with UNO are cleared. If a candidate applies for certification 5 years or more after completing all coursework and clinical practice, a review is required to determine if more coursework is needed.

Information on application procedures can be obtained in the Office of Academic Advising and Field Experiences, Roskens Hall 204. You may also email unocertification@unomaha.edu

Website (<http://www.unomaha.edu/college-of-education/teacher-education/>)

Students interested in becoming teachers must formally apply for admission to the Educator Preparation Program (EPP).

Admission policies can be found on the college website (<https://www.unomaha.edu/college-of-education/student-services/academics/admissions-teacherprep.php>). Deadlines for applying are October 1 for spring semester; and March 1 and June 1 for fall semester.

All students accepted into the Educator Preparation Program (EPP) must complete a background check. The background check must be conducted in the time frame and by the vendor determined by the College of Education, Health, and Human Sciences. The student is responsible for the cost of the background check.

Application for Admission to Educator Preparation Program (EPP)

Step 1:

The following requirements must be met prior to submitting an **Initial Application** to the Educator Preparation Program (EPP).

- Admission to UNO
- Completion of UNO's English Composition I or its transfer equivalents: ENGL 1150 (<https://catalog.unomaha.edu/search/?P=ENGL%201150>) or ENGL 1154 (<https://catalog.unomaha.edu/search/?P=ENGL%201154>) (C- or higher)
- Completion or current enrollment in UNO's courses or their transfer equivalents:
 - ENGL Composition II (ENGL 1160 (<https://catalog.unomaha.edu/search/?P=ENGL%201160>) or ENGL 1164 (<https://catalog.unomaha.edu/search/?P=ENGL%201164>)) (C- or higher) and
 - Communication Studies (CMST 1110 (<https://catalog.unomaha.edu/search/?P=CMST%201110>) or CMST 2120 (<https://catalog.unomaha.edu/search/?P=CMST%202120>)) (C- or higher) and
 - Quantitative Literacy (MATH 1120 (<https://catalog.unomaha.edu/search/?P=MATH%201120>), MATH 1130, MATH 1300, STAT 1530, or STAT 1100) (C- or higher) or proficiency through Math ACT score, and
 - Foundations of Education: TED 2100 (<https://catalog.unomaha.edu/search/?P=TED%202100>) (C or higher), and
 - Human Relations: TED 2200 (<https://catalog.unomaha.edu/search/?P=TED%202200>) (C or higher).
- Established cumulative University of Nebraska System GPA of 2.50 or higher (12+ credit hours in the NU system)

Enrollment in classes must be posted before the application packet is submitted:

- Fall semester grades and spring enrollment for March 1 deadline
- Spring semester grades and summer enrollment for June 1 deadline
- Summer semester grades and fall enrollment for October 1 deadline

For any in-progress classes, final grades will be checked. Students who do not meet minimum grade requirements or minimum GPA requirements cannot begin the Educator Preparation Program until the minimum grade is achieved.

Step 2:

The following requirements must be met for **Formal Admission** to the Educator Preparation Program (EPP).

- Established cumulative University of Nebraska System GPA of 2.75 or higher
- Completion of TED 2100 (<https://catalog.unomaha.edu/search/?P=TED%202100>), TED 2200 (<https://catalog.unomaha.edu/search/?P=TED%202200>), TED 2300 (<https://catalog.unomaha.edu/search/?P=TED%202300>) or TED 2380 and TED 2400 (<https://catalog.unomaha.edu/search/?P=TED%202400>) with a grade of "C" or better

The Office of Academic Advising will verify GPA requirements and passing grades for coursework. Students who are admitted to the Educator Preparation Program, but do not pass TED 2300 or TED 2380 and TED 2400 (<https://catalog.unomaha.edu/search/?P=TED%202400>) with a grade of "C" or better, or do not achieve the minimum 2.75 GPA requirement, will not be permitted to continue in the Educator Preparation Program course sequence until such grade(s) are received.

Those seeking the non-certification pathway must apply to the Non-Certification Program in order to take upper level education coursework. The non-certification program does not lead to Nebraska Educator Certification and is designed for community-based work and careers supporting children, youth, adults, and families. Application information can be found on the college website (<https://www.unomaha.edu/college-of-education-health-and-human-sciences/student-services/certification/non-cert-education.php>).

Application to Program

- Admission to UNO
- Completion of UNO' English Composition I or their transfer equivalents: ENGL 1150 (<https://catalog.unomaha.edu/search/?P=ENGL%201150>) or ENGL 1154 (<https://catalog.unomaha.edu/search/?P=ENGL%201154>) (C- or higher)
- Completion or in progress at the time of application of UNO's courses or their transfer equivalents:
 - ENGL Composition II (ENGL 1160 (<https://catalog.unomaha.edu/search/?P=ENGL%201160>) or ENGL 1164 (<https://catalog.unomaha.edu/search/?P=ENGL%201164>)) (C- or higher) and
 - Communication Studies (CMST 1110 (<https://catalog.unomaha.edu/search/?P=CMST%201110>) or CMST 2120 (<https://catalog.unomaha.edu/search/?P=CMST%202120>)) (C- or higher) and
 - Quantitative Literacy (MATH 1120 (<https://catalog.unomaha.edu/search/?P=MATH%201120>), MATH 1130, MATH 1220 (<https://catalog.unomaha.edu/search/?P=MATH%201220>), STAT 1530, or STAT 1100) (C- or higher) or proficiency through Math ACT score, and
- Foundations of Education: TED 2100 (<https://catalog.unomaha.edu/search/?P=TED%202100>) (C or higher), and

- Human Relations: TED 2200 (<https://catalog.unomaha.edu/search/?P=TED%202200>) (C or higher).

GPA Requirements (UNO Students)

- Currently enrolled UNO students must have a minimum cumulative GPA of 2.5.

GPA Requirements (Transfer Students)

- Transfer students with 12 or more credit hours in the Nebraska System (UNL, UNK, UNO) must have a minimum cumulative GPA of 2.5 for all attempted coursework taken in the NU System.
- Transfer students with credit hours from institutions other than the NU System must have a minimum combined cumulative GPA of 2.5 for all attempted coursework.
- Grades must be posted before packet is submitted: fall semester grades for March 1 deadline, spring semester grades for June 1 deadline, and summer semester grades for October 1 deadline.

GPA Requirements (UNO Students)

- Currently enrolled UNO students with 12 or more credit hours in the Nebraska System (UNK, UNL, UNO) must have a minimum cumulative GPA of 2.50 for Initial Application and a minimum cumulative GPA of 2.75 for Formal Admission.
- GPA Requirements (Transfer Students): Transfer students with 12 or more credit hours in the Nebraska System (UNL, UNK, UNO) must have a minimum cumulative **NU system** GPA of 2.50 for all attempted coursework for initial application and a minimum cumulative **NU system** GPA of 2.75 for formal admission.

Degrees Offered

- Education, Bachelor of Science

Programs

- Elementary Education (p. 691)
- Library Science (p. 701)
- Secondary Education (p. 703)
- Early Childhood Inclusive (p. 689)

Writing in the Discipline

Writing Student Learning Objectives for all ECI, ELED and SED majors are all addressed in TED 2100 Educational Foundations. Writing Student Learning Objectives for all library science majors are all addressed in TED 4800 Leadership and Management in Library and Information Agencies.

Secondary Education Concentration

For more information and a complete listing of program requirements visit the College of Education, Health, and Human Sciences website here (<http://www.unomaha.edu/college-of-education/teacher-education/>).

Minor Offered

- Education Minor (p. 750)

Endorsements Offered

Candidates seeking 6-12, 7-12 or PK-12 certification must complete one of the endorsements below.

- Biology (7-12) Endorsement (p. 708)
- Business, Marketing, Information Technology (BMIT) (6-12) Endorsement (p. 710)

- Chemistry (7-12) Endorsement (p. 712)
- English Language Arts (7-12) Endorsement (p. 714)
- Secondary English (7-12) with ESL Supplemental Endorsement (p. 716)
- Secondary English (7-12) with Additional Subject Endorsement (p. 719)
- World Language - French (7-12) Endorsement (p. 720)
- World Language - German (7-12) Endorsement (p. 722)
- Mathematics (6-12) Endorsement (p. 724)
- Middle Level (5-9) Endorsement (p. 726)
- Music (PK-12) Endorsement (p. 734)
- Physics (7-12) Endorsement (p. 734)
- Physical Education (PK-12) Endorsement (p. 736)
- Physical Education (7-12) and Health (7-12) Endorsement (p. 738)
- Science (7-12) Endorsement (p. 740)
- Social Science (7-12) Endorsement (p. 742)
- World Language - Spanish (7-12) Endorsement (p. 745)

Dual Endorsement Programs Offered

Candidates may elect to complete a second endorsement as part of their secondary education program. These dual endorsements require two semesters of clinical practice (student teaching) and result in two teaching endorsements on the Nebraska teaching certificate. The following dual endorsements are available.

- Special Education (7-12) Endorsement (p. 747)

Supplemental Endorsements Offered

Supplemental endorsements are content areas which can be added to a Nebraska teaching certificate in the presence of other earned endorsements. A supplemental endorsement cannot stand alone on an initial teaching certificate. The following supplemental endorsements are available.

- English as a Second Language (7-12) Endorsement (p. 748)
- Coaching (7-12) Endorsement (p. 749)
- Information Technology (PK-12) (p. 749) Endorsement (p. 749)
- Work-Based Learning (9-12) Endorsement (p. 749)

For more information and a complete listing of program requirements visit the College of Education, Health, and Human Sciences website (<https://www.unomaha.edu/college-of-education/student-services/certification/endorsements.php>)

Education - Early Childhood Inclusive, Bachelor of Science

The early childhood inclusive education major is designed for students seeking Nebraska certification to teach in Birth - age 3 or age 3 through third grade in elementary schools. This major allows students to learn more about early childhood education policy, social-cultural understanding and the well-being of infants and toddlers.

Potential Career Opportunities/settings:

- Preschool Teacher or Preschool Special Educator
- Infant/Toddler teacher
- Kindergarten – Grade 3 Teacher
- Special Education Teacher (Kindergarten – Grade 3)

- Early intervention home visitor
- Head Start family educator

Education - Elementary Education, Bachelor of Science

The elementary education major is designed for students seeking Nebraska certification to teach in K-6 elementary schools. This major allows students to explore developmental issues of children, learning theory, elementary school content, and teaching methods. One of the strengths of the preparation program is the field experiences with local school districts.

Potential Career Opportunities/settings:

- Public School systems
- Private School systems

Education - Secondary Education, Bachelor of Science

The secondary education major is designed for students seeking Nebraska certification to teach in secondary content areas in grades 7-12, or in PK-12 settings in the areas of Art, Music, or Physical Education. This major allows students to explore developmental issues of children, learning theory, secondary content area(s), and teaching methods. One of the strengths of the preparation program is the field experiences with local school districts.

Potential Career Opportunities/settings:

- Public School systems
- Private School systems

Education – School Library concentration, Bachelor of Science

UNO's College of Education, Health, and Human Sciences offers two undergraduate degree programs in Elementary Education and Secondary Education with School Library concentrations. This program allows candidates to acquire an elementary or secondary teaching certificate with a school library concentration.

Potential Career Opportunities/settings:

- Special libraries
- Public libraries

Education - Library Science, Bachelor of Science

UNO's College of Education, Health, and Human Sciences offers an undergraduate degree in Library Science that provides credentials and continuing education for those seeking employment in 21st Century library and information agencies.

Potential Career Opportunities/settings:

- Special libraries
- Public libraries
- Academic libraries
- Information Management

TED 1010 INTRODUCTION TO EDUCATION (3 credits)

The course will provide an introduction to the education profession through career exploration and initial exposure to the dynamics of PK-12 classroom teaching. The course will provide an overview of ethics and professionalism, pre-service preparation, societal influences, classroom practices, and the governance structures which impact teachers and schools. The course has a required field experience.

Prerequisite(s): Not open to non-degree graduate students.

TED 2050 INTRODUCTION TO TEACHING ENGLISH AS A SECOND LANGUAGE (3 credits)

This course offers teacher candidates an introduction to the linguistic, social, political, and cultural factors that impact the teaching of Multilingual Learners (MLs) entering the United States school system. As dedicated practitioners, reflective scholars, and responsible citizens, undergraduate students will study best practices for MLs in the mainstream classroom that promotes language and cultural understanding among students and teachers.

Prerequisite(s): Not open to non-degree graduate students.

TED 2060 EQUITY, LANGUAGE, AND CULTURAL LITERACY (3 credits)

This course explores the relationship among equity, language, and cultural literacy and its implications for programming and advocacy within school and community contexts. As dedicated practitioners, reflective scholars, and responsible citizens, undergraduate students study the impact these relationships have for historically underrepresented groups in the United States.

Prerequisite(s): Not open to non-degree graduate students.

TED 2100 EDUCATIONAL FOUNDATIONS (3 credits)

The course will provide prospective teacher candidates with the philosophical, ethical, historical, and social foundations that will enable them to understand their role as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. Also, the prospective teacher candidates will study and understand the national and state standards relevant to P-12 education and to teacher preparation in the USA. Each prospective candidate will acquire competency in using educational technologies such as Internet based course delivery systems, database software, and digital portfolios.

Prerequisite(s): 2.0 GPA

Distribution: Writing in the Discipline Single Course

TED 2160 INTRODUCTION TO LIBRARY SERVICES (3 credits)

This course introduces students to the discipline and profession of library and information science and to the wide array of information organizations whose purpose is to gather, organize, and transfer information to patrons in a diverse society.

TED 2200 HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS (3 credits)

This course is designed to increase multicultural knowledge and positively impact the diversity disposition of prospective teacher candidates. It is also designed to help them become more aware of ways to motivate and positively impact the youths they will encounter in their future classrooms. Prospective teacher candidates will examine existing attitudes toward various groups by race, ethnicity, age, gender, disability, and social class with the goal of becoming dedicated practitioners, reflective scholars, and responsible citizens who can meet their professional responsibilities.

Prerequisite(s): 2.0 GPA

Distribution: U.S. Diversity General Education course

TED 2210 FOUNDATIONS OF EDUCATION AND LEARNER DEVELOPMENT (3 credits)

The course will provide teacher candidates with foundational knowledge on the philosophical, ethical, historical, and social foundations of education in society along with foundational knowledge on the current educational practices and theories on how children develop and learn within different educational environments. This course will also examine how these foundational aspects of education and child development impact and influence each other so that teacher candidates understand their role as dedicated practitioners, reflective scholars, and responsible citizens who can meet the needs of their students in the context of the profession in our changing world.

TED 2250 INTRODUCTION TO EARLY CHILDHOOD EDUCATION (3 credits)

This course provides an overview of early childhood education from theoretical, historical, and contemporary perspectives. Particular emphasis in the course is placed on key approaches to early childhood education, research on how children learn, and developmentally appropriate practice for children in the birth-to-age-five range. Observations are required as part of the course and will be conducted outside of class time.

TED 2300 HUMAN GROWTH AND LEARNING (3 credits)

This course will examine human growth and learning from conception through adolescence. It will focus on how current educational practices and theories of development and learning impact and influence each other. The course includes field-based and laboratory experiences for the students.

Prerequisite(s): Admission to Teacher Preparation. Permit number required to register. Not open to non-degree graduate students.

TED 2310 FAMILY-CENTERED PARTNERSHIPS (3 credits)

This course will examine the purposes and methods for developing family-centered partnerships for young children. Candidates will develop the skills necessary for the planning, designing, implementing, and evaluating effective family engagement in early childhood settings. Candidates will also explore characteristics of diverse families by engaging in service learning and exploring diverse settings in the community.

Prerequisite(s): TED 2250

TED 2350 PLAY IN EARLY CHILDHOOD INCLUSIVE EDUCATION (3 credits)

The purpose of this course is to provide theoretical and empirical bases for observing and understanding children in play; an understanding of cognitive, social, and communicative stages related to developmental theory through play; and opportunity to consider biological, cultural, and environmental influences on children's play and development, as well as, plan play experiences for young children. This course is designed primarily to prepare early childhood inclusive education teachers to develop the knowledge, skills, and dispositions to understand and use play as part of early childhood education and care programming for all young children.

Prerequisite(s): Not open to non-degree graduate students.

TED 2360 CHILDREN'S LITERATURE (3 credits)

This course focuses on children's literature as a significant component of a 21st Century learning environment through the use of multiple literacies, e.g., cultural, information, visual, and digital literacy strategies. An emphasis will be based on research-based literacy strategies and literature that supports culturally relevant teaching and librarianship.

Prerequisite(s): Admission to Teacher Preparation Program or Library Science.

TED 2370 THE CREATIVE ARTS IN EARLY CHILDHOOD EDUCATION (3 credits)

This course prepares the early childhood teacher candidate to implement and use the creative and expressive arts in the classroom and to develop and assess conceptual understanding and building the vocabulary of children.

Prerequisite(s): TED 2250. Not open to non-degree graduate students.

TED 2380 DEVELOPMENT AND LEARNING IN ADOLESCENCE (3 credits)

This course will examine human growth and learning from early through late adolescence, to help students gain an understanding of the biological, social, and cultural influences on the developing child in the second decade of life. The class will focus on how current educational practices and theories of development and learning impact and influence each other. The course will include field-based experiences.

Prerequisite(s): Prerequisites of TED 2100 and TED 2200. Not open to non-degree graduate students.

TED 2390 SOCIOCULTURAL UNDERSTANDINGS OF INFANTS AND TODDLERS (3 credits)

This course will examine socio-cultural conceptions of infant and toddler-aged children. The influences of culture and social context on parental and center-based goals, beliefs and practices will also be covered.

Prerequisite(s): TED 2250. Not open to non-degree graduate students.

TED 2400 PLANNING FOR EFFECTIVE TEACHING (6 credits)

The course provides an initial overview of lesson planning through an introduction to the concepts of standards, objectives, anticipatory sets, instructional strategies, assessments, and closure. The course also introduces culturally responsive teaching practices which are intentionally supportive of English Language Learners, students with disabilities, and students who live in poverty or other difficult circumstances. A practicum completed outside of scheduled class time is required. The practicum includes coaching support for the candidates.

Prerequisite(s): ELED, ELED SPED and ECI majors have a prerequisite of TED 2300. SED majors will be permitted only with TED 2380 as a corequisite. Not open to non-degree graduate students.

TED 2410 FOUNDATIONS OF PLANNING FOR EFFECTIVE TEACHING (3 credits)

The course provides an initial overview of lesson planning through an introduction to the concepts of standards, objectives, anticipatory sets, instructional strategies, assessments, and closure. The course also introduces topics and issues essential to teachers' ability to plan for effective teaching including culturally responsive teaching practices and strategies for serving Multilingual Learners, students with disabilities, and students who live in poverty or other difficult circumstances.

Prerequisite(s): Prerequisites: TED 2210 and TED 2200. Not open to non-degree graduate students.

TED 2420 FIELD EXPERIENCE SEMINAR (2 credits)

This seminar course is designed to support teacher candidates as they begin to gain content knowledge, skills, and procedures that will be addressed in educator preparation content courses. Additionally, this course provides students with guided opportunities to reflect upon and discuss their field experience. This course will consist of five seminars throughout the semester that will provide an overview of the field experience, an explanation of the InTASC model core teaching standards related to content knowledge, and assist students in applying the skills/knowledge presented in the content area courses. Candidates will enroll in this course three times.

Prerequisite(s): Prerequisites: TED 2210 and TED 2200. Corequisites with Intermediate (TED 2410), Advanced (TED 3350/TED 4330), and Final Practicum (TED 4310/TED 4320/TED 4350) coursework. Not open to non-degree graduate students.

TED 2500 DIGITAL CITIZENSHIP (3 credits)

The course is an introduction to the basic tenets of digital citizenship including legalities, ethics, privacy and security. The course fosters an awareness of digital citizenship as a topic that impacts pedagogy and programming and reflects best practice in all types of learning communities.

TED 2800 SCIENCE EXPERIMENTATION AND ENGINEERING DESIGN (4 credits)

Scientific Experimentation & Engineering Design (SEED) is a general education science course that introduces integrative STEM (Science, Technology, Engineering, and Mathematics) concepts and their applications. The course fosters 21st Century Learning through study and work in active, team-based experiential learning environments through all phases of near-space experiments using high-altitude balloon platforms. Near-space experiments require research question development, experiment hardware fabrication, experiment software integration, payload launch and recovery, data analysis, and formal experiments' results reporting. Science and Engineering Practices are central to students' experiences and work in this course, as the course models the interdisciplinary connectedness of academic fields, industry, and the community to encourage collaboration and discovery to effectively implement STEM concepts, practices, and innovation. (Cross-listed with STEM 2800).

Distribution: Natural/Physical Sci General Education lecture&lab

TED 3000 SPECIAL PROJECTS (1-3 credits)

This course allows offerings with a broad (PK-12) multigrade application. Study is often field-based and is conducted as a short course, seminar, or special project.

TED 3050 FOUNDATIONS OF TEACHING ENGLISH AS A SECOND LANGUAGE (ESL) (3 credits)

This course is designed to enhance candidates' understanding of the historical, political, and theoretical perspectives of K-12 English as a Second Language (ESL) education for English Learners (ELs) in the U.S. context. As dedicated practitioners, reflective scholars, and responsible citizens, students will have knowledge of factors that contribute to an effective multicultural and multilingual learning environment. TED 3050 includes an in school, guided practicum. Candidates must demonstrate competencies related to teaching English Learners (ELs) in K-12 classrooms. This is the first of two practicum experiences to complete the field experience requirements for Nebraska Department of Education.

Prerequisite(s): TED 2050, TED 2300 or TED 2380, and TED 2400.

TED 3100 COMMUNITY EDUCATION: TEACHING & PRACTICE IN INFORMAL ENVIRONMENTS (3 credits)

Informal education environments, such as museums, zoos, special-interest clubs, as well as summer camps, and after-school programs, offer expansive possibilities for learning outside of formal schooling. In this course, we will examine educational theory, practice, research, and evaluation associated with learning in informal contexts. Students will have the opportunity to work on collaborative service-learning projects with community partners who offer informal learning programs.

Prerequisite(s): Not open to non-degree graduate students.

TED 3350 TEACHING AND ASSESSING READING IN ELEMENTARY SCHOOLS (6 credits)

This course provides an introduction to reading theories, foundational principles such as phonemic awareness, phonics, vocabulary, comprehension, fluency, effective instructional practices, and reading assessment and evaluation as they relate to improving K-6 student learning. It includes consideration of emergent and content area literacy, and students' learning needs and cultures.

Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; co-requisites of TED 4330 and TED 4340, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing).

TED 3550 SECONDARY CLASSROOM MANAGEMENT (3 credits)

This is a general methods course required of all candidates preparing to teach at the secondary level. Candidates will apply educational sequence competencies in understanding the characteristics of effective teachers by learning how to apply the three components of effective pedagogy: 1) use of instructional strategies, 2) use of classroom management strategies, and 3) effective classroom curriculum design. Candidates will also examine the changing role of the secondary school and selected professional issues in secondary education and be able to apply key ideas of classroom management. Candidates must demonstrate competencies related to performance in 7-12 classrooms. This is the third in a series of four required practicum experiences prior to the clinical practice semester.

Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; co-requisite TED 3690, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing).

TED 3690 LITERACY AND LEARNING (3 credits)

This course examines ways in which reading and writing can facilitate student learning in content areas studies (e.g., science, social studies, physical education, art, music, and math). The main focus is on teaching practices that engage students and contribute to their learning, integrating their background knowledge and cultural experiences with content area literacy. (Cross-listed with TED 8695).

Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; co-requisite TED 3550, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing)

TED 3750 TEACHING GRAMMAR IN CONTEXT (3 credits)

This course is an analysis of the integration of grammar throughout the writing process and the most effective contexts for and means for teaching grammar. The emphasis is on the application in the secondary school English classroom, on the development of teaching materials for the classroom, and on appropriate methodology for grammar instruction.

Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400.

TED 3760 ADULT SERVICES, PROGRAMMING, AND OUTREACH IN LIBRARIES (3 credits)

This course examines best practices related to serving adult populations in 21st Century libraries and information agencies. Candidates will examine the characteristics of diverse adult populations and design resources, programming, and services to meet their personal and professional needs.

Prerequisite(s): Not open to non-degree graduate students.

TED 4000 SPECIAL METHODS IN THE CONTENT AREA (3 credits)

This course is designed to develop knowledge, skills, and dispositions requisite of teachers. Course content is determined by the discipline area. For some content areas a field experience will be required. This is an in-school, guided practicum completed in conjunction with TED 4000 math, science, language arts, world languages, Business, Information Technology, ESL and social studies sections. Candidates must demonstrate competencies related to performance in 7-12 classrooms. This is the final practicum experience prior to the clinical practice semester. (Cross-listed with TED 8006).

Prerequisite(s): TED 3690 and TED 3550, 2.75 NU GPA.

TED 4120 READING & WRITING IN ELEMENTARY CONTENT AREAS (3 credits)

This course is designed to enhance candidates' knowledge of best practices in teaching reading and writing in the content areas (science, social studies, math, art, music). Candidates will learn about teaching practices that engage elementary students and contribute to their learning, integrating their background knowledge and cultural experiences with content area literacy. This course will inform candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.

Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400.

TED 4220 FINAL PRACTICUM IN EARLY CHILDHOOD EDUCATION (3 credits)

TED 4220 is an in-school guided practicum taken at the end of ECE program coursework. Candidates must demonstrate competencies related to performance in pre-kindergarten education. This is the last practicum course prior to the clinical practice semester.

Prerequisite(s): Completion of ELEM/ECE undergraduate courses: TED 2250, TED 2310, TED 4250, TED 4260, TED 4280, TED 4290, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing). Not open to non-degree graduate students.

TED 4250 GUIDANCE OF YOUNG CHILDREN (3 credits)

This course will provide an overview of social and emotional development of the young child and an investigation of effective and appropriate guidance techniques as they relate to ages three to eight. Candidates will explore relationship-based approaches to guiding children and building caring and trusting classroom communities.

Prerequisite(s): TED 2250 and TED 2300 (EDUC 2010), 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing)

TED 4260 LANGUAGE AND LITERACY IN EARLY CHILDHOOD EDUCATION (3 credits)

This course is designed for teacher candidates who are preparing to teach children from three to eight years of age, with particular emphasis on the language and literacy development of the young child and appropriate curriculum. Particular attention will be given to the role of the teacher as a dedicated practitioner in the early learning environment.

Prerequisite(s): TED 2250 and TED 2300 or EDUC 2010, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing). Not open to non-degree graduate students.

TED 4290 INQUIRY IN EARLY CHILDHOOD SCIENCE AND MATHEMATICS EDUCATION (3 credits)

This course is designed to educate teacher candidates about developing early mathematics and science foundations in young children (ages 3-8) with emphasis on inquiry-based teaching, learning, and assessing strategies.

Prerequisite(s): TED 2400, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing). Not open to non-degree graduate students.

TED 4310 ASSESSMENT AND CLASSROOM MANAGEMENT FOR THE ELEMENTARY TEACHER (3 credits)

TED 4310 studies assessment and classroom management principles, effective practices, and assessment and classroom management processes through the elementary curriculum. A practicum completed outside of scheduled class time is required.

Prerequisite(s): TED 3350, TED 4330 and TED 4340; Co-requisites: TED 4320 and TED 4350, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing). Not open to non-degree graduate students.

TED 4320 TEACHING OF SOCIAL STUDIES: ELEMENTARY (3 credits)

This course is designed to prepare elementary teacher candidates with an introduction to the issues and methods related to teaching social studies to elementary students. An in-school guided practicum is associated with this course. Candidates must demonstrate instructional and professional competencies related to performance in PK-6 classrooms. This is the final practicum experience prior to the clinical practice semester.

Prerequisite(s): TED 3350, TED 4330 and TED 4340; co-requisite TED 4350, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing)

TED 4330 TEACHING OF MATHEMATICS: ELEMENTARY (3 credits)

This course is designed to prepare elementary teacher candidates as mathematics education professionals at the elementary level. The course utilizes "hands-on" discussion and laboratory oriented activities where participants actively practice instructional topics and techniques related to the learning of mathematics at the elementary level. The course will further prepare pre-service elementary teachers to be dedicated practitioners, reflective scholars, and responsible citizens, who can meet the instructional challenges of their profession, as it relates to the student learning of mathematics in a modern and changing world.

Prerequisite(s): MTCH 2000 and MTCH 2010; Co-requisite TED 4340 and TED 3350. 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing).

TED 4340 TEACHING OF SCIENCE: ELEMENTARY (3 credits)

This course is designed to give the undergraduate elementary education candidate a survey of the content of science in the elementary and middle school and a study of the methods and techniques of teaching science.

Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400; Co-requisite TED 4330 and 3350. 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing)

TED 4350 TEACHING OF READING AND LANGUAGE ARTS (6 credits)

This course is designed to prepare elementary teacher candidates as educators of reading and the other language arts. Teacher candidates will implement appropriate strategies and assessments in a practicum experience that demonstrate knowledge and dispositions appropriate for teaching reading and language arts to all students. This course will prepare pre-service elementary teacher candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.

Prerequisite(s): TED 3350, 4330 and 4340; co-requisite of TED 4320, 2.75 NU GPA and scores showing Praxis attempt (Math, Reading, and Writing)

TED 4370 TEACHING AT THE MIDDLE LEVEL (3 credits)

This course will provide candidates with a variety of middle level teaching techniques and strategies in their classrooms that have been identified in current research literature as appropriate for the middle level. This course is designed to introduce candidates to the unique characteristics of the middle student, school, curriculum, history, and philosophy. (Cross-listed with TED 8376).

Prerequisite(s): TED 2300 or EDUC 2010 or TED 2380.

TED 4570 LIBRARY SCIENCE CAPSTONE (3 credits)

Candidates will gain direct experience and an understanding of the theories, concepts and activities integral to public services, technical services, and the administration in a 21st Century library and information agency at an assigned field site or through an in-depth research project. Candidates will demonstrate the ability to plan, develop, and implement programming and services for patrons and diverse learners in their public, academic and special libraries.

Prerequisite(s): There are no specific course prerequisites for the Capstone Practicum but students must be in the final two semesters of their Library Science Education Program.

TED 4590 TEACHING AND LEARNING IN DIGITAL ENVIRONMENTS (3 credits)

This course provides foundational knowledge about tools and technologies for use with all types of educational scenarios. Course content will include information about many different types of learners and literacies and will explore instructional tools and strategies that enhance dissemination of digital information and digital instruction.

TED 4600 CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL (12 credits)

A supervised teaching experience under the direction of university faculty/ supervisor and a classroom teacher in the candidate's teaching area.

Prerequisite(s): Candidates must complete all course work, have a minimum cumulative GPA of 2.75, passing Praxis Core scores (Math, Reading, and Writing), and be accepted into Clinical Practice.

TED 4610 TEACHING OF WRITING THROUGHOUT THE CURRICULUM (3 credits)

This course is designed to enhance candidates' knowledge of best practices in teaching writing. Candidates will learn about research supported appropriate writing instruction strategies and assessments. Candidates will be writing extensively throughout the course as they examine the varied ways writing extends throughout the curriculum. This course will inform candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their professions in a changing world.

Prerequisite(s): EDUC 2510 or EDUC 2520 or TED 2400.

TED 4630 INSERVICE STUDENT TEACHING: ELEMENTARY AND SECONDARY (3 credits)

Designed as an additional student teaching experience for in service teachers and students seeking certain additional certificates. Candidates must successfully complete an intermediate level field experience prior to student teaching.

Prerequisite(s): Permission. Application is made in the Office of Student Services.

TED 4640 K-12 CLINICAL PRACTICE AND SEMINAR ELEMENTARY/ SECONDARY (12 credits)

A supervised teaching experience designed for students seeking certification in art, music, physical education, and library media in the K-12 preparatory program.

Prerequisite(s): Candidates must complete all course work and obtain a minimum overall (cumulative) consistent GPA of 2.75, passing Praxis Core scores (Math, Reading, and Writing) and be accepted into student teaching.

TED 4644 CLINICAL PRACTICE ORIENTATION (0 credits)

This experience provides an introduction to clinical practice.

Prerequisite(s): Candidates must have complete all course work, obtained a minimum overall (cumulative) consistent GPA of 2.75, and been accepted into Clinical Practice.

TED 4650 CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL (6 credits)

A supervised teaching experience under the direction of university faculty/ supervisor and a cooperating teacher in the candidate's teaching area.

Prerequisite(s): Candidates must complete all course work, have a minimum cumulative GPA of 2.75, passing Praxis Core scores (Math, Reading, and Writing) and be accepted into Clinical Practice. Co-requisite of the course SPED 4700.

TED 4660 YOUNG ADULT LITERATURE (3 credits)

This course extends candidates' knowledge of literature for young adults. The course addresses current trends in the genre and engages candidates in activities that support pedagogies in basic, visual, information and cultural literacies.

TED 4700 EDUCATION CAPSTONE (3-6 credits)

This course is designed to provide individual and experiential learning in a supervised setting of a selected educational environment outside of the traditional P-12 classroom setting. The candidate will be introduced to the educational practices and roles in an environment that allows for integration of educational theory and practice.

Prerequisite(s): Completion of, or current enrollment in, Professional Education Core courses, GPA of 2.5, no grade below a C in required courses, and permission of Teacher Education Department Chair.

TED 4710 RESEARCH AND INQUIRY (3 credits)

Candidates will demonstrate an understanding of the theories, concepts and activities integral to reference resources and services in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of effective search strategies and efficient use of both print and digital resources, design and promote information literacy instruction that is developmentally appropriate, and understand the legal and ethical responsibilities integral to positive and proactive reference services for patrons and diverse learners.

TED 4720 SPECIAL LIBRARIES AND INFORMATION AGENCIES (3 credits)

Candidates will demonstrate an understanding of the major types of 21st Century special libraries and information agencies. Candidates will demonstrate an understanding of social and political environments, clientele, services, collections, physical settings, financing and staffing, and future trends in the special libraries and information agencies. (Cross-listed with TED 8726).

TED 4740 MANAGEMENT OF INFORMATION RESOURCES IN LIBRARIES (3 credits)

This course addresses basic theory and best practice in collection management, descriptive and subject cataloging, and classification of information resources using national standards and resources. Course will address the theories, concepts and activities integral to proactive collection development in 21st Century libraries. Candidates will demonstrate understanding of the legal and ethical aspects of the collection and organization of information resources by appropriately applying the standards of their discipline to ensure access to information and ideas for all patrons.

Prerequisite(s): Not open to non-degree graduate students.

TED 4760 MANAGING COLLECTIONS IN LIBRARIES AND INFORMATION AGENCIES (3 credits)

Candidates will demonstrate an understanding of the theories, concepts and activities integral to proactive collection management in 21st Century libraries and information agencies. Candidates will demonstrate an understanding of community analysis, collection analysis, and the ability to conduct critical evaluations of a diverse array of information resources.

TED 4800 LEADERSHIP AND MANAGEMENT IN LIBRARIES (3 credits)

The course introduces concepts for effective leadership and management for 21st Century libraries of all kinds (special, public, academic, and school). Candidates will be introduced to vocabulary, philosophies, and processes involved in administration of libraries in support of ensuring quality service to all library patrons. Candidates will be introduced to professional ethics and principles and will be made aware of best practices in management of library services and facilities.

Distribution: Writing in the Discipline Single Course

TED 4810 PRINCIPLES AND PHILOSOPHY OF INTEGRATING CAREER AND ACADEMIC EDUCATION (3 credits)

This course presents the philosophies and principles/practices underlying how schools can better prepare students for the workplaces of the future with emphasis on the integration of career education within broader academic preparation. The roles and responsibilities of teachers, counselors, and administrators in implementing integrated approaches will be examined. (Cross-listed with TED 8816).

TED 4850 COORDINATION TECHNIQUES IN WORK-BASED LEARNING (3 credits)

This course reviews responsibilities and techniques of coordination for the work-based learning teacher-coordinator and/or work-based learning coordinator, with special emphasis on administration of the part-time cooperative program and analysis of the laws and regulations governing this program. (Cross-listed with TED 8856).

ELECTIVES

Elective hours as required to reach a total of 120 hours

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Early Childhood Inclusive, Bachelor of Science in Education Four Year Plan

Freshman

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I	3
MATH 1120 or MATH 1300	INTRODUCTION TO MATHEMATICAL AND COMPUTATIONAL THINKING or COLLEGE ALGEBRA WITH SUPPORT	3-4
CMST 1110	PUBLIC SPEAKING FUNDS	3
Social Science		3
Natural/Physical Science no lab		3
Attend Welcome Week events; other campus events		
Advising appointment for spring: Sept. - Oct.		
Note: ENGL 1150, ENGL 1160, CMST 1110 or 2120, and approved math (Quantitative Literacy) course should be taken and passed in the first academic year		

Credits 15-16

Spring

ENGL 1160	ENGLISH COMPOSITION II	3
TED 2250	INTRODUCTION TO EARLY CHILDHOOD EDUCATION	3
Natural/Physical Science with Lab		4
Social Science		3
Advising appointment for fall: February - March		
Join a student organization. Consider Student Council for Exceptional Children.		
MUST establish 2.5+ NU GPA in order to enroll in TED 2100 and TED 2200 for Fall semester		

Credits 13

Sophomore**Fall**

TED 2100	EDUCATIONAL FOUNDATIONS	3
TED 2200	HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS	3
Humanities and Fine Arts		3
Social Science		3
Humanities and Fine Arts with Global Diversity		3
Advising appointment for spring: Sept. - Oct.		
Apply to Educator Preparation Program October 1 deadline		
Identify professional organization to get involved with. Begin resume development.		

Credits 15

Spring

TED 2300	HUMAN GROWTH AND LEARNING	3
TED 2400	PLANNING FOR EFFECTIVE TEACHING	6
TED 2370	THE CREATIVE ARTS IN EARLY CHILDHOOD EDUCATION	3

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2024-2025 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

2.5 minimum GPA to remain in College of Education, Health, and Human Sciences, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

Professional education course: a grade of C or higher is required to pass the class

Graduation Requirements: 2.75 minimum NU GPA

Education - Elementary Education, Bachelor of Science

Candidates completing the elementary education program are eligible for initial teacher certification and endorsement to teach in K-6 classrooms. The program of study is divided into five areas: General Education, Professional

Education Sequence, Related Content Courses, Elementary Professional requirements, and a concentration area. The concentrations enhance the knowledge, skills, and marketability of the prospective teacher.

Optional Endorsement

A candidate in elementary education may elect to complete an additional endorsement program, instead of or in addition to a concentration.

