BIOLOGY, BACHELOR OF ARTS

To obtain a BA with a major in Biology, a student must fulfill university, college, and departmental requirements. Minimum hour requirements follow:

- 46 hours of University General Education courses—Most commonly, Biology majors do not complete 46 hours of coursework solely for the purpose of meeting university General Education requirements. Instead, they often do the following:
  - Test out of at least three hours of fundamental academic skills,
  - Take six hours of coursework that meets both the six hours of diversity requirements and six hours of distribution requirements,
  - Apply up to five hours of foreign language coursework toward meeting the nine-hour General Education humanities requirement,
  - Meet the seven-hour University General Education natural sciences distribution requirement through completing major courses.

In such cases, the number of credit hours taken solely to meet General Education requirements is reduced to 25 or fewer.

- 16 hours foreign language requirement (Four years of a single language in high school or four college semesters will satisfy this requirement.)
- 12 hours college breadth requirement
- 61 hours of major courses
- Elective hours as required to reach a total of 120 hours

TOTAL HOURS: 120

The remaining 18 elective credits in biology should be chosen in consultation with a Biology advisor and must include at least 14 credits from BIOL 3000-4000 level courses, including at least one lab course (in addition to BIOL 3340). Up to three credits of BIOL 4030, up to three credits of either BIOL 4050 or BIOL 4800 and one credit of BIOL 4040 can be included. BIOL 3150 may not be used to satisfy the requirement for 3000-4000 level biology credits. Courses at the 1000-2000 level are restricted to:

- BIOL 2440 THE BIOLOGY OF MICROORGANISMS
- BIOL 2740 HUMAN PHYSIOLOGY AND ANATOMY I
- BIOL 2840 HUMAN PHYSIOLOGY AND ANATOMY II