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Education, Elementary Education Bachelor of Science Concentrations

- English as a Second Language (p. 695)
- Child, Youth, and Community Science (p. 692) (non-certification education option) (p. 692)
- Inclusive Practices Concentration (p. 697)

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Education, Elementary Education Bachelor of Science Endorsements

- Early Childhood (p. 699)
- English as a Second Language (p. 699)
- Special Education (p. 700)

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

SOC 2150	SOCIOLOGY OF FAMILIES
TED 2500	DIGITAL CITIZENSHIP

Required courses: SOWK 1000 or SOWK 1500, PA 3500, CMST 2010 or 2410, DEAL course: see list

12

Grade of C or higher required

ELECTIVES

Elective hours as required to reach a total of 120 hours

Elementary Education, Bachelor of Science in Education - Child, Youth, and Community Science Concentration Four Year Plan

Freshman**Fall****Credits**

ENGL 1150	ENGLISH COMPOSITION I	3
CMST 1110 or CMST 2120	PUBLIC SPEAKING FUNDS or ARGUMENTATION AND DEBATE	3
MATH 1300 or STAT 1530 or MATH 1120 or MATH 1130	COLLEGE ALGEBRA WITH SUPPORT or ELEMENTARY STATISTICS or INTRODUCTION TO MATHEMATICAL AND COMPUTATIONAL THINKING or QUANTITATIVE LITERACY	3-4

Social Science 3

Humanities and Fine Arts 3

Attend welcome events; other campus events

Advising appointment for spring: Sept. - Oct.

Credits**15-16****Spring**

ENGL 1160	ENGLISH COMPOSITION II	3
TED 2100	EDUCATIONAL FOUNDATIONS	3
TED 2200	HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS	3
SPED 1500	INTRODUCTION TO SPECIAL EDUCATION	3

Natural/Physical Science with Lab 4

Advising appointment for fall: February - March

Join student group

Given number of elective hours needed, explore adding minor to degree; this is a chance for a student to customize their program of study to their career goals.

Science, non-teacher certification program by summer deadline June 1.

Credits**16****Sophomore****Fall**

TED 2300	HUMAN GROWTH AND LEARNING	3
TED 2250	INTRODUCTION TO EARLY CHILDHOOD EDUCATION	3
SOWK 1000	SOCIAL WORK AND SOCIAL WELFARE	3

Natural/Physical Science without Lab 4

Social Science 3

Advising appointment for spring: Sept. - Oct.

Gain employment or volunteer work with populations that serve children, families, youth, individuals with disabilities, etc. in the community/nonprofit sector.

Credits**16****Spring**

TED 2310	FAMILY-CENTERED PARTNERSHIPS	3
----------	------------------------------	---

TED 2050	INTRODUCTION TO TEACHING ENGLISH AS A SECOND LANGUAGE	3
Social Science		3
Humanities and Fine Arts		3
ELECTIVE FOR DEGREE		3

Credits **15**

Summer

Humanities and Fine Arts		3
Elective #1 to reach 120 credit hours		3

Advising appointment for fall: February – March.

Credits **6**

Junior

Fall

TED 3100	COMMUNITY EDUCATION: TEACHING & PRACTICE IN INFORMAL ENVIRONMENTS	3
----------	---	---

TED 2060	EQUITY, LANGUAGE, AND CULTURAL LITERACY	3
----------	---	---

TED 2350	PLAY IN EARLY CHILDHOOD INCLUSIVE EDUCATION	3
----------	---	---

Child, Youth, and Community Science Core course. Pick from approved list. #1 of 4 ¹		3
--	--	---

Advising appointment for spring: Sept. - Oct.

Visit Academic & Career Development Center for resume/cover letter building and editing

Begin to identify where you would like your community internship to be.

Credits **12**

Spring

TED 2360	CHILDREN'S LITERATURE	3
CMST 2010	INTERPERSONAL COMMUNICATION	3
PA 3500	NONPROFIT ORGANIZATIONS AND MANAGEMENT	3

DEAI COURSE		3
-------------	--	---

Child, Youth, and Community Science Core course. Pick from approved list. #2 of 4 ¹		3
--	--	---

Elective #4 to reach 120 credit hours		1
---------------------------------------	--	---

Advising appointment for fall: February – March

IF applying to graduate school, prepare to apply to graduate schools in summer prior to senior year: Take GRE exam junior summer, write personal statement, update resume, get application process organized, and think about who would write letters of recommendation.

Credits **16**

Senior

Fall

SPED 4650	TRANSITION PLANNING	3
SPED 4010	MENTAL HEALTH IN SCHOOLS: RISK FACTORS AND INTERVENTIONS	3

Child, Youth, and Community Science Core course. Pick from approved list. #4 of 4 ¹		3
--	--	---

Elective #5 to reach 120 credit hours		3
---------------------------------------	--	---

Elective #6 to reach 120 credit hours		3
---------------------------------------	--	---

Advising appointment for spring: Sept. - Oct.

Submit internship application by September 15. Must have internship finalized and internship forms signed and submitted to advising office (Roskens Hall 204) by December 1st.

Attend internship orientation in late November/early December.

IF applying to a graduate program, prepare to submit graduate school applications by December or prior to university deadline. Ask for letters of recommendation in October.

Credits **15**

Spring

TED 4700	EDUCATION CAPSTONE	6
----------	--------------------	---

Child, Youth, and Community Science Core course. Pick from approved list. #4 of 4 ¹		3
--	--	---

Apply for graduation by deadline.

Credits **9**

Total Credits **120-121**

¹ Family & Community Core Classes (pick 5 from list) : HEKI 2400, HEKI 3090, PHHB 4650, PHHB 3310, ACCT 2000, CMST 2010 or CMST 2410, CMST 4150, CMST 4160, SOWK 1500, PA 3500, COUN 2020

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

The BS in Elementary Education – Family & Community Concentration does not lead to teacher certification. Students in the Teacher Education Department have the flexibility to earn an education degree without pursuing teacher certification. Students will complete 120 credit hours of coursework including a capstone course with 270-hour internship (TED 4700 Education Capstone). Flexibility exists for minor programs and elective credits. For list of approved Family & Community concentration courses, view the current degree worksheet and program website here: <https://www.unomaha.edu/college-of-education/student-services/certification/non-cert-education.php>

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2024-2025 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>
**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.5 cumulative and major GPA

Graduation Requirements: Students must have a cumulative and major GPA of at least 2.5, no grade lower than "C" in required courses, and no incomplete in required courses to be recommended for graduation.

English as a Second Language Concentration

Education - Library Science, Bachelor of Science

The library science program is designed to prepare candidates for employment in 21st century public, academic and special libraries, and information agencies. The library science courses engage candidates in classroom, field site, and service experiences that support the development of the personal, professional and technical skills and dispositions required to work effectively with patrons in today's diverse communities.

This roadmap is a suggest, * plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2024-2025 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:
2.5 minimum GPA to remain in College of Education, Health, and Human Sciences
Professional education course: a grade of C or higher is required to pass the class

Graduation Requirements: 2.75 minimum NU GPA

Education - Secondary Education, Bachelor of Science

The program in secondary education is designed to prepare candidates to meet Nebraska requirements for a related (5-9, 6-12 or 7-12) level teaching certificate or a PK-12 teaching certificate. The coursework for a Secondary Education Endorsement is divided into four areas: General Education, Endorsement Content, Professional Education Sequence, and Secondary Professional requirements. Secondary candidates must select one of the approved endorsement areas.

Endorsement required
ELECTIVES
Elective hours as required to reach a total of 120 hours

.

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Education, Secondary Education Bachelor of Science Concentrations

- Inclusive Practices (p. 704)
- Middle Level 5-9 (p. 704)

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Endorsements Offered

Candidates seeking 5-9, 6-12, 7-12 or PK-12 certification must complete one of the endorsements below.

- Biology (7-12) Endorsement (p. 708)
- Business, Marketing, Information Technology (BMIT) (6-12) Endorsement (p. 710)
- Chemistry (7-12) Endorsement (p. 712)
- Secondary English (7-12) with ESL Supplemental Endorsement (p. 716)

- Secondary English (7-12) with Additional Subject Endorsement (p. 719)
- World Language - French (7-12) Endorsement (p. 720)
- World Language - German (7-12) Endorsement (p. 722)
- Language Arts/English (7-12) Endorsement (p. 714)
- Mathematics (6-12) Endorsement (p. 724)
- Middle Level (5-9) Endorsement (p. 726)
- Music (PK-12) Endorsement (p. 734)
- Physics (7-12) Endorsement (p. 734)
- Physical Education (PK-12) Endorsement (p. 736)
- Physical Education (7-12) and Health (7-12) Endorsement (p. 738)
- Science (7-12) Endorsement (p. 740)
- Social Science (7-12) Endorsement (p. 742)
- World Language - Spanish (7-12) Endorsement (p. 745)

Dual Endorsement Programs Offered

Candidates may elect to complete a second endorsement as part of their secondary education program. These dual endorsements require two semesters of clinical practice (student teaching) and result in two teaching endorsements on the Nebraska teaching certificate. The following dual endorsements are available.

- Special Education (7-12) Endorsement (p. 747)

Supplemental Endorsements Offered

Supplemental endorsements are content areas which can be added to a Nebraska teaching certificate in the presence of other earned endorsements. A supplemental endorsement cannot stand alone on an initial teaching certificate. The following supplemental endorsements are available.

- Coaching (7-12) Endorsement (p. 749)
- English as a Second Language (7-12) Endorsement (p. 748)
- Information Technology (PK-12) Endorsement (p. 749)

Inclusive Practices Concentration

Secondary Education Concentration in Inclusive Practices is optional that a student can add to a degree plan.

In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2024-2025 University of Nebraska at Omaha undergraduate catalog.

Placement Exams:

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: 2.5 minimum GPA to remain in College of Education, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

Professional education course: a grade of C or higher is required to pass the class

Graduation Requirements: 2.75 minimum NU GPA

Biology (7-12) Endorsement

Secondary Education, Bachelor Science in Education - Biology (7-12) Endorsement Requirements

ELECTIVES

Elective hours as required to reach a total of 120 hours

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Secondary Education, Bachelor Science in Education - Biology (7-12) Endorsement Four Year Plan

Freshman

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I	3
MATH 1300	COLLEGE ALGEBRA WITH SUPPORT	4
BIOL 1450	BIOLOGY I	5
Social Science		3

Attend Welcome Week events; other campus events

Advising appointment for spring: Sept. - Oct.

Note: ENGL 1150, ENGL 1160, CMST 1110 or 2120, and approved math (Quantitative Literacy) course should be taken and passed in the first academic year

Credits

15

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2024-2025 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

****Transfer credit or placement exam scores may change suggested plan of study**

GPA Requirements:

2.5 minimum GPA to remain in College of Education, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

Professional education course: a grade of C or higher is required to pass the class

Graduation Requirements: 2.75 minimum NU GPA

Secondary English (7-12) with ESL Supplemental Endorsement

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Advising appointment for spring: Sept. - Oct.

Apply for clinical practice at beginning of fall term.

Credits 15**Spring**

TED 4600 CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL 12

Apply for graduation

Credits 12**Total Credits 120**

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:
University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2024-2025 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:
 2.5 minimum GPA to remain in College of Education, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

Professional education course: a grade of C or higher is required to pass the class

Graduation Requirements: 2.75 minimum NU GPA

World Language - German (7-12) Endorsement
Secondary Education, Bachelor Science in Education - World Language-German (7-12) Endorsement Requirements

GERM 3XXX/4XXX

GERM 3XXX/4XXX

ELECTIVES

Elective hours as required to reach a total of 120 hours

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Secondary Education, Bachelor Science in Education - World Language-German (7-12) Endorsement Four Year Plan

Freshman

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I	3
Quantitative Literacy		3
GERM 1110	ELEMENTARY GERMAN I	5
Social Science		3
MUST establish 2.5+ NU GPA in order to enroll in TED 2200 for spring semester		
Attend Welcome Week events; other campus events		
Advising appointment for spring: Sept. - Oct.		
Note: ENGL 1150, ENGL 1160, CMST 1110 or 2120, and approved math (Quantitative Literacy) course should be taken and passed in the first academic year		

Credits 14**Spring**

ENGL 1160	ENGLISH COMPOSITION II	3
CMST 1110	PUBLIC SPEAKING FUNDS	3
GERM 1120	ELEMENTARY GERMAN II	5
Natural/Physical Science with Lab		4
Advising appointment for fall: February - March		
Join a student organization		
Make a plan to take the Praxis Core		

Credits 15**Summer**

Humanities and Fine Arts		3
Social Science		3

Credits 6**Sophomore**

Fall		
TED 2100	EDUCATIONAL FOUNDATIONS	3
GERM 2110	INTERMEDIATE GERMAN I	3
TED 2200	HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS	3
Natural/Physical Science without lab		3

Social Science 3

Advising appointment for spring: Sept. - Oct.

Identify professional organization to get involved with. Begin resume development.

Apply to Educator Preparation Program October 1 deadline

Credits 15**Spring**

GERM 2120	INTERMEDIATE GERMAN II	3
TED 2380	DEVELOPMENT AND LEARNING IN ADOLESCENCE	3
TED 2400	PLANNING FOR EFFECTIVE TEACHING	6
Humanities and Fine Arts		3

Advising appointment for fall: February - March

MUST attempt PRAXIS Core by August 1st and have 2.75 minimum NU GPA to progress in Educator Preparation Program.

Credits 15**Summer**

GERM 3040	GERMAN GRAMMAR & COMPOSITION	3
GERM 3250	CONTEMPORARY CULTURE IN GERMAN SPEAKING COUNTRIES	3
or GERM 3370	or GERMAN HISTORY FROM THE BEGINNINGS UNTIL THE EARLY MODERN PERIOD	
or GERM 3380	or GERMAN HISTORY FROM THE ENLIGHTENMENT TO THE PRESENT	

Credits 6**Junior**

Fall		
GERM 4040	ADVANCED COMPOSITION AND STYLISTICS	3
GERM 3650	INTRODUCTION TO GERMAN FILM	3
GERM 3030	GERMAN CONVERSATION	3
TED 3550	SECONDARY CLASSROOM MANAGEMENT	3
TED 3690	LITERACY AND LEARNING	3
Advising appointment for spring: Sept. - Oct.		

Credits 15**Spring**

GERM 3060	READINGS IN GERMAN	3
GERM 4040	ADVANCED COMPOSITION AND STYLISTICS	3
GERM 4970	PRO-SEMINAR: LINGUISTICS AND LANGUAGE FOR THE PROFESSIONS	3
GERM 3580	GERMAN FOR PROFESSIONAL LIFE	3
or GERM 4210	or TRANSLATING GERMAN	
Advising appointment for fall: February - March		

Credits 12**Senior**

Fall		
TED 4000	SPECIAL METHODS IN THE CONTENT AREA	3
SPED 3800	DIFFERENTIATION AND INCLUSIVE PRACTICES	3
GERM Elective 3000/4000 level		3
GERM Elective 3000/4000 level		3
Take Praxis II- EECIA #5017		
Advising appointment for spring: Sept. - Oct.		

Apply for clinical practice at beginning of fall term.		
	Credits	12

ELECTIVES

Elective hours as required to reach a total of 120 hours

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

Secondary Education, Bachelor Science in Education - Middle Level Math and Social Science Endorsement Four Year Plan

Freshman

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I	3
CMST 1110	PUBLIC SPEAKING FUNDS	3
MATH 1300	COLLEGE ALGEBRA WITH SUPPORT	4
PSCI 1100	INTRODUCTION TO AMERICAN NATIONAL GOVERNMENT	3
HIST 1000	WORLD HISTORY TO 1500	3

Attend Welcome Week events; other campus events

Advising appointment for spring: Sept. - Oct.

Note: ENGL 1150, ENGL 1160, CMST 1110 or 2120, and approved math (Quantitative Literacy) course should be taken and passed in the first academic year		
Credits		16
Spring		
ENGL 1160	ENGLISH COMPOSITION II	3
MATH 1320	PRE-CALCULUS ALGEBRA	3
PSCI 3040	GOVERNMENT AND POLITICS OF NEBRASKA	3
HIST 1110	AMERICAN HISTORY TO 1865	3
GEOG 1020	INTRODUCTION TO HUMAN GEOGRAPHY	3
MUST establish 2.5+ NU GPA in order to enroll in TED 2100 and TED 2200 for fall semester		
Advising appointment for fall: February - March		
Apply to Educator Preparation Program June 1 deadline		
Join a student organization		
Make a plan to take the Praxis Core

Take Praxis II-Middle Level Mathematics #5164, Middle Level Social Sciences #5089		
Advising appointment for spring: Sept. - Oct.		
Apply for clinical practice at beginning of fall term.		
Credits		15
Spring		
TED 4600	CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL	12
Apply for graduation		
Credits		12
Total Credits		124

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2024-2025 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

2.5 minimum GPA to remain in College of Education, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

Professional education course: a grade of C or higher is required to pass the class

Graduation Requirements: 2.75 minimum NU GPA

Secondary Education, Bachelor Science in Education - Middle Level Science and Social Science Endorsement Four Year Plan

PHYS 3600	THERMODYNAMICS AND STATISTICAL PHYSICS	3

Humanities and Fine Arts

Advising appointment for spring: Sept. - Oct.

Identify professional organization to get involved with. Begin resume development.

Apply to Educator Preparation Program for October 1 deadline

Credits **15**

Spring

TED 2380	DEVELOPMENT AND LEARNING IN ADOLESCENCE	3
TED 2400	PLANNING FOR EFFECTIVE TEACHING	6
CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	4

Advising appointment for fall: February - March

MUST attempt PRAXIS Core by August 1st and have 2.75 minimum NU GPA to progress in Educator Preparation Program.

Credits **13**

Junior

Fall		
PHYS 3750	ELECTRICITY AND MAGNETISM I	3
PHYS 2130	MODERN PHYSICS	4
Social Science		3
Humanities and Fine Arts		3
Advising appointment for spring: Sept. - Oct.		

Credits **13**

Spring

TED 3550	SECONDARY CLASSROOM MANAGEMENT	3
TED 3690	LITERACY AND LEARNING	3
PHYS 3450 & PHYS 3504	CLASSICAL MECHANICS and EXPERIMENTAL PHYSICS I	4
GEOL 1170	INTRODUCTION TO PHYSICAL GEOLOGY	4

Advising appointment for fall: February - March

Credits **14**

Senior

Fall		
TED 4000	SPECIAL METHODS IN THE CONTENT AREA	3
PHYS 3300	INTRODUCTION TO BIOMEDICAL PHYSICS	3
SPED 3800	DIFFERENTIATION AND INCLUSIVE PRACTICES	3

Social Science**Humanities and Fine Arts with Global Diversity**

Take Praxis II- Physics: Content Knowledge #5265

Advising appointment for spring: Sept. - Oct.

Apply for clinical practice at beginning of fall term.

Credits **15**

Spring

TED 4600	CLINICAL PRACTICE AND SEMINAR: ELEMENTARY OR SECONDARY LEVEL	12
----------	--	----

Apply for graduation

Credits	12
Total Credits	126

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on the 2024-2025 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

****Transfer credit or placement exam scores may change suggested plan of study**

GPA Requirements: Cumulative 2.5 GPA for Educator Preparation Program initial acceptance, cumulative 2.75 GPA for formal admission and graduation.

#Professional education course: a grade of C or higher is required to pass the class.

Graduation Requirements: Students must have a cumulative GPA of at least 2.75, no grade lower than "C" in required courses, and no incomplete in required courses to be recommended for graduation.

Physical Education (P-6, 7-12) Endorsement
Secondary Education, Bachelor Science in Education - Physical Education PK-12 Endorsement Requirements

Code	Title	Credits
GENERAL EDUCATION REQUIREMENTS - 46 Hours Required		
Minimum of "C-" required		
Fundamental Academic Skills		15
ENGL 1150	ENGLISH COMPOSITION I	
ENGL 1160	ENGLISH COMPOSITION II	
Writing in the Discipline Course		
CMST 1110	PUBLIC SPEAKING FUNDS	

or CMST 2120	ARGUMENTATION AND DEBATE

Physical Education Activity Courses 1

PEA select one from any: 111A – 111Z or 112A-112S

Cannot take 111H, 112L, or 112S

ELECTIVES

Elective hours as required to reach a total of 120 hours

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

ELECTIVES

Elective hours as required to reach a total of 120 hours

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 3.00 or higher to declare an endorsement in social science, be eligible to take TED and SPED required coursework, and to be eligible for clinical practice.

Secondary Education, Bachelor Science in Education - Social Science (7-12) Endorsement Four Year Plan

Freshman

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I	3
MATH 1300	COLLEGE ALGEBRA WITH SUPPORT	4
HIST 1000	WORLD HISTORY TO 1500	3
ANTH 1050	INTRODUCTION TO ANTHROPOLOGY	3
Natural/Physical Science		3
MUST establish 2.5+ NU GPA in order to enroll in TED 2200 for spring semester		
Attend Welcome Week events; other campus events		
Advising appointment for spring: Sept. - Oct.		
Note: ENGL 1150, ENGL 1160, CMST 1110 or 2120, and approved math (Quantitative Literacy) course should be taken and passed in the first academic year		
Credits		16

Spring

ENGL 1160	ENGLISH COMPOSITION II	3
CMST 1110	PUBLIC SPEAKING FUNDS	3
PSYC 1010	INTRODUCTION TO PSYCHOLOGY I	3
Natural/Physical Science with Lab		4
HIST 1010	WORLD HISTORY SINCE 1500	3
Advising appointment for fall: February - March		
Join a student organization		
Make a plan to take the Praxis Core		
Credits		20

Sophomore

Fall		
TED 2100	EDUCATIONAL FOUNDATIONS	3
TED 2200	HUMAN RELATIONS FOR BIAS-FREE CLASSROOMS	3
PSCI 1100	INTRODUCTION TO AMERICAN NATIONAL GOVERNMENT	3
GEOG 1000	WORLD REGIONAL GEOGRAPHY	3
Humanities and Fine Arts (not HIST)		3
Advising appointment for spring: Sept. - Oct.		
Identify professional organization to get involved with. Begin resume development.		
Apply to Educator Preparation Program October 1 deadline		
Credits		15

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change.

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2024-2025 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

2.5 minimum GPA to remain in College of Education, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

Professional education course: a grade of C or higher is required to pass the class

Graduation Requirements: 2.75 minimum NU GPA

**Additional course options for the 5th course are subject to approval by faculty through advising.		
Total Credits		15

Admission Requirements: Students must have a minimum 2.0 GPA. Students must talk with their academic advisor about adding this minor, and the advisor will submit the request to add this minor.

Student Performance: No grade lower than a C will count toward the minor.

Special Education and Communication Disorders

The mission of the Special Education and Communication Disorders department is to prepare dedicated practitioners, reflective scholars, and responsible citizens who are unique in their ability to facilitate, design, implement, and evaluate programs for individuals with disabilities. This is accomplished by creating opportunities for the acquisition and maintenance of knowledge, skills, and dispositions as prescribed by the Council for Exceptional Children, the Council on Academic Accreditation in Audiology and Speech-Language Pathology (for graduate program only), and state and federal regulations.

Undergraduate candidates follow a course of study with accompanying practical experiences that are grounded in theory, research, evidence-based

practice, and experience. Our candidates develop essential interpersonal skills that make them valued members of collaborative, interdisciplinary teams in a variety of settings. Thus, each program of study is designed to promote problem solving skills that enable candidates to continue to broaden their skills and enhance their expertise throughout their professional career. These skills facilitate the recognition and integration of professional ethics with the individual needs and values of the communities they serve.

Accreditation

For program accreditation information, please refer to this table (p. 657).

The undergraduate degree in communication disorders provides the fundamental prerequisite knowledge necessary for pursuing a graduate degree. The graduate degree is the minimal requirement for employment as a speech-language pathologist in Nebraska. The speech-language pathology graduate program provides candidates with the opportunity to acquire and maintain the knowledge, skills, and dispositions as prescribed by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CFCC), by the Nebraska Department of Education, and by Nebraska Health and Human Services.

Website (<http://www.unomaha.edu/college-of-education/special-education-communication-disorders/>)

Students interested in becoming special education teachers must formally apply for admission to the Educator Preparation Program (EPP).

In order to be formally admitted to a program in special education and remain in good standing, a candidate must maintain an overall GPA of 2.75 or better. No grade below a "C" will be accepted in any professional education course, or any course in the specialization area.

- Application instructions (p. 682) for the Educator Preparation Program.

Communication Disorders

For students pursuing the Communication Disorders major, no application is required. To continue with Communication Disorders (CDIS) courses, students must maintain a 3.0 NU GPA or higher.

Early Admission to the Speech-Language Pathology Graduate Program via FAST track

For information regarding early admission to the Speech-Language Pathology Graduate Program via FAST Track, please refer to application information online here (p. 761).

Degrees Offered

- Education, Bachelor of Science (p. 755)

Programs

- Early Childhood Inclusive (p. 689)
- Special Education Dual Endorsement with Elementary Education or Secondary Education (p. 751)
- Special Education (p. 755)
- Communication Disorders (Pre-Professional Program)

Writing in the Discipline

For Writing in the Discipline, Special Education majors complete TED 2100, Communication Disorders majors complete CDIS 3200, students in the Sign Language Interpreting concentration complete ENGL 2400, and students in the Deaf/Hard of Hearing endorsement complete TED 2100.

Minor Offered

American Sign Language (ASL) Minor (p. 764)

Education - Special Education Dual Endorsement with Elementary Education or Secondary Education, Bachelor of Science

This program is designed for candidates preparing for careers serving children and youth with disabilities. This program is part of the educator preparation program at either the elementary or secondary level. In the educator preparation program candidates must complete a dual endorsement in special education and elementary or secondary education. The preparation meets or exceeds the Council for Exceptional Children (CEC) initial level special educator preparation standards for special education teachers.

Elementary (K-6) Requirements

Code	Title	Credits
Elementary (K-6) candidates are required to take the following special education courses in addition to the course work required for elementary education:		
Courses Required for Major (core curriculum)		
SPED 1500	INTRODUCTION TO SPECIAL EDUCATION	3
SPED 2300	SPECIAL EDUCATION LAW & INDIVIDUAL EDUCATION PROGRAMS	3
SPED 3020	EFFECTIVE DATA COLLECTION FOR INSTRUCTIONAL DECISIONS IN SPECIAL EDUCATION	3
SPED 4000	PRACTICUM IN SPECIAL EDUCATION	3
SPED/COUN 4010	MENTAL HEALTH IN SCHOOLS: RISK FACTORS AND INTERVENTIONS	3
SPED 4150	READING AND WRITING INSTRUCTION FOR STUDENTS WITH DISABILITIES	3
SPED 4230	LANGUAGE DEVELOPMENT AND DISORDERS FOR TEACHERS	3
SPED 4640	METHODS AND MATERIALS IN SPECIAL EDUCATION	3
SPED 4710	INTERACTIONS AND COLLABORATION	3
SPED 4700	CLINICAL PRACTICE IN SPECIAL EDUCATION	6
OR		
SPED 4720	CLINICAL PRACTICE IN SPECIAL EDUCATION	12

SPED 4810	BEHAVIOR INTERVENTIONS AND SUPPORTS	3
Total Credits		48

Secondary (7-12) Requirements

Code	Title	Credits
Secondary (7-12) candidates are required to take the following special education courses in addition to the coursework required for secondary education:		
Courses Required for Major (Core Curriculum)		
SPED 1500	INTRODUCTION TO SPECIAL EDUCATION	3

Education - Special Education, Bachelor of Science

The BSED degree certificate in Special Education allows UNO to recommend graduates for Nebraska licensure in special education.

Potential Career Opportunities/settings:

- Public School systems
- Private School systems

SPED 1110 AMERICAN SIGN LANGUAGE I (3 credits)

This is the introductory course in a five-course series teaching American Sign Language. The focus will be on conversational skills and a basic understanding of the Deaf community within a cultural context. Expressive and receptive vocabulary and grammar skills will be fostered through interactive class activities.

Prerequisite(s): co-requisite SPED 1114 ASL Lab

SPED 1114 AMERICAN SIGN LANGUAGE I LAB (1 credit)

This is the co-requisite lab course for SPED 1110, American Sign Language I. Students will meet weekly in the ASL Lab interacting in a small group setting with a Deaf mentor.

Prerequisite(s): Co-requisite: SPED 1110

SPED 1120 AMERICAN SIGN LANGUAGE II (3 credits)

This is the second course in a five course series teaching American Sign Language. Candidates will continue to develop the use of body language/ mime, basic sentence types, manual alphabet, manual numbers/number systems, and intermediate vocabulary.

Prerequisite(s): SPED 1110 and SPED 1114 with a grade of C or higher; 2.5 minimum GPA; Co-requisite: SPED 1124

SPED 1124 AMERICAN SIGN LANGUAGE II LAB (1 credit)

This is the co-requisite lab course for SPED 1120, American Sign Language II. Students will meet weekly in the ASL Lab interacting in a small group setting with a Deaf mentor.

Prerequisite(s): Minimum 2.5 GPA; SPED 1110 and SPED 1114 with a grade of C or higher; Co-requisite: SPED 1120.

SPED 1500 INTRODUCTION TO SPECIAL EDUCATION (3 credits)

This course is designed to help students explore issues and perspectives related to children, adolescents, and young adults with a variety of ability and disability experiences. It provides an introduction to the historical factors, legislation, terminology, etiology, characteristics that are commonly encountered when addressing the needs of diverse students with disabilities ranging from mild, moderate to severe.

Prerequisite(s): Not open to non-degree graduate students.

Distribution: Social Science General Education course and U.S. Diversity General Education course

SPED 2100 PROFESSIONALISM & ETHICS OF INTERPRETING (3 credits)

This survey course provides an introduction to the profession and ethics of sign language interpreting. The student learns what is expected of an interpreter (roles, functions, responsibilities) and applies this knowledge to a variety of settings. Information about the history of the profession, professional organizations, and settings where interpreters work is presented. Students will be introduced to Demand/Control Schema as a foundation for assessment ethical scenarios.

Prerequisite(s): Minimum 2.75 GPA and/or special permission from the instructor.

SPED 2110 AMERICAN SIGN LANGUAGE III (3 credits)

This course is a continuation and elaboration on ASL I and ASL II. Proper ASL vocabulary, syntax, semantics, and pragmatics will be expanded both receptively and expressively. This course provides exposure to idiomatic language through conversation, narration, and storytelling.

Prerequisite(s): Minimum 2.5 GPA; SPED 1120 and SPED 1124 with a grade of C or higher; co-requisite: SPED 2114.

SPED 2114 AMERICAN SIGN LANGUAGE III LAB (1 credit)

This is the co-requisite lab course for SPED 2110, American Sign Language III. Students will meet weekly in the ASL Lab interacting in a small group setting with a Deaf mentor.

Prerequisite(s): Minimum 2.5 GPA; SPED 1120 and SPED 1124 with a grade of C or higher; co-requisite: SPED 2110.

SPED 2120 AMERICAN SIGN LANGUAGE IV (3 credits)

This is the fourth course in the five-course series of American Sign Language. Proper ASL vocabulary, syntax, semantics, and pragmatics will be expanded both receptively and expressively. This course will increase students' competence using ASL through conversation, narration, and storytelling with additional awareness of cultural behaviors, rules of discourse and dialectal variations in ASL.

Prerequisite(s): Minimum 2.5 GPA; SPED 2110 and SPED 2114 with a grade of C or higher; co-requisite: SPED 2124.

SPED 2124 AMERICAN SIGN LANGUAGE IV LAB (1 credit)

This is the co-requisite lab course for SPED 2120, American Sign Language IV. Students will meet weekly in the ASL Lab interacting in a small group setting with a Deaf mentor.

Prerequisite(s): Prerequisites: minimum 2.5 GPA; SPED 2110 and SPED 2114 with a grade of C or higher. Corequisite: SPED 2120

SPED 2200 DEAF STUDIES (3 credits)

This is an introductory course which surveys historical, psychological, and sociological aspects of deafness. This course introduces students to aspects of Deaf Culture and the Deaf Community. It will also examine current issues and trends and future directions in the education of children who are deaf or hard of hearing. Basic concepts, theories, research, and philosophical debates are explored through assigned readings, independent work, and classroom activities.

Prerequisite(s): Minimum 2.75 GPA.

Distribution: U.S. Diversity General Education course

SPED 2300 SPECIAL EDUCATION LAW & INDIVIDUAL EDUCATION PROGRAMS (3 credits)

This course provides an overview of special education policy and law with an emphasis on components of individual education programs (IEPs), the special education referral process, and preparing for IEP meetings. Content knowledge will include IEP components and their function. Students will apply this knowledge to IEP component writing and development practice.

Prerequisite(s): SPED 1500

SPED 2550 HEALTH AND WELL-BEING OF INFANTS AND TODDLERS (3 credits)

This course is designed to help students gain knowledge and skills that will enable them to design curricula, create supportive environments, and provide effective learning opportunities to promote the healthy development of infants and young children. There will be an emphasis on effective and culturally responsive collaboration with families and caregivers. This course includes a field experience in programs that serve infants/toddlers and their families.

Prerequisite(s): Admission to Teacher Preparation Program and TED 2250. Not open to non-degree graduate students.

SPED 3000 SPECIAL STUDIES (1-3 credits)

This course is designed to allow candidates to pursue independent study of a topic under the direction and guidance of a faculty member. Topics studied and the nature of the learning activities is mutually agreed upon by the candidate and instructor.

Prerequisite(s): Permission by instructor

SPED 3020 EFFECTIVE DATA COLLECTION FOR INSTRUCTIONAL DECISIONS IN SPECIAL EDUCATION (3 credits)

This is a course on formal and informal assessment for Special Education. Candidates will learn how to collect assessment data to be used for data based decision making.

Prerequisite(s): SPED 1500 and TED 2400, Co-requisite SPED 4640 & SPED 4000 and 2.75 NU GPA.

SPED 3100 ENGLISH/ASL COMPARATIVE LINGUISTICS (3 credits)

This course offers a study of the fundamental concepts of linguistics and its application to the study of American Sign Language. Candidates will compare and contrasting English and American Sign Language structure. Focus will be on the fundamental areas of linguistic inquiry, which include phonology, morphology, syntax, semantics, and the use of language. Using current research, candidates will begin to think critically about the structure of ASL and its recognition as a language. Candidates will be expected to translate between English and signed languages to deepen understanding the study of linguistics. A video will supplement the textbook by providing examples of signs/concepts discussed in the course.

Prerequisite(s): Minimum 2.75 GPA; SPED 3110 ASL V; SPED 3114 ASL V Lab; or demonstrated proficiency.

SPED 3110 AMERICAN SIGN LANGUAGE V (3 credits)

As the fifth course in ASL, students will be able to communicate fluently with native ASL users. Additional linguistic principles will be presented at an advanced level and complex grammatical structures will be utilized in presentations. This course will continue to explore issues of linguistic code-switching, and regional variations in ASL.

Prerequisite(s): Minimum 2.75 GPA; SPED 2120 and SPED 2124 with a grade of B- or higher; co-requisite: SPED 3114.

SPED 3114 AMERICAN SIGN LANGUAGE V LAB (1 credit)

This is the co-requisite lab course for SPED 3110, American Sign Language IV. Students will meet weekly in the ASL Lab interacting in a small group setting with a Deaf mentor.

Prerequisite(s): Minimum 2.75 GPA; SPED 2120 and SPED 2124 with a grade of B- or higher; co-requisite: SPED 3110. Not open to non-degree graduate students.

SPED 3120 ACADEMIC INTERPRETING (3 credits)

In this course candidates will focus on skills required for interpreting in a variety of academic settings. Candidates will learn to produce appropriate and equivalent interpreted messages between signed and spoken communication. Candidates will observe and analyze spoken and signed language used in the classroom and in extracurricular activities. Candidates will understand the interpreter's role as part of the educational team and how that impacts their work with students. Also included will be review and deeper exploration of communication styles, modes and language used by children.

Prerequisite(s): GPA 2.75 or better. SPED 3110 and SPED 3114 with B- or higher or special permission from the instructor. Score of intermediate or higher on the ASL Proficiency Interview or Sign Language Proficiency Interview. Not open to non-degree graduate students.

SPED 3130 COMMUNITY INTERPRETING (3 credits)

In this course students will learn skills in producing equivalent ASL and/or English messages in both consecutive and simultaneous interpreting. Students will interpret for adults and children moving from monologues to dialogues developing fluency, speed and accuracy. Students will continue to develop their English vocabulary, ASL vocabulary, interpreting analysis skills and strategies for team interpreting within the genres of medical and mental health, employment and vocational settings, social services, business and insurance.

Prerequisite(s): GPA 2.75 or better. SPED 3110 and SPED 3114 or special permission from the instructor. Score of intermediate or higher on the ASL Proficiency Interview or Sign Language Proficiency Interview.

SPED 3140 DISCOURSE ANALYSIS AND SOCIOLINGUISTICS FOR INTERPRETERS (3 credits)

During the course students will analyze language use in spoken English and American Sign Language (ASL) so that features of language use rise to the level of explicit awareness. Students collect, transcribe, and analyze various speech activities while reading and discussing theoretical notions underlying language use.

Prerequisite(s): Minimum 2.75 GPA; SPED 2110 and SPED 2114 with a grade of B- or higher; or special permission from the instructor. Not open to non-degree graduate students.

SPED 3150 COGNITIVE PROCESSING IN ASL AND ENGLISH (3 credits)

This course presents practice of cognitive skills used in the process of interpreting from English and the process of interpreting from ASL. Skills include visualization, prediction, listening, memory, abstracting, closure, dual tasking, and processing time. Integration and application of these skills will lead to a self-monitoring process that will allow for self-assessment and commentaries on work performed.

Prerequisite(s): Minimum cumulative 2.75 GPA, and SPED 2120 and SPED 2124 with a grade of B- or higher; or instructor permission. Not open to non-degree graduate students.

SPED 3800 DIFFERENTIATION AND INCLUSIVE PRACTICES (3 credits)

This course is designed to examine characteristics of students with various learning needs and how to apply principles of Universal Design for Learning (UDL) to meet their needs in an inclusive environment. This course will expand the special education content knowledge of general education teachers so they can meet the needs of all students by planning lessons using the UDL framework. The purpose of this course is for general education teacher candidates to gain content knowledge about special education policies and procedures to utilize various educational, emotional, and social accommodations necessary to provide unique and effective educational or alternative responses for students with various learning needs.

Prerequisite(s): TED 2400 or EDUC 2520; Minimum 2.75 GPA. Not open to non-degree graduate students.

SPED 4000 PRACTICUM IN SPECIAL EDUCATION (3 credits)

This practicum will examine special education methods, techniques and strategies used with children and youth with disabilities in a variety of K-12 school settings. Classroom practice and application of instructional planning and implementation, assessment techniques and behavior management will be emphasized. Collaboration and consultation models will also be included in this experience.

Prerequisite(s): SPED 1500 & TED 2400; GPA 2.75 or higher. Co-requisites: SPED 3020 & SPED 4640. Not open to non-degree graduate students.

SPED 4010 MENTAL HEALTH IN SCHOOLS: RISK FACTORS AND INTERVENTIONS (3 credits)

This course explores the role that educators and school mental health professionals play in identifying the risk factors and warning signs of children and youth with mental health concerns. Students will understand the risk and protective factors at the individual, family, school, and community level as related to children and youth's mental health. The course will provide an overview of externalizing and internalizing disorders as well as school-based and community-based treatments and interventions. (Cross-listed with COUN 4010, COUN 8016, SPED 8016).

Prerequisite(s): SPED 1500 or EDUC 2510, TED 2300, Minimum 2.75 GPA. Not open to non-degree graduate students.

SPED 4040 WORKSHOP IN SPECIAL EDUCATION OR SPEECH-LANGUAGE PATHOLOGY (1-6 credits)

The purpose of this course is to provide workshops or special seminars in the area of special education and communication disorders. This course will prepare graduate candidates as dedicated practitioners, reflective scholars, and responsible citizens who can meet the challenges of their profession in a changing world. (Cross-listed with SPED 8046).

SPED 4110 SIGNED ENGLISH AND OTHER SYSTEMS (3 credits)

This course examines the communication methods and modes used in some educational settings with people who are deaf or hard of hearing. Candidates will gain understanding and specific skills in Simultaneous Communication, Total Communication, Signing Exact English, and Conceptually Accurate Signed English. Information will be shared about the latest technology and resources available to aid communication in the classroom.

Prerequisite(s): Minimum 2.75 GPA; SPED 3110 and SPED 3114 with a grade of B- or higher; or special permission from the instructor.

SPED 4150 READING AND WRITING INSTRUCTION FOR STUDENTS WITH DISABILITIES (3 credits)

This course is designed to provide preservice teacher candidates skills and strategies for instructing students with high incidence disabilities that struggle to acquire literacy skills. Emphasis is placed on the science of reading, reading development and diagnosis and assessment of specific reading and writing difficulties to determine effective instructional strategies. Instructional strategies will address modifications directed at teaching oral language, reading, writing, and spelling skills.

Prerequisite(s): SPED 1500 and TED 2400 and 2.75 NU GPA. Not open to non-degree graduate students.

SPED 4180 INTERPRETING IN SPECIALIZED SETTINGS (3 credits)

This course focuses on interpreting/transliterating for special populations in a variety of specialized settings. Video relay, Deaf-Blind, Mental Health, Legal, Religious, Multi-cultural and Theatrical settings are among the specialized settings in which interpreting students will participate in additional training.

Prerequisite(s): GPA 2.75 or better. SPED 3110 and SPED 3114 with B- or higher or special permission from the instructor. Score of intermediate or higher on the ASL Proficiency Interview or Sign Language Proficiency Interview. Not open to non-degree graduate students.

SPED 4230 LANGUAGE DEVELOPMENT AND DISORDERS FOR TEACHERS (3 credits)

This course is designed to introduce the candidate to the nature and structure of language, current theories of language, normal first and second language development, language disorders, multicultural issues in language assessment, and contemporary classroom management of language deficits. The topics will be examined from an educational perspective to enhance the teachers knowledge of language and to facilitate classroom management of language deficits exhibited by exceptional children in grades pre-K through 12. (Cross-listed with SPED 8236).

Prerequisite(s): Minimum 2.75 GPA; SPED 1500 or ECI major; TED 2300 or TED 2380 or permission of the instructor

SPED 4240 TEACHING/INTERPRETING LANGUAGE TO DEAF/HARD OF HEARING (5 credits)

This course will examine specific programs, methods, and techniques employed in teaching and developing language with deaf and hard of hearing children from primary through secondary levels. Current theories and practices in reading and language arts instruction will be examined. This course will also present methods for assessing reading and language problems in deaf/hard of hearing children, making adaptations and modifications in curriculum, integrating technology, and including parents in the instructional process. The sign language interpreter plays a vital role to a student who is deaf or hard of hearing because interaction is so important. When an interpreter is fluent in the use of language(s), the interpreter facilitates the student's ability to learn the language. An experienced interpreter uses knowledge of language development to make modifications to his/her interpreting approach.

Prerequisite(s): GPA 2.75 or better and SPED 3110 and SPED 3114 with a grade of B- or higher, or special permission from the instructor. Background check using UNO vendor.

SPED 4280 TEACHING AMERICAN SIGN LANGUAGE AS A WORLD LANGUAGE (3 credits)

This course provides a hands-on experience in the design and implementation of ASL instruction and curriculum. The course will address methods, materials, program evaluation, and teaching approaches for preparing professional instructors of ASL.

Prerequisite(s): Min 2.75 GPA & proficiency in ASL. Prof shown by one of the following: complete ASL I-V courses, personal interview w/instructor, or a min level of 3 on ASL Proficiency Interview or Sign Comm Proficiency Interview. Not open to non-degree grad students.

SPED 4310 VOICE-TO-SIGN (3 credits)

This course begins consecutively interpreting monologues from the source language (English) to the target language (ASL). Students will listen to entire English monologues, process them, analyze them, and then choose appropriate ASL to match the message. The course provides instruction on refining and enhancing voice-to-sign skills, specifically simultaneously producing equivalent ASL messages from spoken English source messages. Students will learn to sign simultaneously and consecutively when viewing video or listening to audio of native English speakers from a variety of settings.

Prerequisite(s): GPA 2.75 or better and SPED 3110 and SPED 3114 with a grade of B- or higher, or special permission from the instructor. Score of intermediate or higher on either the ASL Proficiency Interview or the Sign Language Proficiency Interview.

SPED 4320 SIGN-TO-VOICE (3 credits)

This course provides instruction on refining and enhancing sign-to-voice skills, specifically simultaneous sign-to-voice transliterating and interpreting. Students will learn to voice simultaneously and consecutively when viewing video of native signers who use a variety of signing modalities to communicate. Students will develop the ability to produce an equivalent English message from ASL source messages.

Prerequisite(s): GPA 2.75 or better and SPED 3110 and SPED 3114 with a grade of B- or higher, or special permission from the instructor. Score of intermediate or higher on either the ASL Proficiency Interview or the Sign Language Proficiency Interview.

SPED 4350 TEACHING CONTENT SUBJECTS TO DEAF/HARD OF HEARING (4 credits)

This course will describe, investigate, and put into practice instructional strategies employed in developing knowledge and concepts in social studies, science, and mathematics. The scope of the course will be preschool through high school. Curricula and materials used with K-12 students who are deaf or hard of hearing will be reviewed and evaluated.

Prerequisite(s): Minimum 2.75 GPA; EDUC 2510 or SPED 1500; TED 2400 or permission of the instructor.

SPED 4640 METHODS AND MATERIALS IN SPECIAL EDUCATION (3 credits)

This course is designed to describe the various instructional methods that have been used successfully in supporting students with disabilities in a variety of settings. This course is also intended to provide pre-service and in-service candidates with knowledge and evidence-based teaching strategies essential for modifying the learning environment and individualizing instruction for students with disabilities. In addition, teaching methods will focus on academic curriculum lesson planning, development of IEPs, selection of instructional methods and materials, and universal design for learning (UDL).

Prerequisite(s): SPED 1500, TED 2400 and 2.75 NU GPA and passing Praxis Core scores (Math, Reading and Writing); Co-requisite courses SPED 3020 & SPED 4000. Not open to non-degree graduate students.

SPED 4650 TRANSITION PLANNING (3 credits)

Curriculum oriented for teachers and related professionals to work with the career development and transition of individuals with disabilities within a multicultural and global society. Includes information for elementary through adulthood with emphasis on transition from high school to community living. (Cross-listed with SPED 8656)

Prerequisite(s): SPED 1500. Not open to non-degree graduate students.

SPED 4700 CLINICAL PRACTICE IN SPECIAL EDUCATION (6 credits)

This course provides candidates with experience teaching students with exceptionalities. Observation, participation, and actual teaching in an individually selected placement will be a part of the candidate's involvement in this course. This course is intended for candidates who are completing a dual endorsement program (special education and another endorsement).

Prerequisite(s): GPA minimum of 2.75 and completion of all required coursework in special education. Co-Requisite: TED 4650. Not open to non-degree graduate students.

SPED 4710 INTERACTIONS AND COLLABORATION (3 credits)

This course is offered to investigate the building blocks of collaboration. Effective interpersonal communication and collaboration skills are presented as the foundation necessary to build relationships among school personnel, families and community members.

Prerequisite(s): SPED 1500 and TED 2400 and 2.75 NU GPA

SPED 4720 CLINICAL PRACTICE IN SPECIAL EDUCATION (12 credits)

This course provides candidates with a practical experience teaching students with disabilities. Observation, participation, and actual teaching in an individually selected placement will be a part of the candidate's involvement in this course.

Prerequisite(s): GPA minimum of 2.75, Completion of all required course work in special education.

SPED 4724 SPECIAL EDUCATION CLINICAL TEACHING ORIENTATION (0 credits)

This course is the special education clinical teaching orientation that is paired with the Clinical Teaching in Special Education course.

Prerequisite(s): GPA = 2.75 or better, Completion of all required course work in special education. Co-requisite SPED 4720 or SPED 4730

SPED 4730 ADVANCED CLINICAL PRACTICE IN SPECIAL EDUCATION (3 credits)

A second semester of special education clinical practice experience in a placement working with exceptional children. Observation, participation and actual teaching will be part of the candidate's experience.

Prerequisite(s): GPA minimum of 2.75; SPED 4720 and permission

SPED 4740 EDUCATIONAL INTERPRETING PRACTICUM AND SEMINAR (6 credits)

The practicum candidate will work with a mentor to begin developing professional relationships while developing the ability to interpret simultaneously signed and spoken messages. Candidates will also share experiences in seminars with an instructor where discussion will focus on linguistic issues in interpretation, ethical dilemmas, and situational concerns.

Prerequisite(s): GPA minimum of 2.75, Completion of SPED 3120, SPED 3130, SPED 4180, SPED 4240, SPED 4310, and SPED 4320 with grades of B- or higher.

SPED 4760 COMMUNITY INTERPRETING PRACTICUM AND SEMINAR (6 credits)

The practicum candidate will work with a mentor in various community settings to begin developing professional relationships while developing the ability to interpret simultaneously signed and spoken messages. Candidates will also share experiences in seminars with an instructor where discussion will focus on linguistic issues in interpretation, ethical dilemmas, and situational concerns.

Prerequisite(s): GPA minimum of 2.75, Completion of SPED 3120, SPED 3130, SPED 4180, SPED 4240, SPED 4310, and SPED 4320 with grades of B- or higher. Not open to non-degree graduate students.

SPED 4800 SOCIAL AND EMOTIONAL DEVELOPMENT OF CHILDREN AND YOUTH (3 credits)

This course is designed to prepare teacher candidates and graduate candidates with the understanding of the psychological, biological and environmental factors that affect the social-emotional development of children and adolescents. Emphasis is placed on the interaction of these factors for children with exceptional learning needs and the implications for the learning environment. (Cross-listed with SPED 8806).

Prerequisite(s): SPED 1500 or EDUC 2510, TED 2300, Minimum 2.75 GPA

SPED 4810 BEHAVIOR INTERVENTIONS AND SUPPORTS (3 credits)

This course introduces a variety of practical interventions that teachers may use to support the positive classroom behavior of all students within a tiered model. Universal, targeted, and individualized strategies are presented. (Cross-listed with SPED 8816).

Prerequisite(s): SPED 1500 and TED 2400 and 2.75 NU GPA

SPED 4820 EARLY CHILDHOOD INCLUSIVE EDUCATION SYSTEMS, POLICY, AND ADVOCACY (1 credit)

The purpose of this course is to provide an overview of the history and perspectives of key developmental theories, laws, and policies related to inclusive early childhood education. Particular attention will be paid to culturally responsive approaches to ECIE, local, state, federal, and global policy, professional roles, ethics, and advocacy. Emphasis is on current research, theory, and evidence-based practice.

Prerequisite(s): TED 2250. Not open to non-degree graduate students.

SPED 4830 ASSESSMENT IN EARLY CHILDHOOD INCLUSIVE EDUCATION (3 credits)

This course is designed to help students develop skills for effective and culturally responsive assessment and evaluation of infants, toddlers, and young children. Such assessment is vital for understanding developmental needs of young children, planning appropriate curriculum and interventions, identifying children's special needs, evaluating early childhood programs, and providing accountability information to funders and stakeholders.

Prerequisite(s): Admission to Educator Preparation program, TED 2250. Not open to non-degree graduate students.

SPED 4860 RESPONSIVE AND REFLECTIVE TEACHING IN EARLY CHILDHOOD (3 credits)

This course will prepare early childhood inclusive education majors to plan and deliver supports to a diverse array of young children (birth to age 8) and their families. Candidates will be trained in evidence-based practices used for promoting language, problem-solving, motor skills, adaptive behavior, play, and social/emotional growth in young children. There is an emphasis on anti-bias approaches to education, as well as educators' reflections upon their practices.

Prerequisite(s): Admission to the Educator Preparation program, TED 2250. Not open to non-degree graduate students.

SPED 4870 PRACTICUM WITH INFANTS AND TODDLERS (3 credits)

This advanced practicum is a guided experience for candidates pursuing an emphasis in the area of Early Childhood Inclusive Education (ECIE) birth through age 3. Candidates will be required to demonstrate competencies related to promoting the development of infants and toddlers, and the skills and confidence of their families/caregivers. This is the last practicum course prior to the clinical practice semester.

Prerequisite(s): Completion of ECIE undergraduate courses: TED 2250, TED 2350, SPED 4230, TED 4250, SPED 4830, SPED 4860; GPA 2.75 or higher. Co-requisites: TED 4210 and SPED 4850. Not open to non-degree graduate students.

Education - Special Education, Bachelor of Science

This program is designed for candidates preparing for careers serving children and youth with disabilities. This program prepares candidates to be special education teachers at the elementary or secondary level. The preparation meets or exceeds the Council for Exceptional Children (CEC) initial level special educator preparation standards for special education teachers.

Other Information

Praxis II Content Test

All educator preparation candidates are required to receive a passing score on the Praxis II content test in each endorsement area of their preparation prior to being awarded initial teacher certification through the Nebraska Department of Education (NDE).

This link (<http://www.ets.org/praxis/ne/requirements/>) will take you to the ETS website page for the Nebraska Department of Education requirements. The page lists the Nebraska requirements for each endorsement area.

Student Organizations

Allies for Sign Language (<https://www.unomaha.edu/college-of-education/special-education-communication-disorders/student-involvement/>)

The main objective of this organization shall be to unite members and community for the purpose of fellowship, friendship and promote academic achievement; act as a resource to attract and retain deaf and hard of hearing students; provide a basis for cultural exchange among the Deaf students and the hearing students; advocate for accessibility; further the understanding of Deaf culture throughout the world; promote discussion of current trends and issues relating to deaf education; as well as provide social activities that include members of the deaf community.

For more information contact Julie Delkamiller by email at jdellkamiller@unomaha.edu or Jonathan Scherling via email at jscherling@unomaha.edu.

Student Council for Exceptional Children

Student Council for Exceptional Children (SCEC) is an organization that is dedicated to advocating on behalf of individuals with disabilities. The student chapter is associated with the International Council for Exceptional Children. For more information contact Dr. Lisa Epp at lepp@unomaha.edu or Dr. Apryl Poch at apoch@unomaha.edu.

ELECTIVES

Elective hours as required to reach a total of 120 hours

Candidates must have satisfactorily completed all required coursework prior to clinical practice.

A minimum grade of "C" must be earned in all certification requirements, endorsements, and concentrations. All grades of incomplete and any grades below "C" in these specific requirements must be removed prior to clinical practice. Candidates are responsible for contacting their advisor regarding said grades.

For courses in this major/ endorsement that require a grade of C or higher, CR/ NC is not permissible.

Candidates must have a minimum cumulative GPA of 2.75 or higher in order to be eligible for clinical practice.

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.
This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements: The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2024-2025 University of Nebraska at Omaha undergraduate catalog.

Placement Exams: For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements:

2.5 minimum GPA to remain in College of Education, 2.5 minimum GPA to apply to Educator Preparation Program, 2.75 minimum GPA to progress in Educator Preparation Program

Professional education course: a grade of C or higher is required to pass the class

Graduation Requirements: 2.75 minimum NU GPA

Professional education course: a grade of C or higher is required to pass the class

Graduation Requirements: 2.75 minimum NU GPA

Education - Communication Disorders

The undergraduate degree in communication disorders provides the fundamental, prerequisite knowledge necessary for pursuing a graduate degree. Entry for practice in the field of communication disorders is an a clinical doctorate (Au.D.). for Audiology and a masters degree (M.S. or M.A.) for speech-language pathology.

Other Information

Majors in communication disorders must maintain an overall cumulative GPA of 3.0 or better. No courses taken on a Credit/No Credit basis will be accepted for the purpose of fulfilling any of the required content, professional, or major speech-language pathology coursework. A minimum grade of "C" must be earned in all professional courses is required for the Bachelors in Communication Disorders program. All grades of incomplete and any new grades below "C" in these specific requirements must be removed. Candidates are responsible for contacting their academic advisor.

The undergraduate degree in communication disorders is a pre-professional degree which does not lead to a certificate or license. A doctorate degree is required for entry into the field of audiology. A master's degree is required for entry into the field of speech-language pathology. Completion of the UNO undergraduate communication disorders program does not guarantee admission to the UNO speech-language pathology graduate program.

Communication Disorders

For students pursuing the Communication Disorders major, no application is required. To continue with Communication Disorders (CDIS) courses, students must maintain a 3.0 NU GPA or higher.

Early Admission to the Speech-Language Pathology Graduate Program via FAST track

CDIS undergraduates are able to apply for early admission to the UNO SLP graduate program. Interested candidates must meet the application requirements below:

1. Apply March of Junior Year
 - a. Application (minimum of 3.5 undergraduate GPA to apply)
 - i. Resume
 - ii. Statement of Purpose: Please include the following in your response: Your aptitude and motivation for graduate study in speech-language pathology; your preparation for this field of study; your viewpoint on the value of diversity, equity, and inclusion in the field of speech-language pathology; your academic plans or research interests; and why would UNO be a good intellectual fit for you?
 - iii. Transcripts (unofficial)

If selected, then applicants are eligible to enroll in a FAST track program. Applicants must meet or exceed minimum requirements throughout their senior year to be fully accepted into the graduate program at UNO.

Fast Track Program

The Department of Special Education and Communication Disorders has developed a Fast Track program for highly qualified and motivated students providing the opportunity to complete a bachelor's degree and a master's degree in an accelerated time frame. With Fast Track, students may count up to six graduate hours toward the completion of their undergraduate program as well as the graduate program.

Program Specifics:

- This program is available for undergraduate students pursuing a Bachelor of Science in Education in communication disorders desiring to pursue a MS in Speech-Language Pathology (SLP) at UNO.
- Students must submit the departmental application to be considered for the Fast Track program.
 - Complete the department application in March of the junior year (no less than 60 undergraduate hours). Application requirements are:
 - Successfully completed CDIS 2420, CDIS 2550, CDIS 3450, CDIS 3460, CDIS 3370
 - 3.5 undergraduate GPA
 - Resume
 - Statement of Purpose (Please include the following in your response: Your aptitude and motivation for graduate study in speech-language pathology; your preparation for this field of study; your viewpoint on the value of diversity, equity, and inclusion in the field of speech-language pathology; your academic plans or research interests; and why would UNO be a good intellectual fit for you?)
- If the departmental application is approved, students must complete the Fast Track Approval form and obtain all signatures and submit to the Office of Graduate Studies prior to first enrollment in a graduate course.
- Students will work with their undergraduate advisor to register for the graduate courses (for a total of six [6] graduate credit hours).
 - During the fall semester of the senior year, students will register for CDIS 8200 and CDIS 8560
 - During the spring semester of the senior year, students will register for CDIS 8500-1
- A minimum cumulative GPA of 3.0 is required for the graduate course work to remain in good standing.

- Students remain undergraduates until they meet all the requirements for the undergraduate degree and are eligible for all the rights and privileges granted undergraduate status including financial aid.
- Formal application to the graduate program is required by January 15 of the student's senior year. The application fee will be waived, the applicant must contact the Office of Graduate Studies for a fee waiver code.
 - Admission to Fast Track does not guarantee admission to the graduate program.
 - Fast Track students must successfully complete their undergraduate BS degree with a minimum cumulative GPA of 3.5 and all graduate courses with a minimum of 3.0 or better, be in good standing, and complete formal graduate admission application to be considered for full admission into the speech-language pathology graduate program.
 - The official admit term must be after the completion term of the undergraduate degree.

Fast Track Courses:

Fall of senior year:

- CDIS 8200 (2.0) Advanced Study of Pediatric Speech-Sound Disorders
- CDIS 8560 (2.0) Augmentative and Alternative Communication

Spring of senior year:

- CDIS 8500 (2.0) Basic Clinical Practicum in Speech-Language Pathology

Elective hours as required to reach a total of 120 hours

Communication Disorders, Bachelor of Science in Education Four Year Plan

Freshman

Fall		Credits
ENGL 1150	ENGLISH COMPOSITION I	3
CMST 1110	PUBLIC SPEAKING FUNDS	3
MATH 1300	COLLEGE ALGEBRA WITH SUPPORT	4
Humanities & Fine Arts		3
Social Science		3
Attend welcome events; other campus events		
Advising appointment for spring: Sept. - Oct.		
Join student group for major: NSSLHA		

Note: ENGL 1150, ENGL 1160, CMST 1110 or 2120, and approved math (Quantitative Literacy) course should be taken and passed in the first academic year

Credits		16
Spring		
ENGL 1160	ENGLISH COMPOSITION II	3
PSYC 1010	INTRODUCTION TO PSYCHOLOGY I	3
SPED 1500	INTRODUCTION TO SPECIAL EDUCATION	3
BIOL 1020 or BIOL 1330 or BIOL 1450	PRINCIPLES OF BIOLOGY or ENVIRONMENTAL BIOLOGY or BIOLOGY I	4
Global Diversity		3
Advising appointment for fall: February – March		
By end of freshman year establish NU GPA of 3.0 or higher. Graduate programs look for a GPA of a 3.7+		

Credits		16
Summer		
Humanities & Fine Arts		3
Social Science		3

Credits		6
Sophomore		
Fall		
CDIS 1400	INTRODUCTION TO COMMUNICATION DISORDERS	3
TED 2100	EDUCATIONAL FOUNDATIONS	3
CHEM 1140 & CHEM 1144 or PHYS 1050 or PHYS 1110	FUNDAMENTALS OF COLLEGE CHEMISTRY or INTRODUCTION TO PHYSICS or GENERAL PHYSICS I	4-5
PSYC 1020	INTRODUCTION TO PSYCHOLOGY II	3
Advising appointment for spring: Sept. - Oct.		
Gain employment or volunteer work with populations that would use SLP services – the elderly, children, youth, individuals with disabilities, etc.		
Must have NU GPA of 3.0 by end of first semester of sophomore year.		

Credits		13-14
Spring		
CDIS 2380	ANATOMY AND PHYSIOLOGY OF THE SPEECH MECHANISM	3
CDIS 2420	EARLY LANGUAGE DEVELOPMENT IN CHILDREN	3
CDIS 2550	CULTURAL COMPETENCE IN SERVICE DELIVERY	3
PSYC 3130	STATISTICS FOR THE BEHAVIORAL SCIENCES	3
Advising appointment for fall: February – March		
Academic goal: Establish NU GPA of 3.5 or higher.		

Credits		12
Summer		
PSYC 2500	LIFESPAN PSYCHOLOGY	3
Humanities & Fine Arts		3

Credits		6
Junior		
Fall		
CDIS 3390	HEARING SCIENCE	3
CDIS 3450	PHONETICS	3

CDIS 3460	SCHOOL AGE LANGUAGE DEVELOPMENT	3
CDIS 3370	BASIC AUDIOLOGY	3
Advising appointment for spring: Sept. - Oct.		
Visit Academic & Career Development Center for resume/cover letter building and editing Start thinking about graduate school options.		
Credits		12
Spring		
CDIS 3200	WRITING FOR THE PROFESSION OF SPEECH-LANGUAGE PATHOLOGY	3
CDIS 3430	ARTICULATION AND PHONOLOGICAL DISORDERS	3
CDIS 3330	AURAL REHABILITATION	3
Elective to reach 120		3
Advising appointment for fall: February – March		
Prepare to apply to graduate schools (apply to 2+ schools to increase chance of acceptance)		
-Take GRE exam – if required by graduate program -Write personal statement		
Update resume -Get application process organized -Letters of recommendation - ASHA EdFind		
Credits		12
Senior		
Fall		
CDIS 4470	NEUROPHYSIOLOGY OF SPEECH AND LANGUAGE	3
CDIS 4480	RESEARCH METHODS IN COMMUNICATION DISORDERS	3
CDIS 4490	INTRODUCTION TO PROFESSIONAL PRACTICES	3
CDIS Approved Related Elective #1 of 2		3
Elective to reach 120 or other degree required course		3
Advising appointment for spring: Sept. - Oct.		
Prepare to submit graduate school applications by December or prior to university deadline. Ask for letters of recommendation in October.		
Credits		15
Spring		
CDIS Approved Related Elective #2 of 2 or CDIS 4510 Clinic, if accepted		3
Elective to reach 120 or other degree required course		3
CDIS 4500	PRINCIPLES OF ASSESSMENT AND INTERVENTION	3
CDIS 4750	INTRODUCTION TO CHILDHOOD LANGUAGE DISORDERS	3
Prepare to graduate and start a graduate program in the fall; apply for graduation by deadline		
Credits		12
Total Credits		120-121

This roadmap is a suggested plan of study and does not replace meeting with an advisor. Please note that students may need to adjust the actual sequence of courses based on course availability. Please consult an advisor in your major program for further guidance.

This plan is not a contract and curriculum is subject to change

Additional Information About this Plan:

University Degree Requirements:

The minimum number of hours for a UNO undergraduate degree is 120 credit hours. Please review the requirements for your specific program to determine all requirements for the program. In order to graduate on-time (four years for an undergraduate degree), you need to take 30 hours each year. Information based on 2024-2025 University of Nebraska at Omaha undergraduate catalog.

Placement Exams:

For Math, English, Foreign Language, a placement exam may be required. More information on these exams can be found at <https://www.unomaha.edu/enrollment-management/testing-center/placement-exams/information.php>

**Transfer credit or placement exam scores may change suggested plan of study

GPA Requirements: Cumulative and major 3.0 NU GPA after program admission, but those admitted to a graduate program consistently earn a GPA of at least a 3.5-3.7 or higher.

Grade of C or better is required in CDIS coursework, required related content in TED, SPED, PSYC, STAT, and required related courses on approved list. Grade of C- or better required in BIOL 1020, BIOL 1330, CHEM 1140 & 1144, PHYS 1050, or PHYS 1110.

American Sign Language (ASL) Minor

American Sign Language (ASL) Minor Requirements

2.75 GPA required for completion of minor

Code	Title	Credits
18 Hours Required		
SPED 2200	DEAF STUDIES	
SPED 2110	AMERICAN SIGN LANGUAGE III (2.5 GPA, C or higher in SPED 1120 & 1124)	
SPED 2114	AMERICAN SIGN LANGUAGE III LAB (2.5 GPA, C or higher in SPED 1120 & 1124)	
SPED 2120	AMERICAN SIGN LANGUAGE IV (2.5 GPA, C or higher in SPED 2110, 2114)	
SPED 2124	AMERICAN SIGN LANGUAGE IV LAB (2.5 GPA, C or higher in SPED 2110, 2114)	
SPED 3110	AMERICAN SIGN LANGUAGE V (2.5 GPA, C or higher in SPED 2110, 2114)	
SPED 3114	AMERICAN SIGN LANGUAGE V LAB (2.5 GPA, C or higher in SPED 2110, 2114)	
SPED 3100	ENGLISH/ASL COMPARATIVE LINGUISTICS	

College of Engineering Description

Administration

Lance C. Pèrez, Ph.D., Dean

Website: <https://engineering.unl.edu/>

Administrative Structure

The College of Engineering is located on three campuses (Lincoln City Campus, Lincoln East Campus, and Scott Campus in Omaha) and has two

Dean's Offices (641 Kiewit Hall in Lincoln and 301 Peter Kiewit Institute in Omaha). The College is subdivided into units, each under the leadership of a chairperson, department head, or director.

Role and Mission

The College of Engineering improves the lives of every Nebraskan.[#] We pursue this vision through our shared values of Community, Impact, and Inclusion.[#] These values are embedded in and strengthened by the academic ideals of the university, the ethos of Nebraskans, and the principles of the entire Nebraska Engineering Community.

Our mission is to drive economic development in the state and region while solving problems of global importance. The College of Engineering will fulfill this mission through our deep commitment to engineering, computing, and construction education, research, and engagement. As the only engineering college in Nebraska, we have a particularly strong mandate to the state to ensure our resources and opportunities are accessible to all Nebraskans.

An essential and distinctive pillar of our mission is the notion of the Complete Engineer®.[#] At its most fundamental, the Complete Engineer® is a commitment by the college to the development of every student in technical, professional, and personal dimensions. It enables everyone to become the best version of themselves in support of the fulfillment of the college's mission and reinforces the values of Community, Impact, and Inclusion.

College Admission

College Entrance Requirements

Students must meet both the University and College of Engineering entrance requirements. The following includes both the University and College of Engineering entrance requirements.

Students must have high school credit for (one unit is equal to one high school year):

1. Mathematics – 4 units: 2 of algebra, 1 of geometry, and 1 of precalculus and trigonometry
2. English – 4 units
3. Natural sciences – 3 units that must include 1 unit of physics and 1 unit of chemistry (chemistry requirement waived for students in construction management or computer science)
4. Foreign language – 2 units of a single foreign language
5. Social studies – 3 units
6. Students having a composite ACT score of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack any one of the following: trigonometry, chemistry, or physics. Students without test scores who are missing a full unit of trigonometry/pre-calculus/calculus or chemistry or physics will be evaluated through College Review.

A total of 16 units is required for admission.

Engineering requires that student performance meet one of the following standards: composite ACT of 24, SAT of 1180, ACT Math subscore of 24, SAT Math subscore of 580, or a 3.5 cumulative GPA.

Any domestic first-year student who does not gain admission to Engineering but does gain admission to the University of Nebraska-Lincoln (UNL) will be reviewed through College Review. College Review is conducted through the College Review Committee which considers factors beyond standardized testing. Any first-year student who is not admitted through college review is placed in Pre-Engineering (PENG) within the college and are advised by the Engineering Student Services.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska-Lincoln Office of On-line and Distance Education, in summer courses, or as a part of their

first or second semester course loads while in the Academic and Career Development Center at the University of Nebraska Omaha.

Students should consult their advisor, their department chair, or Engineering Student Services (ESS) if they have questions on current policies.

Other Admission Requirements

Students who transfer to the University of Nebraska Omaha from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE first-year student entrance requirements, have a minimum cumulative GPA of 2.5, and be calculus-ready. Students not meeting either of these requirements must enroll in another University college until they meet COE admission requirements. Students transferring from UNO, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska-Lincoln accepts D grades from the University of Nebraska Kearney and the University of Nebraska Omaha, not all majors in the COE accept such low grades. Students must conform to the requirements of their intended major and, in any case, are strongly encouraged to repeat courses with a grade of C- or less.

Students who were previously admitted to COE and are returning to the College of Engineering must demonstrate a cumulative GPA of 2.5 to be readmitted to COE.

Academic Advising

Advisors assigned to students are either part of the Engineering Student Services located at 107 Peter Kiewit Institute (PKI) or are in the student's major department.

Student Responsibility

Students are responsible for fulfilling all the requirements of the curriculum in which they are enrolled. Students are also responsible for initiating advising contacts and preparing for advising sessions. The mentoring relationship between academic advisors and students is confidential and is strengthened by advisors' ability to listen with empathy.

Students are expected to take responsibility for successful university experiences and effective advising sessions by:

1. Participating in New Student Orientation and priority registration programs.
2. Scheduling appointments with advisors well in advance of priority registration and at other times as needed.
3. Identifying class choices from the requirements of the selected program.
4. Identifying questions to address in advising sessions.
5. Informing advisors of any special needs, deficiencies, or barriers that might affect academic success.
6. Following academic policies and procedures and meeting academic calendar deadlines (e.g., registration, fee payment, degree audit, filing for degree, etc.).
7. Knowing and completing degree or program requirements.
8. Monitoring their progress toward meeting degree requirements by maintaining a copy of their academic records and seeking assistance to resolve any errors or questions.
9. Acting on recommendations to seek assistance from the various student support services provided by the University and College.

Academic Load

College of Engineering (COE) students may register for up to 18 credit hours per semester. Permission must be obtained from the student's advisor to exceed the credit hour maximum and must be filed with an Override Authorization form at the time of registration. Students must be enrolled for 12 credit hours at the University of Nebraska Omaha to be considered full-time students. For recognition on the Dean's List, these 12 University of Nebraska Omaha credit hours must be for a letter grade.

Probation

College Probation. A student who receives a cumulative grade point average (GPA) of less than a 2.4 will be placed on college probation. The student will remain on probation until a semester is completed with a cumulative GPA at or above 2.4. Any student with three sequential semesters on college probation will be dismissed from the College of Engineering.

The first semester of probation is defined as the semester in which failure to meet a cumulative or semester GPA threshold or a code of conduct violation occurs.

Completion of the following semester (12 credits) with a cumulative GPA above 2.4 is required for a student to be removed from college probation. Students may be placed on college probation (or dismissed) for violation of the University of Nebraska–Lincoln Student Code of Conduct at any time. A student cannot graduate from the College of Engineering while on college probation.

College Dismissal. A student will be dismissed from the College of Engineering at the end of any semester in which:

- The student has been placed on college probation for three sequential semesters.
- The student is dismissed by the University of Nebraska–Lincoln.

College dismissal will cause an administrative change in the student's matriculation to the Explore Center or to a college indicated by the student. Students who have been dismissed from the College of Engineering may be readmitted (one time only) provided they have removed all academic deficiencies that led to dismissal.

Application for Graduation

Students are expected to develop a clear understanding of degree requirements and to plan their course of study with the academic advisor. Students requiring clarification of outstanding degree requirements should visit their academic advisor promptly.

Students should access their Degree Audit via MavLink at least once each term to review degree requirements and progress toward graduation. It is the student's responsibility to make sure their Degree Audit accurately reflects their current College and program of study.

Students who believe their Degree Audit has errors or omissions should visit their academic advisor promptly. It is important that these matters be resolved as soon as practicable to avoid a delay in graduation.

Each student who expects to receive a diploma must file an application of candidacy for the diploma online on MavLINK. Announcements about deadline dates are posted on the University of Nebraska Omaha's (UNO) Academic Calendar webpage, Maverick Weekly email to students, and by an email sent by the UNO Registrar's office.

It is the responsibility of the students to inform the Registrar's Office of their graduation plans including their mailing address and the manner in which they are completing their requirements.

Failure to meet these stipulations may necessitate the postponement of graduation until the next semester.

Scott Campus COE students wishing to attend Commencement on the UNL campus may do so by completing the online form found at <https://engineering.unl.edu/undergraduate-programs/alternate-campus-commencement-ceremony-application/>.

Academic Programs & Policies Engineering

To meet the need for innovative engineers, the College's programs offer a broad education in the physical sciences, social sciences, mathematics, information sciences, and humanities. This education is complemented by a study of engineering methods of modeling, analysis, synthesis, and design in students' areas of specialization. In addition to preparing students for careers in engineering, the College's bachelor's degree programs provide excellent preparation for graduate study in those fields.

Construction

This profession is allied with architecture, engineering, and business. Construction managers coordinate people, machines, and materials to produce (within the constraints of budget and time) buildings, highways, bridges, dams, and other structures essential to modern society. The College's construction management program provides a solid technical background, develops business knowledge, and considers ethical issues of the profession.

Computing

Computer scientists are collaborators, working within teams from other areas of expertise to determine and resolve needs and issues. Students will learn to use and build the tools to make the technology currently being used - and will in the future - work better. Computer science majors learn programming languages and theory that will prepare them for any computing career path.

Undergraduate Degree Programs

Engineering. The College offers Bachelor of Science degree programs in each of the following engineering fields: agricultural engineering (Lincoln only), architectural engineering (Omaha only), biological systems engineering (Lincoln only), chemical engineering (Lincoln only), civil engineering, computer engineering, construction engineering, electrical engineering, environmental engineering, mechanical engineering (Lincoln only), and software engineering (Lincoln only). Students with interests in specialty fields such as aerospace, or biomedical engineering should seek advice in the Engineering Student Services Center or with their faculty advisor.

Computer Science. Lincoln only. The College offers the Bachelor of Science degree program and a minor in computer science.

Construction Management. The College offers the Bachelor of Science degree program and a minor in construction management.

Data Science. Lincoln only. The College offers the Bachelor of Science degree with a major in Data Science.

Dual Degrees. Students can major in two departments in the college by consulting their advisors (one from each department) and completing all the requirements for the departmental majors.

Accreditation

- The Agricultural Engineering (BSAE) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Agricultural and Similarly Named Engineering Programs.
- The Architectural Engineering (MAE) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Architectural and Similarly Named Engineering Programs.
- The Biological Systems Engineering (BSBS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Biological and Similarly Named Engineering Programs.
- The Chemical Engineering (BSCH) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Chemical, Biochemical, Biomolecular and Similarly Named Engineering Programs.
- The Civil Engineering (BSCE) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Civil and Similarly Named Engineering Programs.
- The Computer Engineering at Lincoln Campus (BSCP) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs.
- The Computer Engineering at Omaha Campus (BSCP) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs.
- The Construction Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Construction and Similarly Named Engineering Programs.
- The Electrical Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs.
- The Mechanical Engineering (BS) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Mechanical and Similarly Named Engineering Programs.
- The Software Engineering (BSSE) program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Software and Similarly Named Engineering Programs.
- The Computer Science (BS) program is accredited by the Computing Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Computer Science and Similarly Named Computing Programs.
- The Construction Management (Bachelor of Science in Construction Management) program is accredited by the Applied and Natural Science Accreditation Commission of ABET, <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Construction Management and Similarly Named Programs.

Minors & Areas of Specializations Offered

College faculty encourage students to minor in a discipline outside the College of Engineering to further develop critical thinking skills, curiosity,

understanding of the connections between engineering and the social or natural sciences and fine arts, and sensitivity to ethical issues.

1. A minor will not reduce or alter the existing course or degree requirements for students electing to pursue a minor.
2. A student's minor program(s) must be reviewed by an advisor prior to the submission of the senior check to the department chair or head. It is the responsibility of the student to determine that all requirements for the minor are met.
3. The minor(s) must be approved by the cognizant program offering the minor(s).
4. The College of Engineering will follow the "A/B" format of the UNL College of Arts and Sciences in which a student pursuing a single minor must complete the "A" requirements. A student pursuing a double (or greater) minor must fulfill either the "A" or "B" requirements for both minors depending on which plan is offered by the cognizant department.
5. Departments may restrict students in their major(s) from obtaining certain minor(s) at their discretion; see the bulletin entry for individual majors for details.

General College Policies

These policies are applicable to all students in the College of Engineering:

1. Student priority for entrance into classes for which demand exceeds available class space will be based on accumulative GPA. This priority will be applied at the end of early registration (when applicable).
2. At least 30 of the last 36 credit hours needed for a degree must be registered for and completed at UNL or UNO while identified with the College of Engineering. This means that practically speaking, the last year of a student's work must be spent in residence. Credit earned during education abroad may be used toward degree requirements if students participate in prior approved programs and register through the University of Nebraska–Lincoln (see <http://educationabroad.unl.edu>) or the University of Nebraska Omaha (see <https://www.unomaha.edu/international-studies-and-programs/study-abroad/index.php> (<https://www.unomaha.edu/international-studies-and-programs/study-abroad/>)).
3. Credit/No Credit courses: Students in the College of Engineering must take ENGR#10 Freshman Engineering Seminar or CSE#10 Introduction to CSE, or RAIK 10 Raikes School Freshman Seminar, or ENGR 30 Transfer Student Engineering Seminar, or ENGR 193 Kiewit Scholars Freshman Seminar, or AREN 1010 Introduction to Architectural Engineering, and ENGR#20 Sophomore Engineering Seminar with the grading option Credit/No Credit. Some majors in the College of Engineering also require taking ENGR#40 Professional Ethics and Social Responsibilities with the grading option Credit/No Credit. Outside of these courses, students may take up to 12 credit hours of courses certified as ACE 5, 6, 7, 8, or 9 with the grading option of Credit/No Credit, if the major does not require a predetermined engineering course to fulfill the ACE requirement (example, some majors require BSEN/CONE#20 Engineering Economic to fulfill the ACE 8 requirement). # Students in the College of Engineering may not take any other ACE category, required or engineering/technical elective courses, with the grade option of Credit/No Credit.
4. Credits for "international students who are non-native speakers of English" at UNL and "English as a Second Language" at UNO are not applicable to degree programs in the College of Engineering.
5. Students who enroll at UNL, UNO, or UNK under the academic year (Fall, Spring, Summer) of this catalog must fulfill the requirements stated in this University of Nebraska–Lincoln catalog or in any other University catalog

which is published while they are enrolled in the College, provided that the catalog is no more than 10 years old at the time of graduation. A student must, however, meet the graduation requirements from one catalog only. A student may not choose a portion from one catalog and the remainder from another catalog.

Undergraduate Seminars. All College of Engineering students are required to attend ENGR#10CSCE 10, RAIK 10, ENGR 30, AREN 1010, or ENGR 193. These seminars provide information on engineering, computing, and construction disciplines, resources and tools available to students at the University, and opportunities to meet engineering, computing, and construction faculty members. Sophomore engineering students are required to attend ENGR#20 The Sophomore Engineering Seminar provides information on career planning, interviewing, resumé preparation, and coop/internship opportunities.

Curriculum Requirement. All engineering majors require a minimum of 45 credit hours (or equivalent) of engineering topics appropriate to the program, consisting of engineering and computer sciences and engineering design, and utilizing modern engineering tools. Engineering design is a process of devising a system, component, or process to meet desired needs and specifications within constraints. It is an iterative, creative, decision-making process in which the basic sciences, mathematics, and engineering sciences are applied to convert resources into solutions. Engineering design involves identifying opportunities, developing requirements, performing analysis and synthesis, generating multiple solutions, evaluating solutions against requirements, considering risks, and making trade-offs, for the purpose of obtaining a high-quality solution under the given circumstances.

Experiential Learning Requirement. All undergraduates in the University of Nebraska-Lincoln, starting with the 2022-2023 catalog requirements, must complete an Experiential Learning (EL) course. The capstone course for each program is designated as an experiential learning course.

Grade Appeals

In the event of a dispute involving any college policies or grades, the student should appeal to their instructor, and appropriate department chair or school director (in that order). If a satisfactory solution is not achieved, the student may appeal their case through the College Academic Appeals Subcommittee.

Appeals for Academic Amnesty/Bankruptcy

Academic bankruptcy removes the grade point factors of a semester taken at the University of Nebraska-Lincoln or the University of Nebraska Omaha from a student's cumulative grade point average, but the course(s) and grades(s) remain on the student's academic record. To review the criteria for eligibility, see <https://registrar.unl.edu/academic-standards/policies/academicbankruptcy/>. Students seeking academic amnesty/bankruptcy should consult with their academic advisor first.

Appeals of Academic Suspension

Appeals of academic suspension must be filed in writing with the Office of the Dean within 21 days after official electronic notification/posting of the grades by the Registrar for the semester at the end of which the suspension was invoked. Suspended students who have filed a notice of appeal may apply to the Office of the Dean for a temporary release from suspension pending the final disposition of their appeal by the Academic Appeals Subcommittee of the College of Engineering.

Student Recognition & Organizations

The Complete Engineer®

The goal of the Complete Engineer® program is to help students focus on and enhance specific non-technical competencies in coordination with

their strong technical foundation. Based on industry input concerning what they seek from employees, six competencies have been identified allowing growth in three levels. The first level (Exposure) is addressed in their classes. The second (Engagement) and third (Transformation) levels are addressed when students create their own development pathways by engaging in additional experiences and opportunities to develop greater skills in these competencies. To learn more about the Complete Engineer®, go to <https://engineering.unl.edu/complete-engineer/>.

Dean's List

The College recognizes students for academic achievement during the fall and spring semesters by placement on the College Dean's List. To qualify for the College of Engineering Dean's List, students must complete 12 credit hours of graded coursework (courses must be started and completed in one semester) by the census date of the grade reports and attain a minimum semester grade point average of 3.500. The following do not qualify as part of the 12 credit hours: Credit/No Credit hours, transfer hours, removals of incompletes, and grade changes submitted after the census grade reports.

Graduation with Distinction

GPA requirements for engineering students to graduate with levels of distinction are:

Distinction: 3.750 – 3.849

High Distinction: 3.850 – 3.949

Highest Distinction: 3.950 – 4.000

For engineering students to graduate with Distinction, High Distinction, or Highest Distinction, they must meet the GPA levels listed above, and be approved by a majority vote of the faculty in the department offering their respective academic program. The GPA level is based on the cumulative GPA earned in the semester prior to the semester in which the student graduates.

Honor Societies

These recognize students who excel in scholarship and give promise of being leaders in professional areas. They are branches of national societies and are generally open upon invitation to juniors and seniors: Alpha Epsilon (agricultural engineering), Chi Epsilon (civil engineering, both campuses), Eta Kappa Nu (electrical engineering, both campuses), Pi Tau Sigma (mechanical engineering), Sigma Lambda Chi (construction management, both campuses), Upsilon Pi Epsilon (computing and information disciplines <https://upe.acm.org/>), Sigma Xi (scientific, all colleges), Tau Alpha Pi (engineering technology, Scott campus in Omaha), and Tau Beta Pi (all engineering).

Honors Program

The College of Engineering encourages qualified students to participate in the University Honors Program which is a University of Nebraska Omaha program. The College's honors students pursue degree programs offered by the College while completing the required honors courses.

All University Honors Program students are expected to complete a mentored thesis project with a faculty member of their choosing.

Students may also seek support from the University of Nebraska-Lincoln's Undergraduate Creative Activities and Research Experience (UCARE) program.

For more information about the University Honors Program, contact:

Dr. Lucy Morrison
University of Nebraska Omaha
208 Kayser Hall

Omaha, NE 68182

Professional Licensure

The College encourages professional licensure. Most of the College's engineering seniors take the Fundamentals of Engineering (FE) examination prior to graduation. This examination is administered by NCEES (<https://ncees.org/>) and is the first step in the process of becoming a licensed professional engineer. To become a licensed professional engineer, one must pass the FE exam, have at least four years of experience, and pass the Principles and Practice of Engineering (PE) Examination, including the Structural Engineering (SE) Exam (<https://ea.nebraska.gov/engineer-initial-licensure>). Students may take the FE exam in the last semester of their baccalaureate program.

Technical Societies

The technical student societies help develop greater personal and professional interest and understanding in engineering, computer science, and construction management. Student branches of the major national technical and scientific societies are sponsored by the academic programs and departments.

Scott Campus (Omaha). Acoustical Society of America; American Society of Heating, Refrigeration and Air-conditioning Engineers; Architectural Engineering Institute; Architectural Engineering Student Leadership and Advisory Committee; Associated General Contractors of America; Earthquake Engineering Research Institute; Emerging Green Builders; Illuminating Engineering Society of North America; Mechanical Electrical Specialty Contractors; National Association of Home Builders Student Chapter; American Society of Civil Engineers; American Water Works Association/Water Environment Federation; Engineers Without Borders; Institute for Transportation Engineers; Structural Engineering Association of Nebraska; and Institute of Electrical & Electronics Engineers.

Experiential Learning

Experiential Learning provides students with hands-on experiences that inform the educational experience and allows students to practice what they are learning in the classroom. UNL requires all students seeking a bachelors degree to complete one Experiential Learning class. The College of Engineering programs automatically include experiential learning courses in their curriculum as well as providing for additional experiential learning opportunities.

Internships and Coops

For a student who anticipates pursuing a career as a practicing engineer, it is strongly recommended that the student engages in an internship or equivalent practical training experience.

Undergraduate Research

The College and UNO offer a variety of opportunities for undergraduate students to obtain hands-on experience through research. Learn more about opportunities at <https://engineering.unl.edu/undergraduate-programs/undergraduate-research/>.

International Study/Education Abroad

The College offers a variety of opportunities for students to enhance their international awareness. All students are required to demonstrate that they have at least a minimal international awareness, either through coursework or experience. A minor in International Engineering is available for students who seek a broad understanding of the nature and role of engineering in the integrated world economy and the implications of world events for engineering. International study tours of one to three weeks in duration are also sponsored by UNL's Office of Global Experience. The Office of

Global Experiences has opportunities of various lengths in numerous countries on all continents.

Other Items of Note

Scholarships and Financial Aid

Each year the College awards scholarships to first-year students and upper-level students worth more than \$750,000. Scholarship awards are made possible through generous gifts of alumni and friends, as well as local and national organizations. Contact the Office of the Dean or the Office of Scholarships and Financial Aid for information regarding these awards and for other financial assistance.

Application for University of Nebraska–Lincoln first-year student scholarships automatically makes you eligible for College of Engineering scholarships, as well as other university awards such as the Regents and David scholarships. You must submit the University of Nebraska–Lincoln Application form (due January 15, prior to the beginning of the next academic year) to be eligible.

A significant number of entering students have academic records that qualify them for university-wide scholarship awards. Each year, about 25 percent of the first-year Regent Scholarship recipients are engineering students.

Many students can find part-time employment in fields related to their interests.

Graduate Course Opportunities

Courses supporting several engineering graduate programs are offered both on and off campus. For details, see the University of Nebraska–Lincoln Graduate Studies Catalog (<https://catalog.unl.edu/graduate-professional/>) and contact the appropriate department or Engineering Student Services.

Seniors in this University who have obtained prior approval from the Dean of Graduate Studies may receive up to 12 hours credit for graduate courses taken in addition to their required undergraduate work. However, these credits must be earned within the calendar year prior to receipt of the bachelor's degree. For procedures, inquire at the University's Graduate Studies Office. Graduate credits earned prior to receipt of the bachelor's degree may not always be accepted for transfer to other institutions as graduate work.

Lifelong Learning

The education of professionals in construction management, computing, and engineering is a continuing process. The groundwork in both technical and non-technical studies is laid while in college, but education continues after graduation. For a professional, education will continue not only in the technical areas but in areas that relate to human and social concerns. A professional may expect to take a leadership role in the community and must have a broad awareness of human and social accomplishments, needs, values, and a willingness to take the responsibility for meeting these needs. For these reasons, an integrated program of coursework in the humanities and social sciences is a part of the educational requirements.

College Admission

College Entrance Requirements

Students must meet both the University and College of Engineering entrance requirements. The following includes both the University and College of Engineering entrance requirements.

Students must have high school credit for (one unit is equal to one high school year):

1. Mathematics – 4 units: 2 of algebra, 1 of geometry, and 1 of precalculus and trigonometry
2. English – 4 units
3. Natural sciences – 3 units that must include 1 unit of physics and 1 unit of chemistry (chemistry requirement waived for students in construction management or computer science)
4. Foreign language – 2 units of a single foreign language
5. Social studies – 3 units
6. Students having a composite ACT score of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack any one of the following: trigonometry, chemistry, or physics. Students without test scores who are missing a full unit of trigonometry/pre-calculus/calculus or chemistry or physics will be evaluated through College Review.

A total of 16 units is required for admission.

Engineering requires that student performance meet one of the following standards: composite ACT of 24, SAT of 1180, ACT Math subscore of 24, SAT Math subscore of 580, or a 3.5 cumulative GPA.

Any domestic first-year student who does not gain admission to Engineering but does gain admission to the University of Nebraska-Lincoln (UNL) will be reviewed through College Review. College Review is conducted through the College Review Committee which considers factors beyond standardized testing. Any first-year student who is not admitted through college review is placed in Pre-Engineering (PENG) within the college and are advised by the Engineering Student Services.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska-Lincoln Office of On-line and Distance Education, in summer courses, or as a part of their first or second semester course loads while in the Academic and Career Development Center at the University of Nebraska Omaha.

Students should consult their advisor, their department chair, or Engineering Student Services (ESS) if they have questions on current policies.

Other Admission Requirements

Students who transfer to the University of Nebraska Omaha from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE first-year student entrance requirements, have a minimum cumulative GPA of 2.5, and be calculus-ready. Students not meeting either of these requirements must enroll in another University college until they meet COE admission requirements. Students transferring from UNO, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska-Lincoln accepts D grades from the University of Nebraska Kearney and the University of Nebraska Omaha, not all majors in the COE accept such low grades. Students must conform to the requirements of their intended major and, in any case, are strongly encouraged to repeat courses with a grade of C- or less.

Students who were previously admitted to COE and are returning to the College of Engineering must demonstrate a cumulative GPA of 2.5 to be readmitted to COE.

College of Engineering Programs

Engineering

Architectural Engineering

- B.S. Degree Program (p. 770)

Civil Engineering

- B.S. Degree Program (p. 775)

Computer Engineering

- B.S. Degree Program (p. 787)

Construction Engineering

- B.S. Degree Program (p. 810)

Construction Management

- B.S. Degree Program (<https://catalog.unomaha.edu/undergraduate/college-engineering/construction/construction-management-bs/>)

Electrical Engineering

- B.S. Degree Program (p. 790)

Environmental Engineering

- B.S. Degree Program (p. 794)

First two years of:

- Agricultural Engineering (p. 803)
- Biological Systems Engineering (p. 804)
- Mechanical Engineering (p. 804)

Graduate Programs

A variety of graduate programs in engineering and construction management are available. For details on programs leading to masters and doctorate degrees, including the application process, individuals should contact the appropriate department or office of the dean in the College of Engineering. Application forms are available at <http://www.unl.edu/gradstudies> (<http://www.unl.edu/gradstudies/>).

Minors & Areas of Specializations Offered

College faculty encourage students to minor in a discipline outside the College of Engineering to further develop critical thinking skills, curiosity, understanding of the connections between engineering and the social or natural sciences and fine arts, and sensitivity to ethical issues.

Policies

1. A minor will not reduce or alter the existing course or degree requirements for students electing to pursue a minor.
2. A student's minor program(s) must be reviewed by an advisor prior to the submission of the senior check to the department chair or head. It is the responsibility of the student to determine that all requirements for the minor are met.
3. The minor(s) must be approved by the cognizant program offering the minor(s).
4. Departments may restrict students in their major(s) from obtaining certain minor(s) at their discretion; see the catalog entry for individual majors for details.

Architectural Engineering, Bachelor of Science

The architectural engineering (BSAE) undergraduate program is a four-year program requiring 128 credit hours. A one-year master of architectural engineering (MAE) program of 30 credits is also offered. The MAE degree

is accredited by ABET, and almost all of our BSAE graduates continue to complete the MAE degree.

Educational Objectives

The following are the BSAE/MAE program educational objectives (PEOs):

1. Professional Accomplishment: The AE program will prepare graduates to become licensed professional engineers a few years after graduation.
2. Career Accomplishment: The AE program will prepare graduates to contribute to society by working in an occupation related to the built environment a few years after graduation.

Architectural engineering (AE) is the engineering design of buildings. Students have the option to specialize in the design of one of the following:

1. Building structural systems
2. Building mechanical systems and acoustics
3. Building lighting and electrical systems

The first three years are common to all three fields of specialization and include the math and science courses common to all engineering programs. Students take an introductory course in AE in their first semester where they learn about the materials and systems that comprise a building, visit a construction site, and interact with their industry mentors. It provides a preview of the work they can expect to perform after graduation. This introductory course helps students decide if AE is the career path they wish to pursue.

In the second semester, the AE student begins the first of a four-course sequence of courses in AE Design and Simulation Studio. These courses familiarize the engineering student with building information technology (BIM), building systems, and how they support the design process of architects. The AE degree is keenly focused on integrating engineering concepts with architectural features to deliver aesthetic and high performing buildings. Exposure to construction is an important part of the AE student's education. It develops creativity and constructability where AE graduates enjoy a special ability to work effectively with all professionals on the design and construction team.

The AE program develops breadth and depth by requiring a good understanding of all the systems that comprise a building while also providing specialized education in one of the areas listed above. Breadth is provided in the fifth and sixth semesters, where all students take courses in each of the three areas of specialization. Depth is provided in the seventh and eighth semesters where courses are taken primarily in one of the three specialization tracks.

A one-year master of architectural engineering (MAE) degree follows the four-year undergraduate program. This fifth year continues the specialized education in each of the three option areas and provides the professional practice topics that architectural engineers need later in their careers.

The MAE year features a major interdisciplinary design project. The project requires students to practice the design skills and understanding of building systems previously developed. Student teams complete a significant building design in a manner that closely simulates professional practice. Industry and faculty members serve as consultants to the students.

Typically, students enter this design into the national Architectural Engineering Institute competition. Traditionally, our students do very well at this competition. Additionally, students complete an individual mastery project in a topic of their choice.

Career Opportunities

Architectural engineering graduates normally enter the building design industry and become registered professional engineers. There are only about 20 accredited architectural engineering programs in the country, so there is a large unfulfilled demand for engineers educated in

building design. In Nebraska, the home of several large architectural and engineering design firms, this is especially true.

Architectural engineering is accredited by the EAC-ABET, Inc. The accreditation is attached to the one-year master of architectural engineering degree.

Major Department Admission

Students must complete at least 43 credit hours in the AE program before applying for professional admission to the degree program in AE. Transfer students must have all transfer hours accepted before applying for professional admission. Professional admission in the BSAE program requires a minimum of 3.0 GPA and allows students to continue to take 300-level AREN courses. The number of admitted students will depend on the availability of space, faculty, and other academic resources. Students are not permitted to register for more than 61 credit hours of courses listed in the AE curriculum until they have been professionally admitted into the degree program.

Learning Outcomes

Graduates of architectural engineering will develop:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

The above student outcomes have been approved by the ABET Engineering Area Delegation for use beginning with the 2019-20 academic year, and have been adopted by the faculty of the Department of Architectural Engineering.

Additional Major Requirements

AREN 1000 DSAEC Seminar Requirement

Undergraduate Architectural Engineering majors are required to complete this zero-credit-hour course every semester they are in the major.

Grade Rules

C- and D grades

Architectural engineering students must earn a grade of C or better in math, science, computer programming, and engineering courses to obtain credit for that course toward graduation. Additionally, all courses that are prerequisites for engineering courses must be passed with a grade of C or better.

Catalog to Use

Because of rapid technical developments, the AE curriculum is continually reviewed and upgraded. Students currently enrolled are expected to modify their programs to take advantage of such revisions. Students who do not maintain continuous progress toward the degree through enrollment in applicable coursework will be considered as new students upon re-entering

the program and will be subject to the requirements of the undergraduate catalog current at the time of their re-entry.

ACE Requirements

The AE program follows the University of Nebraska–Lincoln Achievement Centered Education (ACE) requirements. Because of the specific needs of the program, most of these courses are specified in the curriculum.

Please contact DurhamSchool@unl.edu (durhamschool@unl.edu), if you are interested in more information about this program.

Requirements

Course	Title	Credits
First Semester		
AREN 1010	INTRODUCTION TO ARCHITECTURAL ENGINEERING	1

AREN 1000 DURHAM SCHOOL OF ARCHITECTURAL ENGINEERING AND CONSTRUCTION SEMINAR (0 credits)

Presentation of professional problems and practices by students, faculty, and professionals associated with careers in the Durham School of Architectural Engineering and Construction

AREN 1010 INTRODUCTION TO ARCHITECTURAL ENGINEERING (1 credit)

An overview of architectural engineering. Descriptions of structural, lighting and electrical, and mechanical engineered systems in buildings. Design and measurement exercises. Field visits to buildings.

AREN 1030 DESIGN AND SIMULATION STUDIO I (3 credits)

Focus on virtual modeling in the context of conceptual design. Study of fundamentals of Building Information Modeling (BIM), iterative design processes, early design analysis techniques, and technical problem-solving processes. Development of modeling skills in various software programs including Autodesk Revit, Formit, Dynamo, and Trimble Sketchup.

AREN 2010 ARCHITECTURAL ENGINEERING SEMINAR (1 credit)

This course will inform students about careers in Architectural Engineering and about non-technical issues of engineering practice. It will include visits to offices and job sites, and talks by practicing professionals. Professional, ethical, social, and environmental issues will be addressed. Students will gain experience in teamwork, and in presentation of information.

Prerequisite(s): AREN 1010 or AE 1010; 30 credit hours completed

AREN 2030 DESIGN AND SIMULATION STUDIO II (3 credits)

Focus on building systems as integral elements in architecture, building and construction assemblies, materials and methods, fabrication, and tectonic exploration using building information modeling (BIM) processes. Exposure to building construction systems, stereotomic and tectonic construction assemblies, and fundamentals of the architectural design process.

Prerequisite(s): AREN 1030 or AE 1030 Design and Simulation Studio I

AREN 2110 THERMODYNAMICS FOR ARCHITECTURAL ENGINEERING (3 credits)

First and Second Laws of Thermodynamics, properties of gases and vapors. Sources of energy and its conversion to work. Applications on Architectural Engineering and Construction.

Prerequisite(s): MATH 1960, PHYS 2110. Not open to non-degree graduate students.

AREN 2250 CONSTRUCTION GRAPHICS AND DESIGN PROCESS (3 credits)

Introduction to typical computer-graphics and calculation applications used in a contemporary architectural engineering design office. Extensive use of CADD and electronic spreadsheet software to solve typical analysis and design problems. Fundamentals of descriptive geometry and two and three-dimensional drawing systems. Use of drawing conventions common to construction design. Basics of personal computer applications. Conceptual review of engineering design and technical problem solving processes.

AREN 2400 BUILDING SYSTEMS (3 credits)

Building systems as integral elements in architecture; building assemblies and materials; building system relationships; communication of ideas between design professionals, clients, contractors and manufacturers; construction drawings and specifications.

Prerequisite(s): AREN 2250 or AE 2250

AREN 3030 AE DESIGN AND SIMULATION STUDIO III (3 credits)

A comprehensive focus on building design and construction through integrating program, structure, site, and enclosure aligned with architectural engineering. Topics include structure and construction assemblies; envelope performance; and whole building organization and space-making using BIM processes.

Prerequisite(s): AREN 3030 or permission of instructor

AREN 3070 MECHANICS OF MATERIALS LAB (1 credit)

Introduction to the behavior and testing of various building materials. The concepts of axial stress and strain, flexural stress and strain, beam deflections and column buckling.

Prerequisite(s): Coreq: MECH 3250.

AREN 3100 HVAC FUNDAMENTALS (3 credits)

Topics will include an introduction to the types of air conditioning systems; the properties of moist air, psychometric processes in HVAC equipment; indoor air quality; thermal comfort; heat transmission in buildings; solar radiation; and the calculation of building infiltration rates, space heating loads and space cooling loads.

Prerequisite(s): MECH 2000 or MENG 2000; corequisite AREN 4040

AREN 3120 MECHANICAL SYSTEMS FOR BUILDINGS (3 credits)

Fluid flow, pumps, and piping design; space air diffusion; fans, ducts, and building air distribution; refrigeration equipment.

Prerequisite(s): AREN 3100 or AE 3100 and CIVE 310 and CIVE 319

AREN 3130 HVAC LAB (1 credit)

Conduct experiments and prepare written reports involving fluid flow, pumps, fans, ducts, piping; basic heat transfer and thermodynamic principles.

Prerequisite(s): AREN 3100 or AE 3100 and CIVE 310 and CIVE 319

AREN 3200 LIGHTING I: FUND FOR DESIGN (3 credits)

Introduction to illumination engineering for building interiors. Topics include the fundamentals of light and vision, lighting equipment, requirements for building lighting, and basic illuminating engineering design methods.

Prerequisite(s): ECEN 211

AREN 3220 ELECTRICAL SYSTEMS FOR BUILDINGS I (3 credits)

Study of basic design of building electrical systems including circuit design, power distribution and service equipment, communications systems, and special electrical systems.

Prerequisite(s): ECEN 211

AREN 3230 LIGHTING AND ELECTRICAL SYSTEMS LAB (1 credit)

General introduction to lighting and electrical systems in building interiors, through hands-on exercises using a range of currently available lighting and electrical technologies. Topics include: principles of object modeling, lamp and luminaire workshops, field measurements of lighting and electrical systems, motor workshop, power consumption and power factor workshops.

Prerequisite(s): AREN 3200 or AE 3200; coreq AREN 3220

AREN 3300 BUILDING ACOUSTICS FUNDAMENTALS (3 credits)

An introduction to the acoustics of buildings. Topics include the fundamentals of sound generation, propagation, and measurement; human hearing; acoustic properties of materials and constructions; basic room acoustics; and noise control.

Prerequisite(s): PHYS 2120

AREN 3770 GLOBAL EXPERIENCES IN ARCHITECTURAL ENGINEERING (1-3 credits)

Individual or group educational experience in Architectural Engineering that combine classrooms, lectures, discussions, and/or seminars with field and/or classroom studies in a foreign country. Choice of subject matter and coordination of on- and off-campus activities are at the discretion of the instructor.

AREN 3920 INDIVIDUAL INSTRUCTION IN ARCHITECTURAL ENGINEERING III (1-3 credits)

Individual instruction in Architectural Engineering at the junior level in a selected area, under the supervision and guidance of an Architectural Engineering faculty member.

AREN 3940 SPECIAL TOPICS IN ARCHITECTURAL ENGINEERING III (3 credits)

Special topics in Architectural Engineering at the junior level that are not yet covered in other courses in the Architectural Engineering curriculum.

Prerequisite(s): Permission of instructor.

AREN 4020 ARCHITECTURAL ENGINEERING SENIOR DESIGN PROJECT IN LIGHTING (4 credits)

Senior design project that integrates lighting design and illuminating engineering through a semester long design problem. A self-directed execution of the lighting design process culminating with a professional design solution.

Prerequisite(s): AREN 3220 or AE 3220; AREN 4200 or AE 4200

AREN 4030 AE DESIGN AND SIMULATION STUDIO IV (3 credits)

Advanced topics in Building Information Modeling (BIM) are presented including modeling tools and processes for building engineers, designers, contractors, and operators. BIM management throughout the building lifecycle, technical engineering use cases, and specific topics in virtual reality, simulation, augmented reality, and graphical programming environments are covered. Advanced topics relevant to all AE fields include collaborative design and interoperability.

Prerequisite(s): AREN 3030

AREN 4040 BUILDING ENVELOPES (3 credits)

Design and analysis of building envelopes is an important and interdisciplinary topic within the Architectural Engineering field that relates to all AE subdisciplines (lighting, electrical systems, structures, mechanical systems, and acoustics). This introductory Building Envelopes course is created to supplement the sub-discipline specific introductory courses as well as combine some of these topics under the umbrella of building envelopes. It aims to fill an important gap in the BSAE curriculum and cover a comprehensive introduction to the processes of Building Energy Modeling.

Prerequisite(s): MECH 200 or MENG 2000; junior standing; corequisite: AREN 3100

AREN 4120 BUILDING ENERGY II: PRIMARY AND SECONDARY SYSTEMS (3 credits)

Analysis and design of building air distribution systems, fans, pumps, piping, space air diffusion and heat exchangers.

Prerequisite(s): AREN 3100 or AE 3100; CIVE 310

AREN 4150 HVAC DESIGN (4 credits)

Develop and design the mechanical system for an actual building, from the programming phase to the final construction documents.

Prerequisite(s): AREN 4120 or AE 4120. Not open to non-degree graduate students.

AREN 4200 LIGHTING II: THEORY, DESIGN & APPLICATION (3 credits)

Design and analysis of lighting systems; the emphasis is on the integration between the lighting design process and the technical foundations for building lighting; topics include design criteria; lighting design procedures, lighting modes and subjective effects; calculation tools. Lab sessions include photometric measurements and computer applications. (Cross-listed with AREN 8206).

Prerequisite(s): AREN 3200 or AE 3200

AREN 4250 LIGHTING DESIGN (4 credits)

Advanced design and analysis of lighting systems. Application of the lighting design process for advanced interior applications such as multimedia facilities, and outdoor applications such as sports lighting. (Requires the initiation of the design process, proceeding in a self-directed manner through intermediate steps, and producing professional lighting design solutions.)

Prerequisite(s): AREN 4200 or AE 4200. Not open to non-degree graduate students.

AREN 4300 ADVANCED NOISE CONTROL (3 credits)

Characterization of acoustic sources; use and measurement of sound power and intensity; sound-structure interaction; acoustic enclosures and barriers; muffling devices; vibration control; and active noise control. (Cross-listed with AREN 8306).

Prerequisite(s): AREN 3300 or AE 3300

AREN 4420 HEALTHCARE DESIGN AND CONSTRUCTION (3 credits)

Introduction to the design and construction of healthcare facilities. Healthcare regulations and standards, infection control, interim life safety measures, code requirements, medical equipment selection and coordination, healthcare design and construction techniques, and best practices will be addressed. Provides guidance in preparation for the Certified Healthcare Constructor credential offered by the American Healthcare Association. (Cross-listed with AREN 8426, CNST 842, CNST 442).

Prerequisite(s): Senior or graduate standing

AREN 4600 SMART BUILDING SENSORS AND PROGRAMMING (3 credits)

Principles of modeling, interfacing, and signal conditioning of sample building sensors, and acquisition and analysis of data utilizing engineering programming language such as LabVIEW and analysis of data from different types of building sensors. Overview of current sensing technology and control in buildings. (Cross-listed with AREN 8600).

Prerequisite(s): CIST 1400

AREN 4620 MEMS SENSORS DYNAMICS (3 credits)

Study of the dynamics of Microelectromechanical system (MEMS) beam-structures. Modeling principles and data analysis from different types of MEMS will be explained along with deep theoretical and experimental investigation of nonlinear MEMS dynamics. Learn to conduct experiments using state-of-the-art MEMS characterization tools. (Cross-listed with AREN 8626).

Prerequisite(s): Instructor Permission

AREN 4920 INDIVIDUAL INSTRUCTION IN ARCHITECTURAL ENGINEERING IV (1-3 credits)

Individual instruction in Architectural Engineering at the senior level in a selected area, under the supervision and guidance of an Architectural Engineering faculty member.

Prerequisite(s): Instructor Permission

AREN 4940 SPECIAL TOPICS IN ARCHITECTURAL ENGINEERING IV (3 credits)

Special topics in Architectural Engineering at the senior level that are not yet covered in other courses in the Architectural Engineering curriculum.

Prerequisite(s): Permission of instructor.

Civil Engineering, Bachelor of Science

Description

Website: <https://cee.unl.edu/>

The Department of Civil and Environmental Engineering offers a complete undergraduate program to students on the Lincoln and Omaha campuses of the University of Nebraska. Curriculum requirements are nearly identical on both campuses. The goal is to prepare students for entry into the civil engineering profession immediately after graduation or to pursue graduate-level studies.

The general educational objectives of the University of Nebraska–Lincoln civil engineering undergraduate program are to prepare our graduates so that, with a University of Nebraska–Lincoln BSCE degree, a few years beyond graduation, alumni will:

- Be employed in civil and environmental engineering or a closely related field; or, graduates will be pursuing an advanced degree in civil and environmental engineering or a closely related field.
- Contribute to society and address societal and environmental needs through engagement in professional, community, or service organizations.
- Agree that the civil engineering program prepared them for success in their careers in terms of knowledge and skillsets as embodied in the program and the Complete Engineer™ Initiative.

As a professional discipline, civil engineering is closely related to the total human environment. In all professional endeavors, the civil engineer must consider ecological effects as well as the social, economic, and political needs of people. The civil engineer designs systems to control and manage our water resources to provide electric power, agricultural irrigation, flood control, recreation, water supplies, and wastewater treatment systems for our urban and industrial needs.

The civil engineer plans, designs, and constructs our transportation systems—including highways, railroads, waterways, and airports—to connect rural, urban, and industrial areas. The civil engineer also designs and constructs housing and facilities for recreational, industrial, and commercial complexes, which comprise the urban environment. It is the responsibility of civil engineering to minimize air, water, and land pollution and protect the environment.

Instructional emphasis is placed on fundamental engineering principles derived from mathematics, chemistry, physics, and engineering science. These subjects provide a sound background for the subsequent introductory courses in environmental, geotechnical, structural, transportation, and water resources engineering. Students are introduced to design concepts in the freshman year. Design is incorporated throughout the curriculum that culminates in two senior-level courses, CIVE 401 (<https://nextcatalog.unl.edu/search/?P=CIVE%20401>) Civil Engineering Design I and CIVE 402 (<https://nextcatalog.unl.edu/search/?P=CIVE%20402>) Civil Engineering Design II.

Instructional laboratories in environmental engineering, hydraulics, geotechnical engineering, structures, and surveying provide each student with an opportunity to learn, through individual participation, the operation of the testing equipment used to establish engineering design criteria and to monitor and model engineering facilities such as water and wastewater treatment plants, river control systems, and structural systems.

The Department of Civil and Environmental Engineering also offers a major and a minor in Environmental Engineering.

Learning Outcomes

Graduates of the civil engineering program will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

The above student outcomes have been approved by the ABET Engineering Area Delegation for use beginning with the 2019-20 academic year, and have been adopted by the faculty of the Department of Civil and Environmental Engineering.

Professional Admission to Civil Engineering Criteria for Professional Admission to the Civil Engineering Degree Program

Pre-professionally admitted College of Engineering students majoring in civil engineering must have their academic records reviewed for professional admission to the civil engineering degree program during the fall, spring or summer immediately following the term in which:

- At least 12 credits (one semester) have been completed after admission to the College of Engineering;
- At least 43 credits applicable to the degree have been earned; and
- PHYS 2110 General Physics I, MECH 223 Engineering Statics, MECH 325 Mechanics of Elastic Bodies and MECH 373 Engineering Dynamics have been completed.

Additionally, the student can have no more than two declined professional admission requests to other engineering majors. It is likely a student may need to complete four full semesters of credits applying to the program before these requirements are able to be completed.

Professional admission approval to the civil engineering degree program also requires that all of the following departmental-specific criteria must be met:

- Earn a C letter grade or better in PHYS 2110, MECH 223, MECH 325, AND MECH 373
- Earn a cumulative grade point average of 2.4 or greater; and
- Earn a C letter grade or better in ALL math, science and engineering courses required for the bachelor of science in civil engineering degree if the cumulative grade point average is less than 2.700.

Students approved for professional admission to the program are then allowed to take 400-level civil engineering courses to complete their degree.

Requirements

(City Campus in Lincoln and Scott Campus in Omaha)

This document represents a SAMPLE 4-year plan for degree completion with this major. Actual course selection and sequence may vary and should

be discussed individually with your college or department academic advisor. Advisors also can help you plan other experiences to enrich your undergraduate education such as internships, education abroad, undergraduate research, learning communities, and service learning and community-based learning.

Students must have completed the equivalent of the fourth semester before admission to the civil engineering program. Transfer students must have all transfer hours accepted before being considered for the degree program.

Course	Title	Credits
First Semester		
CIVE 101	INTRODUCTION TO CIVIL ENGINEERING	3
CHEM 1180	GENERAL CHEMISTRY I	3
CHEM 1184	GENERAL CHEMISTRY I LABORATORY	1
MATH 1950	CALCULUS I	5
ACE 2 Communication Skills Elective		3
ENGR 10	FRESHMAN ENGINEERING SEMINAR	0
Credits		15
Second Semester		
CIVE 102	GEOMATICS FOR CIVIL ENGINEERING	3
CIST 1600	INTRODUCTION TO PROGRAMMING USING PRACTICAL SCRIPTING	3
PHYS 2110	GENERAL PHYSICS I - CALCULUS LEVEL	4
MATH 1960	CALCULUS II	4
ACE 1 Writing Elective		3
Credits		17
Third Semester		
CIVE 201	CIVIL ENGINEERING ANALYSIS I	2
MECH 223	ENGINEERING STATICS	3
PHYS 2120	GENERAL PHYSICS-CALCULUS LEVEL (or CHEM 1190 and CHEM 1194)	4
MATH 1970	CALCULUS III	4
ACE 5 Humanities Elective		3
ENGR 20	SOPHOMORE ENGINEERING SEMINAR	0
Credits		16
Fourth Semester		
CIVE 202	CIVIL ENGINEERING ANALYSIS II	2
CIVE 371	Materials of Construction	3
MECH 325	MECHANICS OF ELASTIC BODIES	3
MECH 373	ENGINEERING DYNAMICS	3
MATH 2350	DIFFERENTIAL EQUATIONS	3
ACE 6 Social Science Elective		3
Credits		17
Fifth Semester		
CIVE 301	CIVIL ENGINEERING SYNTHESIS I	1
CIVE 310	FLUID MECHANICS	3
CIVE 310L	Hydraulics Laboratory	1
CIVE 341	STRUCTURAL ANALYSIS FUNDAMENTALS	3
CIVE 342	STRUCTURAL DESIGN FUNDAMENTALS	1
CIVE 361	PRINCIPLES OF TRANSPORTATION ENGINEERING	3
STAT 3800	APPLIED ENGINEERING PROBABILITY AND STATISTICS	3
Credits		15
Sixth Semester		
CIVE 302	CIVIL ENGINEERING SYNTHESIS II	1

CIVE 321	PRINCIPLES OF ENVIRONMENTAL ENGINEERING	3
CIVE 321L	ENVIRONMENTAL ENGINEERING LABORATORY	1
CIVE 331	Introduction to Geotechnical Engineering	4
CIVE 351	Introduction to Water Resources Engineering	3
ACE 7 Arts Elective		3
Credits		15
Seventh Semester		
CIVE 401	CIVIL ENGINEERING DESIGN I	3
CIVE Depth Elective (Environmental Water)		3
Choose 1 from CIVE 420, CIVE 425, CIVE 427, CIVE 419, CIVE 452		
Science Elective		4
BIOL 1020 or BIOL 1450 or GEOL 1170 or (PHYS 1350 and PHYS 1354) or (GEOG 3510 and GEOG 3514) or (CHEM 2210 and CHEM 2214)		
Technical Elective		3
Work with your advisor to correctly select this elective.		
ACE 8 Ethics Elective		3
Credits		16
Eighth Semester		
CIVE 402	CIVIL ENGINEERING DESIGN II	3
CIVE Depth Elective (Geotech/Materials, Structures, and Transportation)		3
Choose 1 from CIVE 436, CIVE 440, CIVE 441, CIVE 462, CIVE 463		
CIVE Depth Elective (Choose one that was not used to fulfill another requirement)		3
CIVE 419, CIVE 420, CIVE 425, CIVE 427, CIVE 436, CIVE 440, CIVE 441, CIVE 462, CIVE 463		
Technical Elective		3
Work with your advisor to correctly select this elective		
ACE 9 Global Awareness and Human Diversity Elective		3
Credits		15
Total Credits		126

A list of approved ACE courses offered on the Omaha campus can be found here (https://tes.collegesource.com/publicview/TES_publicview03_group_report.aspx?sid=12214&rid=1d4a5187-e01b-4f1f-aaa6-b0040e957167&aid=e4ff42df-9ddc-4416-a5dd-18e971d1c0e4&cgrid=5508)

CIVIL ENGINEERING DEPTH ELECTIVES

Depth Electives in Environmental and Water Resources Engineering	3
--	---

Choose one from:

CIVE 420	ENVIRONMENTAL ENGINEERING PROCESS DESIGN
CIVE 427	DESIGN OF WASTEWATER TREATMENT AND DISPOSAL FACILITIES
CIVE 426	
CIVE 419	FLOW SYSTEMS DESIGN
CIVE 452	WATER RESOURCES DEVELOPMENT

Depth Electives in Geotechnical, Structural and Transportation Engineering	3
--	---

Choose one from:

CIVE 436	FOUNDATION ENGINEERING
CIVE 440	REINFORCED CONCRETE DESIGN I
CIVE 441	STEEL DESIGN I
CIVE 462	HIGHWAY DESIGN
CIVE 463	TRAFFIC ENGINEERING (General Civil Engineering Depth Electives)

General Civil Engineering Depth Electives	3
---	---

Choose three credits from the following that were not used to fulfill another requirement:

CIVE 420, CIVE 426, CIVE 427, CIVE 419, CIVE 436, CIVE 440, CIVE 441, CIVE 462, CIVE 463

Credit Hours Subtotal:	9
------------------------	---

GENERAL ENGINEERING

CIST 1600	INTRODUCTION TO PROGRAMMING USING PRACTICAL SCRIPTING	3
MECH 223	ENGINEERING STATICS	3
MECH 325	MECHANICS OF ELASTIC BODIES	3
MECH 373	ENGINEERING DYNAMICS	3
Credit Hours Subtotal:		12
ENGR 10	FRESHMAN ENGINEERING SEMINAR	0
ENGR 20	SOPHOMORE ENGINEERING SEMINAR	0

TECHNICAL ELECTIVES

Choose a total of six credits from:	6
-------------------------------------	---

Any 400-level CIVE course not taken to fulfill another requirement

Any 200-, 300- or 400-level course in any engineering major not used to fulfill another requirement

Any 200-, 300- or 400-level course in Biology, Chemistry, Public Administration (including PA 1010), Geology, GEOG 2620, Mathematics, Statistics, or Physics not used to fulfill another requirement.

Any course in the following list: ACCT 2000, ANTH 3910, ANTH 3920, BIOL 1020, BIOL 1450, BIOL 1750, BIOS 4940, CHEM 1190, ECON 2200, ENTR 3710, GEOG 1030, (GEOG 3510 and GEOG 3514), GEOL 1170, GEOL 1180, GEOL 1010, MKT 3310 not used to fulfill another requirement.

Credit Hours Subtotal:	6
------------------------	---

SCIENCE

CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	4
-----------------------	--	---

PHYS 2110	GENERAL PHYSICS I - CALCULUS LEVEL	4
-----------	------------------------------------	---

Select one for the following:	4
-------------------------------	---

PHYS 2120 GENERAL PHYSICS-CALCULUS LEVEL

CHEM 1190 & CHEM 1194 GENERAL CHEMISTRY II and GENERAL CHEMISTRY II LABORATORY

Science Elective-Select one of the following:

BIOL 1020 PRINCIPLES OF BIOLOGY

CHEM 2210 & CHEM 2214 FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY

GEOL 1170 INTRODUCTION TO PHYSICAL GEOLOGY

PHYS 1350 & PHYS 1354 PRINCIPLES OF ASTRONOMY and INTRODUCTORY ASTRONOMY LAB

GEOG 3510 & GEOG 3514 METEOROLOGY and INTRODUCTION TO METEOROLOGY LABORATORY

BIOL 1450 BIOLOGY I

Credit Hours Subtotal:	16

ACE 8: Ethics	3
Choose from the list of approved ACE 8 courses ¹	
ACE 9: Global Awareness and Human Diversity	3
Choose from the list of approved ACE 9 courses ¹	
ACE 10: Capstone Experience	
This requirement is satisfied by CIVE 402	
Credit Hours Subtotal:	21
Total Credit Hours	126

¹ A list of approved ACE courses offered on the Omaha campus can be found here (https://tes.collegesource.com/publicview/TES_publicview03_group_report.aspx?sid=12214&rid=1d4a5187-e01b-4f1f-aaa6-b0040e957167&aid=e4ff42df-9ddc-4416-a5dd-18e971d1c0e4&cgrid=5508).

CIVE 101 INTRODUCTION TO CIVIL ENGINEERING (3 credits)

Introduction to engineering design process through hands-on projects supported by instruction of underlying engineering science and fundamentals, model development, and the required tools. Exploration of civil engineering disciplines and introduction to civil engineering profession with focus on ethics and professional skills.

CIVE 102 GEOMATICS FOR CIVIL ENGINEERING (3 credits)

Introduction to the theory and application of measurements and geospatial data for civil engineering. This includes error theory, measurements of elevation, distance, direction, and location using optical, mechanical, electronic, and global navigation satellite systems, and applications in geographic information systems (GIS). Project based.

Prerequisite(s): CIVE 101 or CIVE 131

CIVE 112 OVERVIEW OF CIVIL ENGINEERING (1 credit)

Overview of civil engineering as a career by use of case studies; alternate approaches to engineering designs illustrated by use of engineering principles.

Prerequisite(s): Prerequisites: Permission of the instructor

CIVE 131 CIVIL ENGINEERING GRAPHICS (2 credits)

Use of computer-aided design software to communicate engineering ideas. Specifications, dimensioning, tolerancing, 2- and 3-D model development, topographic mapping, and process layout with environmental, bioprocess, and biomedical emphases.

Prerequisite(s): Permission of the instructor

CIVE 201 CIVIL ENGINEERING ANALYSIS I (2 credits)

Incorporating programming logic into spreadsheet solutions in the context of authentic civil engineering projects; emphasis on integrating professional skills, data analysis and management, and technical skills. Project based.

Prerequisite(s): CIST 1600 (grade of C or better)

CIVE 202 CIVIL ENGINEERING ANALYSIS II (2 credits)

Expanding programming logic to data analysis & visualization, solution of linear systems of equations, and ordinary differential equations. Control of sensors and visualization of scientific data. Use of authentic civil engineering projects linking engineering mechanics and materials of construction. Emphasis on integrating professional skills, data analysis, and technical skills. Project based.

Prerequisite(s): Prerequisite: CIST 1600 or equivalent; Corequisite: CIVE 378

CIVE 301 CIVIL ENGINEERING SYNTHESIS I (1 credit)

Explores the co-disciplinary connections in civil engineering through authentic engineering projects; focus on synergies among fluid dynamics, transportation, and structures; emphasis on integrating professional skills, data analysis, and technical skills. Project based.

Prerequisite(s): Corequisite: CIVE 310 or CIVE 361 or CIVE 341

CIVE 302 CIVIL ENGINEERING SYNTHESIS II (1 credit)

Explores the co-disciplinary connections in civil engineering through authentic engineering projects; focus on synergies among geotechnical engineering, water resources, and environmental engineering; emphasis on integrating professional skills, data analysis, and technical skills. Project based.

Prerequisite(s): Corequisite: CIVE 331 or CIVE 351 or CIVE 321

CIVE 310 FLUID MECHANICS (3 credits)

Fluid statics, equations of continuity, momentum, and energy; dimensional analysis and dynamic similitude. Applications to: flow meters; fluid pumps and turbines; viscous flow and lubrication; flow in closed conduits and open channels. Two-dimensional potential flow.

Prerequisite(s): MATH 2350 (grade of C or better) and MECH 223 (grade of C or better)

CIVE 310L HYDRAULICS LAB (1 credit)

Hydraulic experiments and demonstrations. Velocity, pressure and flow measurements; pipe flow, open channel flow; hydraulic structures and machinery, hydrologic and sediment measurement and student projects.

Prerequisite(s): CIVE 310 pre-requisite/co-requisite

CIVE 321 PRINCIPLES OF ENVIRONMENTAL ENGINEERING (3 credits)

Introduction to the principles of environmental engineering, including water quality, atmospheric quality, pollution prevention, and solid and hazardous wastes engineering. Design of water, air, and waste management systems.

Prerequisite(s): MATH 1960 (grade of C or better), and CHEM 1180 (grade of C or better) and CHEM 1184, or CHEM 1190 (grade of C or better) and CHEM 1194

CIVE 321L ENVIRONMENTAL ENGINEERING LABORATORY (1 credit)

Environmental engineering experiments, demonstrations, field trips, and projects. Experiments include the measurement and determination of environmental quality parameters such as solids, dissolved oxygen, biochemical and chemical oxygen demand, and alkalinity.

Prerequisite(s): Pre or Coreq: CIVE 321.

CIVE 331 INTRODUCTION TO GEOTECHNICAL ENGINEERING (4 credits)

Soil composition, structure and phase relationships; soil classification. Principles of effective stress; loading induced subsurface stresses; load history; deformation and failure of soils. Elastic and limit analysis with applications to design for bearing capacity, settlement, retaining walls and slope stability. Steady state seepage.

Prerequisite(s): MECH 325 (grade of C or better); Pre or Coreq: CIVE 310.

CIVE 341 STRUCTURAL ANALYSIS FUNDAMENTALS (3 credits)

Introduction to the analysis of structural systems. Analyses of determinate and indeterminate trusses, beams, and frames.

Prerequisite(s): MECH 325 (C or better)

CIVE 342 STRUCTURAL DESIGN FUNDAMENTALS (1 credit)

Introduction to structural engineering design philosophy, steel and concrete design criteria, and procedures for trusses, simple beams, continuous beams, and frames. Introduction to structural experiments and software used in structural analysis and design.

Prerequisite(s): MECH 325 (C or better)

CIVE 351 INTRODUCTION TO WATER RESOURCES ENGINEERING (3 credits)

Introduction to water resources engineering design and planning, surface hydrology, groundwater hydraulics, reservoirs and other control structures. Introduction to field measurement and computational methods in water resources.

Prerequisite(s): CIVE 310

CIVE 361 PRINCIPLES OF TRANSPORTATION ENGINEERING (3 credits)

Introduction to the principles of transportation engineering including operator, user and vehicle characteristics, transportation facility design, traffic operations and control, and transportation planning.

Prerequisite(s): MECH 223 (C or better)

CIVE 371 MATERIALS OF CONSTRUCTION (3 credits)

Introduction to the behavior, testing and design of soil, portland cement concrete, steel, wood and composites. Experiments covering the concepts of stress and strain under axial, torsional, shear and flexural loading conditions. Common ASTM laboratory test procedures and specifications, field quality control tests and statistical applications.

Prerequisite(s): Prerequisite: MECH 223 (grade of C or better);

Corequisite: MECH 325

CIVE 385 PROFESSIONAL PRACTICE AND MANAGEMENT IN CIVIL ENGINEERING (3 credits)

Basic elements of civil engineering practice. Roles of all participants in the process-owners, designers, architects, contractors, and suppliers. Basic concepts in business management, public policy, leadership, and professional licensure. Professional relations, civic responsibilities, and ethical obligations for engineering practice. Project management, contracts, allocation of resources, project estimating, planning, and controls.

Prerequisite(s): Junior standing and CIVE major. Not open to non-degree graduate students.

CIVE 395 CIVIL & ENVIRONMENTAL ENGINEERING INTERNSHIP EDUCATIONAL EXPERIENCE (1 credit)

Practical on-the-job experience to apply classroom theory in the civil & environmental engineering field.

Prerequisite(s): CIVE or ENVE major and permission of the Civil & Environmental Engineering curriculum chair

CIVE 401 CIVIL ENGINEERING DESIGN I (3 credits)

The first of two courses in the capstone sequence. Practical application of the engineering design process in a team project focused on an authentic and comprehensive civil engineering design project.

Prerequisite(s): CIVE 321, CIVE 331, CIVE 341, CIVE 351, and CIVE 361

CIVE 402 CIVIL ENGINEERING DESIGN II (3 credits)

The second of two courses in the capstone sequence. Practical application of the engineering design process in a team project focused on an authentic and comprehensive civil engineering design project.

Prerequisite(s): CIVE 401

CIVE 419 FLOW SYSTEMS DESIGN (3 credits)

Application of hydraulic principles to the design of water distribution systems, wastewater and stormwater collection systems, channelized flow systems and treatment facilities. (Cross-listed with CIVE 819)

Prerequisite(s): CIVE 321; **Corequisite:** CIVE 351

CIVE 420 ENVIRONMENTAL ENGINEERING PROCESS DESIGN (3 credits)

Design of unit operations and processes associated with drinking water and wastewater treatment facilities, and other environmental treatment systems.

Prerequisite(s): CIVE 321 and CIVE 310

CIVE 422 POLLUTION PREVENTION: PRINCIPLES AND PRACTICES (3 credits)

Introduction to pollution prevention (P2) and waste minimization methods. Practical applications to small businesses and industries. Legislative and historical development of P2 systems analysis, waste estimation, P2 methods, P2 economics, and sources of P2 information. (Cross-listed with CIVE 822).

Prerequisite(s): Permission

CIVE 424 SOLID WASTE MANAGEMENT ENGINEERING (3 credits)

Planning design and operation of solid and waste collection processing, treatment, and disposal systems including materials, resources and energy recovery systems. (Cross-listed with CIVE 824).

Prerequisite(s): CIVE 321

CIVE 425 DESIGN OF WATER TREATMENT FACILITIES (3 credits)

Analyses of water supplies and design of water treatment and distribution systems. (Cross-listed with CIVE 825).

Prerequisite(s): CIVE 420

CIVE 427 DESIGN OF WASTEWATER TREATMENT AND DISPOSAL FACILITIES (3 credits)

Analysis of systems for wastewater treatment and disposal. (Cross-listed with CIVE 827).

Prerequisite(s): CIVE 420

CIVE 430 FUNDAMENTALS OF WATER QUALITY MODELING (3 credits)

Comprehensive study of water quality and the effects of various water pollutants on the aquatic environment; modeling of water quality variables. (Cross-listed with CIVE 830).

Prerequisite(s): CIVE 321

CIVE 434 SOIL MECHANICS II (3 credits)

Application of the effective stress principle to shear strength of cohesive soils; analysis of stability of slopes. Development of continuum relationships for soils; solutions for stresses and displacements for an elastic continuum. Solution of the consolidation equation for various initial and boundary conditions.

Prerequisite(s): CIVE 334

CIVE 436 FOUNDATION ENGINEERING (3 credits)

Subsoil exploration and interpretation; selection of foundation systems; determination of allowable bearing capacity and settlement; design of deep foundations; pile driving analysis; control of groundwater.

Prerequisite(s): CIVE 331

CIVE 440 REINFORCED CONCRETE DESIGN I (3 credits)

Introduction to the design concepts of reinforced concrete building components. The design of flexural and compression members, simple walls, foundations, and floor systems using the latest American Concrete Institute (ACI) design requirements.

Prerequisite(s): CIVE 341

CIVE 441 STEEL DESIGN I (3 credits)

Introduction to the design concepts for structural steel building components. Design of tension members, bolted and welded connections, column members, and beam members. Limit states design concepts used throughout, and emphasis on behavior of members and code design procedures.

Prerequisite(s): CIVE 341

CIVE 443 ADVANCED STRUCTURAL ANALYSIS (3 credits)

Matrix analysis methods and computer solutions for indeterminate structures. Additional topics: static condensation, shear deformations, and non-prismatic members in matrix-based analyses, moment distribution method, load cases and load combinations for buildings and bridges, and influence lines and analysis for moving loads. (Cross-listed with CIVE 843)

Prerequisite(s): CIVE 341. Not open to non-degree graduate students.

CIVE 444 STRUCTURAL DESIGN AND PLANNING (3 credits)

Principles of design of steel and reinforced concrete structural building systems, planning of building vertical and horizontal load resisting systems, and bridge systems. Several design projects involve indeterminate analysis and design concepts for both steel and reinforced concrete. (Cross-listed with CIVE 844).

Prerequisite(s): CIVE 440 and CIVE 441

CIVE 446 STEEL DESIGN II (3 credits)

A continuation of the topics covered in CIVE 441. The principles and procedures used in design of steel buildings, design of plate girders, design and analysis of building systems, design and analysis of composite steel-concrete building systems, innovative building systems, and introduction to seismic design of steel buildings. Plate buckling, beam, column, and beam-column design, and frame stability. Introduction to connection design.

Prerequisite(s): CIVE 441

CIVE 447 REINFORCED CONCRETE II (3 credits)

Shear friction theory, strut-and-tie modeling, anchorage, deflection, slender and bi-axially loaded members, torsion, two-way action and punching shear, and footing design. Excel spreadsheets are developed and used for various design tasks. (Continuation of topics covered in CIVE 440/CIVE 840.) (Cross-listed with CIVE 847).

Prerequisite(s): CIVE 440 or CIVE 840

CIVE 448 RELIABILITY OF STRUCTURES (3 credits)

Fundamental concepts related to structural reliability, safety measures, load models, resistance models, system reliability, optimum safety levels, and optimization of design codes.

Prerequisite(s): CIVE 341.

CIVE 451 INTRODUCTION TO FINITE ELEMENT ANALYSIS (3 credits)

Matrix methods of analysis. The finite element stiffness method. Computer programs. Applications to structures and soils. Introduction to finite element analysis of fluid flow. (Cross-listed with CIVE 851)

CIVE 452 WATER RESOURCES DEVELOPMENT (3 credits)

Theory and application of systems engineering with emphasis on optimization and simulation techniques for evaluating alternatives in water resources developments related to water supply, flood control, hydroelectric power, drainage, water quality, water distribution, irrigation and water measurement. (Cross-listed with CIVE 852).

Prerequisite(s): CIVE 351

CIVE 454 HYDRAULIC ENGINEERING (3 credits)

Fundamentals of hydraulics with applications of mechanics of solids, mechanics of fluids, and engineering economics to the design of hydraulic structures. Continuity, momentum, and energy principles are applied to special problems from various branches of hydraulic engineering. (Cross-listed with CIVE 854).

Prerequisite(s): CIVE 351

CIVE 455 NONPOINT SOURCE POLLUTION CONTROL ENGINEERING (3 credits)

Identification, characterization, and assessment of nonpoint source pollutants; transport mechanisms and remediation technologies; design methodologies and case studies. (Cross-listed with CIVE 855).

Prerequisite(s): CIVE 326 and CIVE 352

CIVE 456 SURFACE WATER HYDROLOGY (3 credits)

Stochastic analysis of hydrological data and processes including rainfall, runoff, infiltration, temperature, solar radiation, wind, and non-point pollution. Space-time hydrologic modeling with emphasis on the application of techniques in the design of engineering projects. (Cross-listed with CIVE 856).

Prerequisite(s): CIVE 351

CIVE 458 GROUNDWATER ENGINEERING (3 credits)

Application of engineering principles to the movement of groundwater. Analysis and design of wells, well fields, and artificial recharge. Analysis of pollutant movement. (Cross-listed with CIVE 858).

Prerequisite(s): CIVE 351

CIVE 461 URBAN TRANSPORTATION PLANNING (3 credits)

Development of urban transportation planning objectives and goals. Data collection procedures, land use and travel forecasting techniques, trip generation, trip distribution, modal choice analysis, and traffic assignment. Site development and traffic impact analysis. (Cross-listed with CIVE 861).

Prerequisite(s): CIVE 361

CIVE 462 HIGHWAY DESIGN (3 credits)

Design of roadways, intersections, interchanges, parking facilities, and land development site access and circulation. Emphasis on design projects. (Cross-listed with CIVE862)

Prerequisite(s): CIVE361

CIVE 463 TRAFFIC ENGINEERING (3 credits)

Design of signalized intersections, arterial street and network signal systems, and freeway control systems. Emphasis on design projects. (Cross-listed with CIVE863)

Prerequisite(s): CIVE361

CIVE 468 AIRPORT PLANNING AND DESIGN (3 credits)

Planning and design of general aviation and air-carrier airports. Land-side components include vehicle ground access systems, vehicle circulation parking and terminal buildings. Air-side components include aircraft apron-gate area, taxi-way system, runway system and air traffic control facilities and airspace. Emphasis on design projects. (Cross-listed with CIVE868)

Prerequisite(s): CIVE 361

CIVE 471 BITUMINOUS MATERIALS AND MIXTURES (3 credits)

Understanding of the physical, chemical, geometrical, and mechanical characteristics and practical applications of bituminous materials and mixtures. Fundamental mechanics for elastic and inelastic materials and basic theories associated with mechanical data analyses and designs. Recent advances and significant research outcomes for further discussions. Applications of theories to laboratory and field testing. (Cross-listed with CIVE 871)

Prerequisite(s): CIVE 371. Not open to non-degree graduate students.

CIVE 472 PAVEMENT DESIGN AND EVALUATION (3 credits)

Thickness design of flexible and rigid pavement systems for highways and airports; design of paving materials; evaluation and strengthening of existing pavements. (Cross-listed with CIVE 872).

Prerequisite(s): CIVE 334

CIVE 475 WATER QUALITY STRATEGY (3 credits)

Holistic approach to the selection and analysis of planning strategies for protecting water quality from nonpoint sources of contamination. Introduction to the use of methods of analyzing the impact of strategies on whole systems and subsystems for selecting strategies; and for evaluating present strategies.

Prerequisite(s): Senior standing

CIVE 476 CONSTRUCTION COST CONTROLS (3 credits)

Development of cost accounting principles and financial controls appropriate for construction contractors. Includes purchasing policies and procedure, labor and equipment cost reporting techniques, accounting procedures for control of materials and supplies, billing methods, principles of financial reporting and analysis.

Prerequisite(s): ACCT 2010 and ACCT 2020.

CIVE 481 COMPUTATIONAL PROBLEM SOLVING IN CIVIL ENGINEERING (3 credits)

Introduction of numerical methods to solve problems in civil engineering, including finding roots of equations, solving linear algebra equations, optimization, curve fitting, numerical differentiation and integration, and finite difference method. Computational methods in numerical integration, matrix operations and ordinary differential equations as they apply to civil engineering problems. (Cross-listed with CIVE 881)

Prerequisite(s): MATH 2350; CIST 1600. Not open to non-degree graduate students.

CIVE 489 SENIOR DESIGN PROJECT (3 credits)

Requires the formulation and completion of a civil engineering design project. Course provides senior civil engineering students with the opportunity to apply engineering concepts and principles to a comprehensive design project of multiple sub-disciplinary nature. The principal objectives are for students to develop an understanding of the entire life-cycle of civil engineering projects with emphasis on the development of a unified and sustainable design that addresses the client's needs; project team work; strong engineer-client relationships; and effective project communications.

Prerequisite(s): Senior standing and CIVE 385

CIVE 491 SPECIAL TOPICS IN CIVIL ENGINEERING (1-6 credits)

Special topics in emerging areas of civil engineering which may not be covered in other courses in the civil engineering curriculum.

CIVE 494 INDEPENDENT STUDY IN CIVIL ENGINEERING (1-3 credits)

Individual study at the undergraduate level in a selected area of civil engineering under the supervision and guidance of a Civil & Environmental Engineering faculty member.

CIVE 498 INDEPENDENT RESEARCH IN CIVIL ENGINEERING (1-6 credits)

Independent research work and written findings in a selected area of civil engineering under the supervision and guidance of a Civil & Environmental Engineering faculty member.

Prerequisite(s): Permission

Electrical & Computer Engineering

The mission of the department of Electrical & Computer Engineering (ECE) at the University of Nebraska is to provide undergraduate and graduate level education in electrical and computer engineering, perform research and other scholarly activities, and furnish service to the state, nation, industry, and the profession. To fulfill this mission, the ECE department offers the degrees of Bachelor of Science in Electrical Engineering and in Computer Engineering, as well as several graduate programs. The faculty takes pride in its high level of interaction with both undergraduate and graduate students.

General Requirements

The following sections apply to the electrical engineering and computer engineering programs. For more details visit the ECE department's website (<https://engineering.unl.edu/ece/>).

Advisement

Upon entry into the curriculum, each student will be assigned an academic advisor. It is required that each student meet with the advisor prior to each class registration period and that all courses to be applied toward the degree be selected with the advice and approval of the advisor.

The student is expected to have his/her academic records reviewed and approval obtained from the ECE department prior to application to the University registrar for awarding of a degree in order to ensure that all curricular requirements have been satisfied by the time of the student's intended graduation.

Curriculum

Because of the rapid developments in the fields of electrical and computer engineering, the curricular requirements are continually reviewed and updated to reflect technological advances. Curricular sequence and course descriptions contained herein are intended to serve as general guidelines. Contact the ECE department for information on any changes to the requirements that are currently in effect but not listed in this catalog.

Students who do not maintain continuous progress toward a degree through enrollment in applicable course work will be considered as new students upon reentering the electrical or computer engineering curricular sequence and will be subject to the requirements of the curriculum current at the time of their reentry. Certain courses may not be valid as prerequisites or as credit toward the degree after two academic years; the student's academic advisor should be consulted regarding applicability. The applicable University catalogs and college academic policies must be followed to ensure the student satisfies all of the Achievement Centered Education (ACE) requirements.

Special Interest Areas

Opportunities are provided for the development of areas of special interest through enrollment in the individual study courses which are offered at the freshman through senior level for the student who may wish to develop a topic under the guidance of a department faculty member. Enrollment is

by permission after a written proposal has been approved. Special topics courses are also offered by the department as the need arises. Academic advisers should be consulted regarding the particular topics to be covered and the necessary prerequisites for each offering of this course. Students who expect to continue their education at the graduate level after the award of the baccalaureate degree should consult their advisors regarding course selections that would enhance that objective.

Students are encouraged to develop their professional and leadership potential through participation in student chapters of related professional organizations and in University extracurricular activities. Participation in the University Honors Program is encouraged for those who qualify.

Transfer Course Work

The applicability of transfer course work with engineering content toward credit in the curriculum is determined on a case-by-case basis by the department.

Financial Aid

Numerous opportunities exist for students to obtain financial aid during the course of their academic work at the university. The office of the dean of the college and the campus financial aid office should be consulted to determine the availability of such assistance.

Degrees Offered

- Electrical Engineering (p. 790)
- Computer Engineering (p. 787)

ECEN 103 ELECTRICAL AND COMPUTER ENGINEERING FUNDAMENTALS (4 credits)

Introduction to DC circuit analysis and digital logic. Topics include Ohm's and Kirchoff's laws, mesh and nodal analysis, Boolean algebra, logic gates, minimization, counters and flip-flops. Uses of computer based resources for data analysis and report generation. Use of internet to locate and retrieve engineering resources.

Prerequisite(s): MATH 1950 (pre or coreq)

ECEN 106 MICROPROCESSOR APPLICATIONS (3 credits)

Introduction to assembly language programming of microprocessors/microcontrollers, assemblers, and debugging tool utilization.

Microprocessor system hardware components, control signals, and 'C' language micro-controller programming.

Prerequisite(s): ECEN 103, CIST 1400

ECEN 123 INTRODUCTION TO ELECTRICAL AND COMPUTER ENGINEERING (1 credit)

Laboratory design projects introducing some basic concepts and skills needed in electrical and computer engineering.

Prerequisite(s): Coreq: CIST 1400. Open to first year students only or by permission.

ECEN 155E COMPUTER SCIENCE I: SYSTEMS ENGINEERING FOCUS (3 credits)

Introduction to problem solving with computers. Topics include problem solving methods, software development principles, computer programming, and computing in society.

Prerequisite(s): MATH 1330 or an ALEKS score for MATH 1340 or higher.

ECEN 156 COMPUTER SCIENCE II (4 credits)

Data structures, including linked lists, stacks, queues, and trees; algorithms, including searching, sorting, and recursion; programming language topics, including object-oriented programming; pointers, references, and memory management; design and implementation of a multilayer application with SQL database.

Prerequisite(s): A grade of "P" or "C" or better in ECEN 155E; coreq: MATH 1950.

ECEN 192 INDIVIDUAL STUDY IN COMPUTER AND ELECTRONICS ENGINEERING I (1-3 credits)

Individual study at the freshman level in a selected electrical, computer, or electronics engineering area under the supervision and guidance of an electrical and computer engineering faculty member.

Prerequisite(s): Departmentally approved proposal

ECEN 194 SPECIAL TOPICS IN ELECTRICAL AND COMPUTER ENGINEERING I (1-4 credits)

Special topics in the emerging areas of electrical, computer and electronics engineering which may not be covered in the other courses in the electrical and computer engineering curriculum.

Prerequisite(s): Freshman standing or permission.

ECEN 198 SPECIAL TOPICS IN ELECTRICAL ENGINEERING I (1-6 credits)

Offered as the need arises to treat electrical engineering topics for first-year students not covered in other courses.

Prerequisite(s): Permission. Not open to non-degree graduate students.

ECEN 211 ELEMENTS OF ELECTRICAL ENGINEERING (3 credits)

Basic circuit analysis including direct and alternating currents and operational amplifiers. Digital signals and circuits. Not for electrical engineering majors.

Prerequisite(s): MATH 1960 and PHYS 2110

ECEN 213 ELECTRICAL CIRCUITS I (3 credits)

Electrical circuit theory, Kirchoff's and Ohm's laws, circuit analysis theorems, Norton and Thevenin equivalence. The analysis of resistor circuits, with capacitors and inductors, in DC and AC steady state. Transients and variable frequency response are studied, including computer solutions to circuit problems.

Prerequisite(s): ECEN 103 and ECEN 225. MATH 2350 prior to or concurrent.

ECEN 214 ELECTRICAL CIRCUITS II (3 credits)

Introduction to the analysis of electrical circuits in sinusoidal steady states. The concepts of impedance, phasors, power, frequency response, resonance, magnetic circuits and two-part networks. Transform techniques for circuit analysis.

Prerequisite(s): ECEN 213 and ECEN 218. Pre or Corequisite: MATH 2050.

ECEN 215 ELECTRONICS AND CIRCUITS I (3 credits)

Introduction to electrical engineering circuit theory. Kirchoff's law and circuit analysis theorem applied to steady state DC resistive circuits. Analysis of transient RLC and sinusoidal steady-state circuits. Modern computer methods are employed.

Prerequisite(s): Co-Req; MATH 1970

ECEN 216 ELECTRONICS AND CIRCUITS II (3 credits)

Steady-state power calculations for sinusoidal single-phase and balanced three-phase circuits. Mutual inductance. Frequency response. Introduction to the fundamentals of semiconductor theory and their applications to P-N junction devices. Kirchoff's laws and circuit analysis theorems applied to steady-state diode circuits. Modern computer methods employed.

Prerequisite(s): ECEN 215 with grade of C or higher. Coreq: MATH 2350.

ECEN 217 ELECTRICAL CIRCUITS III (1 credit)

Analysis of first and second order RLC circuits using differential equations and Laplace transforms. Variable frequency network performance analysis. This course is for computer engineering majors only.

Prerequisite(s): ECEN 213. Not open to non-degree graduate students.

ECEN 218 ELECTRICAL CIRCUITS LABORATORY I (1 credit)

The use of laboratory tools for measurement and verification of electrical concepts. Experiments using both passive and semiconductor devices at audio frequencies. Analysis verification with computer simulation.

Prerequisite(s): Coreq: ECEN 213.

ECEN 220 INTRODUCTION TO EMBEDDED SYSTEMS (3 credits)

Basic hardware and software concepts of embedded microprocessor systems and interfacing with other hardware components. Simple circuits are designed and drivers to run these circuits are written. Design and build hardware and write drivers in assembly language.

Prerequisite(s): CSCI 1200 or working knowledge of C programming. Not open to non-degree graduate students.

ECEN 222 ELECTRONIC CIRCUITS I (4 credits)

Analysis and design of modern electronic circuits. Diode circuits, bipolar and field effect transistor switching and amplifier circuits, and operational amplifier circuits.

Prerequisite(s): ECEN 213 with grade of C or better, and ECEN 218.

ECEN 224 INTRODUCTION TO SIGNAL PROCESSING (4 credits)

This course demonstrates the use of mathematical and digital computation tools key to engineering applications. Auditory and visual senses are used in the presentation and study of sinusoidal signals, sampling, frequency response and filtering theory.

Prerequisite(s): ECEN 106, CIST 1400, MATH 1960.

ECEN 225 ELECTRICAL AND COMPUTER ENGINEERING SEMINAR (1 credit)

An overview of electrical, computer, electronics and telecommunication fields. There will be information on professional careers available upon graduation. Professionalism and ethics are addressed as well as the need for lifelong learning experiences.

Prerequisite(s): ECEN 103 or parallel

ECEN 231 ELECTRICAL ENGINEERING LABORATORY (1 credit)

Laboratory accompanying ECEN 211.

Prerequisite(s): Coreq: ECEN 211. Not open to non-degree graduate students.

ECEN 235 INTRODUCTORY ELECTRICAL LABORATORY I (1 credit)

Laboratory accompanying ECEN 215.

Prerequisite(s): Coreq: ECEN 215.

ECEN 236 INTRODUCTORY ELECTRICAL LABORATORY II (1 credit)

Laboratory accompanying ECEN 216

Prerequisite(s): ECEN 235, Coreq: ECEN 216.

ECEN 292 INDIVIDUAL STUDY IN ELECTRICAL AND COMPUTER ENGINEERING II (1-3 credits)

Individual study in a selected electrical, computer or electronics engineering area under the supervision and guidance of a electrical and computer engineering faculty member.

Prerequisite(s): Sophomore Standing, ECE departmentally approved proposal.

ECEN 294 SPECIAL TOPICS IN ELECTRICAL AND COMPUTER ENGINEERING II (1-4 credits)

Special topics in the emerging areas of electrical, computer and electronics engineering at the sophomore level which may not be covered in the other courses in the electrical and engineering curriculum.

Prerequisite(s): Sophomore standing or permission.

ECEN 304 SIGNALS AND SYSTEMS I (3 credits)

Mathematical modeling of physical systems and signals. Representation of signals in terms of basic functions. Fourier Series expansion, Fourier Transforms, Laplace and Z-Transforms. Input-output relations, convolution. Transfer functions. System Stability. Poles/zeros and s- and z-plane methods. Applications.

Prerequisite(s): ECEN 214 or ECEN 216 with a grade of C or better and MATH 2350.

ECEN 305 PROBABILITY THEORY AND STATISTICS FOR ELECTRICAL AND COMPUTER ENGINEERS (3 credits)

Random experiment model, random variables, functions of random variables, and introduction to random processes; statistics and practical data analysis.

Prerequisite(s): MATH 1970/(UNL)MATH 208

ECEN 306 ELECTROMAGNETIC FIELD THEORY (3 credits)

Complex vectors, Maxwell's equations. Uniform plane waves. Wave reflection and transmission at interfaces. Waveguides and resonators. Transmission line principles. Antennas. Topics in waves.

Prerequisite(s): ECEN 215 or ECEN 213 with grade of C or better, PHYS 2120, MATH 1970, MATH 2350., not open to non-degree graduate students.

ECEN 307 ELECTRICAL ENGINEERING LABORATORY I (2 credits)

Laboratory work on circuits and systems, digital and analog electronic circuits.

Prerequisite(s): ECEN 106; ECEN 222 or ECEN 236; Coreq: ECEN 313 or ECEN 370; Admission to College of Engineering; not open to non-degree graduate students.

ECEN 310 DIGITAL DESIGN AND INTERFACING (4 credits)

Digital design from both the circuit and system perspectives. Topics include the structure and analysis of digital integrated circuits, interface signal integrity, Field Programmable Gate Array (FPGA) design and synthesis, software simulation. Lab exercises provide hands-on experience with design tools and the design process.

Prerequisite(s): ECEN 222. Prereq or coreq: ECEN 313.

ECEN 313 SWITCHING CIRCUITS THEORY (4 credits)

Combinational circuit analysis and design. State machine analysis and design. Includes synchronous/clock mode circuits and asynchronous sequential circuits. Minimization, race and hazard elimination are covered. Circuits are implemented in discrete logic and in CPLD and FPGA devices. VHDL hardware description language is used to describe circuits. Circuits are implemented in discrete logic and in CPLD/FPGA devices.

Prerequisite(s): ECEN 106.

ECEN 316 ELECTRONICS AND CIRCUITS III (3 credits)

Kirchhoff's laws and circuit analysis theorems applied to steady state transistor circuits. Frequency response of filters and amplifiers. Basic power amplifier types. Advanced operational amplifier circuits. Introduction to the fundamentals of semiconductor theory and their application to p-n junction and field devices.

Prerequisite(s): ECEN 216 with grade of C or better.

ECEN 317 ELECTRICAL ENGINEERING LABORATORY II (2 credits)

Lab work on electromagnetic fields and waves, solid state devices, discrete systems, control systems, and communications.

Prerequisite(s): ECEN 304, ECEN 307 Coreq: ECEN 306, ECEN 316, not open to non-degree graduate students.

ECEN 325 COMMUNICATIONS SYSTEMS (4 credits)

Relevant communication systems; principles of transmission and reception; amplitude; frequency and phase modulation. Sampling theorem, pulse-code modulation and delta modulation.

Prerequisite(s): ECEN 222; Coreq: ECEN 305.

ECEN 327 DISCRETE SYSTEMS LABORATORY (1 credit)

Laboratory work on discrete systems.

Prerequisite(s): ECEN 106 or ECEN 220 and ECEN 307

ECEN 328 APPLIED FIELDS AND LINES I (3 credits)

Transmission lines. Discontinuities, different termination, and matching methods. Application of vector analysis to Maxwell's equations. Uniform plane waves including reflection/transmission. S-parameters. Principles of antennas. LW, MW, SW, USW propagation.

Prerequisite(s): MATH 1970 and MATH 2350

ECEN 329 APPLIED FIELDS AND LINES II (3 credits)

Metallic waveguides with rectangular, circular and coaxial cross section, antennas, free space, propagation in free space, applications.

Prerequisite(s): ECEN 328.

ECEN 332 ASSEMBLY LANGUAGE PROGRAMMING (1 credit)

Architecture and assembly language programming of 8-bit and 32-bit microcontrollers.

Prerequisite(s): ECEN 106

ECEN 338 INTRODUCTION TO POWER AND ENERGY SYSTEMS (3 credits)

Energy sources, environmental impacts, power systems principles, three phase circuits, transmission lines, transformers, per unit analysis, generators, loads, and power system modeling.

Prerequisite(s): ECEN 216 or ECEN 214 with grade of C or better. Not open to non-degree graduate students.

ECEN 345 MOBILE ROBOTICS I (4 credits)

Introduction to the primary issues spanning the field of mobile robotics, including robotics history, robot components (sensors, actuators), robot system design considerations, low-level control (feedback control) and robotics control architectures. The lab focuses on the practical implementation of autonomous robot control on a real mobile robot using behavior-based methods in the C language.

Prerequisite(s): ECEN 106, ECEN 213.

ECEN 347 ELECTRICAL ENGINEERING LABORATORY II (1 credit)

Lab work on electromagnetics, fields and waves, solid state devices and control systems.

ECEN 350 ELECTRICAL AND COMPUTER ENGINEERING COOPERATIVE EDUCATIONAL EXPERIENCE (1-3 credits)

For cooperatives primarily technical in nature lasting 4.5 months or greater. Weekly communication and/or final report required. Must be taken during or after the semester in which the Co-op occurs.

Prerequisite(s): Permission. Not open to non-degree graduate students.

ECEN 352 ELECTRONIC CIRCUITS II (4 credits)

Operational amplifier circuit design and analysis with emphasis on feedback and stability. Design and analysis of large signal power amplifiers. Other integrated devices such as regulators, comparators, Schmitt triggers, oscillators and active filters.

Prerequisite(s): ECEN 222

ECEN 355 SIGNALS AND LINEAR SYSTEMS (3 credits)

Continuous and discrete time representations of signals. System modeling and analysis using differential and difference equations. Fourier, Laplace and z transforms. State description of continuous and discrete time transfer functions. The primary mathematical tools used in the analysis of continuous and discrete time systems.

Prerequisite(s): ECEN 214

ECEN 361 ADVANCED ELECTRONICS AND CIRCUITS (3 credits)

Analog and digital electronics for discrete and integrated circuits. Multistage amplifiers, frequency response, feedback amplifiers, simple filters and amplifiers MOS and bipolar logic gates and families A/D and D/A converters.

Prerequisite(s): ECEN 316; not open to non-degree graduate students.

ECEN 362 DATA AND TELECOMMUNICATIONS TRANSCEIVERS (4 credits)

Noise and signal distortions in communication systems, impedance matching techniques, high frequency measurement techniques, design of high frequency amplifiers and oscillators, PLL and frequency synthesizers, data synchronization and multiplexing techniques, Antennas and their arrays.

Prerequisite(s): ECEN 352; Pre or Coreq.: ECEN 325, ECEN 328

ECEN 370 DIGITAL LOGIC DESIGN (3 credits)

Combinational and sequential logic circuits. MSI chips, programmable logic devices (PAL, ROM, PLA) used to design combinational and sequential circuits. CAD tools. LSI and PLD components and their use. Hardware design experience.

Prerequisite(s): ECEN 121, not open to non-degree graduate students.

ECEN 392 INDIVIDUAL STUDY IN ELECTRICAL AND COMPUTER ENGINEERING III (1-3 credits)

Individual study in a selected electrical, computer or electronics engineering area under the supervision and guidance of a electric and computer engineering faculty member.

Prerequisite(s): Junior standing and ECE departmentally approved proposal.

ECEN 394 SPECIAL TOPICS IN ELECTRICAL AND COMPUTER ENGINEERING III (1-4 credits)

Special topics in the emerging areas in electrical, computer and electronics engineering which may not be covered in the other courses in the Electrical and Computer engineering curriculum.

Prerequisite(s): Junior standing or permission.

ECEN 398 SPECIAL TOPICS ELECTRICAL ENGINEERING III (1-6 credits)

Offered as the need arises to treat electrical engineering topics for third-year students not covered in other courses.

Prerequisite(s): Permission. Not open to nondegree students.

ECEN 399 UNDERGRADUATE RESEARCH (1-3 credits)

Research accompanied by a written report.

Prerequisite(s): Electrical engineering seniors or permission., not open to non-degree graduate students

ECEN 400 ELECTRONIC INSTRUMENTATION (3 credits)

Applications of analog and digital devices to electronic instrumentation. Includes transducers, instrumentation amplifiers, mechanical and solid state switches, data acquisition systems, phase-lock loops, and modulation techniques. Demonstrations with working circuits and systems. (Cross-listed with ECEN 800)

Prerequisite(s): Senior Standing in Engineering or Permission. Not open to non-degree graduate students.

ECEN 406 POWER SYSTEMS ANALYSIS (3 credits)

Symmetrical components and fault calculations, power system stability, generator modeling (circuit view point), voltage control system, high voltage DC transmission, and system protection. (Cross-listed with ECEN 806)

Prerequisite(s): ECEN 338, not open to non-degree graduate students.

ECEN 407 POWER SYSTEMS PLANNING (3 credits)

Economic evaluation, load forecasting, generation planning, transmission planning, production simulation, power plant reliability characteristics, and generation system reliability. (Cross-listed with ECEN 807)

Prerequisite(s): ECEN 305, not open to non-degree graduate students.

ECEN 408 ENGINEERING ELECTROMAGNETICS (3 credits)

Applied electromagnets: Transmission lines in digital electronics and communication. The quasistatic electric and magnetic fields; electric and magnetic circuits and electromechanical energy conversion. Guided waves; rectangular and cylindrical metallic waveguides and optical filters. Radiation and antennas; line and aperture antennas and arrays. (Cross-listed with ECEN 808)

Prerequisite(s): ECEN 306, not open to non-degree graduate students.

ECEN 410 MULTIVARIATE RANDOM PROCESSES (3 credits)

Probability space, random vectors, multivariate distributions, moment generating functions, conditional expectations, discrete and continuous-time random processes, random process characterization and representation, linear systems with random inputs. (Cross-listed with ECEN 810)

Prerequisite(s): ECEN 305. Not open to non-degree graduate students.

ECEN 416 MATERIALS AND DEVICES FOR COMPUTER MEMORY, LOGIC, AND DISPLAY (3 credits)

Survey of fundamentals and application of devices used for memory, logic, and display. Magnetic, superconductive, semi-conductive, and dielectric materials. (Cross-listed with ECEN 816)

Prerequisite(s): PHYS 2120, not open to non-degree graduate students.

ECEN 417 SEMICONDUCTOR FUNDAMENTALS II (3 credits)

Analysis of BJT's and MOSFET's from a first principle materials viewpoint. Statics and dynamic analysis and characterization. (Cross-listed with ECEN 817)

Prerequisite(s): ECEN 421 or ECEN 821. Not open to non-degree graduate students.

ECEN 420 PLASMA PROCESSING OF SEMICONDUCTORS (3 credits)

Physics of plasmas and gas discharges developed. Includes basic collisional theory, the Boltzman equation and the concept of electron energy distribution. Results are related to specific gas discharge systems used in semiconductor processing, such as sputtering, etching, and deposition systems. (Cross-listed with ECEN 820)

Prerequisite(s): Senior or graduate standing. Not open to non-degree graduate students.

ECEN 421 PRINCIPLES OF SEMICONDUCTOR MATERIALS AND DEVICES I (3 credits)

Introduction to semiconductor fundamentals, charge carrier concentration and carrier transport, energy bands, and recombination. PN junction, static and dynamic, and special PN junction diode devices. (Cross-listed with ECEN 821)

Prerequisite(s): PHYS 2130. Not open to non-degree graduate students.

ECEN 424 DIGITAL SIGNAL PROCESSING (3 credits)

The temporal and spectral analysis of digital signals and systems, the design of digital filters and systems, and advanced systems including multi-rate digital signal processing techniques. (Cross-listed with ECEN 824)

Prerequisite(s): ECEN 355

ECEN 428 POWER ELECTRONICS (3 credits)

Basic analysis and design of solid-state power electronic devices and converter circuitry. (Cross-listed with ECEN 828)

Prerequisite(s): ECEN 304, ECEN 316.

ECEN 430 WIND ENERGY (3 credits)

This broad multidisciplinary course will combine engineering principles of both the mechanical/aerodynamical and electrical components and systems, along with economic and environmental considerations for siting and public policy, to appropriately cover the relevant topics associated with all scales of wind energy implementations. (Cross-listed with ECEN 830)

Prerequisite(s): Senior standing or permission.

ECEN 433 MICROPROCESSOR SYSTEM DESIGN (4 credits)

Microprocessor based systems. Architecture; design and interfacing. Memory design, input/output ports, serial communications, and interrupts. Generating assembly ROM code, assembly/C firmware generation, and designing device drivers. (Cross-listed with ECEN 833)

Prerequisite(s): ECEN 310 with grade of C or better and ECEN 332 with grade of C or better.

ECEN 435 EMBEDDED MICROCONTROLLER DESIGN (4 credits)

Microcontroller architecture: design, programming, and interfacing for embedded systems. Timing issues, memory interfaces, serial and parallel interfacing, and functions for common microcontrollers. (Cross-listed with ECEN 835)

Prerequisite(s): ECEN 433/ECEN 833 with grade of C or better, STAT 3800.

ECEN 436 ELECTRIC MACHINES (3 credits)

Provides a solid background in electric machine analysis, covering fundamental concepts, techniques, and methods for analysis and design. Discussion of transformers and presentation of some new systems and applications. (Cross-listed with ECEN 836).

Prerequisite(s): PHYS 2120 and ECEN 216

ECEN 437 PARALLEL AND DISTRIBUTED PROCESS (3 credits)

Parallel and Distributed Processing concepts, principles, techniques and machines. (Cross-listed with ECEN 837).

Prerequisite(s): ECEN 435 or ECEN 835

ECEN 442 BASIC ANALYTICAL TECHNIQUES IN ELECTRICAL ENGINEERING (3 credits)

Applications of partial differential equations, matrices, vector analysis, complex variables, and infinite series to problems in electrical engineering. (Cross-listed with ECEN 842)

Prerequisite(s): MATH 2350. Not open to non-degree graduate students.

ECEN 444 LINEAR CONTROL SYSTEMS (3 credits)

Classical (transfer function) and modern (state variable) control techniques. Both time domain and frequency domain techniques are studied. Traditional, lead, lag, and PID compensators are examined, as well as state variable feedback. (Cross-listed with ECEN 844)

Prerequisite(s): ECEN 304. Not open to non-degree graduate students.

ECEN 448 DECISION ANALYSIS (3 credits)

Principles of engineering economy including time value of money, net present value, and internal rate of return. Use of influence diagram and decision tree to structure and analyze decision situations under uncertainty including use of stochastic dominance, value of information, and utility theory. Fundamentals of two-person matrix games including Nash equilibrium. (Cross-listed with ECEN 848)

Prerequisite(s): ECEN 305 or STAT 3800.

ECEN 450 BIOINFORMATICS (3 credits)

This course examines how information is organized in biological sequences such as DNA and proteins and will look at computational techniques which make use of this structure. During this class various biochemical processes that involve these sequences are studied to understand how these processes effect the structure of these sequences. In the process bioinformatics algorithms, tools, and techniques which are used to explore genomic and amino acid sequences are also introduced. (Cross-listed with ECEN 850)

Prerequisite(s): Computer programming language and ECEN 305 or STAT 3800 or equivalent.

ECEN 451 INTRODUCTION TO VLSI SYSTEM DESIGN (3 credits)

The concepts, principles, and methodology at all levels of digital VLSI system design and focused on gate-level VLSI implementation. (Cross-listed with ECEN 851).

Prerequisite(s): ECEN 310

ECEN 452 INTRODUCTION TO COMPUTER-AIDED DIGITAL DESIGN (3 credits)

The concepts, simulation techniques and methodology in computer-aided digital design at system and logic levels. (Cross-listed with ECEN 852)

Prerequisite(s): ECEN 310

ECEN 453 COMPUTATIONAL AND SYSTEMS BIOLOGY (3 credits)

Provides the required biology primer and covers functional genomics, transcriptomics, differential expression, clustering, classification, prediction, biomarker discovery, pathway analysis and network based approaches to high throughput biological data analysis. Includes the development of databases, algorithms, web-based and other tools regarding management and analysis of life science data. Areas of study include DNA, RNA, and protein sequence analysis, functional genomics and proteomics, 3D macromolecule structure prediction, and systems/network approach. (Cross-listed with ECEN 853).

Prerequisite(s): By permission.

ECEN 454 POWER SYSTEMS OPERATION AND CONTROL (3 credits)

Characteristics and generating units. Control of generation, economic dispatch, transmission losses, unit commitment, generation with limited supply, hydrothermal coordination, and interchange evaluation and power pool. (Cross-listed with ECEN 854)

Prerequisite(s): ECEN 338 or ECEN 838. Not open to non-degree graduate students.

ECEN 460 LABVIEW PROGRAMMING (3 credits)

Labview as a programming language and for applications to acquire data, to access the network, control lab instruments, and for video and sound applications. (Cross-listed with ECEN 860)

Prerequisite(s): Prior programming experience.

ECEN 461 DIGITAL COMMUNICATIONS MEDIA (4 credits)

Topics related to the transport of bit streams from one geographical location to another over various physical media such as wire pairs, coaxial cable, optical fiber, and radio waves. Transmission characteristics, media interfacing, delay, distortion, noise, and error detection and correction techniques. (Cross-listed with ECEN 861)

Prerequisite(s): ECEN 325 or ECEN 462

ECEN 462 COMMUNICATION SYSTEMS (3 credits)

Mathematical descriptions of signals in communication systems. Principles of analog modulation and demodulation. Performance analysis of analog communication systems in the presence of noise. (Cross-listed with ECEN 862)

Prerequisite(s): ECEN 304 and ECEN 305. Not open to non-degree graduate students.

ECEN 463 DIGITAL SIGNAL PROCESSING (3 credits)

Discrete system analysis using Z-transforms. Analysis and design of digital filters. Discrete Fourier transforms. (Cross-listed with ECEN 863)

Prerequisite(s): ECEN 304. Not open to non-degree graduate students.

ECEN 464 DIGITAL COMMUNICATION SYSTEMS (3 credits)

Principles of digital transmission of information in the presence of noise. Design and analysis of baseband PAM transmission systems and various carrier systems including ASK, FSK, PSK. (Cross-listed with ECEN 864)

Prerequisite(s): ECEN 462. Not open to non-degree graduate students.

ECEN 465 INTRODUCTION TO DATA COMPRESSION (3 credits)

Introduction to the concepts of Information Theory and Redundancy removal. Simulation of various data compression schemes such as Delta Modulation, Differential Pulse Code Modulation, Transform Coding and Runlength Coding. (Cross-listed with ECEN 865)

Prerequisite(s): ECEN 305. Not open to non-degree graduate students.

ECEN 466 TELECOMMUNICATION ENGINEERING I (4 credits)

Standard telecommunications protocols, architecture of long distance integrated data networks, local area networks, wide area networks, radio and satellite networks. Network management, internetworking, system modeling and performance analysis. (Cross-listed with ECEN 866)

Prerequisite(s): ECEN 362; ECEN 461/ECEN 861 prior to or concurrent.

ECEN 467 ELECTROMAGNETIC THEORY AND APPLICATIONS (3 credits)

Engineering application of Maxwell's equations. Fundamental Parameters of Antennas, Radiation analysis, and synthesis of antenna arrays. Aperture Antennas. (Cross-listed with ECEN 867)

Prerequisite(s): ECEN 306. Not open to non-degree graduate students.

ECEN 468 MICROWAVE ENGINEERING (3 credits)

Applications of active and passive devices to microwave systems. Includes impedance matching, resonators, and microwave antennas. (Cross-listed with ECEN 868)

Prerequisite(s): ECEN 306. Not open to non-degree graduate students.

ECEN 469 ANALOG INTEGRATED CIRCUITS (3 credits)

Analysis and design of analog integrated circuits both bipolar and MOS. Basic circuit elements such as differential pairs, current sources, active loads, output drivers used in the design of more complex analog integrated circuits. (Cross-listed with ECEN 869)

Prerequisite(s): ECEN 361. Not open to non-degree graduate students.

ECEN 470 DIGITAL AND ANALOG VLSI DESIGN (3 credits)

Introduction to VLSI design techniques for analog and digital circuits. Fabrication technology and device modeling. Design rules for integrated circuit layout. LSI design options with emphasis on the standard cell approach of digital and analog circuits. Lab experiments, computer simulation and layout exercises. (Cross-listed with ECEN 870)

Prerequisite(s): ECEN 361. Not open to non-degree graduate students.

ECEN 471 COMPUTER COMMUNICATION NETWORKS (4 credits)

This course investigates the standard protocols and hardware solutions defined by the International Standard Organization (ISO) and Institute of Electrical and Electronics Engineers (IEEE) for the computer communications networks. Included are ISO OSI model, IEEE 802.X (Ethernet, token bus, token ring) and Asynchronous Transfer Modals (ATM) networks. (Cross-listed with ECEN 871)

Prerequisite(s): ECEN 325

ECEN 473 MOBILE AND PERSONAL COMMUNICATIONS (4 credits)

This course provides basic concepts on mobile and personal communications. Concepts on mobile and personal communications. Modulation techniques for mobile radio, equalization, diversity, channel coding, and speech coding. (Cross-listed with ECEN 873)

Prerequisite(s): ECEN 325

ECEN 474 DIGITAL SYSTEMS (3 credits)

Synthesis using state machines; design of digital systems; micro programming in small controller design; hardware description language for design and timing analysis. (Cross-listed with ECEN 874)

Prerequisite(s): ECEN 370. Not open to non-degree graduate students.

ECEN 475 SATELLITE COMMUNICATIONS (4 credits)

The fundamental concepts of satellite communications. Orbits, launching satellites, modulation and multiplexing, multiple access, earth stations, coding, interference and special problems in satellite communications. (Cross-listed with ECEN 875)

Prerequisite(s): ECEN 325

ECEN 476 WIRELESS COMMUNICATIONS (3 credits)

The fundamental concepts of wireless communications. Basic communications concepts such as multiple access, and spectrum. Propagation, radio, standards, and internetworking. Current issues in wireless communications. (Cross-listed with ECEN 876)

Prerequisite(s): ECEN 325 or ECEN 462 prior to or concurrent

ECEN 477 DIGITAL SYSTEMS ORGANIZATION AND DESIGN (3 credits)

Hardware development languages, hardware organization and realization, microprogramming, interrupt, intersystem communication, and peripheral interfacing. (Cross-listed with ECEN 877)

Prerequisite(s): ECEN 474 or ECEN 874. Not open to non-degree graduate students.

ECEN 479 OPTICAL FIBER COMMUNICATIONS (4 credits)

Fundamentals of lightwave communication in optical fiber waveguides, physical description of fiber optic systems. Properties of the optical fiber and fiber components. Electro-optic devices: light sources and modulators, detectors and amplifiers; optical transmitter and receiver systems. Fiber optic link design and specification; fiber optic networks. (Cross-listed with ECEN 879)

Prerequisite(s): ECEN 461 or permission

ECEN 480 INTRODUCTION TO LASERS AND LASER APPLICATIONS (3 credits)

Physics of electronic transition production stimulated emission of radiation. Threshold conditions for laser oscillation. Types of lasers and their applications in engineering. (Cross-listed with ECEN 880)

Prerequisite(s): PHYS 2130

ECEN 482 ANTENNAS AND RADIO PROPAGATION FOR WIRELESS COMMUNICATIONS (4 credits)

Fundamental theory of antennas and radio propagation for wireless communications. Basic antenna characteristics and various antennas and antenna arrays. Basic propagation mechanisms and various channel models, such as Friis free space model, Hata model, lognormal distribution, and multipath model. Includes practical antenna design for high radio frequency (RF) with modeling software tools such as Numerical Electromagnetic Code (NEC) and ADvanced Design System (ADS). Design projects will be assigned as the main part of course. (Cross-listed with ECEN 882)

Prerequisite(s): ECEN 328

ECEN 484 NETWORK SECURITY (4 credits)

Network security and cryptographic protocols. Classical encryption techniques, block ciphers and stream cyphers, public-key cryptography, authentications digital signatures, key management and distributions, network vulnerabilities, transport-level security, IP security. (Cross-listed with ECEN 884)

Prerequisite(s): ECEN 325

ECEN 486 APPLIED PHOTONICS (3 credits)

Introduction to the use of electromagnetic radiation for performing optical measurements in engineering applications. Basic electromagnetic theory and light interaction with matter are covered with corresponding laboratory experiments conducted. (Cross-listed with ECEN 886)

Prerequisite(s): ECEN 306 or permission. Not open to non-degree graduate students.

ECEN 488 WIRELESS SECURITY (4 credits)

A comprehensive overview on the recent advances in wireless network and system security. Covers security issues and solutions in emerging wireless access networks and systems as well as multihop wireless networks. (Cross-listed with ECEN 888)

Prerequisite(s): ECEN 325

ECEN 491 SPECIAL TOPICS IN ELECTRIC AND COMPUTER ENGINEERING IV (1-4 credits)

Special topics in the emerging areas of electrical, computer and electronics engineering which may not be covered in the other courses in the electrical, and computer engineering curriculum. (Cross-listed with ECEN 891)

Prerequisite(s): Senior standing

ECEN 492 INDIVIDUAL STUDY IN ELECTRICAL AND COMPUTER ENGINEERING IV (1-3 credits)

Individual study in a selected electrical, computer or electronics engineering area under the supervision and guidance of a Electrical and Computer Engineering faculty member. (Cross-listed with ECEN 892).

Prerequisite(s): Senior or graduate standing and departmentally approved proposal.

ECEN 494 ELECTRICAL ENGINEERING CAPSTONE I (2 credits)

A substantial design project that allows application of electrical engineering skills to a multidisciplinary project. Requires project definition, planning and scheduling, effective written and oral communication of technical ideas, incorporation of realistic constraints and engineering standards, functioning effectively on a multidisciplinary team, and applying new ideas as needed to meet project goals.

Prerequisite(s): ECEN 222, ECEN 304, ECEN 306, ECEN 313, and (UNO) ENGL 1160. The ECE department changed its English composition requirements to ENGL 1160 (UNO); ENGL 1160 is required, not technical writing.

ECEN 495 ELECTRICAL ENGINEERING CAPSTONE II (3 credits)

A substantial design project that allows application of electrical engineering skills to a multidisciplinary project. Requires project definition, planning and scheduling, effective written and oral communication of technical ideas, incorporation of realistic constraints and engineering standards, functioning effectively on a multidisciplinary team and applying new ideas as needed to meet project goals.

Prerequisite(s): ECEN 494

ECEN 496 COMPUTER ENGINEERING CAPSTONE I (2 credits)

A substantial design project that allows application of computer engineering skills to a multidisciplinary project. Requires project definition, planning and scheduling, effective written and oral communication of technical ideas, incorporation of realistic constraints and engineering standards, functioning effectively on a multidisciplinary team, and applying new ideas as needed to meet project goals. The first in a two semester computer engineering capstone senior design course sequence.

Prerequisite(s): ECEN 433; (UNO) ENGL 1160. The ECE department changed its English composition requirements to ENGL 1160 (UNO); ENGL 1160 is required, not technical writing.

ECEN 498 SPECIAL TOPICS IN ELECTRICAL ENGINEERING IV (1-6 credits)

Offered as the need arises to meet electrical engineering topics for fourth-year and graduate students not covered in other courses. (Cross-listed with ECEN 898)

Prerequisite(s): Permission.

ECEN 499 COMPUTER ENGINEERING CAPSTONE II (3 credits)

Requires the completion of a design project that demonstrates the ability to combine knowledge from individual courses in the program to complete a design task. The capstone design course for the B.S. in computer engineering, electrical engineering and electronics engineering.

Prerequisite(s): ECEN 496. Not open to non-degree graduate students.

ECEN 4220 INTRODUCTION TO PHYSICS AND CHEMISTRY OF SOLIDS (3 credits)

Introduction to structural, thermal, electrical, and magnetic properties of solids, based on concepts of atomic structure, chemical bonding in molecules, and electron states in solid state devices. (Cross-listed with ECEN 8226).

Prerequisite(s): PHYS 2130 or CHEM 3350, MATH 2350 or permission. Not open to non-degree graduate students.

Computer Engineering, Bachelor of Science

The College of Engineering offers a complete computer engineering undergraduate program to students on the city (Lincoln) campus and the Scott (Omaha) campus of the University of Nebraska. Curriculum requirements are nearly identical on both campuses and students can complete all degree requirements on either campus.

In the college, the School of Computing and the Department of Electrical and Computer Engineering offer this challenging baccalaureate degree program in computer engineering that prepares graduates for professional practice in commerce, industry, and government and for post graduate education to enter careers in research and academia. The focus of the program is hands on integrated hardware/software system design.

Increasingly, diverse systems, products, and processes depend on computers for design, control, data acquisition, and other functions. The computer engineer possesses the range of expertise to have an integrated view of computer-based systems and to make global decisions.

The 124 credit-hours program in computer engineering leads to the Bachelor of Science degree in Computer Engineering. Thirty (30) hours of mathematics and science complement the required 58 hours of work in the computer engineering area. Six (6) hours in written and oral communications, twelve (12) hours in humanities and social sciences, and eighteen (18) hours of engineering electives provide the opportunity for the student to acquire a general educational background and gain cultural attributes with a university education.

The individual holding this degree will have advanced knowledge in his or her field of engineering interest and in addition will have a university educational background involving mathematics, the physical sciences, and the humanities and social sciences. Completion of this curriculum will enable the graduate to enter employment in positions involving computer hardware design and applications, computer software design and development, microcomputer based applications, and computer networking. The program also leads to the preparation for graduate work in computer engineering, computer science or electrical engineering.

Program Educational Objectives

The Program Educational Objectives (PEOs) are a statement of what graduates are doing, or are capable of doing, three to five years after graduation. The students in the Computer Engineering program receive a strong foundation in engineering science and design that not only enables them to pursue productive careers in the computer engineering fields but also play an integral role in advancing other areas including business, management, medicine and manufacturing through computer engineering technologies. The Program Educational Objectives for the Computer Engineering program are that graduates will be:

- Employed in business, non-profit, academia, government, or industry.
- Successful engineers who view computer systems as an integrated continuum of technologies, which engaging and collaborating with professionals in related fields to provide innovative, effective, responsible, and sustainable computer engineering solutions.
- Capable of quickly adapting to new work environments, assimilating new information, solving new problems, and creating new devices.
- Engaging in lifelong learning, which may include postgraduate education and being part of professional organizations, to successfully adapt to technological, industry specific, and cultural changes and to foster adept functioning in society.
- Performing engineering practice in a context that reflects awareness of the ethics of their profession and of the impacts of their work on the profession and society at large.

These Program Educational Objectives were developed with input from the program's constituency, consisting of employers (including the Industry Advisory Board), graduates of the program, and faculty.

Student Outcomes

Student Outcomes are those abilities that a graduate of the Computer Engineering program will have attained so that he/she can meet the educational objectives established for the program.

At the time of graduation, students in the Computer Engineering program will have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Professional Admission Requirements

Pre-professionally admitted College of Engineering students majoring in computer engineering will be granted profession admission into the computer engineering program if the students have:

- maintained a cumulative GPA of at least 2.4 and is in good standing in the College of Engineering, and
- received at least a C in ECEN 215, ECEN 230 and CSCI 3320

A transfer student will be admitted if he/she has:

- completed courses equivalent to ECEN 215, ECEN 230 and CSCI 3320 at other institutions with acceptable transfer grades of C or better, and

- earned a GPA of 2.4 or better during their first 12 credit hours in computer engineering course work at UNL/UNO.

Transfer students will be able to appeal to the College's Academic Appeals Committee for admission for an additional semester if they fail to meet the GPA requirement.

See the College of Engineering section of the catalog for details on admission to the college.

Requirements

Course	Title	Credits
First Year		
First Semester		
MATH 1950	CALCULUS I	5
ECEN 155E	COMPUTER SCIENCE I	3
ECEN 164	INTRODUCTION TO COMPUTER ENGINEERING	2
ENGR 100	INTERPERSONAL SKILLS FOR ENGINEERING LEADERS ¹	3
ENGR 10	FRESHMAN ENGINEERING SEMINAR	0
Credits		13
Second Semester		
MATH 1960	CALCULUS II	4
PHYS 2110	GENERAL PHYSICS I - CALCULUS LEVEL	4
PHYS 1154	GENERAL PHYSICS LABORATORY I	1
ECEN 156	COMPUTER SCIENCE II	4
ENGL 1160	ENGLISH COMPOSITION II	3
Credits		16
Second Year		
First Semester		
MATH 2050	APPLIED LINEAR ALGEBRA	3
MATH 2350	DIFFERENTIAL EQUATIONS	3
PHYS 2120	GENERAL PHYSICS-CALCULUS LEVEL	4
ECEN 215	ELECTRONICS AND CIRCUITS I ²	3
ECEN 235	INTRODUCTORY ELECTRICAL LABORATORY I ³	1
CSCI 2030	MATHEMATICAL FOUNDATIONS OF COMPUTER SCIENCE	3
ENGR 20	SOPHOMORE ENGINEERING SEMINAR	0
Credits		17
Second Semester		
CSCI 3320	DATA STRUCTURES	3
ECEN 230	COMPUTER DESIGN	4
ECEN 222	ELECTRONIC CIRCUITS I	4
ECEN 251	UNIX PROGRAMMING ENVIRONMENT	1
ECEN 313	SWITCHING CIRCUITS THEORY	4
Credits		16
Third Year		
First Semester		
ECEN 305	PROBABILITY THEORY AND STATISTICS FOR ELECTRICAL AND COMPUTER ENGINEERS	3
ECEN 220	INTRODUCTION TO EMBEDDED SYSTEMS	4
ECEN 304	SIGNALS AND SYSTEMS I	3
ECEN 478	PRACTICAL MACHINE LEARNING	3
ACE ELECTIVE ⁴		3
Credits		16

Second Semester

ECEN 325	COMMUNICATIONS SYSTEMS	4
CSCI 4830	INTRODUCTION SOFTWARE ENGINEERING	3
ECEN 487	DATA AND NETWORK SECURITY ⁵	3
ENGINEERING ELECTIVE ⁶		3
ACE ELECTIVE ⁴		3

Credits 16

Fourth Year

First Semester

ECEN 351	SYSTEM RESOURCE MANAGEMENT	3
ECEN 496	COMPUTER ENGINEERING CAPSTONE I	3
ENGINEERING ELECTIVES ⁶		9

Credits 15

Second Semester

ECEN 499	COMPUTER ENGINEERING CAPSTONE II	3
ENGINEERING ELECTIVES ⁶		6
ACE ELECTIVES ⁴		6

Credits 15

Total Credits 124

¹ CMST 1110 may be substituted for ENGR 100

² ECEN 213 may be substituted for ECEN 215

³ ECEN 218 may be substituted for ECEN 235

⁴ ACE electives: Choose one course from not yet satisfied ACE outcomes 5,6,7 or 9

⁵ ECEN 484 may be substituted for ECEN 487

⁶ Engineering Electives

The Computer Engineering program requires 18 hours of Engineering electives. Of these 18 credit hours, at least 12 credit hours must be taken in one of the Computer Engineering (ECEN) emphasis areas. Below is a list of courses in each emphasis area.

1. Signal, Image, and Video Processing

ECEN 415 (<https://catalog.unomaha.edu/search/?P=ECEN%20410>) core Digital Image Processing

ECEN 463 (<https://catalog.unomaha.edu/search/?P=ECEN%20463>) core Digital Signal Processing

ECEN 465 (<https://catalog.unomaha.edu/search/?P=ECEN%20465>) Intro Data Compression

ECEN 444 (<https://catalog.unomaha.edu/search/?P=ECEN%20465>) Linear Control Systems

ECEN 498 (<https://catalog.unomaha.edu/search/?P=ECEN%20465>) Special Topics: Real Time DSP Application

ECEN 498 (<https://catalog.unomaha.edu/search/?P=ECEN%20465>) Special Topics: Introduction to Computer Visio2.

2. Cyber Security

ECEN 498 (<https://catalog.unomaha.edu/search/?P=ECEN%20408>) core Special Topics: Cyber Security

ECEN 488 (<https://catalog.unomaha.edu/search/?P=ECEN%20467>) core Wireless Security

ECEN 462 (<https://catalog.unomaha.edu/search/?P=ECEN%20468>)
Communication Systems

3. Communications and Networking

ECEN 462 (<https://catalog.unomaha.edu/search/?P=ECEN%20310>) core
Communication Systems

ECEN 471 (<https://catalog.unomaha.edu/search/?P=ECEN%20362>) core
Computer Communication Networks

ECEN 465 (<https://catalog.unomaha.edu/search/?P=ECEN%20352>)
Intro Data Compression

ECEN 475 (<https://catalog.unomaha.edu/search/?P=ECEN%20469>)
Satellite Communications

ECEN 476 (<https://catalog.unomaha.edu/search/?P=ECEN%20470>)
Wireless Communications

ECEN 479 (<https://catalog.unomaha.edu/search/?P=ECEN%20470>)
Optical Fiber Communications

ECEN 488 (<https://catalog.unomaha.edu/search/?P=ECEN%20470>)
Wireless Security

4. IoT and Cyber Physical Systems

ECEN 433 (<https://catalog.unomaha.edu/search/?P=ECEN%20338>) core
Microprocessor System Design

ECEN 435 (<https://catalog.unomaha.edu/search/?P=ECEN%20406>) core
Embedded Microcontroller Design

ECEN 438 (<https://catalog.unomaha.edu/search/?P=ECEN%20428>)
Integrated Systems Programming

ECEN 462 (<https://catalog.unomaha.edu/search/?P=ECEN%20310>)
Communication Systems

ECEN 469 (<https://catalog.unomaha.edu/search/?P=ECEN%20430>)
Analog Integrated Circuits

ECEN 474 (<https://catalog.unomaha.edu/search/?P=ECEN%20436>)
Digital Systems

ECEN 476 (<https://catalog.unomaha.edu/search/?P=ECEN%20470>)
Wireless Communications

ECEN 477 (<https://catalog.unomaha.edu/search/?P=ECEN%20444>)
Digital Systems Organization and Design

ECEN 498 (<https://catalog.unomaha.edu/search/?P=ECEN%20465>)
Special Topics: Real Time DSP Application

5. Autonomous Systems & Robotics

ECEN 433 (<https://catalog.unomaha.edu/search/?P=ECEN%20417>)
core Microprocessor System Design

ECEN 345 (<https://catalog.unomaha.edu/search/?P=ECEN%20420>) core
Mobile Robotics I

ECEN 444 (<https://catalog.unomaha.edu/search/?P=ECEN%20421>)
Linear Control Systems

6. Machine Intelligence

ECEN 410 (<https://catalog.unomaha.edu/search/?P=ECEN%20450>) core
Multivariate Random Processes

ECEN 437 (<https://catalog.unomaha.edu/search/?P=ECEN%20460>) core
Parallel and Distributed Processing

ECEN 448 (<https://catalog.unomaha.edu/search/?P=ECEN%20453>)
Decision Analysis

ECEN 498 (<https://catalog.unomaha.edu/search/?P=ECEN%20498>)
Special Topics: Computational Modeling and Simulation

7. High Performance Computing

ECEN 437 (<https://catalog.unomaha.edu/search/?P=ECEN%20460>) core
Parallel and Distributed Processing

ECEN 451 (<https://catalog.unomaha.edu/search/?P=ECEN%20460>) core
Intro VLSI System Design

ECEN 452 (<https://catalog.unomaha.edu/search/?P=ECEN%20460>)
Intro Computer-Aided Digital Design

8. Bioinformatics and Computational Biology

ECEN 450 (<https://catalog.unomaha.edu/search/?P=ECEN%20498>) core
Bioinformatics

ECEN 453 (<https://catalog.unomaha.edu/search/?P=ECEN%20498>) core
Computational and Systems Biology

ECEN 460 (<https://catalog.unomaha.edu/search/?P=ECEN%20498>)
Labview Programming

ECEN 498 (<https://catalog.unomaha.edu/search/?P=ECEN%20498>)
Special Topics: Bioengineering Image and Signal Processing

Three to six credit hours must include the required core courses depending on each emphasis area. Of the remaining six to nine credit hours, three must be in a different emphasis area, and the remaining three to six credit hours must be in the same emphasis area.

The remaining 6 credit hours of technical electives may be taken from any 300- or 400-level course offering (with the exception of those listed below) in the Department of Electrical and Computer Engineering or in any other engineering department within the College of Engineering at UNL, or in the UNO Departments of Biology, Chemistry, Computer Science, Mathematics, or Physics or in the UNL Departments of Biological Sciences, Chemistry, Computer Science and Engineering, Mathematics, Statistics, or Physics and Astronomy.

Not Allowed 300- and 400-Level Technical Electives

ENGR 469 (<https://catalog.unomaha.edu/search/?P=ENGR%20469>)
Technology, Science and Civilization

BIOL 3500 (<https://catalog.unomaha.edu/search/?P=BIOL%203500>)
Biological Principles of Aging

CSCI 3710 (<https://catalog.unomaha.edu/search/?P=CSCI%203710>)
Introduction to Digital Design and Computer Organization

STAT 3000 (<https://catalog.unomaha.edu/search/?P=STAT%203000>)
Statistical Methods I

Electrical Engineering, Bachelor of Science

The Department of Electrical and Computer Engineering offers a complete electrical engineering undergraduate program to students on the City (Lincoln) and Scott (Omaha) campuses of the University of Nebraska. Curriculum requirements are nearly identical on both campuses and students can complete all degree requirements on either campus.

Electrical engineering is concerned with the production, transmission, and utilization of electrical energy and the creation, transmission and processing of information. This includes power generation and transmission systems, renewable energy, electric transportation, automated vehicle systems, control systems, and power electronics as well as radio frequency (RF) systems, telecommunications, remote sensing, bioinformatics, computer vision, biomedical engineering, signal processing, analog & digital circuits, instrumentation, audio, video and opto-electronics. Employment opportunities for electrical engineers cover a wide spectrum of activities including design, development, research, sales, and management. These activities are carried on in industrial organizations, public and private utilities, the communications and computer industry, governmental and educational institutions, and consulting engineering firms. The objective of this major is to offer students an education to become productive electrical engineers and be active, contributing citizens of the nation and the world.

This department has over 40 faculty involved in research related to electronic materials, nanotechnology, optical systems, communications, biomedical applications, signal processing, integrated circuit design, energy systems, and electromagnetics. Students are encouraged to participate in research activities and have opportunities to travel and present their research results.

The department has extensive research facilities for all areas including state of the art computing facilities, integrated circuits and systems research facilities, communications and signal processing laboratories, applied electromagnetics research, solid state laboratories, nanostructures research, electro-optics research and energy systems laboratories.

The curriculum is designed to provide a broad education in fundamental principles and laboratory applications, and an awareness of the socioeconomic impact of technology. Technical electives are normally selected from advanced courses in electrical engineering to provide for specialization in selected areas. However, technical electives can also be selected from courses offered by other departments of the College of Engineering or from appropriate physics, chemistry, mathematics, and biological sciences courses.

Accreditation

The Electrical Engineering Program (BS) is accredited by the Engineering Accreditation Commission of ABET: <https://www.abet.org>, under the commission's General Criteria and Program Criteria for Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering programs.

Program Educational Objectives

The Program Educational Objectives (PEOs) for the electrical engineering program are a statement of what its graduates are doing three to five years after graduation. Electrical engineering is concerned with the production, transmission, and utilization of electrical energy and the transmission and processing of information. Employment opportunities for electrical engineers cover a wide spectrum of activities including design, development, research, sales, and management. These activities are carried on in industrial organizations, public and private utilities, the communications and computer industry, governmental and educational institutions, and consulting engineering firms. Careers may encompass electronic materials, nanotechnology, optical systems, communications, biomedical applications, signal processing, integrated circuit design, energy systems, and electromagnetics. The objective of this program is to offer students an education to become productive electrical engineers and be active, contributing citizens of the nation and the world.

The Program Educational Objectives for the Electrical Engineering program are that graduates will be:

- Employed in business, academia, or government.
- Successful engineers who have established productive careers in their field and have contributed to improve and provide innovative and effective solutions in electrical engineering or related fields.
- Demonstrating technical and decision-making processes and the human interactions necessary to produce viable, responsible, and sustainable technological solutions.
- Engaging in lifelong learning, which may include postgraduate education, to successfully adapt to technological, industry specific, and cultural changes and to foster adept functioning in society.
- Performing engineering practice in a context that reflects awareness of the ethics of their profession and of the impacts of their work on the profession and society at large.

These Program Educational Objectives were developed with input from the program's educational objectives constituency, consisting of employers

(including the Industry Advisory Board), graduates of the program, and faculty of the department.

Student Outcomes

Student Outcomes are those abilities that a graduate of the Electrical Engineering program will have attained so that he/she can meet the educational objectives established for the program.

At the time of graduation, students in the Electrical Engineering program will have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze, and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Professional Admission Requirements

Pre-professionally admitted College of Engineering students majoring in electrical engineering will be granted profession admission into the electrical engineering program if the students have:

- maintained a cumulative GPA of at least 2.4 and is in good standing in the College of Engineering, and
- completed ECEN 215 Electronics and Circuits I and ECEN 216 Electronics and Circuits II with a grade of C or better.

A transfer student will be admitted if he/she has:

- completed courses equivalent to ECEN 215 and ECEN 216 at other institutions with acceptable transfer grades of C or better, and
- earned a GPA of 2.4 or better during their first 12 credit hours in electrical engineering course work at UNL/UNO.

Transfer students will be able to appeal to the College's Academic Appeals Committee for admission for an additional semester if they fail to meet the GPA requirement.

See the College of Engineering section of the catalog for details on admission to the college.

Students graduating with a Bachelor of Science in Electrical Engineering degree must successfully complete 124 credit hours as follows:

Code	Title	Credits
	Required electrical engineering courses	46
	Required math and science courses	32

Technical electives	25
ACE (15) and Written/Oral Communication (6)	21

² ECEN 213 may be substituted for ECEN 215

³ ECEN 218 may be substituted for ECEN 235

⁴ ECEN 214 may be substituted for ECEN 216

⁵ The department maintains an approved list of technical electives (within and outside of ECE) on the department website

⁶ ACE electives: Choose one course from not yet satisfied ACE outcomes 5,6,7, 8 or 9

Total Credit Hours Required for Graduation - 124 Hours

Technical Electives

Each EE undergraduate student must choose one of the emphasis areas listed below for the EE technical electives.

Electrical Engineering Emphasis Areas

Communications and Signal Processing

Electromagnetic Fields and Optics

Electronics

Energy and Power Systems

Materials and Devices

Bioengineering

Modeling and Simulation

Telecommunications

Electives

There are 25 credit hours of technical electives required. Of these 25 credit hours, at least 12 credit hours must be taken in one of the electrical engineering (ECEN) emphasis areas. Below is a list of courses in each emphasis area.

Communications & Signal Processing

ECEN 410	Multivariate Random Processes
ECEN 325/ECEN 462 core Communications Systems	Communications Systems/
ECEN 424/ECEN 463 core Signal Processing	Digital Signal Processing/Digital
ECEN 464	Digital Communication Systems
ECEN 465	Intro Data Compression
Electromagnetic Fields and Optics	
ECEN 408 core	Engineering Electromagnetics
ECEN 468	Microwave Engineering
ECEN 479	Optical Fiber Communications
ECEN 480 applications	Introduction to Lasers and Laser
ECEN 486	Applied Photonics
Electronics	
ECEN 310/ ECEN 474 core Digital Systems	Digital Design and Interfacing/
ECEN 352/ECEN 361 core Electronics and Circuits	Electronic Circuits II/Advanced
ECEN 362 Transceivers	Data and Telecommunications
ECEN 469	Analog Integrated Circuits
ECEN 470	Digital and Analog VLSI Design
Energy and Power Systems	
ECEN 338 core	Intro Power and Energy Systems
ECEN 406	Power Systems Analysis
ECEN 428 core	Power Electronics
ECEN 430	Wind Energy
ECEN 436	Electric Machines
ECEN 444	Linear Control Systems
ECEN 498	Solar Energy
Materials and Devices	
ECEN 417	Semiconductor Fundamentals II
ECEN 420 Semiconductors	Plasma Processing of
ECEN 421 core Materials and Devices I	Principles of Semiconductor
ECEN 422 Chemistry of Solids	Introduction to Physics and
Bioengineering	
ECEN 450 core	Bioinformatics
ECEN 460	Labview Programming

ECEN 453	Computational and Systems Biology
ECEN 498 Processing	Bioengineering Image and Signal
Modeling and Simulation	
ECEN 398 Simulation: Discrete Systems	Computational Modeling and
ECEN 448	Decision Analysis
ECEN 498 Simulation: Continuous Systems	Computational Modeling and
Telecommunications	
ECEN 362 Transceivers	Data and Telecommunications
ECEN 464 core	Digital Communication Systems
ECEN 466 core	Telecommunications Engineering I

Of the 12 credit hours required in an emphasis area which are referred to as "EE Option Technical Electives", 6 credit hours must be taken from one of the eight EE emphasis areas listed. This must include at least one Core Course in that area.

In addition, at least one 3 credit hour course from a different EE emphasis area must be taken. The remaining 3 credits may be satisfied by any non-required 3000- or 4000-level ECEN course except ECEN 399 Undergraduate Research.

The remaining 13 credit hours of technical electives which are referred to as "EE or other Technical Electives" may be taken from any 3000- or 4000-level course offering (with the exception of those listed below) in the Department of Electrical and Computer Engineering or in any other engineering department within the College of Engineering at UNL, or in the UNO Departments of Biology, Chemistry, Computer Science, Mathematics, or Physics or in the UNL Departments of Biological Sciences, Chemistry, Computer Science and Engineering, Mathematics, Statistics, or Physics and Astronomy.

Not Allowed 300- and 400-Level Technical Electives

ENGR 469 Technology, Science and Civilization

BIOL 3500 Biological Principles of Aging

CSCI 3710 Introduction to Digital Design and Computer Organization

STAT 3000 Statistical Methods I

UNL BIOS 310 School of Biological Sciences Seminar

UNL IMSE 305 Introduction to Engineering Management

MATH 4980 Seminar or UNL MATH 495 (<http://bulletin.unl.edu/undergraduate/courses/MATH/495/>) Seminar

UNL MATH 496 (<http://bulletin.unl.edu/undergraduate/courses/MATH/496/>) Seminar in Mathematics

or any other seminar-type courses.

Allowed 100 and 200 Level Technical Electives

UNL AGEN 225 (<http://bulletin.unl.edu/undergraduate/courses/AGEN/225/>) Engineering Properties of Biological Materials (BSEN 225 (<http://bulletin.unl.edu/undergraduate/courses/BSEN/225/>))

PHYS 4350 Astrophysics or ASTR 204 Introduction to Astronomy & Astrophysics

UNL ASTR 224 (<http://bulletin.unl.edu/undergraduate/courses/ASTR/224/>) Astronomy & Astrophysics Lab

BIOL 2140 Genetics or UNL BIOS 206 (<http://bulletin.unl.edu/undergraduate/courses/BIOS/206/>) General Genetics

BIOL 2740 Human Physiology and Anatomy I or UNL BIOS 213 (<http://bulletin.unl.edu/undergraduate/courses/BIOS/213/>) Human Physiology

CHEM 1190 General Chemistry II and CHEM 1194 General Chemistry II Laboratory or UNL CHEM 110 (<http://bulletin.unl.edu/undergraduate/courses/CHEM/110/>) General Chemistry II

CHEM 1190 General Chemistry II or UNL CHEM 114 (<http://bulletin.unl.edu/undergraduate/courses/CHEM/114/>) Fundamental Chemistry II

Any 2000 level chemistry course or UNL CHEM 2xx

CSCI 1620 Introduction to Computer Science II or UNL CSCE 156 (<http://bulletin.unl.edu/undergraduate/courses/CSCE/156/>) Computer Science II

MATH 2030 Discrete Mathematics or UNL CSCE 235 (<http://bulletin.unl.edu/undergraduate/courses/CSCE/235/>) Introduction to Discrete Structures

UNL CSCE 251 (<http://bulletin.unl.edu/undergraduate/courses/CSCE/251/>) Unix Programming Environment

UNL MATL 260 (<http://bulletin.unl.edu/undergraduate/courses/MATL/260/>) Elements of Materials Science

UNL MATL 262 (<http://bulletin.unl.edu/undergraduate/courses/MATL/262/>) Materials Lab I

MECH 223 Engineering Statics

MECH 200 Engineering Thermodynamics

No more than a total of 3 credit hours may be taken in ECEN 399 or similar offerings from other departments.

However, students can choose a "Research Option." The purpose of research option is to provide research experiences and offer opportunities for students to work with a faculty advisor on a specific research topic. A certificate of completion of thesis will be awarded to the students, and outstanding thesis awards will be presented at the end of semester functions. Requirements for the research option are listed below.

Research Option

1. Selection of a faculty advisor (ECE department faculty), research topic, and thesis committee (at least one other faculty).
2. Registration for 6 credit hours of undergraduate research (ECEN 399) over at least two consecutive semesters on the same research topic.
3. GPA of above 3.0.
4. Write an undergraduate thesis or report and make an oral presentation to be graded by thesis committee members.

Science Electives

BIOL 1450 BIOLOGY I (5 cr) or UNL LIFE 120 and LIFE 120L FUNDAMENTALS OF BIOLOGY I

CHEM 1180 (3 cr) and CHEM 1184 (1 cr) or UNL CHEM 109 or CHEM 111 or CHEM 113

PHYS 2130 (4 cr) or UNL PHYS 213

Environmental Engineering, Bachelor of Science

The Department of Civil and Environmental Engineering offers a complete environmental engineering undergraduate program to students on the Lincoln and Omaha campuses of the University of Nebraska. Curriculum requirements are nearly identical on both campuses. The goal is to prepare students for entry into the environmental engineering profession immediately after graduation or to pursue graduate-level studies.

The general educational objectives of the University of Nebraska–Lincoln environmental engineering undergraduate program are to prepare our graduates so that, with a UNL BS ENVE degree, a few years beyond graduation, alumni will:

- Be employed in environmental engineering or a closely related field and successfully pursue professional licensure; or, graduates will be pursuing an advanced degree in environmental engineering, a closely related field or professional education in engineering, medicine, business, or law.
- Contribute to society and address societal and environmental needs through engagement in professional, community, or service organizations.
- Agree that the environmental engineering program prepared them for success in their careers in terms of knowledge and skillsets as embodied in the program and the Complete Engineer™ Initiative.

The professional discipline of environmental engineering is defined as the application of engineering principles to improve and maintain the environment for the protection of human health, for the protection of nature's beneficial ecosystems, and for environment-related enhancement of the quality of human life. In all professional endeavors, the environmental engineer must consider ecological effects as well as the social, economic, and political needs of people.

The environmental engineer devises solutions for topics ranging from water and air pollution control and treatment, drinking water supply, wastewater management, solid waste management, public health, water resources management, sustainable design, and industrial ecology. Environmental engineers focus on minimizing the impacts of air, water, and land pollution, minimizing waste production, maximizing the use of renewable energy in environmental systems, and protecting the environment.

Instructional emphasis is placed on fundamental engineering principles derived from mathematics, chemistry, physics, biology, earth science, and engineering science. These subjects provide a sound background for the subsequent introductory courses in environmental engineering, water resources engineering, fate and transport, process design, and sustainable design. Students are introduced to design concepts in the freshman year. Design is incorporated throughout the curriculum that culminates in two senior-level courses, CIVE 385 Professional Practice and Management in Civil Engineering and CIVE 489 Senior Design Project.

Instructional laboratories in that provide experiences with more than one media (water, soil, and air) in environmental engineering provide each student with an opportunity to learn, through individual participation.

Professional Admission to Environmental Engineering
Criteria for Professional Admission to the Environmental Engineering Degree Program

Pre-professionally admitted College of Engineering students majoring in environmental engineering must have their academic records reviewed for professional admission to the environmental engineering degree program during the fall, spring or summer immediately following the term in which:

- At least 12 credits (one semester) have been completed after admission to the College of Engineering;
- At least 43 credits applicable to the degree have been earned; and
- PHYS 2110 General Physics I, MECH 223 Engineering Statics, and MECH 325 Mechanics of Elastic Bodies or MECH 373 Engineering Dynamics have been completed.

Additionally, the student can have no more than two declined professional admission requests to other engineering majors. It is likely a student may need to complete four full semesters of credits applying to the program before these requirements are able to be completed.

Professional admission approval to the environmental engineering degree program also requires that all of the following departmental-specific criteria must be met:

- Earn a C letter grade or better in PHYS 2110, MECH 223, and MECH 373 or MECH 325
- Earn a cumulative grade point average of 2.4 or greater; and
- Earn a C letter grade or better in ALL math, science and engineering courses required for the bachelor of science in environmental engineering degree if the cumulative grade point average is less than 2.700.

Students approved for professional admission to the program are then allowed to take 400-level civil & environmental engineering courses to complete their degree.

Requirements
(City Campus in Lincoln and Scott Campus in Omaha)

This document represents a SAMPLE 4-year plan for degree completion with this major. Actual course selection and sequence may vary and should be discussed individually with your college or department academic advisor. Advisors also can help you plan other experiences to enrich your undergraduate education such as internships, education abroad, undergraduate research, learning communities, and service learning and community-based learning.

Students must have completed the equivalent of the fourth semester before admission to the environmental engineering program. Transfer students must have all transfer hours accepted before being considered for the degree program.

Course	Title	Credits
First Semester		
ENVE 101	INTRODUCTION TO ENVIRONMENTAL ENGINEERING	3
CHEM 1180	GENERAL CHEMISTRY I	3

CHEM 1180 & CHEM 1184	GENERAL CHEMISTRY I and GENERAL CHEMISTRY I LABORATORY	4
CHEM 1190	GENERAL CHEMISTRY II	3

CHEM 2210 & CHEM 2214	FUNDAMENTALS OF ORGANIC CHEMISTRY and FUNDAMENTALS OF ORGANIC CHEMISTRY LABORATORY (The 1 credit for CHEM 2214 can be used as a Technical Elective.)	5
BIOL 1020	PRINCIPLES OF BIOLOGY	4
GEOL 1010	ENVIRONMENTAL GEOLOGY	3
or GEOL 1170	INTRODUCTION TO PHYSICAL GEOLOGY	
PHYS 2110	GENERAL PHYSICS I - CALCULUS LEVEL	4
Credit Hours Subtotal		22
MATHEMATICS		
MATH 1950	CALCULUS I	5
MATH 1960	CALCULUS II	4
MATH 1970	CALCULUS III	4
MATH 2350	DIFFERENTIAL EQUATIONS	3
STAT 3800	APPLIED ENGINEERING PROBABILITY AND STATISTICS	3
Credit Hours Subtotal		19
ACE REQUIREMENTS		
ACE 1: Writing		3
Choose from the list of approved ACE 1 courses ¹		
ACE 2: Communication Skills		3
Choose from the list of approved ACE 2 courses ¹		
ACE 3: Math/Stat Reasoning		
This requirement is satisfied by MATH 1950, MATH 1960, MATH 1970, MATH 2350, or STAT 3800		
ACE 4: Science		
This requirement is satisfied by CHEM 1180, CHEM 1190, PHYS 2110, BIOL 1020, GEOL 1010, or GEOL 1170		
ACE 5: Humanities		3
Choose from the list of approved ACE 5 courses ¹		
ACE 6: Social Sciences		3
Choose from the list of approved ACE 6 courses ¹		
ACE 7: Arts		3
Choose from the list of approved ACE 7 courses ¹		
ACE 8: Ethics		
Choose from the list of approved ACE 8 courses ¹		
ACE 9: Global Awareness and Human Diversity		3
Choose from the list of approved ACE 9 courses ¹		
ACE 10: Capstone Experience		
This requirement is satisfied by ENVE 402		
Credit Hours Subtotal:		21
Total Credit Hours		125

¹ A list of approved ACE courses offered on the Omaha campus can be found here (https://tes.collegesource.com/publicview/TES_publicview03_group_report.aspx?sid=12214&rid=1d4a5187-e01b-4f1f-aaa6-b0040e957167&aid=e4ff42df-9ddc-4416-a5dd-18e971d1c0e4&cgrid=5508).

ENVE 101 INTRODUCTION TO ENVIRONMENTAL ENGINEERING (3 credits)

Introduction to engineering design process through hands-on projects supported by instruction of underlying engineering science and fundamentals, model development, and the required tools. Be exposed to environmental engineering to know what it means to be an environmental engineer and an introduction to environmental engineering profession with focus on ethics.

ENVE 210 FUNDAMENTALS OF ENVIRONMENTAL ENGINEERING (3 credits)

Introduction to material and energy balances on environmental systems involving physical, chemical, and biological processes. Primary focus on single phase systems.

Prerequisite(s): CHEM 1180 with a C or better, and MATH 1950 with a C or better

ENVE 322 BIOLOGICAL PRINCIPLES OF ENVIRONMENTAL ENGINEERING (2 credits)

Introduction to the basics of microbes in the environment, including basic microbiological concepts, microbial environment, detection/enumeration/identification of microbes, microbial interactions with environment, microbial remediation of pollutants, waterborne pathogens, and wastewater treatment and disinfection.

Prerequisite(s): CIVE 321

ENVE 401 ENVIRONMENTAL ENGINEERING DESIGN I (3 credits)

Practical application of the engineering design process in a team project focused on an authentic and comprehensive environmental engineering design project.

Prerequisite(s): CIVE 321, ENVE 322, CIVE 352

ENVE 402 ENVIRONMENTAL ENGINEERING DESIGN II (3 credits)

Practical application of the engineering design process in a team project focused on an authentic and comprehensive environmental engineering design project.

Prerequisite(s): ENVE 401

ENVE 410 ENVIRONMENTAL FATE AND TRANSPORT (3 credits)

Covers fate and transport principles, such as interphase chemical equilibrium, the formulation and application of the advection-diffusion equation, and their specific environmental engineering applications.

Prerequisite(s): CIVE 310 or CHME 332; ENVE 210 or CHME 202; and CIVE 321

ENVE 430 SUSTAINABLE DESIGN IN ENVIRONMENTAL ENGINEERING (3 credits)

Introduction to sustainability concepts and sustainable engineering design processes for environmental engineers such as life cycle assessment, multi-criteria decision analysis, and analysis of renewable energy systems.

Prerequisite(s): CIVE 321; Co-requisite STAT 3800

ENVE 898 SPECIAL PROBLEMS IN ENVIRONMENTAL ENGINEERING (1-6 credits)

Special research-oriented problems in current topics in environmental engineering.

Prerequisite(s): Permission.

ENVE 899 MASTER'S THESIS (1-10 credits)

Master's thesis work

ENVE 990 SEMINAR IN ENVIRONMENTAL ENGINEERING (1 credit)

Presentation and discussion of current research topics and projects in environmental engineering and closely allied areas.

Prerequisite(s): Permission. Not open to non-degree graduate students.

ENVE 998 SPECIAL TOPICS IN ENVIRONMENTAL ENGINEERING (1-6 credits)

Independent library and/or experimental research, analysis, evaluation and presentation of current and advanced topics in environmental engineering and closely related areas.

Prerequisite(s): Permission.

Engineering Leadership Minor

Description

Overview and Purpose

Open to College of Engineering students only.

The engineering leadership minor provides College of Engineering students an opportunity to focus on building leadership, management, teamwork and interpersonal skills needed to solve many of our societal challenges. Courses provide developmental skills with experiential learning to enhance personal growth, improve practice, and provide frameworks for continued application of concepts in these areas. Courses explore strategies and skills for effective leadership in the engineering profession, and the working world, and for building relationships.

The minor includes leadership courses led by faculty in the College of Engineering and faculty in the Department of Agricultural Leadership, Education and Communication.

The minor contributes to the National Academy of Engineers call to expose engineering students to formal studies of leadership development (NAE, 2004) and the College of Engineering's mission to graduate "Complete Engineers." The leadership minor provides the framework around the technical skills and coursework to achieve the ABET Outcomes:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. an ability to communicate effectively with a range of audiences.
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Admission

Open to students in the College of Engineering only.

College Requirements

College Admission

College Entrance Requirements

Students must have high school credit for (one unit is equal to one high school year):

1. Mathematics – 4 units: 2 of algebra, 1 of geometry, and 1 of precalculus and trigonometry
2. English – 4 units
3. Natural sciences – 3 units that must include 1 unit of physics and 1 unit of chemistry (chemistry requirement waived for students in construction management or computer science)
4. Foreign language – 2 units of a single foreign language
5. Social studies – 3 units
6. Students having a composite ACT score of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack any one of the following: trigonometry, chemistry, or physics. Students without test scores who are missing a full unit of trigonometry/pre-calculus/calculus or chemistry or physics will be evaluated through College Review.

A total of 16 units is required for admission.

Engineering requires that student performance meet one of the following standards: composite ACT of 24, SAT of 1180, ACT Math subscore of 24, SAT Math subscore of 580, or a 3.5 cumulative GPA.

Any domestic first-year student who does not gain admission to Engineering but does gain admission to the University of Nebraska-Lincoln (UNL) will be reviewed through College Review. College Review is conducted through the College Review Committee which considers factors beyond standardized testing. Any first-year student who is not admitted through college review is placed in Pre-Engineering (PENG) with the Exploratory and Pre-Professional Advising Center (Explore Center). Students in the Explore Center can transfer to the College of Engineering once college admission requirements are met.

Students for whom English is not their language of nurture must meet the minimum English proficiency requirements of the University.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska-Lincoln Office of On-line and Distance Education, in summer courses, or as a part of their first or second semester course loads while in the Explore Center or other colleges at UNL.

Students should consult their advisor, their department chair, or Engineering Student Services (ESS) if they have questions on current policies.

Other Admission Requirements

Students who transfer to the University of Nebraska-Lincoln from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE first-year student entrance requirements, have a minimum cumulative GPA of 2.5, and be calculus-ready. Students not meeting either of these requirements must enroll in the Explore Center or another University college until they meet COE admission requirements. Students transferring from UNO, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska-Lincoln accepts D grades from the University of Nebraska Kearney and the University of Nebraska Omaha, not all majors in the COE accept such low grades. Students must conform to the requirements of their intended major and, in any case, are strongly encouraged to repeat courses with a grade of C- or less.

Students who were previously admitted to COE and are returning to the College of Engineering must demonstrate a cumulative GPA of 2.5 to be readmitted to COE.

College Degree Requirements

Grade Rules

Grade Appeals

In the event of a dispute involving any college policies or grades, the student should appeal to their instructor, and appropriate department chair or school director (in that order). If a satisfactory solution is not achieved, the student may appeal their case through the College Academic Appeals Subcommittee.

Catalog Rule

Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted at the University of Nebraska-Lincoln. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled as a degree-seeking student at Nebraska in the College of Engineering. Students must complete all degree requirements from a single catalog year. The catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Students who have transferred from a community college may be eligible to fulfill the requirements as stated in the catalog for an academic year in which they were enrolled at the community college prior to attending the University of Nebraska-Lincoln.[#] This decision should be made in consultation with the student's College of Engineering academic advising team (e.g., ESS professional advisor and the chief faculty advisor for the student's declared degree program).[#] The chief faculty advisor has the final authority for this decision. Eligibility is based on a) enrollment in a community college during the catalog year the student wishes to utilize, b) maintaining continuous enrollment of at least 12 credit hours per semester at the previous institution for at least 2 semesters, and c) continuous enrollment at the University of Nebraska-Lincoln within 1 calendar year from the student's last term at the previous institution. [#] Students must complete all degree requirements from a single catalog year and within the timeframe allowable for that catalog year.

Requirements

The engineering leadership minor is an interdisciplinary program; providing course offerings through the College of Engineering (COE) and the Department of Agricultural Leadership, Education and Communication (ALEC) at the University of Nebraska - Lincoln (UNL). To successfully complete the minor, students are required to complete 18 credit hours in leadership and professional development; 9 of which come from engineering leadership and management courses. Many of the ALEC courses are available as online courses. All ALEC courses are taught at the UNL.

Courses

Code	Title	Credits
ENGR Leadership & Management Courses (9 credit hours required)		
ENGR 100	INTERPERSONAL SKILLS FOR ENGINEERING LEADERS (ACE 2)	3
ENGR 200	PROFESSIONALISM & GLOBAL PERSPECTIVE (ACE 6 & 9)	3
ENGR 320	LEADERSHIP, MANAGEMENT, AND ETHICS	3
Leadership Courses (9 credit hours required)		9
Select one or two theory-based courses from the following:		
ALEC 202	FOUNDATION OF LEADERSHIP THEORY & PRACTICE	
ALEC 302	DYNAMICS OF EFFECTIVE LEADERSHIP IN ORGANIZATIONS	
ALEC 455	DYNAMICS OF EFFECTIVE LEADERSHIP IN GROUPS & TEAMS ¹	
ALEC 477	LEADERSHIP & MOTIVATION	
Select one or two application courses from the following:		
ALEC 407	SUPERVISORY LEADERSHIP	
ALEC 410	ENVIRONMENTAL LEADERSHIP ¹	
ALEC 422	FACILITATION & PROJECT PLANNING ¹	
ALEC 466	LEADERSHIP & DIVERSITY IN ORGANIZATIONS & COMMUNITIES ¹	
Experiential Learning in Leadership (0-3 cr hrs)		
ALEC 337	INSTRUCTIONAL INTERNSHIP IN LEADERSHIP DEVELOPMENT ²	
Total Credits		18

¹ Note that junior standing is required for these courses.

² Credit received for being an undergraduate teaching assistant at the selection of the instructor.

Additional Minor Requirements

All courses must be completed with a Pass, or grade of C or higher.

Up to 6 credit hours may be taken as Pass/No Pass.

ENGR 10 FRESHMAN ENGINEERING SEMINAR (0 credits)

Overview of the engineering field as well as major specific information. Information will be provided to help with transitional needs to UNL and the College of Engineering (time management, study skills, and resources), involvement opportunities (student organizations, research, and study abroad), learning about engineering, and interactive learning to increase non-technical complete engineer competencies. Open only to first-year students considering or admitted to the College of Engineering.

Prerequisite(s): First year College of Engineering students. Not open to non-degree graduate students.

ENGR 15 SPATIAL VISUALIZATION TRAINING (0 credits)

Develop and improve spatial visualization skills.

ENGR 20 SOPHOMORE ENGINEERING SEMINAR (0 credits)

Overview of career opportunities in engineering and construction management. Emphasizes internships, cooperative education and career placement.

Prerequisite(s): Not open to non-degree graduate students.

ENGR 30 TRANSFER STUDENT ENGINEERING SEMINAR (0 credits)

ENGR 30 is open only to students transferring to the College of Engineering from another institution. Overview of transfer credit analysis, degree audits, career opportunities in engineering and construction management. Emphasis on internships, cooperative education, and career placement.

Prerequisite(s): Not open to non-degree graduate students.

ENGR 100 INTERPERSONAL SKILLS FOR ENGINEERING LEADERS (3 credits)

Establishes a foundation in communication and leadership skills that is needed for engineering students to be successful in their academic endeavors and future career opportunities. Introduction to the principles and practices of positive interpersonal relationships for leadership development. Self-awareness, awareness of others, effective interpersonal communication, and the building of trust relationships as a basis for understanding and developing leadership.

Prerequisite(s): Not open to non-degree graduate students.

ENGR 101 INTRODUCTION TO ENGINEERING (3 credits)

Students will examine relevant and practical industrial and commercial engineering applications to gain necessary engineering skills that will help them succeed as a student as well as a professional engineer. A variety of engineering disciplines will be highlighted and discussed, as well as topics in the underlying physical, chemical, and biological scientific principles and processes related to each topic. The class will use a specified focus area that involves real world applications to aid in the conceptualization and learning of the course material. Students will develop engineering problem solving skills; gain expertise and experience using modern engineering and computational tools; and emulate an engineering team atmosphere - each of which can be applied to a profession engineering environment.

ENGR 191 FRESHMAN ENGINEERING SPECIAL TOPICS (1-3 credits)

Topics vary.

ENGR 200 PROFESSIONALISM & GLOBAL PERSPECTIVE (3 credits)

Enhance essential professional skills for personal and team success through investigating issues in a global context. Explore in-demand professional aptitudes (self-awareness, emotional intelligence, teamwork, communication, and workplace interaction expectations). Through industry/community interaction, explore cultural and business norms and the application of broader perspectives to identify issues/solutions responsive and adaptive to their global context.

ENGR 220 TECHNICAL COMMUNICATION I (3 credits)

Introduction to written and oral communication and document design principles and strategies as applied in the sciences and technology. Communications for various audiences and/or purposes and/or situations.

ENGR 250 ENGINEERING COOPERATIVE EDUCATION (1-12 credits)

Cooperative education work in a regularly established cooperative education work-study program in any engineering curriculum. Special approval is required to take course for credit hours. C/N only.

Prerequisite(s): Sophomore standing; permission of College of Engineering Dean's Office and department chair of student's engineering major. All engineering students participating in cooperative education must register each term prior to commencing work.

ENGR 291 SOPHOMORE ENGINEERING SPECIAL TOPICS (1-3 credits)

Topics vary.

ENGR 300 CREATIVITY AND WRITING FOR ENGINEERS (3 credits)

Writing technical engineering reports; creative thinking and brainstorming applied to a real engineering problem with individual solutions submitted in report form.

Prerequisite(s): ENGL 1160 and Sophomore

ENGR 301 INTRODUCTION TO NUCLEAR AND RADIATION ENGINEERING CONCEPTS (1 credit)

History of nuclear development, basic concepts of radiation and radioactivity, radioactive waste management, global warming, and the impact of nuclear power plants. Industrial applications, health, and nuclear medicine. Job opportunities at power plants, graduate school, and national laboratories. Tour of the University of Texas nuclear research reactor and demonstration experiments. (Requires off-campus travel.)

Prerequisite(s): Not open to nondegree students

ENGR 310 UTILIZATION OF NUCLEAR TECHNOLOGIES IN SOCIETY (3 credits)

The applications of nuclear science to society and the fundamental radiation principles utilized in these applications.

Prerequisite(s): Not open to non-degree graduate students.

ENGR 320 LEADERSHIP, MANAGEMENT, AND ETHICS (3 credits)

Explore professional leadership, ethics, project management tools and skills, and how to successfully implement and respond to change. In a team based environment, enhance essential professional skills for personal and team success by developing and presenting a responsive proposal considering: client needs, basic project controls and scheduling. Learn about personal styles, motivation and effectively implementing change. Examine ethical dilemmas regarding principles, stewardship, and civics from ethical, legal, and expediency perspectives.

Prerequisite(s): Not open to non-degree graduate students.

ENGR 350 ENGINEERING COOPERATIVE EDUCATION (0-12 credits)

Cooperative education work in a regularly established cooperative education work-study program in any engineering curriculum. Special approval is required to take course for credit hours. C/N only.

Prerequisite(s): Junior standing; permission of College of Engineering Dean's Office and department chair of student's engineering major. All engineering students participating in cooperative education must register each term prior to commencing work.

ENGR 391 JUNIOR ENGINEERING SPECIAL TOPICS (1-3 credits)

Topics vary

ENGR 395 ENGINEERING INTERNSHIP (0-1 credits)

Provides an opportunity to reflect on experience gained through an internship related to the major field of study and an integral or important part of their program of study. Develop non-technical professional skills through reflective writing assignments. May be repeated.

Prerequisite(s): Undergraduate major in the College of Engineering; sophomore standing; permission from instructor.

ENGR 400 PROFESSIONAL ETHICS AND SOCIAL RESPONSIBILITY (1 credit)

Discussions on professionalism and ethics of engineering practice; problems encountered by new graduates.

Prerequisite(s): Senior

ENGR 402 ENERGY SYSTEMS AND RESOURCES (3 credits)

Energy as a critical component of civilization. The critical role of energy from the economic and political point of view world wide. Energy resources available, the technology to use the resources, the economics of energy production, the environmental consequences of energy use, and energy policy.

Prerequisite(s): ENGR 301, not open to nondegree students

ENGR 410 RADIATION PROTECTION AND SHIELDING (3 credits)

Basic principles and concepts of radiation protection and shield design. Dosi-metric units and response functions, hazards of radiation doses, radiation sources, basic methods for dose evaluation, and shielding design techniques for photons and neutrons.

Prerequisite(s): MECH 4010 or ENGR 421

ENGR 411 NUCLEAR REACTOR THEORY (3 credits)

Introduction to neutron diffusion theory, neutron moderation, neutron thermalization, and criticality condition of nuclear reactor.

Prerequisite(s): ENGR 310. Not open to non-degree graduate students.

ENGR 412 NUCLEAR REACTOR ANALYSIS (3 credits)

Group diffusion method, multiregional reactors, heterogeneous reactors, reactor kinetics, and change in reactivity.

Prerequisite(s): ENGR 411. Not open to non-degree graduate students.

ENGR 420 NUCLEAR REACTOR ENGINEERING (3 credits)

The physics governing nuclear reactors and the design principles for commercial nuclear power plants. Reactor designs currently operating in the power industry.

ENGR 450 ENGINEERING COOPERATIVE EDUCATION (0-12 credits)

Cooperative education work in a regularly established cooperative education work-study program in any engineering curriculum. Special approval is required to take course for credit hours. C/N only.

Prerequisite(s): Senior standing; permission of College of Engineering Dean's Office and department chair of student's engineering major. All engineering students participating in cooperative education must register each term prior to commencing work.

ENGR 460 PACKAGING ENGINEERING (3 credits)

Investigation of packaging processes, materials, equipment and design. Container design, material handling, storage, packing and environmental regulations, and material selection.

Prerequisite(s): CONE 206; MECH 3210; MECH 3730

ENGR 461 RFID SYSTEMS IN THE SUPPLY CHAIN (3 credits)

Foundations of Radio Frequency Identification Systems (RFID). The fundamentals of how RFID components of tag, transponder, and antennae are utilized to create RFID systems. Best practices for implementation of RFID systems in common supply operations.

ENGR 469 TECHNOLOGY, SCIENCE AND CIVILIZATION (3 credits)

(Lect 2 Dis. 2) This course studies the development of technology as a trigger of change upon humankind, from the earliest tools of Homo Habilis to the advent of the radio telescope in exploring the creation of the universe. The course traces the paths from early science to development of the sciences and technologies that will dominate the new millennium. (869 is for non SET students.) (Cross-listed with ENGR 869).

Prerequisite(s): Senior or permission.

ENGR 481 SUPPLY CHAIN OPTIMIZATION (3 credits)

Foundations of supply chain network modeling. The concepts that support the economic and service trade-offs in supply chain and logistics management. Using decision support system (DSS) to design optimal logistics network models given data requirements and operational parameters. Using leading software packages to model problems arising in strategic management of logistics networks.

ENGR 483 LOGISTICS IN THE SUPPLY CHAIN (3 credits)

The process of planning, implementing and controlling the efficient, effective flow and storage of goods, services and related information from the point of origin to the point of consumption. Domestic transportation systems, distribution centers and warehousing, international logistics, logistic system controls, and reengineering logistics systems.

ENGR 490 GLOBAL EXPERIENCES IN ENGINEERING (1-3 credits)

Individual or group educational experience combining classroom lectures, discussions, and/or seminars with field and/or classroom studies in a foreign country. Choice of subject matter and coordination of on- and off-campus activities are at the discretion of the instructor.

ENGR 491 SENIOR ENGINEERING SPECIAL TOPICS (1-3 credits)

Topics vary.

ENGR 4070 PROJECT MANAGEMENT (3 credits)

Project development, role of the project manager, project selection, project planning, budgeting and cost estimation, project scheduling, and project termination.

Environmental Engineering Minor

Grade Rules C- and D Grades

All courses must be completed with a grade of D- or higher.

Pass/No Pass Limits

No course taken Pass/No Pass will be counted toward the minor.

Code	Title	Credits
Required Courses		9
CIVE 321	PRINCIPLES OF ENVIRONMENTAL ENGINEERING	
CIVE 351	INTRODUCTION TO WATER RESOURCES ENGINEERING

International Engineering Minor

Description

This minor is for engineering majors ONLY.

This minor is designed to encourage and recognize undergraduate students who enhance their engineering education with courses and experiences consistent with the global nature of engineering and the economy.

The College of Engineering enables its students to participate in this approved minor subject to the following conditions:

1. A minor will not reduce or alter the existing course or degree requirements for students electing to pursue a minor.
2. A student's minor program must be organized and approved by an advisor prior to the submission of the senior check to the department chair or head.
3. The minor must be approved by the advisor, the department chair or head, the Dean, and the cognizant program offering the minor.
4. The College of Engineering will follow the "Plan A/B" format of the UNL College of Arts and Sciences in which a student pursuing a single minor must complete the "Plan A" requirements. A student pursuing a double (or greater) minor must fulfill either the "Plan A" or "Plan B" requirements for both minors depending on which plan is offered by the cognizant department.

College Requirements

College Admission

College Entrance Requirements

Students must have high school credit for (one unit is equal to one high school year):

1. Mathematics – 4 units: 2 of algebra, 1 of geometry, and 1 of precalculus and trigonometry
2. English – 4 units
3. Natural sciences – 3 units that must include 1 unit of physics and 1 unit of chemistry (chemistry requirement waived for students in construction management or computer science)
4. Foreign language – 2 units of a single foreign language
5. Social studies – 3 units
6. Students having a composite ACT score of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack any one of the following: trigonometry, chemistry, or

physics. Students without test scores who are missing a full unit of trigonometry/pre-calculus/calculus or chemistry or physics will be evaluated through College Review.

A total of 16 units is required for admission.

Engineering requires that student performance meet one of the following standards: composite ACT of 24, SAT of 1180, ACT Math subscore of 24, SAT Math subscore of 580, or a 3.5 cumulative GPA.

Any domestic first-year student who does not gain admission to Engineering but does gain admission to the University of Nebraska-Lincoln (UNL) will be reviewed through College Review. College Review is conducted through the College Review Committee which considers factors beyond standardized testing. Any first-year student who is not admitted through college review is placed in Pre-Engineering (PENG) with the Exploratory and Pre-Professional Advising Center (Explore Center). Students in the Explore Center can transfer to the College of Engineering once college admission requirements are met.

Students for whom English is not their language of nurture must meet the minimum English proficiency requirements of the University.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska-Lincoln Office of On-line and Distance Education, in summer courses, or as a part of their first or second semester course loads while in the Explore Center or other colleges at UNL.

Students should consult their advisor, their department chair, or Engineering Student Services (ESS) if they have questions on current policies.

Other Admission Requirements

Students who transfer to the University of Nebraska-Lincoln from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE first-year student entrance requirements, have a minimum cumulative GPA of 2.5, and be calculus-ready. Students not meeting either of these requirements must enroll in the Explore Center or another University college until they meet COE admission requirements. Students transferring from UNO, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska-Lincoln accepts D grades from the University of Nebraska Kearney and the University of Nebraska Omaha, not all majors in the COE accept such low grades. Students must conform to the requirements of their intended major and, in any case, are strongly encouraged to repeat courses with a grade of C- or less.

Students who were previously admitted to COE and are returning to the College of Engineering must demonstrate a cumulative GPA of 2.5 to be readmitted to COE.

College Degree Requirements

Grade Rules

Grade Appeals

In the event of a dispute involving any college policies or grades, the student should appeal to their instructor, and appropriate department chair or school director (in that order). If a satisfactory solution is not achieved, the student may appeal their case through the College Academic Appeals Subcommittee.

Catalog Rule

Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted at the University of Nebraska-Lincoln. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled

as a degree-seeking student at Nebraska in the College of Engineering. Students must complete all degree requirements from a single catalog year. The catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Students who have transferred from a community college may be eligible to fulfill the requirements as stated in the catalog for an academic year in which they were enrolled at the community college prior to attending the University of Nebraska-Lincoln.[#] This decision should be made in consultation with the student's College of Engineering academic advising team (e.g., ESS professional advisor and the chief faculty advisor for the student's declared degree program).[#] The chief faculty advisor has the final authority for this decision. Eligibility is based on a) enrollment in a community college during the catalog year the student wishes to utilize, b) maintaining continuous enrollment of at least 12 credit hours per semester at the previous institution for at least 2 semesters, and c) continuous enrollment at the University of Nebraska-Lincoln within 1 calendar year from the student's last term at the previous institution. [#] Students must complete all degree requirements from a single catalog year and within the timeframe allowable for that catalog year.

Requirements for Minor Offered by Department

Plan A (18 credits)

1. Twelve (12) credit hours of courses in international engineering and internationally related courses.
 - a. A minimum of 3 credit hours must be ENGR 490 (<https://nextcatalog.unl.edu/search/?P=ENGR%20490>) Global Experiences or a 3-credit education abroad course from another University of Nebraska–Lincoln college (such as AGRI 310 (<https://nextcatalog.unl.edu/search/?P=AGRI%20310>) Study Tours in International Agriculture or BSAD 491 (<https://nextcatalog.unl.edu/search/?P=BSAD%20491>) International Studies in Business and Economics) or from another university. Substitution for ENGR 490 (<https://nextcatalog.unl.edu/search/?P=ENGR%20490>) with related COE courses, participation in a study abroad experience, or courses from another college or university must be pre-approved by the Engineering Student Services office. International students should meet this requirement in countries other than their own or the U.S.
 - b. At least one of the following internationally-related economics, development, leadership, marketing, or trade courses:
 - i.

Code	Title	Credits
AECN 346	World Food Economics ¹	3
AECN 367	Agricultural Development in Developing Countries ¹	3
AECN 420	International Food and Agricultural Trade ¹	3
ECON 3600	INTRODUCTION TO INTERNATIONAL ECONOMICS	3
MGMT 414	International Management ¹	3

¹ This course is offered at UNL. Complete an Intercampus Application to enroll in this course through UNL.

1. a.
2. A maximum of 3 credits from special problems (projects) or honors thesis-type courses (e.g., departmental 3900, 3960, 3980, 3990, 4910, 4980, 4990 courses) may be used toward the 12-credit requirement.

3. Elective courses to complete the 12-credit requirement must be chosen from the list of courses maintained by the College of Engineering Student Services office.
4. A minimum of 3 credit hours, not including (a) through (c) above, must be in 2000-level courses or above.
5. A maximum of 6 credit hours may be taken Credit/No Credit.
6. Six (6) credit hours of modern language consisting of at least two courses. Entry-level modern language courses (such as the 5-credit 1010 and 1020 courses at the University of Nebraska Omaha) that are used to remove a University of Nebraska–Lincoln entrance deficiency in modern languages may not be used to satisfy this requirement. International students may not use modern language courses of origin in their native (first) language. Where modern language courses exceed 3 credits, a maximum of 3 total credits each will apply to the Plan A minor. These courses may not be taken Credit/No Credit.

Plan B (12 credits)

1. Nine (9) credit hours of courses in international engineering and internationally related courses.
 - a. A minimum of 3 credit hours must be ENGR 490 (<https://nextcatalog.unl.edu/search/?P=ENGR%20490>) Global Experiences or a 3-credit education abroad course from another University of Nebraska college (such as AGRI 310 (<https://nextcatalog.unl.edu/search/?P=AGRI%20310>) Study Tours in International Agriculture or BSAD 491 (<https://nextcatalog.unl.edu/search/?P=BSAD%20491>) International Studies in Business and Economics) or from another university. Substitution for ENGR 490 (<https://nextcatalog.unl.edu/search/?P=ENGR%20490>) with related COE courses, participation in a study abroad experience, or courses from another college or university must be pre-approved by the Engineering Student Services office. International students should meet this requirement in countries other than their own or the U.S.
 - b. At least one of the following internationally related economics, development, leadership, marketing, or trade courses:
 - i.

1. Code	Title	Credits
AECN 346	World Food Economics ¹	3
AECN 367	Agricultural Development in Developing Countries ¹	3
AECN 420	International Food and Agricultural Trade ¹	3
AECN 425	Agricultural Marketing in a Multinational Environment ¹	3
ECON 3600	INTRODUCTION TO INTERNATIONAL ECONOMICS	3
MGNT 414	International Management ¹	3

1. ¹ This course is offered at UNL. Complete an Intercampus Application to enroll in this course through UNL.

1. a. i.
- b. A maximum of 3 credits from special problems (projects) or honors thesis type courses (e.g., departmental 3900, 3960, 3980, 3990, 4910, 4980, 4990 courses) may be used toward the 9 credit requirement.
- c. Elective courses to complete the 9-credit requirement must be chosen from the list of courses maintained by the College of Engineering Student Services office.

- d. A minimum of 3 credit hours, not including (a) through (c) above, must be in 2000-level courses or above.
 - e. A maximum of 6 credit hours may be taken Credit/No Credit.
2. Three (3) credit hours of modern language coursework. Entry-level modern language courses (such as the 5-credit 1010 and 1020 courses at the University of Nebraska) that are used to remove a University of Nebraska–Lincoln entrance deficiency in modern languages may not be used to satisfy this requirement. International students may not use modern language courses of origin in their native (first) language. Where modern language courses exceed 3 credits, a maximum of 3 total credits each will apply to the Plan B minor. This course may not be taken Credit/No Credit.

Pre-Engineering

Two years of course work applicable to Bachelor of Science degrees in Agricultural Engineering, Biological Systems Engineering, and Mechanical Engineering are provided on the Scott Campus in Omaha.

The courses listed under each pre-engineering program are similar in content to equivalent courses at the University of Nebraska-Lincoln, allowing for maximum transferability of credit.

Students should select courses at UNO that meet degree requirements as stated in the Catalog of the institution to which they plan to transfer.

For more information, please call 402.554.3562

Programs Offered

- Pre-Agricultural Engineering (p. 803)
- Pre-Biological Systems Engineering (p. 804)
- Pre-Mechanical Engineering (p. 804)

Pre-Agricultural Engineering

Agricultural engineering (AGEN) is one of two engineering degree programs offered in the Department of Biological Systems Engineering at UNL. AGEN students emphasize coursework in one of three engineering areas: machine design, test, or soil and water resources. Thus, some agricultural engineers are involved in the analysis and design of field machinery systems and machine components through study of the principles of mechanical design, joining techniques, hydraulics, controls, ergonomics, and safety. Others are evaluating machine or mechanical system functional performance based on study of test procedure standards, measurements, data acquisition, electronic communication and statistics, and practical experience gained at the Nebraska Tractor Test Laboratory. Still others are analyzing and designing soil and water management-related infrastructure as aided through study of irrigation, drainage, erosion and runoff control techniques, crop tillage and cultivation practices, and natural resources management. Job opportunities for graduates are available in industry, public agencies, consulting, and private practice.

Students choosing the pre-agricultural engineering program on the Scott Campus in Omaha should be aware that there are five courses in the first two years (AGEN 100, AGEN 112, AGEN 225, AGEN 260, and MSYM 232); 12 total credit hours) for which there are no equivalents on the Scott Campus. AGEN 100 will be waived for students in the pre-agricultural engineering program who transfer to Lincoln to complete their degree program. This waiver doesn't reduce the minimum number of required credits to earn the degree.

Requirements

Course	Title	Credits
First Year		
First Semester		
MATH 1950	CALCULUS I	5
CHEM 1180	GENERAL CHEMISTRY I	3
CHEM 1184	GENERAL CHEMISTRY I LABORATORY	1

Other courses available:

Code	Title	Credits
BIOL 1020	PRINCIPLES OF BIOLOGY	4
CIVE 310	FLUID MECHANICS	3
STAT 3800	APPLIED ENGINEERING PROBABILITY AND STATISTICS	3
ACE Elective ¹		3

¹ Ace elective: Selected from ACE elective (SLO 5, 6, 7, or 9) list.

² ENGL 3980: EPPE sophomore level placement or successful completion of ENGL 1160/ENGL 1164 required.

Pre-Biological Systems Engineering

Biological Systems Engineering (BSEN) brings engineering to life by working with living systems and applying engineering, biology, and mathematics to improve lives and our world. Biological systems engineers are trained to solve problems in biomedical engineering, environmental and water resources engineering, and food and bioprocess engineering. Students who choose pre-biological systems engineering on the Scott Campus in Omaha, should be aware that there are three courses in the first two years (BSEN 100, BSEN 112, BSEN 225; six total credit hours) for which there are no equivalents on the Scott Campus. BSEN 100 will be waived for students in the pre-biological systems engineering program who transfer to Lincoln to complete their degree program. This waiver doesn't reduce the minimum number of required credits to earn the degree.

Total Credits		63

¹ ACE electives: Selected from ACE elective (SLO 5 through 9) list.

² BIOL 1450: Four of the five hours can be used in BSEN.

³ CHEM 2210: Three of the four hours can be used in BSEN.

Other courses that can be used to meet BSEN requirements:

Code	Title	Credits
CIVE 310	FLUID MECHANICS	3
MECH 200	ENGINEERING THERMODYNAMICS	3
STAT 3800	APPLIED ENGINEERING PROBABILITY AND STATISTICS	3
CHEM 3650	FUNDAMENTALS OF BIOCHEMISTRY	3
CHEM 3654	FUNDAMENTALS OF BIOCHEMISTRY LABORATORY	1

Pre-Mechanical Engineering Description

Mechanical engineers are considered the "general practitioners" of engineering because their education is extremely broad and their services span many interdisciplinary technical, social environmental and economic problems. These engineers deal with a wide realm of motion, all forms of energy conversion and transmission; the flow of fluids and heat; the development, design and operation of machinery and equipment; material structure and properties; and transportation processes. Here, you'll choose among three major areas: thermal-fluid science engineering, systems and design engineering, and materials science engineering. Your career could include research and development, design of equipment and systems, testing, plant and sales engineering, and management.

Grade Requirements

A "C" or better is required in the following courses to be considered for the Mechanical Engineering bachelors degree

- MATH 1950
- MATH 1960
- MATH 1970
- PHYS 1180 & 1184
- MECH 223

Requirements

ACE elective ¹		9
CIVE 310	FLUID MECHANICS	3

Robotics Engineering Minor Description

This interdisciplinary minor prepares students to understand, design, develop, and implement robotic systems. Robotic systems are composed of embedded systems, motor, sensors, actuators, and interfaces requiring an understanding of dynamics, control, sensing, artificial intelligence, human-robot interaction, and embedded computing and programming. Students will prepare for careers in robotic systems and related automated vehicle design, and for related graduate studies. **This minor is available to all majors. Consult with your advisor before declaring this minor.**

The robotics engineering minor is jointly administered by the:

- Electrical and Computer Engineering Department (ECE)
- School of Computing
- Mechanical and Materials Engineering Department (MME)

Note that the College Entrance Requirements shown below apply only to students in the College of Engineering.

College Requirements

College Admission

College Entrance Requirements

Students must have high school credit for (one unit is equal to one high school year):

1. Mathematics – 4 units: 2 of algebra, 1 of geometry, and 1 of precalculus and trigonometry
2. English – 4 units
3. Natural sciences – 3 units that must include 1 unit of physics and 1 unit of chemistry (chemistry requirement waived for students in construction management or computer science)
4. Foreign language – 2 units of a single foreign language
5. Social studies – 3 units
6. Students having a composite ACT score of 28 or greater (or equivalent SAT score) will be admitted to the College of Engineering even if they lack any one of the following: trigonometry, chemistry, or physics. Students without test scores who are missing a full unit of trigonometry/pre-calculus/calculus or chemistry or physics will be evaluated through College Review.

A total of 16 units is required for admission.

Engineering requires that student performance meet one of the following standards: composite ACT of 24, SAT of 1180, ACT Math subscore of 24, SAT Math subscore of 580, or a 3.5 cumulative GPA.

Any domestic first-year student who does not gain admission to Engineering but does gain admission to the University of Nebraska-Lincoln (UNL) will be reviewed through College Review. College Review is conducted through the College Review Committee which considers factors beyond standardized testing. Any first-year student who is not admitted through college review is placed in Pre-Engineering (PENG) with the Exploratory and Pre-Professional Advising Center (Explore Center). Students in the Explore Center can transfer to the College of Engineering once college admission requirements are met.

Students for whom English is not their language of nurture must meet the minimum English proficiency requirements of the University.

Students who lack entrance units may complete precollege training by Independent Study through the University of Nebraska-Lincoln Office of On-line and Distance Education, in summer courses, or as a part of their first or second semester course loads while in the Explore Center or other colleges at UNL.

Students should consult their advisor, their department chair, or Engineering Student Services (ESS) if they have questions on current policies.

Other Admission Requirements

Students who transfer to the University of Nebraska-Lincoln from other accredited colleges or universities and wish to be admitted to the College of Engineering (COE) must meet COE first-year student entrance requirements, have a minimum cumulative GPA of 2.5, and be calculus-ready. Students not meeting either of these requirements must enroll in the Explore Center or another University college until they meet COE admission requirements. Students transferring from UNO, UNL, or UNK to the College of Engineering must be in good academic standing with their institution.

The COE accepts courses for transfer for which a C or better grade was received. Although the University of Nebraska-Lincoln accepts D grades from the University of Nebraska Kearney and the University of Nebraska Omaha, not all majors in the COE accept such low grades. Students must conform to the requirements of their intended major and, in any case, are strongly encouraged to repeat courses with a grade of C- or less.

Students who were previously admitted to COE and are returning to the College of Engineering must demonstrate a cumulative GPA of 2.5 to be readmitted to COE.

College Degree Requirements

Grade Rules

Grade Appeals

In the event of a dispute involving any college policies or grades, the student should appeal to their instructor, and appropriate department chair or school director (in that order). If a satisfactory solution is not achieved, the student may appeal their case through the College Academic Appeals Subcommittee.

Catalog Rule

Students must fulfill the requirements stated in the catalog for the academic year in which they are first admitted at the University of Nebraska–Lincoln. In consultation with advisors, a student may choose to follow a subsequent catalog for any academic year in which they are admitted to and enrolled as a degree-seeking student at Nebraska in the College of Engineering. Students must complete all degree requirements from a single catalog year. The catalog which a student follows for degree requirements may not be more than 10 years old at the time of graduation.

Students who have transferred from a community college may be eligible to fulfill the requirements as stated in the catalog for an academic year in which they were enrolled at the community college prior to attending the University of Nebraska-Lincoln.# This decision should be made in consultation with the student’s College of Engineering academic advising team (e.g., ESS professional advisor and the chief faculty advisor for the student’s declared degree program).# The chief faculty advisor has the final authority for this decision. Eligibility is based on a) enrollment in a community college during the catalog year the student wishes to utilize, b) maintaining continuous enrollment of at least 12 credit hours per semester at the previous institution for at least 2 semesters, and c) continuous enrollment at the University of Nebraska-Lincoln within 1 calendar year from the student’s last term at the previous institution. # Students must complete all degree requirements from a single catalog year and within the timeframe allowable for that catalog year.

Grade Rules

Pass/No Pass

No course taken Pass/No Pass will be counted toward the minor.

Requirements

The robotics engineering minor consists of three core courses and three elective courses. When selecting electives, the student must take two courses outside of their major area of study. For example, a student in mechanical engineering might take an elective from the School of Computing and one from the Department of Electrical Engineering.

Code	Title	Credits
Core Requirements		
Select one course from each of the three following topic areas:		9
Topic Area: Core Programming		
CSCE 155	COMPUTER SCIENCE I (version A or E)	
CSCE 156	COMPUTER SCIENCE II	
CIST 1400	INTRODUCTION TO COMPUTER SCIENCE I (UNO course) ¹	
Topic Area: Controls		
MECH 350	INTRODUCTION TO DYNAMIC AND CONTROL OF ENGINEERING SYSTEMS	
ECEN 444	LINEAR CONTROL SYSTEMS	

ECEN 491	SPECIAL TOPICS IN ELECTRIC AND COMPUTER ENGINEERING IV
Topic Area: Embedded Systems	
ECEN 106	MICROPROCESSOR APPLICATIONS
ECEN 220	INTRODUCTION TO EMBEDDED SYSTEMS
CSCE 336	EMBEDDED SYSTEMS
MECH 457	MECHATRONIC SYSTEMS
Elective Requirements	
Select three of the following; two must be outside your department:	
ECEN 400	ELECTRONIC INSTRUMENTATION
ECEN 428	POWER ELECTRONICS
ECEN 444	LINEAR CONTROL SYSTEMS
ECEN 460	LABVIEW PROGRAMMING
ECEN 462	COMMUNICATION SYSTEMS
ECEN 498	SPECIAL TOPICS IN ELECTRICAL ENGINEERING IV
CSCE 436	ADVANCED EMBEDDED SYSTEMS
CSCE 439	ROBOTICS ALGORITHMS APPLICATIONS
CSCE 473	COMPUTER VISION
CSCE 476	INTRODUCTION TO ARTIFICIAL INTELLIGENCE ¹
CSCE 4XX	(SPECIAL TOPICS COURSES ON ROBOTICS)
ECEN 345	MOBILE ROBOTICS I
ECEN 433	MICROPROCESSOR SYSTEM DESIGN
ECEN 435	EMBEDDED MICROCONTROLLER DESIGN
MECH 342	KINEMATICS AND DYNAMICS OF MACHINERY
MECH 450	MECHANICAL ENGINEERING CONTROL SYSTEMS DESIGN
MECH 442	INTERMEDIATE KINEMATICS
MECH 444	INTERMEDIATE DYNAMICS OF MACHINERY
MECH 449	ADVANCED DYNAMICS
MECH 453	ROBOTICS: KINEMATICS & DESIGN
MECH 458	DIGITAL CONTROL OF MECHANICAL SYSTEMS
MECH 488	KINEMATICS AND MACHINE DESIGN LABORATORY
Total Credits	
18	

¹ On the Scott Campus in Omaha, similar courses being offered by CIST could be substituted.

Construction

Construction Degrees

The Charles W. Durham School of Architectural Engineering and Construction offers students an education that opens up a full range of professional opportunities in the construction industry. The two bachelor’s degree options, Construction Engineering and Construction Management, are found under the Majors tab.

There is also Construction Management Minor, found under the Minors tab, which is available to engineering, architecture and business majors.

Degrees Offered

- Construction Engineering, Bachelor of Science (p. 810)
- Construction Management, Bachelor of Science (p. 812)
- Construction Management Minor (p. 813)

CNST 112 CONSTRUCTION COMMUNICATIONS (3 credits)

Development of communication skills including understanding of contract documents, working drawings, technical terminology, graphic symbols, and abbreviations. Fundamentals of drafting principles, sketching, and dimensioning techniques.

CNST 131 INTRODUCTION TO THE CONSTRUCTION INDUSTRY (1 credit)

Introduction to basic management principles and practices for labor, materials, machinery, and budgets.

CNST 225 INTRODUCTION TO BUILDING INFORMATION MODELING (3 credits)

Introduction to Building Information Modeling (BIM) concepts and techniques. Explore the use of the Revit Architecture platform to create detailed 3D models of construction projects and other BIM-related topics such as clash detection and point-cloud models.

Prerequisite(s): CNST 112

CNST 241 HORIZONTAL CONSTRUCTION (3 credits)

Introduction to earthmoving equipment and methods, labor, productivity, and economic aspects of excavation, material transportation, and fill work. Introduction to the financial principles of equipment ownership and operation.

Prerequisite(s): MATH 1950

CNST 242 VERTICAL CONSTRUCTION (3 credits)

Focus on vertical structures, from grade to topping out, with an emphasis on materials and material handling equipment. Includes the assembly process for a variety of applications including cast-in-place concrete, steel erection, wood framing, precast concrete, masonry structural elements, and material finishing.

Prerequisite(s): MATH 1950

CNST 251 CONSTRUCTION MATERIALS AND SPECIFICATIONS (3 credits)

Introduction to construction materials and proper methods of specifying to achieve design and construction goals, safety and inspection, and to meet zoning code and environmental requirements. Physical, mechanical and aesthetic properties of soils, concrete, masonry, metals, plastics and other materials will be studied as they relate to in-service conditions, acceptability, and performance.

Prerequisite(s): MATH 1950

CNST 252 CONSTRUCTION MATERIALS AND TESTING (3 credits)

Introduction to basic materials used in construction. Laboratory testing and evaluation of material properties of soil, aggregate, and concrete.

Prerequisite(s): MATH 1950; parallel registration in CNST 241 is recommended. Laboratory testing procedures emphasizing testing of aggregates, soil, and concrete.

CNST 305 BUILDING ENVIRONMENTAL TECHNICAL SYSTEMS I (3 credits)

Characteristics and performance of buildings with respect to thermal and psychometric environment in buildings related to human comfort, heat gain/heat loss, ventilation, natural energy systems and sustainable design principles, and plumbing and life safety systems in the built environment.

Prerequisite(s): PHYS 1050

CNST 306 ELECTRICAL SYSTEMS (3 credits)

Fundamentals of electric power generation and distribution, service, and circuits in buildings with an emphasis on electrical equipment and systems, lighting principles and applications, and fire protection systems. Review of National Electric Code.

Prerequisite(s): MATH 1950, PHYS 1050.

CNST 331 STRUCTURAL MECHANICS (3 credits)

Introduction to various external force systems, and their resulting internal forces and deformations, which act on structural elements.

Prerequisite(s): Not open to non-degree graduate students.

CNST 332 STRUCTURAL OPTIMIZATION (3 credits)

Optimization of key properties of elements and systems of building structures: force, geometric, and material.

Prerequisite(s): CNST 331. Not open to non-degree graduate students.

CNST 378 CONSTRUCTION ESTIMATING I (3 credits)

Preparation of detailed cost estimates based on contract documents. Identify and analyze cost components of building and site scopes of work to perform detailed quantity take-offs. Apply labor, material, and equipment pricing from RS Means. Use production rates and quantity takeoffs to prepare a preliminary construction schedule. Complete quantity takeoffs from 2D plans and from 3D BIM software models. (Cross-listed with CONE 378).

Prerequisite(s): CNST 112.

CNST 379 CONSTRUCTION ESTIMATING II (3 credits)

Continuation of CNST 3780 with emphasis on the determination of total project cost and preparation of complete bid proposals for self-performed and subcontracted commercial projects. Evaluation and analysis of subcontractor bids to determine overall project costs by completing a hard bid simulation scenario. Exploration of contract delivery methods and their effect on overall project cost.

Prerequisite(s): CNST 378

CNST 405 MECHANICAL ESTIMATING (3 credits)

Application of estimating principles, quantity take-off, bidding strategies, and computerization to the specialty field of mechanical construction.

Prerequisite(s): CNST 305 and CNST 306 and CNST 379

CNST 406 ELECTRICAL ESTIMATING (3 credits)

Application of estimating principles, quantity take-off, bidding strategies, and computerization to the specialty field of electrical construction.

Prerequisite(s): CNST 305, CNST 306 and CNST 379.

CNST 411 PROJECT ADMINISTRATION (3 credits)

Ownership and administration of companies focusing on documentation and specifications, contracts, take-offs, estimating, bidding, bonds, insurance, project management and administration, scheduling, time and cost management, labor law and labor relations, and project safety. (Cross-listed with CNST 811).

Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 415 MECHANICAL/ELECTRICAL PROJECT MANAGEMENT (3 credits)

Fundamentals of project management within the mechanical and electrical contracting industry. Codes, contract documents, productivity, coordination, project control and administration, scheduling, safety, and project closeout, from a specialty contracting perspective. (Cross-listed with CNST 815).

Prerequisite(s): CNST 305, CNST 306 and CNST 379. CNST 405 and CNST 406 are recommended.

CNST 420 PROFESSIONAL PRACTICE AND ETHICS (3 credits)

Examination of professional practice considering the perspectives of designers and the contractors and their respective relationships to society, specific client types, and other collaborators in the design and construction fields. Focus on ethics, professional communication and responsibility, professional organization, office management, environmental stewardship, professional registration, and owner-designer-contractor relationships. (Cross-listed with CNST 820).

Prerequisite(s): CNST 378. Not open to non-degree graduate students.

CNST 425 ALTERNATIVE PROJECT DELIVERY METHODS (3 credits)

Historical and current project delivery methods (PDM) are explored. Procurement strategies, contractual arrangements, and compensation methods are also discussed in conjunction with risks, costs, and legal and ethical issues that need to be considered when determining which system is best for a particular project. (Cross-listed with CNST 825)

Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 434 THE DESIGN-BUILD PROJECT DELIVERY SYSTEM (3 credits)

The organizational, managerial, ethical and legal principles involved in design-build as a project delivery system. Advantages and disadvantages, growth, merits, and criticism of the design-build system. (Cross-listed with CNST 834)

Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 436 INTENT AND APPLICATION OF INTERNATIONAL BUILDING CODE (3 credits)

Fundamentals of how to research, interpret, and apply building code requirements to the design and construction of both new and renovated structures. (Cross-listed with CNST 836)

Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 440 BUILDING INFORMATION MODELING (BIM) II (3 credits)

Advance topics in building information modeling, including structural and MEP modeling, 4/5 dimensional construction animations and visualization. Good knowledge of Revit Architectural Modeling and knowledge of construction estimating and scheduling is required before registering in this class. (Cross-listed with CNST 840)

Prerequisite(s): CNST 225 and CNST 378.

CNST 442 HEALTHCARE DESIGN AND CONSTRUCTION (3 credits)

Introduction to the design and construction of healthcare facilities. Healthcare regulations and standards, infection control, interim life safety measures, code requirements, medical equipment selection and coordination, healthcare design and construction techniques, and best practices will be addressed. Provides guidance in preparation for the Certified Healthcare Constructor credential offered by the American Healthcare Association. (Cross-listed with AREN 8426, AREN 4420, CNST 842).

Prerequisite(s): Senior or graduate standing

CNST 444 CONSTRUCTION SITE SAFETY MANAGEMENT (3 credits)

Introduction to safety management for project engineers, project managers, safety teams, and company safety officers. Addresses basic accident and injury models, human accident costs, safety behavior, ethical issues in safety, workers' compensation and EMR, job safety analysis (JSA), project site safety audits, safety promotion and training, emergency planning and response, safety management programs and training, and OSHA record-keeping and reporting. (Cross-listed with CNST 844).

Prerequisite(s): CNST 241 or CONE 319. Not open to non-degree graduate students.

CNST 476 PROJECT BUDGETS AND CONTROLS (3 credits)

The basic systems related to revenues and expenses associated with record keeping of construction contracts. Managerial accounting related to planning and control of construction projects. (Cross-listed with CONE 476).

Prerequisite(s): CNST 378 and CONE 206.

CNST 480 PRODUCTIVITY AND HUMAN FACTORS IN CONSTRUCTION (3 credits)

Motivation and productivity improvement methods for management in typical job environments. Methods to improve working environments in the field and office. Procedures and mechanisms to implement human behavior and ergonomics concepts for enhanced productivity and safety. (Cross-listed with CNST 880).

Prerequisite(s): CNST 379 and senior standing. Not open to non-degree graduate students.

CNST 482 HEAVY AND/OR CIVIL CONSTRUCTION (3 credits)

History, theory, methods, and management principles of planning and executing heavy and/or civil projects. Emerging and new equipment capabilities. Economical use of equipment and management of costs associated with production. (Cross-listed with CNST 882, CONE 482, CONE 882).

Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 485 CONSTRUCTION PLANNING, SCHEDULING, AND CONTROLS (3 credits)

Planning and scheduling a project using the critical path methods (CPM) with computer applications. Project pre-planning, logic networks, precedence diagrams, time estimates, critical path, float time, crash programs, scheduling, short interval schedules, pull planning, and monitoring project activities. (Cross-listed with CNST 885, CONE 485, CONE 885)

Prerequisite(s): CNST 378. Not open to non-degree graduate students.

CNST 486 CONSTRUCTION MANAGEMENT SYSTEMS (3 credits)

Application of selected topics in systems analysis (operations research). Simulation, mathematical optimization, queuing theory, Markov decision processes, econometric modeling, neural networks, data envelopment analysis, decision analysis, and analytic hierarchy processes as used in the industry. (Cross-listed with CNST 886).

Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CNST 488 RESIDENTIAL CONSTRUCTION AND REAL ESTATE DEVELOPMENT (3 credits)

Application of various strategies to real estate development including community and residential design, planning, site selection, land development, marketing and customer service. Methods used by construction companies to analyze, bid, and market their developments to customers through the preconstruction and bidding process. (Cross-listed with CNST 888).

Prerequisite(s): CNST 379.

CNST 489 SENIOR CONSTRUCTION PROJECT (3 credits)

Execution of a project from conceptual design and location through estimating, bidding, site layout, planning and scheduling, cost control, records management, and project completion and documentation. Capstone course.

Prerequisite(s): CNST 379; CNST 420; CNST 476 ; CNST 485. Pre/Coreq: CNST 480.

CNST 495 INTERNSHIP (3 credits)

Participation in a full-time summer internship associated with a construction-related entity. Includes weekly assignments and a final presentation designed to foster interactions between the intern and the business side of the entity. General topics include personnel and time management, structuring business plans, scheduling work, finance and budgets, marketing plans, contracts, risk analysis, and communication and leadership. (Cross-listed with CONE 495).

Prerequisite(s): Permission of instructor, Letter of application, Letter of agreement from industry mentor. Not open to non-degree graduate students.

CNST 498 SPECIAL TOPICS IN CONSTRUCTION MANAGEMENT (1-6 credits)

Individual or small group study of special topics in construction management. Topic varies. A signed student-instructor learning contract is required. (Cross-listed with CNST 898, CONE 498).

CONE 103 INTRODUCTION TO CONSTRUCTION ENGINEERING (1 credit)

Introduction to the organization and terminology of construction engineering. Overview of technical and management skills required to succeed in the construction engineering profession.

CONE 206 ENGINEERING ECONOMICS (3 credits)

Introduction to methods of economics comparisons of engineering alternatives: time value of money, depreciation, taxes, concepts of accounting, activity-based costing, ethical principles, civics and stewardship, and the importance to society.

Prerequisite(s): Sophomore Standing.

CONE 211 CONSTRUCTION BUSINESS METHODS (3 credits)

Business concepts and practices used by construction contractors. The construction industry, management principles, forms of business ownership, company organization, construction contracts, estimating and bidding, business ethics, bonds and insurance, financial statements, cost accounting, equipment management, planning and scheduling, labor relations and personnel management.

Prerequisite(s): CONE 103 or CNST 131 or AREN 1010

CONE 221 GEOMETRIC CONTROL SYSTEMS (3 credits)

Introduction to the theory and application of mensuration and geometric information processing in civil engineering. Measurement of distance, direction, elevation and location using mechanical, electronic and satellite systems. Collection of field data and error propagation. Elementary geometric data bases for design, construction, operation and control of civil works.

Prerequisite(s): MATH 1950

CONE 319 CONSTRUCTION METHODS AND EQUIPMENT (3 credits)

Characteristics, capabilities and selection of equipment and methods used in the building construction industry. Estimating job production, equipment production rates, machine operating costs, earth-moving equipment, hoisting equipment, operations analysis, and use of various other construction methods and equipment.

Prerequisite(s): CONE 206

CONE 378 CONSTRUCTION ESTIMATING I (3 credits)

Preparation of detailed cost estimates based on contract documents. Identify and analyze cost components of building and site scopes of work to perform detailed quantity take-offs. Apply labor, material, and equipment pricing from RS Means. Use production rates and quantity takeoffs to prepare a preliminary construction schedule. Complete quantity takeoffs from 2D plans and from 3D BIM software models. (Cross-listed with CNST 378).

Prerequisite(s): CNST 112.

CONE 414 ACCIDENT PREVENTION IN CONSTRUCTION (3 credits)

Safety practices in the construction industry and the national safety and health standards of the Occupational Safety and Health Administration (OSHA). The theory of accidents; personal attitudes; statistics and environment; accident occurrence; prevention and inspection in connection with the construction of buildings, highways, and associated heavy facilities. Nationally accepted safety codes and their relationship to accepted practices in the industry.

Prerequisite(s): Senior standing and CONE 211 and CONE 319

CONE 416 WOOD/CONTEMPORARY MATERIALS DESIGN (3 credits)

Design of structural timber, beams, columns, and connections. Introduction to applicable design philosophies and codes. Overview of materials design. Masonry, aluminum, and contemporary materials such as plastics and fiber reinforced systems and composite material groups. Design considerations, cost and constructability analysis. (Cross-listed with CONE 816)

Prerequisite(s): CIVE 341

CONE 417 FORMWORK SYSTEMS (3 credits)

Design of structural timber, beams, columns, and connections. Introduction to applicable design philosophies and codes. Overview of materials design, masonry, aluminum, and contemporary materials such as plastics and fiber reinforced systems and composite material groups. Design considerations, cost and constructability analysis. (Cross-listed with CONE 817)

Prerequisite(s): CONE 416; Pre/Co-req.: CIVE 441

CONE 450 SUSTAINABLE CONSTRUCTION (3 credits)

Sustainable construction and its application to the green building industry. Topics include: the LEED certification process, sustainable building site management, efficient wastewater applications, optimizing energy performance, indoor environmental issues, performance measurement/verification, recycled content and certified renewable materials. (Cross-listed with CONE 850)

Prerequisite(s): Senior standing

CONE 459 INTRODUCTION TO BUILDING INFORMATION MODELING (3 credits)

This course instructs CAD users on the effective use of Building Information Model (BIM) for integration of design, document and construction estimate. Topics include: model-based 3D design, file formats, interoperability, and MEP modeling. (Cross-listed with CONE 859)

Prerequisite(s): CNST 112, or Graduate standing in AREN, CIVE, CNST or CONE.

CONE 466 HEAVY AND/OR CIVIL ESTIMATING (3 credits)

Estimating techniques and strategies for heavy and/or civil construction. Unit pricing, heavy and civil construction takeoffs and estimating, equipment analysis, overhead cost and allocations, estimating software and government contracts. (Cross-listed with CONE 866).

Prerequisite(s): CONE 319 and CONE 378 and CONE 485

CONE 476 PROJECT BUDGETS AND CONTROLS (3 credits)

The basic systems related to revenues and expenses associated with record keeping of construction contracts. Managerial accounting related to planning and control of construction projects. (Cross-listed with CNST 476).

Prerequisite(s): CNST 378 and CONE 206.

CONE 481 HIGHWAY & BRIDGE CONSTRUCTION (3 credits)

The methods and equipment required in the construction of roads and bridges. Methods and equipment necessary for roads and bridges. Substructure and superstructures, precast and cast-in-place segments, and standard and specialized equipment. (Cross-listed with CONE 881)

Prerequisite(s): CONE 319 or CNST 241

CONE 482 HEAVY AND/OR CIVIL CONSTRUCTION (3 credits)

History, theory, methods, and management principles of planning and executing heavy and/or civil projects. Emerging and new equipment capabilities. Economical use of equipment and management of costs associated with production. (Cross-listed with CNST 482, CNST 882, CONE 882).

Prerequisite(s): CNST 379. Not open to non-degree graduate students.

CONE 483 SUPPORT OF EXCAVATION (3 credits)

The design and placement of excavation supports according to OSHA requirements and industry standards. A variety of routine to moderately complex support systems. Open excavations, sheet piling and cofferdams. Soil mechanics, lateral loads, hydrology, and pumping methods. (Cross-listed with CONE 883)

Prerequisite(s): CET 2180 and CET 3290

CONE 485 CONSTRUCTION PLANNING, SCHEDULING, AND CONTROLS (3 credits)

Planning and scheduling a project using the critical path methods (CPM) with computer applications. Project pre-planning, logic networks, precedence diagrams, time estimates, critical path, float time, crash programs, scheduling, short interval schedules, pull planning, and monitoring project activities. (Cross-listed with CNST 485, CNST 885, CONE 885)

Prerequisite(s): CNST 378. Not open to non-degree graduate students.

CONE 489 CONSTRUCTION ENGINEERING CAPSTONE (3 credits)

CONE 4890 embodies the cumulative CONE experience in a project format and uses teams to simulate actual construction enterprises operating in cooperative and competitive situations which replicate the construction industry. An integrated, comprehensive project; to be taken in the term prior to graduation.

Prerequisite(s): Senior standing

CONE 495 INTERNSHIP (3 credits)

Participation in a full-time summer internship associated with a construction-related entity. Includes weekly assignments and a final presentation designed to foster interactions between the intern and the business side of the entity. General topics include personnel and time management, structuring business plans, scheduling work, finance and budgets, marketing plans, contracts, risk analysis, and communication and leadership. (Cross-listed with CNST 495).

Prerequisite(s): Permission of instructor, Letter of application, Letter of agreement from industry mentor. Not open to non-degree graduate students.

CONE 498 SPECIAL TOPICS IN CONSTRUCTION MANAGEMENT (1-6 credits)

Individual or small group study of special topics in construction management. Topic varies. A signed student-instructor learning contract is required. (Cross-listed with CNST 498, CNST 898)

Construction Engineering, Bachelor of Science

Description

Construction engineering (CONE) is a program of the Charles W. Durham School of Architectural Engineering and Construction. The construction engineering major integrates engineering, construction and management courses. This program is designed for persons fulfilling the construction industry's need for licensed professional engineers. It resembles the construction management program but provides a greater emphasis on engineering, scientific, and technical courses to meet requirements for licensure as a professional engineer. The courses focus on the application of engineering principles to solve real-world construction problems. They include instruction in civil engineering, structural principles, material testing and evaluation, project management, computer-assisted design, 3D animation, sustainability, and graphic communication.

The Durham School Construction Engineering program is accredited by the Engineering Accreditation Commission (EAC) of ABET, Inc.

Program Educational Objectives (PEOs)

1. Professional Achievement: The Construction Engineering program prepares graduates to become Licensed Professional Engineers and Certified Professional Constructors.
2. Career Achievement: The Construction Engineering program prepares graduates to contribute to society by working in an occupation related to the architecture-engineering-construction industry.

Under the stimulus of increasing demand for global services, many Nebraska companies have expanded their reach well beyond U.S. borders. This demand gives the construction engineering graduate an unprecedented number of opportunities for employment—locally, nationally and internationally—and for pursuing an advanced degree at the University of Nebraska—Lincoln or elsewhere.

Construction engineers participate in the preparation of engineering and architectural documents, including specifications, which they translate into finished projects such as buildings for housing, commerce and industry, highways, railroads, waterways, airports, power plants, energy distribution systems, military bases and space center complexes. These projects involve thousands of details shared by a team of owners, architects, engineers, general constructors, specialty constructors, manufacturers, material suppliers, equipment distributors, regulatory bodies and agencies, labor resources and others. The constructor assumes responsibility for delivery of the completed project at a specified time and cost and also accepts associated legal, financial and management obligations. Because of the broad scope of the construction engineer's project responsibility, they must

assure the project's constructability as well as its capability to be operated and maintained.

Construction engineering students are required to enroll in a set of courses specifically designed for a general construction education. Each student selects, with the guidance of an advisor, a set of approved electives. The program outlined below leads to the bachelor of science degree in construction engineering.

Professional Admission Requirements

In order to be professionally admitted into the construction engineering program, students must complete at least 43 credit hours of courses listed in the first two years of the required curriculum with a minimum GPA of 2.5 for those major courses (not necessarily the cumulative GPA).

Learning Outcomes

Graduates of the construction engineering program will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.
